CANDIDATE FROM FALKLAND MAKES SPLENDID START

Popular Young Lady From Neighboring Town Shares Contest Honors With City Workers

Along about the time when most folks in the downtown offices were putting the cat and the lights out, and the boys on the corner were hailing each other with the latest oil developments, or rather non-developments, a something more than a bubble took place in the Daily Reflector subscription and prize contest.

An envelope left at the Reflector office for the campaign manager containing hundreds of voting coupons clipped from the paper as well as several subscriptions, sent in by Miss Annie Mayo of Falkland. This report yesterday happens to be Miss Mayo's initial one, and votes earned have been sufficient to bring her name to the top of the list as published today.

This ambitious worker for one of the automobiles is being assisted in her work to secure votes by Mrs. Ethel Mayo and other loyal friends in and around Falkland. The fact that double votes are offered on all work secured outside the corporate limits of Greenville ought to be a big factor this year in sending a leading prize outside the city.

This work of the above entrant ought to convince those who are still thinking about joining that there still remain good prospects of accomplishing results in a day or two to bring them to the front. The campaign for more than \$3,000 in prizes is open and free to all who wish to devote a portion of their spare time between now and February 12th in saving coupons from the paper and securing subscriptions for other votes.

In addition to Miss Mayo there were two other workers who piled up considerable votes yesterday. Miss Rose Hadley had a fair day and so did Mrs. Wade Holmes. Both of these contestants are taking advantage of every opportunity, and in order that they may be declared winner of one of the many fine prizes offered.

Another list of contestants and their votes are published today. The rules allow the publication of votes to the amount of 25,000 above the leader of the last list published. In other words a contestant having votes in reserve, may publish enough of these votes to equal the high standing of the last published leader and then 25,000 additional. This ruling applies to every list. Some of the candidates have the vote to publish and may or may not care to have them appear in the published list, while others have not as yet accomplished the results that will earn for them the votes necessary to send their name to the top.

As contestants turn in subscriptions they are issued the votes due in the form of a reserve vote coupon. This coupon is good for its face value in votes up to the closing hour of the contest when it must be put in a locked and sealed ballot box for the judges to count, unless in the meantime it is turned in to the campaign department for cancellation and publication in the list. In this way each contestant is the custodian of their own votes. Candidates know just how many votes they have earned themselves but they don't know how many votes their competitors have in reserve. No information concerning the standing of others will be given out at any time and the prizes will be awarded to those who earn them fair and square.

Mrs. Mamie Randolph Died Last Night at Home Near City

Mrs. Mamie Randolph, age 34, died last night at 9 o'clock, at her home in Belvoir township, following a long illness.

Funeral services were conducted this afternoon at 2:30 at the home, burial followed in the family burying ground near the home. Services were conducted by Rev. J. Harris.

Mrs. Randolph was a good Christian character, and was an active member of Gum Swamp Free Will Baptist church.

Her husband, Mr. Paul Randolph, died in 1919.

She is survived by four children her parents; Mr. and Mrs. W. F. Ward, six brothers and five sisters.

Infant deaths in Tokyo last year totaled 20,866, or about 25 percent of Tokyo's entire death rate during the year.

TODAY

Good and Bad. Pictures That Sing. Biggest Bank. Fire and Earthquake. (By Arthur Brisbane)

Some of the news is bad, some good.

There is a plague of influenza sweeping Europe, not quite, but nearly as bad as the original attack that killed millions just after the war. In Spain alone, 200,000 are ill, France and Switzerland are hit by the epidemic. Big American cities would do well to segregate severe influenza cases. New York City's Health Department has set the example.

Mexico's action, exiling Monsignor Diez, spokesman of the Catholic church and arresting several Bishops, forty Catholic officials in all, has evidently aroused the indignation of the Mexican people, intensely religious and devoutly Catholic, to a white heat of indignation.

The religious war in Mexico grows more serious. Reports from Mexico City tell of 21 killed in battle.

The mayor and other officials of the town of Coacuilco were killed by indignant Catholics, when they attempted to interfere with a church demonstration. A local deputy, Soberanas Castillo, is also reported killed.

While war goes on in Mexico it seems to have died out in the United States Senate. President Coolidge's energetic message indicating that the United States intends to do something from time to time, has calmed the troubled waters.

Here is good and interesting news. The various talking-moving picture contrivances have got together for the general improvement of talking pictures that will be the great educational and amusement device of the future.

