DOUBLE CRISIS APPROACHES IN VANZETTI CASE

Thousands of Workmen in U. S. and Abroad Ready to Walk Out On Moments Notice.

(By the Associated Press)
The situation arising from the world-wide campaign of labor and radical elements to avoid execution of Nicola Sacco and Bartolomeo Vanzetti headed for a double crisis today.

As the decision was awaited of Judge Webster Thayer, at Dedham, Mass., upon last of three court appeals, orders for extensive strikes here and abroad went into effect.

In point of numbers, New York City led with up to 250,000 workers, asserted by labor leaders to be ready to become voluntarily idle for the day. Thirty meetings were scheduled in the metropolis, the largest at Union Square, where 1,000 specially equipped police were ordered held in readiness.

Fourteen thousand policemen, armored cars and emergency wagons equipped with machine guns and tear gas bombs were held in readiness for instant service.

Public buildings and the homes of city and state officials were under heavy guard at Boston. A special guard was established about Governor Alvan T. Fuller, with whom an appeal for stay of sentence has been filed and about Judge Thayer, trial judge in the case.

Many arrests have already been made throughout the country, in connection with disturbances. Three men were arrested at Utica, N. Y., after two bombs exploded, speared Utica; Tom Connors, secretary of the Sacco-Vanzetti committee in Los Angeles, was arrested on suspicion of criminal syndicalism in connection with his possession of literature urging people to attend a mass meeting arranged for today in New York. Maurice Selgel, a Russian dentist, was held for hearing today, specifically charged with complicity in the subway explosion; Philadelphia police arrested eight men alleged to have attempted to incite transport and electrical workers to a 24 hour strike.

An I. W. spokesman who organized a strike in the southern Colorado coal field said four thousand men had left their work on the first day of a three days protest strike.

Unofficially predicted a strike of 8,000 clothing workers in Boston. Labor organizations were also planned in New Haven and Waterbury Conn.

Reaction to the sentence was indicated in at least one disturbance, numerous mass meetings and strikes in Europe. A number of people were hurt as police battled a hostile crowd marching against the American consulate at Cherbourg, France.

One thousand taxi-cab drivers were idle in Paris, and part of the working population in the French Capital and in many provincial cities went on strike.

George Branting Swedish attorney who investigated the case for interested Swedish organizations addressed a mass meeting of fifteen thousand in Stockholm, Sweden. Resolutions were adopted protesting against the sentence and asking a new trial for the two men.

Cherbourg, France Aug. 9—(AP)—A crowd demonstrating in front of the American consulate here last night against the forthcoming execution of Sacco and Vanzetti swept through the police barrier about building and sang the international until the arrival of reserves who dispersed them. A few of the police suffered slight injuries during the clash.

The demonstration at the consulate followed a parade through the city.

Paris, Aug. 9—(AP)—Laborite demonstrations of sympathy with Sacco and Vanzetti, some of which ended in fights with the police, were held last night in several French industrial centers.

Besides the clash in front of the American consulate at Cherbourg, there was trouble at Marseilles and Nantes.

Sydney-New South Wales, Aug. 9—(AP)—Some unknown person during Monday night fixed to the American wreath on the Cenotaph here a paper on which was written in red:

"From the nation that will murder innocent men—Sacco and Vanzetti."

The police are investigating.

LINDY AT LOUISVILLE

Louisville, Ky., August 9—(AP)—Col. Charles A. Lindbergh, hopped out from Bowman field here in the "Spirit of St. Louis" today. He planned to "loaf around in Indiana" while and appear over Indianapolis, his next stop, at two o'clock.

COLUMBIA READY FOR RETURN TO NEW YORK

Paris, Aug. 9—(AP)—The gasoline tanks of the monoplane Columbia, which already has received the distinction of flying from New York to Germany, were filled to the limit today and the plane was all set to start on a return flight to New York whenever the weather man says so.

"Everything is ready except the cold chicken, a few sandwiches, black coffee and a bottle of brandy for emergency," said Maurice Drouhin, French aviator, who will pilot the ship, with Charles A. Levine as passenger. The weather at present is unfavorable.

NEGRO GIVEN HIS LIBERTY UNDER BOND

No Definite Charge Launched Against Charles Hardee For Killing Ayden Man.

Charles Hardee, colored, who has been held in the county jail in this city since Sunday charged with running over and killing Sylvester Pierce, 20, of Aydeff, and seriously injuring Jasper Cannon, 16, of the same place, was released this morning under bond of \$1,000. No definite charge has yet been made against the negro, except that of running over and killing a man without stopping to ascertain the extent of the damage.

Coroner E. S. Williams, who began an investigation yesterday morning, apparently had completed the case shortly after three o'clock yesterday, but later developments caused him to continue the inquiry through this morning.

A negro woman whom Hardee is alleged to have visited after running over the two men sleeping on the side of the Cox's Mill highway, told the coroner's jury that Hardee told her of running over someone, and that he would have to leave roughly early. The defendant vigorously denied this however, declaring that he was referring to someone else.

Pierce and Cannon, employees of a log camp in the Cox's Mill community, are said to have been returning from Greenville to Cox's Mill about four o'clock Sunday morning. Growing weary of walking they dropped down on the edge of the road and went to sleep. Hardee, driving a Ford truck, is alleged to have run over them and then disappeared. Pierce was fatally wounded and died a short time afterwards while being carried to a hospital. Cannon sustained a broken hip, but is expected to recover.

County officers who arrested the negro after a search extending throughout Sunday, said that it would have been impossible for the negro to have come to a sudden stop on account of the condition of his brakes. The car, a Ford truck, was brought back to the city and used in the inquiries following the arrest of the negro.

Cotton Market Continues Rise

New York, August 9—(AP)—Cotton futures which advanced \$10 a bale yesterday on publication of an unexpectedly low government crop estimate, jumped \$5 more a bale today in a mad scramble for the commodity by the cotton trade and bear traders. The March option opened at 20.40 to 20.45 cents a pound.

New Orleans, La., August 9—(AP)—All active trading months on the New Orleans cotton exchange crossed the twenty cent line today as further reaction from yesterday's government crop forecast were felt. October scored a 125 point gain and other months rose one hundred points as trading was resumed.

Mrs. Roy Clark Dies At Richmond

A telephone message received by friends in this city today announced the death of Mrs. Roy D. Clark, of Tarboro, which occurred at a hospital in Richmond yesterday.

Funeral services, it is understood, will be conducted at Columbia, Alabama, Wednesday.

Mrs. Clark well known among members of the Baptists denomination in this city. She was the wife of the educational director of the Roanoke Baptist association. She attended several meetings in the city and was one of the prominent workers in the B. Y. P. convention held at the Immanuel Baptist church during the month of April.

News of her death will be received with most profound regret by numbers of friends throughout this section of the state.

BOSTON UNEASY AS SACCO, VANZETTI NEAR DEATH

The Sacco-Vanzetti case causes many uneasy days and nights in Boston. Left shows William Evans, one of many Boston policemen to be armed with machine guns in anticipation of riots; right, Henry Cantor, one of the Sacco-Vanzetti defense committee being arrested for participating in an unapproved demonstration.

MR. COOLIDGE FAVORS NAVAL BUILDING PLAN

Lends Approval to Construction of Additional Cruisers Authorized by Congress.

Rapid City, S. D., August 9—(AP)—The shipbuilding program developed by the general board of the navy department which was discovered today at the summer White House as "moderate" has been approved by President Coolidge after a conference here with Secretary Wilbur.

Moreover, full speed ahead has been ordered on construction of the eight additional cruisers authorized by Congress as a result of the failure of the Geneva Naval Armament Conference. It has been decided that these ships should be put on the seas within the three year period it takes to complete them.

