KING AGAIN TESTIFIES IN OIL HEARING

Washington Herald Reporter Gives Facts Regarding Edward J. Kidwell.

Washington, Jan. 24.—(AP)—Along a legal trail strewn with ugly words and punctuated by repeated warnings from the bench, the government today proceeded through some of the crucial stages of its effort to prove Harry F. Sinclair, William J. Burns and others guilty of contempt.

The day's proceedings, which are a part of the aftermath of the jury shadowing that led to a mistrial in the Fall-Sinclair oil conspiracy case, brought to the witness stand two of the principal government witnesses.

Don K. King, the newspaper man who was one of the prosecuting attorney's original informants, continued under cross-examination to stick to his story that Edward J. Kidwell, one of the trial jurors, said he expected to profit materially by his jury service. Later, William J. McMullen, whose revelations that Burns detective employed by Sinclair were shadowing the trial jury, told from the witness stand how he himself served as one of the fifteen operatives sent to Washington to keep the jury under surveillance.

Just before King left the stand the opposing attorneys exchanged personalities that appeared to stop just short of personal violence. Charles A. Douglas counsel for Burns asked the court to punish assistant district attorney O'Leary for calling Douglas names and before the judge could restore order Douglas added to O'Leary.

"If you make such a remark again I'll lay myself open to a charge of contempt for what I'll do to you," O'Leary retorted.

McMullen was summoned by Peyton Gordon, the district attorney. He said he obtained employment under the name of William V. Long with the Burns Philadelphia office last October, and was assigned to the jury shadowing job October 19. He testified he was in Washington about ten days. He made reports to C. G. Ruddy, a Burns manager.

Gordon introduced some of McMullen's preliminary reports and asked the witness if they were true. They had to do with the identification of a government employee's car.

"They were not," McMullen replied.

Asked at whose instance he included this "false information," the witness replied.

"Ruddy."

Washington, Jan. 24.—(AP)—Repeating his charges that Edward J. Kidwell, Jr., a Fall-Sinclair trial juror, had expressed the belief that he would benefit materially from his jury service, Don K. King, reporter for the Washington Herald, today stuck to his original allegations despite a grilling cross-examination in the contempt case growing out of the trial.

George P. Hoover, counsel for Harry F. Sinclair, told the court he intended to learn whether King had known Kidwell previous to the time he interviewed the juror in a near beer saloon.

The cross-examination provided a constant wrangle between Hoover and James J. O'Leary, an assistant district attorney. Hoover charged O'Leary was making his objections "as no decent lawyer" should make them. Justice Siddons stopped the exchange.

Hoover asked King why he had said certain things in an affidavit filed some time ago and then had omitted them from his present testimony. O'Leary's objection was sustained.

King testified his only remark to Kidwell was to the effect "that Fall was an old man and stiff." The witness said Kidwell at no time said he did not wish to talk about the oil case. King insisted he did not question the juror.

He bought Kidwell two drinks, King said, but added it was "not necessary to get him drunk to make him talk." He bought the drinks, he testified, "to give Kidwell time to talk."

Fayetteville Man Killed in Wreck

Fayetteville, Jan. 24.—(AP)—George Benson, 45, woodworker of this city was instantly killed late last night when the car in which he and five others were riding collided with a car driven by Emmett Davis prominent Bladen county farmer.

The accident occurred about five miles from Fayetteville. Water Squares, who was driving the Benson car, suffered a broken arm.

County officers said that both cars were running with only one light.

All Kinds of Climate.
A Magnet Puzzle.
Wise Old Capitalism.
No German Worry.
(By Arthur Brisbane)
Copyright 1927, by Star Co.

We have a variegated climate, dogs pulling sleds over Alaska's ice, ladies and their friends lying half-naked on the sands of Florida, California and the Gulf states.

And the thermometer does not tell everything about the weather. New York shivered and growled yesterday at 14 above zero, while Donald MacMillan, Arctic explorer sent work through radio, that he is quite comfortable at Bowdoin, Labrador with the temperature 35 below zero.

It depends on humidity, elevation, ozone and other things probably of which we know nothing.

If you asked, "Can NOTHING be more powerful than SOMETHING?" You would get no serious answer. But how do you explain this fact, announced by German science and proved by convincing experiment? A hollow magnet is more powerful than a solid magnet.

The absence of magnetized metal inside the magnet increases its magnetic strength. A magnet containing four hollow lamellae has as much lifting power as one containing nine solid lamellae.

Everything is possible in chemistry and physics, now that atomic construction and the horrible power and speed of the tiny electrons have been added to human knowledge. But that hollow magnet news is a thing to puzzle science.

One advantage is possessed by "capitalism," and unknown to Bolshevism, revolution, organized labor and the general public. Capitalism is always grateful, never forgets a good turn, rewards friends generously.

Bolshevism exiles Trotsky—and others of Lenin's ablest assistants—to Siberia.

Revolution in France guillotined Danton, its ablest man; guillotined Robespierre, justly called the "incorruptible," and would have guillotined...

OLDER BOYS CONFERENCE HERE SOON

Entertainment Committee Appointed for Y. M. C. A. Gathering in February.

Preparing for the ninth annual Older Boys' Conference which is to be held in Greenville February 10, 11 and 12, under the auspices of the state Y. M. C. A., the following committee has been formed for the enlistment of entertainment:

C. B. Rowlett, chairman; L. A. Stroud, K. T. Futrell, Miss Betsie Greene, H. H. Duncan, W. E. Hooker, Mrs. C. W. Harvey.

The entertainment will include two nights lodging and five meals, beginning with Friday night supper, and ending with the noon meal Sunday. There will be a banquet served the boys Saturday evening, February 11.

Four hundred of the leading boys of 75 or more high schools of eastern North Carolina are expected to attend. They will be here for business, in other words, with a program full of matters of primary importance to them—devoting lots of time for discussion of leading topics of interest—some of their problems, etc.

Some of the best talent of the state will be here to help as speakers and leaders. These conferences are red letter experiences for all who attend.

Farmville Child Is Buried Here

Funeral services for Annie Laurie, infant daughter of Mr. and Mrs. D. R. Morgan, of Farmville, were conducted from the home of her parents yesterday afternoon at 3:30 by Rev. Mr. Tandy, pastor of the Farmville Christian Church. Interment was made in Greenwood cemetery here.

FORD PLANE BEGINS TRIP TO FLORIDA

Harry Brooks Pilots New Flivver Plane On Non-Stop Flight From Detroit to Miami.

Detroit, Jan. 24.—(AP)—Harry Brooks, piloting the latest Ford product—a flivver plane—looked off from the Ford airport at 7:15 o'clock eastern standard time today on a projected non-stop flight to Miami, Fla.

In total darkness with a steady fall of rain and snow the tiny plane was brought from the hangar. With no ceremony Brooks took his place in the plane, shook hands with Henry Ford and William B. Mayo, chief engineer of the Ford Company, and was off. He circled the field once, gained altitude of about 500 feet and swung away from the field on his southward journey.

"I wish you luck," were Mr. Ford's only words to Brooks.

Brooks itinerary will take him over Columbus, Ohio, Asheville, N. C., Greenville, S. C., Augusta, Ga., Jacksonville, Fla., Daytona and Miami.

The plane, first of all Ford manufacture to be produced, is so tiny it could easily be hungared in a woodshed.

With a wing spread of less than 20 feet, and a gasoline capacity of approximately 48 gallons, the plane is believed by its designers capable of negotiating the 1,400 mile journey on half its gas load.

The plane is powered by a tiny two-cylinder motor. Its production marks the initial venture of Ford into the manufacture of airplane motors. Brooks said he planned to complete the trip in fourteen hours.

The tiny plane, which has been out of the Ford factory only one month, bore the numbers 3218 in white letters on a blue fuselage and in black on the underside of the silver painted wings. The ship is of a semi-cantilever construction with the wings projecting from the lower side of the fuselage.

