FRENCH PLANE IS ON WAY TO SHORES OF U. S.

Frigate Bird Hops From Brest to Horta, Completing First leg of Flight.

London, July 23.—(AP)—A Reuter dispatch from Horta says that the French seaplane, La Fregate, which arrived in the Azores this morning on the first leg of a trans-Atlantic flight, was being re-fueled, and Lieut. Paulin Paris, commander of the expedition, planned to take off some time today for Newfoundland.

Horta, Island of Fayal, Azores, July 23.—(AP)—The French seaplane La Fregate (The Frigate-Bird) arrived here this morning from Brest, France, completing the first leg of its trans-Atlantic flight to New York by way of the Azores and Bermuda.

With naval Lieutenant Paulin Paris in command the plane came down on the unfurled surface of the harbor at 7:20 a. m. (2:20 a. m. eastern standard time). It was a bright sunny morning and there was no wind.

Lieutenant Paris and his two companions, Relief Pilot Marrot and Wireless Operator Cadou, completed the flight of some 1,900 miles in 15 hours and 15 minutes.

They alighted beside a French cruiser carrying a supply of petrol for the next leg of their flight. They plan to head for Bermuda, stopping there to refuel if necessary before continuing to New York.

Captain Frank T. Courtney, British airman who was turned back by bad weather, when he tried to fly to America from Horta, was on the breaker when the Frenchmen arrived.

Lieutenant Paris is making the flight under the joint auspices of the French naval and aviation departments.

It upon his arrival in New York, he thinks a return flight is feasible he has been instructed to fly back by way of Newfoundland.

A radio message picked up from the plane at that hour read:

"We are at 41 north latitude, 22 west longitude. We put on speed again and are now flying 95 knots. Everything continues to work very well. The regularity of our progress is perfect."

The radio of the plane is capable of sending and receiving on both long and short wave lengths and the flyer kept his promise to send out hourly radio bulletins of their progress. Most of the messages were technical reports but one flashed at 10:20 last night said:

"We have not dined, but drank some coffee. The flight of La Fregate is more scientific than a sporting affair. It is the first French effort to cross the north Atlantic by seaplane, and preparations for it have been going on for more than a year.

The plane is built to stand rough weather not only in the sky but on the surface of the ocean. It is equipped with two 480-horsepower Gnome-Rhone-Jupiter motors set in tandem fashion directly atop the big bi-plane.

P. C. Weller, vice president of the company that installed the motor in the seaplane, left France for New York last Wednesday aboard the liner De Grasse and expects to accompany the aviators in their return flight.

Youthful Bandits Sought at Moyock

Moyock, July 23.—(AP)—Efforts of peace officers were redoubled today in hope of gaining clues that may lead to the discovery of the identity of the two youthful bandits who late Saturday night shot and probably fatally wounded P. H. Flora, proprietor of a store, which they attempted to rob. A bullet fired by one of the men punctured both lungs of the man. The men escaped in an automobile bearing a Virginia license tag.

Flora has been unconscious since having been wounded but persons here believe that he resisted the holdup men and was fired upon then. Little if any money was secured by the bandits.

Less than three weeks ago the Bank of Currituck in Moyock was held up by two men and \$1,500 secured. However, they were captured in Norfolk and the loot recovered.

Baden Man Dead. Columbia, July 23.—(AP)—Funeral services for Henry C. Boland, 36, of Baden, N. C., who died at the home of his sister, Mrs. W. E. Ecker here last yesterday, will be held from the Holy Trinity Lutheran church at Little Mountain, S. C., at 6 o'clock this afternoon.

Mr. Boland had been ill for some time.

STRATEGY BOARD FOR SMITH'S PRESIDENTIAL RACE

John J. Raskob, national chairman, confers with the new advisory committee of the democratic national committee on the presidential campaign. The board of strategy, left to right: Seated, Sen. Harry B. Hawes, Missouri; Chairman Raskob, Sen. Peter Gerry, Rhode Island, chairman advisory committee. Standing, Herbert H. Lehman, finance director; Sen. Millard Tydings, Maryland and George Van Name, Smith's prevention manager.

IRATE FATHER MAKES IT HOT FOR NOVELIST

Dr. Loeb, of N. Y., Stop Week-end Party of Bodenheim and His Daughter.

Hyanis, Mass., July 23.—(AP)—Dr. Martin J. Loeb, irate New York father who pursued Maxwell Bodenheim, novelist, to Provincetown in search of his 18-year-old daughter, Gladys, an aspirant to literary honors, was believed peacefully on his way home today and with him were the Bohemian author and his erstwhile Greenville Village protégé.

They boarded a New Bedford bound bus here after a night spent in an inn where under the title of "Martin J. Loeb and family" they recuperated from an exciting week-end that furnished sensations aplenty for staid Cape Cod.

As they quit the inn the New York physician, who had a short time before denounced the novelist as a "tramp" and a "bum," strode out in front followed by Gladys. Recently the girl attempted suicide because Bodenheim had criticized her work adversely.

The poet, novelist and self-described "genius," whose literary criticism caused another girl to drown herself last week and brought Bodenheim temporarily under the eye of police, trudged wearily behind in need of a shave, shine and a press.

Gladys was credited with bringing her father and the poet to terms. Dr. Loeb had arrived in Provincetown Saturday shortly after it became known his daughter was missing and while New York authorities were seeking the novelist to question him with regard to the suicide of Miss Virginia Drew, who jumped into the Hudson River after an interview with Bodenheim in which he told her her poetry was "hopeless."

Shortly after the physician, with Chief of Police Williams, had roused the novelist from slumber in the "shack" which he had rented, a messenger boy arrived with a telegram from Gladys announcing her impending arrival from Boston.

Dr. Loeb met Gladys at the train and succeeded in getting her into a taxicab and half a mile down the road when she announced her intention to return to New York unless "Max" came with them. Finally, they left the cab and the taxi driver was rushed back for the poet who packed his "baggage" in a spare newspaper and soon joined them.

