GREENVILLE, N. C. MONDAY AFTERNOON, AUGUST 1, 1927.

## POSSE HUNTS ASSAILANT OF YOUNG WOMAN

Two Hundred Men, Heavily Armed Search For Paul Bledsoe, Negro, of Nash County

Nashville, N. C., Aug. 1.—(AP)—Nash county officers and civilians today continued their search for Paul Bledsoe, 30, negro, alleged assailant of a 13 year old girl Sunday. The negro, who was arrested escaped officers when he asked that the car in which he was being brought to Nashville be stopped in order that he might be allowed to "get out and pray."

He fled and has not been seen since. The negro was near capture early this morning when members of a posse came upon him not far from Bailey, in an abandoned shack. He was attempting to "free" himself from the handcuffs applied when he was first captured. He dashed for a door, however, and knocking down several men, eluded capture. At noon today the posse, had been increased to nearly 200 men, heavily armed. Violence was feared if the negro was captured. Bledsoe is described as being five feet, ten inches in height; bald-headed; has a scar on his head, and knee has been cut. He was formerly employed by a farmer living near Bailey.

## STEAM STILL IS CAPTURED

Ten Gallons of Whisky Also Taken By County Officers Near Greenville.

Officers of the sheriff's department today reported the seizure of a 250-gallon whisky still about five miles east of Greenville this morning about four o'clock. The still was one of the finest taken in this territory in some time. It was of the steam type, and capable of producing from 200 to 300 gallons of contraband intoxicants at one distillation. While the operators nor any whisky were taken in the raid, officers reported the finding of ten gallons of corn "hooch" a short distance from where the original raid took place. It is not believed that the whisky was the property of the still operators. The officers were departing from the location of the still when they noticed that an automobile had done considerable turning in the roadway. Working upon the theory that the car was the property of bootleggers, the officers conducted an investigation which resulted in the finding of ten gallons of whisky secreted in a dense growth of vegetation nearby.

This is the first important capture made by county officials in the last ten days, although township constables have reported raids in which a number of members of the illicit traffic were apprehended.

## Makes Confession At Murder Trial

Franklin, La., Aug. 1.—(AP)—James Beadle, one of the three defendants in the Leboeuf murder trial, today made a confession to sheriff Charles Peccot, the sheriff announced. Sheriff Peccot said Beadle admitted being present when James J. Leboeuf was alleged to have been slain. The sheriff declined to give any more details, explaining they would be related when he took the witness stand.

Announcement of Beadle's confession followed a request by him in open court for separate counsel to represent him. Both Mrs. Leboeuf and Dr. Decher are alleged to have made statements accusing Beadle of firing the two shots which ended Leboeuf's life.

## SOUTHERN COLLEGIAN WINS DIAMOND FAME

New Orleans.—(AP)—The adaptability which made Eddie Morgan either a football or a baseball player at Tulane University has landed him a regular berth in the outfield of the New Orleans Southern Association Club. Morgan is one of the outstanding stars of the league. His record reads like that of a veteran. In 82 games he hit for .352, smacking out 91 singles, 17 doubles, eight triples and eight home runs.

## TODAY

Ford, Aged 64, Likes Life. Speed is the Thing. Marie and Charles Fifth. All Going Nicely. (By Arthur Brisbane) Copyright 1927, by Star Co.)

Henry Ford, 64 years old Saturday, says life interests him now more than it did four years ago, "because he has a new job to tackle." He meant his new car. "There is no standing still in life. Men go ahead or go backward. Ford goes ahead and life interests him because he is everlastingly trying something new."

In all the excitement about the new car, and getting ready for the big automobile fight in the fall, Henry Ford and his son, Edsel, find time to attend to other things. Mr. Mayo, chief Ford engineer, says plans have been perfected by Henry Ford for a giant airplane to carry one hundred passengers and the construction of the machine will begin in sixty days. The plane will be all metal, driven by six motors, air cooled.

This real passenger flying machine is not built for great speed. It will carry its 100 passengers at 125 miles an hour, more than double the average speed of any express train, with all the comfort of Mr. Carry's latest "Pullman car" including sleeping accommodations.

If General Motors and one of two other big concerns will now start competing with Mr. Ford in super-airplane construction, things will move rapidly. And Ford would be pleased, for he isn't building airplanes for profit. For profit has "another business." Will Mr. Sloan and Mr. DuPont ask Mr. Knudson "to turn out a flying Chevy?"

This nation is interested and its future safety is involved, in high speed airplanes, to overtake and destroy an invading airship. "Big bombers" are needed, for retribution if any nation should attack us, and it became necessary to destroy a few of their cities, as a warning, but for safety here, the high speed plane is the thing. You will read soon about the test of a fast plane, by Lieutenant A. J. Williams of the U. S. N.

It is a small blue and gold racing machine that must be tried cautiously under right conditions, since it takes off at a speed exceeding the maximum speed of the average airplane. Its big Packard engine develops 1,200 horse power and is expected to develop 300 miles an hour.

With this plane, Lieut. Williams will try to "crack two world's records," the sea plane record, 258.5 miles, established by the Italian De Bernardi, and the land plane record, 278.48 miles set by Bonnett of the French army.

You realize mechanical engineering progress, when told that the 1,200 horse power plane weighs only 18 ounces per horse power. Very light for a horse.

Much about airplanes in this column, but there should be nothing else, until this government decides that a nation with \$600,000,000 more than it needs every year should spend some of millions to protect the other millions.

The only way to get anything done is to keep talking about it. REPETITION IS REPUTATION. Good advertising men prove it.

Queen Marie of Rumania, grief stricken, tired of life, may retire to a convent to "find rest." Such an energetic lady, and if she did, might know how Charles the Fifth felt after he retired to a monastery. Cardinal Granella said to the Emperor's son and successor, Philip the Second: "It is a year ago today that your father abdicated." Philip replied, "And a year ago today that he began to repent of it."

Everything going along nicely in the world of high finance and prosperity. Money, already cheap, is getting cheaper. To high finance and prosperity generally, high or low money is what water is to growing plants. When water or money is scarce, it is hard to make anything grow.

Mr. DuPont's company owns the biggest part of General Motors, is asked by the Trade Commission what he means by buying United States Steel stock. The Commission is afraid that Mr. DuPont may control United States Steel.

Mr. DuPont says there isn't any "control" in his purchase of \$14,000,000 worth of steel stock, and anyhow that is just a few bits of steel intended for stockholders of his company and though steel was a good thing to buy.

## DEATH TOLL OF QUAKE ON AN INCREASE

Officials Believe 100,000 Lost Lives in Recent Quake in Chinese Province

Peking, Aug. 1.—(AP) An unofficial unconfirmed report from the remote province of Kansu reaching the China International famine relief commission in Peking today led officials of that organization to the opinion that the death toll in the earthquake of May 23 may have reached 100,000.

At the present time there is no communication between the Peking government and the Kansu provincial regime.

There is no means of making an authentic check, however, since the commission Kansu committee, mostly missionaries, has dispersed because of foreign evacuation of the province.

There are no other agencies capable of compiling estimates of casualties.

Officials of the famine relief commission, trying to explain the size of the death toll, recall that there was a larger disaster in Kansu in 1920, when the deaths were estimated at 150,000.

The majority of the inhabitants of the region live in cave-like dwellings dug out of the soft loose hills.

## Chicago Mayor Not Assassinated

Chicago, Aug. 1.—(AP)—If Mayor William Hale Thompson, of Chicago has been assassinated, as an unnamed radio station broadcast last night, his close relatives and political associates were without knowledge of it.