The pilot's seat in the single-passenger monoplane is not enclosed. Brooks was attired in a heavy flying suit and helmet as he took off in unfavorable weather.

The United States weather bureau announced that Brooks would meet with mostly cloudy weather on his flight, with some rain and unfavorable weather in the Carolinas and Georgia.

Says World on Dollar Basis

London, Jan. 24.—(AP)—The world is on a dollar basis, Reginald McKenna, chairman of the Midland Bank, said in addressing the annual meeting of the bank.

"Although gold is still the nominal basis of most currencies," he asserted, "the real determinant of movements in the general world level of prices is the purchasing power of the dollar."

McKenna spoke a hopeful word for British trade in 1928. He referred to the great improvement in the relations between capital and labor and to the gradual but steady recovery in trade since the general strike of 1926.

"I am hopeful that these tendencies will gain in strength," he asserted. "I do not suggest that we have any cause for unbounded optimism, but the background is brighter than a year ago."

Silver Screen Draws Fire of Pan-American Conference at Havana

Havana, Jan. 24.—(AP)—The motion picture as it paints Latin America today was under the scrutiny of the Pan-American Congress. Apparently voicing the feelings of other delegates, the delegation from Salvador presented a resolution dealing with the silver screen in co-operation.

The resolution asks that more care be exercised in the making of films for Latin-American consumption so they will not offend.

Rector Castro, of Salvador, in presenting the resolution urged the members to support it not only to safeguard their own interests and feelings but also to bring about production of pictures which would more truly typify the Latin-American.

Interest was also focused on the meeting today of the communications committee by an announcement that the United States delegation would have amendments introduced to the draft treaty regarding commercial aviation.

Great interest has been aroused by reports current since the treaty was discussed in Washington that the United States is determined to place reservations regarding the clause applying to the prohibition of flying over fortified zones equally to national and foreign planes. Many Latin-American delegates hold that if the proposal which the United States defended so heartily last May, namely that discrimination between foreign and national aviation over fortifications be allowed, then extensive international aviation routes in Central America would be controlled by the United States because of the strategic position of the Panama Canal.

Cuba's proposal for the establishment within the Pan-American Union of a commission for conciliation of inter-American disputes, scant encouragement. Jacobo Varda, Uruguayan delegate, Pan-American Union committee, opposed changes in the non-political character of the union.

The difficulties which would confront such a step were, he said, "Jealous preservation of the rights of self-determination; difficulties barring the way of the harmonizing"

WOMAN AGAIN FAILS TO SWIM ACROSS STRAIT

Miss Mercedes Gleitz Nearly Drowned in Effort to Swim Strait of Gibraltar Today.

Tangier, Morocco, Jan. 24.—(AP)—Miss Mercedes Gleitz, London, typist, was almost drowned in a futile attempt to swim the Strait of Gibraltar today.

She entered the water at 12:08 a. m. after swimming for five hours and was caught in a whirlpool and nearly drowned. She abandoned the swim.

On reaching land Miss Gleitz, who seemed greatly distressed at the failure, said she would abandon all further attempts to swim the 27-mile stretch of water. She showed no signs of exhaustion.

"It was terrible," the swimmer said of her experience. "I had just completed the fifth hour and was getting set, although the continued darkness made me rather sleepy. Suddenly I was seized by a whirlpool and irresistibly dragged down. As my head went under I felt the side of the boat."

"It was the end and a bitter end, too, but better than being defeated by bad weather or adverse current."

"I don't think of making a further attempt, but I wish luck to all who try."

Texas Farmers Fight For Part Of Duke Fortune

Somerville, N. J., Jan. 24.—(AP)—A forlorn group of Texas farmers suffering from the rigors of a New Jersey winter, which to the Jerseyites is quite mild, is contesting for a share of a \$2,000,000 found which James B. Duke left to be divided among the lineal descendants of his father and mother.

Only two of the ten representatives of 100 claimants are under 58 years of age and all are suffering from what is commonly known as a "cold." "Aunt Sally" Turner, 65 years old, one of the group, crippled by the unaccustomed weather, had to be carried to the stand to testify, while Dr. Henry Duke, another of the witnesses, has been confined to his bed.

The hearing was instigated by Elizabeth Duke, of Wichita Falls, Texas, representing the 100 claimants who were not included in the 167 claims already allowed. The parents of the late tobacco magnate were Mr. and Mrs. Washington Duke of Orangeburg county, South Carolina.

Rebel Leaders Reported Slain

Mexico City, Jan. 24.—(AP)—Dispatches from Cuatla today said the rebel leaders Juan Alguin and Isabel Alvarado were slain in battle with local guards and volunteers at Tlaxiusta, state of Morelos, Sunday. The loyal troops under General Domitilo Ayala dispersed the rebels.

Twenty-One Prisoners Escaped At Detroit

Detroit, Jan. 24.—(AP)—Twenty-one federal prisoners escaped from the Elmwood branch of the Wayne county jail early today by tunneling through a six-inch brick wall.

CARSON HEADS BUDGET DRIVE

Attorney Named Chairman of Campaign to Raise \$3,500 for Salvation Army.

The local advisory board of the Salvation Army met this morning and selected Sam T. Carson to be chairman of the campaign to raise \$3,500.00 to defray the expenses of the organization in this city for 1928.

W. L. Best, president of the local organization, presided, and tentative plans for the conduct of the campaign were entered to. Further announcements will be made, and comments were expressed as to the excellent progress of the work in this city by members of the council.

D. G. Coy, campaign manager of the Army, was also in the meeting and expressed his appreciation of the interest manifested here. He was assured by the members that the work of the Army both in its material and religious benefit were of great value and importance, and that those who subscribed last year were well pleased with the results and wanted the Army to continue its work in our city.

SAY SALARIES AT UNIVERSITY ARE TOO LOW

President Chase Tells Trustees Increased Salaries of Faculty Necessary.

Raleigh, Jan. 24.—(AP)—Salaries of faculty members at the University of North Carolina are too low, President Harry W. Chase, told trustees today.

"With the change in living costs, as marked in Chapel Hill as anywhere in the country, and with the increased opportunities for places due to the rapid growth of colleges and universities everywhere, the salaries paid the better men in educational institutions have steadily increased," Dr. Chase said.

"For such men we are distinctly below the rates of institutions of our type generally."

Dr. Chase declared that the automatic salary scale was a burden to the university and that greater freedom and flexibility in the matter of salaries should be available.

"It should be possible," he argued, "to recognize unusual service more freely and under a greater range of circumstances."

The late "survey of women in industry" was referred to by Dr. Chase in his report to the trustees when discussing the Rockefeller fund administered by the university.

"It is important that the work sent out through the institute should be neither propaganda nor undertaken with the thought of social reform lending color to its facts and conclusions."

He went on to point out that social investigations should be undertaken from a truly scientific point of view and not in order to prove some wild theory.

Establishment of the Duke University medical school has relieved the University of North Carolina of the immediate responsibility of inaugurating a four year medical school, declared Dr. Chase, but he insisted that the standards of the present two-year course be improved and overcrowded conditions in the medical building relieved.

TEXAS SPLIT OVER SMITH

Endorsement of New Yorker For Presidency Causes Deadlock of Committee.

Houston, Tex., Jan. 24.—(AP)—A controversy over the proposed endorsement of Governor Al Smith of New York as a presidential candidate, has left the Houston democratic executive committee deadlocked on other party affairs.

After a spirited discussion at a committee session last night, part of the members today claimed Governor Smith had been endorsed while others insisted he had not.

George E. Woods, chairman of the committee and city manager, in giving his version, said he had approved the meeting at the suggestion of James L. Bailey, a member, who announced he wished the committee to approve the successful efforts of Houston residents in obtaining the democratic national convention.

