GREAT SMOKY PARK SUBSTITUTE BILL PASSED BY SENATE

Only One Dissenting Vote on Bill to Provide for National Park

State Capitol, Raleigh, N. C., Feb. 16.—(AP)—Coincident with virtually unanimous favorable second reading of the substitute Great Smoky National Parks Bill...

The Governor's statement, made at request of Western North Carolina Assemblymen, reviewed his recent visit to Washington and conference with Secretary Work of the Interior on February 5 and on February 12, taken to inform himself fully about the park project.

I became convinced that in order to safeguard the interests of our State material changes would have to be made in the terms of the bill.

He became convinced after studying every phase of the question with Secretary Work, his assistant Secretary Judge Edwards, Governor Peay of Tennessee, Mayor Morton of Knoxville, General Maloney, engineer of the Park Association in Tennessee, Representative Mark Smith, Hon. Don Elias, Judge L. R. Varner, Senator B. S. Womble, that the first bill introduced in the General Assembly did not sufficiently safeguard the interests of the State; that it did not provide in terms that no part of the appropriation to be made by North Carolina should be expended unless and until the United States is definitely committed to the establishment and development of the bill should provide that a number of other essential conditions should be complied with before the North Carolina appropriation could be expended.

It was agreed among those present at the conference that attempt would be made to meet these conditions by amending the bill in such a way as to provide that these conditions must be complied with before any part of the appropriation can be expended.

About half of the area will be in North Carolina and the remainder in Tennessee. There are many conditions which must be met before the park can become a reality. Those who have been working on the matter, including the Secretary of the Interior, believed that it is possible to meet these conditions.

They say that unless they can do so they will not expect the North Carolina appropriation to become available.

The bill as amended in the Senate Committee in sections 26 and 27, in my opinion and in the opinion of others whom I have consulted, provide definitely that at least 428,000 acres in North Carolina and Tennessee must have been accepted by the Secretary of the Interior for development as a National Park under the terms of the act of changes and adequate provision must have been made for financing the same before the appropriation proposed in the bill here can be expended.

I have given no definite consideration to any of the provisions of the bill as amended except to sections 26 and 27 as they now appear.

Another Fine Sermon at St. Paul's Church

The evangelistic mission of the Bishop's Crusade which is being conducted by the Rev. C. O. Pardo, is growing in much favor. Rev. Mr. Pardo delivered a very fine and helpful sermon last night, using as his text that beautiful passage of scripture in which Christ said: "Behold I stand at the door and knock, if any man hear my voice and open the door, I will come in and sup with him, and he with me."

The speaker proved very clear and concise to his hearers, that the philosophy of the world had failed for five thousand years, to satisfy the longings of all mankind, and that it was only through the coming of Christ, that the human soul could find that peace which passes all understanding. Come out tonight and bring your friend and neighbor with you, for there is much joy to be had in hearing Mr. Pardo. Beautiful songs and praise, and the hour is 8 o'clock, promptly.

Many Lose Lives As Result Of One Of Worst Storms In History Of Pacific Coast

Eleven Known Dead From Snow Slides Yesterday. Train Goes Through Trestle Into Swollen Stream With Loss Of Lives. Many Persons Homeless As Result Of Flood Waters.

San Francisco, Feb. 16.—(AP)—The greatest storm that ever swept the Pacific slope to as far west as mid-ocean in the history of the United States Weather Bureau continued today to pound with diminishing violence in Southern and Central California while the death toll at 16 dead, 21 injured and much property damage.

The greatest tragedy was in the mountain camp of the Southern California Edison Company, 75 miles east of Fresno, where 11 persons were killed in a double avalanche yesterday. The first snow slide crushed bank houses and sent men to their death. As rescuers dug in the accumulated snow for the bodies of their companions and took another life. Flood waters in Puente Creek, near Whittier, which have assailed the steel trestle across the stream for three days, so weakened the structure that trains were unable to pass.

Two were killed in Los Angeles traffic accidents. A boy was drowned when he fell from a San Diego railroad trestle into a raging torrent which two days before had been a dry creek bed. One hundred suburbanites in the San Bernardino valley, near Los Angeles, marooned in their homes by the flood waters, were rescued by police in row boats commandeered from an amusement park. In the stricken mountain camp rescue crews worked late into the night in search of bodies in the snow.

