

## BOSTON GOES AVIATION MAD FOR ONE DAY

### Trans-Atlantic and Trans-Pacific Flyers To Give The City an Eye-Full Today

Boston, July 22.—(AP)—Boston and Massachusetts, or as much of the State as could crowd into the metropolitan district, were aviation mad today, prepared to greet with enthusiasm first Colonel Charles Lindbergh, then Lieut. Maitland and Hegenberger and finally, the Byrd trans-Atlantic heroes, and Clarence Chamberlin, holder of the world's record for distance flying.

That sequence was the order of their expected arrival, with the famous "we die" at the East Boston airport from Providence at 2 o'clock this afternoon.

Four hours later, the Hawaiian aviators will arrive. Tomorrow Commander Richard E. Byrd and his companions, Acosta, Novice and Balchen are due. Chamberlin will reach here in the same train.

For Commander Byrd and Lieut. Albert F. Hegenberger, the aviators will represent more than the frenzied acclaim of a public of its heroes, for them Boston is homecoming.

Hegenberger was born in this city and married here and his home is on Castle Island in Dorchester Bay where his wife and their two children live with her parents. Commander and Mrs. Byrd and their four children also live here.

Colonel Lindbergh will receive the greetings of Governor Fuller and Mayor Nicholson in the Boston Common and later at the State House. The Governor will present as a special decoration from the commonwealth of Massachusetts, a medal inscribed "To Colonel Lindbergh in commemoration of the first New York-Paris non-stop flight."

On Saturday morning the night hero will join Mayor Nichols for breakfast and together will review the climax of the two-day program in the harbor at the New England's famous war ship, the 36th, Yankee division.

## GOV. FULLER TALKS WITH DOOMED MEN

### Goes To Massachusetts Pen To Hear Sacco, Vanzetti and Celestino Maderos.

Boston, July 22.—(AP)—Governor Alvan T. Fuller left the State House this forenoon for the State prison in the Charleston district. It was understood that he would interview Nicola Sacco and Bartolomeo Vanzetti, under sentence of death for murder into whose case he has been making a personal investigation.

On arrival at the office of Warren Williams Hendry, he announced that he would interview separately Sacco, Vanzetti and Celestino Maderos, under sentence of death for another murder.

"The final unsuccessful plea for a new trial for Sacco and Vanzetti" was based largely on a statement by Maderos that a gang of which he was a member committed the murders of a paymaster and his friend in South Braintree for which Sacco and Vanzetti were convicted and that the two were not concerned in them.

One by one the three prisoners were brought into the warden's office. Maderos was first and Governor Fuller talked with him for 15 minutes, then Sacco was taken before the Governor.

Sacco and Vanzetti, continuing their hunger strike which began last Sunday, had eaten no breakfast but they appeared to be in good physical condition.

### KILLS FRIEND WHILE DEMONSTRATING PUNCH THAT BEAT SHARKEY

Philadelphia, July 22.—(AP)—Thomas Cellucci, 27, died early today as the result of a blow delivered by a friend demonstrating the punch that knocked out Jack Sharkey at Yankee stadium.

Cellucci and John Derocatis after listening to radio reports of the bout, disagreed as to the nature of the decisive blow and began to demonstrate.

Cellucci sent a short right to Derocatis' head and the latter then countered with a right to the head. Cellucci fell backward his head striking the pavement, fracturing his skull. He lived six hours.

## TODAY

### Imponderable Ether. Two Jacks Fight. A Sick Whale. Surprising a Rebel.

Sir Oliver Lodge says the ether is the most important reality of the physical universe. Life and mind are associated with matter only indirectly, through the ether, says he, and the ether is primarily man's habitation, not pseudo "solid matter," earth houses, automobiles and money that we call the real world.

Matter reduced to atoms, is only electric particles revolving at a frightful speed around an electric centre. The real thing is ether.

Science tells us that the ether is like a great stream of water, flowing on forever, and matter like a fisherman's net spread across the stream through which the ether flows, that ether is essential to the cosmic scheme that Newton's law of gravitation should not work with out it, and that ether is the only sound reality in the realm of ideas but for the average man it is hard to conceive of ether as a reality. It seems as unreal as the fourth dimension.

Our minds are adjusted to the work we have to do, which isn't big or very important.

For tonight's fight of the two Jacks, Jack Dempsey and Jack Sharkey, the modest box office price for a front seat is \$27.50. Out intellectual citizenship is willing to pay much more, it is said that the first five front rows are in the hands of speculators at \$125 each.

This news is made public by the Government which wants income tax from a show of this kind and asks further information.

Suppose Sir Oliver Lodge were to lecture on his theory of the ether and charge \$125 for front row seats—how many would he sell?

If told that sickness of a sperm whale in the Atlantic ocean could set up an ancient sailor man in a comfortable chicken business, you might say "impossible." But it happened.

When whales don't feel well, lumps of a substance called "ambergris," valuable to perfume manufacturers, form inside of them.

Jeremiah Pratt, 74 years old, looked out on a schooner, saw gulls hovering over a big lump of ambergris, worth \$12,500. With that money sailor Pratt will retire to a chicken ranch and thousands of women will go around perfumed by the ambergris.

Sandino, leader of Nicaraguan "rebels," was perhaps right in his idea that Uncle Sam has no business dictating to Nicaragua, but he was wrong in his judgment of airplanes in war.

Sandino, who called himself "The Wild Beast of the Mountains," told his followers that Uncle Sam's airplanes and bombs "only made a noise." A few bombs dropped by American fliers killed 200 of his followers, according to late reports, and probably killed more than ran into the woods wounded and died.

Sandino, abandoned by his army, hiding in some wild part of Nicaragua, is a much surprised "Wild Beast of the Mountains."

There would be some surprised statesmen in Washington, if we had war in this country, with foreign airplanes treating our cities as Uncle Sam treated Sandino's followers.

