WASHINGTON AWAITS OFFICIAL COMMENTS DISARMAMENT PLAN

British Press Praises Coolidge Proposal While French Describe it as Torpedo Launched at League of Nations

Washington, Feb. 11.—(AP)—While official comment from abroad is awaited, there has been a general informal outpouring in press, official and other circles approving the purpose behind President Coolidge's proposal to the great naval powers to supplement the Washington capital ship disarmament accord of 1921 with an agreement to restrict the building of lighter war craft.

The President's note placing the new proposition before the world made public yesterday, at the same time he delivered a special message to Congress on the subject, has been delivered by American diplomatic officers to the foreign offices of Great Britain, France, Italy and Japan, where foreign news dispatches say thorough study of it will be made before any comment is forthcoming.

Meanwhile, the reaction at Geneva where League of Nations disarmament discussions will be renewed next month, is generally favorable, although doubt is expressed as to whether France and Italy will agree to negotiate an agreement restricting construction of cruisers, destroyers and submarines unless military and aviation problems are dealt with in the same accord.

Those newspapers in Great Britain which commented editorially on the proposal warmly praised it. President Coolidge's overture, says the Westminster Gazette, is most timely. There should be no doubt of Great Britain's willingness to meet the suggestion systematically.

Others dealt with the proposal in a similar vein, while the Daily Sketch, although favoring disarmament, was skeptical as to its success, declaring "what is really wanted is a formula to permanent cure nations of their warlike intentions."

While the Italian officials were reluctant to comment, the general belief in Rome, political circles, dispatches say, is that Italy will accept the Coolidge offer on condition that her representatives be given freedom of action during any eventual negotiations at Washington or Geneva.

The opinion was almost general in Italy, it was said, that the Rome government would face the issue, regardless of whether it participates or not in conference, as it did six years ago in Washington and during the preliminary Geneva discussions, when it took the stand that a reduction in secondary craft would be impracticable under present conditions in Europe.

No comment was obtainable from Tokyo, the note coming at a time when the nation was observing a holiday commemorating the accession of the first Japanese Emperor. News cables from the Japanese capital, however, recalled previous expressions in which officials favored further disarmament, and some hoped that another conference would be called in Washington along the lines of the power discussion in Geneva.

Taking Paris unawares, the President's proposal developed only an informal remark at the foreign office that France had been favorable thus far to every reduction in armaments compatible with securing. No definite (Continued on page six)

Eighty Today

Thomas A. Edison, the inventor, celebrated his eightieth birthday today.

EX MINISTER WAR AMONG THE SLAIN IN REVOLUTION

Dispatch Says 198 Were Killed in Recent Uprising at Lisbon, Portugal

Lisbon, Feb. 11.—(AP)—Advices received here from Lisbon say that Major Americo Oliveira, former minister of War, was assassinated by the revolutionaries in Portugal. The number killed in the fighting at Lisbon, according to the Havas correspondent is 198. Thirty-seven officers were arrested for having a part in the movement. At Oporto, where the revolt started, the deaths were 76, with 300 wounded.

Lisbon is being strongly patrolled. Most of the citizens who left when the fighting started in Lisbon returned to the city last night.

Flu Epidemic is Raging in Europe

Geneva, Feb. 11.—(AP)—There were 818 deaths from influenza in the larger cities of England during the first week of February, and more than 400 in Bulgaria, says a bulletin issued by the health section of the League of Nations. A total of 100,000 cases were reported in Bulgaria during the period covered by the report.

The epidemic in London is decreasing. A marked increase is reported in Japan and slight increases in Czechoslovakia, Portugal and eastern Hungary.

NEW YORK TELEGRAM CHANGES HANDS New York, Feb. 11.—(AP)—William T. Dewart, publisher of the New York Sun and New York Evening Telegram, today announced that the Telegram had been sold to the Scripps-Howard interests. The monetary consideration was not announced.

PLENTY OF ACTION TOMORROW BEFORE CONTEST CLOSES

Week Thus Far Has Been Rather Quiet With But Few Subscriptions Received

Action galore is expected tomorrow before the hour of eight o'clock festivities in the Daily Reflector subscription and prize contest which has been running during the past six weeks. Although much has been accomplished in the way of subscription gathering by the thirteen entrants, still most of those listed are expected to make at least one report before the closing hour.

Contestants are urged to deposit early in the day all outstanding votes not shown in the published list in the ballot box which will be installed for that purpose. Other votes may be deposited as earned during the day. Workers should also take particular care that all their subscription stubs on their last reports are made out properly. Be sure the names and addresses are complete and plainly written and shown on the wrapper.

No checks for subscriptions are requested from the workers. Have all checks made payable to the contestant personally and get it cashed before coming to the office. Of course this is not always convenient to do. Exceptions to the rule of course will be made. The management reserves the right to reject any and all checks.

All prizes are ready and waiting for their owners. Both the Studebaker Sedan that sells delivered for \$1,525 and the Chevrolet Coach have arrived and may be seen by those interested at the automobile houses where purchased. These cars will be parked outside The Reflector office hours before the close of the contest for the public, contestants and their friends to look over.

Highlights

British, French, Italian and Japanese governments study Coolidge's naval reduction proposals before expressing definite opinions on plan; Pope Pius voices pleasure at Coolidge's step.

League of Nations circles in Geneva happy but doubtful whether powers will agree to naval reduction unless aviation and military problems also considered; London press comments favorably.

Albert H. Gary, chairman of United States Steel Corporation, reported in New York to retire within a year to be succeeded by Nathan L. Miller, former Governor of New York; report unconfirmed.

Temporary injunctions granted producers of three raided Broadway plays prohibit further arrests; Mayor Dever in Chicago favors stage clean up not smacking of professional reformers.

Navy Department informed of safe arrival at Shanghai on Thursday of 238 Marines aboard tanker Bevo; their landing is not expected unless American life and property imperilled.

Herbert Augustus Filer, chief examiner of United States Civil Service Commission, dies aboard transport Cambrai on return to San Francisco from Honolulu.

House Judiciary Committee decides to ask authority to summon witnesses in impeachment charges against Federal Judge Cooper of Northern New York District.

