## PEACE OR WAR DEMANDED BY POLAND TODAY

### "It is Peace" replied Lithuanian delegate to question asked by Poland.

Geneva, Dec. 10.—(AP)—"Peace or war?" that was the question which Premier Pilsudski, of Poland, dramatically asked Premier Waldermaras of Lithuania at a secret session today of the council of the League of Nations at which an agreement "in principle" was reached on the Polish-Lithuanian controversy.

"It is peace," answered the Lithuanian leader clearly, looking the Polish leader full in the eye.

Then the two statesmen undertook certain reciprocal engagements to guarantee peaceful settlement of the controversy which has caused such tension in the Baltic states and for that matter in all Europe.

The crisis was supremely dramatic as described by those present at today's secret session of the council when the Baltic quarrel, in the view of the council members, was liquidated.

Premier Pilsudski, Poland's iron marshal, his face grim and haggard, leaped suddenly over the table. He pointed his finger at the omnivorous, but energetic professor who is Lithuanian premier and exclaimed:

"I have a definite question to put to the honorable representative of Lithuania. Is it peace or war?"

The little Lithuanian premier did not quail. He looked Premier Pilsudski full in the eye and answered clearly:

"It is peace."

A ripple of applause broke from the spellbound members of the council and when this had died down, Premier Pilsudski announced in trembling tones:

"As it is peace I no more need personally discuss details of the settlement which I leave to my Foreign Minister, M. Zaleski. I shall order a song of joy to be sung in all the churches of Poland."

Premier Pilsudski then solemnly took an engagement before the council that Lithuania will respect the independence of Lithuania while Premier Waldermaras undertook an engagement that Lithuania does not consider herself in a state of war with Poland.

### Both the Poles and Lithuanians must agree to a formula of settlement which was being drafted today and it was noted that after adjournment of the council session, the Lithuanians did not entirely agree with members of the council that the conflict had been regularized in principle.

### Calls Conference For Settlement Of Coal Dispute

Washington, Dec. 10.—(AP)—With the hope of establishing peace in the troublesome bituminous coal fields by Christmas, Secretary Davis of the labor department has invited operators and union chiefs to a conference here next Tuesday.

Injuncting the federal government into the long standing dispute in Ohio, Pennsylvania, and northern West Virginia fields with the knowledge of President Coolidge, the secretary called the meeting last night for a frank discussion with the object of finding a peaceful solution.

The first reaction among the operators to the invitation came from Pittsburgh, where C. E. Leshner, spokesman of the Pittsburgh Coal Company, said the concern would not be represented at the parley.

Leshner said the company now was operating on a non-union basis and was not interested in the peace conference.

### Farm Relief Bill Goes to Congress

Washington, Dec. 10.—(AP)—The McNary-Haugen bill—vetoed last session by President Coolidge—has been started on its way through Congress again in slightly modified form.

Senator McNary, republican, Oregon, new chairman of the senate agricultural committee, put the new bill in the senate legislative hopper late yesterday noon after it was formally opened for business.

The new measure contains the controversial equalization fee provision—objected to by the President as unconstitutional in vetoing the original bill—as a means of raising funds to meet the cost of marketing surplus crops.

This Santa Fe train slides down through the Cañon Pass to the biggest citrus groves and vineyards in the world. Your dining car neighbor assures you that in ten years, Los Angeles will be the biggest city in the world. He is not discouraged by the fact that New York is gaining 200,000 a year.

The Examiner meets you with a statement that Los Angeles population is now about 1,000,000, not counting big connecting cities; population gains 100,000 a year, another city added to Los Angeles every 365 days.

The biggest cities once on the Mediterranean moved to the Atlantic after Vasco De Gama's visit to the Zamorin of Calcut had transferred Europe's commerce from the Mediterranean to the Atlantic and ruined Venice.

The world moves westward and the great cities of the world will be on the Pacific or near its edge in the next century. New York and Chicago must be reconciled to that although flying machines may take the place of water. Ships make the real ocean air and every city a seaport.

