STATE EMPLOYEES ESCAPE NEW SLASH OF SALARY

Final Objection Is Given Unemployment Bill By Congress Today

CURRENCY BILL TURNED DOWN

House Rejects Currency Feature of the Home Loan Bill, Signaling End of Legislation at this Session if Senate Backs Out from vote given Earlier in Day; Relief Bill Expected to be Approved by President.

Washington, July 16.—(AP)—Final congressional approval was given by the Senate today to the \$2,122,000,000 unemployment relief bill, now in a form acceptable to President Hoover.

The House again rejected the currency expansion feature of the home loan discount bill, signaling the end of the home loan legislation at this session unless the Senate backs out from the 44 to 29 vote by which it earlier today insisted on the controversial section.

Washington, July 16.—(AP)—In the throes of an embittered wrap-up of this momentous Congressional session, the Home Loan Bill was caught in deadlock between the Senate and House this afternoon and dispute in the Senate also held up the \$2,122,000,000 relief bill. By 44 to 29, the Senate refused to give up the currency expansion feature of the bill establishing Federal Home Loan Banks. Senator Watson, the Republican leader, said it was the death knell for the legislation—in view of the House refusal to accept that feature.

While the House waited on the crucial Senate decisions, the report adjusting differences between the two branches on the relief legislation was reached—with a determined band of Senators voting opposition to the clause allowing for publicity for reconstruction corporation loans.

Speaker Garner reiterated the House would not abandon that provision, and it was a question whether the Senate would yield on the matter.

Whether Congress would be able to adjourn tonight as planned waiting the vote on that, as well as the final settlement of the currency expansion dispute.

With debate tearing through the Senate, on the Capitol steps at the 17th street band of veterans insisted on payment of the bonus.

After a rush to the front of the Capitol, which brought about the temporary arrest of some of their number, the veterans kept in order listening to speeches and singing songs while their leaders sought vainly to have their demands met by Congress.

Make Plea For State Education

Chapel Hill, July 16.—(AP)—The educational program of North Carolina must not be allowed to retrogress, three speakers told the final session of the North Carolina Conference on Elementary Education here.

A. H. Graham of Hillsboro, Democratic nominee for lieutenant governor, told the gathering of educators he would not agree to withholding teacher salaries by the Budget Commission until a similar step was made necessary for all other state employees.

E. B. Jeffers, chairman of the State Highway Commission, said the teachers were entitled to a living wage, and were worth far more to the state than it is able to pay them at this time. He said the educators would lead the state out of the depression, and find the cause of education thereby more firmly entrenched than ever.

Representative R. L. Harris of Roxboro, said the state's educational institutions were forced to mark time for the present, but that they must not be allowed to take a backward step.

Police Avert Clash With Bonus Army at Capital

Washington, July 16.—(AP)—A rush toward the Capitol by the throng of veterans demanding the bonus threatened disorder as Congress met today for its last session, but quick police action calmed the situation.

Walter W. Waters, leader of the man body of ex-soldiers, was held under arrest a short time until he and his aides agreed to do their best to keep their followers from massing at the Capitol doors, once they were dispersed.

P. D. Glassford, police chief, had evinced determination to keep the plaza clear, saying he had promised Vice-President Curtis to do so, and "when I say I'll do a thing, I'll do it."

SAY KREUGER STOLE BONDS

New York, July 16.—(AP)—Charges that the late Ivar Kreuger, midas of matches, stole \$50,000,000 in bonds before he put a bullet through his head, echoed today through the maze of his frenzied finances.

The Irving Trust Company, which hurled the charges, started a \$1,500,000 interest on the bonds and was said to plan suits to recover the securities themselves for the bankrupt International Match Corporation, a Kreuger concern.

FIFTY KILLED BY HOT WAVE

Most of Nation Engulfed by Torrid Temperatures With No Relief in Sight.

(By The Associated Press)
Summer stoked on today, preparing a hot week-end for a nation which sweltered yesterday in many sections, under highest temperatures of the year and counted its three day heat wave victims at nearly fifty.

Brief respites, however, were granted favored sections last night. Breezes and thundershowers cooled Chicago and the Pittsburgh area. But the terrific heat reached a high of 105 degrees at Longview, Tex., and scorched other sections with temperatures at or near 100.

MAN JAILED IN SHOOTING

Kit Richardson Held for Shooting J. L. Hogg Near the Fair Grounds Last Night.

Kit Richardson was held in jail in default of bond today charged with the shooting of J. L. Hogg at the fair grounds here last night. Richardson was given preliminary hearing before Magistrate John Ivey Smith here this morning and bound over to the next session of county court under bond of \$100. He was unable to furnish bond, however, and was remanded to jail to await hearing.

Richardson, who was said to have been under the influence of whiskey, was alleged to have fired upon Hogg without provocation as the latter walked along the road near the fair ground last night. While his injuries were of a painful nature, they were not believed to be necessarily serious.

Police said Richardson was reprimanded to have used firearms promiscuously on several occasions during recent months, but this was the first time anybody had been injured by his action. He has made his home at the fair grounds for sometime, officers said.

BONUSERS TO STICK, SAYS LEADER

Walter M. Waters, commander of the bonus army encamped in Washington, says funds available from a private source will enable the veterans to remain in the capital indefinitely. He disclosed that a cantonment sufficient to care for the 20,000 bonus seekers would be set up on private property soon through funds pledged to him. Storm Over Debt Issue Grips Principal Powers

Paris, July 16.—(AP)—The storm raised abroad by the report of Premier Herriot's statement on the connection of the Post-Lausanne accord with Great Britain and American war debts continued to preoccupy official circles today in spite of an official announcement yesterday intended to clarify the situation.

