WORKERS URGED HOLD ADVANTAGE GAINED LAST WEEK

Reflector Subscription Contest Has Only Ten More Working Days to Run

Contestants for the Studebaker Sedan, Chevrolet Coach and other prizes awarded by The Reflector on the 12th, are urged to keep their shoulder to the wheel this week and try to hold any advantage they may have earned during the past week.

Those who put in some real hard work in the first period of the drive and especially those who did so well on Saturday past, should leave no stone unturned this week and next to continue. They have made good progress toward the final goal of \$3,000 in prizes and commissions. Their names must be well up on the list of thirteen entrants.

Entrants who are putting forth every effort to earn one of the leading prizes should not let any idle gossip that they may hear on the street deter them in their struggle to emerge victorious. No one connected with the paper or the campaign has any knowledge of the ultimate winners for the race is too close to even hazard a guess. There is no one other than the campaign manager who has access to the records and knows the votes earned by the different candidates, and no one will know the true standing of all entered until the judges announce the winners at the close with the number of votes cast.

Several leading workers have expressed themselves as not knowing which way to turn this week for subscriptions. Perhaps this week and next will witness a falling off in their accomplishments, and if so, this is the opportunity for those trailing to forge their way to the front during the closing hours of the campaign. The contest is scheduled to run six weeks in all and but four have been completed. It is possible that those who finished ahead at the close of the big voting period may hold the lead and earn the big prizes, and it is just as possible that they have shot their bolt and from now to the finish will console themselves with the work already done.

The real fight of the entire campaign is now on. Records here at the campaign office show the workers are slipping. Leadership is hanging in the balance with at least eight workers on the list in a position to win the leading prize if they make the proper effort between now and Saturday night, February 12th.

PERFECTING PLANS FOR B. P. U. MEET TO BE HELD HERE

Five Hundred Young People Expected to Attend Convention Here First of April

A meeting to make plans for the regional B. P. U. convention to be held in this city April first to third, was held at the Emmanuel Baptist church last night, with a large number present and enthusiastic over the approaching event.

The eastern regional convention will include representatives from the Chowan, West Chowan, Neuse-Atlantic and Roanoke Associations of the Baptist State Convention, comprising twenty-three counties of the east. It is estimated that more than 500 young people will attend the convention here in April.

At last night's meeting, Rev. L. R. O'Brien, pastor of the Emmanuel Baptist church, made a short address of welcome to those present and introduced Perry Morgan, Raleigh, State Secretary of the B. P. U. Mr. Morgan outlined the plans for the meeting and stated that while it is primarily for the Baptist denomination, that the convention will prove beneficial and interesting to the young people of all other denominations, and an invitation was extended to other churches to take part in the coming convention.

Representatives of the various churches of the city, of the Rotary and Kiwanis clubs and the city, last night in short addresses, promised the aid of the various organizations in making the convention here a success.

On Friday night, April 1, at the opening session of the convention, an address of welcome will be delivered by Mayor J. C. Lanier. The program throughout the three days include addresses by many prominent speakers from over this and other states and will prove very interesting and instructive. As a part of the entertainment program the Glee Club, Quartette, and Dramatic Club of Teachers College here, will give a special program on Saturday afternoon, between the hours of four and six.

Committees to look after the securing of homes for the 500 or more visitors who will attend the meeting and other committees on arrangements were appointed last night.

Arrest Members Auto Theft Ring

Raleigh, Feb. 2.—(AP)—Seven white men were in jail today, four arrested here and three at New Bern, as a result of an alleged automobile theft ring uncovered by the motor theft bureau of the State Revenue Department.

Ted Honeycutt, Walter Morris, W. L. Vincent and Thomas Hannah, arrested in Wake county, and Clyde Brasher, Kearney Davis and Willie Hughey, arrested in New Bern, were held under \$1,000 bond each, on warrants alleging participation in stealing cars in Charlotte, Durham, Albemarle, Kinston and Raleigh.

Stripping of stolen cars and exchanging equipment for whiskey in craven county was the "game," officials said.

The ring operated for over a year, Leland C. Harris, supervisor of the Revenue Department Bureau, said.

May Name Highway For Virginia Dare

Raleigh, Feb. 2.—(AP)—Although Frank Page has protested against naming a state highway for him, no one has yet come out against calling the concrete stretch from Edenton, down Roanoke Island to Wanchese, the "Virginia Dare Highway."

The proposal is expected to be placed before the General Assembly during the present session. Mr. Page is state highway engineer.