B. F. Blume, president, and J. E. Otterson, vice-president of the Western Electric Company, which controls the vitaphone, saw in William Fox's studio yesterday remarkable pictures of Raquel Meller, the Spanish actress, singing and acting.

In reproduction of voice, movement of lips, gestures and expression of the face synchronization was absolutely perfect. Having SEEN and HEARD that picture it is not necessary to see Raquel Meller herself.

Mr. Blume, in whose laboratories was perfected the mechanism for talking across the Atlantic ocean, announces an arrangement by which the Fox-Case talking picture method and the vitaphone method would be interchanged. Those that own various talking picture devices have arranged to exchange information and allow one to use the ideas or patents of the other, for the benefit of the industry.

Messrs. Blume and Otterson also saw intensely interesting educational pictures for public schools in which Mr. Fox is specializing. That is the great moving picture need of the day and other producers should interest themselves in it.

Mr. Eastman, of the kodak company, is producing educational moving pictures and will distribute actual moving picture lessons in surgery for doctors. The TALKING moving picture will make it possible for surgeons to be heard and seen, lecturing and operating at the same time.

To make Spain's influenza epidemic seem worse, there are earthquakes in Portugal, sending people flying into the streets and fields. Subterranean rumbles add to the terror.

Portugal, more than any other country, dreads earthquakes with good reason. The worst earthquake in all recorded history destroyed the city of Lisbon and caused one distinguished individual to lose his faith in a gambling Providence.

Other millions, fortunately, reflecting on the rarity of such earthquakes believed in Providence all the more.

This proud country now owns the biggest banking institution in the world, New York's National City Bank, of which Mr. Charles E. Mitchell is president. That bank's deposits run \$162,000,000 above the BILLION mark. To celebrate, the bank yesterday added 25 millions to its 50 millions of capitalization.

This is a prosperous country and the boom is disappointing those that expected to see it die, or, at least, dwindle at the beginning of this year. We have 22,330,000 automobiles running enough to carry the whole population at once, and more than 17,000,000 telephones.

Dentists warn women that excessive smoking brings on "Vincent's disease" also called "trench mouth." This disease which inflamed soldiers that had nothing to do but smoke, while waiting in the trenches, is painful, attacks the tissues, destroys the gums, causing bleeding.

However, if women want to smoke dentists will stop them. This writer tried it in vain, 25 years ago, by warning women that smoking makes their noses red and makes their mustaches grow. Still they wouldn't stop.

JURY FOR TRIAL

TEXAS MINISTER APPROVES McNARY NOT COMPLETED

After Two Days of Questioning Only Eight of Jurors Have Been Chosen

Austin, Texas, Jan. 13.—Selection of a jury for the murder trial of Dr. J. E. Norris probably will take more time than is required for the State to present its evidence. Prosecuting attorneys indicated with the eighth of the panel accepted today following two days of grilling on religion, secret orders, self protection and sermons against the death penalty.

The principal prosecuting witnesses are Judge Shannon of Fort Worth, who conducted the inquest following the slaying July 17, last, of O. W. Phillips, an attorney, a politician and one other person who inspected the study shortly after the shooting. Several character witnesses have been called including the widow of Phillips who was killed.

Counsel for Dr. Norris contended that Phillips was shot when the pastor fired the lanternman was about to attack him.

Seattle's 1926 Deaths From Poison Booze Equal 1925 Record

Seattle, Jan. 12.—(INS)—Alcoholic deaths in Seattle for the year 1926 were the same as in 1925, according to Dr. E. T. Hanley, city health commissioner, who issued a scathing denunciation of bootleggers who are flooding the market with poison liquor.

"The bootlegger who sells re-distilled denatured alcohol under the guise of whiskey is a potential murderer," Dr. Hanley said. "If one of their victims should die, the seller should receive the extreme penalty."

In 1925, Dr. Hanley showed, 25 persons died in the city from alcoholism, and this figure will not be lowered this year.

Just how the boxing situation will be handled has not yet been made public. One of the proposals meeting the favor of the governor and other state officers interested in the sport is that the present one-man commission under control of the department of public safety, be demolished and a new three-man commission substituted.

Under this plan the governor himself would be ex-officio chairman of the boxing commission and the other commissioners would be prominent citizens—not politicians—really interested in boxing as a sport. Their interest will not be a police interest, like that prevailing the past few years.

