Associated Press

Price Five Cents

CITY AWARDS CONTRACT FOR STREET PAVING

Tax Rate For Present Fiscal Year to Remain at \$1.50 on the \$100.00.

Contract was awarded for approximately \$50,000 worth of street paving in the city of Greenville at the regular monthly session of the Board of Aldermen last night. The lowest bidder was Robert G. Lassiter and Company, of Raleigh and Oxford, whose price was \$2.03 a square yard against \$2.77 per square yard submitted in the bid by Atlantic Paving Company, of Washington, the only other bidder participating.

The contract calls for the same kind of pavement used on other streets throughout the city and involves a number of thoroughfares which have occupied public attention for some months.

The board also adopted an economy program in its decision not to increase expenditures of the city during the present fiscal year. Every effort it was stated will be made to fit within the budget which requires no increase in the regular \$1.50 tax rate on the \$100, notwithstanding a five per cent decrease in valuation of property.

The session last night was one of the most lengthy of the present year. Virtually every member of the board was present. Mayor J. C. Lanier presided. Representatives of paving contractors were present, together with numbers of officials from various departments.

The paving program calls for the paving of Albemarle street from Virginia Avenue to Fifth street; Fourth street, from Reed to Rotary Avenue; Rotary Avenue from Fourth to Fifth streets; Elizabeth street from Third to Fourth; Contentines from Fourth to Ward; Ward street from Fourth to Latham; Reed street from Ninth to Tenth; Tenth street from Evans to Lawrence.

Members of the board were highly gratified at the splendid price received on the contract. Comparative figures of paving in Raleigh and Smithfield show that the capital city is paying \$2.37 per square foot and Smithfield \$2.55 a foot. The bid accepted last night was 34 cents cheaper than that enjoyed by Raleigh and 52 cents less than Smithfield. In other words, on a basis of figures of the highest bidder last night, the city made a saving of \$7,875.00 on the entire contract.

The Water and Light commission officials assumed \$50,000 outstanding bonds sold on December 1, 1923, and also made other concessions in helping hold down the city tax rate.

All departments of the city proper, including aldermanic, clerk, treasurer, police, fire and street departments, will operate during the present year without an increase in expenditures over the previous year.

The budget adopted for the fiscal year will hold all departments within the same bounds and not permit of any single department increasing its expenditures.

The city tax rate of \$1.50 will be distributed in the following manner: General funds, 50; City bonds and sinking fund, 40; School bond and sinking fund, 20; School maintenance, 40.

The rate for the school district beyond the city limits will be 60 cents, the same as that of the city. Considerable credit is due the Water and Light commission in taking over the \$50,000 outstanding bond issue, members of the board stated today. In addition to assuming this obligation the commission also voted to pay into the city treasury the sum of \$4,800.00 during the present year.

The commission in taking over the bonds last night, has now assumed responsibility for all outstanding water and sewer bonds, amounting to \$312,000.00 and are making payment of principal and interest with out any burden whatever to the tax payers.

This is considered very creditable in view of the fact that the water and electric current rate is lower than the majority of towns and cities in Eastern North Carolina.

CITIES TO DEBATE HISTORIC HONORS

Fredericksburg, Va.—(AP)—Boston, a city steeped in American tradition, will play the unique role of host this fall to delegations from Fredericksburg and Charleston, S. C., in a debate as to whether the Virginia or Carolina city is the rightful owner of the title: "America's Most Historic City."

Many believe the Massachusetts city should make the debate a triangular affair, but whatever claims Boston, St. Augustine or other historic cities may advance, Fredericksburg and Charleston are determined to have their forensic battle.

C. O'Connor Coolidge will speak for the Virginia city and R. Goodwyn Rhett for Charleston, the exact date of the debate to be decided later.

Cruiser Nonsense.
Picking a Bride.
Tex Rickard's Book.
The Dear People's Rights.

(By Arthur Brisbane)
Copyright 1927, by Star Co.

Britain wants many small cruisers, high speed fighting boats, to protect her mercantile marine from attack on the sea. We say she can't have them, or if she does build them, we shall swamp her with an overwhelming naval program.

What's the use of talking about cruisers, that could play no part in a real war? They are simply to merchant ships what sheep dogs are to sheep. A few dozen flying machines, that could be built for the price of one cruiser, would wipe out all the cruisers that England could build.

Why not talk sense, and especially why not BUILD FLYING MACHINES?

Italy has set up a new earthly trinity which goes: "Country, Church and Mussolini." All three are worshipped with patriotic enthusiasm.

Yale men had a similar idea when they invented what Harvard calls the champion anti-climax: "For God, for country and for Yale."

Talo's new trinity would be powerful if only Mussolini's life was guaranteed. But it is constantly threatened, and time, at least, must end it.

Any great enterprise that depends on ONE life is always in danger. Restoring the Roman power, in all its greatness, is a trinity that Mussolini set himself, is a big task.

"Organize, deputize, supervise," is a wise program. Mussolini DOES (Continued on Page Six)

SEEK JUSTICE NEAR HICKORY

Man Accused of Killing Earl Williams Succeeds in Eluding Pursuers.

Charlotte, N. C., Aug. 5.—(AP)—Manly Justice, of Charlotte, sought in connection with the slaying of Earl Williams, also of Charlotte near Hickory, eluded a search conducted here early today by a party of Catawba and Mecklenburg County officers. No trace of Justice was found and the Catawba officials returned to Newton carrying in custody Thomas Jacobs of this city held as a material witness.

Officers of both counties were investigating and were puzzled by a telephone call received yesterday from Chester, S. C., from a woman who was suspected of having left the State with Justice. She asked as the condition of Williams and exhibited surprise when she was told that he had died from the bullet wounds.

The officers were inclined to believe that she was either with or was in touch with Justice and that the latter had remained in ignorance of the results of the shooting. They declined to say what action the telephone call prompted, but said they had hopes of locating Justice.

Jacobs surrendered here, Thursday morning to Jailer S. C. McGinnis, and seemed in a state of great perturbation.

He said that he, Justice and Williams were riding near Hickory when the latter developed a controversy relative to a debt. He said Justice shot Williams several times and then ceased shooting when Williams promised to say that a negro shot him, Williams said that a negro shot him and maintained the story until he died.

No charges were preferred today against Jacobs as the search continued for Justice.

Salisbury, N. C., Aug. 5.—(AP)—Manly Justice, accused by Thomas Jacobs of Charlotte with being the man that shot and killed Earl Williams, stranger, near Hickory, early in the week, formerly lived here.

He married Miss Estelle Hicks, daughter of R. M. Hicks, of East Spencer, that being two years ago.

He was tried in Rowan County Court July 18, last on a charge of abandonment and sentenced to four months in the workhouse; took an appeal and was out on a three hundred dollar bond. His wife is now with her parents in East Spencer. She said this morning that she did not know where her husband was, that he had not lived with her for some time, but was heard of her as being in Charlotte.

Father at 63

Premier Giichi Tanaka, sixty-three-year-old head of the Japanese government, is celebrating the birth of his first son. The child's mother is a young woman, taken into the Tanaka menage, in the Japanese custom, after Baroness Tanaka failed to bear him a son.

MANIU SCORES NEW REGIME OF RUMANIA

Opponent of Premier Makes Firey Charge at Closing of Session of Parliament.

Bucharest, Rumania, Aug. 5.—(AP)—Parliament, before adjourning yesterday until October 14, heard Juliu Maniu, chief opponent of Premier Bratianu, denounce the present administration in Rumania as illegal and totally at variance with the government envisaged by King Ferdinand before he died. M. Maniu demanded free election, reiterating his charge, that the present government is unconstitutional and not representative of the people's will.

The final session also was enlivened by a fiery discussion of the existing press censorship and the confiscation of foreign newspapers containing matter inimical to the present regime.

Budapest, Hungary, Aug. 5.—(AP)—Premier Bratianu has ordered a double guard at all border points where former Crown Prince Carol might attempt to enter the country, according to Bucharest dispatches reaching here.

Opposition parties in Rumania, while ostensibly manifesting loyalty to the new sovereign and the regency, say these dispatches actually would welcome any change in the dynasty that would overthrow the regime of Premier Bratianu.

The Bucharest dispatches say that efforts are being made by the Rumanian government to induce recognition of the boy king Michael, and his regency by the foreign governments. Thus far, it is added, not a single foreign representative has presented his credentials to the new regime. The comment being made that all the foreign countries apparently want first to satisfy themselves that Carol will not make an attempt to upset the throne.