History students regard the name as especially appropriate for the highway, as it follows the ancient trail followed by Indiana from the interior in their treks to the coast, where they traded with coastal Indian tribes and the white men.

BOY SCOUTS TO HAVE CHARGE OF WINSTON FOR A DAY

Winston-Salem, Feb. 2.—(AP)—Jack Pepper, 16, son of Dr. and Mrs. J. K. Pepper, was appointed to serve as Mayor for one hour of Winston-Salem February 10, when other city offices will also be filled by Boy Scouts.

NUMBER OF CASES HEARD IN COUNTY COURT YESTERDAY

No Court for Past Two Weeks Causes Heavy Docket for Yesterday's Session

After no sessions of county court for the past two weeks because of the regular term of Superior Court here, yesterday's county court was faced by a heavy docket and the larger part of the day was taken up with the hearings. A number of road sentences were meted out by Judge Darden to violators of the prohibition laws.

The cases disposed of yesterday were:

Mark Wooten, possessing liquor fined \$15 and cost.

Jarvis Dixon, possessing liquor; fined \$15 and cost.

Robert Sumner, manufacturing whiskey; sentenced to 8 months on roads. Defendant appeal to Superior court under bond of \$700.00.

William Stephenson, manufacturing whiskey, sentenced to 8 months on the roads.

Heber Anderson, carrying concealed weapon; fined \$50 and cost.

Letha Avery, possessing and transporting liquor; judgment suspended upon payment of costs.

W. R. Knox, failing to pay board bill; not guilty.

John Green, James Cherry, Aris Joyner, Eddie Gatlin, gambling; no guilty.

Brownie Brown, driving car while drunk; failed to appear for trial and capias issued.

Maggie Hammond, colored, whiskey for sale; failed to appear for trial and capias issued.

W. E. Andrews, worthless check judgment suspended two years upon payment of cost and good behavior.

Oscar Davis, driving auto while drunk; not guilty.

Amp Wooten, assault with deadly weapon; sentenced to three months on roads.

J. R. Briley, driving auto while drunk; fined \$100 and cost plus damages of \$58.75 to A. T. Denton & Co., for damage to truck.

Andrew Stocks, carrying concealed weapon; fined \$75 and cost.

Matthew Whitehurst, whiskey for sale, sentenced to four months on roads.

John Adkinson, carrying concealed weapon; not guilty.

H. H. Proctor, Jr., on ten warrants for worthless check; failed to appear for trial and capias issued.

R. H. Coggins, worthless check; failed to appear for trial and capias issued.

L. F. Hill, worthless check, failed to appear for trial and capias issued.

Patients Had Narrow Escape Hospital Fire

Ann Arbor, Mich., Feb. 2.—(AP)—Relief of Harley Haines, director of the old University of Michigan Hospital that last night's fire at the institution was of incendiary origin, has started official investigation of the blaze in which 200 patients had narrow escapes from death and injury.

Mr. Haines said he was convinced the fire was the work of a firebug when flames broke out on a short time later in a hotel across the street to which some of the patients had been removed. The hotel fire was quickly extinguished. Firemen believed sparks from the hospital might have started the hotel blaze.

Reject Bids For Muscle Shoals

Washington, Feb. 2.—(AP) Rejection of the bids of the American Cyanamid Company and the Farmers Federated Fertilizers Corporation for Muscle Shoals in their present form was agreed upon today by the House Military Committee.

The committee appointed a sub-committee of seven, however, to confer with representatives of the two concerns in an effort to have them agree upon certain revisions which committee members have insisted upon. The sub-committee will report to the full committee which will again take the bids under consideration.

COMMITTEE FAILS REACH DECISION ON SMITH'S CASE

Believe Senator-Designate Should be Heard Before Report is Made

Washington, Feb. 2.—(AP)—For nearly two hours today the Senate Elections Committee discussed the case of Frank L. Smith, Senator-designate and Senator-Elect from Illinois, but came to no conclusion.

"We met, we discussed the matter and we adjourned until tomorrow just as though we had held no meeting," said Chairman Ernst.

Other committee members disclosed that the consensus was that no action be taken until Smith has been given an opportunity to present testimony.

A number of Senators took the view that it would be a waste of time to make a preliminary report recommending administration of the oath since there was slight possibility that such a report would be approved.