HOUSE COMMITTEE

APPROVES McNARY HAUGEN FARM BILL

Adverse Report on Bill to Give President Power Over Nation's Coal Industry

Washington, Jan. 13.—(AP)—The House Agricultural Committee today approved the McNary-Haugen farm relief bill by a vote of 13 to 8.

An amendment to the postal laws which would fix a special rate for newspaper in bundles as proposed by newspaper publishers was disapproved by the Senate Postoffice Committee.

Immediate seizure of the ballots cast in Philadelphia and Allegheny County in the Pennsylvania Senatorial election last November was decided upon by the Senate Campaign Frauds Committee.

The Parker bill to give the President power to take over the coal industry in case of national emergency was reported adversely by the House Commerce Committee.

Michigan's Attitude Toward Boxing May Change Now

Lansing, Mich., Jan. 13.—(INS)—A new official attitude toward boxing, a period of something more than friendliness, began when two former boxers were inducted into high state office.

Fred W. Green, the new governor, and W. W. Potter, attorney general, both aspired in their younger days to the fame of the squared circle, rather than to high political positions. Both engaged in more than one public exhibition and neither has lost interest in the sport.

Governor Green has repeatedly stated that he would rather be boxing commissioner than governor. Since he cannot be boxing commissioner and must be governor, he declares that the boxing commission will at least receive the personal attention of the executive.

Just how the boxing situation will be handled has not yet been made public. One of the proposals meeting the favor of the governor and other state officers interested in the sport is that the present one-man commission under control of the department of public safety, be demolished and a new three-man commission substituted.

Under this plan the governor himself would be ex-officio chairman of the boxing commission and the other commissioners would be prominent citizens—not politicians—really interested in boxing as a sport. Their interest will not be a police interest, like that prevailing the past few years.

TWO MORE SHIPS ARE BEING SENT TO NICARAGUA

Foreign Relations Committee Votes Not to Hear Kellogg on Nicaraguan Question.

Former Owner of Stock Being Sued by the Government

Washington, Jan. 13.—(AP)—Two more destroyers were ordered to Nicaragua waters today by the Navy Department. The ships will replace the two destroyers already off Cuba. Doubtless Rear Admiral Latimer, in command of the squadron in Nicaraguan waters will keep all four ships as long as he thinks conditions warrant.

By a vote of eight to seven the House Foreign Relations Committee today rejected a motion to call Secretary Kellogg for questioning on the Nicaraguan situation.

The government attorney asked if the defense was prepared to move the valuation was a true one. Reports indicated the valuation had been fixed on the earning capacity of the stock in 1913 whereas collections should have been made on the earning capacity up to 1919 when the stock was sold to Henry Ford.

Says Kellogg to Blame for Loss of Lives in Nicaragua

Mexico City, Jan. 13.—(AP)—The statement that Secretary of State Kellogg and not the Liberal regime in Nicaragua would be responsible for any demonstrations there in which Nicaraguan or American lives might be lost was made today by Pedro Zetina, representative of Liberal interests here.

Anti-American Demonstration Nipped in Bud

Mexico City, Jan. 13.—(AP)—Special dispatches from Guadalajara state that an anti-American demonstration before the American consulate there was only nipped by prompt intervention by federal authorities.

The dispatches state that a band of workers had already begun a march toward the consulate when the military commandant of the State of Jalisco, took personal command of a force of federal soldiers and scattered the marchers.

GOVERNMENT SUIT CONTINUES TODAY

THIRTY MILLIONS

Former Owner of Stock Being Sued by the Government

Detroit, Jan. 13.—(AP)—Alex Gregg, tax law expert, today prepared the way for the first strategic move in the government's thirty million dollar income tax suit against nine former stockholders of the Ford Motor Company. As the defense proposed a second valuation set by the government on the stock issue, Gregg would have them prove the original valuation upon which they have based their case was a true one.

Defense attorneys apparently take unaware by the move have for two days read into the record evidence tending to show that Former Commissioner of Internal Revenue Roper had placed a valuation of 190 millions on the stock, the figure on which the original assessment was made.

The government attorney asked if the defense was prepared to move the valuation was a true one. Reports indicated the valuation had been fixed on the earning capacity of the stock in 1913 whereas collections should have been made on the earning capacity up to 1919 when the stock was sold to Henry Ford.

One Girl Killed Another May Die From Auto Wreck

Reidsville, Jan. 13.—(AP)—Miss Katherine Watlington, 47, is dead, and Miss Bessie McBride, 16, was seriously injured today on the Piedmont highway near here when a small roadster skidded on the icy concrete road struck a snow bank and turned turtle down an embankment.

