

SIX MASKED MEN HOLD UP GRAND TRUNK TRAIN NEAR CHICAGO AND GET \$130,000

Seventy-Five Passengers Terrorized by Wild West Tactics of Bandits Who Blast Mail Car and Then Escape.

Chicago, Feb. 25.—(AP)—Half a dozen masked robbers using wild west tactics held up a Grand Trunk local mail and passenger train on the fringe of Chicago today, terrorized 75 passengers and train employees blasted a mail car and escaped with at least \$130,000 and possibly more.

The holdup was stated near Evergreen Park, southwest of Chicago. At the identical spot where a \$65,000 train robbery was executed a year ago and the police believe the same gang executed the second coup.

One of the robbers boarded the train, a local between Chicago and Port Huron, Mich., at Chicago, with a ticket to Evergreen Park, about 12 miles from the downtown section. The train stopped at the flag stop and this robber got off. A quarter of a mile down the track five men wearing black masks and khaki coveralls flagged the train, consisting of two coaches, two baggage cars and a mail car.

As the train stopped, part of the robbers, armed with shotguns and pistols invaded the coaches, firing promiscuously and intimidating the passengers.

Others of the band rounded the train crew and herded it with the passengers while the robbers stood guard.

They set a charge of explosive in the vestibule of the mail car, blowing it away, then entered and subdued two mail clerks and two government agents guarding the money.

One of the clerks was struck on the head when he attempted to resist. No one else was injured although more than fifty shots were fired. The two men with the explosive, after turning over the package to those watching for passengers, blasted the mail car safe and gathered up two mail pouches containing the cash consigned to two Harvey banks, where it was to be used to meet the payrolls of the industries there.

The robbers, as soon as they had gathered up the cash, called to their accomplices who still menaced passengers and crew with their weapons as all backed to a large touring car which one of them started. The men then clambered in and sped away, the train proceeding to Harvey where the mail clerks telephoned to postal authorities here. The train then proceeded on to Port Huron.

Of the money stolen, \$80,000 was a shipment from the Federal Reserve Bank in Chicago to the First National Bank of Harvey.

The money was to meet a two weeks payroll for three or four Harvey factories, said T. G. Hudson, vice president of the Harvey bank.

The \$80,000 did not represent a loss to the First National of Harvey, he said, since it still was technically in the control of the Chicago Reserve bank. It probably was fully insured, Mr. Hudson said. The Chicago Federal Reserve bank immediately sent a duplicate shipment.

Fifty thousand dollars was consigned from the First National Bank of Chicago to its correspondent bank, the Bank of Harvey.

The previous holdup of the same train occurred September 10, 1926, and the amount obtained at that time was \$135,000, the money being consigned to the same two banks at Harvey. No trace of the robbers was ever found. They entered the mail car as the train left Chicago lawn station and left it as evergreen station was reached. The men escaped with the money in two mail sacks.

Two men guarded the two shipments (totaling \$133,000). Both were tied up by the robbers who entered the mail car after they had bombed their way in.

One of the mail clerks who stuck his head out of the window just before the entrance was blasted, narrowly missed death when two of the robbers fired at him.

The robbers required but twelve minutes.

Ahead of the mail coach were three baggage cars and behind it two passenger cars carrying about 100 passengers.

The mail clerks were C. P. Peters of Battle Creek, Mich., and L. M. Lyon, of Charlotte, Mich.

CLEARING HOUSES SHOW EXCESS RESERVE

New York, Feb. 25.—(AP)—The actual condition of clearing houses and bank companies for the week (Feb. 25) shows excess reserve of \$28,258,000. This is an increase in reserve of \$33,793,490 compared with the week before, when a deficit in reserve of \$5,534,600 reported.

W. L. PATRICK I'S COLLECTOR OF MERCHANTS

Local Man to Have Charge of Collections For Association in This City.

W. L. Patrick, well known Greenville man, has been employed as official collector of the Greenville Merchants Association, according to announcement made this morning by C. B. Rowlett, secretary of the association.

The plan to employ a permanent collector was made at a meeting of the board of directors held the first part of the week, but announcement as to who had been selected to fill the position was not made until this morning.

A complete credit rating system will be installed by the association and the name of every person doing credit business with the fifty or more members of the association will be filed away for reference. This will make it possible for the merchant to know who is prompt in the settlement of accounts, and will also assist them in preventing "dry losses" among "through" "to unscrupulous" individuals.

The association has under consideration during the present year, Mr. Rowlett said today, and it is hoped every member of the organization will co-operate with the collector in making his department a success. This work will be carried on through the office of the secretary which has already become one of the most active of any association throughout the state.

Mr. Patrick is well known in and around Greenville, and it is expected to be able to render efficient service in this field of endeavor. He will begin work immediately, and those who have outstanding accounts that have run over time should get busy immediately and settle them in order to preserve their credit rating.

MONROE BOY IS WRECK VICTIM

Four Others Seriously Injured When Auto Crashes into Freight Near Monroe

Monroe, N. C., Feb. 25.—(AP)—Dick Lee, 14 year old Monroe school boy, today was North Carolina's latest fatal crossing accident victim. The young son of J. H. Lee, president of the Monroe National Bank, was instantly killed late last night in an automobile in which he and six companions were returning from a party crashed into a freight train at a crossing near here. Four others were seriously injured and two less seriously hurt.

The injured, all of Monroe: Walter Lee, 16, cousin of Dick, and son of T. C. Lee. Leg broken and body and head bruised and cut.

Heath Howie, 15, son of Sam Howie, railroad engineer. Cut on head and body and bruised.

Ruth Laney, 14, daughter of Mrs. Clarence Laney. Serious wound on head.

Maxim Houston, 13, daughter of the late Clarence T. Houston, former mayor. Numerous cuts and bruises.

Archie Beatty, 14, son of John Beatty, and Virginia Gravelly, 12, daughter of W. G. Gravelly, railroad engineer. Both badly bruised and cut, but believed not seriously injured.

The young people were on their way home from a party at the home of H. B. Clark, a few miles from here. Walter Lee was driving and as the crossing is at the foot of an incline, it was believed that the light from the automobile was thrown above the freight train until it was too late to avoid the crash.

FLOGGERS AT RALEIGH ARE FREE AGAIN

State Found it Impossible Convict Twelve Men Charged With Beating Storekeeper

Raleigh, Feb. 25.—(AP)—Marking its biggest flogging case off the records when the state conceded that conviction of 12 defendants was impossible, Wake county superior court rested today with another whipping case to be aired out on Monday.

The flogging of E. A. Jones, 52, one-arm merchant and his negro helper, Sam Green, brought about three trials, two of which resulted in acquittals for two defendants. This week 12 alleged members of the band of 75 masked men, wearing Ku Klux Klan robes which took Jones and the negro from their homes and flogged them, were called to trial at a special term of court.

Jones' testimony varied from what he gave in previous trials and he contradicted himself several times. Solicitor L. S. Brassfield pointed this out in asking Judge W. C. Harris for a directed verdict of not guilty.

