ONE KILLED IN HEAVY STORM IN W. CAROLINA

Thousands of Dollars Damage Also Result From Terrific Rain And Wind Storm.

Charlotte, N. C., July 8.—(AP)—One death is known to have been caused and property damage running well into the thousands of dollars done by a wind, rain and electrical storm that late yesterday and last night swept North Carolina virtually from end to end.

Lightning killed Ed Lavender, a farmer, near Rutherfordton, while he was working in the field. A mule also was killed.

Telegraph, telephone and power communications were virtually paralyzed for several hours last night with Winston-Salem suffering the most. The Twin City was cut off from outside communication for three or four hours.

The total damage at Winston-Salem is fixed at around \$25,000.

The Western Union and Postal Telegraph companies and the Southern Bell and American Telephone and Telegraph companies reported many poles down in various places and complete severance of connections with a number of cities.

In Wake County several barns were blown down, trees tossed against houses and Raleigh was virtually isolated for a short time late yesterday.

Greensboro suffered heavy rains when 2.28 inches fell, accompanied by a 60-mile wind, trees were blown down, plateglass windows smashed.

Winston-Salem, July 8.—(AP)—Southern Public Utilities Company perhaps suffered the greatest loss resultant of the severe wind and rain storm that passed over this section Thursday afternoon.

After the storm broke the main power line over Salem Creek, carrying 11,000 volts was snapped by flying limbs from trees and shortly afterwards the emergency line suffered the same mishap.

Western Union Telegraph and the Postal reported almost total loss of connection with the outside world.

At that hour connections had been established over another wire. Postal Telegraph lost several hours of service with wires broken and tangled but had re-established connections over some circuits at an early hour last night.

Both Mr. and Mrs. Etheridge sustained cuts on the arms and bodies and were badly bruised.

Mr. Etheridge is reported to have been thrown from the rear seat through the windshield to the ground several feet away.

The cause of the wreck had not been determined today.

Five persons were injured, one fatally, in an automobile collision on the Mount Olive road, near here last night.

Peter Rooney, youth of Springfield, Mass., died in a local hospital early today as result of injuries received in the smash-up.

The injured: Aldore Gagnon, Springfield, head gash and body cuts.

William Quinn, Springfield, minor bruises.

J. L. Hatchery, Mt. Olive, serious injuries, expected to recover.

Mrs. J. L. Hatchery, painfully bruised.

The Springfield youths told officers they were picking rides from Marion, S. C., to their homes and were riding with a man in a large sedan when it skidded, crashing into a lighter car carrying the Hatcherys.

Officers said they found the larger car, minus its license plates and bloody finger prints on the plate holder, surmising that one of the injured had removed it.

WINS TWO CAPTAINCIES Minneapolis.—(AP)—Two captains in major sports have been voted to Mally Nydahl, University of Minnesota athlete, in a single year.

As a senior Nydahl will head the basketball and football teams of the Copher school next year.

He is counted upon also as mainstay in the backfield of the football team Nydahl went in as a substitute halfback in the Minnesota-Wisconsin football game last autumn and ran back a punt 75 yards to give his team a last minute victory.

He matched the feat in the baseball season by delivering a home run with the bases full.

TODAY

If I Had Some Mush Two Fine Flights Again, Transmutation Mr. Curtis's Stock (By Arthur Brisbane) Copyright 1927, by Star Co.)

"Stocks rise sharply, call loans back at 4 per cent." The poor bears read that in their late editions yesterday. "Leaves have their time to fall, and stars to wane," but that big "drop in the stock market" seems to postpone itself indefinitely.

A man said, "If I had some milk I would have some mush and milk." If you had the money to buy bank stocks, and knew which ones to buy you might become rich.

New York's Chase National Bank enters the billion-dollar class in honor of its fiftieth birthday, with forty-two million dollars of small change to spare.

The 115-year-old National City Bank is the other billion-dollar banking concern. The Chase National has taken \$175,000,000 in deposits since March. Evidently somebody has some money.

Lloyd W. Bertaud, American air mail pilot, will fly from New York to Rome, a magnificent flight across the ocean by the southern route, away from fogs, above the "Gates of Hercules" that we call the straits of Gibraltar, high over the great rock that gave Britain control of the Mediterranean before flying machines and submarines came in.

It will be a glorious flight. Above the great inland sea, passing Corsica, where Napoleon was born, over Florence, that gave Dante to the world, or over Naples and mighty Vesuvius, on to eternal Rome.

Caesar, Alexander and Napoleon looking down from heaven on that plane from America, will be forced to admit, "we were only barbarians beginners. Now real conquest starts."

And here is another interesting (Continued on page six)

LOCAL PEOPLE HURT IN WRECK

Mr. and Mrs. T. A. Etheridge Painfully Hurt When Automobile Turns Over.

Mr. and Mrs. T. A. Etheridge are in a local hospital suffering from injuries sustained when their car left the road and turned over on the Greenville-Bethel Highway a few miles from this city, late yesterday afternoon.

Both Mr. and Mrs. Etheridge sustained cuts on the arms and bodies and were badly bruised.

Mr. Etheridge is reported to have been thrown from the rear seat through the windshield to the ground several feet away.

The cause of the wreck had not been determined today.

Five Injured In Automobile Wreck

Goldboro, N. C., July 8.—(AP)—Five persons were injured, one fatally, in an automobile collision on the Mount Olive road, near here last night.

Peter Rooney, youth of Springfield, Mass., died in a local hospital early today as result of injuries received in the smash-up.

The injured: Aldore Gagnon, Springfield, head gash and body cuts.

William Quinn, Springfield, minor bruises.

J. L. Hatchery, Mt. Olive, serious injuries, expected to recover.

Mrs. J. L. Hatchery, painfully bruised.

The Springfield youths told officers they were picking rides from Marion, S. C., to their homes and were riding with a man in a large sedan when it skidded, crashing into a lighter car carrying the Hatcherys.

Officers said they found the larger car, minus its license plates and bloody finger prints on the plate holder, surmising that one of the injured had removed it.

BEGIN IRONING OUT FLAWS AT GENEVA TODAY

While Position of Naval Conference is Critical, Settlement is Anticipated.

LEAD—Begin Ironing Out Flaws at Geneva Today.—(AP)—That the crisis in the tripartite naval conference is far from healed and not only continued but has become more acute, was indicated by a statement issued to the press this afternoon by W. C. Bridgeman, First Lord of the British Admiralty.

Without naming the U. S., Mr. Bridgeman hinted broadly that the maintenance of large sized warships might be construed as aggressive rather than defensive.

Geneva, July 8.—(AP)—All the delegates wore smiles as they emerged from the private session of the executive committee of the naval conference today, and later there were expressions by both participants and observers that things were going very much better.

The tension of the past two days had lessened generally and that the plenipotentiaries were attacking the problems with a genuine determination to reach an agreement.

The cruiser problem, which is the danger point of the conference was discussed in general terms. It is understood that no advance was made in solving the difficulty which has arisen from the divergent figures presented by Great Britain on the one hand, and the U. S. and Japan on the other.

Admiral Sato, head of the Japanese delegation, explained the new Japanese proposal, which follows the line of the American minimum proposals for cruisers and destroyers, but requests a higher proportion of submarines.

The first lord declared it was impossible to arrive at a new total tonnage if the maximum tonnage in each type of warship was to be pushed up into types that became aggressive weapons.

Arguing that the British proposals were based entirely on a desire to give Great Britain property security and defense, he said: "The more that is understood, the more will be hope of getting an agreement."

