HAYS RELATES FACTS ABOUT SINCLAIR DEAL

Former National Com- mittee Tells Tea Committee of Gift of \$185,000.

WASHINGTON, Mar. 1.—(AP)—Will Hays disclosed today that Harry F. Sinclair, central figure in the Teapot Dome case and turned over \$185,000 in government bonds to the Republican National Committee of which Hays was former chairman.

Mr. Hays, who now is head of a large moving picture organization, came to Washington primarily for a hearing before the Senate Interstate Commerce Committee on the Brookhart bill to prohibit block booking of moving pictures. He previously had asked that the oil committee hear him and wanted to appear before the two committees while on this visit instead of going later to the oil committee at some later time.

The former National Committee chairman testified four years ago that he solicited a contribution of \$75,000 from Harry F. Sinclair, Lessee of Teapot Dome in 1923 to help pay the deficit inherited from the Harding campaign. It has developed that his contribution was in the form of liberty bonds which once formed part of the profits of the mysterious continental trading company of Canada. Some of these profits are alleged to have gone to Albert B. Fall, after he leased Teapot Dome to Harry F. Sinclair.

Hays will tell the committee that at the time of receiving this contribution he had never heard of the Continental Trading Company and consequently could not have known that the Sinclair contribution represented a part of the profits in an oil deal which the Teapot Dome committee has vigorously condemned.

Appearing at his own request before the Senate Oil Committee which is investigating the disposition of the profits of the Continental Trading Company, Hays read a statement on the financing of the 1920 campaign.

"I desire to say at the outset," Hays said, "that the only information that has come to my knowledge about any government bonds once owned by the Continental Trading Company ever having been used for the benefit of the Republican National Committee is the report from the investigation of this committee.

"I did not know of the existence of the Continental Trading Company, at the time I assisted in raising the deficit of the Republican National Committee and first heard of it in the public reports of the trial in Cheyenne, Wyo.

"I do, however, know that Mr. Harry F. Sinclair did turn over to me for the benefit of the Republican National Committee in connection with the deficit a certain amount of government bonds and these bonds may or may not have been originally in the possession of the Continental Trading Company.

The \$185,000 in bonds besides the \$75,000 which Sinclair gave the committee were returned but Sinclair later gave back \$85,000, Hays said, making his total contribution \$100,000. It had been previously disclosed that Sinclair had contributed \$75,000.

Telling of his personal appeal to the wealthy oil operator for funds for the committee the former chairman said Sinclair had told him he would make a personal contribution which he thought should not exceed \$75,000.

"He also said he would turn over to us approximately \$18,000 in government bonds in addition to his contribution for such use as might become necessary upon my assurance that he would be repaid the total amount advanced in excess of the \$75,000 contributions," Hays continued.

"Both the \$75,000 and the \$18,000 were, I think in government bonds. A portion of the \$18,000 of government bonds was used as hereinafter stated and this advancement, along with contributions by many others, enabled the treasurer to announce to the committee at the December meeting that the indebtedness was provided for.

"So far as I know, no record was made of the numbers of these bonds or even of their particular issue.

"\$75,000 of the bonds constituting Mr. Sinclair's personal contribution was applied on the committee's indebtedness to the Empire Trust Co. through the chairman of its board, General T. Coleman Du Pont.

"\$50,000 of the original \$185,000 received from Mr. Sinclair were returned by me to Mr. Sinclair.

"Of the remaining \$135,000 I delivered to Mr. John T. Pratt of New York to the best of my recollection, \$70,000, at about which time he placed in the hands of the committee \$50,000 in addition to amounts he had previously contributed.

Off on Her Own

"Ma" Kennedy (above), mother of Almeda Semple McPherson, is getting ready to start an evangelistic career on her own account. She intends to make a revival tour of the principal Pacific Coast cities. "The Lord's work is my work," she declares.

F. S. ROYSTER PASSES AWAY AT NORFOLK

President of Royster Fertilizer Co., Died Early Today After Long Illness.

Norfolk, Va., March 1.—(AP)—F. S. Royster, Sr., president of the Royster Guano Company, and one of the leading business men of Norfolk, died at 2:35 o'clock this morning, at his home here after an illness of several weeks.

Despite his 78 years Mr. Royster was active head of the fertilizer company until shortly before his death.

Delving into agricultural chemistry while a clerk in a general store in Tarboro, N. C., in 1880, Mr. Royster became a pioneer in the field and is accredited by fertilizer manufacturers with being among the first men in American to realize the economic importance of scientific knowledge in fertilizer production.

Not only in the manufacturing of fertilizer but also in "missionary" work among the farmers was Mr. Royster widely known. Reared on a farm, he knew the mind of the farmer and directed much of his energy to persuading southern growers to abandon antebellum methods and use fertilizer in a scientific way.

He was also accredited with the discovery of the remedy for cotton rust. This was by the use of kailin, a salt brought from Germany and which is now widely used in the manufacture of fertilizer.

German miners had discovered sometime before an impurity in salt which promoted the growth of plants, this leading to scientific experiments in the use of potash. Mr. Royster imported a small supply and it was used by farmers near Norfolk in the successful treatment for cotton rust.

In his early days as a manufacturer he is said to have personally supervised the production of each ton manufactured. He was forced to turn over this work to subordinates as his business grew, but remained the active head until his death. The company now has plants in Norfolk, Toledo, Baltimore, Charlotte, Tarboro, Spartanburg, Macon, Montgomery and Columbia.

While devoting almost his entire time to the fertilizer industry, Mr. Royster was also interested in transportation, at one time serving as director of the Chesapeake Steamship Company and the Norfolk and Western Railway.

He is survived by his widow, formerly Miss Mary Stamps, of Milton, N. C., and four children, W. Stamps Royster, F. S. Royster, Jr., and Mrs. Richard D. Cook, all of Norfolk, and Mrs. William H. White of Washington, D. C.

Lindbergh at Boston.

Boston, March 1.—(AP)—Colonel Charles A. Lindbergh landed at the Boston airport at 10:53 a. m. today after a flight from Schenectady, N. Y.

bonds, but I had no knowledge as to whether they were the same bonds I had previously delivered to him. These bonds in any case were given by me to Mr. Sinclair.

"Of the approximately \$85,000 remaining, I delivered \$25,000 to secretary John W. Weeks of Boston, to be used by him in his efforts to raise money for the deficit and they were used by him for that purpose.

"The approximately \$60,000 remaining I delivered to Mr. Fred W. Ppham of Chicago for the same purpose and they were used by him for that purpose.

HENRY STINSON BEGINS DUTIES IN PHILIPPINES

New York Lawyer Ass- umes Office of Gov- ernor General of U. S. Possession.

Manila, March 1.—(AP)—Henry L. Stinson, New York lawyer and secretary of war under President Taft, today took office as Governor General of the Philippines, succeeding the late General Leonard Wood.

The inauguration of the Stinson administration, which has been heralded widely here as the beginning of an era of cooperation with the United States, was marked by impressive ceremonies at the Luneta, one of the heights overlooking Manila Bay, a few hours after the arrival of the new executive from the United States.

Colonel Stinson ignored the question of insular independence in his inaugural address beyond saying that the future relations of the islands to the United States "rests with the government of the United States." In more or less direct phrases he asked the Filipinos to forget politics for a while and concentrate their efforts upon economic development as a means of attaining greater political freedom.

"What we have to accomplish together in a successful administration of government in these islands can only be achieved by the fullest possible measure of sympathetic and patient cooperation," he said. "For my part I shall use my utmost endeavor to establish such harmonious cooperation under the organic law which it is our joint duty to labor.

