BUDGET MESSAGE IS DELIVERED TODAY IN GENERAL ASSEMBLY

Report Shows That Budget Plan Has Saved State Over Million Dollars in Biennium. Teachers College to be Enlarged to Care for Three Hundred More Students. Several Changes in Tax Levies.

Raleigh, Jan. 7.—(AP)—Governor McLean today delivered his budget message, the first complete balance sheet of the State of North Carolina, to the General Assembly.

The Governor addressed his budget to the second joint session of the lawmakers before his planned departure late today for New York on bond business for the State.

The Senate and House arranged of routine business to study the second message.

The Governor declared the result of the budget system during the current biennium a saving to the State of \$1,263,524.01.

Accompanying the message covering the operations under the budget system for the first year, the Governor submitted the maintenance recommendations of the commission for the various departments and institutions for the next two years.

In addition to this he submitted the recommendations of the commission for the various departments and institutions for the next two years.

The report revealed the fact that the various departments and institutions requested maintenance appropriations for over sixteen million dollars for 1927-28 and over sixteen and a half million dollars for the next year.

These requests the Budget Commission cut to \$14,686,109 for 1927-28, and \$15,124,659 for 1928-29.

The total spent for the fiscal year 1925-26 was \$11,702,300.

The Budget Commission recommends the expenditure of five and a half million dollars for permanent improvements as against thirteen million dollars requested by the various State institutions.

In analyzing the source of the savings of the last year, the Governor points out that the 1925 Legislature made appropriations totaling \$12,983,067 for the year ending June 30, 1926. The total budget revenues collected for that year was \$11,494,063 less than that amount.

Instead of spending all the money the Legislature appropriated, the departments and institutions, under the direction of the commission, spent only about eleven and three quarters million dollars, leaving a cash balance in the treasury at end of the fiscal year of more than a million and a quarter dollars.

Most of this credit balance on June 30, 1926, the Governor declares, was the direct result of saving in expenditures.

The sum of \$351,000 was saved when the director of the budget exercised the authority vested in him to reduce maximum appropriations authorized for the departments and institutions.

The Governor points out that this cut of ten per cent was made because it was estimated that the collection would be about a half million dollars less than was actually collected.

Even with this cut many of the departments and institutions did not spend all of the amounts allotted to them the report asserts.

Dealing with the institutions of higher learning, the report says that while the recommendations for maintenance and permanent improvements are not as great as requested, they are nevertheless ample to take care of the expected expansion during the new biennium.

The recommendations for permanent improvement at these institutions are very liberal when reviewed in the light of the total available for the same purposes during the past six years.

The message deals in some detail with each of the other State institutions and departments.

It declares that the State prison for the calendar year of 1925 showed an operating profit of \$48,000, and for the fiscal year ending June 30, 1926, an operating profit of \$45,000.

The low price of cotton, however, will probably wipe out this profit at the end of the calendar year.

The Governor says that the central prison in Raleigh is a distinct liability and should be gotten rid of as soon as possible.

The Budget Commission recommends that the School for the Blind and Deaf Negroes in Raleigh be sold, and that \$250,000 be appropriated for the erection of a new school at a more desirable place in or near Raleigh.

The report also recommends that the Legislature appropriate a sum of \$200,000 to erect a gift of \$100,000 for the erection of new buildings for the North Carolina College for Negroes at Durham.

The report recommends substantial increases for the Department of Conservation and Development, the expenditure of \$15,000 on capital building and grounds, an increase in the facilities at Caswell Training School, so that 700 children instead of 385 can be taken care of, that \$20,000 be added to the Meaders Aid Fund, that provision be made for a broadcasting station, and that the Legislature appropriate \$25,000 to aid the Daughters of the Confederacy in erecting a Confederate monument at Gettysburg.

The Governor and the Budget Commission recommend that \$65,000 be appropriated to spend on the old Blind School property in Raleigh in fire-proofing buildings and making improvements in the property which will give the State additional storage and office space that will have a replacement value of over \$150,000.

The budget report does not propose any new sources of revenue, but proposes to shift the surplus of a million and a quarter dollars that will be in hand at the end of the fiscal year, using a part of 1925 money and the additional revenues that may be secured from a slight increase in license and fees, and the natural increase under the old laws, together with an additional inheritance tax, to make up the additional sum needed for the larger program.

The revenue bill will provide for additional revenue from these specific sources:

1.—Amendment of inheritance tax schedule so as to superimpose over and above the present inheritance taxes levied by the State, an estate tax on all estates over \$100,000 in value, equal in amount to eighty per cent of the estate tax levied by the federal government.

2.—Change in cigarette and tobacco license tax schedule.

3.—Increase in the tax on contractors.

4.—Change in the bus and truck tax.

5.—Change in privilege taxes on theatres and motion picture shows.

6.—Increase in the license tax on soft drinks and on soft drink manufacturers and bottlers.

The director and the commission have been impressed with the urgent need for trained teachers in the elementary schools of the State, both white and colored, the Governor declared in discussing the appropriations for educational institutions.

He points out that the teacher training institutions are filled to capacity and people have to be turned away each year. The report, however, does not recommend the erection of new normal schools, but rather the enlargement of the present ones.

Attention is called to the fact that the North Carolina College for Women contemplates the establishment of a two year normal course. The permanent improvements, therefore, recommended for the Greensboro institution, East Carolina Teachers College, Culbreth and Appalachian, will provide for 300 more students at Greensboro, 200 at East Carolina, 140 more at Boone, and 200 additional at Cullowhee.

This will provide for the training of 940 more teachers at these institutions and these with those at the University and State College and the other schools in the State, the commission thinks, will meet the urgent need now.

The report carries fifteen detailed financial statements covering every field of operation of the State. Amounts appropriated for the past biennium, the amounts requested by the various departments and institutions, the amount recommended for each year of the

JOHN V. MACMURRAY

HUGH GIBSON

John V. MacMurray, American Minister to China, was summoned to Washington to discuss the Chinese situation with President Coolidge. Hugh Gibson, American Minister to Switzerland, returned for a vacation in Los Angeles. Senator William H. King rebuked President Coolidge for "attempting to lecture the press" on the manner the State Department handled the Nicaraguan situation. Henry Fairfield Osborn was elected president of the American Museum of Natural History.

