LOWDEN DECLARES PRICE FIXING IS ONLY SOLUTION

Former Gov. Tells Farm Bureau Federation It is Up To The Government to Stabilize Prices.

Chicago, Dec. 8.—(INS)—Frank O. Lowden, boomed as the farm candidate for President in 1928, today came out flatly for price fixing as a solution of the farm problem, on the heels of the President, warning against such a policy in his annual message to Congress.

Speaking before the convention of the American Farm Bureau Federation, the onetime Republican Governor of Illinois scoffed at the "Fundamentalists" law of supply and demand, citing the British rubber monopoly as an example of how stabilized prices can aid an industry.

"Our rural civilization," said Lowden, "is in a perilous state, our nation cannot long survive the decay of its agriculture."

"It is evident that in the interest of the consumer as well as of the producer, we should find some means of stabilizing prices of farm products."

Lowden outlined his program for the relief of agriculture thru price stabilization, by telling how cotton co-operatives, with the assistance of the growers, could take the surplus of the market and then fix a price at which to sell.

"Last summer, when it was apparent that the crop would be somewhat larger than needed for the year's consumption," he said, "they would have invited representatives of the spinners into a conference."

They would have discussed the question of price with them: They probably would have agreed on a price somewhere between 18 and 20 cents. Having determined upon a fair price, the co-operatives could easily maintain that price for they would take the surplus off the market, knowing the cost of carrying this surplus would be equally distributed between all producers."

The city dweller, Lowden, said, was interested in having the farmer receive such a price for his product as would enable him to go on producing.

"It is clear that the agricultural plant of America has been running down at a dangerous pace. Of course this affects and affects deeply, the farmer. However, it involves, the very life of the nation as well," he said.

The long threatened alliance between farmers of the South and West to force Congress to pass remedial legislation loomed as a possible development at the closing session today.

The controversial equalization fee, which split America's agriculture at the last session in debate on the McNary-Hansen bill was reported approved by Southern members of the resolutions committee, which was preparing to throw its work into the convention for approval.

Political observers saw in Lowden's speech a virtual announcement of his candidacy for President.

MURDERS WIFE, COMMITTS SUICIDE

Manteo, Roanoke Island, N. C. Dec. 8.—(INS)—Officers here today were without a motive for the slaying of Mrs. J. J. Patterson, by her husband, Al. A few minutes later Patterson turned the smoking shotgun on himself and ended his own life. The murder and suicide occurred at Colington Island near here.

VOICES PROTEST AGAINST SECRET SERVICE GUARD FOR PRESIDENT'S SON

Washington, Dec. 8.—(INS)—A protest against the expenditure of government funds to maintain a secret service man with John Coolidge, son of the President, a student at Amherst, was made by Rep. Byrns, Democrat of Tennessee, during hearings on the Treasury and Postoffice appropriations bills, which was laid before the House today.

Col. Ed Starling, assigned to guard young Coolidge, draws \$3,700 annually and \$6 per day allowances.

"I don't see the wisdom of detaining a man paid out of the funds of the Treasury to act as a companion to the son of the President," said Byrns. "I think that is going too far." Byrns has frequently attacked alleged "White House extravagance."

ESTIMATE COTTON CROP CLOSE TO 19 MILLION BALES

Census Bureau Today Forecasts Crop For Year Will Be 18,618,000 Bales.

Washington, Dec. 8.—(INS)—Cotton growers in the United States this year raised the greatest crop in the history of the country, amounting to 18,618,000 bales.

This final estimate, made today by the crop reporting board of the Department of Agriculture, is based on reports up to Dec. 1.

At the same time the Census Bureau issued a report showing that 14,044,996 running bales counting round as half bales, had been ginned from the 1926 crop prior to Dec. 1, compared with 13,870,507 bales for 1925.

The abandonment of cotton acreage this year was estimated at 2.3 per cent, while the average for harvest was 47,653,000 acres. The indicated yield of lint cotton per acre is 187 pounds, as compared with 167.2 in 1925.

Details by states:

Alabama 3,500,000; North Carolina 1,250,000; South Carolina 1,030,000; Georgia 1,475,000; Florida 33,000; Missouri 255,000; Tennessee 475,000; Alabama 1,900,000; Mississippi 1,930,000; Louisiana 820,000; Texas 5,900,000; Oklahoma 1,950,000; Arkansas 1,620,000; New Mexico 72,000; Arizona 115,000; California 128,000; all other states 20,000.

Preliminary Hearing Fall and Sinclair On December 17.

Washington, Dec. 8.—(INS)—Former Secretary of the Interior Albert B. Fall and Harry Sinclair, millionaire oil operator, will be arraigned for conspiracy to defraud the government in connection with the leasing of the Teapot Dome oil reserve, on December 17, it was decided today following a conference between special government oil counsel and Justice Bailey for the District of Columbia Supreme Court.

RESOLUTION TO QUIT WORLD COURT TO CAUSE TROUBLE

Florida Senator Says He Will Demand a Vote on Measure During Present Session.

Washington, Dec. 8.—(INS)—The Trammell resolution, proposing to take America out of the World Court before she actually becomes a member, today promised to become a thorn in the side of the administration.

While Republican leaders hope to bury the resolution in some committee pigeon-hole, members of the irreconcilable bloc were plotting means of keeping it constantly before the Senate during the present session, the resolution probably will be referred to the Senate Foreign Relations committee of which Senator Borah, Republican of Idaho, staunch irreconcilable, is chairman.

"I won't ask for immediate action," said Senator Trammell, of Florida, its author, "but I shall demand a vote on it at the present session." Trammell, who voted for adherence to the Court, changed his mind during the recess of Congress. A half dozen other Senators underwent a similar change of sentiment.

TODAY

Rep. Garner, of Texas, Introduces Bill Carrying Tax Reductions of \$335,000,000

Washington, Dec. 8.—(INS)—The Democratic offensive in the Congressional battle over disposition of the Treasury's huge surplus was launched today with the introduction of a \$335,000,000 tax reduction bill by Rep. Garner of Texas, ranking Democrat on the ways and means committee.

Predicting a surplus of \$500,000,000 in the present year Garner proposed to cut the corporation income tax from 13 1/2 to 11 per cent and repeal automobile and insurance taxes.

With Democratic leaders pledging their solid support for the bill Garner issued a statement directed to Republican members in which he pointed out that both President Coolidge and Secretary Mellon are on record as favoring tax reduction rather than a further decrease in the public debt.

While the Democrats were launching their program, Republican leaders continued to maintain silence on the administration proposal for a refund of this year's taxes.

The permanent tax cuts provided in the Garner bill were divided as follows: Corporation tax \$290,000,000; automobile tax, \$75,000,000; admissions and club dues, \$25,000,000; stamp tax on sale of produce or exchange, \$500,000.