Bodenheim countered the physician's suggestion that he was a "bum" and should be "run out of the country," by displaying a sizeable roll of banknotes and announcing that he was a "genius."

Three Injured In Wreck Saturday

Three persons received more or less painful injuries when two cars ran together near Chocod creek bridge Saturday night, according to information reaching the sheriff's department. They were rushed to a Washington hospital where they received medical aid.

Those receiving minor cuts and abrasions were a Mr. Cox and Miss Higgins of Kinston and a negro by the name of Willie Daniels.

Smith Still Undecided About Campaign Tactics

Albany, N. Y., July 23.—(AP)—Governor Smith is being urged by some of his political advisers to pack the punch of the presidential campaign into the eight weeks preceding the election. In this way, they figure, he can best build up to a climax just before the voting early in November.

As for the Democratic nominee himself, he has reached no decision when he should take to the road, where he should go, or how many speeches he should deliver. He is revolving in his mind the varied bits of advice that come from his lieutenants, including those who think he should take to the stump by Labor Day at the latest, and it probably will be a month or more before his speech making plans are disclosed.

The governor has told friends, however, that he doesn't intend to make more than one speech a day, and he is considering the advisability of not even doing that.

Although there is a plan on foot to have him speak at a monster outdoor rally in Chicago during the campaign, and there undoubtedly will be other occasions for open air appearances, Smith will insist, wherever possible, on speaking indoors, chiefly to conserve his voice.

COMPLETE NEW ADDITION TO FACTORY HERE

Greenville Tobacco Company Increases Capacity of Mammoth Plant Here.

The Greenville Tobacco Company, Inc., C. W. Howard, president and treasurer, and W. C. Jones, secretary announced today that the new addition to their plant was complete.

This new addition gives them 3,840 more square feet of space, making a total of 100,716 sq. ft. in their mammoth plant. They now have a capacity and can work 190,000 pounds of tobacco each day, or 16,000,000 pounds for the season. This plan has been thoroughly gone over and remodeled and is now equipped with the latest modern machinery for the handling of tobacco. They have 10 stemming machines, one large redrying machine and two small machines for the handling of tobacco.

They employ 250 hands. Their factory and storages practically covers two city blocks. They are large buyers for foreign and domestic trade. Their buyers this year will be C. W. Howard, W. C. Jones, L. S. Clark, F. C. Bowles, H. H. McCormick, W. W. Michoux; factory manager, M. S. Beard; office manager, H. P. Ellis.

This mammoth factory with eight others will enable the Greenville tobacco market to handle 70,000,000 to 80,000,000 pounds of tobacco this year for the farmers of eastern North Carolina.

Writes Successful Play. Dresden, Germany, July 23.—(AP)—Baron Von Huenfeld, one of the three men to fly the Atlantic westward, has written a successful play, "The Fear of Lick." It has nothing to do with aviation.

MAKE RECORD TRIP AROUND THE UNIVERSE

Mears and Collyer Circle The Globe in Plane and Boat in 23 days.

New York, July 23.—(AP)—John Henry Mears, theatrical producer and writer, and Captain C. B. D. Collyer, flier, today held the record for a circle of the globe—23 days, 15 hours, 21 minutes and 3 seconds. They broke the old record by 4 days and 23 hours.

They stepped from an automobile at Battery Park last night at 8:21 o'clock completing a journey by boat and airplane which they began from the same place the morning of June 29.

With them, barking enthusiastically, was a little Seelyham Terrier, named Tailwind, who had sped with them over two oceans and three continents.

The last leg of their flight, from Minneapolis, they found one of the most difficult of the entire trip. They were forced to battle fog and low lying clouds for the last part of their flight, detouring by what aviators call the "scenic route" down the Susquehanna river to the Delaware river at Middletown, Pa., where they cut across New Jersey to Miller field, Staten Island.

Swooping out of the mist in their Fairchild cabin monoplane, the City of New York, in which they had made all their air parts of their journey, they landed at 6:55. The journey from Miller field to the battery was made by automobile and ferry.

By his trip Mears again became co-holder of the record for circling the globe, breaking that of Linton Wells and Edward Evans set in 1926. The Wells-Evans expedition had broken the record of 35 days which Mears set in 1913.

Mears, Collyer and Tailwind took off in a seaplane from the battery June 29. Off Long Island they overtook the Olympic aboard which was their plane. Landing at Cherbourg, France, July 5, they flew across Europe and Asia in six days. From Tokyo they traveled by steamer to Vancouver, B. C., landing there July 20. They flew from Vancouver to Spokane the same day. Saturday they flew from Spokane to Minneapolis and yesterday completed their journey.

"Tired but happy" was the way Mears expressed his feelings as he stepped from the plane. He and Collyer were tanned from the sun and a bit spattered with oil from their engine but otherwise appeared little the worse for their endurance-testing Moon race.

Mears was born in Boston in 1880, the son of Timothy Mears, an art dealer. His boyhood heroes were the famous explorers, especially the globe circlers from Drake and Magellan to modern times, his favorite book Jules Verne's "Around the World in Eighty Days."

Collyer was born at Nashville, Tenn., in 1896. He started his globe trotting career at the age of two months when he traveled with his parents from Tennessee to Korea. His father, the Rev. Dr. C. T. Collier of Baltimore at that time was engaged in geographic research in the far east.

Republicans Look For Big Campaign

New York, July 23.—(AP)—Expecting the most hotly contested Presidential campaign since 1892 Senator George H. Moses, of New Hampshire, eastern director of the Republican campaign, was here today for a conference with National chairman Work and the national committeeman from the eastern states.

"This campaign is going to be the most warmly contested of any since 1892," Senator Moses said. "The Democrats are going to have more money this year than they have had since 1892. But of the outcome there is no doubt. Hoover is bound to win."

Moses added that he was not worried over the Presidential election but that the was concerned about the election of a senator from Massachusetts.

He expressed confidence that Hoover would carry New York state. "Thousands of persons who have voted for Smith for governor," he said, "will not vote for him for President. I have been told."

