NO TURNING BACK FOR CONTESTANTS WHO HOPE TO WIN

Workers Entered in Reflector Contest Reach Crossroads of Subscription Drive

Those working in The Reflector subscription contest have reached that part of their campaign that may be likened to the three travelers, who, after a long day's ride reaches the crossroads in his journey. No one is on hand to tell him which road to take and the night is gradually coming on. The road to the right if chosen will take him on into the city while the road to the left will carry him over numerous roads to nowhere.

And so it is with the workers entered in this contest for the more than \$3,000 in prizes. On Saturday night last they all finished a wonderful four weeks in the subscription drive. All of the thirteen entered have done remarkably well. But they must keep on—there can be no turning back now for those who hope to ride away in the automobiles on the night of February 12th.

If the prizes had been awarded on last Saturday night instead of one week from this coming Saturday, the real workers competing for the \$1,595 Studebaker, Chevrolet Coach and the various cash prizes would not receive their just awards. Prizes in that case would have gone to those who carried on when the sailing was smooth and who faltered in their race toward the end. The real winners will be those who carry on in spite of any and all obstacles.

Those competing for the prizes who have done their best during the first period of the contest when most votes were given on subscriptions are on the road marked "Success." To stay on this road you must pay the price of everlasting success. You must steer clear of the devils of those who failed to pay the price until you are too late to do so.

The road to the left is marked "Failure" and is a narrow road that takes you nowhere. It is the line of least resistance and is used mostly by those who take things too easy. Here you will find the people who take their orders from the other fellow, and whose ambition all through life rises and falls like the very tide itself.

The entry list is now closed and the winners of all the wonderful prizes including two automobiles are now listed among the thirteen entrants. Votes decrease again this Saturday and next week is the last one of the campaign. The close of the contest is set for eight sharp on the night of February 12th with the awarding of prizes that same night. Don't turn back now with a big prize within your grasp.

Hold Negro For Double Murder At Birmingham

Birmingham, Ala., Feb. 1.—(AP)—Horace De Vaughan, negro, was held under double guard today as the confessed murderer of Mrs. Ruby Thornton and A. B. Moore, supervisor of safety and sanitation for the Southern Railway, whose bodies were found on a lonely road near here on January 20.

In a confession to county judge Jim Davis, and a court reporter, the negro said he was accosted and cursed by Moore while walking along a lane near which Moore's automobile was parked. He shot him with a shotgun, he said, and when Mrs. Thornton jumped from the car and ran he fired at her back.

The negro said he then took Moore's watch and money. The confession was made in the presence of detectives and newspaper men, after the negro was confronted with evidence gathered since Sunday, when the shot gun was found.

Twenty Seven Rebels Have Been Executed By Mexican Forces

Mexico City, Feb. 1.—(AP)—Twenty-seven rebels have been executed by the military authorities in Oaxaca City in reprisal for the massacre of a small federal column which was annihilated by rebels in San Miguel el Grande on January 12.

The inhabitants of San Miguel revolted and prepared to defend the town against the federals, who were sent from Oaxaca. When the federals rushed the rebels' barricade, however, the rebel leaders hoisted a white flag. The unsuspecting soldiers later were attacked in their barracks.

COMMITTEE WORK FEATURE SESSION TODAY'S ASSEMBLY

Most of the Important Committees of Legislature Put in Busy Day

State Capitol, Raleigh, Feb. 1.—(AP)—At noon today legislators, following seven morning committee meetings, met in session before returning to another quota of seven committee meetings, strung out all along the day.

The House calendar called for picking up discussion, which became involved last night before it went over the bill of Representative Klutz, Catawba, designed to increase allowances for widows and children while their estates are being settled from \$100, as at present, to \$200.

The Senate sat down to hurrying through bills procedure before emptying into committees. The joint roads, finance and appropriations committee begun consideration of requests made the last fortnight for changes in the administration budget bills with little likelihood of any material change generally forecast.

House insane asylum, courts and judicial districts committees and Senate welfare, judiciary, courts and judicial committees cleared the day's work just as both houses convened.