When Mr. Bailey presented a resolution lauding the campaign that brought the convention here, it contained a clause supporting the New York governor for the presidential nomination and named Governor Dan Moody of Texas as the choice for vice president.

This Mr. Woods, declared, precipitated a heated argument, in which he and Henry M. Dudley led the faction opposed to the endorsement of any candidate. He said that when his right to preside as chairman was questioned because he was a city official, the resolution was tabled and the meeting ended.

Those favoring the resolution assembled at another place and spokesmen for this group announced they had adopted it.

The resolution, after endorsing the stand of Governor Smith on law enforcement, said it was hoped he would be nominated at the convention here next June.

Swanson Blocks Inquiry of S-4

Washington, Jan. 24.—(AP)—An attempt to obtain senate action today on the house resolution for inquiry into the S-4 disaster by a presidential commission was blocked by Senator Swanson, democrat, Virginia.

The Virginia senator wants the investigation made by congress.

MAN PLUNGES TO HIS DEATH FROM PLANE

Grantland Irwin Hurlled to Death When Parachute Failed to Open at Macon.

Macon, Ga., Jan. 24.—(AP)—While thrilled spectators on the ground, anticipating circus stunts, waited for a parachute to open, Grantland Irwin, 38, of Birmingham, Ala., plunged to his death from an airplane 1,200 feet aloft here late yesterday afternoon.

Jack Ashcraft, veteran pilot, who was at the controls of the ship, declared after bringing his plane to earth, that Irwin's plunge came after two previous attempts to leap from the flying airplane, from each of which Ashcraft said he dissuaded him.

"It's all over now," the pilot quoted him as saying just before he made his third and unsuccessful try, which hurled his body to the Central of Georgia railroad tracks at Terrell Cotta station, near Berea.

Those who witnessed the tragedy, from the crowd declared that the plane was doing all manner of spectacular dips and dives and that it was during the maneuvers they say the body of Irwin start suddenly toward the ground. They expected a parachute to open and bring him safely down, they said.

After relating Irwin's attempts to leap, and his final successful plunge, he knew nothing more of the occurrence, said Ashcraft. The pilot brought his ship down in a nearby field and directed the removal of the body to an undertaking establishment here.

Gastonia Woman Fatally Burned

Gastonia, Jan. 24.—(AP)—Her clothing virtually burned from her body, which was scorched and almost roasted, Miss Maggie Hawkins, 43, South Carolina, is dead of burns received when her dress caught fire as she stood in front of an open grate.

Her father, aged 60, stood by, too feeble to aid, as she fought her fate, running out of the house to the highway, Miss Hawkins was picked up by a passing motorist who sped with her two miles distant to a hospital. 14 1/2 of cloth burned from her gingham dress as she was whizzed to relief.

She, reaching the hospital, crumpled in a heap at the entrance every thread of clothing burned. Hospital attendants asserted Miss Hawkins was the most horribly burned persons they had seen.

Death came three hours later.

Woman Indicted On Murder Charge

Wentworth, N. C., Jan. 24.—(AP)—Mrs. Alma Pettit Gatlin, young Rockville woman, today was indicted by the Rockingham county grand jury on a charge of first degree murder for the alleged slaying of her father, T. Smith Petty, almost a year ago.

The jury, which considered the case most of yesterday, spent five minutes in consultation this morning before filing into the court room to formally present it.

Attorney for Mrs. Gatlin, the solicitor expected to confer with the court this morning as to the exact date for trial.

Mrs. Gatlin is accused of having slain her father, a former cotton mill supervisor, by striking him on the head with an axe while he sat at breakfast at their home in Rockville, carrying his bow to the cellar and burying it. The crime was not discovered until last fall when the Rev. Thomas P. Parden, an evangelist, told officers Mrs. Gatlin had confessed to him that she had slain her father. The body was found and the coroner's jury ordered the young woman held.

Thames River Again Rising

London, Jan. 24.—(AP)—Heavy rains during the past 24 hours have again caused floods in many districts of England.

The Thames is rising and above Leddington was overflowing the banks in many places. Only yesterday the Thames Conservancy commission issued a warning to those living in the low lying sections of London.

BANKER FAILS TO APPEAR IN OIL INQUIRY

Son-in-Law of Albert Fall Not Present When Senate Committee Began Work Today.

Washington, Jan. 24.—(AP)—M. T. Everhart, Pueblo, Colo., banker, and son-in-law of Albert B. Fall, who is expected to be one of the most important witnesses in the new Senate oil inquiry, failed today to respond when his name was called at the first session of the investigating committee.

Owing to the absence of Senator Walsh of Montana, the prosecutor, who was attending another committee session, the actual opening of the hearing was postponed until this afternoon.

Committee members believe that Everhart will appear at that time for questioning as to from whom and under what circumstances he received \$250,500 in Liberty bonds after the Teapot Dome naval oil reserve had been leased to Harry F. Sinclair.

Only three witnesses responded to their names: E. C. Graham, secretary of the Standard Oil Company of Indiana; A. C. Downing, secretary of the New York Trust Company; and John Mooney, of Blair & Company, New York bankers.

Sinclair, a central figure in the oil scandal, who is on trial here now for criminal contempt in connection with the shadowing of the jury impelled to try him on a criminal conspiracy charge, was excused by the committee until later in the day.

Washington, Jan. 24.—(AP)—Disclosure of the exact source of the \$250,500 in Liberty bonds that found their way to Albert B. Fall, secretary of the Interior, was one of the goals set today by a Senate investigating committee in resumption of the Teapot Dome naval oil inquiry.

That important testimony, lack of which has been a stumbling block to government counsel in the Fall-Sinclair conspiracy trials, was hoped for by the committee on the basis of intimations that it would be given by M. T. Everhart, Fall's son-in-law. Although Everhart has twice before refused to court to reveal the source of the bonds on the ground of possible self-incrimination, members of the committee have heard widely circulated reports that he will now tell his story.

Everhart headed a list of witnesses called for today that included Harry F. Sinclair, who leased the Teapot Dome reserve from Fall. The bonds that were given to Fall by his son-in-law formed a part of the profits of the Continental Trading Company, Ltd., a Canadian corporation now extinct. It was formed six years ago to buy and resell oil, its contract being guaranteed by Sinclair, Robert W. Stewart, chairman of the board of the Standard Oil Company of Indiana; H. M. Blackmer, chairman of the board of the Midwest Refining Company; and James E. O'Neill, president of the Prairie Oil and Gas Company.

The new committee investigating is being undertaken to determine also what became of the remainder of the \$3,000,000 profits of the Canadian concern, and particularly whether any part of it was used to wipe out political party deficits after the 1920 presidential campaign.

Greenville Baseball Club Looking For Name

LEAGUE TEAM FORMED HERE LAST NIGHT

Greenville's membership in the newly formed Eastern Carolina league was assumed last night at an enthusiastic public meeting held in the Court house. The meeting was largely attended and resulted in the actual organization of the club, election of officers and a board of directors.

G. V. Smith, well known tobaccoist, was elected president; W. S. Moye, vice-president; H. S. Ragsdale, Secretary and Treasurer. The following men with the officers will compose the board of directors: R. M. Garrett, C. W. Shuff, W. H. Smith.

C. B. Rowlett acted as chairman of the meeting. Motion was offered that a nominating committee be appointed and they submitted names of the officers and members of the board, which report was accepted.

Following acceptance of the report of the nominating committee G. V. Smith took charge of the meeting and presented many facts dealing with the operation of the new league.