The two and one-half per cent reduction in the corporation tax would benefit the entire people and reduce the cost of living \$800,000,000 annually, Garner declared.

The great bulk of the corporation taxes are passed on to the consumer and they would be the real beneficiaries of the reduction proposed. The smaller corporations also would be aided since they are now greatly handicapped in competition with partnerships which pay smaller taxes.

We have been constantly increasing corporation taxes in order to reduce or repeal other taxes. It is only fair now to reduce these taxes when the condition of the Treasury clearly warrants such action.

Automobile owners were characterized by Garner as the most overtaxed class in the country. Repeal of admissions, club dues and stamp taxes, on the sale of wheat, cotton and corn and other products would benefit the great masses of the people, he asserted.

In arguing for tax reduction four years ago Mr. Coolidge and Mr. Mellon told us that the bonds were thoroughly cared for in the sinking fund, said Garner.

They quoted Alexander Hamilton as well as present day economists as their authority for reducing taxes instead of the public debt if there was a necessity then there is a greater necessity now.

Harmony Breakfast White House Today Included Democrats

Washington, Dec. 8.—(INS)—President Coolidge broadened his "harmony breakfasts" at the White House this morning to include Democrats, Republican insurgents, and "lame ducks" of the 68th Congress.

Heretofore the breakfast guests have been confined to Republicans of good standing at the White House, but today Senator Lynn J. Frazier, Republican of North Dakota, who was read out of the party a year ago for supporting LaFollette, ate hot cakes and sausage at the mansion for the first time in his political career.

In addition to Frazier, the guests included Senators Reison of Arkansas, Mayfield of Texas, Swanson of Virginia and Bayard of Delaware, all Democrats; Howell of Nebraska, Keyes of New Hampshire, Means of Colorado, Willis of Ohio, Weller of Maryland, Means, Weller and Pepper are "lame ducks."

The gathering was described as more "social" than political.

DEMOCRATIC TAX REDUCTION BILL PRESENTED TODAY

EX-SECRETARY OF NAVY ON STAND IN FALL-DOHENY TRIAL

Says He Requested Transfer Naval Oil Reserves To Administrator Interior Department

Washington, Dec. 8.—(INS)—Edwin Denby, former Secretary of Navy who resigned from office because of the Oil Scandals, testified as a defense witness at the Fall-Doheny trial today that he had personally asked President Harding to issue the executive order transferring administration of naval oil reserves from the Navy to the interior department.

Denby said he had been told that the reserves were suffering great loss through drainage from adjoining fields.

I was much worried about the situation said Denby.

Examination of Denby was conducted by Frank J. Hogan, Counsel for Edwin P. Doheny, oil magnate.

Who did you take the matter up with? Asked Hogan, Secretary Fall.

That he had all the work he wanted in his department, but if necessary he would lend a hand.

Then to whom did you go? To President Harding, accompanied by Secretary Fall.

What did you ask him to do? I asked the President to issue an executive order placing the administration of the Naval Reserves under the Interior Department.

Who testified this order? Secretary Fall, at my request.

After issuance of this order did you have under consideration the exchange of crude oil for fuel oil and its storage at Pearl Harbor? Yes.

Did you get an opinion on the legality of this proposition? Yes, from Admiral J. L. Latham, Judge Advocate of the Navy, Denby approved this ruling and wrote Do it across the decision.

If they ever settle this prohibition business it is going to throw a terrible heavy conversational burden on the weather.

House Committee Says Dry Army Is Large Enough

Washington, Dec. 8.—(INS)—America's dry army is adequately manned and no additional personnel is needed, the House Appropriations Committee reported today in presenting the \$892,806,668 Treasury and Postoffice department, supply bill of which \$27,341,905 goes for prohibition enforcement.

Statements made to the committee are to the effect that the present prohibition forces are approximately as large as they should be and that in another year the country should have continued improvement with a smaller and less expensive organization," said the report.

The Treasury bill, however, carried an increase of \$790,000 for anti-smuggling activities of the Coast Guard.

The Treasury was allotted \$137,371,093 a decreased of \$12,483,950. The prohibition unit was granted \$11,990,965, approximately the same as this year, and \$15,249,940 for the Coast Guard.

Nobody can accuse this country of not training workmen as long as Chicago and Herrin keep on that present way.

DECLARES WETS HAVEN'T A CHANCE

Washington, Dec. 8.—(INS)—The classic simile of the session of Congress to date was credited today to Senator Morris Sheppard, Democrat of Texas, the prohibition champion in the Senate.

Reply to a speech of Senator Bruce, Democrat of Maryland, in which Bruce excoriated prohibition for one hour and thirty-five minutes by the Senate clock Sheppard said:

"The wets have about as much chance of repealing the prohibition law as a hummingbird has of flying to Marz, with the Washington Monument tied to its tail."

BUDGET MESSAGE WAS DELIVERED TO CONGRESS TODAY

In Submitting Annual Budget President Again Urged No Change in Policies.

Washington, Dec. 8.—(INS)—President Coolidge, in transmitting the budget to Congress today, urged Congress not to meddle at this session with permanent tax revision.

A though America is enjoying phenomenal prosperity in almost all industries, a condition which has been attributed in large measure to the three substantial tax cuts in the past five years, the President said there was no certainty that the Treasury condition in the immediate future would warrant a diminution of revenues which comes from the taxpayers' pockets.

The estimated surplus this year of nearly \$100,000,000 does warrant temporary tax relief and the President proposed that this could be accomplished by allowing a reduction, or a credit, on the next March and June quarterly payments. Such a plan, he said, would be fair because it would leave the money in the hands of the taxpayers. He placed squarely before Congress the question of determining the amount of temporary relief.

The budget bore evidence of slashing by the pruning knife all along the line. The total estimated expenditures for the 1927 fiscal year, including reduction of the public debt but excluding expenditures of the postal service, were \$3,572,049,214, a decrease of \$71,652,379 from the 1927 estimate and \$12,938,659.50 below what actually was spent in 1926.

Estimate decreets for 1928 were \$3,772,753,977, thus giving an estimated surplus in 1928 of \$206,604,823. The estimated surplus for this fiscal year was \$383,978,095. The actual surplus in 1928 was \$377,767,816.64.

The 1928 surplus will be cut almost in half from the present one because the Treasury will lose benefit of returns from monies heretofore expended. In the last five years, these returns, such as loans to the railroads during the war, have aggregated \$950,000,000. In addition there has been received \$400,000,000 for income taxes for past years in excess of refunds. These tax are now closed and for 1928 it was estimated that the income from such items will be less than \$50,000,000.

Aside from these losses, there are other potent reasons why the present tax law should not be tampered with, the President said. The present act has been in effect but nine months, and the reduction in miscellaneous taxes has not yet been fully reflected in revenue.

"We have had too short an experience with the new law to permit an ill-considered permanent reduction of tax rates," he explained.

