

DEMOCRATIC CONVENTION UNDER WAY

BRIEFEST FORMALITIES ATTEND FIRST SESSION AT THE NOONDAY HOUR

Most of Disagreements Smothered by Dust Raised by the Smith Band Wagon; Southerners Ready To Concede Nomination to Smith.

By BYRON PRICE, Associated Press Staff Writer. Sam Houston Hall, Houston, Tex., June 26.—(AP)—Against the unwanted political background of this south Texas city, in the spick and span new hall made to their order, the Democrats sat down in national convention today to ponder how best they might heal up the wounds of Madison Square Garden and put a united party into the campaign of 1928.

There seemed little doubt in the minds of the delegates as they came together that the party standard bearer would be Smith of New York and the major platform issue of the convention—that of prohibition—would be settled by a plank merely pledging strict enforcement of the constitution and the laws. Such a program promises likewise in the estimation of the vast majority to be carried through the convention with a great hurrah, and underneath there lingered after all the conferences and caucusing of the pre-convention period an undeniable residue of southern bitterness against both Smith and the prohibition tenets of his convention manager. This feeling promises to assert itself later in a southern-led floor fight for a bone dry plank and in a block of last ditch votes against Smith himself when balloting for the presidency begins later in the week.

But none of these conflicting emotions had opportunity for expression in the brief opening session, called for noon today. It was assembled here to get first preliminaries off the calendar. After an afternoon recess, the delegates will come together again at 7 p. m. to hear the keynote and clear the way for reception on the party platform.

Sam Houston Hall, Tex., June 26.—(AP)—With most of its disagreements already smothered themselves in the dust clouds raised by the Al Smith band wagon, the Democrats assembled today in this resplendent new convention hall for a national convention that everybody seemed to think was about as good as ever before it started.

Only the briefest of opening formalities were served up by the convention chiefs for the noonday opening session, leaving over for an evening meeting with its war strength keynote, that always heretofore has been the great attraction of the opening day.

But a few of the delegates had their minds on the present phases of the big Democratic pow-wow. They were occupied instead, as they had been for days past with candidates and issues—particularly one candidate, the governor of New York, and one issue—prohibition.

VICTORY FOR SMITH SEEMS SURE TODAY

New Yorker Enters Convention With Nearly Enough Votes To Nominate.

Houston, June 26.—(AP)—Alfred E. Smith enters the Democratic national convention today with first ballot votes definitely in line for high nearly fifty short of the nominating mark. But he is assured of so many more whenever he needs them that his friends and many of his political foes regard his nomination as inevitable.

Although his managers had given no indication that they were trying to bring about the New York governor's selection on the first roll call, there were predictions that this would happen. They were based on a belief that Smith would be so near the nomination as the initial ballot bears an end that many delegates, having discharged obligations by voting for favorite-sons, would shift to his standard before announcement of the result.

As it shaped up today with the balloting for a Presidential nominee still 48 hours away, the first ballot votes which have been announced as committed to Smith, either through instructions or by definite pledges given by individual delegates or by authorized spokesmen totaled 687 or 46 1-3 votes short of enough to put him over. Here they are:

Arizona 6; California 26; Colorado 12; Connecticut 14; Delaware 6; Idaho 8; Illinois 53; Iowa 26; Kentucky 26; Louisiana 20 (contest still pending); Maine 12; Maryland 16; Massachusetts 26; Michigan 30; Minnesota 24; Montana 8; Nevada 6; New Hampshire 8; New Jersey 28; New Mexico 6; New York 90; North Carolina 4 1-2; North Dakota 10; Oregon 10; Pennsylvania 65; Rhode Island 10; South Dakota 10; Utah 8; Vermont 8; Virginia 6; Washington 14; West Virginia 10 1-2; Wisconsin 26; Wyoming 6; Alaska 6; D. C. 6; Hawaii 6; Philippines 6; Porto Rico 6; Canal Zone 6; Virgin Islands 2.

Pitt Delegates Enjoy Trip To Convention

(By CARL GOERCH) New Orleans, June 24.—Ed Flanagan and John Holmes—Pitt county representatives—to the Houston convention—are still alive although both of them are sadly in need of a bath. They missed their usual Saturday night ablutions, but so did the rest of us—so they have no right to complain.

Ed and John are two of the most popular members of the North Carolina party. Not only that, but they have become well acquainted with the delegations from South Carolina, Georgia and Florida. By the time they are in Houston a couple of days, the chances are that they will be personally acquainted with every delegate from all over the country.

HULL FORCES BEGIN ACTION AT HOUSTON

North Carolina Delegation Led Into Battle Against Smith by Daniels.

By J. H. JENKINS, Associated Press Staff Writer. Houston, June 26.—(AP)—North Carolina Hull men sat tight in their determination to vote against Gov. Al Smith, of New York, as the 1928 Democratic national convention got under way, but at the same time they admitted a gain of one-third of a vote for Smith on the first ballot.

The gain came about through the absence of United States Senator Simmons, with half a vote as a delegate at large and of Walter Woodson, of Salisbury, with one-half vote in the eighth.

Chairman William C. Newland, of Lenoir, said before the convention opened, that the vote on the first ballot would be 19 1-6 for Hull and 4 5-6 for Smith on the first ballot. This was due, he said, to the fact that the Smith forces are claiming their proportion of the missing vote in accordance with the scheme of representation worked out in the state convention.

The delegation found itself in the very front row of the great airy new convention hall with the choicest seats in the building. They are within 20 feet of the presiding officers stand. The only thing between being the stenographers table and the press box assigned to the Associated Press.

SCORE LINED UP NOW FOR V-PRESIDENT

Political Spotlight Throws Spasmodic Beams on Four Outstanding Leaders.

By W. E. RAGSDALE, Associated Press Staff Writer. Houston, June 26.—(AP)—With a score or more candidates scrambling for a position before it, the vice presidential spotlight threw spasmodic beams today upon three or four persons, perhaps lingering longest upon Senator Robinson, the Democratic leader in the senate.

Meanwhile, with new names still coming to the fore with newly arriving delegations, there arose a possibility that if Governor Smith were given the Presidential nomination he would throw the race for second place into a grand free for all with the selection to be made on the floor of the convention.

A tomb-like silence has hovered over the lair of Tammany in Houston from which have emerged only vague intimations that while Evans Woolfen, of Indiana, and Newton D. Baker, secretary of war under President Wilson, were favored by some of the Smith leaders, probably more of them were looking over the Robinson record. At the same time there came still other reports that if their candidate should be given first place on the ticket, he might request the convention to select his running mate in an open fight on the floor.

New rumbles of thunder echoed from the central states and the west last night as delegates not yet tutored to Houston heat launched new vice presidential booms for Representative Rainey, of Illinois, and Richard V. Taylor, a member of the interstate commerce commission, and a former mayor of Mobile, Alabama.

Hull of Tennessee, still bulked large in the minds of many delegates today and other suggested Attorney Pomerene, of Ohio, or Governor Donahy of that state, as candidates who would strengthen the kick of the Democratic mule.

Other new candidates whose names appeared on the list yesterday for the first time included Senator King, who was boosted by his home state, and Huston Thompson, a former chairman of the federal trade commission, whose praises were chanted by Colorado delegates. Still other delegations spoke of Senator Pittman, of Nevada, as a second place man, and Governor Ritchie, of Maryland, himself mentioned as a possible nominee for vice president, said that former Senator Underwood of Alabama, was a desirable man for the place.

FOUR KILLED IN EXPLOSION

Fifth Man Also Believed Dead as Result of Blast at Fireworks Plant in Conn.

Thompsonville, Conn., June 26.—(AP)—An explosion at the plant of the New England Fireworks Manufacturing Company here caused four known deaths and possibly a fifth.

