

FLIERS DREAM OF AIR VOYAGE TO THE ORIENT

Matland and Hegenberger Desire to Fly From U. S. to Orient.

Oakland, Calif., July 13.—(AP)—A flight from America to the Orient, spanning the full sweep of the Pacific, is the latest ambition of Lieutenants Lester J. Matland and Albert Hegenberger.

While the vociferous praise of thousands was ringing over San Francisco Bay yesterday for their flight from California to Honolulu, Matland expressed the desire to bridge the greatest ocean by air before he had set foot upon the firm, and Hegenberger nodded his approval.

The dream has taken no substantial form, however as the fliers declared they were in the dark as to what they would be called upon to do next.

Tired but happy, Matland and Hegenberger retired last night to a rest from a strenuous welcome as two homecoming heroes were received here.

A parade through Market street in San Francisco to the Civic center where they were tendered a huge reception by cheering thousands, was followed by another parade—a military one in Oakland. Then the aviators were rushed to where they viewed the spot from where they had hopped off two weeks before on their memorial flight to Honolulu.

More honors were heaped upon the airmen at the Oakland community dinner in the municipal auditorium. United States Senator Samuel Shortridge, the speaker of the evening, said he would vote "yes" upon any Congressional plan suitably to reward the two fliers.

Today the airmen were claimed as the guests of army officers at a luncheon at the San Francisco Presidio. The welcoming ceremonies will conclude tomorrow. After that, they will be subject to orders from the War Department of Major General Mason Patrick, army air chief.

Clark, whose trial began yesterday, claimed he was at home helping care for his five-month-old child, who was ill, at the time Mrs. Bowers was whipped. The major part of evidence yesterday was the same as in the trial on a similar charge last week of W. G. Acree county high school principal who was convicted of assault and battery. Acree resigned his connection with the schools following the trial.

BAPTIST MINISTER BURIED AT RALEIGH

Raleigh, July 13.—(AP)—Funeral services were held here today from the First Baptist church for the Rev. Thomas W. O'Kelley, D. D. who died after a long illness, last evening.

Dr. O'Kelley, widely known Southern Baptist minister, former professor at Mercer University, Ga., which presidency he declined, was laid to rest with honors. His body lay in state before the burial, as hundreds filed by in mute testimony of his service to humanity.

ROUND TRIP FLIGHT OAKLAND TO HONOLULU TO BEGIN TOMORROW

Oakland, Calif., July 13.—(AP)—A round trip airplane flight between Oakland and Honolulu, starting at 7 a. m. tomorrow was the program announced today for Ernest L. Smith, civilian aviator, his navigator, Emory B. Bronte of San Francisco and their little silver winged monoplane.

Smith and Bronte plan to land at Wheeler Field, near Honolulu, refuel, examine the plane and start back immediately for Oakland. Smith said he believed they would remain on the island but about two hours.

Lindsey's Sub.

Although most of the staff of the court resigned in protest when Judge Ben Lindsey was ousted, the work of Denver's world-famous Juvenile Court is continuing. Robert W. Steele, (above) lawyer, is Lindsey's successor on the bench.

BYRD AND HIS FLYING PARTY ON WAY HOME

Trans-Atlantic Fliers Due To Arrive in New York on Leviathan Monday.

On Board Steamship Leviathan, July 13.—(AP)—The five American air heroes who have flown the Atlantic and are now homeward bound aboard the Leviathan seemed content to take the background in the air and ship and with due gallantry permit the limelight to play exclusively upon the ambitious Fraulein Thea Rasche, the German aviatrix, who is also aboard. She is going to the United States, determined to recross the Atlantic by air and thus be the first woman to make the flight.

Commander Byrd and his companions remained in their stateroom last night, much to the disappointment of many passengers, including Fraulein Rasche, who says she hopes to get inspiration from them.

The fog which enveloped the channel yesterday lifted before the Leviathan sailed from Cherbourg, giving Byrd an opportunity to recross his airplane route with clear vision and also giving him an opportunity for an expression of regret at what might have been when the America was eastward bound in this part of the ocean. He and his companions slept the sleep of exhaustion last night, but were expected to enter today upon the ship's galley.

Clarence Chamberlin was up and about, saying that he was trying to forget the role he played as a trans-Atlantic flier and was willing that attention should rest upon Commander Byrd or Fraulein Rasche.

Cherbourg, France, July 13.—(AP)—Commander Byrd and his three flight comrades were homeward bound today on the Leviathan due at New York Monday.

After three days of sightseeing and acclaim in the vicinity of Yersur-Mer where they made their dramatic landing less than two weeks ago completing their flight across the ocean, the airmen departed last night, dense fog prevented them from seeing anything of the French coast line as the vessel steamed away. A plan to have an escort of French planes fly over the Leviathan until it reached the open sea was abandoned.

Among the first to greet the aviators on the ship was Clarence D. Chamberlin, who preceded them in a trans-Atlantic air voyage, flying from New York to Germany with Charles A. Levine.

Commander Byrd was accompanied aboard the steamer by Captain L. Hospital, aide of Marshal Foch. The captain presented Byrd with a pearl stickpin.

MAN FACES TRIAL FOR CRIMINALLY ATTACKING WOMAN AT TROY, N. C.

Troy, N. C., July 13.—(AP)—T. B. Mauney, Cando high school principal, tomorrow faces trial on charges of criminally attacking Mrs. Myrtle Poole Saunders on February 15, in Superior Court here, following completion of a jury today from a special venire of 100 men and regular jurors.

AUTO OWNERS SPENT HUGE SUM IN 1926

North Carolina Drivers Paid \$75,000,000 For Upkeep of Their Automobiles.

Raleigh, July 13.—(AP)—North Carolina automobile drivers spent 75 millions dollars during the 12 months ending June 30, 1927, for gasoline, gasoline taxes, State license, title registration and oil, according to a compilation by the Raleigh Times, using figures furnished by the State Revenue Department.

The figures are conservative and the actual cost probably was nearer 80 millions, the Times says.

Four cents a gallon is the State tax gasoline. This tax netted the State \$8,126,604 in 12 months. That means that tax was paid on 203,315,100 gallons of gasoline.

This gasoline would drive a small automobile 30 miles per hour for more than three billion miles in 101,507,550 hours, or 4,229,481 days or 11,587 years.

Automobile drivers in North Carolina in the last 12 months spent \$66,663,322 for gasoline including the tax figuring the cost of the gasoline plus the tax at 22 cents per gallon. They spent \$3,383,569 for motor oil figuring that at a ratio of one quart per 15 gallons at a quarter a quart.

They also spent \$5,894,446 to get licenses to operate their automobiles and spent \$160,000 for title registrations.

GOES ON TRIAL FOR MURDER OF MINISTER

Newton, N. C., July 13.—(AP)—Joe Pierce, Hickory South, on trial in Catawba county superior court this morning for the alleged murder of Rev. G. H. Gerberding, D. D., noted Lutheran religious educator. About two months ago Dr. Gerberding was run down and killed by an automobile at night and a few hours later police arrested Mr. Pierce who was charged with the crime.

CHINA MAKES DEMANDS OF JAP LEGATION

Peking, China, July 13.—(AP)—The Peking government after a verbal protest by the foreign office to the Japanese legation on Monday has sent a note to the legation, in which it demands the immediate withdrawal of troops from Tsin-Nanfu and Tsin-Giao in the province of Shan-Tung.

The note also demands the recall of any further troops sent to those cities and expressed the earnest hope for a satisfactory early reply.

The Japanese government has been sending troops to Tsin-Nanfu and Tsin-Giao in both of which cities the Japanese have extensive interests. Both cities, for some time, have been the object of a drive by the Nationalists who seek their capture, as part of the larger plan to take Tien-Tsin and Peking itself.

A Reuter dispatch from Tsin-Giao yesterday said that 2,000 Japanese troops had arrived there from Dairen and that the situation was quiet.