Sinclair Reverses Grady's Decision In Assault Charge

Durham, N. C., Aug. 5.—(AP)—Releasing two girls committed to Vance County jail for 12 months each after hearing them on a writ of habeas corpus, Judge N. A. Sinclair, of Fayetteville, today had reversed a former decision of Judge Henry A. Grady of Clinton.

Hilda Wilder and Little Lambie, charged with assault upon another girl at Henderson recently, were given suspended sentences by Judge Grady. Charged later with violating the conditions of the judgment, they were sent to jail by the Clinton jurist.

Judge Sinclair, in ordering the girls released, held that Judge Grady's action was in direct violation of court practices and the federal constitution which prohibits incarceration of a person without giving him a hearing.

BLAME FEUD FOR CLOSING OF 5 BANKS

Breakdown of Financial Fabric in Owens Valley, Cal. Reported Today.

Bishop, Calif., Aug. 5.—(AP)—The feud between the city of Los Angeles and ranchers of the Owens Valley over valuable water rights, the cause of frequent dynamiting of the Los Angeles water system, today was blamed for the breakdown of the valley's financial structure, after all five of the county's banks closed yesterday.

"This result has been brought about by the last four years of destructive work carried on by the city of Los Angeles," was the note posted on the door of each institution to notify depositors of the failures. The banks, according to their last available statements, had total deposits of approximately \$2,500,000.

The banks, the First National Bank of Bishop, the Inyo County Bank, Independence and Long Pine, were placed in the hands of bank examiners.

They closed voluntarily, according to W. W. Watterson, president of the State bank and cashier of the National institution. Neither he nor his brother, M. Q. Watterson, who was president of the National Bank and cashier of the State bank would comment on the possibility of reorganization or reopening of the institutions.

W. W. Watterson declared the direct cause of the banks' failures was that the ranchers who had "failed to negotiate" satisfactory relations with the city of Los Angeles as well as business houses whose business has increased under the water warfare had been unable to liquidate bank loans.

M. Q. Watterson declared he could not say what protection would be afforded depositors.

From Los Angeles came a quick denial that that city was responsible for the situation.

"The city of Los Angeles has sent a great deal of money into the valley and it all has cleared through these banks," said John R. Richards, a member of the Los Angeles water and power commission, which has fought the battle to gain for the city the valley water rights. "The cause of the failures appear to us to be internal. Certainly the city can in no way be charged with the responsibility."

The purchase of Owens Valley land and water rights and the diversion of part of the water of Owens River twenty years ago when the Los Angeles aqueduct was built, started a strife between valley ranchers and merchants and the city. The valley business men demand reparations for losses through dynamiting and the purchase by the city of their lands at assertedly high values. The total reparations asked approximate \$7,000,000.

The city paid between twelve and fifteen million dollars in cash for lands purchased in the valley, reparations figures show.

Violence has been resorted to a dozen times by valley residents seeking to force the city to meet their demands.

The aqueduct has been damaged several times by dynamite blasts and armed guards have patrolled it for several weeks. The Inyo County Grand Jury opened its investigation of the dynamiting two weeks ago. It will resume its inquiry August 9.

Bradshaw Case Still Drawing Much Attention

Nashville, N. C., Aug. 5.—(AP)—Placing of responsibility for the death of Tom Bradshaw, negro, alleged attacker of a young white girl near Bally, Nash county, last Sunday morning will be held here tonight.

Bradshaw hunted through Tuesday in the woods of Nash county, died after, when a posse came upon him, charges of birdshot were fired into his body. An autopsy, however, showed he had received the wounds which caused his death several hours previously and that the charges fired by the posse caused only superficial injuries.

The negro's death was caused, said Dr. G. Fletcher Reeves, county physician, by the earlier wounds, inflicted by a buckshot charge from unknown hands, and was hastened by shock and exhaustion at the time the posse came upon him.

Tonight's hearing was continued from Tuesday when it was halted with the discovery of the previous wounds in the negro's body.

NEW RECORD ESTABLISHED BY JUNKERS

German Fliers Stay in Air 52 hours and 25 Seconds, Shattering All Records.

Dessau, Germany, Aug. 5.—(AP)—Cornelius Edsard and Johann Ristic brought their Junkers W-33 plane to earth at 10:13 o'clock this morning after having established a new world endurance flight record of 52 hours 23 minutes. The former record of 51 hours 11 minutes 25 seconds was held by Clearwater Chamberlin and Bert Acosta.

Edsard and Ristic began the grind at 5:50 o'clock Wednesday morning and spent their long hours in the air "shuttling" between Dessau and Leipzig.

Both fliers were widely cheered by a crowd which had assumed immense proportions after the news spread throughout Dessau that the airmen had broken the record set by the Americans. The record was shattered at 9:02 o'clock this morning when the Junkers plane had been in the air 51 hours 12 minutes.

Now that the plane and motor have survived the acid test of the endurance flight, it is expected that the first of the German trans-Atlantic hops will be undertaken early next week.

The Junkers Company officially announced the time of the flight as 52 hours 23 minutes, and the distance covered as 6,040 kilometers (3,750 miles).

MR. COOLIDGE SILENT AGAIN

Refuses to Comment Upon Reaction in Connection With Recent Statement.

Rapid City, S. D., Aug. 5.—(AP)—The first cross currents of public reaction to the statement that he did not choose to run for President in 1928, were available today by President Coolidge.

Although numerous messages have flowed into the summer White House from all sections of the country since he made his announcement Tuesday, the President has had little opportunity to read them or to read papers telling the story of his announcement.

Yesterday Mr. Coolidge took the entire day for a trip to Deadwood, where he witnessed the celebration of the frontier days of '76 and was initiated a chief of the Sioux tribe of Indians. While there he was shown an Associated Press dispatch relating that Henry Ford had endorsed Herbert Hoover, for the Republican nomination and that Ford accepted the Tuesday statement as sincere.

Mr. Coolidge held his silence on this occasion and is little prospect that he will say anything more.

His statement had been carefully planned and it was given out only after mature deliberation. However, newspapermen looked forward anxiously for another opportunity to discuss with the President if possible his views about a possible successor to himself and his plans for the future.

Today is a regular newspaper conference day.

Redfern Hops Off For Georgia

Detroit, Mich., Aug. 5.—(AP)—Paul Redfern hopped off from the Ford Airport at 9:40 A. M. for Brunswick, Ga., in his Stinson-Detroit monoplane, the "The Port of Brunswick" which he will attempt to fly to Rio de Janeiro from the southern city, the longest non-stop flight on record.

Eddie Stinson, designer of the plane accompanied Redfern on the flight to Brunswick, the 850 mile non-stop journey being in the nature of a final test.

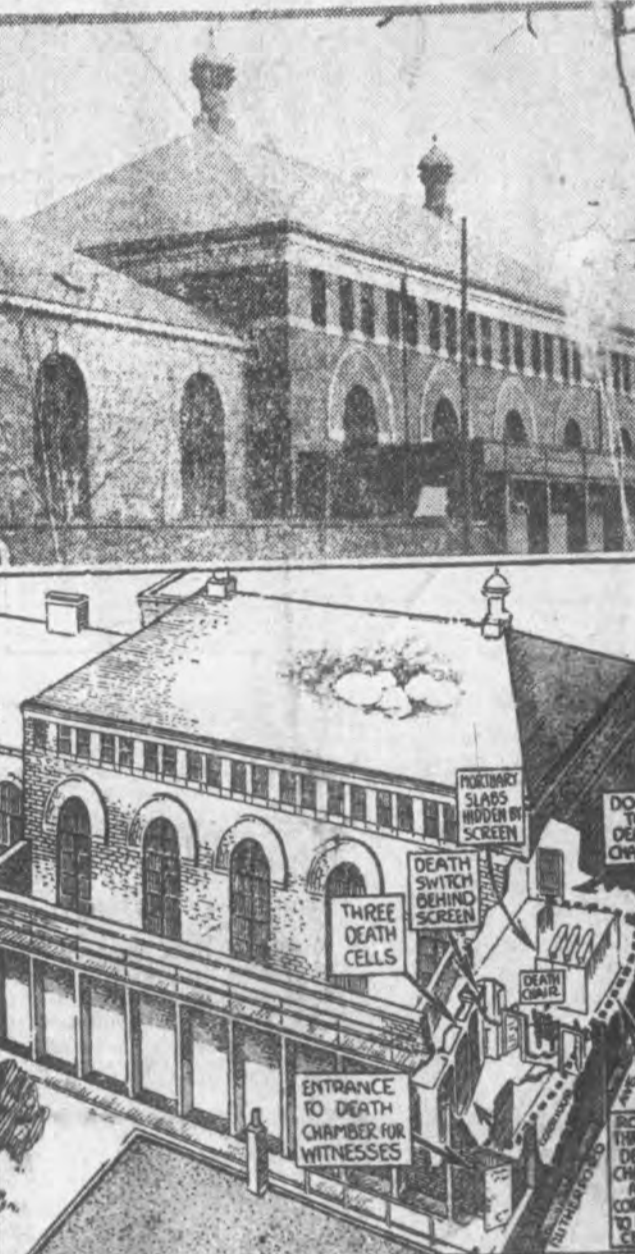

Brunswick, Ga., Aug. 5.—(AP)—Brunswick's ancient firebell, which has not been rung here for more than a decade, broke its long silence this morning to announce that Paul R. Redfern was on his way to Brunswick from Detroit.