New Yorkers that made up their minds to nominate Mr. Hughes as the man to beat Governor Smith in New York State, now learn from Mr. Hughes that he won't run and President Coolidge again says that he does not choose. So the nomination is wide open for three men—Hoover, Dawes, Lowden. But if you had a million dollars for each proud American now working to get the nomination away from these three and firmly convinced he will get it you would be the richest man in the world.

Last August the stock market broke with President Coolidge's first "do not choose" came out and on Wednesday last that foolish market broke again because the President said he meant it. What frightens gentle stock brokers and speculators? Do they think Hoover, Lowden or Dawes would declare war on Palagonia, abandon the gold standard, suspend the writ of habeas corpus, close factories, stop the rainfall and destroy crops? Mr. Coolidge is a good President, wisely allowing those that know how to run the country's business to run it. Other good men are ready to do the same. The wise will not choose to sell their stocks because Mr. Coolidge does not choose to run.

## TWO AVIATORS KILLED TODAY

### Pierre Corbu and mechanic died in test flight at Paris during morning.

PARIS, Dec. 10.—(AP)—Pierre Corbu, who participated in Leon Givon's unsuccessful trans-Atlantic flight last September, was killed today in a test flight.

Mechanician La Coste who was with him was also killed.

Corbu was a military aviator who went in for commercial flying. Identifying himself with the Farman Company on the Paris-Rotterdam and Paris-Berlin routes. He had flown nearly 1,200 hours in commercial work.

Corbu was only 25 and was given a Military Pilot's license when 19. He was cited for his services in the Moroccan Campaign.

In the Farman Biplane he and Givon started on their Transatlantic flight from Lebourget on Sept. 2, but returned after having been in the air less than two hours. The heavy load the plane carried was given as the cause for his failure.

Probe Attacks On Watchmen.

Winston-Salem, Dec. 10.—(AP)—Attacks 30 minutes apart upon night watchmen at two different tobacco factories today were matters for investigation by local officers. Barney B. Graham was last night struck over the head with a heavy wrench by one of two unidentified men who attacked him just 30 minutes after George Carter was attacked by a negro. Both are watchmen at tobacco factories.

Graham, seriously hurt, was taken to a hospital, while Graham, who sustained a cut over the eye, escaped without injury of consequence.

## NEGRO KILLER TAKEN TO PEN TO EVADE MOB

### Tense situation followed finding of dead body of 15-year-old girl near Goldsboro

Goldsboro, Dec. 10.—(AP)—The charging of Larry Newsome, 22, negro with the murder of young Beulah Tedder, 15 year old daughter of Eric Tedder, Great Swamp township farmer, today found both Wayne county officers and officials of the state prison at Raleigh where Newsome was taken for safe keeping facing a tense situation. Following the indictment of the negro last night by a grand jury investigating the death of the girl, officers were taking every precaution to avoid violence.

The negro was arrested when on Thursday night, shortly after the body of the girl was found with the throat slashed and several large gashes on the hand, wrist and cheek, bloodhounds followed a trail to his home. It was testified that his foot lit snugly into tracks at the scene of the murder. The tracks were said to have been the same the dogs followed to the negro's home.

The young girl left her home about nightfall to go to the home of George and Cora Reid, negroes, for a can of syrup the negro man had promised her. When some time passed and she had not returned the father went out to search for her. He stumbled over the body in a tobacco field near the home.

Condition of the ground near where the body was discovered, showed that the girl had fought desperately with her assailant before he inflicted the fatal wounds. Physicians who examined the body said they believed she had been attacked.

The first trail picked up by the bloodhounds, brought here from Smithfield, led to the home of George Reid. He was arrested and lodged in jail here. Later the dog led the officers to the home of Newsome, who was arrested and carried hastily to Raleigh as a safe-guard against possible mob violence.

## SENATOR REED STILL SILENT

### Missourian refuses to comment upon use of his name for the presidency.

Washington, Dec. 10.—(AP)—Only silence, unusual in one noted for quickness on the verbal trigger, came from Senator Reed of Missouri, today to meet the flat prediction of his colleague, Senator Hawes, that Reed's name would be presented to the next Democratic convention as a presidential candidate.