The note, which was made public this afternoon expressed astonishment that the protests to the Chinese government regarding the dispatch of Japanese troops to Tsin-Giao have not received "due attention" by the Japanese government.

On the contrary the note alleges the Japanese took advantage of the detection of some of the troops of General Sun Chuan-Fang, the Northern Commander in Shan-Tung, to dispatch Japanese troops to Tsin-Anfu from Tsin-Giao and to replace them with fresh troops from Dairen.

The note declares that the Japanese which has constantly professed friendship for China, has thus far ignored China's protests and has committed acts violating Japan's treaty obligations and Chinese sovereignty. The dispatch of troops the note says, has created intense indignation throughout China.

TODAY

An All Negro Village. Eat More Mutton. Miss Fanny Is Wrong. Drys Too Hopeful.

(By Arthur Brisbane) Copyright 1927. by Star Co., Inc.

Mound Bayou, in Mississippi, is an "all negro" village, of 1,600 inhabitants, founded forty years ago by Isaiah F. Montgomery, a slave belonging to Jefferson Davis.

Mound Bayou celebrates its fortieth birthday today. It has a \$100,000 brick public school, a \$40,000 African Methodist Episcopal church, a \$20,000 Baptist church, a Carnegie library, two private houses of brick no jail, one policeman, few arrests. All officials, mayor, postmaster, chamber of commerce, are negroes.

Chicago's campaign to increase the consumption of beef is useful. Human beings need meat, as a true saying proposition.

Millions of years of frost and rain grind up rock, earthworms, prepare soil, grass grows, cows eat it, men eat the cows and get in half an hour the benefit of work done by the cows, worms and nature.

There ought to be another campaign to encourage the use of mutton. For all but the strongest men mutton is better food than beef. For children, especially, mutton is better, being a less "nervous" food.

Miss Fanny Hurl, like all geniuses, needs advertising and should have it. She says woman suffrage is a failure, women are indifferent to politics, slaves of vanity, the lipstick and the beauty parlor. "Sisters, we have not come through as a class, as a mass, or as a sex," says Miss Fanny.

She is mistaken. She notices the lipstick ladies because they are so red and conspicuous. She doesn't know that woman suffrage has caused politicians to ask "What do the women want? what do the children need?" (Continued on page six)

FILES SUITS AGAINST BIG REALTY MAN

Ohio Highway Builders Ask \$2,000,000 Of Miami Development Concerns.

Miami, Fla., July 13.—(AP)—Three suits totaling about \$2,000,000 in claims, were filed yesterday in United States District Court here and in Jacksonville, by the Highway Construction Company Incorporated, of Ohio, asking receiverships for two companies which played major parts in the development of the city of Hollywood famous Florida boom resort.

Joseph W. Young, founder and developer of Hollywood, is president of both companies named and is himself named as defendant in the suits, which are for balance due on sidewalk and street paving construction and for profits lost when contracted construction was ordered stopped early this year. The companies for which receiverships were asked are the Homeseekers Realty Company of Hollywood and the Hollywood Land and Water Company.

At Hollywood it was stated that Mr. Young was in New York and would return to Hollywood Thursday.

"Hollywood, which had a population of 25,000 little more than two years ago now has about 5,000 inhabitants, Victor Sharnan, vice-president of the Hollywood companies said. The development was planned as an ideal model community resort town. It suffered severely from the hurricane which devastated the East coast of Florida last September.

Two suits based on claims totaling \$630,358.14 were filed in the Miami District Court by the Ohio firm. They asked receiverships for the Homeseekers Realty Company and the companies defendant. Of the suits filed at Miami, one was based on a contract for paving construction made on the first day of July 1926. The claim in this suit was on a claim of \$143,408.32. At Jacksonville, receivership was asked only for the Homeseekers Realty Company, of Hollywood, Fla although the suit was filed against "The Homeseekers Realty Company and Joseph W. Young."

OFFICER STILL FIGHTS GRIMLY AGAINST DEATH

Federal Officers Wage War on Craven Section Where Agent Was Badly Wounded.

Kinston, N. C., July 13.—(AP)—While W. T. Lewis, federal prohibition agent, still lay in a local hospital battling death as a result of bullet wounds received in a fight with moonshiners Monday night, revenue agents, reinforced from the ranks of Lenoir and Craven counties deputies and Kinston police, today declared unrelenting war upon the moonshine element of the Fort Barriwell section in Craven county.

A half dozen government operatives were aided by as many more civil officers in scouring the wooded area for alleged liquor law violators in what is described by federal men as one of the worst moonshine liquor manufacturing sections in Eastern North Carolina. No arrests had been reported today.

Lewis was shot in the back after he had been disarmed following the capture and arrest of two alleged moonshiners. Virgil Sermon, one of the men arrested, is still in a Goldsboro hospital under guard, as the result of bullet wounds suffered in his clash with the agents. Reed Sermon is in the Lenoir County jail here.

Two automobiles in which were loaded 200 gallons of contraband captured after a "purchase" ruse and which were stolen by unknown confederates of the men arrested were found a short distance from the scene of the battle, but the liquor had been removed.

Other liquor manufacturing plants are known to be located in the section, according to federal agents and was declared after the shooting of Sunday night will not cease until the entire area has been purged of rum activities, they declare.

Arthur G. McDuffie, head of the prohibition forces in this section is directing the dry forces.

Continue Probe Of Corruption In Ind. Politics

Michigan City, Ind., July 13.—(AP)—William H. Remy, Marion County prosecutor and two special assistants, who have been working with him in an investigation of alleged political corruption in Indiana visited D. C. Stephenson, former grand dragon of the Ku Klux Klan today.

Stephenson, a former power in Indiana politics, told the prosecutor stories of alleged graft involving present officeholders, Indianapolis City, Marion County and State officeholders last week.

Remy declined to say what he expected to result from the interview today.

Emsley Johnson and John W. Holtzman, Indianapolis attorneys recently named special assistant prosecutors, were with Remy.

Negro Woman Seriously Hurt In Auto Wreck

Lea Mitchell, colored, received probably fatal injuries last night when an automobile of which she was an occupant, ran into a ditch on the Greenville-Ayden highway, about two miles from this city. Beatrice Taft sustained minor injury.

Will Griffin, white, farmer of the Reedy Branch community, driver of the car, is being held in the county jail here today awaiting a change in the condition of the Mitchell woman, who at last reports was said to be in a precarious condition.

The accident occurred near what is known as the "K" John Filling Station. Griffin was returning to Greenville with a car load of tobacco hands—about eight in all—when the car suddenly left the road and crashed into a ditch. The car was badly battered up by the force of the impact.

FRANK PAGE CONDUCTS HEARING IN DUPLIN CO

Raleigh, July 13.—(AP)—Frank Page, State Highway Commissioner left today for Duplin county for a hearing on the location of Route 24 from Kenansville to Jacksonville. The location of the county seat to county seat highway was protested by the Duplin county commissioners.

SLEEPING GIRL FIGHTS FOR LIFE

Hopes for the eventual recovery of Mrs. Clara Drummond, famed "sleeping beauty" of Fresno, Calif., are held, following her transfer to a hospital in Los Angeles. The transfer was marked by a struggle between two factions of medical practitioners for possession of the patient. This is the latest photo of Mrs. Drummond, who is 21, and has been in her strange condition since April.

JAPS INSIST ON LIMITING OF CRUISERS

Geneva, Switzerland, July 13.—(AP)—The delegates to the tripartite naval conference today decided to convene a plenary session tomorrow at 3 P. M.

Tomorrow's plenary session was arranged, it was learned, in order that assurance can be given that the negotiations are continuing in the friendliest manner.

The atmosphere at Geneva today was most friendly. Although a meeting which has held today did not result in any agreement on the cruiser problem, the Japanese insisted that they must have real limitation.