In Alabama, seven men are indicted for flogging a young farmer boy, Jeff Calloway, because he went to church drunk.

Calloway was taken from a little church by a band of masked men, bound to a tree and lashed into unconsciousness.

You have here an interesting picture of United States civilization in 1927 and a particularly interesting picture of "Nation-wide prohibition" in action.

### Three Craven Men Held Under Bond In Shooting Case

New Bern, N. C., July 22.—(AP)—Accused in connection with the fatal shooting last week of W. T. Lewis, federal prohibition agent, three Craven county men were today ordered held in jail by Coroner J. L. Hartsfield following an inquest into Lewis' death.

Ball of \$10,000 was set for Luther Semons, held responsible for the shooting; Virgil Semons, charged with being an accessory, is held in \$5,000 bail and Lee Semons is held in \$2,500 bail as material witness.

Lewis was fatally wounded the night of July 11, during a raid upon a moonshine still near Fort Barron, Craven County. The case will be tried in Superior Court here, it having been ruled federal court has no jurisdiction.

## PRINCE CAROL IS GRIEVED BY KING'S DEATH

### Despite Bequest of \$400,000, Carol Desires To Mount Throne He Renounced.

Berlin, July 22.—(AP)—A dispatch to the Nacht Ausgabe from his special correspondent in Bucharest says that a demonstration in favor of Prince Carol occurred at Fogaras. The demonstration is said to have been dispersed by cavalry, several of the crowd being killed.

Bucharest, July 22.—(AP)—Prince Carol remains in exile and he can not return either for his father's funeral or later, government officials declared today.

This comment was made on reports from Paris intimating that Prince Carol had not abandoned pretensions to the throne. These reports were based on a statement given out in Paris last night on behalf of the prince by a personage closely connected with him. In this statement the former crown prince was referred to as "King Carol."

Paris, July 22.—(AP)—Richer by his father's bequest of \$400,000, former Crown Prince Carol of Rumania now appears to cherish the idea of mounting the throne he repeatedly renounced, judging by statements to the press, in which he refers to himself as "King Carol" of Rumania.

Meanwhile his application for permission to return to Bucharest to attend the funeral of Ferdinand has not been answered, according to his own announcement and Rumanian circles here express the belief that this or other communications he may send will receive no answers while Premier Bratianu is in power. These circles say that the prospects of there being a King Carol II, are for the present at least remote.

A statement given out in Carol's behalf, by a personage closely connected with him, read: "King Carol Rumania, deeply afflicted by the death of his father and moved by feelings of devotion toward the late sovereign, regrets for the moment he is unable to make any communication to the press. He thus finds himself prevented from formulating a declaration which the news situation call for. Yesterday morning he expressed telegraphically to the members of the Rumanian royal family a desire to attend his father's funeral. Up to the present he has received no answer."

Carol now is something like a prisoner. His villa at Neutilly is guarded by detectives and besieged by squads of newspaper men who observe his every movement. His servants say he is weighted down with sorrow and is "just letting himself live."

One of his intimate friends is quoted as having said that he is certain to attend the two memorial services to be held in Paris Sunday—one for officials—and the other for the Rumanian colony.

### Urges Editors To Print The Truth

Morehead City, N. C., July 22.—(AP)—The South is no longer poorer stricken nor unhealthy "yet illiteracy thrives and prejudice and intolerance, often masked and hooded, usurps the law and administers justice with the last," said Julian Harris, editor of the Columbus (Ga.) Inquirer-Sun, addressing the North Carolina Press Association at their annual banquet last night.

The Georgia editor had quoted Walter Hines Page that "a South illiterate, unhealthy, poverty stricken, is a national peril." Mr. Harris then declared "to that statement I would add it is equally true that a South illiterate and intolerant but wealthy is a national menace."

"The needs for editors to print the truth whether the facts are credible or discreditable to their community or State has never been greater than it is today," he said "and never has been the responsibility resting on each and every editor to his full share toward ridding his section of the forces and ideas which are menacing its intellectual progress and spiritual growth and making a jest of justice and a lie of liberty."

Stressing the possession of "something which is more precious than all the wealth of plutocracy and which he felt many editors looked upon lightly Mr. Harris said, "this magnificent possession is the right of the press to express his opinion untrammelled."

### Governor Lynch To Speak Before Local Kiwanians

Governor Lynch of the Carolina district will be the principal speaker at the meeting of the Kiwanis club tonight in the social rooms of the Eighth Street Christian Church.

Members of clubs from Tarboro, Williamston, Wilson, New Bern, Kinston and Goldsboro, will be in attendance.

The session promises to be one of the most interesting in months past, and it is hoped every member of the local club will be present.

### Urges Farmers To Gather At Annual Meet

Convention at State College July 26-28 To Be Important Affair.

The annual farmers' and farm women's convention will be held at State College, Raleigh, July 26, 27 and 28th, according to an announcement received today by the Pitt County Department of Agriculture. It was stated that the program would not be completed in time to send a copy to the hundreds of farm workers throughout the State, but hope was expressed that everyone would attend and take part in the great time which is being planned.

Mrs. Jane McKimmon and her workers are promiscuous a most attractive program for the hundreds of women to be in attendance, the announcement stated. The animal husbandry, agronomy, horticulture and poultry departments are making plans for splendid programs and exhibits. In fact, opinion prevails that these will be the outstanding features of the convention.

Of exceptional interest is the hog calling contest and the horse shoe pitching contest which will be repeated again this year. A string band from Alamance County is going to provide music for the occasion and everybody is expected to show old-time pep.

A loving cup will be offered the county having the largest delegation. This will be determined by multiplying the number registered from a county by the number of miles from Raleigh to their county seat.

## RUMANIANS VIEW BODY DEAD KING

### Body of King Ferdinand and To Lie In State Until Sunday When Burial Takes Place.

Bucharest, July 22.—(AP)—In a simple golden oak casket, covered with flowers from Queen Marie and his daughters, the body of King Ferdinand rested today in the golden hall of Cotroceni Palace. Thousands of sorrowing Rumanians passed the bier to do honor to their beloved King.

