CREW MONOPLERNE "AMERICAN GIRL" SAFE

MISS ELDER AND HALDEMAN PICKED UP BY SHIP WHEN PLANE FORCED DOWN AT SEA

Word of Safety of Fliers Dispel Pail of Gloom That Hung Over Anxious Watchers.

Paris, Oct. 13.—(AP)—A message from the Paris office of the Associated Press received this afternoon from Miss Ruth Elder, told of her landing at sea beside the Dutch tanker Barendrecht.

The message which said that she and Captain George Haldeman were okay, said that the landing of the "American Girl" while enroute to Paris from New York had been caused by a broken oil line.

The message, which did not give the position of the tanker, was received at the Paris office of the Associated Press at 4:35 p. m. The message had been radioed from the Barendrecht to the steamship Bayano, which relayed it to the wireless station at Debizieux.

It follows: "Landed by steamship Barendrecht with broken oil line. With Haldeman and myself okay—Ruth Elder."

The time at which this message had been filed was given as "8 h 6 m," but it was probable that these figures (8:06 a. m.) had been garbled in transmission.

There was also a possibility, however, that the message might have been delayed in the relay from the steamship Bayano, a British vessel, left Barbadoes in the West Indies on September 21 for Avonmouth, England.

There was no indication in Miss Elder's message of how many hours she had been flying or her position when she descended.

The message arrived at the Associated Press office in Paris at 4:35 p. m. and a few seconds word of it had been relayed to New York.

SIXTY-NINE WORKERS TRAPPED IN MINE AT JESSUP, PENNA.

Scranton, Pa., Oct. 13.—(AP)—Sixty-nine workers were reported trapped today in the shaft of the Glandale Coal Company at Jessup, near here, after the breaking of a schieve wheel on a hoisting apparatus.

The men are said to be in no danger, but can not get out of the underground because there is no other opening.

of the flight, H. E. Cornell and T. H. McArdle, all expressed great relief and joy that the fliers were safe.

Rochester, N. Y., Oct. 13.—(AP)—William D. Elder of Cleveland, an uncle of Ruth Elder, revealed here today that her first husband was a college professor whom Ruth married when she was 17, and later divorced. Mr. Elder, who is in Rochester on business, would not comment further on his niece's matrimonial experiences.

"She's a lucky kid," was his comment when informed of the safe landing which Miss Elder and her co-pilot, George Haldeman, made at sea near the Dutch tanker Barendrecht.

Lakeland, Fla., Oct. 13.—(AP)—Unrestrained applause marked the reception by their home town of the Associated Press dispatches announcing that Miss Ruth Elder and George Haldeman had landed safely in the "American Girl," at sea.

Hundreds of persons gathered in front of the office of the Lakeland Ledger broke into a deafening roar of applause as the announcer read the flash of the safety of the Lakeland fliers.

J. J. Haldeman, father of the co-pilot and navigator of the "American Girl," was in the Ledger office when the flash came. He was too overcome for a few seconds to make any comment.

BIG PROGRAM AT THE FAIR DURING TODAY

Number of Gambling Joints Along Midway Closed by Order of Pitt Sheriff.

Virtually all gambling devices along midway of the Pitt county fair were closed early yesterday morning by order of Sam Whitehurst, sheriff of Pitt county, following numbers of complaints filed with the police department against the operation of the places.

The sheriff made a personal inspection of the illegitimate devices and ordered each and every one closed as he came to them. There were a few places where play was conducted in a legitimate way, or where the operator gave something in return for the purchaser's money, and these were allowed to remain open during the remainder of the fair.

This is the first time in years that devices of this kind have predominated midway. They have largely supplanted the ordinary carnival show, leaving nothing but amusement at games of chance for the thousands thronging midway from day to day.

After losing a greater part of yesterday and last night on account of rain, Secretary Haywood Bass announced this morning that the fair would continue today with a feature program. The crowd today was expected to surpass that of the opening day when the grounds were crowded to capacity day and night.

One of the best race programs of the week was scheduled for this afternoon. "The Deuce," a horse belonging to R. L. Smith, of Greenville, credited with shattering several track records on northern circuits, will be the outstanding attraction. Many other animals of note will also be seen in action today and tomorrow.