Reject Proposal to Replenish Stock Medcinal Lquor

Washington, Feb. 2.—(AP)—The Treasury's proposal for replenishing the stock of medicinal liquor was rejected today by the House Ways and Means Committee by a vote of 16 to 8.

TODAY

116,620,000 Of Us. Plain Words Are Best. 5,000,000,000,000,000. Poison Gas Flame.

(By Arthur Brisbane)

GOVERNMENT estimates the present population of the United States right here at home at 116,620,000. The country has gained 12,917,330 in the last six years, one million and a half in the last year.

All this is encouraging, although it is slow. We need fifty million more people now to eat surplus products of farms, buy new automobiles and "used car" bargains.

PEOPLE are the real wealth of the world.

Judge Lindsey on an election technicality, is suddenly removed from his place in Denver's Juvenile Court. The whole country knows the admirable work that Judge Lindsey has done, and agrees with Bonifis of the Denver Post who "sees a thing clearly and describes it simply as follows:

"It is manifestly unfair to let a shameful conspiracy against Judge Lindsey throw him out of office by the fraud it committed. Judge Lindsey is entitled to all the honest ballots cast for him. It is wrong to permit a few crooks to thwart the will of the people by gumming up an election."

Write down 5, then add 18 zeros and you have five quintillions, the distance in miles to our earth from one of those nearby universes floating in space around us. We thought our universe, the Milky Way, with our sun a bright speck in it, was all that the Lord created. But that universe is only one little speck in a mass of universes, each an island on its own account.

Within five hundred quintillion of miles of this spot in space, there are innumerable universes.

It is easy to SAY "five quintillions," utterly impossible for the human mind to conceive what it means. Light traveling 186,000 miles a second would travel five quintillion of miles in 1,000,000 years.

FORDS REFUSED A BILLION DOLLARS FOR MOTOR STOCK

Witness in Tax Suit Testifies Offer Was Refused Within Last 30 Days

Washington, Feb. 2.—(AP)—An offer of one billion dollars for their stock in the Ford Motor Company was refused within the last 30 days by Henry and Edsel Ford, the board of tax appeals was told today by John W. Prentice of New York.

He testified that on two previous occasions likewise, in 1924 and 1925, the Ford family rejected a spot cash offer of one billion dollars for the company.

Mr. Prentice, a member of the brokerage firm of Hornblower and Weeks, was the second witness put on the stand by former minority stockholders in the renewed hearing of their appeal from a treasury assessment of \$30,000,000 in additional taxes on sale of their stock.

The progress made by the Ford company since 1916 Prentice said was so rapid that it was impossible to strike an average for stock valuations. He pointed out that during the panic years of 1907 and 1908, when industrial stocks declined generally, the shares of the Ford Motor Company forged ahead.

URGE LEGISLATORS APPROPRIATE FUND FOR NATIONAL PARK

Speakers Picture Great Smoky Region to Members in Joint Session at Noon

State Capitol, Raleigh, Feb. 2.—(AP)—A picture of the great Smokies of North Carolina as a national park exceeded by none in the nation in beauty or any other respect was painted by authorities today.

Visualizing the prospective venture if endorsed by the State Legislature under State appropriation and support in conjunction with the federal government, park leaders spoke before joint sessions of the General Assembly.

"Spectacular things are being said," said Congressman Henry W. Temple of Pennsylvania, chairman of the Southern Appalachian Park Commission.

"After the bare crags and erupting volcanoes of the Western parks, the different type of scenery of the Great Smokies is restful," continuing that members of the commission had surveyed the entire South before settling upon the great Smoky area on the border of North Carolina and Tennessee, the logical spot for one of the two proposed Eastern parks.

He ventured that if the park were established it would attract tourists in great numbers as the longer established Western parks. The speakers, three in all, were introduced by State Park Commissioner Max Squires, Caldwell Commission, and a leader in the movement for the establishment of the park.

Congressman Temple was followed by Major William A. Welch, of New York, superintendent of the Catskills Park, and an explorer of note and A. R. Cammerer of Washington, assistant director of the National Park Service of the Interior Department.

Creation of a National Park in the Great Smoky Mountains would bring hundreds of thousands of tourists to the State every year.

This area is regarded as one of the distinctive beauty spots of Eastern America, only to be found anywhere else in national parks.

As soon as the State shows it means business about establishing this park there will be ample help in contributions from other sections.

The gas tax that is levied will be used to make the park. No area in the world has so great a variety of local growth in the West.