Action was taken upon only two bills of outstanding importance. One of these was the Whittemire measure designed to untie the hands of the state's delegates at the Democratic National Convention and relieve them of the necessity of supporting a man simply because he filed his nomination in the state primary. The bill passed and was sent to the House.

In the House, Tobe Connor's bill regulating the reward paid for stills to \$20 and only when an operator was convicted with the still, was passed with amendments making it applicable to nearly half the counties in the state.

The joint committee on courts and judicial districts did not adopt the report of the subcommittee providing for redistricting the State, but had so many other suggestions and discussions that adjournment was taken before final action was reached. The subcommittee proposed to redistrict the State making three general divisions of nine districts each.

Representative McLean suggested a constitutional amendment which would permit the creation of new districts without solicitors if this were necessary, but this suggestion did not have many followers.

Another suggestion was the re-arrangement of the emergency judge act with six emergency judges instead of four. The committee will work out the plan at some future meeting.

After much discussion and a motion to report the Smith bill favorably by Representative Gould of Guilford the joint committee on roads today voted unanimously to appoint a sub-committee to see if it would be possible to iron out the differences existing in the legislature about granting the Highway Commission in the location of roads.

This action was taken on motion of Senator Salmon of Harnett and after a very spirited support of the suggestion by Representative Connor of Wilson, one of the bill.

The House committee on public welfare reported unfavorably Miss McLean's bill to allow private employment agencies to charge a registration fee of \$1 and to increase the commission on the first month's income from 15 to 25 per cent.

The Mecklenburg representative, only lately legislator for the session, previously had her bill finally passed in behalf of the Charlotte Women's Club exempting it from taxes. Bill of Representative Gold to establish a farm colony for women at a cost of \$190,000 was reported favorably and directed sent to the House appropriations committee.

Five Big League Teams Want "Ty"

Charleston, S. C., Feb. 1.—(AP)—Thurs Raymond Cobb has received offers for his services from five big league teams, by said here today. Cobb came here last night with members of his family en route to a hunting preserve near Rideland.

"I have been released by Detroit, which makes me a free agent," the form referee manager said. "I can sign with any club in the American or National League, and probably will accept one of the offers when I get back to Augusta next week."

REOPEN MUSCLE SHOALS HEARING THIS MORNING

House Military Committee Receives Report on Shoals Question Today

Washington, Feb. 1.—(AP)—The House Military Committee today reopened its Muscle Shoals hearing to hear a final statement from supporters of the Reece bill to lease the property to the farmers Federated Fertilizer Corporation.

Former Senator A. E. Stanley of counsel for the corporation told the committee that the corporation was willing to agree to any reasonable changes in its offer which the committee might desire.

Reece earlier testimony on the standing committee members had expressed opposition to the financial structure which would be set up under the lease while others contended it gave no guarantee of fertilizer production. As written the bill would require Government guarantee of bonds which would be floated by the corporation for construction of additional dams on the property. Sponsors of the bill, however, advised the committee of their willingness to have the Government build the dam on the cost of which the corporation would pay interest as rental.

Stanley said the incorporators were not insistent upon the present language and terms of the lease and would welcome a re-drafting of it by the committee.

Stanley attacked provisions of the American Cyanamid Company's bid, on which the committee closed hearings last night, as diverting Muscle Shoals power to the steel industry. He referred to a tentative agreement by which the Cyanamid Company would sell at cost 50,000 horsepower to the Union Carbide Company for a plant at the Shoals.

Heretofore Chaplin has not been represented before the courts when attorneys for Mrs. Chaplin were appearing in her behalf, but they were present as spectators or as representatives of one of the motion picture companies involved.

The controversy was taken to the Appellate Court last week when Chaplin attorneys obtained an alternative writ of prohibition preventing the receivers, appointed to administer the actor's properties and finances here pending the outcome of the divorce suit from paying the alimony award. The comedian's lawyers are seeking to have the writ made permanent. Counsel for Mrs. Chaplin are prepared to argue against the motion.

Durham—E. B. Armstrong, Gastonia youth, student at State College, Raleigh, is under \$300 bond for assaulting J. H. Ryals, Durham, who alleged he was hit by Armstrong's car on local street. Armstrong told officials he believed his car had missed Ryals, passed at a sharp curve.