The body was brought to the winter palace yesterday from the royal summer estate at Sinal, where the monarch died. It will lie in state until Sunday when burial will take place in the royal mausoleum at Curtea De Arcus. On his tomb will be engraved the words: "I am a Rumanian, first, last and all the time."

Cans boomed as the funeral train came to a stop in the capital. Although rain was falling, silent crowds watched as the coffin, surmounted by the sovereign's sword and capital, was borne from the station to a gun carriage and thence to the palace. Men, women and children wept as the cortege passed.

Awaiting the body at the palace were the regents, cabinet members, the commander-in-chief of the army and civil authorities. When the procession made its way through the portals of the palace, Prince Nicholas, in crepe banded naval uniform, walked close to his sister Princess Iligana, wearing deep mourning.

With the boy King Michael's reign established, the country remains calm and the government has made known its determination to crush any attempt to regain the throne for Prince Carol. In this connection the story is recalled of a conversation which King Ferdinand had last year with M. Bratianu who has since become premier.

"I would have him shot," Bratianu is reported to have told the King when talking about a report that Carol was leaving Paris and proceeding to Rumania.

"Take care that he does not have you shot," Ferdinand is quoted as having replied laughingly.

Bucharest, July 22.—(AP)—A deep impression was created in Bucharest by the private letter, which King Ferdinand wrote to Premier Bratianu two days before his death which has just been made public.

Writing as though he had a presentiment of death, the monarch spoke of his love for his country, of Carol and the wound dealt to him by his first born son, and of the passing of the crown to the head of the boy Michael. The letter began:

"My dear Premier: "As a Christian, I have always been influenced by the thought of the moment when I will find myself before my God. As a Rumanian and King, I have sacrificed my life on this earth, but my love of country does not permit me to consider my duty ends with this life, and I can not but think of what follows it.

"God willed that the crown which the fortunes of the country are indissolubly bound up, should pass to the head of the minor Michael (Michael). I pray heaven will accord him its benediction; that under his reign Rumania may be strengthened and enlarged—Rumania which has been built up by so many sacrifices.

"I appeal to all good and wise citizens to aid him to the utmost of their power in promoting orderly progress of the State."

After mentioning Prince Nicholas his son, as regent, and again referring to Carol's renunciation, the King added:

"My son Carol must seek to impose respect for the present regime on all desirous to injure or destroy it. The situation created by his renunciation of the throne was brought about in such a way as to make it his most imperative duty as a Rumanian, as a son and as a parent to respect the undertaking entered into of his own free will without being influenced by any one."

Early, a native of Poly county, has been a turbulent patient ever since his commitment as a leper shortly after the Spanish-American War. He contracted some kind of "skin disease" while serving with the United States army in the Philippine Islands and physicians later pronounced his ailment as leprosy.

The North Carolina leper colony under guard in a specially built house at Washington, and was removed to Carville, La., when the Government constructed the leprosarium.

Early's case had responded favorably to the Chaulmoogra Oil treatment and he was well on the road to recovery when he made his successful break for liberty July 19, according to reports from Carville.

## DETROIT MAN MAY COMPETE WITH BYRD IN SOUTH POLE TRIP

### San Francisco, July 22.—(AP)—Captain George H. Wilkins, of Detroit, who led two airplane expeditions to Alaska in an effort to fly over unexplored areas in the Arctic, has indicated that he may compete with Commander Richard E. Byrd to be the first to fly over the South Pole.

Captain Wilkins conferred yesterday with airplane manufacturers here relative to a plane suitable for a South Pole flight. He refused to discuss his plans in detail.

## REDUCTION INCOME TAX IS PROBABLE

### Proposal Included In Reduction Plan Outlined By Senator Smoot, of Utah.

Rapid City, S. D., July 22.—(AP)—Reduction of taxes applying on this year's income which would be paid beginning next March 15, appears probable.

This proposal is included in a tax reduction plan outlined Thursday by Senator Smoot, Republican of Utah, chairman of the finance committee to President Coolidge.

The administration is prepared to go ahead with the tax slash at the next session and Senator Smoot expressed the view that at least \$300,000,000 in the annual burden of federal levies could be lopped off in the new measure.

The desire for early enactment of the proposed tax revision legislation is another reason in the opinion of the Utah Senator for an early special session of the Congress, beginning about Nov. 1, a month ahead of the regular meeting.

It would be necessary to have the tax bill put into law before March 15, if this scheme went through. Chairman Green of the House Ways and Means Committee, which will write the first draft of the measure is preparing to call his committee into session this fall.

While little relief is in sight for income taxpayers the program of Senator Smoot would give a cut to the taxpayers with incomes between \$15,000 and \$60,000. Present normal rates of 1-1-2 per cent on the \$4,000 income; three per cent on the next \$4,000 income and 5 per cent on all over that appear destined to be continued along with the present exemptions of \$3,500 for married persons and \$1,500 for single persons.

Corporations which have received no cut in their normal taxes in recent years now seem most likely to get the lion's share of relief. Senator Smoot favors reducing this levy from 13-1-2 per cent to 12 per cent, which he estimates would eat up \$150,000,000 of the prospective slash.

Miscellaneous levies also would be wiped out in the Senator's program, including those on admissions and dues, however, he would continue the automobile tax, cutting it from three per cent to 1-1-2 per cent.

Coming to the summer White House yesterday on his return from Utah to Washington, Senator Smoot missed the visit of Secretary Hoover, who had urged immediate federal relief in the Mississippi flood. He said this recommendation constituted an "imperative" reason for calling the special session of Congress which is under consideration by President Coolidge.