It is expected he will arrive here around 7 p. m.

COLUMBIA READY TO RE-CROSS ATLANTIC

Paris, Aug. 5.—(AP)—Satisfied that his monoplane Columbia is ready for a return flight across the Atlantic, Charles A. Levine stated today that the time of the take-off of the Paris-New York flight may be selected late tonight.

WHERE SACCO, VANZETTI DIED

In the death cell at the Charlestown State Prison, Nicola Sacco and Bartolomeo Vanzetti die August 10, climaxing an internationally famous case. Picture shows the death house; diagram shows how the men will go to their death.

Friends and Supporters Redouble Effort to Save Lives of Doomed Italians

Boston, Mass., Aug. 5.—(AP)—While friends and supporters of Sacco and Vanzetti today redoubled their efforts to save the two now internationally known radicals from the electric chair, Warden William Hendry began preparations for the grim duty of a triple execution at the Charlestown prison.

Notification was sent to the official executioners to be in readiness and prison guards began to prepare the chair for his new occupants.

With Sacco and Vanzetti will go Celestino Maderias, New Bedford white convicted of another murder but whose life has been prolonged through respites in order that his story "confessing" implication in the murder for which the other two must die, might be available to the courts should a retrial for them be ordered.

The confession was found worthless by the Supreme Court and Governor Fuller held it to be unworthy of credence.

How Governor Alvan T. Fuller's decision in the Sacco Vanzetti case echoed around the world:

Berlin—Thousands gather at Lustgarten, in Communist demonstration; another large meeting scheduled for Friday; American embassy under special guard.

Moscow—Resolutions decrying decision tending sympathy to Sacco and Vanzetti passes by workers' organizations.

Buenos Aires—General strike believed imminent; reports from Rosario say cab drivers and masons on strike and that workers had attacked two business establishments; mounted police guard American legation and consulates, and American business establishments.

London—Demonstration scheduled for Sunday at Trafalgar Square after which deputations is to visit to American embassy.

Tokyo—Embassy guarded while police watching neighborhood at Hayama where Ambassador MacVeagh is spending his vacation.

Rio de Janeiro—Municipal council adopts resolution protesting against the execution "in the name of American culture and civilization"; embassy and consulates under guard.

Montevideo—Preparations made for general strike on August 10th in protest against decision; legation and consulates and American commercial and industrial establishments guarded.

Mexico City—American embassy and consulates closely watched by police.

Rome—Decision given great prominence in Italian papers. Tribune calls decision a "tragic jest after seven years of torture."

Paris—American embassy guarded trip, but not demonstrations attended two miles west of Dover.

AMERICA NOT AFFECTED BY GENEVA ISSUE

Collapse of Conference Will Not Bring On Cruiser Building Race With Britain.

Washington, Aug. 5.—(AP)—While the administration has yet to formulate its policy, it is regarded as certain that the collapse of the Geneva conference will not bring on a cruiser-building race between the United States and Great Britain.

This view is predicated upon several elements; the known views of President Coolidge that the navy should be fashioned solely to the needs of national defense, the economic problem with its relation particularly to tax reduction and the expressed hopes of the plenipotentiaries to Geneva and of Secretary Kellogg that ultimately an accord will be reached.

The opinion in naval circles is that the conservative element in Congress will be able to scotch any move looking to an immense cruiser fleet.

Secretary Wilbur is to take up the naval program with President at Rapid City in the near future, but the administration plan probably will not be fully determined until a short time before Congress convenes.

The present judgment of some administrations and naval officials is that the United States will go ahead with its original cruiser program, calling for a fleet of 10,000 ton craft carrying big guns necessary to round out the battle squadron and protect important lanes of commerce.

Such cruisers probably would not exceed a score, including the eight now building or authorized. The program would extend over a comparatively long period of years.

Officers who have studied the situation assert that within a few years the American Naval construction bill must be enormously increased, rising perhaps to around \$100,000,000 annually when the replacement of capital ships begins four years from now.

They contend that in addition to capital ship replacement under the provisions of the Washington treaty was signed in 1922.

Facing this situation, they argue that the United States could not enter upon an extensive cruiser building program if substantial reductions are to be made in the national tax bill as it is proposed at the next session of Congress.

There also is the belief both in administration and congressional circles that the economic situation in Great Britain and Japan preclude those nations from building up great fleets of cruisers.

Geneva, Switzerland, Aug. 5.—(AP)—Such statements as "war between Great Britain, the United States and Japan are unthinkable" and "we are not dispersing in a spirit of bitterness or despair," were commented on today as emphasizing the disagreement of the three powers taking part in the Geneva national conference does not mean a disagreement all along the line or in other fields.

Although the United States Great Britain and Japan went on record at the final public session to the effect that they could not reach an accord on the method of cutting down auxiliary naval armaments at present, nevertheless the speeches of all three spokesmen were read as indicating a desire to achieve by some other method the object sought in convoking the now disbanded gathering.

Those members of the delegations who were not preparing today to leave Geneva were giving attention to the question of what would be the reaction to the suggestion in the joint declaration adopted at the final session that the second Washington conference, set for August 1931, be advanced to an earlier date. It was explained that this suggestion was made with a view to putting into effect before the capital ship construction program started in November of that year, any conclusions reached at the second Washington conference.

The underlying cause of the breakup, as was clearly shown by the final day's events, was the insistence of Great Britain that the United States should build about twelve 10,000 ton cruisers having 6-inch guns, virtually restricting other cruisers to 6,000 tons having 6-inch guns and the counter-insistence of the United States that it required a greater proportion of the larger cruisers, as the smaller type did not have the same value for the United States as for Great Britain.

WAYCROSS TOBACCO AVERAGES OVER 23 CENTS

Waycross, Ga., Aug. 5.—(AP)—Tobacco continued to bring good prices here today. The Waycross market averaged 23.32 yesterday. The poundage continues comparatively light, farmers being busy with curing.

Valdosta, Ga., Aug. (AP)—Prices on the local tobacco market, averaged 18 cents per pound this morning. About 175,000 pounds changed hands.

ENGLISH SWIMMER CONQUERS CHANNEL

Dover, Eng., Aug. 5.—(AP)—E. H. Temme, English swimmer, succeeded today in the first attempt of the season to swim the English channel. Taking off from Cape Gris Nez at 12:42 o'clock this morning, Temme landed two miles west of Dover.

RED SOX ARE GETTING OUT OF CELLAR

(By The Associated Press)

The possibility of the Boston Red Sox getting out of the American League cellar was considerably brightened today. Bill Carrigan's tall ends beat the Chicago White Sox 2-1. While the Washington Senators were taking both ends of a double bill from the St. Louis Browns, who occupy seventh place in the standing. The Boston victory was the team's eighth in the last 11 games and was the third straight over Chicago. The Red Sox are still eight and one half games behind St. Louis but the Browns are playing poor base ball. The Senators trimmed St. Louis in the first game 5-1, behind Tom Zachary's steady pitching. Zachary held his former team-mates to three hits. Thurston held the Browns in check while the Harris men romped in handily in the second game 11-2.

Miller Huggins' Yankees gave the faintest indication they are in a slump by dropping another game to Detroit 6-2. The Yanks today face the task of winning the final game of the series or losing their first series at home. The New York club has lost only one series this season, this to the Athletics at Philadelphia. Babe Ruth and Lou Gehrig had nothing to say in their home run duel. Ruth went hitless and Gehrig collected a double and a single in four trips to the plate. Owen Carroll, the Detroit hurler, let the Huggmen down with five hits.

