SOUTHERN CROSS ARRIVES AT SUVA AND PREPARES TO TAKE OFF FOR AUSTRALIA

Four Fliers Cover 5,538 Miles in Two Hops on Projected Trip to Australian City.

Suva, Fiji Islands, June 5.—(AP)—(Wednesday)—Having successfully traversed approximately 5,538 miles of ocean between Oakland, Cal., Hawaii and Suva, the fliers of the monoplane Southern Cross started preparations here today for the next 1700-mile hop to Brisbane, en route to Sydney, Australia.

After a long rest last night to make up for the more than 33 weary, tempestuous, anxiety fraught hours that were passed during their flight from Kaula, an island of the Hawaiian group, to Suva, the two Australian and two American airmen emerged from their hotel room here today refreshed and keenly interested in the work that lay before them.

There were many things to be done; checking of the gasoline supply remaining in the fuel tanks of the Southern Cross; locating of a site from which the refueled plane can take off safely for its flight over the sea toward Australia; examination of the three motors that labored faithfully through miles and storms, and to study weather charts and maps to decide the time and course of the shortest but perhaps the most hazardous leg of the unprecedented flight.

Captain Charles Kingsford-Smith, Australian pilot; Charles Ulm, Australian co-pilot; Harry W. Lyon, former sea skipper and navigator, and James Warner, radio operator, were regarded as quite important personages in Suva today. They were objects of admiration by all from the bushy haired native Fijians to the white inhabitants. The four men who flew in from the sea yesterday afternoon in the strange powerful blue and silver bird of cloth, wood and steel were centers of attraction wherever they went.

One of the most important problems before the fliers was to select a takeoff point. Albert Park, where the Southern Cross landed yesterday afternoon, was barely large enough to accommodate the plane in its arrival. Unweighed by a large store of gasoline, the pilots missed running into the side of the enclosure but by twenty yards and then only by making a sharp left turn up onto a rise ground.

Taking off with 900 gallons of gasoline and oil, the amount estimated required for the flight to Australia, will require a straight runway heading into the wind.

Kingsford-Smith intimated that he intended looking over a stretch of beach near the city, a sandy level bit of ground that might accommodate the plane during low tide. Possibly, he thought, there might be other places even more suitable.

A public holiday was declared here today in honor of the Southern Cross and its Australian-American crew who arrived here at 6:23 p. m. (Pacific coast time Monday) after a flight overseas of 3,132 miles from Hawaii.

The plane was the first ever seen in Suva and it excited the wonderment of thousands of natives, and the admiration of their more traveled European and American friends.

Four grimed, temporarily deaf, airmen climbed from the monoplane and asked for cigarettes as its propellers ceased whirling and it came to rest in Albert Park. The cigarettes were forthcoming speedily.

For 34 hours and 33 minutes Captain Kingsford-Smith, his co-pilot, Charles Ulm, Navigator Harry W. Lyon and Radioman James Warner had heard the roar of their three motors and the whistling of stormy winds. With the motors silent the men scarcely heard the thunderous cheers of thousands of white men, Fijians, East Indians and Polynesians who had come from surrounding districts to witness the arrival of the white man's bird from across the waters.

The fliers were unanimous in agreeing that each member of the crew contributed invaluable service toward the success of the flight thus far. During a reception in the Grand Pacific Hotel shortly after the plane landed, the Mayor of Suva landed Captain Kingsford-Smith, pilot of the expedition. The captain parried the compliment by saying that had it not been for his two American friends, Lyon and Warner, he could not have accomplished the trip successfully.

Then Warner spoke by saying that during the crew's anxiety during the severe rain, thunder and lightning storm of Sunday night when the plane was midway between the Hawaiian and Fiji islands, it was fully realized that "Smithy" was the only man that

Seven Injured When Trolley Cars Crash At Decatur, Georgia

SEVEN INJURED—yva Decatur, Ga., June 5.—(AP)—Seven persons were injured, several seriously, today when two Stone Mountain to Atlanta interurban trolley cars crashed head on here.

Officials of the Georgia Power Company which operates the line, announced that a preliminary investigation showed a faulty light signal caused the crash.

The injured: Joe Wallace, motorman of the inbound car, internal injuries and cuts. Miss Engenio McSweeney, Clarkson, injured about neck and face. Miss Maryna Maddox, Stone Mountain, cuts and bruises about face and shoulders.

H. M. Askew, Atlanta, slight cuts and bruises. An unidentified seed man who was thrown through a glass door and severely cut.

An unidentified woman and her seven-year old daughter who were taken to an Atlanta hospital for treatment of bruises and lacerations.

Would Increase Alcohol Rates

Washington, June 5.—(AP)—A move by railroads to impose special extra charges on shipments of alcoholic liquors through southern territory for the purpose of meeting the cost of policing, was taken under examination today by the interstate commerce commission.

The Louisville & Nashville, Illinois Central, Mobile and Ohio and other Southern lines joined in asking permission to put the new schedules into effect today. They involved an extra charge of \$10 a car on alcohol moved 100 miles with charges rising to a maximum of \$46 a car for distances of 1,000 miles.

The commission ordered the new charges suspended for ninety days and arranged to hold a meeting at Louisville July 2 to consider the justice of the proposal. After a previous investigation the commission allowed a number of railroads in other than southern territory to make similar charges on the ground that the shipments had to be protected against an extraordinary amount of pilferage and raiding.

Stores To Begin Closing On Wednesday June 13

The movement to bring about general closing of business houses and public buildings at the noon hour every Wednesday throughout the hot summer months received greater impetus today with announcement that over forty merchants, the court house and city officials, had signed up to observe the closing hour. The closing date will begin Wednesday, June 13th, and continue through August 28th.

Under this plan hundreds of employees of the various stores and business houses of the city will have an opportunity of spending the half holiday at some resort, resting up for the strenuous activities of the remainder of the week. Merchants who took part in the closing program last year expressed opinion that the general health of their employees was greatly improved and that they were able to perform with greater efficiency during the fall and winter months.

Those behind the movement are of the opinion the closing this year

GUERRY STILL IN BAD SHAPE

Charleston Minister, Who Was Shot Yesterday, In Very Serious Condition.

Charleston, S. C., June 5.—(AP)—The condition of the Rt. Rev. William A. Guerry, Protestant Episcopal bishop of the South Carolina diocese who was shot yesterday by the Rev. J. H. Woodward, was reported at 9:30 today as "unchanged and still very serious."

The man who shot Bishop Guerry yesterday, the Rev. J. H. Woodward of Brunswick, Ga., turned the gun on himself after wounding his superior and was dying when Miss Henrietta P. Jerry, secretary to the bishop, ran into the latter's office after hearing two shots. Bishop Guerry was unconscious, but regained his senses after an operation last night which removed a pistol ball from his chest.

Woodward, a minister for twenty years is believed to have been mentally unbalanced. When he entered the diocesan headquarters he told Miss Jerry that he wished to talk to Bishop Guerry about the retirement age of ministers. A check for \$50 made out to Woodward and signed by the bishop was found after the shooting.

