STORM HINDERS RELIEF WORK IN CENTRAL JAPAN

Suffering in Quake Stricken Area Added to by Terrific Storm Today

Tokyo, March 11.—(AP)—Central Japan, recovering slowly from the havoc wrought by Monday's earthquake was swept today by a terrific gale. The storm brought renewed hardships in the Tango district, blowing down a great many of the hastily erected refuge shelters after the troops had experienced considerable difficulty putting them up. As relief by sea has been hindered by rough weather, it was feared the gale would further delay help for refugees in the villages along the coast which suffered most in the quake. Latest figures compiled by the Home Office, which are not taken upon as final, gave the number of dead through the quake as 2,687, with 6,443 injured. The Home Office estimated that 10,000 buildings were destroyed. Relief measures went on steadily despite serious handicaps, the authorities giving particular attention to those in need of medical care. Their next thought was for the thousands compelled to camp out in the cold and snow through the collapse of their homes. Strenuous efforts were made to prevent an epidemic and to provide food and clothing. Immediately after the catastrophe the relief expeditions were hampered by impassable roads and flooded areas. Prior to the gale however, many of the roads had been repaired, streams had subsided and warmer weather had set in, and reports from inland places indicated that hopeful progress was being made in the work of relief.

Freighter Sinks After Collision During Heavy Fog

New York, March 11.—(AP)—The light that Liberty sheds upon the world was not bright enough today to dispel a fog that shrouded New York bay and two freighters collided head-on under the harbor's famous statue, one of them sinking and becoming a menace to navigation in the channel, one of the busiest shipping lanes in all the world. Only one man was lost, John Brown, a ship's carpenter on the Southern Pacific freighter El Sol, the ship that sank. All other members of the crew of 44 were saved. The other craft in the collision, the American Diamond line freighter, Sea City, was badly damaged but did not sink and none of the crew was injured.

State Briefs

(By The Associated Press) Concord.—Streams through Cabarrus county are out of their banks as a result of melting of the recent snow. No serious damage has been done. Hickory.—The board of education of Highland has authorized assistance of \$15,000 worth of bonds, \$10,000 to be used in financing the construction of a standpipe and the remainder for extension of the water system. Gastonia.—The Gastonia Country Club will be closed next Thursday it has been announced. The Gastonia Golf Club, which leases the country club, is said to be in financial difficulties due to a decrease in membership. Asheville.—Cornelia Vandervilt Cecil has been sued for \$23,000 by Hattie E. Norton and Lester Norton as a result of an automobile accident in Biltmore village some time ago. The suit is brought Mrs. Cecil as "Cornelia Cecil, doing business as the Biltmore Estate Dairy." Salisbury.—H. B. Weldy of Winston-Salem was killed when an automobile in which he was riding with E. D. Donighy of Greensboro turned over near China Grove late yesterday. The accident occurred when Donighy left the hard surfaced road to pass some other cars. Clairsville, N. Y., March 11.—(AP)—Nine persons, all members of the same family, were burned to death when fire destroyed the home of Clarence Marsh at Tunnelton, six miles west of here early today.

AMERICAN CONSUL TO MAKE PROTEST TO THE CANTONESE

American Mission Property at Wuhu Looted After Cantonese Forces Occupied City

Shanghai, March 11.—(AP)—The American Consul-General at Hankow was drawing up a protest today for presentation to the Cantonese authorities against excesses in the city of Wuhu after it was occupied by Cantonese soldiers several days ago. John MacMurray, American minister at Peking, instructed the Consul to make the protest, as American mission property was looted. Wuhu is 200 miles west of the city of Shanghai. Anti-foreign demonstrations there Tuesday and Wednesday led to the removal of foreign women and children to places of safety.

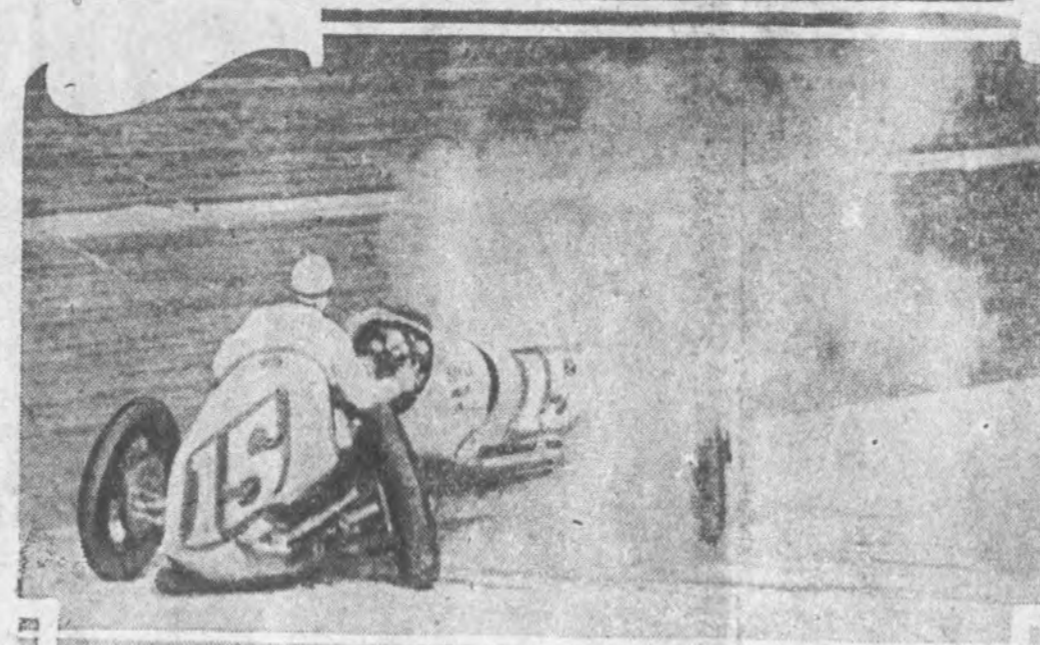

London, March 11.—(AP)—Looting of U. S. inland mission station at Luchow, near Chungking is described in an exchange telegraph dispatch today from Hang Kong. Southern troops are reported to be concentrated 13 miles below Wuhu and advancing on both sides of Yangtze river. Reports from Ichang are that a few more missionaries have evacuated posts up the Yangtze river. The exchange telegraph dispatch says it is reported that a French steamer searched at Wabsten, was found to contain arms and ammunition. Rumors of threatened attacks on high British military personnel in Shanghai, says a dispatch to today's Daily Express, have led the authorities to take sudden precautionary measures. Among them was the posting of international police outside the general military headquarters and hotels where some of the commanders are quartered. Extremist agitation in Shanghai is reported to be growing, dispatches saying that Wednesday's raid on the headquarters of the Postal Worker's Union forestalled a plan to attack the police stations. The incident growing out of the arrest of Mme. Borodin and the Russian couriers when the northern Chinese troops seized the Soviet steamer Pamiat Lenina continues to occupy a large part of the dispatches. All of them agree in denying the report that the three couriers had been executed on orders of Marshal Chang Tso-Lin, the northern war lord.