Mr. Bridgeman declared that Great Britain had not favored the 10,000 ton "offensive" cruisers which were authorized at the Washington conference of 1922, and that she only has them now because she was obliged to build some in self protection.

Hence it was not Great Britain's fault if her total tonnage was high he said, as "it has been forced upon us."

Geneva, Switzerland, July 8.—(AP)—While the position of the tripartite naval conference continues critical as regards the cruiser question, the executive committee was called in session to iron out some of the secondary questions and possibly get along with discussion of a tentative date for a plenary session.

Hugh S. Gibson who heads the American delegation, and W. C. Bridgeman, First Lord of the British Admiralty, continued private talks with a view to reaching a compromise.

Mr. Gibson was still optimistic today that the cruiser question would be solved. He said: "We are both making every honest effort to see each other's viewpoint."

There are indications that the Japanese delegation will not give up its submarine claims, if they relinquished at all, without an intensive struggle.

Japan's proposal for fixing the global tonnage of cruisers and destroyers suggested 450,000 tons as a limit for the U. S. and Great Britain, and 300,000 for Japan at 150,000 tons, and the destroyer tonnage at 120,000.

Countess Reported As Critically Ill

Dublin, July 8.—(AP)—The serious condition of the Countess of Marievicz following two operations for appendicitis, gave rise to reports this afternoon that she had died. At 1:30 this afternoon, however, it was stated at Sir Patrick Dunn's hospital, Dublin, that while she was still in a serious state she was doing as well as could be expected.

Funeral Service Held For Drowned Boy Today

Marion, N. C., July 8.—(AP)—Funeral services for William Troy Gregory, 12-year-old son of Mr. and Mrs. W. G. Gregory, who was drowned yesterday in Lake James will be held this afternoon at Comely Chapel, in Nebo and burial will be made there.

The youth was picking blackberries and wading around in the edge of the lake with five boy friends when he suddenly slipped into deep water. His young friends could not reach him and when the body was recovered by John Pressley, life was extinct.

MOUNTAINEER'S SHOT ENDS MAN HUNT

Peace reigns again today in Morganton, N. C., after two weeks of turmoil. Thousands of armed men milled through the district, hunting Broadus Miller, Negro, accused of killing a white girl. Miller was cornered by Commodore Burleson, a mountaineer, and slain in an exchange of shots. Picture shows Burleson and part of the mob that searched for Miller.

TWO ARRESTED IN CONNECTION WITH ROBBERY

Negro Man and Woman Held on Suspicion in Robbery of Greenville Ice Co.

Kid Brown and Mary Thompson, negroes, are being held by city authorities in connection with the recent \$1,000 robbery of the Greenville Ice and Coal Company. Brown was apprehended in Raleigh, and returned to Greenville last night in the custody of a local police officer.

The arrest of the couple resulted from information furnished members of the Raleigh police department by a transfer driver of that city. The driver is alleged to have told of driving Brown to Greenville and of seeing the sum of \$200, passed between him and the Thompson woman.

This is said to have occurred shortly after the robbery of the office of the Ice Company.

The woman maintains that the money in her possession was some that had been stolen from her, and that it had just been recovered.

Hendersonville Hotel Damaged By Fire

Hendersonville, July 8.—(AP)—About 100 guests of the Terrace Hotel, one of the largest hostleries in this section were routed from sleep this morning at 3 o'clock when the Terrace dance pavilion, \$45,000 frame structure adjoining the hotel on Main street here, was destroyed by fire.

Only heroic work of the firemen who more than once put out flames breaking out on the side of the hotel adjoining the pavilion, saved the hotel, also of wood construction. Several windows in the hotel were broken by the heat and the side of the building was scorched.

Hundreds of persons gathered to watch the progress of the flames.

Included in the loss was approximately \$3,800 worth of musical instruments belonging to Hal Kemp's orchestra, among them three pianos. The fire is thought to have started from a lighted cigarette thrown carelessly to one side by a dancer in the evening.

Norfleet Child Is Buried Today

Walter James Norfleet, Jr., two-year-old son of Mrs. Beatrice Gurganus Norfleet, died of acute colitis yesterday morning at nine o'clock.

Funeral services were conducted this afternoon, burial following in Bath.

Mrs. Norfleet was visiting in this city at the home of her brother Mr. John Gurganus, 639 Evans Street. The child was taken ill Wednesday afternoon, and despite everything that could be done died several hours later.

Action On Swimming Pool Deferred Until Later Date

Members of the Rotary and Kiwanis clubs appeared before the Board of Aldermen in the first regular session of the new fiscal year last night and presented a request, for a municipal swimming pool. The matter was debated from every angle by members of all organizations represented with the result that the aldermen were requested to defer action until a later date.

The municipal finance act would prohibit the building of a swimming pool without putting the issue to a vote to determine public sentiment among the members of the Board and club members. In case such an election was successful a bond issue would be necessary with a subsequent increase of the tax rate.

The Kiwanians and Rotarians then asked that the matter be deferred until they had an opportunity of presenting it to their clubs again, indicating that they might attempt to provide sufficient funds for the proposed pool through public subscription, and then turn it over to the town to operate.

The session of the board last night was probably one of the busiest and longest drawn out in months. Beginning at the usual hour, the aldermen were not able to complete work until twelve o'clock. It being the first regular meeting of the new fiscal year there were numbers of matters awaiting consideration especially of the routine class.

The street paving committee continued discussion of the program now under consideration. It was recommended that certain streets in the city be paved. The finance committee recommended the issuance of \$125,000 in bonds to cover these improvements. This, however, was left open for an adjourned session of the Board July 13, when it will be definitely decided what streets will be paved.

An ordinance was passed authorizing the Water and Light Commission to make all connections to the city sewer system, and that anybody violating this provision would be fined \$25. No person or corporations will be allowed to make tapplings to the sewer lines. The ordinance to become effective immediately.

An ordinance was also passed requiring the gas company to lay mains and make connections on streets proposed to be paved before work actually gets under way. It was also provided that no connections shall be made on any paved streets that will hereafter be paved.

A special franchise was granted to Henry Olive, colored, to operate a pool room. The place will be under strict police supervision.

A resolution was passed fixing the donation for the public library to remain the same as last year. The amount is \$150 per month.

Doctor Admits Complicity In Recent Murder

Franklin, La., July 8.—(AP)—Dr. Thomas E. Dreher, Morgan City physician today confessed to Sheriff Charles Pecot that James J. Leboeuf had been slain at his instigation as Leboeuf rowed on Lake Palourde Friday night.

Dreher, Sheriff Pecot said, joined Mrs. Leboeuf in charging James Beadle, fisherman and trapper, with the actual commission of the crime.

The physician charged Mrs. Leboeuf only with witnessing the murder, Sheriff Pecot said.

Previously Mrs. Leboeuf had told Sheriff Pecot that she witnessed the killing of her husband by Beadle on Lake Palourde, but that after she saw her husband collapse in his skiff, she turned the boat in which she was rowing about and returned home saying nothing of the affair for fear it might be believed that she had participated in the crime.

School Teacher Denies Part In Toccoa Flogging

Toccoa, Ga., July 8.—(AP)—W. G. Acree, principal of the Stephens County High School, took the stand in Superior Court today to deny participation in the flogging of Mrs. Ansley Bowers and her 15-year-old son, Lloyd, Acree, on trial for assault with intent to murder Mrs. Bowers, rested his case after the unsworn statement to the jury.

