Man Killed Near Hickory Believed to Be Albert Lancaster From Georgia

Hickory, N. C., August 6.—(AP)—While the body of Earl Williams is still being held in the parlors of a local undertaking establishment here there is an increasing effort from several states to determine the real identity of the man, who it is alleged, was fatally shot by manly justice, and Thos. Jacobs of the highway near here last Monday afternoon. A telegram from Chief of Police J. L. Beaver, of Atlanta, to Chief Lantz, today says, "Earl Williams real name is Albert Lancaster from Hawkinsville, Ga." that is considered by local authorities as the most authentic information yet received concerning the identity of the man who has stirred more than county-wide interest.

HUMAN FACTOR MAIN FEATURE IN LIFE TODAY

New York Man Tells Conference of Human Relations in South

Blue Ridge, N. C. August 6.—(AP)—The South is a favorable position at its time of industrial expansion to profit by the experience of the last quarter of a century in human relations industry, and experience which has brought about a change of heart in the contest between employer and employee in the great plans of the country, so that cooperation has replaced coercion as an effective means of getting the most from both men and mills, Deana A. Wellington Taylor of the New York University graduate school of business administration, told the eighth annual conference of human relations in industry here today.

CUBS TWO FULL GAMES AHEAD IN NATIONAL

(By The Associated Press) Chicago, could regard her Cubs jubilantly today, as they apparently had picked up the right trail to the National league pennant.

Six consecutive victories, three in a clean sweep over the 1924 Braves, pushed the Brains in front by two games.

It is nine years since Chicago National fans feasted on the champion ship and now they are beginning to have the same feeling as the kitten watching the canary.

Percy Jones polished off the Boston warriors by a 5-2 verdict before a ladies day crowd totaling some 22,000. Jones kept the Braves within eight hits and led the Chicago attack with four hits in as many times at bat. His single in the fourth drove in two runners and tucked the game away.

Cy Williams went a long way in wrecking the Pirates by lashing out a home run, a triple, double and a single in four official times at bat, as the Phillies hung up a 9 to 7 victory.

Williams the leading home run hitter for the circuit with a total of 23 drove in five of the runs and scored three himself.

Adolfo Lique, Cincinnati's Cuban hurler had the giants helpless while the Reds finished in front by 3 to 0. Lique cased the New Yorkers down with five bingles. Only one Giant reached third base.

Brooklyn concluded a stay at St. Louis by trouncing the Cardinals 5 to 2, giving the Robins the series by 2 to 1. Brooklyn failed to advance into a tie with the Reds for fifth place however, as the Red legs kept up the pace.

Bobbe Ruth showed the stadium fans he was still in the home run sprint by socking the ball into the right field bleachers for his 35th of the year as the Yankees whipped the Bengals into submission by 5 to 2.

The Senators waded through St. Louis hurlers for a 17 to 8 triumph Washington furnished a batting orgy in the fourth when ten runs crossed the plate.

Carrigan's Red Sox stopped the pale hose by 4 to 1 for their fourth straight verdict although the Boston team continued to have a monopoly on the American league cellar by a wide margin. Two triples by Flanagan helped the Boston cause.

The Indians fray at Philadelphia was washed out by rain.

AMBASSADOR SCHURMAN TOURING GERMANY
(By AP)—Ambassador Jacob Gould Schurman is determined to tour thoroughly the country to which he is accredited.

The ambassador has mapped out a regular series of journeys through Germany, in the course of which he proposes to study the land and the people. He began with Heidelberg and the country around it, then attended the Shakespearean festival in Bochum, the center of the Westphalian coal district. He has also visited the Hanseatic town of Bremen, Hamburg, and Lubeck.

TWO GAMES NEXT WEEK

Sam Carson, manager of the baseball team of the local unit of National Guardsmen, today announced the schedule of games of the Artillerymen for next week.