Although hundreds of Chicagoans were excited by the report that came through their loud speakers last night, those nearest the mayor personally showed no alarm and received the report with only casual interest.

The mayor, they explained, is en route home aboard his yacht from northern Michigan and Wisconsin points after attending the governor's conference at Mackinac Island last week. The yacht was due here today. Efforts to communicate with the yacht last night were without success.

Like reports of the death of Jack Dempsey following his fight with Gene Tunney at Philadelphia last September, and of Jack Sharkey after his defeat by Dempsey in New York last month, the radio announcement of Mayor Thompson's assassination was heard by many persons who kept newspaper offices phones ringing during the night for confirmation or denial.

## DROWNING MAN SAVED SUNDAY AFTERNOON

Greensboro, Aug. 1.—(AP)—Having gone down for the second time Paul Wyrick, 23 year old young man who lives on route 7, was near drowning in Reedy Fork Sunday afternoon when he was rescued by R. F. Walters, of this city.

## MUCH TOBACCO TO COME HERE

Greenville to Rehandle Considerable Leaf From S. C. and Georgia Markets.

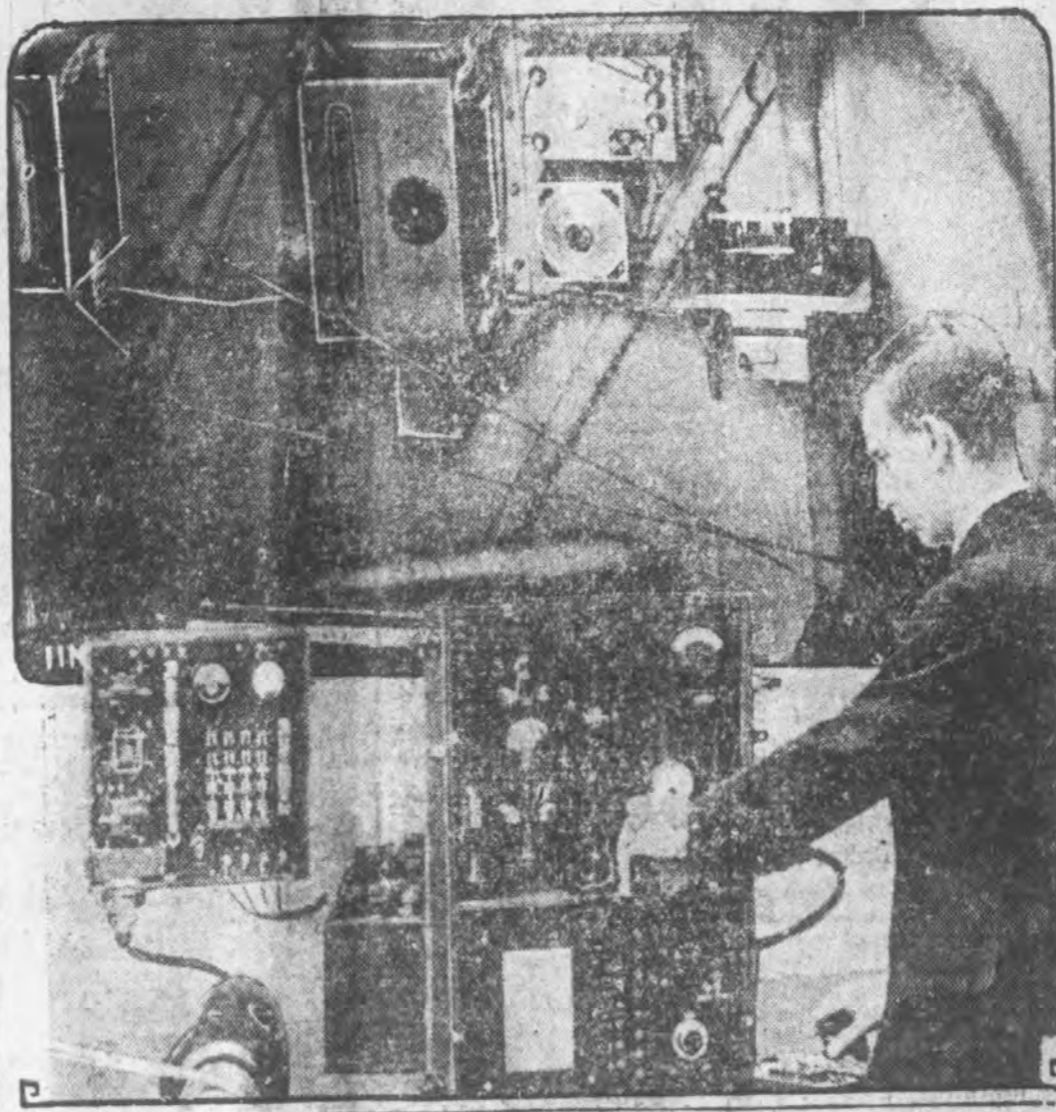

Much Georgia and South Carolina tobacco will be worked by tobacco factories in this city before the opening of the local market, according to K. W. Cobb, secretary-treasurer of the Greenville Tobacco Board of Trade.

This will give employment to hundreds of laborers who come in to Greenville annually to obtain employment on the local tobacco market.

Virtually all of the factories of the city will be in operation by next week this time. The Georgia market will open Tuesday, Aug. 2, and shipment to this city will begin immediately. The Georgia markets operate only four weeks, a few remaining open a while longer.

The employment of this additional labor on the tobacco market will result in the circulation of considerable sums of money in the business district of the city, and relieve any depression which may have been felt previously by merchants and business men in all walks of life.

## CLOSE-UP OF WHALE'S RADIO OUTFIT

Radio equipment on the Dornier-Napier plane in which Captain Frank T. Courtney will essay a flight from England to America is said to be the best ever carried by a plane. Pictures show the cockpit, with the radio controls as they will appear to the operator, and the broadcasting set, being tested out of the plane. (International Illustrated News.)

## PLATT HAYES PASSES AWAY INTAMPA FLA.

Son of Late Pres. Hayes to be Buried At Fremont, Ohio At Later Date.

Clearwater, Fla., Aug. 1.—(AP)—Funeral services will be held this afternoon for Rutherford Platt Hayes, son of the late President Rutherford B. Hayes, who died yesterday in Tampa.

Death resulted from an organic disorder. Mr. Hayes had been in declining health more than a year, but his condition did not become serious until Thursday when he was taken from his home here to a Tampa hospital. The body will be taken to Orlando for cremation Tuesday, preparatory to interment of the ashes later in Fremont, Ohio.

Born in Cincinnati, June 24, 1858, Mr. Hayes was graduated from Cornell University of 1880 and studied another year at the Boston School of Technology. In 1894 he married Miss Lucy Platt and three years later they moved to Western North Carolina where Mr. Hayes was a pioneer in the development of Asheville.

During his residence of more than 25 years at Asheville, Mr. Hayes was identified with many civic projects. At one time he had extensive properties in and around Asheville, owning in addition to his farm "Falconhurst," in what is known as the heart of West Asheville, a large tract of land on Beaver Mountain. As president of the Buckeye Water Company he supplied a part of Asheville with water for many years before the plant and pipe lines were purchased by that city.

Early interesting himself in agriculture, Mr. Hayes converted his large farm into an experimental station for scientific farming and conducted numerous soil tests of far reaching effect through that section.

In connection with his interest in agriculture, he was active in promotion of the old Western North Carolina Fair which was an annual event at Asheville. He disposed of a considerable part of his holdings before moving to Umatilla, Fla., where he resided a short time.