College Trustees In Regular Meeting Here Yesterday

The regular winter meeting of the Board of Trustees of East Carolina Teachers College was held here yesterday. The trustees present were A. T. Allen, F. C. Harding, L. W. Tucker, D. S. Boykin and E. G. Flanagan. Mr. Flanagan is the recently appointed trustee filling the vacancy made by the resignation of Mr. F. C. Kugler. A full report was made to the board of all that had been done in connection with the present General Assembly in reference to both the maintenance and improvement of the college. The trustees granted leave of absence for the spring term to Prof. Carl Adams of the Department of Education, and to Miss Mary Jane Alexander of the Department of Physical Education. Prof. H. J. McGinnis and Miss Mabel Ogden, both of Peabody College, will fill the positions of Prof. Adams and Miss Alexander during their absence. The General Assembly provided, at its last session, for the appointment of three additional trustees for this institution. Since these new members have not yet been appointed, and as it was the desire of the board to have a full meeting in considering certain matters of vital importance to the institution, the appointment of committees was postponed to be considered at a call meeting. These committees are for the purpose of arranging for the necessary enlargement of the college, and to take such steps as will insure the proper operation of the college under the maintenance program.

The regular meetings of the Board of Trustees of East Carolina Teachers College are held on the last Thursday of each college term.

Camera Catches Crash in Culver City Contest

Clifford Woodbury smashed his car into the lower railing at the Culver City, Cal. speedway during a race there. Horror gripped the crowd of thousands. But the lucky speeder crawled out of the wreckage unhurt.

HEAVY FIGHTING AMONG CHINESE REPORTED TODAY

Battle That May Decide Struggle Between Northern and Southern Factions in Progress

(By the Associated Press) Fighting which may have a decisive effect on the outcome of the struggle between the northern and southern Chinese is going behind the scenes in Honan province. Its seriousness is indicated by the arrival of 600 wounded at Peking. It appears that the long predicted clash has at last occurred between forces allied with Wu Pei-Fu and those of the Manchurian war lord Chang Tso-Ling, who is driving southward through Honan to attempt to halt the northward advance of the Cantonese. Chang, known as a master tactician, is reported to be planning a flank attack in Honan, meanwhile rushing 60,000 reinforcements southward to carry on his main advance toward Hankow. Cantonese forces are entrenched on the southern Honan border to block the way to Hankow. Rains have turned the terrain around Shanghai into huge morasses, temporarily halting the military operations of the Cantonese. These forces seek to cut the railway to the north and thus sever the supporting lines of General Tsung-Chang, defender of Shanghai. Soviet Russia has presented a second note of protest to the Peking government over the seizure of the steamer Pamiat Lenina and the arrest of three Soviet officers, together with Mme. Borodin, wife of the Russian citizen who acts as adviser to the Cantonese government. The note warns Peking that it will "bear full responsibility" for the safety of the party. Messages from Tsinanfu, where the Russians are held, say they are safe and receiving good treatment. Special guards are reported to be protecting the leading British military personages in Shanghai in the face of growing extremist agitation. The British forces there were augmented today by arrival of the Goldstream guards.

TODAY

The Dinosaur's Party Gold in the Mountains A 4,000-Mile Hop Studying Mummies

(By Arthur Brisbane) Mrs. Henry Fairfield Osborn entertained friends at the museum of natural history, in honor of the dinosaur, in Dinosaur Hall. That monster is 47 feet long from his head to the end of his tail, 18 feet high at the hips, 21 feet around the waist, with bones that weigh more than two tons. He was a powerful animal, but couldn't last because he didn't have a brain big in proportion to the size of his body. Civilization has developed a more powerful creature, which is the croqueted billionaire, able to confront and command the work of 200,000,000 men for one day. That billionaire will soon be numerous and the interesting question concerning him will be, "What about his brain?" will it be big enough to keep him safe. You read about a new mountain range discovered in Siberia, 1,900 miles long, 300 miles wide, peaks 11,000 feet high. This range will be named for Lenin whom the Russian people delight to honor, and that will annoy high finance. But what of the mineral wealth in that gigantic mountain range? If gold, silver, copper should be discovered in quantities, it would soften the heart of high finance. Always practical, willing to listen to a good argument. The British, developing an air force, where we talk and save money, are about to attempt the longest non-stop flight, 4,000 miles, from London to Karachi in Western India. What does President Coolidge responsible for the safety of this nation in case of war, think about our comic opera flying force? How does he think the long successful flights by Italians, Englishmen, Germans, Russians and Japanese compare with our failures? The President will be interested in an address to the Paris Union of Commerce and Industry by Andre Michelin, who says that every nation in Europe is developing gas warfare, and that "a city as large as Washington, D. C. could easily be asphyxiated by gas bombardment from a flying fleet. The learned Dr. Sack of Heidelberg University, studying thousands of Egyptian mummies, finds that high living khaki of rich Egyptians as it kills off rich Americans today. Foolish eating, lack of exercise, especially lack of deep breathing, have through the centuries been skinning the seum off the boiling pot of civilization. Mummies of the fifth dynasty show signs of tuberculosis affecting spine, and joint, swelling the joints. Cancer did not come in until the Byzantine era. Fifty thousand Japanese are homeless as result of earthquake tidal wave and fire. Many corpses line the ruins. Many were burned, others crushed. The Japanese government announces that it requests no assistance and can take care of its problems. A brave people. The first news of a useful volcano comes from Nicaragua. A big volcano for years has damaged

WARE WILL ASK RECOUNT OF VOTE PENN. ELECTION

Senator - Elect Announced Today He Will Ask Committee to Make Recount

Philadelphia, March 11.—(AP)—William S. Vare, U. S. Senator-elect, announced today he will ask the Senate to recount the entire vote cast for Senator at the last November election in Pennsylvania. He so stated in a letter to Senator Reed, Missouri, chairman of the Senate special committee investigating campaign expenditures. The letter was in reply to a communication from Senator Reed asking Mr. Vare whether he wanted the committee to impound ballot boxes from any other counties in the contest brought by William B. Wilson, Vare's opponent in the November election.

Representatives From This County May Pay Visit Stone Mountain

Raleigh, March 11.—Special arrangements have just been made so that each county in North Carolina will be entitled to a free trip to Atlanta and Stone Mountain for the Jefferson Davis birthday celebration June 3rd, provided the county shall have secured its quota of enrollments in the Children's Founders Roll by May 31st. Each county has been assigned a quota of enrollments for the Children's Founders Roll equaling eleven per cent of the white school population. Chairmen have been appointed for the different counties and they are busily engaged in organizing their districts so that one hundred representatives of the state may have the pleasure of making this trip: pay homage to the memory of the South's President and at the same time see the progress that has been made in engraving the likenesses of Davis, Lee and Jackson upon the face of Stone Mountain. These trips are to be awarded as follows: To contestants who enter and work in securing enrollments, the award being made to the boy or girl securing the largest number in the county; by lot, drawn by the members of the committee or by a system of votes. The method to be decided by the county chairman and committee. Children—eighteen years or under regardless of ancestry may be enrolled in the Book of Memory in this great work. These enrollments are to be made in memory of some person or organization serving the Confederacy. Each child subscribing the sum of one dollar will be enrolled and presented with a beautiful bronze medal designed by the sculptor, Augustus Lukeman. North Carolina has an allotted quota of 100,000 enrollments which must be secured prior to May 31.

FALLS SEVEN STORIES TO INSTANT DEATH

New York, March 11.—(AP)—Dr. Henry Frauenthal, founder of the hospital for joint diseases, was killed today when he fell from a bedroom window in his seventh floor apartment in West 70th street. Police believe he lost his balance when he went to the window for air.