"With the experience of another year's test of the revenue act of 1926, and with a more accurate knowledge which the year will give of what the future has in store for a continuance of our present policy, we can determine what our permanent policy of taxation should be."

As much of the surplus should be applied to reducing the national debt of nearly \$19,150,000,000, Mr. Coolidge said. A decrease in the interest of this single item "offers the most fruitful subject for permanent reduction of governmental expenditure," he added.

The budget recommended \$574,000,000 for strictly military purposes for the war and navy departments. The President said that this was a considerable sum to pay for protection and sufficient to insure peace when there are no threatening clouds to darken the skies. Provision was made for 82,500 enlisted men for the navy, and 110,000 for the army, the same as last year.

Because America is endeavoring to eliminate competition in naval armament, the President declared it would not be in keeping with this policy to provide for construction of the remaining three of their eight light cruisers authorized in 1924.

Aviation, military, postal and commercial, fared well. A total of more than 682,500,000 was recommended for air navigation, of which \$78,177,380 were allotted to the army and navy. This includes \$20,600,000 for new planes and \$2,400,000 for barracks and quarters at air fields.

"The proper development of the aeronautical industry in this country is essential both to our national defense and commercial aviation," he said.

There is no immediate prospect that any of the shipping yard lines can be operated by the government without a loss and therefore the President suggested that Congress at once formulate a definite Merchant Marine policy.

NOT A HINT OF VISION

The comment on the message of President Coolidge is that the one policy in which he committed his administration that had a hint of vision in it has no place in the document. The world looks to the message of the Chief Executive for some suggestion of international policies. Since both Coolidge and Harding urged entering the World Court and the Republican platform on which Coolidge was elected committed him to the fact that it is dropped without even so much as a word of sad farewell shows that the one gleam that pierced an administration devoted to stark materialism has been permitted to leave the world without a ray of light. The Butler-Enders have compiled abandonment of the only policy that gave distinction to an otherwise dollar diplomacy abroad and subservience to privilege at home.

As says it is not new policies the country needs, but "a steady continuation" of what we have. Economy—there is no such animal—is given the high place of honor. As to the \$287,000,000 of surplus, he would use some to reduce debt, but opposes permanent tax reduction at this time, but would give "temporary relief." He still worships the god of high protection and suggests no reduction of the tariff taxes which bear most heavily upon the great majority of the people.

What about the Lerner? He is given words, words, words. Asking for bread, the filler of the soil is given a stone. There is an enumeration of laws for advancing the interests of the farmers, regret that the farmers have been unable to agree upon "remedies" reference to making money available to store and carry four million bales of cotton.

The Filipinos are given no ground for hope. They will not be turned back "until they are both politically fitted for self-government and economically independent." "This is another way of breaking to the car the promise made to the hope. The islands will be held for American exploitation. The Filipinos will be treated as imperial nations have been accustomed to deal with conquered colonists.

In one breath he declares that the Federal government should reduce rather than expand, and in the next breath advocates Federal legislation as to lynching as a tip to the negro voters in the border and doubtful states. The Dyer law would give no protection where lynching occurs but would merely impose penalties upon the law-abiding portions of the community. The negroes of the South and else

where, understand that no help can come by such legislation and they are not deceived by the motive which prompts it. State laws against lynching and vigorous enforcement, as seen in North Carolina, is the remedy. Federal statutes would serve merely to cause a dependence upon Federal enforcement.

With reference to prohibition President Coolidge says "Failing to support the Constitution and observe the law ought not to be tolerated by public opinion." He favors such supplementary legislation as the Treasury Department may feel is needed to enforce the law. This is his personal expression of opinion as to prohibition, but enforcement is based on the fact that it has been made the law of the land. The people would have been better satisfied if there had been a ringing sentence for the cause, but he is strong only in wisely saying that disregard of the law would "break down all protection of life and property and destroy the American system of ordered liberty."

It contains much information and comment upon conditions and situations which concern all Americans. With much of it all citizens will be in accord. The appeal to follow ideals in our daily life is fine. The failure to follow ideals in our national and international life seems to make an appeal to Mr. Coolidge. If so, it is not disclosed in the message by anything affirmative, and his abandonment of the World Court is disappointing to all who had expected to support him in that step toward world peace.—News and Observer.

Corn Casserole Dishes

THERE is no better ingredient for a savory, tempting-looking casserole dish than corn. A can of corn, alone with seasoning, or in combination with other foods, makes a delicious casserole.

CURRIED CORN—Chop two small onions, brown in a heaping tablespoon of butter in a casserole. Stir in a heaping tablespoon flour, half tablespoon curry powder, cup of gravy or soup stock and simmer ten minutes. Stir in a can of corn and add half in covered casserole for half an hour.

CASSEROLE OF CORN AND PEAS—A can each of corn and peas is used for this dish which may serve as the only vegetable of the meal. Put the corn, peas and seasoning in the casserole dish in layers, moistening each layer with left-over creamed tomatoes or tomato sauce.

NOTICE OF SALE UNDER DEED OF TRUST

By virtue of power vested in me by that deed of trust which was executed to me on the 14th day of March, 1923, by Samuel Edwards and wife, Jackie Ann Edwards, and which is duly recorded in the Register's office for Pitt County, in Book L-14, at page 543, I shall offer for sale at public auction to the highest bidder, for cash, at 12:00 o'clock noon, at the Court House doors, in the Town of Greenville, on the 31st day of December, 1926, the following described tract of real estate, lying, being and situate in Bethel Township, in the County of Bethel, and State of North Carolina, to wit:—

That tract of land in Bethel township upon which the said Samuel Edwards and wife, Jackie Ann Edwards, now reside. Being on both sides of the new road leading from Greenville to Bethel and on Grindle Creek, adjoining the lands of Louis Highsmith, T. W. C. Moore, J. J. Jones, and the 110 acre tract adjudged to belong to J. C. and W. A. Taylor in suit entitled J. C. and W. A. Taylor vs. W. J. Robertson et als, in which action Samuel Edwards and wife, Jackie Ann Edwards were intervenors, containing 165 acres, more or less, and being the land described in two deeds, to wit: One from T. W. C. Moore to Samuel Ed. wards, recorded in Book P-8, at page 170, and the other from J. J. Nobles to Samuel Edwards, recorded in Book D-1, page 131. Reference to both of said deeds is hereby made for accurate description. This covers all of said two tracts described in said two deeds, except the 110 acres now owned by J. C. and W. A. Taylor, under judgment rendered in said cause. This the 29th day of November, 1926.

DAILY REFLECTOR OF APRIL 29, 1898
A Daily Reflector bearing the date of Friday, April 29, 1898 is in possession of J. Duff Williams, of the Welland-Croton Co., was brought to the Editor's office today. The edition was a small affair of 4 pages, columns, but was very interesting. While slightly yellow from age it was in a good state of preservation and could be easily read. It contained news of the Spanish American War and local news, good many names appearing in the column are people who live here today, while many have passed away. A few of the firms advertised are still in existence.