Later Mr. Hayes moved to Clearwater. Here recently he was a candidate for the Florida legislature on the Republican ticket but became too ill to make a campaign.

## NOTHING BUT MIRACLE CAN SAVE GENEVA

Outcome of Plenary Session Watched Anxiously From all Parts of World.

Geneva, Switzerland, Aug. 1.—(AP)—That nothing short of a miracle can prevent a break-up of the three power naval reduction conference before the week ends, either by a quiet agreement among the delegates to separate or by a showdown in the plenary session called for Wednesday or Thursday, was the general impression prevailing in Geneva today.

The fact that the plenary session, called for "treaty at any price," party, which was adherents in all three delegations but the postponement was not to the liking of the experts of the British and American delegations who hold that there can be no reconciling of the British and American viewpoints and to feel that nothing can be gained by delay.

The Japanese seem satisfied. In their opinion if Great Britain and the United States separate without an accord on limitation, and if the latter particularly starts a big building program Japan would be hard put to follow suit.

Among the number of nationals of countries which are not participating. The opinion is expressed that the conference is being allowed to drag on too long. French observers feel it would be unfortunate to permit the parley to collapse in public session and that it would be infinitely better in the interest of good international relations for the delegates to separate quietly after issuing a communique setting forth their respective views on the main points at issue just as did the delegates to the League of Nations preparatory commission on disarmament, when, earlier in the year they failed to agree on the text of a satisfactory draft treaty on a general reduction of armaments.

The week end saw a quickening of individual efforts to effect a compromise on the crucial cruiser problem, on which the fate of the conference hinges but nothing developed to warrant even the slightest optimism.

It is maintained by the Americans that they have nothing to fear from a public session. Hugh S. Gibson, head of the American delegation has let it be known that, unless a way to prevent a rupture is found in discussions that take place among the plenipotentiaries between now and the plenary session, he will set forth the American viewpoint and then recommend that the conference adjourn on the ground that no good could come of while the famous thirteen-year-old further negotiations.

## CHAMBERLIN FORCED DOWN BY HEAVY FOG

Airman Had to Abandon Trip to Tetterboro N. J. This Morning.

New York, Aug. 1.—(AP)—The United States Lines reported at 10 o'clock this morning that Clarence Chamberlin had alighted at Curtiss Field after taking off from the deck of the liner Leviathan off Fire Island, at 8:14. Chamberlin had intended to fly to Tetterboro, N. J., but fog caused him to change his mind and land at the Long Island flying field. He announced his intention of taking the air shortly again and fly to Tetterboro.

The U. S. Lines said that as soon as Chamberlin landed at Curtiss Field, he telephoned the shipping office to report that the flight was a complete success. He said that he could have gone on to Tetterboro, but as there was considerable fog and as there was no necessity for running any risk, he desired to come down at Curtiss.

Chamberlin reported that the take-off from the special runway on the Leviathan was even better than he had hoped for.

Tetterboro, N. J., Aug. 1.—(AP)—Clarence Chamberlin ended his flight from the steamship Leviathan to Tetterboro airport today at 10:51 eastern daylight time.

The flyer, who hopped off the flying bridge, on the Leviathan at 8:15 this morning, off Fire Island, first landed at Curtiss Field, L. I., because of fog. After a short stop he took off again at 10:30.

Chamberlin was flying a biplane sent him by the Wright Aeronautical Company, driven by the same which carried him from New York to Germany in the monoplane Columbia.

When the Leviathan was in dry dock at Boston last week the 118-foot runway was constructed above the top deck, from the end of the runway there was a one hundred foot drop to the water.

The runway extends diagonally from the starboard side of the vessel to the forward stack to the port side at an angle of about 45 degrees. There is a slope of three feet in the runway which flattens out at the end to give the plane its final lift into the air.

## CONFERS WITH BURKE OFFICIALS CONCERNING TYPHOID FEVER EPIDEMIC

Raleigh, Aug. 1.—(AP)—Dr. Chas. Laughinghouse, state health officer, today conferred with Burke county board of commissioners at Morganton on the unusually large number of cases of typhoid fever reported for that section recently.

## R. J. BAMBER IS SPEAKER AT UNION SERVICE

Pastor Christian Church Delivers Forcible Sermon at Court House.

Despite clouds which promised a torrential downpour of rain, a fairly good crowd of members of the various churches of the city gathered at the court house last night and heard Rev. R. J. Bamber, pastor of the Eighth Street Christian church deliver probably one of the most forceful sermons of the summer campaign.

The services moved along nicely until the end of the sermon when the threatening clouds fulfilled their promise of rain, and the congregation was driven into the court house and nearby buildings. The minister, however, succeeded in pronouncing benediction before evacuation of seats began.

Song services were directed by John Clark. The scripture lesson was read by Rev. H. Frederick Jones, pastor of the Memorial Baptist church, who also had charge of the services. The opening prayer was offered by W. M. Horton.

Mr. Bamber took his text from the twelfth chapter of Romans, special emphasis being placed upon the first, second and third verses, in which Paul in his Epistle to the Romans said:

"I beseech you therefore, brethren, by the mercies of God, that ye present your bodies a living sacrifice, holy, acceptable until God, which is your reasonable service. And be not conformed to this world: but be ye transformed by the renewing of your mind, that ye may prove what is that good, and acceptable, and perfect, will of God."

"For I say through the grace given unto me, to every man that is among you, not to think of himself more highly than he ought to think, but to think soberly, according as God hath dealt to every man the measure of faith."

The speaker paid tribute to the ability of Paul as a scholar. He said the author of the Epistles was one of the most learned men of his day, that he was a master rhetorician, and capable of expressing himself in concise, concrete terms.

"The trouble with the American people of today, Mr. Bamber said, is that they fail to express themselves in concrete terms. They use too many adjectives—high sounding words—to express something which should be expressed in plain, unequivocal language. Paul had perspective. He knew what he wanted to say and said it in such plain and convincing way that even the most lofty and humble might understand him."

He declared that it is necessary for everybody to present himself a living sacrifice, holy, acceptable unto God, which is your reasonable service. He said no one should expect to be able to render the high type of personal service expected of him without first rendering himself acceptable unto the Lord. Other ways may seem appropriate, but the only direct way is that so carefully outlined by those faithful men who over nineteen hundred years ago spoke truths which peoples of all ages have marveled over.

He said there were numbers of "billars" of the church, who failing to attend services, later informed the pastor that they were absent but their spirit was with him. He declared that he could not speak to spirits. They fall to fill the seats, like physical men, and the preacher does not get any conversation out of speaking to invisible conversations.

He urged his hearers to be direct and earnest in the dealings, and to be transformed by the renewing of mind so as to be acceptable unto God as so graphically portrayed by Paul.

## Former Golf Champ Is Dead

Denver, Aug. 1.—(AP)—Walter J. Travis, who 20 years ago occupied much the same position in American golf as Bobby Jones does today, has sunk his putt. The veteran New Yorker died here yesterday after a long illness and his body will be taken East today for burial at Manchester, Vermont.

From 1898, when he made his first bid for golfing greatness, until the war, Travis was a mighty figure in the amateur ranks. He was the first American player to win the British amateur championship. He won at Sandwich against a field of 104 competitors in 1904 while he was still amateur champion of the United States. Travis was 42 at that time.

Travis was born in Australia in 1862 and came to the United States while a young man.

## MR. COOLIDGE IS CONCERNED ABOUT GENEVA

President Keeps in Close Touch With Developments at Naval Conference.