## Robbers Steal \$14,000 From Harnett Farmer

Raleigh, July 22.—(AP)—Unknown robbers at noon today broke into the home of Dave Truelove, aged Harnett county farmer living near Erwin, carted off an iron safe, broke it open and removed about \$14,000 in cash, the Raleigh Times was advised by deputy sheriff C. H. Biggs, Lillington.

It was regarded as the boldest daylight robbery ever staged in Harnett, sheriff Biggs reported.

Truelove was said to have kept his money at his instead of in a bank. He is considered quite wealthy. No trace of the robbers has been found, it was said.

## SOLICITOR TO CLEAN HOUSE IN WILKES CO.

### Bills To Be Sent To Grand Jury Against Seven Prominent County Officials.

Winston-Salem, July 22.—(AP)—Solicitor John R. Jones, of North Wilkesboro, announces that bills will be sent to the grand jury against seven prominent Wilkes county officials in connection with notes, checks and county trading which has been partly uncovered in Wilkes during the past weeks.

It is reliably stated that Solicitor John R. Jones intends to prosecute all who come into Superior court and that the grand jury will be asked to conduct an exhaustive inquiry into county matters: into the failure of county commissioners to comply with the law requiring the bank of banks to furnish proper security for the deposit of county funds; into various other county matters, including the rumored signing of bonds in blank by members of the board of education and other alleged irregularities that have been called to attention of the office of state's solicitor.

In other words, it is reported that there is to be a general housecleaning in Wilkes county, which will be designed to clear up all irregularities and to uncover all law infringements, if there are any. The product of the county government and with respect to officials or individuals who are had the care of county or state funds or expenditure of same, in their hands. The investigation which is to be put up to the grand jury is expected to have a far-reaching effect.

W. D. Woodruff, sheriff of Wilkes county for eight years, apparently has failed to settle in full for tax collections made during his term of office, according to admissions made by county officials. It appears that in making his final settlement with the board of county commissioners on March 24, 1926, he gave checks that turned out to be worthless in character.

These checks have been paid in full by the county treasurer, T. M. Gysel, since that time, he having been unable to realize on them. Mr. Woodruff's alleged short sale of funds at the time of his settlement reached the figure of \$20,495.27.

## U. S. POLICY IN NICARAGUA IS ATTACKED

### Solomon De La Selva Tells Labor Conference of Wall Street Influence

Washington, July 22.—(AP)—Another attack on American policy in Nicaragua marked today's session of the Pan-American Labor Congress.

Solomon De La Selva, of Nicaragua, who first introduced a resolution condemning activities of the Marines in that country charged that Wall Street interests and not protection of American lives and property caused the American forces to be sent to Central America.

He made his charges in supporting a resolution opposing the agreement entered into between the Diaz Government and New York bankers on March 21, 1927. The resolution which said the bankers obtained undue control over the finances of the Nicaraguan Government and the economic and political rights of the Nicaraguan people was adopted unanimously by the Congress.

De La Selva said that as a result of every upsetting of political law in Nicaragua since 1909 there had crystallized a long control whereby American bankers had obtained the profits of Nicaraguan workers.

He explained the intention of the resolution was to aid opposition to the move in the forthcoming extra session of the National Congress of Nicaragua to consider obtaining a loan from the United States Government and to transfer to said U. S. Government the privileges and right which the bankers obtained by virtue of the March agreement.

# DEMPSEY WINS FROM SHARKEY BY KNOCKOUT

By ALAN J. GOULD  
The Associated Press Sports Editor  
New York, July 22.—(AP)—The "Hollow Shell" of Hollywood was loaded after all, it seems, and today Jack Dempsey, at 32, is on the high road of a sensational comeback as the result of a stunning knockout victory over Jack Sharkey.

In a finish as sudden and dramatic as it was marked also by sharp controversy the king of the heavyweight dropped Sharkey for the count of ten in the seventh round of their 15-round match and put an abrupt end, for the present, to the confident course of the young Boston sailor.

A vicious fight to the mid-section—a blow that aroused bitter controversy as to whether it was fair or foul—started Sharkey downward and a short left hook, flush to the chin completed the sailor's downfall. Sharkey himself as well as his handlers claimed a foul and they were supported by many ring-side observers as well as others in the vast crowd of 82,000 that filled the Yankee Stadium. But the referee, Jack O'Sullivan, after a moment of hesitation himself, decided it was a fair blow and tolled the count that brought victory to the bronzed out somewhat battered Dempsey.

It was hard won triumph for the man who sat on the heavyweight throne for seven years. It was a slashing, mauling battle that saw him rally from impending defeat in the first round, batter his young rival with a terrific attack to the body and finally bring his foe down. It was a stirring battle that saw the once great "Manassa Mauler" stumblon back much if not all, of his old punching power, all of his old gameness and a good deal of his old stamina to batter into defeat a foeman who had all of the assets of youth and speed but little of the hitting accuracy that had marked his previously sensational rise to heavyweight prominence.

Whatever the elements of dispute aroused by Dempsey's finishing blows, the victory was sufficiently decisive to restore much of Dempsey's old prestige, gain him one of the greatest ovations of his career, lift him over the first of his comeback barriers and send him on his way to a return championship with his conqueror of last September, Gene Tunney.

Although Promoter Tex Rickard today declined to make any definite announcement of his plans it is regarded as likely that Dempsey and Tunney will fight for the crown between September 15 and 20, possibly in Philadelphia, where they met last year, but probably at Soldiers Field, in Chicago. Rickard is understood to have virtually completed arrangements to shift the fight to a site outside New York because neither last night's battleground nor any other in the metropolitan district affords seating capacity to compare with the areas in Philadelphia or Chicago.

The Dempsey of today may not be the "Dempsey of Toledo" the "man killer" that battered Jess Willard into a helpless hulk with as devastating an exhibition of punching as the ring has ever seen. He may not, either be as formidable as he was four years ago when he slugged his way to victory over the Giant Argentinian, Luis Firpo, but he has come a long way along the comeback trail, observers seem agreed, since the dreary, rainy night last September when he floundered around against Tunney.