"Today your budget and your tax laws indicate that you are already reaching the limit of revenues obtainable upon your present economic development. You are faced with the alternative of increasing your taxable wealth or to check, holding back some of the necessary activities of your government and if important public improvements.

"In short, it is a simple truth not only that individual freedom and the practice of self government are found to be almost prevalent and firmly held in those communities and nations which have a highly developed system of industry and commerce and their foundations, but it is also true that only in such communities and nations can the average citizen attain the degree of individual comfort, education and culture which modern civilization is coming to demand.

"Is there any reason why the Filipino people shouldn't attain such economic development? Manifestly they lack it today. Manifestly their attention during the past generation has been concentrated upon political rather than economic development with the result that the progress in the latter field has not kept pace with the exceptional progress made in education and public affairs.

"Have not the people of the United States sufficiently demonstrated the unselfishness of their attitude toward these islands in the matter of political development to make them worthy of confidence in the matter of economic development?

"I believe that nowhere in the world are the relations of capital to the public watched with more jealous eyes than today in the United States.

The abuses of capital which excited criticism a generation ago have been cured. The American capitalists of industry today have a very different standard of duty toward the public from their predecessors of the nineteenth century. It should be an easy matter for wise statesmanship to gain for these islands and inestimable benefit for guidance of American industrial experience and capital upon terms which would not only share the present profits with the Filipino people but would also leave their rights and resources unimpaired for generations to come.

Wrecked Plane Is Found Near Lillington, N. C.

Lillington, March 1.—(AP)—A mysterious ten passenger monoplane, put out by the Stout Metal Airplane Company, which manufactures Ford planes, has been here since last Saturday.

The plane wrecked here but none of the passengers have been seen. Local citizens say the passengers were reported to have taken a train following the wreck.

The plane is a private-owned, sumptuously outfitted, 74 feet from wing to wing, 24 feet long, 12 feet high, 6,200 pounds in weight when empty, carrying a 3,800 pound load capacity, capable of cruising 100 miles an hour, with 15,000 foot ceiling, and 500 gallons of fuel.

King Reported Ill

Reports from Brussels have it that King Albert of Belgium is suffering with an attack of influenza. His majesty is confined to his bed at the Chateau Laeken, the royal summer residence just outside the Belgian capital.

BEGIN PLANS FOR DRAFTING MR. COOLIDGE

Mayor Thompson and 3,000 Cohorts Boost President For Re- nomination.

Chicago, March 1.—(AP)—Mayor Thompson supported by a brass band and 3,000 cohorts of the Thompson-Crowe organizations has launched an organized move to "draft" President Coolidge for the republican presidential nomination.

Recently back from Washington, the mayor called a meeting yesterday of his political supporters. Who unanimously endorsed his program and a platform of 18 planks. His new slogan was "America first wets against world court days," based on an anti-prohibition plank in the county platform.

The platform denounced the Volstead act and the world court; demanded the federal government bear the entire cost of "America first" flood control, completion of inland waterways, and home rule for Illinois.

The action taken, it was explained, morally binds all cook county delegates to the national convention at Kansas City to vote for the re-nomination of the President. All candidates on the ticket were sworn by Superior Court Judge Walter P. Steffen, to support the pledges if elected.

Some political observers saw in the "draft Coolidge" movement a plan by Mayor Thompson to gain control of the Illinois delegation so that votes might be used for another candidate if it became apparent at the convention that President Coolidge would not be drafted.

They pointed out that Mayor Thompson long has made no concealment of his political hostility toward former Governor Frank S. Lowden of Illinois, and that in this manner he might prevent the sending to Kansas City of a delegation pledged to Lowden.

King of Italy Mourns Loss of Noted General

Rome, March 1.—(AP)—The king of Italy today stood in reverence at the bier of Marshal Armando Diaz, who as head of his armies in the war snatched victory from disaster.

King Victor Emmanuel appeared at the home of Marshal Diaz at 8:30 this morning, accompanied by Col. Amico de Maena, his aide-de-camp. He remained for a long while beside the body which lay in state. Then he expressed his grief and that of the royal family to Diaz's son, Marcello.

After the visit of the King, Premier Mussolini arrived, unaccompanied. He stood silent for several minutes before the bier. Then he signed the register with one word "Mussolini."

All the members of the diplomatic corps paid their respects during the morning.

The most touching tribute was the visit to ladies-in-waiting to the queen who covered the bier with fresh flowers in token of the queen's esteem for the gallant soldier.

Visitors came in constant stream to view the dead warrior. The room where the body lay was filled to capacity while crowds waited outside for their turn to enter. Cabinet minister, generals, senators, deputies and officers of all grades paid their respects. Telegrams of condolence came from foreign countries and all parts to Italy.

TODAY

An Escorted Fighter.
Mind Food, All Kinds.
Crime As A Business.
All Meat, Bad Diet.
(By Arthur Brisbane)

Copyright 1927, by Star Co.

Los Angeles, Feb. 28.—In this city tonight, the Basque Uzdudum will fight the giant negro Godfrey, 40,000 people paying \$125,000, to look on, a pitifully small sum compared with that "cultured easterners" pay for a heavyweight fight.

How men spend their time or money is their business. The state of California has chosen to disgrace itself, like many eastern states, by legalizing prize fighting. Such prize-fighting being profitable and dishonest, will continue.

The people of Los Angeles not interested in fights, note that "policemen on motorcycles will escort the negro from his training ranch to the prize ring." Average citizens, none too prosperous pay in taxes for the gasoline that runs those motorcycles, and pay the policemen's wages.

Some will think the negro prize-fighter, 6 feet 4 1-2 inches tall, weight, 235 pounds, "reach" 80 inches, might find his own way to the prize ring, also the other white fighter.

In this happy city you find any food that your mind requires. Old-fashioned preachers will tell you what hell looks like and how to keep out of it. Others guarantee that there is no such place. The problem is to be happy while you are here.

A hundred healers here will cure you of anything. Another hundred will prove that there is nothing the matter with you except in your own mind, if you happen to have one.

Others assure you there is no sickness, no need of healing, no mind at all, nothing but love.

One sign on a private residence reads, "Free talk on retaining and regaining youthful poise." Rotund women struggle to retain or to regain the affection of middle-aged old husbands, shaped like seals or walruses. Very pathetic.

As regards, the city of Cleveland excels in police efficiency. The percentage is 83 against 63 in Baltimore, 36 in Kansas City, 16 in St. Louis. The national crime commission publishes Dr. Louis N. Robinson's statement that police inefficiency and leniency in courts has made crime almost the safest business in the United States. The percentage of failure is lower than in (Continued On Page Six)

STILL SEARCH FOR AVIATORS

Navy Department Fol- lows Two Clues To Whereabouts Of Missing Airmen.

Washington, March 1.—(AP)—Two clues to whereabouts of the three missing naval aviators, Commander T. A. Ellyson, Lieut. Commander Hugh Schmidt and Lieut. Rogers Ranshousen, were being run down today in the Chesapeake Bay area.

Reports to the navy department indicate that there is a possibility that the big amphibian plane, enroute early Monday morning to Annapolis from Hampton Roads, Va., might have gone down near Mountain Point, about ten miles north of Annapolis, where a large oil slick was discovered yesterday.

The other clue reported by Rear Admiral Goetz at Hampton Roads was that three persons had reported seeing a plane near Horn Harbor. The aircraft, flying low, whizzed over the harbor and then its motor suddenly stopped the report said.

The oil slick at Mountain Point will be investigated by naval academy students from Annapolis.