Rapid City, S. D., Aug. 1.—(AP)—A close ear to developments at the Geneva naval armament conference was given today by President Coolidge, as he watched the day's happenings apprehensively.

Troubled by the turn of affairs taken at this parley which he had so hopefully convened more than a month ago, the President has taken an active hand in the last few days, although still behind the scenes. Over the week-end, Mr. Coolidge had kept in close touch with Washington.

Today also brought the President an opportunity to learn of arm conditions and prospects in a conference engagement with Senator Capper, Republican of Kansas, who was recognized as leader of the erstwhile farm bloc.

The roads leading from the State game lodge to the executive offices here showed the effects today of the severe rain and storm which broke yesterday as the President and Mrs. Coolidge were returning from church at Hermosa, 12 miles from the lodge.

The storm which approached a cloudburst failed to stop the Presidential party on its automobile trip back to the lodge, but it made the road almost impassable.

## JOHN EARLY IS HOME TO STAY

Health Department Says Escaped Leper May Remain in This State.

Raleigh, N. C., Aug. 1.—(AP)—John Early, the nation's most widely advertised leper, is home to stay, the North Carolina State Board of Health has advised the United States public health service at Washington, and as far as they are concerned, while he is not welcome by any means, Early may remain, the State Board intimates.

Dr. Charles O. Laughinghouse, secretary to the State Board has refused to comment on the report from Tryon that Early's family wish to keep him in Polk County. "He's not our man," Dr. Laughinghouse declared, and let it be known that if Early goes back to the leprosarium at Carrville, La., whence he escaped it will be because the federal authorities return him.

The suggestion was offered that even if the federal authorities do express an intention to return the man to Carrville, his family will attempt to block the effort by contesting extradition. It is the general opinion of health authorities in Raleigh that if Early resists, there is no power that can remove him from the State.

There is no law that the State authorities know of, they say, which would compel a man to confine himself to a federal hospital because he has a contagious disease. Early might, it was said, make effective use of a writ of habeas corpus if a move is instituted to return him to the leprosarium.

But if he elects to stay in his native North Carolina, he may find it unpleasant because the State Board of Health, while adopting a "non-committal" attitude in the affair between Early and the federal authorities, will if he stays, quarantine him under the State health laws, and keep him isolated from the outside world.

## CHICAGO MAN TAKES OVER FOLK CO. NEWS

Tyron, N. C., Aug. 1.—(AP)—The Polk county News of Tyron today passed from the hands of Louis Lehman, formerly of Charlotte, to R. D. Lyons of Chicago.

## STORM PLAYS HAVOC WITH WIRE SERVICE

A heavy electrical storm in Raleigh and vicinity shortly after noon left that city without electric current thereby causing failure of the Associated Press automatic wire service over which the Reflector receives its telegraphic reports.

At three o'clock service had not been resumed, hence this issue of The Reflector appears without its full quota of telegraphic news including the full market reports.

# CLOSE RACE FOR PENNANT IN NATIONAL

(By The Associated Press)

They are still waiting for one of the National League leaders to crack but the first day of August found the select group of three making way for another serious contender—the Giants.

While the Pittsburgh Pirates were idle yesterday the Chicago Cubs moved to within a half game of the leadership. The McCarthy Bruins slammed the ball to all corners of Wrigley Field and downed Philadelphia 12-5. Charlie Root running up his 18th pitching victory of the year while Pruett and Decatur of the Phillies were ineffective.

The Giants by trimming the Cardinals before a Sunday crowd of 25,000 made it four out of five games for the road trip to date. McGraw's club put on a typical late inning rally to beat the Red Birds 7-4. A home run by George Harper with the bases full in the eighth, transformed a tight pitching duel into a slug fest. The Cards scored a run in the sixth, seventh, eighth and ninth, but Virgil Barnes tightened up in the pinches and allayed several threatening rallies.

The Cincinnati Reds broke even in a double header with Brooklyn. They ran their winning mark to 18 victories in the last twenty starters.

Cincinnati kept a half game ahead of the Dodgers.

The Ohioans took the opener, 6-2, and dropped the second 3-2, in 10 innings. Adolph Lique had the better of Jesse Petty in the first game, although Brooklyn outhit its rival. Ford, Cincinnati shortstop, booted away the second game when, with a double play in sight he fumbled the ball on Stat's drive.

Horace Lizenbee set back the Detroit pitchers for ten hits while Lizenbee was holding the proposition to five safeties. It was the third straight victory for the Senators over Detroit.

The Yankees were halted by rain and will play a double-header with Cleveland today.

## Salisbury Leads In Piedmont

Raleigh, Aug. 1.—(AP)—Another week for the Piedmont League, second half, started today with Durham at Raleigh; Winston-Salem at Rocky Mount; High Point at Salisbury.

Salisbury with 20 wins and 10 losses was on top with .667 standing. Rocky Mount a close second with 19 wins and 10 losses or .655. Winston-Salem 19 won and 11 lost at .633, and Raleigh, High Point and Durham trailing.

## Portsmouth Leads Virginia Loop

Raleigh, Aug. 1.—(AP)—Norfolk at Wilson, Petersburg at Portsmouth, and Richmond at Kinston comprised today's tie-up in the Virginia League.

Portsmouth was on top with 55 victories and 38 defeats or .591. Richmond next with 50 won, 45 lost, .526, and Wilson 49 won, 46 lost, .516, with Petersburg, Norfolk and Kinston trailing.

## Then and Now

For sixteen years Zack Wheat played in the Brooklyn outfield. In that time he was one of the big stars of the game, in 1918 winning the league batting championship. But now he's aging, and this season he is playing with Cobb and Collins with the New York Athletics. Pictures show Zack as a Dodger and as an Athlete.

## Be Child's Pal, Urges Adviser Of Parent-Teacher Association

New York.—(AP)—Education will not advance as it should until parents take a more active interest in it for the sake of their children, believes Mrs. Florence V. Watkins, executive secretary of the National Congress of Parent-Teachers Association.

"Parents haven't played enough with their children," says Mrs. Watkins, who is conducting a course on "the parent-teacher movement" in the summer session of Columbia University.

"They have been censors instead of playmates. They should come down from their pinnacles, and become their children's pals. Parents, however, are more alive to the possibilities of training the child through the first six years of life. Teachers are more sympathetically inclined to problems confronting the home. Communities have become more concerned in making conditions right for the child."

Mrs. Watkins points out how by discussing child health and the use of leisure with parents in rural communities, cooperation between the parent and the teacher is being brought about. She tells of a town in Georgia where young women did not know how to play because they had worked since childhood. In cities, the problems of safety, thrift, juvenile protection, and motion pictures are considered in the parent-teacher study groups.

"We aim to send 100 per cent physically fit children into the first grade in September," she says. "On May Day, children who are to enter school in September are examined, and between May and September we have our summer 'roundup' when remedial ailments of children are corrected."

MRS. FLORENCE V. WATKINS

Improving motion pictures, Mrs. Watkins believes will aid education. In the place of the "silly plotless picture" she urges the adaptation for the screen of more of the great literary masterpieces. In her class at Columbia are 70 students from New York, New Jersey, Ohio, Texas, Illinois, Nebraska,

## Railroads To Sell Tickets for Big Prize Fight

Chicago, Aug. 1.—(AP)—Tex Rickard is sure of wide ticket distribution for his impending world's heavyweight bout between Gene Tunney, the champion, and Jack Dempsey, even if he is not quite sure of a place to hold the fight.

While delaying announcement of final details such as selection of the place and the definite date Tex has been offered the co-operation of the railroads which entail Chicago in a plan to distribute the tickets.