Yesterday's statement, officially sponsored, the following by one day President Hoover's letter to Senator Borah declaring the United States would not be influenced on the debt question by any united front in Europe, emphasized that it was far from the intention of France to form such a front.

MRS. BALLARD IS OUT OF JAIL

Woman Held in Arson Case Released on \$500 Bond Here Yesterday.

Mrs. G. H. Ballard, one of the principals in the Ballard highway robbery case which held the limelight in this community last year, was released from Pitt County Jail yesterday afternoon where she had been held the last two weeks on charge of aiding and abetting her husband in the alleged firing of a house of a neighbor in the southern section of the city several months ago.

Her liberation followed the placing of a \$500 cash bond by former Judge Albion Dunn, who was retained by Mrs. Ballard to represent her in this latest of court actions here.

Mrs. Ballard was said to have departed almost immediately for the home of relatives in Georgia. She will return here in August to face trial in the criminal term of Superior Court.

Mr. Ballard, who mysteriously disappeared the day the arson charge was set for trial, was still at liberty, and authorities had received no word regarding his whereabouts. Mrs. Ballard was said to have stated she had not seen him since the day he left Greenville and believed he had committed suicide.

Mrs. Ballard, who went to Georgia to live with relatives sometime after the disappearance of her husband, returned to Greenville about two weeks ago to get her household furniture.

Instead of coming directly to the city, she was said by police to have stopped about thirty miles away and sent a truck on to obtain her possessions. The truck was unsuccessful in its mission and returned to where Mrs. Ballard was waiting.

Not to be outdone the woman accompanied the truck back to Greenville. She was immediately taken into custody and jailed on a charge of aiding and abetting her husband in setting fire to the house of a neighbor. She was unable to furnish (Continued on page four)

The State Association Tables Proposal for Membership Referendum on Dry Law.

Asheville, N. C., July 16.—(AP)—The North Carolina Bar Association today tabled a resolution providing for a referendum of its membership on the question of prohibition repeal.

The resolution was introduced by John H. Small, of Washington, former Congressman, yesterday and created a furor among the members of the association here for its annual meeting.

After debating it for some time action was deferred yesterday until today.

RESCUE FLIER FROM JUNGLE

Clearance McElroy Found by Searching Party in Mexico 17 Days After Wreck.

Mexico City, July 16.—(AP)—Little by little today, as a wavering and halting voice came back to him, Clarence McElroy, American aviator who was rescued yesterday from the deep Mexican jungle, was able to tell snatches of the horror through which he lived for seventeen days.

McElroy was brought into the little town of San Geronimo yesterday by a searching party half dead from starvation, thirst and an injured leg. He had been missing since June 27 when he took off from Vera Cruz in a plane he was flying to Honduras for delivery.

Foy Gordon, American resident of Tegucigalpa, Honduras, who was flying with him, was killed in the crash, which occurred in the midst of a terrific tropical storm.

The crash of the ship after the motor failed, left McElroy badly hurt, without food or water, with no knowledge of Spanish or of how to combat or escape the deadly perils of a tropical jungle.

With almost unbelievable fortitude, however, he tried to arrange the wreckage to protect the body of his companion as well as possible from the jungle beasts. This done, he made a crude attempt to dress his injured leg and then struck out for the westward, knowing the low mountain range and civilization lay beyond.

Constantly on the alert to escape snakes, wild beasts and disease, and fighting off tropical insects, McElroy crawled his painful way through the tangled thicket.

Yet so handicapped was he that he estimates he only covered four miles in nearly three weeks of crawling. The jungle at that point is well-nigh impassable and he had no tools to cut through.

Governor Says No Cuts Will Be Made In State Allotment At Present

Seeks Beauty Throne

Rosalie Grandjean Brown was one of the favorites to win the title of French queen of the Olympic games in a competition sponsored by the French colony in Los Angeles.

Raleigh, N. C., July 16.—(AP)—There will be no new salary cuts for State employees or teachers at this time.

Governor O. Max Gardner announced today, in a statement read to the Council of State, that he would make no new cuts in State allotments at this time, and that if it is necessary in order to balance the budget, he will call an extraordinary session of the Legislature in November.

The statement is an end to rumors of salary cuts of 12 1/2 to 20 per cent for some 15,000 employees, including teachers, and clearly stated the governor's position on a special session of the Legislature.

No mention was made of the demand of State Senator John W. Hinsdale, of Wake County, and Clifford Frazier, of Greensboro, Republican gubernatorial nominee, that the Chief Executive call a special session now, but the statement said the Governor had found no sentiment for a special session at this time among the many groups with whom he had conferred.

Though the statement pointed out that no allotments would be cut under those of last fiscal year—which wipes out the recent order of Henry Burke, Assistant Director of the Budget, placing institutions and departments on 60 per cent instead of 70 per cent of their legislative appropriations—it was said also that the Highway Department would sharply cut its expenditures.

The Highway Commission met in extraordinary session here yesterday to consider the financial situation and pledged itself to spend a minimum of \$3,000,000 less this fiscal year than its revenues were last year. The Commission spent \$2,500,000 more than its revenues last year.

Happiness reigned on capitol hill as the contents of the governor's statement to the council of state became known and no doubt will bring joy to thousands of North Carolinians as something like 25,000 school teachers in every part of the state learn that for the present at least they will get no cut in pay.

The governor's decision was announced in a 1200 word statement. The governor said he had decided not to undertake the "questionable policy of withholding a percentage of school teachers' and administrators salaries; would make no further cut for the present in any state salaries; and would effect the fiscal year on this basis there were allotted last year—79 per cent to the legislative appropriations.