Asheville Man Dies as Result Pistol Wounds

Asheville, March 1.—(AP)—The death of William Sumter Carpenter, local real estate man, of pistol wounds received last Saturday, today had laid Everett Corriher, his cousin, open to specific charges in connection with the shooting which occurred at the Corriher home.

Corriher has been held in jail here without bail since the shooting and it was expected that when Carpenter died yesterday afternoon after lingering several days, definite charges would be brought against Corriher, alleged to have fatally wounded his cousin.

N. C. TOBACCO CONCERNS PAY ENORMOUS TAX

Great Part of \$15- 000,000 Federal Taxes Paid by Tobac- cco Interests.

RALEIGH, March 1.—(AP)—The Federal Government in February collected \$15,479,599.18 in taxes in North Carolina, and of that amount practically all of the 15 millions were collected from the tobacco companies, the 79 thousand from other sources, Gilliam Grissom, Internal Revenue Collector, reported today.

Since the beginning of the present fiscal year, July 1, 1927, the government has collected \$145,122,589.38 compared with \$129,003,518.26 collected the corresponding period of the previous fiscal year, showing a gain of \$16,119,071.12 for the present fiscal year, and a gain for February over last February's collections of \$1,728,355.07.

The collections showed an average increase of two million dollars each month over collections the previous fiscal year.

Collections for 1926.
July, 1926—\$16,418,646.69.
August, 1926—\$16,490,652.35.
September, 1926—\$20,240,465.43.
October, 1926—\$15,765,905.49.
November, 1926—\$14,873,392.67.
December, 1926—\$16,620,681.12.
January, 1927—\$14,842,530.40.
February, 1927—\$13,751,244.11.
Total for 8 months \$129,003,518.26.

Collections for 1927.
July, 1927—\$17,515,293.43.
August, 1927—\$19,434,321.65.
September, 1927—\$22,366,456.05.
October, 1927—\$17,925,839.42.
November, 1927—\$16,894,451.54.
December, 1927—\$17,848,972.34.
January, 1928—\$17,687,653.77.
February, 1928—\$15,479,599.18.
Total for 8 months \$145,122,589.38.

DR. HESTER TESTIFIES

Raleigh Physician on Witness Stand in Flogging Case in Wake County Court.

Raleigh, March 1.—(AP)—Dr. J. R. Hester, Knightdale physician and former Wake county medical society president, on the witness stand in superior court today denied that he was a member of the masked band which flogged Will Dean, farmer-blacksmith, on the night of September 29, 1926.

Baird Pool, 46, farmer, Dr. Hester and A. L. Daniel, another farmer, made similar statements last evening in his own behalf. Daniel was slated to follow the physician to the stand. Pool testified that he was sick in bed on the night of the flogging.

Dr. Hester, in denying he participated in the flogging, offered his office records to show what visits he had made on the afternoon and night of the date in question, both to Pool, his patient, and others of his section of the county.

Dean, his wife and daughter winding up their testimony, each contended that the three men on trial were in the crowd which took Dean from home and flogged him.

Dr. Hester added that he knew of no ill feeling between the deans and himself in 20 years as their family physician.

Motion of R. N. Simms, chief defense counsel, to dismiss the assault charges on grounds of variance in the allegations set forth in the indictments and proof offered, was dismissed by Judge W. C. Harris. Mr. Simms argued that the allegations said the hour was about two o'clock in the morning, while proof offered by state witnesses was to the effect that the flogging actually occurred earlier in the night.

Two Lives Lost In Fire at Old Woman's Home

Chicago, March 1.—(AP)—Fire sweeping an old women's home last night took two lives and sent a score of women, all more than 50 years old, running into the street in their night clothing.

Herbert Biggs, a one-armed negro youth of 19, fought his way through the smoke and carried Mrs. Catherine Swan, 75, to the street. Mrs. Sophie Beier, 64, was trapped on the third floor where spotlights revealed her leaning out of a window. Firemen rescued her by a ladder.

An overheated furnace was given by firemen as the probable cause of the blaze.

"Tay Pay" Arrives

T. P. O'Connor, "Father of the House of Commons," has arrived in New York for a holiday during which he expects to recover his health. The great Irishman is 80 years old, but has no idea of retirement, instead, he expects to plunge back into his work with renewed zeal after recuperating in his country.

REBEL FORCES DEAL MARINES SEVERE BLOW

Marines Concentrate in Northern Nicara- gua Following Death of Five Soldiers.

Managua, Nicaragua, Mar. 1.—(AP)—With five American marines dead after being trapped in a jungle ambush, the leathernecks were massing in northern Nicaragua today.

Followers of the Rebel General Augustino Sandino dealt the marines the severest blow they have suffered since they drove the insurgents from their strongholds at Quilich and El Chipote in January when they ambushed the patrol of 36. Eight marines were wounded in the clash which occurred near Daraili.

As soon as word of the encounter was received three detachments of marines were sent from points in the vicinity. Captain William K. MacNulty of the 11th regiment, who was on another mission with 85 men also joined forces with Lieutenant Edward F. O'Day, leader of the ambushed patrol.

Three marines were killed in the action and two died from their wounds. Those slain were: Privates John C. Pump, Council Bluffs, Iowa; George E. Robbins, San Antonio, Texas, and Albert Schlauch, Jamestown, North Dakota.

Those who died from their wounds were Corporal Cicero D. Austin, Rockett, Texas, and Private Curtis J. Mott, Trenton, Wash.

Private Lem C. Davis, whose address was not given, was seriously wounded, being shot in the left shoulder.

Those slightly wounded were: Sergeant Wilbourn G. Cristian, Northport, Ala., shot in hip; Sergeant Charles H. Hishan, Longmore, Wash., shot in thigh; Private Lewis E. Ballard, Troy, N. Y., shot in foot; Private Raymond B. Carter, Payson, Utah, shot in leg; Private Peter B. Crum, Omaha, Neb., shot in foot; Private Linton C. Maynard, Ranger, Texas, shot in elbow, and Private Clarence E. Phelps, Portland, Colo., injuries not stated.

The trapped detachment was returning with a train of 80 mules from Yali, where they had just delivered supplies, to their base at Condega.

As they advanced through the rugged jungle country, machine gun and rifle fire from the heavy brush mowed down their ranks. The rebels were finally driven off. Whether they suffered any casualties was not known.

Lieut. O'Day apparently spent the night at the scene of the battle burying the dead and treating the wounded.

Other marine patrols came into contact with rebels at scattered points during the last few days. There were no marine casualties, however. Six marines and nine national guardsmen drove off a band of thirty which fired at long range when they were about eight miles north of Telapanea.

A plane was fired on near Jicote from a barn. The flyers, Lieutenant Michael Wodarczyk and Sergeant Thomas Whitman, returned the fire and bombed the building.

LOS ANGELES TAKES OFF FOR FLIGHT HOME

COAST LINE PRESIDENT DIED TODAY

John R. Kenly Passed Away at Wilmington This Afternoon at One O'Clock.

Wilmington, March 1.—(AP)—Death today closed a railway career of sixty years for John R. Kenly, president of the Atlantic Coast Line, who died at the age of 81.

Entering the railway profession in 1868 as a resident and construction engineer for the Pittsburgh & Connellsville Railway, Mr. Kenly rose steadily through the years before becoming president of the Atlantic Coast Line in 1913 and had held virtually all of the important intermediate posts.

He was a native of Baltimore where he worked for many years as construction engineer and superintendent of the Union Railway. After serving for several years with the Richmond & Petersburg Railroad, Mr. Kenly became identified in 1882 with the Atlantic Coast Line where he remained continuously.