CAMPBELL CARRINGTON WEDS

New York, Oct. 13.—(AP)—The New York Sun says today that Campbell Carrington was married here on Wednesday to Mrs. Anna Walsh Carrington, the divorced wife of his brother, Col. Edward C. Carrington. The brothers gained notoriety last March when Colonel was arrested on a charge of beating Campbell with a cane. Later the Colonel's wife obtained a divorce from him.

CARDINAL O'DONNELL REPORTED BETTER

Belfast, Ireland, Oct. 13.—(AP)—Patrick Cardinal O'Donnell, primate of Ireland who is suffering from Pneumonia, was improving in strength this morning after a severe attack during the night said a bulletin issued at Carlingford at noon.

TODAY

They Should Not, But Do. Iron and Schools. Safer Fuel Wanted. You Notice Him.

Human beings spend their time reading of things that should and would not happen, in real civilization.

Five men are burned alive, trapped like rats, in a lodging house known to be a fire trap. To make it safe would have cost money.

In one city three women are clubbed to insensibility, two girls badly beaten, two men stabbed, and in danger of death.

That is a small part of one day's crime record. Putting big type above such news fails to interest the crowd in it.

The fact that so-called "fashionable" nineties crowd a restaurant in Paris, because it charges fifty francs a dozen for oysters, is more interesting.

Fools fighting boredom are more interesting than ordinary citizens fighting the well established nation-wide crime wave.

R. A. Grady, secretary of Kiwanis club of Duluth, invites you to see the western terminal of the Great Lakes to ocean waterways, and the vast open pit mines that supply iron for all parts of the world.

Minnesota, its great mines, growing cities and able citizens should be visited by everybody. And eastern cities, especially that think they have fine public schools, should see the public schools of Minnesota.

To say that there are no finer in the world is putting it mildly. New York has the money, but western states, California, Minnesota and others, have the public schools. (Continued on Page Six.)

REPUBLICANS STILL WATCH INSURGENTS

Washington, Oct. 13.—(AP)—Republican old guard leaders are observing developments in the conferences of Senate insurgents now in progress here.

They are especially interested in whether this group, composed entirely behind Norris, of Nebraska, in the presidential primaries, or support Lowden, of Illinois, or fall to come to any agreement as to a candidate.

SAYS TOBACCO PRICES DUE TO SIZE OF CROP

Crop Reporting Bureau Shows Heavy Sales For Month of September.

Raleigh, Oct. 13.—(AP)—The present situation of the tobacco farmers of North Carolina, with relation to the low prices being received, apparently is the result of over-production, as the bright flue-cured types have very little competition from foreign producers, the crop reporting service, State-Federal departments of Agriculture said today, in making public September figures.

Last year's 393,000,000 pound crop was the third largest this State ever grew. This year the State produced 417,642,000 pounds, the second largest crop ever grown. Last year prices were satisfactory—this year they are too low, the statement says. This situation is very similar to the year 1919-1920, also 1922-23.

"It is doubtful if excessive daily sales are responsible for lower prices as farmers are not in position to store their crop for any great length of time and the buyers have a fairly clear conception of the size of the crop they will be expected to handle."

The September sales report for the thirty-eight houses of the middle belt, including Durham, Wendell, Oxford, Zebulon, Henderson, Fuquay Springs, Aberdeen, Carthage, Louisburg, Warrenton, and Sanford, showed total sales of 9,182,100 pounds at average price of \$16.39, compared with the \$23.99 average price of 1926.

The September sales report for the fifty-six houses in the new belt, including Wilson, Greenville, Kinston, Rocky Mount, Farmville, Williamston, Tarboro, Robersonville, Washington, Enfield, Ahoskie, Goldsboro, New Bern, Smithfield, Windsor, Wallace and Richlands, showed \$1,192,673 pounds total sales at \$16.01 average price compared with \$25.14 last year.

The South Carolina belt averaged \$17.83 compared with \$23.76. In the middle belt, in September, Carthage led the average price list with \$18.47. Fuquay Springs was next with \$17.46, Durham third with \$17.16, but with 1,856,312 pounds sold, leading the belt's 38 markets in sales. Henderson's average was \$16.50 for 985,574 pounds sold.

In the new belt, Windsor with 993,620 pounds sold the record average for the State this year, averaged 19.88. Tarboro 18.75, Greenville with 10,047,304 pounds 18.10, and Wilson with 22,445,746 pounds sold 18.09. Goldsboro averaged \$17.23.

