RUSSIANS TO TILL SEARCH FOR AMUNDSEN

Rescue Party to the Northland to be Pursued With Unusual Persistence.

Moscow, July 17.—(AP)—New Russian plans for a search for the missing Amundsen party were developing today as the rescue ship Krassin was slowly pushing its way toward Advent Bay carrying seven of the crew of the Italia and nine members of two rescue parties including the aviator Chukhovskiy picked up Sunday night.

The Krassin temporarily out of the search because of lack of fuel, the second Russian icebreaker, is now in northern waters, is under instructions to make a thorough search for the Amundsen party. The Malignin today was 40 miles east from Kign Karl Island, south of Northeast Land, and was fighting a heavy storm which has been raging since early morning. The instructions were for the Malignin to search for Amundsen and then to return to Archangel.

Moscow, July 17.—(AP)—The Russian rescue mission aboard the ice breaker Krassin was eager today to make a search of the ice filled waters to the east of Foyin Island. Members of the mission were confident that they would be able to lift the veil of mystery surrounding the fate of six missing members of the crew of the Italia and possibly of Roald Amundsen and his five companions.

After the balloon part of the airship had been freed of the weight of the gondola when it was torn off by its impact with the ice floe it drifted to the east. Smoke was seen rising from the balloon and it was assumed it came down about 25 miles from where the airship was wrecked. The six men aboard it were sent to Aland, a Swedish island, by Lieutenant Ettore, Arduini, navigator; Professor Aldo Pontremoli, scientist; Dr. Hugo Lago, journalist; Attilio Caratti, motor attendant.

Amundsen had hoped that he would be able to effect the rescue of these men and when the French government offered a seaplane which had been prepared for a trans-Atlantic flight he accepted the offer.

The seaplane in command of Captain Rene Guilbaud and with a crew consisting of Lieutenant Albert De Cuveland, pilot; Emile Vallette, radio operator, and Gilbert Bray, mechanic, started for Norway. There Amundsen and Lieut. E. Dietrichsen were picked up and the six men hopped off from Tromsø on June 18. It was thought that they would go to Spitzbergen and establish a base there for operations.

When the plane became overdue it was suggested that Amundsen instead had flown direct to the place where the balloon group was believed to be. It was recalled that in 1925 Amundsen, Dietrichsen, Lincoln Ellsworth and three others were missing for almost a month on the polar ice caps when their planes were forced down and later flew to safety.

The Krassin is making for Advent Bay where it will coal for another voyage to the north in search of these twelve missing men. The place which the Soviet flyer Chukhovskiy used successfully in the rescue will also have to be repaired. Then the Krassin will establish a flying base and push its search.

Knights Templar At Detroit, Mich.

Detroit, July 17.—(AP)—Knights templar to the number of 35,000 marched in the grand parade today, feature spectacle of the annual convocation of the organization in session here.

With white plumed hats setting off the dark regalia of the order, the knights passed over the downtown streets where temporary seats accommodating 200,000 were erected. Included among the marchers were 100 bands.

The grand commanderies of 48 states participated in the spectacle as well as high officials of the order and score of subordinate commanderies.

The position of honor in line was given to the grand commandery of Colorado, the home state of the most eminent grand master, George W. Vaflery and to his own commandery, Denver, No. 25, which the honor of personally escorting the grand master.

The parade formed in 13 divisions with the Mexican grand commandery at the end. Mounted crusaders, garbed in the ancient armor of the order, led the march.

New York-Rome Pilot

Cesare Sabelli, Italian flyer, will pilot the plane Roma on its trans-Atlantic flight attempt from New York to Rome.

BUILDING AND LOAN MEN HOLD ANNUAL MEET

Many Delegates Present When Session Opened at Sanford Today.

Sanford, July 17.—(AP)—Attended by delegates from every association in the state, the 25th annual meeting of the North Carolina League of Local Building and Loan Associations got under way here today with the address of the president, G. H. Hendrix, of Greensboro.

Mr. Hendrix said the association, by its activities other than to cooperate with all organizations toward increasing the number of home builders and owners. He urged all officials and members of associations to do missionary work along this line.

A startling fact found by building and loan men, Mr. Hendrix said, is that there are many persons in middle life who seem to have no desire to own their own homes.

"As I see it," he added, "it is the big work of the associations of the state to discourage this apparent carelessness on the part of individuals not securing a home of their own, and I believe if properly handled, the associations of North Carolina can interest their patrons in this wonderful work to an extent that practically all will want to own their homes instead of living in congested apartments or rented houses."

Similar views were expressed in an address prepared for the afternoon session by Dr. D. D. Carroll of the University of North Carolina School of Commerce, who said the development of swift and cheap transportation and the appearance of the furnished apartment house threatens to make a large part of the population "wanderers on the face of the earth." The consequence of this increasing instability of residence, he said, is an undermining of community interest.

