SAYS EUROPE TO MAKE WAR ON AMERICA

Thomas Edison and Count Czernin, of Austria Hungary see Perilous Days Ahead

New York, Nov. 2.—(AP)—World affairs today point to new international conflicts in the opinions of Thomas A. Edison and Count Ottokar Czernin, Minister of Foreign Affairs for Austria-Hungary, during the war.

European nations "sooner or later" will combine in war against the United States, Mr. Edison thinks. England, France and Germany will miss "in the near future" against Russia and Bolshevism, Count Czernin believes.

Mr. Edison's prediction is made in the current issue of the Popular Science Monthly, in an interview dealing with his research in rubber production made with the co-operation of Henry Ford and Harvey Firestone. His objective, the interview states, is the discovery of a plant which will produce rubber quickly in America in the event of a war with Europe.

"Don't make any mistake about that war," said Mr. Edison, "it will come. We may run along for a good many years without it, but sooner or later the nations of Europe will combine against the United States. The first thing they will do will be to cut off our rubber supply."

Count Czernin, arriving here for a visit, said he saw the "day not far off" when England, France and Germany will rise together against Russia and Bolshevism. He said, "remain the great danger to peace."

Bleached Bones Of Ten Seamen Found on Boat

Fort Townsend, Wash., Nov. 2.—(AP)—Crime evidence of starvation, death and cannibalism on the high seas has been found here on the derelict Japanese fishing schooner, which drifted 4,000 miles across the Pacific Ocean.

Picked up eight miles off shore by a passing liner and brought to Fort Townsend yesterday, the 85-foot craft bore the lifeless bodies of two Japanese seamen and the bleached bones of eight others.

A rude ship's log "log" painted in native ideograms on a thin cedar board at the helm of the three-masted boat on its aimless journey of 11 months across the broad Pacific.

In the barely legible log were written the story which started when the vessel—the Ryo Yei Maru—put out with its crew of 12 men from the fishing port of Misaki, near Yokohama, on December 5, 1926.

Motor trouble soon developed and the helpless craft was carried by current and storm farther and farther to sea while the men worked tirelessly but in vain to repair the engine. The scant rice supply dwindled and on March 6, three months after the start of the voyage, the last grain of rice was gone, soon, too, the water casks were empty.

"Our last hope is gone," the master of the boat laconically wrote in his log. "Our food is gone, we are lost."

From that time, the log of the ill-fated ship tells little save thoughts of despair and resignation to death.

Discuss Plans To Combat Crime

Washington, Nov. 2.—(AP)—The problem of reducing crime in the United States formed the chief subject for discussion at the opening session today of the National Crime Commission conference.

In reporting on the year's work of the commission, Richard Washburn Child, former ambassador to Italy, the organization's chairman, now in Europe, urged in a message to the commission that more stringency be placed on the sale of firearms, wipe out of traffic in stolen goods and expedite the machinery of justice in punishing criminals.

"The startling entrance into the ranks of criminals of young boys and the spectacular holdups followed in so many cases by reckless and needless murder" were cited as arousing public opinion to combat crime.

Bankers Follow Darwin,
Whiskey, She Jumped,
Adam's Birthday,
Moving Picture Wisdom,
(By Arthur Brisbane)
Copyright 1927, by Star Co

American bankers, in convention, go back to Darwin, thus: "Weaklings among banks must be weeded out." That's Darwin's "survival of the fittest" in terms of high finance. Nature has been "weeding out" a long time. Big dinosaurs were weeded out, because unfit to survive. Red Indians were weeded out by whites, with bullets and arrows. Bison were weeded out at the same time.

Our ancestors living in caves, tree tops and on platforms over lakes, would have been weeded out, but nature made them think. Absence of big teeth and sharp claws made them invent bows and arrows, and the club with a sharp flint at the end, so THEY did the weeding out.

Perhaps if big banks start to weed out the little banks, some little banks will develop a faculty for thinking like our arboral ancestors and do a little weeding out on their own account.

A handsome young woman wrote to her mother, "This New York life is driving me mad." Then to the startled telephone girl in her hotel she sent this over the wire: "I am about to commit suicide, goodbye."

She jumped from a seven-story window and ended her troubles. Do not meditate, muse, or mourn over the wickedness of New York. Something smaller caused the trouble. The police blotter says: "She left an empty whiskey bottle."

Whiskey is active in modern prohibition civilization. Turning from the young suicide with the whiskey bottle, to the next page you see that Mrs. Josephine Cassel died, because she was stabbed thirty times with an ice pick and died. Her common law husband told the police he "might" have killed her.

BALCHEN MAY FLY THE DAWN

Denies, However, that He Has Made Arrangements as Stated by Mrs. Grayson.

New York, Nov. 2.—(AP)—Lieutenant Bert Balchen today denied assertions by Mrs. Frances Wilson Grayson that he had accepted her offer to pilot her amphibian plane the Dawn, across the Atlantic to Copenhagen this year.

Balchen, who made the Atlantic air trip crossing with commander Richard E. Byrd last June, announced, however, that he would attempt a second crossing in the Grayson plane if he could give it preliminary tests and if he could be relieved temporarily from his duties as a test pilot for Anthony H. G. Fokker, airplane designer and builder.

New York, Nov. 2.—(AP)—Bert Balchen, polar flier and co-pilot of Commander Richard E. Byrd's America, is to try to fly the Atlantic again.

Announcing the reorganization of her expedition preparatory to a fourth attempt to span the sea by air this year, Mrs. Frances Wilson Grayson, owner of the monoplane Dawn, said Balchen had agreed to pilot the plane that will carry her as a passenger in her bid to be the first woman to fly to Europe.