The school master declared he was at the farm of M. B. Looney doctoring a sick cow at the time the State contends he went with a masked and robed band to the Bowers home and took the mother and son to the country and flogged them.

He elaborated on testimony given yesterday by defense witnesses who said they went for a veterinarian for the cow but unable to locate one, took Acree along instead.

Florida Plans Erection of Radio Station

Raleigh, July 8.—(AP)—Governor McLean said today that he had just received information that the Florida legislature had provided an appropriation of \$100,000 to be spent by Governor Martin of Florida in erecting a radio broadcasting station of the same size and character as that which Governor McLean suggested at the last General Assembly be erected in North Carolina.

The purpose of the station in Florida is to disseminate publicity in regard to the State's activities to the people of Florida and also to advertise the State's resources beyond the borders of Florida.

Several cities in Florida, including Jacksonville, have broadcasting stations of wide radius at the present time, but the new station to be erected to be owned by the State will have much greater power and reach any part of the United States and Central and South American countries.

Two Negroes Held Here in Murder Case

Walter Gooden and George Davis Given Preliminary Hearing Here This Morning.

Walter Gooden and George Davis, colored, who have been held in jail here in connection with the murder of Robert Mayo, colored man who was cut to death last Saturday night in a gambling game in the negro section of this city, were given preliminary hearing this morning before Magistrate C. B. Rowlett and ordered held for the next term of Pitt County criminal court without bond.

Tom Davis brother of George Davis, was ordered held as a material witness under bond of \$1,000.

Mayo was cut to death at the home of George Davis in a free-for-all fight, during a "skin game." Following an investigation Sunday morning by Coroner E. S. Williams, Gooden was ordered held for preliminary hearing without bond.

In the investigation conducted by the coroner it was brought out that only Gooden was involved in the death of Mayo, but subsequent developments revealed the fact that George Davis was also involved.

Witnesses testified this morning that when Mayo was cut Davis made his exit from the house with a long knife. The knife is alleged to have been the property of Tom Davis. From the different features of the evidence Magistrate Rowlett thought it advisable to hold Tom Davis as a material witness for the trial in criminal court.

U. S. AMBASSADOR TO MEXICO RESIGNS

Rapid City, S. D., July 8.—(AP)—James R. Sheffield today gave his resignation as ambassador to Mexico to President Coolidge.

The resignation is to take effect at the will of the President who has not indicated his intentions. Mr. Sheffield, however, have indefinite plans for returning to his post and upon leaving here expects to go to Europe for six weeks.

U. S. AIRMEN PREPARE TO LEAVE PARIS

Byrd and Crew Arrange to Spend Last Full Day of Trip Abroad in Gay City.

Paris, July 8.—(AP)—Commander Byrd and his three companions who ended their trans-Atlantic flight at the French seaside resort of Ver-sur-Mer a week ago, are near the end of their visit to Paris, after having received about every honor that the French Government and people in sincere ungrudging admiration of their heroic exploit could imagine. They arranged to spend their last full day in Paris with "birds of a feather."

Most of the afternoon was pledged for a conference with General Delcambre, head of the French Bureau and French air experts. French writers are to be hosts of the airmen at a dinner tonight.

Before the dinner, the commander is to speak over the radio, thanking the French people for their reception. Tomorrow the four men are to proceed to Calais and Dunkirk where Commander Byrd is to be made an honorary citizen. Afterwards they are to go to Letouquet on a special train of the American Chamber of Commerce tourists.

After resting at Letouquet, they will go to Cherbourg to board the Leviathan for the homeward voyage on Tuesday.

CHAMBERLIN ARRIVES IN LONDON ENG.

Levine Getting Ready For Return Flight to America in Monoplane Columbia.

Paris, July 8.—(AP)—The monoplane Columbia with Maurice Drouhin, the French aviator, as pilot and Charles A. Levine as passenger, returned to Le Bourget from Crocydon, England at 8:05 p. m.

Crocydon, Airfield, London, July 8.—(AP)—The trans-Atlantic monoplane Columbia bearing Clarence Chamberlin, Charles Levine and Maurice Drouhin, arrived here at 3:09 o'clock this afternoon from Paris.

Crocydon Airfield, London, July 8.—(AP)—Charles A. Levine, will be ready to hop from Le Bourget Field Paris, within a fortnight on his second trans-Atlantic flight, with Maurice Drouhin as pilot, he said today upon his arrival in the monoplane Columbia from Paris. He expected that the Columbia would be in perfect mechanical order by that time, he added.

Levine denied that there was a serious dispute between himself and Clarence Chamberlin, his pilot on the New York to Germany flight as reported but admitted that they were practically on a business basis.

Levine is returning to Paris this afternoon in the Columbia and fly back to London with his wife tomorrow.

Le Bourget, France, July 8.—(AP)—Clarence D. Chamberlin, New York to Germany flyer, said goodbye to France today when he piloted the trans-Atlantic Bellanca monoplane Columbia, prepared for the last time, into the air from the Crocydon Flying Field here, headed for London.

Beside him sat Maurice Drouhin, French distance flyer, who if all goes well will fly the Columbia over the Atlantic and back to Roosevelt Field, N. Y., some time in August in the first non-stop westward trans-Atlantic hop.

Charles A. Levine, owner of the plane, who will accompany Drouhin in the attempt, also went along on today's hop. He had found a few inches of space, just enough to let him lie down comfortably on the baseline tank. The start was made at 12:38 p. m.

The Imperial Airway's machine, acted as escorts, the Columbia following them.

There was only a small crowd at the field, for the weather was wet and unpleasant.

Before starting Drouhin told The Associated Press he was most happy at the opportunity to pilot the Columbia on the return trans-Atlantic flight.

"I am delighted," he said. "Of course, I would have preferred to go in my own plane with Le Briz, my own navigator but it would take much longer to get my machine ready than to tune up the Bellanca plane."

He said he would start some time in August, after the arrival of John Carisi, chief mechanic of the company that built the Columbia, who is bringing spare parts.

In saying his farewells in Paris, Chamberlin was reticent and seemed almost downcast that he was about to take his last flight in the plane that had carried him across the ocean to a new world's distance record.

MORGANTON CHIEF MAKES BIG WHISKEY HAUL

Morganton, N. C., July 8.—(AP) Police Chief J. W. Johnson held up an outgoing automobile, near the Silver Creek bridge last night and captured the largest haul of whiskey that has been seen here in a long while. There were 147 half gallon demijohns full of whiskey found in the car. The driver was a stranger here, and said he was just passing through the town.

U. S. AMBASSADOR TO MEXICO RESIGNS

Rapid City, S. D., July 8.—(AP)—James R. Sheffield today gave his resignation as ambassador to Mexico to President Coolidge.

The resignation is to take effect at the will of the President who has not indicated his intentions. Mr. Sheffield, however, have indefinite plans for returning to his post and upon leaving here expects to go to Europe for six weeks.

JOHNSON QUITS AS PRESIDENT OF AM. LEAGUE

New York, July 8.—(AP)—Ban Johnson tendered his resignation as president of the American League today, effective on or before Nov. 1, 1927. It was accepted with regret by the club owners in special session.

The text of Johnson's resignation: "After 34 years as your president I hereby tender my resignation to become effective on or before Nov. 1, 1927; should I so decide, the compensation to end upon my retirement."

New York, July 8.—(AP)—With President Ban Johnson and American league club owners called in special meeting here today the storm signals was flying again at the masthead of the league.