"The most effective way to give a person abiding interest in the locality in which he lives, Dr. Carroll said, "is to anchor him there by ownership of a home."

Others having parts on the program today were Mayor W. R. Williams, of Sanford; Charles A. Hines of Greensboro; C. E. Todd, of Wilmington, secretary of the league; W. H. Little, of Hickory; Miss Virginia Grayson, Rutherfordton, and E. J. Caffey, of Charlotte.

Reward Finder Flyer's Body

Mexico City, July 17.—(AP)—El Universal said today that the War Department had decided to present \$500 to John Carr, of Mount Holly, N. J., for having discovered the body of Captain Emilio Carranza. This would be done to show the Mexican government's appreciation for his services which made possible the recovery of the remains of the Mexican flyer.

General Jose Luis Amezcua, chief of Mexican air forces, has made arrangements to deliver the money to Carr.

Freighter Runs Ashore.
Quebec, Que., July 17.—(AP)—The freight steamer Michael P. Embroc and a pilot's tender, the C. G. S. Jaobert, went ashore two miles west of Father Point this morning.

The freighter was laying off the point in a dense fog waiting for the tender, when both vessels drifted aground. No fatalities were reported.

DEATHS FROM HEAT MOUNT IN EUROPE

Many Score Drowned in Wild Rush to Beaches in All Parts of Continent.

London, July 17.—(AP)—Deaths from the heat wave which has spread over Europe have reached a high total and the rush of thousands to the rivers and lakes has led to many scores of drownings.

While the temperature in southern Europe dropped 10 degrees yesterday dispatches from the continent report a continuance of the heat and in some places an increase in temperature. Temperatures of from 95 to 100 degrees were common in wide areas and in some places the thermometer was much higher.

The Daily Mail today said that it was 144 in Warsaw. A temperature was much higher.

The Daily Mail today said that it was 144 in Warsaw. A temperature of 116 was reported from Budapest and of 131 from Lake Balaton, 50 miles from Budapest. The whole Hungarian plain was sizzling.

Washington, July 17.—(AP)—Central European temperatures reported from London today were regarded as incredible by weather bureau officials here.

They attributed the high figures to errors in converting centigrade to Fahrenheit, and stated that 105 degrees Fahrenheit "would be about the limit for central Europe." No absolute check could be made here, only early morning temperatures are received from the continent.

"Figures officially reported everywhere are for shade temperatures," said Director Marvin, of the bureau, "but centigrade is used in Europe and there must have been an inaccuracy in converting these. I can't believe it is a credible report."

He added that 144 degrees centigrade would be 44 degrees above the boiling point of water and even 144 degrees Fahrenheit is unknown over the Sahara.

LOCAL MAN DIES TODAY

A. C. Holloman Passed Away Today Following Sudden Attack of the Heart.

Alfred C. Holloman died this morning at seven o'clock at his home on Fifth street, following a sudden attack of the heart. He had been subject to heart trouble for two years.

TAKE ACTION ON PARALYSIS

Doctors of America To Attempt to Avert Any Possible Epidemic to Children.

New York, July 17.—(AP)—Believing that on the basis of the history of the disease they cannot look forward with any degree of assurance to an absence of outbreaks of infantile paralysis during this summer an effort, doctors and research men throughout the country are organizing for a concerted attack on any epidemic that may develop.

Every possible precaution is now being taken to protect the public from the ravages of the disease and doctors believe the advances which medicine has made in the knowledge of infantile paralysis during recent years should diminish the anxiety which its presence always occasions.

No satisfactory method of immunization from the disease has been developed but there is now a convalescent serum, taken from a blood of recovered patients, which acts to nullify the virus if injected in the early stages of sickness. Funds have already been established in San Francisco, Boston and New York, to defray the expense of collecting and distributing this serum, which will be placed in the care of committees of physicians especially informed and qualified to direct its use.

When the above facts and those that follow were made known to the Associated Press they were presented to officials of the Rockefeller Institute of Medical Research, and the Institute gave its official approval.

The main centers of experimental investigation of the disease have been at the Rockefeller Institute here and at the Pasteur Institute in Paris, although laboratories in Germany, Austria and Sweden have added their contributions to the rapidly growing knowledge of the disease. Infantile paralysis is caused by an invisible germ and is communicated from one person to another only through the mouth and nose. Cleanliness and forbearance from contacts such as kissing children, who are the chief victims, are the only known preventatives.

"It is necessary that parents keep a sharp lookout as to the health of their children," one internationally famous physician told the Associated Press. "Symptoms of the disease are not readily apparent to the layman. The children run a fever, become nauseated perhaps, and complain of a headache. These are also symptoms of many other diseases. In a little while the neck may stiffen, or an arm or a leg become paralyzed. If only the child can be placed in the hands of a competent physician before this occurs, the results would be beneficial. These facts are stated not for the purpose of alarming the general public, but merely to point out the necessity for great care."