Murderer Gets Twenty Years; Another on Trial

Wilson, N. C., Feb. 11.—(AP)—S. D. Moody went on trial today on charge of killing his wife, Irma May Moody, in this county.

Alveta Ayers, pleading guilty to second degree murder of his wife, Bertha Ayers and his father-in-law, W. B. Starling, in August, 1923, was sentenced to 20 to 25 years in the State penitentiary by Judge R. A. Nunn, of New Bern, in Wilson Superior Court last yesterday.

In the Moody case, a special venire of 50 jurors were summoned to hear the case, expected to consume the entire day and tomorrow. W. A. Finch, local attorney and James H. Pau, of Raleigh, were defending Moody.

APPOINTED CHIEF DRY INVESTIGATOR

Washington, Feb. 11.—(AP)—Phillip Hamlin of Quincy, Mass., was appointed chief prohibition investigator today, succeeding Vincent Simonton.

Leader of Nicaraguan Rebels

Here is Dr. Juan Saca (center, seated), leader of the Nicaraguan rebels. With him are shown his lieutenants, Dr. Leonardo Arguello (left), Minister of Government, and Dr. Rodolpho Espinoza (right), Minister of Foreign Affairs, and their secretaries (standing).

INTERCONNECTION OF POWER PLANTS BEING DISCUSSED

Matter Brought up at Oyster Roast of Light Commission Last Night

Interconnection of municipal power plants and the electrification of the farms throughout the entire section was the chief topic of discussion at the program that followed the annual oyster roast of the Water and Light Commission here last night. Representatives from Rocky Mount, Tarboro, Robertsonville, Winterville, Farnville, Washington, Ayden and Kinston were present and took part in the discussions. The oyster roast and the meeting were held at the water and light plant.

Reports submitted by the various representatives showed that each of the municipal plants in the section were operating at a profit and the speakers voiced opposition to the tendency of some persons to favor the sale of municipal plants to the larger power companies. The report submitted by the local water and light commission for last year showed that the light plant operated at a profit of \$29,488.91. This profit, it was explained by Superintendent M. Swartz, is being used to improve the light and water plants, to make extensions in the sewerage system of the city and to maintain same and to take care of and pay off outstanding bonds of the water and light commission. He pointed out the fact that were the light plant turned over to the power companies, the city would have to maintain its water plant and sewer systems by direct taxation.

The principal address of the evening was delivered by Judge F. M. Wooden of this city, who urged the connecting together of the plants and complete electrification of the farms of eastern North Carolina and warned against the evils that follow upon the heels of almost every instance wherein a city has given over its power plants to the power companies. Pointing out that our section is primarily an agricultural section and that it cannot prosper unless agriculture prospers he declared that it was up to the residents of the various counties to elect representatives to the various committees in order that they may enjoy some of the comforts of life. Comfortable and convenient to the farmers and will make for a better, stronger people throughout the section he said.

Representatives from the other cities in discussing the proposition of interconnection of plants pointed out the advantages of the same showing how one community could help the other to carry its emergency load and how it was possible for only one of the larger plants to carry the entire district during certain hours of the night which would mean a great saving in operation costs of the electric systems. Most everyone present seemed to favor the plan to connect the cities of the section together and indications are that definite action toward this end may be under way sometime in the near future.

INDICATIONS OF IMPENDING SPLIT CHINESE FORCES

Washington Observers Much Interested in Reports of Division Among Cantonese

Washington, Feb. 11.—(AP)—Indications of an impending split in the Cantonese Nationalist party with the Conservative and radical wings drawing farther and farther apart, are contained in official advices received from China both by the government and uninterested diplomatic circles. Observers here attach great significance to these reports although they are not complete enough to furnish a clear picture of the internal situation in the party.

In some diplomatic circles it is believed that ultimately conservative control of the Nationalist party will be established, to be followed possibly by an understanding between Chiang Kai-Shek, Cantonese warlord, and some members of the alliance of Northern Tschuns in which Chang Tso-Lin is now the dominating force. Whether it will come before there has been further fighting on the front where Cantonese and Northern forces are now in contact and what form the alignment might take, the diplomatic observers are unwilling to predict.

Much depends, it is said, on the extent to which the two chief leaders in the Peking and Central China areas, are able to trust each other in an attempt to capture Hankow from the Cantonese, moving down the line of the Peking-Hankow Railway from the Hwang-Ho or Yellow River front where the rival Northern and Southern armies now face each other.

SMOKY PARK BILL WILL BE HEARD ON NEXT WEDNESDAY

Bill to Create Park Reported Favorably and Set for Special Order in Senate

Raleigh, N. C., Feb. 11.—(AP)—Smokey Mountain National Park bill was set as a special order on next Wednesday, at the expiration of the day's session in the Senate.

The action to set this measure as a special order was made by Senator Frank Dunlap of Anson County. The bill was presented to the appropriate committees last Wednesday night and immediately following the hearing the Senate committee endorsed its character and voted to report the bill favorably.

The bill would provide a bond issue of two million dollars for the purpose of purchasing land in the Great Smoky Mountains to be presented to the National Government for a national park.

TODAY

Doctor and Grizzly. John D., Jr., Landlord. Never Gamble—But. Now the Wolves Know. (By Arthur Brisbane)

Dr. Nicholas Murray Butler, of Columbia University, says that unless President Coolidge declares himself against prohibition, "he cannot, in my judgment, be elected on any ticket." The President rarely laughs loudly, but this time there will be an exception.

Senator Borah, dry as the great desert, hold as the fiercest grizzly, accepts Dr. Butler's challenge and wants next year's Republican presidential primaries to tell how the country feels about wetness and dryness.

While the wet doctor and dry Senator fight it out with many words, President Coolidge "sitteth within the shadow, keeping watch above his own."

His own in this case is the 1928 Republican nomination if he wants it.

There is no question of a third term for a man who has only been nominated and elected once.

If not President Coolidge, WHO? That question interests Washington. Three names interesting the wise are Secretary Mellon, Secretary Hoover and Frank Lowden, of Illinois. Secretary Mellon, older than the two others is young enough to manage admirably after-the-war finances for this nation and to work nine hours a day at his office.