Educated in the public schools of Baltimore, Mr. Kenly began work as a resident and construction engineer, having charge of many construction jobs. He worked on construction for the Union Railway in Baltimore from 1871 to 1873, going from that position to the post as engineer and roadmaster for the same railway in 1873 until 1882.

In the latter year he became superintendent of the Richmond and Petersburg Railway, leaving that employ in 1885 to enter the service of the Atlantic Coast Line which road he was continuously connected until his death.

In the service of the Atlantic Coast Line, Mr. Kenly rose successively as superintendent of transportation, general manager, fourth vice-president and general manager, fourth vice-president, third vice-president and then to become chief of the road.

Word of the death of the aged railroad chief was unexpected and was announced from the general offices of the company here. A statement issued at 1 o'clock this afternoon did not give the cause of death. It merely stated that Mr. Kenly had died, gave the hour of death and said that he was born in Baltimore and joined the forces of the Atlantic Coast Line in 1868 and came to Wilmington in 1886.

He was elevated to the presidency in 1913.

Funeral services, the statement said, will be held Saturday afternoon.

Columbia Girl Drank Poison and Then Died

Columbia, S. C., March 1.—(AP)—Miss Wil Lou Whan, 18-year-old sophomore at Columbia college here, died this morning from poison she drank in the presence of her two roommates.

Miss Whan, whose home was at Fountain Inn, had been subjected to disciplinary action recently for an infraction of college rules, along with two other students, authorities of the college said, and this is believed to have led to her suicide.

After drinking the poison, the girl became unconscious, living for 45 minutes. A physician was called but was unable to do anything for her.

College authorities declined to disclose the names of the girls who were in the room with Miss Whan or to discuss the nature of the disciplinary action taken. But said that this latter had been a closed incident for several days. The girl was described by them as one of the brightest students in the college. Her parents are dead and she made her home with her grandmother. She is survived by two brothers, one of whom is superintendent of schools at Pamlico and the other a student at Georgia Tech.

The funeral will be held at Fountain Inn tomorrow.

Says Stewart To Again Head Standard Oil

Chicago, March 1.—(AP)—The Herald and Examiner today published a report current in LaSalle street circles that Colonel Robert W. Stewart would be re-elected chairman of the board of the Standard Oil Company of Indiana at today's stockholders meeting.

The newspaper said it had been ascertained that among the chief stockholders, whose proxies had been received, expressing confidence in Colonel Stewart, was that of John D. Rockefeller, Jr.

"Mr. Rockefeller's proxies are considered of utmost importance," the newspaper said, "because of the statement he made at the 10 o'clock eastern standard time this morning for the flight back to her hangar at Lakehurst, N. J., the navy department was informed by radio.

MORE PLAYERS SIGNED TODAY BY GREENVILLE

Two more players have signed with the Greenville baseball club of the Eastern Carolina league, it was learned today.

C. M. Toney, who has been lying in the Florida winter league, has signed as a member of the pitching staff. W. J. Williams, of Chase City, Va., has signed for position of first base.

This brings the total number of players so far signed by the local club to seven, four of whom are pitchers, one outfielder and two infield men.

President Smith said today he expected the score or more of contracts now awaiting signatures would be returned within the next few days, and that organization of the club would be virtually completed by the middle of the month.

Work in connection with improvements of the park at the fair grounds will get under way some time within the next few days. Rearrangement of the diamond will be made as early as possible in order to give ample time to get the grounds in good condition before actual practice begins.

Erection of grandstand and bleachers will also get under way within the next few days and when the first contingent of players arrive everything will be all set for real work.

Reports from other cities of the league are to the effect that organization work is continuing rapidly and that many players have been signed. With the approach of spring training season interest in the league has increased to no little extent and it is believed baseball fever will be general when the umpire yell "play ball."

Hahn Adds Mile of Century to His String

NEW YORK, Mar. 1.—(AP)—Lloyd Hahn has added the "mile of the century" to his long string of triumphs on the boards this winter.

The short stepping Boston flier ran ray conger, of the Illinois A. C., and Dr. Otto Peitz, German champion, into the ground in the Internat One Mile, feature of the Knights of Columbus meeting last night but failed by a full second to equal the world's indoor record for the distance.

The 20,000 fans who packed Madison Square Garden also saw the sensational rise of Barney Berling, 19-year-old Freshman at the University of Pennsylvania, into the top rank of America's all-round Athlete. He galloped with first honors in the separation defeating such stars as Pat Elkins, of Nebraska, National title holder; Harold Osborn, Olympic champion and Emerson Morton, Osborn's Illinois A. C. teammate.

Hahn's failure to realize his ambition to break the indoor record for the mile of 4:32 held jointly by Paavo Nurmi and Joe Ray, was due chiefly to the fact that he was forced to make his own pace the whole way. Taking the lead with the gun, he pounded away steadily at a pace his rivals did not care to better.

PRINCE OF WALES WINS WELSH RACE

Tisbury, England, March 1.—(AP)—The Prince of Wales won the Welsh guards race of the Beaufort hunt point to point races here today.

AFRAID TO EAT
Bleating Spells, from Indigestion, Put an Oklahoma Man in a Miserable Fix, But He Found Relief.

Swink, Okla.—In describing how he suffered from indigestion, Mr. S. T. Strain, of this place, says:

"I have been a user of Black-Draught for four or five years. I have been taking it for stomach trouble. I suffered after eating with bloating and a 'tight feeling'."

"I had spells when I could not eat much of anything. I had severe headaches. I would be nauseated and hurt a lot. I was in a pretty bad fix."

"I began taking Black-Draught. It seemed to help me wonderfully. I hadn't found anything that benefited me as Black-Draught did. I certainly can recommend it."

"There were times when I just did without anything to eat until I was too weak to go. I was just miserable, and when I ate, my system seemed clogged."

"I had very severe headaches. So I didn't know just what to do. I knew I couldn't work if I didn't eat. Seemed like what I spit up was bitter as could be. I took Black-Draught pretty regularly and got where I could eat, and I don't have to take it so regularly now." NC 177

DELANEY AND HEENY WILL FIGHT TONIGHT

New York, March 1.—(AP)—Jack Delaney, of Bridgeport, Conn., and Tom Heeny, of New Zealand, move into the first part of Tex Rickard's new heavyweight elimination series in a 15-round bout at Madison Square Garden tonight. The winner probably will be accorded recognition as the next challenger of champion Gene Tunney.

When the boxers enter the ring they will be rated equally to take the victory, despite Heeny's advantage of some 20 pounds over Delaney in dipping out the result for this fight the majority of ring critics have straddled the fence.

Many observers feel that Delaney must knock out Heeny within the first six or seven rounds if he is to win. The New Zealander is considered a rugged boxer of the plugging type who absorbs plenty of punishment for the sake of wearing down his opponent. Heeny has never been counted out.

The Australian made an impressive showing in his recent draw with Jack Sharkey of Boston. Delaney scales about 176 to about 185 for Heeny.

Bancroft Joins Brooklyn.

New York, March 1.—(AP)—Davey Bancroft, formerly of the Phillies, Giants and Braves, has joined Wilbert Robinson's flock of Robins at Clearwater, Florida, and he likes the idea of being a mere player instead of a manager.

He said he was glad of the shift from pilot of the Braves to shortstop for Brooklyn. This is his 13th year in the majors.

The Giants reached Augusta late last night after the jaunt from Hot Springs, Ark. with several additions to the party, including Lefty O'Doul, the highly reputed outfielder of the Pacific Coast League.

PANTHER LOSES TO STRANGLER LEWIS

Kansas City, March 1.—(AP)—For the second time in two years Joe Malcewicz, Utica panther, has lost to Ed (Strangler) Lewis, the heavyweight wrestling champion, before either had won more than one fall in a scheduled finish match.