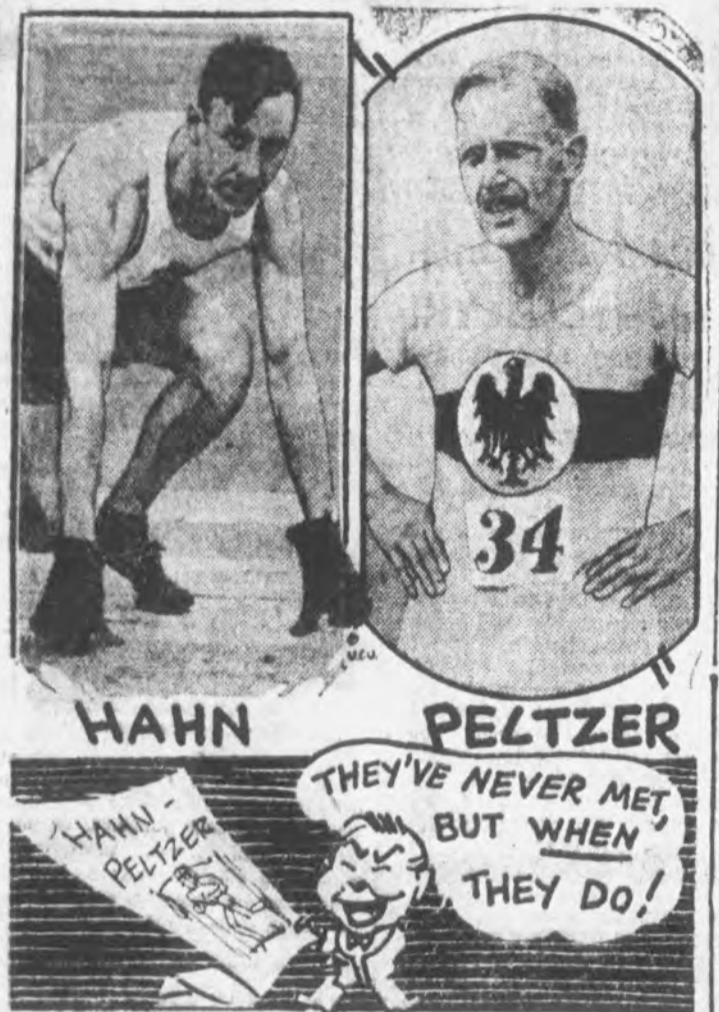

Unless some change is made in the proposed schedule the league will open on or about April 25th and close Labor Day, September 3rd.

President Smith was empowered with authority to sign a manager of the local club who immediately will begin lining up players. Mr. Smith stated that he was already in receipt of applications from players well known in organized and unorganized baseball in this and other states. He said these names would be given consideration as soon as a manager had been selected and that plans for operation of the team would begin immediately.

After considerable discussion to determine a name for the local team, it was decided to offer a prize of a season ticket to the person submitting a name which will be decided by a committee already appointed. The contest opened today and closes at 12 o'clock, January 31st. All names must be mailed to H. S. Ragsdale, secretary of the Greenville Baseball Club, and must reach him not later than the hour set for the closing of the campaign.

President Smith is already considering several names as manager of the team. Work will begin immediately for an additional grand stand and bleachers at the Fair Grounds and the grounds will be put in shape by the time the first squad is assembled for practice about April 1st.

Hahn And Dr. Peltzer To Meet In Olympics Even If Not In U. S.

Middle distance records may fall if efforts to match Lloyd Hahn, American Olympic veteran, and Dr. Otto Peltzer, German holder of the world's record for the half-mile and other distances, are successful. Peltzer, now touring America, has been granted permission to run by German athletic authorities but now this country's A. A. U. has shown itself hesitant to give its a. k.

New York, (AP)—Lloyd Hahn of Falls City, Neb., and Dr. Otto Peltzer of Germany may have to wait until the Olympics to meet each other on the race track.

Permission for Dr. Peltzer to run in the United States, which finally has been received from the body governing amateur sports in Germany, brought immediate prospects that one of the three races in which he was to be allowed to compete would pit the German holder of the world's 230-yard, 500-, 800- and 1000-meter records against America's great middle distance star.

Later, however, United States Athletic Union officials frowned on the idea of allowing Peltzer to race here on the ground he might be injured by running on a hard track and lost to the German Olympic team.

The two have never met. Germany was not entered in the last Olympics in which Hahn competed and Dr. Peltzer who has risen to track fame rapidly was little known at that time anyway.

An indoor race such as the prospective meeting between Peltzer and Hahn in January or February would be a clean-cut "natural" with both given about an even chance to win.

Hahn, who last winter defeated the Swedish schoolmaster, Edwin Wide, in a mile race and came within a fifth of a second of the record held by Danny Nunn, in at his best on the boards while Peltzer prefers to run on sanders in the open air.

Another thing in Hahn's favor is the fact that he has been training carefully for weeks and has run in some fast races already this season. Peltzer, his activities restrained by his country's authorities, has done no running since he arrived here early in December except for a quarter-mile one under wraps as a good-natured exhibition at the New York schoolboy meet December 10. The German, however, says he is always in condition.

Among the scheduled meets which loomed as possible scenes of the German's racing appearance were the Madison Square Garden meet, February 2; the Boston K. of C. games January 23 in which Hahn has a double entry; the Boston A. A. games February 4; the New York A. C. meet, February 20; the national A. A. U. indoor championships, February 25; and the New York K. of C. meet, February 29.

THREE AFTER GENE'S CROWN

New York, Jan. 24.—(AP)—The heavyweight plot aimed at Gene Tunney's crown thickened today with a possibility of three champions at large in the event the present titleholder is not signed for the defense of his treasure by early summer.

Matching Jack Sharkey's challenge with the New York state athletic commission, Jack Delaney has issued a like defy at Tunney through the National Boxing Association which has a membership in 22 states.

Delaney's challenge, however, according to his manager, Joe Jacobs, will be effective only on condition that Delaney knocks out Tom Reiby during their 15-round bout at Madison Square Garden on March 1.

The New York State Athletic Commission requires champions to fight at least once every six months and Tunney's period of idleness closes in March.

As for the National Boxing Association this is the first time it has stepped into the affairs of the heavyweights. The body has accepted Delaney's challenge, Jacobs said.

Jacobs stated he would confer with Tom Donahue, president of the N. B. A., within a few days in respect to the time limit which would be imposed on Tunney to accept Delaney as a challenger in case the Bridgeporter sends Heeneey down for the count.

SHARKEY WILL BOX TUNNEY OR DEMPSEY BUT NOBODY ELSE

Boston, Jan. 24.—(AP)—Jack Sharkey will box Gene Tunney or Jack Dempsey but no one else. It was announced this morning after a six-hour conference between Sharkey's manager, Johnny Duckey, and Jess McMahon, Madison Square Garden matchmaker, in which an offer to match the Boston sailor with Johnny Risko, Cleveland heavyweight, was definitely turned down.

Buckley told McMahon that his man was through with eliminating of the type of the proposed Risko bout and in addition rejected the possibility of a fight with Jack Delaney. The bout with Risko was to have been staged in New York on March 12.

McMahon at once dispatched a telegram to Tex Rickard at Miami, Fla., informing him of Sharkey's demand.

Buckley said that since Tunney had been reported anxious to defend his title, twice next summer Sharkey was willing to take him on in June, leaving a September date for Dempsey.

CUBS TO MAKE NO MORE RELEASES SOON

Chicago, Jan. 24.—(AP)—Rookies on the Chicago Cubs baseball team were relieved today by the announcement that no more releases would be made until after the spring training trip.

Horace Koecher, former Toledo outfielder, was the last to be trimmed from the team which will commence its annual conditioning trip to Catalina Island.

Cub officials were made glad yesterday when Charles Leo "Gabby" Hartnett, one of the best backstops in the national circuit, signed a three-year contract. The terms were not divulged. The coming season will be Hartnett's sixth with the Cubs.

SPORT JOBS

Atlanta, Jan. 24.—(AP)—The Basketball pace in the southern conference has weekly grown swifter with only two or three teams now standing among those that might be called consistent winners.