Several years ago Woodward clashed with the bishop, when the latter sought a suffragan bishop for work among the negroes of the diocese, and made attacks on Bishop Guerry in statements and speeches. Woodward was retired after this but retained a canonical connection with the diocese.

While serving as pastor of a church at Gluffton, S. C., Woodward shot and killed a negro burglar. His friends say he never completely recovered from the shock of this incident.

Bishop Guerry, a graduate of the University of the South, became bishop of the South Carolina diocese in 1908.

An inquest into Woodward's death was called today with Miss Jerry the principal witness.

Defer Mail Leave Flight

Richmond, Va., June 5.—(AP)—A heavy fog caused local airport officials to call off the flight late last night of the southbound mail plane over the New York to Atlanta air route the service will be resumed tonight if weather conditions permit. It was announced.

Stewart Case Rested Today

Washington, June 5.—(AP)—The case against Robert W. Stewart for refusing to answer questions in the Senate Continental Trading Company inquiry was rested today by the government, and the defense got under way immediately.

The government introduced several routine documents before sitting. Frank J. Hogan, counsel for Stewart, then launched into an argument against holding Stewart accountable for each refusal to answer a specific question. He recalled that Stewart had refused to answer the same two questions on two successive days, and contended that under the law this did not justify the four counts for refusing which are included in the indictment. The jury was excluded during Hogan's argument.

Fireman Beaten and Robbed. Charlotte, June 5.—(AP)—W. Graham Cathey, 23, a member of the fire department here, was found lying in the street in an unconscious condition early today by a negro who telephoned police headquarters and left the scene before officers could arrive.

The fireman's skull was fractured and a piece of concrete the size of doubled fists was nearby. Friends say Cathey was in habit of carrying a sum of between \$40 and \$60 in his pockets.

BOMB TRAIN OF CHINESE WAR LEADER

Marshal Chang Tso-lin Reported Killed But Statement Was Not Confirmed.

Tokyo, June 5.—(AP)—The Mukden correspondent of the Japanese newspaper, Jiji Shimpo, today reported that Chang Tso-lin, once Northern dictator, had died from injuries received when his train was bombed yesterday. There was no confirmation of this from any other source. The correspondent said that news of Chang's death was being kept secret.

A Japanese communication, however, confirmed the death of Wu Chun-sheng, military governor of Heilungkiang. Wu had risen from the ranks to become virtually the acting governor of Manchuria.

Mo Teh-hui advisers were in a serious condition today. Premier Pan Fu was reported to be suffering from the shock.

Both Chinese and Japanese authorities at Mukden were investigating the outrage. Press dispatches said that demonstrations of anti-Japanese feeling among the Chinese had calmed down when it was established that the Japanese had no connection with the bombing.

Japanese official quarters appeared confident today that there would be no serious disturbances necessitating the sending of additional Japanese troops. Five thousand soldiers are in Mukden at present and it was thought that this force would be sufficient to deal with any emergency.

Peking, June 5.—(AP)—Chang Hsueh-liang, eldest son of Marshal Chang Tso-lin, the former Northern dictator, was enroute to Mukden, Manchuria, today in response to news of the bombing of his father's special train.

With only a few Manchurians now remaining in the Peking area, the entry of the Shansi-Nationalist troops into Peking is expected within two or three days. All the military leaders and members of the cabinet now attached to the Northern government have departed and the city is now awaiting the arrival of the Southerners.

Further advices from Mukden concerning the bombing of Chang's train say that it was believed the explosives must have been planted on the track and set off by electricity, rather than hand bombs thrown by Chang's train. It is estimated that the Peking-Mukden railway, which is Chinese owned, lost \$200,000 (Mexican dollars) in damaged trackage and rolling stock while the Japanese-owned South Manchuria railway probably lost \$50,000 (Mexican). The South Manchuria railway runs above the Peking-Mukden railway at the crossing which was the scene of the explosion.

Confirmation was received today that Wu Chun-sheng, military governor of the province of Neilungkiang, died in the explosion.

Shanghai, June 5.—(AP)—The railway bridge at the Yangtsun, 18 miles northwest of Tientsin, is reported to have been blown up, thus holding up the withdrawal of two Manchurian army corps to Mukden.

Colonel Lindbergh Reaches St. Louis

St. Louis, June 5.—(AP)—Unreported since 1 p. m. yesterday when he left Fort Worth, Texas, Colonel Charles Lindbergh landed at Lambert-St. Louis field at 10:30 a. m. today a half hour after the start of Washington University commencement exercises at which the degree of master of science was awarded "in absentia" to the famous flier.

Col. Lindbergh said he spent the night on the farm of T. V. Lewis, 45 miles southwest of St. Louis. He landed there in his Ryan monoplane about midnight with his two passengers, Major Thomas G. Lamphier, of the first pursuit group and Col. Henry Breckenbridge, his attorney.

Dr. Brewer To Deliver Finals Address Tonight

Final exercises in connection with the commencement of the Greenville high school will be held at the campus building of East Carolina Teachers College tonight at eight o'clock.

The annual literary address will be delivered by Dr. Charles E. Brewer, president of Meredith College.

Diplomas will be presented by J. L. Little, chairman of the board of trustees. There are sixty-six graduates this year, the largest number in the history of the school, or of any school in Eastern North Carolina.

Musie will be furnished by the high school orchestra.

Wilson Funeral Be Held Thursday

Funeral services for Walter B. Wilson, Jr., will be conducted at Cherry Hill cemetery on Thursday afternoon at 4:30 o'clock. The services originally planned for tomorrow afternoon, were postponed when it was learned today that the body would not arrive here until tomorrow morning at ten o'clock.

BOLL FLIGHT WILL NOT BE MADE TODAY

Woman Will Not be Able to Take off Across Atlantic For Several Days.

New York, June 5.—(AP)—A race between two American women for the honor of being the first to fly the North Atlantic was in prospect today.

With Miss Amelia Earhart waiting at Trepassey, N. F., for a take-off in the seaplane Friendship, Miss Mabel Boll was making hurried preparations at Curtiss Field for a take-off in Charles A. Levine's trans-Atlantic monoplane Columbia.

Although Miss Boll announced she would take off today indications at the field were that a take-off would not be possible for some time. Mr. Levine said it would be several days, making Miss Boll's hopes dependent on a delay in the Friendship's attempt.

Unofficially it was said that Oliver G. Le Boutillier of East Orange, N. J., would be in the pilot's seat if and when a take-off was made. Miss Boll had announced after her flight to Havana with Levine and Wilmer Stultz, pilot of the Friendship, that the latter would pilot her on an ocean flight. She burst into tears when she learned he had taken off "with that other woman."

Carpenter Wins Honors at Duke

Durham, June 5.—(AP)—C. Ray Carpenter of Cherryville, today possessed the coveted Wiley Gray medal after winning the annual oratorical contest at Duke University over three opponents. His subject was "Peace and the International Mind."