Belief was expressed today that some of the bodies were buried so deeply that they would not be recovered until the spring thaws. Edison Company officials said all of the injured were recovered. One hundred men of the camp were at work in a tunnel about a mile under the surface when the first avalanche struck. They were brought out immediately.

The slides left the camp hospital building standing but demolished every structure near it. Seven buildings were crushed to splinters. The loss was put at \$25,000.

The entire Pacific coast felt some manifestation of the storm. A slight earthquake shock was felt in San Francisco yesterday afternoon. The tremor caused some excitement but no damage was reported.

Hollywood firemen rescued a group of motorists who were left stranded when a bridge went out near Universal City.

Highway traffic throughout the Southland was demoralized by landslides and high water. Rail communication between Los Angeles and San Diego was cut. Le

Charles Ireland, engineer, was ground to death when he attempted to leap from his cab as the locomotive dove into the water. An unidentified man, said to have been a cook aboard the diner, is known to have lost his life.

C. H. Waters, Salt Lake City hotel proprietor, is the only passenger known to have been injured. His injuries were slight. The other victims all members of the train personnel, were brought to a hospital here.

Railroad officials reported that the trestle had been weakened at both approaches by the force of flood waters which have assailed it for three days and had buckled under the weight of the locomotive.

STATE GAME BILL DISCUSSED TODAY IN LEGISLATURE

Anti-Crime Bills Recommended by Governor Reported Favorably by Committee

State Capitol, Raleigh, Feb. 16.—(AP)—Without discussion the House today passed the \$1,250,000 Cape Fear bridge bill for Wilmington and Eastern Carolina counties, on second reading, and will vote on the bill on third reading, on question of sending it to the Senate.

The vote unanimous. The Sutton game bill inaugurated the daily debate, lasting through the noon hour but discussion was mainly on details of open season and bag limits of the various game.

The House passed 18 local bills to the Senate and four Senate local bills were passed.

Rep. Poole, Hoke county, introduced a bill that would prohibit setting steel traps in Hoke county nearer than three feet to the ground. He said the bill was for protection of hounds and domestic fowls.

Rep. Klutz, Catawba, wanted to make sure he wasn't "up to setting traps in trees to catch monkeys" and the House got its daily laugh.

The state-wide game bill discussion followed. Unfavorable report on the five marriage and divorce bills sponsored by a state ministers' convention at High Point, was brought into the House today.

The House Judiciary Committee frowned on the bills of Rep. Smith, Rockingham, presented by request.

Applicants for marriage under these measures would have to fill out information blanks, costing 50 cents, to be applied on \$5 marriage license purchase. The last legislature raised the price from \$3 to \$5.

On back of the bills would be printed the state's marriage and divorce laws which applicants would certify they had read and understood.

Parents of those under 21 would be notified and their consent to the nuptial step would be necessary with \$200 fine liable for failure to receive parental consent.

Applicants would have to give at least seven days notice of desire to marry.

Upwards of a hundred bills were reported back to add to the already congested calendar. Among those reported favorably were:

Governor McLean's anti-pistol law; making jail sentence mandatory on drunken drivers; allowing county officers state-wide jurisdiction; consolidating fish commission and conservation department; increasing judicial districts; Australian ballot; and to abolish absentee voting in primaries.

Unfavorable report came in on the Poole anti-evolution bill.

The Sedberry rum car bill, already passed by the Senate, was not reported out. It was voted on favorably by committee but chairman Martin, of Washington, said that opponents hadn't been given a hearing and that the bill would be taken up for the third time Friday afternoon.

In all 40 new bills were introduced in the House.

One Killed and Two Wounded in Fight at Still

TODAY

Growing Hoops The Old Beauty Craze. Useful O. H. Kahn. Youth—Crime—Suicide. (By Arthur Brisbane)

LADIES, you do not suspect it but you are changing your feet to hoofs. The president of the Illinois Chiropractors' Association can prove it.

You raise your own heel on a long narrow artificial heel, point your foot downward, putting the weight which ought to rest on the flat foot all on the toes.

The horse once had five toes, but wound up with one hoof for each foot.

What women are doing now may be part of nature's eternal plan. Killing off the little to begin with and then gradually eliminating the others.

The process certainly is not beautiful.

In the ancient city of Ur, archeologists have found women's vanity cases, used 5,000 years ago. That isn't very far back. You may be sure that 100,000 years ago, women, and men, too, were smearing red earth on their cheeks, putting fat on their hair, and otherwise beautifying themselves. The process seems ridiculous, but the result is a race much more beautiful than that of 5,000 or 500,000 years ago.