SCENE OF POLITICAL MANEUVERING DRESSED FOR ROLE

With nearly all the leading contenders for the Democratic nomination for president centering their pre-convention campaign headquarters in the Rice Hotel, it became the seat of the greatest single concentration of flags, banners, signs and bunting in Houston. Smith, Reed, Hull, Berry, George and Robinson all maintained quarters surrounding the squared lobby, which was constantly filled with milling throngs.

STEWART TO FACE COURT OCTOBER 8TH

Wealthy Oil Man Pleads Not Guilty to Perjury Charge Today.

Washington, June 26.—(AP)—Robert W. Stewart, arraigned in the District of Columbia supreme court on charges of perjury today pleaded not guilty and his trial was set for October 8.

Stewart hurried here from New York where he received word of his indictment and appearing unannounced in court and demanded an immediate trial.

He hurried away from the court house with his counsel after declining to say more about the charges against him.

Stewart was indicted yesterday on three counts of perjury growing out of his testimony before the senate oil committee during its investigation of the disposition of the Liberty bond oil profits of the Continental Trading Company. The indictment charged that Stewart had testified he knew nothing of the disposition of the bonds by the Comptroller whereas in fact he received \$750,000 of them.

Stewart's counsel charged that the indictment was the result of "outrageous abuse of court processes for political purposes," and invoked because Stewart two weeks ago was found not guilty on charges of having refused to answer questions asked by the committee last February.

Two Local Men Hurt in Wreck

Jesse Speight and James Little, local cotton dealers, received painful but not serious injuries when the automobile in which they were riding turned over on the Greenville-Grimesland highway yesterday afternoon. Mr. Speight's injuries consisted of a couple of broken ribs and abrasions. Mr. Little was badly scratched about the face and received a painful scalp wound from broken glass.

Platform Framers At Houston Harrassed By Prohibition Question

Houston, June 26.—(AP)—After days of preliminary squabbling, those charged with framing the 1928 Democratic National platform turned today to the real work ahead of them with apparently but a single rift in the clouds, a disagreement over the prohibition plank.

Extreme views on the wet and dry question were presented by several eastern states on the one hand and the solid south on the other with some prospects that only the convention itself could settle the issue. However, every effort will be made to compose the differences in the committee if that can be done.

There agreement on the farm relief program seemed to be a pretty general agreement on the farm relief and other planks in the platform which Senator Key Pittman, of Nevada, who is to be chairman of the resolution committee, said he hoped to 3,500 words so as to present to the country the shortest party declaration in several decades.

Last minute conferences on the prohibition question were held by Governor Moody of Texas; Josephus Daniels, of North Carolina Secretary of the Navy in the Wilson administration, Senator Carter Glass and Governor Harry Floyd Byrd, of Virginia, and Representative Tives from Georgia, Mississippi and other southern states. All were agreed that there should be a law enforcement plank naming the 18th amendment and pledging the party to its sincere enforcement.

The North Carolina delegation approved the bone dry plank adopted recently by its state convention and instructed former Secretary Daniels, its representative on the platform committee, to fight for its adoption by the committee and failing in that to submit a minority report to the convention. Georgia and Texas also went on record for strong planks while Senator Glass was prepared to represent the Virginia plank for enforcement of the prohibition amendment and assailing the Republican administration for law enforcement of the dry laws.

Maryland, New York, New Jersey and several other states were ready for a fight for a plank declaring at least for modification of the Volstead Act so as to permit the states to fix the alcoholic content of beverages. It was generally conceded that this plank would be voted down overwhelmingly and at least a general law enforcement plan approved by the committee.

While a few individual delegates favored a farm relief declaration endorsing at least the principle of the McNary-Haugen bill with its equalization fee, the general opinion around convention headquarters was that the agriculture plank would be general in character.

This declaration also would involve the tariff on which there will be a general pronouncement.

There was a decided division of opinion as to whether the platform should commit the party to the calling of an extra session of congress if victorious in November for the purpose of dealing with the farm subject. Some leaders, like Hull, of

FOG HOLDS UP RESCUE PARTY AT VIRGO BAY

Hope of Saving Three Men Headed by Dr. Malmgren Considered Small Today.

(Copyright, 1928, by the Associated Press.) Kings Bay, Spitzbergen, June 26.—(AP)—Efforts will be made as soon as possible to drop spare parts to Lieutenant E. Lundborg, Swedish flyer now stranded with five men of the Noble party off Northeast Land.

The lieutenant particularly wants skis to replace those which were smashed when his plane landed the second time at the Noble camp on Sunday. He hopes to be able to refit the plane for a return trip.

Meanwhile there is hesitation about attempting more landings near the radio party and the task of saving them by plane seems increasingly difficult. Fog interferred with flights yesterday and similar foggy conditions prevailed this morning with little indication that there would be little probability of any flights today.

Virgo Bay, Spitzbergen, June 26 by Way of Kings Bay.—(AP)—Baffled by heavy fog the rescue parties at Virgo Bay today were waiting further opportunity to take off the remaining members of the Noble party stranded off Northeast Land and Lieut. E. Lundborg, Swedish flyer, now marooned with them.

The huge Italian S-56 under command of Major Maddalena and the Marina II meanwhile will start toward the east as soon as possible in search for the missing men of the balloon party.

Hope of saving the three men headed by Dr. Finn Malmgren, Swedish meteorologist, which started for land on foot almost a month ago is considered very small.

General Umberto Nobile, worn out by the privations of the past month and suffering from a broken leg, is resting in bed aboard the base ship Citta Di Milano, here under careful attention for his injuries and is being kept as free as possible from the worries of the rescue groups over their difficulties.

Efforts to obtain an interview with him general today were in vain. Captain Romagnola of the Citta Di Milano permitting no one to see the general.

While the rescue planes of which there are a half dozen here are being held down by fog, fear for the safety of the stranded radio party is not acute inasmuch as the group now has plenty of food, having killed several polar bears with the weapons dropped last week by Major Maddalena and the Swedish leader, Capt. Hornberg.

Oslo, Norway, June 26.—(AP)—The rescue party at Virgo Bay now fears that it would be impossible to have the rest of Noble's party and the Swedish flyer Lieut. E. Lundborg, marooned off Northeast Land for three or four weeks.

It is hoped, however, that the ice will soon break up sufficiently to make possible the landing of a large seaplane to take off the whole party in one group. The group has provisions for at least a month and more food can be dropped from airplanes if necessary.

Advices filed from the base ship at Virgo Bay at 9 o'clock this morning state that there was no wind but that a heavy fog made all flying impossible.

Hopes of finding Dr. Finn Malmgren, the Swedish meteorologist and his two companions Captain Alberto Mariani and Captain Filippo Zappi who left the Noble party May 30 in an attempt to reach land on foot are fading daily. Airplane reconnaissances have been made all over the place which the party could possibly have reached. To add to the difficulty of their situation they only had provisions up to June 21 and it is regarded as doubtful if they would be able to live off the game or fish that they might come across.

Kings Bay, Spitzbergen, June 26.—(AP)—At least one of the seven men who were in the bag of the dirigible Italia and were carried off on May 25 without trace, is believed to have been killed in falling from a forward compartment.

This was Vincenzo Pomella, motor attendant. Latest advices indicate that he was undoubtedly killed in the fall. The fate of his six companions in the bag which was swept away from the Noble group on the ice is unknown.

STOP MERGER OF TWO GREAT CAR CONCERNS

Temporary Injunction Restrains Dodge And Chrysler Corporation From Merging.

New York, June 26.—(AP)—A temporary injunction, issued in behalf of a minority stockholder of Dodge Brothers, Inc., automobile manufacturers, today threatened the \$250,000,000 merger of that company with the Chrysler Corporation. It forbade the transfer of assets pending a hearing today.

The injunction was taken out in the name of Col. Calvin H. Goddard, of Richmond, Va., holder of 100 preference shares of Dodge stock, but House, Holtzhusen and M. Clossky, his lawyers, said they represented holders of 5,000 shares of 7 per cent of the preference stock.