Charles Weaver, Jr., Winston-Salem, won the Robert E. Lee \$100 prize offered to the senior excelling in scholarship and athletic achievement.

Everett B. Weatherspoon, Durham won the Robert Spencer Bell \$100 prize offered to the self-help student excelling in scholarship.

Talmadge Peele, Raleigh, won the Geo. F. Ivey science prize. Herman Walker, Jr., Bradenton, Fla., won the \$75 Parker physics cup.

Murray Walters, Monroe, received the Columbian literary society orator's medal while W. A. Hart, Easley, S. C., received the freshman debater's medal.

NEW YORK WOMAN DEFENDS MODERN YOUTH

San Antonio, June 5.—(AP)—Modern youth was stoutly defended here today by Mrs. Laura Kuykendall of New York, who told the biennial convention of the General Federation of Women's Club that the slang phrase "apple sauce" was the younger generation's triumphant reaction of the hokum which once fooled parents.

"Our youth of today is less credulous, less curiously suggestible, keener to detect insincerity and hokum than formerly," she said.

"Their minds go straight to the bottom of things. Youth is too keen to be misled by the things that misled the older generations. The old hokum of spurious religion does not appeal to them. The old hokum of convention does not appeal to them, but they are susceptible to much new hokum—jazz music, petting and silly nonsense and rough and direct laughter."

THINK ITALIA NOW SAFE AT FRANZ JOSEZ

Soviet Commission Convinced That General Nobile Landed in Northland.

Moscow, Russia, June 5.—(AP)—The Soviet meteorological station in Siberia reported today that it had picked up what was believed to be an SOS from the missing dirigible Italia, but that the location could not be secured.

Two other Siberian stations, SOB and PUR reported hearing the same call.

Moscow, June 5.—(AP)—The Soviet rescue commission, which is planning to send an expedition to Franz Josef land to seek the missing dirigible Italia, was further convinced today that General Nobile had descended at that place by reports of new wireless messages picked up as late as 7:55 last night thought to be directly from the Italia.

Advices received from Murmansk today said that a message from the Italian announcing her descent on Franz Josef Land had been picked up by the wireless station at Obdorsk, Tobolsk, Siberia.

The Trawler Louchinsky off the Murman coast, also reported hearing calls believed to be from the Italia but that she was unable to pick up actual communication because of atmospheric interference.

Kings Bay, Spitzbergen, June 5.—(AP)—Reports from Russia that wireless messages had been picked up from the dirigible Italia stating that she had landed on Franz Josef Land are meeting with much skepticism among the searchers at Kings Bay.

The theory supported by Lieut. Luetzowholm, Norwegian flier who is now en route to north Spitzbergen to take up the search from the air, is that the Italia descended on the polar ice north of Spitzbergen, and that there was very little chance she was blown to Franz Josef Land.

There is a possibility that dog teams will be sent to Northeast Land across Hinlopen Straits from west Spitzbergen to explore this seldom visited region.

The Tobby, with Lieutenant Holm aboard, was believed to have reached Virgo Bay this afternoon and it was thought probable that the Norwegian plane would make a reconnaissance since the weather was favorable for flying.

SAYS ENLISTE DMEN ARE NOT 'GOBS'

San Diego, Calif., June 5.—(AP)—The commander in chief of the United States fleet has decided that enlisted men of the navy are not "Gobs."

In a letter to the fleet here, Admiral H. A. Wiley said: "The commander in chief of the United States fleet has noticed the use of the word 'Gob' in ship's newspapers. The word is undignified and unworthy. Discontinue its use."

To Distribute Dividends

New York, June 5.—(AP)—George J. Wheeler, president of the Union Tobacco Company, announced today a plan for distributing a stock dividend of approximately \$7,500,000 among the company's jobbers and retailers.

Hoover Backers Prepare To Put Pep In Campaign

Kansas City, June 5.—(AP)—Riding on the wave of victories in the first of the delegate contests decided by the Republican national committee, Herbert Hoover's backers squared away today to put additional punch in their drive for the Presidential nomination in the face of a determined opposition that is passing the word it has just begun to fight.

The Republican convention, after a long session of political speculation, will get down to business a week from today. Before then developments may put a new light on the situation which as it stands today has many uncertainties. What is in store not even the wisest seers cared to venture.

Success yesterday in placing 11 southern delegates, whose credentials had been challenged, definitely in the Hoover bag bolstered the optimism of the commerce secretary's political lieutenants, especially James W. Good, his manager, who all along has insisted that his candidate would go over on one of the early ballots.

On the other hand, both the Lowden and Hoover campaign directors, already on the firing line,

Mayor Oscar F. Holcombe, a former newsboy, will welcome the Democrats to Houston when they meet in June to select their nominee for president. He is being honored for democratic gubernatorial nomination in 1930.

ARREST FIVE FOR ROBBERY

Three Men and Two Women Held at Hammond for Complicity in Robberies.

Hammond, Ind., June 5.—(AP)—Four bank robberies in Indiana, Ohio, and Missouri in which loot of several thousand dollars was taken were believed by the police here to have been cleared up today with the arrest of three men and two women. Some of those under arrest have confessed, the police said.

Those under arrest are Charles Meakley, 32, alias Albert Owens and Charles McCray; Eddie Meadows, 33; Leo Wheatley, 32; Mrs. Gladys Wheatley, 27, and Mrs. Edith Owens, 29; Meakley's sister-in-law.

Mrs. Wheatley, the police said, confessed, implicating the members of the band in the following robberies:

Robbery of a bank in Kansas City in 1925 of \$250,000.

Robbery of a bank in Portland, Ind., September 30, 1926, of \$25,000.

Robbery of a bank in Lynn Grove, Ind., bank on March 27, of \$1,600.

Robbery of a bank in St. Henry, Ohio, six weeks ago.

The greatest safety factor, however, is the long pontoons springing from the undercarriage, making it the first plane to be equipped for the flight from America to Europe.

An intimation that the Friendship might fly beyond England was given by Miss Earhart, Pilot Wilmer Stultz and mechanic Louis Gordon in conversation here this morning. They said that their plan for a landing place on the other side of the Atlantic were indefinite. Their purpose, they said, was to fly until their fuel was exhausted and then descend, and they hoped to make a longer flight than any of their predecessors over this route.

At 8 A. M. eastern daylight time the wind was still too strong for a resumption of refueling operations. The visibility was perfect.

Prepares Answer In Slander Suit

Detroit, June 5.—(AP)—An answer to the \$500,000 suit alleging slander filed in Washington by Howe F. Cochran, tax consultant, against Senator James Couzens, will be prepared by Arthur J. Lacy, his personal counsel, the senator said here today. Until Mr. Lacy has determined the proper course to follow, Senator Couzens said he could not outline what action would be taken. "The suit will not be a default, however," he added.

"Whether I can claim 'statutory immunity' or not is a thing that will be determined by Mr. Lacy."