This was done, with a terse statement from the state that before five years had passed the floggers would be indicted and sentenced for taking the negro from his home in the night time, a felony.

Four defendants charged with flogging Will Dean, Wendell Farmer, two years ago will be tried on Monday, the state announced. Dr. J. R. Hester, former president of the Wake County Medical Society, Baird Pool and A. L. Daniel, farmers, are charged with assault in the Dean case. Dr. Hester was one of the defendants in the trial which ended Friday.

Other defendants were Clyde Weathers, Eddie and Paul Robertson, John Hamrick, Whit Ramsey, Wiley O'Neal, Jr., Lotha Stell, Paul Hester, John Hester, Leroy Hester and Charlie Hester, Jr.

HOOVER AND WILLIS OUT IN THE OPEN

Formal Notice of Candidacy For Presidency Filed in Ohio Yesterday.

Columbus, Ohio, Feb. 25.—(AP)—Filing of their formal declarations of candidacy for President with the secretary of state and the entrance of Senator Frank B. Willis and Secretary Herbert Hoover in the Ohio presidential preference primary April 24, today gave impetus to the battle for control of Ohio's 51 delegates to the republican national convention.

After days of close guarding of their plans, both candidates came forward yesterday, the last possible day for doing so, with their formal declarations of candidacy and a complete list of candidates for delegates.

The action assures a fight to a finish. Political observers predict the largest republican vote in Ohio's history in the forthcoming primary, with both camps getting out all available votes in an attempt to secure control of the Ohio delegation to the Kansas City convention. The vote in the preferential contest will not be binding on delegates, but it assures a spirited campaign for popular endorsement.

Colonel Carmi A. Thompson, Cleveland, Senator Willis' campaign manager heads the senator's slate for seven delegates-at-large, while Hoover's list is headed by Congressman Theodore E. Burton, also of Cleveland. Both candidates are represented by a woman on the big seven list, with the senator choosing Mrs. Wilma Sinclair Leven, of Suburbanville.

Break Between Austrians and Italy Rumored

Vienna, Feb. 27.—(AP)—Giacinto Auit, Italian minister to Austria, is leaving for Rome tonight to confer with Premier Mussolini respecting Austria's continued complaints regarding Italian treatment of German subjects in the Tyrol.

His departure has already given rise to rumors of an impending break in relations between Italy and Austria.

The Tyrolean deputies here insist Austria cannot recede from the firm stand already taken by Chancellor Seipel relative to Italian aggression.

Lindy Makes Successful Test of Motor Expected to Revolutionize Flying

Detroit, Feb. 25.—(AP)—The Detroit Free Press said today that an airplane motor operated electro-magnetically, without gasoline or other fuel, has been tested successfully by Col. Charles A. Lindbergh and Major Thomas G. Lanphier, flight commander at Selfridge field. The motor, which the newspaper pointed out might revolutionize the entire scheme of automotive power, was the invention of Lester J. Hendershot, of Pittsburgh, the article said.

Col. Lindbergh, Major Lanphier, and D. Barr Peat of Pittsburgh business manager for the inventor, conducted a test of the motor yesterday at Selfridge field, and the Free Press reported it was "successful in every respect."

No direct authority for "news of the invention was given other than that is emanated from one of the four men—Col. Lindbergh, Major Lanphier, Hendershot and Peat. The first two, reached early today, refused to comment. Reporters were unable to find the inventor and his agent.

The Guggenheim foundation for promotion of aeronautics, the article said, has arranged for an immediate demonstration of the motor, which is said to be based on the principle of electrical magnetism, as applied to the rotary motion of the earth. The newspaper account continued:

"The model of the motor has been guarded with the greatest care since it was brought to Selfridge field by Hendershot and Peat. Late yesterday it was taken to an experimental hangar, where the famous trans-

Strand of Yellow Threads Convicts Killer of Woman

Los Angeles, Feb. 25.—(AP)—A strand of yellow thread woven into two pieces of canvas in such a way that it attracted the eye of eight women jurors, helped to convict Dr. Charles M. McMillan of the "sack murder" of his employe, Mrs. Amelia Appleby, wealthy widow.

The jury yesterday found the former Colorado Texas, physician guilty of first degree murder and recommended life imprisonment.

The yellow thread ran through the canvas which was found wrapped about the wealthy widow's body, and through a similar piece discovered in the slain woman's automobile in her garage. Six of the eight women on the jury agreed that the yellow thread had been one of the strongest links in the chain of circumstances upon which they convicted McMillan.

"It was the same thread seen in both pieces," they said after the trial ended. "It satisfied us that the woman was killed in her own home, and that Dr. McMillan did the killing."

"It didn't surprise me much," the convicted man stammered, in commenting on the verdict. He was grave with the same stolid indifference he maintained throughout his trial, in which he admitted forging the "Appleby Will," which bequeathed to him the entire estate of his victim. The state declared the forged will was the evidence of the doctor's murder motive.

Under the California law the jury's recommendation makes the sentence set for next Tuesday morning, but a formality.

THIRTEEN DIE IN EXPLOSION IN ARKANSAS

Every one Working in Mine at Time of Explosion had Today Been Accounted For.

Jenny Lind, Ark., Feb. 25.—(AP)—Its losses counted up, this little mining community today was mourning its 13 dead—victims of a gas explosion in the tunnels of a coal shaft.

Every one of the 125 who were working within reach of the fatal explosion and its fumes was accounted for and only one of these was injured. Among the dead were the nephew of the mine superintendent and the pit boss.

The total list of dead: Darcy Templeton, nephew of Superintendent W. E. Templeton. Valentine Bersek, pit boss. Joe Sodar, Forest Ribbs, John Kosmatine and Walter Chapple, of Jenny Lind.

Edgar Westmoreland, Wise Brown, James Wimberline, and Lewis Mohr, of Bonanza.

Frank Durrutt, Tahona, Oklahoma.

Charles Newman of Windsor, Mo., and Jack Williams, also a Missourian, who entered the mine for the first time.

Tony Fiddler of Jenny Lind, was burned about the head.

Ledby Claud Spiegel, state mine inspector, rescue crews worked all through yesterday until late in the evening, clearing tunnels and bringing out bodies, until the last was accounted for. Only Williams was left under ground. Wreckage and heavy fumes hindered the work of relief.

Cause of the explosion was not announced until after rescue work had been completed last night and Inspector Spiegel ended examination of the two shafts affected. Only one man was killed in the shaft where the explosion originated, he said.

Sharon, Pa., Feb. 25.—(AP)—Fire destroyed an entire business block with a loss unofficially estimated at nearly a half million dollars here today and drove three score guests of the Shenango Hotel, many of them in their night clothing, from the building. The hotel was one of four buildings destroyed.

TODAY

Max Hart, Good American. No More Hoods. As the Angel Writes. Lindbergh, Investor. (By Arthur Brisbane) Copyright 1927, by Star Co.

The death of Max Hart, victim of pneumonia, ends a career honorable, and useful to his country.