Charlotte—The Charlotte Observer will have a "house warming" for the public in its new home Saturday afternoon and night.

Greensboro—Students at North Carolina College for Women favor peace but are apparently a little misinformed on America's international relations. The student cabinet appealed to Senator Overman at Washington, saying, "We urge that troops be withdrawn from Mexico."

Senator Simmons immediately advised the young women that no American troops are in Mexico, but endorsed their arbitration plea.

Raleigh—One hundred and twelve applicants stand for examination of practical questions, "too practical," according to some of the would-be lawyers. The list included one woman and three negroes.

Durham—Duke University students pay silent tribute to memory of Joseph G. Brown, president of board of trustees, who died Sunday at Raleigh.

CHAPLIN SUIT IS IN COURT TODAY

Counsel for Charlie and Mrs. Chaplin Today Argue Temporary Alimony

Los Angeles, Feb. 1.—(AP)—Attorneys for Charles Chaplin and those representing Lita Grey Chaplin in her suit for divorce and a share of the screen star's fortune, today faced the first official action against each other in the argument in the district court of appeals here on the question of temporary alimony.

The still unpaid claim of Mrs. Chaplin for \$14,400 temporary alimony and attorneys' fees was the prize.

Heretofore Chaplin has not been represented before the courts when attorneys for Mrs. Chaplin were appearing in her behalf, but they were present as spectators or as representatives of one of the motion picture companies involved.

The controversy was taken to the Appellate Court last week when Chaplin attorneys obtained an alternative writ of prohibition preventing the receivers, appointed to administer the actor's properties and finances here pending the outcome of the divorce suit from paying the alimony award. The comedian's lawyers are seeking to have the writ made permanent. Counsel for Mrs. Chaplin are prepared to argue against the motion.

TODAY

Mr. Kahn is Right. The Dying Heart. To Catch Bootleggers. "Keep-Ready" Coolidge (By Arthur Brisbane)

Otto H. Kahn says that we, in America, are "getting more and more interested in the creation of cultural values and spiritual assets," by which high brow words he means that we are taking kindly to art.

And that, he tells you, does not necessarily mean a weakening of our manly fibre. It does not, indeed. For proof, read Benvenuto Cellini's story of his own life. He could chisel fine gold, or stick a knife in an enemy with equal "artistry" in both performances.

Nothing that makes the brain work is bad for "manly fibre."

FRANK L. SMITH RETURNS HOME

Declares He Will Renew Fight for Senate as Soon as He Gets Well

Dwight, Ill., Feb. 1.—(AP)—Frank L. Smith has gone back home from Washington but only that, a sick man, he may gain strength to renew his fight for a seat in the Senate.

"I'm sick, but I'm not going to die," the Senator-Designate told friends, and you can take it from me that I'll be back on my stride in a few days, and will fight for my rights at Washington to the end."

BRITAIN'S WAR WIDOWS FINDING NEW HUSBANDS

London, Feb. 1.—(INS)—Although Britain is alleged to be burdened with two-million surplus women, apparently her war widows had no difficulty in finding new mates.

The sixth annual report of the Minister of Pensions discloses that four thousand five hundred war widows remarried in 1926 and that since the inception of the British war pensions scheme more than \$3,000,000,000 have been paid, a sum claimed to be larger than that paid out by any other country.

CHICAGO TALKS LONDON TODAY

Telephone Conversation Covered Greatest Distance in History

Chicago, Feb. 1.—(AP)—Chicago has talked to London over the telephone; talked—that is until a telephone company supervisor found out what was being done and ended the conversation on the plea that such service was not contemplated at present.

The call was from the office of the Herald and Examiner of the newspaper's London correspondent and was contemplated through direct connection at the switchboard of the New York American. It was described as the longest telephone call on record involving a 4,500 mileage.

The previous record was from Havana, Cuba, to Catalina Island, Cal., over an estimated distance of 4,000 miles. "Who is this speaking?" came the voice from London, when the call was put through, "Chicago? Congratulations, Chicago."

It was here that the operator in New York grasped the fact that Chicago was talking with London. "This cannot be done," a supervisor interrupted. "We are not ready for this service. We can not permit you to continue the conversation."