Cochran charges Senator Couzens slandered him in a speech in the senate April 12 when he declared Cochran was endeavoring to obtain a fee of \$1,500,000 for his services in the then pending treasury suit to collect some \$30,000,000 additional taxes from former stockholders of the Ford Motor Company.

Noted Bishop Dies Suddenly

Baltimore, June 5.—(AP)—Illness which interrupted his duties at the New York conference and later caused his collapse while delivering an address at the general conference of the Methodist Episcopal church at Kansas City last night brought about the death of Right Rev. Luther Barton Wilson, retired resident bishop of the New York area, at his home here.

Bishop Wilson, who had served for many years as president of the anti-saloon league, had been subjected to a heart affliction thought to have resulted from a fever contracted in Africa.

FOKKER PLANE READY TO TAKE THE AIR TODAY

Wilmer Stultz And Miss Earhart Wait At Trepassey Till Wind Subsides.

Trepassey, N. F., June 5.—(AP)—Refueling of the monoplane Friendship was completed this afternoon. The aviators, Miss Amelia Earhart, Wilmer Stultz, and Louis Gordon, were awaiting an abatement of the high wind before starting their trans-Atlantic flight.

Trepassey, N. F., June 5.—(AP)—The big red and gold Fokker monoplane Friendship was riding the harbor swell today awaiting the pull of its three motors and the pilot's hand to carry a fair-haired American girl and two male companions out over the Atlantic towards England.

All things seemed propitious for this year's first attempt to make the eastward air passage. Fair weather and a following wind were forecast.

Knocking off work at sundown with seven more casks of gasoline to be poured into their plane's tanks, Miss Amelia Earhart 30-year old Boston social service worker, William Stultz, pilot, and Louis Gordon, mechanic, rested through the night for the arduous hours ahead of them.

Clad in brown knickers and high laced boots, Miss Earhart appeared to be in high spirits on the eve of her great adventure, backed by an organization headed by George Palmer Putnam New York publisher and Arctic explorer.

Every precaution was taken to make the flight as safe as possible. The plane has three motors, any two of which will keep it in flight; it has been given extensive tests lasting over a period of seven weeks as to fuel consumption, lifting capacity and air speed; it is equipped with pontoons and carries two radio sets. An emergency one can be operated even if the plane is forced down, and the motors are silenced.

In tests at Boston the plane showed it was capable of carrying enough gasoline to take it safely across the Atlantic. It has an estimated average cruising speed of 100 miles an hour and should make the flight under favorable conditions in 30 to 40 hours.

The greatest safety factor, however, is the long pontoons springing from the undercarriage, making it the first plane to be equipped for the flight from America to Europe.

An intimation that the Friendship might fly beyond England was given by Miss Earhart, Pilot Wilmer Stultz and mechanic Louis Gordon in conversation here this morning. They said that their plan for a landing place on the other side of the Atlantic were indefinite. Their purpose, they said, was to fly until their fuel was exhausted and then descend, and they hoped to make a longer flight than any of their predecessors over this route.

At 8 A. M. eastern daylight time the wind was still too strong for a resumption of refueling operations. The visibility was perfect.

LOCALS DROP FAST CONTEST TO GOLDBUGS

Greenville dropped the first game of the series to Goldsboro yesterday afternoon in what is generally termed as one of the fastest games seen on the Manufacturers' diamond this season. The score was 3 to 1.

Hurling a superior brand of ball, Parker, manufacturer hurler, held the visiting Tobaccoists to two scratch hits and a home run by Finlator. The circuit clout came in the seventh frame with no men on bases. The horseshoe sailed far out over the fence into a clump of trees, setting a record for long distance drives on that diamond.

Finlator, Williams and Culloty were the only members of the Greenville club able to connect for safeties, while Daughtry and Harrison led for the Goldbugs.

Greenville will conclude the series with the Goldbugs this afternoon, and will return home tomorrow to take on Kinston.

Duke, 38, Seeks 4th Olympic Berth

*"Iron Duke" Kahanamoku
Thirty-eight years old but out again for the Olympics.*

Ripping through the water at the old championship clip, Duke Kahanamoku at 38 still is good enough to convince experts he has Olympic team possibilities. He has been churning in the sprint events since 1911.

Los Angeles. (AP)—Thirty-eight years old but still trying for new athletic achievements, Duke Kahanamoku, one of the greatest swimmers that ever splashed the water, seeks a fourth Olympic games' berth.

The passing years have brought forth new satellites to make his task more difficult, but the veteran Hawaiian has kept pretty well abreast of "Father Time," so the experts concede him a good chance of attaining his new goal.

The dusky skinned islander, famous the world over for his sprint paddling, still is in fine physical condition. The Duke blazed into the aquatic world in 1911 by setting new world's marks in the 50 and 100 yard free style races. His time was 24 1-5 and 55 1-5 seconds, respectively.

Kahanamoku's 100 yard open straightaway mark was not broken until 1922. Then Johnny Weismuller flashed across the century distance one second faster than the Duke's time.

The Hawaiian still holds the 50 yard record but since 1911 he has altered it down to 22 2-5 seconds. During the Olympic trials in 1912, Kahanamoku won the 100 meters title and swam on the winning relay team.

In the 1920 contests at Antwerp he set a new world's record for the 100 meters event. The relentless Weismuller was forced to a new mark to beat the Duke to the tape in the century event in the Paris games of 1924.

Kinston Takes Two Games off Of Highlanders

(By the Associated Press)
With a burst of unexpected form the Kinston Steamers turned in their figurative cellar game yesterday and lambasted the Fayetteville Highlanders to take both ends of a double bill. Winning the first 10 to 6, they turned around in the night cap and increased their lead taking that one 7 to 0.

The Goldsboro Goldbugs, ensconced in the top berth, were unshaken by the Greenville Tobaccoists whom they turned back 3 to 1 behind the fine pitching of Parker. The Wilmington Pirates were turned back by the Rocky Mount Buccaneers; by bunched hits in the first inning that accounted for 4 runs and cost the Pirates the game, 4 to 3.

FINLATOR IS LEADING TEAM WITH WILLOW HORNSBY IS DOING SOME HARD HITTING

Buck Finlator, who was acquired about 10 days ago for the right field position with the Tobaccoists, has and is proving his worth, both with his trusty stick as well as caring for his duties in the right garden. Including the games of last Saturday the "Big Boy" has been to the plate 36 times for a total of twelve hits, two of which were home runs. In the game in Goldsboro on yesterday, which is not included in the percentage shown here, Buck parked another over the left field wall for a "country mile."

Tabulation of the bat work of the entire team since the opening of the season shows that seven others are hanging the horseshoe above the 250 mark which is not bad. Prior to ten days ago before a few new additions were made to the Tobaccoists line-up they were hitting far below par, but with the eight wins last week out of nine starts the local batting eye was better focused.