The promoter announced that the railroads have proffered the use of their ticket offices as agencies for fight tickets giving outside of town customers an opportunity to arrange for their seats before beginning their journey to the current fight capital.

Quebec, July 30.—(AP)—Premier Baldwin of Great Britain, arriving here for a visit today said that he does not expect, during his stay on the North American continent, to meet President Coolidge to discuss the deadlock at the tri-partite naval conference at Geneva.

BALDWIN DOES NOT EXPECT TO MEET PRESIDENT COOLIDGE

Atlantic City, Aug. 1.—(AP)—It was a home coming such as Atlanta seldom has seen. With the echo of the tumultuous ovation accorded him at historic St. Andrews when he again captured his coveted crown of the Britons and Scots still ringing in his ears, Robert Tyre Jones, Jr., stepped back from a crack New York train to receive the acclaim of a cheering populace. Bobby came back with the American and British titles last year after less noteworthy conquests of other years, but none compared in pomp and magnitude with this.

## Atlanta Gives Bobby Ovation

Atlanta, Ga., Aug. 1.—(AP)—Bobby Jones has come home.

The young Jones boy, who has quite a penchant for collecting honors with the masher and nibbler, returned to Atlanta yesterday, fresh from his latest triumph in winning the British open championship for the second consecutive time.

It was a home coming such as Atlanta seldom has seen. With the echo of the tumultuous ovation accorded him at historic St. Andrews when he again captured his coveted crown of the Britons and Scots still ringing in his ears, Robert Tyre Jones, Jr., stepped back from a crack New York train to receive the acclaim of a cheering populace. Bobby came back with the American and British titles last year after less noteworthy conquests of other years, but none compared in pomp and magnitude with this.

Amid the screeching of locomotive whistles and the deafening roar of welcome, Bobby made his way to an automobile accompanied by his wife and the hundred slow-townsmen who had greeted him upon his arrival in New York. A colorful police band, the me procession of automobiles with "bobby in the car" of honor, slowly proceeded through streets lined with other cheering well wishers. As the line of machines swung to Peachtree street the crowds grew larger until progress was difficult.

# "I got the idea from Florenz Ziegfeld"

Behind the scenes at the Ziegfeld Theatre Gladys Glad is remarking to Flo Kennedy between acts of the Follies.

Florenz Ziegfeld, famous theatrical producer, writes:

"As the producer of 'The Ziegfeld Follies' I know full well how important it is for my stars to have clear voices at all times. Several years ago, when I first began to smoke Lucky Strikes, I noticed that my voice remained un irritated after a most strenuous time directing rehearsals. I passed this information on to my stars and now we are all agreed: Lucky Strike is a delightful smoke and most assuredly protects the voice, eliminating any coughing, which often interrupts a perfect performance."

*Florenz Ziegfeld*

You, too, will find that Lucky Strikes are mild and mellow—the finest cigarettes you ever smoked, made of the finest Turkish and domestic tobaccos, properly aged and blended with great skill, and there is an extra process—"It's toasted"—no harshness, not a bit of bite.

# "It's toasted"

No Throat Irritation - No Cough.

## Channel Swimming Season Opens With Champs In Training

(By Charles A. Smith)

Dover Eng.—With the warmer summer weather and an appreciable rise in the temperature of the water filling the twenty mile stretch of sea between Dover and Calais, the 1927 Channel swimming season may now be said to have started in earnest.

Three men and three women are at present in training here and at other English seashore resorts with the avowed intention of emulating Gertrude Ederels feat or establishing new records. They are: Mrs. Clementine Corson, the American mother who swam from France to England last year and who is to attempt to swim from England to France, a feat never before accomplished by a woman; Mrs. Weidman, widow of Jack Weidman, a well known Channel swimmer.

Miss Millie Hudson, a London stenographer. Frank Perks, a Birmingham champion swimmer who has already made two unsuccessful attempts to cover the short stretch of water.

Harry Luscombe, of Exeter, champion of Devon County and a powerful swimmer.

In addition to the above six training this side of the Channel there are another three reported to be training on the French side while the famous thirteen-year-old American twins Bernice and Phyllis Zitenfeld are shortly expected. Millie Hudson feels confident she will be the first English girl to swim the Channel. Petite but very sturdily built she is 24, and has temporarily given up her employment to make the attempt.

Similarly Mrs. Carson expects to make the difficult trip from England to France. Her training has steadily progressed, and the experts here are very sanguinary as to her chances. She will be accompanied by her two small children and her husband during the swim.

## MAJOR LEAGUE LEADERS

Including game of July 31.—(By the Associated Press)

National  
Batting—Harris, Pirates, .387.  
Runs—Hornshy, Giants, 86; L. Waner, Pirates, 86.

Mrs. William Poindexter, Jr., and little daughter, Nancy Arthur, have returned from a visit in Winston-Salem.

Mrs. L. C. Arthur has returned from Wrightsville Beach.

Mrs. Avon Cromartie and little daughter have arrived from Raleigh to join Mr. Cromartie, who has been here for several weeks.

Mrs. Hunter Fleming, of Kinston spent today with her sister, Mrs. W. A. Darden, Jr.

Mr. and Mrs. Larry James and guests, Mrs. Marvin Snyder, Misses

Susan and Martha Grimes, of Salisbury, and Mrs. Lee Hannah spent Sunday at Morehead.

## COTILLION CLUB DANCE WEDNESDAY EVENING

The regular monthly dance of the Cotillion club will be given at Corman's warehouse Wednesday night, according to announcement made this morning. Music for the occasion will be furnished by Bud Gwaltney's orchestra of Virginia Beach.

## BOARD OF COMMISSIONERS IN MONTHLY SESSION

Members of the board of commissioners and other county officers were in regular monthly session at the court house this morning. The session of commissioners continued during the afternoon, and a complete report of activities was not available for publication this afternoon.

## THREE DEEDS FILED SINCE LAST WEEK

The following deeds of transfer have been filed in the office of the register of deeds for registration since the report of the early part of last week:

J. A. Willis and wife to Catherine Throver, lot \$250.

Maggie S. James to Mrs. Della McGee, lot \$9,000.

Town of Fannville to B. L. Bateman, lot \$25.

## DAN CUPID MAKES POOR SHOWING IN JULY

Dan Cupid's efforts to bring about the union of hearts in Pitt county were not quite as successful this month as they were during the preceding months. Only twenty licenses to marry were issued by Register of Deeds Gaskins during the month of July according to the final audit of records today. Twenty-two licenses to marry were issued for the same period last year. One license was issued today to Will Spruill, of Winterville and Catherine Jones, of Greenville, the contracting parties being colored.

## MRS. HOOKER RETURNS FROM RICHMOND

Friends of Mrs. W. E. Hooker will be glad to learn that she has returned from Richmond, where she has been in a hospital.

## HEROES OF SHIP DISASTER

Feverish work of rescue workers saved many lives when the ship Favorite overturned in Lake Michigan with a great loss of life. Top picture shows firemen applying pulmotor to a youth dragged from the water. Lower picture shows Johnny Weissmuller, noted swimmer, who participated in the rescue.

## PATIENT CIRCLE KING'S DAUGHTERS TO MEET TUESDAY EVENING

The Patient Circle of the King's Daughters will meet Tuesday evening at eight o'clock at the home of Mrs. Ollie Clark on Greene street. Mrs. Clark and Miss Earle will be hostesses.

## MISS TEAGUE LEAVES FOR NEW YORK

Miss Mary Teague left yesterday for New York to buy fall stock for the ready-to-wear department of the Blount-Harvey Co.