The announcement was made at the close of a day in which Mrs. Grayson flew and conferred with Clarence D. Chamberlin, she also talked with Arthur C. Goebel, winner of the Dole flight from California to Honolulu.

Thea Rasche, German stunt flier, disclosed she had wired Mrs. Grayson proposing they attempt the sea hop as co-pilots.

Mrs. Grayson said that she had not received any telegram from Fraulein Rasche and that she would not be considered.

Chamberlin eliminated himself, saying he was not considering a second jaunt to Europe. Mrs. Grayson and Goebel ended their conference with the statement they would meet later in the week.

Mrs. Grayson said the second man in the plane might be Brice Goldsborough, navigator and radio operator of the craft in its three previous attempts to fly from Old Orchard, Me., to Copenhagen. Wilmer Sultz, former pilot of the expedition, withdrew after differences with Mrs. Grayson.

FRANK TAYLOR IS SENTENCED HERE TUESDAY

Lewis Robinson Draws Three Months in Jail for Violation Prohibition Laws.

Frank Taylor, white man of this county, was yesterday sentenced to not less than six nor more than twelve years in the penitentiary, by Judge C. C. Lyon of Elizabethtown, presiding over a one-week criminal term of Pitt county Superior court. He was charged with assault with a deadly weapon on a negro by the name of Babe Brown, in an altercation in the Red Banks community during the spring. The sentence is to run concurrently with a similar sentence imposed upon Taylor in the August term of court as result of a murder charge growing out of the death of another negro, alleged to have been killed in the Red Banks affair.

Taylor filed notice of appeal to Supreme court following conviction of the murder charge and since that time has been out under bond. The appeal however was not perfected and the sentence of the court here becomes effective immediately.

Lewis Robinson, filling station operator, drew three months in jail on a charge of selling whiskey. Judgment was suspended on payment of cost in two other charges of violation of the prohibition laws. A white employe of the filling station operated by Robinson, operating on two charges of violation of prohibition laws, had judgment suspended on payment of cost.

The charges against Robinson and White grew out of raids made on the filling station, on the Greenville-Bethel highway, a short distance from this city, in which several pints of liquor are alleged to have been found by police officers. Both defendants have been at liberty under bond the past several weeks.

Ben Dixon colored, charged with having carnal knowledge of a female, drew four months on the county roads, and was required to pay the father of the girl the sum of \$100.

Chester Hall and Maniory Owens, appearing on a charge of larceny, drew two and one years, respectively, on the county roads on a charge of larceny. They were also found guilty of larceny in another case, and were given a sentence similar to the first, with provisions, however, that they run concurrently.

Hardy Lee Washington was found guilty of possessing and transporting whiskey, and sentenced to twelve months on the roads. He also drew twelve months on a charge of resisting an officer, the sentence to run concurrently with the first.

Peyton Atkinson, colored, charged with assault with deadly weapon, was fined \$100 and cost and given a suspended sentence of twelve months on the county roads.

True bills were returned in the following cases: Jesse Daniels, Gilbert Dupree and John Smith, breaking into and robbing a house.

Jesse Knox, murder.
Charlie McCoy, forgery.
Lennie Smith, larceny and house breaking.

Bertie Celebrates Opening Railroad

Windsor, N. C., Nov. 2.—(AP)—Two thousand residents of Bertie and Hertford counties, gathered here today to celebrate the opening of the Carolina Southern Railway Company's 24-mile line from here to Ahoskie, heard Governor McLean and officials of the road praise their agricultural lands and predict more prosperity with the coming of the railway.

The railroad is the first standard gauge line in Bertie County, which incidentally is the oldest county in North Carolina. It runs through the rich cotton and tobacco lands of Bertie across a few miles into Hertford County.

A barbecue and ride on a "special" first train to run over the new tracks, featured the celebration.

THREE HURT IN WRECK

Elkton, Md., Nov. 2.—(AP)—Dr. Albert Ichstadt, Dr. Henry Smith and Dr. C. H. Weber, all United States Navy Medical officers, were painfully injured today when their auto, enroute to Washington, overturned in avoiding an oncoming express train at a Pennsylvania grade crossing.

Dr. Ichstadt had his right arm broken, shoulder blade fractured and was cut about the head and face. Smith was cut about the body. Dr. Weber was cut on the legs, face and arms.

CHECKS UP ON MOTHERS AID

Miss Lily Mitchell Says There Are Seven Mothers Receiving Aid in Pitt.

Miss Lily E. Mitchell, director of division of child welfare for the State Board of Charities and Public Welfare, has been in Pitt County this week visiting the mothers receiving mothers' aid from State and county funds. Miss Mitchell has been working in connection with Mr. K. T. Futrell, superintendent of public welfare, the county board of public welfare and the county commissioners, who have charge of this work for the county.

According to Miss Mitchell, Pitt County has seven mothers receiving checks from the county and State mothers' aid funds. This enables them to keep their children in their own homes and to rear them as an unbroken family. With these seven mothers are nineteen children under fourteen years of age and eight children over fourteen years of age. The average grant to a mother per month is \$22.57. This \$22.57 provides for an average family of three minor children or \$3.75 per month per child on county funds. The average cost of maintaining a child in an orphanage in North Carolina per month is \$25.00, so Mothers' Aid not only helps to keep the children with their mothers and in a normal home environment but does this at less actual money cost to society or community.

Pitt County's mothers not only meet the requirements for Mothers' Aid but show that a wise choice has been made in selecting them as participants with county and State in the business of rearing good citizens.