Otto H. Kahn has rendered a service to New York, to music and to the public generally by putting through his plan for a new Metropolitan Opera House at 57th street and 8th avenue.

It gives wise investors, by the way, a good opportunity. The new opera will have thirty-two parterre boxes, in which large diamonds and shining pearls can be displayed as nowhere else.

You can buy one of those boxes, if the directors will let you, for \$145,000.

Then you own one thirty-second part of the whole opera, subject to a mortgage.

You will have your box for Monday, the fashionable night, and can earn a fine return on your money, renting it the other nights—if the directors will let you rent it.

They are particular, for there are only thirty-two boxes in the whole opera house, which means that those sitting there will be an earthly elite.

The important thing is that Mr. Kahn has arranged for those that like music, as well as for those that wear diamonds. There will be good, comfortable seats, with a perfect view of the stage, as cheap as \$1.50 each. Those that will sit on that stage, a few years hence, will have a chance to hear and see the opera now.

The crime wave problem is 90 per cent a problem of wayward youth. You read today of a girl eighteen and a boy of seventeen asking a storekeeper to charge a \$20 bill at 7:30 in the morning, and holding the man up with guns after he had opened the safe to get the change. The girl kept the (Continued on page six)

Several Cases Heard Yesterday in County Court

Several cases were heard in county court yesterday, most of which resulted in fines and road sentences for the violators of liquor laws and pistol toters.

The cases disposed of were: Joseph Wingate, trespass and cruelty to animals thirty days on the roads on the trespass charge and four months on the cruelty charge.

Jimmie Stokes, charged with assault with deadly weapon, carrying concealed weapon and resisting arrest was sentenced to 90 days on the roads on each count, making a total of six months.

H. B. Forbes, sentenced to four months on the roads on an assault charge appealed to Superior Court under bond of \$200.

VETERANS LOAN CASE IS BEFORE SUPREME COURT

Raleigh, Feb. 16.—(AP)—The Supreme Court of North Carolina today had arguments before it on the question of validity of the world war veterans loan act of 1925, providing for issuance of two million dollars in bonds by the state.

Addresses by Prominent Visitors and Election of Officers Featured Meeting

Cooperation between members of the trade and the realization of the obligation of the trade to society was the theme of a talk delivered by Eugene Newsome, of Durham, director of the North Carolina Merchants' Association. His talk gave an insight to what could be accomplished through cooperative and coordinated effort and pointed to the many failures resulting from individual and unsystematic efforts.

Arguments Over Validity of Veterans Loan Act Being Heard Today

Action was brought against R. R. Lacy, State Treasurer, John H. Manning, Commissioner of the Veterans Loan Fund, and W. N. Everett, W. A. Graham, Dennis G. Brummitt, Frank D. Grist and Mr. Lacy, as members of the board of advisors, created by the act. Allegations of those contesting validity of the act were: The disabled are not compensated or rewarded; the bonds violate legislative act in pledging faith, credit and taxing power of the state; the act is paternalistic and extravagant.

FOREIGN POWERS REJECT COOLIDGE ARMS CONFERENCE

Announcement Today That Italy Will Join France in Rejection of Plan

Washington, Feb. 16.—(AP)—Hopes of the Washington government for an effective naval limitation conference have been jolted severely by a polite rejection from France and a forecast that Italy will decline to participate. With the declination last night of France, the opinion here was that Italy would accept, and still make possible the gathering of representatives of a sufficient number of nations to bring practical results in the limiting of armaments not touched upon at the Washington conference.

A semi-official communique issued in Rome today, however, announced that Italy would follow the lead of France in denouncing the proposal of President Coolidge for the conference, leaving as a matter of conjecture the next step of the American government in seeking methods of obtaining the agreements it has hoped for. Tentative consideration had been given to a possible four power conference, participated in by the United States, Japan, Italy, and Great Britain, even before the unfavorable French reply was received. Acceptance of the Coolidge invitation were considered as having been assured from Japan and Great Britain but obviously the attitude of Great Britain may now be affected by the position of France and Italy.

For the moment it is unlikely that any plan of action will be formulated here in the absence of the British and Japanese formal replies.

The French communication was based on the main contention that the American plan might compromise the success of the preliminary disarmament commission created by the League of Nations.