Whether Johnson would be asked to retire or to be allowed to continue in office until expiration of his term in 1935 at \$40,000 a year no one would say. A cloud of secrecy surrounds the affair.

On the way from Chicago the man who dominated the American league throughout its 27 years of life was uncommunicative.

"I will explain everything at the meeting," he said at Cleveland. Will Harridge, his secretary, preceded him to New York. Every club owner left for New York, including Phil Ball of the St. Louis Browns, who is understood to favor Johnson's retention as president.

Colonel Jacob Ruppert of the Yankees, admitted a possibility that the matter of Johnson's continuance in active presidency might come up at the meeting. However he scoffed at the report that Edward Barrow, business manager of the Yankees was being considered as a successor to Johnson, together with E. S. Barnhard, president of the Cleveland Indians.

Johnson's promise to "explain everything" was seen in some quarters as an indication he might yield to the insistent demands of ill health which has caused him to spend five of the last 12 months in hospitals and voluntarily relinquish active duty.

This, the club owners and commissioner Lands said he intended to do last December when he was given a leave of absence. But he returned to his desk at the beginning of the season and continued to perform the duties of the office. Some discontent was caused when he suspended and fined Ty Cobb of the Athletics for a controversy with an umpire.

OUT OF KEELER'S GOLF BAG!

One of Golf's Little Problems

A bit over a year ago I was sitting at a big round table in a lounge room of the golf club of Lytham and St. Anne's where the British open championship was about to begin. At that table something like forty national champions were represented.

There was the famous Triumvirate of British golf—Harry Vardon, J. H. Taylor and James Braid sixteen British open titleholders in a span of twenty years. There was Harold Hilton, many times British amateur champion, and former open champion. There was Edward Ray, who had won both the British and American championships, and Welter Hasran, who had won each of them twice. There was George Duncan, former British open champion, the brilliant D'Arctagnan of golf. There was Bobby Jones, on the eve of his biggest season, when he won both the American and British titles in the same three weeks. And they were talking golf.

Big Ted Ray loves an argument, and George Duncan loves an argument better than Ted does, if possible. Said Ted: "Yesterday I was putting and a strong wind was behind me. As I struck the ball my hat blew off and nearly fell on the ball as it rolled toward the hole. What would have been the penalty had my hat struck the ball?"

George Duncan, instantaneous in his mental as in his physical reaction, spoke up at once: "Why nothing said George. Big Ted snorted.

"In that case," said he "if I saw my put was going far past the hole, why couldn't I throw my hat at the ball and stop it?"

The Black Scots eyes sparkled with the lust of debate. The discussion waxed fast and furious. The rule which applied to the situation—and there must be a rule, because in golf everything is provided for—seemed uncertain on both sides.

Old James Braid, that wonderful dignified character in the realm of sport, sat next to me, saying never a word, his eyes twinkling with a quiet amusement as Big Ted and George went to it. Presently Braid turned to me. "That chap," said the great Scot, indicating the huge English professional, "that chap is as argumentative as a Scotchman!"

And how did the debate come out? I confess I never was settled. Braid's quiet comment acted as oil on the troubled waters. The debaters desisted. And what is the decision? I've been intending to present the question to Innis Brown of "The American Golfer," who is the

most sapient rule-addict in America, so far as I know. But I haven't had the opportunity yet. If you want the answer, then I suggest you communicate with Mr. Brown. If anybody knows he does. My guess is that the same penalty is incurred as if the ball struck the player's leg or his caddy, or his club, or anything else that is the player's.

PLAY A GOLF MARATHON

Atchison, Kan.—(AP)—Two Atchison golfers lay claim to the marathon golf record of the central states by virtue of 130 holes played consecutively in one day recently over

the Bellevue Country Club course here. They did it in 13 hours and 55 minutes. "Bud" Armstrong 23, and Peter Pedroja, 45, were the players. Rex Thorning, 13 caddied throughout the grind. Four other caddies were forced to give up. Pedroja averaged 108.3 strokes per 18 holes and Armstrong 115.1.

CUBS LEADING IN NATIONAL BY ONE POINT

(By The Associated Press)

The Chicago Cubs were leading the National League by a single percentage point this morning, having dethroned the Pirates.

The Cubs 2 to 1 victory over the Buccaneers which gave them the lead yesterday, came after a pitchers' battle well worthy the two top teams it brought together. Rain as well as pitching played a part and if there was any partisanship among the lovelorn they favored the Cubs.

When a shower interrupted the game in the ninth the Pirates were in the midst of a rally that threatened the Chicago lead and Cub supporters were not sorry when the score reverted to the eighth inning. Up to that point the game was a tight one with Dawson holding Chicago to three hits and Carlson granting the Pirates but four.

Pittsburgh has two more chances to end the Cubs winning streak which has run to eight games, and to win back the lead. In the last three game series between the two the Pittsburgh club came off on top.

In another hard fought battle between keen rivals, the Brooklyn Robins defeated the New York Giants by a 3 to 2 and threatened streak the Robins made the most ending a four game Giant winning to push them out of fourth place of Dazzy Vance steadiness in the pinches to win, although outlit 2 to 4.

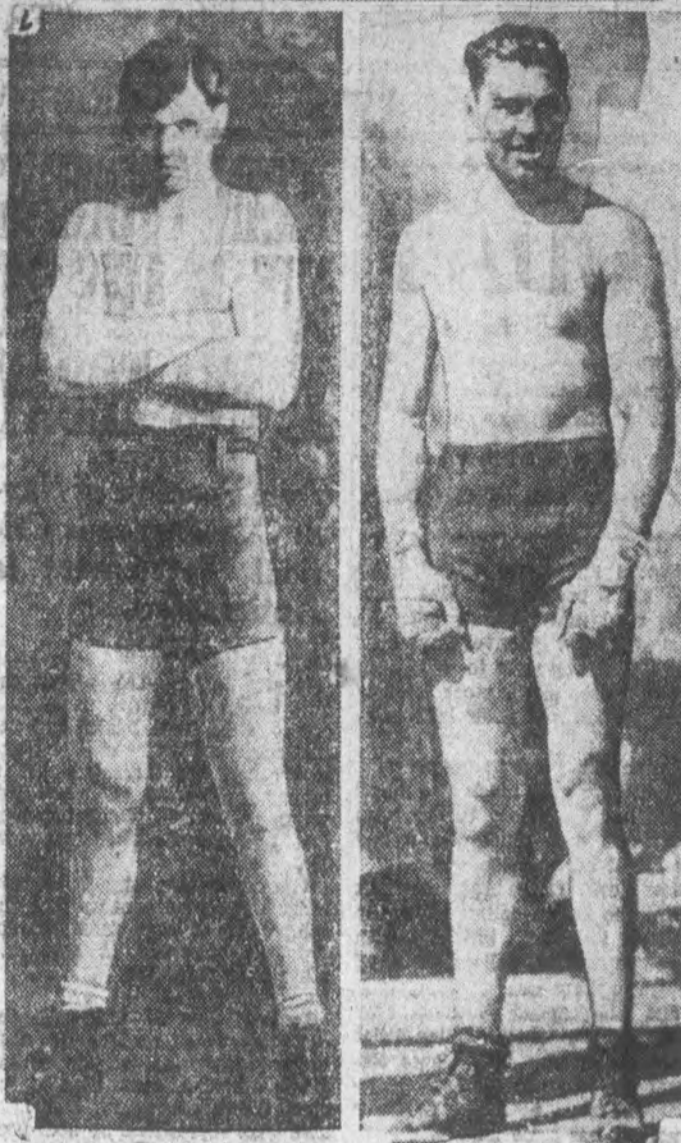

Two intersectional duels which marked the day's play went to the Western clubs by wide margins. Hard hitting gave the St. Louis Cardinals a 12 to 1 decision over Boston and the Cincinnati Reds a 11 to 4 victory over the Phillies. The Cardinals previously had lost six games in a row.