North Carolina season's to October 1st have totaled 130,570,156 pounds produced, at an average of \$17.32 per hundred, or total value of about \$22,600,000. Those sales are about 31 per cent of the total crop, as compared with 23 per cent sold to October 1st last year.

The 108,684,086 pounds producers' sales during September averaged \$16.31 per hundred pounds as compared with an average last September of \$24.80. The quality of the offerings were reported by warehousemen as poor to average, having fairly good color, but rather light in weight.

The condition of North Carolina tobacco on October 1st this year was 90 per cent of normal, as compared with 78 per cent last October and a ten-year average of 77 per cent.

WILL PRESENT BAR PORTRAIT OF COL. MANLY

Winston-Salem, Oct. 13.—(AP)—A portrait of Col. Clement Manly, a distinguished attorney and citizen will be presented to the Forsyth Bar Association during special exercises at 11 o'clock Thursday October 20, it was announced here today.

PRINCIPALS IN BULGARIAN DISPUTE

King Alexander of Yugoslavia (left) and King Boris of Bulgaria (right) are in a heated dispute over their boundary lines, which may make serious trouble.

SEA BUFFETS DAWN PLANE

Position of Plane at Old Orchard Becomes Precarious as Sea Begins Rising.

Old Orchard, Maine, Oct. 13.—(AP)—The Sikorsky plane, the Dawn, showed her seaworthiness today when after two hours of buffeting by the surf, she emerged from the receding tide, undamaged.

Old Orchard, Maine, Oct. 13.—(AP)—The position of the Dawn, Amphibian plane which has been groomed for a flight to Copenhagen, became precarious shortly before noon today, when a record tide with the added impetus of a south-easterly gale reached out to engulf the plane, resting on the sands well above the normal highwater mark.

Old Orchard, Maine, Oct. 13.—(AP)—Mrs. Frances Grayson was standing on the wind-swept beach near her beloved plane today when word came that Ruth Elder was safe.

"The minute I heard Miss Elder was safe I called her: 'Congratulations. My prayers followed you,'" she said. "I did not know at that time that she had been forced to alight on the sea or I would have sent double congratulations for her escape from that danger."

Heinkle Plane Bound For U. S. Is Forced Down

Berlin, Oct. 13.—(AP)—The Heinkel hydroplane D-1220 which left Brunswick this morning for Amsterdam enroute to the United States by way of the Azores, landed at Wilhelmshaven for further repairs.

Wilhelmshaven is about 60 miles west of Brunswick.

Brunswick, Germany, Oct. 13.—(AP)—The Heinkel hydroplane D-1220 which arrived here yesterday from Warnemunde, left for Amsterdam at 9:45 o'clock this morning in continuance of its attempted flight to the United States by way of the Azores.

The pilot, Horst Mers, said it was probable he would head straight for Lisbon, Portugal, after reaching Amsterdam, if favorable weather conditions prevailed. Light southerly winds with a slight haze prevailed here at the start.

GOOD PRICES FOR TOBACCO

Sales on Local Market Average Between \$24.00 and \$25.00 Per Hundred lbs.

The Greenville tobacco market yesterday sold 952,092 pounds of bright leaf tobacco for \$230,120.02 at an average price of \$24.14 per hundred pounds, according to official records of K. W. Cobb, secretary of the Tobacco Board of Trade, made public this morning.

On Tuesday the market handled 1,056,744 pounds for a total sum of \$258,826.27, at an average of \$24.49 per hundred pounds. These figures were given out yesterday by Mr. Cobb but were omitted in yesterday's paper through an error.

Several carloads of baskets have been received, it was stated this morning, and this has greatly relieved the severe shortage which prevailed on the market last week. Belief was expressed that sales today would be completed by two o'clock.

Dr. Turner To Conduct Revival Service Here

Dr. J. B. Turner, former pastor of the Immanuel Baptist church of this city, and now pastor of the Hayes-Barton Baptist church, of Raleigh, will begin a series of revival services in the Immanuel church on next Monday. The revival begins Sunday, but owing to other engagements, Dr. Turner will not arrive until Monday for the evening service.

Dr. Turner needs no introduction to the people of this section. During his pastorate here, he endeared himself to the hearts of those with whom he came in contact, and many will welcome the opportunity of hearing him again.

Rev. O'Brien, pastor of the local church stated this morning that he expected this to be one of the largest attended series of services held in this city in some time. Services will begin every evening at 7:30 o'clock.