Whether its terms have left room for hope that further correspondence with Paris might create a better understanding of the American suggestions was not disclosed. Secretary Kellogg will probably defer decision in that regard until the Italian reply is before him.

The statement issued by Mr. Kellogg last night called attention to evidences of misunderstanding in Paris did not go beyond expressing the hope of ultimate French agreement. The Italian note may offer similar possibilities to the official eye, but the immediate effect of the Rome announcement is the creation of an added obstacle to any proposal for limiting cruiser, destroyer and submarine tonnage in accordance with the Washington treaty theory or of reconciling that theory with French and Italian views.

Rome, Feb. 16.—(AP)—Italy will follow France's lead in rejecting President Coolidge's naval armament proposal, it was announced in a semi-official communique this morning. The Italian reply is ready and will probably be delivered some time today.

Italian Aviator to Fly Across the Atlantic Tonight

Rome, Feb. 16.—(AP)—Commander Francesco De Pinedo expects to start a flight across the Atlantic ocean at 8 o'clock tonight from Boloma, Portuguese Guinea, he hopes to reach Port Natal, Brazil in 18 hours. The distance is 1,875 miles.

All Italy is elated over the rapid progress made by the aviator, in the early stages of his four continent flight.

He reached Boloma from Villa Visneros, Rio De Oro, yesterday morning, having flown the thousand miles by moonlight.

When he and his two aides, Captain Carlo Desbrets and mechanic Vitale Zaccetti, landed at Boloma, they were anxious to get to bed. Most of their time in the African town was devoted to sleep and to getting their plane the Anta Maria, ready for the overseas hop.

The expedition left Gazari, Sardinia, Monday, flying to Rabat Morocco, from Rabat they flew to Villa Visneros, 1,000 miles further down the African coast on Monday afternoon.

MRS. WRIGHT AND MRS. CARR ENTERTAIN BOOK CLUB
The End of the Century Club held a most interesting and delightful meeting at the home of Mrs. R. H. Wright on Tuesday afternoon, with Mrs. Wright and Mrs. R. L. Carr as hostesses.

At the conclusion of the usual business session the meeting was turned over to Miss Mamie Jenkins of the Training School, who in a brief talk, explained the close relation between poetry and music—and carried on her theme by giving exquisite poems which were beautifully interpreted in the music of violin and piano by Misses Bertoleto, Gorrell and Meade, of the college.

Four of the college girls, accompanied by Miss Kirkendall, charmed by their lovely songs "Drink to Me Only With Thine Eyes," and others.

Miss Jenkins then read several lovely poems whose rhythm was music itself, and Miss Helene Higgs charmed the gathering by singing Stanton's appealing songs "Mighty Lak a Rose," and "Just a' Wearyin' For You."

Other selections of piano and violin beautifully illustrated Miss Jenkins' theme for the afternoon as well as the many short poems so impressively and appealingly given by her.

Altogether it was a most enjoyable afternoon which one hopes may be repeated soon to a much larger audience.

Among the guests were Mrs. Wright's mother, Mrs. Murphy, of Tomahawk, N. C., and Mrs. Davis, of Camp Junaluska, Mrs. W. S. Harden and Mrs. J. H. Rose.

At the conclusion of the afternoon's program, the hostesses served most beautiful and delicious refreshments.

Noted Lecturer at the College Tomorrow Night
On Thursday evening the students of East Carolina Teachers College and their friends are to have an imaginary trip to Australia, the big island continent "Away Down Under." "The Land of Marmalade Distances" will be the subject of an illustrated lecture by Captain Kilroy Harris, U. S. O. M. C., F. R. G. S., Australian newspaper man, author, explorer, soldier, and lecturer, and former official war lecturer for the British and U. S. governments.

Captain Harris, according to the "British Who's Who," has had a remarkably adventurous career. He traveled more than five thousand miles on horseback in his native country, collecting material for his books, "Outback in Australia," "Something About Australia," and "Kangaroo-Land: Glimpses of Australia." He has also traveled very extensively in Europe, South Sea Islands, New Zealand, South Africa, Canada, Alaska, Yukon Territory, etc. He was wounded four times, and gassed once, during the Great War; and received the Distinguished Service Order, three military crosses, and other medals, from King George of England. In addition to his war lecture tour of the United States in 1918, he was in America for six months in 1915 on confidential work for the British War Office.