The senator expressed the belief that selection of John J. Raskob as Democratic national chairman would not attract any considerable business vote to Governor Smith.

Shaw To Visit United States. Hollywood, July 23.—(AP)—Douglas Fairbanks and Mary Pickford have out-argued George Bernard Shaw, he has often said that he will never come to the United States but he has agreed to visit Mr. and Mrs. Fairbanks next year.

PLAN TO HOLD INQUIRY INTO ITALIA WRECK

Mussolini Tells Minister That Every Phase of Tragedy to Be Considered.

Rome, July 23.—(AP)—Premier Mussolini told the council of ministers today that a complete investigation into all phases of the Italia disaster would be made by Italy and that any other proposed investigation would be immediately rejected.

Such inquiry the premier stressed, "will naturally be made in Italy and by Italian personalities, any other hypothesis is absurd and offensive and what it might be or wherever the proposition came from it would immediately be rejected."

Meanwhile, it should be recorded, he said that the first to see the beleaguered group was Major Maddalena, the Italian flier who went north with a Savoia-Marchetti machine.

The premier added that the council of ministers would be interpreting the sentiments of the Italian people in thanking all those contributing to the rescue operations, especially the crew of the Russian ice cutter Krassin and in paying homage to the memories of Dr. Finn Malmgren, Swedish meteorologist, and Vincenzo Pomella, motorist.

The premier then paid tribute to the brilliant flight of Ferrarin and Del Prete from Italy to South America as "having exalted the nation's righteous pride."

Reviewing the foreign situation, he noted the cessation of diplomatic tension with Austria and the resumption of normal relations between the two countries, the signing of a commercial treaty with Hungary, Italy's adhesion to the Kellogg pact, the conclusion and initialing of the Angier agreement, the signing of an accord with Persia and the initiation of conversations with China's new Nanking government following denunciation of the old treaty.

On the internal situation, the premier mentioned with intense satisfaction the decrease in unemployment and improvement in agricultural conditions. "Everything seems to point to a harvest notably superior to that of 1927," he said.

Negro Killed By Car Last Night Near Grimesland

Anderson Ronce, colored, was killed when he walked into an automobile driven by E. P. Duren, of Rocky Mount, on the Greenville-Washington road, near Grimesland last night about nine o'clock.

The negro is said to have been drinking heavily and walked into the Rocky Mount man's car as he attempted to cross to the other side of the road.

The killing was investigated by members of the sheriff's department and Duren was relieved of all responsibility.

The negro is said to have received a fractured skull from which he died a short time later.

FIVE INJURED WHEN AUTOMOBILES COLLIDE

Durham, July 23.—(AP)—Five persons who were injured when two automobiles collided on the Raleigh-Durham highway yesterday were reported as recovering today at a Durham hospital.

A. Carroll, Durham, fracture of the skull; Mr. and Mrs. Turner and Jones, minor cuts. R. W. Edwards, an occupant of Jones' car, escaped injury.

Seven Die In Attempted Revolution At Lisbon

Lisbon, July 23.—(AP)—Three former cabinet ministers were among those under arrest today after seven persons had been killed and thirty wounded in a short lived attempt at revolution.

The government in an official statement said the "movement had a political character, being directed against the present regime, but it lacked the moral atmosphere for success."

The trouble began Friday night when some officers of the seventh regiment chancellors at Castilosa barracks mutinied. They prevented their commander from entering the barracks and tried unsuccessfully to involve a portion of the Lisbon gar-

MEXICO CITY MOURN DEATH OF CARRANZA

Remains of Good-will Flyer Arrived at Capital Today, Escorted By Many Planes.

Mexico City, July 23.—(AP)—Captain Emilio Carranza, Mexico's good will flyer, came back today to a capital in double mourning for his own untimely death and for the assassination of President-elect Obregon.

It was a cold, gray, rainy morning, extremely unfavorable for flying, but squadrons of Mexican army planes took off from Valbuena flying field and met the funeral train while many school children gathered along the roads to Mexico City. Soldiers lined the streets of the capital, all wearing arm bands of mourning, and throughout the city flags were at half mast and most business offices were closed.

The body of the good will flier was placed upon an artillery Caisson after being removed from the funeral train outside of Mexico city and shortly before 10 o'clock the cortege began its passage through miles of densely crowded streets.

Thousands of school children, each carrying a bouquet, showered flowers in the path of the Caisson and upon the casket of the young flier.

Bands played the Mexican national anthem as the pallbearers made up of the highest officers in the army, took the casket from the funeral train at Tacuba outside of Mexico city and bore it to the Caisson.

The streets from Tacuba to Mexico City and then across the capital, a total of perhaps ten miles were packed with people.

The cadets of the military academy, which is Mexico's West Point and the Presidential guards, which are the pick of the army, escorted the body. Thousands of citizens, from barefooted Indians to officials in morning swung into line behind the military units and the long procession began its journey of several hours to the war department in the wing of the national palace where a catafalque had been placed.

General Juan F. Azcar pronounced an oration and a bugler blew the Mexican equivalent for "taps." Then a guard of honor was stationed over the body to keep watch until tomorrow's funeral procession starts to the cemetery.

Dwight W. Morrow, American ambassador to Mexico and his staff, went to Tacuba to meet the body. There the ambassador sadly paid his respects to the youth of whom he was personally most fond and whose achievements he admired greatly.

A storming force supported by artillery started a vigorous offensive on the barracks on Saturday morning. "During the attack on Castilosa barracks, the artillery did some damage to adjacent houses, injuring some occupants, the total casualties being estimated at seven killed and thirty wounded, including one mutinous officer and some soldiers," the statement said.

AMERICAN IS SHOT DOWN IN CHINESE WAR

American Consul Demands Investigation of Killing of U. S. Sailor.

Chefoo, Shantung, China, July 23.—(AP)—The recently hoisted Sun banner of the Chinese nationalists was hauled down here today and replaced by the five-barred flag of north China. The Nationalist military commander took refuge aboard a British vessel bound for Shanghai. His soldiers have been disarmed.