More hard walloping appeared in the Detroit-St. Louis game, the only contest carded in the American League. Fourteen Tiger hits to twelve for St. Louis gave Detroit the edge and the game by 9 to 6. Taking a day off from big time play the Yankees who lead the American League by something over a mile, were felled by the Toronto Leafs of the International League by 11 to 7 in an exhibition game. "Better to get that loss out of system when it doesn't count," was the philosophical exclamation of Huggins and company.

BEAUTY
There was a young man with a scar
The work of a dangerous bar.
And the whiskers he grew
To conceal it from view
Were the best of his features, by far.

Then and Now

Jack Dempsey despite efforts of Gene Tunney and Jack Kearns, remains a figure on the pugilistic screen. At the right is his latest picture, taken as he trained for his fight with Jack Sharkey on July 21, which battle will add more to his store of millions. Perhaps he thinks of the days when the first picture was taken when he'd guarantee to knock out anyone for \$20.

Sharkey Arrives For His Battle With Dempsey

New York, July 8.—(AP)—Arrival of Jack Sharkey from Boston for his battle with Jack Dempsey here a week from Thursday added impetus today to a ticket sale which already has passed the half million dollar mark.

The trickle of gold falling into Tex Rickard's coffers increased in volume as the Boston heavyweight reached special quarters atop the promoter's Madison Square Garden for his training.

The public will be allowed to watch Sharkey in his training for a fee. A flock of heavyweights and light heavies have been gathered to stop the Boston sailor's punches. "I feel fit and ready to fight now," declared Sharkey as he arrived by automobile from Boston accompanied by Mrs. Sharkey. "I've put in quite a spell of training in a gym in Boston, so haven't been idle. I weigh 195 pounds. I won't weight much under that when I face Dempsey in the ring. "And of course, I'll win."

PUBLISHER DEAD

Better Always Better

LOCALS

Mr. and Mrs. Harry White, who have been spending some time in Mexico City, are guests of Mr. and Mrs. D. D. Overton. They will leave Monday for their home in Winston-Salem.

Mr. and Mrs. E. G. Branch, of St. Petersburg, Fla., former Pitt County, are visiting at the home of Mr. and Mrs. T. L. Moore and other relatives.

Miss Lucy King has returned from New York and Baltimore where she spent several weeks with her uncle, C. H. King.

Mr. and Mrs. C. C. King, of Baltimore, are here for a visit to relatives.

Miss Fannie Green Allen, of Harrisonburg, Va., is visiting Misses Henne and Anna Long.

Miss Jennie Congleton, who is doing religious work in Baltimore is spending the summer here with relatives.

Misses Emma and Virginia Rollins and J. N. Hammac, of Washington, D. C., are visiting Mrs. Manley Sellers.

MISS MARY HARDING ENTERTAINS

Honoring her house guest, Mrs. Carlyle Moore, of Petersburg, Va., and Mrs. Raleigh B. Lee, who was recently married, Miss Mary Harding was a charming hostess yesterday afternoon at the Country Club.

Funch was served by Misses Elizabeth and Mattie Vines Mayo and Doris Hardee.

Varied garden flowers were used throughout the club house as decorations. Attractive paper knives in the rainbow colors were given as table prizes at the sixteen tables.

High score was made by Miss Hennie Long and low score by Mrs. W. L. Harrington. They were given dainty bouddoir pillows. Mrs. Moore was remembered with a bathing bag and Mrs. Lee with a magazine stand.

Miss Eva Hodges was given a bathing bag as a birthday gift. At the conclusion of the game a tempting ice course was served, carrying out the rainbow idea.

JUNIOR KINGS DAUGHTERS TO MEET TOMORROW

The Junior Kings Daughters will meet Saturday afternoon at five o'clock with Mrs. C. A. Bowen, at the home of Mrs. Hortense Moyer.

TO ATTEND WEDDING

Mr. and Mrs. B. S. Warren, B. S. Jr., and James Warren, Mrs. John B. Glenn, Misses Mary Cousins, Bessie Brown and Eva Hodges left today for Danville, Va. to attend the wedding of Miss Kathleen Cousins and Mr. Kenneth Deans, which will take place tomorrow at high noon.

ATTEND MOORE REUNION

Mr. and Mrs. E. J. Branch, of St. Petersburg, Fla., arrived in the city Thursday afternoon to attend the Moore family reunion which is to be held Sunday, July 10 at the Old Moore Home Place in Swift Creek township, this county.

Mr. Branch is a native son of Pitt county, moving to Georgia in 1889 when he was quite a lad. He then moved to Texas and finally locating at St. Petersburg, Fla., where he has lived for the past 29 years.

Mrs. Branch is a native Kentuckian and the daughter of the late Dr. Temple, of Bowling Green, Ky. This is the first time that Mr. Branch has visited North Carolina since leaving the state. He will remain here for several weeks, visiting the scores of relatives in eastern Carolina.

The Churchwell Moore Clan is the name of the family organization, and is composed of the descendants of Churchwell Moore and Alick Moore. The family runs into hundreds and peculiar to the Moores they are scattered to the four winds but with all this upwards of two hundred are expected to attend the

reunion on next Sunday. Mr. and Mrs. Branch are stopping with Mr. and Mrs. T. L. Moore of this city.

BIRTH ANNOUNCEMENT
Mr. and Mrs. Joe D. Moore announce the birth of a son on Sunday, July 2nd, 1927.

ONE MARRIAGE LICENSE
One marriage license has been issued by the register of deeds since the report of yesterday afternoon, that being to Henry Laughinghouse and Nella Anderson, colored, of Greenville township.

GREENVILLE WINS FROM ENFIELD TEAM

The baseball team of Battery E. local military unit, journeyed over to Enfield yesterday afternoon and won a perfectly good ball game by the score of 5 to 4. It was the third game of the season between the two clubs, Enfield having won the first two by comfortable margins.

Enfield will play here at the fair grounds tomorrow afternoon.

FARM NOTES

Hog Cholera Campaign Completed
The hog cholera campaign in which 2,500 hogs were immunized against cholera, was completed yesterday. The entire time of the county agent for the past thirty days has been devoted to immunizing with the exception of four days spent with the club boys at Camp Leach. All requests made have been complied with and now that this phase of the work has been taken care of until the fall campaign the county agent will turn his attention to developing other phases of the Pitt County Agricultural program such as tobacco production, poultry work and dairying.

Tobacco
Last week eighty-eight farmers from all parts of the county visited the variety, fertilizer and cultivation demonstration on the Cox farm, near Ayden. Next week a delegation of Pitt county farmers will go to Oxford to attend a special one-day tobacco school, on July 14, held on the State test farm there, and will observe fertilizer variety and cultivation tests underway there.

