

ANNUAL LADIES NIGHT BY PITT CO. MEDICAL SOCIETY

Interesting Meeting Held Last Night at Rotary Building; Officers Elected For New Year.

The Pitt County Medical Society held its regular monthly meeting Thursday night, when they observed annual "Ladies Night." The address of welcome and response on address by Rev. J. E. W. Cook were principal features of the program, while short talks from the visitors proved interesting. Musical selections were rendered. After the turkey supper, bingo was played and a business session in which officers were elected, followed.

The Rotary Club, where the meeting was held, was beautifully decorated in keeping with the Christmas season. After the men here of the society and their wives had assembled, they were invited into the dining room where an elegant turkey supper was served with Mrs. Bruce Beasley, K. B. Pace, W. W. Dawson, and R. L. Smith as gracious hosts. Dr. L. C. Skinner, retiring president, presided over the meeting. Dr. J. C. Green, in his happy manner, gave the address of welcome to the ladies, and Mrs. W. I. Wooten very graciously responded. They, Dr. J. E. W. Cook made a most inspiring and beautiful address. Dr. C. O'H. Laughlin, house of Raleigh, Dr. Farvey Dixon and Dr. Ira M. Hardy, of Kinston, and two Drs. Hardy, of Ontario, Canada, were visitors of the society, and each made pleasing short talks.

The Misses Morton, of the East Carolina Teachers College, delighted all present with several musical selections.

After supper, all present engaged in playing bridge for which Christmas toys were given as prizes, and such merriment ensued.

Before adjournment, the Society went into a business session. The following officers were elected for the year 1927:

Dr. E. T. Dickinson, president; Dr. Bruce Beasley, vice-president; Dr. A. M. Schultz, secretary and treasurer. Plans for the meeting of the Second District Medical Society, which will be held here in February, were discussed at length. The Society then adjourned to hold the next meeting in Farmville.

Pythian Lodge Elects Officers

At a regular meeting of Tar River Lodge No. 93 of the Knights of Pythias, held last night, the following officers were elected:

F. T. Watson, Chancellor; Commander.

A. B. Corey, Vice Chancellor.

J. L. Howard, Preceptor.

Z. M. Whitehurst, Master of Work.

J. S. Willard, Keeper of Records and Seals.

L. H. Bowling, Master of Finance.

W. C. Braswell, Master of Excitement.

J. Bruce King, Master at Arms.

J. E. Parkerson, Inner Guard.

G. C. Evans, Outer Guard.

Vare Declares He Will Welcome Senate Inquiry

Washington, Dec. 10.—(INS)—Senator-elect William S. Vare, Republican, of Pennsylvania, today announced he would "gladly welcome" any move to impound the ballots cast in the recent Pennsylvania Senatorial election.

Vare issued this statement following a conference with Senator Reed, who will manage his campaign to retain a seat in the next Senate.

GOLDIE MINER

THERE AIN'T NO SANTA IF SHE DOESN'T GET A DIAMOND TIARA.

12 DAYS LEFT FOR CHRISTMAS SHOPPING

DEATH TOLL FROM MINE EXPLOSION NOW TWENTY FIVE

Little Hope That Other Men Entombed in Mine Will be Taken Out Alive.

Francisco, Dec. 10.—(INS)—The death list from the explosion in Francisco Mine No. 2 today stood at 25, four new victims having been reported this morning.

Charged and blackened, the bodies of S. J. Rohl and Wilbur C. Ratcliff were brought to the surface this morning by a rescue crew that had been searching for passages of the mine since 5:30 this morning, under the handcar of withering heat from a blaze that broke out in the south passageway.

Orville, Slater and Ledford King two of the injured in the hospital at Princeton, Ind. died today.

Another rescue crew to replace the one which brought Rohl and Ratcliff to the surface immediately went back into the mine to search for Claude Wright, Emory West and Walter Thomas, who still are missing.

With the finding of the last two victims, the slight hope that had been held out for the missing men glimmering. Mine rescue officials told International News Service that they have little hope of finding the three alive.

The rescue men are working under the handicap of almost insufferable heat of the mine, which probably is the greatest length of time that a crew can stay in the mine.

As the fire swept the passageway it became increasingly difficult to carry on the search. The rescue party returned on Monday and Ratcliff has been taken to the surface. The remaining three was determined not to be rescued until their search was successful.

VOICE PROTEST AGAINST ITALO ALBANIAN PACT

New Treaty Between Italy and Albania Described in Protest As Over Act.

London, Dec. 10.—(INS)—The British government has received a protest that Juglo-Slavia against the new Italo-Albanian treaty, charging that Italy's action in concluding such a treaty is an overt act and violates the spirit of the League of Nations, according to reports in diplomatic circles.

Vienna, Dec. 10.—(INS)—The enstity of the Balkan situation which has been created by the Italo-Albanian pact, has not lessened according to reports received here.

The Belgrade newspaper carries a warning to Italy that she should "beware as Juglo-Slavia does not stand alone," evidently referring to a pact between the France and Juglo-Slavia.

From Bucharest and Sofia come reports that the pact not only contains secret military clauses but the Premier—Mussolini has agreed to greet an Albanian king under Italian protection with Ach Med Zogu as king.

Great Britain and France are reported to have urged Juglo-Slavia to exert every caution against any overt act which might precipitate trouble.

Divided in Principles United in Spoils

Washington, Dec. 10.—(INS)—The Republican party "stand, divided in principle but united in points" Senate. Pat Harrison Democrat of Mississippi, declared in the Senate this afternoon in chiding administration leaders for having negotiated peace with the Republican-urgent bloc.

Harrison said Senator Frazier of North Dakota, was being taken back into the Republican fold following his expulsion a year ago, simply to enable the Republicans to retain control of the next Senate. With Frazier voting for Republican organization, said Harrison, the Republicans are assured of control, because Vice President Dawes could break a tie if Shipstead, (F-I.) joined the Democrats.

VOTE 27 MILLION FOR ENFORCEMENT OF PROHIBITION

Charge Andrews Trying to Dry Up North and Winks at Southern Violators.

Washington, Dec. 10.—(INS)—The House today overwhelmingly voted \$27,000,000 for prohibition enforcement next year. The vote was 140 to 12.

Most of the West deserted Rep. C. Ryan, (D.), of Mass., who offered an amendment striking from the bill allowances for the enforcement unit under General Lincoln Andrews, D., of Calif.

Rep. LaGuardia, (R.), of New York, charged that Andrews is trying to dry up the North and winks at liquor law violations in the South.

On a point of order, LaGuardia succeeded in throwing out a provision of the bill permitting advance to be made to "under cover" agents.