The cost of the call was \$29.25 for service to New York and \$25 for one minute's conversation with London.

BROWNING TAKES STAND TODAY IN SEPARATION SUIT

"Cinderella Daddy" Declares He Did Not Make "Life Unbearable" for Peaches

White Plains, N. Y., Feb. 1.—(AP)—Flat denials of his wife's charges of cruelty with embroiderings of his kindness, affection and prodigal generosity toward her, featured the appearance today on the witness stand of Edward West Browning, the New York realtor, in his separation suit against the former Frances (Peaches) Heenan.

"I did not strike Peaches at any time or any place," he declared.

"I bought her everything she wanted, and offered her more—even my skin once when she was wounded," he said.

At no time, he declared, did he ever "jump about the floor like a monkey," or make strange noises, set off alarm clocks at his wife's bedside, or in otherwise make life "unbearable for her."

His wife he implied, was a wife "in name only," and objected to him and his attentions because she did not want children.

BREAKS IN LEVEE FORCE HUNDREDS FROM HOMES

Thousands of Acres of Land Are Inundated When River Levees Give Way

Little Rock, Ark., Feb. 1.—(AP)—More than a hundred thousand acres of land, much of it cultivated, was flooded today as the result of breaks which have occurred in the levees of rivers in the St. Francis Levee District.

Reports from the flooded area that several deaths had occurred, however, were discounted last night by Red Cross workers who returned from the scene.

The counties of Woodruff, Prairie and Monroe were almost entirely under water along the course of White River, where the most serious break occurred.

Residents of the flooded area had ample time before the break to transport much perishable produce and livestock to higher ground.

Tentage has been furnished by the State Military Department for many of the families. It was estimated that between 700 and 1,000 had to flee their homes. The town of Cotton Plant in the middle of the flood, though on high ground, was host to 500 persons, driven from their own homes either by the actual water or fear of high water expected any minute.

Reports from Callahan, Ky., where recent floods have played havoc in McLean County, are that thirteen families were marooned on a knoll. Dispatches from there last night were to the effect that they needed food, clothing and medicines and food for livestock.

AMERICANS FLEE FROM PROVINCES OF CHINA TODAY

Naval Forces Moving to China to Furnish Necessary Protection to Americans

Washington, Feb. 1.—(AP)—American refugees, including many missionaries, are fleeing in increasing numbers from the danger zones of interior China to the seacoast cities and United States naval forces are moving closer to the theatre of war to afford them any protection that might be needed.

Admiral G. W. Williams, commander of the Asiatic fleet, has reported to the Navy Department that many American citizens, acting on the advice of American Minister MacMurray at Peking, have begun an evacuation of interior Chinese provinces because of movements of Cantonese forces, while Shanghai dispatches report a general missionary exodus from almost every province under national control due to anti-foreign agitation and hostile student mobs and soldiery.

Meanwhile, two American destroyers are enroute to Shanghai for possible emergency use.

The fourth regiment of marines at full war strength, also is preparing for what appears to be an early departure from San Diego for a far eastern destination.

It will be in command of Colonel Charles E. Hill.

Some of the cities from which Americans are scurrying to places of safety are Chung King, Chang Sha, Szechwan and Foochow At Hankow and Nanking, American consuls have warned them to leave. Those in Amoy, Swatow and Canton have been concentrated at places which could be evacuated on a moment's notice.

Fifty-one Americans and 34 British have left Swatow, while 40 Americans and 170 British are expected to arrive at Chung King another evacuation center, within two days.

Withdrawal of American missionaries from Fukien province, where missions representing American investments of millions of dollars and years of effort have been abandoned, at least temporarily, is described by the Foochow correspondent of the Associated Press who arrived at Shanghai yesterday with a group of missionaries. Only three missions in the interior section of the province remain to be evacuated, men, women and children having departed.

All school buildings in Fukien missions have been taken over by the nationalists, and because many former mission students were leaders of anti-Christian mobs, some missionaries believe it would not be advisable to renew the educational work. In any event it is doubtful when if ever the missionary effort will again assume its former scale in Fukien.