Herbert Hoover has worked like a slave on development of national resources, including the Boulder dam and waterways from the Great Lakes to the ocean and the Gulf. The country appreciates that. Governor Lowden, a practical farmer, has millions of farmers with him. But the main question is:

DOES PRESIDENT COOLIDGE WANT IT? If he does, it is his. And any Democrat that thinks a plurality of 7,000,000 can be overturned by appealing to an honest thrifist has a lively hope spring eternal in his breast.

In March John D. Rockefeller, Jr., will open his first group of apartment houses for workers at reasonable rentals. The first building will provide quarters for 166 families. The success of the idea is shown by five thousand on the waiting list. Mr. Hale Fiske, president of the Metropolitan Life Insurance Company, set the example, building comfortable apartments and proving that reasonable rentals could pay better than eight per cent profit on the investment.

A report made by Mr. Walter Stabler, financial genius of the Metropolitan, ought to interest all rich men. It's a good thing to have the great crowd contented, and contentment is based on comfortable homes at reasonable rentals.

Don't gamble, it's fatal, but if you must, be a bull. Ask bears that gambled in Wheeling & Lake Erie about that. That stock climbed up to fifty or sixty, then they sold it, not having it to sell. Many were compelled to buy it as high as 130.

Then, perhaps, some of them made up their minds to change and become bulls. Within 24 hours the stock had dropped from 130 to 66 3/4 and then it jumped to 100.

If you buy, you know just how far you can fall. Go short, and you cannot tell what they will do to you.

Some in the United States, including the government, seem to think airplanes cannot be important in war.

Some wolves in the caucuses had the same idea until lately. Hundreds of the wolves attacking villages in broad daylight, ate five neasants in one place. Then a flying machine with gas bombs started out. Two hundred wolves "bit the dust" or the snow. They know now that flying counts in war. We may know that also some day.

The Prince of Wales, visiting a maternity hospital in London's poverty stricken east end, found a complication for each of forty-eight new babies. Just considering what a mess baby looks like that is fair to say. The Prince may well visit that hospital. It is the fact that the hospital is the fact that the Prince may well visit that hospital. It is the fact that the Prince may well visit that hospital.

Richard Merton, clerk of the hotel, was called to show Miller the hotel. Richard Merton gave the champagne dinner at the Curzon Carlton at which Miller, according to Merton, handed the metal cigarette checks for \$5,453,077.97. Merton was called for cross-examination when court opened. Defense counsel said he may be cross examined this afternoon.

MEMORIALIZE CONGRESS TO MAKE SHOALS POWER AVAILABLE TO THE SOUTH

News Briefs

(By Associated Press.) Raleigh.—Earl J. Rogers, Orange County, selected as best tobacco grader in class of 49 at N. C. State College short course tobacco grading class.

Tryon.—P. A. Van Buren, retired chemist, instantly killed when struck by a freight train.

Elizabeth City.—Charlie Key, farmer killed when log wagon rolls over his body after he fell while trying to mount it.

Kinston.—Stories of hunters bagging 49 geese with single shot of gun brought here from Carolina coast. Record passes previous ones told by guides who say as many as 12 to 20 geese have been brought down with one shot.

HOUSE COMMITTEE REJECTS TWO BIDS FOR MUSCLE SHOALS

Neither Cynamid Company Nor Farmers' Federation Acceptable to Committee

Washington, Feb. 11.—(AP)—Neither of the two pending bids for lease of Muscle Shoals has been found acceptable by the House Military sub-committee.

The bids are those of the American Cynamid Company and the Farmers' Federation. The subcommittee soon will report its findings to the full committee after having spent nearly two weeks in closed conference with sponsors of the two offers in an effort to have them revised to meet committee criticisms.

In view of the inability of the subcommittee to support the cynamid bid in its present form it is understood W. B. Bell, president of the concern, will ask the committee to take no action on the offer.

METAL MAGNATE TO BE RECALLED DAUGHERTY TRIAL

Richard Merton Expected to Take Stand in Conspiracy Trial Today

New York, Feb. 11.—(AP)—Having adduced testimony to show that a fee of \$441,000 was paid for the transfer of \$7,000,000 impounded assets of the American Metal Company to the government today turned its attention to showing that Thomas W. Miller, former alien property custodian was a close friend of John T. King, one time Republican national committeeman from Connecticut.

Miller and Harry M. Daugherty, former Attorney General, are charged with defrauding the United States of their best services in connection with the transfer of the American Metal Company asset. The fee of \$441,000, Richard Merton testified was paid to King October 1, 1921.

Mrs. Edith Walker, floor clerk at the hotel McAlpin, New York, was called to tell of Miller occupying the suite of T. Coleman Dupont during part of the time the government alleges a conspiracy was in force between Miller, Daugherty, King and Jess W. Smith, Daugherty's handy man.

Arthur Bennett, clerk of the hotel, was called to show Miller checked into the hotel, Feb. 29, 1921, the day Richard Merton gave the champagne dinner at the Curzon Carlton at which Miller, according to Merton, handed the metal cigarette checks for \$5,453,077.97.

Merton was called for cross-examination when court opened. Defense counsel said he may be cross examined this afternoon.

Measure to Require Lights on all Vehicles Was Passed in Senate Without a Dissenting Vote

Raleigh, Feb. 11.—(AP)—Joint resolution providing for memorializing Congress to make surplus power generated at Muscle Shoals available for industry of Southern states was passed by the Senate today.

The bill introduced in the House by Rep. McLean, Beaufort, and passed by that body.

It sets out that the government will require of the shoals lessee to reserve a certain amount of power generated for use in the war-time emergency. The McLean resolution would simply make this power available for peace time industrial development.

The resolution now goes to Congress upon ratification in the House.

The Johnson tail light bill, which was introduced during the first week of the legislative session, passed final reading in the Senate today without any discussion and without a dissenting vote.

The measure has been up several times during the last four weeks, but has been held off the calendar pending disposition of the general bill regulating traffic on the highways.

Senator Johnson, Duplin, fearing that the general bill would not get through, got committee action on his measure, and it went through without more debate.

The measure would require all vehicles, including horse-drawn vehicles, to carry lights on the rear end. The bill goes to the House.

Twenty-five new bills were introduced in the House, seven being of state wide significance.

Rep. Price, Mecklenburg, and others sent the first workmen's compensation law of the session. It is modified closely upon the present Virginia law.