Coleman will play at the fair ground here Tuesday afternoon. Scotland Neck will appear Wednesday.

Both of these towns have exceptionally fast organizations. Manager Carson is expecting two of the best contests of the season. These are the first games the Guardsmen have played since their return from annual encampment at Fort Bragg. Washington appeared here Wednesday, but the game was interrupted by rain at the expiration of the third inning.

August will conclude the season for the Greenville organization. They will turn their attention to football in September, and by opening of the season expect to have one of the most formidable aggregations in this section of the state. The showing last year was good, but no record will be made to surpass all previous records.

Tuesday August 9th is "DOLLAR DAY" in Greenville.

He completes a jump from Detroit to San Francisco, another to Honolulu, and then a 4,700 mile hop to Brisbane, Australia, success in which would give him a new world speed record. From Brisbane he hopes to fly to Sydney and then to London, New Zealand.

Twins on Top In Piedmont

Raleigh, Aug. 6.—(AP)—Winston-Salem Twins today graced the top rung of the Piedmont League ladder but their attempt to shatter the world's record of 54 scoreless innings went awry when the lowly Durham Bulls scored against them in the 43rd act.

O'Hara and Long hit safely to score, preventing the Twins from adding to their goose egg string, though the leaders won the game and took top position.

Age downed youth at Raleigh when Rube Eldridge bested Moger on the mound in a contest which marked Raleigh's first score in 29 innings. High Point won.

Rocky Mount knocked Salisbury off the lead position when Pitcher Caviness hurled the Bucs to a 12-0 victory in the Rowan capital.

The Most Amazing Quality in Chevrolet History

Offering the most amazing quality in Chevrolet history, today's Chevrolet is the most popular gear-shift car the world has ever known.

Quality in design! Quality in construction! Quality in appearance and performance! Never before has a low-priced car possessed them to such an amazing degree—

—because no other low-priced car combines the progressiveness of Chevrolet and the diversified experience, the vast resources and matchless facilities of General Motors.

Go with the crowds and study today's Chevrolet. Mark well the aristocratic beauty of its lines—the superbly executed details of its bodies by Fisher.

Then go for a ride! Revel in the thrilling spurt that results when you "step on the gas." Delight in the smooth operation—the swift sweep of the passing miles.

Here is quality obtainable at prices which reflect the savings of tremendous production and which emphasize the willingness to share these savings with the public.

Here is the most desired object of American life today: a car of amazing quality—for everybody, everywhere!

OLD SPANISH CITY TO BE EXPLORER ROMAN TUNNELS

Toledo, Spain, August 6—(AP)—Poisonous snakes and insects are to be chased out of the underground passages beneath the city and their wealth of Roman, Moorish, Jewish and Christian art objects disclosed to the public by modern electric lights.

The entrance to the tunnels which date back to Roman times, was found beneath the home of El Greco, the famous seventeenth century painter. The passages are tunnelled five stores underground, and secret corridors go off for miles in several directions, some even coming out into the river below the city.

Built by various holders of the ancient city, they contain valuable relics of the Romans, the Moors, the Jews and the Christians. The home of the painter was once owned by a rich Jew, to whom certain of the tunnels are attributed, and deposits of gold have been discovered in them. There are also splendid Roman vases, Moorish doorways and murals. By next year the city of Toledo will have many of the valuable relics restored and many of the rooms lighted so that they may be easily accessible to tourists.

Many difficulties are being met in connection with the work. The underground rooms and corridors are so infested with scorpions, snakes, and other poisonous creatures that workmen were willing to enter them. There were "bottomless" pits to be bridged, and just as the work seemed simplified, new passages were suddenly discovered and they too were to be cleared out.

Some of the tunnels have never been explored and the city has offered every inducement to workers who have constantly refused. It is estimated that some of the tunnels could not be gone through, in ten days.

FRENCH RIVIERA TO HAVE AIR SERVICE

Paris—(AP)—A daily air service from Marseilles to Nice will shortly connect the French Riviera with the capitals of Europe.