ASK JURISDICTION TOBACCO MARKET RECORDER'S COURT HERE TO REOPEN FOR LOCAL MAYOR ON NEXT TUESDAY

Aldermen Pass Resolution Requesting Legislators to Enact Such Change in Law

Several matters pertaining to the city streets, recommendations to the legislature for extension of powers of the mayor, and routine matters composed the business session of the Board of Aldermen last night in the first meeting of the year. Every member of the board and Mayor J. C. Lanier were present.

Under a resolution adopted by the board the legislators from this county are urged to seek enactment whereby the jurisdiction of the Mayor of Greenville would be extended to that of the recorder's court.

Another resolution adopted by the board urged the trustees of the Greenville graded school district to prepare a budget for 1927-28 and present same to the board by the first of May.

The matter of whether conducting dances as a club proposition was in conflict with the recently adopted ordinance prohibiting scrip dances, was discussed and the mayor was instructed to visit the dance to be held tonight and report back to the board his findings.

Under the head of streets and street improvements there was much business. The matter of opening up Broad street from Ridgeway, west to Watauga Avenue, was referred to the street committee for investigation and report.

The matter of straightening Albermarle Avenue from the colored theatre to Fifth street was discussed and Mayor Lanier was ordered to take condemnation proceedings against property through which the street must pass unless satisfactory terms can be arranged with the owners.

Petitions for curb and gutter on Rotary and Biltmore Avenues was adopted and the work was ordered carried out as early as possible.

Engineer H. L. Rivers presented to the board a copy of the map of the Wilson subdivision in East Greenville opposite the college property. The board ordered that the street, from the point where Johnston and Fourth street intersect, running east parallel with Fifth Street, be named Fourth Street.

TODAY

A Language Union Religion's Bitter War. Leigh Month. The Proud Nordic. (By Arthur Brisbane)

W. R. Hearst, in his newspapers throughout the country, advocates a union of English-speaking nations to maintain peace. He would have them agree to keep the naval and air forces DOWN to a certain point, but also UP to definite strength and efficiency able to compel peace, if necessary, by fighting for it.

No defensive alliance, no condoning by one nation of aggressive acts by another, but an agreement by English-speaking peoples not to fight among themselves and to protect each other to outside aggression.

This, according to Hearst, would not mean helping England to hold down subject races in Egypt, India, etc., an agreement between free English-speaking white men of the United States, Great Britain, Ireland, Canada, Australia, New Zealand and South Africa, to insure themselves against war by preparation and mutual agreement.

With such an agreement Australia and New Zealand could peacefully develop their civilization within the shadow of Asia.

Why not include in the arrangement free immigration among the contracting parties? Intermarrying would help here.

After the Romans stole their Sabine women all was serene. Although nothing as drastic as that would be suggested in their silk stocking days.

If anybody objects to a combination based on language it can be pointed out that such a combination is easy, and a real movement for peace must begin somewhere.

Religious fighting is bitter and vile, whether one religion attacks another, or branches of the same religion exterminate each other. Christians have led in the pious task of exterminating other Christians. You remember the fate of the Aborigines and busy St. Bartholomew's eve.

Jews have suffered so much from exterminating proclivities of Christians that you are surprised to read about rival sects of the Jewish religion fighting each other in Czecho-Slovakia. Thousands of orthodox Jews at Munkacs destroyed the synagogue of a more liberal Jewish community at Belz. It shows that an earnest religious fanatic can be more dangerous than an evolutionist.

The month of January, 1927, in which good resolutions are now being made, is to be "National Laugh Month." Moving picture potentates and others have decided and arranged it. Americans are to laugh and thus keep up their morale.

It would be better to locate laugh month in December. For looking over eleven months of much promise, much resolving and little performance, laughing would be easy.

There is such a thing as over-doing laughing, for laughing is like smoking. When you do either, you don't think, and what the American people need is more THINKING.

A learned professor Eatop, who teaches geology, is worried about the world's food supply in case population should increase, and says: "To allow wholesale immigration would be to distinctly lower the Nordic type by amalgamation."

In addition to "splitting the infinitive" which should never be done by a Nordic, the professor exaggerates the Nordic's importance.

We could use, very nicely, a few men like Caesar, Archimedes, Plato, Aristotle, Michael Angelo, Leonardo da Vinci.

They were not Nordics, but Greeks and Italians, representing mixed races. Very likely they got some Nordic blood from the blue-eyed men running up and down the Balkan mountains.

Nobody, by the way, advocates indiscriminate immigration. But we do need, in California and Florida alone, at least ten million good Italian, to make us of the land that the Lord has given us of that we took from the Indians.

Once Dutch tulip growers struggled to produce that rarest of flowers, a back tulip. A bulb, that might be worth thousands of pounds.

Human beings always want what they may not have, an excellent thing, it makes them work. Now, in London, where tiny love birds are the fashion, there

OVER \$365 WEEKLY FOR FIRST PLACE CONTEST WINNER SENATE REQUESTS THIRD FEDERAL JUDICIAL DIST. FOR NORTH CAROLINA

Upper House of Assembly Today Passing Resolution A-1. Establish New District

Despite Brevity of Morning Session Many Bills of Local Nature Introduced

HOUSE SESSION TODAY LASTED BUT 15 MINUTES

Raleigh, Jan. 7.—(AP)—The House remained in regular session only 15 minutes today recessing to meet with the Senate at 11:30 to hear the Governor's budget message.

Rev. C. R. Hudson, South Side Baptist church, Raleigh, offered the opening prayer.

Judge Francis Winston presented a petition adopted by the State Association of county commissioners at the Blowing Rock session in 1925 seeking legislative approval of the abolition of the \$300 tax exemption, interference with county convict camps and authorization for counties to offer discounts for early payment of taxes and provide penalties and delinquency for the state to provide for the care of idiotic persons known burdens upon the counties.

Dr. Oscar Haywood moved that the committee suggested in his resolution yesterday to look into the cost of beautifying the home of President Andrew Johnson be named and make its investigation this week-end. After some debate, the bill was recalled from the committee, passed three readings and was sent to the Senate for consideration.

Eight bills, all of a local nature, then flowed in. Nash, Richmond proposed repeal of the law governing election of Richmond county board of commissioners. Winston Bertie, sought an audit of various books and boards in his home county.

Wilson, Transylvania, closed the day by sending forward six bills which would repeal laws relating to the rural patrolmen in his county, and amend laws touching on the duties of the county board of commissioners, enforcement of prohibition laws, highway upkeep, laws, brokerages, and mortgage laws and the law fixing salary of the county treasurer.