Below is tabulated the correct hitting average of the Tobaccoists including the game of last Saturday:

Player:	AB	H	Pct.
Finlator	36	12	.333
Boucher	53	17	.320
Abbott	103	29	.281
Daniels	123	34	.276
Land	22	6	.272
Wilson	23	6	.260
Williams	118	30	.254
Walden	32	8	.250
Mattox	63	15	.236
Allen	23	5	.213
Dudley	19	4	.210
Joliff	25	5	.200
Jones	21	4	.190
Culloty	136	25	.183
Safelle	2	1	.500

Average of the entire team through Saturday, June 2, is .251.

Miss Chicago Crowned Queen At Galveston

Galveston, Texas, June 5.—(AP)—A new contender for national beauty queen honors has appeared in the person of Miss Ella Van Hueson of Chicago, who was selected as the most beautiful of 32 American girls entered in the third annual pageant of pulchritude here.

Miss Van Hueson, a brunette, as "Miss Chicago" was crowned the "Beauty Queen of the United States" last night, in a long series of elimination promenades. Miss Mildred Ellene Golden, Denver, and Miss Audrey Reilly of Charleston, W. Va., reached the finals with Miss Van Hueson.

(By the Associated Press)
The New York Giants owe a vote of thanks to their former teammate, Rogers Hornsby, who is hitting the ball at a .418 clip for the Boston Braves.

The "Rajah" let go by the Giants for the "good of the club," personally accounted for the runs that pulled the Braves to a 5 to 3 verdict over the Cincinnati Reds at the Hub yesterday, in one of the two major league games that rain did not prevent. The Reds' defeat allowed the idle Giants to creep on a bit closer to Hendricks crew cut in front in the National League race and determined to stay there.

With the score tied and George Sisler on base in the ninth, Hornsby drove the ball into the center field bleachers—a terrific drive that decided the issue then and there. A few minutes before, Dressen's homer had tied the score.

Six runs in the first three innings were enough to carry the Philadelphia Athletics to victory over the Chicago White Sox, 6 to 3, at Chicago. Ty Cobb came out of a bad batting slump and drove in three runs with a single and a triple in the first and second innings.

All the other big time teams had a day off because of rain.

Skill of Willis And Lenglen Is Drawing Talk

Paris, June 5.—(AP)—The victory of Helen Willis in the French international hard court tennis championship and the ease with which she dominated all competitors in capturing the title without the loss of a single set, today revived the controversy as to the relative skill of the California girl and Suzanne Lenglen.

The admirers of Suzanne—and there are many left—pointed out that Helen dropped on the average of three games a match while Suzanne was accustomed to dispose of her opponents in the early rounds without permitting them to score.

BATTLE FOR SOUTHERN CROWN

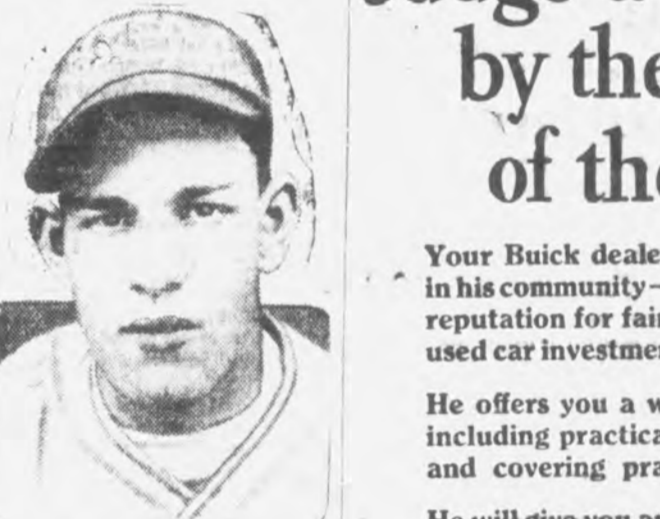

Mrs. Melvin Jones, Valparaiso, Fla., formerly Western women's champion, was the sensation of the Southern tournament at Birmingham, where she swept victoriously over all opposition to meet Marion Turple, New Orleans star, for the Dixie title.

Piedmont Teams Get Rained Out

By the Associated Press.
The six hard pressed teams comprising the Piedmont loop were granted an extra day's rest yesterday when weather interfered to cause postponement of all games. The Greensboro Patriots with a two and a half game lead were perched securely on top of the heap with High Point pressing and Winston-Salem a game and a half behind them.

The short vacation gave the Salisbury Colonials time to recruit their forces in an effort to push out of the second division when they tackle the Bulls at Durham today.

Giants' Boy Star

MELVIN OTT
National League pitchers are having great difficulty in fooling Melvin Ott, 29 year old outfielder for the New York Giants.

Ott's sticking has been so good that he has been a constant threat to the veterans seeking top batting honors. His average for the season exceeds .350. He cracked the ball at a .400 clip for a time.

HYSTERICAL

South Carolina Lady Then Tried Cardui and Says She Noticed Remarkable Improvement.

Anderson, S. C.—"I suffered a long long time, before I tried Cardui, and my only regret is that I did not know about it sooner," says Mrs. Lillie Pruitt, 130 "E" Street, this city.

"I was badly run down in health. My nerves went to pieces, and I had to go to bed. I was not able to do my house work for many months. I got so bad off, I could not bear to have anybody walk across the floor of my room. The least little thing upset me. Sometimes I became hysterical. I had bad pains in my back and sides, and my head and limbs would take spells of aching, which almost set me wild.

"One day I was reading and I saw where a woman, who had a trouble like my own, had been relieved by Cardui. I decided at once to try it; so I began on a course of the 'Home Treatment.'

"It began to help me from the very first. I took Cardui regularly, for several months, and my improvement was so remarkable, that my family and friends were delighted. 'Cardui has no equal, in my opinion. I gladly recommend it to others.'

Epsom Downs Derby Drawing Attention

Epsom, England, June 5.—(AP)—The sport world today turned its attention to Epsom Downs, where the season's choice three year olds fight it out in the historic Derby tomorrow.

Twenty three slim colts will struggle for supremacy over the irregular course of a mile and a half while Price and Commer forget the difference in the rank for the day at least.

The favorite, so far as expert opinion goes, is fairway, owned by Lord Derby after whose ancestor the ancient classic is named. Lord Derby's Beay Beauty has been hailed by the experts as a racing machine possessing great qualities of limb and heart.

Steven Donogue, King of Derby Jockeys, through his four victories in the classic, has brought great popular favor to his mount, Garz Warily, a colt regarded as a 20 to 1 shot by experts. The public, however, has so much faith in Donogue's skill that it is certain Garz Warily will be as closely watched as any colt in the race.

ABOUT TOWN

"We certainly appreciate the splendid support given us by the public in the sale of poppies here during Memorial Day," members of the Pitt county Post of the American Legion Auxiliary stated today. "Sales surpassed all previous years and we realized quite a neat sum of money.
"Ayden, Farmville, Bethel and Robersonville assisted in the sale in a most commendable manner. Had it not been for their splendid cooperation it wouldn't have been possible to accomplish what we did.
"Money derived from the poppies is used in a great cause and sales each year should be very great."

