

BEST AVERAGE OF YEAR MADE HERE FRIDAY

Greenville Tobacco Market Sold 949,308 Pounds of Leaf at Average of \$20.63.

The highest average price of the season was made on the Greenville tobacco market yesterday, when 949,308 pounds of tobacco brought a total sum of \$19,574.41, or an average of \$20.63 per hundred pounds, according to official figures made public this morning by K. W. Cobb, secretary of the Greenville Tobacco Board of Trade.

Sales for the week were 4,847,444 pounds for \$97,841.66, an average of \$20.17. The season's sales to date stand at 18,340,188 pounds for \$3,422,618.36, an average of \$18.66.

Sales of last year for September were 12,942,606 pounds which was a record for this market prior to the present season.

Announcement this morning was to the effect that the factories had overcome the congestion caused by the exceedingly heavy sales during the early part of the season.

Last year was considered the best season in the history of the local market, but sales so far this season have eclipsed all previous records. For the month of September sales have shown a gain of 6,000,000 pounds over the same period last season.

Many new districts have been represented on the local market this year, the secretary said today. Each day sees numbers of people who never sold on this market before.

Raleigh, N. C., Oct. 1.—(AP)—With North Carolina tobacco which totals more than one-third of the world's production, averaging around \$19 for one hundred pounds for the North-South Carolina border belt, the Eastern North Carolina new bright belt and Piedmont middle belt, interest among growers and manufacturers today turned toward the old belt, having Winston-Salem as focal point.

The old belt, besides Winston-Salem, seat of the world known R. J. Reynolds Tobacco Company, included Burlington, Reidsville, Madison, Stoneville, Elkin, Mount Airy and others. Danville is the largest of the Virginia markets which open simultaneously with the North Carolina old belt markets next Tuesday, October 4.

Record-breaking sales of September have been succeeded by a careful offering by growers to avoid congestion the last week, resulting in a gradual averaging up from \$17 up to \$19 and fractionally higher. The State Warehousemen's Association two weeks ago today urged growers to hold their wad off the market to alleviate congested conditions.

Officials figures from the State crop reporting service are not due until the middle of this month. Meanwhile this week's auto-clearing saw high prices still prevailing on the Wilson market where sales of 21,695,048 pounds sold for \$3,826,754.25, or \$17.68 average, and were almost three million pounds ahead of the sales of 1925 for the same period when 18,968,884 pounds were sold for \$3,422,638.61. Wilson established the world's record in 1925 when 76,666,227 pounds were sold off the floors.

Sales at Wilson this week totaled 5,052,272 pounds for which an average of \$19.11 was paid by the buyers.

New Bern market has disposed of well over one million pounds with the latest average at \$18.93, the sales averaging 87,000 pounds a day since the opening. The price at New Bern was considerably boosted during the last week, being about four cents higher on average grades than was paid ten days ago.

An average of \$19.22 per hundred pounds was brought on the Durham tobacco market yesterday, according to statistics secured from the supervisor of sales.

The amount of tobacco disposed of at Durham likewise showed improvement over the previous day with 255,128 pounds being offered by the large number of farmers selling tobacco here during the day.

Winston-Salem is reported all set for the Tuesday opening. This market was third in the State last year in sales, exceeded only by Wilson and Greenville in the new bright belt. Winston-Salem in 1926 marketed 43,355,815 pounds at an average price of \$23.36.

Weather Outlook for the Week
South Atlantic States—A period of showers in the east Gulf states at beginning of the week, with general showers in the east Gulf and South Atlantic states the middle of the week, attended and followed by cooler weather.

TODAY

Kansas and France.
Boaz Was Lacking.
Harvesting With a Sickle.
Unfortunate America.
(By Arthur Brisbane)
Copyright 1927, by Star Co.)

On either side of the Santa Fe express, in which this is written, the corn fields and farm houses of Kansas fly past. It is a country unlike that through which the writer drove a few weeks ago in France on the way from Paris to see Clemenceau, in his little cottage on the Atlantic at LeJard, not far from Bordeaux.

The trip through France made in a Lincoln automobile was as rapid as this trip by train. In France you drive your automobile as fast as you like, but TAKE CARE YOU HURT NOBODY.

French roads are wide and straight, the Lincoln car used by this writer, came from Nice to Paris, 900 kilometers, 540 miles, in one day and did easily the 400 miles from Paris to LeJard between breakfast and dinner.

French drivers go rapidly, but carefully; if they hit anybody the law hits them. A member of the Chamber of Deputies went to jail for a year, all the influence of his friends could not save him. He struck a child. B. Forman, of Rochester, N. Y., can tell you of a French chauffeur accused of intoxication, sent to jail for ten years. He killed a child. Mr. Forman saw the thing happen.

Here in Kansas you see great tractors providing power, machinery cutting and binding corn, reaper engines binding, threshing wheat, and tying the grain in sacks, all in one operation.

In France occasionally you would see a peasant and his wife cutting their grain with sickles in small fields of irregular shape. Fields were harvested with scythes here and there, teams of horses drew mowing machines. Power driven agricultural machinery was not seen between Paris and LeJard.

Where mowers had passed, you might see old grandmother and her little grandchild bending over, picking up wisps of grain with the right hand, putting them in aprons held by the left hand.

A hundred such gleaners were seen in a day's drive. They were less fortunate than Ruth, their gleanings meagre. There was no Boaz to command his young men, saying, "Let her glean even among the sheaves and reproach her not, and let fall also some of the handfuls of purpose for her and leave that she may glean them, but rebuke her not."

With hand rakes the old grandmother and the little girl could have gathered all the gleanings in a short time, but that evidently was not allowed. Gleaning must be done by hand, the old body must stoop and stoop all day long to pick up stray straws. When the grain had gone from the field an old shepherd would bring his little band of sheep. These would walk (Continued on Page Six.)

Tax Collection Hits High Level in North State

Raleigh, Oct. 1.—(AP)—Internal revenue collections in North Carolina hit a new level for September when \$22,366,458.05 was turned in, the report of William Grissom, collector, made public today shows.

August collections were \$19,434,321.85, and collections for September of 1926 were \$20,140,465.43. A part of the increase in September over August this year is due to quarterly income tax payments, Collector Grissom's office reports. The increase of last month over September 1926, however, is a clear increase in business over the year, no special cause being assigned for the jump in collections.

Shatter Record At State Prison

Raleigh, Oct. 1.—(AP)—All records for the number of prisoners received in a single month were shattered in September at the state prison when 92 persons were admitted to begin serving sentences, according to figures furnished by Dr. J. C. Norman, warden.

The previous high record was established in May of this year when 82 prisoners were received.

The majority of the prisoners are foreigners, Dr. Norman said, but one physician and one banker are included.

Prisoners received in September are classified as follows: white men 64; white women 1; negro men 35; negro women 2. One escape and two recaptures were reported.

PREACHER TO FIGHT BIGAMY AT CHARLOTTE

Rev. Willis Jordan Promises "Merry Times" for Women To Appear Against Him.

Charlotte, N. C., Oct. 30.—(AP)—The Rev. Willis T. Jordan, brought here yesterday from Grand Rapids, Mich., to face the charge of bigamy collapsed in the county jail today.

The collapse occurred when he received a letter from the Mrs. V. V. Jordan of Winding Gulf, W. Va., who he says is his only "true wife" saying she was coming here to defend him when he is placed on trial, probably next week.

Charlotte, N. C., Oct. 1.—(AP)—The Rev. Willis J. Jordan, Columbus Ga., minister, forecasts a "merry old time" if testimony is offered at his trial here on bigamy charges by the three women professing to be his wives.

The clergyman, brought here yesterday from Grand Rapids, Mich., to stand trial, welcomed the advent of the three claimants when he was informed the trio may testify against him.

"Let them come. That is their privilege. We'll have a merry old time when they get here." Jordan, upon his arrival, repeatedly declined to say whether he had married Mrs. Emma Landridge, of Washington, D. C., here on August 19, on which specific charge he faces trial. He was alleged to have been living with her in Columbus when he disappeared from that city September 14.