His travels in many out-of-the-way parts of the world have provided Captain Harris with a wealth of material for his Radio Travel Talks, which he has given from radio stations all over the country. The originator of Radio Travel Talks, he has been heard by more radio fans than any other man in America. On Friday evening, and Saturday and Monday, next, he is to broadcast radio talks from W. B. B. W., Norfolk, Va., his subjects being "Australia," "Canadian Rockies," "Alaska," and "Yukon Territory."

Captain Harris is accompanied by his wife. At present they are on a four months motor tour thru Southern states, collecting material for American lectures in Australia and New Zealand, where they will be at the end of this year, for some extensive travels on horseback. Mrs. Kilroy Harris is a Canadian, formerly a director of kindergarten work in Ontario. Both the Captain and Mrs. Harris have ridden on horseback many hundreds of miles thru Western Canada, and they belong to "The Order of Train Riders of the Canadian Rockies."

Captain Harris in his lecture will take his audience right off the beaten track.

OPERA SINGER IS SLAIN BY WIFE
Vienna, Feb. 16.—(AP)—Trajan Groszavcsu, tenor of the Vienna National Opera, was shot dead by his wife in a fit of jealousy at the moment the couple were entraining for Berlin where the singer was to fill an engagement.

Groszavcsu sang many roles with Marie Jeritz, the Austrian operatic star.

University Band Pleased Audience Here Last Night

The University of North Carolina Band, under the directorship of T. Smith McCorkle, played last night to an audience of a thousand people in the new auditorium of East Carolina Teachers College.

Their concert was a decided success.

Their program was well balanced, high class and artistically rendered, and the good taste shown in the type of music presented was as pleasing as the skill with which the numbers were rendered.

Lotus Flowers Waltz, by Evans; March "National Emblem," by Bagley; Medley of Popular Songs arranged by Scott; saxophone quartet; Parade of the Wooden Soldiers, by Jossel; Selection from the Bohemian Girl, arranged by Hayes; Serenade Endine, by Gabriel Marie, by Mr. Byerly; Concert Waltz (Op. 14), by Skarzewski; Stars and Stripes Forever, by Sousa.

The new auditorium at the Teachers College is probably the finest auditorium in Eastern Carolina. It has a seating capacity of twenty-three hundred and is one of the most beautiful and artistic in the state.

Thursday evening at 8 o'clock, Mr. Kilroy Harris, of the National Geographic Society, a traveler of world-wide fame, will lecture.

Play Under Charge of Being Immoral Will Be Withdrawn

New York, Feb. 16.—(AP)—Shortly before time for the legal curtain to rise on a courtroom scene of "The Captive," one of three plays raided in last week's stage clean up campaign produced by the production announced that they had decided it would be "unwise and impolitic" to continue the run of the play.

But if the Spokesman is a spookman, then we are stumped. No previous study of the spook will help us. That is the rub. If this were a plain spook, the answer would be easy; spooks never wander from the premises where they first appear; and thus we should expect the Spokesman to remain behind, perhaps to torment the workmen with his somewhat cryptic utterances.

But this is not a plain spook. It is a spookman. And about spookmen our reference books have nothing to say. We must bow our heads and wait; the issue is in the lap of the gods, and only the future can tell.—*New York World.*

Suggest Boxing Commission For Nation's Capitol

Washington, Feb. 16.—(AP)—The era of flying congressional fists found humorous outlet today in a movement to apply the orderly processes of the prize ring to future bouts among Senators and Representatives, but when the proposal was presented on the House floor matters threatened to take a serious turn.

In the midst of a joking discussion of the need for a capital boxing commission, Rep. Blanton of Texas, who yesterday wrestled with a colleague in a committee meeting, challenged two or three of those who were tantalizing him. The challenge was laughed off and later an effort to erase it from the record failed.

COMB SAGE TEA INTO GRAY HAIR

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients. It is known as Wyeth's Sage & Sulphur Compound and can be obtained at all drug stores for only 75 cents a bottle.

While gray faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair taking one small strand at a time; by morning all gray hairs has disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger.

It is said that good will is more valuable to a merchant than his store or money in the bank.

In other words if some catastrophe should destroy your store, established through quality merchandise, moderate prices and good will the store could resume business the next day. But if the good name of that store were erased that business would be gone. And therein lies the great security of this institution. Our good will is beyond the reach of all disasters.