ATTEND MEETING OF ROANOKE ASSOCIATION

Rev. and Mrs. L. R. O'Brien, Mr. and Mrs. S. J. Everett, Mr. and Mrs. D. W. Hardee, Mrs. J. T. Jordan, Mrs. W. R. Smith, Mrs. W. M. Gray, Mrs. E. L. Perkins and Mrs. H. L. Elks of the Immanuel Baptist church, attended the 20th annual session of the Roanoke Baptist Association held this week at Enfield.

LINDBERGH TO VISIT STATE ON TOMORROW

New York-Paris Flier To Pay Visit to Winston-Salem and Greensboro.

Winston-Salem, Oct. 13.—(AP)—Winston-Salem's population of more than 70,000 is expected to be more than doubled tomorrow when visitors from every section of the state will come here to join in extending a welcome and doing honor to Col. Charles A. Lindbergh. The Colonel is due to arrive at Miller Field, which he will formally dedicate, at 2 o'clock Friday afternoon.

From the air field the flier will be taken by automobile to Hanes Park where he will address thousands of school children, other citizens and visitors. He will then be escorted to a hotel where at six p. m. a banquet will be held.

Invitations have been issued to more than 200 citizens and visitors to attend the dinner, among them being Gov. McLean who is expected to arrive Friday morning from New York.

Despite the heavy rains of yesterday announcement was made at noon today by the committee in charge that the flying field here is in fine condition.

Spartanburg, S. C., Oct. 13.—(AP)—A day of it was ahead of Col. Charles A. Lindbergh. Today was one of the two days a week provided for him during his tour of the country under the auspices of the Guiseppe Foundation.

Tomorrow morning he will leave for Greensboro and Winston-Salem to be the guest of Mrs. S. J. O'Brien. Col. Lindbergh brought to an end last night three days crowded with festivities and ceremonies at Jacksonville, Fla., Atlanta and here. He had no announced engagements of any kind today and is expected to spend the day very quietly in a local hotel where he and his party have a suite of rooms. A trip to the mountains had been suggested but Lieut. Donald Keyhoe, manager of the Lindbergh party, said it was highly improbable that the young flier would accept the invitation.

The Guiseppe Foundation, it was stated, has decreed that Col. Lindbergh have two days rest week by Thursday and Sunday. Meantime the airplane "Spirit of St. Louis," is in a hangar at the airport four miles from Spartanburg. A heavy guard has been placed around it to protect it from souvenir hunters. It is probable, however, that the plane will be transferred during the day to a wide enclosure where the public may inspect it at a distance.

Spartanburg, S. C., Oct. 13.—(AP)—Col. Charles A. Lindbergh, first person to fly from New York to Paris refused to comment on the landing in the ocean of Miss Ruth Elder and Capt. George Haldeman in the airplane American Girl, according to Lieut. Philip Love, pilot of the airplane escorting Lindbergh on his tour of the United States.

Col. Lindbergh is resting in seclusion today and refuses to see anyone.

Temperance Union Attacks The Wets

Raleigh, Oct. 13.—(AP)—The Women's Christian Temperance Union's annual convention took up second day committee business and reports today following the sounding of opening guns in which attacks on "wets and wet candidates" by convention keynotes.

The morning was given over to reaffirmation of the "American schools, flower mission and relief, prison reform, Sunday School work, scientific temperance instruction, health and medical temperance, peace and arbitration, child welfare, fairs and exhibits as topics. The afternoon held other slants on temperance for discussion, social morality, economics of prohibitions while tonight Dr. W. L. Peet, Wake Forest, was obtained as closing keynoter.

POSTPONES TAKE OFF

St. Louis, Senegal, Oct. 13.—(AP)—Dieudonne Costes was again forced to postpone his hop-off for Port Natal, Brazil, today in his plane the Nungesser-Coll. The Nungesser's of the flying field made a take off inadvisable.

FOOTBALL

Atlanta, Ga., Oct. 13.—(AP)—Although the Southern Conference football season is hardly a month old, a number of names already have been firmly chiseled in the minds of fans of the college sport in the South. Aside from backfield men who have won places in the estimation of followers, the ends appear to have the next best of the showing.

In reviewing the games played so far, it is worthy of notice that many of the outstanding players appearing on the 1927 horizon are sophomores, a fact well considered unusual.

Some of the players who have attracted more than passing notice this early include McCrary, veteran fullback of the University of Georgia. His line plunging and running aided greatly in the Red and Black's triumphs over Virginia and Yale.