Because of the lack of a suitable landing field the flight from Marseilles will be made with hydroplanes, which will use Villefranche Bay, two miles from Nice, as a base.

The contour of the Riviera is such that it will be necessary for engineers to practically build the mile-square landing field necessary for large passenger planes. It is expected that the work of leveling such a field will be started next year. The hydroplane service will start in the near future.

RAILROAD RESTORES FIRST KANSAS CAPITOL

Fort Riley, Kas., August 6—(AP)—The first capitol of Kansas, now a roofless structure of crumbling stone will be restored to its aspect of 75 years ago.

A western railroad will assume the entire expense of restoration amounting to \$20,000. The building is located on the Fort Riley reservation near here.

Hand-hewn lumber like that in the original building, will be used in the reconstruction.

The building was completed in 1855. The lower floor was used for the house of representatives and the second floor for the territorial council, as the senate was called in those days.

When you have occasion to visit nearby sections are you taking advantage of the opportunity to tell the farmers what a good tobacco market Greenville is, and the great preparations that are being made for the coming season. Remember, regardless of your particular line of business, every person that visits this city helps you. We know that Greenville has a good market, but let's tell others about it and let them come and find out for themselves.

DOLLAR DAY

On next Tuesday Greenville Merchants will observe their regular semi-annual dollar day, with bargains galore for eager shoppers of this vicinity. Next Tuesday's event will be the fifth of the semi-annual Dollar Days sponsored by the local Merchants Association and every effort is being put forth to make this the biggest ever held. The buying public of Greenville and the surrounding territory is passing up a big opportunity if it fails to take advantage of these semi-annual bargain events.

LET'S HAVE SOME SHOWS

The fall season is just ahead and to theatre goers and show lovers it means the show season, but to residents of Greenville it means little, unless they are able to go elsewhere for their entertainment in the absence of a show place in this city. Greenville has a movie house in operation and another soon to open, but there are those who, in addition to liking movies, occasionally want to see a good show as well.

Last season many good shows visited this section but none came to this city. Hence many Greenville dollars were spent in nearby towns for this form of amusement. Lack of a theatre with large enough stage to take care of the production and an auditorium with sufficient seating capacity to justify good shows is given as the reason for Greenville's lack of shows, but as we see it, this condition should not exist.

Greenville's central location and its seven hard surfaced roads leading in from all directions should make it the logical place for a good theatre and we are of the opinion that such a venture here would prove a profitable one. There are hundreds of Greenville people and people of the surrounding section who are going to see shows during the show season, and if they cannot see them here, they are going elsewhere to see them. A theatre here large enough to justify good shows would keep a lot of Greenville

money at home and would bring in more from the surrounding territory.

OHIO STATE SENDS MANY TO BIG LEAGUE BASEBALL

Columbus, O.—(AP)—Ohio State University claims a record as an incubator for big league baseball prospects. Three Ohio State men went to baseball's big show this year. Ten alumni of the school were sent to the major leagues in the last decade.

Arle Tarbert and Marty Karow of Cleveland, and "Red" Ames, Jr. of Warren compose this year's crop. Tarbert and Karow went to the Boston Americans upon graduation. Ames, son of the famous New York Giants pitcher of 25 years ago, was signed by Pittsburgh while a sophomore.

Market Report

Cotton--Stocks--Grain

COTTON

New York, Aug. 6.—(AP)—Trading in the cotton market today was attributed chiefly to further evening up of commitments in preparation for the government crop report scheduled for publication on Monday. Traders apparently found nothing in today's news to throw any fresh light on the probable showing of the official crop figures and fluctuations were irregular.

After selling off to 17.20 at the opening, December rallied to 17.48 and closed at 17.39 with the general market closing steady net 3 points to four points higher.

Futures closed barely steady; four lower to four higher; spot quiet; middling 17.15.