Malcewicz forfeited his match to Lewis here last night when he was unable to continue after the Strangler took the first fall with a deadlock in one hour and fifty minutes. The Utica Panther claimed to have suffered a torn ligament in the left shoulder. Malcewicz escaped from three headlocks but after his shoulders were pinned to the mat with a fourth headlock he was carried to his corner, apparently in a daze.

In their last meeting at Tulsa, Okla., in 1926, Lewis won a foul when Malcewicz hurled him from the ring after the Panther had won the first fall.

LaGrange, Ayden and Elm City were admitted to membership of the conference, bringing the total number of schools to seventeen.

Upon recommendation of Johnnie Johnson, of the Washington high school, the conference decided to award a trophy to the most outstanding player in each branch of athletics of the conference at the

TEACHOUT GOING GOOD WITH DETROIT TIGERS

Detroit, March 1.—(AP)—Of the army of recruits at the Detroit Tigers training camp in San Antonio, Texas, none has a better opportunity to get a regular berth than Arthur Teachout, a young southpaw pitcher from Hollywood of the Pacific Coast League.

The Tigers are badly in need of another pitcher to take over the relief pitching burden that last year fell to the lot of Earl Whitehill, star Bengal moundsman. Whitehill's efficiency was lessened considerably by relief work but manager Moriarty had no other left hander available to rush in on occasions when a southpaw's services were needed. Teachout is showing much promise Moriarty said.

WHITE SOX INSURE ROOKIE

CHICAGO, Mar. 1.—(AP)—The Chicago White Sox baseball club has insured its Costliest Rookie, Bill Cissell, for \$100,000. The policy was announced as Cissell engaged in his first workout with the Sox yesterday at Shreveport, La.

While the provisions of the policy have not been revealed, it is understood it will fully protect the club in case of the rookie's inability to play. Cissell was purchased by the Sox from the Portland Pacific Coast League club for \$123,000.

PHILADELPHIA HAS NEAR FULL SQUAD

PHILADELPHIA, Mar. 1.—(AP)—Nearly full squads are in the camps of the Philadelphia National and American League baseball teams.

Manager Mack of the Athletics wore a smile when Joe Hauser, hard hitting first baseman, took the field for his first workout at Fort Myers, Fla. Hauser was on the bench most of the 1925 and 1926 season with an injured knee cap. Last year he was sent to Kansas City and played through the season.

Yet to arrive are Tris Speaker and perhaps Ty Cobb, who Mack is reasonably certain will be with the Athletics again this year.

Four infielders have joined the Phillies squad at Winter Haven, Florida. Manager Shotton reported his battersmen gradually rounding into form.

MANY COACHES ATTEND N. E. A. MEETING HERE

Members of the Northeastern Athletic Conference met at the high school building in this city last night and completed organization of the conference. A majority of the fourteen towns comprising the conference were represented and considerable interest was manifested in discussion of plans for operation of the organization.

The session was presided over by J. A. Keech, principal of the Greenville high school. Preceding the business session dinner was served by the Home Economics Club of the high school under direction of Miss Mary Clark. The conference extended the bevy of young women a rising vote of thanks for the splendid style in which the meal was served after which members of the class entered the banquet room and were introduced to conference members.

Probably the most important matter considered during the session was that of a constitution. A prepared copy of the rules under which the organization is to function was placed in the hands of each school representative and was adopted section by section with only one or two minor changes. Discussion of eligibility rules drew varied and sundry opinions from the coaches, but it was decided to abide by rules of the state association during the coming baseball season.

The conference will play a schedule of twelve games during the coming baseball season which will probably open the latter part of March or about the first of April. A committee was named to draft a schedule. The committee is composed of Coaches McWhorter, of Wilson, Simpson, of Rocky Mount, and Porter, of Greenville.

The conference adopted the Spaulding baseball as the standard ball to be used by the various clubs during the coming season. Representatives of two other sporting goods concerns presented bids, but vote went in favor of the Spaulding representative. The contract provides for a trophy to be awarded the winner of the conference series.

LaGrange, Ayden and Elm City were admitted to membership of the conference, bringing the total number of schools to seventeen.

Upon recommendation of Johnnie Johnson, of the Washington high school, the conference decided to award a trophy to the most outstanding player in each branch of athletics of the conference at the

CAGE TOURNAMENT Gets Under Way In Raleigh Today

Raleigh, March 1.—(AP)—The third annual invitational basketball tournament for high schools got under way today at North Carolina state college, a total of 66 teams entered.

In class A ranking were 16 teams representing special chartered schools with enrollment of 300 or more in senior department; 24 in class B, special chartered schools with enrollment of less than 300 in senior department; and 26 in class C, rural high schools.

In class A were such teams as Greensboro, Greenville, Gastonia, Asheville, Kinston, Raleigh, High Point, and Wilson, all scheduled to play their first rounds tomorrow.

The schedule called for the playing off of two games at a time from this afternoon through Saturday night.

Champions last year were Hugh Morson High, Raleigh, class A, Dunn class B, and prospect, class C, all entered this year.

expiration of each season. The matter was referred to members of the executive committee who will determine the exact manner in which the ward will be made.

The report of Ed Peel, of Wilson, conference statistician, showed that Wilson emerged victorious in the conference basketball series. Greenville and Washington were hopelessly tied for second place. Wilson was heartily congratulated upon her success, and the executive committee was instructed to award some suitable trophy to the club.

President Keech said that in withdrawing from the State Athletic Conference members of the new organization had no ulterior motive in view, but did so for advancement of athletics in this immediate territory. "We are not a bunch of soreheads with a chip on our shoulder," he declared. "We have organized in order to meet the requirements of high schools on the North eastern district, and success of the basketball season just closed indicates that we have been successful."

An effort to establish a boundary line for the conference proved futile, but it was indicated this would be worked out at a later date when it has received more mature thought.

The conference at this time is composed of the following towns: Elizabeth City, Farmville, Goldsboro, Greenville, Hertford, Kinston, New Bern, Rich Square, Roanoke Rapids, Rocky Mount, Scotland Neck, Washington, Weldon, Wilson, Ayden, LaGrange and Elm City.

Impressive Six-Cylinder Performance at Its Most Impressive Price

PERFORMANCE—That's the outstanding factor in the sensational success of the New Series Pontiac Six! And real six-cylinder performance, too!

The power and high-speed endurance of the largest engine used in any six of its price class.

The smoothness and flexibility assured by the GMR cylinder head—that famous General Motors Research development available on no other low-priced six.

The reliability, economy and safety resulting from numerous other great new advancements in design—the cross-flow radiator with thermostat control, improved manifold and carburetor with accelerating pump, "down draft" crankcase ventilation, fuel pump with gasoline filter and four-wheel brakes.

Power and high-speed endurance—smoothness and flexibility—reliability, economy and safety... here, truly, is impressive six-cylinder performance at its most impressive price! Performance that no other low-priced six can possibly offer. Performance that is made even more delightful by vivid new style—by the luxury of new Fisher bodies—and by the convenience of such unexpected features as coincidental transmission and ignition lock, gasoline gauge on instrument panel, and tilting beam headlights with foot control.

See this lowest priced General Motors Six at any of the dealers listed below. Drive it. Compare it with any other car at or near its price—and you will know why everyone says it is the biggest, most beautiful, most modern six ever offered at \$745!

2-DOOR SEDAN \$745

LOCALS

Charles G. Moye, of Philadelphia, is visiting his mother, Mrs. M. G. Moye.