Garland Buckeye, the mountain man of the Cleveland pitching corps whitewashed the Mackmen at Philadelphia 3-0. Buckeye gave only five hits and scattered them widely.

The National league situation was altered slightly, although the two leaders won their games. The Chicago Cubs beat out the Boston Braves 5-4. Heathcote, tripled in the ninth being the deciding blow. Pittsburgh however took a double header from the lowly Phillies, and moved within one game of the leadership. Kijus, a pitcher obtained by the Pirates from the Pacific Coast league, got credit for the first victory 8-5, while Ray Kremer had little trouble winning the second 7-3.

The Giants trot over Cincinnati 4-1, Larry Benton being stingy with hits. The New Yorkers rapped Donohue for ten hits before he retired in the seventh.

Brooklyn drubbed the World's champion Cardinals at St. Louis 4-2. Bob McGraw, formerly of the Robins, was pounded hard and the retired in the sixth. Frankie Frisch stared at bat and afield for the Cardinals but Barrett contributed timely hits in the pinches for the Flatbush Flock.

Kinston Wins From Wilson

Raleigh, Aug. 5.—(AP)—Richmond was in second place of the Virginia League standings today, having bested Petersburg while Kinston downed Wilson, the latter moving down to third place.

The colts bunched hits and took advantage of Petersburg errors. Bill Ferabee, Eagle ace, hurled a 5-2 win over Wilson allowing six scattered hits.

Big League Leaders

(By The Associated Press)

Black Gold Trains For Come Back

Black Gold

Winston, Ky.—(AP)—A black horse, blacker than most black horses, galloped slowly around Lexington's century-old race course. He fought for his freedom, tossing his head first one way and then another. He did everything he could to break away, for he had a rider on his back.

Black Gold, winner of the Kentucky Derby in 1924, doesn't like it, but after two years in the stud he is once again in training for the tracks.

His ebony hue glistening in the early morning sun, Black Gold was brought to a stop after three trips around the course. He was breathing heavily and perspiring freely. After sulking the unsaddled and making sure his pet would cool out properly, Hanley Webb, the trainer, spoke of prospects.

"I believe he'll stand training again, and if he gets to the races sound, there's not a race in the book to scare him out. Within a short time, I'll have him galloping farther than any horse on the track."

No matter how long the other horses have been there."

Black Gold was named for the oil found in the plains of Oklahoma, the home of his wealthy Indian owner, Mrs. R. M. Hoots. Before capturing the Kentucky Derby he won the Louisiana Derby. During the same season he was victorious in renewals of the Chicago and Ohio derbies.

In 1925, a slight ailment to one of his ankles kept Black Gold from training consistently and the next winter brought him retirement to the Blue Grass farm of Jack Howard, the jockey. Last year, Black Gold made his first season in the stud and remained there through spring. Recently, upon Webb's return from Fairmount Park, where he raced Beggar Boy, brother of Black Gold, it was decided to retrain the six year old runner to the tracks.

"We sure had some excitement putting a saddle on him," Webb said. "But he'll have the same spirit in his races. Look out for him!"

Twins Hand Out Five Shut Outs

Raleigh, Aug. 5.—(AP)—With a defensive system counting 42 scoreless innings. Winston-Salem, after dishing out five shutouts in a row, was in Durham today to attempt to chalk up another game of goose eggs for the Bulls.

Raleigh came home to play High Point. Duke Duncan, former Cap owner-manager, was slated to take an outfielder position. Rabbit Costello, also an ex-Cap, was in High Point lineup.

Boss Gooch of the Rocky Mount club yesterday crashed out two homers to help beat High Point 7-4.

HIGHWAY COMMISSION TO RECEIVE BIDS TUESDAY

Raleigh, Aug. 5.—(AP)—Contractors have until 10 o'clock Tuesday morning, Aug. 23 to file bids with the State Highway Commission here on 12 projects, calling for construction of 71.5 miles of roads and two bridges to cost about \$800,000.

The projects include work in Craven, Catawba, Gaston, Alleghany, Polk, Sampson, Harnett, Alexander, Perquimans and Chowan counties.

Guard Has Saved 884 From Drowning

Kansas City.—(AP)—Despite the loss of one leg in a railroad accident in 1903, Bert Goins, 38-year old life guard here has hung up a record of 884 persons saved from drowning in the last 18 years.

Goins, now head life guard at a public swimming pool says his hard set job was in 1914 when he pulled eight women from the Missouri river after their boat hit a snag and went down.

On July 4, 1922, Goins was life guard at Fairmount Park Lake. During the day 5,000 persons swam in the big Lake. From 6 o'clock in the morning until 9 at night Goins was pulling sinking swimmers from the water. At one time four persons were struggling in the water the other guards were busy elsewhere, and Goins had a half hour struggle bringing them in.

Goins started his career when he was 10 years old by saving a boy chum from drowning.

There is one thing about dying—you never have to do it again.

WANT ADS PAY

Ten Thousand Sioux Pitch Camp At Tom Berry's Own Rodeo Show

White River, S. D.—(AP)—Ten thousand Indians and the ablest riders of the Dakotas bring back the dashing panoply of early days to White River every August at "Tom Berry's show."

Fifteen years ago, Berry, a prosperous cattleman, state legislator and intimate of the Indian tribes since his childhood, started the White River roundup as a hobby. The event has become one of the largest rodeo pageants in the west, and more full-blooded Indians participate in it, Berry claims, than gather anywhere else at one occasion.

From the Rosebud, Pine Ridge and Cheyenne reservations, all in South Dakota, will come the Sioux on August 10, 11 and 12 to help the broncho-busters, cowgirls and steer riders entertain the hundreds from all over the country who crowd yearly into the little town to see the spectacle.

There is no artificiality or fakery about Tom Berry's rodeo, for he has built it up primarily for the folk of the countryside all of whom know genuine prowess from stage stunts. Daring is the fundamental motive of the frontier day celebration, and a hundred manhandling "outlaw horses" will be brought from the range this August for the riders to try to conquer.

Few of the cowmen are more expert at riding or roping than Berry himself. His capability with a lasso is traditional through all the "west river country."

TOM BERRY

Net Champion Learn Game Without Coaching

Memphis, Tenn.—(AP)—Miss Marquette, newly crowned southern women's tennis champion, is a self-made title-holder.

Miss Marquette plays loopy basketball and baseball and swims. In all these sports, she has been coached, but in tennis, she never received any instructions.

Presented with a racket by an admirer five years ago, she began her net career on the Memphis public courts. Her development has been steady, with little of the spectacular. Her excellent game is the result of continuous playing.

In winning the southern title, Miss Marquette displayed superior endurance and speed. She plays a baseline game. Her ability to cover the court stands her in good stead against hard hitting opponents.

Before winning the southern championship Miss Marquette captured the Tri-State tournament, defeating the best players of Tennessee, Arkansas and Mississippi. She now plans to enter national tournaments.

PRISONER ESCAPED

Raleigh, N. C., Aug. 5.—(AP)—The escape was reported by George Ross Pou, superintendent of State prison, today of Herbert Riley, Guilford County white man sentenced in 1923 to ten years upon conviction of automobile theft, Riley escaped from the main prison in Raleigh.

"I'm glad I followed the advice of Mary Garden"

Margery Bailey is telling her companion, Ed Wagner, as he offers her a Lucky Strike between tennis matches at Forest Hills.

Marvelous Mary Garden writes:

"My teachers, Traballo and Richard Bartelemey, all impressed upon me the solemn warning that I must always treat my throat as a delicate instrument. Yet every artist is under constant strain. Sometimes we get real relaxation in smoking a cigarette. I prefer Lucky Strikes—which both protects the throat and gives real enjoyment."

© Peninsula of Guisard, Chicago, Ill.

You, too, will find that Lucky Strikes are mild and mellow—the finest cigarettes you ever smoked, made of the finest Turkish and domestic tobaccos, properly aged and blended with great skill, and there is an extra process—"It's toasted"—no harshness, not a bit of bite.

"It's toasted"

No Throat Irritation - No Cough.

Does Your Throat Get Dusty?

Motorist Tells What To Do—and How!

"One of the first rules of motoring which those who follow the open road should observe," says Old Timer, "is not to get overtired. And watch what you drink! When your throat gets dusty, choose a beverage that actually replaces burned-up energy."

"Do you like oranges? Then there's nothing so refreshing as Orange-Crush. It possesses more energy-replacement value, or food calories, than an equal quantity of fresh ripe oranges."