Raleigh, Jan. 7.—(AP)—Following the Governor's message, both branches of the Assembly adjourned until tomorrow, the House until 10 o'clock and the Senate until 11.

A large number of members obtained leaves of absence over the week-end. The session tomorrow is expected to be little more than a formality. The Assembly will meet again next week at 8 o'clock Monday night.

PITTSBURGH BANK CLOSING ITS DOORS

Pittsburgh, Jan. 7.—(AP)—The Pittsburgh Deposit and Title Company of Pittsburgh, with deposits of more than \$1,000,000, was closed today by the Pennsylvania State Department of Banking.

TO OUR PATRONS

It is our earnest desire to render the best service at all times, and in order to attain a degree of efficiency toward both our advertisers and our subscribers, we find it necessary to adhere to a strict deadline rule hereafter. When the paper is published on time the subscribers receive it on time with the result that it is read with more interest and the advertisers benefit to a greater extent from their announcements.

We have found it an impossibility to hold our advertising columns open as late as has been our custom in the past and get the paper out on time, therefore we have adopted the following rules regarding the acceptance of advertising:

All advertisements of half page size or over, or ads the nature of which require an unusual amount of composition, must be in the hands of our advertising department on the afternoon of the day prior to publication of same. All other advertisements must be in the hands of the advertising department before ten o'clock on the day of publication, and subject to our ability to handle.

In the future, one of our representatives will call upon the merchants in the afternoons instead of the mornings as heretofore. Any desired assistance in the preparation and arrangement of your advertisements will be gladly furnished by our representatives.

We are as close to you as your telephone, and a call to 56 will bring the advertising man to you.

RECEIVE NEWS FROM LONDON TODAY OVER WIRELESS TELEPHONE

The first news dispatch to be received by the Associated Press over the radio telephone commercial service started today between London and New York from its London bureau at 10:02 o'clock today, when the New York headquarters, obtained a connection, over the wire and radio circuit of the American Telephone and Telegraph Company operating in conjunction with the British postoffice.

Charcoal and pastel are forming a new school of American art which will sometime replace that of the oil portrait, asserts William Van Dresser, eminent American artist.

Nobody, by the way, advocates indiscriminate immigration. But we do need, in California and Florida alone, at least ten million good Italian, to make us of the land that the Lord has given us of that we took from the Indians.

Once Dutch tulip growers struggled to produce that rarest of flowers, a back tulip. A bulb, that might be worth thousands of pounds.

Human beings always want what they may not have, an excellent thing, it makes them work. Now, in London, where tiny love birds are the fashion, there

FEATURES OF KNOWN VALUE

You Gain By The Benefits of Success

All these features of value, and all those others that will impress you as you go over this Oldsmobile point by point—

years at Oldsmobile's low prices. In these features Oldsmobile returns to you the benefits of manufacturing advantages and economies, created by the greatest year in Oldsmobile history. The economies of General Motors are passed back to you. And if you please you may drive an Oldsmobile Series "E" as you pay for it from your income—on the G.M.A.C. plan of deferred payments.

Graciously Every Taste Satisfy Every Need The Oldsmobile may be had in ten body styles: the Standard Touring, \$875; the DeLuxe Touring, \$980; the DeLuxe Roadster, \$1025; the Standard Coupe, \$925; the DeLuxe Coupe, \$990; the Standard Coach, \$950; the DeLuxe Coach, \$1050; the Standard Sedan, \$1025; the DeLuxe Sedan, \$1125; and the Landau, \$1190; all prices f. o. b. Lansing. Standard

and DeLuxe types are the same, except that the latter include as steel bumpers, front and rear; snubbers all around; genuine motorometer with lock bar cap; rear signal lamp and other added luxuries.

FACTORS OF PROVEN WORTH

Special Design This shape gives greater turbulence to incoming gases, producing smooth and spirited performance and is a modern development of General Motors Research Laboratories.

Two-Way Cooling Oldsmobile offers "two-way" cooling which incorporates the best features of the two accepted types—pressure and thermo-siphon cooling. At the points where greatest heat is generated—around the valves, valve seats, spark plugs and combustion chambers—pressure-circulated water is driven through a manifold type passage. Cylinder walls do not heat so rapidly. A full flow of cooling water would cool them too much. Therefore the circulation is restricted and retarded. In other words, parts at the points of greatest heat are cooled by the pressure method of circulation, while the slower thermo-siphon type of action, in which the rate of circulation is largely governed by the reaction of heat upon the water, maintains about the cylinders sufficient warmth for efficient operation. This also aids in eliminating crankcase dilution. All DeLuxe types are equipped with thermostat cooling control.

High Velocity Manifold The manifold retains the high velocity given the incoming gases as they leave the carburetor and pass into the combustion chambers. To further promote complete vaporization of the incoming fuel, jacketing of the intake manifold by the heated exhaust manifold is effected in the critical section of the intake passage above the carburetor. The intake manifold being above the exhaust manifold, and heated by it, retains the highly explosive state of incoming gases.

Double Valve Springs The double valve springs in circuit and racing cam profiles, together with the "quieting-curve" contour of cam, result in positive valve action. Valve lifters operate while in action, minimizing noise and wear.

Silent Timing Chain Camshaft and generator are driven off crankshaft by a silent chain, operating in a constant flow of oil.

Double-Offset Low Gravity Frame This design provides a wide mounting of springs for greater roadability. The frame is 28 inches wide in front, providing short turning radius, and 42 inches wide at rear for proper mounting. There are four strong cross-members, the front member tubular for extra strength and best engine mounting, the rear 14 inches wide for strength at point of greatest stress. Cross-members are strongly webbed and gusseted to frame side rails. The frame is "kicked-up" over rear axle to provide low gravity, easy riding and ability to hold the road.

Interior Features The mohair upholstery of a taupe shade in all closed body types is exceptional lustre and wearing quality. The satin nickel fittings are of rich, period design. Their beauty is but one feature, their utility another. The quick-acting window lifts, large interior door handles, ash receptacle in over-passenger closed types, VV windshield, automatic windshield cleaners on closed cars, instrument unit grouped in walnut panel centered on instrument board, walnut steering wheel, heavy rug and rubber mat, genuine leather upholstery in open cars, deep spring-cushioned seats at angles of greatest ease and many other features.