It is an unusual coincidence that the preliminary trial here Monday will be before Magistrate J. M. Alexander, who was declared by records to have married Jordan and Mrs. Landridge.

Jordan, although confronted with a picture of Mrs. Landridge, stubbornly maintained in a later statement that "I have only one wife and she is Mrs. V. V. Jordan, of Winding Gulf, West Virginia."

"I think of her often," he declared in referring to this second claimant. "Every few days I write long letters to her. The last letter I sent was mailed from Cincinnati, while enroute here. We have a son who is 16, who is living with his mother. They live with her brother also a minister."

The third woman is Mrs. Laura E. Jordan, W. T. Glover, head of the detective agency which sought the minister, has announced receipt of a wife from Police Chief C. A. Brune, of Zion, Ill., which the former says stated that Jordan married the woman September 5, 1898 at Oswego, Kan.

Jordan steadfastly asserts that he has knowingly committed no wrong and that "if I married any of the women who claim me for their husband I have no knowledge or remembrance of the acts."

The divine declared that he was the victim of periodic attacks of amnesia. He intimated that he might be given a thorough examination to ascertain "the condition of my nerves."

Counsel for Jordan announced little evidence would be offered at the preliminary hearing set for Monday and no attempt has been made to obtain bond, which was placed at \$10,000. Solicitor John G. Carpenter announced he planned to call the case, if possible, Wednesday in the Mecklenburg Superior Court, with Judge James L. Webb, presiding.

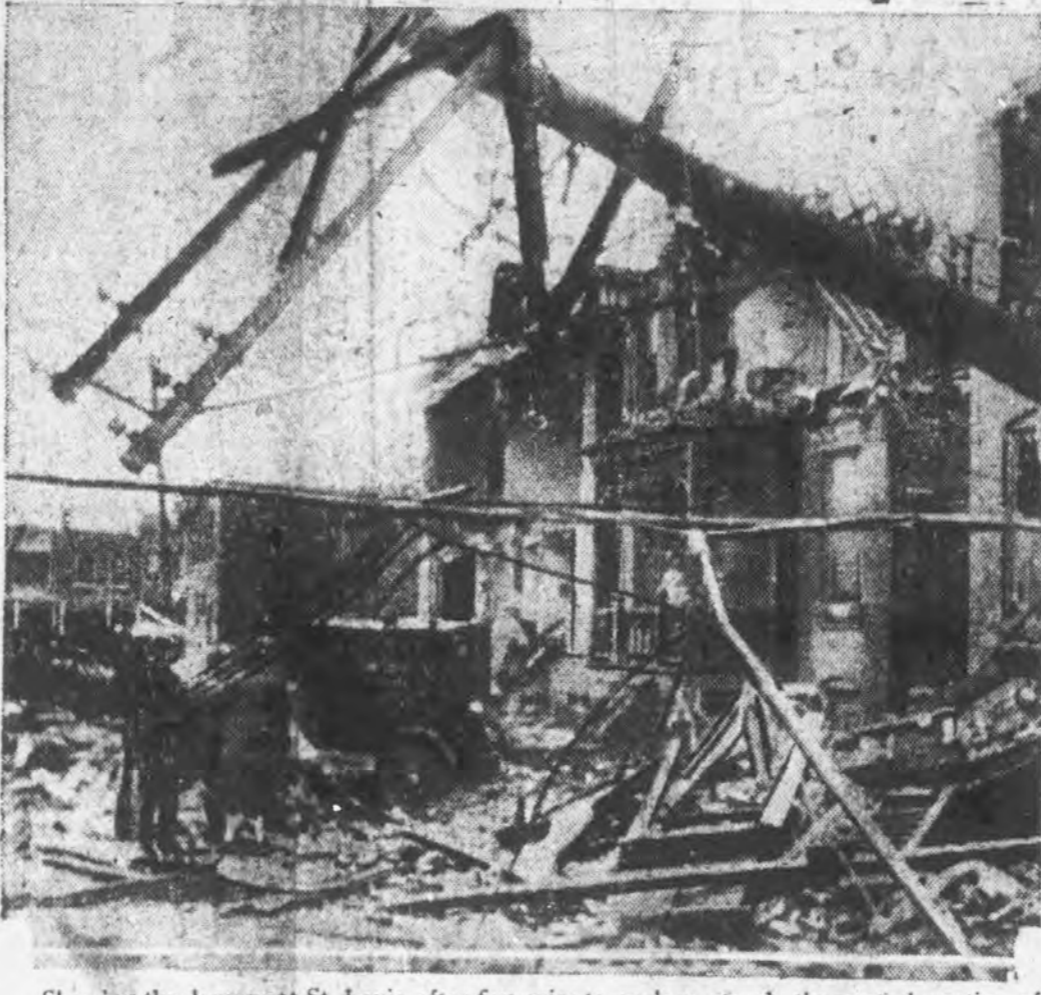

Jordan's story of his mysterious journeys during the past month and a half were quoted by Deputy Sheriff Avery B. Johnson, who accompanies Jordan from Grand Rapids.

"I left my wife in Winding Gulf about August 15 and bought a railroad ticket for Bristol, Tenn., where I was going to inquire about another pastore. The next thing I remember I was in S. C. with a woman who said I married her in Charlotte a day or so before. I told her she must go, as this would never do, but she paid no attention to me.

"At the time I had no money, although I left Winding Gulf with \$127. I preached a sermon in Chester at a Methodist Church and received \$27.

"We then went to Atlanta, staying a week and left for Columbus when friends got me a pastorate there. I stayed there six days and preached one sermon. One night two masked men came to my house and told me they were friends of the former pastor and said I must leave town or take the consequences."

SEVERE DEATH TOLL AT ST. LOUIS

Showing the damage at St. Louis, after five-minute cyclone struck the central portion of the city. The toll of deaths is still mounting and may reach over a hundred.

CIVIL COURT CLOSES HERE

R. C. Baggett Awarded \$200 Judgment Against J. J. Grimsley in Final Session.

The one week term of Pitt County Superior Court, for the trial of civil cases, which convened in this city last Monday morning with Judge W. G. Harris, of Raleigh, presiding, adjourned yesterday shortly after one o'clock after disposing of the case of R. C. Baggett against J. J. Grimsley, involving suit of \$300 for a radiola which the plaintiff had placed in possession of the defendant. The jury returned a verdict awarding the plaintiff the total sum involved.

The next session of Superior Court will convene here October 24. This will be a two weeks term, the first week featuring the hearing of civil cases and the second criminal. The calendars for these two terms contain numbers of cases, special sessions and criminal calendar.

Numbers of civil issues were disposed of here during the term just closed. Some have been hanging fire for months and final disposition was greater with interest of all parties concerned.

NASHVILLE BANK CLOSES

Directors in Meeting Last Night Decided To Close Doors This Morning.

Raleigh, Oct. 1.—(AP)—Doors of the Bank of Nashville, located at Nashville, county seat of Nashville, failed to open for business today and John Mitchell, chief State Bank examiner, dispatched Examiner G. H. Henson to Nashville to investigate.

Reports reaching here today were that the directors of the bank met last night and agreed to voluntarily suspend business. No reason for the suspension of business was learned here.

Deposits approximating \$150,000 were in the bank in August when the institution was last examined by an examiner of the State Bank Department. Mr. Mitchell said. Capital stock of the bank is listed at \$45,150.

C. L. Benson is president of the bank and James R. Worsley is cashier. The Bank of Nashville is the only bank located at Nashville.

friend I immediately became ill and was taken to St. Mary's hospital, later being removed to the police infirmary.

"I only wandered away from home once before. That was about the first of July and it caused me to lose my Roanoke (Va.) pastorate. I don't know where I went."

HEAVY DEATH TOLL IN N. C. LAST 36 HOURS

Eleven Persons Killed And Similar Number Injured in Highway And Other Accidents

Charlotte, Oct. 1.—(AP)—Eleven persons have been reported killed and the same number hurt, some of them seriously, during the last thirty-six hours in highway and other accidents in North Carolina dispatches from all sections of the state received here show.