In making Orange-Crush, the juice of luscious oranges is blended with the delicate flavor of the peel, the zestful tang of the fruit acid found in oranges, lemon and lime, a pure food color such as is used in cakes and candies, healthful carbonated water, pure cane sugar. Nothing else.

There is so great a difference between Orange-Crush and the majority of so-called orange drinks—which get their flavor from imitation extracts—that it pays to be insistent. There is only one Orange-Crush—always in the Krinkly Bottle.

Drink Delicious Orange-CRUSH

You are sure of their return.

The Velvet Kind Pineapple Sherbet

LOCALS

H. A. White left today for Greenboro, where he was called on account of the illness of his mother.

Mrs. A. P. Baker has returned from a visit to Virginia Beach.

Mrs. A. S. Rainby, of Detroit, and **Miss Irene Lytle, of Gladwyn, Mich.** are visiting in this city at the home of Mr. and Mrs. Edward Batchelor.

Mrs. E. L. Baker spent yesterday in Windsor.

James Wilson and Joseph Dixon, Jr., are visiting in Winston-Salem.

Miss Elizabeth Carr has returned from a visit in Norfolk.

Miss Lucille Hassell, of Williams- ton, is the guest of Miss Elizabeth Phelps.

Mrs. L. A. Stroud returned yesterday from Philadelphia and Washington, D. C., where she has been for the past two weeks.

Mr. and Mrs. A. E. Hogwood and children have returned from Ridgecrest.

BIRTH ANNOUNCEMENT
Born to Mr. and Mrs. J. C. Williams, a daughter, July 31, on Charlotte street. Weight 8 pounds.

BIRTH ANNOUNCEMENT
Mr. and Mrs. Troy W. Rouse announce the birth of a daughter, **Olivera Marie,** on Wednesday, August 3rd, at Pitt Community hospital.

HOME FURNITURE CO.
TO CONDUCT SALE OF NAPANEE KITCHEN

The Home Furniture announce through a half-page advertisement carried in the columns of this paper today, a spectacular sale and demonstration of the nationally famous Napanee Kitchens. The sale will open tomorrow morning and continue for a period of one week.

K. S. Gray, of Kentucky, deputy representative of the Napanee Co. will have charge of the demonstration, and explain the many advantages to be derived from the use of this improved kitchen.

The Napanee is the first electric fed kitchen put on the market. It has an attachment by which coffee, waffles, etc., may be prepared in short order.

The sale opens promptly at nine o'clock tomorrow morning.

WASHINGTON DISTRICT CONFERENCE, COLORED MEETING IN THIS CITY

The Washington District conference and Sunday school convention of the North Carolina annual conference, A. M. E. church, colored, is holding an annual meeting with St. John's A. M. E. church, First street, Greenville.

Regular preaching services are conducted at 12 o'clock each day and at 8 o'clock each night. Numbers of notable figures of the denomination are attending the conference, and members are receiving great benefit.

Rev. H. H. Pearce is pastor; Rev. C. M. Blount, presiding elder; Mr. M. A. Forte, secretary; and J. S. Hamlette, presiding bishop.

Reorganize Boy Scouts of City

Charles W. Porter, chairman of the boys' work program, today announced the reorganization of the Boy Scout organization of Greenville.

Organization was perfected at a meeting held in the high school building last night. Thirty-five former Scouts and numbers interested in becoming Scouts were in attendance, and signified their intention of sticking by the organization.

A sufficient number was present to complete organization of four patrols. Patrol leaders elected were Bruce Sugg, Zack Vandye, Luther Holton, Melvin Willard.

Mr. Porter stated that the boys exhibited considerable interest in plans for reviving the work, and the future was very bright.

SEVEN MILLION POUNDS OF RARE OLD TOBACCO IS PURCHASED BY LORILLARD

A purchase which is considered a rare stroke has just been made by P. Lorillard Company—it was for approximately seven million pounds of the choicest and finest old southern tobacco, aged for three years.

This large purchase will enable P. Lorillard Company to round out the production of fifteen billion of Old Gold Cigarettes.

The tobacco was bought from the British-American Tobacco Company and indicates very friendly relations between these two companies.

Marriage License Slump is Relieved

Dan Cupid, mythological god of love, who has been suffering from some kind of complex the last few weeks, came out of the state of apathy yesterday and succeeded in sending three couples to the office of J. C. Gaskins, register of deeds of Pitt county. It was the first day of the month since the applicant for license had appeared, and the reliable register of deeds who was becoming slightly discouraged over the inactivity of the diminutive God of love was considerably relieved at the change of conditions.

Those applying for license were Larry Lucas and Miss Martha Bass, of Wilson; Arthur Smith and Miss Mary, of Pitt; and Estelle...

URGES PLAN BAR UNDESIRABLES FROM THE RING

Topeka, Kan.—(AP)—The Kansas plan for rating boxers may be presented to the N. B. Association at its meeting in Toledo, Oct. 17. The plan is proposed by Leslie E. Edmonds, executive secretary of the Kansas Athletic Commission and chairman of the legislative committee of the association.

The Kansas plan, if adopted by the National Boxing Association, would make available an official record of every boxer who appears in any of the 20 states and five foreign countries represented in the association.

The biggest handicap to promoters staging boxing exhibitions, according to Edmonds, is lack of knowledge of the ordinary run of fighters. Record books now published do not contain the names of more than 10 per cent of the fighters who appear in too much sight unseen employment of fist-fighters, Edmonds says.

Under the system some representative of the Kansas athletic commission attends every fight to report on each boxer under the headings of footwork, speed, accuracy in hitting, sportsmanship, constitution weight and general remarks. The standard of comparison is that set in the army in rating the flier personnel. It is set by the ranking of abilities of the best, the average, and the worst boxers in the observer's experience. At the end of each month the ratings of the fighters are cleared through the state office to every promoter, every representative of the mass in Kansas.

Since its inauguration six months ago, the Kansas plan has prevented the reappearance of the dub, the has-been and the overrated pugilist, Edmonds says. "Once a man fights in Kansas his performance becomes a matter of official record, which is available to all state organizations as well as commissions of other interested states."

Capt. Raymond P. Waltz of the U. S. Army, stationed with the R. O. T. C. at the Kansas State Agricultural College, initiated the Kansas system for rating boxers. The plan has been submitted to the commissions of member states of the National Boxing Association. If enough of them are favorably interested, Edmonds will present the matter at the next meeting.

WHITE HOUSE REPAIRS ARE BAR TO VISITORS

Washington—(AP)—Coming from all walks of life and all parts of the world, thousands of Washington visitors this summer have desired most to see the White House. At the very condition which has made it the most popular building to see, the publicity about its repair, has made it inaccessible to them.

With construction of the new roof and reconstruction of the story in progress, visitors are practically barred even from the grounds, and the streets which lead to the east entrance are closed to bus and other traffic, also under going repair.

Since the greater part of the White House remains in the Black Hills with President and Mrs. Coolidge, the mansion is virtually deserted. Carpets and drapes have been removed, and except for a few employees about the only person to be seen is Rudolph Forster, the executive clerk.

Second Primary Now Necessary In Mississippi

Jackson, Miss., Aug. 5—(AP)—Complete unofficial figures today for the Democratic primary for Governor held last Tuesday show that a run-off election between the voters of G. Hilbo, and Governor DeLoach Murphree would be necessary with the final votes tabulated.

Bilbo 133,636; Murphree 70,655; Conner 59,255; Anderson 21,993.

At the same time a call was issued by Governor Murphree for a meeting of his State campaign committee which will be held here Saturday morning.

In the race for Lieutenant Governor, M. P. Love continued to hold a slight majority over his two opponents with 1,405 of 1,437 precincts in the figures were:

Love 116,967; Adams 83,582; Smith 31,597.

Per State auditor White maintained his long lead over Dinkins as more scattered reports were received. With 832 precincts in the vote stood: White 70,858; Dinkins 47,116.

SHE RUNS FOR SENATE FROM LONE STAR STATE

Galveston, Texas—(AP)—Texas, one of the first states to elect a woman governor, may have the distinction of electing one of the first women senators.

Mrs. Mingle Fisher Cunningham of Galveston, secretary of the National Democratic Women's Executive Committee and chairman of the Pan American Conference Committee, has announced her intention of running for that office.

Mrs. Cunningham would oppose the present senator, Earle B. Mayfield of Austin.

Casey Williams Lauded For Bravery in Explosion at Kentucky Mine.