Miss Watlington's fatal injuries were caused by the steering wheel striking her in the breast and she was instantly killed. Miss McBride's death is expected hourly.

American Ships Sent to Pacific Coast Nicaragua

Panama, Jan. 13.—(AP)—The American cruiser Cincinnati and the destroyer Berker have passed through the Panama Canal on their way to Corinto on the Pacific coast of Nicaragua.

Greater Berlin now has about 350 movie houses with some 140,000 seats, the record for Europe.

OFFICERS CAPTURE TWO OPERATORS AT STILLS YESTERDAY

Henry and T. L. Brooks Placed Under Charge of Making Whiskey

A rabbit hunting expedition yesterday by Chief of Police Lester Jones, G. A. Clark and George Gardner netted 25 gallons of whiskey, two moon-shin stills and two operators. The operators, Henry F. and T. L. Brooks, were placed under \$500 bond each for appearance in court here.

According to the report the three were hunting on the Brooks lands just east of this city when they came upon the two stills in full operation. When the men refused to accompany Chief Jones to this city on the grounds that he was out of his jurisdiction he sent Gardner back to town to bring sheriff's officers while he held the men. Deputy Pierce immediately went to the scene and arrested the two men.

One of the stills captured was a copper outfit of 80 gallons capacity while the other was a steam outfit. About three thousand gallons of beer were destroyed.

SALM-ROGERS SUIT FOR SEPARATION HAS BEEN SETTLED

New York Paper Says Count Salm is to Receive \$325,000 to Withdraw Issue

New York, Jan. 13.—(AP)—Count Ludwig Salm's separation suit against his wife, the former Millicent Rogers, Standard Oil heiress, has been settled out of court, the New York American in a copyrighted story says today.

The count is to receive \$325,000 from his wife's father, Col. Henry H. Rogers, and will be given part of it to his small son, Peter. A divorce suit in Paris is declared a possibility.

The \$325,000 Salm is to receive is to be paid in installments and the count will abandon his suit against Col. Rogers and Mrs. Rogers for alleged alienation of his wife's affection.

Calxico Again Rocked by Quake

Calxico, Cal., Jan. 13.—(AP)—A heavy earthquake shock here early today shook windows and rattled dishes, but did no serious damage. Numbers of residents rushed from their houses. The shock followed a series of lighter vibrations lasting several seconds. Three minor tremors also were felt earlier.

New York Actor Burned to Death

New York, Jan. 13.—(AP)—Arnold Daly, actor and theatrical manager, was burned to death when fire swept his apartment at 28 West 31st Street today.

He lay found on the floor beneath an old fashioned easy chair. Firemen believed he had fallen into the fireplace for the stairway cut off by flames and had started for a window when he was overcome and burned.

SCHOOL DAYS By DWIC

Denver, Jan. 13.—(INS)—The Great White Father—George Washington—may have been surprised for the Indians in his day, but his instructions to the Redmen do not antedate the present day laws of Colorado governor, hunt...

Shut out from the world, from all human contact, even Ethel Stewart, 17, and Ethel Martin 11, live in a bright, sunshine-filled room in the State Home for Dependent Children here. Though they are perfectly healthy, they are barred from society because they are carriers of diphtheria germs, and would menace the health of their friends.

Little Ethel has been at the home for three years, since both her parents died of smallpox, while her companion in solitude, Big Ethel, a part Indian girl, has been there for four years.

Little Ethel is content with dolls and playthings for amusement, but Big Ethel is busy with a labor of love. From scraps of cloth, ribbon, and discarded clothing, for no new material is available for her industry, she is making a hope chest.

Big Ethel is confident that her imprisonment will some day end. "My throat is getting better," she says.

"Mice isn't" says Little Ethel, regretfully. The last time they took a culture it killed six guinea pigs.

Everything possible is being done to make the girls' hopes come true, but every effort has so far failed.

Slim or stubby trees to order will be the slogan of the federal government's Fremont experiment station on Mount Mansión near Colorado Springs if the experiment now being carried on by scientists proves successful.

Hundreds of little conifers in little pots in long rows wait patiently till their scientific dietician comes along with their breakfast, dinners and suppers, and they can't eat between meals. The stern scientists have fixed that.