These developments came after severe fighting which started at midnight between the Nationalists and five thousand soldiers who had served under Chang Tsung-Chang, military governor of Shantung. The Changtsunchangites had been recently incorporated into the nationalist army but they renounced their new allegiance and regained control of the city.

While fighting was in progress foreign warships landed patrols and one American sailor was wounded in the hand by a stray bullet.

Chefoo, Shantung, China, July 23.—(AP)—An American sailor was shot today in fighting between Chinese factions.

The firing began at midnight between Nationalists and a detachment of 5,000 soldiers which formerly served under Chang Tsung-Chang, military governor of Shantung, and which had been incorporated into the Nationalist army.

Indiscriminate shooting took place in the streets of the city from then until four o'clock in the morning. The foreign consulates were isolated and their telephone service interrupted.

While communications were being established between war vessels in the harbor and the consulates a number of the American naval shore patrol was shot in the hand.

Leroy Werber, American consul called on the Chinese authorities this morning and demanded that an investigation be made to fix the responsibility for the wounding of the American. The British and Japanese consuls appealed for naval aid.

Later this morning the fighting ceased. The town was placarded with posters saying the former Northerners had overpowered and disarmed the Nationalists.

Chang Tsung-Chang is believed to be enroute to Chefoo from Chinwangtao aboard a Chinese gunboat which still flies the five-barred flag of North China.

Police Hurt in Harlem Disorder

New York, July 23.—(AP)—A special squad of policemen was on duty today in the negro section of Harlem, to prevent recurrence of disorders in which four policemen were injured protecting themselves from a mob of negroes estimated at 2,500.

The trouble started when Traffic Officer Charles Kubel attempted to arrest Clarence Donald, accused with two other negroes of breaking into an apartment and beating a negro.

Donald resisted arrest and as other negroes attacked the officer three more patrolmen came to his aid. While the quartet defended itself against an ever increasing attack, a riot looted reserves from a number of stations.

Dishes, chairs, books, bricks, flatirons and miscellaneous house furnishings were directed from windows upon the officers. Then shots were fired from windows and house tops, and the officers drew their own weapons, but fired, only in the air.

About 150 policemen and fire apparatus were making slow headway in quelling the disturbance when a police emergency squad arrived with a machine gun promptly displayed. Soon the streets were cleared.

Typhoid Fever On Increase. During the months of June and July there have been 21 cases of typhoid fever in the county as reported, with one death. All of the cases so far have been in the country and most of them in the homes of farm tenants. In most of these homes sanitary measures are largely ignored. Vaccination is the most practical means of control. Co-operation on the part of the land-owners with the Health Department would enable us to vaccinate many of the tenants' families, which otherwise we do not get and thereby greatly reduce the incidence of typhoid. Every land-owner should not only see to it that his own family is as possible made immune to disease, but also see to it that his tenants and their families are kept as free from illness as possible. Land-owners are urged to get in touch with the Health Department in order that we may get more country people vaccinated in the hope that the spread of typhoid may be checked.

The following articles has just been received from Dr. Laughlin-house, Secretary of the State Board of Health:

"This is the season for typhoid fever. The disease is absolutely preventable by vaccination. The Health Office offers vaccination free. The physicians in the county will give it for a very nominal charge. Every incorporate town in the county should put on a typhoid and diphtheria vaccination campaign

right away. Every owner of land should have himself and family vaccinated, and no land owner can afford to take the risk of having his tenant or tenant's family stricken down with the disease, when vaccination will guarantee safety against the disease.

"Vaccination against diphtheria should be given to every child from six months of age on. The treatment is inexpensive. It causes little or no discomfort. It saves sickness and death. Why put off until tomorrow what can be done today?"

W. E. Futrelle, M. D. Health Officer.

SURPRISE SHOWER FOR RECENT BRIDE. On Saturday afternoon a number of friends surprised Mrs. James L. Evans, a recent bride, when they called at her attractive new home on East Ninth street.

Mrs. Evans was presented a bouquet of giant sunflowers the unfolding petals revealing many lovely and useful gifts. A further surprise awaited the hostess when she discovered that delicious fruit punch and wafers had been placed in the breakfast room ready for serving her guests.

Those present were Mrs. A. E. Hobgood, Mrs. S. B. Tucker, Mrs. E. F. Duke, Mrs. E. B. Allbrook, Mrs. Bernice Gardner, Miss Allie Clark, Billie Williams and Miss Morgan.

Martino-Rossi to Sing at College This Evening. This evening, at 8:30 o'clock, the famous young Italian-American baritone, Martino-Rossi, will give a concert at East Carolina Teachers College in the old auditorium, in the Administration Building. This is one of the attractions in the summer series of entertainments, and to many, especially those who love music, this will be the finest number in the series.

Martino-Rossi has a magnificent voice, an exceedingly attractive personality, and dramatic powers that have made him a success in a number of roles in grand opera. He toured last winter with the New York Civic Opera Company, sang with the Baltimore Company, and has sung with other opera companies in the past. He has been received with enthusiasm when he has appeared as a soloist. He sang at the Lewiston Stadium, with the Philharmonic Orchestra last summer, and has given recitals throughout the country.

His voice has richness and beauty of tone as well as volume. The concert this evening will come up to the high standard of entertainments the college has been offering.

As heretofore, desirable seats, in the center of the house, under electric fans, are reserved for the public. Tickets will be sold at the door.

Dan Cupid Swoops On Pitt and Sends 'Em to The Altar

Dan Cupid swooped down upon this section Saturday and sent exactly fourteen couples to the register of deed's office to obtain licenses to marry. It was the first time in a week that a single couple had applied for license to wed, and great rejoicing was caused by the unexpected assault starting early Saturday morning and continuing until midnight with only intermittent breaks.

Two of the fourteen applicants were white. Licenses were issued to the following:

Earl McDonald Westbrook, of Dunn, to Miss Mary Jones, of Greensboro.