Clay, Ky., Aug. 5—(AP)—Casey Williams, standing a short five feet five inches, who led an unmasked rescue party into the fumes of black damp to carry the unconscious forms of eight miners from the workings, was lauded today as the hero of the mine disaster Wednesday which took 15 lives.

Casey was deep in the mine when the explosion came. With four companions he covered his face with a wet shirt and managed to reach the bottom of the shaft some time running, some time walking and when their strength began to fail, crawling on hands and knees, they worked their way in the explosion area. When they awakened from effects of the gas they stopped to dip their faces in the underground stream which ran along the entry.

Finally they stumbled along the bodies of some of the injured men lying there on their faces. Williams said their heads toward the shaft and air, their position showed they were fighting to reach the shaft when they became unconscious.

One by one the unconscious men were carried from the point, 250 yards from the shaft and then Williams was brought to the surface where he collapsed.

Two Negroes Are Wounded in Gun Fight in Tenn.

Chattanooga, Tenn., Aug. 5—(AP)—A general round-up of negro members of the negro Union Improvement Association, an organization purporting to foster a "back to Africa" movement, was begun today by police as the result of a gun battle last night in which officers and approximately forty negroes exchanged more than 150 shots. Two negroes were wounded, probably fatally and a policeman was shot through the thigh during the fight.

The negro organization was refused permission to hold public street meetings four weeks ago, according to Police Commissioner Bryan, and since that time reports of secret activities have been received. Last night police were notified of a disturbance in a house in the negro section.

When officers reached the house, they were stopped inside the hall by a negro wearing a uniform who was armed with a repeating rifle. He was told that the men entering were police and was ordered to put his rifle down. Instead he raised the weapon and covered the officers. At the same time he was joined by two other negroes each armed with rifles. Then someone fired a shot from the interior of the house. Two of the negroes fell with bullet wounds in their bodies but their companions managed to drag them away during the mele.

Winston-Salem Had \$35,000 Fire Loss in July

Raleigh, N. C., Aug. 4—(AP)—Winston-Salem had a July fire loss of only \$35,000, the lowest monthly loss the Forsyth city has had in years, the State Insurance Department reported today.

Indications so far are that July will be on a par with June as to low fire losses, it was said. The loss for the first seven months of the year is under the figures for the corresponding period last year and insurance department officials hope the loss this year will touch a new low level.

Charles Levine announces that his plane, the "Columbia," is now ready for its hop from Paris back to America. From all reports, however, the plane is still short one of the requisites of a trip—a pilot.

MUNICIPAL PLANT A MONEY MAKER

In the face of the recent 15 cents increase in the county tax rate, the news that the City Aldermen last night did not increase the city tax rate, despite a 5 per cent reduction in property valuations, is indeed gratifying to taxpayers in this city. According to those in close touch with the city's affairs much of the credit for the above action is due to the Water & Light Commission which has relieved the city of a part of its burdens and in addition has agreed to pay \$4,800 in to the city treasury during the present year.

In addition to maintaining the city's water and sewer system and making all necessary extensions, the commission last night took over from the city a \$50,000 outstanding bond issue for sewers and relieved the Board of Aldermen from further liability along this line.

The citizens of Greenville are fortunate in owning such an efficient and well managed water and light plant as we now have. Last night's action by the Water and Light Commission completed the taking over of all outstanding water, light and sewer bonds totalling \$312,000 and the system is making sufficient money to pay all interest, retire its bonds, make all necessary improvements and then pay into the city treasury sums of money to help operate the city government.

We reiterate that Greenville is fortunate in owning its water and light plant, and we congratulate those in charge of its operation for the efficient manner in which the business is carried on.

THE GENEVA FIASCO ENDED

The Washington Conference called by President Harding, resulted in what was hailed as a great peace movement by agreement. It turned out to be a "scrap of paper" treaty, and hardly had the ink dried on the paper before Great Britain and Japan violated its spirit by rapid building of cruisers.

Mr. Coolidge thought another talkfest might repair

the holes in the Washington Conference and strengthen the Republican party's position in the next campaign. His commissioners asked for nothing except to extend the Washington agreement to all naval units as well as to dreadnaughts. Britain, resolved to hold on to the unfair advantage it gained by the Washington fall-down, declined. Uncle Sam had to surrender or let the parley fail. It chose the latter.

Nobody will cry. The conference was called as a political move in order to appease Americans who neither wish naval competitive building nor large expenditures. Ever since Harding and Coolidge preached the funeral of the League of Nations they have been trying to get something that would ease the conscience of Republicans who wish peace. The attempt has been to do by piecemeal that which can only be done by world agreement—News and Observer.

Germany's Entrants In Gordon-Bennett Race Fly For Fun

Berlin—(AP)—Three business men to whom ballooning is a week-end recreation will represent Germany in the Gordon-Bennett balloon races out of Detroit Sept. 2 to 10.

To the three, Fritz Eimermacher, dealer in oils and fats, Dr. R. Halben, oculist and Hugo Kaulen, merchant and manufacturer, piloting a gas-bag over the countryside is what tennis and golf are to the American business man. Each is more than 40 years old—considerably older than the leading men in other forms of sport in Germany.

Eimermacher, of Munster, Westphalia, is the most travelled of German balloonists and perhaps the most picturesque. He has gone up in his balloons more than 165 times since he began flying in 1909, at the age of 28.

Invited by a friend to accompany him on a balloon trip, he saw in the sport an opportunity for developing personal courage and determination, cleverness and skill. He organized a balloonist's club, and showed his faith in his hobby by taking his honeymoon trip in his craft. His twentieth trip made him victor over 12 competitors. In 1912 he was the only German in the Gordon-Bennett races.

Storms do not scare him. Repeatedly he starts off in a gale, and lands in just as difficult weather. On numerous occasions he has won first, second or third prizes. In the recent races out of Gelsenkirchen, which determined Germany's representatives at this year's Gordon-Bennett cup competition, he tied with Dr. Halben for first place.

In 1908, Dr. Halben, Berlin oculist and ophthalmologist, was instructor at the University of Greifswald. Prince Henry of Prussia, the

former Germany emperor's brother visited the institution. In the course of an automobile drive, Dr. Halben sat next to a captain in the air corps, who so enthused the oculist that he began flying that same year.

Halben specializes in goal flying that is, in landing his balloon as close as possible to a designated distant goal. He achieved a world record in 1924, when he came within 400 feet of a goal lying 180 miles away from his starting point.

His only mishap was in 1914 when he was caught in a tornado and negotiated a forced landing within 8 minutes from a height of 11,000 feet. His back was injured but the lives of his passengers were

saved from the Baltic Sea. His nurse at the hospital tried to exact a promise that he would never go up again. Instead, she accompanied him on his first flight after recovery, which also proved his world record trip. He has 82 flights to his credit.

Kaulen, 58 years old, of Barmen, in the Rhineland, has been an enthusiastic balloonist since 1908. A friend of his, Oscar Erbsloeh, returned from his participation in the Gordon-Bennett races in America in 1907 with enthusiasm for the sport and Kaulen caught the fever. He took third prize at the international races at Oslo in 1912 qualified for the Gordon-Bennett races out of Paris in 1913.

In December, 1913, Kaulen with two passengers set a world's long distance and duration record, covering 1865 miles in 87 hours. Though another German, Berliner, outdistanced him by 65 miles a few months later, Kaulen still holds the duration record. He has flown his balloon nearly 60 times.

INJURED MAN MARRIES AND THEN PASSES OUT

Burlington, N. C., Aug. 5—(AP)—Death today was winner in the life of William Loy, cotton mill employe here, who after being badly scalded while at work, married his sweetheart. Believing his injuries would be overcome, Loy married Hattie Hancock while ill abed in a local hospital. He died shortly thereafter.

"ADS" IN THE REFLECTOR PAY

RED PEPPER FOR RHEUMATIC PAIN

Red Pepper Rub takes the "ouch" from sore, stiff, aching joints. It cannot hurt you, and it certainly stops that old rheumatism torture at once.

When you are suffering so you can hardly get around, just try Red Pepper Rub and you will have the quickest relief known. Nothing has such concentrated, penetrating heat as red peppers. Just as soon as you apply Red Pepper Rub you will feel the tingling heat. In three minutes it warms the sore spot through and through. Pain and soreness are gone.

Ask any good druggist for a jar of Rowles Red Pepper Rub. Be sure to get the genuine, with the name Rowles on each package.