For a month under the supervision of Director C. G. Bates, the trees have had a spartan existence on a salt diet. No rich loam, no clean gritty sand for a relish, no thick black muck for these trees.

First the experimenters treated the soil with acid then with strong alkali until there was no organic matter in it. Then the conifer seeds were planted, and had to permeate on their self-contained food.

As soon as the seedlings began to show signs of growth, the scientists put them on the bottle. But the bottles were carefully prepared mineral salts: solutions of calcium, potassium, magnesium and sodium being made up in different proportions, and tried on separate trees.

Then there are calcium-nourished trees besides potassium-nourished ones. And the diet will be kept up for a whole year.

By that time, the experimenters hope to determine the effect the different mineral salts commonly found in the soil will have on the trees. They may be able to tell what variety of conifer is best suited for soils that show a higher content of one salt than another, and they must be able to tell what element it is that makes trees, pine or sturdy, tall or stubby, straight or gnarled.

Doctors Endorse New Studebaker No-Draft Windshield

This diagram shows how the Studebaker no-draft ventilating windshield, when opened outward, directs the air up over the occupants' heads. The convenient handle on the dash adjusts the windshield to any desired position. A hidden trough under the cowl carries off rain when the windshield is set for storm-proof ventilation.

"Your No-Draft Ventilating Windshield not only adds considerably to the comfort of driving, but gives a definite protection against the ills caused by riding in a draft. I believe it to be a decided reform from cowl or open windshield ventilation." DR. CHAS. J. WHALEN, Past President, Illinois Medical Assn., Editor, Ill. Medical Journal.

"I am glad to write you what I think about the new Studebaker windshield. I have been over the matter carefully and think that it looks so good I feel sure my next car will have it. It looks like a physical impossibility that any amount of draft can bother the occupants of the seats of the vehicle." J. M. BLACKFORD, M. D., Seattle, Wash.

"In the new Custom Sedan which you have just brought out, the ventilating windshield attracted my attention. I believe this windshield and the ventilating system used thereon, is about the most attractive and up to date arrangement I have ever seen. I tried the full effects of the windshield on a rainy day and am very much enthused about the operation of same and the benefits derived therefrom." J. T. TRAVERS, M. D., New York City.

"The new windshield ventilating system is ideal. Its 'overhead or underfoot' selective feature is excellent for the avoidance of the disagreeable draughts to which one is subjected in most cars; and its rainstorm ventilation is a triumph. No more hot, stuffy cars during summer showers." DR. B. STEWART RALSTON, Pittsburgh, Pa.

"The health protection afforded by the new Studebaker ventilation system is not only unique, but should prove very valuable to persons who are subject to colds and other ailments caused by sudden weather changes. Studebaker is to be congratulated on this important advancement." R. B. GRIFFITH, M. D., Los Angeles, Cal.

IN the matter of giving professional endorsements, doctors are the most conservative of men. Nevertheless, many leaders of the profession have volunteered their approval of the new no-draft ventilating windshield (patented by Studebaker).

Keeps Out Rain—Lets In Air—Avoids Drafts. Opened inwardly, this new Studebaker windshield directs the air currents down into the driver's compartment. In this position the windshield is also waterproof. In the stormiest downpour, with a driving rain slashing head-on against the open windshield, none can enter the car. Opened outwardly, it deflects the air in a gentle current up over the heads of the occupants. In neither case is there any direct draft, yet tobacco smoke and stale air are carried off, while the supply of clean, fresh air is constantly renewed. All Studebaker Custom Cars have the following equipment: Front and rear bumpers; engine thermometer and hydrostatic gasoline gauge on the dash; coincidental lock; oil filter; automatic windshield cleaner; rear-vision mirror; traffic signal light; 4-wheel brakes; full-size balloon tires; and two-beam acorn headlights, controlled from steering wheel. Only the fact that Studebaker manufactures all the vital parts of its cars in its own great plants makes such outstanding values possible.

AUXILIARY TO PITT COUNTY POST OF AMERICAN LEGION MEETS.

Mrs. S. L. Bridges and Miss Hennie Whichard were hostesses to the Auxiliary of the Pitt County Post of the American Legion on Wednesday afternoon. Despite the snowy weather, a gratifying number were present.