Fisher-Tone Duo Bodies The Fisher-Tone Duo bodies are finished in ultra-touring-tone Duo, polished to a finish distinctively beautiful yet in conservative good taste. They are of the reliable composite construction of steel sheeting on a strong hardwood frame with joints that are mortise-wedged, glued, screwed, bolted and given extra strength at principal points by steel braces. The radiator is finished in the new permanent-lustre chromium, exclusively Oldsmobile's.

Twin-Beam Lights Controlled from Steering Wheel Head lamps have double filament bulbs, one for "bright" one for "dim." On "dim" the light is bright and projects at a downward angle that gives simple vision to the Oldsmobile driver yet protects oncoming drivers and conforms to all state laws. Headlights are operated by a neat lever, like the hand throttle, on the steering wheel. It may be operated without removing hands from wheel, slowing down or taking eyes from road.

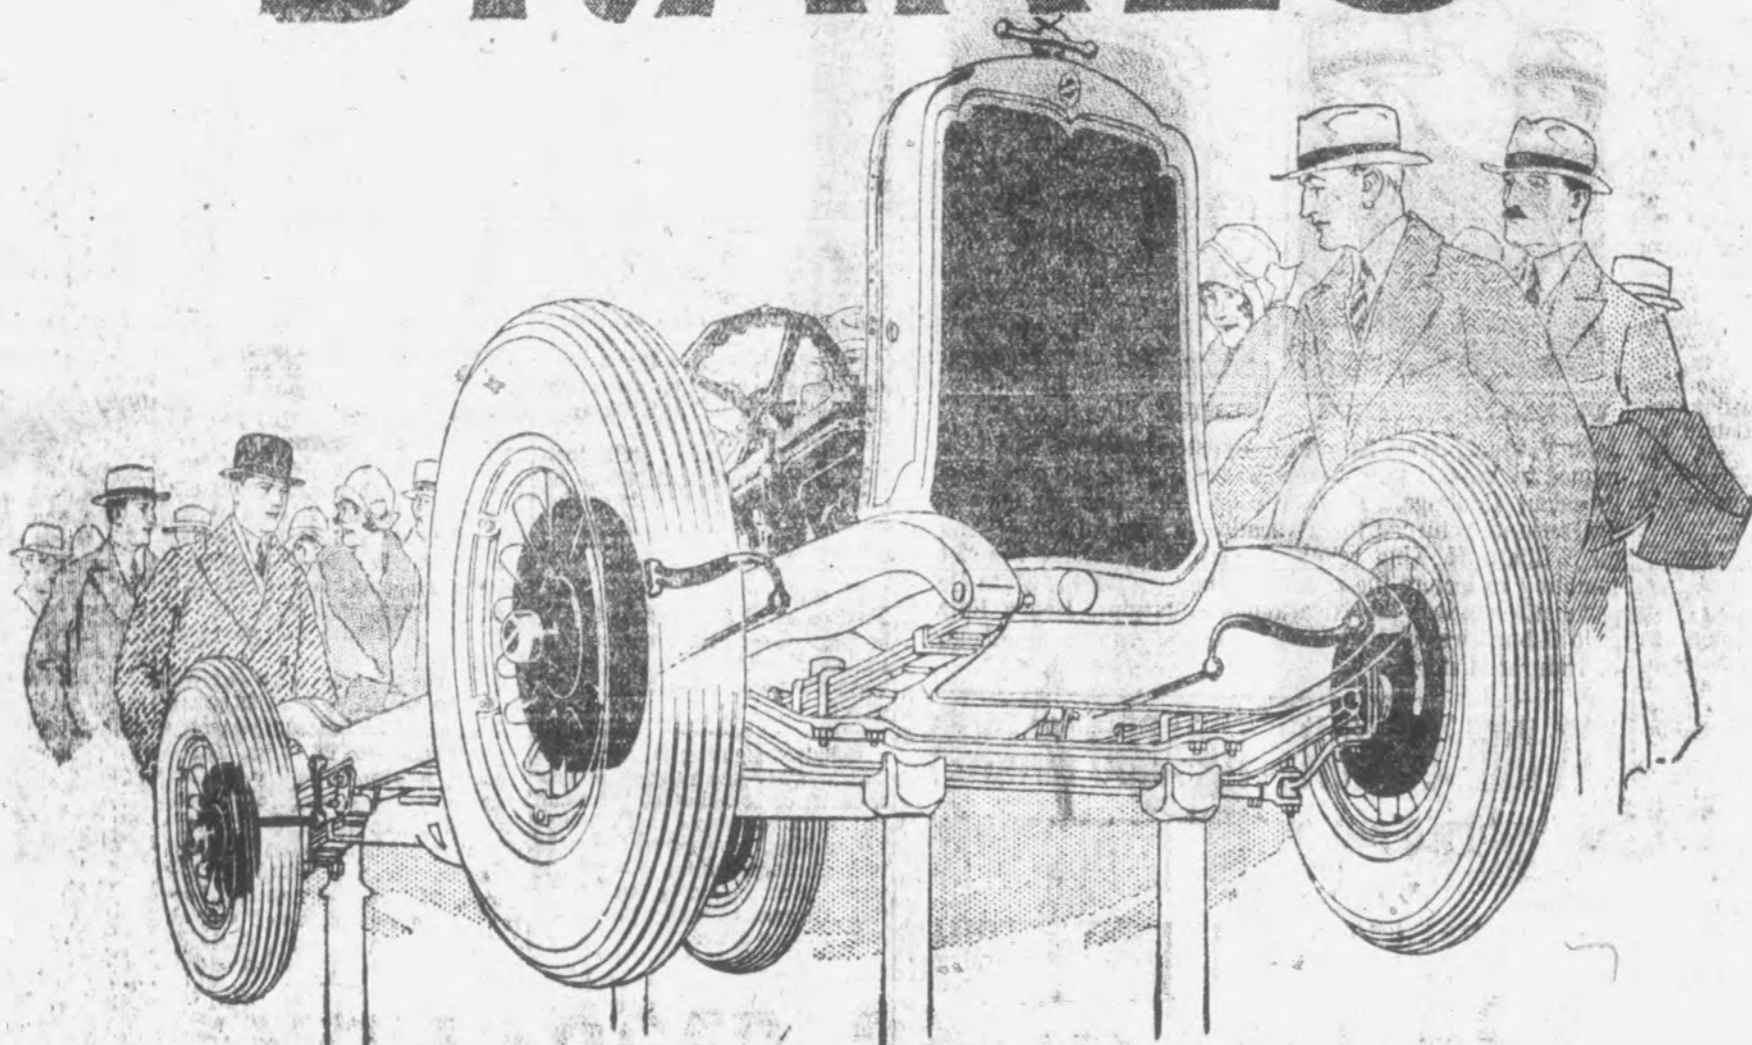

Instruments Illuminated Soft indirect lighting individually illuminates each instrument without glare or reflection in driver's eyes.