James W. Wain, put up a resolution to ask changes to erect a memorial at Kitty Hawk, N. C., the scene of the first successful airplane flight.

Rep. Rifenoutte moved to make barber and beauty shops safe and sanitary by providing state health inspection.

Rep. Creedmore, Wake, sent up a bill recommended by the State Police Association. It would give county and city officers right to pursue a man suspected of a felony into any county of the state and arrest and bring him back to the county where pursuit started.

Wilson, Pasquotank, introduced a bill to provide ferry connections with state highways in Eastern North Carolina.

Mason, of Gaston, sent in a bill that would make anyone convicted of driving a car while intoxicated lose the right to drive for six months.

Nat. Townsend, Harnett, produced a bill that would amend laws on the practice of architecture.

Rep. Hart, Anson, one of the House "official adjourners" presented his first bill of the session. It would provide a bond issue for a county home in Anson.

Twenty local bills were passed either finally or to the Senate for ratification, before the usual morning debate broke.

Ask Pay For Time Entombed in Mine

Hazleton, Pa., Feb. 11.—(AP)—If a man is entombed in a mine for eight days, is he entitled to pay for two shifts of eight hours a day or three shifts?

This question has caused a dispute between the United Mine Workers and the Lehigh Valley Coal Company. It arose as a result of the entombment for eight days of five miners in the Tompkins Colliery by a flood last November.

The men were rescued Thanksgiving eve. Andrew Malvey, district president of the mine workers, announced that they had been paid for two shifts a day without notification and that the money was in their own hands.

The men were paid for two shifts a day without notification and that the money was in their own hands.

The men were paid for two shifts a day without notification and that the money was in their own hands.

The men were paid for two shifts a day without notification and that the money was in their own hands.

They Have More Votes Than This!

Some of these workers listed here in The Daily Reflector subscription contest have many more votes than shown—others have not. The rules allow the publication of a certain number from list to list. All votes not published will be added by the judges to the list and the sum of the two will determine the prize awarded Miss Rose Hadley, City 1,050,900 Mrs. T. M. Gorman, Jr., City 937,500 Miss Martha Congleton, Lee's 891,300 Mrs. John Carroll, Winterville 855,800 Mrs. Sugg Fleming, Pactolus 844,900 Mrs. Blanche Cherry, City 777,100 Mrs. R. T. Cox, Clay 417,000 Miss Annie Mayo, Falkland 403,800 Miss Louise Jones, City 316,200 Miss Christine Pollard, City 293,400 Miss Irma Cox, City 292,000 Mrs. Wade Holmes, City 284,500 Mrs. J. B. Roberts, City 241,900

WILL FILE SUITS HOPKINS ESTATE NEXT THURSDAY

Over Hundred Alleged Heirs of Railroad Magnate Seek Share of Fortune

Salisbury, N. C., Feb. 11. (AP)—Descendants of John Hopkins, uncle of Mark Hopkins, who left an estate in California estimated to be worth \$25,000,000 and which was not filed to any one, will file a suit in the California courts on February 15 setting forth their

claims to this fortune according to J. P. Crowell of Spokane, of the descendants. Over 100 descendants in Hawaii, California and St. Louis counties claim they have absolute proof of their lineage, and will ask that the fortune be given to them.

Mark Hopkins, a native of this State, went to California during the gold rush in 1848 and accumulated a vast fortune which has grown extensively since his death. He left no heirs, and made no dispositions of his estate as far as has ever been learned. The claimants of the fortune here say that 75 per cent of the vast estate will come to these three counties if the suit is settled in their favor.

Madam Margrete
AMERICAN PALMIST and Clairvoyant

Located in Tent on Wilson and Kinston Road, just outside the limits.
GREENVILLE, N. C.

She tells you the past, present and future, also gives advice on all affairs of life, such as love affairs, business matters, family affairs, wills and divorces and most everything pertaining to the welfare of one's life. Tells you what business you are best adapted to and all about absent friends, whether living or dead. Tells you what planet you were born under, what part of the country is luckiest for you. This phenomenally gifted lady is now located in your section and can be consulted on affairs of life. She also tells the color of eyes and hair of your future wife or husband. Also gives initials of names. Locates hidden or stolen articles. She also answers any and all questions. Call and consult this gifted lady at once.

IF IN TROUBLE IN ANY WAY CALL AND CONSULT THIS LADY. EVERY READING CONFIDENTIAL AND GUARANTEED SATISFACTION.

Leaps to Death From the Fourth Floor of Hospital

San Francisco, Feb. 11. (AP)—Edward W. Chambers, of Chicago, a member of the Johnson, Torka and Santa Fe Railway plunger and four stories to his death from a hospital window here early today after having been seized with what apparently was a fit of temporary insanity.

Mr. Chambers, who was one of the best known railroad executives in the United States, entered the hospital about ten days ago for a minor operation. He was reported to have been making normal progress in recuperating.

Hospital authorities said that that shortly before 3 o'clock this morning Mr. Chambers jumped from his bed, grabbed his special nurse and thrust her out of the room, locking himself in. Before the nurse could summon help he smashed a window and plunged over the sill.

Attendants rushed to the spot and moved him back into the building where he died a few moments later.

Mr. Chambers had been with the railroad company for 40 years and was 65 years old.

FARM NEWS

"EVERYTHING FOR THE FARMER"

Vol. 1. Feb. 11, 1927 No. 1.

Published in the interests of the people of this section by Turnage - Winslow Co., M. L. Turnage, Editor.

ANNOUNCEMENT
We suppose every body sometime has wanted to run a newspaper of their own.

We plead guilty, not only on that score, but also to wanting to be an editor.

But we need your HELP with criticism, comments and contributions.

W. T. Gaskins, of near Vanceboro, bought a barrel of Stoneyall Jackson Flour from us in January, which we guaranteed to take back if it was not satisfactory. Bill was in last week and said, "Well, I didn't come to bring that flour back but to buy another barrel. It's the best flour we ever used." They all say the same about Stoneyall Jackson Flour.

Two lady demonstrators have devoted a month in this section to teaching the merits of PURINA FEEDS. Now is the time to start using PURINA CHICK STRATENA for those baby chicks. Don't forget that we have a complete line of all Purina Feeds and Chows.