There were reported on collision between a train and an automobile, a collision between an automobile and a wagon; one man electrocuted, a boy killed when hit by an automobile, one burned to death, an automobile ran off a mountain highway and a child run down by an automobile.

The largest accident reported was that near Reidsville, in which five persons were killed when Southern Railway train No. 135 struck an automobile.

Near Goldsboro five persons were injured in a collision between a bus and an automobile.

Two men were killed and a woman injured near Blowing Rock when an automobile went off a mountain highway while traveling in a cloud and rolled 100 feet down the mountainside.

A man was electrocuted at New Bern. A negro boy was fatally injured at Union when struck by an automobile. A child was killed when run over by an automobile at Durham. A woman was burned fatally at Durham.

Trotzky Expelled From International

Moscow, Oct. 1.—(AP)—Leon Trotzky, once all powerful war minister of the Soviets has again felt the weight of discipline for his outspoken opposition to the Stalin and Bukharin group, controlling the Communist party and the Communist or Third International.

Shorn of governmental posts and demoted in the Russian Communist party for his attacks on the controlling group in the past, he has now been expelled from the executive body of the International, together with M. Vuyovich, one of his chief aides.

The expulsion was unanimously voted by the presidium or controlling organism of the International which as the name indicates, directs international Communist activities.

Trotzky and Vuyovich, the resolution said, could no longer be allowed to serve on the executive body because "of their violent struggle against the organization by means of underground printing plants, coupled with organizing illegal centers and inciting malicious slander against Soviet Russia abroad."

TAKE EAGLE BARE HANDED

Two Greenville Men Capture "King of the Air" on Trip to Pamlico County.

Somewhere in the dense woods between the towns of Hoboken and Lowland, an eagle's eyri is empty, and in Greenville today the owner of that nest is pinning its feathers for a return to the scene of its nativity.

The bird was captured by J. L. Wooten and T. R. Moore last Thursday while returning from a visit to Pamlico County. It was brought to this city, and has been a source of considerable interest to numbers of people who have had an opportunity of seeing it, and listening to the remarkable tale connected with its capture.

It is one thing to capture an eagle in a trap, but it is an altogether different thing to bang one bare-handed. And that's just what the two Greenville men are credited with doing.

As the story goes, they were driving along the highway between Hoboken and Lowland, when suddenly their attention was attracted by an eagle sitting on a stump a short distance from the roadway. They watched the "king of the air" for a few moments, and noticed that two or three attempts to fly met with failure.

Thinking the bird had been injured and was unable to make flight the two men left their car, hoping to bag the game. Not being able to use his wings, the eagle brought his feet into play and ran as hard as his power of locomotion would permit.

The two men gave chase, and in a few minutes Mr. Eagle was so exhausted that he had to sit down and rest. His pursuers attacked with bare hands. Mr. Wooten grabbed a wing, and as he did so, he felt the bird's talons closing on one of his legs. Fortunately he had on extra heavy trousers and was able to free his leg before any damage was done.

Mr. Eagle has gone through several critical examinations since he was brought to Greenville. Some have examined its beak, its talons, and feathers. It has a wing measurement of a fraction over seven feet, and talons long and durable enough to hold an army at bay.

Examinations revealed the fact that the bird had not suffered any injuries as was first presumed. It is believed it had just taken a bath in a nearby stream and was set to permit flight when the captors came along.

George Price Buried Today

Raleigh, Oct. 1.—(AP)—Funeral services were held today for George W. Price, for the last six years instructor in force work at N. C. State College, who died Friday. He was born in Greenville, New Hampshire, April 10, 1857, and is survived by his son, Percy W. Price, director of music at the college. Interment will be at Greenville, his birthplace.

All class work in the department of mechanical engineering was suspended today out of respect.

CONTINUE SEARCH FOR MISSING PLANE

Washington, Oct. 1.—(AP)—The sending of a naval vessel to Johnson Island, 750 miles southwest of the Hawaiian Islands to renew the search for the Golden Eagle, one of the planes lost in the Dole San Francisco to Honolulu air drive, was authorized today by President Coolidge. A sea going tug probably will be used.

SOUNDS KNELL TO AIR TRIP ACROSS OCEAN

Meteorologist Issues Warning Just as Miss Elder Prepared to Take-off Today

Roosevelt Field, N. Y., Oct. 1.—(AP)—Another postponement of the start of the proposed non-stop flight to Paris was decided upon today by Ruth Elder, Lakeland, Fla., aviatrix, and George Haldeman, her co-pilot and navigator, after they had groomed their monoplane American Girl for a take-off about two o'clock this afternoon.

Miss Elder said that adverse weather conditions on the Atlantic, where storms have been raging for several days, caused the postponement.

New York, Oct. 1.—(AP)—Dr. James H. Kimball, weather bureau meteorologist, today sounded the unofficial knell of further trans-Atlantic flying this year, just as Miss Ruth Elder and George W. Haldeman were making final preparations to take off for France in the monoplane American Girl.

"I wouldn't want to say," he told the Associated Press, "that there won't be any good flying weather in October, but the chances are against it and right now atmospheric conditions are so much worse than the very worst experienced by any of the past seasons' fliers that there is no comparison. I don't know what Miss Elder may decide to do but I am printing on the weather map today that conditions are decidedly unfavorable."

Durham Man Injured In Plane Wreck

Durham, Oct. 1.—(AP)—N. D. Shepherd, Durham county resident, today was recovering from painful injuries received in an airplane wreck late yesterday afternoon.

The accident occurred at the Carr Farm, about five miles from Durham, where a commercial plane "Miss Raleigh", piloted by H. B. Poindexter and his aide, L. R. Fisher, both of Raleigh, carrying Shepherd as passenger, at a height of less than a hundred feet it struck an air pocket and nose-dived to the ground.

The plane has been located at the Carr Farm all this week. Shepherd received several cuts about the head and became the first airplane casualty of Durham county. The injuries were not regarded as serious and were treated locally.

While the passenger was hurt, the pilot and his aide, though badly shaken up, received only slight injuries.

Urges Facts in Cotton Reports

New Orleans, Oct. 1.—(AP)—A demand that the officials of the Federal bureau of Agricultural Economics confine themselves to facts obtained from official sources and not rely in whole or in part on guess work or estimates in issuing reports affecting the cotton market has been made by H. G. Hester, secretary of the New Orleans exchange.

The demand, telegraphed last yesterday to Congressman J. B. Aswell of Louisiana, following correspondence on the subject between Aswell and Edward S. Burton, former president of the New Orleans exchange, declared the recent carry-over report issued by the bureau was "grossly inaccurate and has severely depressed the value of cotton."

The bureau's report showed a carry-over of 7,528,000 bales, a half million bales more than shown in the report compiled by Mr. Hester. Losses of from three to four dollars a bale has resulted from issuance of the government report, it was said.

DISCOVER NEW MOOTH CURE
Pittsburgh, Pa., Oct. 1.—(AP)—Discovery of a new clothes moth cure, known as Cinchona Alkaloids, was announced today by the Mellon Institute of Industrial Research.

DEATH TOLL OF TORNADO ON INCREASE

Recheck of Figures at St. Louis Shows 89 Dead and 1,152 Injured in Storm.

St. Louis, Oct. 1.—(AP)—Nearly 2,000 relief workers, enlisted under the Red Cross, today started a systematic program for aiding 2,503 families in 195 blocks struck by a survey to have been affected by Thursday's tornado which killed 52 persons and injured more than 1,000 in St. Louis and vicinity.

Revisions of the death list showed several duplications. Hesse Roberts, one of those reported killed, was found to be alive.

The Red Cross revealed approximately 1,000 persons were in need of immediate shelter, which was provided. The section most in need of relief was shown to be the district between Easton avenue as far north as Fairground Park, the district between Whitaker street on the west and Grand boulevard on the east, and another section north and east of Fairground park, extending through the Hyde park area.