Then, he said, "if conditions make it necessary" he will call the General Assembly into extraordinary session in November to balance the budget for the remainder of this fiscal year.

Saying he believed school appropriations must be paid in full, Governor Gardner said he did not find "any equity in paying these salaries in full and at the same time slashing the salaries of other state officials and employees by as much as an additional 25 to 11-3 per cent."

William Pryor, arrested in Chicago, and said Scales aided him in the hold-up. Scales denied that he had met Pryor before the crime and claimed he disposed of the money in New York for Pryor on the latter's representation that it belonged to his estranged wife. He said he won the loot, which was recovered from Pryor in a poker game.

The jury reached its verdict after six hours and a half's deliberation. Scales was arrested in Salisbury with two companions when found hauling whiskey.

He has figured in several criminal cases, and at one time escaped from a State highway prison camp.

Chief Executive in Statement to Council Of State States That If it is Necessary to Balance the Budget He Will Call an Extraordinary Session Of Legislature in November; Highway Commission to Cut Expenditures.

Winston-Salem, N. C., July 16.—(AP)—Freed of a first degree burglary charge by a jury verdict, Wallace Scales, scion of a well-known Greensboro family, remained in custody today to face other charges of robbery with firearms.

Scales was acquitted of being one of two bandits who entered the home of A. H. Galloway in Reynolds Park last year, held up four women around a bridge table, securing \$15,000 in jewels, and ransacked the room in which Galloway slept.

William Pryor, arrested in Chicago, and said Scales aided him in the hold-up. ABOUT TOWN

Republicans are calling themselves the "dry party" of North Carolina at this time, but they are not half as dry now as they will be after the November election.

This wet and dry sentiment unquestionably will play an important part in the forthcoming campaign but not as much as economic issues.

Then also, it is generally known that the Democrats have been grayer than the Republicans for generations, and the fact that the party came out a little more boldly on the prohibition question at their convention does not mean that the old ones are any worse morally than the others.

Both are after a change in the prohibition law, and whether the Republicans admit it or not, they want to see something done about the question as much as the Democrats.

President Hoover set a precedent in reducing his salary yesterday. It was the first time in the history of the nation that a chief executive found it advisable to reduce his own pay, despite the fact that other years have seen panics and readjustment periods almost as great as that of the present time.

There is one comforting thing about this hot weather that we do not get out of severe cold attacks, and that is we have no coal bills to look forward to the first of the month.

The predicted fifty per cent reduction of the tobacco crop in this belt should have a salutary effect on prices during the fall and winter months, in the opinion of some of the leading tobacco men of the country, but just how much the price situation will be boosted nobody seems prepared to say.

SYNOPSIS: Why is John Anderson so considerate, Sondra Kent wonders, when she has been an indifferent friend to him? Now he has promised to give Mark Merriman a position in the Congo, although he appears to suspect that she is interested in Mark.

Chapter 6 FIVE YEAR SEPARATION

Mark Merriman finished his wine and pushed the glass a little way from him. "It seems queer," he said haltingly, "that in another 48 hours all this will be left right behind."

Sondra kept her eyes intent on lighting her cigarette. "I know," she said vaguely. There was a short silence, then she went on with an effort. "Aren't you frightfully thrilled—about going away, I mean?"

Merriman shrugged his shoulders. "I am of course—of course I am—but the United States has always seemed good enough to me—still seems good enough if it comes to that."

"Any other fellow would give his head for my chance, I know—it's wonderful and I owe it all to you, but all the same..." He broke off. "Mr. Anderson says that this is a great opportunity for a man with ambition and energy," she said quietly.

"I know—it was decent of him to choose me. Of course I know it is all your doing." She half shrugged her white shoulders. "Oh, no, I only just mentioned it. I said you were a friend of mine."

"It was kind of you, Sondra." The silence fell again. It was very quiet in the little restaurant. Merriman said suddenly: "The boat leaves at 11 o'clock on Friday morning."

Sondra's white teeth clenched suddenly on the ivory stem of her cigarette holder. "Boats often go at 11, don't they?" she hazarded.

"Do they? I don't know." Merriman lit another cigarette. The little tray between them on the table was already full of half smoked cigarettes which he had lit and allowed to go out.

"I wonder how long it will be before I am home again," he said abruptly. "Anderson said five years, he thought."

ostly at others, left behind with tears in their eyes... and now, on Friday, she would be one of them—left behind, perhaps for ever.

He moved his hand toward her a little as it rested on the table, then drew it quickly away again. "I suppose we ought to be going."

"Oh." She ground out the end of her cigarette, and gathered up her gloves and handbag. "I suppose this is good-bye," she said with a faint smile.

She broke off, and and for a moment they were both silent, looking at one another; then Sondra rose. "Let us go."

He followed her silently out of the little restaurant into the quiet side street. His car was standing at the curb—a small, unpretentious affair which Sondra knew was already sold.

"I can't bear it," Sondra tells Mark on Monday, and makes a sudden desperate appeal.

KREMER TURNS IN 1-0 TILT OVER BRAVES

By GAYLE TALBOT (Associated Press Sports Writer) Rival managers of the National League should have the privilege of protesting to Commissioner Landis or somebody if George Gibson of the Pirates pulls just one more three-hit pitcher out of the hat.

By all the standards, Gibson already had exceeded the bag limit by producing two such phenoms as Steve Swetonic and Bill Swift in a single season, but he has hauled off another to make life miserable for the opposition.

The result was a 1-0 victory for the Cubs, and in the process Kremer allowed just three hits, two of them by Wally Berger. It was only the second complete game for Kremer this season, and in the other he was beaten by the same Braves.