The writ was directed against the two corporations and Dillon, Read and Company, bankers and present owners of the Dodge Company.

The complaint alleges that the minority stockholders have a prior claim on Dodge assets to the extent of \$105 a share under the terms of the company's charter and that the proposed security exchange with Chrysler would unfairly divest them of their property.

TOBACCONISTS WIN GAME FROM FAYETTEVILLE

Fayetteville, June 25.—The Greenville Tobacconists won a 10-inning game, 5 to 4, from Fayetteville today and Deacon Joliff's men went into fourth place in the league race, half a game ahead of the Highlanders.

The Seals gave Mason brilliant support for the greater part of the game, executing four fast double plays in the first five innings, but they cracked in the last three frames and tossed the game away. Dudley had one bad inning, when two bases on balls and three hits gave the locals their four runs. In the other nine rounds he was invincible. The Highlanders failed to reach first until the fourth inning, and it was the sixth before they had a man left on base.

With two out in the tenth Williams made his fourth hit of the day and Bailey was hit by a pitched ball. Bailey was caught off first and while the play was being made on Elm Williams dashed from second base for home and scored when Saunders threw wild to the plate.

Edmunds, making his first appearance as shortstop here, yielded a pretty game and drove in two of Fayetteville's runs.

AMERICA APPEARS CERTAIN VICTOR IN THIRD OF OLYMPIC FIELD EVENTS

Uncle Sam may repeat his 1924 performance of winning the Olympic track and field events but if he does it probably will be because of stellar work by his field troupe. Yankee field men are virtually conceded victories in the high jump, pole vault and discus numbers. Harold Osborn and Bud Houser, 1924 champions in the high jump and discus, respectively, will be back and there is a flock of classy pole vaulters, including Lee Barnes and Sabia Carr. Big John Kuck, Iowa strong man, is one of four shot putters expected to be heard from at Amsterdam.

New York—(AP)—If, as is generally expected, the United States again carries off the Olympic track and field championship at Amsterdam this summer it will be due principally to the powers of the sons of Uncle Sam who jump vault and toss various implements around.

In other words, the deciding factor will be strength in the field and not on the track. The same method of concentrating on brown that has enabled California colleges to clean up Eastern championships will be employed by the American team in its efforts to clean up the Olympics. It is more spectacular to win the 100-meter dash or some other track feature, but it produces no more points than a victory in the shotput or discus, where the competitors toil with few if any plaudits.

Four years ago, with little Finland was busy romping off with all the running laurels in sight from 1,500 meters up to the Marathon, the American huskies went out and clinched the Olympic title, capturing seven of the ten field events. The only individual American victory on the track was in the 200 meters by Jackson Scholz, but in the less spectacular field events Bud Houser won the discus and shotput, Harold Osborn took the high jump and deatthlon, Hubbard won the pole vault and Fred Tootell the hammer throw to pile up a decisive margin for Uncle Sam's array.

This year America's field strength is no stronger, perhaps, than it was in 1924. It will have keener opposition than before, especially from Germany, which has produced world's record breakers this spring in the shotput and discus throw, but it is powerful enough to beat any other nation's assembly of jumpers and weight-tossers as a whole.

All of the American champions in the field events will be back except Tootell, in the hammer throw, and his place may turn out to be one of the hardest to fill. In addition, Houser and Osborn, double winners in 1924, except to defend only one of their crowns, Houser in the discus and Osborn in the high jump. It will not be so difficult, however to plug these gaps. America seldom has had a better collection of shot-putters than at present, to pick up where Houser left off in that event, while "Chief" Elkins, the Indian decathlon star, leads a formidable group of all-round performers.

There are good replacements in other events also; in fact, better balanced strength, even though no more outstanding stars in most of the field features than the American team boasted four years ago. DeHart Hubbard, the great negro jumper, has had trouble rounding into form, but Uncle Sam hasn't much to worry about with another 25-foot broad jumper, Ed Hamm of Georgia Tech, ready to leap in. Hubbard's weak ankle, however, may keep him out of the hop, step and jump again, an event he would figure to win if in shape.

American high jumpers and pole vaulters appear to outclass all rivals. If Osborn isn't successful in defending his title, it may go to Bob King of Stanford or Rufus Haggard of Texas. Lee Barnes' stiffest opposition in the pole vault will come from his countrymen, Sabia Carr, if form prevails, but there also may be Ward Edmunds or Bill Droschmuller to reckon with.

The weight events will find competition much keener and the Americans hard pressed to hold their own with stars developed in Sweden, England and Finland as well as Germany. Uncle Sam has four shot putters in Kuck, Krenz, Rother and Schwarz who have beaten 50 feet frequently and 51 feet occasionally, but Germany has Karl Hirschfeld, who tossed the 16-pound iron ball to a new world's record

distance of 51 feet, 9 1-2 inches this spring. Again in the javelin, America has the best spear-tossing talent ever developed with a quartet able to do around 215 feet consistently, but Sweden has Gunnar Lindstrom, the world's record holder, and Finland a new ace in Penttila, who has broken the world's record, besides Jonni Myrta, the veteran who has won the last two Olympic titles.

Houser, the discus champion, and Hartranft, the world's record-holder, will be hard to beat, if they return to old form. So will Eric Krenz, the new Stanford star, but again Germany puts forward a threat in Hoffmeister, credited with beating Hartranft's world mark recently with a throw of 159 feet, 4 1-4 inches.

Hammer-throwing a neglected art abroad until recently, now has developed potential champions in Skold of Sweden, Erickson of Finland and Nokes of England. To beat any of them it will take some heroic work by the American veterans, McGrath and Merchant, or by some such newcomers as Wright and Black, college men.

Summing it up, America appears certain of victory in only three of the nine field events on this year's Olympic program, but fairly sure of three others, with at least a good chance to break through in any one of the remaining three. It should be a rough and rugged battle of

skill and brawn from the first toss to the last jump.

REDS SLIPPING FROM PERCH AT TOP OF COLUMN

By HERBERT W. BARKER, Associated Press Sports Writer.

A second division berth looms for the Cincinnati Reds unless Jack Hendricks can pull his faltering crew together within the next few days.

The Reds went east leading the National League parade a few weeks ago, managed to hold up during most of the eastern invasion despite injuries that laid low several regulars and then ran into a slump in the most unlikely place in the circuit—Philadelphia. Since that time they lost 10 games in 12 starts and today were only three points to the good of the fifth place Brooklyn Robins.

The Reds lost ground they could ill afford yesterday when the Cardinals steam roller crushed its way to a 5-2 triumph in 11 innings. Eppa Jephtha Rixey pitched on even terms with Jess Haynes until the 11th when the storm broke. Jim Bottomley hit his 23rd double, Jimmie Foxx pitched on a scratch variety. He gave three passes and hit one batter, while the Christian boys were garnering eight safe singles off Lee and Taylor. Several snappy plays enlivened the game, although the result seemed never in doubt after the commanding lead of four runs which came in the opening frame. After that the Methodists settled down and the two teams played on practically equal terms for most of the game.

The fielding of Taylor, Dail and James for the Methodists and of Pespes, Woolard and Dixon for the Christians, contributed the most consistent performance of the day, although the batters of both teams failed to reach the outfield on many trips to the plate. The long distance honors of the day were Evans, with a two bagger which converted into an error at home run. Respass with 666 and Gordon Lee with 500 swung the heaviest willows. Evans also wired in three of his team's nine runs.

Score by innings:
Methodists 000 010 0-1
Christians 400 302 0-9
Hits: off Dixon 1; off Lee, 7 in 4 innings; off Taylor, 1 in 3 innings. Bases on balls: off Dixon 3; off Lee 1; off Taylor 2. Hit by pitcher Dixon (Dail); by Lee (Respass). Two base hit, Evans. Double play, James to Holton, Umpire, Corey.