Says Industry is Moving Southward

Atlanta, Feb. 1.—(AP)—The industry of the nation is gravitating southward at a rate never before equaled in the history of our section, believes Frank Gould, vice-president of the Manufacturers Record.

Mr. Gould accompanied by Mrs. Gould, is visiting several of the large cities.

The situation resulting from a bumper cotton crop is nowhere so acute as in the talk about it, Gould said, adding that the cotton farmer would learn a valuable lesson from the experience in overplanting.

Too Much "Acid?"

Excess Uric Acid Gives Rise to Many Unpleasant Troubles.

Authorities agree that an excess of uric acid is primarily due to faulty kidney action. Retention of this toxic material often makes its presence felt by sore, painful joints, a tired, languid feeling and, sometimes, toxic headache and headache. That the kidneys are not functioning right is often shown by scanty or burning passage of secretions. Thousands assist their kidneys at such times by the use of Doan's Pills—a stimulant diuretic. Doan's are recommended by many local people. Ask your neighbor!

New Spring Styles

They're here—a host of lovely frocks and fashionable coats to say nothing of the last word in millinery and smart costume accessories. You will love everything, the gracefully tiered frocks in degrade effect, the coats with their pert upstanding collars and their intricate seamings, and the hats of felt and supple straws each distinguished by its own individually creased crown.

Spring Coats

You'll find them slim, their straightness broken only by an occasional cluster of pleats at either side. Bell sleeves and embroidery are much seen and the favorite collar is a miniature Medici of fur or fabric

New Frocks

The sheerest of woolsens make the fashionable tailored frock, and georgette and crepe satin the afternoon types. Both kinds are partial to pleats and the V-neck is almost universal. Do come and see them.

Smartest of spring colors are all shades of blue and a natural shade called beige grey.

Los Angeles, Cal., Feb. 1.—(AP)—What did George Washington look like when he was 25 years of age?

This poser was asked a few months ago by officials of the Metro-Goldwyn-Mayer studios in Culver City.

And for a time it looked as if the question would keep right on being a poser because a diligent search throughout the United States failed to reveal the appearance of a young Washington.

Then science stepped in and solved the problem. Anatomical experts, called in by the M-G-M organization, worked on the problem for a while and have just succeeded in reaching their conclusion.

Washington at 25, according to this scientific determination, was red-headed, blue-eyed, had a prominent nose, was thin-lipped, had a high forehead and prominent ears. And the experts are positive that this description is an accurate one. They base their determination on the result of extensive studies and analysis of copies of Gilbert Stuart portraits of Washington, painted when he was much past middle age.

They also used a faded photograph of an ivory miniature of the first President, printed some twenty years before the American revolution.

The result of this analysis enabled the experts to arrive at a determination which the film studio is assured is almost a speaking likeness of Washington when he was a major in the Virginia militia.

Glorification of the tanks corps during the World War is the feature of "The Patent Leather Kid" in which Richard Barthelmess is being starred by First National.

Evolution of the tank, from the time General Byng smashed the German front with them in a surprise attack in 1917, until the American army sent them plunging through the St. Mihiel salient and the Argonne forest during the closing days of the war forms one of the most exciting chapters of the world conflict.

Barthelmess has the role of a boxer who, disinterested at first, eventually enters the war and is made a tank nurse—a soldier who follows in the wake of a tank and keeps an eye out for snipers and anti-tank guns.

TODAY

(Continued from Page one) drunk to study their faces, completely relaxed, and dreadful tales were told of living men tied down and dissected.

In spite of all the studying, it was not until Charles the First's time that the circulation of the blood was scientifically established.

We are too civilized to dissect living human bodies now. But we still execute criminals, and science gets all the information it can from the fate of murderers.

Scientists of the Rockefeller Institute assisted by Dr. Sweet, head of the prison hospital plan to photograph the hearts of men in the electric chair, as the current strikes them, and learn just what happens. How long the heart fights against the current and other things may be learned, if the current does not upset the cardiograph and other apparatus.

Extra electrodes will be applied to the criminal's wrists and legs, in addition to the big electrodes on the shaven head and bare calf of the leg. Criminals slung with death by electricity "burning."

The criminals will not like the new harness to be adjusted upon them but it may be of use to others.