J. C. Galloway, of Grimesland, was here yesterday.

Miss Sallie Cowell has returned from a visit in Norfolk, Va.

Mr. and Mrs. Tom Knott, Mrs. Leslie Worthington and Mrs. Davis of Kinston were here yesterday.

Mrs. John Arthur and Mrs. Ed Stewart, of Washington, were here yesterday.

W. A. Knott and little son, of Kinston, were Greenville visitors yesterday.

Mrs. Roy Davenport and Mrs. A. D. McLawhorn, of Winterville, were here yesterday.

Mrs. J. B. Carroll, Jr., of Ayden, was here yesterday.

John Flanagan left last night for Norfolk, Va.

Mrs. James Campbell, of Atlanta, Ga., is the guest of her sister, Mrs. W. B. Wilson.

Mrs. W. E. Proctor, of Grimesland, was here today.

Mrs. George Jefferson, of Fountain, was here today.

Mr. and Mrs. Charles C. Skinner, of New York, who have been visiting relatives, left today for Tarboro.

Mrs. Frank Bendall has returned from a visit in Danville and Oxford.

Mrs. J. B. Cherry has returned from Baltimore.

R. L. Harris, Jr., in Baby Show.

In yesterday's list of babies the name of R. L. Harris, Jr., with 40 votes, should have appeared.

GREENVILLE PATRIOTS HOLD INTERESTING MEETING

In spite of the inclement weather of Saturday, Feb. 25, the Greenville Patriots Chapter D. A. R., had a most enjoyable meeting of the year at the lovely home of the Regent, Mrs. R. L. Smith.

Everyone was given a cordial welcome by Mrs. Smith and the assisting hostesses, Mrs. Earl Helton, Mrs. Louis Cooper and Miss Snodie Moore, at the front door, and were made to feel even more welcome by the cheerful log fire in the spacious living room with the colonial furnishings, which was a suitable setting for such an occasion.

After the Salute to the Flag and the American's Creed, the 23rd Psalm was read by the chaplain, Mrs. H. Frederick Jones, who also led in prayer.

In this year's program the members have prepared and read historic sketches of their ancestors and this historical research has been most interesting.

The afternoon program was Richard Caswell, Mrs. S. T. White, Peter Sanfrisco, Mrs. J. B. James, and Major Benjamin May, Mrs. Travis Hooker, Miss Jessie Moye, in colonial costume, sang a group of songs, in her usual charming manner, accompanied by Mrs. J. B. James.

It was a great honor and pleasure to have with us the state treasurer, Mrs. T. C. Turnage, of Farmville and the district chairman, Mrs. Jack Parrott, of Kinston, who gave instructive and inspiring talks, which made this meeting unusually interesting.

Miss Council, who represents a comedy "The Poor Nut," to be given at White's Theatre March 9, sponsored by the Woman's Club, made a short talk asking the cooperation of the chapter.

At the conclusion of the program, the guests were invited into the dining room where Mesdames Bay and Preston Tyson served moulded ice cream from silver platters at either end of the table, which was lovely with cover of imported lace with centerpiece of red carnations. From the dining room the guests were invited into the sun-parlor where Mrs. W. L. Hall poured coffee.

A Correction.
In the list given the Reflector yesterday for the baby show, the name of Ernest Alton Baker appeared. This should have been Ernest Alton Butler.

BLOUNT-HARVEY CO. DRESS SALE DRAWS LARGE CROWDS YESTERDAY AND TODAY

That it pays to advertise was thoroughly demonstrated yesterday and today by the Blount Harvey Co. in their two for \$15 dress sale as advertised in Tuesday and Wednesday's Daily Reflector. The Blount-Harvey Co. advertised this dress sale as "Greatest Dress Sale Greenville Has Ever Known," and that is just about what it proved to be to a reporter from this paper when he tried to find his wife at this dress sale in crowd of two or three hundred excited women trying to pick the best ones from over a thousand dresses. Some were buying dresses in pairs and some were running around looking for a partner to pair off with her in order that she might get the one dress she liked in the selection of over a thousand. One lady lost her dress in the mad rush and for over half an hour she was in a sad predicament until it was finally located. Yes, they were there from Washington, Tarboro, Goldsboro, Kinston, and all in between. And this proves that The Daily Reflector is not only a good advertising medium for trading area of Greenville but also it is capable of pulling trade from our sister cities.

Miss Sockwell, manager of Blount-Harvey's ready-to-wear department reports that nearly half of the thousand dresses advertised in The Reflector were sold the first day of the sale and that the results obtained were far beyond her expectations. Also that several hundred new dresses have just been received and will be on sale today and tomorrow.

WHAT CHURCH HAS THE PRETTIEST BABY IN TOWN?

Everybody in town must see the Beauty Baby parade Friday afternoon at 4 o'clock.

Every church has a baby in the "Beauty Baby" contest. Who will win?

Local Merchants Association Adds Four New Members

Four new members were added to the Greenville Merchants Association today, according to announcement made this morning by C. B. Rowlett, association secretary.

The new members are W. L. Best, Smith Electric Company, W. H. Bradsher Insurance Co., and Turnage & Winslow.

The addition of these new members brings the total membership of the organization to fifty-five. Mr. Rowlett said. The phenomenal growth of the institution is attributed to the splendid services rendered its membership.

A new sense of security comes with the use of FRIGIDAIRE

With Frigidaire in your home, cold-storage temperatures keep foods fresh and wholesome. Health is protected—constantly—every day in the year. Ask for a demonstration at our display room—today.

ABOUT TOWN

"The Greenville high school basketball team has had the best season financially of any team in the North Eastern Athletic conference", C. W. Porter, director of athletics of the local high school, told the writer of this column today.

"We cleared over two hundred dollars above expenses this season. This is a record most any high school organization would be glad to claim and we are proud of it."

"Members of the club desire to thank the local people for the fine support given them throughout the season, and wish to assure them that it helped materially in the good record the club was able to make."

"Success of North Eastern Athletic conference during the basketball season now being brought to a close has caused Ayden to desire to become a member of the conference", J. E. Sawyer, superintendent of Ayden schools told members of the conference assembled in session at the high school building in Greenville last night.

"We have been watching the operation of the conference for some time and are convinced that it is meeting the demands of the various high schools of its district. It is true many points remain to be worked out, but this may be done without the slightest conflict or inharmonious of any kind."

"Such things as eligibility rules have been a source of concern to conferences since the beginning of sports and organizations of the kind and they will continue to trouble us just as long as civilization stands. It is impossible to avoid some of the fine points developing from time to time, and the best way to handle them is along the line of other conferences."

"We have faith in the executive committee of the new conference, and are going to do our part in helping them make the organization

truly representative of this great section."

"Greenville's big baby show bids fair to be a greater success than at first anticipated", members of the Woman's club, asserted today.

"The numbers of entrants in the contest shows to what extent the public is interested in this effort to select the prettiest baby in the city. Proud fathers and mothers have rallied in a most commendable manner, and indications today were that final days of the contest would see heavy voting."

"The parade of the cherubian representatives of proud Greenville homes will take place Friday. This will be one of the most interesting features of the contest in that the public will get an opportunity of actually seeing the contestants. The parade will cover Evans street from Evans street school to the court house. It will be an unusual precipitation, she was presented with a huge bunch of bride roses tied with blue and yellow ribbons, by the Colonial Dames.

The Boys are Ready to Go.

Several South Greenville kids, armed with air guns were out on parade the other day. They said they were getting in trim to go lick Spain. Possibly the boys would be as ready to go as some of the elder folks.

Afraid of War.