Brought to America as a child from Germany, with his brother Harry Hart who survives him, the two brothers began working in childhood and have worked ever since without cessation.

Only a few days ago this writer talked with Max Hart in Chicago, asking why he continued long working hours at 75 years of age, with a fortune accumulated.

"I work," said Max Hart, "because I like work, and because my associates and I, in doing work that we need not do, provide work for thousands of others that do need work, and encourage young men starting in business for themselves."

Max Hart was a good American.

The Imperial Wizard Hiram W. Evans says knights of the Ku Klux Klan will wear masks no longer, and will be known as "Knights of the Great Forest."

That concession to public opinion may mean gradual dwindling away of the formerly hooded brotherhood.

You lose your influence when you appeal to men's common sense instead of appealing to their fear of the mysterious.

As Gabriel writes down, every minute of each day all that happens, what events seem important to his celestial mind.

A woman who had foolishly drawn \$8,000 from the bank and told a man about it was drugged, soaked with gasoline, and burned alive.

Mexico Deports Members of The Catholic Church

Mexico City, Feb. 25.—(AP)—Bishop Serafin Armora of Tepic, Jalisco, was on his way to the United States border today for deportation as the government continued to round up persons implicated in the so-called Catholic revolution.

Four members of the league for the defense of religious liberty are to be deported to the Islands of Las Tres Marias. Penal settlement off the west coast of Mexico.

Four Catholic priests captured by military authorities in Jalisco were brought to Mexico City for investigation.

Secret police raided a private home in the suburbs and seized a Catholic priest and five other men.

Bishop Armora was arrested in the home of a friend where he was hiding under an assumed name when he failed to register, as required with the department of interior. Two agents of the department of interior accompanied him toward the Texas border at Laredo.

The four men to be deported to the Penal settlement are Emilio Ribero Lopez Salvador Aguirre, Alfonso Noriega, and Valentin Hernandez. They are charged with preparing and distributing seditious propaganda.

Reject Cut in Freight Rates To Coal Fields

Washington, Feb. 25.—(AP)—Rejection in late cargo coal rates from Tennessee, Kentucky, Virginia and West Virginia, which railroads voluntarily offered to make effective last August, were rejected today by the Interstate Commerce Commission.

The Chesapeake & Ohio, Norfolk & Western and Louisville & Nashville railroads, which tendered a cut of 20 cents a ton on lake cargo from the southern territory, were ordered to maintain their existing schedules and their action in offering to make this cut was described as "a challenge to the power of this commission to prescribe just and reasonable charges for the transportation of traffic."

Make Effort To Speed Up Trial Of Girl Killer

Los Angeles, Feb. 25.—(AP)—An effort to speed up the slow dragging process of the trial of William Edward Hickman and Welby Hunt for the slaying of C. Ivy Toms, was made today when a half day session of court was ordered.

Charles E. Gaskin, hoping to place the case in the hands of the jury before next Tuesday, decided to hold the session today, although Saturday usually is a court holiday.

Hunt's defense attorney, A. Gray Gilmer, said he expected to close his case Monday noon by putting young Welby on the stand in his defense.

LINDY LEAVES FOR UNKNOWN DESTINATION

JUDGE DARDEN IS SPEAKER AT KIWANIS CLUB

County Court Jurist Principal Speaker at "Law Enforcement" Program Here.

The Greenville Kiwanis club met in regular twice-a-month session at the Rotary building last night and enjoyed an interesting "Law Enforcement" program by Judge W. A. Darden, of the county court. The session was presided over by president Frank Harrington.

Judge Darden delivered the principal talk of the evening, confining himself to a discussion of law enforcement in this community. He told the club members that they were falling down as law-abiding citizens by not giving greater support to activities of the various courts.

He told of the various forms of crime, the many complex situations which judges come in contact with, and said it was difficult to deal with many classes of criminals because of public sentiment crystallized in their behalf.

One of the outstanding features of the evening's musical program were two solos by Mrs. E. W. Griffin. She was accompanied at the piano by Miss Vessey, of the faculty of city schools.

W. E. Hooker called attention of the club to the splendid work being done by members of the high school band and orchestra, and suggested that Kiwanians sponsor a movement to defray expenses of the young men of Greenville, to take part in the annual high school music contest held in that city.

Mr. Hooker heartily commended director Ribeson for the splendid work he has done in perfecting the two organizations. He said they were numbered among the best musical aggregations in this part of the country.

President Harrington appointed a committee composed of Rev. L. R. O'Brien, W. E. Hooker, C. S. Forbes, C. B. Rowlett and J. K. Brown to confer with members of the Rotary club to make the Greenville trip possible.

A letter, originating from the Elizabeth City Kiwanis club, which will be presented to the 75 clubs of the Carolina district, was given to members of the local club last night, the presentation being made by representatives of the inter-relations committee of the Tarboro Kiwanis club. This cup will be presented to New Bern at some future date by members of the local club. The committee on presentation is composed of Berry Bostic, Ralph Deal, J. H. Summerville and Judge W. A. Darden.

The next meeting of the club will be held March 9th. This has been designated "Farmers' Night." Members of prominent planters from all parts of the county will be invited to attend the session and to take part in a program which, it is expected, will be one of the most entertaining in months. J. C. Galloway, well known Grimsland man, will be in charge of the program.

No Trace Found Of Survivors of Italian Steamer

Dungeness, Kent, England, Feb. 25.—(AP)—With no trace found of any survivors of the Italian steamer Alcantara, which was in collision with the Russian training ship Tovarish in the fog-enshrouded strait of Dover yesterday, the Kentish coast was beginning to worry about the gate of the Tovarish today.

Although the Tovarish was reported to be trying to make Southampton there is considerable anxiety as to her present whereabouts since no wireless has been received from her since the SOS calls were sent out after the Russian ship may have sunk with the 100 cadets she carried. Reports to the shipping and other agencies, however, afford no confirmation for such fears.

Lifboats from here and Rye which went to the scene of the disaster returned this morning after a night long and futile search.

There is thought to be a chance that some survivors of the ship may be aboard the British steamer Baron Douglas which is said to have been in the vicinity of the collision and which has not yet reported on any point.

Captain O. St. Clair of the Sandgate coast guard station, who was in charge of the lifboat search, said "I don't think that there is any doubt that the Alcantara sank but apparently the Tovarish did not go down."

LOS ANGELES FIGHTER WINS OVER TERRIS

New York, Feb. 25.—(AP)—Jimmy McLarnin of Los Angeles, stood out today as the foremost challenger for the world's lightweight championship now defended by Sammy Mandell. Last night Jimmy won by a sensational knockout in the first round, beat Sid Terris, of New York's East side.

McLarnin displayed more than his baby face before some 18,000 spectators in Madison Square Garden. He exhibited two sweeping drives with a sturdy right arm, one of which fell with terrific force on the foe's chin, sending him to the resined canvas to be counted out after one minute and 47 seconds of fighting.