MIDDLE DISTRICT OF FEDERAL COURT ROGANIZED TODAY

New District Formally Organized Under Direction Judge John J. Parker

Greensboro, March 11.—(AP)—The new United States middle district of North Carolina was formally organized today by circuit court Judge John J. Parker, designed to perform this function by senior circuit court Judge Edmund Waddill Jr., Judge Par appointed Frank A. Linney of Boone as acting district attorney, R. L. Blalock of Greensboro as acting clerk, and Dr. C. G. Bryant of Yadkinville as acting marshal. Judge Parker will preside over the court until such time as President Coolidge appoints the presiding judge. Organization of the new circuit was a brief affair and was attended by a number of attorneys of this section. Sitting with Judge Parker was the beloved venerable senior district judge, James G. Boyd. Appointment of Mr. Linney was made after Judge Parker announced that the Boone attorney, who has been District Attorney of the western district for six years, had advised him he would not be a candidate for the permanent appointment to the position. As Boone is no longer in the western district, Mr. Linney automatically relinquishes his position as District Attorney of that district. Judge Parker stated he did not care to inject any new elements into the situation by naming any man who was an active candidate for the permanent appointment. Judge Parker opened at 10:20 o'clock. He reviewed briefly the greatest development of North Carolina, which created the necessity for the new district and told of the passage of the act.

NEGRO EXECUTED ANOTHER SAVED AT LAST MINUTE

One of Alleged Murderers of Officer Paid With Life Today. Sentence of Accomplice Commuted

Raleigh, March 11.—(AP)—Booker T. Williams, negro, snatched from the death chair this morning by a last minute reprieve had his death sentence commuted to life imprisonment by Governor McLean this afternoon. The Governor said he acted because he had been convinced that Williams was not guilty of wilful and deliberate murder. Robert Lumkin, jointly convicted with Williams of murdering police chief M. B. Rogers, Rowland, in December 1925, was executed at 10:55 today. The execution was delayed by a conference between Governor McLean and Pardon Commissioner Sink. Williams sent for Commissioner Sink at the last minute and confessed that he was an accessory to the shooting. He said one "Rufus Ford" fired the fatal shot. Williams, however, admitted that he had something to do with obtaining the pistol which was used to kill the chief of police. Lumpkin was electrocuted at 10:55 o'clock. Two shots were required. The first was one minute, 55 seconds, the second one an even minute.

McTigue May Get Another Chance In Title Series

New York, March 11.—(AP)—Mike McTigue whose spectacular drive for heavyweight recognition contributed one of the most colorful features of Tex Rickard's elimination series, may have another chance to regain his lost light heavyweight laurels. Announcing tentative plans for an indoor match between Mike and Tommy Loughran of Philadelphia, on May 13, Rickard today indicated his intention of titling the winner against Jack Delaney. Expectations are that the title battle, if Rickard completes his program, will be held at Yankee Stadium in June.

DEFENSE IN WAKE FLOGGING CASE ON STAND TODAY

Case of First of Eleven Alleged Floggings Soon Will Be in Jury's Hands

Raleigh, March 11.—(AP)—Conclusion of prosecution testimony and commencement of defense and character testimony today moved the first of the 11 Wake county flogging cases on to scheduled arguments this evening. Further indictments were possible. Matty Green, wife of Sam Green, helper to E. A. Jones, county merchant, closed prosecution testimony this morning, with a statement from the stand that she had recognized three Wake county citizens in the masked band which she said took Jones and Green from the Jones' store the night of December 13 and flogged them. Two of the three whose names she mentioned had not been indicted. Eleven citizens are under indictment. The case which started yesterday charged Leland Rogers, living on the Wake Forest road, with secret assault as a result of the flogging. Mrs. Green said she recognized G. E. Belcher, Wake county road supervisor, because "his mask was too big for him and I saw his features, everything except the top of his forehead. He was not wearing a robe." On cross examination she was asked if she did not know Green was drunk, and replied she didn't know. Rogers took the stand in his own defense following testimony from Mrs. Green. He said he was 24, automobile salesman for J. H. Freeman, Wake Forest, married four years, never "had court trouble," although on cross-examination he said he had heard of investigation of his alleged drunkenness but maintained no warrant had been served. He said he was not a member of the Ku Klux Klan and never had been. He said he had not been to the Jones store on the night in question and detailed an alibi, how he had got gasoline, had spent several hours talking in Wake Forest, had made a trip to Raleigh, and was in bed at 12:15 that night. Much cross examination concerned itself with a pistol Rogers admitted he carried. The defense swore in 40 character witnesses. Mrs. Rogers, wife of the defendant, took the stand shortly before the noon adjournment, testifying to her husband's presence at home and swearing to his general good behavior. Character witnesses were to follow, possibly some state rebuttal, and six hours to a side before the case goes to the jury in Wake county superior court, probably some time tomorrow. The case commenced yesterday.

Arrest Negroes For Meat Theft

Wright Smith, Jr., Thomas Fleming and William Taylor, negroes, were arrested yesterday at Ayden and today were turned over to Martin county officers for the theft of about 800 pounds of meat. The sheriff's office here yesterday received information that some strange negroes were selling a quantity of meat at Ayden and it was believed that the meat was stolen. Officers went immediately to the scene and began an investigation. The negroes after questioning declared that the meat was their own property but under further examination they admitted it was stolen in Martin county from Tom Brown, near Hassels. The negroes were placed under arrest and today were turned over to the Martin county officers.

NEW CHALLENGER FOR HIKING RECORD

Asheville, March 11.—(AP)—The long distance hiking records of Miss Eleanor Sears, Boston society woman, today received another challenge when Miss May Brewer, of Weaverville, near here, declared she would celebrate her 26th birthday April 18, by walking from Burnsville to Asheville, 43 miles. Mrs. Charles Hutchins, prominent Burnsville woman, 33 years old, and mother of two children, will attempt to cover the distance March 25, in 8 hours, and Miss Brewer hopes to clinch minutes off the mark Mrs. Hutchins establishes in the long hike. Miss Brewer is training daily by walking 12 miles.

Branson Urges Better Business In County Government

Chapel Hill, March 11.—(AP)—Better business methods in county government were urged by Dr. E. C. Branson of the University of North Carolina faculty in an address here today before the annual citizenship school of the North Carolina League of Women Voters. He stressed the need of a better system of public expenditures by the county board of commissioners. "We need a head of county government in each county," he declared, "conversant with all conditions of government as the President is to America and as Governor McLean is to this state." The organization went into its second day's session this morning when the League heard reports of its various committees. Miss Belle Sherwin, president of the national organization, was to deliver an address at the luncheon meeting. Tonight's session will take the form of a public meeting with addresses by W. A. Graham, Commissioner of Agriculture; J. F. Latham of Greensboro and J. H. H. Jr., Virginia Commissioner of Labor.

Highlights

Alfred Frick dies in Chicago after being kept alive 1-2 days by artificial respiration. Borah informs oil men that criticism will not sway him from his course of securing facts regarding Mexican oil situation; Rep. Gallivan charges Mexican government spent money in effort to discredit Coolidge and Kellogg. Misery of earthquake sufferers in Japan accentuated by terrific gale which demolishes numerous refugee shelters. Three American Army goodwill planes reach Rio Janeiro from Santos, Brazil. Political developments in Geneva seemingly indicate intention to invite Russia's co-operation in European League of Nations and European concert.

DECLARES MEXICO SEEKING MISLEAD AMERICAN PEOPLE

Gallivan Says Consul General Has Spent 2,000,000 to Discredit Coolidge and Kellogg

Washington, March 11.—(AP) Charges that the Mexican government, through its Ambassador here and its Consul-General in New York, had spent nearly \$2,000,000 in an effort to discredit President Coolidge and Secretary Kellogg and that anti-American literature could be had for the asking at the New York Consulate, are made by Rep. Gallivan, Democrat, Massachusetts, in an issue of the Congressional Record just off the press.