The first spectacular epidemic of the disease occurred in 1907-08 and its origin was traced to northwestern Europe. Since the virus is carried by man, and so far as research scientists have determined by man alone, it has spread over the trade routes of the world. In 1916 it swept over New York state, leaving 20,000 recorded cases. During the ensuing 10 years the attacks slackened but last year several severe outbreaks occurred in this country, forcing doctors to the conclusion that although the white population of the world may some day become immunized to its ravages, the disease has not yet run its course.

CONVINCED EARTH IS FLAT AFTER AROUND WORLD TRIP

Zion City, Ill., July 17.—(AP)—Wilbur Glenn Voliva, overseer of Zion City, who recently returned from a trip around the world and announced he was convinced that the earth was flat, has named his successor. He will be Apostle M. J. Mintern, youngest of the Zion church's leaders.

ASKS PROBE OF SERVICE JIM WALKER

Investigation of Administration of N. Y. Mayor Requested by Socialists.

New York, July 17.—(AP)—An investigation of Mayor Walker's administration is asked in a petition to Governor Smith by the state executive committee of the socialist party which charges "municipal misrule and political corruption."

Eleven specific accusations are made, including alleged graft in sewer construction in Queensborough; payroll padding in the street cleaning department, alleged monopolies in the sale to the city of supplies, in which William F. Kenney, friend of the governor, is mentioned, and the expenditure of \$200,000 for the reception of "so-called distinguished guests."

"To look to Mayor Walker to correct any of these grievous wrongs would be a waste of time," it says. "The mayor has assiduously spent his time, which belongs to the city, by gracing parties, visiting race tracks and in general earning for himself the title of the 'absentee mayor.'"

"To guard against any white-wash," the petition demands that representatives of the socialist, democratic and republican parties be appointed to the investigating commission.

Democratic Leaders Gather at Raleigh

Raleigh, July 17.—(AP)—Democratic party leaders were gathering in Raleigh today for the called meeting tonight of the state executive committee which is expected to elect O. M. Mull of Shelby as its chairman, to succeed Dennis G. Brummitt, and to plan for the fall campaign. O. Max Gardner, of Shelby, nominee for governor, who suggested the name of his fellow townsman for the chairmanship, is among the party leaders expected to attend.

The meeting will be the first for the committee. Many new members were elected recently at the county conventions. The meeting will be held in the hall of the House of Representatives.

In addition to Mr. Gardner, other leaders who are not members of the committee expected to be present, include former Governor Cameron Morrison of Charlotte, former Congressman Clyde R. Hoey of Shelby and R. T. Fountain, Democratic nominee for lieutenant governor.

EARL NOT RESPONSIBLE FOR DEBTS OF WIFE

London, July 17.—(AP)—The newspapers today carry a notice from Lord Ashley, heir of the Earl of Shaftesbury dated July 16, that he does not hold himself responsible for any debts incurred by his wife after that date and that she has no authority to pledge his credit.

A little more than a year ago Lady Ashley, who was formerly Sylvia Hawkes, a leading actress on the London stage, and Lord Ashley figured in one of the most romantic marriages in recent years.

ONE KILLED BY POLICE

Another Injured As Indianapolis Cops Turn Machine Gun Fire on Criminals.

Indianapolis, July 17.—(AP)—One man was killed and another seriously wounded early today when police turned a machine gun on two automobile loads of alleged holdup men on the National Road East of Indianapolis. Six men escaped capture.

The dead man was believed to be Edward Rider, about 23, address unknown. Officers could not learn the identity of the wounded bandit.

The fight occurred when the men in the two cars blocked the road to hold up persons in an approaching car. When the selected victims escaped by driving recklessly over an interurban track the men started to hold up the car in which the policemen were riding. Almost immediately they recognized their mistake and opened fire. Machine guns manipulated by Lieut. Fred Drunkut and Patrolman Frank Hindman were turned loose and the man believed to be Edward Rider, fell back mortally wounded.

TELLS OF SOUTHERN PATRONAGE

Smith Opponents May Be Barred In Texas Primary

San Antonio, Texas, July 17.—(AP)—Democratic candidates in Texas who refuse to support Gov. Alfred E. Smith, of New York, the party nominee for President, may be barred from a place on the primary ballot, the Fourth Court of Civil Appeals ruled here today.

The court upheld the action of the Cameron County District Court which refused a writ of mandamus compelling the Democratic executive committee to print the name of State Senator Thomas B. Love, a candidate for the nomination of lieutenant governor, on the county ballot. Love's name was left off because he had announced that he would not support Governor Smith.