SEVERAL BILLS INTRODUCED IN ASSEMBLY TODAY

Committee Returns Unfavorable Report on Haywood Anti-Immorality Bill

State Capitol, Raleigh, Feb. 2.—(AP)—The General Assembly convened an hour earlier than usual today to clear the slate for the joint session at noon when speakers from the National Park Commission will be heard.

The Senate completed its work in twenty minutes today by passing three local bills and having one introduction of a new measure. The one local bill which prevented the Senate from setting another precedent of having no new bills so late in the session was a local measure validating certain bond issues in the town of Weaverville.

The major portion of the day's session was taken up with reading the committee reports, which indicate that there will be plenty of local legislation on the calendar for Thursday.

More than a score of local bills were reported favorably in the House. The Everett bill, designed to take North Carolina College for Negroes at Durham from under the supervision of the State Education Department, was reported unfavorably with recommendation that a substitute pass.

This bill caused a lengthy debate last week on the alleged failure of Dr. Shepherd, president of the college, to remove his hat while in an elevator with a group of legislators.

Seventeen new bills, mostly local were introduced. Miss McLean of Mecklenburg, presented two bills that would amend laws covering election of directors of corporations and places of meeting.

Rep. Ward, Dupin county, moved to prohibit the sale of land for drainage taxes.

Rep. Klutz, Catawba, put in three bills, one of which would allow for the extension of the corporate limits of West Hickory, one would allow charter of Longview, and one would allow the town of Highland to change its name to High View.

Pete Murphy, Rowan, closed the introduction with a bill designed to clarify mortgage conditions on household and kitchen furniture.

Six local bills were passed before debate started again on Representative Klutz's bill to increase widows and orphans allowances.

Raleigh, Feb. 2.—(AP)—The House Health Committee today voted to report unfavorably the Haywood bill designed to prevent the sale of certain devices alleged to promote immorality. The decision came after lengthy argument. Sponsors of the bill said it would be brought to the House floor on a minority report.

WILL ACT FRIDAY ON TAX QUESTION

Senate Agrees to Go on Record for Tax Legislation Not Later Than Friday

Washington, Feb. 2.—(AP)—The Senate agreed today to go on record not later than Friday on the Democratic proposal for tax reduction at this session of Congress.

Facing a threatened Democratic filibuster, Republican leaders accepted an unanimous consent agreement for action by 2 p. m. Friday on the resolution of Senator Harrison, Democrat, of Mississippi, which would express it as the sense of the Senate that a reduction in the permanent tax schedule should be made before the March 4 adjournment. The resolution would not in itself, however, accomplish any tax revision.

Senator Harrison again served notices today that he would tie up the legislative machinery of the Senate each day until he got agreement for a vote on his resolution.

Mobile, Ala., has been under five flags—Spain, France, England and the Confederacy and the United States.

BROWNING TODAY PESSIMISTIC OVER OUTCOME OF SUIT

Hearing in Separation Suit Against "Peaches" Completed Yesterday

New York, Feb. 2.—(AP)—Edward W. Browning was pessimistic today over the outcome of his separation suit against Peaches.

"A woman always has 99 chances out of a hundred," he said. The court house at White Plains was comparatively still today. There was no laughter over tales of an African honking gander, rubber eggs and bending spoons. The separation suit of the 52 year old wealthy realtor against his 16 year old wife was under advisement by Supreme Court Justice Seeger.

The final hearing was held yesterday. The rival attorneys will have three weeks to amplify contentions and file briefs.

Browning left the court house amid a salvo of flashlights and a few cheers and sped away in his \$800 a month hired English car. A dozen doughy cops linked arms to keep clear the path of Peaches to a taxicab.

The final hearing revealed several points of a magnitude in keeping with previous testimony. Peaches and not her husband tied the red ribbon around the gander's head, it was said. Browning said he was not very good at tying bow knots.

Also Peaches typewrote little "love notes" to Browning while she waited in his outer office and he was busy within, but they were written on request, she asserted. She testified he said: "There's nothing to do now; write me some love letters."

Browning sought to prove he was not a cruel husband, but was "kind, affectionate, thoughtful, and bouneous." He bought an \$10,000 furniture manufacturer, a president of a certain New York social club, and an elderly, black-garbed woman who formerly led an orchestra into court to support his assertion.

Mrs. Browning's main testimony was a denial she had ever before seen the alleged "boy friend," James P. Nixon, who had testified against her.

A neurologist testified that, supposing certain eccentricities and alleged cruelties of Browning to be true, Mrs. Browning's nervous condition is the result of physical traumas and emotional reaction from disagreeable environments.