Turnage - Winslow Co., Inc. General Merchandise Phone 346 Greenville, N. C.

PHONE 53 GREENVILLE, N. C.

LOCALS

Mrs. Harvey Turnage of Farmville, spent yesterday with her parents, Mr. and Mrs. W. S. Galoway.

Mrs. Will Clark, Mrs. James Hackney and Mrs. James Ellison of Washington, were here yesterday.

Mrs. Leonora Blount Stell, of Washington, was here Thursday.

Mrs. John Staton and Miss Olive Jones, of Bethel, were Greenville visitors yesterday.

S. M. Jones, of Bethel, was here yesterday.

Mrs. Hunter Fleming of Kingston, spent today with her sister Mrs. W. A. Darden, Jr.

Mrs. David J. Whitchard, Jr., and Miss Ward Moore spent today in Goldsboro.

Little Miss Mary Horne left this afternoon for a visit in Rocky Mount.

Mrs. and Mrs. L. W. Gaylord, Mrs. R. W. King and Mrs. Lee Hannah went to Goldsboro this afternoon.

FIDELIS CLASS TO MEET THIS EVENING

The Fidelis class of the Inman Baptist church, will hold its regular monthly meeting with Mrs. C. L. Roebuck on Greene street this evening. Mesdames L. P. Hall and W. C. Clay will be assisting hostesses.

MODERN WOODMEN TO ELECT OFFICERS

Modern Woodmen of America will hold an election of officers Monday night, Feb. 13. Members are requested to be present. C. L. Dupree, Clerk

CARD OF THANKS

I wish to thank the people of Greenville for their many kindnesses and expressions of sympathy during the sickness and death of my dear husband.

Mrs. C. Washington

DR. SCHULTZ ILL

Dr. A. M. Schultz has been confined to his home several days, suffering from an injury to his foot. His many friends wish for him a speedy recovery.

GREENVILLE HIGH SCHOOL TO MEET W. C. I.

Greenville high school and W. C. I. basket ball teams will play at Gorman's warehouse tonight at eight o'clock. Everybody is urged to be on hand for the game.

W. D. TURNER ILL

Friends of W. D. Turner will regret to learn that he is ill with influenza.

GARDEN CLUB

A very enjoyable meeting of the Garden Club was held at the home of Mrs. Ed Harvey Thursday afternoon. In keeping with the occasion the living room was decorated with beautiful flowers.

The meeting opened by reading Edgar Guest's poem on "The Pick-ers of Seeds." Mrs. Austin read this in her usual attractive manner. It gave a better insight into the nature of seed.

A plant exchange was planned. This will be one of the greatest

John Gilbert and Claire McDowell in "THE BIG PARADE"

White's Theatre, Matinee and Night, Thursday, Feb. 17

privileges in that line that the people of Greenville have ever experienced.

The program for the afternoon was Roses and Seed Planting. All present entered into this with much enthusiasm.

Two visitors, Mrs. Bryce Brown of Schenectady, N. Y., and Mrs. Pennington enjoyed the hospitality of the club.

The hour passed so quickly we were loath to leave and wait another month to meet with Mrs. Key Brown.

Delivers Lecture At College Here

"We must learn to save trees and grow more trees" was the topic of the very interesting lecture here in the college auditorium last evening at 8 o'clock by H. N. Wheeler, chief lecturer of the United States Forest Service. This service was established in 1905, and since that time every attempt has been made to teach the people of these United States to save the forests.

As a state we are doing something, but "we've got to get away from the burning idea," said Mr. Wheeler, "We've always burned, and there is slight indication that we expect to do anything else. Annually, thousands of acres of land in this state of North Carolina are stripped of their timber and the richness and fertility of their soil sapped by the hundreds of forest fires over the state.

"Forests are valuable. They have an economic value, they serve as a watershed protection for the soil, they are a natural refuge for wild animals (which we ought to save), and they have a human use. Thousands of tourists each year swarm to the woods, mountains and lakes, and travel the beauty of the trees. With more than one-half million acres of forest land in North Carolina, what might we do if we would only begin protective measures before it is too late?"

Salvation Army Is Open Post This City

D. G. Coy, of Charlotte, field manager for the Salvation Army, is in this city in the interest of establishing a permanent post of the Salvation Army here. For some time past this city has been under the Kinston Post of the Army but Mr. Coy stated that the needs in this immediate territory for Salvation Army work caused those in authority to decide on the establishment here.

Mr. Coy during his stay here, is visiting the various civic organizations and business people to solicit their aid in the raising of the funds necessary to start the post here.

MORTGAGE LAND SALE

Under authority of the power of sale contained in that certain mortgage deed executed and delivered by F. E. Brooks and wife, bearing date January 9th, 1923, and recorded in Book X-14, page 472, Pitt County Registry the undersigned will on Monday-March 7th, 1927, at 12 o'clock M. before the courthouse door in Greenville, said county, sell to the highest bidder

for cash, subject to that certain deed of trust securing to the N. C. Joint Stock Land Bank of Durham payment of the debt there incured and described, which deed of trust is recorded in Book T-14, page 186, said registry, the following described tract of land.

Lying and being in the County of Pitt and State of North Carolina, and described as follows, to wit: That tract of land known as the Rickey Moore tract, containing 61 acres more or less, which was devised to the said F. E. Brooks by the will of John W. Brooks, Sr., recorded in Will Book No. 5, page 185 et al in the office of the Clerk of the Superior Court of Pitt County. It being lot No. 7, in the division of the lands of John Moore, deceased, made in 18 0, and recorded in Book 1-P, page 637, of the public registry of Pitt County.

Default having been made in the payment of the debt thereby secured, sale will be made to satisfy same. A cash deposit of 10 per cent of the successful bid must be made at the time of sale to make This February 4th, 1927, good bid.

DEWEY W. BROOKS, Mortgagee. 2 5 27 11-wk 4 wks.