The action, however, left the \$500,000 provided for "under cover" work in general prohibition enforcement.

Galivan then offered his amendment.

Rep. Madden of Ill. attacked "this character of assassination of the law."

Rep. Schaefer, of Wisconsin, attacked funds used by drys and wets, and declared they should be investigated by Congress.

The wets won a point when they knocked out a section permitting expense money to be advanced to "under cover" agents. The section, the House agreed, conflicted with other statutes. The appropriations committee had provided this allowance from \$2,000 to \$500,000.

Rep. Madden, of Ill. and Rep. Crampton, of Michigan, led the dry fight. The denounced the wets' attempts as "assassination of the law."

Galivan persisted in his attempt to kill appropriations although Rep. Hill, wet leader and other wets, refused to follow him. The wet strength was drawn from the New York, Mass., and New Jersey delegations. Mrs. Mary T. Norton, of N. J., voted with the Gallivan faction.

OPPOSE CANDIDACY GOVERNOR SMITH

Methodist Reform Forces Will Oppose Smith Because He Is Wet.

Washington, Dec. 10.—(INS)—The Methodist reform forces of the country will oppose Gov. Al Smith of New York for the Presidency, not because he is a Catholic, but because he is wet, Dr. Clarence Trice Wilson, declared today in opening the 17th annual meeting of the Methodist Board of Temperance, prohibition, and public morals.

"We will stand for a man who stood for the 18th amendment and the Volstead Act and enforcement regardless of whether he is a Catholic, or Jew," said Wilson.

Wilson said he would have been supported by the prohibition forces. Wilson also is a Catholic, and dry.

Wilson claimed that the drys had accomplished the defeat of Senator James W. Wadsworth Jr. of New York, in the November election.

Youth Arrested At Alma Georgia Not Erdman Olson

Alma, Ga., Dec. 10.—(INS)—Authorities here today abandoned the theory that the illiterate youth known as John Pittman is Erdman Olson, college student wanted for the murder of his sweetheart in Prairie Du Chien, Wis.

Pittman will be held in jail however, until some definite word is received from Wisconsin authorities, Sheriff Walter L. Johnson announced today.

Satisfactory alibis have been furnished by former employer, of Pittman, showing that he could not have been in Wisconsin at the time of the murder. Pittman says he has an uncle in Baltimore.

"Great reduction in clothes" advertises a dry goods firm. There does seem to be a tendency in that direction.

LYDIA LINDGREN

JOHANNES WIRTANEN

Disappearance of Agatha Christie, writer, mystified England. General Giuseppe (Peppino) Garibaldi returned to America after a flying visit to France to aid his brother, Ricciotti, involved in Catalonian plot. Lydia Lindgren, the singer, took poison in Boston, but was revived. Johannes Wirtanen, Finnish prohibition director, arrived in America to learn our secrets of suppressing liquor.

REOPEN PRIMARY SCANDAL PROBES IN FOUR STATES

Senate Committee Decides to Rehear Primary Slush Fund Inquiries.

Washington, Dec. 10.—(INS)—The political pot on capital hill boiled over today when the Reed committee decided to reopen its inquiries into the Senatorial Primaries in Pennsylvania, Illinois, Oregon and Arizona.

This action was taken in order to hear witnesses missed at the earlier sessions of the committee. The hearing will be confined to the senatorial primaries in each of these states.

The committee did not reach a decision on the requests for investigations of the primaries in Massachusetts and Ohio or the elections in Maine and Pennsylvania. It will meet again Monday.

Prohibition Army 15,000 Strong

Washington, Dec. 10.—(INS)—The government's prohibition enforcement "Army and Navy" will consist of approximately 15,000 men for the next fiscal year, according to tactical plans announced today by Gen. Lincoln C. Andrews, the enforcement chief.

In the allocation of force, for the new year, Andrews disclosed that the "army" will consist of approximately 4,727 men, and the "navy" or coast guard, of 9,913 officers and men.

The Washington headquarters will be manned by a personnel of 313 employees, including 134 special investigators who from a flying squadron prepared to do undercover work. In addition six inspectors, four zone supervisors, a wine-tasting director and an alcohol and beer squad of 137 men, are assigned.

Approximately \$1,004,000 will be required to pay salaries of the 505 employees on the rolls of administration Chester P. Mills, head of the eastern New York and Connecticut district. Most of these agents are assigned to New York City.

The Army did not make the Navy Blue last Saturday, but it made a narrow escape from being made so itself. Greenboro Record.

VETERANS FIGHT RATIFICATION OF GENEVA GAS PACT

Declare Abolition of Poison Gas Warfare Will Lead to Something Worse.

Washington, Dec. 10.—(INS)—"Absolutely certain of success, the American veterans of three wars met today in Senate drive to reject ratification of the Geneva Gas Treaty."

Backed by virtually every soldiers' organization in the country, the veterans' bloc of the Senate waged war against the treaty on the ground that its approval would leave America without proper national defense. Its rejection by this country, it was admitted, will mean abandonment of the treaty by all the other nations which attended the Geneva conference or last June.

The treaty was opposed in the Senate by Senators Warren, (R.) of Wyoming, Civil War veteran Wadsworth, (R.) of New York, a South American war veteran; and Reed, (R.) of Pennsylvania; Stephen, (R.) of Iowa; Means, (R.) of Colorado; Robinson, (R.) of Illinois; Tyson, (D.) of Tennessee; and Steek, (D.) of Iowa, veteran of the World War.

A roll by International News Service indicated rejection of the treaty when a vote is held.

The veterans opposed the abolition of gas as a means of warfare on the ground that it would force opponents to the use of far less humane weapons. They produced statistics to show that not more than two per cent of those affected by gas die, whereas deaths caused by shell, bayonet and shrapnel wounds amount to a far higher percentage, besides leaving wounds which maimed for life.

"If we abolish poison gas, our hands would be tied in time of war and deprive us a weapon we ought to have," declared Senator Robinson, of Indiana.

Senator Tyson regarded gas as one of America's most effective weapons.

"To abolish it would weaken our national defense resources immeasurably," he declared.

The veterans clashed with a view expressed by General J. P. Shanks, who opposed the treaty. "Gas warfare is a cruel and inhuman mode of warfare."

EVOLUTION ISSUE WILL COME UP IN NEXT LEGISLATURE

Indications Now Are That There Will Be "McKinley Business" in Coming Session.

Raleigh, Dec. 10.—(INS)—Against an anti-evolution bill will break its fury on the North Carolina legislature.

That an unspecified amount of "monkey business" will be transacted at the forthcoming session in January was regarded as practically certain in legislative circles here today.