"The East Carolina Teachers college has closed for the present session and the exodus of students was completed yesterday," we were reminded today.
"Greenville will miss the several hundred young women comprising the student body. Many of them graduated and will not return. But there will be others to take their place during the summer and fall terms. The college is increasing its capacity as fast as possible and in future years the student body will be greatly augmented.
"The most of people in this section of the state already realize the importance of this institution. It is gaining quite a reputation in the educational field, and it is natural to conclude that growth in the future will be as great as in the past.
"The demand for more efficient teachers is quite pronounced in all parts of the country. With its rating the East Carolina Teachers college is able to meet this demand in a way that is gaining recognition for those who leave its doors each session.
"President Robert H. Wright is to be congratulated upon the progress the school has made. He may rest assured the citizenship of this State is appreciative of its achievements."

"Vacation time is here and numbers of people will soon begin leaving the city to spend several days some longer," a local merchant mentioned to us today.
" Naturally they will have to do considerable buying to complete their wardrobes. And right here it is where we want to impress upon them the importance of buying at home.
"Greenville merchants have a complete line of wearing apparel for men, women and children. They are the latest creations from style centers."

"The vacationist should not wait until he gets to his destination to do this buying. He should do it at home before his departure. This will leave more time for recreation while away, and at the same time leave money back home for the merchant to carry himself over the dull summer months.
"If you are contemplating going away this summer, visit the local stores and do your shopping before you leave. Give your local merchant a chance and relieve yourself of supplying your needs in other centers."

"We are going off next week to spend the summer," a reader of the Reflector said today, "and want you to send us the paper.
"Such expressions will be heard daily now to the end of the vacation season.
"Numbers of people will be leaving the city the next few weeks, and the majority want the Reflector to follow them. They want to go away and have a big time, but also want to keep up with the happenings of Greenville and Pitt county while away."

The Reflector faithfully portrays the life of the community as no other institution is capable of doing, and the man or woman who leaves the city without having their names entered on our mailing lists will feel like they have missed something.
"Men and women interested in the business and social life of the community naturally will want to keep in intimate touch with each day's happenings. There is no better way of doing so than by daily perusal of the columns of this paper.
" Don't make the mistake of leaving the city for any length of time without sending in your subscription."

"Numbers of members of the faculty of Greenville public schools will attend summer schools while away from the city this year," the writer of this column was told today.
"This is very commendable. It not only enables them to take higher rank in the educational field, but also affords greater opportunity of rendering a higher type of service in their work here.
"The ambitious teacher is one of the greatest assets a community has. He is always striving for an ideal, and that in the matchless phraseology of the gifted Mary Robers Rinehart, is an effort to reach a certain state of perfection whereby man is differentiated from the animal kingdom.
"Greenville schools have a high rating and their teachers are doing everything possible to maintain it. They are to be congratulated. It bespeaks great things for future generations."

Other Presidential Campaigns

1868 (By The Associated Press)

(This is the fourth of a series of sketches of presidential campaigns since 1856.)

The Republican national convention of 1868 met in Chicago and nominated for President Gen. Ulysses S. Grant, a popular hero because of his leadership of the Union army which brought the Civil War to a successful conclusion for the North. Schuyler Colfax of Indiana, was nominated for Vice-President. Grant was from Illinois. The Republicans claimed credit for the successful prosecution of the war, and the aftermath of the struggle filled the campaign with great bitterness.

The Democratic convention was held in New York, July 4-11. Horatio Seymour of New York was nominated for President and Francis P. Blair of Missouri for Vice-President. The platform declared for restoration of seceded states to the Union and amnesty for all Civil War prisoners.

The Republican candidates were elected.

1925 and recorded in Book H-16, page 430 of Pitt County registry and default having been made in the payment of the indebtedness therein provided and default having been made in full compliance with the terms of said trust deed, the undersigned trustee will on the 11th day of June, 1928, at 12 o'clock, Noon, before the court house door of Pitt County, (Greenville, N. C.) sell at public sale to the highest bidder for cash, the following described property situated in the town of Fountain and described as follows: Beginning at a stake on the east side of Railroad Street at the north west corner of lot No. 3 and running thence N. 71 degrees, 50 min. east 140 feet to a stake; thence north 18 degrees, 10 min. west 40 feet to a stake; thence S. 71 degrees 50 min. west 140 feet to a stake, the eastern boundary of Railroad Street; thence along and with Railroad Street S. 18 degrees 10 min. east 40 feet to the point and place of beginning, and being lots Nos. 1 and 2 as shown on plat

of the Stephen Everett property of date Nov. 1925, which said plat is of record in the office of the register of deeds of Pitt County. The said deed of trust above referred to being executed as a purchase money deed of trust for the lands described. This May 11th, 1928. M. C. HIGH, Trustee. May 12-11w-4wk.

Blount-Harvey Co., INC. DEPARTMENT STORE GREENVILLE, N. C.

Our baseball club comes home for a series of games beginning tomorrow, but apparently the kids are not going to get free tickets to the games. More than a week ago the local manager offered free, season tickets to the kids if citizens would raise \$115.00 for the club. To date about a third of the amount has been raised. The matter is now up to our citizens. If we want the kids to see the games we must donate. Do it now.

LET'S BUILD, RATHER THAN TEAR DOWN

With the time not far distant for a new Board of Aldermen to take over the reins of our city, there is much talk about wholesale changes throughout the city administration. Of course, like most towns, Greenville's administration has its defects, but we do not feel and do not hesitate to say that on the whole, the administration of our public affairs ranks above the average and we hope that any changes made will be only after due and thorough consideration. Of course, the weak spots in the administration should be strengthened and such a course on the part of the new board is to be desired and expected, but we trust that the policy to be followed by the new administration will be a constructive rather than a destructive one.

NEIGHBORS

When people talk of the dehumanizing process that is going on with the growth of gigantic cities, they are likely to forget that in spite of the tide toward the city most folks still live in towns, villages and open country. And in these places the neighborhood and neighborly feeling survives.

As for example, in Johnson City, Ill., which is a village in spite of its name, Farmer Williams has been ill all spring. Planting time was passing and the long-expected rains had just come. Last Thursday his neighbors turned out with fifteen teams and twenty-five men and planted eighteen acres of corn for him. Mrs. Williams and the daughters served them dinner. Guess whether it was a good one. Guess whether the Williams family want to have or stay. Guess whether the twenty-five neighbors are better or worse neighbors with each other for that day's work. Guess what the Williamses will be remembering next Thanksgiving Day.—Chicago Journal.

Social & Personal

Captain and Mrs. Robert E. Frye and son, who have been visiting Mrs. J. L. Carper, returned home today.

Miss Myrtle Brogden left yesterday for Greensboro.

Mr. and Mrs. James Coleman, of Raleigh, spent Sunday with Mr. and Mrs. W. T. Lipscomb, Jr.

Roy T. Cox, of Winterville, was a Greenville visitor today.