The startling finish was followed by a great demonstration for the Los Angeles battler who was carried through the cheering throng to his dressing room on the shoulders of his admirers. Terris, idol of the East, side for years, wept in his corner after recovering consciousness from the blow that shattered his present aspirations for lightweight honors. The fight fans booed Terris as he slipped from the arena and made his way past the patrons.

Chicago, Feb. 25.—(AP)—The decisive victory of Jimmy McLarnin, Pacific Coast lightweight, over Sid Terris, of New York, in their lightweight elimination match last night, caused considerable rejoicing here today.

Sammy Mandell, who will dangle his lightweight crown before the eyes of McLarnin in Chicago next June, was pleased that the coast had made such a strong showing. Promoter Jimmy Mullen, who has the contracts of both boxers for the title match, was delighted.

BASQUE HEAVYWEIGHT IN TRIM FOR FIGHT

Los Angeles, Feb. 25.—(AP)—Paulino Uzcudun, the basque heavy weight boxer, finding himself in prime physical condition, today began tapering off in training for his ten round bout here next Tuesday night with George Godfrey, negro leather pusher.

Walking, a few minutes of calisthenics, and perhaps a little work on the bag will be all the training Uzcudun will do daily until time for him to go into the ring. A slight lessening up of the tough training grind Godfrey has been going through for the last few weeks also was noted at the negro fighter's camp near Ojai, California.

Yanks All Set For Training

New York, Feb. 25.—(AP)—With the departure of a band of Yankers led by Babe Ruth and Lou Gehrig, most of the major league players of the metropolises are in training, or headed for it.

The Yankers' camp is at St. Petersburg, Fla. Ruth, Gehrig, catcher John Grabowski and Bill Eversman and infielder Leo Durocher, begin training on Monday.

From Brooklyn the Robins are wiggling their way to Clearwater, where manager Wilbert Robinson is having difficulty in straining Dazzy Vance, the speed ball king.

VOCATIONAL STUDENT MAKES GOOD PROFIT WITH HIS TOBACCO PROJECT

Grimesland, N. C.—Willie J. Williams, a vocational agricultural student at Pitt County Training School, Grimesland, made a profit of \$108.41 on one acre from his tobacco project. He secured his certified seeds along with his father and used a fertilizer analyzing about 3-2-3, using 1000 pounds to the acre.

He sold 700 pounds at an average of 27 cents per pound. His total expenses were \$79.59, the total profit for the acre being \$108.41. He credits his success to (1) selection of good land and seeds; (2) using the proper kind of fertilizer; (3) thorough cultivation; (4) harvesting at the right time; (5) proper curing; (6) placing it on market in good condition and (7) following the suggestions given by his vocational teacher.

Willie has already deposited \$100 of the profit from his crop in the bank. He is determined to become a superior farmer, the highest degree given a student by the state organization of vocational students known as future North State farmers.

To Carry Issue Before League

Warsaw, Poland, Feb. 25.—(AP)—Poland is going to bring the question of Polish-Lithuanian relations before the council of the League of Nations when it meets in March. For this purpose foreign minister Zaleski will head the Polish delegation to the League.

It is held here that Lithuania by not answering Poland's proposal to start negotiations to resume diplomatic relations between the two countries, has paralyzed the recommendations to the December meeting of the League council.

SEARCH FOR SLAYER OF GOVERNESS AT STANDSTILL

Bernardsville, N. J., Feb. 25.—(AP)—Search for the slayer of mass Margaret Brown, New York governess who was burned to death here Monday night, was apparently at a standstill today.

Even the identity of the killer, whom police believed at first to have been a "Doctor Huff" or "Hot" known to have been suitor of the 40-63-4 old spinster, was clouded in doubt by conflicting clues.

TEN ARRESTS ON CHARGE OF PADDING PAYROLLS AND CHECK FORGING

Detroit, Feb. 25.—(AP)—Ten men including seven officers of the Michigan national guard; two regular army officers and a former national guard officer were arrested today by United States secret service agents on charges of perpetrating frauds amounting to thousands of dollars through a scheme of payroll padding and pay check forging.

UNEXPECTED RESULTS AT ATLANTA, GA.

Atlanta, Ga., Feb. 25.—(AP)—The unexpected results which are always expected, paradoxically enough has insinuated themselves into the southern conference basketball tournament even before the second annual began to occupy the attention here today.

Louisiana state gained the right to play University of Mississippi in the first game on today's program by virtue of what is considered the major upset so far—first day elimination of the North Carolina Tar Heels, for years a power in southern cage circles four times in six years winners of the crown which these annual tourneys have as their goal.

It was through the work of Graham, L. S. U. center, mainly that the Tar Heels—minus star Doddler—were vanquished. Graham looped nine field goals as his contribution to the 44 to 38 defeat.

Mississippi won the right to oppose the Tigers by dropping North Carolina State, in another tough battle, 40 to 35.

Auburn, a prime favorite, with the dopesters, came through, but by the proverbial tooth-skin, since it took manful struggles to eke out the 27 to 26 victory over Clemson's Tigers.

Georgia Tech, who were the Plans men's second round opponents today, survived by administering a rather one sided drubbing to Florida, 50 to 24.

Georgia's defeat of Virginia Military Institute, 47 to 36, pitted them today against Kentucky, who by eliminating South Carolina 56 to 40, displayed a speedy quintet which immediately took on large flocks of backers.

Virginia, added and abetted by Fayonski, a roving guard quenched the hopes of Alabama rather readily 42 to 28, and thereby became today's antagonist for the Mississippians, whose first day encounter with Washington and Lee was successful by a 44 to 24 score.

According to schedule, today's games were played in the following order:

- 3 P. M.—L. S. U. vs. Old Miss.
 - 4 P. M.—Virginia vs. Miss Gaggles.
 - 5 P. M.—Georgia vs. Kentucky.
 - 6 P. M.—Ga. Tech vs. Auburn.
- Combs of Kentucky led the scorers on the first day with a total of 21 points. Kecke, Tech, and Garham, L. S. U., were tied with 20 for second place, while Keen, Georgia, was just one point back with 19.

WRIGHT ELECTED HEAD OF TYPO FEDERATION

Raleigh, Feb. 25.—(AP)—The annual meeting of the fourth district Typothetae Federation was brought to a close here today with the selection of Oscar T. Wright, of Washington, D. C., as president.

MISS KNOTT TO COACH PLAYS AT COLLEGE

Miss Knott, state representative of the Bureau of Community Drama in the University of North Carolina has returned to Teachers College to begin intensively the coaching of the three one-act plays that will be presented by the Junior class on March 1 and 2.

The coach, Miss Knott, was at the college on February 1 to cast the play. Now each member of the cast knows her line and is working for a good and well-dramatized play under Miss Knott's personal direction.

Miss Knott is working hard and the girls are helping her in every way to make the plays a most wonderful success.

FIGHTS LAST NIGHT

New York—Jimmy McLarnin, of Los Angeles, knocked out Sid Terris, New York, (1). Dominick Petrone, New York, won from Lew Perfetti, New York (8).

Detroit—Billy Petrolle, Fargo, N. D., won from Spig Myers, Pocatello, Idaho, (10).