While it has been generally understood that the Pook anti-evolution bill would be introduced again this year, the mobilizing of the state's militant band of fundamentalists—the committee of one hundred—at Charlotte yesterday served somewhat as a life saver for the apparently dying issue.

Now that the modernist-fundamentalist controversy has awakened the evolution issue from its slumber of nearly a year—rather, what was thought to be a natural death—the General Assembly seems to be faced with an inevitable fight, and that fight will revolve around the "monkey" issue.

The anti-evolution committee has appointed a sub-committee which will endeavor, with the guidance of an "able Christian lawyer" to examine "legal and constitutional aspects" of proposed legislation relating to the teaching of the evolution theory in North Carolina schools.

All this, ostensibly, will be done before the end of the year, or more than likely, before November 20, when the committee will meet at Charlotte again.

None of the members of the committee of one hundred would be hazarded to say just what legislation would be sought, but it was clearly understood that a concerted effort would be made to outlaw the evolution theory in tax-supported schools.

A more definite plan of attack was learned unofficially, would be drawn up at the December 20 caucus.

WILBUR REFUSES TO PRODUCE ALLEGED WAR SCARE REPORT

Indications Are That Defense Counsel In Oil Case May Rest Late Today.

Washington, Dec. 10.—(INS)—Secretary of Navy Wilbur today declined to produce in court at the Fall-Doheny trial the Japanese "war scare" reports which E. L. Doheny, oil magnate, admitted him to hold for the Elk Hills and Pearl Harbor oil contracts.

The reports were made by Rear Admiral Albert Gleaves in 1921. Wilbur said he deemed them to be of a "confidential nature" and disclosure of which would be injurious to the government, and harmful to the welfare of the people.

Frank J. Hogan, defense counsel, did not press him and Wilbur was excused without cross-examination.

In a voice low and husky, and at times almost inaudible, E. L. Doheny, oil magnate, under a rapid fire cross examination by Government Counsel, told the jury today that he could conceive of no reason why his suspicion should attach to his loan of \$100,000 to Secretary of Interior Albert B. Fall from whom he leased the Elk Hills oil reserve.

Owen J. Roberts, of the government staff, tried doggedly to break down the story of the loan which Doheny said was a perfectly natural transaction between old friends who had suffered many hardships together. The old man stuck consistently to his earlier estimation.

Doheny was on the stand all told for about eight hours. With his testimony out of the way, the defense is expected shortly to rest its case, probably later today.

New England States Thriftiest

Washington, Dec. 10.—(INS)—New England is still the thriftiest section of America, according to the Comptroller of the Currency.

Figures made public today showed per capita savings deposits in national banks of that district to be \$283, well ahead of the East and West.

GOLF TOURNAMENT FINALS ON TODAY

Greensboro, Dec. 10.—(INS)—Mrs. John D. Chapman, of Greensboro, will defend her title here today against Miss Dorothy Ide, sensational young Philadelphia star, in the finals of the Carolina women's tournament.

The men are expected to have secured approximately \$1,000,000 through fraudulent methods. Advertisements were carried in principal newspapers of the country that was alcohol, urging purchase of Florida fruits at a low price.

A confederate in Greenville, forwarded the mail to a local hotel where the three indicted men had their headquarters. The check and money orders were cashed but the Florida fruit were never shipped, the indictments charged.

Briand Says Agreement to Meet Germany's Request For Withdrawal Will Be Reached.

Geneva, Dec. 10.—(INS)—Confident prediction that the question of Germany's disarmament in accordance with the Versailles treaty and the withdrawal of the inter-allied military control commission, in accordance with Germany's request would be arranged were made by Foreign Minister Briand of France, today following a conference of the "Big Five" here.

"Everything is going along nicely and I hope we will finish tomorrow night," said the Premier.

Here Stresemann gave assurance that Germany would meet the protests against the fortification of Hoesingberg and also charges that she is exporting war material.

The agreement reached yesterday for the withdrawal of the control commission in accordance with the demands of Germany, was somewhat shaken by Marshal Foch's report to the Ambassadors' council protesting against the fortifications of Koenigsberg and to a lettered trenches near Dvinsk which the Poles claim were free access to, this free port.

SMITH RESIGNS AS MEMBER OF BOARD ALDERMAN

Tendered Resignation Last Night. City To Borrow \$30,000 to Meet School Deficit.

John Ivey Smith, at last night's meeting of the Board of Aldermen resigned as a member of the First Ward, creating a second vacancy on the board. F. J. Forbes having resigned two months ago. The matter of filling the vacancy made up by the resignation of Mr. Forbes came up for the second time last night but action was deferred until an adjourned meeting to be held on December 31.

Mayor D. M. Clark elected in November as Solicitor of the Fifth Judicial District announced at last night's meeting that he would submit his formal resignation as Mayor at the adjourned meeting on the 31st, in order to take up his new duties. Several other matters of importance were given attention at last night's regular session.

The matter of extending the curb and gutter on Tenth street between Reade and Cateshore street, was deferred to the next meeting.

The Fire Committee of the board was instructed to investigate the matter of the present ordinance prohibiting the placing of metal roofing over old shingle roofs and report to the board whether or not this ordinance should include composition as well as metal.

The matter of extending Broad street was referred to the streets committee.

The committee recently appointed to arrange for the installation of a heating plant for the city offices and buildings reported that contract had been let and the work would be completed before the first of the year.

A resolution providing for the renewal of the \$50,000 short time loan which matures next year for the purpose of street work, is being believed that in this way the amount would be curtailed and settled without issuing bonds.

A resolution authorizing the paying to the Pitt County Fair Association \$100.00, expended for decorating the streets during the fair, was passed.

At a joint meeting of the Board of Aldermen with representatives of the city schools, the board passed a resolution that the town borrow \$30,000 for the schools. The amount, it was explained, is to cover a deficit in the school funds owing to expenditures for improvements, etc., above the \$200,000 bond issue.

Awarded \$50,000 In Half Million Heart Balm Suit

Pittsburgh, Dec. 10.—(INS)—Anne Caldwell, New York actress was awarded \$50,000 by a jury in federal court here today in her suit for a half million heart balm from John W. Hubbard, millionaire Pittsburgh manufacturer.

The verdict was returned when the case opened here today, after twelve hours deliberation by the jury.

Attorney O. K. Keaton, for the defense, immediately filed a motion for a new trial.

Neither of the principals was in court when the verdict was returned.