Dempsey's once lightning like speed of foot has vanished although his shiftiness remains. His punches carry again terrific power and somewhere, apparently he has regained a great deal of the old resources that enable him to "take it" and come back to him.

## SAY KNOCKOUT WAS A FOUL

New York, July 22.—(AP)—Undaunted by his knockout at the knockout at the shagging hands of Jack Dempsey, but persistent in his belief that the telling blow was a foul, Jack Sharkey will set out after a few weeks' rest to fight his way back to the fist heights from which he has fallen.

Paulino Uzcudun, the sturdy young Spanish conqueror of Harry Willis will be his next foe in a bout to be held in New York in about two months if the plans of Sharkey and his manager, John Buckley materialize.

Still certain he "can lick Dempsey," Sharkey today was firm in the opinion he would have won but for the manner of Dempsey's attack.

Sharkey's face and body bore little evidence of the pile driving force of Dempsey's blows. He suffered no lasting ill effects from the disputed body punch which helped to send him down.

Sharkey himself firmly believed the blow was foul and said so frankly after the fight although observing the formalities of a good loser.

While believing his fighter "was fouled half a dozen times," Buckley said he would not appeal the decision.

"The referee's word is final," he said, "turned to plans for the Paulino fight, which he expects will be staged in Madison Square Garden late in September.

In the meantime, the Boston boxer who trains in the city and finds his recreation in the wilds, will seek solace and renewed nerve force in a fishing trip in the interior of Nova Scotia. "This was to be his destination, "win or lose," and Sharkey did not change his pre-battle plan.

While the battle was being waged last night, Mrs. Sharkey sat alone in their hotel room in upper Broadway, honing, praying and trying not to imagine the scene that was being enacted five miles away.

First news of her husband's downfall came to her faintly in the shouts of newsboys in the street below.

"Dempsey wins by knockout."

## Demand Good Drinks With Lunches

### "Stop Cheating Us," Say School Children

An amusing boycott which a number of school children have recently enforced against a certain soft-drink dealer in one of the large cities affords new evidence of the independent spirit of the rising generation. "We used to trade with this dealer regularly," says the spokesman for this group, "but never again until he learns that when we ask for Orange-Crush we want Orange-Crush—and nothing else!"

The reason for the positive stand these children have taken is explained by the fact that Orange-Crush is made from real oranges, contains real orange juice, whereas the cheapened substitutes which are offered in its stead get their flavor entirely from imitation extracts. In making Orange-Crush, the juices of luscious oranges is blended with the delicate flavor of the peel, the zesty tang of the fruit acid found in oranges, lemons, and limes—a pure food color such as is used in cakes and candies, healthful carbonated water, and pure cane sugar—a wholesome, helpful drink for children.

Mothers are warned to instruct their children always to ask for Orange-Crush by name and to insist that it's served them in the Krinkly Bottle.

## Dempsey and Sharkey Share Half Million

New York, July 22.—(AP)—Jack Dempsey and Jack Sharkey split a purse of slightly more than \$500,000 for their battle last night, which drew a gate of \$1,075,000 and attendance of 82,000 according to Tex Rickard's estimate. It was the fourth million dollar fight in ring history, in all of which Dempsey has been a principal. The former champion now is assured of a cut in his fifth big money fight when he meets Gene Tunney in a return title bout.

Rickard's contracts with the fighters called for Dempsey to get 27 1/2 per cent and Sharkey 22 1/2. Dempsey was understood to have been guaranteed \$250,000 and on a percentage basis, it figures to slightly more than that, with Sharkey getting a little over \$200,000. Here are the promoter's figures:  
Total receipts ..... \$1,075,000  
Dempsey's share ..... 252,750  
Sharkey's share ..... 206,803  
Federal tax ..... 53,750  
Richard's share ..... 454,183

## Big Boxing Match To Be Pulled Off At Fort Bragg

Many Greenville boxing fans have expressed their desire to attend the big boxing match Friday night at the Fort Bragg War Department theatre at 8:15 o'clock.

Captain Lester Jones, officer of Battery E of the 113th Field Artillery of North Carolina National Guard here, stated this morning that tickets for the fight can be secured from him immediately by wire.

The fight is expected to be one of the biggest ever pulled off here. In the main bout, K. O. Warrer, A. A. U. champion and the prince of all the University of North Carolina pugilist, will take on Chief Mayle, the heavyweight champion at Fort Bragg. This fight will go for four three minute rounds.

The semi-finals call for two first class fights when young Wellons, of Fayetteville, meets Eddie Collins, the 5th field artillery flash, and Treese Johnson, of Statesville, and Mike DeVora, Fort Bragg, come together. These fights will go for ten, two minute rounds each.

Four fast matches have been arranged for the preliminary show in addition to the main bout.

These matches are being promoted as a part entertainment for the first reunion of the 113th field artillery regiment, Veterans of the World War, who will assemble here Friday, and Saturday.

## Dempsey Suffers No Ill Effects From His Fight

New York, July 22.—(AP)—Showing no ill effect after his spectacular knockout victory over Jack Sharkey last night other than a slight puffiness about the eyes, Jack Dempsey was up early today and played 18 holes of golf with his manager, Lee F. Flynn.

Jack went round in "about 100 strokes." Out of consideration for Dempsey's strenuous evening and the fact that Leo was right at the top of his own proficient game, no accurate score was kept.

After the game, Dempsey went to his hotel to prepare for an immediate trip to Los Angeles. Jack plans a three weeks' vacation before entering training again for the championship fight with Gene Tunney in September. Both Dempsey and his manager believe the match will be staged in Chicago about September 15.

## BOUT AT FORT BRAGG TONIGHT

Fort Bragg, N. C., July 22.—(AP)—A four-round bout between Chief Mayle, soldier, and Ad Warren, University of North Carolina heavy will feature a ring show here tonight to feature the reunion of 113th field artillery, war time National Guard regiment.