While keels for two or the eight cruisers had been laid, only the plans have been developed for the other six. Congress overruled President Coolidge last winter in appropriating funds for three of these vessels on which work has not been commenced at for which the money available for construction would have passed back into the treasury last July. Now these three along with the other five will be put into commission as soon as possible.

After his conference today Secretary Wilbur also announced that all plans for construction of the huge lighter-than-air ship authorized by Congress of the proposed contract for this ship which would be three times as large as the Los Angeles. Mr. Wilbur is refusing to accept a contract on a cost plus fixed price basis. The only firm which has submitted an acceptable plan for the gigantic ship is insisting upon this contract and the secretary will leave it up to Congress to decide whether such a contract will be accepted.

Police Search For Car Taken Here Last Night

Police today were searching for a Chevrolet roadster belonging to Dr. W. E. Putrell, Pitt county health officer, which disappeared from the front of Will's theatre last night while Dr. and Mrs. Putrell were attending the show. Police at the noon hour today had received no information which might lead to the apprehension of the thief or thieves, but hope was expressed that the car would be recovered in the next several hours.

Six Prisoners Escape From Macon Prison

Franklin, N. C., August 9—(AP)—Six prisoners escaped from the Macon county jail here sometime during last night.

The escape was discovered this morning when jailer Fred Chadwick took breakfast to the jail for them. Ten iron bars were sawed by the men who then lowered themselves from a second story window with a blanket.

The men, charged with minor offenses, mostly in connection with liquor running or handling are: Ransom Hopkins, J. B. Ridley, Sam Allison, Jerome Gorrick, Chas Cochran and Julius Franklin, negro.

Maynard Fletcher Speaks Before Local Rotarians

Rev. Maynard Fletcher, of Washington, N. C. president of the Collegiate Institute of that city, was the principal speaker at the regular monthly meeting of the Greenville Rotary Club last night. He told in an interesting way of his trip to the convention of International Rotary held at Ostend, Belgium, sometime ago, and of the subsequent tour of other countries, particularly the holy land.

The program last night was in charge of the Community service committee, of which D. J. Whichard is chairman. The session was presided over by Dr. K. B. Pace, vice-president in the absence of President Bill Rogers, who is out of the city on his vacation.

Mr. Fletcher was introduced by D. J. Whichard, who said that the visitor needed no introduction, owing to his prominence in Rotary activities in this part of the state. It was not the first time Mr. Fletcher had appeared before the Greenville Club and he was given a noisy welcome.

Mr. Fletcher confined himself entirely to a discussion of the International convention, interspersed occasionally with a description of the countries through which he traveled, the customs of the people, and in many instances geographical references to some particular locality that happened to hold more than passing significance.

He said the flags of forty nations were represented among the fleet of five ships which steamed out of the New York harbor for the Ostend convention. He gave a graphic description of the trip across the water in the giant ocean liners. A spirit of cordiality prevailed everywhere and there was not a moment that something was not done.

Thirty-eight countries were represented at the convention. He said convention addresses were delivered in English, French and German. Most of the foreign addresses were re-read by an interpreter for the benefit of the thousands who did not understand the language in which the original was presented. He told of the cordial welcome extended the visitors by the president of the Ostend club. It was touching in its simplicity and caused everyone to feel that they were really and truly welcome.

After the convention was over the delegates visited, Egypt, Turkey, Greece, and place of interest in the holy land. He mentioned the pyramids of Egypt which have been standing for thousands of years, some of the customs of Turkey, and of the old time greatness of the Greeks in all branches of human science and invention. They also visited Mount Vesuvius, which, even at that time, was belching flame and smoke.

DOLLAR DAY DRAWS GREAT CROWD HERE

Stores Crowded to Capacity by People From All Parts of Trade Section.

Today is Dollar Day in Greenville. And thirteen stores, members of the Greenville Merchants Association, participating in the great trade event, have been crowded to capacity practically all day long.

The crowds started swarming into the city this morning long before the stores opened, and when the doors finally swung ajar, an unparalleled rush began. Each of the stores had special sales forces for the day and numbers were forced to bring more clerks into service during the morning hours.

Virtually the entire trade territory was represented here during the day and hundreds took advantage of the countless bargains which are being every influence at their command to make the occasion a memorable one, and it is probably today will go down in history as the greatest of previous affairs of the kind.

This writer can testify that when cyclones did come in Kansas City they were efficient. One, a funnel-shaped yellow cloud coming down the Missouri River, climbed the bank just above the old Coates house, and went across the city, cutting houses in two as though

ASK COOLIDGE TO INTERVENE FOR ITALIANS

Sacco-Vanzetti Want President to Establish Precedent like Mr. Wilson Did.

Dedham, Mass., Aug. 9—(AP) Judge Webster Thayer, of the supreme court today denied motion by defense counsel for revocation of the death sentence and for a stay of execution for Nicola Sacco and Bartolomeo Vanzetti. Their respite expires at midnight Wednesday.

The Judge's decision was made known here in the form of a telephone call from Judge Thayer, to the clerk of the Norfolk county court. The text of the decision was not made immediately disclosed.

The text of the decision as written by Judge Thayer at his home was on its way to Dedham in the hands of a deputy sheriff when the clerk announced that he had been notified of it by the Judge.

The complete text of Judge Thayer's decision follows:

"The motion for revocation of sentence and stay of execution is hereby denied. To the denial of this motion, the defendants duly saved all rights to which they are entitled as a matter of law, whether by exception, appeal or otherwise."

Boston, Aug. 9—(AP)—The Sacco-Vanzetti committee has telegraphed to U. S. Senators William E. Borah and Robert LaFollette, and to Miss Jane Adams of Chicago, asking them to go to Rapid City, S. D., and wait as a delegation on President Coolidge, with the view to inducing him to follow President Wilson's precedent in the Mooney case by ordering a federal inquiry into the Sacco-Vanzetti case.

Previous requests to Mr. Coolidge for intervention have been answered with the explanation that the President believed the matter exclusively one for Massachusetts to handle.

Rapid City, S. D., August 9—(AP)—It was reiterated at the summer White House today that President Coolidge considers that the Sacco-Vanzetti case entirely a matter for disposal by Massachusetts courts.

The president knows of not appeal to him by the Sacco Vanzetti defense counsel.

Recommendations for clemency have reached Mr. Coolidge from time to time, sent to him of what is considered to be the erroneous impression that the United States Government has an interest in the case. These have been referred to the department of justice.

Boston, Aug. 9—(AP)—Their hopes for legal interference reduced to one slim thread that Judge Webster Thayer might grant a revocation of sentence for Sacco and Vanzetti, continued the battle to save the two anarchists from death in the electric chair next Thursday morning.

Forseeing the possibility of an adverse decision, the defense has prepared to follow even that thin line to the very end in the less than forty hours remaining to them.

Exceptions to Judge Thayer's refusal of a new trial yesterday have been prepared and will be rushed to the State Supreme Court. Another appeal for a writ of habeas corpus may be made to the federal courts and a last, desperate effort, a further respite would be asked of Gov. Alan T. Fuller. It was said the Governor's office considered the case closed.

While the court proceedings were continuing with increasing dramatic intensity, preparations were going steadily forward at Charlestown prison for carrying out the sentence.

Notices were sent to the official witnesses; a dead-line barring for all traffic several blocks from the institution from Wednesday night arranged, and provisions checked for the elaborate system of guards within and without the walls.

A large crowd was expected to gather in the city in answer to the notice sent out by defense committee asking mobilization there of all sympathizers.

Judge Thayer's refusal of a new trial was based on lack of jurisdiction of the court, state statute and supreme court decisions, to show that he was barred from entertaining any such motion.