Henry Stevens Speaks as American Legion Begins Convention at Asheville

SEES NEED FOR ACTION

National Commander Declares Legion has Been Called Upon as Never before to combat Growth of Communism and Radical Pacifism in This Nation; Pays Tribute to Loyal Legionnaires.

Asheville, N. C., July 18.—(AP)—The North Carolina Department of the American Legion today went on record as favoring immediate cash payment of veterans' adjusted compensation certificates, commonly called the bonus.

Asheville, July 18.—(AP)—North Carolina Legionnaires took over Asheville today for their annual convention, cheered an address of their national commander and completed preliminary organization of the 3-day session.

Reports of state officers completed most of today's business meeting as the state department of the American Legion and its allied organizations talked over memories of 1917 and realities of 1932.

Tomorrow's business promised to be the high spot in the convention as officers will be elected, the next convention city will be chosen and several controversial questions including payment of bonus certificates will be passed upon.

Approximately 1,500 Legionnaires had registered up to mid-day and officials estimated the number represented about one-third the total to be here for the remainder of the sessions.

Religious services last night with today's and tomorrow's business meetings comprised the official program while entertainment included band concerts, a street parade, drill contests, drum and bugle corps contests, a street dance, a prize fight, boat races and other diversions.

Henry L. Stevens Jr., of Warsaw, national commander, delivered the principal address today in the first business meeting.

Stevens said the Legion this year had been called upon as never before to combat the growth of communism, radical pacifism and propaganda of other subversive groups and declared:

"Efforts of ultra pacifists to break down the basic national defense system of the United States, have not been confined to legislation, but have continued to expand in our schools and colleges. The American Legion has met this movement through the activities of the American commission which has used every effort possible to assure the continuation of our citizens' military training corps and R. O. T. C. units in high schools and colleges."

The national commander paid tribute to the "untiring efforts of the loyal Legionnaires who have held the line in membership work this year and praised the accomplishments of individual posts in the employment campaign which recently arrived at the goal of 1,000,000 jobs for the unemployed creating a bright spot of confidence, human sympathy and friendliness among the people of the nation."

Recounting the accomplishments of the year, Mr. Stevens said, in part: "In national defense, the Legion's efforts in Congress have not successfully the onslaught of those who have attempted to make sweeping reductions both before bills have been reported out of committees and after they have been passed by one branch of the other and finally."

RAIN SNAPS HEAT WAVE

South Counts Thirty-Three Dead During Prolonged Wave Of Hot Weather.

Atlanta, Ga., July 18.—(AP)—The south, counting its dead at thirty-three, today felt a measure of relief from its first heat wave of the season after a Sunday of scattered showers and cloudy skies.

Temperatures that set season's high's all the way through the 90's to the low hundreds slid backward slightly yesterday over most of Dixie and forecasts of more local rains and clouds gave promise the slightly cooler weather might continue for a day or so.

There was, however, little indication of general, immediate or lasting respite from hot weather. Predictions almost everywhere over the south made the provision, "continued warm."

A week of blistering sun and scorching heat has seen twelve succumb in Louisiana, eight in Tennessee, five in Alabama, three in Georgia, two each in Mississippi and Arkansas and one in North Carolina.

ADMITTS SHE KILLED MAN

Woman at Charlotte Confesses Slaying A S. C. Officer who Arrested her Husband.

Charlotte, July 18.—(AP)—A wide search was under way in this vicinity today for Clyde Snipes, whose wife admitted slaying a South Carolina officer when he tried to arrest her husband.

Mrs. Beatrice Snipes, 35-year-old woman of Columbia, surrendered to Charlotte police and was quoted by them as confessing she shot El. Eliot Harris, rural policeman of county, four times with his own revolver after Harris had snapped handcuffs on Snipes, charged with reckless driving.

The woman forced a companion of Harris, named Kenyon Young, of Fort Mill, to get out of the officer's automobile, and she got into it and drove to Charlotte to give herself up.

Snipes disappeared after the shooting, presumably still wearing the handcuff.

The shooting occurred on the Fort Mill-Charlotte highway, just below the state line.

HOOVER WILL SIGN RELIEF BILL TUESDAY

Measure Will Provide \$2,122,000,000 For the Relief of Unemployment.

Washington, July 18.—(AP)—The precedent-destroying first session of the Seventy-second Congress is over, and President Hoover tomorrow will sign the \$2,122,000,000 relief bill, writing "finis" if not "well done" to one of the legislators' biggest jobs.

This will become law another of the pieces of legislation that defied tradition and stretched this last meeting of Congress into its eighth.

PART OF BONUS ARMY MOVING

Discouraged Veterans Take Advantage Of Government Transportation Offer.

Washington, July 18.—(AP)—Discouraged because Congress has quit a good many members of the bonus seeking army had decided today the best thing to do was go home.

A long line formed this morning in front of the veterans administration where transportation is available for the veterans. Officials were forced to set up emergency office space in the corridors to handle the applications.

Meanwhile, two veterans were arrested for attempting to organize a protest meeting outside of police court where four of their comrades were on trial for trying to picket the White House Saturday night.

J.J. JUSSERAND DIES IN FRANCE

Former Ambassador to U. S. Passes Unexpectedly at Age of 77 Years.

Paris, July 18.—(AP)—Julius J. Jusserand, former French ambassador to the United States, died at 8 o'clock this morning.

He was 77 last February. For some time he had been suffering from a kidney ailment, but although his health was delicate his death was not expected.