Today's meeting was at the home of H. B. Butler, assistant director of the international labor bureau in order to take up the problems confronting the conference. Their chief interest centered on the question of cruisers and Japan's announcement which invites the expansion of the Japanese navy.

BYRD TO GO ON ANTARCTIC TRIP OCT. 20

San Pedro, Calif., July 13.—(AP)—Plans for the departure from here October 20 of Commander Richard E. Byrd's Antarctic expedition aboard the Norwegian whaling steamship C. A. Larsen were announced today with the completion of the ship's itinerary.

The announcement was made by Captain G. M. Byrd, port captain of the Mexican Whaling Company and agent for the C. A. Larsen.

The expedition according to Byrd will consist of 50 men, but only 15 of these will make the voyage aboard the whaler.

The others will sail previously for Steward Island, the base for the flight. The S. A. Larsen will load Byrd's three engine Fokker monoplane, in which the flier will make the South Pole flight, together with several tons of equipment at Norfolk Va., Sept. 16th when she will sail for this port.

Byrd's plane and supplies will be unloaded by the ship at Steward Island and she will then proceed South to the Ross Sea in the Antarctic where she will begin her season's job of producing 50,000 barrels of whale oil from whales caught by her five small killer ships.

While Byrd is on his hazardous flight, the C. A. Larsen, from her point eleven degrees from the pole will maintain constant radio communication between the plane and the outside world. Byrd will be among the 15 to sail here aboard the C. A. Larsen.

QUAKE WRECKS MANY CENTERS OF HOLY LAND

Number of Towns North of Jerusalem Appear Like Cities Of Dead Today.

Jerusalem, Palestine, July 13.—(AP)—Nebulus, ancient Samaritan center 30 miles north of Jerusalem and other towns in the Holy Land appear like cities of the dead, say reports which reached Jerusalem today of the disastrous earthquake that rocked the region Monday afternoon.

Latest official estimates place the dead in Palestine at more than 150 and in Transjordania at 100. The total injured is given as more than 500. Unofficial figures are much higher, some estimates giving the dead as 1,000.

No Americans or Europeans have been reported among the victims. Details from many of the affected places were still being awaited today but the story of the late Nebulus says it presents an awful spectacle of destruction. Scarcely a house in the old part of the town escaped. Some collapsed entirely while others seem to be held together by a miracle.

High fretted buildings piled fantastically above narrow streets collapsed like cards, burying not only the inmates but persons in the markets below.

Usually busy streets are deserted save for occasional cowed figures salvaging bedding on the backs of camels or donkeys to take to impoverished camps outside the town where the inhabitants are collected in pathetic groups. Some times a long wailing procession passes with a rude coffin at the head—the latest harvest of some digging party.

The work of exhumation is progressing under the direction of the British police. At one place where it is estimated 40 persons are buried under the debris, the search has been given up owing to the unsafe condition of surrounding buildings. The searches have brought many pathetic scenes, showing in the postures of the dead how suddenly death overtook them.

Heat Causes Prostrations In New York

New York, July 13.—(AP)—The summer began making up in earnest today for the lateness of its coming and "prostration weather" was the order of the day over the eastern half of the country.

The first prostrations of the day here were an aged man who collapsed in a subway station at City Hall and a man overcome on the street in Harlem.

The temperature moved upward at a steady two degrees an hour, being 82 at 11 o'clock, and with the heat not expected until late afternoon, humidity was 72.

As the rising heat began to be felt during the morning Miami and Key West, Fla., were in the lead with temperatures of 84 but a score of cities in many sections were pressing forward for such doubtful honor as first place might be when the Florida cities had the country's highest temperature. Flagstaff, Ariz., was at a cool end of the thermometer with 52 degrees.

The east, south and middle west were all hovering around 80 degrees in the morning with the western section of the country almost 20 degrees cooler.

The forecast for New York was for fair and continued warm tonight with thundershowers tomorrow pressing cooler weather. The weather bureau announced that the tendency is now toward cooler in central and northern sections and that the general lowering of the Atlantic high pressure area "probably sets a limit to the general heat wave east of the Rocky Mountains and a return to cooler will probably extend eastward reaching the coast by Friday."

Lexington Youth Drowned Tuesday

Lexington, July 13.—(AP)—Lowe Davis, popular Churhand high school basketball player, was drowned late yesterday in Abbot's Creek about 16 miles from here, it was learned today.

Davis was working on construction of a highway bridge in the High Rock Dam district. He slipped off a log into the waters of the creek which was swollen by recent rains. A swift current carried him under despite efforts of fellow workers to save him. The body was recovered four hours later. The youth was a son of Mr. and Mrs. D. G. Davis, of Southmont. He graduated from Churhand high school this year and planned to enter Wake Forest College this fall. Burial will be at Southmont this afternoon.

MORE THAN THOUSAND LOSE LIVES IN FLOOD

Shanghai, July 13.—(AP)—Floods in South Anhwei Province on July 9 caused the deaths of more than a thousand persons. It is stated in belated reports reaching here. Tens of thousands of people are said to be homeless.

RUTH AGAIN IN THE LEAD FOR HOMERS

(By The Associated Press.)
Star clouters of the major league did their stuff yesterday. Home runs were made by Babe Ruth, Rogers Hornsby and George Sisler. Ruth's mighty wallop was one of the longest ever seen in Cleveland. It came in the ninth inning and while it was just another run in the 7-0 whitewash administered to the Indians by the Yankees, it gave the Babe an edge on Lou Gehrig in their scramble for swatting supremacy. Ruth now has 30 homers with "Columbia Lou" one behind.

Hornsby's clouting in the sixth with Lindstrom on base gave the Giants a 3 to 2 victory over Cincinnati.

Sisler's homer came with two on in the ninth at St. Louis and gave the Browns a 6-5 win from the Boston Red Sox. Sisler collected four hits.

The Cubs continued to hold first place in the National League, Sheriff Blake's pitching being entirely too much for Boston and won 6-2.

The Pittsburgh Pirates kept at the Cubs' heels by beating Dazzy Vance and the Brooklyn Dodgers 2-1.

The St. Louis Cards 9-6 victory over Philadelphia rounded out the clean sweep by first division teams over second division opponents. Jess Haines was batted hard by the Phillies but the world champions made their blows count.

The Chicago White Sox rallied sharply in the sixth to trim Connie Mack's Athletics, 8-5. The Detroit Tigers lost to Washington 6-9.

Marble King

Joe Medvidovitch, of Pittsburgh, is the new marble-playing champion of the United States. He won a tourney at Atlantic City.

BOBBY MAKES GOOD START TO KEEP TITLE

St. Andrews, Scotland, July 13.—(AP)—Two amateurs were showing the way to the professionals when half the field had reported in the first round of play for the open golf championship of Great Britain.

Bobby Jones of Atlanta, defending champion, was well out in front with a score of 68, equaling the record for the historic St. Andrews course. Three strokes back at 71 was Lew Nettleford.

Joe Kirkwood was the leading professional at this stage with a score of 72. Percy Alliss, English professional had 73 with five British professionals tied at 74.

The other American players in were Jim Barnes with 76 and Larry Nabholz, 77.

Walter Kennett Palm Cecilia, Florida, had a 78.

BEATING TILDEN FOR TITLE

Extraordinary action photo shows Henri Cochet, of France, defeating William T. Tilden, of the United States, for the international tennis title in a sensational match at Wimbledon, England. Tilden needed only one game to win the crown when Cochet turned the tide and took three straight sets and the victory.

Dempsey Putting On Final Touches For Coming Fight

Saratoga Lake, N. Y., July 13.—(AP)—After a day of idleness Jack Dempsey was intent on giving his sparring partners plenty of work today.

With only six more days of training left before he steps into the ring to meet Jack Sharkey at the Yankee stadium, Dempsey is satisfied he will overcome the youth and speed of Sharkey with an old fashioned exhibition of punching.