In the face of Reed's declination to announce his candidacy for the next Senate or the presidency, and to comment on published reports that he intended only to run for the Senate, Senator Hawes said last night there was no foundation for the reported withdrawal from the presidential race. He added that Reed "will not be permitted to withdraw."

The Senator, Hawes declared, without having made an announcement, is "as much of a candidate as any man mentioned in either the Republican or Democratic parties."

Plans for a national Reed organization are under way, Hawes said, maintaining that even if his colleague did enter the Senate race, that would not indicate that his friends would not press with vigor his nomination for President.

These friends are daily receiving new encouragement and were never more hopeful of his nomination, he said, adding:

"We need another Andrew Jackson. Reed is his modern counterpart. This fact is winking into the conscience of men and bringing new strength daily. The people of Missouri and of the United States are making him a candidate."

### POSSUM BED IN STILL

RALEIGH, Dec. 10.—(AP)—Strange things are seen in the land of Eastern Carolina swamps, but the latest story to come out of those parts is brought to Raleigh by D. A. Pennel of Wilder's township, Johnston county.

## BERGER HELD FOR PERJURY

### Charged with giving false testimony in case of millionaire bootlegger.

Cincinnati, Dec. 10.—(AP)—John H. Berger, reputed risk exposition promoter of Los Angeles, Calif., was arrested today on an indictment charging he perjured himself when he testified a few days ago as a defense witness in the George Remus murder trial. A sealed indictment was returned today and the fact it was against Berger became public only with his arrest.

Berger was taken to police headquarters after he was placed under arrest here. Berger testified he had witnessed many insane outbursts in Remus after he had made revelations to the murder trial defendant alleging misconduct of the wife he slew with Franklin L. Dodge, Jr., Lansing, Mich., former department of justice agent.

Berger promoted a several million dollar exposition for the St. Louis chamber of commerce and he was engaged in similar work for the Los Angeles chamber of commerce when he came here to appear as a witness for Remus, whom he termed a boyhood friend.

Cincinnati, Dec. 10.—(AP)—Tables were reversed in George Remus' trial today. A host of witnesses was ready to say good things about the woman concerning whom nothing good and much detamatory had been repeated during the past two weeks—Imogene Holmes Remus, slain by her husband here October 6 last.

For 12 court days a picture of a demoralized slayer driven mad by irregularities of his spouse's conduct with the man who sent him to prison had been painted before the jury when the defense rested its case late yesterday.

Immediately the prosecution set about with new brushes and pigments to dim the harsh portrayal of the dead woman and again to assail Remus as a cold-blooded, calculating killer.

It sent to the witness stand a woman with the soft intonations of the south in her voice and an infectious smile on her face, Mrs. Elizabeth Felix of Birmingham, Ala., formerly she lived in Atlanta, Ga., and for six months was the constant companion of Mrs. Remus while the slain woman lived there close to the federal penitentiary which then housed her husband.

Mrs. Felix smiled when she told how she had ramed a raging, fist-smashing, red-faced and red-headed Remus by feeding him a bit of Blarney. She laughed and everybody laughed with her when she told how, acting as peace-maker, she once had told Remus to kiss his wife goodbye after they had argued in the Remus mansion here.

It was not a very good piece of obligatory workmanship, she said, and she told him he could go better. "No wonder your wife left you if that was the best you could do," she said she told him.

### Says Peace System Of State Disgrace

Raleigh, Dec. 10.—(AP)—The present Justice, of the Peace system in North Carolina "is a disgrace to the State," in the opinion of Superior Court Judge M. A. Sinclair, of Fayetteville, who today wound up a two weeks' term of court here after giving a Raleigh-magistrate a suspended sentence for irregularities alleged in his practice.

"It used to be one of the most honorable offices in the state," said Judge Sinclair, "and if we had only a sufficient number of justices the right sort of men, they would be of real value and more real service to the public than any office holders in the state."

## Warren Placed on Three Committees

Washington, Dec. 10.—The House today elected its committees to function during the 70th Congress, and Representative Lindsay Warren of the First North Carolina District, was placed on the Committees of Roads, Immigration and Naturalization and Accounts. Mr. Warren served on the last two committees during the past session as well as the Committee on Invalid Pensions from which he resigned. The Roads Committee is a much sought after assignment, and was desired by him because he favors a much larger federal appropriation for roads, and because there is such a great interest in North Carolina on the subject. Mr. Warren advanced three places in seniority on the Committee on Immigration and Naturalization.