## CUBS GO BACK TO TOP PLACE IN NATIONAL

(By The Associated Press)

Joe McCarthy's Chicago Cubs were back at the top in the National League race again today but not by dint of their own energy. The leadership changed hands for the fourth time in as many days when the Pittsburgh Pirates lost both ends of a double-header to the Boston Braves. The Cubs failed to solve Herb Pernet's offerings and lost to Philadelphia, 7-3.

Kremer gave only five hits in the first game at Boston, but the Braves bunched hits on them in the first inning for two runs and a 2-1 verdict. The Braves also won the second game in the initial inning, when they put across three tallies for a 5-2 win.

The Giants exploded a wagon load of fireworks in the ninth against the St. Louis Cardinals but lost the series opener 7-6. Coming to bat five runs behind the New York Giants drove Jess Haines to cover and scored five runs. In the tenth DeVormer threw wild to third and Bottomley crossed with the winning run. Frankie Frisch, playing in his old camp, was the batting star, getting three hits, in five times at bat one of them a home-run with a runner on base.

Cincinnati and Brooklyn batted 13 innings before the Reds came out on top 2-1.

The Robins had the bases loaded in the 10th inning with only one down.

Conally had the New York Yankees in the hollow of his hand until the eighth when the Hugmen put across four runs and took the game 4-1. Babe Ruth and Lou Gehrig each collecting a double.

The Athletics won the series opener from Cleveland, 8-3, hitting Joe Shaute over head.

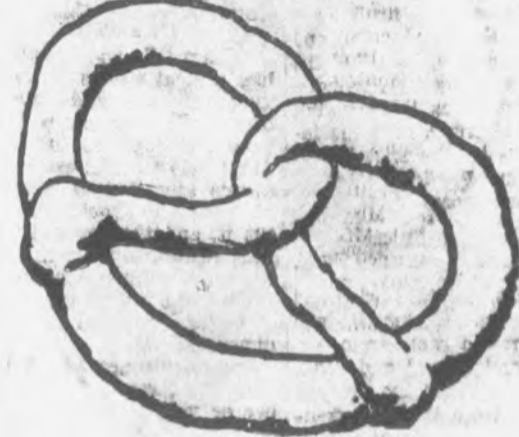

A double by Bennett with the bases full in the ninth gave the St. Louis Browns a victory over Washington, 5-4. The second game was halted in the seventh by darkness with the teams deadlocked, 2-all. Bucky Harris, the Senators field boss, was banished for arguing with an umpire. "Goose" Goslin got four hits in four tries, one a home-run.

Regan's home run with a man on base failed to keep the Boston Red Sox from defeat, the Detroit Tigers trimming Carrigan's team, 7-3.

## NEW BERN GUARDSMEN WIN FROM GREENVILLE

Fort Bragg, N. C., July 22.—(AP)—New Bern guardsmen won their third straight victory in 113th National Guard League yesterday by defeating Greenville, 4-2.

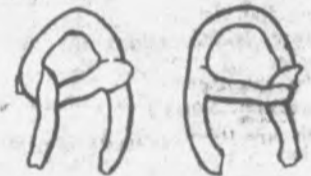

## Bite yourself an Alphabet

## Become a Pretzeleer

There's a new order—the Order of Pretzeleers. Any man, woman or child, from 6 to 60 can join. All you need to belong is a set of teeth (first teeth, second teeth, or store teeth) and some O-So-Gud pretzels.

You already have the teeth. Your grocer will supply the pretzels. You initiate yourself by biting out an A. It can be done in two bites, if you are a clever biter. Like this or this:

Bite your A and you're a member—a full fledged pretzeleer privileged to wear a uniform, if you can find one. After you bite your A, eat it. Then go as far as you like up to Z.

All of which is to show you that O-So-Gud pretzels are good to eat and good for those who eat them—with soup, salad, hors d'oeuvres, dessert, between meals and all the other times you like to eat.

They're baked brittle, baked crisp, baked crunchily. They're easy to digest. They're salty..... Crunch, crunch... smack, smack.

For biting alphabets, and for eating, you'll like pretzels baked by Uneeda Bakers.

## O-SO-GUD PRETZELS

Bite right and you can spell anything with the big O-So-Guds. They're full of twists, turns and holes.

Called Slim Jim for a good reason. Ask your grocer. In handy packages bearing the N.B.C. Uneeda trade mark.

## HUNTER REUNION

The descendants of Henry Hunter and Martha Sloan Hunter will hold their reunion and home-coming day at old Sardis church, 6 miles south of Charlotte, on a. August 12th. There are between three and four thousand of these descendants in Mecklenburg and adjoining counties. All of the Hunter relatives and their friends are invited to be present with well-filled dinner baskets. Special programs are being planned for the older people and also for the younger ones.

The grandparents are buried at old Prosperity church in Mecklenburg county, where Henry Hunter was a prominent elder. He and his good wife came to America from northern Ireland before the Revolutionary War, and he was present at the signing of the Mecklenburg Declaration of Independence in Charlotte, May 20, 1775.

For further information address Dr. M. C. Hunter, Huntersville, N. C., or J. P. Hunter, Derita, N. C., or L. W. Hunter, Charlotte, N. C., or Rev. W. M. Hunter, Davidson, N. C.

## DEVEREUX PLAYERS AT COLLEGE LAST EVENING

The Devereux Players presented "The Romance of Youth" last night at East Carolina Teachers College. The play was really a dialogue, having only two characters, M. J. Zintz Graf, who took the part of Aurea, the daughter of the Duke of La Fontana and Mr. Clifford Devereux, who took the part of Berto Cellini.

They were each a heroine and hero, respectively. The heroine and the hero, as you might surmise, both excelled in their parts as hero and heroine in a play with just two characters. The play was, in places, dramatic, and the character showed themselves equal to the task of being dramatic. At other places where melodrama appeared they were equally at ease in their roles.