"GREAT"

Say All The Thousands Who Have Seen
 The NEW
OAKLAND
 ALL-AMERICAN SIX

They were impressed by its brilliant beauty. They were thrilled by its strength and bigness. And its new low prices amazed them!

Designed to meet American travel conditions—pitilessly tested on General Motors' great American proving ground—the Oakland All-American Six is thrilling all who see it.

And why not? New Fisher bodies of the finest American tradition. New chassis—new engine—new features. New standards of performance, endurance and value. A bigger—better—supremely fashionable car!

Power, smoothness, silence and snap—from the biggest engine used in a car of Oakland's price class—an engine with a 78½ lb. counterbalanced crankshaft—with bridge truss crankcase, a new type of combustion chamber developed by General Motors' Research staff, and both the Harmonic Balancer and Oakland's rubber-silencing principle.

Reliability and riding ease—from a chassis with a heavier frame, a longer wheelbase (117 inches), a lower center of gravity, a new transmission and clutch and 4-wheel brakes.

Luxury that sets new standards in the thousand-dollar field! Lower, roomier bodies—new Duco colors—deeper, softer, more inviting cushions—new upholsteries—new hardware of exclusive design—new tri-clustered, silver-plated instrument panel, including gasoline gauge, and embellished with engraving in bas relief.

And new mechanical features by the score! Features that no other car combines—forced-feed gasoline pump instead of vacuum tank, new vacuum crankcase ventilation—engine triply-protected by filters for gasoline, oil and air—and additional features enough to be an announcement in themselves.

Come in! See this newest and finest Oakland. At its new low prices, it's the All-American value! With its new and thrilling features, it's the All-American Six!

Market Report Cotton--Stocks--Grain

COTTON
New York, Aug. 5.—(AP)—Early advances in the cotton market today met a renewal of liquidation. Selling appeared to be prompted by a private report of crop placing the condition at 72.8 and stating that present prospects pointed a yield of about 15,000 bales as minimum. December contracts were selling around 17.30 at mid-afternoon with the active months showing net declines of about 36 to 43 points. Futures closed steady 29 to 38 points lower; spot quiet; middling 17.10.

GRAIN
Chicago, Aug. 5.—(AP)—Wheat prices showed a tendency to sag much of the time today. Despite black rust reports, predictions were current that western Canada would have a bumper crop. Crop values advanced today more as a result of scarcity of offerings, more than on account of any aggressive buying. Wheat closed easy 3-8 to 5-8 to 3-4 net lower; corn 1-1-8 to 1-5-8 gain; oats at 1-5-8 to 7-8 advance and provisions varying from 5 decline to a rise of 15 cents.

STOCK MARKET
New York, Aug. 5.—(AP)—The recovery in stock prices, which has been under way since Wednesday's opening break on the Coolidge statement, gained added momentum today by the reduction in the New York Federal Reserve discount rate, with its implied stimulus to business. Speculative activity centered largely in the industrial shares, many of which were bid up 2 to nearly 10 points to record high levels.
Rails continued to lag behind, the drop of \$20,000,000 in June earnings of class one carriers and the wage increase to eastern engineers having a temporarily depressing influence on speculation in that group.
Waves of realizing swept through the market at intervals, but they were fairly well absorbed. Houston Oil broke more than six points and weakness also cropped out in Baldwin, Mack Truck, Postum and a few others. The selling of Manhattan electrical supply, whose recent sensational advance has been a feature of many sessions, presumably was inspired by the stock exchange investigation of recent transactions in that issue.
Public utilities gave one of the most impressive demonstrations of group strength, Brooklyn Union Gas standing out with an extreme gain of 9 points. People Gas, Consolidated Gas, Brooklyn Edison, Market Street Railway prior preferred and American Express all reached

new high ground. American Telephone was in brisk demand during the afternoon.
New peak prices also were established by General Railway Signal, Gabriel Snubber, Westinghouse Airbrake, Atlantic Refining, R. H. Macey, Woolworth, The Fair and McCro's Stores A and B among the few strong spots in the railroad division were Atchison, Baltimore and Ohio and Union Pacific.
A drastic selling wave swept the market in the late afternoon, erasing most of the 1 to 10 point advances achieved on the enthusiastic buying following the reduction of the New York Federal Reserve Bank discount rate. Prices of Public Utility and Mercantile shares, which had led the earlier advance, melted away rapidly when acute weakness cropped out in many representative shares notably DuPont, Baldwin, General Motors, American Smelting, Timken Bearing, Postum Cereal and Chesapeake and Ohio, which were quoted three to six points under yesterday's final figures.
"Bear" traders who had been waiting for an opening to attack the market, put out extensive effort on short ones when prices began to waver, following a drop of over ten points in Houston Oil.
The closing was heavy; speculative sentiment was disturbed by a violent drop in some of the leading shares in the final hour and there was a resumption of selling for both accounts. Houston Oil sold more than 10 points below yesterday's final figure and General Signal was down about as much from its earlier high price.
DuPont broke more than 7 points from its best price of the morning and Baldwin, General Motors, U. S. Steel, International Harvester, Case Threshing Machine, Timken Roller Bearing and many other popular industrial broke rather precipitately. Total sales approximated 2,600,000 shares.

State Begins Prosecution of L. A. Clayton

Oneonta, Ala., Aug. 5.—(AP)—Following conviction yesterday of Eugene Doss, the first man to be tried in connection with the flogging of Jeff Calloway, Oneonta farm youth the State plunged into prosecution today of L. A. Clayton, the second of seven men indicted for the masked whipping.

Doss was sentenced to eight to ten years in the State penitentiary following his conviction on a charge of kidnapping in connection with the flogging of Calloway. It was the first conviction on a kidnapping charge in Alabama for more than 40 years.

Following the conviction and sentence of Doss, a jury was speedily chosen for the Clayton trial and Mr. and Mrs. W. C. Jackson, John Ade and Calloway himself were called to the stand by the State. Their testimony, which was substantially the same as that given in the Doss trial, centered in the visit of robed klanmen to the Antioch church, and the kidnapping and flogging of Calloway.
Court adjourned late in the day until 8:30 this morning.

Asheville Broker Suspends Business

Asheville, N. C., Aug. 4.—(AP)—James R. Bush, broker in stocks, bonds, cotton and grain, suspended his business here this morning as a result of financial difficulties and the loss of his telegraph service.

Mr. Bush's suspension, it is said, probably will result in losses to some of his customers. His creditors held a conference Wednesday night and they were in session with Mr. Bush at his offices today.

Neither Mr. Bush nor his creditors has issued a statement concerning the closing of business. Mr. Bush's telegraph service connecting his office with the New York Stock Exchange, the curb market and the Chicago Board of Trade was cut off following the close of business Wednesday as a result, it is said, of charges that his office had violated market regulations.

Fight New Rate on Banana Shipments

Wilson, N. C., Aug. 5.—(AP)—W. L. Thornton, Jr., traffic manager of Carolina Shippers Association, Inc., has filed petition of intervention with the Interstate Commerce Commission in the per car rental charges on bananas in refrigerator cars case which was opened several weeks ago. Four Florida traffic bureaus and fruit handlers are also fighting the newly created charge which was recently put into effect by the carriers.

The Carolina Shippers Association on behalf of produce merchant members plan to intervene in the controversy by the commission. The per car rental charge from Charleston, S. C., South Atlantic and Gulf ports to this State range from \$5 to \$12.50 per car above the usual freight and refrigeration charge it is alleged.

We deliver no germs.

RE: PITT COUNTY DRAINAGE DISTRICT NO. 2. ELECTION
North Carolina—Pitt County
In the Superior Court
Before the Clerk
It appearing to the satisfaction of this court, that the three year term of office of R. D. Whitehurst, commissioner of this district, expired September 30th, 1926, and that he has continued in office as no successor has been elected. That the term of office of T. R. Hodges, as such commissioner will expire September 30th, 1927. That Monday, August 15th, 1927, is the most convenient time to hold an election of said district for the purpose of electing officers to succeed the said two commissioners whose terms expires as aforesaid.
Now, therefore, it is ordered that an election be held by the owners of land within the boundaries of Pitt County Drainage District No. 2, under authority of Chapter 94, C. S. for the purpose of electing two Drainage Commissioners: one for a term of two years, from October 1st, 1927, to succeed Commissioner R. D. Whitehurst, and one for a term of three years from October 1st, 1927, to succeed Commissioner T. R. Hodges.
THAT SUCH ELECTION WILL BE HELD AT 11 O'CLOCK ON MONDAY, AUGUST 15th, 1927, IN THE COURT HOUSE IN GREENVILLE, IN THE COURT ROOM, UNDER THE SUPERVISION OF THIS COURT. Thereat each land owner within said district having lands assessed by the district will be qualified to vote for such officers under rules declared at the time by the court.
It is further ordered that copy of this order be published in the Daily Reflector one time during the week of August 1st, and one time during the week of August 8th, 1927, and that for ten days copies hereof be posted before said court house door, and five conspicuous places within said District, previous August 15th, 1927.
This August 4th, 1927.
J. F. Harrington,
Clerk Superior Court
5th-11th-2wks.