Enclosed in the canvas enclosed ring by the shores of Lake Saratoga Dempsey has failed to display any flashing speed, and his boxing has been visible by its lack of effectiveness, but he has been punching, apparently as hard as ever in his brilliant career, and it is the power of his punch on which he depends to carry him through to a victory over the lightning fast Sharkey.

Dempsey has deliberately taken blow after blow from his sparring mates, to weave into close quarters and batter away at their bodies.

Big League Leaders

(By The Associated Press.)
Including games of July 12.

National
Batting—P. Waner, Pirates, .386.
Runs—Hornsby, Giants, 71.
Hits—P. Waner, 117.

Stolen Bases—Sisler, Browns, 16.
Tavener, Tigers, 16.
Pitching—Ruether, Yankees, won 8; lost 2.

Keating Wins Twenty-Four Mile Swimming Race

Lake George, N. Y., July 13.—(AP)—Edward F. Keating, New York swimming instructor, won the 24-mile swimming marathon in Lake George from Hague to this village, finishing at 4:50 o'clock this morning daylight saving time.

The bid of Germany and of Belgium to win the longest fresh water swim ever held in the U. S. came to an end when Ernst Vierkostter, German channel conqueror, was obliged to quit, and Madame Jane Scion, Belgian swimmer of the Seine, was disqualified.

The giant German left the water seven miles from the finish, suffering from an upset stomach.

Madame Scion was disqualified after officials said they discovered she was being towed by her pilot boat.

At 5:47 Mrs. Schoemmel and Mrs. Lucy A. Diamond, of New York, were brought ashore after being picked up by hospital tenders about nine miles from the finish. Mrs. Schoemmel, in a semi-conscious condition, was immediately placed in care of a doctor.

CHARLOTTE HOTEL ROBBED LAST NIGHT
Charlotte, July 13.—(AP)—Robbers operating from the 6th to 9th floors of the Charlotte Hotel obtained more than \$500 from guests during last night it was learned this afternoon when it became known that the hotel management had called in the police. The most puzzling aspect of the case, it was said, was that several of the rooms reported robbed were locked.

The hotel management kept the robbers from becoming known for several hours in efforts on the part of hotel detectives to solve the mystery. Sums ranging from \$25 to \$90 were obtained, it was said.

Uzudun and Wills To Fight Tonight

New York, July 13.—(AP)—Once the most feared boxer in the heavy-weight division, Harry Wills, the Brown Panther of New Orleans, will try to turn back the years tonight in his 15-round fight with Paulino Uzudun, Pyrenes Giant, at Ebbets Field.

The crafty negro, now a prosperous resident of New York's Harlem District, is pitted against one of the strongest men in the boxing game. Uzudun's ability to assimilate punishment has been demonstrated and although he "throws" most of his punches he is a dangerous hurdle in the path of Wills comeback attempt.

The comparisons:

Wills	Age	Uzudun
35	26	
215	Weight	270
17	Neck, inches	17
45	Chest, Normal	47
49	Chest Expanded	42
74	Reach	72
161-2	Biceps	18
141-2	Forearm	18
231-2	Thigh	211-2
32	Waist	35
9	Ankle	91-2
16	Calf	17
71-2	Wrist	8
6-11-2	Height	5-111-2

BAKER KNOCKS OUT MUSHY CALLAHAN IN NINTH ROUND

Chicago, July 13.—(AP)—Except four pounds, Sergeant Sammy Baker, of New York, would be the junior welterweight champion of the world today.

He shot so many lefts and rights into Mushy Callahan, the champion, in their scheduled 10 round fight at Cubs Park last night, that the Los Angeles scrapper went down and out in the ninth round. Baker, however, was four pounds over the junior welterweight limit.

A right to the chin in the ninth dropped Callahan. He attempted to get to his feet but the referee refused to let him continue.

SHARKEY SPEEDS UP TRAINING FOR DEMPSEY

After a late start, Jack Sharkey is speeding up his training for his bout with Dempsey. He's shown working out in the Boston gym where he has set up camp.

What does ROUGH CUT mean to you?

THIS rich full-flavored old Butley is a particularly cool-smoking tobacco to begin with... Wellman's Method makes it cooler—but the "rough cut" supplies the finishing touch.

For remember, this is PIPE tobacco, hence it is cut in the one way pipe tobacco should be cut—in large, coarse, shaggy flakes that burn slower, smoke cooler, and last nearly twice as long. Smokers tell us it's the coolest cut of all!

GRANGER ROUGH CUT PIPE TOBACCO

LOCALS

F. M. Wooten and Frank Wooten Jr. left this morning for Hendersonville.

Mrs. S. E. Gates and daughters, Martha Jane and Elizabeth, left this morning for a visit in Mount Airy.

Mrs. B. S. Smith and Miss Louise Smith, of Farmville, were here today.

Miss Clara Ward, of Norfolk, Va. is visiting Miss Malene Congleton.

Mr. and Mrs. Emmett Brown, of Cleburn, Texas, were the guests of relatives here yesterday.

Mr. and Mrs. Wiley Brown have returned from a visit in Greensboro.

Mr. and Mrs. W. P. Moore left today for Quitman, Ga.

Miss Mary Lee Pittman is in Rocky Mount where she will attend the wedding of Miss Martha Hayes Cuthrell which will take place next Wednesday.

MRS. HORNE CELEBRATES BIRTHDAY

Surprise Dinner Given By Her Children.

Mrs. Rose Horne celebrated her seventy-seventh birthday on Tuesday. Just after noon, all of her children and grandchildren met and went to the home of Mr. and Mrs. C. O. H. Horne, where they tendered her a delightful dinner.

Mrs. Horne was much surprised, especially on being invited into the dining room, where the centerpiece on the table was a beautiful birthday cake. The day was happily spent. Those present were Mr. and Mrs. C. O. H. Horne and children, Mr. and Mrs. John Horne and children, Mr. and Mrs. W. H. Horne and children and Mr. and Mrs. J. C. Tyson and daughter.

The scores of Mrs. Horne's friends congratulate her and wish for her many more happy birthdays.

C. L. BROWN GOES TO GEORGIA

C. L. Brown left this afternoon for Blackshear, Georgia, where he will be on the tobacco market during the coming season. He will be manager of the Brantley warehouse.

PLANT DISEASE MAN IN GREENVILLE TODAY

G. W. Fant, plant disease specialist of State College, was in the city today conferring with E. F. Arnold county farm demonstration agent. Mr. Fant is an authority on diseases of plants, and has rendered valuable assistance to farmers in various parts of the state.

ONE MARRIAGE LICENSE ISSUED YESTERDAY

Only one marriage license has been issued by the register of deeds since the report of yesterday, being to R. L. Edwards and Miss Bessie Hunt, of Chicof township.

TWO TOBACCO BARNS DESTROYED BY FIRE

Two tobacco barns and contents belonging to R. E. Harris, located on the other side of Tar River, were destroyed by fire yesterday, according to information brought to town this morning. The loss has not been determined.

ENTERTAINS AT BUFFET SUPPER

Miss Elizabeth Jones delightfully entertained at a buffet supper last evening, having as honor guests Mr. and Mrs. J. M. Henderson, Jr. who were recently married, and Miss Helen McCalley, of Richmond Va.

A pink color scheme was carried out. Gladioli and pink candles were used for decorations and the favors were pink. Covers were laid for twelve. The hostess remembered Mr. and Mrs. Henderson with a piece of china. Miss McCalley also presented Mr. and Mrs. Henderson a gift. Misses Flossie Faison, Carrie Francis Herring, Rocky Mount and Miss Helen McCalley, of Richmond, were out-of-town guests.

IMMANUEL BAPTISTS HOLD PICNIC TODAY AT PUBLIC LANDING

The annual picnic of the Immanuel Baptist church was held at

Public Landing this afternoon. Automobiles loaded with picnickers left the church shortly after one o'clock, and others carried the girls of the college at four o'clock. The afternoon was spent in swimming and fishing at the popular Beaufort county riverside. The usual picnic feast was enjoyed.