Atlanta is maintaining a fast gait indicating trouble ahead for its Tournament opposition here next month. Louisiana state has also expressed its opening consists humbly. North Carolina has had difficulty on certain occasions, but has shown the stamina that looks necessary for the tournament ground.

Vanderbilt, off color slightly at the start, apparently has added strength, the Commodores turning back the Sewanee Tigers.

SPEAKER MAY GET RELEASE

Tampa, Fla., Jan. 24.—(AP)—A cataclysmic winter, bringing wholesale redistribution of baseball's brightest stars, now seems to have designs for Tris Speaker, who last year played centerfield for the Washington Senators to add glory to his many years of big time service.

The apparent tendency of baseball big business to rearrange its valuations on stars seems to have entered into the Speaker case, as it did with Ty Cobb, Rogers Hornsby, George Sisler and others who have switched their affiliations, or had them switched since last season closed.

Clerk Griffith, owner of the Washington club, announced here yesterday that unless Speaker voluntarily reduced his own salary on or before February 1, he would be given his unconditional release.

Tris, in Birmingham, enroute to South Carolina for a hunting trip, said he would make no overtures to the Senators with regard to cutting of his own pay. "Unless Griffith sends me a contract by February 1," he said, "I will automatically become a free agent."

Griffith countered to this news with the opinion that if Speaker did not make the overtures suggested his chances of playing next season in a Washington uniform "were mighty slim."

ALL-STARS TO PLAY BATTERY "E" OUTFIT

The Greenville All-Stars will play Battery "E" Stars at Gorman's warehouse tomorrow night at eight o'clock, according to announcement made this morning.

The All-Star team is composed of college and high school players who have promised the Battery E men a hot time. The winner of the game will get the gate receipts.

College Class Entertained
The college class of the Presbyterian church was delightfully entertained Saturday afternoon at the home of Mrs. C. W. Harvey, on Fifth street.

This party was given in honor of the group who recently won in an attendance contest put on by the class. Purple being the color of the winning group, the decorations in the home were carried out, as far as possible, in this color. Several contests were enjoyed during the afternoon, one being a "National Him" contest which was won by Miss Elizabeth Deal, the prize being a purple and gold compact. The other contest was a color contest and was won by Miss Margaret McDonald, the prize being a bunch of purple violets.

After a short business session and a social hour, the guests were invited into the dining room, where the table was beautifully decorated in purple and gold, the college colors. Sandwiches and tea were served by Miss Katherine Norman and Miss Frances Harvey.

The officers of this class are: Misses Rebecca Alexander, president; Catherine Clark, vice president; Margaret Shaw, secretary; Hilda Sutton, treasurer. Mrs. W. S. Harden is the teacher.

This class, among its many activities, clothes an orphan at the Presbyterian Orphanage at Barium Springs, sending two boxes of clothing a year, most of the articles being made by the girls themselves. There are about fifty Presbyterian girls at the college, and the attendance at Sunday school is remarkably good there being forty four present last Sunday.

MR. AND MRS. WOOLARD ENTERTAIN AT DINNER FOR THEIR MOTHERS

On January 22, Mr. and Mrs. W. H. Woolard entertained at dinner in honor of their mothers, Mrs. R. D. Woolard and Mrs. Jennie Ives. Mrs. Woolard was seventy years old on January 15 and Mrs. Ives on January 20.

The center piece on the dinner table was a cake decorated with red candles forming the number 70. Other guests present were Mrs. Woolard's oldest daughter, Mrs. J. S. Peale, Mr. J. S. Peale, Dillon Peale, Woolard Peale and Thelma Peale, of Everett; and Mrs. Ives' oldest daughter, Mrs. W. C. Vincent, and William Woolard, Mr. and Mrs. E. B. Allbrook.

The beautiful four course dinner was thoroughly enjoyed by all present. The honorees were pleased by gifts and good wishes from children and grandchildren.

MASONIC SCHOOL TO BE HELD AT LOCAL LODGE NEXT WEEK

Dr. W. C. Wicker, educational field secretary of the grand lodge, A. F. and A. M. of North Carolina, will conduct a school of instruction for the Masons of the 5th Masonic district in Greenville beginning Monday, January 30, and closing Thursday night, February 2.

As Greenville is the geographical center of the district, the point most convenient to all the Masons of the nine lodges in this district, Greenville was selected as the place of meeting, the meetings will be held in the local Masonic hall, 7:30 o'clock each evening.

The grand master desires and expects each officer or each lodge to be present and avail himself of the opportunity to become better acquainted with the symbolism, the objectives, and the ritual of Masonry. All master Masons interested in perfecting themselves in the work of Masonry are cordially invited and urged to be present.

Dr. Wicker is a recognized authority in Masonry. He has a fine personality and is an interesting and able teacher and speaker.

Friends of J. Knott Proctor will regret to learn that he is ill with influenza.

IMPERIAL MALE QUARTET AT COLLEGE THURSDAY

The radio and the victrola bring music to the home and one can sit by the fire and enjoy it, but they cannot bring the musicians to one. If one occasionally sees the singer and catches the inspiration from an appreciative audience then in imagination, he can visualize the singer and the radio audience when he listens in, and the power to enjoy is greatly increased.

East Carolina Teachers College has arranged a series of artistic treats that will bring the artists to Greenville. Later, when those who hear these artists put on a record or turn on the radio, to hear them sing, the evening's enjoyment will return fourfold.

On next Thursday evening the Imperial Male Quartet of Chicago, Victor artists, will give a concert in the campus building and will give some of their songs from which records have been made. In one month from today, Mary Lewis the great prima donna soprano, of the Metropolitan Opera Company, whose orthophonic Victor records and whose radio concerts have delighted many, will give her concert. On March 30, Frederick Gunster, a noted tenor of New York City, will give a concert.

SERIES OF FINE SHOWS BE GIVEN AT COLLEGE

Dramatic treat that one cannot get except through the eye and ear combined, a performance of the miracle play, "The Chastening," by Charles Rann Kennedy, Edith Wynne Matthison, and Margaret Gage, will be presented on February 8th.

The two plays by college girls will have the freshness and charm that are compensations for professional qualities they may lack. Both the Junior Class play, scheduled for March 2, and the senior-Normal play which will be in the late spring will be managed by experts who will bring out the best there is in the amateur actors.

The season tickets for all these attractions is about the price of one good seat in a city theatre. The price of the tickets for the single attractions combined is about half the price of the season tickets. Season tickets are still on sale and will be for the next three attractions.

Nursing Record in Two Continents Hard to Equal

Rose White of New Brighton writes: "After fifty-five years of tireless labor nursing mankind, I am now retiring. While nursing in New York, in my early twenties, I was poisoned by food, my sister nurse recommended your wonderful CARTER'S LITTLE LIVER PILLS. The doctor told me that I would have died had I not taken the pills."

I am never without them and have prescribed them for thousands of my patients who were suffering with indigestion, gas and sour stomach, biliousness, sick headache and constipation. These pills are indeed a wonderful laxative, being purely vegetable, small and easy to take, children, as well as older people can swallow them easily. CARTER'S LITTLE LIVER PILLS. V. A. MERRITT RETURNS FROM CONVENTION OF DELCO-LIGHT DEALERS

An ever-growing appreciation of the value of electricity as a time and labor saver on the farm, coupled with a sound product which supplies this needed electricity at low cost will make Delco-Light sales in 1928 among the largest of any similar period in the company's history. This was the prediction of Merritt Equipment Co., local dealers of the Delco-Light Company of Dayton, Ohio, subsidiary of General Motors after his return from the annual sales convention of the company for this section of the country held at Atlanta, Ga.

The meeting was one of a series arranged by the Delco-Light Company at important points throughout the United States.