This afternoon the teams of the Immanuel and Memorial Baptist churches will clash in their first game. A close contest is assured.

Dayton, Ohio—Eddie Anderson, Chicago, and Mike Dundee, Rock Island, Ill., drew (12).
Little Rock Ark.—Jimmy Watts, Atlanta, outpointed Chico Chisenros Mexico (10).

Goldboro Still Leads East Carolina

(By The Associated Press)
When Rocky Mount's ninth inning rally fell short Goldboro was presented with the game yesterday. The offerings of Riley were found easy candy and the Pointers accepted 17 hits, two of them for three bases and five for two bases.

New York—Jimmy Sullivan, Florida, technically knocked out Jimmie Royal, New York (1).
Toronto—Johnny McCoy, California, defeated French Belanger, Toronto (10).

Asheville And Macon Still Lead South Atlantic

(By The Associated Press)
Asheville and Macon still lead the list in the South Atlantic Association by a one game margin as of last week.

The Tourist seized a chance to catch up Monday, dropping a ten inning 4-2 to game to Charlotte while the Peaches were losing to Spartanburg 6 to 1.

Mud failed to daunt the Skylanders and Horne's and both teams did remarkable fielding on a wet diamond. Guffora and Augusta Bruggy held the once league leaders to six hits.

George Scott was too much for Macon and the Peaches were not able to make their eight safeties count. Chestnut's four bagger was included in the 11 Spartan bingles. Knoxville and Augusta staged another ten inning affair, the Snokies chowing across two runners in the extra frame to win 4 to 2.

Brilliant pitched brilliantly, giving the Tygers only five hits but his own occasional wildness and errors behind him accounted for the loser's runs.

Mahaffey walked 11 men but this did not keep him from being credited as the winning pitcher and Columbia defeated Greenville 11 to 7. The comers had their batting eye bingles being gathered off Wickler and Sawyer.

Clark hit two homers for the winners.

Birmingham, England—Jack Hood defeated Alf Mancini, London, (15).
Boston—Robert Roberti, Italy, outpointed King Solomon, Panama (10).

Christians Win Opening Contest From Methodists

The twilight Sunday School League opened yesterday with a well played game between the Christians and Methodists, which the former took by a score of 9 to 1. Both sides played good enough ball, as a rule, but the measure of superiority was principally shown in the mound work of Dixon, who allowed but one hit of the scratch variety. He gave three passes and hit one batter, while the Christian boys were garnering eight safe singles off Lee and Taylor. Several snappy plays enlivened the game, although the result seemed never in doubt after the commanding lead of four runs which came in the opening frame. After that the Methodists settled down and the two teams played on practically equal terms for most of the game.

The fielding of Taylor, Dail and James for the Methodists and of Pespes, Woolard and Dixon for the Christians, contributed the most consistent performance of the day, although the batters of both teams failed to reach the outfield on many trips to the plate. The long distance honors of the day were Evans, with a two bagger which converted into an error at home run. Respass with 666 and Gordon Lee with 500 swung the heaviest willows. Evans also wired in three of his team's nine runs.

Score by innings:
Methodists 000 010 0-1
Christians 400 302 0-9
Hits: off Dixon 1; off Lee, 7 in 4 innings; off Taylor, 1 in 3 innings. Bases on balls: off Dixon 3; off Lee 1; off Taylor 2. Hit by pitcher Dixon (Dail); by Lee (Respass). Two base hit, Evans. Double play, James to Holton, Umpire, Corey.

This afternoon the teams of the Immanuel and Memorial Baptist churches will clash in their first game. A close contest is assured.

Dayton, Ohio—Eddie Anderson, Chicago, and Mike Dundee, Rock Island, Ill., drew (12).
Little Rock Ark.—Jimmy Watts, Atlanta, outpointed Chico Chisenros Mexico (10).

Something New In TIRES!

I will guarantee all Murry Cord Tires for one year—
This covers natural wear and all hazards of the road, such as, wrecks, blow outs, glass cuts, stone bruises wheels out of line etc.
You are bound to get, at least a full years wear out of every Murry Cord tire.
This does not apply to commercial cars and trucks.

ESSO

So powerful that airplanes use it

Although made for automobiles, ESSO—the Giant Power Fuel—has been frequently used in airplanes with excellent results. The same qualities that recommend ESSO to men whose lives depend on sure engine operation make it preferred by drivers of all kinds of automobiles. ESSO makes the new high-compression motors give astonishing results. But it also gives better results in thousands of older cars. It gives a more flexible power range, eliminates knocking, starts easily, and usually delivers enough extra mileage to more than offset its few cents extra cost. Sold everywhere at the silver-colored ESSO pumps. You can test it yourself—in your own car—at a nominal cost.

A Luxury that is an Economy

Buy today in Highland Pines. The subdivision with shade trees. Large lots. Easy terms. H. A. White & Sons, Realtors, General Insurance. Phone 49.

"Ring! Ring for Liberty!"
The old bell-ringer waiting in the steeple of the State House, Philadelphia, where the Continental Congress is in session to consider the advisability of adopting the Declaration of Independence. At last the long-expected word comes! Congress has accepted the document. The bell-ringer's small grandson shouts the word, and a moment later the tolling of what is henceforth to be known as the Liberty Bell announces the glad tidings to the city. This is the story of Henry Mosler's painting reproduced in beautiful color gravure next Sunday in THE WORLD.

The choice of home sites—Wilson Acres. Next to the college. In direct line of Greenville's best residential growth. W. Bruce Warren, Selling Agent, Munford Bldg., Tel. 761.

MRS. WILSON A GUEST AT HOUSTON

Mrs. Woodrow Wilson will be one of the distinguished guests of Houston during the Democratic National convention. She will participate in a tree planting ceremony at the site of a war veterans' home, which will contain a memorial to her husband.

Coffer Miller Players Please At The College

The Coffer-Miller Players gave an excellent performance of "A Marriage of Convenience" at East Carolina Teachers College last evening.

This witty, clever French comedy of manners, a play of the time of Louis XV, was new to the audience. So the unfolding of the plot was followed with keen interest. Mr. Coffer, as the Comte, by means of his fine shadings of tone and deliberate speech, and his artistic acting, not only brought out the character, but also helped the audience to catch the finer points in the play.

Miss Miller was a beautiful and sparkling Comtesse and did some excellent acting. Harriet as the maid, Marton and Clarence Westerland as the valet, Jasmin, gave the stars fine support. Arthur Mayberry played well the part of the Chevalier, the third person in the triangular love theme, and Miner Coburn was a good blustering general.

The members of the company arrived on a late afternoon train, hence the first curtain was a little late, something very rare at a college entertainment, but this will not happen this evening.

This evening at 8:30 o'clock the same company will present another one of the favorite comedies of manners, "She Stoops to Conquer." Mr. Coffer will take the part of "Tony Lumpkins" and Miss Miller will be "Lady Hardcastle." This fine old favorite never fails to bring to life the rollicking, sporting days of the eighteenth century, especially if it is well acted, and the members of this company have proved themselves good actors. There is a lot of uproarious fun in this play.

The entertainments in the summer series are maintaining the high standard set by those of the past offered by the college. Next week there will be two.

The International Singers, a famous male quartette will give a concert on the evening of July 3, Tuesday of next week.

The Hampton Singers, the noted negro singers from Hampton Institute, will give a free concert on the evening of July 6, Friday evening of next week.

Blue Bird Filling Station washes and greases cars. Call phone 107.

Red Men To Meet

All Red Men are requested to be present next Friday evening, June 29. Important business will be transacted and it is hoped for a big attendance.

We wish to announce that the contest between the Degree of Pocomantas and the Improved Order of Red Men will be closed July 1st. The ladies are leading by a narrow margin and all are smiles in anticipation of a chicken dinner they expect the men to prepare for them. This council is young and a very peppy bunch. They gave the men a fine race at the very start. But the men are doing a little "gum shoe" work and may surprise them at any moment by getting into the lead. Only two days to go, men, so get busy and win the dinner.