Over thirty years ago we dedicated to the principles of quality, service and value THIS STORE, which was the foundation of our present business. Today we re-dedicate again an institution whose ideals have never deviated from those set by its founders. Reliability has been the pride and purpose of this store for over thirty years. Hundreds of shoppers in Eastern Carolina have accepted our name on value. This business rests on quality and moderate prices, unceasingly and unflinchingly given.

WORST ADVERTISEMENT

North Carolina quite properly boasts of progress in many directions and millions are proposed to be spent to advertise the State. And yet we persist in three courses that offset, much of this good advertising:

1. We deny to rural children an eight months school
2. We defeat a measure to reduce the working hours of women (some at night!) from 60 to 55 hours a week.
3. We make no legal provision to protect forests, provide for reforestation or by a severance tax such as Louisiana has, to require owners of forests to protect young trees.

To fail in this conservation of the child, woman in industry and in trees is the sorriest advertisement that could go out from the State. It is the reverse of business administration.

This Legislature can remedy all three.

It should not adjourn without doing so. In comparison with these things all the talk of budget and audit and efficiency and business administration is comparatively unimportant. Human conservation is the supreme duty and next to that conservation of trees. These preserved there will be, as Aycock said, "an outburst of industry." — *News and Observer.*

THE SPOKESMAN

The President, together with his family and secretariat, will presently move to a house on Dupon Circle, there to dwell while leaks are being plugged in the White House roof. And an important question arises in connection with this fitting, a question which the Washington correspondents have overlooked. It is this: Will the White House Spokesman move with the President?

On the face of it, this question may seem silly. We are told by those who profess to know that the White House Spokesman is nobody but the President himself; and that he assumes this alias so that if trouble develops out of something he has said he can declare that the White House Spokesman did not explain his attitude properly, and that he didn't say it. And since on at least one occasion trouble did develop out of his remarks, and he did deny saying it, some color is lent to this explanation of the phenomenon.

But there are others who insist that the Spokesman is not the President at all, but a White House spook. They go further: they say "spokesman" is not the proper word—that it is really a corruption of "spookman." So there we are. If the Spokesman is really the President, then naturally we may expect to see him doing business at the new location.

MAL DAUGHERTY ON STAND TODAY CONSPIRACY CASE

Brother of Former Attorney General Says Brother Burned Bank Records

New York, Feb. 16.—(AP)—A story of how he rose from janitor to be president of two banks was told today by Mal S. Daugherty, government witness in the Daugherty Miller trial.

Mal was recalled for cross examination as the trial began for the day. He had testified yesterday about missing the records of the Midland National Bank, one of the two Washington Courthouse, Ohio, banks of which he is president.

He told of his brother, Harry M. Daugherty, former attorney general, burned ledger sheets which the government contends would bar shown that part of an alleged bribe of \$441,000 went to Harry Daugherty's account.

Harry M. Daugherty and Thomas W. Miller, former alien property custodian, are charged with defrauding the United States of their best services in connection with transfer of \$7,000,000 in impounded assets of the American Metal Company.

Leaving back in the witness chair, Mal Daugherty sketched the history of the Daugherty family. His mother, he said, was in her 90th year still living on the spot of ground in Washington Court-house where she was born.

He told of how at the age of 19 he became janitor in the Midland National Bank, rose to bookkeeper, and after filling every position in the bank became president. He is also president of the Commercial Bank.

Harry M. Daugherty, he said, married early and in 1890 moved to Columbus to practice law.

Drunken Driver Hurts Nineteen

Danville, Va., Feb. 16.—(AP)—Nineteen persons were injured, three seriously, when an automobile plowed into a crowd of men attending a mule sale here this afternoon. E. H. Hyatt was arrested and charged with operating the machine while intoxicated. Walter Marshall, an occupant of the automobile, was detained by the police who alleged that he, too, was drunk.

Frank Stone, of Danville, J. P. Mays, of Chatham, and J. L. Powell, of Pennsylvania, were taken to a hospital suffering from broken limbs.

The automobile is said by witnesses to have struck a wagon and then to have careened into the crowd gathered around the auctioneer.

Chicago, Feb. 16.—(INS)—Chicago's flappers can lay claim to being the warmest-blooded specimens in the country if one noted Arctic explorer happened to ride one of the double-decked buses that ply along the lake shore in direct line of the whirly blasts from the then covered water front.

Despite the sub-zero weather the flappers, none of whose skirts were below their knees, laughed and giggled apparently without a thought of discomfort.