Those that trust bootleggers and their "guaranteed pre-war" noisiness should read the Metropolitan Life Insurance Company's report on alcohol. In six years, the number of deaths from alcohol increased six fold. Six times as many are killed by alcohol here, under prohibition, as in Canada.

And deaths from cirrhosis of the liver, which means SLOWER alcoholic death, are also increasing.

The nation being on a bootleg-whiskey basis, it is important to discourage bootlegging, if it can be done. Commissioner of Internal Revenue David H. Blair and Mr. Andrews, assistant secretary of the treasury, tell the Senate that "under cover" men are necessary if the bootleggers are to be caught.

One single government "trap" caught twenty bootleggers, soon to be tried. Wide open plainly to be seen and avoided methods won't catch anybody.

The treasury catches bootleggers as it has always caught counterfeiters, with spies gaining the confidence of the criminals

Every American should read the letter of 'cold facts' sent to the Senate by Messrs. Blair and Andrews, telling of "numerous and continuing conspiracies—violations nation wide in their occurrence, and almost without number—a menace to the stability of well organized society-men engaged in this illegal work with practically unlimited financial resources, from their great profits—their get skilled assistants both legal and chemical—corrupt public officials—hire criminals that do no stop at murder to assure the success of their operators, etc.

Such organized crime cannot be fought by a treasury department that has its hands tied by childish scruples.

President Coolidge says he is in favor of preparedness, but against militarism. Militarists, looking for a fight, and Pacificists, who think an olive branch all that a nation needs, are equally dangerous, in the President's opinion. That is the opinion of 90 per cent of Americans.

Plenty of flying machines, useful in peace, carrying mails and passengers, and quickly made useful for defense in war, also plenty of submarines, to welcome intruders from above and below—that should be the national program.

The President takes pride, as he may, in the work of economy financial management, for which he and Secretary Mellon deserve the credit. Six years ago, this government cost every American of \$51 a year. That has been cut to \$30 per capita. Total cost of government has dropped by two billion dollars a year, and tax have been cut a billion and a half. That is BUSINESS.

President Coolidge and Secretary Mellon deserve the credit.

POLISH FASCIST GROUPS NOW UNDER ONE HEAD

Warsaw, Feb. 1.—(INS)—The Fascist organizations scattered throughout Poland have been formed into a single group headed by Roman Dmowski who was formerly a leader of the Poles against Russian domination of his country. The new organization is called The Champions of Poland and according to Dmowski will not interfere with the government of Marshal Pilsudski as long as the present status is maintained. If, however, the present government falls or attacks the Fascists he warns that his party will take over the government for the good of Poland.

Dmowski declares his party has ready a national program that will win the support of a majority of the Poles.

Senate Approves Immediate Building of Three Cruisers

Washington, Feb. 1.—(AP)—Disregarding the wishes of President Coolidge, the Senate today approved the beginning of construction this year of three additional scout cruisers.

The cruiser proposal was in the form of a committee amendment to the \$32,000,000 annual naval appropriation bill and would make available \$1,200,000 for the ships. A similar amendment offered by Republican leaders was rejected by the House after President Coolidge had made clear his wishes that further new naval construction be held in abeyance pending the outcome of efforts now being made at Geneva under the auspices of the League of Nations to bring about a new armament conference.

The vote was 49 to 27. Twenty-five Democrats and 24 Republicans made up the 49 total for the amendment, while 18 Republicans, eight Democrats and one Farmer-Labor supported the President.

STOCKS New York, Feb. 1.—(AP)—Stock prices displayed a firm undertone at the opening of today's market. The decrease of over \$28,000,000 in broker's loans last week bringing the total down over \$80,000,000 below the peak of the month, coincident with an increase in commercial loans, had a bullish effect on sentiment. General Motors and United States Cast Iron Pipe each showed initial gains of one quarter point.

STOCK CLOSING New York, Feb. 1.—(AP)—Revival of activity and strength in the oil shares and a resumption of bullish operations in the so-called "merger rails" divided chief speculative interest in today's rising stock market. Trading was on a slightly broader and larger scale, indicating a reawakening of public interest. Closing was firm. Total sales approximated 1,400,000 shares.