If you should have a wreck and ruin your tires—you loss will be covered if they are Murray Tires. See me for particulars. Mac Henderson, Serv-U Filling Station, Kinston-Farmville highways, in the forks.

Memorial Service at St. Paul's Episcopal Church. On next Monday, July 2, 11 o'clock. The Right Rev. Thos. C. Darr, D. D., bishop of the diocese of East Carolina will conduct a memorial service to the late Rev. James E. W. Cook.

The Holy Communion will be celebrated at this service. Several friends of this family will be present from other cities in the state. A cordial invitation is extended to everyone to be present at this service, and the ministers of all other churches in Greenville are especially invited.

ATTEND MEETING OF U. S. TOBACCO ASSO. J. S. Ficklen, R. M. Garrett, Walter Jones, G. V. Smith, W. Z. Morton, H. G. Juett, W. S. Moyer, A. E. Hobbgood, Mr. Bowles left today for Old Point Comfort, Va., to attend the annual convention of the United States Tobacco Association.

Playground Crowd To Stage Swimming Party Tomorrow

The swimming party planned by the boys of the Greenville civic playground for tomorrow afternoon will be an excursion to Riverside Park, (Public Landing). Boys are to meet at the Evans Street School by 1:30 sharp, and bring 15 cents for bathhouse use. Do not bring any lunch, as we plan to return by 7:30 this time. The large truck owned by the Battery has been very generously loaned for this first outing by Captain Jones, and is expected to take care of the crowd without other accommodations. The value of the swim will be greatly increased by the present and services of two expert Life Savers, Zeno Brown and Billy Brown, both of whom have official government sanction in this capacity, and who are to give instruction to the boys in life saving. Those boys who prove sufficient capacity in the tests which will be given at the end of the summer will be awarded certificates as Junior Life Savers. We should have a large number of boys who will take and pass this very beneficial work. To do this alone would make a summer worth while to anyone. Boys should not be late for this swim, as we do not plan to wait for late comers, and they may have to walk.

Local Kiwanians To Visit Bayview

Members of the Greenville Kiwanis club and their wives will spend tomorrow afternoon and part of the evening at Bayview. The program for the occasion calls for departure from the courthouse here at 3 o'clock, plunge in the bay, supper and dance.

This is the first time the club has ever held a meeting at the popular Pamlico resort and it is expected virtually every member of the organization will be in attendance. George Woodward is in charge of the program. President J. Frank Harrington will preside.

Blue Bird Filling Station washes and greases cars. Call phone 107.

Despite the wet and dry
fight at Houston, according
to Carl Goersch, no one has
been heard singing "How
Dry I Am." It is noticeable
that Anti-Smith as well as
Smith supporters have plen-
ty of drinks to offer, Carl
says.

Tobaccoists, bankers,
farmers and other business
men are off today for Old
Point to present their plea
for an earlier opening of the
Eastern Carolina tobacco
markets. In the face of the
huge losses that the section,
especially the farmers, are
sustaining by reason of the
late openings, we do not see
how the committee in whose
hands rests the fixing of the
opening dates can turn a
deaf ear to the plea.

The reason so many peo-
ple never wake up to find
themselves rich is because
they never wake up.

Not only must you pray
for the improvement of so-
ciety but you must work for
it as well if you really want
to see it improved.

THE FORCE OF SINCERITY

The events of this last
week have settled the most
important question with
which any political party
can be confronted. That
question is not whether the
party shall be wet or dry,
for a high tariff or a low
tariff, or one kind of farm
relief or another, or what it
shall say about foreign af-
fairs, nor in what terms it
shall denounce the faults of
the opposing party. All con-
ventions are ready to make
promises. But not all con-
ventions can give assurances
that their promises will
mean anything. The Hous-
ton Convention can now do
that. It will nominate a
candidate who at the risk of
stirring up the most serious
kind of trouble for himself
was unwilling that any one
should vote for him under
any misapprehension.

To those who have not
supported Gov. Smith his
declaration at the end of
last week ought to carry
much comfort and reassur-
ance. There was a man, with
the greatest prize in Ameri-
can politics in his grasp, in
a position when ordinary
political prudence would
have counseled an evasive
silence. He was not silent
and he was forthright. Does
that not mean that here is a
man of extraordinary high
moral integrity? Does it
not mean that this man is
concealing nothing, and that
when he says a thing he
means it? That is no trifling
matter. This man has said

that he has always taken
and will always take the
oath of office without mental
reservation, and that in the
affairs of state he recog-
nizes no higher authority
than his own conscience.
Can any reasonable man
doubt his word? He has said
that he would enforce all
the laws, even those that he
believes should be modified.
There is no reason to ques-
tion that he means just that.
After what has happened
every Democrat can say to
himself: "I may not see eye
to eye with Al Smith on
every issue, but I know I am
dealing with a man who
looks you straight in the
eye."

The Houston Convention
is off to the best start which
the Democratic Party has
known in twelve years.
There will be differences of
opinion. We welcome open
debate upon them. We do
not fear debate. We do not
fear the frank expression of
what is in the minds of the
delegates. We are perfectly
confident that the forces of
reason, good will and loyalty
are in control at Houston.—
New York World.

ABOUT TOWN

"The offer of Blount Brothers to
turn over the Westbrook Swimming
Pool to the city of Greenville dur-
ing the months of July and August
will be read with more than pass-
ing interest by those who have
been interested in the municipal
swimming pool project the past
years," said a leading citizen this
morning.

"The owners of the Westbrook
property are willing to place the
large pool at disposal of the city to
be used by the public. The only
thing they desire in return is to be
relieved of all responsibility con-
nected with operation and that the
pool be conducted on a non-profit
plan.

"The aldermen will consider the
matter at their next meeting. What
action they will take is a matter of
conjecture at this time. It is hoped,
however, it will be of a favorable
nature as a municipal swimming
pool has long been in demand and
would provide a source of splendid
recreation for children during the
hottest months of the summer.

"The Messrs. Blount are to be
congratulated upon their public
spirit. The community appreciates
the sentiment which actuated them
in their offer."

"A bone dry plank is being ad-
vocated by prohibitionists attending
the Democratic national convention
at Houston, Texas," a well informed
politician mentioned to us today.

"Just why the two dominant
parties of the nation should continue
to discuss prohibition as a vital
issue is more than I can understand.
The 18th amendment long ago
abolished the sale and manufacture
of intoxicant beverages in this
country. Why should a dry plank
be necessary? Both parties have
pledged themselves to support the
constitution. The amendment is a
part of the constitution.

"Do they want to change the con-
stitution, these wets and dries? They
might as well save all of the energy
now being wasted in an effort to
attract votes through such efforts.

"The constitution has always been
the foundation of the great govern-
ment of the United States. It must
continue to be a foundation and for
that reason platform planks of
either political party are going to
make mighty little difference with
the wet and dry situation in this
country.

"We are already supposed to be
dry. There can be no going back-
ward. We shall never be wet
again."

"Come on Greenville, let's pull
away from the middle of the stand-
ing of clubs column and go to the
top," shouted a fan standing in
front of the Reflector office yester-
day, listening to the by-play report
of the Fayetteville-Greenville game
at Fayetteville.

"With the whole team hitting
harder than any other time this
season there is no reason on earth
why we should not be able to out-
step those ahead of us and begin lead-
ing the league. It takes timely hitting
to win any ball game. Now that we
have this asset, it ought not be such
a difficult task of climbing the
heights.

"The club will be out of town four
days this week. They will return
Friday and Saturday. We should
all turn out and give them a big
send-off—show them we are really
behind them in this first real ges-
ture of leading the circuit."