## MISS LOWE IN NEW YORK

Miss Bessie Lowe left Sunday for New York to buy fall millinery for Lowe's Millinery Shop.

## REEDY BRANCH NEWS

The senior class had a class meeting June 30 at the home of the teacher, C. F. Little for the purpose of electing new officers. The class was called to order by the president B. F. Little, prayer was offered and after singing a few religious songs, entered into business. The first thought was to see if the class saw fit to split this large class, so it was decided upon, the

girls and women in one class which is No. 4 and the boys and men in another, No. 5. Next step was to get the officers. Miss Eula Vincent, teacher; Mrs. C. F. Little, assistant teacher; Miss Grace Vincent was elected president; Mrs. Larry McLawhorn, vice-president; Miss Mae Ella Davenport, secretary; but owing to recent sickness, we later appointed Mrs. B. F. Little as secretary. Miss Blanche Waters, assistant secretary; Miss Laura Bell Wade, treasurer; and Miss Emma Mae McLawhorn, assistant treasurer; and Mrs. C. F. Little reporter for class and also the Sunday school.

The men's class has the following officers: C. F. Little, teacher; Wiley Waters, assistant teacher; Larry McLawhorn, president; Furney Tripp, vice-president; Wilton Waters, secretary; Chester Tripp, treasurer. At this time the refreshment committees, Mrs. C. F. Little and Mrs. B. F. Little, assisted by others, served home-made cream and cake. The class soon departed having they had spent a pleasant time and the majority feeling they would feel more at home by the division of the class.

—S. S. Reporter

## Public School Text Books Not To be Changed

Raleigh, Aug. 1.—(AP)—Little possibility of the State Department of Public Instruction's being an immediate wedge for the North Carolina Bible League and the Reynolds to bar certain text books on science from the State's schools was seen today.

The Reynolds conference had met in Winston-Salem some time ago, listed books, largely scientific, considered objectionable by the conference and by the Bible League.

The list was sent to A. E. Akers of Roanoke Rapids, chairman of the State text book commission, with request the books not be included in the course of study.

Supt. A. T. Allen, of the Department of Public Instruction and Mr. Akers, however, explain that the present text book commission is or elementary grades only, with

Give Monday to the children.

most of the scientific books listed out of its jurisdiction and that the commission for high school books will not be appointed for two years to come.

Hence none of the books will be changed.

## MISS BRUCE EXUM IN HOSPITAL

Friends of Miss Bruce Exum will be glad to learn that she is getting along nicely following an operation which she underwent this morning in the local hospital.

## Rupture Expert Here

F. H. Seeley, of Chicago and Philadelphia, the noted expert, will personally be at the Tull Hotel, and will remain in Kinston Thursday only, August 4th, from 9 a. m. till 5 p. m. Mr. Seeley says:

"The Spermatic Shield will not only retain any case of rupture perfectly, but contracts the opening in 10 days on the average case. Being a vast advancement over all former methods—exemplifying instantaneous effects—immediately appreciable and withstanding any strain or position no matter the size or location. Large or difficult cases, or incisional ruptures (following operations) specially solicited. This instrument received the only award in England and in Spain, producing results without surgery, injections, medical treatments or prescriptions.

CAUTION—All cases should be cautioned against the use of any elastic or web truss with understraps, as same rest where the lump is and not where the opening is, producing complications necessitating surgical operations. Mr. Seeley has documents from the United States Government, Washington, D. C., for inspection. He will be glad to demonstrate without charge or fit them if desired. Business demands prevent stopping at any other place in this section.

N. B.—Every statement in this notice has been verified before the Federal and State Courts.—F. H. SEELEY.

Home Office, 117 N. Dearborn St. Chicago.

P. S.—Fraud Warning—Beware of transient investors who imitate and imitate the wording of my ads, and otherwise attempt to impersonate me and deceive the public.

**THE GOVERNORS MEET AGAIN**

At first it was called the "House of Governors," in the sense of a sort of third house to represent the people that would discuss important questions, impress Congress and influence legislation. By some it was expected to be a body preservative of State rights and dignity. It seems that Governor Ritchie of Maryland still dreams of "an organization permanently alert and working to protect the true scope and to assert the rightful functions of the States," thus to "check the modern drift to excessive centralization." But one difficulty is that the 48 Executives—or such of them as attend—are divided in opinion as to the extent of the "rightful functions" of the States and the dangers involved in excessive centralization. Another difficulty is that the States, once great and powerful, the voluntary creators of the government, are now widely regarded as mere geographical sections of a nation and of little individual importance except locally, while the Federal power, representing the whole country, is supreme and virtually all dominating.

And so the gathering of Governors at Mackinac Island this year has been spoken of as a "picnic" to which "48 excellent gentlemen" were invited for "recreation and talk." What change from the time when Governor Hancock of Massachusetts thought his dignity and influence were superior to the first President's—from the time when a distinguished Carolinian declared a high State office to be of greater dignity and more desirable than a high Federal office. The early representatives of the original thirteen States, which in the beginning were regarded as separate sovereignties, little dreamed of what was to come to pass.

The fight for "rights" for women continues, but the Minneapolis Journal can see no object in it. "Woman," it says, "can make her own living at nearly every occupation open to man, and at many not open to man—or she can make her husband support her. If she is tired of living with him, she can make him support her anyhow, or else the court records are as full of fiction as Grimm's Fairy Tales. Woman is going where she pleases and when she pleases, and it doesn't seem to be anybody else's business. Woman has more rights than man, and fewer responsibilities."

**Market Report Cotton--Stocks--Grain**

**COTTON**  
New York, Aug. 1.—(AP)—The Cotton market opened steady at an advance of 3 to 9 points on covering out met a renewal of the liquidation movement responsible for Saturday's decline, and soon showed net losses of 15 to 20 points, December selling down to 18.38 and March to 19.26. Prices rallied 8 or 9 points from the lowest, December selling around 8.50 or within three points of Saturday's closing quotation at the end of the first hour.

New York, Aug. 1.—(AP)—Cotton futures opened steady: October 18.30; December 18.60; January 18.71; March 18.85; May 19.02.

Afternoon market reports delayed by wire trouble.

**LIVERPOOL**  
London, Aug. 1.—(AP)—All exchanges here and in Liverpool are closed today, a bank holiday.

**Mrs. McPherson's Mother Desires a Fifty-Fifty Split**

Los Angeles, Aug. 1.—(AP)—The principal cause of trouble between Aimee Semple McPherson, and her mother, Mrs. Minnie Kennedy, was unmasked today as the two warring leaders of Angelus Temple vowed their willingness to meet once more and discuss the elder woman's demand for a "fifty-fifty" split of the property which they have accumulated since starting their big religious enterprise. The temple often is referred to as a "million dollar concern."

Plans for the conference were announced last night after Mrs. Kennedy, who recently was ordered removed as business manager of the church, had declared she would consider no settlement except an equal division of the financial receipts of the institution. Mrs. McPherson said she was willing to bar from the meeting her church committee, watermelon and lemonade, all three of which have incurred the displeasure of Mrs. Kennedy. The church committee never has been recognized by the evangelist's mother. Mrs. Kennedy complained to reporters:

"Every time I try to talk to her at a conference she just eats watermelon and drinks lemonade."

**AGED PRINCE SAVES CASTLE**

Steyr, Upper Austria.—(AP)—The aged Prince Louis of Coburg has saved his ancestral home, Voglsang Castle, from sale for payment of debts. It was scheduled for auction after its rich tapestries, arms and pictures had gone to satisfy creditors, but the prince's pleas have resulted in an agreement whereby he will keep the mansion until his death. The castle once was the property of King Louis Philippe of France.