The hearing, at Dedham, was a dramatic one. The aged jurist who was recalled from a vacation in Maine to sit in the case over the protest of attorneys for the defense denied the bias attributed to him and for the first time broke official silence to defend his record. Judge Thayer vigorously upheld his conviction and declared that neither now nor at the time of the original trial had he been prejudiced within the meaning of the law.

SOUTH CAROLINA TOBACCO MARKET AVERAGES 17 1-2c

Lumberton, Aug. 9.—Flooded sales on South Carolina and border markets. Don't believe actual average will be over 17 1-2 cents. Quality just as good or better than last year, according to general opinion.

Practically all offerings are bottom primings. Lots of real common tobacco on sale. East Carolina primings are 25 per cent better than those on sale at Mullins, Fairmont, and Lumberton. Much money lost by tobacco being poorly graded and in soft condition. First day is not good time to call tobacco as prices are not established. Price will improve.

B. B. SUGG.

WOOD IS LAID TO REST TODAY AT ARLINGTON

Former Governor of Philippines Buried With Full Military Honors.

Washington, August 9—(AP)—Major General Leonard Wood today joined the long list of the man's notable figures who have made the journey down Pennsylvania Avenue, over the Potomac to Arlington National Cemetery, and a final resting place.

Full Military honors and participation of high government officials in the funeral procession by the country's tribute to the famous old soldier who died Sunday in Boston.

Arriving in the early morning, the General's room at Union Station before it was entrusted to a regiment or troops waiting to escort it to a grave in the rough riders' section of the heroes' burial ground at Arlington.

Mrs. Wood, her two sons, and daughter, were in the funeral party. They were met by government officials, ranking officers of the war department, and host of friends of the family. Tribute of the Philippines was given by the General's presence of Pedro Guevara, Philippines Commissioner, and a group of Filipino residents of the Capital.

Through a city whose mourning was exemplified by drooping flags at half-staff, the cortege passed in cadence with booming minute guns echoing from forty miter on the bank of the Potomac at the entrance to Arlington.

The army band led the way for the flag-draped caisson bearing the body. Major General Hanson My, Commandant of the Army War College, headed the procession, with Brig. Gen. Frank E. McCoy, paroled friend of General Wood, more than ten years, as his staff officer.

The burial spot was selected at the direction of Mrs. Wood is a plot close to the grave of Admral Sampson a hero of the Spanish-American War in which Gen. Wood also gave brief service.

Washington, Aug. 9—(AP)—The body of Major General Leonard Wood, arrived in Washington today at 7:25 A. M. accompanied by Mrs. Wood and a military escort.

New York, Aug. 9—(AP)—Through the great stone and steel train shed of the Pennsylvania Station its vastness heightened by the gray of early dawn, the strains of "Taps" whispered this morning.

Muted by the bugler and again from the high dome of the waiting rooms, the notes echoed softly to the ears of a few grimy trainmen and a few scattered travelers, dozing on the benches.

In the baggage car of a south-bound express a squad of soldiers stood attention around a casket whose simplicity was emphasized by its rich drapings of silken flags; behind the soldiers, ranged a few news paper men, heads bared.

The impromptu but none-the-less impressive ceremony attended the placing upon the coffin of the late Major General Leonard Wood a wreath from the Grover Cleveland Memorial Association.

Cleveland and Wood were mutual admirers in the days when one was chief executive and the other a rapidly rising army officer. The brief halt here, enroute to Washington was arranged by the Association.

SAVEN CASES HEARD TODAY

Driving Cars While Drunk Constitutes Majority of County Court Cases.

Floyd Chapman, Beaufort county negro, arrested in this county a few days ago on a charge of stealing cotton in Beaufort county, was sentenced to four months on the county roads on a charge of resisting arrest by Judge W. A. Darden, presiding over this morning's session of county court. Chapman will be turned over to the Beaufort county authorities immediately, following completion of his sentence here, it was understood today.

Ernest Tyson, colored, charged with driving an automobile while under the influence of whiskey, paid a fine of \$100 and cost of action and was ordered not to drive a car for a period of 90 days.

Frank Smith, colored, drew eight months on the county roads on a charge of assault with a deadly weapon. He appealed to Superior court under bond of \$300.

Charged with driving an automobile while drunk, Moses Kennedy colored, paid a fine of \$100 and cost and was ordered not to drive a car again with a period of 90 days.

W. C. Gaskins, white, paid a fine of \$100 and costs on a charge of driving an automobile while drunk. He was also ordered not to drive a car within the next 90 days.

Judgement was suspended upon payment of cost in the case against Paul Jenkins, white, charged with having a pint of whiskey in his possession.

Judgement was suspended upon payment of cost in the case of Charlie Hawkins, colored, charged with larceny. He was also ordered to pay \$4.75 for the property alleged to have been stolen.

POLICEMAN IS SHOT DOWN AT WILSON, N. C.

Another Seriously Injured When They Attempt to Arrest Intoxicated Man.

Rocky Mount, N. C., August 9—(AP)—Eugene Mason, charged with the fatal shooting of a Wilson Policeman and the serious wounding of another officer early today, has been captured in Nash county between Wilson and Nashville, according to information received by Rocky Mount police.

The report received here, police said, was that the fugitive was taken to Wilson to be jailed. Details were lacking.

Wilson, Aug. 9—(AP)—A policeman was killed outright and another seriously injured here early today when they attempted to enter the home of an alleged intoxicated man after being summoned there by the man's wife.

Policeman Joe Ellis was fatally shot when a bullet from the pistol it is alleged of Eugene Mason dropped him. Patrolman Luther Barnes at the same time received a wound in his chest. Mason immediately made his escape and a search was being conducted for him. Mason's aged father was an eye-witness.

Mason came home intoxicated, his wife told officers, she asked for help and the shooting followed when Ellis, Barnes and L. J. McKell, another policeman answered. Mason, 45, was believed to be wounded while fleeing by a shot from Barnes' gun.

Wilson, Aug. 9—(AP)—Through the great stone and steel train shed of the Pennsylvania Station its vastness heightened by the gray of early dawn, the strains of "Taps" whispered this morning.

Muted by the bugler and again from the high dome of the waiting rooms, the notes echoed softly to the ears of a few grimy trainmen and a few scattered travelers, dozing on the benches.

In the baggage car of a south-bound express a squad of soldiers stood attention around a casket whose simplicity was emphasized by its rich drapings of silken flags; behind the soldiers, ranged a few news paper men, heads bared.

The impromptu but none-the-less impressive ceremony attended the placing upon the coffin of the late Major General Leonard Wood a wreath from the Grover Cleveland Memorial Association.

Cleveland and Wood were mutual admirers in the days when one was chief executive and the other a rapidly rising army officer. The brief halt here, enroute to Washington was arranged by the Association.

Prices Generally Good on So. Car. Tobacco Markets

Florence, S. C., Aug. 9—(AP)—With record breaking crowds around the warehouses, the South Carolina bright leaf tobacco market got under way today throughout Eastern South Carolina.

Prices on the lower grades, according to reports received here, were said to be "very good" while on the better grades, the figures were apparently running about the same as last year, when they were considered satisfactory.

Timmonsville markets expected to sell over a million pounds today. In Florence the sales were expected to run over 125,000 pounds.

Some lots of leaf were sold here as high as fifty and sixty cents a pound.

The late opening of the market enabled farmers to have their crops practically all ready for sale.

At Mullins a million pounds of tobacco were offered on the opening day. Prices were good.

Prices at Sumter were generally good. Better grade brought from 20 to 35 cents, while the poorer grades ranged from three to 10 cents. More than 150,000 pounds were here.

SOX CONTINUE TO HOLD LEAD IN NATIONAL

(By ASSOCIATED PRESS)
The fast traveling Red Sox have run their winning streak to six games. The rejuvenated Bostonians gained another victory in their drive to climb out of the American League cellar by jolting the Detroit Tigers yesterday, 3 to 2. A home run by Harry Heilmann and doubles by Warner and Gehrig provided the Detroit runs. Boston put over the winning tally in the third when Myer scored from first as Regan's grounder rooled through Gehrig to the outfield.