MRS. TOLAR TO OPEN NIGHT SCHOOL, SEPTEMBER 16TH

Mrs. C. M. Tolar has announced the opening date of her business school as September 16th, and will be located in the Munford building at Five Points. She will have two assistant teachers this year, both graduates of standard Business Colleges with teaching experience.

The Greenville Business School affords the young people of this section a wonderful opportunity to study Shorthand, Typewriting, Business English, Spelling, Bookkeeping, Commercial Law, Letter Writing and general office training with a special secretarial course for post graduate work.—(Adv.)

Monthly Dance Of Cotillion Club On Tomorrow Evening

The regular monthly dance of the Cotillion Club will be given at Gorman's new brick warehouse tomorrow night. An orchestra from Harrisburg, Pa. will furnish music for the occasion. The following will act as chaperones:

Mr. and Mrs. Hogan Gaskins, Mr. and Mrs. L. W. Gaylord, Mr. and Mrs. W. T. Lipscomb, Mr. and Mrs. D. J. Whitehead, Mr. and Mrs. Wallace Phelps, and Mrs. H. A. Bost.

Boy Scouts To Break Camp On Friday Morning

Word was received in this city today from C. W. Porter, scoutmaster of the local organization of Boy Scouts, who are in annual encampment at Camp Leach, that they would break camp Friday morning after breakfast and return to Greenville. Twelve other members of the organization will begin encampment immediately following the return of the contingent Friday.

Harrington-Lang Takes Agency For G. M. C. Truck

The General Motor's Truck Company of Pontiac, Mich., announces through their factory representative, Mr. Lester H. Knight, the appointment of Harrington and Lang, Inc., of this city as distributors for this section of the State for General Motor's trucks.

Mr. Knight advises that the General Motor's Truck Company have started production on their new modern six cylinder speed truck, in capacities ranging from one ton to two and one-half tons, equipped with the latest valve-in-the-head Buick engine.

This State is among those that

have made notable advances in good road building and under such circumstances the old type of slow moving motor truck is not only an incumbrance, but is a time waster. The demand now is for a speedier truck that can get over the ground smoothly, safely, with the utmost fuel economy that can be handled as easily and comfortably as a high powered passenger car.

Modern engineering skill has made it possible to build such a truck, without any sacrifice to the ruggedness and endurance, they are just as important in motor trucks now as they ever were. The fast duty six cylinder motor truck has a future already assured because it is a modern necessity, it brings the farmer closer to his market and trading center, it enables the town merchant to extend his delivery system getting a bigger volume of business and a larger return for his local newspaper advertising.

Harrington and Lang, Inc., announces a sales already of two, two-ton trucks, one to the Greenville Supply Co., and one to R. E. Hicks of the National Biscuit Co. Their first shipment of these new trucks from the factory is due to arrive in Greenville on Monday of next week.

Moore Clan Held Family Reunion In Pitt County Sunday

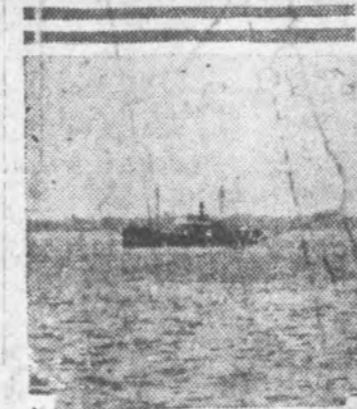

Sunday, July 10th, was a great day for members of the Churchwell Moore clan, which held its first annual family reunion at the Moore Homestead in Swift Creek township, this county. It was such a joyous day that it was hard to get a complete count on attendance but it is certain that the number ran some over two hundred.

Many of the relatives had not seen each other in years. Hands clasped hands and arms embraced many whom years had separated. The happiest man was Edward Joyner Branch who had not seen his Tar Heel kinfolks since 1889 when he, with his mother and father and their family, moved from Pitt county to Georgia. Upon his first visit back to his home state he found only two of his old Aunties living, but a host of cousins that number into hundreds. The entire forenoon was given over to saying "howdy" to relatives and renewing acquaintances.

At the noon hour a business session was held when a report from the secretary was read which revealed many items of interest to the Moores. It was found that only two of the Churchwell and Alley Moore's children were living—Mrs. James A. Stokes and Mrs. John W. Kirkman. Forty-six grandchildren living, one hundred and seventy-seven great grand children and sixteen great, great grand-children, making a total of 241 in the family.

Paul S. Moore was elected president; Rev. James T. Moore, vice-president; and T. I. Moore, secretary. The name of the organization will remain the same as was first given it at a temporary organization last spring. It will be known as the "Churchwell Moore Clan" and will meet annually in the month of August or September in the future. The next meeting will be held at Mrs. John W. Kirk-

Rum War Hero

Ensign Charles L. Duke, U. S. Coast Guard, single-handed and in a heavy gale, Duke boarded the British ship Economy in New York harbor, arrested the crew of twenty-two and seized 150,000 gallons of contraband alcohol, valued at \$1,000,000. The captured ship is shown. Ensign Duke is pictured phoning headquarters: "I have met the enemy, and they are mine."

man's home, near the old Moore homestead.

After the business meeting the relatives listened to a powerful address by Rev. James T. Moore, a grandson of Churchwell and Alley Moore, and the son of Asa Moore, deceased. The speaker brought out many points relative to the peculiarities of the Moores. One of their characteristics is their hard-headedness. The Moores are a

mixture of Scotch, Irish and English blood and landed in this country with Lord Baltimore, seven brothers in all, but no two settled in the same state upon agreement. They are scattered from North Carolina to Canada but whenever and wherever you find one he is a Moore. None of them can be called rich, but none are paupers. An others peculiarity of the Moores is that they are not meddling and attend strictly to their own business.

The Moores, according to the speaker, possess three outstanding characteristics, that of persistence, pride and forgiveness. The Scotch blood gives them the persistence and economic life which is very noticeable. They never give up hope and none are wasteful. Their English blood is shown in pride of home life and personal appearance. A true Moore will not hold malice. He will fight, and none are cowards. They stand for the right, yet he is ready and easy to forgive which comes from the Irish blood. The Moores are peculiar and how can they help from being a mixture of the three greatest races of people on the globe. The grandfather of Churchwell Moore, came from Maryland to North Carolina in the Seventeen Hundreds and was one of the seven brothers that came over from Great Britain. His name was Randle Moore. This was great news to the many younger kinfolks as well as those of mature age, who maybe for the first time, had even known this little bit of history of their family.

was sounde and all the Moores and friends marched back of the house where they found spread under the large elm trees a most sumptuous dinner which revealed the fine quality of the Moore women for it was a real dinner, fine in quality and large in quantity.

Portrait Of Major Graham Is Presented

Raleigh, July 13.—(AP)—An oil portrait of the late Major William A. Graham, for many years commissioner, was presented to the State Department of Agriculture to-

day, following the morning session of the board in annual meeting.

Dr. Clarence Poe, of Raleigh, a member of the board from the Fourth Congressional District, spoke for the board and for the department. The portrait was accepted by Commissioner William A. Graham, who succeeded his father in

office. State, city and county officials and friends were present.

Dr. Poe paid tribute to the life, character and services of the late Major Graham. The portrait, painted by Mrs. Marshall Williams of Faison, was draped in a Confederate flag.

West Coast-Chicago First Link In Aerial Passenger System

Ocean to ocean in 30 hours is the ultimate trans-continental air service time for travelers in a hurry. Top—The Boeing plane "San Francisco," first to make the trip over the route. Inset is picture of C. Eugene Johnson, Pilot No. 1 in the mail passenger service.

San Francisco—(AP)—For the traveler who is in a hurry, the Pacific Coast and Central West have been brought closer together by inauguration of a passenger service on the San Francisco-Chicago air mail route.