More than 300 injured were still in hospitals today and more than 800 others have received medical treatment.

Estimates of the property loss still vary widely, but E. E. Christopherson, commissioner, placed it at \$50,000,000. A preliminary survey today indicated the loss of many families, who because of the mild weather, had chosen to remain in their shattered homes temporarily. The water poured into unroofed houses and did further damage to unprotected furniture and bedding.

St. Louis, Oct. 1.—(AP)—Hospital lists of tornado victims rechecked early today indicated the number of injured would almost double yesterday's highest figure and reach 1,152.

The dead numbered 89, with the certainty that this number too would mount higher, drawing up to increase from the injured list, and possibly from the debris which still provided hunting grounds for searchers.

House to house canvasses gave 5,500 as the approximate number of buildings destroyed or damaged. It was this large number that gave pause to the counters who last night computed the injured between 800 and 600. Collapse of that many buildings, it was pointed out, might reasonably be expected to catch a greater number of victims.

That more than a million dollars worth of automobiles were destroyed was another reason for checking the earlier hospital lists.

Survey of the entire storm area showed that the bulk of serious storm damage was done residence houses, apartment buildings, small stores, small factories and churches. H. M. Boxby, president of the St. Louis Chamber of Commerce expressed the opinion that the total loss would be close to \$100,000,000. Other estimates were between \$25,000,000 and that figure.

Calling upon all members of his organization to respond to the Red Cross appeal, President Boxby said Saint Louis would meet the emergency without outside help. He wired President W. R. Dawes of the Chicago Association of Commerce, thanking Chicago for the offer of help but adding that "from present indications we feel confident we will be able to take care of the situation."

Ten gangs of wreckers under the building commissioner's started to work this morning tearing down and clearing away dangerous parts of damaged buildings. Overhanging walls were the principal menace. Six hundred more men and sixty additional trucks were added to the army of men sent by the department of streets and sewers to restore streets for traffic. Authorities warned sightseers away.

All last night members of a sixth infantry, U. S. Army detachment, a contingent of the Missouri National Guard and the American Legion, supplementing the St. Louis police force, patrolled the storm zone in darkness. The storm had splintered poles, snapped standards and shattered \$30,000 worth of street lights. They were prepared to shoot at marauders but evidently none was seen.

Substantial buildings in the path of the tornado without its force, in most cases with little or no damage. Frame houses were splintered as kindling wood but the better stone and brick structures suffered only the loss of roofs or collapse of inner walls.

This fact may be an expression on the weather bureau that had the tornado hit open country it would have been insignificant. (Continued on Page Six.)

PIRATES LOST CINCINNATI YESTERDAY

(By The Associated Press)

Blocked by the first skirmish with the Reds from slipping into the National league championship harbor the Pirates were still waiting today with their pennant tow to breeze over the finish line.

After tossing the Cubs for four straight setbacks the Corsairs engaged in the last of a three game series at Cincinnati yesterday and lost 3-1, Red Lucas yielding only six hits.

Pittsburgh has two games to play and needs but one victory to take the banner even though the second place Cardinals capture two remaining contests. St. Louis loafed yesterday. Two reversals for the Bushmen and two triumphs for the Cards would throw the campaign into a tie.

Aldridge started in the box for the Pirates against the Reds and was scored upon for all the Cincinnati fans, retiring after the seventh in favor of Miltus. Singles by Allen and Ford and Crotz double gave the Reds a run in the sixth and in the succeeding frame the deciding tally crossed on Dressen's double and two sacrifice flies.

The lone Pirate counter came in the eighth when Brickell forced Harris, took third on Smith's single and scored on an infield out. L. Wagner forced Smith.

Brooklyn pushed the Giants out of the running by whacking out a 10 to 5 victory behind the pitching of Dizzy Vance who stopped the New Yorkers with six hits.

In a battle of the tail-enders the Braves whipped the Phillies by 12 to 2.

The Yankees turned in on victory 100 off the Senators by a 4 to 3 score.

Chicago swept a double header with the Tigers by 5-4 and 4-1 score.

The Browns split a twin bill with the Indians annexing the closing struggle by 9 to 4 after dropping the opener by the score of 5 to 4.

Boston's fray with the Sox was postponed by agreement.

WANT ADS PAY

Chapel Hill, Oct. 1.—(AP)—The University of North Carolina campus took its football all the more seriously here today as the big team engaged the University of Tennessee Vols in its first southern conference game of the season.

Tennessee, looked up by STAR backers as an aggregation of grid-iron veterans ranking in power next to the Alabama Tide, southern champions, was given the odds, Carolina, however, smarting under a bitter defeat a week ago at the hands of Wake Forest, presented what campus observers believed to be a smoother eleven which promised to show more power after a week of practice in cooler weather.

State College, Oct. 1.—(AP)—Refusing to admit a better team had licked them, yet giving that team all the credit for its 20-0 victory, the North Carolina State College team came home today after enduring the purple hurricane of Furman University at Greenville, S. C., yesterday.

Tech trainers announced the squad escaped serious injury and was ready again to prepare for the next battle with Emerson here on next Saturday.

Wake Forest, Oct. 1.—(AP)—With four varsity deacons slated to watch the struggle from the sidelines, Wake Forest and Eion College met again today on the gridiron in a contest with the local odds favoring the home team.

Clayton, end; H. Weir and Peterson, guards; and James, quarterback, nursed minor injuries as substitutes filled their places in the Baptist line. Pointing out that these players were able to participate but that it would be best to let them rest for more important games, coach Baldwin planned to use second-stringers against the Christians.

BLONDE GIRLS OUTDO BRUNETTES IN SWIM

Toronto, Ont., —(AP)—The blonde girl, who has suffered many an uncharitable cut of late on the score of temperament and fickleness of purpose, won an impressive victory in the gruelling 21-mile Marathon Swim here recently.

When the analysts got busy they discovered that the blonde girl entrants had won over the brunettes in a walk, so to speak.

It was a blond girl who swam the farthest. It was a blond girl who stayed in the icy water longest. Observers insisted that the blondes displayed more presence of mind than the brunettes and were, on the whole calmer. The only brunette girl to win a prize ended her swim when she was frightened by an eel.

OUT OF KEELER'S GOLF BAG!

When Golfing Rules Prove Upsetting

By O. B. KEELER

Curious are the ways of Providence, especially on a golf course and more especially in a golf championship.

Now at Minikahda, in the recent national amateur title melee, there were two young men who were particularly eager to encounter one another—Roland MacKenzie and George Voigt, both from Washington, and both players of considerable renown.

Roland was playing in his third national championship and qualified with a score of 155, with no great margin to spare, as the 156's played off for place in the sun, the play-off, incidentally, finishing by daylight, as play-offs have a way of doing.

Mr. Voigt made a really ambitious start toward qualification and through the sixth hole his card was one below 4's. But at the sixth something had happened which, it is no more than reasonable to assume, knocked him loose from a place in the 32 who started match play on Wednesday, and postponed his engagement with Mr. MacKenzie in a national event at least until next year.

Mr. Voigt should estimate the counter-temptations at something less than the diameter of a golf ball at the end of a shot of nearly 200 yards—surely as inconceivable a margin in a shot as ever set a deserving young golfer back on his heels and ultimately out of a tournament.

Voigt was partnered for the qualifying round with A. Bullock Webster, a most agreeable Englishman from the Pacific Coast. At the sixth tee Voigt driving first, spanked a fine iron to the green 195 yards away and "Bull" Webster followed with another, a virtual duplicate of the first shot.

Too near a duplicate, indeed, Webster's ball, rolling slowly to a halt on the green, lightly struck the ball belonging to Mr. Voigt, displacing it—not very far; a count of feet at the most. A spectator near the green noticed and reported the fact.

Mr. Voigt instantly was alert to a situation that required the application of a golfing rule in the department known as medal stroke competition as differentiated from match competition. Indeed, he

was a bit frustrated by the question. "What shall I do?" he inquired of the universe generally. "What shall I do?"