Mrs. L. H. Bowling, president, presided over the meeting. Several matters of business were taken up and discussed. Mrs. R. C. Stokes, Jr., offered the resignation of Mrs. C. O'H. Laughinghouse as corresponding secretary. Mrs. Laughinghouse has just left to make her home in Raleigh. The president gave an auxiliary pin to Mrs. Stokes to send Mrs. Laughinghouse as a token of love and appreciation from the members for the efficient work of Mrs. Laughinghouse in the Auxiliary. Mrs. Laughinghouse was one of the most active workers in organizing the Auxiliary in 1922 and since its organization, she has served most faithfully as President, Ward Mother, and Corresponding Secretary. It was the hope of the Auxiliary that she would be present for the meeting and each member expressed regret at her departure. Miss Estelle Greene was elected Corresponding Secretary to succeed Mrs. Laughinghouse.

At the conclusion of the meeting, the hostesses served a sweet course with salted nuts.

The next meeting will be held on Wednesday, February 2nd, at the home of Mrs. Troy Rouse with Mrs. Rouse and Miss Reba Whitehurst, hostesses.

B. F. CRAFT SERIOUSLY ILL IN HOSPITAL

B. F. Craft, of Oak City, father of W. G. Craft, of Greenville, was taken to the Pitt Community hospital yesterday. He hurt his hand some little time ago, and was suffering from blood poisoning when he entered the hospital. As soon as possible after his entrance to the hospital, one finger was amputated to the wrist. Mr. Craft's friends will regret to learn that he is considered seriously ill today.

THIRD GRADE POEM

The pupils of Miss Ruth Townsend's grade of the Model School have written a number of poems this year as part of their class room work. They were asked to write a poem on the death of Miss McClelland, the beloved principal of the school. The following poem was written by Marian Wilson, Louis Stewart Ficklen and Herbert Scoville, pupils of the third grade:

Miss McClelland's Death

Two on a day of snow
When to heaven she had to go,
The clouds cried with all might,
As she lay so cold and white.

I love to think the tears were white
Showing us she'd lived just right,
Always she was very kind,
None like her can we find.

MRS. PAUL SCOTT UNDERGOES OPERATION

Friends of Mrs. Paul Scott will be glad to learn that she is doing nicely following an operation for appendicitis last Tuesday in the Pitt Community Hospital.

ERROR IN REPORT ON NATIONAL BANK

In yesterday's issue the report on the stockholders meeting of the National Bank there was a transcription of figures which made the report erroneous. The condition of the bank at the close of business December 31 was deposits \$1,300,000.75; resources \$1,774,717.50. In yesterday's issue the deposits appeared as the resources and the resources as deposits.

NAMES PLACED IN BOOK OF REMEMBRANCE AT SCARRITT COLLEGE

The women of the Southern Methodist church are very much interested now in plans for enlarging Scarritt College, the institution at which the women who do special work for the church, are trained. The plant was recently moved from Kansas City, Mo. to Nashville, Tenn. One unit of the college will be known as the Belle Bennett Memorial building, honoring the founder of the college. By a gift of five dollars per member any missionary society may have its name placed in the Book of Remembrance which will be kept in the chapel of this building. By a gift of one hundred dollars to the cause the name of an individual may be placed in this book.

RESOLUTIONS OF RESPECT

Whereas, it has pleased our heavenly Father, in His wise Providence, to remove from our midst our beloved brother, C. B. Miller. Now therefore Mobian Tribe No. 657 I. O. M. has adopted the following resolutions:

1. That we humbly bow to the will of the Supreme Sachem in His wise dealings with us.
2. That in the death of Brother Miller we have lost one of our true and faithful members, although he has been called to the hunting grounds above, we bemoan his departure from us.
3. That we extend to his family our deepest sympathy, and for comfort we commend them to Him who alone can strengthen and console in all the trials of this life.
4. That a copy of these resolutions be spread on the minutes of our tribe, a copy sent the bereaved family, and a copy be sent the Daily Reflector for publication.

other. That is a privilege which we cannot reasonably deny Mexico unless we regard it as our providential mission to make up other people's minds for them.

Mexico had every right under international law to recognize the Sacasa Government. Mexico, having recognized the Sacasa Government, had every right under international law to sell munitions to the Sacasa Government if Mexico so chose.

We have brusquely warned the Government of Mexico against doing certain things which under international law it has every right to do.

Paris Style Hints

Paris, Jan. 12.—(INS)—The popular vogue for reptile silks, the manufacturers are producing a material which closely resembles it and is much more within the reach of every woman's pocketbook.

Frocks made of this new material usually come untrimmed, the material itself being sufficiently decorative. They are made on straight lines with a fairly low waist-line, a suggestion of fullness given by panels.