An attorney for Peaches nearly fainted in his cross examination. Justice Seeger said: "Any more trials like this will have to be heard by another judge."

Blind Johnson Not For Poole Evolution Bill

Raleigh, Feb. 2.—(AP)—"Blind Johnson," known to everybody about the rural as the loudest and loudest in Raleigh when the Assembler Quartet gets together in the rotunda for a round of "When the Roll is Called Up Yonder," is against the Poole bill.

"I don't believe in evolution," Mr. Johnson made it clear, "but I don't think God needs the help of laws to make His word predominant."

Because of his devotion to Gospel hymns the house door-keeper had been accused of being a staunch supporter of the Poole measure. He wanted to "set the people right" about his views.

Johnson has been door-keeper for four sessions, and is so firmly entrenched that nobody thinks of running against him.

Blind since boyhood, he has an uncanny sense of touch and hearing. One week is all that he requires to learn the legislators by their touch or voice. Always he has a word of greeting for them.

He hails from New Bern, where he engages in various pursuits when the legislature is not in session. One of the principal diversions is guessing a person's weight from the sound of his voice.

Houses Refuses Accept Senate Cruiser Bill

Washington, Feb. 2.—(AP)—Without debate the House today refused to accept the Senate amendment to the naval appropriation bill providing for three more cruisers. The bill was sent to conference.

The House also refused to accept all other Senate amendments. This procedure is customary.

Sen. French, Republican, of Idaho, was appointed to head the House conference.

HOLD MEET HERE MAKE PLANS FOR COLLEGE DRIVE

Meeting Friday Will Discuss Endowment Crusade Atlantic Christian College

Two hundred minister and laymen of the Christian churches in North Carolina will meet here on Friday, February 4, to discuss the plans and purposes of the \$300,000 Endowment Crusade for Atlantic Christian College, Wilson, N. C.

The meetings Christian church Rev. R. J. Bamber, pastor. The morning session will start at eleven o'clock with an address by Dr. H. O. Pritchard, Indianapolis, Indiana, general secretary of the Board of Education of the Disciples of Christ.

At the noon hour a luncheon will be served to the delegates. Dr. H. H. Harmon, Indianapolis, secretary of the department of endowments of the Disciples of Christ will preside at the luncheon program. Addresses will be given by Dr. Pritchard, Dr. A. E. Corey, Kinston, and other ministers and laymen of the state.

A group of girls from Atlantic Christian College wearing the colors of the school will entertain the guests with college and crusade songs. They will be under the direction of Miss Elma Starr of the Department of Music at Atlantic Christian College. The college glee club will sing.

Miss Ruth Lory, advance representative of the crusade, will be in charge of the preparation of the luncheon. The dining room will be decorated with the college colors and pennants.

Atlantic Christian College is a Disciple college, founded in 1863 by action of the North Carolina State Convention. Dr. Howard E. Hilley, has been the president of the institution for eight years.

The present crusade is under the direction of the department of endowments of the Christian church, Dr. H. H. Harmon is the secretary. Sidney R. Bradley will be associated with Dr. Harmon in the direction of the campaign. Headquarters will be established at Wilson. A committee of laymen and ministers of the state are co-operating with the department of endowments in the promotion of the campaign. Dr. George Cuthrell, of Raleigh, is the chairman of the crusade committee.

Associated with Dr. Cuthrell are J. W. Hines, Rocky Mount; Rev. Richard Bagby, Washington; W. E. Hooker, Greenville; John Aske, Raleigh; C. H. Rawls, Raleigh; Dr. A. E. Corey, Kinston; H. Galt Braxton, Kinston; Rev. C. W. Howard, Kinston; Rev. J. M. Waters, Arapahoe; and W. C. Manning, Williamston.

On Sunday, February 6, the Christian churches of Pitt county will be visited by crusade speakers who will present the cause of Christian education. There are thirteen churches in the county.

On Monday night the crusade will officially open with a county banquet. The membership of the churches will be the guests of the college at a banquet. Speeches will be made by the crusaders setting forth the objectives of the campaign.

Honolulu, Feb. 2.—With two continents and several lesser conferences scheduled to be held here during the present year, this city may almost be said to be in the "convention business." The scientific and educational conference in April, which is being sponsored by a number of the federal departments in Washington, will bring delegates from countries all about the Pacific as well as the meeting of the Institute of Pacific Relations in July. Seattle is sending an expedition of business men this month and several excursions of a similar nature are scheduled from Los Angeles. In November will be held the annual meeting of the western division of the United States Chamber of Commerce, which voted at its recent meeting in Colorado Springs, to hold its next gathering in Hawaii.