The charges which served to recall reports, later denied, that Mexican-circulated propaganda against the United States was the subject of the secret correspondence once received between the two governments, were enumerated in a statement which contained quotations from what the Representative termed a "printed tract."

"For the sake," he said, "you can get—could get up a few days ago—this printed tract by application at the Consulate, or by mail, and of this I have sworn and solemnly sworn."

When an American, Mexican Consul-General at New York, whose name was not given, was asked by Gallivan whether he would be permitted to see the tract, he refused.

The Representative, who said he was compelled by duty to bring the situation to light to demonstrate the "ineffectiveness" of an inquiry, in view of the failure of

his resolution seeking information on the subject from the State Department, charged the Mexican officials with the following:

"That they have subsidized preachers and professors to attack the President of the United States; that they have financed hack writers to attack the President; that they have underwritten radical, religious and uplift organizations of all varieties to caricature the country in defamatory manner; that they have made a filthy alliance with the Ku Klux Klan to inject religious bigotry into the controversy between this country and Mexico, and that in general they have done anything that

the corrupt use of money would assist them in doing to spread the Senate Foreign Relations Committee, added a new note to the American-Mexican controversy by serving notice that "no amount of criticism" would swerve him from the course he has pursued in connection with it.

The Idaho Senator, replying to a letter from Guy Stevens, director of the Association of Producers of Petroleum in Mexico, who had questioned his course in seeking information direct from President Calles, characterized such criticisms as "an expression of that agony which comes from a fear of the facts."

He said there were powerful interests which would like to see "nothing more than to secure

of the statement, chairman Borah of the Senate Foreign Relations Committee, added a new note to the American-Mexican controversy by serving notice that "no amount of criticism" would swerve him from the course he has pursued in connection with it.

He said there were powerful interests which would like to see "nothing more than to secure

of the statement, chairman Borah of the Senate Foreign Relations Committee, added a new note to the American-Mexican controversy by serving notice that "no amount of criticism" would swerve him from the course he has pursued in connection with it.

He said there were powerful interests which would like to see "nothing more than to secure

facts from all proper sources, and I have not intended to unjustly reflect upon any one, whether they were oil interests or other interests."

In communicating with Calles, Senator Borah said he had in mind "nothing more than to secure

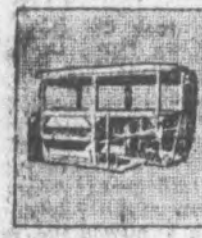

Chromium Plating

The nickel on such parts as radiator shells and bumpers, after application over the usual copper base, is protected and improved in appearance by a final coating of the element chromium, through a carefully developed electro-plating process. This finish is glass hard, rust proof and is brighter and whiter and retains its luster longer than nickel. Its resistance to corrosion from salt spray is, for instance, more than five times greater than that of the finest nickel. Chromium plating was perfected and introduced by Oldsmobile, in coordination with General Motors Research Laboratories.

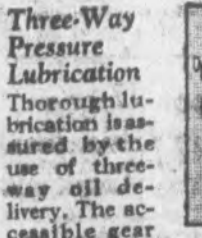

Dual Air Cleaning, Oil Filter

Dust and dirt from the road form abrasive particles which wear upon the working parts of an engine. Oldsmobile guards against such wear in a two-fold manner—dual air cleaning and oil filtration. A primary air cleaner eliminates, by centrifugal force, the injurious particles from the air that enters the carburetor direct, and a second cleaner, in connection with the system of crankcase ventilation, cleans the balance of the air. An oil filter excludes sediment and destructive foreign substances from the oil as it passes through the filter bag, increasing the useful life of the oil. Crankcase ventilation, with dual air cleaners and oil filter introduced, in addition to economy through long life, another factor of thrift and an added source of confidence by reducing the necessity for oil changes to but 3 to 4 times in the average driving year. If the filter bag clogs, lubrication still proceeds, but in the ordinary manner.

Fisher Bodies

The Oldsmobile bodies are Fisher designed and built of the reliable composite construction of steel sheathing on a strong hardwood frame with joints that are mortise-welded, glued, screwed, bolted and given additional strength at the points of greatest stress by steel braces. Slat construction is used in the top, with seven lateral cross members and thirteen longitudinal members. The quality, strength and freedom from noise of this construction are the accepted standard of fine cars. The contour of the Fisher bodies is graceful, the appointments complete, the Duco finish lustrous and permanent, and the provisions for comfort pleasing. Excellent mounting for the Fisher bodies is provided by the double-offset, low-gravity frame, which is wide at the rear, for ample support and best roadability. The frame is "kicked-up" over the rear axle to permit a low center of gravity which results in greater safety, and smarter appearance.

Three-Way Pressure Lubrication

Thorough lubrication is assured by the use of three-way oil delivery. The accessible gear pump, operated by the forward end of the camshaft, delivers oil at equal pressure through oil tubes to the main bearings as well as through the full length of the crankshaft, which also acts as a drilled oil passage. Connecting rods are lubricated from the drilled crankshaft. Passages from the crankshaft bearings deliver oil to the camshaft bearings. An oil stream is directed upon the timing chain. Other parts of the engine are bathed in an oil spray. An oil filter eliminates all injurious abrasive matter.

Thermostatic Charging Control

The Oldsmobile generator is driven by the silent timing chain. Oldsmobile has thermostatic control on the generator that automatically increases the charging rate when the engine is cold and demands on the generator are greatest. The thermostatic control also automatically reduces the charging rate of the generator when the engine is operating at high temperatures, a frequent occurrence during warm weather, thereby protecting both the generator and the storage battery against possibility of overcharging. The spark timing control is full automatic and dependably accurate at all speeds.

TO EVERYONE WHO EXPECTS TO BUY A CAR THIS SPRING:

CONSIDER OLDSMOBILE

STANDARD COACH \$950 F.O.B. LANSING

Talking over this matter of buying a car, one suggestion is obviously sound: When you buy your car this spring... select. Select in the fullest literal meaning of the word, which is "to choose by comparison"... just as you do with other things you buy. Single out the cars that suit your tastes and meet your needs... compare their prices... then make selection on the basis of relative values. And it is no longer a difficult decision, for today known factors measure the merit of an automobile. For example, everyone wants four-wheel brakes, everyone wants an oil filter, an air cleaner, crankcase ventilation and so on through the list of features known to contribute to performance, attractiveness, thrifty operation and long life. By all the standards of modern

price. Check these known factors of motor car merit in Oldsmobile and you will immediately be impressed with how emphatically it is qualified to gratify your finer tastes as well as satisfy your every need. Compare the features of consequence offered by cars of even far greater price. Judge whether you can be fair to either your desires or your sense of sound investment, if you content yourself with less than what Oldsmobile assures you... especially when it is so fair to your purse. Go over Oldsmobile features one by one. Come to your Oldsmobile showroom and see this car. Drive it... and thrill to its brilliant performance. Know this car for what it is... what it does... and how it does it. Then, and only then, can you select with justice to yourself, your purse and your sense of satisfaction.

Check The Known Factors of Motor Car Merit In Oldsmobile

L-head six-cylinder engine... crankcase ventilation with dual air cleaning and oil filter introducing only 3 to 4 oil changes a year... four-wheel brakes... harmonic balancer... two-way cooling... three-way pressure lubrication... honed cylinders... high-velocity, hot-section manifold... double-valve springs... silent timing chain... full automatic spark... thermostatic charging control... 30 x 5.25 balloon-tires... balloon-gear steering... double-offset, low-gravity frame... easy-shift transmission... twin-beam headlights controlled from steering wheel... chromium, permanent-lustre plating... Duco finish... beauty of line and complete appointments in Fisher bodies and many other features of known worth.