**TWO INJURED IN AUTOMOBILE WRECK**

Winston-Salem, Aug. 1.—(AP)—Mrs. Luther G. Bruce and M. A. Hauser, of this city are in a local hospital suffering from severe injuries sustained in an automobile collision Sunday afternoon on the Lexington road. Mrs. Bruce, sustained a broken rib, bruises and abrasions about the body, while Mr. Hauser sustained bad bruises about the body and also several lacerations. The accident occurred when a car operated by E. B. Sebastian, crashed into a sedan operated by Luther C. Bruce, at the intersection of the Clemmons road and Lexington Highway. Mr. Bruce, his 12 year old son and Mrs. Hauser escaped injury, as did Mr. Sebastian, notwithstanding he was hurled through the windshield of his car.

**DAYTON GRID COACH GOES TO MINNESOTA**

Dayton, O.—(AP)—Arthur Dutch Bergman, assistant football coach at the University of Dayton, has been released to become assistant to Dr. C. W. Spears, head football coach at the University of Minnesota.

**TWENTY KILLED IN NAVAL MANEUVERING OF KISUSHI COAST**

Tokyo, Aug. 1.—(AP)—Twenty officers and men were killed or wounded during naval maneuvers off Kishu Island this morning in the explosion of three mines on the middle deck of the mine layer Tokiwa, says a dispatch from Kishu. The dispatch says that the Tokiwa which is Japan's largest mine layer, was damaged severely and was docked immediately. A fire which followed the explosions was extinguished by blue packets from neighboring warships which were participating in the maneuvers. The Navy office report of the accident merely stated that several officers and men were killed by the explosion but that the ship was not seriously damaged.

**STOCK MARKET**

New York, Aug. 1.—(AP)—Stocks prices opened irregularly higher at the opening of today's market. Atchison, Northern Pacific and Norfolk and Western, opened at new high records. Timken Roller Bearing and Marine preferred each showed initial gains of about a point but U. S. Steel common showed an opening loss of half a point.

Easy money rates were generally given as the background for the current advance in the week-end summaries of the leading commission houses. U. S. Steel common, which enjoyed a brisk advance last week, fell back more than a point on realizing, but DuPont, which recently acquired a large block of steel common, quickly jumped six points to a new peak at 293. Speculative interest in the industrials was confined, at the start, to the motors and the auto. Hudson, Chrysler and Mack Trucks were the early leaders.

**Wearers of Gray Meet at Raleigh**

Raleigh, N. C., Aug. 1.—(AP)—Raleigh today prepared to receive with open arms the veteran wearers of the gray, who tomorrow will come here 600 strong to hold their annual three-day State encampment and reunion. The vanguard of the now feeble Confederate battle forces was expected to begin arriving tonight. State College dormitories have been thrown open as quarters for the veterans and Raleigh citizens have co-operated to make the reunion a pleasant one. A whirl of entertainment, leaving but short space for breath-taking and transaction of business, will hold them until Thursday evening when the gathering ends.

Convention badges, bearing the likeness of General Smith, will be worn by the veterans. Free transportation will be provided for the march-weary heroes of the Lost Cause. A historical pageant, "Warriors of North Carolina in the Confederacy," Wednesday will be a feature of the reunion.

**FLAMES THREATEN BUSINESS DISTRICT OF WAYCROSS, GA.**

Waycross, Ga., Aug. 1.—(AP)—Fire starting in the kitchen of the Exchange Hotel here at four o'clock this morning, destroyed seven business establishments in the heart of the city before it was brought under control.

Fire fighting apparatus, hurried here from Jacksonville, Fla., assisted in quenching the blaze which threatened the whole business district. Later, the loss was unofficially estimated at between \$200,000 and \$250,000 partially covered by insurance.

No injuries were reported although guests in the Exchange Hotel were forced to flee in their night clothes, some being rescued by hotel officials and police.

**Warrents Served In Damage Suit**

Raleigh, Aug. 1.—(AP)—Warrents have been served on the 22 defendants in the suit of Joseph H. Needleman Philadelphia, seeking \$100,000 damages for mutilation of his persons in March, 1925 when he was removed from jail at Williamston, N. C., by a masked mob. United States Marshal Ward returned to Raleigh today from a trip into Martin, Lenoir and counties, where the warrents were served. The case is brought in Federal court by reason of Needleman being a non-resident and because of the diversity of citizenship of the defendants.

**PARKER GOES TO TEXAS**

Raleigh, Aug. 1.—(AP)—Lieut. Col. A. Parker, U. S. Army, who has been senior instructor of the North Carolina National Guard for the last four years will leave this week for San Antonio, Texas, where he will be assigned to duty. Col. Parker, instructor of the 120th Infantry, received his promotion to a full colonelcy on eve of his departure. Col. H. G. Davids, U. S. Army, today arrived here to succeed Col.

**PLAN TO MINE GOLD IN N. C.**

**Application For Mining Concern in Randolph County Under Consideration.**

Raleigh, Aug. 1.—(AP)—Application of a concern for gold mining operations in Randolph county is under consideration by the State Corporation Commission, whose decision will be based on the complete report of state geologist H. J. Bryson, according to I. M. Bailey, assistant to the commission, today. The application was filed July 27. Bryson's preliminary report is favorable to the enterprise, it is learned. It has long been known there are rich gold deposits in Randolph county, showing a larger gold content per ton than in the Alaskan fields, Bryson says.

It is the plan of the concern making application for a charter, to use modern machinery in place of the old hand methods formerly in use in North Carolina operations. It is understood here the capitalization of the corporation is in the neighborhood of \$300,000. The name of the concern will not be made public unless the application for charter is approved. Corporation Commission officials said.

**World's Largest Semi-Rigid Ship Back in Hangar**

Scott Field, Belleville, Ill., Aug. 1.—(AP)—Having broken its previous record for sustained flight, the RS-1 the world's largest semi-rigid airship, was back in its home hangar today after remaining aloft 36 and a half hours on a successful trip from Lakehurst, N. J.

In response to a radio message, last night, a landing party of 220 men was assembled to bring the huge cigar-shaped craft to earth and stow it away. The drone of its motors and the sparkle of its red, white and green lights heralded its coming. Circling the field the ship landed gently with the aid of beacon lights playing upon the field and hangar.

The last leg of the flight required slightly more than one and one-half days, during which time the ship tried to land both at Buffalo, N. Y., and near Cleveland, but was prevented by rainy weather.

**Five Go On Trial Today In Flogging Case**

Florence, Ala., Aug. 1.—(AP)—Three men and two women went on trial here today on charges of flogging Mrs. Bertha A. Slay, several weeks ago. Allen Dutler and his wife, Lucille Lindsay, Albert and Charles Lindsay, were arrested after Mrs. Slay

told Sheriff Stutts of Lauderdale County that five masked persons bound her to a barrel and whipped her with sticks and an automobile fan belt when she refused to confess "to a neighborhood scandal." Her husband and sister were forcibly detained in their beds while she was whipped, Mrs. Slay said. The woman told officers she recognized the two women by "their long hair and small feet."

A modern Six Cylinder Speed Truck had to come...

**GENERAL MOTORS**

has produced it equipped with **BUICK** Valve-in-head Engine

Come In—See these Trucks!..

A new assurance of safety and ease in the most congested traffic... instant control at a touch... flowing smoothness and power at all speeds... driving comfort truly a revelation... these features are now combined with the most rugged durability in this latest offering of General Motors to the commercial world.