J. L. Speight to Miss Hazel Dell Harrell, both of Greenville township.

Colored. Calvin Saunders, of Selma, to Bertha Jenkins, of Farmville.

Roy Edwards to Gladys Crapman, both of Ayden.

Ellis Hunter to Lizzie Raspberry, Farmville.

Willie Adams to Letha Best, Greenville township.

Columbia Knight to Louvenia Hopkins, Greenville township.

Leroy Long to Florence Bynum, Belvoir.

Jesse Hopkins to Julia Hardee, Greenville.

Hardy Sparrow to Trevalia McCoffin, Winterville.

Willie Stocks to Louisa Long, Ayden.

Benner Young to Bertha Cherry, Farmville.

Albert Gay to Odessa Joyner, Farmville township.

George Rhodes to Mary Bell, both of Kinston.

MAYBE, THOUGH, THEY AREN'T SUCKERS

Working both ends against the middle is no new thing in politics. Harding managed to satisfy Republican opponents of the League of Nations and Republican advocates of the League in 1920, and when the time came to settle he gave the League opponents their principles and the League advocates the offices.

Can it be done again? The Republican campaign managers and Republican newspapers apparently labor under the impression that it can. So sure are they, in fact, that they are trying a double-barreled shot this time.

That million dollar liquor cargo captured recently at New York City represented considerable time and attention of a great mass of people engaged in the unlawful industry," said a business man today.

"You can keep the undertaker away from your home a long, long time by respecting the traffic laws of your city and state," a member of the city police department said today, commenting on a man he had arrested a short time before for flagrant disregard of traffic regulations.

"The cause of the majority of casualties today is not due mainly to carelessness, but to a tendency of the people to break the law without expecting due punishment."

HOOVER HOLDS CONFAB WITH SEN. JOHNSON

Will it work? Already there are signs that the "drys" are beginning to become restless at Hoover's silence and over the wet tendencies of some of the soldiers of the Lord.

Palo Alto, Cal., July 23.—(AP)—Resuming his conferences with Republican political leaders of California, Herbert Hoover today had invited Senator Hiram Johnson to his home on Stanford University campus for luncheon and a discussion of the general situation afterwards.

The senior California Senator is up for re-election this year and expects to conduct a vigorous campaign in which national and state leaders look to him to materially assist the cause of the Hoover-Curtis ticket.

While Senator Johnson long has been identified with the so-called progressive wing of the party and has stood four square against some of the issues which the Republican presidential nominee has supported in the past, it is stated that he and his followers are united with the more conservative elements in their support of a Californian for the presidency.

One chief point of contact between the nominee and the Senator is the Boulder Canyon Dam issue. Secretary Hoover assisted in negotiating the seven state compact and has been an ardent supporter of the legislation.

"These kind of wrecks might be avoided if liquor could be left off. But since it seems impossible for a certain element of people to do without it, the wrecks no doubt will continue."

"People are simply out of their right mind, to ride with persons whom they know to be under the influence of whiskey. It is risky enough riding with a cool, deliberate, sober man, and it should be clean out of the question to accompany someone we know is drinking."

"That million dollar liquor cargo captured recently at New York City represented considerable time and attention of a great mass of people engaged in the unlawful industry," said a business man today.

"Suppose all of the time and money used in this cargo should have been put into something useful and worth-while? Do you not think the country, or the locality where the liquor was made, would be much better off today than it is? The question is at once evident."

"Members of the local military unit want to make a good showing at the annual encampment to be held at Camp Bragg August 12th," officers of the local organization said today.

REPUBLICAN FOR VICTORY OF AL SMITH

Says State of Peasantry Exist in Agriculture if N. Yorker Does Not Win.

Washington, July 23.—(AP)—Asserting that Governor Smith must be elected "if agriculture is to be saved from a state of peasantry," Henry Clay Hansborough, a former Republican Senator from North Dakota, is heading a movement to obtain farm votes for the Democratic nominee.

He has announced the formation of a campaign organization to be known as the "Smith Independent League," which, while planning a nation-wide appeal to independent voters, intends to concern itself particularly with the Dakotas, Montana and Minnesota.

McManamy, in a report, advised the commission that a study of private car movements during the last three years had disclosed wasteful and unlawful movement on a large scale. He recommended that the commission hereafter forbid one railroad from moving a private car for another road except at regular charges, thus abolishing the system by which such cars are moved free when off their home lines.

Mrs. Mary McLawhorn Laid To Rest Today

Mary E. McLawhorn, 77, died at the home of her grand-daughter, Mrs. R. H. Haddock, on Ridgeway street, Sunday morning at 8 o'clock. Mrs. McLawhorn had been in declining health since last winter when she injured her hip in a fall.

Funeral services were conducted at four o'clock this afternoon from the home of her son, M. J. McLawhorn, in Winterville by Rev. M. A. Woodard. Burial will follow in Winterville cemetery.

She was a member of the Bethany Free Will Baptist church, near Winterville. She is survived by one daughter, Mrs. Mattie Roberson, Ayden; three sons, M. J., and J. H. McLawhorn, of Winterville, and John McLawhorn, of Raleigh.

"Whiskey and gas simply will not mix," emphatically declared a Pitt county man today, referring to a wreck in which two or three occupants of a car driven by a drinking man, were instantly killed.

"These kind of wrecks might be avoided if liquor could be left off. But since it seems impossible for a certain element of people to do without it, the wrecks no doubt will continue."

"People are simply out of their right mind, to ride with persons whom they know to be under the influence of whiskey. It is risky enough riding with a cool, deliberate, sober man, and it should be clean out of the question to accompany someone we know is drinking."

"Members of the local military unit want to make a good showing at the annual encampment to be held at Camp Bragg August 12th," officers of the local organization said today.

"Last year we were given an exceptionally good rating. This was because we had the majority of our membership present and in fine trim for their appearance before the high officials."