MEN'S MEETING AT WILLAMSTON CHURCH

Last night the ladies of the Church of the Ascend in Wilinston gave a supper in honor of the men of the parish, which was largely attended and thoughtful. After supper, the pastor, the Rev. Clarence O. Pardee, acted as toastmaster, called on the church treasurer who, among other things, stated that the financial standing of the parish was better than it has been for years, there being no debt unpaid, either locally or in the diocese of the Episcopal church, and a balance on hand in the treasury. The membership has also grown steadily.
Addresses were made by the Rev. Father Clark, of California Messrs. A. D. Mizell and S. S. Nash, of Tarboro; the Rev. J. M. McKee, of Windsor; and J. W. Cook of this city.

WATER BILL FOR APPROXIMATELY \$38,000,000 PAID ANNUALLY BY THE STEAM RAILROADS OF THIS COUNTRY, ACCORDING TO AN ANALYSIS OF RAILROAD FIGURES ANNOUNCED BY THE SPOONER-RAND COMPANY IN A COMPARISON OF THE COST OF WATER USED BY STEAM AND OIL-ELECTRIC LOCOMOTIVES.

For every 125 gallons of water consumed by the average steam locomotive, the oil-electric locomotive, replacing steam with electric power generated by oil, uses one household teacup of water.
Water consumed by the thirty steam locomotives of the country totals 260,000,000 gallons annually. This is sufficient to fill a tank 200 feet square and nearly 20 miles high. The general use of the oil-electric locomotive would reduce this to 130,000,000 gallons, two thousand times less.
Much attention has been given to the water problem by the railroads of the United States and the present yearly cost has been reduced from a much higher figure by persistent endeavors of railroad engineers and executives. Particular thought has been given to the problem presented in regions where water has been difficult to secure, and in mountainous country where stops for water result in great losses in motive power.
The trough system, permitting water to be scooped up while the train is in motion, and replacing the picturesque water tank where the traveling hobo was wont to gather, has helped eliminate to some extent expensive halts for water, especially in fast passenger service. But the savings thus brought about have been in large part offset by expenditures for trough equipment and maintenance.
General use of oil-electric locomotives throughout the country would practically eliminate the \$38,000,000 spent annually for water, its handling and the upkeep of equipment by reducing this amount to the almost negligible sum of \$19,000, two thousand times less than the present yearly cost.

THIRSTY LOCOMOTIVES EXPENSIVE

Steam Locomotives Use Almost as Much Water as Is Required to Supply the Entire Metropolitan Area of New York City.

THE OIL-ELECTRIC LOCOMOTIVE CAN GO MANY MILES ON A TEA CUP FULL OF WATER.
STEAM LOCOMOTIVES CONSUME ENOUGH WATER TO EMPTY THE CROTON DAM EVERY FORTY DAYS.
THE CROTON DAM AND RAILWAY OF NEW YORK WATER SUPPLY.

A WOMAN'S WAY

"I tried for four months to get my wife to try May's which I know had helped a friend of mine who also suffered from stomach trouble. She inherited her case was different. I finally had to bribe her with a new dress. The first dose produced remarkable results, cleaning up her complexion and restoring her appetite. She can now eat things she hadn't been able to for many years." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and always the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Sold by all leading druggists.

LITTLE HOPE FOR ANY LEGISLATION IN SHORT SESSION

Partisan Scrapping Will Be Extent of Activities By the Dying Congress.

WASHINGTON, DEC. 3.—While congress accorded only a lukewarm attention to the multitude of proposals contained in President Coolidge's 12,000 word message, it seemed fairly certain today that his recommendation will be carried out.

That is his admonition to Congress not to rock the boat.

Comparatively few of the recommendations of Mr. Coolidge made stand any chance of enactment at the present short session. The time is too short and the opposition within and without his own party is too great.

But just as the partisan scrapping will prevent accomplishment of his program, so will the legislation sponsored by his opponents.

Hence a statement for the twelve weeks of the 69th Congress—and no rocking of the boat.

Leaders were agreed today that there exists no possibility of Tax Legislation. This applies especially to Mr. Coolidge's recommendation for a raise on next year's income taxes, and to the alternative democratic proposal for a sweeping out of corporation, automobile and insurance taxes. The opinion is almost universal that after sharp fighting March 4 will roll around with nothing accomplished, Congress will expire, and the huge treasury surplus of nearly \$400,000,000 will go automatically into the debt retirement fund.

As with taxes, so with others of the President's major recommendations.

The farm bloc consider his proposals on agricultural relief as entirely "Half way" meeting the situation.

The bloc is going to have the McNary-Haugen bill, which Mr. Coolidge considers "price-fixing," as a veto. The betting is the bloc will not get the McNary-Haugen bill.

A compromise probably will be worked out on radio legislation. The senate is cold to the President's proposal that Secretary of Commerce Hoover be made the "Radio czar" and is inclined to insist upon the Dill Bill to set up an independent regulatory commission.

As for railroad consolidations suggested by Mr. Coolidge for several years, there exists no possibility of accomplishing this at the present session.

Similarly with the Anti-Trust Bill. Southern Democrats have been successful for years in keeping his law off the statute books, and Mr. C. B. Hunter awaits this session for a serious attempt is made to enact it.

As for prohibition, the militant bloc in both houses is organized to prevent putting any more teeth in the Volstead law. Gen. Lincoln C. Andrews' recommendations for wider powers will be "talked to death" by the wets, according to present plans.

It was perhaps a coincidence and certainly indicative of the temper of the dying Congress, that the first two matters put before the Senate were those entirely ignored

by the President in his message, the World Court, and disposition of Muscle Shoals.

John D. To Play Golf On 100th Birthday

Cleveland, O., Dec. 3. (INS).—John D. Rockefeller's hopes of playing a golf match at the age of 100 with his lifelong companion, Dr. Hamilton Fish Bixler, are shattered.

Dr. Bixler, for many years personal physician to the aged oil man is dead here at the age of 87, having been born the same year as Rockefeller.

John will easily live to be 100 years old and I have made an appointment to play him a game of golf on his centennial birthday, Dr. Bixler declared to his family here several years ago.

In their younger days Rockefeller and the physician were inseparable. They went to London in 1887 together to see Queen Victoria and the coronation spectacle. Then, as Rockefeller alluded, to his friend, was pompous at the future millionaire's apparent prodigality. Joe D. took an expensive suite in one of the smartest hotels of Piccadilly.

The physician often asserted that while he was under retainer as Rockefeller's medical adviser the latter often turned the tables on him and that he was forced to accept advice on how to keep in trim.