Love had contended that he was entitled to a place on the ballot because he had been duly certified by the State Democratic Executive Committee.

WAIT ACTION OF BRITAIN

Decision of British Power Expected on Treaty Renouncing War.

Washington, July 17.—(AP)—With Secretary Kellogg's proposed treaty for the renunciation of war approved by four of the fourteen nations which were invited to become signatories, State Department officials today looked to Great Britain for the next important development.

Dispatches from London said that a note in reply to Mr. Kellogg's communication of June 23, which was submitted with the draft treaty probably would be given to the American Charge d'Affaires there tomorrow and quoted Sir Austen Chamberlain, the Foreign Secretary, as asserting in the House of Commons that the London government had reached a definite stand on the subject.

Previously, unofficial information had been received here to the effect that Great Britain stood ready to endorse the American proposal. Secretary Kellogg was highly gratified at the replies of France and Italy and termed their acceptance very satisfactory. He was pleased, as well, with the approval of the Irish Free State, the latest to be announced. Germany's endorsement was made known last week.

A note from the Irish Free State, signed by its Minister for External Affairs, Patrick McGilligan, was made public last night. On behalf of his government, McGilligan declared the Free State ready to sign the compact "in conjunction with such other governments as may be so disposed."

Holding that the effectiveness of the treaty depended largely upon its universal application, his note expressed the hope that the pact might "meet the approval of the other governments to whom it may be sent, and that it may be subsequently be accepted by all the other governments of the world."

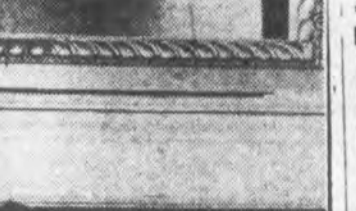

REPORT SEEING MONSTER AT IKANAGAN LAKE

Vernon, B. C., July 17.—(AP)—A report by patrol of girl guides that they saw a mysterious monster disappearing itself in Ikanagan Lake has led a few persons to believe in a reappearance of the "ocopogo" but a great many more ought to have a new instructor in zoology, or keep out of the sun on hot days, or both.

The otopogo has been reported before, always in the hottest weather, but whether it is the sun that causes the monster to rise to visibility from the depths of the lake or whether it merely causes sun baked eyes to see something that isn't there is an open question.

The girls were unable to give an accurate description but said it was about 45 feet long and rushed across the surface of the lake with an undulating motion that made "quite a noise."

HERB HOOVER TO LEAVE FOR HOME TODAY

Herbert Hoover, Presidential Candidate, has last confab with President before departure.

Superior, Wis., July 17.—(AP)—Concluding his two days visit with President Coolidge, Herbert Hoover left the summer White House at Cedar Island Lodge today for a reception at Duluth tonight before resuming his journey tonight to his old home in California where he is to be notified of his nomination as the Republican presidential candidate.

There was no official information as to the matters which formed the subject of conversations between the chief executive and the nominee, but it was announced that Mr. Hoover's resignation as commerce secretary would not be accepted until after he had reached the Pacific coast and disposed of some matters there relating to his department.

As soon as these have been straightened up, the President will accept the resignation, leaving Mr. Hoover free to devote his entire time to the conduct of his campaign which will be formally launched on August 11 with the notification ceremony at Leland Stanford University.

The President expects these matters to be closed up very shortly and then the resignation will be accepted and a successor appointed. Confirmation still was lacking of reports that William M. Butler of Massachusetts, former chairman of the Republican national committee had declined the Cabinet place soon to be vacated by Hoover, and his name was still coupled with that of Dwight W. Morrow, of New York, ambassador to Mexico, in the discussions here concerning the appointment.

Superior, Wis., July 17.—Herbert Hoover had a few hours more today with President Coolidge at the summer White House on the Brule river before resuming his westward journey tonight to Palo Alto for his official notification ceremonies next month.

While Hoover will continue to hold the title of commerce secretary until his successor is appointed, it is known that he is definitely through with that office and so will be able to devote all of his time hereafter to the planning of the strategy of his campaign and to conducting his personal contest for the Presidency.

Discussion of this strategy was among the things that brought Hoover to the northern Wisconsin hills yesterday for an overnight visit at the summer White House. But the conversations between the President and the nominee covered a wider range, and were believed to have encompassed questions of policy.

The visit of the Republican standard bearer caused renewed discussion as to his successor as the head of the commerce department, but without any indication as to whom the President had under consideration. There was also as rigid a silence as to the successor of Hubert Work, who resigned his place as interior secretary after Hoover placed him at the head of the Republican national committee in immediate charge of the national organization being built up for the impending campaign.