Modern traffic demanded such a truck. And the incomparable resources of General Motors have been mustered to the task of creating it. Technical research, operating experience, unequalled manufacturing facilities and the conclusive tests of the General Motors Proving Ground have all had their share in producing this superbly modern truck—modern in design, modern in its fitness for present day needs.

See and investigate it, now on display. A truck powered by the famous Buick six cylinder engine, vibrationless beyond belief; and offered with a complete new line of General Motors-built bodies. A truck supreme in flexibility, supreme in stamina. And equally remarkable in price, made possible by General Motors volume production.

## Three Requisites of a Dependable Banking Connection

### 1 SAFETY

Choose a bank whose resources are fully able to meet the demands that unforeseen contingencies might impose.

### 2 EXPERIENCE

The accumulated experience of years of operation as a National Bank, and a member of THE FEDERAL RESERVE SYSTEM and whose policy is both constructive and progressive.

## The Big Bank on Five Points

### 3 PRESTIGE

While not as tangible as the others it is no less important to associate yourself with an institution whose character adds prestige to your business; whose check is recognized everywhere as a sign of all that is best in banking.

Gossip of Staff Correspondents at World Centers of Population

Realizing at last that death was upon him, Baldwin prevailed upon her to procure a marriage license and marry him in a final effort to save his property from the law.

Twenty times across the Atlantic, twice around the world and now once in the Denver County jail, sentenced to serve thirty days for breaking the prohibition law, is the record of William E. Swanton, who claims to have been at one time prominent in London social circles.

Not many years ago Swanton was regarded as a successful mining engineer and a gentleman adventurer. He wrote for various magazines, articles founded on his own unusual experiences and discoveries as he traveled about the world. In London he became a member of the Fellow Society of Arts and counted among his friends and acquaintances many artists, musicians and writers both in England and on the continent.

The history of Swanton's adventures both in England and in the remotest parts of the world reads like a novel. In his wanderings through fair fortune and foul he hunted for diamonds in South Africa and again in Brazil, and at last in an effort to forget what had been a safe life no matter how adventurous, he took to drinking, he told the police here. The "canned" heat of the camp stove alcohol left him half-blind, haggard, and possessed of a taste for liquor which has already caused his arrest here several times, although he was released on former occasions.

While Swanton sits in the Denver County jail thinking sadly of the fate which has changed him from the swaggering gentleman of fortune to the forlorn outcast, his brother, in England, is a member of the King's Council.

London. — (INS) — That every brewery, distillery and saloon in Great Britain should be taken over by the State, and that State beer and State whiskey shall become the national beverages, is one of the resolutions to be submitted to the annual conference of the Labor Party at its annual conference, to be held at Blackpool, October 3.

The resolution envisages no half-hearted program. It seeks to commit the Labor Party definitely to the nationalization of the "entire manufacture and sale of alcoholic liquors." It proposes that every brewery, every bottling works, every distillery and every saloon shall become virtually a Government depot, and that every bartender shall become a government employee.

At the moment there is little doubt that, if it should reach the

conference, the resolution will be either shelved or defeated. This proposal is bound to give rise to considerable discussion, however, for although there are many labor leaders who are in favor of solving the drink problem in Britain by nationalization, there are other uncompromising teetotalers, like Philip Snowden, Chancellor of the Exchequer in the first Labor Government, who would like to go much further.

Seven resolutions are down on the agenda regarding disarmament, war resistance and peace. The Holland and Boston Labor Party asks the conference to call upon the Labor party as a whole to press for a policy of national disarmament which will "set an example to other nations and prepare the way for world peace."

Walthamstow Labor Party requests the next Labor government to give a lead to the world in the reduction of armaments, while another local party would like the Labor Party to "set up the necessary machinery for actively resisting all attempts to embroil the workers of England in war," suggesting as a means to this end the prevention of war by a general strike and active propaganda among the Navy, Army, and Air Force.

Following M. Briand's lead, the Bristol local party suggests that the "next Labor Government shall outlaw all war and strenuously advocate the acceptance of this policy by all civilized governments of the world."

Other resolutions on the agenda cover a wide sphere and include demands that—

Blind persons should be paid a pension of not less than five dollars a week.

Old age pensions should be granted

to unmarried women at the age of 55. Information on birth control should be given or made available to all mothers through the medium of local maternity and child welfare clinics.

A forty-four hour week should be established in all trades, with a minimum weekly wage of \$20. Steps should be taken to prevent profiteering in the subletting of rooms.

Armistice Day celebrations should be abandoned, on the ground that they tend to perpetuate hatred between the nations.

Women performing equal work with men should receive equal pay. Red should be adopted as the Labor Party color.

Members of the Labor Party should be debarred from becoming Privy Counsellors, and they should also renounce any military or naval titles on being elected members of the House of Commons.

## Association of Commissioners To Meet Soon

Raleigh, N. C., Aug. 1.—(AP)—Consideration of problems of county government administration will occupy the State Association of County Commissioners, who will gather at Lake Lure Tuesday of next week for their annual three day meeting.

J. E. Woodland, chairman of the Board of County Commissioners of

Carteret County and a member of the County Government advisory commission is president of the association and will preside at the Lake Lure conference.

Discussions of the State Tax Commission, the equalizing fund, county planning, economic value of welfare work, budget accounting problems and other county affairs will be led by county authorities. Around 300 persons are planning to attend the conference, says President Woodland.

## TAX COMMISSION OPENED OFFICES RALEIGH TODAY

Raleigh, N. C., Aug. 1.—(AP)—Fred Morrison, secretary of the recently authorized tax commission, today opened offices on the fifth floor of the State Revenue building, and prepared to actively assume his new duties.

Assisting Morrison will be W. A. Leinster, Statesville, who was secretary to U. S. Senator Simmons when the North Carolina Senator was chairman of the finance committee at Washington. Morrison is from Greensboro.

## ORDINANCES

(Continued from Page Five)

original amount named in said schedule; provided this penalty

shall not apply to operations begun on and after October 1, 1927; and in cases where the aforesaid privilege tax or license have not been paid by January 1, 1928, there shall be added and collected in addition to the amount specified in the schedule, 20 per cent thereof as a penalty for failure to pay on or before January 1, 1928, provided this penalty shall not attach unless operations are begun prior to January 1, 1928.

SECTION FOUR: That it shall be the duty of every person liable for any license under this ordinance to exhibit his license to any officer (policeman) of the Town, and upon failure to do so, every person may be arrested and held to answer the charge, and it shall be unlawful for any person to carry on or practice any itinerant trade, business or profession for which a license is required under this ordinance without having in his actual possession at the time of so carrying on or operating such trade, business or profession, said license or duplicate thereof. And it is expressly made the duty of the Chief of Police and Police Officers of the Town to inspect each and every place or location where such trade, business or profession is carried on and see that said license tax is not only paid but receipts posted in a conspicuous place.

SECTION FIVE: That no person shall do any business or trade for which a town license or tax is required before same is paid, and every license shall be a personal privilege and shall not be transferable. All licenses shall be

revocable at the pleasure of the Board, upon the recommendation of the Mayor and Chief of Police, or for violation of any criminal law of the State or any City Ordinance or for any cause which the Board may deem sufficient. When license is revoked, refund will not be made.

SECTION SIX: That all persons violating any of the provisions of

the foregoing ordinances, shall upon conviction, pay a fine of \$50.00 for each and every offense. The foregoing is a true and correct copy of the Ordinance adopted by the Board of Aldermen of the Town of Greenville, at a regular meeting in July 1927.