Dr. Bixler established an enviable reputation as a surgeon in Ohio being accredited with more than 2,000 major operations.

Roumania Palace Swept by Fire

Bucharest, Dec. 3. (INS).—Part of the old palace of the Roumanian royal family was in ruins today as a result of a fire which last night completely gutted the central section of the ancient building.

King Ferdinand, Queen Marie and other members of the royal family were not endangered, however, as they are living at Cotroceni palace.

Prince Nicholas witnessed the blaze.

Soldiers saved the furniture, pictures, and heirlooms. Damage was estimated at 15,000,000 lei.

ADVOCATES RETURN OF CAT-O'NEAILS AS CRIME CUR

Austin, Minn., Dec. 3. (INS).—As a result of a sermon delivered by Dr. D. H. Martin here in which he advocated the return of the whipping post to Minnesota as a cure for crime, a law embodying this will probably be drafted and turned over to Representative Dahl for introduction in the next state legislature.

Dr. Martin said that crime had gained so much headway due to indifference of parents and archaic court procedure that something besides coddling of criminals was necessary. He believes that the cat o' nine tails would serve as a potent crime deterrent.

Nobody can accuse this country of not training marksmen, as long as Chicago and Herrin keep on their present way.

SEARCH FOR OLSON EXTENDS INTO ALL PARTS OF NATION

Search For Alleged Slayer of Sweetheart Being Made in South Today.

CHARLESTON, DEC. 3. (INS).—Joseph H. Bowman, an attorney, was questioned by police here of the whereabouts of Erldman Olson, alleged underling of his sweetheart in Prairie Du Chien, Wis.

Bowman was late yesterday wired Mervin Helgeson, of MI. Sterling a chum of the suspect, to come to Charleston, declared his telegram was a personal matter and had nothing to do with Olson. He is said to have wired Helgeson for money.

Police here today admitted that they were acting entirely on their own initiative and that they had received no report from Wisconsin authorities to question Bowman.

The attorney registered at a local hotel yesterday and sent numerous telegrams.

Bowman strolled the streets most of the night, trailed by two detectives and a group of reporters. He flatly refused to answer questions put to him by newspapermen and ignored everybody.

Every half hour or so he would return to the Frances Marion Hotel, where he was registered and inquire whether there were any telegrams for him. Receiving a negative answer he would resume his stroll.

Finally, detectives invited him to police headquarters, and at an early hour today Bowman was still being questioned.

Police however have definitely established that Olson is not in the city, Edward McNeal, desk sergeant, told International Service.

Bowman is described as of medium height, 56 years old. He told police he came from Miami a few days ago.

Major Tom Stoney of Charleston, questioned Bowman at police headquarters. He announced he believes Bowman is in close touch with Olson and has ordered traffic policemen to watch for an automobile this is connected with Bowman's movements.

Mayor Stoney revealed that Bowman sent a second telegram to Helgeson early today, asking for \$1,000. Bowman admitted he sent the telegram but said he was acting for a second party for whom he was searching when police took him into custody.

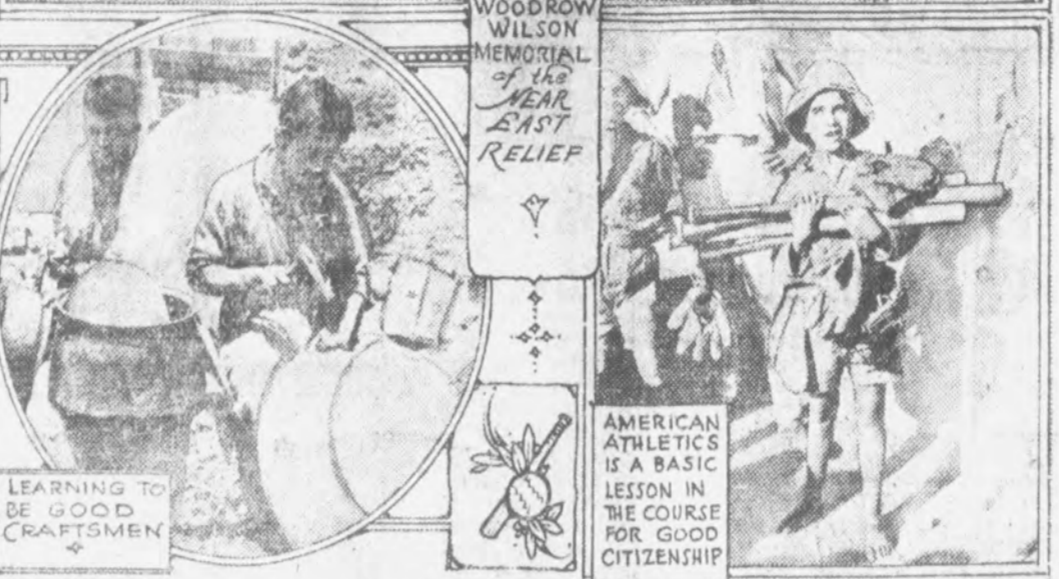

Police seized a telegram addressed to Bowman from a Chicago newspaper which declared it had positive information that Olson was in Charleston.

JACKSONVILLE, FLA., DEC. 3 (INS)—A search for Erldman Olson of Prairie Du Chien, Wis., wanted there for questioning in connection with the death of his sweetheart, Clara Olson, 22, in September, was launched by police here today following receipt of reports that he may be in Jacksonville.

The search was begun when police here received reports that a man giving the name of P. S. Deming had wired from Jacksonville to Queen's father asking him to send \$1,000 here for which he would call at a local telegraph office today.

Olson's father, according to police here, showed the telegram to Wisconsin authorities. Deming, police here said, may prove to be Erldman Olson.

Woodrow Wilson Memorial School Trains Thousands In Art Of Peace And Leadership

THE ideals of peace that President Wilson sought to impart to the world are being taught in a unique institution on a tiny island in the Aegean. It is the product of American charitable enterprise and is being used to teach 2,000 children of warfare how to live among one another in peace and training them for leadership among their people in order that they may reach positions of influence from which they can spread the same gospel.

The institution is the Woodrow Wilson Memorial of the Near East located in the city of Smyrna, Turkey.

It was founded largely through the generosity and vision of the American people and is now a part of the American Red Cross.

More than two thousand Armenian and Greek orphans, the children of parents who lost their lives in war time massacres or in the post-war periods of starvation.

In its location, buildings and equipment, it is the finest institution of its kind in Eastern Europe. Its students are taught 40 different trades, selection for the various classes being made after a study of each child's aptitudes.

The island of Syra, in the Aegean Sea, 50 miles south of Athens, was selected as the most suitable place in the Near East for a school of this character. The island has been noted since the days of Homer for its healthfulness. Its native population is industrial in character, and the island supports

many factories, manufacturing shoes, confectionery, cotton cloth, steel wire and other products. The area of the island is 42 sq. miles, and its population about 50,000.