Shiver and Nash, the former captain of the Georgia team and a married man and the latter a veteran of last season, brought the declaration from Tad Jones, Yale coach, that these two formed one of the greatest pair of ends ever seen in the New Haven bowl.

Cutn, North Carolina State halfback, now out of the game, with a broken leg, flashed versatile offensive ability in carrying the ball before he was lost to the Wolfpack.

Tinsley, of Louisiana State University, playing against Freddie Pickard, all-American tackle candidate of the University of Alabama, covered himself with glory. Tinsley's ability to get through line

and break up plays was considered phenomenal.

Bill Spears and Armistead of Vanderbilt's backfield, has given the Commodores a standing menace that all fear, Spears, a four threat player, catches passes, throws them, kicks and runs. Armistead has a knack of knitting through a line that has enabled him to score sixty-six points so far.

Eskew, of Clemson, has shown all-around backfield ability.

Paterson, captain and center of the Auburn team, has more than handled his opposition to date. Gene White, Washington and Lee fullback, played an important role in the General's time game with West Virginia and their subsequent victory over Duke.

Zobel, South Carolina halfback, won distinction by his flashy offensive against Virginia.

Brassfield, University of Alabama's sophomore halfback, has stood out in the games played by the Crimson Tide. He is fact, reversed this field well and leaves from "scratch."

State College, Raleigh, Oct. 13.—

(AP)—Deacon met Wolfpack today in annual combat, Wake Forest seeking to avenge defeats suffered the past two seasons while State desired to add another victory to its string.

Wake Forest, apparently believing it would enter the game as the under-dog, brought along the entire student body to urge the Deacons to victory. State wound up a week of pep meetings last night and the atmosphere at Riddick Field was charged with collegiate sounds as the two elevens prepared for play. State observed today as "Dad's Day" and many fathers came to be with their sons for the attraction.

Elon College, Oct. 13.—(AP)—The Elon Christians engaged in their final stiff workout here today in preparation for the Davidson game at Davidson Saturday, which they hope to make "plenty tight" for the Wildcats, as they did at Wake Forest recently when the Deacons were held scoreless. Capt. Jones, tackle, and Branner, end, continued on the injured list

since the opening game and probably will not get into action this week.

Davidson, Oct. 13.—(AP)—The Wildcat scrimmage today, planned to take matters light tomorrow and be in fine fettle for the Elon game Saturday which Coaches Younger and Tilson reiterated today would be no setup for the conquerors of the citadel, Florida and Wofford.

6 cylinder high compression snap and performance

The things all wanted - and at a price for all

The outright issue of *what buyers want* decides all car success today. On that basis, for the first nine months Essex has outsold any other "Six" at or near its price, almost two to one. It reflects overwhelming preference for the things Essex gives:

Super-Six Smoothness and Dash—High-compression Power and Performance—Size and Roominess without Unwieldiness—Steady Riding without useless Weight. 50 miles an hour all day long—and far greater speed when wanted—Riding Ease Like Gliding. Economy of Price, Operation and Maintenance.

Essex has made it vividly clear that compromise short of 6-cylinder luxury is not economy; and that greater price can buy no higher degree of mechanical fitness.

Its Super-Six motor develops more than 2½ times the power its size ordinarily rates it. It converts waste heat to power

and gives the brilliant efficiency of high-compression performance, with an economy of fuel that is astounding.

In five beautiful and colorful bodies, handsomely finished and appointed, it meets every requirement of utility, convenience, fine appearance and pride of ownership.

Camel

The cigarette that earned first place by its goodness

The greatest endorsement ever given to a cigarette is revealed by the fact that Government figures show that more Camels are being smoked today than ever before. An endorsement by the many—not the few.

If all cigarettes were as good as Camel you wouldn't hear anything about special treatments to make cigarettes good for the throat. Nothing takes the place of choice tobaccos.

"THE NIGHT OF LOVE"

The Most Thrilling Beautiful Romance the Screen Has Ever Had

LOCALS

Miss Mary Lou White has returned from Raleigh and Rocky Mount.

Mrs. W. M. Martin, of Hickory, who has been the guest of Mrs. J. N. Gotman, left today for a visit in Farmville and Hickory.

W. D. W. Bishop, of Washington, was a Greenville visitor today.

E. B. Edwards, of Fountain, was here today.

Mrs. Ollie Clark left this afternoon for Hobgood in response to a message announcing the serious illness of her mother.