Another novel fabric intended for brighter days ahead or present wear on the Riviera, is in a futuristic design, colored stripes being wrought on a pale foundation. This light silk makes attractive two-piece frocks trimmed with a deep black band at the foot of the skirt and cascade.

Afternoon ensembles are being made in light wool poplins which promise to be very popular for spring wear. Perceche georgette over pale pink is used for an afternoon gown which has the loose bolero effect.

Velvet will take the place of plush when the robins come back. Kasha has become a classic and is perennially smart. So are crepein and friska. Simple and smart ensembles of reps and other finely-ribbed wools will make tailcoats and street frocks. Crepe de chine will never say die and crepe satin and silk and wool jersey are materials which are certainly going to go over with the tide into spring-time styles.

There is a rumor that cotton is coming back to its own in spring styles but cotton will not make any sort of public appearance smartly speaking until the latter part of the Riviera season, at least.

NOTICE OF SALE

Under and by virtue of the authority contained in a certain mortgage of record in the office of the Register of Deeds of Pitt County, North Carolina, in Book D-16, page 490, from W. L. Moore to Arthur B. Corey, Trustee, default having been made in the payment, thereby secured, the

undersigned will offer for sale, and sell to the highest bidder, for cash, at the court house door in Greenville, at noon, on Monday, January 24, 1927, the following described real estate:

Being lots Nos. 2 and 3 of the Jordan farm sold by W. A. and O. P. Robinson, Dec. 1920, to Stanley McK. Moore, and containing 121.80 acres, bounded on the north by Lewis Williams and Henry Bullock, on the east by Satterthwaite lands, on the south by G. C. Williams, on the west by Grindle Creek, and being the same lands described in a certain deed given from Stanley McK. Moore and wife to the Atlantic Joint Stock Land Bank, This, December, 23rd, 1926. This, Arthur B. Corey, trustee 20-11w-4w.

EASY TO DARKEN YOUR GRAY HAIR

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally.

Preparing this mixture, though, at some is messy and troublesome. For only 75 cents you can buy at any drug store the ready-to-use preparation, improved by the addition of other ingredients called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw through your hair, taking one small strand at a time. By morning all gray hair disappears, and after another application of two, your hair becomes beautifully darkened, glossy and luxuriant. Gray, thinned hair, though no disgrace is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur Compound and look years younger.

"Saving Is the Difference Between Success and Failure."

President Coolidge has said that "Every one knows that it is not what is earned but what is saved which measures the difference between success and failure."

The saving of money is inborn with some people. They make every dollar perform its fullest duty. Others acquire the ability to save money and it becomes a habit with them.

Buying inferior goods because they are cheap is not thrift. It is wasteful because the service is correspondingly short.

The way to decide "where savings are greatest" is first to look into the ability of the store to buy right; then the reputation of the store for selling right.

The buying power of this store is tremendously increased because of the co-operative buying for all the Stores of this Nation-wide Organization. This advantage is your advantage each time you buy from us. And paying cash you enjoy an added saving.

MARKETS

COTTON FUTURES

New York, Jan. 13. (AP)—Cotton futures opened steady, January 13.25; March 13.28; May 13.35; July 13.70; October 13.97.

COTTON MARKET

New York, Jan. 13. (AP)—The cotton market showed continued strength at the opening today. Prices were six to eleven points higher than to eleven points higher all positions making new highs for the current movement on further trade buying and covering and commission house demonstrations. March sold up to 13.42 while October touched the 14 cent level but these prices attracted a little more Southern selling as well as considerable realizing.

STOCK MARKET

New York, Jan. 13. (AP)—Further irregularities developed in today's stock market opening. Atchafalaya again assumed leadership in the rail group by opening a point higher with a similar gain in U. S. Steel Iron pipe which spilled up to rumors of a six to one split up. Bethlehem Steel preferred, at 53.34 and Freeport-Texas at 53.34 are at highest prices in a year or longer. International Telephone fell back a point and heaviness was shown in a number of other standard industrials.

Prince Asserts His Cello is Mysterious

Berlin, Jan. 12. (AP)—Prince Joachim Albrecht of Prussia, second cousin to former Emperor William II, who will soon go to the United States to direct a series of symphony concerts, is not only a composer but a virtuoso as well. His instrument is the cello, and he has frequently assisted at charity affairs and court functions in the role of cello soloist.