With the completion of dredging contracts recently awarded by the United States Navy, Pearl Harbor will be accessible to Uncle Sam's greatest warships. About two years time is necessary to complete this work which is just now starting at the big naval base. The aggregate cost will be about \$4,500,000. Two dredging companies—the Hawaiian Dredging Company of Honolulu and the United States Dredging Company of San Francisco—will handle the work.

Several Hawaiian plantations are experimenting this year with the shipment of raw sugar to the refinery at Coker, Calif., in 100 pound instead of 125 pound bags, as heretofore. The use of these bags is expected to effect a considerable saving in the refinery, after being lined inside with cotton bags, they will be filled with the refined sugar and shipped to their destination. More than 12,000,000 jute bags were used in 1926 to ship the Hawaiian sugar crop.

During the conducting of experiments on Maun Loa mountain, island of Hawaii, recently by the U. S. coast and geodetic survey, time signals were sent by radio each day from Washington, D. C., and were picked up with a portable receiving set. Most of the signals were received high up in the mountain, up to an elevation of 13,900 feet. The officials in charge, Lieut. E. J. Brown and Lieut. W. H. Bagnbridge, reported that they had no difficulty in distinguishing them.

The government road leading around the island of Hawaii, passes for a considerable distance along the Hamakua coast, where, because of the precipitous nature of the cliffs, landslides are not infrequent during wet weather. Occasionally when automobilists going in opposite directions find themselves stopped by a common barrier, they make their way around the landslide on foot, arrange a temporary swapping of machines, turn the cars about and continue on their respective ways.

David K. Trask, retiring sheriff of Honolulu, who set a new record for the expeditious handling of traffic in congested portions of the city, will become sales manager of a local automobile firm upon leaving office. During his term, Trask organized the Junior Traffic Corps of schoolboys for handling traffic at street corners. So effective was the work of this organization that not one child has been killed or injured at a school crossing since they began their duties two years ago.

Build up a fund to take advantage of opportunity to educate the children, to buy a home. Buy shares in our 45th series. It begins Saturday, February 5th. Home B. & L. Ass'n. 1-5t.

NOTICE: TO HORSE AND MULE owners of Pitt and adjoining counties—I am now prepared with a horse shoeing shop, on wheels, to meet you at any point in these counties, to do shoeing or trimming of feet. No team should be plowed with long feet. They are subjected to split and hoof filth which created sand grave, and thrush. Sand grave will not enter a short sound foot. As I could not afford to drive ten or twelve miles to trim two or three sets of feet, see your neighbors and get them to co-operate with you. Sincerely, C. HIGH BLOOD PRESSURE OR HEALTH
 High Blood Pressure is a condition which is especially prevalent among people past middle life. Its danger lies in the fact that the patient is usually unaware of its existence until paralysis or other serious conditions overtake him. If you would reduce your high blood pressure you should employ Chiropractic adjustments which eliminate its cause. Start getting well today.

TO DARKEN HAIR
APPLY SAGE TEA
 Common garden sage brewed in a heavy tea with sulphur added, will turn gray streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use for only 75 cents. This is the old-time recipe improved by the addition of other ingredients.
 While wispy, gray faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

ITCHING ECZEMA
DRIED RIGHT UP
WITH SULPHUR
 Any breaking out of the skin, quickly overcome by applying a little Mentho-Sulphur, says a noted skin specialist. Because of its very heavy, itching, eczema, can be very destroying properties, this sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth.
 It seldom fails to relieve the torment and discomfort. Sufferers from skin trouble should get a little jar of Rowley Mentho-Sulphur from any good druggist. Ad.

The Customers Rule--Not the Store!

The merchants who undertake to mold the opinion of his customers with the opinion of the merchant has certainly undertaken a task that will be very difficult to finish.

It is certain that the merchant who reverses this procedure by molding his opinion to that of his customers will accomplish a great deal more and succeed further in the progress of his business.

The progressive merchant realizes and proceeds accordingly. He buys according to the opinion of his customers, he sells, advertises and conducts his business accordingly.

At this store the opinion of the customer always rules. We ask them to help us to be of greater service to them by telling us what to do by way of suggestions—we welcome suggestions of any kind.