Before beginning their conferences, the President and Mr. Hoover had a couple of hours of recreation, fishing in the Brule river, where Mr. Coolidge has been successful during his month's visit here, and where the Republican nominee fished 15 years ago. The official announcement of the day's catch yesterday—eight each—indicated the President and his guest were well matched in the art of angling.

While their consorts fished at some distance from Cedar Island lodge, Mrs. Coolidge and Mrs. Hoover visited together. Mrs. Hoover was the first woman guest at the summer White House since the Coolidges arrived a month ago.

Colombian Flyer's Plane Is Wrecked

Fort Bragg, July 17.—(AP)—The big biplane which Lieut. Camillo Daza, Colombian flyer, was forced down at Dillon, S. C., enroute from Washington to Bogota, Colombia, was wrecked beyond immediate repair last night when an automobile driven by an army officer here crashed into the airplane which was being towed to Pope Field.

The wreck occurred about four miles from Fayetteville. No one was injured but mechanics said repair of the plane here was out of the question.

Deeran made an excited statement to police when captured in a blind alley, declaring he felt that the men he shot were old enough to pay the debt of the postal department. The man explained that his "liberal views" caused his discharge in Boston in 1925 and that he was forced to find odd jobs when he could. He was unemployed and dependent on charity here, having only arrived recently.

Johnson's wounds were superficial but Griswold, who was clipped in the neck by bullets when the man suddenly fired in the midst of downtown crowds of shoppers, was in a critical condition with a "good chance" for recovery. His home is in Tampa.

Many Poisoned By Chocolate Pie

Boston, July 17.—(AP)—Chocolate cream pie today was believed to be responsible for more than 200 cases of food poisoning in greater Boston.

Approximately 75 persons were in hospitals in Somerville, Boston and Medford, as many more had been treated and released while an undetermined number of others, believed to be several score, were under treatment at their homes.

The victims were principally employees of industrial plants who had partaken of box lunches yesterday and those who had shared the lunches.

So great was the toll in the Ford automobile plant in Somerville where 150 men and women were affected, many of them collapsing at their machines, that work had to be suspended for the day while those who were well helped to rush the stricken to hospitals and physicians' offices.

Victims also included several persons who had partaken of noon day meals in a downtown restaurant of the Waldorf lunch system Inc. in this city.

The Waldorf Company supplied lunch boxes to all of the plants affected. The boxes contained ham, cheese andologna sandwiches, chocolate cream pie and milk.

Apart from samples retained for investigating authorities, the company directed its store managers to destroy every remaining pie.

Physicians treating the victims described the cases as similar in symptom to ptomaine poisoning. Victims suffering severe cramps and became nauseated but as far as could be learned none was in danger.

Wright Talks To College Students

Dr. Robt. H. Wright, president of East Carolina Teachers College, talked to the summer school students today at the chapel period. His talk was in the nature of a review of the Conference on Elementary Education held at Chapel Hill last week.

He said that one of the encouraging things about these conferences was that they had discussed everything else in the past but the child and now that the conference had got down to real business this year and discussed the child. More and more, he said, is the educator and public convinced that the real business of public elementary education takes place between the pupil and the teacher and that more and more is the public going to demand that this relationship be strengthened through the medium of well-trained teachers.

Youth Chokes Rattlesnake

Pottsville, Pa., July 17.—(AP)—A youth whose grip was fatal to a rattlesnake (killed about his neck) was in a hospital today apparently suffering only from fright. He was not bitten.

On a road between Mt. Pleasant and Minersville, two men last night found Louis Karbosky, 23, unconscious. The tail of a three-foot snake was around his neck. When the men tried to help him Karbosky retained partial consciousness and twisted and groveled to defeat their purpose, keeping his hands back of his head gripping the snake.

The snake men, Peter Mowery and John Hopfel, appealed to passing motorists and the youth was taken to a Minersville doctor. But even the combined efforts of the doctor and two men were futile.

Dr. Leroy Parcell finally chloroformed Karbosky. As his muscles relaxed the men stood by ready to capture the rattlesnake. The snake however, was dead. Karbosky was removed to a Pottsville hospital where an examination disclosed he had not been bitten. He was held for observation.

From the youth's incoherent muttering the story was gathered that he had been walking through some brush by the roadside when he felt something against his neck. Reaching his hands back he found the snake. And the doctor says, fell to the road unconscious from fright.

Widow of Former Magnate in Poverty

Leadville, Colo., July 17.—(AP)—An auctioneer's hammer has sealed the last source of income from the estate of the late United States Senator H. A. W. Tabor, leaving the widow of the pioneer western mine magnate in poverty.

Execution of a foreclosure order here on the matchless mine climaxed the fight of Mrs. Elizabeth Tabor to recover a part of the huge fortune her husband controlled.