These mothers see that their children not only are fed and clothed and sent to school regularly, but that they receive every advantage available in the community for them. Such ills as bad tonsils, adenoids and weak eyes are corrected.

One family is very proud of the record of the little girl in the second grade in school, who made marks only in the 90's and even 100's both last year and this year. Her younger sister, just five years old, is eager now to go to school, but since she is too "little," she contents herself with tasks about the house and plans for school next year. This family needs a cow to furnish milk for the five growing youngsters, and it is planned that the mothers' aid check will help them get one.

Dr. C. L. Greaves Dies Suddenly

Raleigh, N. C., Nov. 2.—(AP)—Dr. Charles L. Greaves, pastor of the Tabernacle Baptist Church of Raleigh for many years, and widely known in North Carolina, dropped dead at his home here early this morning.

Dr. Greaves, 55 years old, was a native North Carolinian, born at Nixonton, Pasquotank County. He was ordained a Baptist minister in 1891 at the age of 19, and had since been pastor of numerous churches in Eastern North Carolina.

He is survived by his widow and three children, Carl P. Richard E. and Mrs. Ruth Greaves, all of Raleigh. Funeral arrangements have not been announced.

RUTH ELDER STILL SHOPS IN GAY PARIS

American Aviatrix Receives Many Gifts in Tour Through Business District.

Paris, Nov. 2.—(AP)—Ruth Elder's shopping tour through the highways and byways of the Paris-fashion shops has been dominated by an inner struggle—to be or not to be feminine looking.

"Was I to yield to a natural desire for lacey, filmy, feminine things or eat to the appetite of American men for seeing women folk dressed somewhat in mannish sports clothes, I asked myself again and again," Miss Elder said today in discussing her tour through the shops of the Rue de La Paix and the Champs Elysees.

"I guess the men won, since I got more sports things than anything else," she added with a somewhat rueful smile. "Yet, that is not true, either. I am a woman, but not 'only a woman,' and I don't want the folks back home to get the idea that I am interested only in clothes or that I am spending thousands of dollars. I am interested in flying more than anything else in the world and therefore sports things are more useful to me than evening gowns of which I bought only two. Moreover, I am paying for everything I get, although the house here made fine prices when they found that I was only a poor girl."

Miss Elder, however, accepted gifts, lots of hats, shoes, bags and little things.

Mrs. Lydia Willard Dies at Washington

Mrs. Lydia Willard, 73, widow of the late Joseph R. Willard, died in Washington Monday night at 7:30 o'clock at the home of her daughter, Mrs. S. B. Piel, with whom she was making her home. Death resulted from pneumonia.

Funeral services were conducted from the home at one o'clock this afternoon by Rev. John Rogerson, pastor of the Primitive Baptist church, of which she was a member. Interment followed in the family burying ground at the old home place near Washington.

Mrs. Willard was a native of the Washington section and spent most of her life in or near Washington.

She is survived by two daughters, Mrs. S. B. Piel, of Washington, and Mrs. J. S. Pressley, of Belhaven, and two sons, Messrs. J. E. and James S. Willard, of this city.

MYSTERY MAN TUMBLES

Milwaukee, Nov. 2.—(AP)—The "Man of Mystery" who has been sitting on a flagpole 65 feet above the ground for 16 days took a tumble last night when a gale and rain storm struck Milwaukee.

REGRETS END OF OIL CASE

Albert Fall Says Justice Siddons Was Right in Ordering Mistrial.

Washington, Nov. 2.—(AP)—Expressing regret over the mistrial of the oil case, Albert B. Fall said in a statement today that "Justice Siddons took the obviously right course."

"The fair and impartial trial guaranteed to every citizen by the constitution of the United States had been made impossible by the publicity of the last 48 hours, irrespective of any other consideration," Fall said. "The determination of Mr. Justice Siddons to accord a fair trial has been made manifest in this case."

"Personally, I regret and am deeply disappointed by what has just occurred. In ill health I came here for this trial. It offered me the first opportunity to present to a court and jury my defense to charges which have been made the football of politics and the delight of the muckraker for more than three years.

"Only the evidence of the prosecution has been presented. Not one word has been said in connection with my defense, when this case ended. The time for my counsel to outline the defense had not arrived.

"I had expected that within the week our opportunity would come. I was prepared to completely refute the charges against me and I entertained no doubt whatever but that a verdict of acquittal would be rendered because I am confident that my defense would convince every fair minded man of my integrity and the complete rectitude of my every action in connection with the Teapot Dome Lease."

Enter Fifth Day Of Hunger Strike At State Prison

Raleigh, Nov. 2.—(AP)—Repeating the only words he has spoken since Saturday, "I want to die," Joseph Bennett, Philadelphia, today entered into the fifth day of his hunger strike in the Wake County jail. He was sentenced last week to serve 30 days for vagrancy.

Bennett has taken no nourishment since he began his sentence (except an occasional mouthful of coffee forced into him by jail attendants. He refuses to talk with his jailer or fellow prisoners except to say "I want to die."

The prisoner was brought to the jail from a convalescent camp where, after attacking a guard, he injured himself by striking his own head deliberately against a wall.

He is showing the effects of lack of nourishment, daily becoming weaker. He is closely watched by jailers who fear he might again attempt to injure himself.

ORDER MISTRIAL IN TEAPOT DOME CONSPIRACY HEARING AT WASHINGTON CITY TODAY

CHARGES PROCLAMATION FOR ARMISTICE DAY

Washington, Nov. 2.—(AP)—The people of the United States were called upon by President Coolidge today to express on November 11 their gratitude for the peace which exists and their hope for a continuance of amiable relations with other nations in a proclamation setting aside that date as Armistice Day.