We endeavor at all times to make this store a pleasant, home-like place to shop and our ever increasing business proves to us that our customers appreciate it

MRS. WOOTEN ENTERTAINS KING'S DAUGHTERS

The Patient Circle of the King's Daughters met last evening with Mrs. J. L. Wooten.

Mrs. Hortense Moyer, president, presided. Plans for the year's work were made. The sixty members were divided into six circles, each circle is to have its own chairman. There will be a meeting of each circle before the March meeting.

Following the business meeting, the hostess served tea and waffles. The next meeting will be held with Mrs. H. A. White, the first Tuesday evening in March.

WOMAN'S CLUB TO MEET

The Woman's Club will meet at the home of Mrs. G. E. W. Hadley on Thursday, at 3:30 o'clock. Every member is urged to attend.

ROUND TABLE CLUB MEETS

(Reported)

With every member present, the meeting of the Round Table club on Tuesday afternoon, was indeed one of the most delightful of the club year.

The hostess, Mrs. J. W. Higgs, in her gracious manner, made all glad to be present. Our president, Mrs. Luther Herrin, in behalf of the club, welcomed the guests of the afternoon, whose presence added much to the occasion—these were Mrs. Velma Rawles Smith, of New York, who is visiting Mrs. R. L. Smith; Mrs. Bryce Brown and her mother and sister, Mrs. Ramsey and Miss Ramsey, of Schenectady, who are visiting Mrs. Wiley Brown.

At the conclusion of the business session, Mrs. R. G. Fitzgerald, the referee on pronunciation, gave us a comparison of the American and British pronunciation of several everyday words—showing how differently we Americans place the emphasis.

Following this Mrs. Vincent, chairman of the program committee, announced that in continuation of the study "Under the Open Sky," Mrs. H. L. Carr would introduce to us "Celebrated Animal Characters," and in a graphic manner she described the characteristics and peculiarities of some of the important animals in the New York Zoological Park—also relating how they were captured and where. These included Gundy, the big India elephant, Ivan the big brown bear from Alaska, Sultan, the lion model for artists, Caar, the Siberian tiger, Silver King, the big polar bear, the bison here and Baldi the chimpanzee.

Added to this each one related some interesting fact about "Animals I Have Known," showing the wonderful instinct and habits both of the wild and domestic creatures.

The hostess, assisted by Miss Helene Higgs, served a beautiful salad course—the favors carrying the Valentine message.

SEWING CLUB

The sewing club met Friday afternoon with Miss Mary Rachel Teel at her home on 2nd street. The meeting was called to order by the president, Martha Jan. Gates was elected secretary.

A contest, who could make the best Valentine, was very much enjoyed. Margaret Hardee was the winner and was awarded a pretty Valentine lady.

The hostess served hot chocolate and cake.

DIPHTHERIA PREVENTION

The month of February has been chosen as the time for giving toxin-antitoxin to children in Greenville. If every child under ten years of age were immunized against diphtheria our town would very nearly be free of that disease.

The following facts have been pretty definitely established concerning diphtheria and toxin-antitoxin:

The time of greatest susceptibility to diphtheria occurs between the ages of 6 months and 8 years.

Eighty-five per cent of the deaths from diphtheria occurs in children under 7 years of age.

Three doses of toxin-antitoxin will prevent diphtheria in most cases. In a few cases four or five doses are required.

One attack of diphtheria does not prevent a second attack. Neither does the administration of antitoxin in the treatment.

Toxin-antitoxin can be given with little or no reaction following.

Diphtheria is preventable and unnecessary and could be practically eliminated if every child were vaccinated against it as soon as he reaches six months of age.

Parents are urged to take their children to their physician or bring them to our clinic which will be announced later in this paper.

BEALL MAY BE TRADED TO ST. LOUIS

New York, Feb. 2.—(AP)—Miller Huggins, manager of the New York Yankees, still hopes to complete a deal with the St. Louis Browns, he said today. The Yankee pilot, although intending to bid high for the services of Ty Cobb, former Detroit manager, would prefer to see Cobb sign with St. Louis if he evades the New York net, he intimated, in the hope that the addition of Cobb would release available trading material in the Brown outfield.

A deal where pitchers Sam Lones and Walter Beall were reported offered to St. Louis for outfielder Cedric Durst and a pitcher, failed to materialize last week.

STATE AND DAVIDSON MEET RALEIGH TONIGHT

State had lost three games in the state championship race. Freshmen teams of the two colleges will meet here Feb. 8.