Since the slump in silver prices shortly before the death of Senator Tabor 25 years ago, his widow has attempted to curb the outward flow of funds derived from the Tabor chain of mines. In her final effort she turned to the matchless property which produced \$10,000,000 worth of silver before production costs became prohibitive.

On five previous occasions Mrs. Tabor succeeded in obtaining funds to satisfy creditors, but yesterday was unable to meet the demand for ready cash. As the sheriff announced the mine would be sold to the highest bidder and turned the sale over to the auctioneer, only a few persons attended and there were but two bidders. Gradually the price slumped from \$7,000 to \$14,000, for which amount the Shore Mining Company obtained the property.

Mrs. Tabor, who has lived on the matchless property in a cabin for many years was not at the sale. She was understood to have gone to Denver to attempt to raise money to prevent foreclosure.

To Carry on Fight For Farm Measure

Des Moines, July 17.—(AP)—Condemnation of President Coolidge's veto of the McNary-Haugen bill, the Republican farm relief plank and the candidacy of Herbert Hoover today were contrasted with the approval of the agricultural plank of the Democratic party as the results of a meeting of the cornbelt committee.

Members of the committee, made up of midwestern farm leaders, assembled yesterday to discuss the political situation as it affected the farmer in the forthcoming election. "Organized agriculture speaking through the corn belt committee hereby expressed its determination to carry on the fight for the McNary-Haugen bill, which is the only plank that has been suggested to make the protective tariff executive on these agricultural products of which we produce a surplus, without government subsidy, which we have consistently opposed," said the resolution.

The Houston agricultural plank was commended on the ground that it "includes a definite endorsement of the principles for which organized agriculture has long been fighting." The Republican stand on the farm question was pictured as "a renewal in less definite form of the pledges adopted in 1924 at Cleveland."

"With every ounce of our strength we opposed the Hoover-Coolidge policy of the industrialization of America at the expense of agriculture," said another resolution.

LOCALS TRIM ROCKY MOUNT YESTERDAY

With Deacon Joliff on the mound, Greenville won the first game of the Rocky Mount series yesterday afternoon 8 to 4.

Joliff went for six frames allowing the visitors only a couple of scratch hits, and in the seventh he gave up two safeties and allowed three in the eighth.

Davis, for Rocky Mount, was laced quite freely, allowing ten hits, two of which were for the circuit.

Crowe at third, Crossjean at the short station, and Bickham in right field, new additions to the locals lineup, acquitted themselves well with the willow and afield. Bickham parked the sphere in the seventh inning with two on bases.

Brandes, for Rocky Mount, led his teammates with the stick getting three out of three, while Fayonsky hit for two of four.

Several Kinston Players Injured

(By the Associated Press) The Goldsboro Manufacturers League leaders, split a double bill with Kinston yesterday in the East Carolina loop winning the first 4 to 3 and dropping the nightcap 3 to 1. Seven members of the Kinston team were injured, none seriously, when their bus overturned at Adamsville as they were on their way home. The accident occurred when the driver of the bus turned into the ditch to avoid striking a small car that turned suddenly into the highway from a side road. The bus was wrecked.

In the first game of the series Greenville downed Rocky Mount, 8 to 4. Davis was touched for ten hits. Deacon Joliff held Rocky Mount to two scratch hits in the first six innings.

Wilmington and Fayetteville, playing in the coastal city, split a double bill, the Pirates taking the first 5 to 2, and dropping the second 8 to 0. Weaver, Schofield, Mery, Baker and Young hit homers in the first game.

USE... this EXTRA POWER

If you know the ins and outs of the refining industry, you would realize why ESSO, the Giant Power Fuel, is the finest product of more than half a century's experience.

ESSO is more than gasoline. It is a quick-starting, powerful, anti-knock fuel, practically necessary in the new high-compression motors.

ESSO also steps up other types of motors. It not only makes driving more luxurious, but it usually gives enough extra miles to offset the slightly higher price per gallon.

ESSO is on sale through the silver-colored ESSO pumps. Test it yourself on the hills and over tough roads. It turns carbon into power!

LOUGHRAN IS STILL LIGHT HEAVY CHAMP

By EDWARD J. NEIL (Associated Press Sports Writer) Wilkes Barre, Pa., July 17.—(AP)—Pudgy Pete Latzo, brown skinned Slav, who once mined coal in these Pocono mountains, was just a good game fighter today while Tommy Loughran, handsome Philadelphia youngster, still was the light heavy weight champion of the world.

For the second time in seven weeks, Latzo, pride of the miners he once labored beside, battered and slugged last night at the superb technique and boxing skill of the master of the 175 pounders—and for the second time received nothing but a bloody nose and the short end of the purse for his pains.