ASKS LIBRARY TRUSTEES TO RESIGN TODAY

Mayor Thompson, of Chicago, Continues Crusade Against Pro-British Books.

Chicago, Nov. 2.—(AP)—Chicago Public Library trustees who are not in sympathy with Mayor Thompson's protests against pro-British books have been called upon to resign.

Terms of three of the nine trustees have expired and their places will be filled by Thompson appointees. U. J. Herrmann, who was asked to conduct the library investigation by the Mayor, was appointed by the present administration.

The library board in a letter to the Mayor yesterday, declared the library to be an institution of free speech, not to be throttled. The Mayor's reply was a demand that they resign.

"The issue of pro-British propaganda was raised in the last campaign," the Mayor declared, "and the people have spoken. By their refusal to accede, the board members are defying the people."

Frederick F. Schrader, New York editor, was to be a witness today at the resumption of the trial of W. McAndrew, whom the administration seeks to oust from the superintendent of schools because of alleged pro-British leanings.

FAVOR CUT INCOME TAX

Business Men Tell House Ways and Means Committees of Tax Situation.

Washington, Nov. 2.—(AP)—Reduction of the tax on the incomes of corporations from 13.1-2 per cent to 1 per cent was advocated today by a number of representatives of national business organizations in testimony before the House ways and means committee which earlier in the week received administration recommendations that the corporation levy should be cut to only 12 per cent.

Other witnesses, while not suggesting a specific cut in this levy, urged that the corporation rate be pared to the lowest possible level that the condition of the Treasury would warrant, arguing that a slash in this tax would be a material aid to business.

During cross-examination of practically each witness, Democrats on the committee endeavored to develop that in recommending reduction in the corporation tax it was believed that the Treasury had underestimated the prospective surplus. Representative Garner of Texas, ranking minority member declared at one time that the Treasury in recent years had underestimated by approximately \$1,000,000,000 the actual surpluses.

Charges of Jury Irregularities Bring end to Sensational Trial of Fall and Sinclair.

Washington, Nov. 4.—(AP)—The long winding trail of the Teapot Dome investigation took another awkward turn today when the attempt to convict former Secretary Albert B. Fall and Harry F. Sinclair of criminal conspiracy ended for the time being in a mistrial.

Charges of jury tampering, including allegations that detectives employed by Sinclair had sought to make improper contacts with the jurors, led the court, the prosecution and the defense to agree that it was useless to proceed further with the original jury in the box.

Counsel will confer soon on arrangements for another trial with the government favoring a date in January.

Meantime a Grand Jury is inquiring into the government's charges that the jury was improperly shadowed by private detectives and that one of the jurors, Edward Kidwell, a 31-year-old leather worker, had talked indiscreetly of the case and of a "car as long as a block," which he hoped soon to possess.

Justice Siddons ordered the mistrial after defense and government attorneys had agreed that a fair trial would be impossible with the present jury sitting in the case. The defense felt that publicity attending the government's charges would react unfavorably on the deliberations of the ten men and two women hearing the case.

A Grand Jury already has before it affidavits submitted by the government to back up its charges, with the district attorney's office pressing for action.

Justice Siddons told the jurors that they not only were discharged from further attendance on this case, but also from further attendance on this court.

The justice then adjourned court without taking any immediate action affecting juror Edward J. Kidwell, who alleged talking had a part in the decision to declare a mistrial.

More than a score of witnesses have been summoned for the Grand Jury, including A. Mason Day, vice president of the Sinclair Exploration Company and Donald Woodward, wealthy Washington merchant at whose home Day is alleged to have received reports of the activities of the Burns detectives figuring in the case.

The mistrial means that the mass of testimony presented in the past twelve days all goes by the board.

Government counsel must present again, before a new jury, the evidence on which they seek to convict former Secretary Albert B. Fall and Harry F. Sinclair, of criminal conspiracy in the leasing of Teapot Dome Naval oil reserve to Sinclair.

Immediately after the jury was dismissed all except Kidwell were directed to assemble tomorrow at the office of Nell Burinshaw, assistant United States attorney, who is conducting the Grand Jury investigation.

"I will send all eleven of them before the Grand Jury tomorrow," Burinshaw said.

Convening court, Justice Siddons conferred with the clerk and then said: "Bring in the jury."

The jurors looked solemn, and Kidwell was pale.

After he took his seat he looked intently at Justice Siddons. He had his hands clasped tightly in his lap.

Justice Siddons told Kidwell he expected no statement from him, that he simply was advising him of the existence of the affidavits so he might examine them.

Reading a long statement, Justice Siddons reviewed the proceedings of yesterday and said counsel on both sides were in agreement that a mistrial should be ordered and that there was no dissenting voice on that proposition.

The justice added that "publicity" wide publicity had been given to the government's affidavits and the proceedings in his chambers and that this gave added reason for the action the court was about to take.

Kidwell remained around the courtroom with one or two other jurors. He was not placed under arrest and there was no indication what action, if any, Justice Siddons proposed to take in his case.

As Kidwell left the court, he said he expected to go to trial on some charge, but that he would deny every allegation made against him in

SELECT HEAD OF AMERICAN LEAGUE TODAY

Chicago, Nov. 2.—(AP)—E. S. Barnard, president of the Cleveland Indians, today was unanimously elected president of the American League succeeding Ban Johnson, resigned.

Chicago, Nov. 2.—(AP)—The second president in the 27 years of the American League's existence was to be named today by club owners meeting here. A second object of today's session was agreement upon a memorial to Byron Bancroft Johnson, founder of the League and its only president.