The next person to reach the pole, said the explorer, undoubtedly will be a woman, if one of the Chicago variety makes the attempt.

Dr. W. L. Bailey, professor of sociology at Northwestern University, believes those who criticize Chicago for its reputed lawlessness are all wrong.

"In view of modern conditions," said Dr. Bailey, "one can say that Chicago has its reputed lawlessness all wrong."

"In view of modern conditions," said Dr. Bailey, "one can say that Chicago has its reputed lawlessness all wrong."

Chicago's comparative standing among the great cities of the world is enviable. In its economic, well-organized work family life, organized religion and major forms of civic activity and education, Chicago has a superiority.

The same day that Dr. Bailey passed out the bouquets, John Dingbat, known in some circles as 'Dingbat', was seeking a court injunction to restrain police from 'interfering' with his candidacy for alderman.

Oberta, whom police claim to be the lieutenant of Joe Saltis, notorious beer runner, told the court that police were tearing down his campaign dodgers and once, when he was doing nothing more than sipping a bowl of soup in a restaurant, they hated him to the lock-up for questioning.

Oberta opened his campaign in whirlwind fashion, the newspapers displaying a rogues' gallery picture properly numbered. Oberta says he has never been convicted of a crime in Chicago.

Local Highs Continue Their Winning Streak

The Green and White of Greenville high school continued their winning streak by continuing victorious over Washington high school by a score of 31 to 10, last night at German's warehouse. Although the score was one-sided all through the game, the contest was hotly fought by both teams.

Early in the first quarter Washington's lead of 1 point was quickly overcome and from then to the end of the game, the local lead was never threatened by the visiting team. The score at the end of the first quarter was 8 to 3, in favor of the locals and at the end of the half, 16 to 7.

Croarkin Goes on Trial

Demands for speedy justice made by Walter Schmith, shown at left, in court in Chicago, caused the trial of Harold J. Croarkin, at left, in court, to be set for Monday. Croarkin was accused of murdering Schmith's son, Walter, Jr., under circumstances recalling the Loeb-Leopold crime.

Atlanta, Ga., Feb. 16.—(AP)—The South was linked with the British Isles today by telephone.

Sitting in his office at Atlanta, Ben S. Read, president of the Southern Bell Telephone and Telegraph Company, called "long distance" at 7:30 o'clock this morning and almost immediately Colonel H. S. Scheve, transmission engineer of the American Telephone and Telegraph Company in London, answered. The distance was more than 4,000 miles.

This call formally inaugurated the service between England, Scotland, Wales, and the states of Georgia, Kentucky, North Carolina, South Carolina, Tennessee, Virginia and West Virginia. Tomorrow the service will be extended to Alabama, Arkansas, Florida, Louisiana and Mississippi when an official of the New Orleans call an official of the Liverpool cotton exchange.

"I am delighted to have the first word out of the South," Mr. Read told Colonel Scheve and the latter's first words were, "I am a long way from Atlanta." The two telephone officials chatted for a few minutes and then Mr. Read remarked that he was just ready to go to breakfast.

"Why, haven't you had breakfast yet?" came the London official's query.

"I'm just back from lunch," the difference in the time between Atlanta and London is six hours.

ATLANTA TALKS LONDON TODAY

First Telephone Call From South to London Went Through This Morning

Atlanta, Ga., Feb. 16.—(AP)—The South was linked with the British Isles today by telephone.

Sitting in his office at Atlanta, Ben S. Read, president of the Southern Bell Telephone and Telegraph Company, called "long distance" at 7:30 o'clock this morning and almost immediately Colonel H. S. Scheve, transmission engineer of the American Telephone and Telegraph Company in London, answered. The distance was more than 4,000 miles.

This call formally inaugurated the service between England, Scotland, Wales, and the states of Georgia, Kentucky, North Carolina, South Carolina, Tennessee, Virginia and West Virginia. Tomorrow the service will be extended to Alabama, Arkansas, Florida, Louisiana and Mississippi when an official of the New Orleans call an official of the Liverpool cotton exchange.

"I am delighted to have the first word out of the South," Mr. Read told Colonel Scheve and the latter's first words were, "I am a long way from Atlanta." The two telephone officials chatted for a few minutes and then Mr. Read remarked that he was just ready to go to breakfast.

"Why, haven't you had breakfast yet?" came the London official's query.