CONFIDENT RECALL OF ALLIED TROOPS FROM RHINELAND

Washington, Dec. 10.—(INS)—Confident prediction that the question of Germany's disarmament in accordance with the Versailles treaty and the withdrawal of the inter-allied military control commission, in accordance with Germany's request would be arranged were made by Foreign Minister Briand of France, today following a conference of the "Big Five" here.

"Everything is going along nicely and I hope we will finish tomorrow night," said the Premier.

Here Stresemann gave assurance that Germany would meet the protests against the fortification of Hoesingberg and also charges that she is exporting war material.

The agreement reached yesterday for the withdrawal of the control commission in accordance with the demands of Germany, was somewhat shaken by Marshal Foch's report to the Ambassadors' council protesting against the fortifications of Koenigsberg and to a lettered trenches near Dvinsk which the Poles claim were free access to, this free port.

Overman Questions Wisdom of The Dill Resolution

Washington, Dec. 10.—(INS)—The Dill resolution, proposing to re-Senate-elect Smith, Republican of Illinois, and Vare, of Pennsylvania, from the Senate, met with a cool reception today from Southern Democrats—as champions of the state's right theory.

"I question the wisdom of setting such a precedent," observed Senator Overman of North Carolina, one of the Democratic leaders.

"Let both Senators be sworn in and then decide the equality of their election."

SENATOR MCKINLEY WAS MURDERED TODAY

Senator William B. McKinley, veteran Republican lawmaker, was today to rest today with services being in their final stages.

The funeral was in keeping with the expressed wishes of the Senator where later years were spent in giving away a great part of his fortune he acquired in public utility enterprises.

Senators Robinson, D. Ark.; Harris, B. C.; Pine, R. Okla.; and Fowler, P. L. S. D., and Representatives from Illinois attended.

STORES WILL OPEN EVENINGS FOR HOLIDAY SHOPPERS ON DEC. 26th

The Board of Directors of the Merchants' Association in their regular meeting last night voted to recommend to the membership of the Association that the stores, beginning Monday, December 26th, remain open in the evenings for the benefit of the holiday shopper.

In previous years the evening opening period has been for three, or two weeks prior to Christmas, but past experience has been that the public did not do their shopping until about one week before Christmas Day, and for this reason they suggest that all stores remain closed in evenings until above specified date.

GRIFFIN & WILLIAMS

Pre-Holiday Sale

Beginning Sat. Dec. 11

Our entire stock of Shoes and Hosiery will be offered during this sale at a big reduction.

Our stock consists of the latest showing in Ladies and Men's Footwear.

We have just received a big shipment of Barlin Brooklyn hand turned sole and also a big shipment of Florsheim Shoes for young Men.

Daily News Letter

Consists of Staff Correspondents at World Centers of Population.

San Francisco, Cal., Dec. 10.—Gertrude Ederle, the first woman to swim the English channel isn't interested in William Wislizenus' \$25,000 offer to be the first person to swim the 23 mile channel between the island of Santa Catalina and the California mainland after January 15.

Trudy admitted as much when she was here recently on her tour of vaudeville theatres.

Miss Ederle, it seems, charts her swimming course with the precision of an ancient mariner.

I have studied some navy reports on the waters in the Los Angeles Harbor, said Trudy, and I find there are dangerous hot and cold currents off San Pedro. Sharks and porpoises are numerous. I swim the English Channel just for the sport of it, but that \$25,000 is no inducement to me to try the Catalina channel.

Remarkable recoveries in cases of juvenile diabetic patients were reported recently by Dr. Francis Scott Smyth of the University of California hospital in San Francisco. Through the use of insulin, Dr. Smyth declared, juvenile diabetes is no longer fatal.

Out of sixteen cases, handled at the hospital, he explained, six children not treated with insulin died; while of 13 others, all treated with the extract, ten are still living.

Colored persons are less liable to diabetes, Dr. Smyth has found. On a hundred years ago 15,000 Indians died in the Sacramento and San Joaquin river delta districts.

W. Herbert Schenck, research associate at the University of California estimated today that the Indians he believed occupied possibly fifty villages along the river.

Advent of the padre and concentration about missions, Schenck declared, resulted in sharp reduction of the tribes and in 1870 there were only five Indians in the entire Joaquin valley.

California ornithologists were hunting today for the famous bird who died in Vancouver, B. C. in 1829. Existence of the collection became known when H. S. Swart, curator of birds at the University of California found it described in two old notebooks.

From the description of the collection, scholars declare it to be the finest ever assembled of California birds, containing many specimens which are now rare and extinct.

One of the hardest athletic penalties on record was recently imposed by the California Football Association upon W. Frick, a soccer football player.

Frick, who staged a referee in a recent soccer game, was barred by the association for life. The banishment, it was learned, is effective not only in California, but in every state of the union.

The severe penalty, according to the association, was intended to be exemplary in order to assist other players to realize that pugilistic impulses.

ROCKEFELLER ARRIVES AT FLORIDA HOME

Daytona, Fla., Dec. 10.—(INS) John D. Rockefeller, Sr., multi-millionaire magnate, is spending his first day of the season at his winter home at Ormond Beach today following his arrival last night from New York.

The aged oil king showed no ill-effects this morning from the 29 hour trip and expected to take a turn on the golf links today.

W. Davis, his secretary, said Rockefeller is not greatly impressed and is enjoying his usual health, Davis stated.

UNDER THE TREE

It's thrilling to have the presents under the tree distributed Christmas morning.

But while you go about the task of selecting them, don't forget some mighty thoughtful gift, that won't be under the tree.

There's the new kitchen sink to take the place of the old one that looks so poorly and causes so much inconvenience. Or those new bathroom fixtures you've been thinking of getting.

Such gifts don't lend themselves to the annual ceremony under the tree, but how they do add to the comfort and convenience of living year after year!

Let your gifts this year be the most thoughtful, gifts that will contribute to the convenience of the lady of the house, and to healthier and more beautiful surroundings in the home.

We've some mighty thoughtful home appliances—gifts to help you scatter Christmas cheer.

MR. CANNON OUT
Friends of Mr. E. T. Cannon, who has been quite ill, will be glad to hear that he is improving and is able to leave the hospital.

M. E. CHURCH, STOKES
On Sunday afternoon at 3 p. m. the Rev. James E. W. Cook will preach at the M. E. church, Stokes. A cordial invitation to visitors and friends.

MINSTREL COMING
Grant Allan, advanced man with John R. Van Arman, Minstrel, was here today, in interest

of the minstrel, which will be shown here next week. Last year was the first appearance of the minstrel here and the public was highly pleased. The performance this year promises to be even better than last year's.