E. S. Barnard, president of the Cleveland American League club, has been named in apparently well substantiated unofficial reports as the club owners' choice to succeed Johnson, whose resignation already has been accepted.

The form of the Johnson memorial has not yet been discussed by the club owners. The league profited by \$320,000 when Johnson refused to accept the balance of his \$40,000 salary for the eight years his contract had to run. He did not need the money, he told the club owners, and would not take what he had not earned.

Among suggestions put forward by baseball writers are included a foundation fund for an annual check to the American League's most valuable player, who now gets nothing but the title; an annual "Ban Johnson Day" at each ball park of the league; a "Ban Johnson Home" for aged ball players; and awards to best players in specific fields as pitchers, and so on.

ON THE GRID

Davidson, Nov. 2.—(AP)—The Wildcats have been overworked and must rest up for coming battles. In the opinion of coaches Younger and Tilson, who today resumed practice after a day in which the entire squad laid aside uniforms for hunting clothes and golf knickers.

The Wildcats were "ordered" to stay off the gridiron and they did. Possibility that Davidson passing attack will be off color in future games was advocated after announcement that Ed Wilson, quarterback and pigskin hurler, had a fractured finger.

Duke University, Nov. 2.—(AP)—The Blue Devils had no rest for the coming battle with State, which local observers believe will settle state championship honors for the season.

Chapel Hill, Nov. 2.—(AP)—Chuck Collins' stunt of shaking-up the Tar Heel lineup was again in evidence today as he sent new players up and down the field in varsity formations.

State College, Raleigh, Nov. 2.—(AP)—Fred Latimer, promising end who saw service against Carolina last week and acquitted himself well today was running at a half-back position on the Wolfpack as coaches Tebel and Slaughter directed the day's training.

State students were apparently much upset when rumors had it that Jack McDowell, Wolfpack ace, was hurt. Officials quickly cleared up the situation that Jack had been given a day off from workouts and was in fine shape for the coming tussle with Davidson.

La Grange And Newbern Tied In Champ Tilt

Raleigh, Nov. 2.—(AP)—The State high school football series moved forward today with another team eliminated.

Cubb Not to Be With Athletics Next Year

Philadelphia, Nov. 2.—(AP)—Ty Cobb will not be with the Philadelphia Athletics next year. This announcement was made today after an hour's conference between the former ball player and Connie Mack, manager of the local Athletics.

"GRID" STAR GETS IMPORTANT JOB

Jacob J. (Jake) Slagle, one of greatest of all Princeton backs, has been appointed by university's board of trustees to position as assistant to Dean Gauss of the Nassau institution.

M'TIGUE IS EASY VICTIM FOR WALKER

Chicago, Nov. 2.—(AP)—Dave Barry, the referee, who made a name for himself as he counted over Gene Tunney last September, could have counted 300 over the ancient Mike McTigue last night, for all Mike cared.

Barry was the third man in the ring as McTigue, looking frail and drawn, faced Mickey Walker, the middleweight champion, for what was supposed to be ten rounds of fighting. Actually, the fight lasted two minutes and 15 seconds, not including the five minutes McTigue spent in the hospital.

Three times Mike went down before a smart, championlike attack. The first time he was up at nine o'clock. Walker, wearing Dempsey's error, went to the corner of the ring. When McTigue got on Mickey, the older fighter, who had been in the ring for many years, sent McTigue right to the ropes and left him there.

Up at five Mike was a wide-eyed man for Walker's machine gun and cannon power. McTigue was not counted, but he was in the hospital.

Confirmed as Ambassador Berlin, Nov. 2.—(AP)—Dr. Friedrich Wilhelm Von Protwitz-Jaffron, Councillor of the German Embassy at Rome, has been confirmed as successor to Baron Aeo Von Metzlan late German Ambassador to the United States. It was learned in diplomatic circles today.

Paramore Gets Three Stills

W. B. Paramore, of Grimesland, deputy sheriff of Carolina township has been active against the illicit whiskey traffic in this section the last few days, and today brought to Greenville three copper stills captured in raids in the Pectolus community.

Two of the stills were captured last week and the other this morning. The last outfit was in operation, and the distiller escaped following an exciting foot race with the officer.

Boston's Big Boy

Paddy Creedon is the outstanding star of the "Fighting Irish" of Boston College, this clever back making a strong bid for All-American football honors.

TWO UNBEATEN TEAMS REMAIN IN THE SOUTH

Atlanta, Nov. 2.—(AP)—The football season with a month to go finds Dixie with two unbeaten football eleven's that can look with hope to a claim on the national collegiate title of 1927.

University of Georgia, conquerors of Yale, is drilling hard this week for the final "home stretch" jaunt that calls for play against such adversaries as Florida, Clemson, Alabama and Georgia Tech.

Tennessee, with a record that approaches Georgia, save only in the fact that the Volunteers play no inter-sectional battles, brought Southern fandom a keener edge last Saturday by the decisive manner in which they beat Virginia. Many, however, point out that should the Vols win the Southern Conference crown they would probably be invited to meet one of the leading eleven's of the nation in their chance for the national title.

Both Georgia and Tennessee have shown great versatility. The Bull Dogs have run the ends successfully with Dudley and Hooks carrying the ball and they have crashed center astoundingly well with McCrary in the fullback role. Tennessee has shown a powerful long range passing game and had agility in its backfield stars, Dodson and Derryberry Witt, another Vol, has scored eight points after touchdowns.

Tennessee has only Sewanee, Vanderbilt and Kentucky left to vanquish in the conference.