"Women attending the Kansas
City convention forgot all about

Market Report Cotton--Stocks--Grain

NEW YORK COTTON
New York, June 26.—(AP)—After early irregularity attributable partly to evening up of July contracts as a result of notices, the cotton market advanced very sharply today on a continuation of the recent buying movement, evidently stimulated by unfavorable crop advices and weather news.

Active months sold about \$2.50 a bale above yesterday's closing quotations but met a good deal of realizing around 22.30 for October. The mid-afternoon market showed reaction of several points from the best.

Futures closed steady 40 to 46 points higher. Spot steady; middling 22.50.

Open	High	Low	Close	P. Close	
Jan.	21.52	21.94	21.45	21.88	21.45

Dec.	21.72	22.18	21.63	22.11	21.63

CHICAGO GRAIN
Chicago, June 26.—(AP)—Unwelcome rain in the harvest region outwest did much to make wheat prices average higher today. Some European inquiry, too, was reported for domestic hard winter wheat. Prompt shipment via the Gulf of Mexico. The future delivery market here, however, ran into selling orders whenever prices bulged.

Wheat closed unsettled 1-2 to 3-8 higher; corn 1-3-8 to 2-3-4; oats unchanged to 3-8 advance and provisions unchanged to a rise of 30.

STOCK MARKET.
New York, June 26.—(AP)—Seven cent call money made its appearance again in Wall Street today and the stock market, which has been heading upward, backed up, it did not break as it did when the high rate first made its appearance three weeks ago. Early gains of 1 to 3 points in the standard industrials and 5 to nearly 14 points in a few rails and specialties were down.

Banks called about \$30,000,000 in by early afternoon, presumably to strengthen reserves in anticipation of the comptroller of currency's bank call June 30 and the six-year settlements. Expectations that about \$600,000,000 will be distributed during July in form of dividend and interest payments, and provide a backlog of investment buying, had a tendency to keep selling in check.

Raising of the Anaconda Copper company's annual dividend from \$3.84 started a fresh burst of buying in the copper shares. Motors were mixed. Renewed weakness appeared in the rubber group on reports that the leading companies had been forced to write off huge inventory losses. U. S. Rubber common and first preferred, and Rubber sank to new lows for the year, on longer, selling pressure also was effective against the Intentional Baking issues, American Linseed, New York dock and cacao products.

The close was strong. Total sales approximated 1,400,000 shares.

Houston Meeting Causes no Ripple On Brule River

Superior, Wis., June 26.—(AP)—The opening of the national Democratic convention in Houston today caused no ripples in the ordinary White House routine here. President Coolidge's quiet and sunny life on the Brule river was disposed to continue without interruption, with attention being devoted to what business was at hand but with the natural beauty and the open air recreations of Cedar Island lodge claiming first place in the day's activities.

Mr. Coolidge had no closer contact with events at Houston than the average voter, the Daily Press and the radio being his only sources of information.

Mr. Coolidge was said to be outwardly at least, far more interested at present in learning how to paddle a canoe than in watching the actions of the Democratic party. John Larock, his Chippewa guide, has been taking the chief executive out on the Brule teaching him how to hold the paddle and how to keep the fragile craft on its course without shifting from side to side.

DEMOCRATIC CONVENTION SOLOISTS

Houston and Texas will have two of the best soloists appear before the Democratic national convention. Miss Edna Patterson of Houston, formerly a member of the Chicago Glee Club company, will sing "The Star Spangled Banner" at 10:30 p. m. on June 27. F. E. Shepherd, the singing mayor of Wichita Falls, will entertain the visitors later with cowboy melodies.

CONVENTIONALITIES!

By the Associated Press.

The Democratic chieftains who decided on night sessions for the national convention already are hearing from evening newspapers back home, but they place all of the blame on the evolution of the radio. By holding short sessions in mid-day, when many of the nation's millions are at home for noon lunches they assert that they will reach the voters over the broadcasting chain, and then again, with night sessions they believe literally millions will listen to the lambasting of the Republican party.

These leaders are depending on the newspapers to carry the all-important printed word, but they are overlooking no bets in getting their case across. Unless there is a change in plans there will be several night sessions of the convention, although no day will be altogether neglected.

"You can't go wrong on my initials—they are as simple as A B C," says Arthur B. Clark, the brown-dressed delegate from Altoona, Pa.

"Here's one for the book," and the information clerk tossed a telegram across the desk.

"When does the Democratic convention open?" it read. It came from Pittsburgh.

"Just inside the rice is a table with a diagram of seats spread. Two men approached.

"Please, Miss, we want two good seats down front."

Money changed hands and the men pocketed two tickets.

"Who said it was a hard job getting convention tickets," one said.

"Convention seats?" piped the young woman. "You've bought tickets to the wrestling match."

A national committeewoman by proxy is being mentioned as the probable choice of the Reed forces to second the nomination of the Missourian. Mrs. Antoinette Fonk.

THEA RASCHE ALL SET FOR OCEAN FLIGHT

Woman Flier to Take Off From Quebec as Soon as Weather will Permit.

Three Rivers, Que., June 26.—(AP)—Miss Thea Rasche and the monoplane, North Star, purchased for her by Mrs. James A. Stillman, were at Cap de la Madeleine flying field near here today awaiting favorable weather for the flight to Europe.

The plane was flown here from Hadley Field, N. J., yesterday by Ulrich Koemann, Miss Rasche's German mechanic, who is to be her co-pilot on the flight. The German aviatrix came on by train and was at the field when her plane arrived.

Officials of the airport stated that arrangements had been made to fuel the plane here fully for a trans-Atlantic flight and they believed she could make no stop once she took off until she reached her destination, which probably would be Berlin.

Mrs. Stillman who became Miss Rasche's backer when the German girl broke off relations with her former backers, said in New York she was sorry the flight could not be made from American soil but that she couldn't be bothered any more by petty annoyances in this flight.

"I'm doing what I think American women want me to do for this German girl," she said.

Fall of Austrian Cabinet Imminent

Vienna, June 26.—(AP)—Franz Dirghofer, Minister of Justice, has resigned his post as an outgrowth of criticism regarding his refusal to permit the extradition of Bela Kun, Communist, to Hungary. It is believed the entire Cabinet will fall.

EARHART BUYS HEATH PLANE

American Woman Purchases Machine Englishwoman Flew From S. Africa.

London, June 26.—(AP)—Lady Heath, famous British aviatrix, disclosed today that Miss Amelia Earhart had purchased the light moth plane in which Lady Heath had flown 11,500 miles from South Africa to London.

Miss Earhart will take the plane to America and use it in connection with a lecture tour. Lady Heath is anxious to retain final possession of the plane and it is understood that she had made an agreement to buy it back later if Miss Earhart is willing to sell. Lady Heath plans to visit the United States in the autumn.

Miss Earhart had kind words today for American newspaper correspondents in London. After a luncheon in her honor by the Association of American Newspaper Correspondents, she gave them a familiar little talk.

On her way to luncheon she met Bill Tilden, the American tennis star. They exchanged congratulations and Miss Earhart told Tilden that she hoped he would win the Wimbledon tournament.

State Bar To Meet Asheville Thursday

Asheville, June 26.—(AP)—North Carolina lawyers are assured of a first class entertainment program at the annual convention of the State Bar Association starting here Thursday evening.

A card party for the ladies at Grove Park Inn Friday morning, the law alumni luncheons of University of North Carolina, Duke University, and Wake Forest college; a tea dance as guests of President and Mrs. Mark W. Brown and a handicap golf tournament both at Bltmore Forest Country Club, a picnic luncheon at Lake Lure, and a ball at Grove Park Inn, compose the entertainment program.

Speakers for the convention include Silas H. Strawn, President American Bar Association; Prof. Edmond Morgan, Harvard University Law School; and Josiah Marvin, Wilmington, Del.