In the heart of the anthracite section that knew him first as a breaker boy in the collieries, next as a full fledged miner, then as a boxer and finally the welterweight champion of the world, Latzo struggled with every ounce of his strength in his rugged body, now grown to the full stature of a light heavyweight, to win a second title, but the master, Loughran, badly shaken though he was at times, with the blood streaming from cuts in his right eye and cheek, always was able to muster the final ounce of class and stamina that marks the true champion.

Just as Pete failed in the National League park of the Brooklyn Dodgers last May 30 to lift Loughran's crown through sheer gameness and rugged punches power, so did he last night stumble again through lack of that final measure of ring class and generalship when the title was well within his grasp.

Asheville Holds Lead in Sally

By the Associated Press.

Only one thing was needed to make the dedication of Augusta's new municipal stadium a complete success yesterday—but that one thing, a victory over Asheville, was lacking.

The South Atlantic Association leaders, after taking part in the fire raising and parading along with Judge Kenshaw Mountain Landis and President Bramham, turned on the Tygers and marked up a five to two triumph.

Harris had the Tygers tamed and allowed them only five hits, distributed among three men.

A four run rally in the last two innings gave Greenville a six to four decision over Macon. Four home runs, two for the Spinners by Cross and Tillie Walker and a pair for the Peaches by Lee and Lopez, all came when the bases were empty.

The Goodmen outthrew the winners but had ten men stranded on the bases.

Evans, Spartanburg hurler, had little to worry Columbia and the Comers pounded out a six to three verdict. Worth led at bat with three safeties in four attempts. Charlotte and Knoxville were rained out.

BABE RUTH HIT 35TH HOME RUN OF THE SEASON

By HERBERT W. BARKER (Associated Press Sports Writer)

Whether it's because of psychology, the law of averages, luck, or what have you, the Chicago White Sox are playing winning ball under the management of General Mackburne.

For the second time in two playing days, the pale Rose took over both ends of a double header with the Boston Red Sox, yesterday, 4 to 9, and 9 to 1. While Red Faber and Tod Blankenship were holding the Sox team to 14 hits and a single run in the two battles, the White Sox were hammering out 21 hits off Bunting, Harris and Simmons.

The New York Yankees demonstrated conclusively that they have recovered from their recent slump by taking their second consecutive double header from the Cleveland Indians, 7 to 3 and 6 to 2.

Babe Ruth hit his 35th homer of the year in the first inning of the opening and how stands 22 games, 20 days and five home runs ahead of his 1927 schedule.

The Philadelphia Athletics dropped their best in the race when they gained no better than an even break in 148 games with the Detroit Tigers. Jack Quinn, veteran of Connie Mack's firing squad, registered his 12th victory of the season in the first struggle, 3 to 2.

Alvin Crowder hung up his 11th win against a single defeat as the Browns topped off with a 6 to 2 decision over the Washington Senators.

The Pirates turned back the Braves, 8 to 3. Grantland and Waner got seven hits and five runs between them.

The Cubs pounded four Philadelphia pitchers into a 10 to 5 defeat at Chicago.

The Cardinals, smarting under two straight setbacks by Brooklyn, nooded out the Dodgers in the third game of the series 7 to 6.

The New York Giants made it three in a row over the Cincinnati Reds, two singles and a sacrifice in the tenth inning turning the trick, 3 to 2.

GRAIN MARKET.

Chicago, July 17.—(AP)—With new export business in wheat from North America estimated at 1,500,000 bushels and with European complaints of excessive warmth, wheat prices today averaged higher. On the other hand spring wheat crop reports northward continued mostly favorable, and the harvest movement in winter wheat territory southwest was liberal. Corn displayed independent strength, and offerings of future deliveries were scarce.

Wheat closed irregular, 1-4c net lower to 2-8c higher, corn 3-8c to 1-8c up, oats unchanged to 1-4c advance, and provisions unchanged to a rise of 1/2c.

The closing was firm. Total sales approximated 1,200,000 shares.

STOCK MARKET.

New York, July 17.—(AP)—Selling pressure decreased in today's stock market and prices recovered moderately under the influence of favorable trade news and easier credit conditions. Early losses of 1 to 3 points were largely reduced, or wiped out, and in many cases converted into gains which ranged from 1 to 5 points in the active issues and 6 to 13 in a few specialties. Trading continued relatively quiet.

Call money renewed at 6 per cent but the supply became so plentiful that the rate was shaded in the "outside market" to 5 1/2 per cent, the official rate being cut to that figure in the early afternoon. There was no change in time money and commercial paper.

One of the most interesting trade developments of the day was the report that steel companies had advanced prices of bars, shapes and plates \$2 a ton for fourth quarter delivery. The Otis Steel Company reported earnings of \$1.66 a share in the first half of the year, as against 70 cents in the corresponding period last year.