John Hassell, Jr., who has been a student at Duke University, at Durham, has returned home.

Miss Clyde Rae Worthington left Sunday morning for Durham, where she will visit her brother, Mack H. Worthington, and attend the commencement at Duke University.

Miss Madge Daniels, member of the faculty of the Greenville high school, left last night for Manteo to visit relatives. She will leave New York on June 8th for a tour of Europe, returning to Greenville in time for the opening of public schools in September.

Miss Margaret Abbott of Wilson is visiting Miss Hulda Nobles.

Sunday evening from two weeks visit among her relatives and friends in Edgecombe county.

Miss Elizabeth Martin of Mt. Olive, N. C., is visiting Miss Abigail Roberts.

Flukie-Townsend.
Of particular interest to society in North and South Carolina was the marriage of Miss Ruth Townsend, daughter of Mr. and Mrs. B. L. Townsend of Fair Bluff, N. C., and Dr. A. T. Finkler, son of Mr. and Dr. O. T. Finkler, son of Mr. S. C. The wedding took place June 5th at the home of Mr. and Mrs. M. L. Wright of Greenville, N. C. Reverend Carl Townsend, brother of the bride pronounced the vows, using the impressive ring ceremony.

An improvised altar of Dorothy Perkins roses and ferns made of attractive background, quantities of spring flowers were used as decoration throughout the lower floor of the home.

Prior to the ceremony Miss Beulah Westmoreland, pianist, and Miss Lois Gorrell, violinist and Mrs. Frank Kirkpatrick rendered a musical program. Mrs. Kirkpatrick's numbers included "At Dawning and "Because." These she rendered in a most charming manner.

During ceremony Misses Westmoreland and Gorrell played softly, "To a Wild Rose." As the bridal chorus from Lohengrin was played, the bride descended the stairs and was met at the altar by the groom where the wedding vows were said.

The bride was becomingly attired in a tan ensemble suit with accessories to match and carried a lovely arm bouquet of bride and opelia roses showered with valley lilies.

Dr. and Mrs. Finkler left immediately after the ceremony for a motor trip through the western part of North Carolina and will be at home at 212 West Cheves Street, Florence, S. C., after June 20th.

Mrs. Finkler is a graduate of Coker College and received her Masters Degree from Columbia University.

For the past several years, she has been a member of the faculty of East Carolina Teachers College, Greenville, N. C.

Dr. Finkler received his education at the Medical College of South Carolina and is now practicing medicine in Florence, S. C.

The out-of-town guests present included, Mrs. H. N. Rogers, Fair Bluff, N. C., Miss Lottie Townsend, Goldsboro, N. C., Miss Ida Townsend of Fair Bluff, N. C., and Miss Flora Cavanaugh of Wallace.

Pre-School Clinics.
Is your six year old child physically fit to enter school next fall? It is the hope of the Health Department, co-operating with the school authorities, that every child entering school next September for the first time shall be in the best possible physical condition, and as far as possible, free from any demonstrable physical defects. It is further hoped that these children shall all be vaccinated against smallpox and diphtheria before school opens. One child out of every five in Pitt county repeats its grade and many times it is due to bad health caused from some disease or defect, which might easily be corrected. For the purpose of thoroughly examining and vaccinating children who enter school the first term, the Health Department will hold clinics at the various school buildings. Each clinic will be conducted by some local physician. Parents are urged to take their children to the clinic in order that they may have the best possible chance to keep up their work in school.

Places and dates for the clinics are as follows:
West Greenville School—June 7 at 2 p. m.
Model School—June 8 at 10 a. m.
Evans Street School—June 8 at 2 p. m.
Bell Arthur School—June 11 at 10 a. m.

Farm Women's Short Courses Opens Today

The farm women's short course opened at the East Carolina Teachers College this morning. Approximately one hundred women from different parts of the county, including prominent state workers, were in attendance. Sessions will continue through Thursday and will be featured by demonstrations and discussions of vital importance to those interested in improvement of farm life.

The courses are being given in the administration building at the college. The first session was held this morning from 9 to 11 o'clock and was featured by demonstrations in basketry, textiles, arts,

crafts and house furnishing.

The same program was continued from 1:30 to 3:30 this afternoon. Misses Eugenia Russell and Bertha Hart were in charge of the Basketry demonstrations. Miss Mary Campbell, of the college, had charge of textiles. Mrs. C. W. Margum demonstrated works in arts and crafts. Miss Paulina Smith, district agent, presented house furnishing demonstrations.

One of the features of tomorrow's program will be slip demonstration, costume designing and painting, by Miss Rosa T. Daughton of Raleigh. Live models will be used in this demonstration.

Salem College Closes.
Winston-Salem, June 5.—(AP)—Forty-five seniors bound together for the last time by the traditional daisy chain today received their diplomas from Salem college at the 157th annual commencement exercises.

Dr. William A. Lambeth, pastor of the Mount Vernon Place Methodist Episcopal church, Washington, delivered the principal commencement address. The degrees were conferred by President Rondthaler in association with heads of departments.

Amend By-Laws.
San Antonio, Texas, June 5.—(AP)—The General Federation of Women's Clubs, in convention here decided today that member clubs must belong to their state federation as well as the general federation. The stand was taken in an

amendment to the by-laws, which was not made retroactive, thus preserving the membership of a number of clubs in California, Minnesota and other cities which have withdrawn from their state federations.

Under the amendment, however, such withdrawal in the future will be considered as a withdrawal from the central body as well as the state organization.

Don't Fear Honest Injury.
Atlantic City, June 5.—(AP)—H. T. Sands, New York president of the National Electric Light Association, told the delegates to the fifty-first annual convention today that the electric light and power industry has nothing to fear from an honest injury, and, in fact, wants the approaching investigation of the Federal Trade Commission to be most searching.

"We are anxious that the facts be given to the public," he said. "We want the people to see and understand the make-up and habits of the organizations that furnish light for their homes and power for their factories."

This association, the joint committee of National Public Utility Association and every organization representing the utilities, national or local, have thrown open to the commission everything in their possession. Every scrap of paper has been made available for scrutiny.

Amend By-Laws.
San Antonio, Texas, June 5.—(AP)—The General Federation of Women's Clubs, in convention here decided today that member clubs must belong to their state federation as well as the general federation. The stand was taken in an

amendment to the by-laws, which was not made retroactive, thus preserving the membership of a number of clubs in California, Minnesota and other cities which have withdrawn from their state federations.

Under the amendment, however, such withdrawal in the future will be considered as a withdrawal from the central body as well as the state organization.

Market Report Cotton--Stocks--Grain

NEW YORK COTTON

New York, June 5.—(AP)—An opening advance on reports of other rains in the south was followed by reactions in the cotton market today, owing to prospects for clearing weather in the southwest and realizing or liquidation by recent buyers.

Some trade buying was reported on the decline below the 21 cent level for October, however, and the mid-afternoon market was comparatively quiet and steady at net prices of 6 to 12 points.