Instrument Panel Fuel Gauge A reliable instrument board fuel gauge is standard on all Oldsmobiles.

Thief-Proof Car Lock A new thief-proof car lock is a feature. The engine cannot be started with key left in lock. Turning off ignition positively locks the car. This is an entirely new and exclusive method of positive locking. Thieves cannot "cut" as on other locks, for switch and coil are built integral in a vault-like steel housing. A non-locking "temporary stop" position is provided.

Thermostatic Charging Control When on the road there is a general security in knowing that your electrical system is functioning properly and your generator giving an adequate charge. Oldsmobile has thermostatic control on the generator that automatically increases charging when the engine is cold and decreases it as the temperature rises. Spark control is full automatic.

OLDSMOBILE ANNOUNCES FOUR-WHEEL BRAKES

AND LARGER BALLOON TIRES NO PRICE INCREASE

Crankcase Ventilation, Oil Filter, Dual Air Cleaning, Two-Way Cooling, Harmonic Balancer, item after item described in the marginal notes... and now—larger (30x5.25) Balloon Tires and Four-Wheel Brakes! Thus Oldsmobile adds to its imposing array of features of known value and demonstrated worth in the car that asks no favors, fears no road.

Thus Oldsmobile keeps faith with its policy pledged to progress. Today, more than ever before... no matter what car you favor or what price you are willing to pay... you owe it to yourself, your pocketbook and your sense of satisfaction to know Oldsmobile Six. See it, drive it, go over it, point by point, study every feature. Then and only then, can you realize what a remarkable value this Oldsmobile is.

Sugg Motor Co.

DISTRIBUTORS

Greenville

North Carolina

L-Head Engine The L-Head Oldsmobile engine is of the reliable and time-tested poppet valve type. The bore of the cylinders is 2 1/4 inches, stroke 4 1/4 inches, 186 cubic inches displacement.

The gear ratio is such that maximum power is developed within the average driving range.

Cylinders The cylinders of the Oldsmobile engine are finished to a hard, glass surface by honing with fine abrasive papers. This operation is indicative of the care and precision that is evident in the quality that extends to the smallest hidden part.

Crankcase Ventilation In all internal combustion engines water is formed by condensation. Cold engines do not burn all of the fuel on starting. The water and liquid fuel pass into the crankcase and form dilution.

Excessive dilution is eliminated by crankcase ventilation. One-third of the air that passes through the carburetor is drawn through a breather port in the left side of the engine. This air, cleaned of dust and injurious material by a second air cleaner on the breather port, passes through the crankcase before entering the carburetor. It draws off with it water vapor and unburned fuel that may have passed into the crankcase—thereby eliminating excessive dilution. This air also carries with it a small amount of the oil vapor created in the crankcase, which aids in more efficient lubrication of pistons, valve cylinder walls, and valves. Crankcase ventilation improves performance and gives longer life in the engine and longer useful life to the oil. This system is simple and efficient and has no moving parts.

Dual Air Cleaning Dust and dirt from the road form an abrasive or cutting element in the working parts of an engine. In Oldsmobile a primary air cleaner eliminates the injurious particles from two-thirds of the air before it enters the carburetor direct, while the second cleaner in connection with the intake manifold cleans the remaining one-third of the air.

Oil Filter An oil filter removes all impurities from the oil and the useful life of the oil. Sediment and foreign matter are removed as the oil passes through the filter and filter back from the rear camshaft bearing.

Threefold Security Against wear: threefold protection in the trial of miles—crankcase ventilation, dual air cleaning and oil filter bring new thrift—only 3 to 4 oil changes in an average driving year.

Harmonic Balancer The Harmonic Balancer, developed by General Motors engineers, counteracts vibration. The large, drop-forged crankshaft is dynamic and static balanced. The grain flow of metal in the forging is held at right angles to the lines of stress. Crankshaft and large pressure-cast main bearings are rigidly designed in crankcase in strong web inter-ribbed with case.

Four-Wheel Brakes Now Oldsmobile adds—at no increase in price—four-wheel brakes to further promote assurance of safety and driving peace of mind. The front wheel brakes are self-energizing, internal, three-shoe, crandall type. The brake is entirely enclosed as protection against water, dirt and oil. The action is positive and the braking efficient. The rear wheel brakes are the efficient split-shoe, two-piece type in which the action is mechanical and the hands clamp the drum like jaws, assuring maximum contact and braking. The hand parking brake acts on the rear wheels. As a safe guard against driving with the parking brake applied, the foot pedal depresses with application of the parking brake.

Larger Balloon Tires In addition to four-wheel brakes at no increase in price Oldsmobile also adds larger, 30 by 5.25, balloon tires. These tires promote even greater riding comfort.

Balloon Steering The worm, split nut type geared steering mechanism is specially geared for safe and easy steering control. The ratio of the balloon-steered mechanism permits easy steering even in congested traffic.

Easy-Shift Transmission The transmission is built as a unit with the clutch and engine. The shifting lever is long and shifting is easy. Here is a feature of control that can be appreciated only after you have taken the wheel and enjoyed its advantages.

Three-Way Lubrication Through lubrication is assured by the use of "three-way" oil delivery. The accessible gear pump, operated by the forward end of the camshaft, delivers oil at equal pressure and consistency to the main bearings. Efficient lubrication is assured, because oil is delivered through the oil filter and the oil tubes to the main bearings, and also flows through the full length of the drilled crankshaft oil passage. Passages from the main bearings deliver oil to camshaft bearings. Other parts of the engine are lubricated by an oil spray from the bearings. Pressure is automatically regulated by an accessible control. There is an oil-pressure indicator on the dash and a depth gauge on the left side of the engine.