DANCE AT COUNTRY CLUB
There will be a dance at the Country Club tonight for the members and their guests. Music will be furnished by the Vagabonds, and dancing will last from 9 until 12 o'clock. Judge and Mrs. Albion Dunn and Mr. and Mrs. Swanson Grave, will be acting hosts for the club.

BUY RED CROSS SEALS
Figures have a good deal to recommend them. They don't smile. They don't frown. They just stand there and say one thing. And they don't lie. In America last year we spent per capita: \$10.00 for candy, \$9.00 for education, \$3.50 for police protection, 75c for perfumery.

50c for chewing gum. And for Health—29 cents. That is why the Tuberculosis Association.

So it can go ahead with its public health work. And teach our people. Not to be stingy with dollars. When it comes to saving lives. Cheating gum may be useful. But it's not twice as useful as health. Buy Christmas Seals. Support public health work. I pay.

One Health Bond sold yesterday to Barney Warren. Tuberculosis Seals may be purchased from Greenville Drug Co., Hill Home Drug Co., Roney Warren Drug Co., A. B. Ellington.

Mass every morning at 7:30. Rev. Father Egbert, C. I., of the Passionist Order, Springfield, Mass., a noted missionary will conduct the services. The public is invited.

FIDELIS CLASS TO MEET
The Fidelis class of the Immanuel Baptist church will hold its next meeting tonight in the church parlor. We urge every member to be present, and to bring their husbands. We also want to remind each member to bring their stamped piece offering to the Orphanage Christmas

A LETTER FROM MR. HAYES
Claude Tunstall, Agent, Provident Life and Accident Co., Dear Sir—

Check for \$20 received in payment for mashing two fingers. Wish to thank you for attention to same. You have a good policy for the average man or woman. Yours truly, Lemon Hayes, care Sugg Motor Co.

When boats are floated they seldom find their way back to the home port, but stick to the floaters

JUDGE DARDEN IN BALTIMORE
Judge and Mrs. W. A. Darden left yesterday for Baltimore where Judge Darden will enter Johns Hopkins hospital for treatment.

A LETTER TO MR. BARNES
S. A. Barnes, Lookinsville, Ky. Dear Sir—I take pleasure in sending you check for \$20 to cover 3 day sickness from ptomaine poison. If not satisfactory, please advise.

A LETTER FROM MR. GALLOWAY
Claude Tunstall, Provident Agent. Dear Sir—

Have received two checks \$55.00 to cover sprained shoulder. Payment was prompt and very satisfactory. Your policies suit me o.k.

Yours truly, Jarvis M. Galloway

HAILING FAIRBANKS IN "BLACK PIRATE"
High and Dazzling Adventure on the Sea Brings Glamorous Picture as Newest Offering. With the news that Douglas Fairbanks' latest screen offering, "The Black Pirate," will be the feature attraction at White's Theatre, Monday and Tuesday, the added word that this picture is entirely in color and rank as one of the most elaborate cinema spectacles of the year.

Fairbanks is as usual the romantic adventurer achieving no end of thrills through his hazardous ways inimitable, and frequently amusing "stunts." His ingenuity and athletic prowess are big factors in his struggle to win a captured dancsel from a ship-load of blood-thirsty pirates. The situation forms the drama of the play as well as the backbone of the story.

As was the case with the highly popular "Robin Hood" and "The Thief of Bagdad," the story of "The Black Pirate" is an original from the pen of Elton Thomas. It was adapted to the screen by Jack Cunningham, scenarist for "Don O", "The Covered Wagon" and many other noteworthy pictures. Directed by Albert Parker, who has directed several Fairbanks pictures.

"He can have nothing of his kind surviving in him who has no pleasure in 'The Black Pirate'—the critic. 'The Spanish Main was never more perilous than when Mr. Fairbanks sailed to the pirates had but know, of his presence, they would have abandoned their profession before daring to hold up the ship that contained him and his father's generation of high degree. Of what avail to lash the captured crew in bundles to the masts and lay a trail of gunpowder round them? To what purpose blow up the captured vessel and imperil your piratical triumph complete? 'Somehow Mr. Fairbanks will escape and swim ashore with his dying father in his arms. The shore he strikes will inevitably belong to the island where the pieces of eight are hid. Having carved an oath of vengeance on the paternal tombstone, he will

watch the pirates jiggering for their mightily (in spite of the scepter-board, will leap forward upon-ism of the villainous second mate) to enlist in their band, will by swearing to capture the next defeat their captain in a single merchantman with his own un-com'at and impress them all aided hand.

SOLVING OUR PROBLEMS

WHEN WE sat down TO WRITE this ad. WE SAID to ourselves, SAID WE. NOW, WE'LL just TELL THE folks ABOUT THOSE beautiful NEW NAMDAH Rugs. IMPORTEL FROM India THAT ARRIVED yesterday. TO SELL at \$12.50; AND A new shipment OF CHRISTMAS Candles. FOR YOU at 25 cents; AND SOME of those ESSENTIAL RUGS from THE BLUE Ridge Mountains— YOU KNOW the one? YOU'VE BEEN raving about. THEY'RE HERE, too. AND AFTER this WE SCRATCHED our heads TO TRY and think WHAT THE next BEST THING

WE HAD better TELL YOU about. THAT WOULD make A GOOD Christmas gift. AND AFTER a while WE GAVE up in despair AND THREW up our hands AND SAID, "Oh, chucks!" THERE'S SO many things. AND BEAUTIFUL things FOR EVERYBODY. THAT IT WOULD take THE WHOLE newspaper TO TELL you about them AND TO save time AT THIS season. WE'RE JUST going TO EXTEND to you AN INVITATION TO VISIT this little shoppe AND SEE for yourself WHY THE Vanitie Boxe IS CALLED "The House OF A Thousand Gifts" WE THANK you.

A Kodak—and won't they be pleased

You may be sure that anyone on your Christmas list will be pleased with a Kodak—it's a gift that will be used the year around. Here's the place to select Kodaks for Christmas—our knowledge of the Kodak line helps us help you.

*Christmas Kodaks from \$5 up
Brownies are from \$2 up*

RADIO TUBES

FIFTEEN TYPES

each one designed to perform efficiently a definite and particular task in your receiver.

The correct Cunningham Radio Tube in each socket of your set will greatly improve your radio enjoyment—will result in clearer and sweeter tone quality, improved sensitivity and selectivity, greater volume and minimum distortion.

Study each type—acquaint yourself with its specific use and value. Then consult your nearest Cunningham radio dealer—he will gladly check over your tube equipment and make certain you have the correct combination of Cunningham Radio Tubes to enable your receiver to render its utmost in tone quality and realistic reproduction.