SUGG MOTOR CO.

Distributors Greenville, N. C.

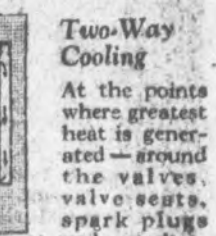

Harmonic Balancer

The harmonic balancer counteracts torsional vibration. It is a development of the engineers of General Motors Corporation. The harmonic balancer is unusual because of its extreme simplicity. It has no moving parts and sets up a counteracting or opposing force that neutralizes crankshaft vibration. The large drop-forged crankshaft is dynamic and static balanced. The grain flow of the metal in the forging is held at right angles to the lines of greatest stress to give additional rigidity and strength. The crankshaft is mounted on rigid web supports cast integral with the crankcase.

Two-Way Cooling

At the points where greatest heat is generated—around the valves, valve seats, spark plugs and combustion chambers—circulated water is driven through a passage with special design ports. Cylinder walls do not heat so rapidly as do these other parts and a full flow of cooling water would cool them too much. Therefore, the circulation of cooling water around the cylinder barrels is controlled. In other words, parts at the points of greatest heat are cooled by the pressure method or circulation while the movement of water about the cylinders is governed by convection in which the rate of circulation is controlled by the reaction of the heat upon the water. This dual control of water circulation maintains sufficient even temperature about the cylinders for efficient operation and performance. This control also aids materially in eliminating crankcase dilution.

Crankcase Ventilation

In all internal combustion engines wear is caused by condensation. Cold engines do not burn all of the fuel on starting. This water and unburned liquid fuel pass into the crankcase and form dilution. This dilution destroys the lubricating qualities of the oil. Oldsmobile eliminates excessive dilution by crankcase ventilation. One-third of the air that passes through the carburetor is drawn through a breather port in the left side of the engine. This air, cleaned of dust and injurious material by an air cleaner on the breather port, sweeps through the crankcase before entering the carburetor. It draws off with it water vapor and unburned fuel that may have passed into the crankcase. This system is simple and has no moving parts. Crankcase ventilation improves performance, gives longer useful life to the oil and also by assuring more efficient lubrication, slows deterioration, prolonging the life of the car.

Four-Wheel Brakes

"I have driven, probably, all different types of four-wheel brakes and I can say with emphasis that the four-wheel brakes on Oldsmobile surpass any I have ever touched for ease of operation and positiveness of action," is the manner in which an experienced driver, formerly engaged in the automotive industry, expresses himself regarding Oldsmobile's four-wheel brakes. The front brakes are self-energizing, internal, three-shoe, expanding type. They are entirely enclosed as protection against dirt and oil. When turning the "outside" wheel brake pressure is less than the pressure on the "inside" wheel, allowing the outside wheel to rotate more freely to afford safe control. The rear wheel brakes are efficient split-band, two-piece type in which the action is mechanical and the bands clamp the drums like jaws, assuring maximum contact. The parking brakes are operated by a convenient hand lever.

Twin-Beam Headlights

Oldsmobile headlights have double filament bulbs, one filament in place of the conventional "bright" and the other in place of the conventional "dim." On "dim action" an intense light is projected at a downward angle and gives ample vision to the Oldsmobile driver without blinding approaching drivers. On "bright action" the beam is tilted to a higher angle and throws the light farther in advance of the car. These headlights are operated by a neat lever centered on the steering wheel that may be operated without removing the hands from the wheel or taking the eyes from the road.

NOTICE OF SUMMONS

North Carolina—Pitt County. Greenville Township. E. H. Rowlett, Justice of the Peace.

W. T. Brown and Mary B. Webb vs. E. H. Rowlett. The defendants above named will appear in court on the 15th day of March, 1927, at 10 o'clock a. m. in the Court of Pitt County, North Carolina, for the purpose of answering the complaint of the plaintiff, which is returnable before said Justice, at his office, at Greenville, in said county, and in Greenville Township on the 6th day of April, 1927, at 11 o'clock a. m. The defendants will also take notice that a claim of mechanics and material furnished has been filed with the Clerk of the Superior Court of Pitt County against the property of the said defendants. On the date, at the place and time the said summons is returnable the defendants are required to appear and answer or demur to the complaint, or the relief demanded will be granted. This the 9th day of March, 1927. G. E. Rowlett, Justice of the Peace.

NOTICE OF SALE

North Carolina—Pitt County. In the Superior Court. Kelly Spel Field Tire Co. vs. Brunson Accessory Co.

Under and by virtue of the authority conferred upon the undersigned, by an order made by the honor E. H. Cranmer, Judge holding the courts of the 11th Judicial District, the undersigned receiver will offer for sale for cash to the highest bidder at the store building, formerly occupied by Brunson Accessory Company, at Fifth Street, in the town of Greenville, Pitt County, N. C., at 1:30 o'clock, p. m., on Wednesday, March 30th, 1927, the following described property: All property of Kelly Brunson Accessory Co., consisting of auto mobile parts, automobile accessories, tires, tubes, gasoline tank, air pump, oil tank and pump, air compressor, office furniture and fixtures, including cabinet, safe, type writer, typewriter, adding machine and bookshelves, in full and proper condition, and all other property of said company.

NOTICE OF ADMINISTRATION

Having the day named in said will, the undersigned, as Administrator of the estate of J. C. Deane, deceased, do hereby give notice to all persons having claims against the estate of said deceased, to present the same to the undersigned, at his office, in the town of Greenville, in said county, on or before the 15th day of April, 1927. This the 23rd day of March, 1927. J. C. Deane, Administrator of the Estate of J. C. Deane, deceased. Stokes, N. C.

LOCALS

J. B. Baker, of Grimesland, was here today.
 Captain and Mrs. David Williams, of Oenoke, are visiting their daughter Mrs. William Warren on Dickinson Avenue.
 Miss Helena Higgs has returned home after visiting in Wilson and Rocky Mount.

MR. RENFREW ILL
 W. H. Renfrew is quite ill at the home of his son, W. H. Renfrew. His many friends wish for him an early recovery.

SENATOR BLOUNT RETURNS FROM RALEIGH
 Senator M. K. Blount has returned from Raleigh, where he has been representing Pitt county in the legislature.

MRS. WHITE ENTERTAINS KING'S DAUGHTERS
 The Patient Circle of the King's Daughters held an unusually interesting meeting with Mrs. H. A. White on Tuesday evening.

There were nineteen members present. There were reports from various committees. A number of needy cases helped during the show last week were reported.
 The hostess served sandwiches and hot tea, and a social hour was enjoyed.

MRS. T. E. HOOKER ENTERTAINS WOMAN'S CLUB

The Woman's Club met at the home of Mrs. T. E. Hooker with a goodly number present. The reports were as follows:
 Literary Club was sponsoring the city and rural schools.
 Musical department sponsoring the musical contests in city and rural schools.

Garden Club were furnishing the shrubs and plants to beautify the grounds of the rural schools.
 Finance, Mrs. Key Brown, presented a great surprise to the club how we could use our talent to finance the club through the summer months.

Garden Club was furnishing tried to put on a clinic for under-nourished children, by the help of the health doctor, but can't get it on before the fall.

The club has been asked to assist in putting "King Cotton" back on his throne. Look out for the date on which he will be crowned in Greenville. Business all being over we were then addressed by our honorary member, Mrs. Cotten. Her "Opinion of the Last Legislature" was much enjoyed by all.

The hostess, assisted by Mrs. Bradsher, served delicious tea and waters.

RETURNS FROM HOSPITAL

Mrs. R. V. Fleming wishes to announce that one of the dearest members of her family, her hemstitching machine, has returned from Philadelphia where in the Singer hospital it underwent a serious internal operation. The machine has now fully recuperated and is ready for work.