Frank Lockhart, internationally famous race driver of Indianapolis, is none the worse after his car turned a somersault and plunged into the surf at Daytona Beach, Fla., while going 225 miles an hour at the high speed trials.

Track Stars Getting Ready For Olympic

New York, Feb. 15.—(AP)—Track stars from all parts of the country are entered in the National A. A. U. championships in Madison Square Garden tonight with fifteen events down for competition. The list of performers includes many prospects for the American contingent in the forthcoming Olympics at Amsterdam.

The world's record breaking 1,000 yard run by Ray Conger in winning over Lloyd Hahn at Kansas City last Saturday night had installed Conger the favorite in the 1,000 yard championship.

Conger's rivals will include Phil Edwards, of the New York University, Pinkie Sober, Sam Martin, Leo Larriev, Chicago, A. A., and Sid Robinson, the former Mississippi A. & M. star. The accepted world record for this event of 2:12 4-5, made by Hahn in winning the championship last year, may be broken.

Wins Medal in Debate

Chapel Hill, Feb. 25.—(AP)—On the winning contention that the governmental policies of Mussolini are not for the best interest of Italy, J. A. Wilkinson, of Pantego, University of North Carolina freshman, today wore the Mary D. Wright memorial medal by virtue of his debate victory last night when the Philanthropic Assembly defeated the Dialectic Senate.

Junior League Social

The Junior League of Jarvis Memorial M. E. Church enjoyed a "George Washington" party in the basement of the church last night from 7:30 to 8:45. Thirty-two, including members with their guests, were present. They were very attractively dressed in colonial style. Little Miss Mary Dorcas Harding won the prize for being the most attractively dressed. Many games were heartily engaged in, after which delightful refreshments were thoroughly enjoyed. After this the children departed declaring a very pleasant evening.—Reported.

Delightful Bridge

Kinston, Feb. 24.—Misses Alva Taylor, of Greenville, and Gladys Arnold, of New Bern, members of the Contentnea School faculty, en-

tertained at a particularly attractive bridge party at the home of Mr. and Mrs. E. B. Davis Thursday evening. The George Washington idea prevailed in the various appointments and refreshments. Solo prizes were awarded the following: Mesdames J. P. Lynch, Frank McCallum, W. J. Calhoun, and S. G. Creech; Messrs. L. D. Worthington and W. J. Calhoun. The patriotic note was evidenced in the table covers formed of flags and again in the refreshments plates, miniature flags bearing out the colors red, white and blue, embellishing the ice cream. Salted nuts were served with the course. Play was spirited.

FULLER HONORED BY HEELFLIN ATTACK

Boston, Feb. 25.—(AP)—To the attack made upon him yesterday in the United States senate by Senator Thomas Hefflin of Alabama, Governor Alvan T. Fuller has made a one sentence reply. "I consider it an honor to be attacked by Tom Hefflin," he told newspapermen. Hefflin charged that recent expression of opinion by Governor Fuller, who is a republican, that either Herbert Hoover or Governor Smith, of New York, ought to be elected President, was "feeble" with regard to Hoover, and inspired by "the Roman Catholic political machine" as regards Smith.

Pleas Guilty Manslaughter

Durham, Feb. 25.—(AP)—Henry Strayhorn today pleaded guilty to manslaughter in connection with the slaying of his alleged paramour, Myrtle Scott, near here October 18, 1927, and was given a 10 months' sentence by Superior Judge W. M. Bond. This action was taken when the jury in the case announced that after nearly nine hours' deliberation it could not agree. The state, using the Scott woman's death bed statement that she was shot by Strayhorn, contended he murdered her because she could not comply with his request in connection with the sale of some land.

Washington Social Events

Washington, Feb. 25.—(AP)—Lent started off at a lively pace this season, Ash Wednesday marked by President Coolidge giving the smallest dinner party, having only Mr. and Mrs. Charles Beecher Warren of Detroit, as guests; Mrs. William Howard Taft having the largest luncheon party, and Senator and Mrs. Frederic M. Sackett of Kentucky, holding the largest afternoon reception, having the State Delegation in Congress and all the Kentuckians residing in Washington as guests.

Vice-President and Mrs. Dawes also came in for some of the social rush that crowded the first few days of Lent, being guests Thursday night of the Congressional club at one of the largest receptions held there this winter.

There were many other imposing social functions to mark the opening of Lent, such as the Musicales and dinner party given by Mrs. Thomas W. Phillips, Jr., wife of former representative Phillips of Pennsylvania, who had sixty guests to dine and a hundred in for the music.

Tonight the Secretary of State and Mrs. Kellogg are to be the guests of the Minister of Egypt and Mme. Samy, while the Ambassador of France and Mme. Claudel will be honor guests at a reception held by the President and faculty of Georgetown University.

Major General and Mrs. W. B. Conner will be hosts at a dinner and dance at Wardman Park Hotel for Colonel and Mrs. Fitzhugh. At home, luncheon and dinner parties and teas fill almost every hour of Saturday.

Next week will be rich in social events, with the President and Mrs. Coolidge, if she is able, dining with the Secretary of Commerce and Mrs. Hoover on Tuesday night and the Vice President and Mrs. Dawes starting their week by dining with Representative and Mrs. James M. Beck of Pennsylvania.

Mrs. Peter Gilet Gerry who as Mrs. George Vanderbilt came from the fashionable world of New York to live in Washington has since she married Senator Gerry, fallen quite into the line of social life and there is not a more popular woman in the Senatorial ranks. She observes here Thursday's at home, gives official dinner parties and is more proud of belonging to the Senate Ladies Lunch club than to the very many fashionable clubs of the country to which she and the Senator Gerry belong.

Besides the officers and board of directors of the Congressional club Mrs. Gerry had assisting her at the reception Thursday night for the Vice President and Mrs. Dawes, Representative Katharine Lanley, of Kentucky, Mrs. Allen Cooper of Wisconsin, Mrs. Ripis J. Garrett, of Tennessee, Mrs. J. Charles Linthicum of Maryland, Mrs. Homer L. Lyon of North Carolina, Mrs. Samuel C. Major of Missouri, Mrs. Joe J. Manlove of Missouri, Mrs. Joseph J. Mansfield, of Texas, all wives of Representatives from many sections of the country.

Women of the diplomatic corps are planning to spend much time in sewing, needle work, music and art work—whatever line in which they are most skilled—during Lent. Frau Kiep wife of the Counselor of German Embassy makes her own dresses and the clothes for her baby, but they are not the usual home-made looking affairs.

A HELP, AT THAT

There has been much said regarding the address here Wednesday, of Judge Stephenson before the visiting bankers, and we must say that we agree with Hon. R. C. Dunn in his declaration before the Rocky Mount gathering Thursday that any man who paints such a gloomy picture of Eastern North Carolina, as did Mr. Stephenson, does not know the real Eastern North Carolina. No doubt there are spots in Eastern Carolina, Western Carolina and in every other state that fit Judge Stephenson's description but to paint such a gloomy picture of Eastern North Carolina as a whole, is far from seeing things here as they really are. However, we feel that both Mr. Stephenson and Mr. Dunn were right when they declared that the age-old time buying system and the "boiled shirt farmer" are to an extent, retarding the progress of Eastern North Carolina. There is hardly a clear thinking business man in this section who does not realize these things but how to overcome them is a problem that has not yet been solved, and one that it will probably take many more years to completely solve.