Clutch Features The single-plate, dry-disc clutch engages positively, yet gently. The design is simple, adjustment seldom required. Pedal pressure is very light. The housing is ventilated. The patented self-lubricating clutch release bearing, mounted in a self-aligning transmission housing, is of compressed baked carbon-graphite and normally lasts the life of the car.

LOCALS

T. A. Richards, of Raleigh, was here today.

Miss Margaret Cook left this morning to visit friends in Petersburg, Va.

Mr. and Mrs. J. L. Woote, are spending some time in New York. Miss Bessie Brown left this afternoon for Raleigh, where she will be the guest of Miss Mar. Heke.

James S. Ficklen, away on a business trip to Lynchburg and Danville, Va.

ROUND TABLE CLUB

On January 4th the Round Table held the first meeting of the year at the home of Mrs. H. E. Austin.

After a cordial New Year greeting Mrs. Edward Austin invited the guests into the cozy dining room where a cheery table fire added to every one's comfort and welcome. The president called the meeting to order, and the usual business routine soon dispensed with, after which the program was given. The study of coal, by Mrs. Willes Brown was both interesting and instructive, giving facts and figures quite enlightening to all present.

The horseshoe of the members given by Mrs. R. G. Fitzgerald were very humorous and elicited quite a bit of merriment at each one's hobby was read in rhyme.

The Round Table felt proud that a committee with so much wit and originality could be found among its members.

The visitors present were Mesdames Adams, Keech, Deal and Henderson and Miss Martha Tyson of New York. At the close of the program most enjoyable refreshments were served.

MRS. STOKES ENTERTAINS BRIDGE CLUBS

Mrs. R. C. Stokes, Jr. entertained the members of both her bridge clubs on Thursday afternoon. The home was appropriately decorated with potted plants, greens and poinsettias. Bridge was enjoyed at four tables. The high score prize, a blooming plant was won by Mrs. James S. Ficklen and Miss Mary Warren, cutting high, was also presented a blooming plant.

The hostess, assisted by Mrs. E. S. Williams, served tempting card course and candies.

KING'S DAUGHTERS WISH TO THANK PEOPLE

The Patient Circle of the King's Daughters wishes to thank the people of Greenville for their generosity during the Christmas holidays, thereby enabling the Circle to dispense Christmas cheer and happiness to some poor families in the community who might not have had any Christmas.

DEATH OF MRS. W. GRAY KEEL

Mrs. Alma House Keel, wife of K. Gray Keel, of Bethel, died in the sanatorium at Rocky Mount on January 3rd, following a month's illness. The funeral was held on January 4th and burial was made in the family cemetery near House, N. C. The funeral was conducted by Elder J. E. Roberts, of Greenville. The active pallbearers were F. L. Blount, Frank Randolph, Heber Erley, Willie Cherry, Bennie Moore and N. C. Beverly. The honorary pallbearers were N. G. Staton, R. H. Keel, D. N. Nobles, D. G. Barnhill, J. D. Roberson and C. E. Harte.

Mrs. Keel was a lovable lady of excellent character, and will be missed by a host of friends. She is survived by her husband, her parents, Mr. and Mrs. Grege T. House of the county, one sister Mrs. B. M. Worsley, of Oak City and one brother, David L. House.

GIRLS CLUB ORGANIZED AT MILLS SCHOOL

On Monday afternoon, January 6th Miss Ferguson organized the Girls Club at Mills School. There are sixteen members and the officers are as follows:

President, Bettie Williams; Vice-president, Zula Evans; Secretary, Stella Mills; Reporter, Lizzie Williams.

The club will meet on the first and third Friday afternoon of each month from 2:30 o'clock until 4:30 o'clock. All the girls in the community are invited to become members.

Lizzie Williams, Reporter

RECEPTION AT MEMORIAL BAPTIST PASTORAL

An informal but very enjoyable reception was held on Thursday evening at the pastorial of the Memorial Baptist church, in honor of Miss Mary Winborne, an Educational Secretary. The pastorial was attractively decorated with long leaf pine and pink tapers and green color scheme. The table in the dining room was especially attractive with a basket of pineapples, forming the centerpiece and decorated with pine and light-colored papers.

As the guests arrived they were cordially welcomed by Misses Helen Gray and Elizabeth Jones and Will Whedbee. In the living room they were received by Rev. and Mrs. H. Frederick Jones, and presented to Miss Winborne, the object of honor. The young people of the church served tea in the library and received in the library and hall, and served a pretty ice course in the dining room.

In the rear hall, the guest register in the guest books.

Music was furnished throughout the evening by the Sunday School orchestra, and the Misses Murton of the college, rendered several selections on the violin and piano.

This was the first reception, ever held in the new pastorial, and it was greatly enjoyed by the number of guests who called.

DEEDS OF TRANSFER

John S. Dixon and wife to Augusta Smith, 75 acres \$10.

F. S. Royster & Co. to J. S. Dixon and wife, 30 acres \$5,000.

L. B. Smith and wife to J. S. Dixon and wife, 75 acres, \$110.

Mary G. Burney to C. F. Burney, 1 lot \$1,200.

L. B. Kinlaw and wife to Bank of Ayden, 1 lot \$100.

W. O. Jolley and wife to J. H. S. Hodges, 1 lot \$10.

ENTERTAINMENT CLUB DANCE TONIGHT

The Entertainment Club will hold its first dance tonight at the "Entertainer" from nine until one o'clock.

MRS. HINES IN HOSPITAL

Mrs. P. R. Hines of Wilson entered the Pitt Community hospital today. Mrs. Hines has been visiting relatives in Ayden and was taken sick while there. Her friends wish for her a speedy recovery.

LOCAL CLERGYMAN HONORED

A high honor has been paid to the Rev. James E. W. Cook, rector of St. Pauls church, by the National Commission on Evangelism. He received a telegram yesterday from Washington, D. C., requesting him to assist Bishop Burleson, of South Dakota, as a Crusader in the Diocese of New Hampshire from February 6 to 18, inclusive.

Mr. Cook's vestry has graciously permitted him to accept this assignment.

The Bishops' Crusade is a nationwide evangelistic effort in the Episcopal church, primarily to deepen the spirituality of its members, and secondarily to bring the gospel tidings of those outside of the churches. It is the most

important movement undertaken by the Episcopal church in our country's history, and possibly the greatest religious movement since the Reformation.