A diversity of opinions at once surrounded Mr. Webster, named "Bull" by the spectators. The attention of John Anderson, part Doc Wadsworth, an avowed tee was attracted, and each was quite sure of what Mr. Voigt was to do, but they were in total disagreement with each other and started a heated argument as to whether the ball should be replaced before Mr. Voigt played his next shot.

The casual spectator, disarmed with both, and Mr. Voigt, now dejected, again lifted up his voice in appeal to the world at large.

Finally he decided to play it both ways. He first played out with

of magnetism, for it displaced iron as the best material for magnetization. To carry out experiments with the alloy Cioffi devised his instrument. It measures changes in length of a piece of wire about four inches long. The entire equipment had to be suspended on springs so that building vibration would not affect it.

SAY DEMPSEY STILL POPULAR

New York, Oct. 1.—(AP)—Although he failed to regain the heights of pugilism, Jack Dempsey is as popular as ever in New York, the home of Champion Gene Tunney.

Strutting into the arena at Madison Square Garden last night just before Tom Henney, of New Zealand, heavyweight, knocked out Jimmy Maloney, of Boston in the first round Dempsey was given a round of applause by some 13,000 admirers.

Jack and his wife, Estelle, appeared at ringside as the principals of the main bout climbed to the platform. Mrs. Dempsey watched the bout from Tex Rickard's private box, Jack from a ringside seat.

NEW BATTING KINGS OF 1927

Paul Waner (center insert) of Pittsburgh is about to be crowned batting champion of the National League. His lead has practically insured the sensational young outfielder of this honor. In the American League, however, there's quite a duel raging between Al Simmons of the Athletics (left) and Harry Heilmann of Detroit (right). Simmons is ahead by a few percentage points, while his Tiger rival is desperately slugging to close the gap.

FIRST GAMES IN CONFERENCE PLAYED TODAY

Atlanta, Oct. 1.—(AP)—The paths of glory in Dixie today led to football fields where 20 Southern conference teams were embroiled in what was expected to be "the battle of the lateral pass."

Twelve conference teams stood a chance to have their standing besmirched by sundown, these teams being paired in six games.

Eight others went outside the ranks of their organization for opponents, two of these being inter-sectional conflicts.

Virginia and Georgia met at Athens with followers of both teams predicting victory.

Auburn carried on with traditional spirit as the Plainsmen met Clemson in their South Carolina lair. Auburn hoped to atone for last Saturday's disaster while Clemson was anxious to start its conference record with a win.

Virginia Military Institute 2 strong, trotted on Grant field at Atlanta to vie with Georgia Tech for an hour.

The Tornado presented an "unknown quantity", this being their first game of the season.

South Carolina met the strong Maryland eleven at College Park Md. In a game that might have definite bearing on the conference title later on, the old liners are touted highly while the Gamecocks have been pointing for this game.

Chapel Hill, N. C., was the scene of the sixth conference game with North Carolina and Tennessee meeting there. The Tar Heels have experimented all week in attempting to get a consistent backfield together for the Vols. Tennessee has veterans.

Alabama and North Carolina state were watching on, having reeled off their games yesterday.

The Cup That Cheers

Mrs. Miriam Burns Horn of Kansas City, Mo., holding national women's golf championship cup which she won by defeating Maureen Orcutt in finals at Garden City, N. Y.

Her Color Went Black. She Was Frightened To Death

Mrs. Waite New Brighton, writes: "If I could only write as I can talk I would have many sufferers relieved of that deadly indigestion and gastritis."

I must have had a severe attack as my color went black. Friends thought I was going to die and recommended CARTER'S LITTLE LIVER PILLS.

All I can say is, your pills are a wonderful laxative and I take one after meals and at bedtime, and in this way I keep free from constipation and its torturing results. Indigestion or gastritis never bothers me now."

They are small, easy to swallow and can be taken by children as well as adults. Remember! This is a Doctor's formula, free from Mercury, Calomel, poisonous drugs, and a safe vegetable laxative.

CHAMPION RECORD HOLDER

Philadelphia — (AP) — For a man who has hit a baseball 110 miles or so, one record more or less doesn't make much difference. Nevertheless, sports writers paid due notice to the fact that Tyus Raymond Cobb had begun his 23rd year of major league baseball, which is a record in itself. Pop Anson and Cy Young stopped at 21 years.

Thousands of hits, thousands of runs at bat, thousands of runs, mean a lot to the average fan, but they lack vivacity. So the statistician's busy pencil has evolved a new picture of Ty Cobb's record—stuffed with life.

Here is the picture. Imagine a baseball has a diamond in which the bases are 35 miles apart. Imagine Ty Cobb at the starting line, the terrific hit, 110 miles into the outfield. And then in his whirl tearing off 141 miles around the bases to home plate.

There, compressed into one large picture, is Ty Cobb's record in baseball. Naturally, many details are lacking. He has been at bat 11,600 times. Last July he thumped on his 2,100th run. His batting average has been over .300 for 21 successive seasons. His extra base hits total well over 1,000. He has played in nearly 3,000 games. His record in the various departments of the game are legion. The bases he has stolen, if laid end to end would stretch 15 miles!

RUPTURE EXPERT

For Men, Women and Children
Coming To Washington
Representing
WM. S. RICE, Inc.
of ADAMS, N. Y.

The Rice Rupture Method Expert personal representative of William S. Rice, Adams, N. Y., will be at the Louise Hotel, Washington, N. C. Monday, Oct. 3. Every ruptured man, woman and child should take advantage of this great opportunity.

The Rice Method for Rupture is known the world over. You can now see this Method demonstrated and have a Rice Appliance fitted to you. Absolutely no charge unless you are satisfied to keep the Outfit after having the Appliance adjusted and you see how perfectly and comfortably it holds. No harsh, deep-pressure springs; nothing to gouge the flesh and make you sore. Can be worn night and day with positive comfort. Soft, rubber-like composition pad, any degree of pressure required.

Don't wear a truss all your life when thousands have reported cures through using the Rice Method. Why suffer the burden of rupture if there is a chance to be free from truss-wearing forever? Anyway, it will cost you nothing to come in and learn all about the Rice Method and the wonderful opportunity for help and cure it offers in your case. Remember the Expert will be here only one day, then your opportunity will be gone. Just ask at the hotel desk for the Rice Expert and they will do the rest. Call any time from 9 to 12 A. M., 2 to 5 P. M., or 7 to 9 evenings.

Don't miss this great opportunity to see the Expert on Hernia. If for any reason you cannot call write for FREE TRIAL to Wm. S. Rice, Inc., Box 178, Adams, N. Y.

Do you think a good store could sell you a good suit for \$22. if it wanted to?

If you answer "Yes" then you can't think much of us for not doing it.

Give us credit for a fair amount of intelligence—do you think we would ask \$30. for a Griffon garment if it were possible to sell it for less—and sell more?

If you reply "No"—then there isn't any reason we shouldn't know each other.

Griffon Suits and O'coats

RUTH SETS NEW RECORD FOR HOMERS

New York, Oct. 1.—(AP)—The baseball season has ended successfully for Babe Ruth. In the next to the last game of the Yanks in the American League season Babe produced number sixty yesterday, establishing a new record for home runs in a single season.

While some 8,000 fans got a thrill Ruth crashed the ball into the bleachers to erase his old mark of 59, first achieved by himself in 1921 which he tied on Thursday.

Babe had been pulling for the new mark six years. The veteran Pitcher Zachary of the Senators, had the distinction of hurling the ball game which made the dream come true. It happened in the 19th inning with one strike and one ball on the Babe.

Colonel Ruppert paid more than \$1,000 for each home run as the idol of the baseball fans rates \$70,000 per year.

Since 1915 when he started blue-jonging with the Boston Red Sox Ruth has patterned out 416 of his mammoth wallop. Figure demons have doped out that if the distances of Ruth's 416 big drives were pieced together they would stretch for fifty miles. Delving further, it has been found that the Babe has traveled approximately 30 miles on the base paths in scoring on all circuit belts.