"My cello," he told The Associated Press, "was built in Berlin by the brother of my teacher. But all experts whom I have consulted agree that it is the equal of the best of the old Italian instruments. There is something mysterious about my instrument. One day an old instrument maker came to the master who built my cello and told him he would blow something into the instruments by which they would acquire the properties of the old Italian masterpieces. Whatever that blowing something in process may have been, it did the trick."

Just before his death a few years ago this old fellow revealed the secret to the man who built my instrument, but the latter declared he will take the secret down into his grave. All my attempts to persuade him to leave the formula to posterity have failed. Prince Joachim Albrecht expects to direct concerts in about a dozen leading cities of the United States. He will confine himself to directing and interpreting his own works, which are chiefly in the nature of rhapsodies and fantasies. He has also written considerable ballet music. Besides orchestra compositions, he has composed songs for baritone voice, programmatic music for the piano, and melodies for the cello. His latest orchestral work is entitled "Fantasia amorosa."

Massachusetts Girls Wins Laurel in Racing Dogs Sport

Cambridge, Mass., Jan. 12. (INS)—A leading woman educator has been quoted as saying that the women of today has entered almost every masculine sport with the possible exception of prize fighting. To the optimistic sportsman the prediction that the feminine species will eventually invade the ranks of the pugilists is not a far-fetched notion. At least, no so in view of the fact that even the sport of dog racing has been taken up by two Cambridge girls. Though women of the New England States have long been enthusiastic spectators at the dog races conducted in this section, it remained for Clara Ennebuske and Ceryl Peabody to get behind the dogs and go in for musing over the winter snows.

Both Miss Ennebuske and Miss Peabody are members of the smart set of Greater Boston. They like to participate in the social events of the season but they also have

an almost inborn love for dog racing. It is because of this love of the sport that they spend most of their time during the winter months in the work of training their dog teams and mushing over the New Hampshire snow.

To Miss Peabody goes the honor of winning one of the major races. Miss Ennebuske has been a real contender for first honors in several races but luck seems to turn against her and on two occasions when she looked like a sure winner one of her dogs went lame.

Training the dogs for the strenuous runs is hard work they both admit, but the fascination it holds only makes the alurement more great.

The love for dogs, a love that mankind has for centuries been known to possess is one phase of dog racing that has attracted the two girls to the sport.

The thrill of the dog race may be equalled in other sports but hardly is it exceeded. Fighting over a hard course, trying to make good time in the face of storms, heavy snow drifts and ice trails provide plenty of thrills. The trained musher must be able to handle dogs. If they fight, then the musher, whether it be a man or woman must separate them. Sometimes it is hazardous; justness.

WESLEYAN U. AND BOWDWIN COLLEGE SHARE IN \$100,000 ART COLLECTION

Middletown, Conn., Jan. 12. (INS)—Wesleyan University and Bowdoin College, Brunswick, Me., are the only New England colleges that will share in the \$100,000 art collection distributed by the Carnegie Corporation to twenty colleges in United States and Canada this winter. For Wesleyan's share in a special course in the appreciation of art, Glin Dows, of New Haven, is to deliver a series of lectures here starting February 14. Students who take the course must also visit art galleries either in New York or New Haven.

The Carnegie collections, identical for each college, consist of 1800 reproductions of the greatest works in architecture, sculpture and painting; 50 original prints representing different processes and schools from the 16th century to the present; a set of textiles in 35 pieces dating from days of antiquity to now; and 200 books on the art of every period and people.

In its work of fostering art in the colleges the Carnegie Corporation has had the advice of the following executive committees: Richard Aldrich, Royal Cortissoz, Royal B. Farnum, Edward W. Forbes, Henry W. Kent, Frank J. Mather, Jr., C. R. Richards, Paul J. Sachs, Homer Saint-Gaudens, Walter Sargent, John Shapley, Henry Suzzallo, and David Stanley Smith.

GOOD BLOOD! GOOD LOOKS!

A good looking man or woman who can smile is a sure winner in business or in love. A good appetite means smiles and health; but how many enjoy their food? They suffer from liver trouble or indigestion and life becomes a burden. To feel well, the blood must be pure and rich; if it is impure, many ills are sure to follow. An old reliable medicine good for stomach and liver is Dr. Pierce's Golden Medical Discovery, made of herbs and roots brought in by the Indians from their nearby Reservations. It has relieved thousands, it will help you. Try it.