SALVATION ARMY TO HOLD SERVICES WOODMEN'S HALL

The regular Saturday night Men's Federation prayer meeting, tomorrow night, will be conducted by the local unit of the Salvation Army. The Army choir will conduct the song services while Captain Summers will have charge of the devotional exercises. The public is cordially invited to attend and take part in these services. Services begin at 7:30 p. m.

MRS. EDWARDS ILL

Mrs. Emma Edwards who is visiting her son, Mr. T. T. Cox, on Third street, is quite ill. Her many friends wish for her a speedy recovery.

PATRIOT CHAPTER D. A. R. TO MEET SATURDAY

The Greenville Patriot Chapter of the D. A. R. will meet Saturday afternoon at 3:30 o'clock with Mrs. R. L. Smith, on Evans street.

SAYS RED PEPPER HEAT STOPS PAIN IN FEW MINUTES

Rheumatism, lumbago, neuralgia, backache, stiff neck, sore muscles, cramps, sprains, aching joints. When you are suffering so you can hardly get around, just try Red Pepper Rub. Nothing has such concentrated, penetrating heat as red peppers, and when heat penetrates right down into skin and congestion relief comes at once.

Just as soon as you apply Red Pepper Rub you feel the tingling heat. In three minutes the sore spot is warmed through and through and the torture is gone.

Rowles Red Pepper Rub, made from red peppers, costs little at any drug store. Get a jar at once. Be sure to get the genuine, with the name Rowles on every package.

Ask Investigation of Administration of State Sanitary Law

Raleigh, March 11.—(AP)—C. O. H. Laughinghouse, State Health Officer, and members of the State Board of Health, announced today that they would ask Governor McLean to instruct Attorney General Brummitt to investigate charges of irregularity in the administration of the sanitary privy regulations.

The charges were made by several members of the legislature during recent session of the Assembly. Irregularities in charging fees for building specifications were intimated.

Colds
 The \$1,000,000 way

There's a way to end colds so quick efficient and complete that we paid \$1,000,000 for it. That way is HILL'S. It stops colds in 24 hours, checks fever, opens the bowels, tones the entire system. The millions who know it always rely on it. Go start it now.

HILL'S Cascaro-Bromide-Quinine
 Be sure you get HILL'S, in the red box with portrait. At all druggists—30c.

ADMINISTRATOR'S NOTICE

Having qualified as administrator of the estate of Maggie Hemby, deceased, late of Pitt County North Carolina, this is to notify all persons having claims against the estate of said deceased to exhibit them to the undersigned at Greenville, N. C., on or before the 11th day of March, 1927, or this notice will be pleaded in bar of their recovery. All persons indebted to said estate will please make immediate payment.

This the 11th day of March, 1927.

Earl Hemby, Administrator of Maggie Hemby
 S. T. Carson, Atty.

SALE OF VALUABLE FARM PROPERTY

Under and by virtue of the authority conferred upon us in a deed of trust executed by A. L. Jackson and wife Rosa Lee Jackson, on the 29th day of April, 1925, and recorded in book V-15, page 152, Pitt County we will on Saturday the 11th day of March, 1927, at 12 o'clock noon at the courthouse door in Greenville, N. C., sell at public auction for cash to the highest bidder the following land, to wit:

Adjoining the B. A. Gardner lands and beginning at a point in the public road where the southern boundary line of the tract of land conveyed to Peter T. Chapman by H. M. Stokes, intersects the said public road and runs thence N. 41-3 E. 147.8 feet to a corner, thence S. 81 E. 273.5 feet to a corner, thence S. 7 W. 114.5 feet to the beginning containing 28.29 acres and being the identical tract of land conveyed to Peter T. Chapman by H. M. Stokes as appears of record in the office of the Register of Deeds for Pitt County in Book 80-19, page 572.

This sale is made by reason of the failure of A. L. Jackson and wife Rosa Lee Jackson to pay off and discharge the indebtedness secured by said deed of trust to the North Carolina Joint Stock Land Bank of Durham.

This the 11th day of February, 1927.

 The following women from the Greenville Woman's Club acted as judges: Mrs. W. H. Woolard, Mrs. W. S. Galloway, and Mrs. H. H. Settle.

WALKER JOINS THE ATHLETICS

Philadelphia, March 11.—(AP)—Manager Connie Mack of the

Philadelphia Athletics has added another outfielder to his squad in training at Fort Myers, Fla. He is Jud Walker, a youngster from Decatur Baptist College, Texas. His arrival increased the roster to 36 players.

The Athletics, who are training at Bradenton, meet the Phillies today in the first of a series of games. Yesterday the Phillies were trounced by Washington 6 to 3, after the score was tied in the ninth 3-3. Thompson, at second base, made four of six errors that caused the defeat.

How Doctors Treat Colds and the Flu

To break up a cold overnight or to cut short an attack of grippe, influenza, sore throat or tonsillitis, physicians and druggists are now recommending Calotabs, the purified and refined calomel compound tablet that gives you the effects of calomel and salts combined, without the unpleasant effects of either.

One or two Calotabs at bedtime with a swallow of water—that's all. No salts, no nausea nor the slightest interference with your eating, work or pleasure. Next morning your cold has vanished, your system is thoroughly purified and you are feeling fine with a hearty appetite for breakfast. Eat what you please—no danger.

Get a family package, containing full directions, only 35 cents. At any drug store. (adv)

Pitt's Ton Litters Make Big Showing

(By E. F. Arnold, County Agent)
Pitt County should be real proud of the showing made by Mr. Henry Moore, and Mr. R. E. Corbett at the County Home in the Ton Litter Hog Feeding Contest for North Carolina. The Ton Litter entered by Mr. R. E. Corbett tipped the scales at 2,483 pounds the day they were 180 days old, making an average of 248.3 pounds for the ten pigs. Mr. Moore got 2,109 pounds on the ten pigs he entered, in spite of the fact that one of his pigs had a severe case of cholera.

It cost these farmers around 7c per pound to produce this weight and the market for hogs today is from 13c to 14c per pound, which leaves a net profit of around 6c to 7c per pound, or in Mr. Corbett's case, he got after allowing from 1c to 2c for marketing his pigs, \$125.15 for feeding ten pigs for 180 days, which is almost a dollar a day. It is no trouble to produce a 200 pound pig in 180 days. Three 200 pound pigs are worth more than one bale of middling cotton. How long does it take to produce a bale of cotton? Who would not rather feed three friendly fat pigs for 180 days than plow, chop, and pick a bale of cotton? The profit on the three pigs would be around \$25.00 or \$30.00. How much profit is there in a bale of cotton? Would it not pay a farmer in Pitt County who has a few pigs to get together and start feeding out a car of 60 pigs averaging around 225 pounds in say the next 60 to 90 days. If those who are interested in a project of this kind will get in touch with this office we will be glad to assist in getting up the car and in feeding out the hogs. The county agents agricultural program is submitted to the County Commissioners calls for the loading out of two cars of hogs from Pitt County and all farmers interested are invited to participate.

WHY UNFAIR?

Now comes the cry from some of the University students suspended for gambling, that the methods employed by the student council in obtaining the evidence was unfair and unethical. As we see it, this plea is just another case of the "bit dog howling." Regardless of how the Student Council obtained its information this does not lessen the guilt of the parties involved. Gambling at colleges must cease if the institutions are to accomplish their purpose of properly training young men for the future.

As expressed by former college men, gambling in college does not affect only the persons engaging in it, but has a bad effect upon other students as well, as the gatherings always raise such a disturbance that the men who desire to study cannot well do so.