Dozen Injured As Passenger Trains Collide in Chicago

Chicago, July 23.—(AP)—A dozen passengers were so seriously injured they were removed to hospitals and two score others were shaken up and bruised this morning when two crowded Illinois central railroad passenger trains, both bound down town, collided at the Van Buren street station.

One train was discharging passengers at the station when the second, slowing down for the stop, crashed into the rear of the standing train, throwing scores of passengers off their feet. Railroad employes quieted frightened passengers who tried to crowd out of both trains.

Both trains were electrically operated. Railroad officials did not immediately file blame for the crash. The injured passengers were from Chicago.

OLD HICKORY GETS BACK TO NORMAL Columbia, S. C., July 23.—(AP)—The "Old Hickory" division today was getting back to normal pursuits. With the exception of the service company of the 118th Infantry all of the troops in the division today had been moved out of Camp Jackson and were back at their home armories dispersing to the prosaic tasks of life.

The encampment, the first full divisional national guard encampment since the world war was declared a success by the officers in charge. Major General E. J. Williams will close his headquarters here on Wednesday. The service company will go home this afternoon.

A number of men competing for the right to go to Camp Perry, Ohio, for the national rifle matches, will remain at the camp this week.

Charlotte, July 23.—(AP)—A checker tournament will be held here August 15 and 16 with outstanding Southern players participating. Ernest Jackson, York, S. C., secretary of the Southern Checker Association announced today.

Edward Scheidt, Chapel Hill, champion of North Carolina and S. S. Hallman of Spartanburg, South Carolina champion will be among the players. G. O. Raymond of Augusta, Ga., will defend his title as southern champion.

Denies Plot To Kill Husband of Old Sweetheart

Rockford, Ill., July 23.—(AP)—Stubbly silent while the state's attorneys sought to enmesh him in a web of circumstantial evidence, Paul Reed maintained his innocence today of the plot that led to the death of his former sweetheart's husband by a dynamite blast.

Linked with the slaying by a chain of circumstances, Reed has refused to answer questions that officers thought would incriminate him, and today the authorities bent over efforts to trace the dynamite used to blow up Vernon Plager as he stepped on the starter button of his automobile last week.

Reed's brother, Arthur, 45, and a nephew added to the evidence their affidavits that he tried to buy explosives in Dixon, Ill., three days before the killing. The nephew declared that Reed later broke into a quarry tool shed near Palo, Ill., and stole the dynamite and fuse caps.

William D. Knight, state's attorney of Winnebago county, indicated he would file murder charges against Reed today. Mrs. Ivy Plager, widow of the slain man and the woman with whom Reed eloped to Iowa last autumn, was still in custody but Knight said she might be freed today.

Confronted with the stories of his brother, Arthur, and his nephew, Kenneth, 22; Paul Reed refused to answer questions about the alleged theft or disposal of the explosive.

A coroner's jury which heard the story of Plager's widow, who accused her former sweetheart of planting the bomb that killed her husband, recommended that Reed be held to the grand jury in connection with the slaying.

The Proven Value Of Persistent Advertising Do you know, Mr. Merchant, that according to Boyd's Official List there are now 2,530 mail order houses in the United States who sell direct to the consumer? Each and every one of these concerns issue catalogs, including supplements, booklets, folders, bulletins, special price lists, etc., throughout the year. Most of the larger mail order houses issue catalogs twice a year; many of which have sections in colors and contain fifteen hundred pages or more. The weight of one of these catalogs, after being trimmed, is about four and one-half pounds, and on a recent issue the paper alone in car load lots, would have cost over fifty-five cents. Some of these houses distribute from ten to twelve million catalogs a year; the estimated cost of each complete catalog being about \$2.00, with the monthly supplements, booklets, folders, price lists, postage, wrapping, etc., extra, bringing approximate cost \$2.50 to \$3.00 for each "live" name or prospective buyer on their lists. Any person any place may secure one of these large mail order catalogs free of all cost simply by mailing in their request on a one-cent post card. This means, Mr. Merchant, that a single mail order house will invest approximately \$3.00 a year in advertising—catalogs and follow-up literature—for each customer or prospective customer residing within your trade territory. From figures recently compiled by the National Buy-at-Home Movement of Fort Wayne, Indiana, after a thorough investigation and the checking-up of thousands of country newspapers, it was proven that the merchants of the smaller cities and towns invest on an average of only nine cents each a year in advertising in their local papers, for each customer or prospective customer living within a seven mile trade-zone of their home town. The investigation proved conclusively that the secret of the mail order house's success was simply persistent advertising and the use of liberal space in describing the merchandise they have to offer. Goldsboro, July 23.—The Goldbugs took another game from Greenville here Saturday when they jumped on Deacon Joliff in the first and second frames, driving in six runs before Wilson relieved him. The final count was, Goldsboro 8, Greenville 6.

Home runs by Bickham for the Bugs and Bailey and Crosjean for the Tobacconists featured in the vicious hitting bee staged by both teams.

Wilson was hit freely during his six and a third innings on the mound, but he managed to keep the bingles scattered. Only two tallies were marked against him off seven safeties. The Worms staged a spectacular rally in the ninth when Crosjean clouted one for the circuit with home on, and Bailey followed with another a few minutes later.

Thomas, Bug twirler, had trouble in controlling his offerings. Walking six Bickham's fence clearing drive in the second period with two on provided the margin that clinched the contest for the Goldbugs.

SOX SLOW UP N. Y. YANKEES

(By Herbert W. Baker) It's the pitchers with baseball brains that give the Yankees the most trouble—Veterans like old Jack Quinn, "Sad Sam" Jones, George Uhlir and Urban Faber, whose right arm has been puzzling American league swatsmen for 15 years.

Urban's fast one may have lost most of its zip and that curve may not be what it was the years ago, but backed by a brain that tells him where to put each ball and the control to obey his brain's directions, "Red" is doing very well indeed, thank you.

After the Yankees had taken over the Sox in the first three games of the current series, Faber yesterday took up the task of stopping the champions and saving something out of the wreckage.