Shaute scattered the seven hits he allowed Washington and Cleveland won easily six to one. Walter Johnson held the Indians scoreless for the first five innings and then weakened.

No other games were played in either the American or National League. Rain and wet grounds forced the postponement of five contests.

The Chicago Cubs remained three and one half games ahead in the National League race and today had a double header planned with the Brooklyn Dodgers, from whom they have won 12 of 13 games played. Joe McCarthy's term is beginning to look like the strongest team in the race. The Cubs changes however, probably will be decided on their next road trip. If the team can return to Chicago still in first place it will have the drop on its competitors, as Chicago will play 20 of its last 26 games at home. The showing of the Cubs at home is unsurpassed in the National League.

By a freak in the schedules, New York will be without major league baseball for two days. The Yanks have left on their third and final western tour; Brooklyn is at Chicago and the Giants do not open up their homestand until Thursday. The Yanks will be gone for 22 days, returning to New York August 31st, for a game with the Red Sox.

The Huguenots hit out for the road in an enviable position, even though Washington should continue its present 600 gait through the remainder of the season and the Yanks win only 19 of their remaining 47 contests, the best the Senators could do would be to tie for first.

Where They Play

OUT OF KEELER'S GOLF BAG!

Trick Shot and Tournaments

(By O. E. Keeler)

The first time I saw Joe Kirkwood they were still calling him "The Man from Down Under", because he was so recently from Australia, and somebody told me to ask him, "Ow do you like our 'arbor' because Joe, like every good Australian from Sydney, contends that Sydney has the finest harbor in all the world. I thought best not to make this inquiry until later. This was in 1921, at the United States open golf championship at Washington, and I greeted Joe thus:

"So you are the man who can make a golf ball do anything?"

Joe grinned.

"Anything except go in the hole", said he, somewhat ruefully.

He did his celebrated trick-shot by distinguished eyes at the Columbia Country Club. President Harding and vice-President Coolidge were the principal spectators. The first and only time I have seen Mr. Coolidge smile was when Joe posed a victim with his foot on top of one ball and another ball teed on top of his foot, and when everybody was expecting Joe to drive the top ball he hit the lower ball a couple of hundred yards.

Mr. Coolidge smiled. He has a really engaging smile, when he smiles. Mr. Harding applauded briskly. He was a sincere golfer. Joe Kirkwood has had a rather spectacular career in American and British golf since leaving Sydney, Australia. He has won a flock of good, big winter tournaments, and has threatened in more than one major event—especially a certain British open, which he seemed to have in the bag with seven holes to play—only to bog down at the finish. Joe is a most likable chap and a fine golfer, and I fancy I know what constitutes most of his trouble in tournament play. You know people always are asking, "If he can make the ball perform as he does in his exhibition of trick shots, how does he ever lose a tournament?"

Perhaps partly for that very reason.

You see, Joe has a bewildering array of shots in his category. And I cannot get away from the impression that when he is in a competitive event Joe can't help speculating if it would be better to play the shot this way, or that way, or a third way, all of which he knows he can do. Fade it or hold it up from the other side, draw this one in, or cut it sharply and ride the cross-wind. Joe can do these things. He can do too many for his own good in tournament play. I fancy. And when a golf shot is played with the least trace of mental indecision as to another shot or club—"will too often it doesn't come off."

I think Joe realizes this himself to an extent. The last lecture I heard him deliver, at East Lake, Atlanta, I remember he said:

"The dumber you are the better you play. Don't try to learn too much about this darned game!"

Something in that too.

I look for Joe to break through and win a big one some day at that. And he'll do it spectacularly.

VETERAN BASEBALL PLAYER BASS AWAY

New York, August 9—(AP)—Veteran baseball men who remember the star teams and players of twenty and more years ago today mourned the passing of William O. Gilbert once a member of the famous Baltimore Orioles, second baseman with the New York Giants in 1904 and 1905, and later scout for the Newark Club of the International League.

Gilbert died yesterday at his New York home from apoplexy. He was 82 years old.

We are yours to serve.

Salisbury Back In First Place In Piedmont

Raleigh, August 9—(AP)—Not to be outdone by fair or foul weather Salisbury today swung back into Piedmont League Leadership, after a short absence, and sent Winston-Salem down to second peg as the race for second place honors grew older and shorter.

Raleigh, first half champs who had been experiencing a genuine slump here of late, pepped up a bit to fat its batting average, splitting a double bill with Rocky Mount.

High Point gragged a contest from Durham, taking advantage of pitcher Roy Crumpler's wildness.

Bobby Jones Placed At Head Golfers List

New York, August 9—(AP)—The United States Golf Association has placed Bobby Jones at Number 1 in its Amateur rank for the 1927 season and George Vonelm, as Number 2. Although Von Elm defeated Jones last year for the title 2 and 1, Bobby's place at the top is hardly disputable.

Jer. W. Sweetzer, of New York, was placed at Number 3, and others of the first ten followed in this order:

Francis Quimet, Boston; Watts Gunn, Atlanta; Bob Stein, Seattle; Eddie Held, St. Louis; Jese Guilford, Boston; Harrison Johnston, Minneapolis; and Roland McKenzie, Washington, D. C.

The first ten players, together with a supplementary 10 that was arranged in alphabetical order, will be seeded in the draw in the amateur championship at Minneapolis starting August 22, providing they qualify.

Sweetzer is the only outstanding amateur who will not enter the Championship at the Minikhaders Club. He has not fully recovered from illness that kept him out of the game nearly all season. Nearly every amateur player of note will be entered in the Amateur

Young Hostess Caught Napping

"I was never so embarrassed in my life," confessed a young bride recently; "never again will I be caught without some cool and refreshing drink to offer my friends when they drop in unexpectedly."

But how easily her discomfiture could have been avoided! How easily could she have won their pleased approval if only she had had in the ice-box a dozen bottles of Orange-Crush!

Made from real oranges and containing real orange juice, Orange-Crush makes a delightful treat wherever women gather for an afternoon or evening party. Served in gleaming glasses, it instantly speaks the thoughtful hostess.

"There are six reasons why Orange-Crush is so surpassingly delicious: First, the juice of luscious oranges; next, the delicate flavor of their peel; next, the zestful tang of the fruit acid found in oranges, lemons and limes. Added to this, a pure food color such as is used in cakes and candies, healthful carbonated water, pure cane sugar. Nothing else."

Orange-Crush may be obtained by the case either from one's neighborhood dealer or from the local botler. The public is warned to ask for it by name and to identify it by the J. Frankly Bottle.

Drink Delicious Orange-CRUSH

Championship. The U. S. Golf Association announced that 168 entries had been accepted. Of this number, 32 will qualify for the following four days of match play.

Two Big Games To Be Played Here This Week

Base ball enthusiasts of this city will have ample opportunity for seeing members of the local military unit in action today and tomorrow when they take on the strong clubs from Colerain this afternoon and Scotland Neck tomorrow. Consider these games, as both of the visiting organizations are said to be among the best in the state, with along string of victories to their credit.

The artillerymen are confident of making a splendid showing against both of the visiting clubs following their victory last Saturday over Wilmington, which is considered the fastest aggregation in that section of the states.

Manager Sammy Carson stated today that he hoped Greenville people would attend these games in large numbers, and support the local in every way possible. The month of August will more than likely bring the base ball season to a close, and those who have followed the club so faithfully throughout the season are assured of a gilt-edge brand of ball during the final days.