Berto Cellini came, the madcap son of the innkeeper, the Duke de El, the professional lover who loved with the skill of an artist. To him love was an art and art was love. Yes, he came and as come into her heart and he nevermore went out. Forty-five years later when he was a street musician, playing under the windows for the coins that might drop from the hands of them that had plenty, and she a grandmother gray, and said of step and a widow, still this same thing that makes us all skin even to the cowboy, the princess, the hobo and hettes, the same thing that keeps the world young when it would otherwise grow stale and dumb, well, this was what made them young again, even in age, and made them both happy in the hope that they might totter down the twilight slope together, hand in hand, with hearts about as one—forever.

**Women Find It Rather Hard to Get Into Cuba**

Havana, July 22.—(AP)—Regulations preventing women from visiting Cuba without permission from their husbands have been modified by President Machado, so far as Americans are concerned.

A storm was created when Dr. Santiago Cantares, commissioner of immigration recently announced under the terms of the original decree, women who did not have the proper papers from their husbands would not be permitted to enter the country.

The decree as originally framed, was aimed at undesirable foreign women who were finding Cuba a profitable field at the time. It had never been used against an American until last week when it was invoked against Mrs. Anna Joy. She was sent to a detention camp.

As a consequence of the action, a group of transport workers and a tourist commission succeeded in drawing orders from the secretary of the treasury that discretion be used in invoking the decree and a memorandum was issued by President Machado guaranteeing American citizens every facility within reason for landing here.

**Canton Men Not Guilty of Murder**

Waynesville, N. C., July 22.—(AP)—Apparently unable to pierce the maze of conflicting evidence offered by witnesses on both sides in the trial of Lloyd Harkins and Odell Mehaffey, Canton men charged with the slaying of J. E. Coffey on a street in Canton last October, the Buncombe County jury trying the case brought in a verdict of "not guilty" in both cases at 11:30 o'clock Friday morning.

They had heard the charge of Judge Tam C. Bowie, presiding over the Haywood Superior Court, at the opening of court Friday and had taken the case in hand at 10:30 o'clock, returning in an hour with their decision.

The men were free, in this, their second trial, after having secured a new trial on appeal from conviction at the first hearing of the case.

Harkins had been found guilty of manslaughter and sentenced to eight years and Mehaffey had been given fourteen years on a second degree charge. The widow of Coffey, who was on trial with the two Canton men at the previous term of court, was freed.

**ORPHANAGE MATEON CHARGED WITH SENDING CHILD POISONED CANDY**

Richmond, July 22.—(AP)—Mrs. Eva Hollowell, matron at a Methodist orphanage here was in the city jail today pending a federal grand jury investigation into a charge that she sent poisoned candy through the mails to Robert Thompson, Aurora, N. C. She was arrested late yesterday and bail fixed at \$500.

Mrs. Hollowell, 50, denied the charge when arraigned before the U. S. Commissioner but admitted that she knew Thompson. She is said to have made no resistance to arrest but expressed dismay when informed that she would have to remain in jail.

The candy in the case was mailed from Norfolk to Aurora, accord-

**Women Killed By Fall From Hotel Window**

Atlanta City, July 22.—(AP)—Whether Miss Lily Bell Jaeger, 25 year old heiress of New York and Montclair, N. J., leaped or fell to her death from a seventh story window of the President Hotel, was a mystery today.

County physician Lewis R. Souder reported the death as "probably accidental," while captain of detectives Farley called it "an open and shut case of suicide."

Daniel C. Jaeger, the woman's brother, said his sister had been melancholy more than a month and had come here "to get in better spirits."

Dr. Souder, however, pointed out that the window screen had been burst, the telephone receiver off its hook and a chair beside it overturned. A half emptied unopened bottle of whiskey also was found.

Miss Jaeger was the daughter of the late Otto J. Jaeger, millionaire head of the plush manufacturing firm bearing his name.

Three years ago she was reported engaged to Robert E. Treuman, Ithaca, N. Y., hardware manufacturer and divorced husband of Irene Castle McLaughlin, but the report was never confirmed.

**Macon Farmer Passes Away**

Franklin, N. C., July 22.—(AP)—Thomas Robinson Gray, 30 year old, one of the best known farmers in Macon County, and a beloved Confederate veteran, died at 1:30 o'clock Thursday afternoon at his summer home, six miles east of Franklin. He had been ill from heart trouble and other ailments for more than two years.

Funeral services were to be held at 3 o'clock this afternoon from the Salem Church, of which he had been a member for more than sixty years.

Mr. Gray served as a lieutenant in the Confederate Army, and also was on the county draft exemption board during the World War. He was known to practically every person in Macon County.

Surviving him are his widow, one son, J. M. Gray of Raleigh, assistant director of agriculture extension department at State College; three daughters, Mrs. Horace Hurst of Franklin, Mrs. P. O. Dryman of near Statesville, and Mrs. David Willis of New Bern.

He was an uncle of Charles K. Robinson, editor of the Asheville Times and of Jule Robinson, also of the Times.

Salesman For Face Cream Learns a Good Lesson

Mr. Vandivier, New York writes: "I was a salesman of creams for healing pimples, blemishes, etc., but when my face broke out with blotches, pimples and blackheads, I tried one salve after another with no results. I found it as impossible to sell skin creams as a bald headed man finds selling hair tonic. Finally I decided I would have to get at the cause—constipation. I was amazed to find that within a few days after taking CARTER'S LITTLE LIVER PILLS my skin took on a new healthful look." Druggists, 25c. and 75c. red packages. Try to-night—To-morrow refreshed.

Jack Dempsey's display last night of a portion at least of his old form now reopens in the minds of many, who were not altogether satisfied with his fight last fall with Tunney, the question of "Was Dempsey whipped?" Two months hence this question will no doubt be answered and in the meantime there will be considerable speculation as to the abilities of the present and the former champion.