In many cases, it is the truth that hurts, especially when it is the pointing out of one's faults, and despite the fact that Judge Stephenson's remarks were, in certain points, apparently greatly exaggerated, he has indeed started folks talking and thinking and usually when a man makes you put on your thinking cap he is helping you to begin on the road to the solving of some of your problems. Despite the fact that we didn't relish Judge Stephenson's address in its entirety, we do feel that from parts of it some good will result.

MR. DAVIS—ECONOMIST Secretary of Labor Davis, prime good mixer, superlative joiner and inimitable cheer leader for the Coolidge Administration, has emerged in a new guise. He has become an economist. Yes, really! He says that the cures for unemployment are a tariff and new industries. We wonder what Mr. Davis expects us to do with the products of these new industries. Surely he doesn't expect us to consume all of them. The art of making the American people buy what they don't need or want has already put many of them in the red about as far as they can get. If it goes any further the public may just

inaugurate the custom of not buying at all. But if the country can't digest the products of these new industries for which Mr. Davis is yearning, then it is only reasonable to think they will have to be exported. In trade between nations, however, goods are exchanged for goods, which obviously couldn't take place if one of the nations maintained a high tariff. That is, all the orthodox economists hold that it couldn't. If Mr. Davis can show how a nation can have a good export trade without importing, he will make the honored figures in the economic hall of fame, from the physiocrats to Prof. Taussig, look like a bunch of dubs. However, it is more likely that if Mr. Davis tried that he would only make it apparent that as an economist he is a prime good mixer, a superlative joiner and an inimitable cheer leader for the Coolidge Administration. — St. Louis Post-Dispatch.

ABOUT TOWN

"If a student in farming can take a small piece of land and make a good profit it looks like any experienced farmer in this part of the country ought to be able to make plenty of money in the course of a planting season," remarked one of our citizens today as he read of the record established by the negro down at the Jackson Training school at Grimesland. "There's good money in farming and any person desiring to put in plenty of honest labor and attention to his crop may rest assured of making earnings in proportion to other vocations. Like everything else, agriculture has its lean years. If this were not so this part of the country would be literally rolling in wealth, and our folks would be so taken up in the pursuit of pleasures they would forget the real object of life. "This negro planter at Grimesland has given us something to think about in the way of industry, and if others will profit by his experience there is no reason on earth why this section should not in reality be one of the greatest in the world. "When, but Greenville is certainly growing," remarked a woman who has lived here all of her life, as she glanced over the columns of yesterday's copy of the Reflector. "It used to be that I knew every body in town—now I don't seem to know anybody. I have just read of a party given by Mrs. So and So. I don't recall ever hearing her name before and certainly not the names of any of the twelve or fifteen persons attending the party. "To think of my living in a town and not being able to recall nearly everybody by their given names, it is terrible. This little old town is forging to the front as one of the populous cities of Eastern Carolina. If it continues to grow in the future as it has in the past, then I feel sure we will be one of the real big cities of North Carolina sooner than most people expect."

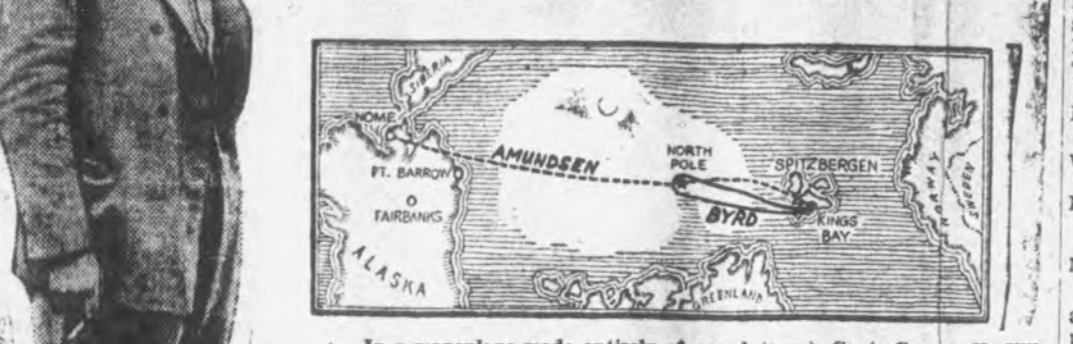

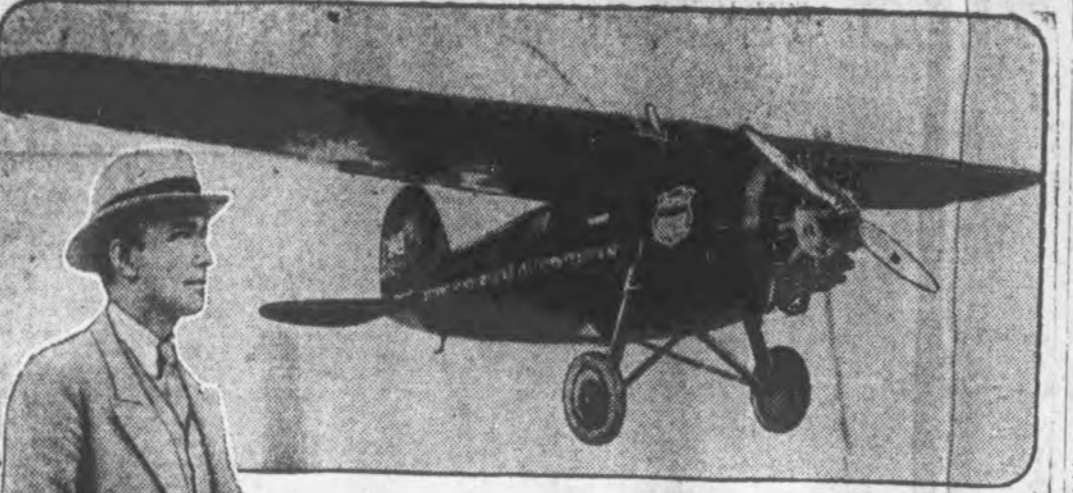

"Gilbert Stephenson, considered one of the leading bankers of the city of Raleigh painted a mighty gloomy picture of Eastern Carolina while attending the thirtieth annual convention of Group One of the North Carolina Bankers Association."

WILKINS TO FLY IN WOODEN PLANE OVER POLE ON SCIENTIFIC QUEST

In a monoplane made entirely of wood (above) Capt. George H. Wilkins (left) will renew soon his aerial exploration of the Arctic, seeking sites for meteorological stations. The map shows Fairbanks and Pt. Barrow, which will be his base, and Spitzbergen, whither he will fly when his season of exploration is ended. On it are traced previous aerial voyages of polar exploration by Byrd and Amundsen.