CX-300A, CX-301-A and CX-371 or CX-112, all with 5 volt filaments, in correct combination, will bring your receiver to its point of highest efficiency. CX-301A is the ideal radio tube for general purpose work and will serve you well in any or all sockets of your set. However, especially in 5 and 6 tube tuned radio frequency or neutrodyne receivers the best tube equipment will include our new super-sensitive detector, CX-300A, and one power amplifier to feed the loud speaker—either CX-371 or CX-112, with CX-301A, in all the remaining sockets. CX-371 is the latest and most efficient power type, but CX-112 is more adaptable to certain circuits. Adding the new Cunningham detector and a Cunningham power amplifier to your receiver will improve tone quality, increase volume and eliminate distortion. Your set will then meet the highest modern standards for excellence in broadcast reception.

CX-220 in combination with **C-299** or **CX-299** is the ideal Cunningham equipment for dry battery operated sets. C-299 and CX-299 serve the same purposes in dry cell receivers that the CX-301A does in storage battery sets. They are both general purpose tubes, differing only in their bases. CX-299 has the new standardized CX base while C-299 has the old style base designed for the sockets of the earlier types of dry cell receivers. CX-220 is a power amplifier for dry cell work and used in the last audio frequency stage in combination with CX-299 or C-299 will improve the tone and operation of any loud speaker.

C-11 and **CX-12** are also general purpose tubes for dry cell circuits and vary only in their bases. These two tubes are especially suited to sets wherein filament battery space must be held to a minimum. These tubes are not as highly efficient as C-299 and CX-299, and have no power tube to supplement them.

CX-310 is a heavy duty power amplifier designed to operate heavy duty loud speakers.

CX-313, CX-310B are rectifier tubes to be used in connection with socket power devices, including "B" eliminators. These tubes insure smooth set operation direct from the house lighting circuit.

CX-374 is a glow tube used to regulate output voltage of "B" eliminators.

C-376, Ballast Lamp, connected in series with the primary of the transformer supplying "B" battery eliminators, maintains output voltage constant despite variations in line voltages.

CX-377, Protective Tube, protects your other tubes from burnouts through wrong "B" battery connection or short circuits. It is a form of insurance.

Eleven years of concentrated effort on a single product has brought such uniform perfection that confidence in these tubes and in the name they bear is almost universal among radio enthusiasts. The vigilance that has won for Cunningham Radio Tubes such nation-wide confidence is not and shall not be relaxed. Our reputation is by far our most valuable asset.

ANOTHER MILESTONE

The Reflector today turns another milestone, and while as a daily publication, today marks the beginning of our thirty-second year. The Reflector dating back to its beginning as a weekly, has been Pitt County's news paper for the past forty-five years.

Early in January 1882, The Reflector, under the guiding hand of the late D. J. Wilchard, made its first appearance as a weekly, later a semi-weekly, and on December 10, 1894, the first issue of The Daily Reflector was printed.

During these forty-five years The Reflector has with pride heralded the rapid progress of Greenville from a village of less than a thousand inhabitants, and the proud possessor of one brick store, to a city that is recognized as among the leading of the eastern section of the state. From less than a thousand population the city has grown to that of the ten thousand class while building and industry during the period have shown equal, if not even greater, progress. Today Greenville, the home of good business conditions, the state's best tobacco market, the East Carolina Teachers College, six public schools, several industrial manufacturing plants, more than a dozen churches, a hospital, excellent electric and water supply, and fine residences in keeping with the rest of the city's progress—boasts of unsurpassed advantages, religiously, socially, educationally and industrially. The slogan of the city is "Our Greenville, Yours If You Come," and the truth of the slogan has been realized by those from the outside who have come to this city to cast their lot with that of the residents here.

Nor has The Reflector been asleep or idle during these forty-five years. Not willing to be "Just As Good" it has always been the aim of the paper to try to keep just a step ahead of the community, and with untiring efforts we have endeavored to attain this goal. Laboring always for the interest of the town and community, it is gratifying now to turn back the pages of our files and recount how many of the early dreams of the founder of The Reflector are today a reality.

is in his second or third year at a university. One often wonders if it would not prove more beneficial to have the young man enter the business or career of his choice, and learn from practical experience rather than books. It seems at times that the pursuit of such subjects as history, psychology, philosophy, and kindred subjects are wasted.

A COLLEGE EDUCATION

If such training worth to the man who does not specialize in a certain profession, such as medicine, law, engineering, or the like? This question often arises in the minds of the high school graduate, the parents who are considering sending their son to college, and even the student who

receives in their books, made high marks, but disregard the other part of college, and who later became tailors in the world. Of course, it is just as dangerous to go to the other extreme.

While the college graduate, with his knowledge of theory and other advantages, generally starts at the same salary with the man who has not had this chance, usually the former, more confidently strides ahead. He is soon into consideration. It has paid with interest for the time and money spent in their college degree, and are now making a success in the business world, that the knowledge obtained from books played the minor part, that it was the confidence inspired in one, the ease with which one can conduct himself in a crowd, and the art of being a good mixer, which makes the time spent worth while.

And there is no doubt that one is aided along these lines. It is indeed a rare case where a man does not make friends and associate with many different people during the four years spent in a university. In most cases social functions are attended and enjoyed. Making new friends becomes natural. New ideas are learned and one obtains a broader view of life.

Such qualities are essential to almost every occupation, and most certainly essential if one is to be considered a success. A man without friends can hardly make a success in any phase of life. This has oftentimes been proven. These have been numerous examples of students who absorbed them

Statistics show that although less than one per cent of American men are college graduates, yet this one per cent has furnished fifty-five per cent of our Presidents; thirty-six per cent of the Members of Congress; forty-seven per cent of the Speakers of the House; fifty-four per cent of the Vice-Presidents; sixty-two per cent of the Secretaries of the Treasury; sixty-seven per cent of the Attorneys General; sixty-nine per cent of the Justices of the Supreme Court.

With these facts in view, is a college education worth while?

Deal promptly with a cold. Use the most efficient, most complete help. That is HILL'S. It is so ideal that we paid \$1,000,000 for it. HILL'S stops the cold in 24 hours, checks the fever, opens the bowels, tones the entire system. Millions now employ it. Start it today.

HILL'S Cascara-Bromide-Quinine. Be sure you get HILL'S (in the red box with portrait). At all druggists. — 30c.

America Has Half Gold Money In All the World

Washington, Dec. 10, (INS.)—The United States has nearly half the gold money in the world at the close of 1925, the comptroller of the currency announced today.

France held the paper record with 51,985,100 francs outstanding. Romania had 26,460,185,000 lei, Italy 21,389,700,000 lira, and United States \$5,423,421,000 in Green and Yellow backs.