All other major Dixie eleven's have lost either in the South or beyond its borders. Washington was beaten by Texas. Wabbling and Leebow to Princeton Georgia Tech was tumbled by Notre Dame. Alabama lost early to Georgia Tech. Louisiana State was overwhelmed by Arkansas. North Carolina State bowed to Furman, and S. I. A. team.

French Approve New Note to U. S.

Paris, Nov. 2.—(AP)—The French cabinet today approved a new note to the United States in which the French understanding of the basis for tariff negotiations will be outlined. The note will be handed to American Charge D'Affaires, Sheldon Whitehouse, probably today.

The new note, it is understood, contains no contentions of any kind, but is occupied simply with an exposition of the agreement on procedure which already has been reached.

Get Divorce

Paris, Nov. 2.—(AP)—The Versailles tribunal has granted Marilyn Miller, stage screen actress a divorce from Jack Pickford.

The legal version of the break up of the famous movie household was that Pickford left home and refused his wife's demand that he return, upon which ground the divorce was granted.

EDITOR FOUND DEAD

Chicago, Nov. 2.—(AP)—Theodore M. R. Von Keler, 49 years old a former associate editor of the Abendpost here was found dead last night in Lake Michigan the body had been in the water about three days physicians said.

Von Keler was formerly employed with Colliers magazine, Liberty magazine and other publications.

ACTOR BADLY BURNED

Los Angeles, Nov. 2.—(AP)—The Times today says an explosion of a gas furnace in the Hollywood home of Ford Sterling screen actor, Monday night almost cost the life of the film comedian. Sterling was burned severely on the face, hands and arms. Physicians declared it would be two or three weeks before he could return to work.

TO SERVE SENTENCES FOR VIOLATION OF THE SCHOOL LAW

Winston-Salem, N. C., Nov. 2.—(AP)—J. E. Mustin and T. D. Pyrtle, living in the Walkertown school district, today were serving 30 days in the county jail because the school bus would not stop at their homes to pick up their children and they refused to send the children to the regular stopping place something like 200 yards distant.

They were haled in magistrat's court here and found guilty of failing to comply with the compulsory school law. The court offered to suspend judgment on payment of costs but both refused to pay and were sentenced to the jail.

Newark Is Envied

Walter Johnson, 20 years a star at Washington, has started work as manager of the Newark club of the International League.

FILM ACTOR TO WED

Hollywood, Cal., Nov. 2.—(AP)—Rena Murphy, film actress and leading woman for Monte Blue, announced today that she would be married next month to Mervyn Leroy, young screen director she said the wedding date had been set tentatively for December 5.

Notice of Sale of Land

By virtue of a decree of the Superior Court of Pitt County, in Special Proceeding No. 2814, entitled "J. Waddell Leggett and others, vs. Ellen Leggett and others," the undersigned will on Monday, November 14, 1927, at 12 o'clock noon, before the court house door in Greenville, N. C., expose to public sale the following described tract of land:

Mrs. F. J. Forbes Entertains Sans Souci Book Club

The Sans Souci Book Club was delightfully entertained on Tuesday afternoon by Mrs. Fred Forbes. After being welcomed by the hostess, the guests were invited into the dining room where a profusion of yellow chrysanthemums and softly shaded lights added much to the pleasure of the afternoon.

The outline business was quickly dispensed with and the books exchanged and discussed giving time for the interesting program on Greece, which was read by Mrs. Cecile Woodward. She briefly reviewed the history laying especial emphasis on the Golden Age of Pericles reminding each one of the story that was Greece. After a discussion of her paper important current events were exchanged. These told that the members are keeping up with the worth-while things of today.

At the end of the program the guests enjoyed a very tempting salad course served by the hostess, Mrs. W. L. Best and Mrs. C. S. Forbes.

Yesterday we had a call for an operator from a town above Raleigh, at a salary of \$35.00 per week, TO BEGIN. We couldn't fill it, because we had no operator available. Somebody lost a good paying position because she didn't spend a little time and money preparing for a better job.

Was that somebody you?

We average about two calls per week for operators. A position is guaranteed our graduates. Come in and let us tell you how easily you can prepare yourself for a better position.

Bell Authur News

Misses Laura Smithwick and Maude Bonner and J. O. Powers spent the week-end in Wake Forest. They attended the Wake Forest-Duke game and report a very enjoyable time.

Robert McArthur attended the Wake Forest-Duke game Saturday. Little Miss Mary Stewart Johnson spent the week-end at the teacherage with her sister.

On Friday evening Miss Georgia Johnson was hostess to a large number of the old school folks at a Halloween party. The young people met at the teacherage and in couples followed the string which brought them into the school building. Games and stunts were enjoyed by all.

Miss Johnson and Mr. Mack Smith invited the young people to the Methodist church on Sunday evening to organize a Christian Endeavor. The party was a sample C. E. social.

Saturday morning a number of the members of the 4-H club with Miss Johnson hiked to Farmville. The party went down the railroad a distance of five miles. The group saw the parade in Farmville and accepted with grateful hearts a ride home on a truck. However, they say it is not the last hike.

C. E. Organized in Arthur
On Sunday evening a number of young people met in the Methodist church at Arthur and organized a union C. E. society. The Free Will Baptists and Christians were there to help.

After the devotional, Miss Georgia Johnson presented Christian Endeavor as a society for all young people of every church. After accepting the constitution the officers were elected as follows: President, James Wilkerson, Methodist; vice-president, Miss Carrie Willibough, Free Will Baptist; secretary, Miss Laura Rasberry, Christian; corresponding secretary, Miss Emma McArthur, treasurer, Stewart McArthur, Methodist.