Man Held For Drowning Wife And Tiny Child

Pittsboro, June 26.—(AP)—Upon the allegation that a five year old daughter said she saw her father throw her mother into Deep River with the mother's mouth gagged, Sheriff Walter Blaid today was investigating the disappearance of Mrs. Beulah Mae Sheffield of Cumbook and her three months old baby.

The woman's husband, Roe Sheffield, was held in jail, pending outcome of the search. Sheffield, the sheriff said, was willing to stay locked up until the affair had been cleared up. Sheffield denied having been connected with the case.

THE LOUD SPEAKER
E. S. & S. Broadcasting

VOL. 1 June 26, 1928 NO. 5

Published in the interest of better homes in Greenville and vicinity by Electric Service & Supply Co., J. E. Kirkpatrick, Editor.

Up to the hour of going to press—as we editors always say—we have never met a man who follows his own advice. Have you?

If there is anything you think The Loud Speaker should publish, send it in. This being an editor is a heavy responsibility. HELP.

Pat: "I call your daughter Sun Maid."
Mike: "Sure, an' fur what reason?"
Pat: "She's the first girl my Sun Maid."

Cause and Effect.
"I heard the most perfectly darling radio program last night," Miss Sparkler gushed.
"Yes, wasn't it?"

Editor: "Send a letter to the General Electric Co., Schenectady, N. Y."
Steno: "How do you spell Schenectady?"
Editor: "Send the letter to Cleveland and let them forward it."
"Now," said the teacher, "I want you all to write a composition. Don't write anything you've ever heard or seen before. Write just what's in you."
Here's what Johnny wrote: "Inside of me there's a heart, a liver, two lungs and a stomach. Inside my stomach there's some potatoes, a couple of pickles, a piece of bread, and some ICE CREAM which was made in our G. E. Refrigerator."

See us here every Tuesday.
Electric Service and Supply Co., "It's Electrical." See Us. Greenville, N. C.

Prize Winning Letter

Below the letter written by Mrs. Bryant on "Why I send my Clothes to the Eureka Laundry."

April 27, 1928

Eureka Laundry, Greenville, North Carolina.

Gentlemen:—

A few months ago one of my neighbors told me how well pleased she was with your work, and asked us to give you a trial. We did so, with the result that we found that in all of our experience with laundries, in Greenville and elsewhere, we had never had work done in a more highly satisfactory manner, or been given service of a more genuinely satisfying sort at such reasonable prices. This has been sufficient reason for us to decide that we will continue to send to the Eureka all the clothes which we send to a laundry.

Thanking you for doing our work well, and hoping that your patronage will continue to grow with the rapidity it deserves, I am,

Cordially yours,
MRS. W. C. BRYAN, (Summit St.)

WRIGHT TELLS OF PLANS FOR COMING YEAR

Head of Teachers College Explains Reorganization in Various Departments.

In a recent interview Dr. Robert H. Wright, president of East Carolina Teachers College, gave out the following information concerning the reorganization of the college and the plans for the coming year.

All of the dormitories will be under the general direction of Miss Annie L. Morton, dean of women. Dr. Wright says that "Miss Morton knows better how to handle girls and gets better results in the way of student government than any one I have ever worked with."

Miss Morton's assistants are, Miss Mary Grace Wilson, assistant dean of women; Mrs. V. M. Epps, Mrs. Mamie G. Bradshaw, Mrs. W. G. McKean, assistant to the dean of women. Miss Arlie V. Moore is dormitory matron.

The new laundry is now in operation under the direction of Mr. W. E. Boswell, a trained laundryman. The laundry has the latest and most up-to-date type of machinery throughout.

Mr. Wade Holmes, for the past several years assistant engineer, has been promoted to the post of chief engineer, filling the place made vacant by the death of his father, O. C. Holmes, which occurred some months ago. Mrs. J. C. Cockrell has been made assistant engineer.

Two new departments of instruction have been created. One is the department of Sociology, Economics and Government. M. L. Wright has been placed at the head of this department. The other department is that of Educational Administration and Supervision, under E. L. Henderson. Mr. Henderson has been away this past year on leave of absence at Teachers College, New York.

Dr. L. R. Meadows, who has been away for the past year at Teachers College, also has returned with his doctor's degree, which was conferred recently. He is Director of the Department of English. Misses Mary Greene and Madeline Miller, both M. A.'s of Teachers College, will be assistants in this department for the coming year.

One new teacher, Miss Marie W. Peterson, M. A. of the University of Chicago, has been added to the Department of Geography for next year.

Prof. E. C. Hollar, who was acting director of training schools during the past year in the absence of Mr. E. L. Henderson, will be in the history department next year. Mr. Marion K. Fort, of Peabody College, will assume the duties of director of training schools. Mr. Fort is within one quarter of a year's work of his doctor's degree and Dr. Shelton Phelps, President of Peabody, says he is unusually well prepared and equipped for this work.

Mrs. Adelaide Elston, M. A. Teachers College, will fill the position in the home economics department, made vacant by the resignation of Miss Willie Bomar.

Miss Hazel Moore, M. A., Peabody College, will be in the Industrial Arts department to fill the place of Miss Ruth Bonnewitz who will be away on leave of absence.

Miss Ella Graves Thompson will be an addition to the department of Foreign Languages.

Dr. Herbert Rebarber, now teaching at Peabody College, will be director of instruction in the department of mathematics. Dr. Rebarber holds a Ph.D. degree from Peabody College, and has been teaching in that institution since he received his degree.

Miss Eugenia Thomas, who has been studying in New York the past year, and who was formerly supervisor of music in the Greenville city schools, will teach in the department of public school music next year.

The new teachers in the Model school employed to fill the vacancies made by the resignations of Misses Townsend, Redwine and Howard will be Misses Lucy Multon, Eunice McGee and Alma Browning

for the second, third and fourth grades respectively. Miss Cleo Rainwater will remain principal of the Model school.
Dr. R. J. Slay, head of the department of science, has recently received his doctor's degree from Columbia University. He completed the class room work necessary for it some years ago, but has just recently completed his thesis.
In the course of his remarks, President Wright said, "We now have at East Carolina Teachers College the best worked out organization and the best faculty we have ever had. From the standpoint of equipment, personnel and results accomplished, I will put this college up against any other college in America in its ability to turn out well-trained teachers."

HULL FORCES BEGIN ACTION AT HOUSTON

(Continued from page one)
Chairman Newland was the first delegate to enter the new hall this morning, arriving shortly before 11 a. m. he was soon followed by R. O. Everett, of Durham, T. D. Warren, of New Bern, C. S. Wallace, of Morehead City, and R. S. McCoin, of Henderson.

"The Old Gray Mare Band" parading through the hall with a comely young woman riding a grey horse at its head forced the delegates in the front row to stand up but that did not appear to bother any of them.

Houston has provided well for the convention delegates with the great hall and outside an immense rest building where the visitors may go and where the public can listen to the proceedings through loud speakers. Soft drink concessions did a rushing business outside the building with souvenir selling abounding.

There were "no smoking" signs on every side and convention officers said that the order would be enforced.

Houston, June 26.—(AP)—Senator Simmons could not come to Houston to continue his fight on Governor Alfred E. Smith, but the fight is going on just the same with the 19 or so North Carolinians selected by Hull forces at Raleigh leading the van.

Under the leadership of Josephus Daniels, of Raleigh, and Frank Hampton, secretary of the Senator, conferences looking either to stopping Governor Smith or preventing anything that might be construed as leaving the prohibition question open continued until far into last night.

Mr. Daniels, as a member of the resolutions committee for North Carolina was under instructions to fight to a finish for a bone dry plank and that if this could not be obtained in the resolutions committee he should take the fight to the floor of the convention.

Whether or not Mr. Daniels would actually be the floor leader in the prohibition fight remained to be determined as the delegates began stirring about this morning for the opening convention session starting at noon today.