Not until 1919 did Ruth start collecting four baggers to any noticeable extent. He made 29 in that season with the Red Sox, with that same team he connected for four homers in 1915, three in 1916, two in 1917, and 11 in 1918.

This is what he has done with the Yanks: 1920—34 homers; 1921—50; 1922—35; 1923—41; 1924—25; 1925—47; to date in 1927—60.

RED PEPPER FOR RHEUMATIC PAIN

Red Pepper Rub takes the "ouch" from sore, stiff, aching joints. It cannot hurt you, and it certainly stops that old rheumatism torture at once.

When you are suffering so you can hardly get around, just try Red Pepper Rub and you will have the quickest relief known. Nothing has such concentrated, penetrating heat as red peppers. Just as soon as you apply Red Pepper Rub you will feel the tingling heat. In three minutes it warms the sore spot through and through. Pain and soreness are gone.

Ask any good druggist for a jar of Rowles Red Pepper Rub. Be sure to get the genuine, with the name Rowles on each package.

LOCALS

MISS FLEMING CELEBRATES TWELFTH BIRTHDAY

Last evening Miss Laura Smith Fleming celebrated her twelfth birthday. Five tables of bridge and one table of rook were played. Miss Mattie Moye Gaylord, making high score, received a picture for bridge. Miss Addie Lee Fleming was presented with the booby prize. High score for rook was made by Miss Florence Jones, who was given hand made handkerchiefs. Miss Alice Hicks Smith, of Roanoke Rapids, N. C., guest of honor, received a string of pearls. An ice course was served.

"DISTRICT SCHOOL OF BLUEBERRY CORNERS"

This play, presented by Greenville talent in the new high school building at Stokes last night, was a pronounced success.

The fine auditorium was filled, and everyone expressed their amusement and pleasure over the comedy. Mrs. James E. W. Cook is director of the play, and it will be given next Friday night at Washington, N. C., under the auspices of the American Legion Auxiliary.

Come to see what your neighbor brought to Winterville Community Fair, October 6th.

Woman's Club to Meet

Vacations are over, and the season of activities has arrived. Club life has been dormant for three months, but in the minds of interested club women, plans have been forming for the winter's work.

The executive board of the Woman's club will hold its first meeting of the season on Monday, Oct. 3, at 7:30 p. m., at the home of the president, Mrs. J. H. B. Moore. The first regular business meeting for the year 1927-28 will be held on Thursday, Oct. 6, at 3:30 p. m., place of meeting to be announced later.

Let every member of the Woman's club hold this date in mind and remember that the first Thursday in every month is Woman's club day.

Masonic Notice

Meeting hour is now 7:30 p. m. At that hour on Monday night, Oct. 3rd, Greenville Lodge No. 284, A. F. & A. M., will have a regular communication. Work in the Master Mason's degree.

J. J. Gilbert, Secy.

BAD PAINS IN SIDE

Spells of Nervousness Also Troubled This Lady Who Gives Cardui Credit for Helping Her Get Well.

Depew, Okla.—"For six years," says Mrs. Edd Burton, of this place, "I suffered as bad as a woman can suffer and still keep going."

"I was good for nothing, was lifeless and pale, unable to eat anything. Nothing agreed with me. At times I had such bad pains in my sides and back I would have to go to bed. I had cramping spells and would faint if I stood on my feet any length of time. My nerves would become upset at the least little thing and I would have spells of crying that were so exhausting they left me prostrate."

"Several of my friends suggested that I take Cardui. They told me of their experiences with it, how much they have been helped. At last I decided to try it."

"In a few weeks, I could see that I was improving, so I kept on. I did not expect the troubles of years to disappear in a few days, not did they, but in time I was much better. I kept up the Cardui treatment for several months and thanks to it I am a well woman now."

At all drug stores. NC-180

Kitchen Cabinets In Fascinating Period Styles

As one woman of social prominence in a large city recently remarked, "The kitchen of the near future will be moving in high society. In fact, I believe that among the finer homes it will again become quite a fad to 'eat in the kitchen.'"

Everything seems to point to the fact that the cold, white kitchen has had its day. Following the old-time gloomy kitchen, it seemed unbelievably beautiful and sanitary.

Put women have found that while wall and several plain equipment becomes very monotonous in some instances actually depressing. This feeling has been growing for some time. Today it is quite evident that the fashion in modern kitchens will call for more cheerful colors—more style—more beauty. This very essential room must be dressed up. It must be a congenial and livable room.

Not only must the room itself be treated with artistic taste as to window drapes, colored walls, floorings, etc., but the equipment must be more artistic—more colorful.

That manufacturers are alert to this rapidly growing change in kitchen treatment is proved by the new type of kitchen cabinets being shown by a local furniture store.

These cabinets are made in fascinating period designs, which we understand were created especially for the manufacturer by an European artist. The beautiful Spanish model, done in typical yellow and red, with appropriate hardware, is illustrated.

It is the first time that kitchen cabinets have combined the very necessary time—and labor saving features with the style beauty and colorings of rich period furniture.

In this new line of cabinets made by one of the well known kitchen cabinet manufacturers are gay, colorful Spanish! Daintily tinted colonial and smart, up-to-date modern—American (Klearfront).

It will pay any housewife who is

interested in latest home developments to go see these beautiful new styles. It is easy to believe that they will create wide comment and be the subject of many a lively discussion at clubs, parties and church affairs where our ladies get together.

Rotary Club To Meet at Fountain Monday Evening

The regular meeting of the Greenville Rotary Club will be held at Fountain Monday evening at 6:30 o'clock, according to announcement made this morning by President W. H. Rogers. All members have been urged to meet at Dail's filling station at 5:30 from where they will depart a few minutes later for the Pitt County town.

Be sure and send your exhibit to Winterville Community Fair, October 6th.

Death By Auto Shows Decrease

Raleigh, Oct. 1.—(AP)—Figures for the first two months of the legal 45 mile per hour speed limit in North Carolina show a decided decrease in the number of deaths as a result of automobile accidents, according to the Bureau of Vital Statistics of the State Board of Health.

In July and August 1925 when the speed limit was 35 miles per hour, 57 persons were killed in automobile accidents. In July and August of 1926, with the same old 35 mile speed limit in effect, 75 persons were killed.

But in July and August of 1927 with the speed limit boosted to 45 miles per hour, only 65 persons were killed.

These figures were compiled in refutation of recent charges that the increased speed limit was boosting its death rate from automobile accidents.

New Residential Section is Being Developed Here

The Greenville Development Company is going forward rapidly with the construction of four new buildings on the property recently acquired from Mr. J. B. Johnson. This development project is to be known as Chatham Circle.

That part of the property that is now being improved consists of seventy five building lots lying north of Johnson street. The lots vary in size from 50 to 70 feet frontage with varying depths. So far the company has no salesmen in the field and they are making no effort to sell. The property will be opened to the public and put on the market a little later in the fall.

Model Home Week will be observed about the first of November when the new homes now under construction will be opened for inspection by the public. These homes will be furnished throughout by the Quinn-Miller Company. The purchaser of the homes will be able to get a view of how the home will look when furnished, but will not have to buy the furniture, however unless he wishes to do so.

The main entrance to the property is an extension of Library

HAPPERSBERGER does the finest watch repairing in Greenville. A trial will convince you. Opp. Proctor Hotel Greenville, N. C.

street which reaches the Circle proper. The development also comprises an extension of Eastern street. This street strikes the Circle at the southeast entrance.

The name of this property has some historical significance. Pitt County was named after Lord Pitt an English statesman who lived in Colonial times. His friendliness to the Colonies in their struggle for independence won for him a warm place in the hearts of America. Lord Pitt was also Earl of Chatham thus giving a very close connection between the name Pitt and Chatham. Credit is due Mr. Dink James for furnishing the historical erudition upon which this name is based.