Any Pretzeleer Can Reach High C

Yes, even the basso profundo Professor Pretzino we picture tosses off a perfectly pitched C upon the slightest provocation. You need no ear for music to recognize a good C when you see one. Pretzeleers don't bite by ears, but by teeth. And they do their letters in O-So-Guds. Like this:

Musical or not, it's a pleasure to pretzeleer. Even bass drummers do it when they get a chance at O-So-Guds. These pretzels are baked by Uneeda Bakers. Baked brown. Baked crisp. Baked brittle. And with a fine hearty saltiness that makes you want more and more.

Serve pretzels with soup, salad and dessert—with iced drinks, cheese and hors d'oeuvres. They're good to eat with meals or without.

Especially recommended for children because they are so easy to digest and good for teeth and gums.

Ask your grocer how many people are taking home pretzels made by Uneeda Bakers.

Daily News Letter

Gossip of Staff Correspondents at World Centers of Population

Hartford, Conn. —(INS)—George Dudley Seymour, the man who made Nathan Hale a real figure in the minds of modern day Americans, is developing "The Birthplace," as he calls Nathan Hale's birthplace, several miles east of this city into a memorial to Hale that he hopes will endure far into the future. Mr. Seymour has high hopes that this property will escape the fate of other historic Connecticut spots by being so fixed that it cannot be "improved" by real estate operators.

Mrs. Seymour, who received an honorary degree from Yale University for his research into the life of Hale, is dividing his time, this summer, between the homestead in Coventry, and his business in New Haven. A larger number of visitors than ever before travel into Coventry to see the birthplace this spring. The tide has been swelled by the fact that Mr. Seymour is putting a portrait of Nathan Hale in every school house in the state at his own expense.

While "The Birthplace" has been rescued from oblivion, others interested in ancient things have saved the old state prison at Granby from being destroyed. In that structure, which was the first formal prison in the country, British prisoners were kept for weeks after their capture in various battles during the Revolutionary war, and made to work in copper mines nearby so as to furnish the Colonial forces with munitions of war. Incidentally, the British prisoners also built many homesteads about the country in northern Connecticut for their Yankee captors.

Passing of the succulent Connecticut river shad, which once were shipped across the country is noted with regret by lovers of good eating in this district. Once shad and short cake were famous here, the run of the shad coinciding with the blossoming of the shad bush along the river shores. It was a legend secured from the Indians in settler days that shad would run when the shad bush bloomed, and generations since have proven it is true.

Pollution is driving the shad out of the Connecticut. So declared Frank C. Ingham, dean of the shad fishermen on the river, who is retiring this year, after forty years of fishing. Mr. Ingham took over the business from his father George who previously had taken it from Ezra Ingham, a fisherman of note a century ago.

Not only shad are going but the famous clam beds at Poverty Island in the mouth of the river, are useless because the "clams taste of kerosene nowadays," says Mr. Ingham.

TODAY

(Continued from page one) everything. STARTS everything carries everything under his hat. a crowded space for imperial restoration.

Prince Chichibu, brother of the Mikado, is to marry, and the Japanese elders are selecting a bride. He has nothing to say about it, which is a violation of nature's wise Darwinian rule of "natural selection."

If he chose for himself, as did Philip, father of Alexander, when he picked the wild olympian, or the Norman Duke, father of William the Conqueror, the Japanese Imperial family might gain strength. A strong infusion of Tartar blood might help.

Los Angeles. It is said, probably without important authority, to be ready to offer \$100,000 more than Chicago will give for the next big prize fight.

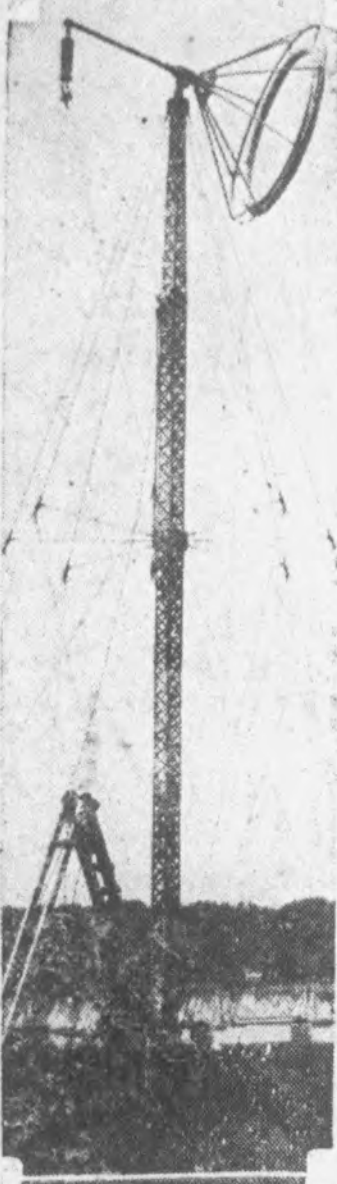

Los Angeles doesn't want and doesn't NEED the mob that "a great prize fight" would bring with it. You can't have a combination home

Her Color Went Black. She Was Frightened To Death

Mrs. Waita New Brighton, writes: "If I could only write as I can talk I would have many sufferers relieved of that deadly indigestion and gastritis. I must have had a severe attack as my color went black. Friends thought I was going to die and recommended CARTER'S LITTLE LIVER PILLS. All I can say is, your pills are a wonderful laxative and I take one after meals and at bedtime, and in this way I keep free from constipation and its torturing results. Indigestion or gastritis never bothers me now." They are small, easy to swallow and can be taken by children as well as adults. Remember! This is a Doctor's formula, free from Mercury, Calomel, poisonous drugs, and a safe vegetable laxative. CARTER'S LITTLE LIVER PILLS. All druggists—25c. and 75c. red packages.

Waiting

That would produce a five or ten million dollar fight, and enable Mr. Rickard to begin soon with his book "Gloves I Have Put On Others."

Some, unsympathetic, suggest that, as the government can control radio, it should forbid broadcasting brutal and bloody details of prize fighting in millions of homes.

Government will not allow moving pictures of prize fights to be carried from one state to another. Why allow the story, by radio, to be carried into every state.

It is the broadcasting of prize fights that eventually will STOP prize fighting. Clergymen, listening in, will combine to stop the brutality, and they will be able to do it.

The wonder is that they have not done so already. Prize fighting

is a REAL moral issue, more important than Jonah and the whale, or Darwin and monkeys.

Automobiles going to and fro on the earth are no longer allowed to make a parking place, picnic or camping ground of the land around West Point. Some, foolishly indignant, say West Point belongs to the people, and the people should not be kept out of it.

Quite true, but the room in which the Supreme Court deliberates also belongs to the people. Nevertheless you are not allowed to drive your little automobile through it or eat your "hot dogs" on its benches. West Point is for training officers and should be used for that purpose. Those that wish to inspect the college, not to picnic, are always welcome.

HOW WE VULCANIZE

The insert we make in your worn, torn, ripped or punctured tire is done over a mould that leaves the inside just as smooth as it ever was, and the outside of exactly the same finish as the original. You can scarcely tell it from a new tire and take our word for it, it will last just as long. We can reduce your tire bill if you will let us vulcanize.

AND dive. Los Angeles will prefer to keep out the dive and promote the home.

Mr. Tex Rickard will some day write an enlightening book on prize fighting and fighters. Just now, he feels that the radio takes part of his profits. At the last million dollar fight there was one seat unsold, until quite late in the afternoon. Mr. Rickard suggests that listeners-in on the radio should pay twenty-five cents each for the pleasure of enjoying fight details.

Vacation Luggage

No matter where you go on that vacation trip you will need good luggage. Dependable Luggage—to withstand hard useage. We are at your service with a vast selection of the famous Rountree trunks, bags, traveling cases of every type. Offering always the best in value.