Death came peacefully as he lay ill in his Paris home. It was learned that he had been under constant care of a physician for the past eight weeks because of a constitution weakened by a series of kidney operations some years ago.

Madame Jusserand was with him when he died.

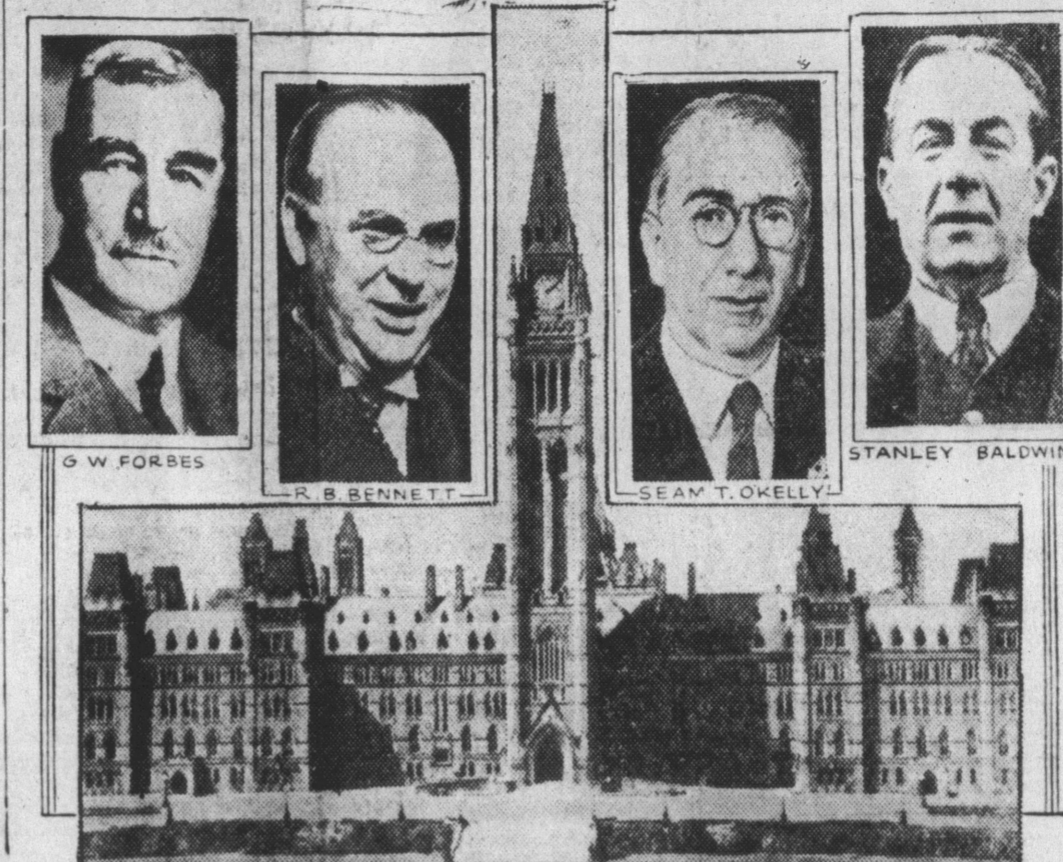

For 22 years Jean Jules Jusserand was ambassador to the United States, establishing a record for the longest continuous assignment in the history of Washington diplomatic corps.

He was quiet and unassuming, but those close to him knew that under his administration the French embassy achieved his ambition to unite his own country and the United States in bonds of firm friendship.

The American presidents from Roosevelt to Coolidge were his personal friends. His service began early in the Roosevelt administration and he was the president's companion in many of Mr. Roosevelt's vigorous activities.

Christian Minister delivers Sermon at the Court House Sunday Evening.

Confining his sermon to the remarkable utterances of Jesus during his stay on earth, Rev. W. A. Ryan, pastor of the Eighth Street Christian Church, delivered the sermon at the third of the series of Sunday evening union services at the courthouse last night.

The services, usually held on the lawn, were interrupted by rain shortly after the opening last night and the congregation was forced to move into the courthouse for the remainder of the program.

Rev. W. H. Covert, pastor of Immanuel Baptist Church, presided, and congregational singing was conducted by John Clark.

Republicans Paramount Liquor Issue In State

Raleigh, N. C., July 18.—(AP)—The dry side of the question, thereby reversing the standing of the two parties from what it was the last time the wet issue was made a principal argument. In 1912 the G. O. P. platform called for local option, opposing the State prohibition law adopted in 1908 with backing of the Democratic leaders.

In Democratic circles it was understood that the State Executive Committee would be called to meet about August 10 when Chairman Ocus M. Mull, of Shelby, will not offer for re-election.

Trenton, N. J., July 18.—(AP)—The light of publicity no longer shines on the search for the murderers of the kidnaped Lindbergh baby, but through the dark channels of the underworld the hunt goes on.

RAIN WORTH MUCH TO PITT

Agriculturists Value Saturday's Drought-Breaker at Over One Million Dollars.

Thundershowers which broke the drought in this part of the State Saturday afternoon were worth over a million dollars to the growers of Pitt County, in the opinion of leading agriculturists.

Although it is impossible to estimate the total benefit which the county derived from the showers, those acquainted with the situation firmly believed the rain saved farmers from one of the most staggering losses in years.

The relief was further augmented by showers yesterday afternoon and the accompanying breezes furnished succor for all forms of animal life which had been literally gasping for breath in the most pronounced heat wave of the last two years.

Hail did considerable damage to the Wilson and Buck farms in the Grimesland area and while it also visited the Pactus community, the stones were not of sufficient size or intensity to cause any damage of note.