Twelve hundred invitations have gone out from the county agent's office inviting farmers to attend another field meeting at the Cox farm, two miles east of Ayden, on July 15, to observe test with tobacco under local conditions. The unfavorable season on tobacco has raised questions in the farmers' minds; first, am I using the right kind of fertilizer, or good fertilizer and second, am I cultivating my tobacco properly. Both these questions will be answered by closely observing the demonstration underway on the Cox farm. The demonstrations speak for themselves. Come and look them over—2 p. m. July 15.

Poultry
The campaign for twenty new poultry houses begin now for winter housing the laying hens. Three of these have already been constructed and a number of other farmers have called for blue prints for guides in proper construction. The feeding demonstrations will also be checked as to results obtained. More than 35,000 pounds of

SCIENCE vs. GUESSWORK
No longer does the woman of today accept guesswork in Beauty Culture—the particular woman invariably patronizes the establishment whose operators have been trained under experts.

Believe it or not, P. R. Kuehlich, of Sheffield, England, has invented a new type of razor. He was snapped on his arrival in New York.

poultry were shipped from Pitt county this spring and another car so will be shipped this fall to rid the flocks of the non-profitable, and thereby save a winter feed bill.

Seek Revision of Equalization Fund

Raleigh, July 8.—(AP)—A revision in distribution of the \$3,125,000 made to the public school funds of 90 counties on June 16 was sought today by representatives of a number of counties, protesting against the State Board of Equalization's recently announced property valuation schedule on which the distribution is authorized.

Senator P. H. Williams, representing Camden, Dare and Pasquotank counties, pointed out that Camden and Dare each received less this year than last while Pasquotank, Halifax and Vance were the three of the fourteen new counties added to the list this year which received considerably less than other new counties.

Chatham, Currituck and Jackson counties each received increases over last year of less than 10 per cent, but on the other hand Beaufort, Cleveland, Cumberland, Nash and Robeson counties each received as much as eight times this year as last year, it was reported.

Citizens of Caswell, Chatham, Halifax, Vance, Alexander, Bertie, Camden, Catawba, Chowan, Curri-

tuck, Dare, Gates, Hyde, Hertford, Jackson, Mitchell, Moore and Pasquotank counties expressed interest in the hearing.

Waldrop Wins President's Cup In Golf Play

By defeating Julian White, Herbert Waldrop won the president's wunch ended at the Country Club cup in the annual golf tournament Wednesday afternoon.

This is the fourth time play for the cup has been held. In the first tournament the cup was won by James Meeklen, W. W. Lee won the second year and Luther Herring the third year. It is necessary for a single individual to win the cup three times in succession before it may be held permanently.

Two Theories For Wholesale Killing Of Fish In River

Raleigh, July 8.—(AP)—Without attaching blame for wholesale killing of fish in Haw River and tributaries recently to any one cause, the bureau of sanitary engineering State Board of Health, in a report to Director Wade H. Phillips of the Department of Conservation and Developments advances two theories for the catastrophe.

The report explains that there are two types of waste discharged into tributaries of Haw River above the location where the killing of the fish first occurred. North and South Buffalo Creeks, flowing into Lee's Fork Creek above the latter's confluence with Haw River, are given as two principal contributors to industrial pollution above the point where the dead and dying fish were first observed. North Buffalo being of alkaline quality and South Buffalo, in that vicinity, being acid.

The Towle Silver-Smiths are, so far as is known, the first American firm to officially recognize the Exposition.

Gift Of Royal Seville Silver King Alphonso Honors Silver Anniversary Of His Coronation

The Royal Seville Pattern, in which the Towle gift service will be fashioned, is a modern design with smartly simple and graceful lines, decorated with a delicate ornament adapted from the intricate metalwork on the yargueno, a type of old Spanish family chest much sought after by collectors. The gift service itself will be in every detail similar to the Seville Sterling now on display in leading American jewelry stores except for the presence of the coat of arms of the Spanish Royal family.

In announcing the gift today, W. A. Kinsman, general manager of the Towle Silver-Smiths, said the gift had been planned for several months and King Alfonso's Silver Anniversary provided a singularly happy occasion for joining with the people of America and other coun-

Gift Of Royal Seville Silver King Alphonso Honors Silver Anniversary Of His Coronation

The Towle Silver-Smiths are, so far as is known, the first American firm to officially recognize the Exposition.

The Royal Seville Pattern, in which the Towle gift service will be fashioned, is a modern design with smartly simple and graceful lines, decorated with a delicate ornament adapted from the intricate metalwork on the yargueno, a type of old Spanish family chest much sought after by collectors. The gift service itself will be in every detail similar to the Seville Sterling now on display in leading American jewelry stores except for the presence of the coat of arms of the Spanish Royal family.

In announcing the gift today, W. A. Kinsman, general manager of the Towle Silver-Smiths, said the gift had been planned for several months and King Alfonso's Silver Anniversary provided a singularly happy occasion for joining with the people of America and other coun-

tries in a tribute to the much-loved monarch. The actual presentation, he said, would probably be made later through the Spanish Ambassador in Washington.

"It seems especially fitting," added Mr. Kinsman, "that such a gift should come from Towle, for our gift traditions date back in an unbroken line from 1690, and at that time as William Moulton first set up his silversmithie in Newburyport, the Spanish architecture which is today so deeply influencing our modern art was finding much of its finest expression in what is now the entire Southern part of our United States."

"It will be noted with interest that this pattern can now be purchased from W. L. Best, Pitt Coun-

ty's leading jeweler, established 1901. This silver is now displayed in his window.—Adv.

Gift Pattern Spanish Motif Named for Seville 1928 Exposition

Newburyport, Mass., July 1.—A cablegram from the Towle Silver-Smiths of this city was dispatched today to King Alfonso of Spain announcing a gift to him and Queen Victoria Eugenie of a service of Towle Sterling Silver in the Royal Seville Pattern in honor of the twenty-fifth anniversary of the King's accession to the throne.

This pattern is peculiarly appropriate not only because it is the very newest expression of American art in Sterling but since its motif was inspired by the art of old Spain and its name was chosen because of the important Seville Exposition to be held in that romantic art center of Spain next year.

The text of the message follows: "To His Majesty, the King of Spain: As an expression of appreciation of Spain's contribution to the arts, may we, on the occasion of this silver anniversary of your accession to the throne, have the honor of presenting to Your Majesty a service in Towle Sterling Silver of the Royal Seville Pattern named in celebration of the Spanish-American Exposition to be held in Seville in 1928?"

A special interest attaches to this gift because of the prominent part the United States is to play in the Seville Exposition which opens in October 1928. The Department of Commerce has already announced the appropriation of approximately \$1,000,000 for a building and a special commission has been appointed to make arrangements for America's participation.

SHOULD BE EARLIER

In a recent conference between the Governors of North and South Carolina it was decided to urge the United States Tobacco Association to move up the opening dates of the tobacco markets in the two states this year lest the states will lose money by waiting until the regular opening dates. Under the proposal by Governor Richards, of South Carolina, the markets in that state would open July 26 instead of August 9, and the North Carolina opening date would be advanced making the opening late in August instead of early in September, as is now scheduled.

It has been pointed out that the present year's crop is much further advanced than in previous years, and within a very short time much of the tobacco will be ready for marketing. The season of housing the crop is always a hard one financially for the farmer, and the business man as well, in the tobacco sections, and it is pointed out that to hold the crop after it is ready for market works an additional financial burden on the grower.

The earlier opening of the market this year would be of untold benefit to the farmers and business in general in the two Carolinas, and it is to be hoped that the requests made to the tobacco association will be given careful consideration by its officials.