NOTICE OF SUMMONS

North Carolina—Pitt County In Superior Court

Helen Windley vs. Raymond Windley

The defendant, Raymond, Windley, will take notice that an action entitled as above has been commenced in the supe or court of Pitt County, North Carolina, by the plaintiff to obtain an absolute divorce on the grounds of five years continuous separation of plaintiff and defendant, and the defendant will further take notice that he is required to appear at the office of the Clerk of Superior Court of said county, in the court house of Greenville, N. C., on the 26th day of February, 1927, or within twenty days thereafter, and answer or demur to the complaint filed in this action or the plaintiff will apply to the court for the relief demanded in the complaint.

This January 25th, 1927.

J. F. Harrington, Clerk of Superior Court of Pitt County

By E. F. Tucker, D. C. W. A. Darden, Atty for Plaintiff. 26-1tw-4wk.

Smart

Spring Footwear

Shoes for practical street wear and shoes for dressier occasions. There is ample selection in many types of new footwear among these smart Spring models of the famous Drew Arch Rest Shoes we have just received. Each in its own distinctive design reveals the new fashion trend, while fine materials and workmanship, new leathers and combinations of leathers proclaim them the last word in smart footwear.

Patent Leather in one and two straps and tongue pumps.

Blond Shades in one and two straps, kids in ties, one and two straps, all of these in the new lasts and heels, reasonably priced \$9.50 and \$10.95. Other good Shoes \$3.50 to \$7.50.

New Shades In Spring Hosiery

Thought must be given to the selection of hosiery to be worn with the new costume for spring. Hosiery must be sheer and light and the color must be one of these:

- Gun Metal
- Stone Gray
- Flesh Nude
- New Beige
- Nougat
- Dorac's
- Black and White
- Blondine
- Champagne
- Squirrel

You will find all of these shades here in full fashioned pure silk hose for \$1.50 and \$1.95.

ELECTRIFY THE FARMS

The proposal for the joining together of the municipal power plants of Eastern North Carolina and the electrifying of the sections through which the power lines pass is indeed a step toward a bigger and more prosperous section. It has been said the present prosperity, well being and commanding position of the United States and its industries are due to electric power and what is true in the case of the country as a whole would be true of our own section.

It is needless to say that it is not at all necessary for the cities of this section that our own modern electric plants to turn them over to the power companies, and it is to be hoped that those who are now considering propositions from the big companies will take the same view of the matter. We do heartily approve, however, the move to link up each of the plants in this surrounding section into one large unbroken system whereby in an emergency one community may depend upon its sisters town for current. This would also afford opportunity for a town that has more load than it can conveniently handle to purchase such surplus current from its sister towns at no great cost and much cheaper than it could make additions to the plant to produce the extra current needed.

The linking together of the plants would also create a complete circuit of power lines over the agricultural communities of this section of the state which would mean that electricity with all its advantages would be available for practically every home in the county. It has been proven that a one horse power motor on the farm where electricity is available can do the work of many men and at much less cost which goes to illustrate that by electrification the farms of this and adjoining counties can be made just as convenient as the city homes and certainly will afford equal if not better living conditions to the city.

It is to be hoped that those in authority in the various cities of the section will give careful consideration to the proposal to link up the plants into one great chain whereby current will be made available to all residents and at a cost that even the smallest farmer can afford to pay. As expressed at last night's discussion of the matter here, "We are indeed our brothers' keepers," and only by co-operation of the towns is it possible to carry to the rural communities the same advantages that are enjoyed by the city residents.

NOT SPENDTHRIFTS

During 1926, American savings banks gained almost 3,000,000 depositors, and

\$1,562,140,000 deposits. There are now 46,762,000 depositors, with \$24,696,192,000 deposits.

New England has the largest percentage of depositors, with the highest per capita deposits, almost \$500 per depositor. In contrast, New Mexico has but \$19 per inhabitant and Texas only \$31.

Some of this apparent difference in saving is merely a difference in investment habits and does not represent actual conditions of prosperity. But everywhere the savings bank habit grows; the vast volume of such funds shows that the country is amazingly prosperous, and that it has formed the savings habit and found it good.

TRUSTEES' SALE OF REAL ESTATE

By virtue of the power and authority contained in a certain deed of trust dated April 29th, 1925, recorded in Book V-15, page 203, in the office of the Register of Deeds for Pitt county, North Carolina, default having been made in the payment of the indebtedness thereby secured, the undersigned trustee will, at noon on Tuesday, March first, 1927, at the court house door in the town of Greenville, Pitt county, N. C., offer for sale at public auction to the highest bidder for cash, the following described real estate, situate and lying in the county of Pitt, in the state of North Carolina, to-wit:

1st Tract: Situate and being at the intersection of Third and Pitt Sts., in the town of Greenville, N. C., and described as follows: Beginning at the southwest intersection of Third and Pitt Sts., and runs with Pitt St., southwardly 110 ft., to a stake; then westwardly, parallel to Third St., 132 ft. to an alley; thence with said alley, parallel to Pitt St., northwardly 110 ft. to Third St.; thence with Third St., eastwardly, 132 ft., to the beginning, and being the property purchased by O. L. Joyner and wife from F. M. Wooten and wife.

2nd Tract: Situate and being at the intersection of Fourth and Pitt Sts., in the town of Greenville, N. C., and described as follows: Beginning at the southeast intersection of Fourth and Pitt Sts., eastwardly 45 1/2 ft. Hattie S. White's line; thence with her line parallel to Pitt Street, southwardly 104 ft., to J. E. Gorman's line westwardly 45 1/2 ft. to Pitt St., then with Pitt St., northwardly 104 ft., to the beginning, and being the property purchased by O. L. Joyner and wife from J. N. Gorman and wife.

3rd Tract: Situate and being in Greenville township, Pitt County, North Carolina, adjoining the lands of John Page and others, and beginning at a stake on the River road, corner of Lot No. 10, and running thence North 24.19 east 890 ft., to the public road; thence crossing said road North 24.19 east 1807 ft. to Tar River; thence with Tar River, eastwardly, to a stake on the river road, the corner of Lot No. 15; thence with the line of Lot No. 15, which is John Page's line, south 24.19 west to the road; thence with said road eastwardly to the northeast corner of Lot No. 13; thence with the line of Lot No. 13, south 20.48 west to the river road; thence with said road, its various courses to the beginning, and being lots Nos. 10, 11, 12, 13, and 14 of the Anderson farm as shown on the plat of said land recorded in Map Book 1, at page 21, Pitt county registry.