The tobacco crops of Ben Buck and Jesse Wilson were reported damaged at least 50 per cent, but surrounding planters suffered only in a minor way.

The precipitation was accompanied by a stiff wind in some localities, it was revealed by belated reports reaching Greenville today and several old buildings were blown down and trees uprooted around Grimesland.

Louisiana led in accidental fatalities with eight, Florida reported four, North Carolina and South Carolina and Mississippi three each, Georgia two and Virginia one.

TEN CONVICTS MAKE ESCAPE

Officers Seeking Men who Escaped From State Prison Camp Near Mocksville.

Mocksville, N. C., July 18.—(AP)—Officers throughout this part of the State have been asked to be on the alert for ten convicts who escaped from a State highway camp near here Saturday night. The escape was discovered yesterday.

Clark York, who was recently given a thirty-year sentence for the murder of Jim Burrus, Mount Airy taxi driver, was one of the ten.

A hole was cut in the floor of their barracks by the convicts, who dropped into the cellar below, and made their way to the camp yard, from which they escaped by scaling a stockade.

Still wearing prison clothing, they seized a State Highway Department truck and drove off.

They are believed to have been seen in Salisbury a short time later. The truck was reported to have had gas enough for 30 miles, and to be able to travel at forty miles an hour.

In addition to York, those who escaped are: Olin Ferguson, 28, Rocky Mount, Va., five years.

Rome Williams, 22, Haywood County, two to five years.

HOOVER LAUDS ACHIEVEMENT

President Says Accomplishment is the "Redemption of a Promise I Made the People of Midwest; Agreement Subject to Ratification in Both Countries; The Horsepower Developed in U. S. to Be Settled.

Washington, July 18.—(AP)—The long-awaited treaty between the United States and Canada for the tremendous St. Lawrence seaway and power project was signed this morning.

Coinciding with the signing of the treaty, Secretary Stimson and Minister Herridge, of Canada, President Hoover headed the accomplishment in a statement as the redemption of a promise which I made to the people of the Mid-West.

The agreement, which remains subject to legislative ratification in both countries, calls for spending in half the estimated \$543,000,000 cost for a 27-foot waterway from the sea to all Canadian and American points on the Great Lakes.

"Such a depth," wrote the President, "will admit practically 90 per cent of ocean shipping of the world to our lake cities of New York, Ohio, Michigan, Indiana, Illinois, Wisconsin and Minnesota."

Disposal of the 1,100,000 horsepower which is expected to be realized on the American side of the international section is reserved for settlement by this country.

In that connection, Mr. Hoover recently informed his rival for the presidency in November and Governor Franklin D. Roosevelt, of New York, and that Federal authorities would confer with those of the interested States to agree on details once the treaty is finally effected.

As to diversion of water from Lake Michigan upon the nine-foot waterway from Chicago to the Mississippi, the President was assured by the War Department that the treaty provides sufficiently for maintenance of that waterway.

The treaty question has been hanging fire for eleven years, and officials estimate that once the agreement is in complete effect it will take probably ten years to construct the waterway.

During that time, Mr. Hoover said, "normal growth of traffic in the nation will far more than compensate for any diversion from American railroads and other American port facilities."

The treaty provides that the diversion of water from the Great Lakes by the Chicago Drainage Canal shall conform to the quantity provided under the United States Supreme Court decision of April 12, 1930. No further diversion is to be authorized except by authority of the International Joint Commission on which Canada and the United States are equally represented.

Under Article I of the treaty Canada agrees to build and maintain the works in the Thousand Islands section below Oak Point, and to construct, maintain and operate a side canal with a lock opposite Cryer Island and to construct the works required for the rehabilitation of the Canadian side of the international boundary.

The United States agrees to build, maintain and operate the works in the thousand Islands section above Oak Point; to construct and operate a side canal, with locks opposite Barnhart Island, and to construct works on the United States side of the international boundary.

The works in the Thousand Islands section have already been largely completed.

A temporary St. Lawrence International Rapids Section Commission of ten members would be set up, the United States agreeing to provide the funds for the international rapids section work, the work on each side of the line to be done as largely as possible by nations of the territory on which it stands and with the materials of the country in which the work is done.

The two governments reserve the right to modify these plans by mutual agreement.

SYNOPSIS: Spending a last evening with Mark Merriman before he sails for the Congo, Sondra Kent wonders how she can face the five years of separation. But she will not marry him until he makes his fortune, she determines, as she has been brought up with one goal—the marrying of a millionaire. Also, she realizes she would not be happy in poverty, with "cheap clothes, a mean house and the eternal grind of trying to get on."

"I love you—I love you—" She echoed his words wildly, as if she hardly knew what she was saying. "I love you—I love you—" "I know." "I've longed so to tell you—every time we met—every moment of the day and night—" "I know." "And now it's too late—" She turned her face against his shoulder, her cheek pressed to his. She said with a broken little laugh, "We've got—all the time—till the boat goes." "If only that was true." She lifted her face and their lips met.

SONDRA'S APPEAL
It was a beautiful night; a clear sky with a golden waning moon and a breath of coming spring in the air. Sondra sat there beside Merriman in the narrow automobile seat, her hands clenched, her feet pressed hard to the floor. "I can't bear it—I can't bear it—" she was saying over and over again in her heart.

shirked because times are hard. America has never attempted to escape responsibilities of this kind and she will not tolerate others trying to do so.

THE DEBT ISSUE CONTINUES TO hold the spotlight in Europe but not in the United States. This government has already stated its position on the issue and the principal powers may argue from now until the end of time without changing our minds.