It is the plan of the owners of this property to put on a sale of lots sometime about the middle of November. So far no price has been set on the lots. The development has not yet progressed far enough to show just what the prop-

erty will be. Grading is now being done on the Circle and it is hoped that the public can be turned in in the near future.

On the west side the Circle goes through the pines to the rear of the Rotary Building and on the east side it strikes the open field and connects with Eastern street.

About Town

"I really didn't begin to appreciate the stores in Greenville until I did some shopping in a neighboring city the other day," a feminine reader of this column remarked to the writer today.

The line of merchandise carried by the local stores not only compares favorably with the larger cities, but in most instances, surpasses them. Then, too, values are just as good as you get anywhere. Buy good materials and you pay for them. Buy them in the big cities and you usually pay more.

"It stands to reason that the big city stores must charge more for their goods than stores in a town this size. They have to pay higher rents and salaries, higher tax rates, and several other items of expense the smaller town merchant doesn't have.

"Some claim the great volume of business of the city stores enables them to sell cheaper. That isn't so. The city has as many stores in proportion to population as the small town. Their volume, of course, is some greater, but increases expenses cut the earnings down, and they are forced to charge more to keep their heads above the water."

The "Harvest Days" sale to be conducted by Greenville stores Oct. 6 and 7 no doubt will be a means of drawing hundreds of shoppers to the city during the "two days" sale is in progress.

This opinion was expressed today by W. H. Woolard, vice-president of the Greenville Banking & Trust Co., and also president of the local Merchants Association.

"Greenville is ideally situated as the principal shopping center of Eastern North Carolina," said Mr. Woolard, "and special sale days, such as afforded by the 'Fall Harvest' event should be a source of attracting countless numbers of shoppers not acquainted with the city merchants have to offer."

"Greenville business houses are doing everything possible to live up to the splendid reputation which they have built up for the last few years, and only the best of merchandise will be placed on their counters for these occasions."

Letting of the contract for additional buildings at East Carolina Teachers College will be received

Young Teddy Roosevelt yesterday took opportunity to accuse Tammany of being the birthplace of political corruption in the Democratic party. Wonder at whose door he would place the blame for Teapot Dome and other Republican scandals. He failed to mention these in his address.

All former records for a single month were broken at State Prison in September when 92 prisoners were received to begin serving terms. Whether the increase in the number of prisoners means that the laws are being more rigidly enforced and more persons convicted or whether it is an indication of increased crime we cannot say, but at least it shows a condition that should be given careful study and consideration by the good citizens of our state. An increase in the number of its criminals is not a record of which the state should be proud.

GREENVILLE MARKET
 The Greenville Tobacco Market is living up to its reputation of the "Best Market in the State." While last year was the biggest season from the standpoint of number of pounds sold, the Greenville market paid the highest average price in this section. Official figures made public today show that total sales for September this year were over eighteen million pounds or over five million ahead of September last year. Despite the heavy sales Greenville has maintained its position with regard to price averaging \$18.65 per hundred pounds for the season to date, which is estimated to be approximately a cent above the average of the belt as a whole.

With these facts in view it can be said that the Greenville market is indeed living up to its reputation.

Since "jazz" came into vogue, everyone has been taking lessons on the saxophone, the ukulele or other syncopating instruments, so don't be alarmed when you learn that the animals with John Robinson's Circus have formed a "jungle jazz orchestra." Witness the above photograph with Mr. Bengal from India looking over the scale for blue notes.

Really the animals with John Robinson's Circus don't play instruments, but they do many other feats as highly intricate. Such famous educators as Theodore Schroeder, Ione Carle, Robert Thornton and Bert Noyes have instilled much knowledge into these beasts and their routines are entirely different from that offered by other circuses. John Robinson comes here for afternoon and night performances on Saturday, October 8.

with more than general interest throughout the state. This college is rapidly forging to the front as one of the leading institutions of the kind in the south, and people in all sections are interested in its development.

"The new buildings, which are to be completed by the opening of the next fall term will enable the school to care for about one thousand students," M. L. Wright, executive secretary said yesterday. "They will also do away with much of the congestion which has existed the last few years, and provide a way for greater expansion.

"Contract for the new buildings was awarded to a Tarboro concern the first of the week. It provides for completion of the structures by next September. Students who have been clamoring for entrance will be admitted. It is extremely doubtful then, if all can be taken care of."

"September is the month of preparation for the fall fire season," F. H. Sipe, district forester wrote the Reflector yesterday. "All county wardens have been busy visiting the various district wardens, checking up on old tools and issuing new equipment.

"The wardens at this time are concentrating their efforts on the formation of "Minute Men" crews, consisting of 6 to 8 men who constitute a complete fire fighting outfit. Craven county leads to date with seven crews, Lenoir is second with three, while Pitt and Greene have two each. Final plans call for the formation of fifteen to twenty-five crews in each of the co-operating counties.

"Since the new state game law makes all forest wardens ex-officio game wardens, the county forest wardens are also county game wardens, and they have been busy issuing licenses for various wardens to sell and instructing them in their duties as game wardens.

"This is a most important feature in connection with the regular line of work of the warden and should receive the cooperation of every citizen of the communities involved."

Market Report Cotton--Stocks--Grain

COTTON
New York, Oct. 1.—(AP)—The cotton market opened steady today as an advance of 7 to 20 points, the market showing net advances of 11 to 23 points in early trading. The market, combined with trade commission house buying on the basis of unfavorable weather conditions over the week-end, advanced up to 21.73, and then to 22.00; but the advance met considerable raising and reactions of six or seven points from the last followed before the end of the first hour.

A private report placed the condition of the crop at 51.2 and the indicated yield at 12,289,000 bales. A private cable report of continental liquidation absorbed by trade calling and covering in the Liverpool market.

GRAIN
Chicago, Oct. 1.—(AP)—As a first class terror, Jack Frost has about retired from the ring in so far as 1927 is concerned. Trade reports at hand today indicate that the country's corn crop except in some sections of Eastern Iowa, Illinois and Indiana is practically safe from frost damage.

Faced by the fact that despite months of anxiety, no taken damage of consequence has yet been done in the main corn belt, prices in the market this morning were at virtually the lowest level of the season, 17-8c to 18-8c off, compared with a week ago. At the same time, wheat was at 76c decline to 1-2c advance, oats 1-2c down to 1-2c up and provisions varying from 15c setback to 22c advance.

On Lookout For Padgett and Pal

Hendersonville, N. C., Oct. 1.—(AP)—A report from Greenville, S. C., that one of the Padgett brothers and "Red" wautes, or Mecklenburg County rural police for their part in a battle with three officers last Monday morning, heading toward Hendersonville with an automobile load of whisky, caused Sheriff John C. Hill and Chief of Police Otis B. Powers to keep an all night vigil on Greenville, Hendersonville highway last night.

The automobile never appeared but the vigil continued today. Asheville police were notified to keep watch also.

The report reaching Hendersonville police at 9:15 p. m. was that one Padgett was in the car. The fact that "Red" however is in a Charlotte hospital in a critical condition led the police to believe that the man referred to was Charles Padgett, wanted in connection with the Charlotte battle.

STOCK MARKET

New York, Oct. 1.—(AP)—Week-end profit taking failed to halt the upward swing of prices in today's brief session of the stock market. Gains in the active issues ranged from 1 to nearly 5 points, with Motors, Public Utilities, Eastern Rails, Bakery and Store stocks giving the best demonstrations of group strength.

With the railroad average in new high ground since 1908, operators for the rise bought stocks freely on the theory that another major upswing was in progress. The rapid advance in such high priced specialties as United Drug, Commercial Solvents and Woolworth indicated a scarcity of offerings around current price levels.

Realizing sales were most effective in Houston Oil, Texas Gulf Sulphur and Erie Railroad common, which were unable to absorb the large volume of offerings except at concessions.

The closing was strong. Total sales approximated 1,000,000 shares.