## DEATH LIST FROM COLD INCREASING

### Scant hope entertained for crew of steamer at mercy of storm yesterday.

Chicago, Dec. 10.—(AP)—Fear that 21 more deaths might be added to the toll of more than 30—sacked by the nation wide storm and intense cold wave was expressed in word reaching here from Providence, Bay, Ont.

Scant hope was held for the rescue of the 21 members of the crew of the steamer Agawa, fast on a reef near Manitowish Island, since Wednesday. Shore watchers, waiting abatement of the storm to go to the rescue, feared the men either had died from exposure or had been trapped in the forward part of the boat by the sheet of ice. Ice encased the portion of the ship in the water above the surface, with the temperature still gradually thickening.

Rescue parties hastened to the aid of many other wind-whipped ships from various Great Lake ports.

An unidentified frachter, coated with ice, was driven ashore in Lake Superior not far from Marquette, Mich., but members of the crew could be seen from shore and appeared in no immediate danger.

The gales which had swept from coast to coast had subsided except in the Lake region, and the Middle West today was greeted by milder temperatures.

## Flying Squadron Ordered Out To Welcome "Lindy"

The Government has ordered a flying squadron to welcome Col. Charles A. Lindbergh, America's aerial ambassador of good will, when he flies here from Washington.

Although Lindbergh's reply to President Calles' message asking the date of his arrival has not been received aviation authorities have issued orders for an airplane squad to be ready to fly to San Luis Potosi 200 miles north of here, to meet Lindbergh. They will escort him to the Capital.

Excursions are being organized by the National Railways to bring people into the Capital from the countryside for Lindbergh's arrival. Instructions will be wired by the Railway to its men along the route to Laredo, Texas, at the borders, to be prepared to give the flying Colonel assistance in case of a breakdown.

The National Railways has decided to place a De Luxe Private car at Lindbergh's disposal as well as to afford him facilities for the transportation of his plane, in the event that he decides to make the return trip by train.

WASHINGTON, Dec. 10.—(AP)—Colonel Charles A. Lindbergh—received a formal invitation to visit Cuba in addition to his invitation from President Calles of Mexico for the Washington-Mexico City flight.

The existence of the Cuban invitation was learned today at the State Department although officials said they had no knowledge of the aviators' plan in regard to a flight to that country.

## MYSTERIOUS HITCH PREVENTS DOTY FROM LEAVING PARIS TODAY

Paris, Dec. 10.—(AP)—An eleventh hour hitch of a mysterious nature prevented Bennett J. Doty, former member of the French Foreign Legion, from sailing for America on the steamship New York today.

Doty and his literary mentor, although their full passage was paid, postponed their departure at the last moment.

All that Doty would say "What's the use of rushing. There are plenty of time. There are lots of boats sailing."

It was indicated that he might sail Wednesday.

## BEGIN PROBE OF BRIBERY OF SENATORS

### Senate calls for investigation of \$1,200,000 offered U. S. Men by Mexico.

Washington, Dec. 10.—(AP)—Anxious to clear itself of the cloud placed upon it by publication in Hearst newspapers of charges that President Calles of Mexico, has ordered \$1,200,000 paid to four United States senators, the senate has ordered and begun an investigation.

In less than an hour after the senate unanimously directed the inquiry, a special investigation committee headed by Senator Reed, republican, Pennsylvania, got underway by soliciting the co-operation of the State department.

Behind closed doors, the committee interviewed William R. Castle, assistant secretary of state, to learn the department's knowledge of the latest of a series of documents alleged by Hearst newspapers to show that much money was spent in this country to gain Mexican objectives.

Castle afterwards declined to elaborate on previous information that the state department had knowledge of the documents, which were alleged to be facsimiles of official Mexican government papers. They have repeatedly been denounced by the Mexican embassy here as forgeries.

The particular documents that inspired Senator Reed to propose the investigation indicated that President Calles wished the million dollar fund paid to four senators in the interest of propaganda the senators' names were deleted in copies published here, and Senator Reed said he had no idea of their identity.