Detroit, July 18.—(AP)—Within a few hours after Gar Wood had given his newest and most powerful creation, Miss America X, its first public trial, developing a speed estimated unofficially at 100 miles an hour "under wraps," he found himself faced today with the most serious threat yet to his title of speedboat king.

Wood said yesterday the newest Miss America's engines were turning 1800 revolutions per minute when the estimated speed of 100 miles an hour was reached. The engines deliver their maximum power at 2700 revolutions, he added.

BEES SNATCH SUNDAY GAME FROM 'BULLS'

Charlotte, July 18.—(AP)—Charlotte's fast flying Bees today held a higher grip on first place in the Piedmont League's second half race by virtue of a 7-3 victory over Durham's Bulls in the first game of professional baseball ever played in the Queen City on Sunday.

Nearly 3,000 cash customers marauded through the turnstiles to see the Sabbath day contest which brought strong protest from various ministers and others but which evoked no legal action. No move was made to interfere with the scheduled game, but the Mecklenburg Ministerial Association was called to meet at noon today in a session expected to consider the matter.

Militant Veteran

Roy W. Robertson of California is the determined leader of several hundred western war veterans parading the capitol in Washington, seeking the soldiers bonus. His head is supported by a steel and leather brace, the result of a spinal injury in the world war. (Associated Press Photo)

NEWS BRIEFS

Salisbury, N. C.—(AP)—Herman Franklin, fifteen, playing about the mouth of a hole at an abandoned rock quarry at Woodleaf, lost his balance and fell one hundred feet to his death.

New Bern, N. C.—(AP)—Funeral services will be held here tomorrow for Thomas Alexander Green, 86, vice-president of the Eastern Bank and for eleven years treasurer of the State Firemen's Association, who died here after a two weeks' illness.

Goldsboro, N. C.—(AP)—Within an hour after the congregation of the Black Creek Methodist Church prayed for rain, such a heavy down-pour came the group could not eat its picnic lunch on the church grounds.

Sanford, N. C.—(AP)—Although peaches are now being shipped North from this section, shipments will not begin on a large scale for several days. Indications are for a big crop and good prices.

WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and stink and the world looks pink, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine. For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Resent a substitute. 25c at all stores. © 1931 C. M. Co.

SOUTHWEST STILL HOT

Heat Wave Also Continues to Carry Discomfort to North Central States

(By The Associated Press)

Southwestern and North Central States still perspired today under a heat wave which had abandoned the East and Mid-West after causing fifty additional deaths over the week-end.

Texas, Oklahoma, Arkansas and Arizona thermometers were read in three figures while those in the Great Lakes region, Eastern Gulf states and Ohio Valley fell toward the normal 80's.

However, the sufferers held hope of early relief for thunderstorms were predicted generally for today.

Drownings comprised most of the thirty-three deaths reported in the hot area yesterday. Maryland had seven, Buffalo, N. Y., Minnesota and Iowa three, Kentucky two and Illinois one as those who anticipated continuation of the heat sought lakes and beaches.

Texas, on the other hand, told of our fatal prostrations and temperatures of 106 at Corsicana and Beaumont, and 105 at San Antonio, Gainesville and Wichita Falls. Ponca City, Okla., saw the mercury go to 104 and Oklahoma City 99.4, the hottest yet this year. Phoenix, Ariz., recorded 108 and Denver 94 as the heat blanketed the mountain section.

St. Louis was six degrees cooler than Friday at 95. Indianapolis at 92 was another exception to cooler weather in the Mid-West. Milwaukee was comfortable at 80 and Superior, Wis., at 86, but across the Mississippi River to the west it was another story. It was 100 at Williston, N. D., and Moorhead, Minn., and 94 at Minneapolis and Omaha, and Chicago's highest reading was 79 and New York's 82.

Colored Youth Drowns in River

Bert Leggett, Jr., 15-year-old colored boy, was drowned in Tar River this afternoon about 1 o'clock.

The youth, with several companions, was swimming in the river below Greenville Heights, when he plunged into deep water and drowned before aid could reach him.

A group of men were dragging the river this afternoon, and it was believed the body would be recovered in a few hours.

NOTICE OF SALE OF LAND FOR NONPAYMENT OF TAXES

Pitt County

vs.

R. D. Harrington and Wife, Eva Harrington.

By virtue and in pursuance of a decree of the Superior Court, made in the above entitled cause on January 4, 1932, the undersigned Commissioner, appointed for the purpose therein named (it being a suit to foreclose the lien on the hereinafter described land, held by the County for the non-payment of taxes), will, expose to sale to the highest bidder, at public auction, for CASH, on Monday, the 1st day of August, 1932 at the Court House door in the City of Greenville, North Carolina, at 12 o'clock M., the following described lots of land, situated in the County of Pitt and State of North Carolina, described as follows, to-wit:

230 acres of Little property, 76 acres Ward property, 284 acres Moore property, 7 acres of Daniel property, 40 acres of Rollins property, 77 acres of Woolard property, 30 acres of G. J. Lee property, 140 acres of J. S. King property, 350 acres James Abrams property; all property located in Pactivus Township. Reference is made to Map Book 1, page 127. Lots 1, 2 and

Roosevelt To Accept Horse

Mexico, Mo., July 18.—(AP)—Gov. Franklin D. Roosevelt will be "very proud" to have a five-gaited Missouri saddle horse as a gift, the Democratic nominee for president wrote C. P. "Jumps" Cauthorn, former Mexico resident who made the offer.

Cauthorn, candidate for the Democratic nomination for secretary of state of Missouri, recently telegraphed Gov. Roosevelt the offer of a horse.