United States Senator Carter Glass, of Virginia, is regarded here possibly as the person who actively will be leading the floor fight in the convention. Mr. Daniels, Senator Glass, Gov. Hardman of Georgia, Gov. Byrd, of Virginia, Harry M. Ayres, Alabama member of the resolutions committee, Edward Mattox, of Georgia, Senator Pat Harrison of Mississippi, who will get the Mississippi vote for President on the first ballot, and several other state representatives, sat in on a long series of conferences on the prohibition question.

An effort was made to work up a dry plank that would meet the wishes of all. The Virginia, Texas, North Carolina and Georgia delegations in their caucuses passed prohibition plank resolutions, those of Texas, Virginia, and North Carolina being particularly strong. Tennessee did not vote on the prohibition question although there was some discussion of it in their caucus.

The North Carolina delegates were about ready to take a good long rest last night and some of them did so. Two night and a day on trains with rounds of entertainment in Atlanta and New Orleans together with heat and humidity in Houston had much to do with it.

About the only thing the anti-Smith men on the delegation were

TENNESSEE'S FAVORITE SON By Gilkison

ready to admit, however, is that it is hot and the crowds dense almost to the point of suffocation and that the lobby and mezzanine floor of the Rice Hotel—general convention headquarters—are like ovens.

The caucus yesterday re-elected Senator Simmons as national committeeman, and Mrs. Palmer Jerman, of Raleigh, as national committee-woman.

The caucus elected W. C. Newland, of Lenoir, a delegate-at-large, chairman of the delegation, and Miss May Jones, of Asheville, and Miss Beatrice Cobb, of Morganton, secretary.

Convention committee members elected were: credentials, T. W. Warren, New Bern; platform, Josephus Daniels, Raleigh; permanent organization, R. S. McCoin, Henderson; rules, R. O. Everett, Durham; vice-chairman, Mrs. W. W. Belk, Charlotte, and Mrs. J. G. Fearing, of Elizabeth City; convention vice-president, J. A. Brown, Charlotte; national committee-woman, Mrs. Palmer Jerman, Raleigh.

The "sidewalks of New York" is about as popular here as it was in New York four years ago and on every side it can be heard played by bands of every description from the one-man band to one of fifty pieces. There is a women's band that plays occasionally and little Miss Geraldine Cole, of Houston, boosting for George L. Berry, of Pressmen's Home, Tenn., for vice-president, drew big crowds, as, dressed in a bewitching costume, she strummed and sang.

All day Sunday in New Orleans the delegations were imperturbed by taxi drivers, news boys and other to vote for Smith. On many sides in Houston the same thing is occurring.

But it remained for a newsie near the prize "sell" of them all. Loaded with a big bundle of papers, he began yelling "Senator Hefflin turns to Al Smith." His papers went like hot cakes. Several North Carolinians "bit" and then laughed. There wasn't a word in the paper about Senator Hefflin.

Rotary President

I. B. Sutton of Tampico, Mexico, was elected president of Rotary International at the annual convention in Minneapolis.

BRIEFEST FORMALITIES ATTEND FIRST SESSION AT THE NOONDAY HOUR

(Continued from page one)
self. Horse and rider got a bigger hand from the assembling crowds than either the band or its music.
Among the first of the distinguished guests to come into the reserved section on the convention platform was Mrs. Woodrow Wilson. She entered accompanied by Mrs. Jesse Jones, wife of the Houston publisher and banker, who upset a lot of political dove buckets by bringing this convention to his home town.

In a short straight-line georgette gown of deep violet shading into lighter tones in the collar-scarf and sleeves, Mrs. Wilson looked her youngest. Her waving, graying hair was almost hidden by a youthfully snug deep violet felt hat with a tiny brim. Her only jewelry was a long single strand of pearls. A tiny black fan served the double purpose of cooling her flushed cheeks and warding off photographers.

Soon after 11 o'clock Franklin D. Roosevelt unrecognized by most of them about him, arrived.
A constantly growing group gathered about Roosevelt as he took his seat under the New York banner. That chair was to be through the convention the post of command of the Smith majority.

Dressed entirely in black, and cooling herself with a black fan, Mrs. Thomas R. Marshall, widow of the war-time vice president, took her place with the Indiana delegation as a delegate-at-large. She told inquirers that her state was for Woolen, "on all ballots," but when asked who would likely be nominated for vice president, she replied with a twinkle, "Woolen."

Two others who were familiar figures in the Wilson Washington regime, Joseph P. Tumulty, the war president's private secretary and Admiral Cary T. Grayson, personal physician to Wilson throughout his eight years in the White House, walked together among the delegates greeting old friends.

The band played "Dixie" and from throughout the now half-filled hall rose a brief and feeling cheer as of rebel yell.

There was a cheer in the convention when just at the hour set for convening the California delegation unfurled a large banner, announcing that California is for "Al." The New York governor's pictures was in the center of the banner.

As they shouted "We are for Al. We are for Al," the delegates from the state of Herbert Hoover, the Republican presidential nominee, removed the plain standard bearing the word "California" to guide the delegates to their right place in the convention and put the big blue silk banner in its place.

The convention was late getting under way while Chairman Shaver of the national committee, conferred with other leaders regarding the program. The delegates circulated around in the greatest confusion and apparently impatient for the great Democratic show to get under way. Five minutes past

the hour set for convening, all the seats on the floor were filled and the aisles were packed with a jostling, moving crowd, but the galleries were nowhere near filled.

Just before noon John W. Davis, who was nominated for President on the 103rd ballot at Madison Square Garden four years ago, edged his way through the slow moving crowd massed before the platform to his place with the New York delegation. He paused for a moment to greet Josephus Daniels, former Secretary of the Navy, and a delegate from North Carolina.

A cheer went up as "Jimmy" Walker, New York's dapper mayor, pushed through the crowd to the empire state section. It was a little after the noon hour but Walker found that he wasn't late.

With him arrived George R. Van Namee, Smith pre-convention manager, who was on hand to watch developments, although he is not a delegate.

SPOTS BEFORE EYES

Miner Had Dark Spots Before Eyes. Felt Dull, Tired, Achy. Doesn't Get Down Any More.

Somerset, Ky.—Telling how he had known of the merit of Theodor's Black-Draught since he was a boy, Mr. Albert Garland, of this city, recently said:

"I used to work in the mines, but lost quite a bit of time on account of the sick spells I had. I would get to having a bad taste in my mouth, and a very dull, tired feeling and ache. I would have dark spots in front of my eyes, and I would be so dizzy I would stagger like I was drunk.
"I took medicine, but didn't seem to get any better.
"My mother told me to try Black-Draught, which I did, and after a few doses I felt much better. Now I take it as soon as I feel the least bad, and I don't get down. I certainly can say that it has done more for me than any other medicine I have ever taken.
"I never get without Black-Draught. If I go on a visit, I take a package along in my suit-case. My health is better now than it has been in years, and I believe it is the use of Black-Draught that did it."

Black-Draught is prepared from medicinal roots and herbs, of highest quality. Try it.

We are now prepared to handle your printing needs—Let us figure on that next job for you.
The Daily Reflector Job Dept.

The idea appealed to us, As it never did before, To make up little rhymes To advertise our store. Of course, you know we sell furniture, Stoves, carpets and bed springs, In fact, if it's for the house We've got the very thing.
So if you need a window shade, A desk or big arm chair, Just think, "Quinn & Miller," I'm sure to get it there. But then you may be busy, So ring us on the phone, And if it'll be more convenient, We'll send our man to your home.

Quinn-Miller & Co.

Watch for Wednesday's Rhyme

Newest Summer Hats \$4.95

In Chic Summer Straws and Supple Felts

It is our belief that these hats are the finest hats we have ever offered our discriminating clientele at \$4.95. Every one is a copy of a Parisian original and come in large, medium and small head sizes. They are the type of hats that you can wear now and throughout the season with assured smartness.