## MISS SPAIN BURIED TODAY

### Funeral services at Mount Pleasant church this afternoon at 3 o'clock.

Funeral services were conducted at three o'clock this afternoon at Mount Pleasant church, of which she was a member. Burial followed in the church burying ground. Services were conducted by Rev. W. A. Davis, of Washington, assisted by Rev. R. J. Bamber of the Eighth Street Church of Christ.

## TWO SENATORS TO BE HEARD BY COMMITTEE

### Smith and Vare ordered to appear before Reed Slush fund body today.

Washington, Dec. 10.—(AP)—With the Senate doors closed temporarily against them, Frank L. Smith of Illinois and William S. Vare of Pennsylvania, turned their cases anew to the Reed slush fund committee, which once turned thumbs down upon them.

That committee was called together today by its chairman, Senator Reed, Democrat, of Missouri, to discuss procedure, but it is not likely to begin hearings until after the Senate adopts a resolution reaffirming its authority to act and to summon witnesses, books and papers.

Adoption of this resolution was blocked late yesterday by Senator Reed, Republican, Pennsylvania, after he had lost his fight to have oath administered to Vare on a vote of 56 to 30. He asked that the measure go over until the next session of the Senate Monday.

While there may be some opposition to adoption of the resolution then, the Senate by two separate votes, one each in the Smith case and the Vare case, has given forcible expression to its own view that the committee existed all during the recess of Congress when its right to act was challenged by some Senators and others.

Further hearings in the Smith case are not expected to consume much time as the issue there revolves almost wholly around the acceptance of Smith's campaign managers of large contributions to his primary campaign fund from Samuel Insull and other high officials of public service corporations which commonly had business before the Illinois Commerce Commission of which Smith then was the chairman.

There has been no suggestion of fraud or corruption in either the primary or general election in which the Illinois Senator-elect was first nominated and then elected.

When the Vare case is reached a much broader field of inquiry will be opened since there have been charges of irregularities in both the primary and the general election campaigns. The committee already has gone into the primary campaign very extensively, but was prevented from inquiring into the general election when the resolution to continue it during the recess was blocked by the filibuster at the close of the last session.

## Weather Delays Arrival of groom For His Wedding

Chicago, Dec. 10.—(AP)—Balked for weeks by the elements, a bridegroom who raced half way around the world by land, sea and air arrived in Chicago to meet his fiancée, who informed him their wedding had been postponed until today.

Forsythe Sherfese, financial advisor to the Chinese government at Peking, completed the last lap of his journey when he stepped from an airplane at the Municipal field last night, just six hours after the time scheduled for his wedding to Mrs. Emily Borie Ryerson, of Chicago. Mrs. Ryerson is the widow of Arthur Ryerson, the wealthy giant man, who lost his life when the Titanic sank.

A storm on the Pacific soon after he left Yokohama, Japan, delayed the arrival of Mr. Sherfese's ship at Vancouver, B. C. two days. A typhoon snow fall in the Rockies necessitated a detouring of his train to St. Paul, Minn., and set his schedule back several hours further.

Determined that the wedding should be held as planned if by any possible means, Mrs. Ryerson chartered a plane to fly to St. Paul, pick up the bridegroom and bring him here.

But it was a losing battle with the elements for again strong headwinds, snow bound roads, and biting cold weather cost many valuable hours. When it was finally time to leave, Mrs. Ryerson attended a scheduled reception, although informally, and announced the marriage would be celebrated at noon today.

## TWO HELD FOR MURDER

The State alleged the two youths "hid her body in a barn."

Two outstanding eleven, Tuscaloosa High and Montgomery Bell, both undefeated during the past three years, were honored with seven selections.

Honorable mention also was made of Charlotte high, Charlotte, N. C., and Riverside and Monroe A. & M., of Georgia, for their brilliant records and the number of individual stars each produced during the past season.

Due to the extra large field of stars in the high school galaxy, this year the board decided to show no distinction between the players representing team number one and two; the board's announcement said. "The 1927 all-Southern, like the all-American, is a squad of 22 players instead of 11."