LET'S GO TO CHURCH

City-Wide Religious Census

A religious census of the entire white population of the City of Greenville will be taken tomorrow afternoon. The people are urged to remain at their homes or boarding places until they have filled out one of the cards. This will save repeated follow-up trips by the canvassers to secure this information.

Washington—When Mr. Coolidge reads now he wears Pince-Nez glasses with a gold nose brace and a long black cord. He has chosen to abandon his black rimmed one with bows that fitted snugly behind the ears.

NOTICE OF TRUSTEES SALE OF LAND
By virtue of the power conferred upon me by Washington Edward and wife, Hannah Edwards, in the deed of trust registered in Book O-16, page 5, Pitt County Registry on the 30th day of September, 1925 and the terms of the same not having been complied with, I will, on Monday the 31st day of October, 1927, at 12 o'clock noon at the courthouse door in Greenville, N. C. sell for cash to the highest bidder the following described property, to-wit:
Beginning at the S. E. corner of Green Street and 16th Street as extended; thence in an easterly direction with the southern boundary of 16th Street, 110 feet to ditch bank at a stake; thence in a southerly direction with the said ditch bank 100 feet to a stake; thence in a westerly direction and parallel with 16th Street about 110 feet to a stake at the eastern boundary of Green Street as extended; thence with the eastern boundary of Green Street 100 feet to a stake at the corner; the beginning and containing one-fourth of an acre, more or less, and being the same land owned by said Washington Edward and wife by L. C. Arthur and others by deed recorded in Pitt County Registry in Book J-18, page 418 reference thereto, made.
This the 30th day of September 1927.
J. B. Smith, Trustee.
S. J. Everett, Attorney.

TODAY

Continued from Page One. through the stubble eating the over ripe grain that had fallen from the ears. Other bands of sheep led by an old man or woman with dogs to help, at the grass along the highway edge, no sheep ever strayed onto the road before the automobiles. Dogs prevented that, and the sheep seemed trained. Beautiful animals, admirably kept. They waste nothing in France.

Here in America, you ride miles through unending fields of corn or grain, pass great herds of heavy teams, deep in grass and tens of thousands of acres not used.

In France they use every foot of ground, waste nothing, not food for human labor, men and women work long hours, work hard with patience.

The peasants' houses are beautiful and old, their animals well cared for. Along the coast of Brittany and the Vendee, men and women and children work side by side. Men repair, at low tide, their fish nets colored light blue. The fishermen say "fish like color." On the flat lands you see little mounds of earth taken from the ocean by impounding waters in shallow holes for evaporation.

Once "La Gabelle" a heavy tax on salt, dressed the mistresses of French kings and made life easy for the three lucky classes, royalty, clergy and nobility. It was death to the peasant to escape "La Gabelle" by taking his salt from the ocean.

Conditions are better now. The things are sleeping in St. Denis, the things whose bones were not scattered during the revolution. There are more schools than grates, more public libraries than galleys. The peasant is no longer forbidden to kill animals that ate his crops because lords and ladies wanted the pleasure of riding over those crops to kill the animals themselves.

But in every French family there is mourning. Each earnest hard faced French woman tells you how many sons, or brothers she had "left."

This train is passing now through a field of standing corn so big you cannot see the end of it. At the edge of the track half a dozen Mexican laborers sit eating their noon-day meal, waving and laughing as the express goes by. They make five dollars a day. Those a little "whiter" make more.

When you go through the Pittsburgh iron region on the Pennsylvania's "Broadway Limited" you see the works of one steel concern that makes more steel than all of the steel works of France combined. You leave billion dollar banks in New York and Chicago and find the Bank of Italy with its billion on the edge of the Pacific. Life is easy for us, hard for France.

War was an exciting episode for us. It was almost death for France. Many Americans would rather pay a few more dollars in taxes than see France's recovery checked by too hard pressure for payment.

The French of the eighteenth century educated Jefferson, Franklin and other useful Americans. That was worth something.

ADMINISTRATRIX NOTICE. This 26th day of September, 1927. CLAUDIE E. FLEMING, Administratrix. Greenville, N. C. R. F. D. S. J. Everett, Attorney 10 1 27 11w 4ws.

DEATH TOTAL OF TORNADO ON INCREASE

(Continued from Page One.) swept down upon the metropolis covering one fourth of its area, and while doing stupendous damage, did only a minor fraction of what a full sized tornado might have done.

A study of the ruins where hundreds of houses were found with one wall blown cleanly out demonstrated the action of tornado vacuum, common to all twisters. It was pointed out that the air was suddenly removed from around the houses and the inner pressure seeking relief forced out the walls or lifted the roof. In many cases clothing hanging on the inner walls was unmoored.

Churches of all denominations suffered. Twelve of them were enumerated by Fr. A. H. Armstrong, secretary of the St. Louis Church Federation, in estimating their total loss at one million dollars.

Between a million and a half and two million dollars damage was done fine schools. Greatest damage was occasioned by the toppling of the ornamental tower of the Central High School where five girls were crushed to death. The prosecuting attorney indicated he might ask a Grand Jury investigation to place responsibility for such defective architecture or construction.

Relief was in charge of the Red Cross. Both the St. Louis Globe-Democrat and the Post Dispatch headed the relief fund with contributions of \$5,000 each.

Hindenburg To Celebrate His 80th Birthday

Berlin, Oct. 1.—(AP)—Far more popular as chief executive of the German republic than when the idol of the militarists under the Kaiser's regime, President Paul von Hindenburg and Benckendorff tomorrow celebrates his 80th birthday.

Tokens of affection have poured in from all over the nation. They are of wide variety, flowers, clothing, dainty articles of food and cigars.

One old country woman even sent a hand-embroidered silk baby's cap with long satin ribbons, explaining that this was the best present she could afford, and that

while perhaps inappropriate for a gentleman of 80, it may do for his grandchildren. And, by way of a basket of white heather, "for luck."

Boxes of cigars are favorite offerings from the bowling societies. It has become the fashion for victors in their matches to buy smokes for the President out of their winnings. Consequently Von Hindenburg has enough to last him the rest of his days.

Plans To Discuss Historical Body Here on Monday

Fairland, Oct. 1.—At the court house in Greenville, on Monday night, Oct. 3, at 7:30 o'clock, there is to be a meeting of much interest to those who are interested in discovering something of Pitt county's

No delay! Just bring your coupons in and get your money for them. This Old Ivory Set of Chinaware also given with SELLERS Cabinet during this Sale.

QUINN-MILLER & CO. "Pitt County's Leading Furniture and Stove Dealers"

GORMAN'S MARKET REPORT

October 1st, 1927

The sales all finished Friday. Gorman's has second Sale Monday; First Sale Tuesday; Second Sale Wednesday; First Sale Thursday and First Sale Friday. Monday's sale was the largest of the week. We got the Buyers Monday at two o'clock and sold continuously until four o'clock Wednesday. We sold for the week 843,570 pounds averaging \$20.04. Our Friday's sale was the best as to price that we have had this season and we averaged \$21.51 for 223,685 pounds sold. In this sale we had lots of very common tips and but few loads of good tobacco. The Imperial, American, Export, Reynolds and Leggett and Meyers are all on for the medium and good tobacco and the Independent factories are buying more freely as they have their plants in better shape not now having to buy the whole sales as was the case when the market first opened. The writer looks for a continued improvement in prices for the next two weeks when we believe prices then will have reached about what we can expect for the balance of the season. Keep your tobacco dry, grading the colors together, you had better throw the dead black and green away than to mix it with your better tobacco. No house can or will get you more for your good and fine tobacco than Gorman's. We know values, are not afraid to protect you by buying when it is necessary to get it's value. If you are not selling with us come see our sales, or talk to some one who is selling at GORMAN'S. Greenville has averaged more than any market in the East and GORMAN'S HAS LED THE GREENVILLE MARKET. There is a reason, we "DADDY" all tobacco sold on our floor and never try to mislead any one by making statements we can not prove. Send your tobacco to GORMAN'S and you will get the top of the market for each lot in your load.

Yours Truly

J. N. GORMAN AND SONS