"The importance of electricity for efficient operation of the farm was brought out clearly at the convention," Mr. Merritt said. "Never before has there been the need for

Judge Dunn Returns
Judge Albion Dunn returned to this city today from Lexington, Va., where for the past week he has been at the bedside of his son, Albion Dunn, Jr., who was injured in an automobile accident. Judge Dunn stated today that while Albion was still in a critical condition, that the slight turn for the better during the past two days had given the family great hope that he would recover. Albion's many friends in this city will be glad to learn that his condition is somewhat improved.

THRILL FOLLOWS THRILL IN FARCE "FIGURES DON'T LIE"

An irate wife attempting to shoot her husband's beautiful blonde secretary, a thrilling rescue of that secretary from a treacherous surfer, a tender love scene in which suspicious circumstances are explained; all these are pictures in Paramount's clever production "Figures Don't Lie" starring Esther Ralston, which comes to White's Theatre Wednesday.

Miss Ralston takes the part of a private secretary who carries on the business of her employer, Ford Sterling. While doing so she wins the love of Richard Arlen. Thrill follows thrill and laugh succeeds laugh until Arlen releases

BOY WAS SICK

Texan Tells How He Got Acquainted With the Good Work of Black-Draught as a Laxative.

Glenora, Texas.—"I had a sick spell when just fifteen years old," says Mr. George W. Maness, R.F.D. 2, this place. "Anyone who has had chills, like I had, is apt to remember them. I was a sick boy—just lay around the home, weak. My skin was yellow and I could hardly stand up. I had hard chills."

"My father gave me quinine. Someone told him to give me Black-Draught with it. He brought some home, and they fixed it up like a tea. It wasn't very good, but I was so sick I would take anything."

"After a few days, I began to feel better. I was hungry and could eat. I kept on taking the tea for awhile, and I got well. I haven't had chills since then, but I have taken a lot of Black-Draught since that time. It is a family medicine with me."

Where assistance is needed in the way of a laxative or cathartic, Theford's Black-Draught should be taken, as often as necessary, to open the bowels and put them in a healthy and normal state of activity. Try it; it's a dose. N.C. 185

MR. PAGE SAYS "NO!"

Again Pitt County has
been dealt a blow by the
State Highway Commission
in the form of announce-
ment that Mr. Frank Page
instructed that there be no
walkway and provision for
lighting on the new bridge
being built here, despite the
fact that the Pitt County
Highway Commission is in
possession of a letter from
the State Commission which
clearly states that a walk-
way and lighting standards
had been included.

When the matter of the
new bridge was first under
consideration the local com-
mission advised the state
body of the needs of both
the walkway and the pro-
vision for lighting the bridge
and it was after this that
the letter to the effect that
these features would be in-
cluded, was received. Hav-
ing confidence in the state
body, the County Highway
Commission gave this par-
ticular part of the new
bridge no further thought,
and turned its efforts to aid
the State Commission in get-
ting its permit from the War
Department for a single
span bridge instead of a
draw, thereby saving the
State something in the
neighborhood of \$40,000.

Resting assured that the
county's needs were being
taken care of in the matter
of the bridge, the county
commission turned its atten-
tion to its own affairs, leav-
ing the bridge, which is a
state project, to the state
commission. Just a few
days ago it was learned here
that the plans from which
the bridge is being built, in-
cluded neither the walkway
nor the lighting standards,
and County Highway Engi-
neer, W. H. Rogers, imme-
diately got in touch with the
State Highway Commission
headquarters, calling atten-
tion to the letter in the files
of the county office here, and
asked if there was not some
mistake in the fact that the
working plans did not in-
clude the features as de-
scribed in the letter.

Late yesterday Mr. Rog-
ers received a telephone
call from one of the assist-
ants in the State Commis-
sion office to the effect that
no mistake had been made
in the plans and that the
walkway and lighting stand-
ards had been eliminated
from the plans under orders
from Mr. Frank Page.

As we know, when it
comes to the state highways,
Mr. Page is all powerful,
and what he says apparent-
ly goes, but the money being
spent for state highways is
that of the people of the
state, and the people and
their needs should be given
some consideration by the

Commission, despite its
great powers conferred by
the State Legislature.

There is no question that
there should be a walkway
for pedestrians on the new
bridge, and to build a bridge
without it is nothing more
than suicidal. When the
bridge is built no doubt there
will not be another for gen-
erations, and after the job
has been finished it will be
too late to change it, and
any additions thereto will
be only costly makeshifts.
Within the next ten days,
according to information
from the State Highway of-
fice specifications for steel
for the new bridge will be
in the hands of manufactur-
ers, and after that it will be
too late to make any chang-
es. If the people of Pitt
County are to get what they
rightly deserve in the new
bridge, there must be con-
certed action, and that must
be now. Unless Mr. Page
changes his orders imme-
diately the bridge will be
built without walkway or
lighting facilities, and to get
Mr. Page to see his error in
issuing orders for the elimi-
nation of these features is a
present and important duty
of every citizen in our coun-
ty.

We reiterate that to build
the bridge without a walk-
way is to endanger the lives
of hundreds of persons who
have to cross daily on foot,
and such a thing should not
be permitted.

Urge Production
Of Cotton to Suit
N. Carolina Mills

"North Carolina Cotton for North
Carolina Mills" is the slogan adopt-
ed by the sixteen N. C. Cotton
Growers' Association field men at
their annual conference in Raleigh
last week. Dr. R. Y. Winters, direc-
tor of North Carolina experiment
stations, made the significant state-
ment to the field workers that only
a little more than one-fourth of the
cotton of inch staple and better
produced in the State. North Car-
olina cotton mills use annually
about 743,000 bales of these better
staples and North Carolina farmers
produce only about 195,000 bales of
these staples. Numerous experi-
ments and farm tests have proven
that improved strains of varieties
producing staples of one inch and
better compare favorably in yield
with the shorter staple varieties and
Dr. Winters pointed out that it is
to the advantage of North Car-
olina farmers to grow those varieties
which are in greatest demand by
North Carolina mills and which are
now being shipped from western
states.

North Carolina farmers have been
discouraged in past years from
planting the better staple varieties
because the local markets were not
prepared to pay the premiums for
staple to which the growers were
entitled. The Cotton Growers As-
sociation can and does pay full
premiums for grade and staple and
there is no longer any excuse for
North Carolina farmers to produce
undesirable short cottons, while our
mills are importing their better
staples from the western states.

The North Carolina and South
Carolina experiment stations have
conducted careful tests of the ten-
sile strength and the spinning qual-
ities of western cottons compared
with the cottons of the same vari-
eties grown in the Carolinas with
the result that the cottons grown in
the Carolinas have shown them-
selves fully equal to the same vari-
eties grown in the west.

It is the purpose of all cotton as-
sociation field agents to devote the
next few months to promoting
the planting of better cotton seed
this year in their respective dis-
tricts in co-operation with the coun-
ty agents and vocational teachers
according to information given out
from the association headquarters
at Raleigh today. The co-operative
association assures its members the
best markets available for their im-
proved cotton and it also offers
them a service at reasonable cost
which they cannot get elsewhere.

RENNING MARVEL GETS
READY FOR OLYMPICS

Boston, Jan. 24.—(AP)—Three
one-mile races and a jump of 11-
000 yards all within a space of nine
days, face Lloyd Hahn, middle dis-
tance running marvel of the Boston
Athletic Association, in his indoor
preparation for the Olympics.

ABOUT
TOWN

"There's too much crime in Pitt
county," declared Judge Henry A.
Crandy of Clinton, presiding over
this term of Criminal Superior
court, after sitting through the first
day's session yesterday.

"Something should be done to
bring about an improvement in the
crime rate. It has been some time
since I have seen a docket as con-
gested with charges of breaking an
entering stores and homes and rob-
beries of various natures.

"There is only one way to stop
crime—punish the criminal. There
is only one way to punish the crim-
inal and that is to deal out justice
in proportion to the enormity of his
crime."