LOS ANGELES — (AP) — Capt. George H. Wilkins, Australian aviator-meteorologist, plans to fly a wooden plane over the north pole this summer while he searches for sites for meteorological stations. The plane and other equipment for this, his third Arctic exploring expedition, are to reach Alaska soon. Lieut. Carl Ellison, army aviator, will accompany Wilkins on his flights which are expected to carry the men from Alaska to Spitzbergen.

Captain Wilkins' expedition is sponsored scientifically by the National Geographic society and financially by The Detroit News and by a fund raised in Detroit.

A wooden plane was chosen by Captain Wilkins for his latest quest because he believes it will be less affected by ice, and hence more manageable than the all-metal ship he has used in the past.

The plane is a trim, fast craft with bullet shaped fuselage. Its cruising speed is about 115 miles an hour and its crushing range 3,300 miles. It was built by the Lockheed Aircraft corporation. Traveling by steamer from San Pedro to Seward, Alaska, the plane and equipment will be taken thence by train to Fairbanks.

At Fairbanks the explorers will take to the air to fly to Point Barrow, where they plan to establish a base. From this point Captain Wilkins and Lieutenant Ellison will begin their search for suitable places in the polar wastes to establish stations for the study of atmospheric phenomena. Three such sites already have been found by Captain Wilkins in previous flights. All were approximately in the same latitude.

The plane will carry a short wave radio set and 100 pounds of extra food and clothing. When the explorers end their flights on the other side of the north pole, in Spitzbergen they will return through Europe by more conventional modes to travel to New York.

Market Report Cotton--Stocks--Grain

COTTON MARKET

New York, Feb. 25.—(AP)—The cotton market opened steady today at an advance of five points to a decline of two points and showed net gains of five to 13 points after the opening. All months made new high ground for the movement on further covering and buying promoted by relatively firm Liverpool cables and the local firmness of yesterday.

Talk of possible shipments from the local stock was reflected by the relatively firm ruling of 1877 for May and 1856 for October attracted considerable realizing.

The market held fairly steady at the end of the first hour.

Futures closed 10-points higher to 6 lower. March 18.57; May 18.73-76; July 18.67-70; October 18.43-45; December 18.39-40, spot steady; middling 19.05.

GRAIN

Chicago, Feb. 25.—(AP)—Large receipts of corn and favorable weather for corn movement brought about late weakness both in the corn market and in wheat. Primary arrivals of corn today amounted to 2,300,000 bushels compared with 950,000 bushels a week ago. Besides liberal receipts of corn on Monday were looked for.

Corn closed unsettled 5-8 A3-4 to 1c net lower, wheat 5-8 to 1c off, oats unchanged to 1-4c down, and provisions unchanged to 7c higher.

STOCK MARKET

New York, Feb. 25.—(AP)—Heavy buying of Washab common, which covered 6 1-4 points to 66 on rumors of competitive buying for control, featured today's stock market. Price movements in the general list lacked uniformity, although rails showed a pronounced upward trend and most of the industrials pointed upward.

Speculative uneasiness over the brokers' loan situation was reflected in the persistent liquidation of certain stocks on all rallies and the hurry to unload on the first signs of weakness in others. Airplane stocks, which had soared to high altitudes, buying influenced by the successful long distance flights last week, broke sharply to new 1923 lows. Wright aeronautical falling six points. Mack trucks dropped four points to a new low for the year around 95. Adams Express collapsed twenty points to 250 on one sale.

The announcement that W. F. Dickson was seeking proxies for Washab stock in an effort to get representation for minority interests on the board brought a flood of buying into that issue which carried it 15 points above the year's low. St. Louis southwestern advanced three points and Western Maryland Erie common 2 each. About a dozen other rails advanced a point or so.

Fox film ran up four points on the announcement that merger negotiations were pending whereby that company would acquire the Stanley theatres. Strength of American Sugar Refining, Howe Sound and Oppenheim Collins contrasted with the heaviness of Montgomery Ward and Greengrass Canaan copper.

The closing was irregular. Total sales approximated 1,000,000 shares.

Re-Sale of Land

By virtue of a decree of Pitt Superior Court in Special Proceedings No. 2847, entitled Mrs. Margaret L. Fleming and J. P. Fleming, Adms., vs. I. S. Fleming et al., a sale was made of the hereinafter described land on Monday, February 13th, 1928, at which said land was bid off at the sum of \$2500.00, and reported to Court, and said bid having been raised and a new order made ordering a re-sale of said land, the undersigned commissioners will sell at public auction before the court house in Greenville on Wednesday, March 7th, 1928, the following described tract of land:

That tract of land in Pictolus township, lying on the west side of the public road, leading from Washington to Robersonville, adjoining the lands of W. S. Williams on the south and west, by Eborn lands on the north by Sheppard lands, on east by said public road, being the same land described in a deed from A. W. Baker and wife to R. B. Fleming, dated January 4th, 1909, recorded in Book B-7, page 16, Register's office of Pitt County, containing 300 acres, more or less.

This the 21st day of February, 1928.

Mrs. Margaret L. Fleming and J. P. Fleming, Commissioners. F. G. James & Son, Attns. Feb. 22-11w-2wk

Land Sale

By virtue of the power of sale contained in that certain deed of trust executed and delivered by R. R. Fleming, Jr., and wife, and P. G. James, Jr., to F. G. James, Trustee, on the 10th day of December, 1924, which deed of trust appears of record in the office of the Register of Deeds of Pitt County, in Book M-15, page 334, the undersigned Trustee having been requested by the parties owning the debt, secured in said deed of trust, to foreclose the same, default having been made in the payment, will sell for cash, at public auction before the Court house in Greenville, N. C., on

Saturday, March 3rd, 1928,

the following described tract of land, situate in the county of Pitt County, North Carolina:

That tract of land in Pictolus township, beginning at the intersection of Tranter's Creek and the Atlantic Coast Line R. R., and running North 65 W. 50 80 ft. along said right of way to a stake, a corner between this tract and the I. S. Fleming land; thence N. 25 degrees 35 minutes E. 5500 ft. along a chopped line to a chopped cypress corner on the run of Tranter's Creek; thence with Tranter's to the beginning. Victim of Poisoning

Mrs. Curtis Lowry of Aledo, Ill., is dead as a result of having taken capsules which were sent through the mails. Although marked "Cold and Grippe Medicine" analysis showed them to be poison. Ten other citizens of the county received them, and it is believed that poison pills were sent to those who rid the county of chicken thieving gangs.

SON OF OIL KING BEFORE SENATE BODY

Myron Blackmer tells Senate Teapot Dome Committee of Father's Activities.

Washington, Feb. 25.—(AP)—Unable to obtain the testimony of H. M. Blackmer, a moving spirit in the Continental Trading Company oil transaction, the Senate Teapot Dome committee called his son, Myron K. Blackmer, of Denver, a vice president of the Midwest Refining Co.