GRAIN

Chicago, Aug. 6.—(AP)—Corn prices bulged today, but wheat dragged lower with black rust reports apparently losing effect as a market influence. Offerings of corn future deliveries were scarce and corn crop advices continued pessimistic. Corn fields in some of the best producing sections of Illinois were said to be without any appreciable change in appearance in the last three weeks.

Wheat closed weak 5-8 to 7-8 net lower; corn 1-1-8 to 2-3-4 up; oats showing 1-4 to 3-4 advance and provisions unchanged to 5 to 7 off.

WEEKLY GRAIN AND PROVISIONS

Chicago, Aug. 6.—(AP)—To a considerable extent, the fall is wagging the dog just now in the grain markets, corn and oats showing more action sometimes than wheat. The outstanding reason is practical certainty that a large percentage of the country's corn crop cannot possibly mature, even if frosts are late, and that oats threshing returns in many sections are extremely disappointing.

Compared with a week ago, the corn market this morning was 3 1-8 cents to 4 5-8 a bushel higher, oats 3 1-2 to 3 5-8 a 3 3-4 cents up, with wheat showing 1 3-8 a 1 1-2 cents up, with wheat showing 1 3-8 a 1 1-3 cents to 1 1-3 cts advance and provisions 12 cents to 40 cents decline.

STOCK MARKET

New York, August 6.—(AP)—Pronounced reactionary tendencies developed in today's brief session of the stock market although pools continued their efforts to mark up prices and succeeded in lifting nearly a dozen issues to new record

highs. The selling was not associated with anything in the day's news but appears to have been inspired largely by the belief that the technical position of the market had been weakened by the recent sustained advance.

The closing was heavy. Total sales approximated 1,000,000 shares. General Motors, Allied Chemical and some of the other recent industrial leaders were the hardest hit, although there were no wide open breaks. On the upside, buying was most effective in such specialties as Collins and Aikman and International Harvester, each of which sold at least five points above yesterday's final quotations.

U. S. Steel common was under pressure but some of the Independent, particularly Republic and Inland, received strong support.

Public utilities also presented several strong spots, Brooklyn Union Gas mounting to a new high and Brooklyn Edison climbing more than 3 points.

buying appears to have come from large operators and institutions rather than from small speculators and investors although the latter have come into the market in increasing numbers.

The cut in the rediscount rate was coincident with the establishment of a record high level by brokers' loans but the fact that the reserve ratio is larger than it was a year ago indicates that securities borrowings have imposed no great strain on the credit situation. Fears were expressed some weeks ago that a lower rediscount rate might lead to wild speculation in securities with resultant price inflation, but it is now believed that the political uncertainty occasioned by the Coolidge announcement will act as a brake.

Adjournment of the Geneva Conference without reaching an agreement on the battle cruiser curtailment passed practically unnoticed by the market, although it was held responsible for the upward flurry in Bethlehem Steel, regarded as one of the country's leading manufacturers of steel, for armament purposes. Other steel shares strengthened moderately on reports of Motor shares particularly General Motors Nash and Chrysler, were whirled upward despite announcement of additional price cuts. Revival of activity and strength in the oils was believed to signal an early turn for the better in that industry.

Most of the chain store and merchandising shares mounted to record high levels on reports of expanding earnings. Public utilities also discounted the prospects of increased fall business.

Several of the high grade railroad shares climbed to new peak prices although the group, as a whole was rather sluggish as a result of the sharp drop in the June earnings of class one carriers and the \$7,000,000 wage increase granted to Eastern Locomotive engineers.

A Broderick, Scotland, farmer was troubled because his bull jumped hedges and fences. The Scot invented this eye-shade. Now the bull can't see over the tops of the barriers and, consequently, will not jump.