"The election of Guy Smith as
president of the Greenville Base-
ball Club at the mass meeting held
in the court house in the city last
night will meet with general favor
throughout the city," asserted num-
bers of sports lovers this morning.

"Mr. Smith knows baseball. He
knows enough about men to be
able to provide the club with play-
ers of the best calibre and natural
ability and should be able to put
Greenville in the win column before
the season grows very old.

"Other officers of the club are
men of the same type. They have
seen enough of the greatest of na-
tional sport to be able to assist in
making the club truly one of the
best of the league.

"With co-operation of the pub-
lic with the kind of support essen-
tial to a winning team there is no re-
ason on earth why Greenville should
not play a conspicuous part in the
Eastern Carolina League."

"More hogs and chickens—more
extra funds for Pitt county grow-
ers," is what members of the Pitt
County Board of Agriculture believe
of their program to interest grow-
ers in the raising of more hogs and
chickens.

"We have already made arrange-
ments for the shipment of four car-
loads of hogs during the spring,"
E. F. Arnold, secretary of the de-
partment of agriculture, said this
morning. This shipment will bring
a considerable sum of extra money
into the county and will enable
farmers to make improvements they
would otherwise not be able to
make with their regular income
from other crops.

"It has not yet been determined
exactly how many cars of chickens
will be shipped this year, but it is
safe to say that last year's record
will be shattered."

"Now that baseball has been as-
sured the city during the coming
season, Greenville people should
get in readiness to support the local
club in the most commendable way
possible," C. B. Rowlett, one of
active figures in organization, said
this morning.

"We ought to be able to put out
a club equally as good as any other
city in the league. We have the
same field to pick from and the
same amount of money to offer
players for their services.

"The whole secret of the thing
though is to get busy and hire
players before the best are signed
up. Delay in this important matter
will mean that we will get a late
start in the win column and prob-
ably not be able to catch up during
the whole season.

LOS ANGELES SEEKS NEW KIDNAPER

Police are scouring Los Angeles and vicinity for a man who lured 11-
year-old Audrey Cross into Laurel Canyon and there assaulted her. The
child finally escaped. The girl is seen with her parents, Mr. and Mrs.

Among The Locals
Dr. R. L. Carr went to Kinston
Saturday evening and returned this
morning.

E. A. Parker, a skilled photogra-
pher of Kinston, spent today here
arranging to open a gallery in
Greenville next week.

J. F. King left today for St. Louis
to buy stock.

W. R. Parker's horse ran away
this afternoon with a wagon. The
animal scattered things around lively
land created much excitement for a
short while.

Market Report Cotton--Stocks--Grain

COTTON MARKET.

New York, Jan. 24--(AP)--The cotton market showed renewed weakness today under continued liquidation, combined with local and southern selling attributed to talk of increasing mill curtailment, prospects for increased acreage, and possibilities of freer spot offering with the approach of the planting season.

GRAIN MARKET.

Chicago, Jan. 24--(AP)--Selling from the northwest increased on price bulges in the wheat market today and brought about declines in the later dealings. Slowness of export demand today for wheat from North America was a bearish factor and so too was 3-44,000 bushel enlargement of the world's available total. Purchases of corn today to arrive in Chicago were estimated at only 30,000 bushels.

STOCK MARKET

New York, Jan. 24--(AP)--The recovery in stock prices continued today with the leadership of the market switching from the pool specialists to the high grade investment industrial and rail stocks. Easy call money rates, publication of several favorable 1927 earnings reports and the recent improvement in some of the basic industries continued to provide the background for the advance. Trading continued in fairly heavy volume with the market lapsing into dullness whenever reactionary tendencies developed.

MANY CASES IN CRIMINAL COURT HERE

Sentences to State Prison Featured Opening Session Dur ing Yesterday.

A one week term of Pitt County Superior court, for the trial of criminal cases, convened in this city yesterday morning with Judge Henry A. Grady, of Clinton, presiding and Solicitor D. M. Clark, prosecuting.

The calendar for this term is possibly one of the most congested in years, containing numbers of capital cases together with many violations of prohibition laws. Several cases were disposed of at the opening session yesterday.

The grand jury working away tirelessly during the afternoon returned several true bills, the majority of charges consisting of store breaking, entering homes and attempted arson.

Judge Grady impressed the jurors with the responsibility resting upon their shoulders. He told them it was their duty to weigh carefully each of the issues coming to their attention and to give them the thought and consideration of which they were so deserving. He urged them to be careful in their inspection of each department of the county and to see that these were functioning as they should.

No special emphasis was placed upon the enforcement of any particular law, but each form of crime was brought to the attention of the jurors and was discussed so plainly and thoroughly that not a single one remained in doubt as to what action was necessary when dealing with such violations.

Clinton Dupree, Greenville negro, who has been held in the county jail in this city without bond for several days, on a charge of entering the home of a white resident, was found guilty of burglary in the second degree, and sentenced to five years in the state prison. Dupree was shot through the shoulder after he had entered the Denton home here, later being captured by the police. He was given hearing in police court and bound over to this term criminal court.

Lonnie Smith, negro, charged with store breaking, was sentenced to six years in State prison. He was also sentenced to six years in another charge, the sentence to run concurrently with the first.

John R. Meyers, negro, drew five years in the State prison on a charge of breaking in a store. He was given a similar sentence on a charge of robbery, the sentence to run concurrently with the former.

Arthur Hine, convicted on a charge of selling whiskey, drew six months on the county roads.

Judge Stanley, negro, charged with assault with a deadly weapon was sentenced to twelve months in jail. He was serving a 12 months suspended sentence.

Sentence as suspended for a period of two years in the case of Jack Johnson, charged with fornication and adultery. Sentence was suspended on payment of costs in the case of Amos Ham, charged with fraud.

The grand jury returned true bills in the following cases: Henry Nobles, breaking in store. Will Joyner, false pretense. Fletcher Jones, larceny. Charlie Graham, larceny. W. H. Leigh, John White and Jim Davis, larceny. Ada Boyd and Chester Gray, attempted arson. Elijah Taft, larceny. Jim Stocks, Will Langley, Left Adkinson, larceny. Ada Boyd, Chester Boyd, Sam Grimes, larceny. Johnnie Prizelle, breaking in store.

Heflin Still Working On 'Em Washington, Jan. 24.—(AP)—"I'll work on him some more today," said Senator Heflin today when asked about the challenge sent to him by Mayor Gunter, of Montgomery, to run against the Mayor as a delegate to the Democratic National convention.

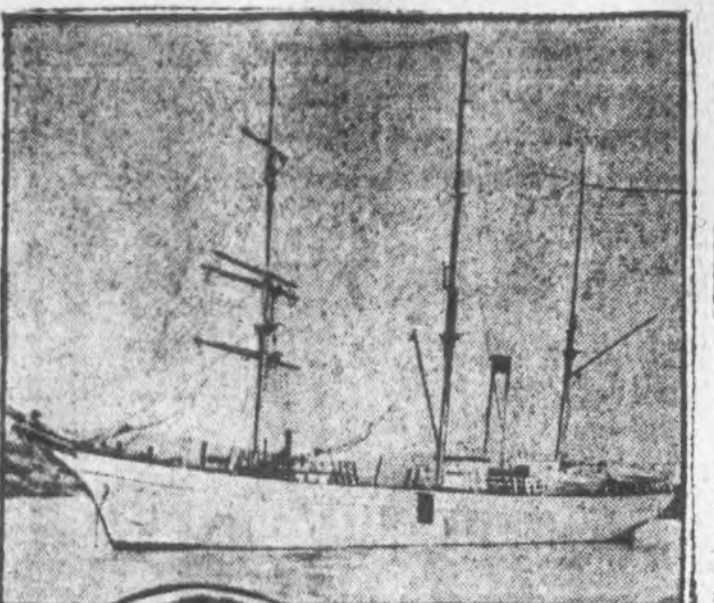

The Senator said he did not want to be a delegate, but would make no definite statement at the moment.