This the 27th day of January, 1927.

Wake Forest Quintet Leading Big Five in Scoring Average

Wake Forest, N. C., Feb. 11.—(AP)—The Wake Forest College basketball team has averaged 39.2 points each in 17 games, played thus far this season, an official check showed today.

Having amassed a total of 674 markers to date, the Deacons showed marked superiority over other North Carolina quintets in scoring and were enjoying a comfortable lead over other "Big Five" teams.

At Dowlin, sophomore marvel with 172 points, and Ralph James with 167, were staging a desperate struggle for individual su-

premacy among Wake Forest players.

Dowlin's per game average was slightly over ten points, while James was averaging slightly under that figure.

Ered Emerson, powerful center on Baldwin's machine, was third in individual scoring, the big Kansan having accounted for 185 points.

The Deacons had won 16 of 17 games to date. Loss to Furman University last week punctured a winning streak of 14 games straight. On their trip through the Carolinas the Deacons in winning six of seven games played, accounted for 296 points against 232 for opponents.

Funeral Services for Champion Fireman Were Held Today

Fayetteville, Feb. 11.—(AP)—North Carolina's champion fire fighter was laid to rest today.

"The man who always said 'come on' and never 'go ahead' to his firemen, Captain James D. McNeill, of Fayetteville, three times president of the National Firemen's Association, was buried.

Funeral services were held from St. John's Episcopal church.

Huggins Confident That Babe Will Return to the Fold

New York, Feb. 11.—(AP)—Miller Huggins packed his grins to return to Florida today with the confident prediction that "Babe" Ruth will be back in his old place with the Yankees when the season opens.

In contrast to the doubtful Handshakings of business manager Ed Barrow and the silence of president Jacob Ruppert, the smiling pilot of the American League champions indicated he found no cause for worry in Babe's threat to quit baseball if the club did not increase his salary beyond the \$52,000 he has received annually for the last five years. Huggins said he was going to Florida to play adding "Take it from me, Ruth will be at St. Petersburg and will be back in his old place with the Yankees."

Barrow indicated he expressed the home run king would appear here later in the month to discuss terms of his new contract. A substantial increase in his salary is forecast by baseball men.

At the same time, observers were skeptical of Ruth getting \$100,000, the opinion prevailing that a compromise at approximately \$75,000 will be effected.

How Doctors Treat Colds and the Flu

To break up a cold overnight, or to cut short an attack of grippe, influenza, sore throat or tonsillitis, physicians and surgeons are now recommending Calumet, the purified and refined colored compound tablet that gives you the effects of calomel and salts combined, without the unpleasant effects of either.

One or two Calumets at bed-time with a swallow of water—that's all. No salts, no nausea, no the slightest interference with your ordinary work or pleasure. Next morning your cold has vanished, your system is thoroughly purified and you are feeling fine with a healthy appetite for breakfast. That's what you should do.

Get a family package, containing full directions, only 35 cents. At any drug store. (adv)

Tunney's Love For Music Causes Him Forget Engagement

Seattle, Wash., Feb. 11.—(AP)—Real evidence of Gene Tunney's interest in the arts was given here last night. After the heavyweight champion had failed to appear for his vaudeville act, the theatre management started a search for him.

The boxer was found at a symphony orchestra concert—listening to Schubert's symphony in B minor.

He explained that he had become so absorbed in the music that the theatre engagement had completely slipped his mind.

\$51,000 Disappears From Ship's Safe

San Pedro, Cal., Feb. 11.—(AP)—The Pan-American mail liner Columbia moved on toward San Francisco today with the disappearance of \$51,000 from its strong box unsolved.

The money, which was shipped by a bank in La Libertad, Salva-dor, bank of Italy in San Francisco, was found to be missing last Monday while the ship was off the coast of Lower California. The ship stopped here while customs officers boarded and searched the baggage of more than 100 passengers and every member of the crew.

The craft was gone over from bow to stern but no trace of the money was found. She had not been near shore since leaving Champerico, Guatemala, February 2, Captain Robert E. Judson said.

the county of Pitt, maturing February 1, 1937. Bonds dated February 1st, 1927. Interest payable semi-annually, February 1st and August 1st. Coupon bonds, convertible into fully registered bonds, denomination \$1,000, payable in New York in gold.

The bonds are payable exclusively out of taxes to be levied in Spartanburg Special School District, in the county of Pitt.

Purchasers will be furnished with approving opinion of Messrs. Reed, Dougherty, Hoyt & Washburn, of New York.

Bidders are invited to name the rate of interest which the bonds are to bear. The rate must be a multiple of one-quarter of one per centum, must not exceed six per centum, and must be the same for all the bonds. The bonds will be awarded to the bidder offering to take them at the lowest rate of interest, at a price not less than par and accrued interest. As between bidders naming the same rate of interest, the amount of premium will determine the award. The right is reserved to reject all bids.

A certified check, payable to the order of the County or Cash, for two per centum of the amount of bonds bid for, must accompany bid.

Dated February 7th, 1927.
J. C. GASKINS,
Register of Deeds.

Windsor, N. C., Nov. 4, 1925
"Two years ago I began using 'AA Quality' Fertilizers on cotton, corn and soy beans and have obtained most excellent and satisfactory results. This year I used 400 pounds under cotton and picked 1500 pounds per acre. It gives me the pleasure to recommend it."

—O. D. Layden

Elizabeth City, N. C., May 24, 1926
"It is a pleasure to state that I have been using 'AA Quality' Fertilizer of varied analyses on different crops for the past three years and must say that the results obtained from the use of them have been most satisfactory."

—Zenias Jennings

FIRST

In purity—first in quality—first in leavening strength—first in economy.

CALUMET
THE WORLD'S GREATEST BAKING POWDER

MAKES BAKING EASIER—IT'S DOUBLE ACTING
Sales 2 1/2 Times Those of Any Other Brand

Give your farm a chance—its profit-producing powers will astonish you

ANY soil will produce some kind of crop, but when it's given a real chance, when it's properly fertilized, it comes back with profit-making yields that fatten the bank balance and make farming a paying business.