We Beg Pardon

Warren Scoville's name was omitted in the list of sophomores on the honor roll of Greenville high school.

Notice

There will be a regular meeting of Knights of Pythias Tar River Lodge No. 93 tonight at 7:30. All members are urged to be present. Visiting Knights welcome.

YOUNG WOMAN'S FEDERATION TO MEET

The Young Woman's Federation will meet with Miss Lill Wilson Friday afternoon at 3:30 o'clock.

MRS. HARRIS AND MRS. VIOLA ENTERTAIN AUXILIARY

Mrs. W. C. Harris and Mrs. Alex Viola were hostesses to the Auxiliary of the Pitt county post of the American Legion yesterday afternoon. Mrs. K. B. Pace, president for the coming year, presided. Plans for next year were made and committees were appointed. The Auxiliary hopes to make the next year the best in the history of the organization. At the conclusion of the business session a social hour was spent and the hostesses served a tempting ice course.

Mr. and Mrs. Harvey Entertain

Mr. and Mrs. E. W. Harvey delightfully entertained with a six o'clock dinner on Tuesday evening in honor of the sixteenth birthday of their son, Withers Harvey.

The table was beautiful with the birthday cake surrounded by sixteen burning candles, which served as the centerpiece. The Halloween idea was carried out with attractive place cards and favors.

The enjoyment of the delicious, four-course dinner was further heightened by the exchange of many stories reminiscent of former school days.

The guests were limited to the officers of the senior class of Greenville High School, of which Withers is a member, namely, Edward Ferguson, president; Charles Whedbee, vice-president; Bondie Dickinson, secretary, and Edward Thomas, treasurer, and Misses Toland and Huggins, sponsors of the senior class.

Fidels Class Meets

The Fidels class of the Immanuel Baptist church met October 7 at the home of Mrs. L. R. O'Brien, with Mrs. J. B. Waddell, assisting hostess. It being the annual meeting, new officers were elected for the following year. The following were elected: Mrs. L. R. O'Brien, president; Mrs. E. B. Allsbrook, vice president; Mrs. E. P. Speece, second vice president; Mrs. W. C. Clay, third vice president; Mrs. C. W. Willard, recording secretary; Mrs. P. A. Edmondson, corresponding secretary; Mrs. E. F. Tucker, treasurer; Mrs. Olibert Peel, reporter.

After the business meeting adjourned several contests and games were enjoyed. The hostesses served a delicious fruit salad.

—Reported

Reedy Branch S. S. News

The "Willing Workers" class met September 22 with Leona Vincent, who called the meeting to order, with song, followed by prayer by Mrs. C. F. Little. About 15 members were present, and seven visitors.

Next was a reading, "Story of the Ark," by Juanita Worthington. The class decided to extend the contest between the two senior classes until Christmas. They also

voted to discontinue the social committee. Alma Lee Braxton was appointed assistant secretary in the absence of Blanche Waters, who is away at school.

A number of interesting games were enjoyed, which was followed by the serving of delicious refreshments. The class spent a most enjoyable hour and departed, to meet with Alma Lee Braxton, Thursday evening, October 27.

—S. S. Reporter

Mrs. Higgs Entertains Club

The Round Table Club met at the Rotary Club building Tuesday afternoon, October 11, at 3:30 o'clock. Mrs. E. B. Higgs was the hostess. In the absence of the president Mrs. W. C. Vincent, the meeting was presided over by Mrs. R. G. Fitzgerald. Mrs. J. E. Winslow was

electd a delegate to the district meeting of Women's Clubs to be held Saturday of this week in Aulander. The paper of the afternoon was read by Mrs. J. R. Moye. Her topic was the "Heroes of Mythology," the paper discussed in detail particularly the heroes of mythology in Egypt, Rome, Spain, and Great Britain. Mrs. Moye treated the subject in a most interesting manner. Following this the hostess served a plate luncheon after which the meeting adjourned to meet in two weeks with Mrs. H. L. Carr as hostess.

Miss Eunice Pearsall, Red Springs, Mrs. Robert Everett, Scotland Neck, Misses Turner Gray and Gerrell were guests of the club.

"I agree with George White that Luckies are the Best"

Said Flo Brooks to Lou Holtz while waiting for their cue to appear in "Manhattan Mary."