In the News Spotlight

JAMES A. GULLIVAN

CHARLES E. MITCHELL

DR. ORESTES FERRARA

CHARLES M. SCHWAB

A national referendum on prohibition was provided in a bill introduced in Congress by Representative James A. Gullivan of Massachusetts. Charles E. Mitchell, president, announced an increase of \$50,000,000 in the capital of the National City Bank, making it the largest in the world. Dr. Orestes Ferrara arrived in America from Cuba as Ambassador Extraordinary. Charles M. Schwab, steel magnate, was named president of the Engineering Club.

\$235,000,000 reorganized as national banks. Each time a national bank abandons its charter the federal government loses an instrumentality through which it maintains a direct control over banking policy and operations," McIntosh said. Each withdrawal constitutes the loss of a unit in the basis membership of the Federal Reserve System. With resources of national banks approximately \$25,000,000,000, state commercial banks \$29,000,000,000 and state savings banks \$10,000,000,000 the national system holds but 39 per cent of the banking power of the country, it was pointed out. "This shows," he said, "that the federal government is gradually losing its positive and immediate control over commercial credit and over membership of the Federal Reserve System. The greater volume of com-

mercial banking already has passed under the policy control of state legislatures. Enactment of the McFadden bill would be a step in the direction of the re-enslavement of the system of national banks." Ninety-one national banks with capital of \$5,412,500 were placed in the hands of receivers the year ending October 1. For the year ending June 30, 496 states and private banks with liabilities of \$147,823,000 went to the wall. State bank failures were 56 fewer than the year before.

night clubs district of New York today. A reward of \$5,000 for information leading to his arrest has been offered by the American Surety Company. Glisson is said to have been an active church worker, a model hus-

SAYS NATIONAL BANK SYSTEM IS FACING THE END

Comptroller Says System Headed For Scrap Heap Unless Congress Acts at Once.

Washington, Dec. 10—(INS.)—America's national bank system is headed for the scrap heap unless Congress acts to stem a tide of desertions from the system. Comptroller of the Currency J. W. McIntosh warned today in his annual report to Congress. Widespread desertions from the national bank system are "clearly indicated, of the difficulty which national banks find in operating under the present charter powers," the report said. Congress was urged to enact immediately the McFadden banking bill, minus the Hull amendments, which would deny both to national banks and state members of the Federal Reserve System the right to establish branches outside of the home city of the parent institution. "The bill," McIntosh said, "would prohibit the extension of branch banking in the 26 states which do not have laws authorizing this practice." Eighty-seven national banks surrendered their charters for state authority to operate in the year ending October 1, carrying resources of \$560,000,000 out of the national bank system, the report showed. In the same period 29 state banks, with resources of

Gorman's Market Report

The sales have finished each day this week shortly after dinner. On any sale from now out we can get you sold before or around dinner hour, regardless of what sale we have. Prices at Gorman's have held up well during the week but it has taken a knowledge of grades and values and nerve to back this to get the top market value.

The better grades showed more strength with us on Thursday. Our customers are all going home satisfied, and each day many come and thank us for their good sale telling us they received more money than they had expected.

Bring us your tobacco, compare our sales with any other market or warehouse and we believe you will be convinced that Gorman's is the place to sell.

We have first sale Monday, Second sale Tuesday, First Sale Wednesday. The market closes Friday for the holidays and will reopen on January 11th.

WHERE THEY ALL SAVE MONEY

TODAY

Airships—For Japan.
Melons Are Ripe.
290,000,000 Man Power.
Methodist Rule.
(By Arthur Brisbane)

Japan has placed in Great Britain an order for 25 passenger airships, costing \$30,000 apiece, each able to carry twenty passengers. These British-made Japanese airships will carry two engines developing 1,000 horse power.

The Japanese are friendly and they are not worried over talk in the oil trial about serious trouble with Japan, two or three years ago.

And it is fortunate that Japan is so friendly to us. For if THEY ever started a non-stop light airship wouldn't come down. This poor little country has a few ships that can go up. But they can't STAY up.

Nice Melon in Wall Street. The Woolworth Company, capitalized at \$100,000,000, hands fifty millions new stock to shareholders.

The Fidelity-Phoenix Fire Insurance Company gives shareholders one hundred per cent stock as a bonus, and there are others.

A stock exchange seat selling at \$175,000, new high price, is supposed to indicate confidence in the bull market.

Lamb are usually bulls, and when lamb come in steel brokers make money.

Lord Rothermere says Britain misses prosperity by failure to develop electric power. "The economic welfare of the United States," says he, "is based more than anything else on the fact that she has 24,000,000 electrical horse powers in her factories, equal to 220,000,000 human workers."

Senator Bruce of Maryland, an Episcopalian, attacks what he calls Protestant "rule of the state." The Methodist dry board, says Senator Bruce, overshadows any activity of the Catholic religion.

Friends of Governor Smith of New York, who is a Catholic, say "The Methodist have ruled this country long enough. It is time for somebody else to have a chance."

If your little boy has talent learn from Paderewski, who arrived yesterday, how the good judges often go wrong.

As a youth Paderewski went to a great violin teacher in Berlin, who said to him, "You will never be a musician, so you might as well play the piano."

And Paderewski played the piano, a great pity. The violin excels the piano at the piano, except the tom-tom.

You will be glad to learn that your country is rich. In spite of gigantic expenditures, the country's EXCESS income is now above four hundred millions. The Democrats say five hundred millions.

Louis XIV, or the Duke of Orleans, regent, would have found a way to use that up quickly. But Coolidge is no Louis XIV. He wants to save those dollars, but warns against excessive tax cuts. The revenues may not always be so big.

Dr. Stabinger, Swiss scientist, has shown that cattle can be made immune to tuberculosis by vaccination.

The fight against tuberculosis could be made successfully without vaccination, although that would be a great blessing should it prove successful in advanced cases.

Good food, fresh air, rest and reasonable exercise are the tuberculosis cures that nature supplies.

Another maximum. The National City Bank, formerly biggest in America, is now the biggest bank in the world, having increased its capital stock. There is a drain of comfort to the stockholders that receive "rights and privileges" amounting to about 75 millions, enough to be interesting.

Get a good bank, take care of it, and it will take care of you.

Supreme Court Justice William Harmon Black denounces "black on hearted judges and juries" that encourage crime, waste quick trials, with two-thirds of the jury deciding. No unanimous vote necessary.

The two-third idea would not suit criminals, and the prosperous among them would be obliged to purchase at least five or twelve jurors, whereas now one or two purchased "game guys" can prevent conviction.