It is the first leg of a transcontinental passenger system which eventually will provide a service of approximately 30 hours from ocean to ocean by airplane. The Chicago-New York section will be opened when the National Air Transport Inc., takes over from the

government transportation of the air mail.

Relinquishment by the government to the Boeing Air Transport Inc. of the transportation of air mail between San Francisco and Chicago made possible institutional of the passenger service. It is contrary to postal policy for the government to carry passengers on a mail service but no objection is offered to the combining of passenger transportation with mail delivery when it is contracted to commercial organizations.

The Boeing company has provided 25 bi-planes for this division. Eighteen will be in active service and seven held in reserve for emergencies. Compartments are arranged for 1,200 pounds of mail with 600 pounds of cargo weight allotted to the passenger section. The planes are powered with nine cylinder, air cooled motors. Reclining, upholstered seats are provided for the patrons who pay ten cents a mile for their transportation and are permitted to carry up to 25 pounds of hand baggage free of charge.

Unlike the aviator who confessed that "we are all scared stiff" when far above ground, Lieut. Balchen emphatically denies that there is any of "that thrill stuff" in flying and adds: "It is no different to me from driving a car, except that personally I prefer flying. I think it is safer." Obviously there is as yet less danger of collision.

The death of John Drew leaves only the third generation (the three brilliant Barrymores) of the distinguished American family of actors which began with Mrs. John Drew (mother of the recently deceased) whom old-timers remember as the ideal "Mrs. Malaprop."

It is a pity to say a word of discouragement of the neighborly practice of giving a lift to strange pedestrians on the road, but the news columns continue to show that too many obliging motorists have had cause to remember Aesop's story of what befell the pindly man who warmed a frozen asp in his bosom.

It seems that Dan O'Leary has just walked 100 miles in 24 hours to celebrate his 88th birthday. Perhaps the spry old Dan wanted to show "them lazy soft-sitters" in the myriads of motor cars what it was possible for a real he-man to do.

THE FORD APOLOGY
 Attacks on Jews for years in the Dearborn Independent, the property of Henry Ford, having at last resulted in annoying and costly litigation, Mr. Ford has now published as complete an apology as could be desired and promised that his newspaper will not offend again. The most surprising feature of the matter is Mr. Ford's assertion, or intimation, that personally he has been ignorant of what has been going on so long, although repeated protests must have been sent to him. It is suggested in explanation that Mr. Ford was losing business and thought well to muzzle his editor, but he could afford to lose business and there are no indications that he has lost enough to cause him disturbance of mind.

Although the affair is not lacking in an element of mystery, it does not appear to be altogether improbable that the busy and preoccupied Mr. Ford was long in really waking up to what was going on. He has been quoted as saying that history is bunk and perhaps his attitude toward the press was similarly myopic. Presumably he needed a newspaper of his own for advertising purposes and, as long as it provided the desired publicity, could he have thought

that its editorial policy and contents mattered not at all? Possibly — but evidently things have happened tending to render him a good deal wiser.

FIRE A SERIOUS DISEASE
 The fact that the United States annually builds with more than half a billion dollars' worth of property a funeral pyre on which are sacrificed 12,000 of its citizens, should force us to recognize that prevention of such terrible waste of life and property is one of the major problems of the country.

After unlocking vast stores of wealth by our methods of efficiency in industry and business, it is worse than mockery to permit carelessness to turn in and destroy not only a substantial part of this wealth, but also thousands of priceless lives along with it.

Irving T. Bush, of New York, declares that the country should put fires in the class of preventable diseases; as, for instance, yellow fever. Medical research and skill finally located the cause of that plague and stamped it out. Skilled fire prevention engineers could take the place of medical scientists who blocked yellow fever. Certainly anything that takes the lives of 12,000 persons and more than half a billion dollars' worth of property a year in one country, must be treated as a serious disease.

HAVE DARK HAIR AND LOOK YOUNG

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for 'Wreth's Compound,' you will get a large bottle of this old-time recipe, improved by the addition of other ingredients all ready to use, for only 75c. This simple mixture can be depended upon to restore natural color and beauty to the hair.

Well-known druggists say every body uses Wreth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and look; glossy, soft and beautiful.

Cotton--Stocks--Grain

COTTON

New York, July 13.—(AP)—The cotton market opened steady today at a decline of 2 to 6 points, active months selling about 4 to 6 points net lower in the first few minutes under liquidation inspired by lower Liverpool cables and expectations of a fairly favorable weekly report from the weather bureau.

October eased off to 17.73 and January to 17.02, but comparatively small offerings were absorbed by covering or fresh commission houses buying at the decline. The market steadied later. At the end of the first hour October was selling at 17.80, with the new crop position about net unchanged to 3 points higher.

The rally from the early decline carried prices up to 17.84 for October or about 6 to 7 points net higher for then-aw-crop positions but a favorable interpretation of the weekly report of the weather bureau brought in more selling. Prices reacted ten or twelve points from the best but there was covering and commission house buying on the decline and the midday market was quiet with October holding steady around 17.77 or at about yesterday's closing quotation.

GRAIN

Chicago, July 13.—(AP)—With weather conditions northwest generally favorable, and with crop observers inclined to be optimistic regarding black rust, wheat prices averaged lower here today. Wheat closed irregular at 1-4 net decline to 5-8 gain; corn 1-4 off to 1-8 up; oats showing 1-8 to 7-8 advance and provisions varying from 7 setback to a rise of 30.

Chicago, July 13.—(AP)—Potatoes receipts 82; on tract 13; total U. S. shipments 860 cars; trading steady; Va. bell Irish Cobbs 4.50 to 4.55; Kansas sacked Irish Cobbs 2.35 to 2.40, mostly 2.30 to 2.35.

SUGAR

New York, July 13.—(AP)—Raw sugar 1-16 of a cent lower to the back of 4.52. Refined unchanged.

STOCK MARKET

New York, July 13.—(AP)—Resumption of the upward movement in today's stock market carried both the rail and industrial averages to record high levels. Buying was influenced by the continued ease in credit conditions, steady investment demand for seasoned dividend paying securities, and the reported turn for the better in the steel industry.

Rails again were in the forefront of the advance, more than a dozen issues selling 2 to 4 1-2 points above yesterday's final quotations. The close was strong. Total sales approximated 1,700,000 shares.

PRINCIPALS IN LOUISIANA MURDER

James J. Leboeuf (above left), victim of the most atrocious crime Southern Louisiana has known in years. His buck-shot-riddled body was slashed with a large hunting knife to prevent floating, then tied with railroad iron and thrown into Lake Palourde, near Morgan City, La., at spot indicated above. His wife, Mrs. Ada Bonner Leboeuf (upper right) is co-defendant with Dr. Thomas E. Dreher, physician, who confessed hiring James Beadle to commit murder. Mrs. Leboeuf's picture was taken when a bride. The other picture is that of Sheriff Charles Pecot, who solved crime.

AID TO FLYING SEEN IN STUDY OF METEORITES

Des Moines, Iowa.—(AP)—Astronomy will some day glean from falling meteorites some important knowledge about the upper air, Dr. D. W. Morehouse, president of Drake University and distinguished astronomer is convinced.

When science progresses farther in the study of falling stars, he believes, it will learn from them facts about the height and character of the upper layers of the earth's atmosphere which may conceivably alter the present ideas of the universe and may prove of great value in the practical field of flying.

"No one actually knows the origin of meteorites" he says. "Theories range from the belief that meteorites are thrown off by the moon to the supposition that they are pieces of disintegrated stars.

"The hypothesis that they are 'chips' off our solar system is most appealing to me. It seems well established that meteoric showers are the remains of worn-out comets whose orbits the earth crosses in its revolution."