PARKHURST TAKES OFF IN HAWAIIAN FLIGHT

Ottumwa, Iowa, Aug 9—(AP)—W. C. Parkhurst, Peoria aviator, who is an entrant in the San Francisco-Hawaii flight Friday took off shortly after four P. M. today for the west. He gave no indications of where he would land tonight. Parkhurst stopped here last night to make compass corrections.

Leading N. C. Woman Was Once Bank Clerk

Raleigh, N. C.—(AP)—Advancement to officialdom in a small town bank was once denied Miss Bertha Helen by its president because she was a woman.

Being an ambitious clerk she immediately resigned. Today she is assistant and acting cashier of one of the largest banks in North Carolina. She was recently elected the states leading business woman.

Bank officials she says, are generally not in favor of pushing their women employees into executive positions. For this reason women have to work harder than men to succeed. Because they possess "tact, personality honesty, loyalty and care for details, all important the day of women bankers is dawning."

MORRISON MAY BECOME HEAD OF DIRECTORS OF THE STATE FAIR

Raleigh, N. C., Aug. 8—(AP)—Former Governor Cameron Morrison will probably succeed William A. Graham, commissioner of agriculture, as president of the board of directors of the State Fair, it was indicated when directors met here today.

Commissioner Graham declared that he would not be a candidate for re-election, and former Governor Morrison was indicated as the most likely successor to the office by members of the board.

A full meeting of the board has been called here August 27, at which time the directors will clear up affairs of the old fair association, and among other things, formally accept the land furnished as a permanent site for the fair by the city of Raleigh.

Portsmouth Has Ten Game Lead Virginia Loop

Raleigh, August 9—(AP)—Portsmouth, with a 10 game lead over Wilson for first place in the Old Dominion Circuit, today battled at Richmond again, after taking the week's curtain raiser.

Olin Perritt took the mound himself to pitch his Petersburg boys to a one-to-nothing count against Frank Reil, Wilson ace. Kinston rallied to get four runs in the 8th inning to go into a tie for the cellar with Norfolk by defeating that team.

ARGUMENT OF CASE OF WESTERN UNION DELAYED UNTIL 23-

Raleigh, Aug. 8—(AP)—Oral argument before the State Corporation Commission on the Western Union Telegraph Company's petition to increase zone rates in the state is 15 1-2 per cent, scheduled for tomorrow morning, has been deferred until August 23. R. O. Self, clerk of the Commission, said today.

CLAY WORKERS MEET IN RALEIGH TODAY

Raleigh, Aug. 9—(AP)—Seeking to promote the use in North Carolina of North Carolina clay products, the North Carolina Clayworkers' Association met here today.

Prof. A. F. Greaves-Walker, of State College, father of the movement, said the cost of brick construction had decreased in the state since brick making became a home industry three years ago, citing figures to show that 2000 square feet of frame wall cost \$562.00, while the same area of brick wall cost only \$786.59.

The most beautiful buildings in the state, he said, are those constructed of the new shades and designs of face brick with which North Carolina concerns are experimenting.

WANT ADS PAY

In this modern world of business and knowledge of value, the public is always ready to recognize merit.

This age finds Camel worthy of leadership

THE people of this modern, busy age are always anxious to recognize quality, and they have placed Camel first among cigarettes.

Modern smokers have an experienced taste that quickly learns to know good tobaccos. Camel is their favorite, because they recognize in it the choicest tobaccos grown, blended to bring out their exquisite taste and fragrance.

Camel has won its way to the top in the hardest-to-please age ever known because it has the qualities of goodness that make smoking a pleasure. You will revel in the enjoyment of these cigarettes. No better smoke can be made. "Have a Camel!"

BOY SCOUTS TO MEET HERE THURSDAY NIGHT

The newly organized Greenville Boy Scouts will meet at the Rotary building Thursday evening at eight o'clock, according to an announcement made this afternoon by Charles W. Porter, director of the boys' work committee for the summer. Numbers of interesting games will be played, and important matters looking to the organization will be taken up.

MRS. WARREN RETURNS FROM HOSPITAL

Friends of Mrs. W. H. Warren will be glad to learn that she has returned from Washington, where she has been in the hospital.

AUXILIARY OF AMERICAN LEGION TO MEET TOMORROW

The Auxiliary of Pitt County Post of the American Legion will meet Wednesday afternoon at four o'clock at the home of Mrs. L. H. Bowling on Evans street. Mrs. C. A. Bowen will be assisting hostess. A large attendance is urged as his is the time for election of officers for the coming year.

Unveil Tablet To Song Writer

Asheville, N. C., August 9—(AP)—The great simplicity and wide appeal of the songs of Stephens Collins Foster, author of "Swanee River," "Old Black Joe," and "Old Kentucky Home," were named by W. L. A. Green, president of the American Federation of Labor, as the reason why the labor organizations of Asheville have so very appropriately erected a monument to the great composer in the church yard of Calvary Church. Fletcher President Green was the principal speaker this morning at the services at Calvary conducted by the Central Labor Union of Asheville in connection with the unveiling of the tablet which has been erected by the Asheville organization.

The services began at the Calvary Church at 10 o'clock. Greetings to the labor men of the state, who came over to Fletcher from Hendersonville where they are attending a state labor convention, were extended by Mayor Gallatin Roberts of Asheville and Mayor John T. Wilkins of Hendersonville. The Governor of Pennsylvania, and the Secretary of the Chamber of Commerce at Pittsburgh sent messages of good will which were read at the services. After selections of Foster's songs were played by William P. Fiering, Cornetist, and words of welcome by representatives of Confederate Veterans Organization in Asheville and Hendersonville were delivered, President Green made the main address of the morning.

Safe Blower Confesses at Winston Salem

Winston-Salem, Aug. 9—(AP)—Ed Kirkman, 27, one of the trio of alleged safe blowers who were arrested early Sunday morning with a kit of burglar tools, and held in city jail in default of \$5,000 bond each to await trial on charges of having burglar tools in their possession, has confessed that he made the clamp to remove combinations from safes, and was to have received \$25, or \$50 from the first "haul" for his trouble, according to chief of police Thomas.

Chief Thomas said Kirkman told him he delivered the tool to J. C. Vann and Vick Edwards, who gave their address as Greensboro Saturday night and hired an automobile in which to make the delivery. He also told chief Thomas that the first safe was to have been blown in Greensboro Sunday night, but the arrest of the trio here Sunday morning spoiled their plans.

Kirkman explained to chief Thomas that he brought Edwards and Vann to this city Sunday to spend the night with him. He claimed they were not attempting to crack the safe at the Service Station fourth and Popular streets, where they were arrested.

Vann and Edwards told chief Thomas Kirkman was "lying" when he said they were going to rob safes and denied everything.

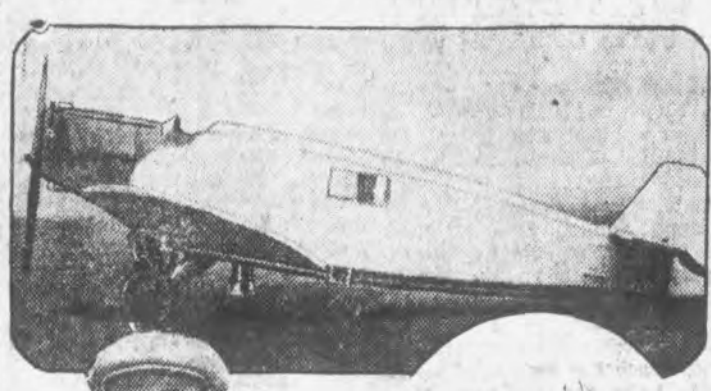

In addition to the triangular looking tool used for learning combinations out of safes, a jimmy and larger monkey wrench police found a rubber glove used by vegman in opening safes to keep from leaving finger prints in the hired car used by the three men.