"I'm just back from lunch," the difference in the time between Atlanta and London is six hours.

FLORENCE Oil Ranges

The Range With Focused HEAT

The few minutes you spend in learning about the Florence—the oil range with FOCUSED HEAT—may save you hours in the kitchen, and dollars in your household expenses.

Like many other great labor-saving discoveries, the principle of FOCUSED HEAT is simplicity itself. Here's all there is to it:

Speed and economy in cooking depend on how much of your heat goes straight to the bottom of the pot; that is whether the heat is FOCUSED on the cooking or scattered and wasted.

HEAT WHERE YOU WANT IT

Meals cooked on a Florence are ready on time. The business like flame burns steadily at whatever height you choose. It is clean, clear, intensely hot—a dependable flame that gets work done.

The Florence burns a gas-like flame from the vapor of kerosene—one of the cheapest fuels known. And the Florence does an amazing lot of work for every gallon of oil it burns.

Operating the Florence is SO little trouble! When you are ready to cook, turn a lever and touch a match to the asbestos kindler. There are no wicks to trim, no priming, no difficulty in putting out the flame when its work is completed.

Just a look at the Florence will convince you of its advantages. Let us show you one today.

Say Boone Offered Negro \$10 to Bury McLaurin's Body
Fayetteville, Feb. 16.—(AP)—Kenneth O. Boone, auto tire dealer, held in the Cumberland county jail in connection with the murder of Frank McLaurin, offered his negro helper, Will Prist, \$10 to bury the body of McLaurin following the murder, according to Sallie Prist, his wife, in a statement to the Associated Press at noon today.

Prist, who told sheriff McGeechy early yesterday morning that Mrs. Edna Phillips fired the fatal shot, told his wife the story after he had run away from the death scene leaving Boone and the Phillips woman. After reaching home, Prist and his wife went visiting in a home two or three blocks away, she said this morning, and Boone drove to the negro's home, and upon finding him gone, persuaded his wife's brother to point out the house where Prist could be found. This was done and Boone is said to have told Prist that on account of his running away he did not have time to caution him to keep his mouth shut about the matter.

His wife said that she had been trying to get her husband to make a clean breast of the affair but he was afraid it would not be believed and that Boone would kill him. According to her statement her husband told her that the fight in the garage occurred near seven o'clock on January 18, and that Boone afterwards told him he struck McLaurin with a wrench and that he had removed him to the Phillips home, near the silk mill. Two nights later he took the negro to the house and loaded the unconscious man into his Pontiac sedan and then drove to the spot where he was murdered. Prist told his wife that McLaurin was scarcely breathing when taken out of the car and that after a newspaper and his overcoat were spread on the ground, the Phillips woman grabbed the gun and said:

"If you haven't got the nerve to do it, I'll fix the —" and fired a shot into his brain. Boone then told the negro he had to bury him, his wife said, and

Prist ran away from the scene. Prist is said to be of good character and has no police record. He had been working with Boone about three years.

Young O'Donnell is the tenth young man to commit suicide within a few weeks. One youthful suicide said he was "disillusioned". Another killed himself to test his theory on immortality.

The Baldwin Locomotive Company reveals the interesting fact that its net profits, in a year, have increased from \$196,563 to \$5,883,907.

A year ago, the common stock earned 98 cents a share. This year it earned \$22.42 a share. Wall Street bears were recently selling that stock short. Can you imagine how they feel.

King George has sent a silver alms dish, through British Ambassador Howard, to the new Protestant Episcopal cathedral of St. John the Divine, in New York. Last Sunday the royal dish was used for the first time, while 2,000 worshippers admired. It is believed that deep respect for the British King and reverence for his silver dish will greatly increase the prosperity of the cathedral.

Those that ordinarily would put a dollar in the plate will say to themselves, "It is the King's plate, I must do my best," and put in \$10.

Herbert N. Casson, a thoughtful observer, says Britain is delighted with the frightfully costly coal strike. It was expensive, but it has ended revolutionary trade unionism. Great Britain thinks so, at least.

Revolutionary trade unionism would not have gone far in Great Britain, anyhow. The British are not revolutionary, it isn't their nature.

Great Britain, according to Casson, is doing well, breaking all European building records, by putting up 270,000 houses in the last two years and in 1926 and turned over in London's clearing house was almost two hundred billions of dollars.

Britain has digested her return to the gold standard and can compete with Germany abroad.