Honesty Pays

Lyman W. Prose, ten-year-old son of Leonard Prose, San Diego, Cal., fireman, found that honesty paid—one per cent. The boy was rewarded with \$100 when he returned to the owner a purse he found. It contained \$10,000. (International Illustrated News).

Daily News Letter

Pittsburgh. — (INS) — Keeping step with progress of aviation, Pittsburgh plans to erect a 300-foot aerial lighthouse at the confluence of the Monongahela and Allegheny rivers to guide night flyers.

It is to be a memorial lighthouse or beacon, dedicated to the pioneers of aviation, nine of whom will be honored by having their statues at the base of the huge shaft.

Aviators flying at night could identify Pittsburgh through the shaft of light a distance of 50 to 100 miles depending upon the prevailing visibility and atmospheric conditions.

Raymond M. Marler, architect and war aviator, now president of the Aero Club of Pittsburgh, drew up the plans calling for an edifice costing \$200,000.

The Point, where the two rivers meet to form the Ohio River would become a landing place for amphibian planes as well as the site of the aerial beacon under Marler's plans. Stone steps would lead from the memorial to the water's edge for the convenience of pilots landing planes.

Three Pittsburgh aviators are among the nine to be honored with statues—Dr. Samuel P. Langley, an early experimenter whose crude airplanes were called "Langley's folly" in his time; Galbraith Perry Rodgers, the first pilot to cross the United States in a plane, and Col. William Thaw, commander of one of the founders of the famous Lafayette Escadrille of American flyers who fought for France before America entered the World War.

Statues of Orville and Wilbur Wright, Col. Charles A. Lindbergh, Commander Richard E. Byrd, Clarence Chamberlin, and a third noted flyer yet to be chosen also will grace the base of the Pittsburgh air beacon.

Four months idleness has not served to force a resumption of negotiations leading a settlement of the bituminous coal strike.

Neither side can see an end to the strike before at least a month hence, probably even much longer. But in the Pennsylvania field where the strike is about 30 per cent effective due to the reopening of what were formerly union mines with non-union labor, both mines and operator entertain high hopes of ultimately winning.

Miss Lola Burrell has been nicknamed the "Princess of Good Losers" for her sportsmanship in a recent popularity contest here. She believed that if she wanted to win badly enough, she would win, so before the contest was decided she purchased her wardrobe for the trip to Hollywood, the prize.

But the psychology failed to work and Miss Helen Buck was named the winner. So Miss Burrell immediately phoned the victor her congratulations and offered to lend her the unused garments she had bought for the trip. Miss Buck but the dresses did.

Lola didn't get to go to Hollywood accepted.

TODAY

(Continued from page one)

mentioned by this writer, the President said: "That is hardly a friendly suggestion." The President felt that if he carried his load until March, 1929, he would deserve a rest.

He has told that to members of his Cabinet. Secretaries Mellon and Hoover had recently told the writer on separate occasions that public opinion would practically compel the President to run for a second election. President Coolidge shut his mouth a little tighter than usual and said nothing, which he does with ease.

What if the Republican convention should nominate Coolidge on the first ballot. His action in that case might depend on happenings between now and next July. President Coolidge will not shrink plain duty or set his wishes above those of the people, but when he said "I do not choose to run" he said that he did not want a second nomination, and said it sincerely.

The President's announcement is the only topic discussed on board although other news comes by radio. Chicago is to have the fight, located with complete absence of humor on Soldiers' Field. The Chicago Cubs lead. M. T. T. who plays cricket for Sussex, made the season's first double one hundred runs and one hundred wickets. Britain is building air battleships with torpedoes, anchors, riding lights, beamlocks for fighting men, and will soon be based at Singapore. Polite war-tor to Asia.

All that news, and more came through the ether to this floating city, but all attention was concentrated on Coolidge's "I do not

Mr. Henry White leaves \$1,000,000 and remarks, in his will, that he leaves none of it to his wife because:

"There is nothing I could leave her that could adequately compensate for my love and affection for her."