Traffic Officer Slightly Injured

H. E. Wooten, motorcycle traffic officer, received painful but not serious injuries when he was thrown from his machine on Dickerson Ave yesterday afternoon.

The accident occurred just as the officer suddenly stopped to avoid a collision with an automobile which made a left turn in front of him. The stop was so sudden that the machine turned over and threw the officer forcibly to the pavement. He suffered mainly from shock of the impact and several abrasions to the body.

JUNKER ENDURANCE PLANE FIRST OF TYPE TO ATTEMPT ATLANTIC

Plane in which Germans set new endurance record (shown above) is constructed throughout of duralumin, with a covering of corrugated iron. Lower left is Johann Ristitz, one of the Junker pilots on the record making trip (a and right) Friedrich Loose, another flier which Junker probably will choose as one of the trans-Atlantic pilots.

Berlin, August 9—(AP)—The Junker all-metal airplane W-33, with which Germans expect to conquer the Atlantic in a monoplane with a Junker L-5 motor of 310 horsepower and seats two in the cockpit.

It was in this plane that Johann Ristitz and Cornelius Edzard set what was announced as a new endurance flight record of nearly 52 1/2 hours, exceeding the record until then held by Clarence Chamberlin and Bert Acosta, the Americans.

The plane is constructed throughout of duralumin, with a covering of corrugated iron, and weighs nearly one and one-half tons. Its normal average speed is 97 miles per hour, but it is capable of covering 120 miles. When fitted with floats it has successfully accomplished starts and landings on water with half a gale blowing.

Behind the cockpit lies a cabin of 124 cubic feet capacity, accommodating a useful load of 1,500 pounds. The engine is a six-cylinder, four cycle, water-cooled motor, using 230 grams of fuel per horsepower hour. The machine's dimensions are: Span, 61 feet length, 36 feet, and height, 11 feet.

Friedrich Loose, one of the possible pilots is 30. He helped to achieve some of the records held by Junkers. One the March 21 flight he remained in the air 22 hours and 11 minutes.

Loose flew considerably in Turkey. He also took a hospital airplane to Spain for Junkers in the flight of March 21 he used the same type of machine as that selected by Junkers for the American flight, except that it then was a water-plane, whereas the present machine is a landplane. He has been with Junkers for many years.

Another likely Junker pilot is Johann Ristitz, 33 who passed the pilots' examination when only 15, and entered the Austrian military air service during the war. After the war he flew the Budapest-Vienna stretch for Fokker, and as he is also an accomplished stunt flier Fokker took him to Amsterdam as a demonstrator.

Ristitz came to Junkers from Amsterdam and participated in establishing five records for Junkers.

Favorite

One of the favorites in the betting on the mainland-Honolulu flight for the Dole prize is Miss Mildred Doran, Flint (Mich.) school teacher, who will fly with John Auguy Fedlar.

Norfolk Painter To Face Charge Of Killing Wife

Raleigh, Aug. 9—(AP)—If D. St. Clair Hamilton, Norfolk painter, survives self-inflicted wounds at a local hospital where he is considered to have an even chance to recover he will face a Wake county grand jury Sept. 12th on charges of slaying his wife last Friday at the home of relatives near here.

The coroner's jury empaneled to investigate the slaying and attempt at suicide, late today formally recommended that Hamilton be held Mary Howard, 17, and Mrs. Charles Howard, both of whom were at the house at the time of the shooting were ordered held as material witnesses. Mary's bond was fixed at \$500.

Physicians said tonight that it is possible, in event Hamilton recovers, he may have neither mind nor sight. Coroner W. L. Waring attempted to talk with him but Hamilton's mind appeared to wander from the point of the few questions asked.

A B. Hamilton, Clifton Forge, Va., reached here today to be with his brother, the alleged slayer. The father of the two brothers, aged and feeble, and a sister, Mrs. J. K. Evans, also of Clifton Forge, were reported prostrated at the news of the tragedy and were unable to come here.

With Hubby

Across the broad Pacific will Mrs. William P. Erwin fly with her husband, Captain Erwin. Both are entered for the Dole prize flight to Honolulu.

ONE KILLED IN MINE DISASTER

Six Others Badly Injured When Blast Wrecks Tunnel Near Robbinsville.

Robbinsville, N. C., Aug. 9—(AP)—One man is dead, six others are so badly injured most of them probably will die, and fellow workmen are battling underground in an effort to rescue two other entombed miners as the result of an unexpected explosion of dynamite in a tunnel number 7 between Nellow Creek and Rhymer's Ferry, about six miles from here, late Monday.

The entombed men are trapped behind a fall of earth in a passage being blasted out by the Connor Construction Company forces to carry water from the Tallahassee Power Company underground from the great Santeehah Dam to the Rhymer's Ferry power plant. The tunnel is the longest of three, being two miles in length. The men were working near one end when the explosion occurred.

The dead man is a negro, and five other negro miners in a crew headed by Claude Kingsland, white foreman, were caught in the premature blast, which blocked the passage and destroyed a small part of the workings.

Kingsland so badly injured that he

is not expected to live, and the five negroes, were rushed to a Knoxville Hospital. Three of those in the hospital are not expected to survive their injuries, and little hope is held out for the entombed pair. The tunnel was being blasted out by the use of upper and lower shots. The upper tier holes had been drilled and filled with dynamite, and lower holes were being dug out when some workman apparently set off the dynamite prematurely, but hitting it with a drill. Aid was summoned from Robbinsville and work of digging out the fallen earth was being pressed Tuesday.

We want to lighten your burdens.

On account of a death in my family, was delayed but will be in Greenville in a few days.

SACCO AND VANZETTI

On April 15, 1920, paymaster and his guard were robbed and murdered at a shoe factory in Baintree, Mass. Two Italians, Sacco and Vanzetti, were suspected and arrested. A number of their statements made at the time of their arrest were afterwards proved to be false; other circumstantial evidence pointed to them as the perpetrators of the crime. They were tried, found guilty and sentenced to die.

The time that has elapsed since then has been taken up by motions for a new trial and by proceedings in review leading to two decisions by the Supreme Court, which affirmed the procedure of the lower court. The date of the execution was July 10, 1927, but it has lately been deferred to August 10, 1927, by Governor Fuller of Massachusetts, who placed the case in the hands of a committee for complete review of the facts to determine the justice of the decision.

It is unusual that though seven years have elapsed since the crime was committed interest in the case has abated but little. Almost daily it is discussed in the columns of the newspapers. Governor Fuller has been swamped with petitions and letters not only from this country, but from Europe as well. In fact, it is said that the majority have come from the latter mentioned source. The representatives of 20,000,000 trade unionists and socialists throughout the world at a meeting in Geneva voiced the opinion that clemency should be used in the case of these two men. Large mass meetings were held by the organized workers of New York recently to voice their protest. The names of some speakers at those meetings such as Fiorello La Guardia, Abraham Shiplacoff, Arturo Giovannitti, Jacob Margolis and Vincenzo Vacireca, do not sound very American.

During the course of the trial of Sacco and Vanzetti it is said to have been brought out that the two men were valued members of a communistic organization of world-wide membership. It is argued by the supporters of the two Italians that being tried during a time of excitement in this country, when anti-socialism and anti-radicalism prevailed, when foreigners were looked upon with suspicion, that they were convicted largely for being connected with radical organizations, and the fact that they were foreigners; that the jury was prejudiced and the trial unfair.

While on the other hand it is claimed that the defendants were shown every consideration; the jury pick-

ed in the usual manner from a panel of 675 men; that the subject of radicalism was introduced by counsel for the defense, and that the evidence was sufficient to convict. It is pointed out that if the decision had not been fairly rendered the Supreme Court of Massachusetts would not have continuously refused to grant a new trial. They also claim that the delay, and the international protest have been caused by the influence of the organization of which those men are members.