Capt. J. T. Smith worked a joke on some of the boys of the Pitt County Rifles, Monday evening, by telling them the company was ordered to report in Wilmington in twenty-four. And they do say that one of the soldier boys actually cried.

Administrator's Sale

As administrator of the Estate of R. M. Williams, deceased, I will sell to the highest bidder for cash at the store and home of the said R. M. Williams, deceased at Black Jack in Chocowoc township, Pitt county, at ten o'clock a. m., Wednesday, March 21st, 1928 all the stock of goods and merchandise, which can be examined there by any one interested

three cows, two mules, one horse, lot of hogs, meat corn, one truck, automobile and farming implements, there are other things not enumerated.

This sale is made under order of the Court and for the purpose of closing up the estate of the said R. M. Williams, Deceased, who conducted business at Black Jack the place of sale.

This March 1st, 1928.
C. W. BILBRO, Administrator.
Mar. 1-15W-4wks.

Administrator's Notice

Having qualified as administrator upon the Estate of R. M. Williams, deceased, late of Black Jack, this county, all persons having accounts against said estate are hereby required to file the same with the undersigned at Greenville at once if possible, but if not filed within 12 months from date of this notice, such failure will be plead as a bar to any recovery thereon.

All persons indebted to said estate are requested to settle the same at this time.

This February 29, 1928.

Looking Backward

Items Taken From The Reflector Of Twenty and Thirty Years Ago

March 1, 1898.

MRS. COTTEN HONORED

The New Haven, Conn., Palladium gives a full account of the brilliant reception in that city given by Mrs. Godfrey Dunscomb in honor of the Colonial Dames from which we make the following extract:

"The special feature of the reception was the recitation by Mrs. Cotton, of North Carolina, of an original poem, 'Virginia Dare.' The poem, itself is really a remarkable bit of literature and Mrs. Cotton recites it beautifully. It is long, occupying an hour for delivery, yet not once does the author refer to her notes, and throughout the entire time, her enunciation is delightfully clear and the attention of the listener is never lost. Mrs. Dunscomb heard, Mrs. Cotton recite in Wash-

ington and induced her to come here.

"At the close of Mrs. Cotten's body will be more or less interested."

"Many out-of-town people were in the city yesterday taking advantage of the hundreds of bargains which Greenville merchants had to offer them", one of our observant and industrious citizens said today.

"I have never seen quite so much interest manifested in sales as was noticeable in the two or three in progress here this week. The great selling events are conducted by reputable concerns and this was sufficient to draw the crowds."

"Greenville is truly becoming the great trade center of this section of the country, and in the course of a few years I have no doubt but it will occupy a prominent place in the life of the state."

THE CHILD LABOR LAW

The trial and conviction this week of three persons in New Bern, charged with violation of the child labor laws, causes us to warn persons of this city to be careful in the employment of children and to see to it that when they do use children in carrying on their trade they do so within the law and with the view of safeguarding the child's future by not using him in kinds of work that will cause him to come into contact with demoralizing forces.

Under no circumstances can a child under the age of 12 years be employed in any kind of trade and after reaching the age of 12 years, but prior to the age of 14 years, no child can be employed for work in any trade other than between the hours of 6 a. m. and 7 p. m., and during this period only with the sanction of the welfare department. Before securing employment the boy must first have all possibility of becoming demoralized and contaminated by association with the public removed by obtaining a permit from the welfare department.

Information has come to this office that similar investigation as that made in New Bern may soon take place here, and that persons who are wilfully violating the child labor law will be prosecuted. If you are not already obeying the child labor law, see to it that you get your house in order now and that in the future you keep it that way. You owe it to your state to obey the law and you owe it to the children to help in every way possible to safeguard their future.

Market Report Cotton--Stocks--Grain

NEW YORK COTTON
New York, March 1.—(AP)—The cotton market was irregular today. An early advance of 8 to 15 points was followed by reactions to about yesterday's closing quotations under renewed realizing or liquidation. Otherwise offerings were light, and the market steadied in early afternoon on covering or trade buying, accompanied by reports of a continued steady spot situation.

Futures closed barely steady unchanged to 6 points lower. Spot steady; middling 18.95.

GRAIN MARKET.
Chicago, March 1.—(AP)—Despite heavy profit taking sales after the issuance of unofficial reports on farm reserves, grain prices averaged higher today, with corn trade especially active. Export buying of wheat was estimated at as much as 1,000,000 bushels, and number 2 and number 4 red winter wheat touched the highest prices yet this season. Oats and rye also outdid the season's previous top quotations.

Wheat closed irregular, half cent net lower to 1-2c advance; corn nervous 3-4 to 1 1/2c down, oats varying from 1 1/2c decline to 7-8c advance and provisions unchanged to 12 cents up.

STOCK MARKET
New York, March 1.—(AP)—Stock prices turned upward early this afternoon after an early period of irregularity. Short covering played an important part in the

buying movement, particularly in such issues as American Intl. Radio and Intl. Nickel, all of which recorded substantial gains. Net advances in the general list ran from 1 to 4 points, but these were interspersed with a sprinkling of losses almost as large.

Credit conditions were unchanged with call loans apparently in plentiful supply at the renewal figure of 4 1/2 per cent. The low yield basis of the New York City appropriate stock financing was widely interpreted as evidence of underlying ease of money conditions.

The general market presented a rather confused appearance. Bear traders continued to pick out new weak spots while bulls brought forward new favorites. Texas and Pacific Coal & Oil sank to a new low in reflection of the omission of the dividend. National Lead declined further in response to the relatively poor 1927 report, and Continental Baking A went into new low ground on growing fears for the safety of the dividend.

On the other hand, new peak prices for the year or longer were attained by Victor Talking Machine common and convertible preferred, Western Dairies A and B, Bayuk Cigars and Baldwin Locomotive. Montgomery Ward and Sears Roebuck rallied on reports of an increase in February sales.

The closing was irregular. Total sales approximated 1,800,000 shares.

Beautiful Florence Vidor Starred In Comedy "One Woman to Another."

Florence Vidor has been called the "best dressed star on the silver sheet." But living up to that title is a task. Miss Vidor will vouch for that statement herself.

In "One Woman to Another" which comes to the White Theater on Friday Miss Vidor wears thirty-two different gowns and frocks, which means that she has spent hours and hours with her designers in an attempt to create something

that will interest every feminine theater-goer.

"I have always worked under the belief that clothes make the woman," Miss Vidor said one day during the filming of a scene, "and that opinion is responsible in a measure for my success on the screen."

"But in saying that, I do not want to give the idea that all a girl needs to win fame on the stage or in pictures is a fine wardrobe. She must have charm and personality of course."

"I have seen ever so many girls appear over-dressed on the streets. You can be trim and neat and attract attention in even the simplest of gingham. It's all in the manner of wearing it."

"The well dressed woman doesn't go in for elaborate or highly colored clothes. She dresses the most simple of anyone. A person should dress to suit her taste, and that taste should befit her character, personality and status in life."

"In picture work, an actress must dress to fit the part she portrays. It's the same in every day life. A girl must dress to fit the character in which she wants the world to see her."

250 Pounds More Tobacco per Acre

Comparative Tests Show "AA QUALITY" Produces Greater Yield and Better Quality

1,000 POUNDS OF TOBACCO PER ACRE...
Mr. W. G. Webb and Sons of Beulah, Pitt County, N. C., says: "We have used 'AA QUALITY' fertilizer for the past 10 years, and have always found it to be in the best mechanical condition. At this time we have not sold any of our better grades of tobacco, but have made good averages according to our market this year. It has 8 acres that will average 1,100 lbs. of tobacco to the acre."—Oct. 12, 1927.