This is a bad year for floods. To say nothing of what happened in the Mississippi valley, disastrous overflows have been reported from both Russia and Saxony, and the news has come of the drowning of a thousand people in a single district of China.

An immigrant who came to New York in 1888, has just sold a meat business worth ten millions a year. Referring to this and several similar instances, the Philadelphia Record ironically supports the demand of native workers for more stringent restrictions on immigrants on the ground that "they are too smart for us."

Installment buying of automobiles is said to have reached the figure of five hundred millions last year. There are only four million Americans with incomes of more than \$2,000, but there are considerably more than ten million registered cars. Six million Americans earning less than \$40 a week own (and mostly owe for) automobiles. Evidently such

# Market Report Cotton--Stocks--Grain

**COTTON**  
New York, July 22.—(AP)—Prospects for further showers in the South where dry warm weather is supposed to be needed to check boll weevil activities, seemed responsible for advances in the cotton market today. There was some early irregularity under liquidation or realizing but after selling off to 18.44, October contracts advanced to 18.75 with the mid-afternoon market ruling about 22 to 25 points net higher.

Closing cotton New York spot steady; middling 18.60.

**GRAIN**  
Chicago, July 22.—(AP)—Renewed uneasiness owing to black rust damage and crop comment from Europe led to enlarged buying and to higher prices in wheat. Reports at hand told of a streak of black rust running from Southern Minnesota and North Dakota into Canada. What the result would be the report said could only be determined by weather of the next few days.

Wheat closed firm 3-4 to 1-1/2 higher, corn 1-1/4 to 1-3/8 cent up; oats unchanged to 1-4 cents advance and provisions 5 to 20 cent off.

**STOCK MARKET**  
New York, July 22.—(AP)—The stock market continued to push upward today despite repeated selling attacks, but the advance was by no means uniform. The further easing of the credit situation helped to maintain bullish enthusiasm, although there was an unusually heavy volume of week-end profit-taking which impeded the efforts of speculators for the advance.

A reported turn for the better in the lumber trade following closely reports of improvement in the steel and copper industries, strengthened hopes of good business this fall.

Meanwhile rumors of special dividend action in the near future by directors of General Motors and other large corporations kept speculative enthusiasm at high pitch.

The closing was irregular. Total sales approximated 1,800,000 shares.

**Bishop Cannon Clarifies Self**  
Richmond, Va., July 22.—(AP)—Bishop James Cannon, Jr., of Southern Methodist Church, who disagrees with a statement attributed to Wayne B. Wheeler, general counsel for the Anti-Saloon League in regard to the propriety of Southern Democrats placing a "dry" candidate in the field in the event both parties nominate a "wet" issued a further statement last night, "clarifying" his position.

Setting out the statement of Mr. Wheeler was the expression of only one individual, Bishop Cannon said that he could not agree with the appropriateness of such a statement from a league official.

"It is not within the province of the Anti-Saloon League of America to nominate an independent 'dry' candidate for either 'dry' Republicans or 'dry' Democrats," he said. "It is the policy and duty of the Anti-Saloon League to do its utmost to secure nomination of 'dry' presidential candidates by both political conventions and after the two conventions have nominated their candidates it is the business of the Anti-Saloon League to refer before the voters the personal and official records of those candidates concerning the prohibition law, so that the voters can determine for themselves on the basis of the records so furnished for which candidate they will vote."

He declared that his record as an Anti-Saloon League official would show that he had never favored a prohibition plank either in a State or national convention and that he had opposed the efforts of William Jennings Bryan to have this done.

**Much Military Importance To Pacific Flight**  
Washington, July 22.—(AP)—Vast military importance involving control of the Pacific attaches to the successful flight of the army aviators, Maitland and Hegenberger from California to Hawaii.

This was officially disclosed by Major General Charles U. Sumner, chief of the army general staff, in an address last night at a dinner in honor of the young lieutenants given by the National Aeronautical Association.

The army chief of staff declared that it had long been recognized that the nation holding the Hawaiian Islands had the military key to the Pacific, controlling both the eastern portion of that vast ocean as well as the western coast of the United States.

The successful negotiation of the vast stretch of sea from California to Hawaii by air, he added, had simplified defense of the islands as well as the other Pacific possessions of the United States.

"We can imagine clouds of airplanes taking off from California and a few hours later landing at the Hawaiian Islands," the general said. He added that these planes would thus augment the island force and furnish a great air defense.

**Madrid. — A new Mona Lisa**  
has recently been discovered in Longrono, Spain. But this "Giaconda" of 1927 is a living likeness to the celebrated picture which hangs in the Louvre in Paris and is no other than Senorita Celia Marquinez, a modest Spanish beauty born in Pamplona.

Those who are familiar with the famous portrait by da Vinci have been struck by the great resemblance between this woman of the twentieth century and that of the sixteenth. Her head and face are of the same shape with the hair arranged in much the same manner and her smile is just as enigmatical.

Cinema directors are trying to get Senorita Celia to sign up important contracts.

Don Quixote is the only hero in world literature who died in his bed, according to Professor Manuel Manzanares who recently spoke before the German-Spanish Center.

This fact, he says, is all the more significant inasmuch as the death of all other great literary characters was no more than an accidental event, emphasizing the character of the individual, while that of Don Quixote was the logical end. He died like nearly all mankind.

Comparing the death of Don Quixote with that of the Hector in the Iliad, the tragical end of Romeo and Juliette, the death of Hamlet, Desdemona, Othello and Marguerite, Professor Manzanares pointed out the extreme simplicity of the great hero of Cervantes, summing up his entire life in the desire to be noble.

**THE OLD, OLD QUESTION OF THE PLACE**  
of Christopher Columbus' birth is still unsettled. Don Pedro Izquierdo Coral of Vigo, is soon to publish positive proof that the great discoverer first saw light at Pontevedra in Galicia.