It is indeed a serious state of affairs if an international organization composed very largely in America of aliens, can interfere with the internal affairs of this country or deter the mandates of its courts. In fact, if any organization has gained such power, or exerts its power to such an end as to enable one of its members to escape the penalty of a crime then that organization has become a dangerous element.

The United States, having a large alien population, offers a field for the promulgation of ideas, the formation of societies, that are adverse to American principles. It behooves the citizens of this nation to be on their guard against such groups. As insurance against the encroachments of an alien population the restrictive immigration laws should be strictly enforced and further laws of this nature enacted.—Scottish Rite News.

\$3,000,000 Program Of Expansion For The Oldsmobile

Lansing, Mich., August 9—Contracts have been let for buildings in a \$3,000,000 Oldsmobile expansion program. Work will be rushed, according to I. J. Reuter, president and general manager of Olds Motor Works, so that Oldsmobile production can be increased by the first of the year.

An increase in net sales of \$11,500,000 last year, followed by still greater sales records, and with business mounting to new high levels have made this large expansion advisable, officials report. Retail domestic and export sales for the fiscal year ending August 1, show, up to July 20, a record above any previous fiscal year in the history of the company, say officials.

This large expenditure by Oldsmobile for new buildings and equipment to keep pace with its rapidly expanding business in another evidence of the continued growth of the General Motors Corporation, of which Oldsmobile is a division. General Motors recently announced a record-breaking sales period during the first half of this year.

The new buildings will be erected on the 76 acre Oldsmobile plot in Lansing. They will increase the total floor space by 292,000 square feet, or practically one-third of the

Most folks forget that the kidneys like the bowels, sometimes get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorder. You simply must keep your kidney active and clean and the moment you feel an ache or pain in the kidney region began drinking lots of water. Also get about four ounces of Jeds Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice combined with lithia and is intended to flush clogged kidneys and help stimulate them to activity. It also helps neutralize the acids in the urine so they no longer irritate, thus helping to relieve bladder disorders. Jeds Salts is inexpensive; makes a delightful effervescent lithia water drink which everybody should take now and then to help keep their kidneys clean. A well-known local druggist says he sells lots of Jeds Salts to folks who believe in trying to correct kidney trouble while it is only trouble.

Wed in Cell

While his two-year-old child watched in wonder, Salvatore Merri was married to its mother in the death house at Trenton, N. J., a few days before his scheduled death in the electric chair. He killed a paymaster in a robbery, and his last wish was that the marriage be performed to give his child a name.

floor area now used in making Oldsmobile motors, chassis units and for assembly. The total floor space, including the body plant, will be 1,688,092 square feet.

The contracts already awarded are for buildings which will double the motor plant and enlarge other manufacturing facilities to permit increased production, and will, as well, provide new and additional shipping accommodations.

Work will be started as quickly as possible on the new motor plant which duplicate the modern structure erected by Oldsmobile at a cost of approximately \$1,000,000 less than six years ago. The new building will be placed adjoining the present motor plant so that full economies of concentration of similar operations can be had.

This new motor plant will be of yellow pressed brick, two stories in height with a floor space of 90,000 square feet. This will be devoted exclusively to the manufacture and assembly of Oldsmobile engines in conjunction with the present motor plant.

New railroad facilities will be constructed at one side of the new motor plant so that raw materials will be unloaded at the exact point where required, thus saving time and transportation.

Another two-story building containing 202,000 square feet of floor area has been ordered constructed. This will be built along one side of the present loading and shipping dock. It will concentrate loading and shipping operations and will be equipped with enclosed railroad sidings so that weather will not interfere with shipments at any time. This building will be 900 feet long and 138 feet wide.

Construction of this building will permit several changes in factory layout and will release a large amount

Her Color Went Black. She Was Frightened To Death

Mrs. Waite New Brighton, writes: "If I could only write as I can talk I would have many sufferers relieved of that deadly indigestion and gastritis. I must have had a severe attack as my color went black. Friends thought I was going to die and recommended CARTER'S LITTLE LIVER PILLS. All I can say is, your pills are a wonderful laxative and I take one after meals and at bedtime, and in this way I keep free from constipation and its torturing results. Indigestion or gastritis never bothers me now." They are small, easy to swallow and can be taken by children as well as adults. Remember! This is a Doctor's formula, free from Mercury, Calomel, poisonous drugs, and a safe vegetable laxative. CARTER'S LITTLE LIVER PILLS. All druggists—25c. and 75c. red pills.

ment of additional space for manufacturing operations. This will be fully utilized with the result that all production can be stepped up to a pace equal to that of the doubled motor plant.

Due to the substantial increase in sales of Oldsmobile in the export fields, the entire facilities now used for both domestic and export shipping will be devoted exclusively to port business. The present docks will be enclosed and additional facilities for the boxing of export shipments will be installed.

The expansion program also calls for additions to the power plant facilities to meet heavier requirements imposed by the additional buildings and the power needs of more machinery and enlarged manufacturing schedules.

"The recent history of Oldsmobile has been a steady, consistent increase in business," said D. S. Eddins, vice-president and general sales manager of Oldsmobile commenting on the \$3,000,000 expenditure. "By closely adhering to a progressive policy Oldsmobile has consistently gained in public preference.

CHICAGO GOLD COAST SOCIETY AT CHURCH IN BATHING SUIT

By FRANCIS F. HEALY
Chicago. (INS) Younger members of Chicago's "Gold Coast" society set are going to church in bathing suits.

The gaze has spread from church to church until along the fashion-

able boulevards of the north side couples attired in brilliant red and green bathing suits, partially hidden by kimonos or slickers, can be seen tripping through the portals of stately grey-stone churches.

Of course it's only choir practice but church officials observe in fashion a broad step toward the introduction of ultra-modernism in religious circles.

Girls in the Bowen Methodist Episcopal Church first conceived the idea. They obtained permission their director Dr. Wayne Kidder, who announced he was in favor of the idea.

The church adjoins a stretch of sandy beach and swimming parties are held after the vocal exercises.

Directors of the church board said they saw no harm in the scantily clad girls and boys attending choir lessons, providing they were properly chaperoned.

It was observed that the habit acted as an unprecedented stimulus for attendance.

Some people seem to get a good deal out of life by not expecting too much.

GREAT STEEL TOWER TO BE BUILT IN BRUNSWICK

Raleigh, Aug. 8.—(AP)—Assistant State Forester, W. C. McCormick, in charge of fire prevention work, today reported that a 93 foot steel tower will be built in Brunswick county to bring thousands of acres of commercial timberland under intensive forest fire prevention work. The tower, built near the central part of the county, will have a protective area of about 20,000 acres. It will be the third in a system of state operated lookouts.

Charles H. Flory, third district forester, Fayetteville, will have charge of erection.

ASKS PEOPLE NOT TO LET SENTIMENT RULE THEM IN CASE OF ITALIANS

Hoquiam, Wash., Aug. 8.—(AP)—Warning to citizens and aliens who desire to remain domiciled in the United States, not to let their sympathy or wrong information sway

them as the day for the execution of Sacco and Vanzetti approaches, was issued here by Congressman Albert Johnson, chairman of the Immigration and Naturalization Committee of the House of Representatives.

FIND BOMB AT CHICAGO

Chicago, August 9.—(AP)—A dynamite bomb with an electrical timing device set to cause an explosion at 12 o'clock tonight was found

today in a dilapidated building adjoining the Sub Post office at 1201 West Madison street. The infernal machine was found by a tramp who called the clock ticking. He informed the police.

Only the extremely skillful can defy public opinion without getting crushed.

Smoking and Throat Protection

As viewed by 9651* Doctors

WHAT is the quality that so many of those whose voices are precious have found that makes LUCKY STRIKE cigarettes delightful and of no possible injury to those voices?