PUT LIGHTS ON

Despite the fact that the law requiring the lighting of all kinds of vehicles went into effect July 1, reports from various sections of the county indicate that many animal drawn vehicles without lights are appearing on the highways after dark. The vehicle light law was passed not to put a burden on those who use animal drawn vehicles but as a safety measure for such drivers as well as motorists, and those persons who must drive their teams at night should see to it that lights are placed on their vehicles. The person who drives an unlighted vehicle is not only violating the law, but is disregarding his own life and that of others who may be traveling the highways.

STOP FIRE WASTE AND WAR WASTE

We save the cost of a battleship or two in Limitation Armament Agreements between nations. The public may well take some pride in this achievement and figure out the saving in pennies to every man, woman and child in the country.

But, there is a still bigger tax—FIRE—going on with only a feeble voice here or there trying to limit the

cost. Where the saving to each of us in the case of battleships can be figured in pennies, the cost of unnecessary fire loss must be figured in dollars.

The National Board of Fire Underwriters in a little booklet just published points out thirty-two ways in which our children may help to prevent fire. It is equally as desirable to save life and property from fire waste as from war waste.

TAXES OR DONATIONS?

Deferring of action last night by the Board of Aldermen on the swimming pool project does not mean that Greenville will not get its swimming pool, but that it was the desire to give the matter thorough consideration before taking definite action and to study the best means for raising funds for the proposed pool.

The Board of Aldermen after discussing the matter of the erection of the pool, agreed to call a bond election if it was the desire of the committee, but the committee, to give other plans of raising the funds consideration, asked that action be deferred. Just what steps will be taken next by the organizations backing the pool project are not known but they have given assurance that the city will have a municipal pool before another summer. While definite plans were not announced, it was indicated that efforts would be made to build the pool by public donations; and if this plan failed, the city council would be requested to call a bond

election to provide the necessary funds.

It was the consensus of opinion at last night's meeting that citizens would prefer the public donation plan rather than a tax increase, because of a bond issue, and no doubt when the public is asked for sufficient money to build the pool there will be no trouble in raising it.

We should by all means have the swimming pool and we will have it. It is just a question now of the manner in which the public will pay for it—taxes or donations.

BUS DRIVER HELD IN KILLING CASE

Marshall, N. C., July 8.—(AP)—Holt Hensley, driver of an Asheville-Johnston City, Tenn., bus will face hearing here Monday in connection with Roy Aikens, Madison County farmer killed yesterday when struck by Hensley's bus on a curve in the highway about 1 1/2 miles from here. Aikens is said to have jumped from a moving machine directly into the path of the bus. General opinion of eye witnesses was that the accident was unavoidable, or Hensley's part.

Market Report

Cotton--Stocks--Grain

COTTON
New York, July 8.—(AP)—Apprehensions that showers or rains reported in the eastern belt would increase the danger of boll weevil damage appeared responsible for moderate advances in the cotton market today. October contracts sold up to 17.17 and were holding around 17.15 at mid-afternoon of about 8 to 9 points net higher. Futures closed steady, 7 to 11 points higher; spot quiet; middling 17.15.

Then and Now

As long ago as 1903 Harry Vardon won the British open golf championship. Eight years later he won again and turned the trick for the third time in 1914. And he's still playing the game. Although he's lost too much speed to be a serious contender in the championships, he's still good enough to attract crowds to his exhibitions. Picture at left was taken when he won the last title; picture at right is his most recent. (International Illustrated News)

RELIABILITY TOUR ON ANEW

The annual Ford reliability tour for airplanes is on again. Map shows route more than a score of planes are taking; inset, Edsel Ford, founder and sponsor of the tour.

Ehle's Victory Due Largely to Sweetser

HARRY EHLE, Charlotte, N. C.—(AP)—The training of a capable master brought results at the Southern Amateur Golf Tournament here when Harry Ehle won the southern title. Ehle, a youngster of Asheville, N. C., was coached by Jess Sweetser, British amateur champion.

Ehle played his shots largely according to methods taught him by Sweetser and outclassed the southern field by vanquishing Jack Heath of Charlotte in the final round, seven and five. Ehle played 89 holes during the tournament and his total card was only one over par.

Authorize Bus Line Through Blowing Rock

Raleigh, July 8.—(AP)—The North Carolina Corporation Commission order authorizing a bus line between Rutherfordton and Blowing Rock automatically became final today when nobody appeared in protest.

The commission had called a meeting for 10 a. m. for purpose of hearing any protest against the order but no one appeared.

Commission Chief Clerk Self pointed out that the order was in reality a Supreme Court of the United States rule, permitting bus-lines to operate in interstate traffic, that the proposed line to be operated by the Seaboard Air Line Railway through subsidiary motor transportation with Southern communities was an interstate venture and only for operation during the hotel season.

The bus operators are protected under the State Corporation Commission's rule. Mr. Self emphasized and the recent order of the commission granting the Seaboard the bus line operation was merely in line with the Supreme Court holdings.

NATIONAL AIR TOUR PLANES LEAVE MEMPHIS

Memphis, Tenn., July 8.—(AP)—The thirteen planes participating in the national air tour hopped off from Memphis at 9:30 o'clock this morning for Pine Bluff, Ark. They planned to remain there for lunch and leave at one o'clock for Dallas to spend the night.

WE HAVE JUST RECEIVED A shipment of clothes hampers and clothes baskets. Home Furniture Co. phone 79. 8-2t

NOTICE—FOR NICE DRESSED chickens, native and western meats, country smoked meat, call Nichols' Market, phone No. 8. 8-2t

FOR SALE—THREE FRESH cows, two Jersey, one Holstein. See W. C. Clark or J. L. Windham.

HENRY FORD ENDS ATTACK ON THE JEWS

Brisbane Says Financier Has Ordered Dearborn Independent to Stop Hostility

New York, July 8.—(AP)—Through Arthur Brisbane a statement was made public today quoting Henry Ford as saying he had ordered his Dearborn Independent "to discontinue permanently all articles hostile to the Jewish people." The statement expresses "great regret" over any injury the articles may have caused.

Mr. Brisbane's article, which was copyrighted by the New York American and sent by that paper to other newspapers, is based on a signed statement, says Mr. Brisbane, the original of which is in possession of Louis Marshall, lawyer. Mr. Marshall, at Saranac Lake said the original was in his office safe and a photo-static reproduction would be available to any one desiring it.

The announcement was made at Mr. Ford's request, said Mr. Brisbane who quotes Mr. Ford saying: "This statement is made on my own initiative and wholly in the interest of right and justice and in accordance with what I regard as my solemn duty as a man and as a citizen."

Some of the articles already reprinted in pamphlet form under the title of "The International Jew," will be withdrawn from circulation, says Mr. Brisbane who quotes Mr. Ford as saying that the Dearborn Independent in the future will be conducted under such auspices that articles reflecting upon the Jews will never again appear in its columns.

William J. Cameron, editor of the Dearborn Independent and a witness in the \$1,000,000 libel suit brought by Aaron Sapiro, Chicago attorney, against the motor manufacturer at Detroit expressed great surprise at the statement. "It is all news to me," Mr. Cameron said "and I cannot believe it is true." He added he did not believe the statement was a preliminary move toward settlement of Sapiro's suit based on articles appearing in the Dearborn Independent.

Mr. Brisbane asserts that on behalf of William Randolph Hearst, publisher of the American, he offered Mr. Ford \$1,000,000 for the Dearborn Independent.