Photo by G. Maillard Kenless

George White,
Producer of
George White's Scandals,
writes:

"In the theatre world, Luckies have become almost universal. Stage folks are very critical—voices must be kept in condition, throat irritation is a handicap. In 'George White's Scandals', most actors and actresses whose voices are important smoke Luckies both for voice protection and finer flavor. For these reasons I prefer them, too."

George White

You, too, will find that **LUCKY STRIKES** give the greatest pleasure—Mild and Mellow, the finest cigarettes you ever smoked. Made of the choicest tobaccos, properly aged and blended with great skill, and there is an extra process—"IT'S TOASTED"—no harshness, not a bit of bite.

"It's toasted"

No Throat Irritation—No Cough.

ALSO DUE CREDIT

When Governor McLean tells the New York World the many reasons why his State's Prison population decreased...

The World might have added that no doubt some of the credit for the decrease is due to the Commission on Pardons and Paroles.

FOR CLEANER FAIRS

A visit by local officials to the fair last night resulted in the closing of several alleged gambling concessions which is indeed a step forward toward cleaner and better fairs.

We are sure that officials of the local fair desire to make the fair an asset to the county and we feel that in the future they will see to it that there is nothing that will necessitate the law tak-

STUDEBAKER

The Commander \$1495 4-DOOR SEDAN

Power at a One-Profit Price

No car with rated horsepower equal to that of the Studebaker Commander sells for less than double its price. How far The Commander outranks all other cars selling below \$2000 is indicated by these triumphs of 1927:

- 5000 miles in less than 5000 consecutive minutes. -New York Harbor to San Francisco Bay, 77 hours and 40 minutes—new coast-to-coast record. -first and second places in 75-mile stock car race at Atlantic City speedway. -first, second, and third in 75-mile stock car race at Charlotte speedway for cars listing below \$2000. -up Pikes Peak in 22 minutes, 47 seconds—a record for stock cars in its price field.

The Commander out-sells the combined totals of all other cars in the world of equal or greater rated horsepower.

Drive The Commander yourself and know why it is called "the greatest achievement of post-war automotive engineering."

FACTS

-AND THE OPEN MIND

THE MOST important element in business success—and the most difficult—is to be sure that you have all the facts before you act.

TO GET them all, from every possible source, is the first objective in General Motors. The Research Laboratories contribute some. These are nuggets, left in the crucible, after hundreds of ideas that looked good have been burned away. The Proving Ground contributes others. Dealers contribute. The public contributes. Every department contributes. Through the whole organization runs a spirit of inquiry and of rigid insistence on proof.

OUT OF such thinking come the new models announced from time to time by Chevrolet, Pontiac, Oldsmobile, Oakland, Buick, LaSalle, Cadillac—all with Fisher Bodies. And by Frigidaire. Each new model is a tested step forward. Nothing goes into it as a result of habit or guess or pride of opinion.

Nothing counts but hard-won facts, gathered and used with an open mind.

CLIP THIS COUPON. GENERAL MOTORS (Dept. A), Detroit, Mich. Please send without any obligation to me, your illustrated booklet, "Where Motor Car Facts Are Established," together with information about the particular General Motors product or products I have checked at the right.

MARKETS

COTTON
New York, Oct. 13.—(AP)—Advances followed an opening advance in the cotton market today. Reports of unfavorable weather in the south over the holiday appeared to bring in trade buying, and covering by recent sellers. There also may have been some buying on expectations of fairly large domestic consumption figures from the Census Bureau tomorrow.

Futures closed firm 35 to 42 high. Spot quiet; middling 21.25.

STOCK MARKET
New York, Oct. 13.—(AP)—Some irregularity developed in the early part of today's stock market, but operators for the rise retained control of the general price movement. Call money appeared to be in plentiful supply during the morning at the renewal rate of 4 per cent. but banks called about \$20,000,000 in loans early in the afternoon. American Machine and Foundry was the individual feature, soaring 19 points in the first few hours of trading to a new record high at 143, as against the year's low of 73.

The closing was strong. Total sales approximated 1,800,000 shares.

GRAIN
Chicago, Oct. 13.—(AP)—Wheat prices rallied at the close today as a result of reported excellent demand for wheat at Winnipeg and because of assertions that more than half the wheat arriving there is tough and low grade. Earlier wheat prices here declined owing to word that weather in Canada was better for threshing.