The son told the committee he knew his father had been negotiating with the late A. E. Humphreys for oil from his Texas fields, which the Continental subsequently bought and re-sold to Sinclair Crude Oil Company and the Prairie Oil and Gas Company at an enormous profit.

"The Standard Oil Company of Indiana, which owns all of our stock, was short of crude at that time," Blackmer said.

"When his attention was called to the correspondence between his father, who is an exile in Europe, and Robert W. Stewart, dominant figure of the Standard Oil of Indiana, Blackmer said he no doubt saw some of the correspondence at the time.

"My knowledge about the negotiations is only general, as I had no part of them," Blackmer said "at one time my father talked to Colonel Humphreys about buying his whole property."

"When did you learn that the oil was being bought through the Continental Trading Company?" Senator Walsh asked.

"My father told me he had an interest in the Continental Company and had made about \$750,000 out of the company," Blackmer replied.

"Was it before your father went to Europe?"

"Yes sir."

"When did your father go to Europe?"

"In February 1924."

"That was immediately after the Senate committee had uncovered the scandal which had led to so many civil and criminal suits in the courts."

"Tell us what your father told you about the Continental," Walsh pursued.

"He did not tell me very much I had heard of the Continental before. He told me to keep the matter confidential as he had not decided whether he would keep the profits as there was a possibility that the Midwest might seek to recover them."

"Were your father and yourself then both officers of the Midwest?"

"Yes sir."

"If any of this money was coming to the Midwest and you were an officer of that company it was your duty to make every effort to recover it, wasn't it?"

"Well, my father was chairman of the board and I naturally thought it was a matter for him to decide."

"Have you told us all your father told you about the Continental?"

"Yes sir, I knew this would be the main thing here today and I have recalled all that I could of the conversations."

"What was the occasion of your father telling you about it?"

"I don't know. I am not familiar with all my father's business affairs. It was in New York, that he told me. I don't believe there were any particular circumstances. He told me to keep it confidential."

"Did it occur to you at the time that that was an extraordinarily large profit?"

"It seemed to me that it was a large profit."

"Why did you father admonish you to keep it confidential?"

"As I told you they were in bonds."

"Yes sir, he said they were in his safety deposit box in New York."

NEW YORK THREATENED BY RAILWAY STRIKE

New York, Feb. 25.—(AP)—A threatened strike on the subway and elevated lines of the Interborough Rapid Transit Company, today the main transit system of the city today face Mayor James J. Walker upon his return from his southern tour.

Leaders of the Amalgamated Association of Street and Electric Railway Employees, which is associated with the American Federation of Labor, will lay before the Mayor their threat of a tie-up of the Interborough system unless the company reinstates the nine men it has discharged for membership in the union.

Delay in calling the strike was deferred until the mayor's return because of a promise given him last July when he averted a strike by prevailing on the Interborough to take back thirteen men they had discharged at that time for the same reason. The Interborough employees have their own union and Frank Hodley, general manager of the company, had threatened to discharge all men who become affiliated with the national labor body.

TWO KILLED IN RUM WAR

Another Fatally Injured in Bootleggers' Fight in New Hanover County.

Wilmington, Feb. 25.—(AP)—Two men were dead and another probably fatally injured today as a result of what officers termed a bootleggers' war raging in New Hanover county for several hours yesterday.

The body of Tom Evans, of Wilmington, was found yesterday morning in the Castle Hayne section with two gaping wounds in the neck and chest. As officers searched for the slayer, they came upon the body of M. Lomax (Slim) Hill, former news stand operator, of Charlotte, about 11 miles from where Evans' remains were found.

It had fallen, it was believed, from an automobile in which J. A. Eilers and C. H. Davis were rushing Pete Kelly, said to have been seriously wounded at the time Hill was killed, to a Wilmington hospital.

Eilers and Davis were held by officers and Carl Mitchell and C. L. Cottle, also said to have witnessed the shooting of Hill, were soon taken into custody.

The men said that Hill was slain by Warren Moore a few minutes after Moore had told of slaying Evans. Moore according to the men, declared he shot Evans because Evans reported to officers that he was operating a still. After making this statement, Moore, the men said, turned loose a volley of pistol bullets into an automobile occupied by Hill and Kelly, killing Hill and wounding Kelly.

A determined search for Moore and Jack Jackson, who was said to have fled from the scene of the shooting with Moore, was begun by Sheriff Jackson and other New Hanover officers.

Evans and Moore left Wilmington together the day before Evans' body was discovered, it was said.

Charge Railroad With Violation Of Clayton Law

Washington, Feb. 25.—(AP)—A complaint that the Kansas City Southern Railway had violated the Clayton anti-trust law by acquiring capital stock of the Missouri-Kansas-Texas Railroad and by making agreements looking to the control of the St. Louis Southwestern Railway was made today by the Interstate Commerce Commission.

The railroad company was ordered to show cause on April 2 why an order to dissolve the combination should not be entered. The complaint drawn up by the commission represented the first action of the kind it has ever made.

WANT BIG NAVY TO USE AS CLUB OVER BRITAIN

New York, Feb. 25.—(AP)—Franklin D. Roosevelt told a luncheon of the New York council for cooperation to end war that the administration wanted a big navy to use as a club over Great Britain.

The former assistant secretary of the navy and democratic vice presidential nominee in 1920 said that the authorization sought for ships to be built "next year, and the year after and the year after that" took the naval question "out of the realm of our immediate naval needs and into the realm of diplomatic juggling."

Mr. Roosevelt urged a survey by civilians to show just what problems of national defense "may arise for which we need a navy." The people are not going to take the unsupported word of naval officers or of Secretary Wilbur, he said.

the National Education Association also was fueled last night. It is understood here that only a nperimental model of the motor has been constructed.

William B. Stout, president of the Stout Air Services, Inc., and designer of the all-metal type of transport planes being built by the Ford Motor Company, said he saw Henderson's model in operation in Pittsburg three weeks ago.

"The demonstration is very impressive," he said, "It was actually uncanny. I would like very much to see how a large model, designed to develop power enough to lift a airplane, would operate."

Stout said the model he saw was about the size of motors used to operate vacuum cleaners and sewing machines and was similar in appearance to any small electrical motor. "I was told," he said "the revolutionary feature was a hitherto unknown manner of winding armature. Hendershot said he had succeeded in winding the armature in such a way that it draws energy directly from electrical currents."

Stout said the model he saw was about the size of motors used to operate vacuum cleaners and sewing machines and was similar in appearance to any small electrical motor. "I was told," he said "the revolutionary feature was a hitherto unknown manner of winding armature. Hendershot said he had succeeded in winding the armature in such a way that it draws energy directly from electrical currents."

the National Education Association also was fueled last night. It is understood here that only a nperimental model of the motor has been constructed.

William B. Stout, president of the Stout Air Services, Inc., and designer of the all-metal type of transport planes being built by the Ford Motor Company, said he saw Henderson's model in operation in Pittsburg three weeks ago.

"The demonstration is very impressive," he said, "It was actually uncanny. I would like very much to see how a large model, designed to develop power enough to lift a airplane, would operate."