MAN IS FATALLY HURT WHEN HE FALLS FROM CHURCH BUILDING

Wilmington, N. C., July 13.—(AP)—William Roach, 808 Walker Ave. Greensboro, a stonework contractor, was fatally injured at noon today when he fell from the top of the First Presbyterian church building here. His skull was fractured and his spine broken. Details of the accident were lacking. The building is being erected by J. L. Crouse, of Greensboro.

JOHN, HAVE YOU HEARD ALL ABOUT

"The Flesh and the Devil?" 13-21

PLEADS NOT GUILTY TO MURDER CHARGE

Miami, Fla., July 13.—(AP)—Fred J. Oshus, wealthy Miami Beach inventor, and formerly of Racine, Wis., pleaded not guilty to two charges of manslaughter in connection with the drowning on June 27 of Mrs. Bertha Miller and her son, Martin. When brought to trial in criminal court here today.

FARM HINTS

Milk and cream not only should be kept cold until leaving the farm, but also should be protected from the sun and warm air while being transported from the farm to the city.

Milk stands at the roadside should be shaded, and cans of milk and cream hauled in trucks or wagons should be covered with a canvas. If this is not done much careful work in producing the milk may be wasted. Heavy jackets for milk cans aid materially in keeping the contents cold.

During the work season the farm work horse should be fed only at regular intervals. Concentrated feed is necessary to supply the energy for hard work. It is not advisable to feed large amounts of roughages at this season except during periods of rest. Excessive feed of hay is expensive, reduces the efficiency of the horse and often causes respiratory disorders.

New York terminal costs for a sack of Michigan potatoes covering a terminal movement of about 15 miles are greater than for the entire road haul of more than 1,000 miles. Trucking is the chief element in the cost of terminal hauling.

No way is known of increasing permanently the percentage of butterfat in cow's milk. Feeding the proper amounts of good balanced ration will bring out the maximum milk flow and consequently the maximum amount of butterfat. The percentage of butterfat, however, is an inherent trait in individual animals and is fairly constant.

Generally bunch grasses cannot withstand as close grazing as the grammas and true turf-forming grasses and still maintain their stand.

A ton of leaves or "needles" per acre containing valuable fertilizing elements falls to the ground each year in red and Jack pine forests.

The needles contain many substances essential for plant growth. Analysis of materials given back to the soil by the forest reveals that each year the needles falling on one acre contained 9 to 15 pounds of nitrogen, or ammonia, 7 to 15 pounds of calcium, 2 to 3 pounds of phosphoric acid, about 3 pounds

Pilots Levine

Maurice Drouhin, noted French aviator, is engaged to fly Charles Levine from Paris to New York. If successful, Drouhin may be the first man to fly a plane from Europe to America, and Levine will be the first man to make the trip both ways.

GARTER SKIRTS START ARGUMENT IN ENGLAND

London.—(AP)—Should the garter skirt be fastened above or below the knee?

This question is under discussion among West End modistes. The row began at the spring drapery exhibition and has been gaining force from day to day.

Some women insist the new pantaloons-like skirt is vulgarly mannish at best and should by all means be made in such a way that the knees are concealed. They have the support of the dress creators who have always insisted that extremely short skirts lack the length of line to be really beautiful.

PRITCHARD MAY BE GIVEN HEARING AT SPECIAL COURT TERM

Columbus, N. C., July 13.—(AP)—Possibility of a request for a special term of Superior Court to try Harrison Pritchard, 35, for murder, was today being talked by Polk county citizens, following the slaying of Pritchard's tenant and uncle John Turner, 56, prominent farmer, who was buried yesterday.

Pritchard was held in Columbus jail, alleged assailant of Turner in a row which had no eye witnesses, on a farm in a remote section of the county. Pritchard was arrested by officers, who said a quantity of liquor was found in his home.

MANY CASES HEARD HERE YESTERDAY

County Court Spends Several Hours in Disposing of Number of Issues.

Clarence Cox, colored, was fined \$200 and cost and sentenced to 12 months on the county roads on a charge of having liquor for sale, by Judge W. A. Darden, presiding over yesterday's session of county court. Numbers of other cases were given hearing during the several hours court was in session. The majority of charges consisted of violations of prohibition laws, and resulted in heavy fines and jail and road sentences.

E. J. Wyatt and Elbert Peaden white men of Falkland community were given hearing on a charge of receiving and possessing whiskey. Elbert Peaden was found guilty, fined \$50 and cost and given a two year suspended sentence to the county roads. Sentence is to become effective anytime within the next two years at suggestion of court if defendant should be found guilty of violation of any of the criminal laws of the state. He was ordered to appear before the court the first Tuesday of each month to answer to good behavior.

Travis Little, colored, was taxed \$100 and cost and ordered not to drive an automobile for the next ninety days on a charge of driving while under the influence of whiskey.

Willie Fisher, colored, appearing on a charge of larceny, drew six months on the roads.

Charged with being drunk and disorderly, Roberta Allen, colored, drew 20 days in jail.

Clint Allen was fined \$100 and cost and ordered not to drive another automobile for a period of 90 days, for driving while drunk.

Joe Gray and Jasper Reddick were fined \$10 each and cost, Geo. Davis, \$20, John Watson, \$25, and Green Grant, \$30, on charges of gambling. They were colored.

Judgment was suspended for a period of two years in the case of Henry Brock, colored, charged with possessing liquor for sale.

Judgment was suspended for a period of two years in the case of Duffy Croom, colored, charged with buying and possessing liquor.

The case against John Pierce, charged with driving a car while drunk, was not proceeed.

New Marrying Parson Found

Elkton, Md., July 13.—(AP)—Today marked the arrival of another "marrying parson" for this "green," the third to attempt to gain the "business" of the Rev. Richard P. Westren, deposed holder of the office that is so important to the young couples who flock here to be wed.

The new arrival is the Rev. C. M. Cope, a Baptist minister who said his last charge was in Raleigh, N. C., he left there eighteen months ago and settled on a farm near Rising Sun.

Yesterday the jitney drivers who are alleged to be aligned with the so-called "marriage trust," found themselves without a "marrying parson," the Rev. P. C. Hoffman, the last to hold fort here, left here Monday night.

Mr. Hoffman appeared after the Rev. Hiram McVey, retired Methodist minister of Greenwood, Del., was ordered to leave town by the Methodist Episcopal Church authorities. Certain technical charges were lodged against him by the church and he was suspended pending a hearing by the clergymen.

The same officials had a warrant sworn out for the Rev. Westren for performing marriages without authority. The hearing will be held shortly in police court. Westren was the "marrying parson" since January last.

NORTH CAROLINA GROWTH TO BE TALKED AT ASHEVILLE

Asheville, July 13.—(AP)—General problems attendant to the extraordinary growth of North Carolina will be discussed at a conference of civic and commercial leaders of the state in Asheville July 28.

The date was selected today following a mail referendum of directors and officials of state Chamber of Commerce which was conducted by the Asheville Chamber of Commerce. The organization will act as host to the visiting representatives.

Birmingham, Ala., July 13.—(AP)—Three negroes were being held today on suspicion in connection with an attack with an axe yesterday on Mrs. H. H. Howell, 17, of Starks Gap, near here, who this morning lay near death in a local hospital.

Two of the negroes said they were residents of Bessemer, which is a short distance from the scene of the attack.

The young woman was struck on the head with an axe wielded by an assailant who entered her kitchen. Physicians held little hope for her recovery.

Daily News Letter

Group of Staff Correspondents at World Centers of Population

Moscow.—(INS)—The first type writer factory in the history of Russia will shortly begin operation in Leningrad. It is expected to turn out 10,000 machines the first year to replace the dilapidated pre-war models which are working overtime to turn out the mass of work in Soviet government offices.

Typewriters which are considered a household necessity in America have always been a luxury in Russia. Since the war, new machines imported from America and Germany have been bringing prices as high as \$250, and the lucky person who has a ten year old, second-hand one to sell can often realize \$75 to \$100 on it.