There is no place for gambling in college life and the student council of the University and other colleges are right in insisting that the students give up gambling or get out.

NO PLACE FOR IT

The case against alleged floggers is now in progress in Wake county court and if the parties are found guilty the maximum sentence should be meted out to them.

North Carolina laws are for the protection of its citizens and there is no provision whereby a citizen or group of citizens are permitted to take the law into their own hands. There is no place in the makeup of our state for mob violence and the sooner such is broken up the better off the state as a whole will be. A maximum sentence to persons who take the law into their own hands is the best and quickest way to put an end to the mob rule evil.

A WISE CHOICE

The suggestion has come from Raleigh that Representative E. G. Flanagan, of this city, may be a candidate for the next Lieutenant-Governor of North Carolina, and may we ask, "Why not?" In the coming election eastern North Carolina is due some consideration in the way of state offices and the Pitt county candidate has the qualifications.

He is indeed a business man and would be the busi-

Loses Estate

Madame Henri Sudreau has lost her fight to obtain the property in France that belonged to Jacques Lebaudy, "Emperor of the Sahara." New York courts recognized her as his common-law wife after she was acquitted of his murder in Westbury, N. Y., in 1919. But such relations have no standing under the French law, and Paris courts awarded the huge French estates to Countess des Fels, his sister.

NOTICE OF RESALE

Under and by virtue of the authority conferred by an order of resale made by Hon. J. F. Harrington, Clerk Superior Court of Pitt County, on the 10th day of March, 1927, in that special proceeding No. 2748 entitled "Ida L. Knox, William Knox and others Ex Parte," now pending in Pitt Superior Court, said resale having been ordered because of the fact that the Daily Reflector published the notice of the former sale only three weeks instead of four weeks as required by law, and as the former order directed, the undersigned will on Saturday, February 26th, at 12 o'clock noon, in the front of the Bethel Banking & Trust Company building in the town of Bethel, Pitt County, North Carolina, expose to public sale to the highest bidder for one-half cash and the balance in two equal annual payments, said deferred payments to be secured by mortgage on said land lying and being in Bethel Township, Pitt County, North Carolina, described as follows:

Adjoining the lands of Newson Worsley, H. L. Briley, heirs at law of J. R. Bunting and others, containing 20 acres more or less, and being a part of lot No. 1 in the division of the lands of the late Aremia Stokes, deceased, as described in the deed recorded in Book Y-4 at page 154 in the office of the Register of Deeds of Pitt County, and being that portion of said tract of land which lies on the south side of that certain canal running through the above described tract of land, saving and excepting, however, from within the above boundaries one quarter of an acre for a family graveyard where the graveyard is now located.

This March 10th, 1927. James L. Evans, Com. 11-1tw-2wk.

Phillies May Not Be Pennant Winnres But They Will Cause Trouble for Opposing Clubs

(By Brian Bell)

Bradenton, Fla., March 9.—(AP)—The Phillies may not be able to do a great deal on their own account in the National League but the club promises to cause some trouble for the other clubs. McInnis' men are frankly not going anywhere so far as the pennant race is concerned but they are likely to stir up some dust along the road.

Stuffy McInnis, the new manager, brings to the club experiences gained in 18 years of major league baseball, including five world series with three clubs. He has not demanded the impossible of his players and they are under no managerial command to go out and win a championship.

The threat of the club lies in a great pitcher brought over from last year, the addition of a sensational young infielder, several pitchers who should be better than they have shown and two recruits who are back from the minors after previous big league successes on occasions.

Lafayette Fresco Thompson, youngster and with something to learn, will nevertheless add strength to the infield. He will play second base from the umu. Coming to the Phillies from Buffalo via the New York Giants, Thompson has shown manager McInnis so much that he has dubbed him "a second kid Eberfeld." Heine Sand will again play short and Barney Friberg will take care of third.

Manager McInnis, at the moment, expects Wrightstone to play first base, assuming that he will show immediate improvement in his defensive work. There is no question about his hitting. Baldwin a third baseman from Seattle, will probably be kept and Attreau, a first baseman with Norfolk, Va., last year, has a chance to stick. McInnis will play in emergencies and pinch hit.

The outfield is carried over from the previous campaign.

Fred Leach, although getting a late start on account of sickness will play one position with the other two to be divided between Al Nixon, Cy Williams and John Mokon. Dennis Sotheron from Cumberland and Dick Spaulding, a Philadelphia semi-pro, are fighting it out for fifth place.

The Phillies say they have nothing to be ashamed of in their catching staff. Jimmy Wilson has shown no loss of power in the spring training grind and Clarence Johnson has worked harder than usual. The trio is completed by Henry O'Donnell, a Philadelphia semi-pro.

Three new pitchers certain to be retained are Herb Pruett, John Scott and Alex Ferguson. Pruett was brought back to the majors from Oakland and Ferguson was with Buffalo last year. Scott, who has not yet reported, was taken from the Giants and will find a place waiting for him when he comes. Pruett, with apparently more science than he displayed when he was with the Browns, won a place on the staff in the game as did Ferguson, who is working with the handicap of a broken thumb.

Carlson, the star of last year's

staff, has four of his co-workers with him, Ulrich, Willoughby, Dean and Mitchell. Decatur, a former Philly, has also been brought back from Newark. The staff will be completed by a choice from Baecht, with the club for a time last year, O'Neill, from Springfield, and Taber, a semi-pro.

SENATORS MAKING GOOD SHOWING IN EXHIBITION GAMES

Washington, March 11.—(AP)—Having won two out of their first three exhibition games, splitting even with the Boston Braves and winning from the Phillies yesterday at Bradenton, Fla., 6 to 3, the Washington Senators went to Sarasota, Fla., today to launch a series with the New York Giants. The first games will be played today and tomorrow.

LATZO DEFEATED BY JOE SIMONICH

Chicago, March 11.—(AP)—Pete Lazio's welterweight crown has another dent today, put there by Joe Simonich of Montana, who won the unanimous verdict of the judges and referee in last night's 10 round match.

Only the precaution of forcing Simonich to come in over the welterweight limit of 147 pounds saved Lazio's title from the Illinois jinx.

Seeks Death

Love of Boy, 15, for Woman, 27, Tested by Old Professor Time

Mrs. Thelma Tibbitts, who, at twenty-seven, wants to be the wife of a fifteen-year-old boy, is shown in all her comeliness.

With the little town of Janesville, Me., as a laboratory, a strange love is being tested in the quiet of life.

The love is the love of a fifteen-year-old boy and a twenty-seven-year-old woman. The test is a year-long test of durability.

The boy is William Buzzell Thelma Tibbitts, a not unattractive divorcee, came to the farmhouse of Mr. and Mrs. Leslie Buzzell, the boy's parents, a few months ago to do housework. With her she brought her five-year-old son.

Buzzell, despite his age, is strong and manly. Wrestling a living from the bleak Maine lands makes men of boys. And boy-man and the woman fell in love.

William's parents were approached. They consented to the match. The couple sought a license. Mrs. Leslie Foster, town clerk, was against when they gave their ages. She refused a license. The Board of Selectmen agreed that she was right.

"We will wait a year. We will wait until William is sixteen," the couple said. The boy will reach his sixteenth birthday on March 11, 1928. A year is a long time.

"We love each other. It is not merely puppy love," Buzzell says. "We love each other enough to wait a year—longer if necessary."

Life moves, even in this little hamlet. Girls his own age will smile on William. Other men may find Mrs. Tibbitts attractive and attracting.