The 29 buildings of the Memorial school occupy a picturesque hillside of several hundred acres, including farm land and gardens sufficient to provide most of the food supply for the orphanage, while at the same time serving as a laboratory for the children who are studying agriculture.

The nature of the institution has given to the island of Syra the name of Golden Rule Island. The aim of the American charitable enterprise that will benefit from the observance of International Golden Rule Sunday on December 4th.

INVESTIGATION OF GOULD CASE WILL BEGIN AT ONCE

Republicans Threaten Several Investigations of Southern Elections as Result of Issue.

Washington, Dec. 8.—(INS)—Two years of open warfare over Senatorial election contests appeared inevitable today as a result of the Senate's action in ordering an inquiry into bribery charges raised against Senator Arthur R. Gould, Republican of Maine.

Incensed by the action of Democrats in forcing an investigation into the private life of Gould, Republican leaders were said to be planning a series of retaliatory contests against Democratic Senators recently elected in Southern States. In all these elections, Republican leaders said, but six per cent of the total voting population participated while in two of the States large expenditures of money were reported in the primaries.

Should inquiry meanwhile will be prosecuted without delay. The Senate elections committee, ordered to conduct the investigation by a vote of 70 to 27, will meet this afternoon to adopt a program. Indications were that Senator Ernie Republican, of Kentucky, would name a sub-committee to hold public hearings on the charges, at which both Gould and his accusers will be given a chance to speak.

The committee will have three questions to decide.

1. Whether Gould was guilty of paying \$100,000 a decade ago to J. K. Fleming, former premier of New Brunswick, in return for expected favors for a railroad which the main Senator then represented.

2. Whether the Senate has the power to investigate the previous private life of a member to find grounds on which to deny him a seat in the Senate.

3. Whether a criminal act, having in connection with a Senatorial election, can constitute sufficient grounds either to exclude a citizen from the Senate or to expel him as a Senator.

Friends of Gould, drawn principally from the New England group of Senators, will contend that Gould is innocent of the charges but that even though he were guilty, the Senate has no right to deny his seat. They will argue that under the constitution of State's rights, the election of Gould completely vindicated himself in the eyes of the voters and the charges prior to the election.

These opposing the sending of Gould, will argue that an act of bribery cannot be condoned by the Senate even though committed a decade ago. This faction will contend that the dignity of the Senate would be lowered by sending one convicted of such an offense to the confidence of the people must be free of all suspicion.

McDERMOTT JURY BE COMPLETED TODAY

Canton, O., Dec. 8.—(INS)—A new and special panel of potential jurors was drawn today to the trial of "Pat" McDermott, charged with killing Don McLean, Canton publisher. Completion of the jury is expected later today. Judge Edwin W. Diehl was expected to deny the defense motion for a change of venue.

DAVIS PROPOSES COAL CONFERENCE

Would Make Effort at Plan to Make Coal Mining Peaceful and Prosperous.

WASHINGTON, DEC. 8.—(INS)—A conference of representatives bituminous coal industry throughout the United States to evolve a practical plan to make coal mining a peaceful and prosperous industry, was proposed today by Secretary of Labor Davis.

Addressing the American mining Congress, Davis said that for years coal has been the only industry to afflict the country with a nationwide strike, and the country now expects to "see a little daylight in the coal mines."

In addition to representatives of the industry the conference should include the Attorney General, Secretary of Commerce, Secretary of Labor, Federal Trade Commission, Interstate Commerce Commission, and other federal authorities, Davis said.

"Controversial matters should have no place at such a conference," he added. "Its sole purpose should be to provide for regular operation with sufficient output, to meet commercial and domestic needs, plan expansion of export trade, stabilize markets, provide regular employment for miners, and organize shipping facilities."

Davis maintained that the nation's entire business prosperity could not be sustained and made permanent "if one of the great foundation industries is not regularly profitable."

"I can see no future in coal so long as the industry ignores the unity and peace policies that characterize the rest of American industry," he asserted. "The elements in coal, now virtually at war with each other, must face about and pool their interests and energies for the common good of themselves and the public. The American public, after throwing legal guards about themselves, have welcomed this principle in other industries."

Davis declared the public looked to the mining industry to "put its own house in order." Until it does this it will continue to lack public confidence, will be subject to "oppressions, hurtful competition, strikes, unusual labor turnover and unprofitable operation," he said.

"My prediction is that if mining does not soon put its house in order, the country will compel such action," Davis said.

School Children Have to Wait For Christmas Money

Memphis, Tenn., Dec. 8.—(INS)—Hundreds of school children may have to wait until after Christmas for their savings funds accumulated during the year, as the result of the closing of the American Savings Bank and Trust Company.

State bank examiners today were going over the accounts of Clarence Henochberg, who committed suicide yesterday after admitting a shortage of \$300,000. Christmas checks totaling \$200,000 were held up until the bank again is solvent.

Now comes to the modern child the annual struggle to believe that it is possible for Santa Claus to come in through the radiator, the only substitute for a chimney the average home affords.

Serve Your Christmas Candy In Beautiful Boxes

EXOTIC beauty and thorough usefulness, how rarely they go together! But they do go hand in hand in the brilliantly decorated tin boxes in which the best of Christmas fruit cake and candy can be bought. Compact, tight closing, the boxes keep these good things in the pristine freshness and flavor with which they left the manufacturer's hand. This is a truth appreciated by sellers of the very finest grades of chocolates and bonbons, whose wares are given objective distinction through use of these colorful lacquered tin boxes. In these metal containers, hard candies as well as chocolates keep crisp and dry, and fruit cake keeps fresh until it is all used.

The beauty of coloring and design that marks these boxes of all sizes and shapes makes us loath to give them up even when their contents have disappeared. Their usefulness still remains, however, for they can be kept to hold handkerchiefs, gloves, ribbons. The many odds and ends of the sewing table can be kept in them, too, and if one desires, a beautiful sewing box or jewel case can be made from one of the large lacquer boxes. To do this, cut satin or velvet linings in pieces which exactly fit the bottom, sides and top. Glue them in place with the best grade of glue. To make sure the work is neat, use the glue as if it were worth a million dollars a drop.

A lining of bright taffeta silk makes an attractive cigarette box of one of the long narrow candy boxes, but their lining, in this case, is not necessary.

A Dollar Dinner for Four

Thinking up "something different" for dinner every day while keeping within the bounds of her food budget, taxes the ingenuity of the housewife. Here is a menu, serving four people and costing only \$1.00, which should be a welcome help, especially in the busy holiday season:—

Beef Bouillon	Creamed Peas
Hot Salmon Loaf	Bread and Butter
Cut String Bean Salad	Coffee
Pineapple Betty	

Beef Bouillon—A can of beef bouillon costs 10 cents. A brand of salmon suitable for cooking costs 17 cents. After removing skin and bones, flake the fish, mix with white sauce and sufficient breadcrumbs to mould into loaf, moistening with 1 beaten egg. Bake until brown. The creamed peas will serve as a sauce. A can of peas may be had for 13 cents.