500 MORE POUNDS OF TOBACCO PER ACRE...
Mr. J. O. Stevens, Beulah, Pitt County, N. C., says: "This is the first year I ever used your goods, making a test with another make on tobacco. I planted two acres, using 950 lbs. of Patagon Fertilizer ('AA QUALITY') in the one, getting a yield of about 1,000 lbs. to the acre. From 8 acres where I used the other make, I will get about 700 lbs. to the acre. The difference in yield justifies me in recommending an 'AA QUALITY' fertilizer for tobacco."—Oct. 13, 1927.

BETTER TOBACCO WITH "AA QUALITY" GOODS...
Mr. John Webb of Pinebluff, Edgcombe Co., N. C., says: "With the exception of one year, 1918, I have used your Imperial Fertilizer ('AA QUALITY') for 20 consecutive years. Each year I have grown excellent tobacco crops, except in 1919. I used another make of fertilizer that year, even though it was a good crop season. I failed. This year I planted some acres using your fertilizer at the rate of 1,000 lbs. per acre. I feel that I can grow better tobacco with your fertilizer than with any other make."—July 5, 1927.

Last season Mr. A. M. Webb, of Greenville, Pitt County, N. C., made a comparative test between "AA QUALITY" Fertilizer and another make of the same analysis. He wanted to know which would give the best tobacco results. Here is what he wrote on October 6, 1927:

"This year I used 1,000 pounds to the acre of 'AA QUALITY' Fertilizer on nine acres, and have one of the finest crops I ever raised. We used another make of the same analysis on another field, and I am satisfied we will get 250 pounds more to the acre and better quality where we used your goods."

Hundreds of successful tobacco growers use "AA QUALITY" Fertilizers exclusively. The reason is obvious. "AA QUALITY" Fertilizers bring maximum results. These fertilizers, year in, year out, produce more tobacco, better tobacco—greater profits.

"AA QUALITY" Fertilizers are made by the largest fertilizer manufacturing company in the world. Their perfect mechanical condition is assured by thorough blending, complete curing and remilling.

Insist on "AA QUALITY" goods this season.

PLANS APPEAL IN COLBY CASE

Divorce Suit of American To Be Carried to Higher Court For Consideration.

Paris, March 1.—(AP)—Decision of the Versailles tribunal that it was without jurisdiction in the petition of Bainbridge Colby for divorce is to be appealed. The decision has raised fears that Americans in the future will find it difficult to get Paris divorces.

Alexander Millerand, formerly President of France, who is counsel for the former American Secretary of War, said he intended to appeal as soon as he had opportunity to consult with his client. The court in deciding that it was without jurisdiction in the plea of Mr. Colby for a divorce from the former Nathalie Sedgwick, of Stockbridge, Mass., said he had apprehended the retail grocery business for instance.

In Chicago, insurance companies notify the citizens that they will insure against bombing of buildings by various branches of crime, bootleggers, competing labor organizations, etc. If you can't discourage crime, the next best is to insure against it—although it doesn't help much if you happen to be at home, for the bombing.

Stefansson, Arctic explorer, tests in a hospital, under medical supervision, a diet consisting exclusively of fresh meat and water. Thousands within the Arctic circle live on such a diet for months at a time, some of them eating as much as 20 pounds of fresh meat in a day.

But it is not a good diet. Men were put on the earth to cultivate it, and should eat all of its products, the spices and the oranges of the south, and the red meat from the south. But if compelled to choose between all meat and all vegetables, choose the meat.

By not given up his home in the United States, although he had been living in France for eleven months.

In selecting a prominent case to render such a decision, the French court was regarded in some legal circles to have sounded the death knell of easy divorce.

An appeal will open up the prospect of long and intricate litigation, for the question of domicile upon which judgment turns in one of the knottiest questions in law. Hitherto the courts have been satisfied with a continuous occupancy of six months. In recent years it has been the practice of Americans merely to rent a room or apartment in Paris or vicinity and call that their legal residence.

Mr. Colby arrived in Paris early

last spring and announced publicly that he had come to get a divorce. He took an apartment in Avenue Niel, but later decided to file suit at Versailles and rented a house a few miles from there. He let several months pass before filing at the end of the summer, his lawyer explaining that he wanted to conform strictly to French laws, even to the extent of sending the papers to America and having them served there upon his wife.

New York, March 1.—(AP)—The New York Daily News today quotes Mrs. Bainbridge Sedgwick Colby whose husband was denied a divorce in Paris, as saying, "Bainbridges never seems to get what he wants."

The Daily News also quotes Mrs. Winifred Sackville Stoner, mother of Winifred Sackville Stoner, 2nd, whose name often had been linked with that of Mr. Colby, as denying that her daughter is engaged to the former Secretary of State.

"My daughter regards Mr. Colby as an old friend," said Mrs. Stoner. "While it is true that he admires her, Winifred doesn't want to marry him. I am glad that he didn't get a divorce, and I think that he ought to go back to his wife."

TODAY
(Continued from Page One.)

You probably will not live as long but you will think more. A vegetable diet is not good for thinking.

Stock of a street car trust in New York hopped up on the stock exchange yesterday. A learned United States judge ordered authorities to show cause why that trust should not increase its fare from five to seven cents. That increase would mean about forty million more dollars a year, taken from the pockets of the working people of New York.

One "cause" that could be mentioned is the fact that the street car monopoly has contract with the city limiting fares to five cents. In

NOTE—It would be illegal to publish this if not true.

GOITRE OPERATION PREVENTED

Savannah Lady Tells Experience With Colorless Liniment.

Mrs. A. D. Snow, 1013 East 35th St., Savannah, Ga., says in her own home paper, the Savannah News, "Several years I suffered agony. I could not even bear beads about my neck. Also suffered from headache and shortness of breath. Was very nervous and my eyes became bad. An operation was finally advised. I then tried Sorbol Quadruple. After using 1 1-2 bottles I felt no effects of the terrible goitre and my neck was reduced to normal. Will answer any letter as I feel I am doing real missionary service."

Sorbol Quadruple is not expensive and is pleasant and easy to use. Made by Sorbol Company, Mechanicsburg, Ohio. Sold by all druggists, locally at Warren Drug Co.

Woman Eats Only Baby Foot 3 Years

"For 3 years I ate only baby food, everything else formed gas. Now, thanks to Adlerika, I eat everything and enjoy life." — Mrs. M. Gunn.

Even the FIRST spoonful of Adlerika relieves gas on the stomach and removes astonishing amounts of old waste matter from the system. Makes you enjoy your meals and sleep better. No matter what you have tried for your stomach and bowels, Adlerika will surprise you. Warren Drug Co.

COLDS THAT DEVELOP INTO PNEUMONIA

Persistent coughs and colds lead to serious trouble. You can stop them now with Cromulsion, an emulsified crocote that is pleasant to take. Cromulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, crocote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Cromulsion contains, in addition to crocote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the crocote goes on to the stomach, it is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Cromulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. (Adv.)

Believe Rejected Suitor Dynamited Fair Lady's Home

Columbia, N. C., Mar. 1.—(AP)—That the ire of a man, described as a rejected suitor, resulting in the placing of a dynamite charge that blew a hole in the floor of the room where Mrs. Lena Snell Johnson, a widow of Columbia and Miss Mae Sawyer, a friend, were sleeping was the theory upon which officers investigating the dynamiting of the home were working today.

The explosion, wrecking a section of the building here, throwing the women from their beds, and endangering their lives, occurred in the dead hours of early Tuesday morning. Mrs. Johnson and Miss Sawyer escaped from the room after extinguishing themselves from the wreckage by crawling through the hole torn in the floor.