Hartford Times Sold. Hartford, Conn., Jan. 24.—(AP)—Announcement was made today that the Hartford Times, one of the oldest newspapers in New England, had been sold to Frank E. Garnett, owner of a group of daily newspapers in New York and New Jersey.

The change in ownership was effective today. The Times has a circulation announced at over 60,000.

Skin Break Out? Try the thing that REALLY works—that actually clears up the skin and leaves it smooth and white. Sulphur in combination with menthol does it! The germ destroying action of sulphur clears the skin, while menthol heals the sore and broken tissue. Twofold action for perfect results! Pimples, blackheads, acne—even flaccid, seborrheic—positively yields. Rowles Mentho Sulphur is inexpensive and all druggists supply it in jars, ready to use. Be sure it's Rowles.

Norse Artic Vessel Fitted Out For Byrd Voyage To South Pole

Comm. Richard E. Byrd (inset) has bought for \$30,000 the Norwegian Arctic vessel Samson (above), to bear his plane into the Antarctic for flight of exploration next winter in regions around the South Pole. It is especially built for penetrating ice fields.

Oslo, Norway.—(AP)—The Norwegian Arctic vessel Samson will be called upon this winter to perform feats in the south polar seas which would crush an ordinary boat to atoms.

The Samson has been purchased for \$40,000 by Commander Richard E. Byrd, the trans-Atlantic flyer and air explorer, to transport his South Pole expedition into the Antarctic. It is being fitted out at Tromsøe, in northern Norway, and will be taken across the Atlantic to New York.

The vessel will carry Byrd's airplane into the Antarctic 3,000 miles south of New Zealand. From there Byrd will fly over the South Pole to explore the great unknown regions of ice barriers, icy seas and ice-covered lands which lie between the Antarctic circle and the South Pole.

A craft of 512 gross tonnage, 278 tons net, and 130 feet long, is the Samson. It is especially built for combating floes of ice and pushing its stubborn nose through floating ice heus. It is a three-master, equipped with an auxiliary steam engine.

Efforts are being made to obtain Captain O. Wisting, Roald Amundsen's mate on the North Pole expedition, as pilot for the Byrd expedition. If Captain Wisting "signs up" he will fit the Samson out and take her over to America.

Commander Byrd's staff will be liberally recruited from Norwegians. Oskar Omdal, who was Amundsen's partner, was to have accompanied the American, but he went down with Mrs. Frances Grayson's ill fated Dawn. Nils Nielsen, chief of the government telegraph service, and Hermond Peterson, inventor of the system of wireless pictures, will be in the party.

CONGRESS ADOPTS LISTENING ATTITUDE AT TODAY'S SESSION

Washington, Jan. 24.—(AP)—Congress related today into a listening attitude while scores of bills were in the making. Committees continued to hold the major attention.

Opened with a prayer in which the chaplain mentioned President Cosgrave of the Irish free state, and sought divine blessing for "that land of sunshine, those lovers of freedom," the house argued some more over the independent offices appropriation bill. The monotony of debate was broken only when Budspeth of Texas invited Speaker Longworth and others to attend a live stock meeting at El Paso in June and stop over at the democratic convention at Houston. A miniature straw sombrero was presented the speaker as an inducement.

In the senate, Jones of Washington, sought non-partisan consideration for his government owned merchant marine bill and Swanson of Virginia blocked the way to immediate consideration of the house S-4 inquiry resolution.

Muscle Shoals came before both senate and house committees, while the new inquiry into teapot dome was put off until later in the day. Walsh of Montana, gave in to protesters and amended his public utilities corporation investigation resolution to cover only interstate companies.

Another republican, Fisher of New York, offered a bill to increase tariff rates on agricultural products. Other farm sideliights came with the emergency of the Grange export debenture plan as sort of a compromise relief plan and protests against using any more of the peoples money to prevent emergency of the corn borer.

Paulino Busy New York.—(AP)—Paulino Uzcudun, Spanish heavyweight has two hard fights ahead, meeting Queintin Romero Rojas, January 29, at Mexico City and George Godfrey, at Los Angeles, February 28.

Unable to obtain a quorum for opening hearings, however, the committee recessed until later in the week when Senator Norris, republican, Nebraska, said he would ask for a vote on his resolution providing for government operation. The Norris resolution was favorably reported last session by the committee, and the Nebraska senator expressed confidence today that he could obtain early and favorable action again. Senator Willis announced he would introduce his bill today and he asked for hearings on it.

At the same time Eion H. Hooker of New York, renewed his proposition to the committee to operate Muscle Shoals under a plan of national control. Calling attention that congress had been studying the Muscle Shoals problem for nearly 10 years, Senator Norris expressed disfavor for opening up hearings again. Senator Willis agreed that congress should not at this session and de-

lained Mirabeau had he not died. As for the general public, it does not even know who its friends are half the time. It first idolized, then insulted Dewey, because he gave a house to his wife. And it threw Lindbergh's father out of Congress because he was not sufficiently servile to financial interests. But big business lives up to its motto, "Never go back on your friends."

Germany imported last year goods worth a billion dollars more than goods exported, including \$138,000,000 of products sent to the Allies under Dawes plan, not paid for. In addition, Germany owes annual payments of \$600,000,000 a year in gold under the same Dawes plan. German business worries.

But there is always comfort. Excess of imports over exports is not necessarily a calamity. France under Louis Sixteenth, managed to get her exports above imports, and then the revolution broke.

As to the \$600,000,000 a year Dawes gold plan, that will be changed, if only because such payment is physically impossible. A little boy bets "a million," but does not pay it. Germany cannot pay gold that she cannot possibly get.

Exports or not exports, Germany leads European nations in real after-the-war recovery. She wiped out her internal debt, and sold to guileful foreigners, will to profit by her misfortunes, billions of dollars in paper marks on which not one cent was ever paid.

Even at \$600,000,000 a year it would take a long time for other countries to get back what they threw away in paper marks.

British statesmen have made-up their minds to disfranchise 250,000 persons by taking votes away from paupers, all those receiving a "public dole."

There could be no greater mistake. Not the self-satisfied, prosperous, intelligent vote is most useful, but the vote of the unfortunate unsuccessful man. He knows there is something wrong when 250,000 willing to work have no work to do, and he votes to make the government realize it. That's what government needs. Take the vote from the unfortunate and they make it unpleasant for you.

Nothing like a safety valve, especially when in danger of an explosion.

Wall Street—part of it—turns to betting when the ticker stops moving, on theory that betting is man's highest activity.

Bets are even made that Coolidge will be elected next year, the odds being one to four and a half that the next president will be named Coolidge.

Poor Will Rogers bet \$5,000 even money, or wanted to, on Coolidge in 1928, after the "I don't chose," but W. R. Hearst gave him \$10,000 to \$5,000 on the theory that the odds mean nothing, if you are sure

to win. Did you buy any Irish bonds from Mr. De Valera for the Irish republic? If so, you can get your money back, or part of it. Only \$4.93 out of \$05.678 bond buyers have applied for repayment. Apply to Peter J. Brady, received, Supreme Court, New York City. Mr. De Valera cannot keep the money, anyhow. That's a court decision.

Are You Overdoing?

Overwork Throws a Heavy Burden on the Kidneys. OVERWORK, rich foods and stimulating drinks put extra burdens on our kidneys. When the kidneys slow up, impurities remain in the blood and are apt to make one languid, tired and achy, with dull headaches, dizziness and often nagging backache. A common warning is scanty or burning secretions.

Use Doan's Pills. Doan's, a stimulant diuretic, increases the secretion of the kidneys and aid in the elimination of waste impurities. Are endorsed by users everywhere. Ask your neighbor!