Motor Products was the spectacular feature, soaring 13 points to a new high record at 115 cents. Thrilling Machine ran up 6 points, DuPont 5 7-8 Radio 5, Burroughs Adding Machine 5, Atlantic Refining 4 1-2 and Wright aeronautical, Montgomery-Ward, Sears Roebuck, Greene Cananea Copper, Union Carbide and Kroger stores 2 to 4 points.

City Stores B broke 4 points on a renewal of selling pressure against that stock and heaviness was quite pronounced in American Water Works, Commercial Solvents and Eastman Kodak.

Olympic Team Nearing End Of Ocean Voyage

S. S. President Roosevelt, Enroute to Amsterdam, July 17.—(AP)—Except for scattering casualties, the American Olympic team is nearing the end of its voyage to Amsterdam in remarkably good condition and confident of an all round showing in the 1928 Olympics, equal if not surpassing that of 1924.

Most of the coaches consider the team is the strongest ever assembled for the Olympics. Especially is this belief held in connection with the track and field, rowing, swimming and wrestling squads. Donnell Every, the Yale fencer, and the wrestler, Leslie Beers and Ralph Prunty, are the chief casualties although none are seriously hurt. Every is suffering from a slight flesh wound suffered in a practice bout. Beers' shoulder was not broken in his practice bout with Berryman several days ago, as was feared at first. He is recovering rapidly and expects to work out today.

Woman Golfer Triumphs. Chicago, July 17.—(AP)—A golf record, seldom if ever turned in by a woman golfer is the latest triumph of Mrs. Melvin Jones, veteran Chicago campaigner of the links.

Stroking with wizard-like artistry Mrs. Jones shot a 73—nine under woman's par and only one over men's par—to lead the qualifying round of the Chicago women's golf championship over the difficult number one course at Olympia fields yesterday.

While women golfers have carded scores of 73 and 74, it is believed Mrs. Jones' feat was the greatest feat ever scored among the fair sex. She made four birdies against men's par on her great 18 hole round and on the first nine, she was better by one stroke than men's par.

She missed a six inch putt on the eighteenth green, or she would have equalled men's par. Her card broke her own record for the course by five strokes.

TO TEST LEGALITY OF DEMOCRATIC OATH Greenville, S. C., July 17.—(AP)—The legality of the oath required by Democratic party rule No. 32 is to be contested by former Governor John Gary Evans, of Spartanburg, he told Fred V. Johnson, an officer of the Greenville Hoover-for-President Club, in correspondence made public today. Rule 32 requires members of the Democratic party to support all nominees.

"The oath required by the legislative act of 1915 is all the managers can require," Mr. Evans wrote. "The managers of elections who deny a citizen the right to vote may also be sued for damages."

Former Governor Evans attended the recent meeting of the democratic national committee in New York, serving in the place of Governor Richards as South Carolina's representative.

Mr. Johnson, who heretofore has been a Democrat, but who says he feels impelled to vote as an independent this year, said it was his information that any boxes at which voters declining to take the rule 32 oath were barred from voting could be thrown out.

Champ Enters Final Week of Heavy Training

Speculator, N. Y., July 17.—(AP)—After a 24-hour rest from all ring work, Gene Tunney decided to renew exchanging blows with his sparring partners today to fit himself for his world's heavyweight title bout against Tom Heeney on July 26.

After today Gene will box but four more times before he enters the Yankee stadium ring nine days hence. Besides swapping punches with Harold Mays and Billy Vidaback, the Bayonne, N. J., heavyweight, Gene mapped out a program which included a long stretch of road work and a strenuous session with the punching bag and heavy body sack.

Conclusive evidence that the champion has entered the last stages of his training came when a specimen of special meat, which will be cut into steaks and chops, arrived from a New York restaurant. All through his boxing career Tunney has wound up the campaigns for his major bouts by consuming great quantities of these high grade provisions. Heretofore, milk, fruit and vegetables have been the champion's favorite viands, meat having only a small part in the Tunney menu.

Commander Richard Byrd, the trans-Atlantic and polar flier, is expected to visit Tunney. A landing field for the Byrd plane, in which Tunney hopes to fly to New York on the day of the fight, was laid out on the Hamilton Country Club, about four miles from the training camp.

Pats Still Lead In Piedmont Loop

Toots Brandon poled out a couple of homers yesterday to enable the Greensboro Patriots to defeat Winston-Salem 6 to 5, and remain in the lead in league standings.

At Salisbury the High Point Pointers bunched hits in the first two frames off Hammock and Pearson to defeat the Colonial 6 to 2. Bolton's home run in the second inning with two men on base was the high light of the game.

Only one game of a scheduled double header was played at Raleigh. The Caps mixed two singles and a double with two walks (1), the first inning to get four runs, enough to beat Durham, 4-2. Rain delayed start of the game and a scheduled nightcap was postponed until tomorrow.