Hot Salmon Loaf—A can of cut string beans for the salad costs 15 cents. Serve with French dressing. A loaf of bread costs 10 cents. Enough coffee for four people, at an average cost of 40 cents a pound, costs about 4 cents.

Cut String Bean Salad—A No. 2 can of crushed Hawaiian pineapple, for Pineapple Betty, costs 19 cents. Mix 1 1/2 cups of pineapple, drained, with 1 cup soft breadcrumbs, 3 tablespoons brown sugar and 1/2 teaspoon cinnamon. Put in greased baking-dish and pour over it 1/2 cup of the syrup drained from the pineapple. Dot top with butter. Bake in moderate oven and serve hot with a thin sauce made of remaining syrup, a little sugar, butter and hot water.

Creamed Peas—Use left-over bread for puddling and salmon loaf. Total cost of main ingredients is about 86 cents, leaving 14 cents to cover cost of butter and sugar for the meal and minor ingredients.

Market Report

MARKET LETTER

New York, Dec. 8.—(INS)—In a market dominated almost exclusively by the professionals and poors, industrial stocks moved erratically through a narrow price range today.

Wall Street continued to express general satisfaction over development, at Washington, with the certainty of a healthy surplus in the Treasury, which will be equally serviceable if used to retire government debt or paid as a refund to taxpayers. The weekly steel trade review, combined with reports of lessening operations of the steel mills, with increased orders for railroad consumption.

The high priced industrial and specialty stocks, a group were active and firm, with National Lead, Woolworth, East Iron Pipe and DuPont in the lead. A general retreat of the shorts from Hudson, Jordan, Moog, and other popular motor stocks resulted in a sharp rally in prices. Jordan was the feature.

A new decline in Continental Baking class, A to 58 accompanied market rumors that the 8 per cent dividend on the shares—could not be continued.

Most of the speculative activities revolved about the motors, the oils and specialties. Oil held their ground with only an occasional reaction, and motors were not easily pushed back to below the previous day's price levels.

The government's final cotton crop estimate was bullish from the market standpoint, even tho it added about 200,000 bales to

its last previous estimate. The cotton market looked for a 19-200,000 bale crop instead of 18-618,000 bales. This cotton market was steady, as also were the bulk of outside commodity markets and futures markets, including rubber and sugar. Call money was in supply at 5 per cent.

GRAIN CLOSE

Chicago, Dec. 8.—(INS)—Grains closed irregular today with wheat 3-8 to 1-1-8c higher to 1-1-8c lower; corn 3-8 to 1-1-8c higher; oat, 5-8 to 1-1-8c higher.

Wheat opened unchanged to 1-8c lower with the December showing the weakness. Trade was featureless. There was not much for sale and very little wanted. Estimated receipts here were 21 cars.

Corn started 1-8 to 3-8c down and immediately declined further on commission house selling. Trade was moderate. Estimated receipts were 144 cars.

Oats started steady to 1-4c higher on buying by commission houses. Trade was fair. Estimated receipts were 18 cars. Provisions opened steady.

COTTON

New York, Dec. 8.—(INS)—Cotton closed steady 3 to 8 points off; spot, 10 off 12.45.

BUDGET MESSAGE WAS DELIVERED TO CONGRESS TODAY

(Continued from page one) probably under private operation. Federal subsidies to state should be restricted and curtailed, he declared, and a concrete opportunity to begin this program is offered in the maternity act. He expressed willingness to continue this act until 1929 with a view, however, of gradual withdrawal of the federal government from this field.

The budget provided nearly \$30,000,000 for prohibition enforcement.

"Whatever is necessary to put into effect the expressed will of the people as written into the 18th Amendment of the Constitution of the United States and the will of the Congress as expressed in the Volstead Act will be done," said the President.

"Whatever funds be necessary to vindicate the law and secure compliance with all its provisions should be provided. The constitutional duties of the President and the Congress make any other course indefensible."

A reduction of \$872,977,572.71 was made in the total gross public debt in the 1926 fiscal year. This was accomplished by \$487,376,050.69 on account of the sinking fund and other debt requirements chargeable against ordinary receipts; application of the entire surplus of \$377,767,816.64; and reduction in the general fund balance of \$7,833,705.88 below the balance last year.

"The World War foreign debt commission, has substantially completed the duties imposed upon it by Congress," the President said. "Eliminating certain debts with which negotiations are not now practical, funding agreements have been signed with all of those nations owing the United States on account of loans made during and after the war."

"All of the settlements have been ratified by Congress except those with France and Jugoslavia, and in these cases the House of Representatives has acted but the bills are still pending in the Senate. The French settlement has not yet been taken up by their Parliament. In general, uncertainty with respect to war

debt, has ended." The President urged that Congress at the present session enact a comprehensive bill for settling the alien property situation.

HOLLYWOOD STYLE HINT

Hollywood, Dec. 8.—(INS)—A woman is as chic as her coiffure, according to Cora McGeachy, First National movie style designer.

The "vampire coronet" is one of the new hair dresses. Here's how it's done:

Comb the hair straight back off the forehead, and comb flat to the head. Wrap a thick braid of hair—probably a switch—around the head like a crown, but bringing it low over the left ear and high over the right one. At first glance, it resembles a turban. A single ear-ring in the left lobe helps the general effect, Miss McGeachy added.

Here's another coiffure: Marcel bobbed hair back from the forehead in two or three wide waves parting the hair on the right side. The small waves are out! The side locks, which ordinarily are brought in front of the ear and curled, are curled as before, but tucked behind the ear, with the entire lobe exposed.

And try the batting bob! One half of the hair is brought down flat across the head, swept back from the brow and around the cheek in the shape of a wing. The other half of the hair is brought down low over the eye-brow and cut to form a frame over the eye in the shape of another wing. It's quite fetching!

PARIS STATISTICS SHOW MARRIAGE AIDS LONGEVITY

Paris, Dec. 8.—(INS)—Marriage is conducive to longevity according to statistics recently published in a Paris daily. They show that during a given period of time, 28 out of every 100 single persons, died at the age of 40 or 45. While, among those who had left the state of celibacy, the total number of deaths was only eighteen.

Other figures show that for every 80 married persons who reach the age of 42, there are only about 40 single ones who have the same good fortune.

Youth's Father

Albert Olson, father of E. F. Olson, asked his son to return to Prairie Du Chemin, Wis., and clear himself of charges of murdering his sweetheart, Clara Olson.

FAMOUS FRENCH RECIPES

Paris, Dec. 8.—(INS)—Autumn Cake is a good apple one.