He was quite equal to the emergency. The Yankees hit him hard and often but the veteran's courage and brain, as well as his bat carried the Sox through to a six to four victory. Incidentally the champions saw an eight game winning streak snapped. As usual "Red" pitched skillfully and successfully to Babe Ruth who made four official trips to the plate and batted precisely nothing ill. To add insult to injury, it was a single by Faber that drove in the winning runs in the eighth.

After a disastrous visit to Philadelphia, the third place St. Louis Browns got out of their slump with an 8 to 5 win over the Cleveland Indians. Eddie Morgan hit a homer with two on base in the eighth but the Indians needed more than that to win. Sam Gray saw to it that they did not get it.

Washington went into fifth place, two games back of the White Sox by taking Detroit's measure, 8 to 2. In the National league the Chicago Cubs strengthened their hold on second place when Charlie Root held the Giants to four hits and won 4 to 2. The Cubs failed to gain any ground on the Cardinals.

However, the Phillies reverted to type and bowed to the league leaders 8 to 7.

For the third straight time, the Cincinnati Reds trimmed the Boston Braves by one run. The score this time was 4 to 4.

The Pittsburgh Pirates and Brooklyn Dodgers continued their bitter battle for fifth place now held by the Dodgers. They split even in a double bill at Brooklyn yesterday.

Dizzy Vance won the first for the Dodgers 5 to 0, but Krenner took the second 6 to 5.

DEMPSEY SEES VICTORY FOR TOM HEENEY

(By The Associated Press) Fair Haven, N. J., July 23.—(AP)—Jack Dempsey has come, gone and conquered again. He has conquered the hearts of upward of 2,000 spectators who flocked to Heenev's training camp yesterday turning the occasion into one of the greatest tributes ever paid this once great fighter.

In the scramble to pay homage to the man Gene Tunney has twice defeated, Heenev, challenger for the world's heavyweight championship was completely overlooked. Dempsey unwillingly stole the thunder, presumably the crowd was present to watch Heenev in action but it was Dempsey, the defeated one, who got the glory. Heenev for the time being was forgotten.

Perhaps the reception Dempsey received got on Heenev's nerves. His showing in four rounds of boxing with the Manassa Mauler intently watching from the ringside, was nay thing but impressive. Nevertheless, Dempsey after the workout, said the New Zealander had better than an even chance of winning from Tunney when they meet in their title match in the Yankee Stadium next Thursday night.

"He can take a punch and he can give one," Dempsey said. "When a man can do these two things, why he always has a chance. Heenev is rugged and strong and strong and has plenty of stamina."

The critics were unanimous today that Heenev's showing was the worst he has displayed since he started training.

Tunney Confident Of Licking Heenev. By WILLIAM E. KING, Associated Press Sports Writer, Spartanburg, N. Y., July 23.—(AP)—Gene Tunney intends to defend his heavyweight crown like a true champion, by knocking out Tom Heenev in one of the early rounds

AMERICA HAS LITTLE SHOW IN CUP RACE

(By ALAN J. GOULD) Paris, July 23.—(AP)—The United States, as a result of its decisive victory over the Italians, has reached the Davis Cup challenge for the ninth successive year but for the first time the Americans are conceded but little chance of winning the trophy.

Experts consider that whatever chances the Americans have of beating the French in the finals, starting Friday, hinge upon the flitting hope that Big Bill Tilden will be restored to good standing, at least temporarily.

But even with Tilden in the lineup the Americans face a combination of French strength which appears next to impossible to overthrow this year or for some years to come, unless there is some break in the French ranks which seems unlikely in view of the rising young stars they appear strong enough to repulse any threat now on the horizon.

While the team, without Tilden, performed impressively on the whole in sweeping the Interzone series, four to one, the opposition was insufficient to offer a conclusive test or raise American hopes very high. If Tilden is not reinstated, John Hennessy will be the bulwark of the American attack at the end of this week. John's ability to withstand three severe days' play probably is better than Big Bill's but the Indianapolis youth yesterday in beating Placido Gaslini in three sets lacked the steadiness which has characterized his previous play although that was due, perhaps, to the fact that there was nothing at stake.

Frank Hunter, though the second ranking American player, demonstrated that he is not up to the top flight of international single play by losing a hard fought five set match to Baron Umberto De Morpurgo, the only American set back of the three day's play.

Of Licking Heenev. By WILLIAM E. KING, Associated Press Sports Writer, Spartanburg, N. Y., July 23.—(AP)—Gene Tunney intends to defend his heavyweight crown like a true champion, by knocking out Tom Heenev in one of the early rounds

of their 15-round bout at the Yankee stadium next Thursday night. Most experts consider Tunney a much better boxer than the New Zealand blacksmith and believe he would have little trouble in outpointing the challenger.

But Tunney, who has signed a contract with Tex Rickard for 1929 on a percentage basis appears willing to gamble on being knocked out himself for the privilege of being a record breaking card in future fights.

Experts are now inclined to think he has been kidding them since he started training last May. For a half minute yesterday afternoon he was a superb boxer, he stalled through one round with Harold Mays, his favorite sparring partner and then showed his true self for an instant in the following session. A left feint drew Mays out

of position and Tunney, quick as lightning, shot in three right hooks to the jaw with machine-gun rapidity. Though Tunney's fists were covered with heavy training gloves, Mays was staggered. These three blows according to the consensus of the newspapermen, many of whom were fresh from Heenev's training quarters, would have leveled any heavyweight in the world if Tunney were wearing regulation gloves.

After this brief outburst, Tunney went back into the "shell" behind which he was hidden since he started training for Heenev. He coasted through the third round with Mays and twice more with Billy Vidabec, the other sparring partner.

COTTON MARKET.
New York, July 23.—(AP)—An early decline of 18 to 20 points on reports of beneficial rains in west Texas was followed by recoveries, with later fluctuations in the cotton market today. The early decline carried October contracts 2 1/4 cents below the high record late last month which evidently attracted realizing by recent sellers, while there also seemed to be some trade buying. The bulges met further liquidation, and the mid-afternoon market was unsettled, with active months about 5 to 10 points net lower.