The reagents of life and living will be at work. Great loves have been dissembled in hours.

"But ours is not puppy love," the couple say. "It will last a long time."

Market Report

TODAY'S OPENING STOCK OPENING
 New York, March 11.—(AP)—Stock prices displayed a firm tone at the opening of today's market as pools resumed operations in a number of specialties. New renk prices since 1925 or longer, were recorded in the first few minutes by National Biscuit, Owens Bottle, Kelly Springfield and International Telephone each showed initial gains of a point or so.

An overnight point jump in Norwegian krone to 26.15 cents featured the firm foreign exchange market. Demand sterling fell around \$4.84 3/4 and French francs just above 3.90 cents.

COTTON OPENING
 New York, March 11.—(AP)—Cotton futures steady. March 13.35; May 14.08; July 14.26; October 14.41; December 14.57.

The cotton market opened steady today at an advance of 2 to 6 points, active months showing net gains of 5 to 10 points on covering by recent sellers and trade buying.

There seemed to be local buying on belief that recent limitation had improved the market's technical position but demand was supplied by further realizing of southern selling and prices eased off before the end of the first hour. May sold up to 14.14 and reacted to 14.09 or within four points of yesterday's closing quotation.

Private cables reported hedge selling in Liverpool, but good buying of cotton clothe for home use. Some of the early buying here was probably promoted by bullish figures on cotton goods business for February.

The foreign market was under considerable pressure, continued liquidation and some south-west selling easing prices off to 14.05 for May and 14.36 for October. Trading tapered off later and the market at midday was quiet, within 2 or 3 points of the lowest, or about unchanged to two points higher, compared with yesterday's closing quotations.

LIVERPOOL COTTON
 Liverpool, March 11.—(AP)—Cotton spot good demand; prices

casier. American strict good middling 8.65; good middling 8.50; strict middling 7.95; low middling 6.70; strict good ordinary 6.40; good ordinary 5.95; Sales 10,000 bales, including 7,600 American. Receipts 25,000 bales; American 13,000; futures closed quiet; March 7.35; May 7.52; July 7.64; October 7.70; December 7.74; January 7.76.

LIVERPOOL WEEKLY
 Liverpool, March 11.—(AP)—Weekly cotton statistics: Total forwarded to mills, 78,000, of which American 59,000. Stock 1,306,000 of which American 982,000 bales; imports 79,000, American 49,000 bales. Exports 3,000, American 2,000.

COTTON
 New York, March 11.—(AP)—The cotton market was quiet again today and prices fluctuated within a range of 10 to 15 points. Trading was attributed largely to further evening up of accounts pending developments in the spot market or new crop prospects but there was trade buying on the dips and after selling off to 14.05 May rallied to 14.15 on covering that delivery was ruling around 14.10 in the mid-afternoon market with active months net unchanged to 5 points higher. Spot quiet; middling 14.20.

STOCK MARKET
 New York, March 11.—(AP)—Speculators for the advance continued in control of the price movement in today's market, but they were forced to contend with occasional waves of profit taking and sporadic bear selling. Rails were gain the leader although new favorites were brought forward in the rubber, amusement and non-ferrous metal groups. The closing was steady. Total sales approximated 2,000,000 shares.

Dies After Four and Half Days of Artificial Life
 Chicago March 11.—(AP)—Game to the last flutter of a stalwart heart, Albert Frick yielded to death last night, four and a half days to the hour after the 22-year-old boy began a grim battle with the mystery that numbed his lungs and placed his life in the hands of three score valiant friends.

He died as two of them ceased the steady compressing and relaxing, pressing and releasing that for 108 hours and 12 minutes had pumped the breath of life in and out of the body chilled into helplessness by creeping paralysis.

Attending doctors, amazed with their profession at this ability to live more than half a week although powerless to breathe, knew the end was coming, but the last phrase through Frick's parched lips was a halting assurance that "I'm all right."

Two hours later, the two men forcing the paralyzed diaphragm

into action stepped back from the bed to permit a doctor to read from his stethoscope tubes "It's all over" and with streaming faces slipped from the room to tell the fifty-four comrades waiting for their turn to continue the fight.

One of the men who lifted his tired hands with the physician's announcement, Harry Reynolds, was a member of the first pair of volunteers who began artificial respiration last Sunday, when the advance of Laury's paralysis halted the life-sustaining action of the youth's diaphragm.

Suspended Students to Get New Chance to Clear Themselves
 Chapel Hill, March 11.—(AP)—Twelve of the 13 students of the University of North Carolina suspended by the student council several days ago, for gambling will be given a new chance to clear themselves.

This time a committee of six students, three from the graduate school and three from the undergraduate school, will hear evidence in the case and make a report to the entire student body. The final decision will rest with the student body.

This action was decided upon today at Chapel Hill when ten of the 13 presenting a petition asking for reconsideration. One man already has his case reconsidered by the council.

Through the medium of the petition the names of ten of the suspended students became public, the council originally having refused to give out their names. They are B. W. Booker, J. L. Perkins, E. V. Parker, I. C. Ainsley, F. P. Eller, John H. Parker, J. E.

Said, F. C. Dial, B. R. Peel and P. R. Fleming. Other than this nothing was available.

Memorial hall was filled to capacity when chapel hour was called today and the hour was extended 30 minutes to permit arguments. C. A. Jonas of Lincoln, made the motion that a committee be named to conduct a thorough investigation and it passed by a two to one vote.

Mickey Block of Greensboro, then proposed that a new constitutional convention be called during the spring to consider advisability of revising the code of student government. This was also adopted.

TODAY
 (Continued from Page one)

troops in the rich coffee district by hundreds of thousands of dollars. The earthquake loosened millions of pounds of earth, filling the opening in the volcano, shutting off gas fumes that killed all vegetation for miles.

German engineers had arranged to cap the volcano's crater, extracting sulphur from the fumes. That plan is off.

The Reverend Father Bernard Warner, Dominican missionary in China tells of coolie mobs arising here and there against the Christians by displaying bodies of dead babies, falsely alleged to have been killed as part of a religious ceremony.

That is exactly what Christian mobs have done in Europe to incite massacres of Jews, pretending that Christian children had been killed by Jews in ritualistic ceremonies.

Religious fanaticism is much the same everywhere.

Your Modern Kitchen Should have a Modern Refrigerator

It's time to say goodbye to that old worn-out refrigerator. It's a costly liability—wasteful of ice, hard to keep clean. Replace it with a new Leonard Cleanable. The Leonard pays for itself in the food it saves.

Come in and learn about the new Leonard features. Better food protection, greater ice economy, less work for women. See the porcelain food chamber, snowy-white, marble-smooth.

Super-insulation is one reason for the Leonard's superiority. Two-inch compressed cork board and other guarding walls hold the cold in, keep the heat out.

This is the refrigerator for your home. Come in and see it today.

 "The Right Price Furniture Store"

Are you getting those extra bales that mean big-money cotton?

THERE'S many an extra bale of cotton hidden away in your fields. But it takes the right fertilizer to bring it out of the ground.

Experts in cotton culture have determined the exact plant food elements of "AA Quality" Fertilizers for Cotton. Their plant food elements are available in successive rations and during every stage of the development of growing cotton plants. As a result, they aid every acre to produce its maximum yield.

Sixty years of fertilizer experience are back of "AA Quality" Fertilizers. Materials are scientifically prepared, thoroughly mixed, cured and re-milled to insure their perfect mechanical condition.

The largest fertilizer company in the world guarantees that these fertilizers are dependable. Three generations of successful cotton growers have used them with outstanding results. You can rely on them to give you many an extra bale from your cotton fields.