Wheat closed firm 3-8c to 5-8c net higher, corn 11-8 to 113-8c down, oats 1-4c to 1-2c off, and provisions varying from 15c decline to a rise of 12 c nts.

COTTON SEED OIL
New York, Oct. 13.—(AP)—Cotton seed oil closed easier. Prime summer yellow 1090 to 1125; prime crude 950 to 962-1-2. October 1095; November 1110; December 1113; January 1112; February 1117; March 1130; April 1135; May 1150. Sales 19,400.

Continued from Page One

these schools will offer the balance of power, even as regards money, from the east to the west.

"The gasoline tank exploded, and the men were burned to death." That describes a flying fatality, which of the great industrial laboratories will develop a fuel to prevent such accidents? Germans are making Diesel engines, light enough per horsepower for dirigibles. They are still too heavy for lighter-than-air planes, but additional improvement may overcome that and in proportion to flying radius, their load of fuel is much lighter than the airplane's gasoline load.

Russell Scott, murderer, hanged himself in a Chicago jail and science demands the right to examine his brain. Others hang, shoot, drown and poison themselves, without attracting attention.

But Michael Billie, coal miner and widower, in Pennsylvania, compels attention.

He sat in his little parlor, tied two sticks of dynamite to his head—one on either side—set them off and blew his head and parlor out of shape.

Why should that interest us more than the lovelorn girl swallowing iodine, or the ruined stock gambler jumping from his hotel window? It does interest us more.

Dr. Campbell, able astronomer, calls our earth, with its many fine real estate corners, "Just an insignificant point in the universe of countless spheres," and adds it would be unthinkable that our world is the only planet that supports life.

Few do assume it, who know that life can exist wherever oxygen and water exist, and that the spectroscopic shows oxygen and hydrogen throughout the universe. We cannot see life on other planets. Even on the moon, object nearest to us, nothing smaller than a big skyscraper would be visible through a modern telescope. But men no longer believe only what they see. They cannot see the radio, working through the ether, but they believe that it works.

Science will some day build a

telescope, enabling us to see life on other planets, which will probably amaze us, as when we first saw microscopic life in a drop of stagnant water.

Alfred Russell Wallace, a great scientist, co-discoverer of evolution with Darwin, persuaded himself that human life and intelligence were a monopoly of this earth. But he was old and did not give the laws of nature credit for sufficient versatility.

The situation in the Balkans is described as "more acute." Yugoslavia and Bulgaria, for reasons that would seem trivial to us, far

away, may decide on war at any time.

Let us hope it will not start anything expensive for us, as did the Sarajevo incident in 1914.

Poland and Lithuania contribute their complication to Europe's troubles. Fortunate Pilsudski, Polish dictator, seems able to take care of his situation, with France, and a huge army, back of him.

A dictator, in earnest, like Mussolini or Kemal Pasha, seems to be the best investment for the average European country, now that the world has been made safe for democracy.

SERVICES OF FORTY HOURS AT CATHOLIC CHURCH

The congregation of St. Peter's Catholic church will be given the opportunity of making the Forty Hours Devotion. Beginning with Mass on Friday morning the Blessed Sacrament will be exposed and will remain until Sunday night. Father Egbert, C. P., of the Pas-

sonist Monastery of Springfield, Mass., of late with the chapel car St. Peter, which toured the archdiocese of Boston, will conduct the various devotions. Father Egbert gave a mission here last winter and all who heard him agree that he is one of the best preachers that have come to this section in years. The hours of services are Masses Friday and Saturday at 7 a. m.

Sunday at 8 a. m. Evening devotion, Friday, Saturday and Sunday at 8 p. m.

Free your Frying from smoking and odor

There's no excuse for a smoking pan.

—provided you use a cooking fat that does not break down at frying and cooking temperatures. That's why so many housewives are now finding a wonderful new satisfaction in FLUFFO. It doesn't burn anywhere near the cooking heat.

Of course, if you first get the empty pan red-hot, it will burn any fat or food. But for deep-fat frying do this: Put FLUFFO into a cold or slightly warmed pan, and bring it to the desired temperature, using a thermometer or the bread test.

Then fry your food. It will brown quickly, keeping all the flavor in and the fat out.

But to be sure of success, be sure you fry with FLUFFO. No smoking—no odor—no heavy, greasy food.

GUARANTEE: Try FLUFFO in this way—or put it to any other test. If it does not please you in every way, tell your grocer and he will refund your full purchase price.