Lowell Mason, brilliant quarterback on the Charlotte high team and rated by many southern and Washington, D. C., critics, as the "peer without equal" deserves to share honors with Robert Worrell, Tennessee's greatest quarter. Both have been appointed captains of the mythical squads.

# CONFERENCE CONSIDERING "BOMBSHELL"

LEXINGTON, Ky., Dec. 10.—(AP)—The University of Mississippi "Bomshell" announcement of readiness to withdraw from the Southern conference unless that body voted it a word of confidence was the principal matter before officials of the organization as they met in executive session here today.

Coming late last night without warning the announcement of professor W. M. Hemingway, faculty chairman of athletics at Ole Miss, that his Institution considered it had not been shown due courtesy by conference members in arranging its baseball schedule created the sensation of the gathering.

Professor Hemingway said the matter had been when the Southern Intercollegiate Athletic Association sometime ago had "black-listed" it from its list of opponents because, he said, Mississippi College had charged that "Ole Miss" had used a baseball player who had previously been a professional athlete. Without asking the University to investigate, Professor Hemingway charged Mississippi College had "openly insulted" them and had not accepted the finding of their investigation. He said this investigation disclosed that the man in question, Charles Briggs, a pitcher, had never violated the amateur rule.

Coach H. C. Byrd of the University of Maryland, moved that the matter await until the executive session of today and this was adopted.

A number of proposed amendments to the Constitution also are set for today, the closing session of the conference. Among these is one by Dr. S. V. Sanford, president, which would make a student ineligible for athletic competition in the conference unless he is a graduate of an affiliated school.

Wallace Wade of Alabama, W. A. Alexander of Georgia Tech, and Dan McGugin of Vanderbilt, conferred today prior to selected members of an All-Southern Southern Conference football team which will go to Los Angeles for a Christmas game against a selected Senior team from that section.

The team will be selected from men of the Senior classes of various institutions and the players will not be barred from further activity at basketball or baseball.

The Ayden Elms played the Kinston team all thru the game, never giving them a chance of a lead. The first string men played the first half and then Coach Fouts sent in the second string to share in the fun.

This being the first game of the season, the boys showed up well and it is believed that they will have a much better club in a few more days. They have only practice for the past week. Coach Fouts is due much credit for what he has done in athletics for the school. He has put out a winning football club this year. The Tornadoes winning six games, being two and losing one.

Browne (upper right).

## Tunney Regarded As Most Valuable Man in the Ring

NEW YORK, Dec. 10.—(AP)—Gene Tunney, world's heavy-weight champion, is regarded as the most valuable in fistiana in 1927 in a declaration by William Muldon, Senator member of the New York State Athletic Commission.

Landis Tunney's boxing activities, Muldon said "he is the finest representative the game has ever had" in the heavy-weight division. Landis has this opinion not only on his reputation as a clean, hard fighter in the ring, but also on his high standard of personal habits and conduct outside the ring.

Tommy Loughran, of Philadelphia, who tills in a light heavy-weight championship battle with Jimmy Slattery of Buffalo, here next Monday, was ranked next to Tunney in Muldon's estimation of pugilistic ratings.

DAILY REFLECTOR

ANOTHER MILESTONE

Celebrating our forty-sixth anniversary, The Reflector today begins its journey along the pathway of a new year. Established early in January, 1882, as a weekly paper, by J. R. and D. J. Whichard, The Reflector has continued through this number of years as Pitt County's foremost newspaper and for the past thirty-three years it has served the community as a daily publication.

Operating first as a weekly, then as a semi-weekly, The Reflector became a daily on December 10, 1894, and from that time until during the World War, both the daily and weekly publications were continued. At that time the better rural mail service and the rapid development of the rural sections of our community created a greater demand for the daily publication and less demand for the weekly and the weekly circulation was absorbed by the daily, and December 10 set aside as the paper's anniversary date.