To be called to the front ranks, and to fire one of the opening guns in the Crusade, is an honor to be highly esteemed. We feel sure that the Christian community of Greenville, of all denominations will join in praying for the success of Mr. Cook's mission, and that the seal of God's approval may be stamped upon his messages.

How Doctors Treat Colds and the Flu

To break up a cold overnight or to cut short an attack of grippe, influenza, sore throat or tonsillitis, physicians and druggists are now recommending Calumet, the purified and refined calcium compound tablet that gives you the effects of calomel and salts combined, without the unpleasant effects of either.

One or two Calumets at bed time with a swallow of water—that's all. No salts, no nausea nor the slightest interference with your eating, work or pleasure. Next morning your cold has vanished, your system is thoroughly purified and you are feeling free with a hearty appetite for breakfast. Eat what you choose—no danger.

Get a family package, containing full directions, only 35 cents. At any drug store.

LOCAL NEWS

MR. AND MRS. D. R. MORGAN ENTERTAIN AT BRIDGE DINNER

Mr. and Mrs. D. R. Morgan, delightfully entertained about forty friends at their attractive home in Farmville at a bridge dinner. The home used en-suite, was beautiful decorated to carry out a green and red color scheme. Evergreens and burning red tapers were used in profusion.

About seven-thirty, after all the guests had arrived, an elegant turkey dinner was served from ten small tables.

After dinner, a number of games of bridge and hearts dice were enjoyed. Mrs. D. E. Oglesby was presented the hearts dice prize, a blooming plant, and Mr. W. D. Bryan, Jr., was presented the bridge prize, also a blooming plant.

At the conclusion of the games, a delicious sweet course was served.

Redi, music was enjoyed throughout the evening. Among the guests present were Dr. and Mrs. G. M. Atwater, Mr. and Mrs. C. M. Toar, Mrs. C. H. Edwards and Mrs. J. J. Gilbert, of this city.

FIRE AT HOME OF F. J. FORBES

About 7:30 o'clock this morning, a fire alarm was turned in from box 52. It was the home of F. J. Forbes. The ashes had been removed from the furnace and thrown near a pile of lumber. The lumber was burning when the fire company reached the scene and they quickly extinguished it. No damage was done to the home except it was smoked on one side of the exterior.

ENTERTAINMENT CLUB DANCE TONIGHT

The Entertainment Club will hold its first dance tonight at the "Entertainer" from nine until one o'clock.

MRS. DAIL ENTERTAINS BRIDGE CLUB

Mrs. W. H. Dail was hostess to the members of her bridge club Thursday morning. Three tables were placed for bridge and a number of spirited games were enjoyed. Mrs. John Hodges, making top score, was presented a novelty bridge set, while the low score prize, a book "How to Play Bridge" fell to Mrs. C. S. Forbes.

At the conclusion of the games the hostess, assisted by her sister, Miss Margaret Blow, served an elegant luncheon.

Mrs. S. T. White and Mrs. R. L. Smith were visitor, of the club.

Entertainment

East Carolina Teachers College will present during the winter term the following entertainers:

- January 10, The Criterion Male Quartet
- January 17, the Zimmer Harp Trio
- January 26, The Community Players in "Two Blocks Away"
- February 2, The Cherniavsky Trio
- February 17, Captain Kilroy Harris, of the National Geographic Society
- February 25, Annual Junior Class Play

This is the best program of entertainments the college has presented, and it is hoped that a large number of people in Eastern North Carolina will avail themselves of the privilege now offered. The price for each entertainment will be \$1.00. The price for a season ticket, including all entertainments, will be \$2.50. Buy a season ticket and save \$3.50

Season tickets may be secured at the Administration Building of the College at four P. M. Thursday, Friday, Saturday and Monday, January 6, 7, 8 and 10.

"ADS" IN THE REFLECTOR PAY

Cotton Advances 2c per Pound

Through January and February 1927, only, we will pay our farmer friends 2c per pound more than the market price, to be applied to the down payment on a new Dodge Brothers open car, or as the down payment on any used car in the house. No trade-ins on this plan. This is not to be accepted as representing a reduction in prices, or the cutting of prices. We simply believe in your cotton and am willing to help if we can.

We have seven new cars in stock, over 7,000.00 dollars worth of the best used cars we have ever had, 1925, and 1926, Dodge Tourings and many other makes to select from. We carry a complete line of genuine Dodge parts. Wholesale United States Tires. In fact you pay less here. Try us.

LET IT BE DONE

Among other recommendations to the legislature Governor McLean advocated licensing of all automobile drivers in the state as a means of breaking up the evil of the drunken driver. He pointed out that when the offenders are hailed into court, a revocation of licenses would prohibit them from again driving in the state during their term of sentence.

His recommendation is indeed a good one, but he might have made it even stronger had he urged the lawmakers to include in the law a jail term should the violators appear under the steering wheel of a car during their period of suspension.

It is also to be hoped that the legislators will heed the recommendation of the Governor for a lighting of all vehicles that travel the public highways at night. The drunken driver and the unlighted vehicles are two of the greatest dangers to travelers in our state today, and the elimination of these two evils will be a long step toward safeguarding the life and property of our people.

BE THERE

Don't forget the mass meeting in the court house tonight. As a resident of this community, you are interested in whether or not there is oil in commercial quantities. If there is oil we want to know it. If there is not oil, we don't want to be roped in by a lot of swindlers who always swarm when the cry of "oil" goes out. Be on hand at the meeting. Hear what is said and let your opinion be known. If we are to make an effort to locate an oil well here let it be done in a businesslike way in order that the citizens who put their money into the project may feel that it is to be used for the purpose for which they intend it, and not to be gobbled up by a bunch of slick tongued sales men and confidence men.

OPEN FORUM

To the Editor of the Daily Reflector

Dear Sir:

I have just been out to Greenwood Cemetery, and I should like to draw the attention of your people to the fine progress being made in the development there. In a very little while it will be a beautiful and attractive place. The lots are spacious, thirty feet by thirty, and each lot surrounded by eight foot walk. Paths have been made, shrubs planted, fence erected, and the general lay-out promises that this God's Acre will be a credit to the community.

We are all too apt ministers, perhaps, especially to find fault with the work others are doing. I do not know who is to be complimented for the work at Greenwood, but this word of praise is sincere and deserving.