HACKED TO DEATH BY WIFE AND DAUGHTER

Cleveland, Ohio, Feb. 2.—(AP)—Anton Lisza was hacked to death with axes wielded by his daughter, Elizabeth, 12, and his wife, Ann, 36, today because they were "afraid he would kill us."

St. Louis Americans Seeking Ty Cobb

Augusta, Ga., Feb. 2.—(AP)—Ty Cobb, the Georgia Peach, is being sought by the St. Louis American League team to top off the basket of hopes the club has for a 1927 pennant.

Dan Howley, manager of the Browns, is here for a meeting with Cobb tomorrow to "talk things over."

"I don't know whether Cobb is going to play baseball," Howley said to the Associated Press, "but if he is I want him."

Cobb, exonerated with Tris Speaker, former Cleveland manager, of charges of crookedness in baseball, has been hunting in South Carolina. Coincident with the announcement that Speaker had agreed to sign with the Washington club, Cobb let it be known he was considering offers from five major league teams. He declined, however, to discuss them.

Declares Hornsby Cannot Hold Down Two Positions

New York, Feb. 2.—(AP)—If Rogers Hornsby remains a director of the St. Louis Cardinals, and draws dividends from 1,167 shares of stock he owns in the club, he will lose a job as captain and second baseman of the New York Giant at \$40,000 a year.

This was the dictum of president Charles A. Stoneham of the Giants, when informed that the former Cardinal manager traded to New York for Frankie Frisch and Jimmy Ring, had been re-elected a director of the St. Louis club.

"If Hornsby stays as a club official in St. Louis, he won't be allowed to play in a New York uniform," Mr. Stoneham said.

"That has been so ruled by president Heydler of the National League and of course, the New York club will observe the ruling."

"We think that a way will be found to straighten out the matter before the season opens. Hornsby will sell stock. But he had an idea apparently that it is worth more than the persons in St. Louis think it is. He may be able to sell it at his figure. Stock in a concern like the Cardinals is worth about what some one is willing to pay for it. We are not alarmed at the situation."

While reiterating that "there wasn't a chance of calling the deal off," Mr. Stoneham said that Hornsby would be in New York late this week to attend the annual baseball writers' dinner here.

"We will have a talk with him then," he concluded.

Wouldn't it be a good idea to be ready for it, and how can we be ready if we simply watch others getting ready?

Child Plays With Hornet's Nest

Playing with a hornet's nest that had fallen from the barn, believing it to be a big ball to push and kick, a little eight-year-old girl was severely stung about the face, arms, and legs. Her mother, prepared for such crying pleas for relief, quickly applied Hanford's Balsam of Myrrh. The tears soon dried and a grateful little face watched the "awful" disappear and felt the pain go away.

Healing qualities of myrrh have been known since Bible days, but when scientifically combined with other healing and antiseptic ingredients, as it is in Hanford's Balsam of Myrrh, it is small wonder its effects are sensational. service from Europe to the Argentine. That's another step toward real flying. It is not far away. Those already old will cross this continent and both oceans by flying machine, before they die.

The youthful Canadian, Young, who swam the Catalina Channel and won Mr. Wrigley's \$25,000, did not leave his common sense in the water. At his request Mr. Wrigley has tied up his \$25,000, so that his mother will get the interest, as long as she lives, then he will get it. And he won't get the principal until he is forty.

Fathers leaving money to their children might imitate this boy's common sense. What is your pet fear? Most people fear poverty, especially in old age. Cure your fears by taking shares for savings. Opportunity knocks at your door next Saturday, when our 45th series starts. Home B. & L. Ass'n. 1-5t.

Focused Heat Florence Automatic Oil Cook Stoves

Why Housewives Demand Florence

Because when heat is wanted and needed they can immediately get it with a Florence Focused Heat Oil Cook Stove. At times you are delayed in starting your meals on time. Yet they must be cooked and on the table by a certain time. The husband has to go to work. The children to school. This is very much true of breakfast and dinner.

Now, such as the above can be avoided. A Florence has no fumes and is so easily regulated that it does not smook. The heat is focused on the cooking. It is just as quick and as hot as gas.

Recipes that many women would not dare try on oil cook stoves are now being prepared on the Florence and women are saying anything to be cooked, can be cooked on the Florence. Housewives, you owe it to yourself to investigate the many features of the Florence Oil Cook Stoves.

A carload just received this week. Any size and style. Let us show you.