Make a syrup with two-fifths pound of sugar and a little water. Put in a pound of apples peeled and cut into small slices. Cook a quarter an hour and then turn into a dish.

Mix two large spoonfuls of currant jelly with a little water and rum. Melt a leaf or two of gelatine and let boil. When it is completely melted mix liquid with the apples and add condensed fruit. Put into small pieces. Turn into a round mold which has been dipped into cold water and not wiped.

NEW ZEALAND SETS WORLD RECORD FOR ROWING WEALTH

Washington, Dec. 8. (INS)—The growth of private wealth in New Zealand is among the most phenomenal achievements of this character in world history, according to information obtained by the department of commerce.

Compared to a per capita wealth in 1914, \$1,265, the latest estimate fixes this figure at \$2,691, second in the world only to the United States, where per capita private wealth is estimated at \$2,918.

Per capita wealth in Canada is about \$2,574 and all Great Britain, \$2,000.

The unchanging east has not only begun to change. It has changed and so greatly that a native of the last generation could hardly recognize it. Ever since the Armistice reports have been published in the American press concerning the Americanizing process which is going on. There are no sections of the Near East in which commissions of the Near East Relief and other similar agencies have been operating where this process has not shown widespread results.

MASSACHUSETTS MAN HOLDS DRY RECORD

Rockport, Mass., Dec. 8 (INS.) Not a drink of water in 28 years is the drier record of John E. Sullivan, local chief of police, which probably has no equal in the country and perhaps in the world. Chief Sullivan has lived without water so long that he believes a prolonged sojourn in the Sahara would be no hardship to him.

ROBERT A. TAFT

MRS. SUN YAT SEN

FLORENCE LOWDEN

Charlotte, widow of Emperor Maximilian, of Mexico, was reported dying at her home in Belgium. Abolition of the direct primary was urged by Robert A. Taft, son of the ex-President, speaking in Chicago. Reports said Mrs. Sun Yat Sen, widow of the first President of China, might be given Presidency of the Chinese Nationalist State. Florence Lowden, daughter of Frank O. Lowden, of Illinois, was operated upon for appendicitis.

FAMOUS ROSSAKOV OPERA IS CURSED BY SOVIET
 Moscow, Dec. 8. (INS.)—Even the popular Russian composer Rimsky Korsakov is not exempt from the Soviet government censors' ban on music which in any way promotes the religious feelings. Rimsky Korsakov's famous opera "The Legend of the Unseen City of Kitege," has just been subjected to an especial examination by a commission headed by the Commissary of Education Lunacharsky. The commission found that: The opera is musically artistic and of high aesthetic value, but since it contains a number of orthodox Russian church hymns it tends to promote false and harmful impressions upon its hearers. Therefore the opera will be permitted to be played not more than once a month. Hitherto "The Legend of the Unseen City of Kitege," has been attracting capacity audiences twice a week.

Merry Christmas

How many of the gifts you'll give will last ten years? I have some that will last longer than that. Wouldn't some domestic appliance form a mighty fine gift? A long-lived gift will carry your Christmas wishes for a long time, in a highly practical way. Come in and look while you're shopping.

DAIRY and POULTRY FARM.

I wish to announce that I have leased the J. M. Hines Dairy and Poultry Farm for a number of years and have moved my stock from Bethel to my new location. I am now in position to give the people of Greenville and vicinity the very best grade of milk and the best of service. I have only Jersey and Guernsey cows.

On January 1st, I will begin the operation of a mammoth incubator and can take care of your hatching needs.

Eggs hatched \$4.00 per hundred. Baby Chicks \$15 per hundred and up. Give me your orders.

Daily News Letter

Gossip of Staff Correspondents at World Centers - of Population.

San Francisco, Dec. 8. (INS) Professional football on the Pacific coast has apparently come to stay.

Attendance has been excellent at all contests and the spirit of rivalry shown by the teams representing San Francisco, Oakland, Hollywood and Los Angeles has been extremely unprofessional in its vehemence. The Los Angeles team, with a weak team, rocked the entire circuit for a time, but the recent announcement that William Wrigley, Jr., the chewing gum king has taken over the club insured its future.

The circuit which started a month ago, was the first professional football loop on the west coast.

University of California students were indignant today over the appearance of Clara Bow, movie star, at the Stanford California game at Berkeley recently.

Miss Bow, starting in a co-ed picture, tried to lead the California rooting stands in cheering while the cameras clicked, but the students, disapproving of the proceedings, gave half-hearted support.

Officers of the student council denounced Miss Bow's appearance at the game as an inspired publicity stunt.

Despite the fact that California once the football despot of the Pacific slope under the coaching of Andy Smith, has lost every important game on its schedule the past season, Nibs Price, the coach will remain at the school next year it was learned today.

It was rumored that overtures had been made to Fred Dawson, former coach at the University of Nebraska and now at Denver but these reports were declared groundless.

California just had a green team this year, was the general comment. We will have a wonder team next year.

The latest rugby football star to shine at the American style of football is Dick Hyland, of the fleet and flashy halfback of Pop Warner's Cardinals.

Hyland's speed has been prominent in the Stanford attack all season and his fast and shifty runs have helped Stanford go through the season undefeated.

He had played nothing but rugby football when he entered Stanford.

FOUR KILLED BY EXPLOSION

INDIANA, PA., DEC. 8 (INS) Deaths of three persons in Indiana hospital today brought to light a tragedy in the home of Isaac Beck, a miner, in an isolate hill district in which four persons were fatally injured by the explosion of a can of dynamite ignited by a miner's lamp.

The dead included Clair Beck, 18, Zella Beck, 5, Marie Beck, 15, son and daughter of the miner, who died in the Indiana Hospital, and Twila Neslon, granddaughter, who died at the home shortly after the

explosion. Mrs. Isaac Beck was badly burned. According to country doctors who battled their way over icy roads to the scene of the tragedy, the four were fatally injured when a can of dynamite which Clair was trying to open was ignited by a spark from a carbide lamp, and exploded, shattering the walls of the kitchen in which they were seated.

MICKEY WALKER IS NOW CHAMPION

CHICAGO, DEC. 8. (INS)—Mickey Walker, the "Jersey Jaber" faced the universe today with a clean bill of health as middleweight boxing champion of the world. His title, won from Benzon Tiger Flowers of Atlanta, Ga., here last Friday Night on the decision of referee Benny Yanger, was given the official O. K. of the Illinois boxing commission at its weekly session.

In upholding the verdict of the referee the solemnly agreed:

"That there was no collusion or crookedness on the part of the referee, (Benny Yanger) and that this commission is of the opinion that he gave his decision in this contest as he saw it and in accordance with the rules as promulgated and adopted by this commission under the state law"

However, to prevent a recurrence of this situation, the commission stated that after January 1, decisions will be rendered by two judges and a referee.