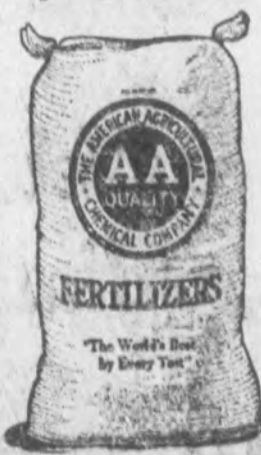

For over 60 years "AA Quality" Fertilizers have been piling up unequalled crop records—on all crops, hereabouts and everywhere. Thousands of testimonials from farmers prove this.

The superiority of "AA Quality" Fertilizers begins with the

selection of the world's best raw materials.

Only materials from the most carefully selected sources are used in the manufacture of these famous fertilizers. They are thoroughly blended—cured—and then screened. That's why they are always in perfect mechanical condition and why they produce such satisfactory and profitable crops for farmers everywhere.

Give your farm a chance to work for you—use "AA Quality" Fertilizers.

Market Report

GRAIN
Chicago, Feb. 11.—(AP)—With all American grain exchanges scheduled to take an holiday tomorrow, wheat trade was light today and prices almost at a standstill. For the most part business was confined to evening up of accounts. Hard winter wheat at the Gulf of Mexico was about the lowest level of the season as compared with May, but the movement in the southeast was reported as falling off.

Wheat closed easy, unchanged to 1-16 lower; corn unchanged to 1-16 up; oats unchanged to 1-16 advance and provisions varying from 1-16 decline to a rise of 2 cents.

STOCKS
New York, Feb. 11.—(AP)—Resumption of the upward movement in today's stock market was accompanied by a revival of speculative interest in the rail shares. Some sluggishness developed in the early trading but by noon the entire market was headed upward, with over 20 issues elevated to their highest prices in years. The closing was strong. Total sales approximated 1,900,000 shares.

FLORENCE Oil Ranges

The Range With Focused Heat!

The few minutes you spend in learning about the Florence—the oil range with FOCUSED HEAT—may save you hours in the kitchen, and dollars in your household expenses.

Like many other great labor-saving discoveries, the principle of FOCUSED HEAT is simplicity itself. Here's all there is to it:

Speed and economy in cooking depend on how much of your heat goes straight to the bottom of the pot; that is whether the heat is FOCUSED on the cooking or scattered and wasted.

HEAT WHERE YOU WANT IT

Meals cooked on a Florence are ready on time. The business like flame burns steadily at whatever height you choose. It is clean, clear, intensely hot—dependable flame that gets work done.

The Florence burns a gas-like flame from the vapor of kerosene—one of the cheapest fuels known. And the Florence does an amazing lot of work for every gallon of oil it burns.

Operating the Florence is SO little trouble! When you are ready to cook, turn a lever and touch a match to the asbestos kindler. There are no wicks to trim, no priming, no difficulty in putting out the flame when its work is completed.

Just a look at the Florence will convince you of its advantages. Let us show you one today.

WASHINGTON AWAITS OFFICIAL COMMENTS DISARMAMENT PLAN

Paris, Feb. 11.—(AP)—President Coolidge's proposal for further limitation is receiving careful study, it was said at the French foreign office this morning. Official comment is reserved until the whole bearing of the suggestion upon the present activities of the League of Nations appears clear on the eventual consequences of a new naval disarmament conference are weighed.

It is remarked that Mr. Coolidge addressed his memorandum only to those powers who were represented at the Washington conference and the question arises whether the League is likely to take the question of naval disarmament out of its hand.

It is suggested in official quarters however that this difficulty can be bridged over if the Washington government is willing to associate the League in the new conference.

"The American plan whether you like it or not is a veritable tornado launched against the League of Nations." That is how the Journal looks upon the proposals of President Coolidge for further limitations of naval armaments, and this expression represents the general tone of the comment in today's French newspapers.

Even the moderate and widely read Petit Parisien asks if unqualified acceptance of the proposals would not ruin a cause that France

POULTRY profits at this season are in the future. Time only will tell whether you hatch 50%, 75% or more chicks.

Past records for years prove that eggs from breeders fed Purina Poultry Chows hatch more chicks and better chicks—with greater profit.

Feed breeders Purina Poultry Chows for at least thirty days before beginning to save hatching eggs. You will get better results and be money ahead. Tell us when you want your Chows—and we will get them to you in a jiffy.

Look into the Future!

defended and had adopted at Geneva in 1924. It considers this would be a terrible blow to the League of Nations.

London, Feb. 11.—(AP)—The British government heartily endorses the principles of President Coolidge's naval disarmament proposals. This was made known at the foreign office today.

"The generally favorable press comment on the President's note voices both the public and official opinion of Great Britain" an official told the Associated Press.

It was asserted that Great Britain's support of American efforts toward disarmament as enunciated by Lord Balfour at the Washington conference would be accorded Mr. Coolidge's plans at Geneva.

MEMORIALIZE CONGRESS TO MAKE SHOALS POWER AVAILABLE TO SOUTH

(Continued from Page one)

ferred to committees. Senate committees reported the results of their labors, thereby putting a large number of new local measures on the calendar for the next day.

The Senate committee on education refused favorable consideration of the effort of Senator Spainhour to reduce the number of members of the board of education for Morganton and to abolish the office of city superintendent.

Following introduction of 10 new Senate bills and passage of two local bills, the Senate passed without any discussion the bill offered the first week of the session requiring that all vehicles be equipped with tail lights.

Several other bills on the public calendar of the upper house, amending state wide laws likewise passed without comment or debate, until the Muscle Shoals resolution came up, memorializing Congress to make surplus power at Muscle Shoals available to Southern States."

Rome, Feb. 11.—(AP)—It is understood in political circles that an exchange of views on President Coolidge's naval armament proposals will be sought by Italy with England and France and probably Japan.

Premier Mussolini is said to have discussed the President's memorandum at length with Marshal Badoglio, chief of staff of Italy's entire armed forces, naval, military and aerial.

The general opinion continues

ent ballots. The measure was another variation of the efforts of those interested in reducing the number of ballots, to get some such legislation through.

House debate, meanwhile, came over the bill sponsored by Klutz, Catawba, to reduce working hours in manufacturing plants from 60 to 55 hours work.