That's doubtless true. Conjugal felicity is beautiful and priceless and Mrs. White, originally a Vanderbilt, whose \$10,000,000 helped her husband when he was young and handsome, does not NEED money.

In ordinary cases, however, husbands should not conclude that losing them means losing everything, and that money wouldn't do any good.

Mr. Vincent Astor has new ideas for a trip next year to the strange Galapagos Islands, where turtles live to be 900 years old, and grow higher than the dining room table.

He will visit those islands in a big yacht, now building. On the yacht he will carry a small, fast airplane. With this he expects to visit and explore the tops of the flat mountains on the Galapagos group, thus far unexplored. Mr. Astor flies and is a pilot. He was one of the first to establish an air line in America.

Future exploring parties will be ENTIRELY by air, going around the world in leisurely fashion, in ten or fifteen days, visiting the most interesting mountains, dropping down to cities and valleys occasionally, studying volcanoes "close up."

Commander Byrd believes that flying will conquer the whole world inside of ten years.

Next year, an airplane register will be published, "classifying every airplane in the world. A few years hence such a register printed in the finest type would be too big to push in a wheelbarrow. There will be millions of planes where there are now hundreds. Forty million automobiles on the ground and a million flying machines in the air will make this a busy country.

Man's Chance of Drowning Greater Than Woman's

Philadelphia—(INS)—A man's chances of drowning are 11 times greater than those of a woman. This is the assertion of Horace Weir, former Olympic aquatic star and present swimming instructor of the Philadelphia Y. M. C. A. Weir bases his statement on the drowning statistics compiled for last year which show eleven times as many men were drowned as women.

This 11 to 1 ratio is all due to man's carelessness, Weir says. "It is woman's natural instinct to be cautious," Weir declares. "After a lesson or two I have noticed that a man will go into a pool and if told to swim ten yards he will attempt fifty. On the other hand a woman will not attempt to go farther than she is told."

"As long as the men continue to be so careless in the water, at tempting feats which are beyond their ability, they will pay the penalty in a high number of fatalities each year and their list will top that of the woman by more than 11 to 1," Weir predicted.

LET'S GO TO CHURCH

Six Reasons Why You Should Attend Church.

(By Rev. L. R. O'Brian)

I desire to give six brief reasons why every person in Greenville and elsewhere, should regularly attend the church of his or her choice:

First—TO WORSHIP GOD—who makes all things possible; who perpetuates the good and destroys the evil; who grants us the prosperity we enjoy and receives little thanks. This is the FIRST and foremost reason for faithful church attendance.

Second—TO BECOME ACQUAINTED with the most glorious and the most powerful doctrine that this world has ever dreamed—the Doctrine of the Redeemer. One may know the Scriptures, intellectually, but communion and worship with the saints, is necessary to the highest and fullest appreciation of the Religion of the Lord Jesus Christ.

Third—TO EXPERIENCE the joy of a Spirit-filled heart; the thrill of Christian Fellowship; the relaxation and restful influences which characterize pure worship, where each message is free from current controversy, tragedy and harrangue.

Fourth—TO LEARN that the BEST people of affairs in any community are "Church Goers." That all are not just "Sunday Christians." To learn of God, Jesus Christ, His Son and the presence and power of the Holy Spirit.

Fifth—TO HEAR God's word, human hearts lifted to Him in prayer, messages which are prepared with a view to helping each one to attain a higher and more worthy ideal of life.

Sixth—TO ESCAPE the superficial, the "Stump Speech Type" of "Thunder," to escape "Hair Splitting" controversy and lingo. But to emphasize the ESCAPE of which the Apostle spoke when he said (Heb. 2:2-3):

"For if the word spoken by angels was steadfast, and every transgression and disobedience received a just recompense of reward:

"How shall we ESCAPE, if we neglect so great salvation; which at the first began to be spoken by the Lord, and was confirmed unto us by them that heard him."