The officers were decided upon as a program committee until the committee could be appointed by the president. The young people decided to meet the hour before church service in the church having preaching, which will be First Sunday, Free Will Baptist, second and third, Methodist, fourth, Christian, fifth, Free Will Baptist. All the young people are invited to come and join.

Sixth and Seventh Grades Have Party

On Monday afternoon, the sixth and seventh grades were entertained at the teacherage by their teacher. Games and refreshments were enjoyed very much by all. The young people decided to have a party once a month. The expenses to be shared by all.

There are hints out that the Juniors of Miss McArthur's class at the Methodist church are going to have a hike and picnic soon.

On Friday evening, Nov. 4, there

If You Like It Tell Others

Why The Anchor Hot Blast Saves Fuel

When you purchase a stove or heater for your home, you want heat first—dependable heat that will keep your home warm all winter regardless of zero weather outside. But you also want this heat at a fair price. You want a heater which will give you the greatest possible amount of heat from your fuel, assuring a cozy, comfortable home.

The Anchor Hot Blast saves one-third or more in fuel over any lower-draft or oak air-tight type of heater of the same size. It holds fire 36 hours, and will save 25 percent in fuel over any other hot-blast stove on the market. A lifetime of service is guaranteed by the sectional inner linings and the air space which insures uniform radiation from top to bottom of the stove body.

Coal burned in the ordinary low-draft heater burns at the bottom and all of the gases escaping from the coal on top are lost up the chimney. So when you see smoke pouring out of your chimney it means that fuel is being wasted.

By permitting the right amount of pre-heated air to enter the Anchor Hot Blast fire-box through the hot-blast tube, all these gases which otherwise would be lost are completely burned, thereby insuring the fullest heating result.

By a simple regulation of the main draft damper in the ash-door, the hot-blast slide damper on top, and the check damper located in the reversible smoke collar, the fire is instantly controlled to give just the amount of heat desired.

Study this hot-blast system of combustion and design and construction of the Anchor Hot Blast and you will see why it is superior to any other heating stove on the market.

The Anchor Hot Blast is made in both Front Door and Top Door types, and in five sizes to meet every home-heating need. Your dealer will gladly show you the Anchor line of Hot Blast Heaters and the price will prove a pleasant surprise to you. In point of looks, service and economy, the Anchor Hot Blast represents the most in value for the least in price.

Good tobacco always brings good prices, remarked W. Z. Morton, member of the warehouse firm of Forbes & Morton, commenting on the advance in the price situation this morning.

The growers of this territory should give more attention to the cultivation of better tobacco. It is just as easy to raise a good crop as it is to raise a bad one.

Tobacco is just like anything else. Good quality always demands higher prices than inferior quality, and just as long as the farmer is able to place good stuff on the market he may rest assured of receiving the top of the market.

If you want good prices, grow good tobacco. This is the advice of the tobaccoists in position to know what the market demands.

COTTON
N. Y. Nov. 2--(AP)--The cotton market showed a generally surer tone today on reports indicating that a large proportion of the crop had been picked, the firmer showing of the Liverpool Cables, and reports of a firm spot situation in the South.
After showing early net advances of 27 to 30 points, the market lost about half its gain, but firmed up again, reaching the highest prices of the day in later trading. Active months were about 38 to 43 points net; higher in mid-afternoon.
Futures closed steady, 37 to 52 points higher. Spot steady; middling 21.3.

GRAIN
Chicago, Nov. 2--(AP)--Wheat prices averaged lower here today, influenced by spreading operations between Chicago and Northwestern markets with the northwest selling here. Weakness of corn was also a fear factor. Export sales of North American wheat today were estimated at only 150,000 to 200,000 bushels.
Wheat closed steady at a shade net lower to 1-4 gain; corn 3-8 to 1-2 to 3-4 down; oats unchanged to 1-4 up and provisions varying from 12 decline to a rise of 22.

STOCK MARKET
New York Nov. 2--(AP)--Early irregularity in today's stock market was followed by a period of strength featured by the heavy accumulation of the oil and tobacco shares. Gains of 1 to 5 points were quite common in the early afternoon but trading showed a marked falling off in volume.
Buying of the oil shares was stimulated by the recent falling off in crude production and reports of unusually heavy gasoline consumption due to the unseasonably warm weather. Houston and Atlantic Refining each advanced about 3 points and Barnsdall, General Asphalt, Marland, Sinclair and several others climbed a point or more.
The demand for tobacco probably was inspired by expectations of heavy holiday trade. American Tobacco issues soared about 8 points each to the highest levels since 1920.
The closing was firm. Total sales approximated 1,600,000 shares.

Living Standard Increases in U. S.

Washington, Nov. 2.—(AP)—The highest standard of living ever attained in the history of the world was reached last year by the American people. The Bureau of Internal Revenue said today in a report that the 117,000,000 persons of the United States had a total income in 1926 of nearly \$90,000,000,000, an increase of approximately \$7,000,000,000, more than 43 per cent over the year 1925.

The bureau's figures revealed an increase in the nation's income for each year since 1921, when a total of \$62,000,000,000 was recorded. It increased \$3,000,000,000 in 1922; \$7,000,000,000 in 1923; \$3,000,000,000 in 1924; \$8,000,000,000 in 1925; and \$8,000,000,000 in 1926.

The same increase holds true for the average per capita income which in 1921 was \$1,637, compared with \$2,210 in 1926.

"This income indicates the highest standard of living for the population of the United States ever attained in this or any other country," the bureau said.