We may live in a free country but it is only so as long as we refrain from violating its laws. Get a pin there.—Greensboro Record.

666

is a Prescription for Colds, Grippe, Flu, Dengue, Bilious Fever and Malaria. It kills the germs.

MURDERER BEGINS LIFE SENTENCE

Jno. Gray Saved From Electric Chair By Eleventh Hour Com- mutation.

Raleigh, Dec. 10.—(INS)—With a calm stoicism verging almost on indifference, John Gray, middle-aged Stanley county murderer, vacated his cell on death row today.

Gray a broken figure since his one confinement in state prison while counsel made a series of fights to save him from the electric chair, was to have marched out the drab cell into the death house today to pay the supreme penalty for the murder of Bud Watkins.

Instead, however, he began the first day of a life term in the prison. An eleventh hour commutation of sentence by Governor McLean snatched Gray from his march to the electric chair.

Gray, a criminal described as one of the most gruesome in North Carolina criminal record. After robbing Watkins, he dismembered and cremated the body.

Carl Smeeth, Croatan Indian was indicted with Gray, but he turned late evidence, and is now serving 20 years.

Former Prime Minister Dead

Belgrade, Jugo-Slavia, Dec. 10.—(INS)—Sikolj Patchitch, famous radical leader of the Balkans and former Prime Minister of Jugo-Slavia, died today at the age of 81.

Death came as the result of a long illness added to the infirmities of old age.

Nikola Patchitch had been active in Balkan politics for nearly sixty years during all of which time he has been a factor to be reckoned with in any dealings with the Balkan people. He was ever fearless, picturesque, headstrong leader. He was known as the "grand old man of Serbia."

During his political career he was Prime Minister more than a dozen times.

His greatest triumph was at Paris peace conference when, he succeeded in bringing the Coats, Serbs and Slovenes to accept the present constitution of Jugo-Slavia thus insuring a greater Serbia.

FORSYTHE CASE
TURNED OVER TO JOHNSTON COUNTY

Officers Believe Robert Stephenson Will Be Apprehended Before Nightfall.

Raleigh, Dec. 10. (INS)—The dragnet that has been extended into every corner of the state for Robert Stephenson, accused co-slayer of mighty Forsythe, tightened perceptibly today, and officers expressed the belief that

Stephenson would be captured before nightfall. Search for the fugitive of nearly three weeks went on with a new impetus following the Wake county coroner's jury, jury's order that Stephenson be held along with Robert Separk, alleged run runner, and Evelyn Britt, 18 years old Durham girl, for the murder of the picturesque run ring head. However, it was believed that the biggest part of the man hunt now would be undertaken by Johnston County officials as the case was turned over to that county by the coroner's jury yesterday. After it had ascertained that Forsythe was killed on Johnston County soil. Stephenson, Separks and the Britt girl were to be held without privilege of bond for Johnston County officials, and the case automatically transferred to that county. Stephenson, Separks and the Britt girl are alleged to have been occupants on the speeding run laden automobile in which Forsythe was

hilled, apparently with some heavy sharp edge instrument. Harry Baucum, alleged Raleigh run runner, and Arcus W. Thompson, of Durham, who had been held as accessories, were released by the coroner's jury. Separk already is being held in

the Wake County jail here without bond. The Britt girl, however, is free on \$5,000. Officials said that she would be re-arrested today.

plant and sent flame, shooting to the sky. While streams of blazing oil poured out from eight huge tanks, workmen from different parts of the plant fled for their lives, before the streams of flaming oil that pour out in every direction. A second blast then shook the city, as fire, caused by the first explosion, reached still other tanks of oil.

BILLIARD CHAMPION TO SAIL FOR EUROPE
 New York, Dec. 10. (INS)—Jake Schaefer, world's 18.1 balk line billiard champion and former holder of the 18.2 title, will sail for Europe next week accompanied by Mrs. Schaefer, it was announced today. The champion plans matches in England, France, Germany and Belgium.

Oct. 12.62	12.70	12.58	12.65	

MARKET LETTER

New York, Dec. 10.—(INS)—After reaching higher price level today, the industrial and railroad stocks were subjected to considerable profit taking and speculative selling, as a result of which numerous reactions were noted and the trend of the market more uneven in the latter part of the day. The steel corporation report of forward tonnage, more than fulfilled expectations, with a gain of near 125,000 tons in November. Another favorable factor today was the 4 1/2 per cent call loan of the renewal rate, which foreshadowed a comparative easy financing of the final income tax payments and Treasury settlements next Wednesday. A spectacular advance in Lehigh Valley to 106, completing a gain of about 15 points on the move, was generally attributed to competitive buying of the stock for the account of the Delaware and Hudson and New York Central interest, which are believed to have entered on a stage of friendly warfare for control of most of the railroad leaders favoring Loree's contention that the road should be used to hook on the B. P. & R. lease of which is now sought, and the Delaware &

Hudson Lines.

Reading was also a feature in the railroad list, with its 3 point rise to 97 2/3 in active trading. Atchafalaya, New York Central and other dividend rails sold higher. United States Steel sold above 152 in continuation of its spectacular forward move and buying of the stock was attributed to some degree to accumulation by the directors for distribution to employees. Crucible ran up to a record high price of 81 3/4, while Bethlehem and Republic advanced in good form, the former in anticipation of a probable return to the dividend column next year. Rough sledding was again encountered by the oil stocks, which were unable to make any headway in the face of persistent selling. Standard Oil of New Jersey, dropped to another record low price for the year at 37 1/4. The move in the motor shares failed to carry very far. Nal was heavily sold following yesterday's spectacular rise and the stock dropped back nearly 3 point. Speculative interest turned from the motors to the specialty stock early in the day and thereafter the motors were dull and heavy. The commodity markets were also reactionary, with cotton, grain, coffee, rubber and copper inclined to slightly lower price levels.

GRAIN CLOSE

Chicago, Dec. 10.—(INS)—Grains closed steady to easier today with wheat 1 1/8 to 1 3/4c lower; corn off 3/8 to 5/8c; oats 1/4 to 1/2c higher. Outside influences were reflected in sharp declines at start today, all grains opening

lower. Trade throughout the market was moderate and buying power dwarfed. After opening 5/8 to 1c lower wheat declined further on local and commission house selling. Estimated receipts here were 22 cars. Corn followed wheat in an immediate decline after opening 1/4 to 1c lower, selling by professionals precipitating the break. Recent buyer unloaded on the weakness of other grains, sending oats down sharply after the opening which was 1/4c below yesterday's close. Trade held moderate. Provisions were steady to eased with moderate trade.