In the first issues of The Reflector the purpose of the paper was set forth as "For the upbuilding and betterment of Greenville, Pitt County and Eastern North Carolina," and through all these years the paper has striven to live up to its motto and has labored unceasingly to advance the interests of the community and make it a better place in which to live. When The Reflector began Greenville was but a village of less than a thousand inhabitants and the paper has lived to see it grow into a city of ten thousand. Where there was but one brick store and only a few wooden shacks for business houses, today we boast of a city of business houses that compare favorably with those of cities much larger than Greenville. The files of the Re-

flector are practically a history of Greenville and Pitt County for the past forty-six years, and it is with some feeling of pride that we note that many things that were advocated by The Reflector in its early days, have long since come into being here, and today are a fixed part of our community. It is useless to attempt to recount these many changes that have become about to a great extent, as a result of the efforts of the paper, for to do so is but to live in the past, and it is this the new year, and the other years ahead that now interest us most and should have our attention.

During its nearly fifty years of existence the policies of the paper in the main have not changed, although there have been many improvements, and today, as in former days, The Reflector is devoted to the upbuilding of the community sponsoring those things it believes to be for the community's good and never hesitating to defend the community against those things it believes to be a detriment.

A bigger and better community and a newspaper a step ahead of the community is our aim at all times.

Legion Poll On Prohibition Hits Unexpected Snag

New York, Dec. 10.—(AP)—A proposed poll on prohibition among the entire membership of the American Legion and its Auxiliary was up against snags today. The announcement of National Commander E. Spafford in this city that all Legion posts of the country would open discussion of the prohibition question preliminary to a poll in May, drew from a state commander-elect, a former national commander and one post statement that indicate Spafford was acting without authority and contrary to the legion constitution.

Explaining his New York amendment, Spafford at Trenton, N. J., said the poll was designed to be "purely informational," and without official connection with the legion. He said the poll would be conducted on his own authority, and that the approval of the national executive committee had not been sought. He added that "negligible" expense attached to the poll would be borne by the legion, in whose monthly magazine he indicated a questionnaire would be printed.

ABOUT TOWN

"Pitt County had a splendid delegation at the annual conference of the Northeastern district of the North Carolina Welfare Association held in New Bern Thursday," today said K. T. Fittrell, director of the Welfare Department of Pitt County. "The speaker of the day, a prominent man, things of interest to the welfare department of this section. The speaker of the day, a prominent man, things of interest to the welfare department of this section. The speaker of the day, a prominent man, things of interest to the welfare department of this section."

"About 2,500 North Carolina people died of tuberculosis last year," E. G. Flanagan, well known business man stated today.

"Nearly four hundred children of school age were in this group. There are about 19,000 men, women and children in North Carolina who have tuberculosis in an active form."

"Research has shown that the dread disease kills as many people between the age of twenty and forty than any other age period? Tuberculosis is communicable, preventable, and curable."

"No home is safe from tuberculosis until all homes are safe. Tuberculosis Christmas seals will help drive tuberculosis from North Carolina."

"If you haven't made your purchase of seals yet, see members of the Woman's club and do so immediately. Money from this source is used in the interest of suffering humanity. Certainly there is no greater cause."

"There has been much inferior tobacco on the market the last several days," said a local warehouseman this morning, and this has resulted in falling off of the average price.

"Good tobacco, however, is still bringing a good price, and the farmer who has such grades should have no worry as to what he will receive. Better grades of tobacco are always in demand. It is the season of the year now, however, when considerable trash leaf finds its way to market. It is natural to presume that prices will be low for this grade because demand is limited."

"Greenville has made a splendid record this year in number of pounds sold and also in prices and the farmer that sells her has no regrets."

"It is commendable that President Coolidge promised support of the administration for the flood control bill," declared a local citizen today, recalling the disastrous flood which visited the Mississippi districts during the summer.

"Money spent for such a purpose is devoted to a good cause. Expenses might be reduced in other ways if this should be found necessary. Mississippi valley people lost millions of dollars which could have been saved if money had been spent for flood prevention before."