"The great increase in income is not the result of an increase in the price level," it added, "for the average price of consumed goods was actually slightly less in 1926 than in 1921."

Mysterious Murder

New York police can find no clue or motive to slaying of Dr. Jacob Gross, dentist, who evidently was shot to death in his office as he worked on murderer's teeth.

ceded for a block from the courthouse, two deputy marshals approached him and served the subpoena. He accompanied them back to Assistant District Attorney Neil Birkshaw's office, where he awaited the young assistant district attorney, who then was closeted with the Grand Jury.

Roberts later assured a group of jurors that they should not consider the situation a reflection on their integrity.

Soon after court adjourned, Sinclair fought his way through the crowds that overran the courtroom and went to a rear entrance of the building standing for a time on a small porch, talking with some friends. Fall remained in the courtroom for a quarter of an hour greeting friends who crowded around him. Then he left for his hotel with his family.

Burkshaw took Kidwell before the Grand Jury at 11:14 a. m.

"You understand that you have perfect immunity from answering any and all questions before the Grand Jury," Burkshaw told Kidwell. "If you do, you do so voluntarily."

Kidwell made no reply but walked straight ahead down the corridor towards the Grand Jury room with his head up. As he approached the swinging doors of the jury room he quickened his pace as though anxious to have it over with.

FEDERAL RESERVE TO OPEN CHARLOTTE BRANCH
Washington, Nov. 2.—(AP)—A branch of the Richmond, Va., Federal Reserve Bank will be at Charlotte, N. C., on December 1. George J. Seay, of Richmond, announced today after a conference with the Federal Reserve Board.

The branch will serve North Carolina and a part of South Carolina and will include about 70 Federal Reserve Member Banks. The branch will employ about 70 persons.

while drunk. He was annoyed by her whiskey bills.

According to careful calculations made by John T. Brady, Adam, your ancestor, was born in the garden of Eden, October 28, 4004 B. C. His birthday was a few days ago. Mr. Brady erected the only existing monument ever erected in memory of Adam.

There is discussion, however, as to the exact date. Dr. John Lightfoot, vice-president of the University of Cambridge, great Hebrew scholar, declared that "heaven and earth, centre and circumference, were created all together, in the same instant, and clouds full of water." And "this work took place and man was created by the Trinity on October 23, 4004, B. C., at 9 o'clock in the morning."

Such exact statement of fact is most gratifying, and is not seriously disturbed by the fact that two centuries after Lightfoot fixed his date, it was shown that in October 4004 B. C. "at nine o'clock in the morning," a highly cultivated, people and a well developed civilization, as Dr. Waite, President of Cornell University, puts it, "had long been swarming in the great cities of Egypt."

Nicholas M. Schneck, who managed the big Metro-Goldwyn-Mayer moving picture company during three years of Marcus Loew's illness, and now runs the concern officially, says his chief asset is that he knows few people and few people know him. "That keeps me from wasting my time," says he. And that is wisdom.

More moving picture wisdom is supplied by a producer who says "The trouble with moving picture actors is that after a certain amount of success they think they can't possibly do anything wrong. Then they are hopeless."

That's the trouble with many others after "a certain amount of success." The saying is as true as it is old, that the average man is his own worst enemy.

The youngest passenger that ever crossed the ocean alone is Charles Schirmer, Jr., aged three months, who will visit his grandmother in

Germany. Mothers will exclaim: "Poor little thing," but think of the longer voyage, so mysterious, that babies much younger take from nowhere to this planet, whence do they come, how do they travel, what distances do they travel?

Dr. Annie Besant, head of the Theosophical Society, says a sixth race is appearing on the earth, in addition to the ancient five, Mongolian, African, Aryan, etc.

California home of the sixth race, produces children 12-12 years ahead of the average child, with "exceptionally clear cut, Greek-like features, low, broad foreheads and pronounced chins."

Helen Willis, presumably, is a leader among the children of the new sixth race, and a good one.

An Italian, Casare Sabbelli, a war time ace, plans to fly from New York to Rome in December, with three other men. Sabbelli cables Mussolini that he wants to get "first place for Italy and Fascism." Winter seems a odd time for ocean flying. But another Italian, Napoleon Bonaparte, after he had crossed the Alps in winter, said that was the easiest time, and he only deserved credit for not believing fools that said it couldn't be done.

the affidavits submitted by the government.

Then affidavits were made by Donald T. King, a newspaper reporter, and J. Ray Akers, a street car conductor. They declared Kidwell had praised Sinclair in their presence, and had said that he would be disappointed if he did not soon "have a car as long as a block."

"I remember talking with King, but I said none of the things which were put in the affidavit, and believe them all to be pure lies," he said. "At no time since I have been on the jury have I talked the case over and at no time have any of the affidavits been made to me to hang the jury."

Before Kidwell would say anything, he had stood in a mingling group of newspapermen and jurors returning to a long conference, between Juror Herzog, an auto sales

manager, who told the government counsel that the jury had requested him to express their regrets at the course of events.

The government and defense lawyers plan an early conference to decide upon a date for a new trial, indicated that they would ask that Sinclair and Fall again be called to the bar early in January.

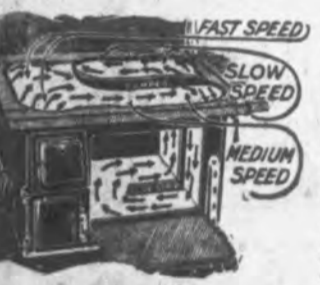

Kidwell was the first of the jurors to be served with a Grand Jury summons. After he had pro-