CHICAGO GRAIN
Chicago, July 23.—(AP)—Despite a nearly vertical fall of 20c a bushel of late, all deliveries of wheat dropped today to a new low price record for the season. It was asserted that the Canadian growers' pool was offering wheat to Europe at much below other exporters, and the market was also bearishly affected by selling here from foreign interests and from houses with connections northwest, besides, the movement of new wheat southwest continued heavy and on the increase.

Wheat closed nervous, 4 5/8c to 5 7/8c net lower, corn 2 3/8c off to 1 1/8c, oats 1 1/4c to 1 1/8c down and provisions varying from 27c decline to a rise of 2/8c.

STOCK MARKET
New York, July 23.—(AP)—The stock market turned upward today after an early period of irregularity. Liquidation of several high priced specialties, which sold down 1 to 3 points at the opening quickly dried up, and the market resumed its advance under the leadership of the mercantile, copper and south western railroad issues.

Call money renewed at 5 1/2 per cent against 5 per cent last Friday. Banks called about \$5,000,000 in loans during the morning. Although fears of higher call money rates still persisted in some quarters, many traders held out hope that the recent decline in market activity and the slump in new bond offerings will ease the credit situation sufficiently so that the present rates will not be materially changed.

Heavy accumulation of the mercantile issues was based on reports of earnings. Montgomery-Ward ran up five points to a new peak at 169 1/4 and Kroger Stores was bid up nearly six points to a new top at 104 1/4. Coppers responded to reports of the improved statistical position of the industry, and expectations of a heavy fall demand for the red metal. Greene Cananea ran up nearly four points, Kennecott three and Anaconda, Graubly, Cerro de Pasco and several others advanced a point or two. Radio, Wright and Curtiss converted early losses into substantial gains. Warner Brothers Pictures touched another new high at 58 1/2.

St. Louis Southwestern, with a gain of nearly five points, assumed the leadership of the rail group. Wabash and Southern Railway each climbed 2 points and Missouri Pacific common and preferred, Chicago Great Western common and preferred, Atchafalpa, St. Paul and several others advanced a point or more.

The closing was strong. Total sales approximated 1,250,000 shares.

Republican Funds Committee Ready To Begin Action

Washington, July 23.—(AP)—Hundreds of thousands of Republican campaign contributions are to be sought by a special committee under the leadership of John W. O'Leary, a Chicago banker.

Under present plans, as announced by J. R. Butt, the national party treasurer, the committee will go to work at once and extend its operations to all the states as rapidly as possible, with women called upon to assume a prominent part in the solicitation. Its headquarters will be in Chicago, at the Republican offices already established there.

O'Leary is vice-president of the Chicago Trust Company and a former president of the Chamber of Commerce of the United States. Nutt described him as well qualified for the campaign post by an intimate knowledge of business organization, a wide acquaintance among business men and a high reputation as a leader and organizer.

NOVELIST ARRESTED, DECLARES DEVOTION FOR INSANE WIFE

Norristown, Pa., July 23.—(AP)—Lindley M. Hussey, Philadelphia novelist, today asserted that no woman except his wife, Dr. Virginia Alvarez Hussey, held any interest for him and that when she regained her normal mind he fully expected to re-establish their home life.

As for Mrs. Grace Sauveur, with whom he was found by police in a bungalow near Sergeantsville, N. J., three days after Mrs. Hussey said she had shot them both to death, Hussey declared she was only a good friend.

Last Monday Dr. Hussey swore out warrants against her husband and Mrs. Sauveur, charging him with non-support and both with a statutory offense. Four days later she startled the police by turning over to them a loaded revolver and announcing excitedly that she had shot and killed her husband and the "other woman." Hussey and Mrs. Sauveur, wealthy divorcees, were found in the Jersey bungalow late Saturday night. They voluntarily returned to Pennsylvania. Hussey accepted commitment to the county jail in lieu of \$500 bail to facilitate the handling of the case, while Mrs. Sauveur was released on her own recognizance.

Praises Efficiency Of Chicago Police

Chicago, July 23.—(AP)—Commissioner of Police Hughes believes Scotland Yard's famous detective forces would be "helpless as rank amateurs if they were moved into Chicago to suppress crime."

"I could name 20 of our men who could accomplish more in a given time than 100 of the best men of the Yard," he said last night after perusing a history of the Scotland Yard force and its accomplishments.

Commissioner Hughes was appointed by Mayor Thompson after a successful mayoralty campaign which claimed international attention because of Thompson's attacks on "King George of England."

During the campaign, the mayor urged the voters to elect him so he could "bust King George on the spot" and out "King George from the Chicago public school system."

Following his election, the mayor was instrumental in ousting William McAndrew, to whom he referred as a "stool pigeon of King George," from the superintendency of schools here.

Discussing the comparative merits of the Chicago and Scotland Yard sleuths, the police commissioner said:

"Anyone convicted of murder in England is hanged within three weeks. Here the murderer is first convicted, then he gets a delay to have his case appealed, he has his execution deferred pending an appeal, next it is postponed to examine him as to his insanity, later he might win a new trial on some technicality and finally he either is acquitted or his sentence is changed to a few years in the penitentiary."

"That difference has a tremendous bearing on crime and criminals."

FOUR YOUTHS SENTENCED TO LIFE IMPRISONMENT

Chicago, July 23.—(AP)—Four youths, none of them more than 21 years old, today were sentenced to life imprisonment by Judge Frank Comerford in criminal court on their pleas of guilty to the slaying of Pearl Eggleston, 17, an usher, killed during the holdup of a movie theatre in Berwyn, a suburb, three months ago.

The youths, John Tulace, Albert Mas, Stanley Thomas and Stanley Durmaj, entered pleas of guilty after two weeks had been spent in an attempt to pick a jury.

The state still asked for the death penalty after the pleas were entered.

The youths received their sentences with apparent relief as they had feared the death penalty.