The new factory hopes to keep pace with the growing demand throughout Russia for modern, efficient office equipment.

Moscow authorities are searching desperately for a Pied Piper who will rid the city of the millions of rats which menace the health and safety of the inhabitants.

Hordes of hungry beasts infest the big co-operative stores, and every night crowds of people gather about the windows to watch them feast on sausages, fish, bread and everything edible that they can find. Hardly a day passes without two or three babies being mutilated.

The rats seem particularly fond of Communist literature — they simply "eat it up." Recently one official wanted to refer to a twelve volume work "The Planned Economy." Clerks finally discovered a few tattered remains of the covers. The rats had devoured it all. Another particularly dainty dish which they seem to relish is questionnaires which they consume by the thousands. Many people consider this a happy solution of the problem of dealing with the flood of questionnaires on every conceivable subject which they are asked to fill out.

Theoretically in the Soviet Union the best hand gets the job, whether man or woman. Actually, according to the Committee on Women in Industry, factory administrators still have an "orthodox and unsocialistic" tendency to discriminate against skilled women workers.

There are nearly 4,000 girls in the industrial schools of Leningrad alone, but in the face of the fact that there are more than a million unemployed in Russia, the committee asserts that girls who are turned out by these schools as skilled mechanics, plumbers, electricians etc. have a hard time convincing employers that they are just as competent as men to run machines, patch leaky drains, or install telephones.

The committee is determined to overcome this prejudice and see to it that not only do the skilled women workers get as good jobs as men, but also that more girls are given a chance to receive technical training in industrial schools.

TODAY

(Continued from page one) Woman suffrage wasn't expected to do anything more.

Ardent drys suggest that President Coolidge, an out-and-out actual. NOT IMITATION, testator could stop bootlegging if he wanted to, an amusing suggestion.

Raymond G. Carroll reports that scores of still are in the Black Hills, "hidden within five miles of President Coolidge's lodge."

Hundreds of thousands of stills are scattered all over the United States, and one city, New York, has 20,000 or more sneak-easies.

How could President Coolidge "clean up" that kind of bootleg situation?

Speaking of prohibition, Mr. Cy-

rus H. K. Curtis's young writer, Nunally Johnson, who goes to Europe on the Arabic, writes in Mr. Curtis's paper about "The two church clergymen drinking brandies in the lounge every night and being excessively good fellows." You can't change the habits of a people in a year or ten. If you do it in a hundred thousand years you are doing well.

Turkey puts on trial a handsome young woman accused of "attacking religion." The lady, a writer, says in her latest novel, "Religion is more harmful than opium, all prophets are Charlatans."

When Turkish "freedom" is older, this young woman and others will know that the wise thing to do is to let people read, write, talk and think as they choose, as long as individuals are not attacked. The head of the true religion, which each has a right to select for himself, in this country, is presumably able to take care of unbelievers, all in his good time. He does not need any earthly help surely.

Tolstoi, son of a great man who was usually wrong, is wrong twice in an interview, but wrong in an interesting way.

The real Tolstoi preached non-resistance, which never gets you anywhere. His son, Count Ier, says flying from Europe to America, east to west, will never be a success because the earth moves the other way, from west to east, which is nonsense.

His other statement, that men will live to be centuries old, is also mistaken guessing. Death, at frequent intervals, is necessary, as it is necessary to wipe a slate often that something new may be written.

Men, undoubtedly, will live to about ten times the age of reproduction, as other animals do, which would make one hundred and forty an average age for men living wisely.

That will be about the limit. If men come back, they should be glad to be made young again, by a better method than Voronoff's. If they go to stay, they should be glad to go, when the brain has become incapable of original thought.

Sixteen "habitual" criminals have been sentenced to life imprisonment in New York State under the Baumes law, and four "life candidates" await sentence. One "lifer," William Feuer, was sentenced as a "fence" for buying stolen goods from criminals. If all "fences" were sentenced to life imprisonment, on their first conviction, crime would drop seventy-five percent. Why not try it?

Austria was shaken by an earthquake yesterday, the situation aggravated by "loud explosions," buildings badly shaken. No region has a monopoly of earthquakes. The old earth is settling down, and each little settling, usually not very serious, we call an earthquake.

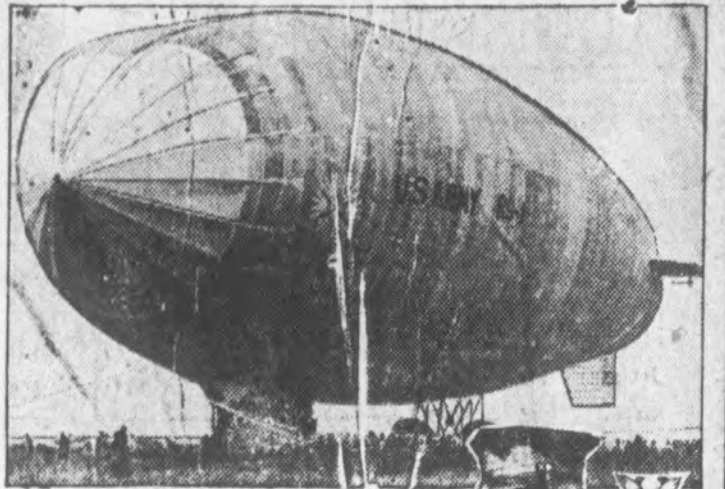

RETIREMENT RAILROAD

Elizabeth City, N. J., July 13.—(AP)—Clarence W. Huntington, 71, retired president of the Virginian Railroad, died at his home here last night.

Largest Army Dirigible Groomed For Flight To Atlantic Coast

Scott Field, Belleville, Ill.—(AP)—The RS-1, largest army dirigible and flagship of Scott Field, will embark this month on its longest flight.

A tour to Washington, New York and Boston, with a possible stop at the Ford motor plant in Detroit on the homeward trip, has been arranged for a crew of about nine men, commanded by Lieut. Col. John A. Paeglow, commandant of Scott Field.

The ship is the world's largest semi-rigid craft, and is approximately a third as large as the Los Angeles, rigid airship of the navy launched in January, 1926. Its longest previous flight was to Detroit on the first leg of a proposed 1,200-mile hieira which was cancelled because of adverse weather conditions.

On a flight here six months ago the RS-1 was compelled to remain aloft for nearly 20 hours because of a 21-mile gale which made landing impossible. It was in constant radio communication with the field.

The ship has three gondolas, two for engine, and one a navigator's cabin, slung to an aluminum keel which gives it semi-rigidity. It is 282 feet long, 73 feet at its largest diameter, and has a helium capacity of 719,000 cubic feet.

The eastern tour will take the RS-1 to Langley Field, Va., Bolling Field, Washington, Lakehurst, N. J.; up the Atlantic seaboard by way of Mitchell Field, Long Island, probably as far as Boston, and thence by a return route to Lake-Troy and West Point, N. Y., over Buffalo and back to its hangar with the conditional halt at Detroit, if weather permits.

SCORE OF FAMILIES HOMELESS AS RESULT OF FIRE AT WEST BLOCTON

West Blocton, Ala., July 13.—(AP)—Residents of this town today faced the task of rebuilding after the first which yesterday practically destroyed the business section and invaded the residential section causing a loss estimated at \$500,000.

More than a score of families were homeless and the smoking ruins of 35 business houses and 20 residences testified to the devastating extent of the flames.

RAINBOW DIVISION MAY GO TO LEGION MEETING AT PARIS

Des Moines, Iowa, July 13.—(AP)—The famous Rainbow Division made up of troops from twenty-seven states may follow the American Legion to Paris for its 1928 convention, it was indicated today as delegates to the 1927 meeting began gathering here for opening sessions Friday.

Both Paris and Nancy, France have invited the Rainbow men and if they accept either invitation they will be guests of the French government. Montgomery, Ala., Atlanta Ga., and the Ohio delegation also are bidding for the convention.