GORMAN'S MARKET REPORT. The sales Monday and Tuesday were the largest of the week. This was caused by the rains keeping tobacco from coming in on Thursday and Friday of last week. Gorman's sold for the week 465,728 lbs for \$115,326.97 an average of 24.76 for all we sold. We have had lots of barn cleanings (damage and scrappings tied up) with but little fine tobacco. Wrappers have sold as high as at any time this season. We look for smaller sales the coming week. We will be able to sell you any day you come, so we do not advertise our sales either in the paper nor on our house signs. The market will suspend sales Friday the 16th for the Christmas holidays and will reopen about the middle of January. If you ever needed a judge of values to sell your tobacco, it is now. Send your tobacco to Gorman and you will go home satisfied with the top of the market. J. N. GORMAN AND SONS

# P. & N. CASE NOW BEFORE COMMISSION

## Decision to Be Rendered Following the Studying of Evidence By Interstate Body.

Washington, Dec. 10.—(AP)—The controversy over the Piedmont and Northern railroad plan for constructing 126 miles of new line on the North Carolina-South Carolina border terminated today before the Interstate Commerce Commission, which took the case under consideration. A decision will be rendered after study of the evidence and argument.

L. E. Jeffries, vice-president of the Southern Railway, which is the leading opponent of the Piedmont plan, made his final argument and Charles Evans Hughes, chief counsel for the Piedmont interests, also spoke.

"We have shown that the Southern Railway in this territory is equipped to handle three times the traffic it now has," Mr. Jeffries asserted, "and can handle it safely, efficiently and rapidly."

"There is no need in the territory for the new construction the Piedmont company seeks to undertake," Commissioner Atchison interrupted to ask whether the Southern Railroad, in case the Piedmont extension rights was refused by the Commission, would allow the Piedmont company trackage rights to operate over the territory involved.

"Now that is a matter for the governing body of the Southern Railway to decide upon, and it is not for me to say," Mr. Jeffries said. "But let me give you my idea. If there is sufficient service there, now over our railroad, they why should we annihilate our whole service by dividing up the traffic there is."

Mr. Hughes declared that the Commission's decision on the Piedmont extension would be of national importance, but that it must notwithstanding be made in the light of local conditions.

"It is to be remembered that the Southern Railway which is protesting this improvement has been very fortunately situated and has prospered in this territory," Mr. Hughes said. "So great has been the increase of traffic that this railroad alone has found it profitable to invest \$22,000,000 of its money in the territory since 1910 and to earn a return upon it that has been handsome."

"Now the Southern cries in opposition the Piedmont plan that it is the Duke power interests which are striving to endanger it. That seems pretty hard to me since it has been the development by the Duke power projects which has brought the prosperity in which the Southern has amply shared. There is no reason now to regard the Duke power interests, the stock of which is controlled by the trustees of a charitable endowment as throttling the future of the Southern system. We have shown that the Piedmont extensions are necessary and justified."

tempting to perform the rite of suttee, three herself on a funeral pyre beside the corpse of her husband and was burned so badly before British police could rescue her that she died.

Britain is sending a commission to India headed by Sir John Simon, to see about helping India toward self government.

How can you give self government to a people in whose literature the word liberty does not appear in 5,000 years, to millions who believe that little girls 8 and 9 years old should be married to middle aged men...

An intensely interesting suggestion from Governor Al Smith would take the power of paroling prisoners, sentencing and putting them on probation from judges and transfer it to a board of expert psychiatrists, criminologists and penologists. Such a board might diminish crime instead of merely sending criminals to be made more efficient in the penitentiary crime universities.

Noise Costs Britain \$5,000,000 a Week; U. S. Twice as Much

London, (INS)—Noise cost Great Britain the astonishing sum of five million dollars a week. A sum approximately as high as that paid out for the upkeep of the British Navy for the same period of time.

It is estimated that noise costs the United States nearly double this sum, or \$520,000,000 a year as the 'Yankees' are supposed to make nearly twice as much racket as do the British.

Pointing out what an extreme menace to health the roar of civilization has become, Professor Spooner, an authority on industrial fatigue, discussing the situation recently said:

"It is a fallacy to think that people become so accustomed to noise that they no longer notice it, it is harmless to them. The nerve force suffers in any case and noise, whether heard or not, is the most inveterate thief of health."

Up to the present little has been done to combat this new menace but efforts are being made to induce the medical organization of the League of Nations to take up the question in the cause of humanity.

It was believed that the robbery was the work of a local thief or an amateur.