Yours truly,
JAMES E. W. COOK

BANDITS STAGE DARING HOLDUP

Three Youthful Bandits Rob Bank and Lock Fourteen Persons in Vault

Birmingham, Ala., Jan. 7.—AP—Swooping down on the Threent City Savings Bank today three youthful bandits held 14 customers and four employees at bay and riddled the vault of \$15,000. They then locked their 14 prisoners in the vault and escaped.

A touring car answering the description of the one used by the robbers, was later found deserted near East Lake. Leaving a fourth man at the wheel of their car, the three young men, entered the bank shortly after it opened at 9 a. m. One wore a black silk mask, a second held his left hand over his face, while his right gripped his revolver, and the third made no attempt at concealment.

Colds

The \$1,000,000 way

There's a way to end colds so quick efficient and complete that we paid \$1,000,000 for it. That way is HILL'S. It stops colds in 24 hours, checks fever, opens the bowels, tones the entire system. The millions who know it always rely on HILL'S. Go start it now.

HILL'S Cough-Remedy-Quinine
Be sure you get HILL'S in the red box with portrait. At all drug stores.

Look into the Future!

POULTRY profits at this season are in the future. Time only will tell whether you hatch 50%, 75% or more chicks.

Past records for years prove that eggs from breeders fed Purina Poultry Chows hatch more chicks and better chicks—with greater profit.

Feed breeders Purina Poultry Chows for at least thirty days before beginning to save hatching eggs. You will get better results and be money-ahead. Tell us when you want your Chows—and we will get them to you in a jiffy.

THE ATLANTIC & PACIFIC CO.

BUDGET MESSAGE IS DELIVERED TODAY IN GENERAL ASSEMBLY

Continued from Page One

new biennium, and estimated revenues from the various sources have been worked out in minute detail. In addition to these tabulations, the commission through the Governor, submits a condensed balance sheet of the estimated revenues and expenditures for the next two years. This table shows that the commission expects to collect \$14,008,354 during the first year, and this with \$700,000 of the past year's surplus will make up a total of \$14,708,354. The appropriations recommended by the commission amount to \$22,240 less than this amount, which will be carried forward as a surplus into the next year. In 1928-29 it is estimated the revenue bill will produce, with this surplus, \$14,583,585. To this would be added the remaining surplus on hand on July 1, 1926 of \$593,138 making a total of \$15,176,723. The recommended appropriations would cover all of this amount except \$52,664, which would be carried forward as a surplus.

For the first time in history, the Governor says, the budget commission this year submits to the legislature a statement of the current and capital assets and liabilities. This statement shows that the state has current assets of \$33,022,550, consisting of cash and county notes receivable and under minor assets. The capital assets consisting of sinking funds, railroad stock owned by the state and buildings and fixtures in Raleigh and at the various state institutions amount to a total of \$109,986,564. These two items make the state owned property worth \$200,054,865.

Under the heading of permanent improvements the budget commission recommends that the University get \$1,220,000; State College \$500,000; N. C. W. \$820,000;

E. C. T. C. \$280,000; A. & T. College \$40,000; Colowhee \$230,000; Appalachian \$100,000; Winston Salem Nerr., Normal \$65,000; Elizabeth City negro normal \$10,000; Fayetteville negro normal \$20,000; and the North Carolina College for negroes \$200,000.

Daily News Letter

Gift of Staff Correspondents at World Centers of Population.

Moscow, Jan. 7.—(INS)—Sharply pointed roofs with sick steel surfaces to deflect airplane bombs hermetically sealed windows and doors to exclude poison gases, and deep padded cellars to provide protection from high explosives will be characteristics of all houses built in the Soviet Union in the future if the plan of the Military Construction Conference are carried out.

At the conference, which was called by the Aviakim, an organization of friends of aerial and chemical defense, numbering more than 2,000,000 members, it was unanimously agreed that the Soviet Union, will be attacked by the "imperialistic powers." This attack, it was, conceived, will be large by means of airplanes carrying bombs loaded with high explosive and poison gas.

In view of the recent speedy development of aviation technique, it was agreed that enemy airplanes, using Warsaw, Riga or Reval as a base, could fly over Moscow and bomb the city with considerable chances of returning safely. The Aviakim has been foremost in helping equip the Red Army with airplane, to resist such an attack. Its present task it was announced, is to promote supplementary defense through reform in the method of house building.

Representative of the Section of Construction Engineers, the Architectural Association, professors from the Moscow University and the Moscow Soviet attended the conference. The chief of the Military Construction Board told the conference that civilian house building has until now ignored the exigencies of future war and that from now on no house should be built without proper facilities for defense from aerial attack.

Among suggestions advanced was the proposal to equip all dwellings with fireproof poles reach into the cellar, so that the inhabitants, upon hearing an alarm might lean to the pole and within the twinkling of an eye be safely ensconced in the cellar. A committee, was appointed to work out specifications to be imposed upon Soviet houses, building in the future.

Disgrateful behavior of the crew and officers of the Soviet ferry boat Burevestnik, was responsible for the disaster when the ship sank last July in the Leningrad ship canal, and 300 were drowned, declared the court of inquiry, which has just passed heavy sentences upon six of the men guilty.

The court found that the men and officers of the ferry boat caused the death of scores by falling into a panic and jamming the boats until they sank. It discovered that most of the boats lowered foundered upon touching the water because the drainage hales had not been plugged.

Immediately responsible for the wrecking of the ship was the assistant captain Harbunov, is demanded according to the court. He gave the wrong order when the boat was threatened with collision with an incoming German steamer, steered his ship too far to the side, and caused the ferry boat to crash its bows against the stone pier walling the ship canal. Harbunov was sentenced to four years of imprisonment.

The captain of the ship, Pispaev, who was not on board at the time, was sentenced to four years imprisonment for absence without leave.

You Buy Clothes on Faith Unless You Buy Clothes With a Reputation

You can't know what's inside of a coat unless you rip it apart. You wouldn't know how well it was made if you did. Only an experienced tailor can tell you that.

When you buy Clothes With a Reputation you don't have to guess how the coat is made inside.

The manufacturers of National Known Clothes guard their reputation and safeguard their investment in National Advertising by making always uniformly Good Clothes—right in style, fit and workmanship.

That's the reason I feature Kuppenheimer and Styleplus Clothes—both lines have a National Reputation.

TOMORROW IS THE LAST DAY

January Clearance Sale

Nearly all the Suits, Overcoats and Topcoats in this sale are Kuppenheimer and Styleplus Clothes. Look at these prices—then see the values.