"No, I won't sell it," he quotes Mr. Ford as replying, "but I'm going to make it a house organ. I'm going to stop absolutely everything that could possibly cause complaint or hurt the feelings of anybody."

Chicago, July 8.—(AP)—Aaron Sapiro, whose objection to anti-Jewish material published in the Dearborn Independent took the form of a million dollar libel suit against Henry Ford and others, is now in Saskatchewan, Canada. His law partner, Robert S. Marx said he had heard nothing of a rumored settlement out of court of the libel action.

Julius Rosenwald, Chicago philanthropist, made the following comment on published statements that attacks against the Jews by the Dearborn Independent would cease.

"Mr. Ford's statement is very greatly belated. This letter would have been very much greater to his credit had it been written five years ago."

It seems almost impossible to believe he has not been deluged with evidence on the very facts which he now seems to realize are true.

"But it is never too late to make amends, and I congratulate Mr. Ford that he has at last seen the light. He will find that the spirit of forgiveness is not entirely a Christian virtue, but is equally a Jewish virtue."

Detroit, July 8.—(AP)—Negotiations looking toward the publication of Henry Ford's statement that all articles in his Dearborn Independent hostile to the Jewish people had been ordered discontinued have been going on for some time. William Denry Gallagher, chief counsel for Aaron Sapiro in the

latter's libel action against Mr. Ford, said today.

Mr. Gallagher added that he "confidently expects" that the libel suit will be "settled out of court." Walter F. Lynch of Chicago, law associate of Mr. Sapiro, has been in Detroit for two weeks in connection with the matter of the statement credited to Mr. Ford, Gallagher said.

Mr. Gallagher added that he has had a copy of the Ford statement in his office for some days.

Fred L. Black, business manager of the Independent also declared he knew nothing of any such instructions. Efforts of the Dearborn office to reach Mr. Ford here met with the statement that he was "out of town for the day."

Daily News Letter

Gossip of Staff Correspondents at World Centers of Population

London. — (INS) — A game of chance at least 6,000 years old—believed to be the oldest gamblers' game in the world—is on view at the British Museum here as part of a remarkable collection of antiquities brought to England from the excavations at Ur of the Chaldees, southeast of Babylon, the accredited birthplace of Abraham.

When the mud of centuries was scraped from a number of small articles found together during the excavations, they were found to be a gaming board and the playing pieces, and the notes made at the time of their discovery in the cemetery of Ur suggest that they were placed in the graves to denote the last resting-places of recognized gamblers of about 4,000 B. C.

It is of course impossible to reconstruct the game as it was played in those far off days, but the board, a double-sided one for different kinds of play, indicates that they staked an even chance in a form of play approximating to roulette et noir on the modern roulette table. Alternate and interesting triangles were used for the chances, the colors to be backed being mother of pearl and a pearly shade from some kind of paste.

The other face of gaming board was used for a game of forward and backward movements, regulated by the throw of variously marked counters or primitive dice. The players apparently betted on their luck in being able first to thread a way through complicated diagrams to the finishing point. The gaming board is encrusted with shell plaques inlaid with lapis lazuli and red stones.

In the graves of the gamblers who lived six centuries ago, the gaming pieces were found formed in semi-circles at the head and feet. These counters show that five and seven were the "lucky" numbers of that day.

The fact that women used face paint five thousand years ago is demonstrated by another exhibit in the Museum's Ur collection. This exhibit takes the form of dainty and miniature shells, with traces of the paint they contained adhering. There are also fragments of toilet soaps and silver mirrors which figured on some ancient beauty's dressing table in those days.

Another exhibit takes the form of a series of clay tablets, bearing school exercises, religious and grammatical texts, multiplication tables and mathematical directions for finding square and cube roots. A diagram illustrates the method used for measuring the areas of an irregular plot of land.

ONE KILLED IN HEAVY STORM IN WESTERN CAROLINA

(Continued from Page One.)
nification was not seriously hampered. Some damage was reported to corn and tobacco crops of the countryside.

Salisbury, July 8.—(AP)—One man was struck by lightning; many chimney tops blown off, and limbs were blown from trees as a result of a heavy rain and electrical storm which hit Salisbury and vicinity late yesterday evening. Rain started falling about 3 P. M. and continued intermittently through the evening. Crops in outlying districts were reported somewhat damaged by the heavy winds and hail which accompanied the storm. No serious damage however was reported.

Hickory, N. C. July 8.—(AP)—The storm which struck his section late Thursday afternoon was one of the most severe in recent years. Thunder, lightning, and hail did a great

deal of damage in various sections of the city and county and in nearby communities. C. L. Starnes of West-Hickory, truck driver, was seriously injured when a tree was blown on the truck while he and J. C. Brittain were putting up the side curtains a few miles west of Hickory.

His condition was regarded as serious Friday morning. Mr. Brittain miraculously escaped injury. Lightning struck several houses in this section but very little damage has been reported. The lights were put out of commission by the storm in West-Hickory and several automobiles collisions resulted in slight damage to the vehicles have been reported. Hail did considerable damage to corn crops in several sections of Burke and Catawba counties.

Raleigh, July 8.—(AP)—Northwestern Wake County saw several barns blown down, some trees tossed against houses, while Raleigh's worst spell was impedence of telegraph and telephone wires for a short time in the windstorm of late yesterday.

Little material damage, however was found done today outside of the inconvenience of a 45-mile an hour wind here and in the vicinity accompanied by a temperature drop from 90 to 84 degrees.

TODAY

(Continued from Page One.)

flight plan. Vedjhi Bey, pilot of Kemal's Turkish army, intends to fly from Angora, over Europe and the Atlantic, to New York. That will interest, but not surprise Mohammedans. They believe their prophet, on his white mare, Alborak, flew up from the Holy Kaaba stone all the way to the distant stars. The fastest plane on earth could not reach the nearest of them in ten million years. You can imagine what a wonderful mare "Alborak" must have been.

A serious French scientist, Professor Jollivet, believes he has "solved the problem of ages," transmitting cheaper metals into gold. Gold is an element, its atoms are little solar systems, each possessing a central proton, with electrons tiny planets revolving around it. These atoms are endless, millions of years old. That man can change them, rearrange them, duplicate them, seems doubtful.

First probably the professor is mistaken.

Third, if gold could be made cheaply it would no longer be valuable.

table. All the gold might disappear, and, so far as we know, make no great difference to the human race. If iron disappeared we should be ruined.

Fourteen thousand shares of preferred stock in Cyrus H. K. Curtis' publication company sold yesterday for \$1,500,000 as quickly as offered. Three of his publications are capitalized, common and preferred

stock, at \$100,000,000, and are worth much more than that sum. There is no better investment than a well-established profit-earning newspaper or magazine. Nothing less certain stock in a non-profitable publication.

Justice Taft says he likes the law better than the White House and nearing his seventieth year, announces he will not retire. He certainly should not retire, for he owes to the public many future years of good effort. His mind and his smile are as young as ever and every well informed man in the United States, big or little, would gladly submit any issue to the judgment of Chief Justice Taft.

In six hours New York's National Guard laid out an airplane base ready for use, with radio, telephone and all other requirements. A fine achievement.

The United States government should take as much time as necessary to provide an airplane base for every great city.

Governors Island in New York harbor should be given up entirely to flying, with a big dock for submarines.

The richest city, New York, containing the United States sub-treasury and all its gold, is unprotected from the air. There ought to be an air field there from which swift United States pursuit planes would rise like mosquitoes from a stagnant pond, to meet any invader.