For the answer, a number of physicians, many of them leading physicians, in various parts of the United States were recently asked these two questions:

Q1—In your judgment is the heat treatment or toasting process applied to tobaccos previously aged and cured, likely to free the cigarette from irritation to the throat?

9651 doctors answered this question "YES".

Q2—Do you think from your experience with LUCKY STRIKE cigarettes that they are less irritating to sensitive or tender throats than other cigarettes, whatever the reason?

11,105 doctors answered this question "YES".

Consider what these figures mean; consider that they represent the opinion and experience of doctors, those whose business it is to know.

"It's toasted"
No Throat Irritation—No Cough.

Joseph Caillaux,
Noted French Orator,
writes:

"I have found your Lucky Strike Cigarettes very agreeable. They do not hurt my throat in the least and are very soothing to my voice."

J. Caillaux

*WE HEREBY CERTIFY that we have examined signed cards answering Questions One and Two and that there are 9,651 affirmative answers to Question One and 11,105 affirmative answers to Question Two.

TODAY

(Continued from page one)

they had been cut by a gigantic knife.

One of the beautiful young Chouteau girls, of St. Louis, in Kansas City at the time, followed the cyclone in a two horse hack to see what it would do. It did almost everything.

Voltaire, who visited England, described that land as having one sauce and many religions. He preferred France with one religion and man sauces. Things have changed little. An English woman, sister of Lord Ashborne, born a Protestant, granddaughter of an orangeman, changed her faith and shot the Italian ruler, Mussolini, in a religious frenzy. She had previously attempted to kill herself, as she said, "for the glory of God." She was crazy.

One English family connected with the Stanleys and the Russells includes Bert and Russell, said to be the ablest living mathematician, an ultra radical, believing in no religion. Another Protestant member of the family became converted to the Jewish religion. Another is a Mohammedan by conversion, and still another is, or was a messianic in Rome.

This news will not sell extra papers, like a Dempsey-Sharkey fight, but will be important long after Dempsey and Sharkey cease to be important. Pennsylvania State College has discovered that the vitamin B, so important to life is manufactured by the cow in her stomach in great quantities.

Scientists cut a little door into the "rumen" or second stomach of the cow, and deprived her of all feed containing vitamin B. Nevertheless, in a little incubator in that second stomach the cow produced the precious vitamin B in profusion.

That may mean to child life as much as the admirable fight against impure milk made by Nathan Straus.

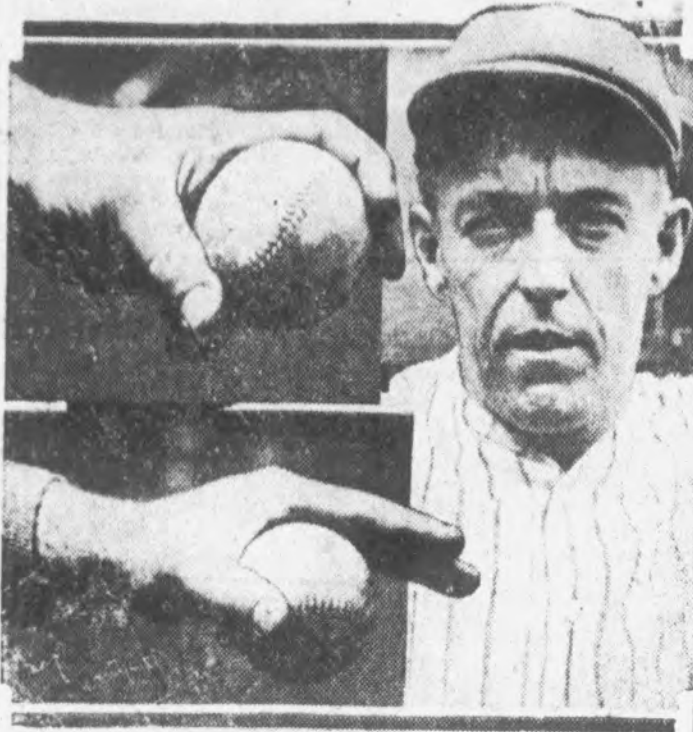

This country, as everybody knows has more miles of railroad track than any other country in the world. Something that ought to make railroad managers and their stockholders think is the fact that "common carrier" motor omnibus lines have more miles of bus routes than railroad have of rail lines.

Two hundred and seventy thousand miles for the buses, 257,000 miles for the railroads.

When airplanes begin competing with the railroads and buses the situation will be more complicated.

Children in the schools now will tell THEIR children: "I remember when my father used to travel long

"DUTCH" STILL FOOLS 'EM

"Dutch" Ruether continues to reign as a southpaw king; he's one of the leading pitchers of the American League this season. Camera study shows how he starts off his fast ball (top), and how he sends his knuckle ball away.

distances in the railroad train. When he went to California he had to sleep four night on the train.

A dear little moving picture star interpreting Hawthorne's "Scarlet Letter," appears on the billboard with a downcast eye and a large red "A" on her chest. One modern young lady asked another, "What does the 'A' stand for?"

"It stands for advertising," was the prompt reply. "That's all the moving picture people think about."

Russia, like all countries in revolution would fight with enthusiasm, and probably fight VICTORIOUSLY. Europe has not forgotten what armies of the French revolution did for her sleepy kings.

If Russia should come west, flying through the air using the latest methods, Europe would regret its order forbidding Germany to keep prepared.

Remarkable Growth In North Carolina High Schools Shown

Raleigh, N. C., August 9—(AP)—Remarkable growth of North Carolina high schools during the past 15 years is outlined in the current issue of "State School Facts", just

CLEM WRENN CONFESSES IN WILKES CASE

President of Defunct Bank Takes Responsibility For Alleged Forgeries.

Winston-Salem, August 9—(AP)—The confession of Clem Wrenn, president of the defunct Bank of Wilkes, that he alone was responsible for the issuance of the six unaccounted for Wilkes county notes of \$25,000 and that all of these were forgeries, has brought much relief to at least several officials and citizens of Wilkes, according to information received here today. In addition to having its money in the Defunct Bank, the county was faced with the six notes, part of them being held by New York banks of which there was no trace in the records of the county. These notes were first discovered a short time ago when several were presented for collection.

In a written confession which

came after consultation with his attorneys, the former president of the bank of Wilkes who is charged with forgery, false issuance of a note, for \$25,000 and embezzlement, takes full responsibility and not only admits the forgery of the county commissioners not in question, but comes across with the open and frank statement that he forged and got the money for \$125,000 more. The double-money dealing business it is learned has been going on over a period of about four years. He had the full confidence of not only county officials but practically everybody in Wilkes. It was an easy matter for him to fool them and he admits that is just what he did. But now he is repentant he says.

"It don't want anybody to suffer for my sins but myself," Wrenn is said to have told his lawyers. Wrenn, it is said, wanted to make the full confession when he got here in the custody of officers from Westbrook Sanitarium in Richmond Va, his lawyers agreed him but he heard another device and kept the whole matter of details a closed book to everybody but his own family when he decided to talk he sent for his lawyers. They transmitted his full confession to solicitor John R. Jones, and also the statement which he gave out for publication in the press.

Nothing makes a bride so angry as to be told that she might have done better.

Soy Bean Meeting Opens Up Monday at Washington, N. C.

Washington, N. C., August 9—(AP)—The three day annual convention of the American Soy Bean Association started today in this territory of Eastern North Carolina, the soy bean center of the world. The convention proper starts tonight with address by Congressman Lindsay C. Warren and David R. Coker, plant breeder and seed specialist of Hartsville, S. C.

The meeting will hold forth in Hyde county tomorrow and move on to Elizabeth City Thursday, with meetings at Windsor, Williamston and other towns along the way.