Futures closed easy 16 to 24 points lower; spot quiet; middling 21.15.

GRAIN MARKET.

Chicago, June 5.—(AP)—Dominated by reports of copious rains in the Canadian northwest and by forecasts of showers in American spring wheat territory, wheat prices tumbled heading today. Numerous standing orders to sell out holdings at various set limits and thus put a stop to losses were automatically forced into operation. Unexpected downturns in Liverpool wheat quotations had an additional bearish effect.

Wheat closed weak, 4-8 to 5-1-8 net lower; corn 5-8 to 1-1-8 down; oats 3-8 to 1-1-8 off and provisions varying from 5 setback to a rise of 10.

STOCK MARKET.

New York, June 5.—(AP)—Speculators for the advance regained control of the price movement in today's stock market. The "money scare" late yesterday brought fresh liquidation into the market at the opening which carried many issues down 1 to 7 points, but a brisk rally set in before mid-day which wiped out many of the early losses and sent a number of issues 1 to 6 points above yesterday's final quotations.

There was little in the day's business news to influence the price movement. A sale of pig iron at the lowest price since 1915 tended to dampen speculative enthusiasm for the steel shares. Merger rumors provided the background for the advance in a number of specialties, particularly in the farm implement, food, fertilizer and public utility divisions.

Persistent efforts of the federal reserve authorities to force a reduction in brokers' loans inspired caution in conservative brokerage circles. In speculative quarters, however, there appeared to be a rather general belief that the stiff money rates were only temporary and that lower rates undoubtedly would precede the announcement of the new treasury financing.

Highly erratic fluctuations took place in some of the high priced specialties. Radio, for instance, opened unchanged at 197, advanced to 198 3-4, broke to 192, rallied to 198 1-2, and then shot to 205. Case Threshing rail from a low of 313 to 324, Cur-Aeroplane from 320 1-4 to 327.

Her Dreadful Past

The Amazing True Story of a Girl Patricide—

PERHAPS you recall reading in the newspapers the case of Gretchen, the pitiful story of a girl who poisoned her father—and then, at her trial, steadfastly refused to utter a word in her own defense, preferring punishment rather than describe the terrible details of the soul-destroying life he had forced upon her.

You read of her conviction and incarceration. There, apparently, the story ended. But really it was only the beginning of one of the most amazing human dramas ever enacted.

In prison Gretchen performed her duties in utter silence; nothing interested her; she kept completely to herself—an outcast branded for life as a patricide.

Then Mary Howard, instructor in an exclusive girl's seminary, came to teach in the prison. Her heart went out to the little soul-frozen daughter of the slums. She was kind to her, encouraged her, tried to make her feel that she was not a pariah but a girl like other girls.

Mussolini Talks To Senate Body

Home, June 5.—(AP)—Premier Mussolini made his promised speech before the Senate on Italy's relations with the other powers and its government's foreign policy today.

The early part of his speech was devoted to describing good relations which Italy enjoys with the nations of Asia, Africa, as well as the United States and Great Britain.

Mrs. Vanderbilt Granted Divorce

Newport, R. I., June 5.—(AP)—Mrs. Emily Davies Vanderbilt was granted a divorce from William H. Vanderbilt in superior court today on the ground of neglect to provide for her.

Mrs. Vanderbilt was granted custody of a minor daughter, Emily, by agreement, and alimony was left to be adjusted by an agreement between the parties.

State To Pay Bondholders

Raleigh, June 5.—(AP)—The State of North Carolina will, on June 20, pay the New York holders of its bonds, the sum of four and one-half million dollars for retirement of series and for interest on others, Treasurer B. R. Lacy announced this afternoon.

Included in the amount will be one million dollars for the retirement of what is known as the state general fund notes.

SAYS SOUTHERN CROSS FLIGHT WAS PERFECT

Honolulu, June 5.—(AP)—Arthur C. Goebel, winner of the Dole flight from Oakland to Hawaii last year, in commenting on the flight of the monoplane Southern Cross, today said:

"The Southern Cross' hop from Kaula to Suva was one of the most dramatic and perfect flights in the history of aviation for which the plane and its crew deserve the acclaim of the world."

"The success of the Southern Cross and its crew indicates the value of thorough preparation for long flights over water. The hop was one of the longest ever made over water and one of the world's greatest achievements."

Tells of Campaign Costs

Washington, June 5.—(AP)—Edward C. Stokes, former governor of New Jersey and runner up in the recent Republican senatorial primary in that state, told the Reed campaign funds committee today his campaign cost \$14,600.44, of which he contributed \$3,300.

HELPFUL BUSINESS INTERESTS MUST NOT MOULD POLICY

Greensboro, June 5.—(AP)—Selfish business interests must not be allowed to make our foreign policy Senator Walter F. George, of Georgia, told the graduating class of North Carolina State College for Women here yesterday. The establishment of friendly relations with neighboring nations is a part of our next educational objective.

Senator George, a candidate for the Democratic nomination for the presidency, urged that a more complete training for public service and better understanding of governmental problems should be included in the training of all citizens.

Governor McLean introduced the speaker.

20TH CENTURY AMERICAN IS FOUND WANTING

Atlanta, June 5.—(AP)—The materialistic American of the 20th century was compared to his idealistic forbears and found wanting, by former Governor Thomas G. McLeod of South Carolina, in his address today at Emory University commencement.

"What price liberty?" he asked the graduates in declaring the America of today did not fully appreciate the heritage of the pioneers "who felled forests, and braved the dangers of savages and disease to establish a land of individual liberty."

"The present century has witnessed marvelous developments—the perfection of motion pictures, now perhaps the greatest American educational factor for good or evil; the automobile, changing community life, commerce, changing thought itself; the airplane—the genius of man leaving the earth and conquering the unknown spaces of the air; the radio, tuning in with the harmony of God's great universe."

Warner referred to Kingsford-Smith's maneuvering of the controls so that the huge plane dodged and wove through the storm clouds up from an altitude of 600 feet to nearly 8,000 feet, seemingly "flying in circles at times," in the front to miss the full fury of the tropical blasts.

Kingsford-Smith referred to Lyon, who as navigator of the plane, "shot what stars he could find through the black clouds to chart the course to the tiny dot of land."

WHERE POISON GAS BLAST OVERWHELMED HUNDREDS

Ten persons were killed and 243 overcome when large quantities of poison gas escaped from tanks at a chemical works near Hamburg, Germany, spreading terror and death. Many of the persons overwhelmed by the deadly phosgene gas have become invalids for life.

Deviations from the course meant wasted gasoline and possible disaster. The plane left Kaula early Sunday morning with a bare 200 miles gasoline safety margin.

The fliers did not try to conceal the fact that the storm had them worried. Kingsford-Smith declared that he hoped he "would never have to fly through such weather again in a thousand years."

The course between Suva and Australia, although a comparatively short leg of the trans-Pacific flight, is considered by many here as being particularly dangerous at this time of the year. Short, violent storms peculiar to the South