"I want to tell you quite frankly, however, that I myself only ride occasionally and when I do I use a small horse that doesn't go off a walk," the governor wrote. "Of course, all my family ride and we should all be very proud to have such a wonderful animal in our stables."

Two Fliers Are Killed Stunting

LaFayette, La., July 18.—(AP)—Two fliers fell 2,500 feet to death near here yesterday when a wing of the airplane they were stunting crumpled.

Both the pilot, Don Bigbee, of Dallas, Texas, and his passenger, J. A. Guichard, of Lafayette, wore parachutes, but apparently did not attempt to use them. The plane buried itself three feet in the ground.

Swimming Pool Will Be Shallow During Tuesday

Westbrook swimming pool will be shallow tomorrow and kiddies will be given a splendid opportunity to splash about and enjoy themselves. The pool will be open to the general public tomorrow night from 8:30 to 9:30. The pool will be open for its rights to the week during the remainder of the summer.

The night swimming plan was inaugurated last week and hundreds of people took advantage of the chance to enjoy the popular pastime.

East Greenville Beats Simpson in 11-Inning Game

East Greenville baseball club defeated Simpson 5 to 4 in an 11-inning contest here yesterday afternoon.

The game was featured by the excellent work of Louis Cutler, Greenville short-stop, whose playing was largely responsible for the victory.

Johnnie Harrington did mound duty for the locals and held the visitors hitless at critical stages. Elks pitched splendidly in the 11th frame enabling Greenville to break the tie and shove over the winning run.

"Sweet" Williams and Gleason umpired.

Hundred Suffer From Poisoning

Masillon, O., July 18.—(AP)—More than one hundred persons were suffering today from a malady believed to be ptomaine poisoning, apparently from food eaten at a luncheon held in connection with the Communist party's state ratification convention here.

Approximately three hundred were stricken with illness following the luncheon yesterday, and hospital facilities were taxed beyond capacity to care for the sufferers. Most of the victims were cared for in emergency stations, and later were released, but about one hundred were kept under treatment and several remained in a critical condition.

The luncheon consisted of potato salad, luncheon meats and coffee. Shortly afterward the victims, more than twenty of them women, were stricken.

A constructive victory was won by the Legion and loyal senators, who fought for and passed the Hale bill in the Senate to authorize the building of our fleet up to the limit allowed under the London treaty. This was an outstanding accomplishment for which the Legion has consistently worked.

Market Report Cotton--Stocks--Grain

New York Cotton

New York, July 16—(AP)—Cotton futures opened steady, unchanged to 3 points higher on reports of high temperatures in Texas and on absence of rain over Sunday aside from scattered thundershowers in portions of the Eastern belt.

Opening demand was attributed to trade buying and covering, but it was readily supplied and the market sagged under realizing or liquidation and scattered selling. By the end of the first half hour, active months were about 8 to 9 points net lower with December selling around 5.72. Liverpool cables were about as anticipated on the New York close of Saturday. Private advices reported covering, Continental and Bombay buying, and said there was

a broadening demand for cotton cloths and yarns.

Stock Market

By CLAUDE A. JAGGER
New York July 16—(AP)—The adjournment of Congress, for which Wall Street had long awaited with manifest lack of patience, brought more profit-taking sales than fresh buying into the stock market today.

The brightest aspect of the securities markets was further im-

provement in bonds, but shares generally turned downward particularly those issues which had enjoyed fair advances last week. Selling, however, was in extremely light volume.

Among issues losing a point or more were American Tobacco B, Liggett & Myers B, Consolidated Gas, Dupont, Public Service of N. J., Coca-Cola, Case, Brooklyn Manhattan Transit, Santa Fe, and American Telephone. Gotham Silk dropped 3 points. The U. S. Steel shares held up fairly well, and Westinghouse Electric sagged only a fraction, despite its adverse second quarter earnings report. Union Pacific was firm for a time, and McIntyre Porcupine rose to a new peak for 1923. Detroit Edison and Home-Stack Mining mounted about five points, but the latter lost much of its gain.

The second quarter report of Westinghouse Electric and Manufacturing appeared over the weekend, and as a sample of second quarter earnings that may be expected from a number of important industrial, it was scarcely encouraging. The company's net loss for the period was \$1,881,979, or somewhat larger than the loss of \$1,320,-

148 of the first quarter. Next week will bring the quarterly meetings and earnings statements of U. S. Steel and Bethlehem.

Grain Market

Chicago, July 16.—(AP)—With the movement of the new domestic winter wheat crop in progress and a lack both of export and speculative demand, wheat wavered irresolutely today around bottom price records.

Fluctuations kept within fractional limits, and the volume of trading was unusually meager. Chicago crop observers near Regina Saskatchewan, reported 6,000,000 acres of Canadian spring wheat deteriorating as a result of hot dry weather and dearth of subsoil moisture.

WANT ADS PAY

85 MILLION PEOPLE will see this..

WHY will this advertisement appear in more than 1,800 newspapers, reaching over 85,000,000 readers?

BECAUSE we want every smoker throughout the length and the breadth of this country to know that Chesterfield cigarettes are milder...

The tobaccos are the mildest that money can buy. Ripened and sweetened in the sunshine... cured by the farmer... then aged for two years in wooden hogsheads.

We want to tell every smoker from coast to coast that Chesterfield cigarettes taste better...

Chesterfield's way of blending and cross-blending fine Turkish and Domestic tobaccos brings out better flavor and aroma.

We want every man and woman smoker to know this:

Chesterfield cigarettes are pure—just as pure as science can make them—just as pure as the water you drink.

We want every one to know that you can depend on a LIGGETT & MYERS product.

Wherever you buy Chesterfields, you get them just as fresh as if you came by our factory door.
