President Hoover Plans To Rush Relief To Hurricane Area

Asks For Full Report Of Disaster At Puerto Rico; Thousands are Homeless

TWO HUNDRED DIE IN STORM

Over Thousand Hurt by Terrific Storm of yesterday with Property Damage Running Into Millions of Dollars; Little Damage is Reported from Santo Domingo; Gale is Sweeping South of Port Au Prince.

Washington, Sept. 28.—(AP)—President Hoover today messaged Governor Beverly, of Puerto Rico, expressing grief over the disaster and asking an immediate report in order that relief measures might be instituted.

The text of the President's message follows:

"I am deeply grieved to learn of the death and destruction visited upon the people of Puerto Rico and their possessions, and wish you please to report to me a, once the salient facts of the situation, especially those looking to immediate provision of any relief that can be supplied by our public agencies."

The Red Cross today received a message from Antonio Silva, of its San Juan chapter, reporting "thousands temporarily homeless."

A dispatch to the Navy from Lieutenant Isahel Oich, district communication officer, at San Juan, said:

"Short trip into San Juan indicates conditions next few days acute due to lack of food."

Another message said there were no casualties in the Navy personnel.

Washington, Sept. 28.—(AP)—Governor Paul M. Pearson, of the Virgin Islands, today notified Secretary Wilbur that the "full force of the West Indian hurricane hit the Virgin Islands." He reported no lives lost on St. Thomas Island.

Port-Au-Prince, Haiti, Sept. 28.—(AP)—Reports available here today told the hurricane which took heavy toll of Puerto Rico yesterday had passed across Santo Domingo without serious damage and apparently was south of Port-Au-Prince this morning.

San Juan, Puerto Rico, Sept. 28.—(AP)—Deaths from the hurricane which struck Puerto Rico early yesterday mounted into the hundreds today as reconstruction crews cleared away the debris while the storm roared on toward Santo Domingo and Haiti.

Governor James I. Beverley placed the number of dead at 200 last night and the injured at 1,000, but he said this estimate undoubtedly would be revised upward.

In the meantime, reports from Santo Domingo, before communications were closed down last night, said the storm destroyed a number of houses at San Pedro de Macoris, about fifty miles from there. It reached Santo Domingo at 8:30 p. m., but no damage was done up to that hour.

Santo Domingo was struck two years ago by one of the most disastrous hurricanes in the history of the Caribbean. The city was practically wiped out and over 3,000 were killed.

Property damage was to the coffee plantations which had just begun to bear again this year after having been flattened by the disastrous storm of four years ago. The citrus fruit crop, worth about \$7,000,000, would be a total loss, observers said.

Governor Beverley instructed the Emergency Relief Committee to begeth at once to find shelter and food for the many thousands left destitute and homeless. He promised insular funds would be supplied to doing, pending a definite relief program.

Roosevelt To Visit Raleigh October 14th

Abord Roosevelt Special, Sept. 28.—(AP)—Tentative plans for Governor Roosevelt's Southern trip in October call for him to appear in Raleigh, N. C., October 14th.

The present plan is to start the trip October 12th with Mr. Roosevelt appearing in Baltimore, Md., October 13, in Raleigh the next day, and spending the next four days at Warm Springs, Ga.

On the 19 he will be in Atlanta, Ga., and perhaps will stop at Philadelphia on the return journey to Albany.

ROOSEVELT TO MEET NORRIS

Democratic Presidential Nominee Greeted by Large Crowds in Colorado.

By WALTER T. BROWN (Associated Press Staff Writer) Roosevelt Special, En Route to McCook Neb., Sept. 28.—(A)—Refreshed by a night "ashore" in the resort center of Colorado Springs, at the foot of Pike's Peak, Governor Franklin D. Roosevelt, Democratic Presidential candidate, today was en route to a meeting with the Republican Independents' leader, U. S. Senator George Norris, at McCook.

The meeting with Norris, who has turned his back on President Hoover, to espouse the Roosevelt candidacy, will come a day after another Republican Independent, Senator Bronson Cutting, of New Mexico, appeared on a platform at Lamy Junction with Roosevelt.

Roosevelt was greeted by a large crowd at Colorado Springs last night when he arrived from Williams, Arizona. Another crowd awaited him at a hotel, where the New York governor and his party spent the night. Flanked by Senators Thomas J. Walsh, of Montana; Key Pittman, of Nevada; John S. Cohan, of Georgia, and Colorado's new Senator, Walter Walker, Roosevelt appeared on the balcony of the hotel and addressed the crowd.

MARTIAL LAW GRIPS HAVANA

Drastic Action to End Disorders Follows Slaying of Four Persons.

Havana, Sept. 28.—(AP)—Martial law prevailed in Havana today as police and governmental agencies sought assassins who yesterday murdered four of Cuba's prominent political leaders by American gangster methods.

President Machado explained the decree of martial law was promulgated to prevent possible reprisals by friends of the four slain men. Dr. Clemente Vazquez Bello, friend of Machado, president of the Senate, and prospective candidate for the presidency of Cuba died in a rain of machine gun bullets from a passing automobile.

Shortly afterward, three brothers, Gonzalo, Guillermo and Leopoldo Freyre De Andrade, political opponents of Dr. Vazquez Bello and the Machado regime were slain in their home. Investigators described their killing as an act of reprisal by friends of the dead Senate chief.

Police were seeking a man named Augustin Alvarez, who they said, was the owner of the car which bore the machine gunners. They arrested the proprietor and an em-

POLICE RAID MANY BARS IN KANSAS CITY

Hundred and Fifty Persons Held For Questioning in Dry Law Violations.

Kansas City, Sept. 28.—(AP)—While approximately 150 persons await questioning here today in connection with federal raids last night, the glistening bars and gambling equipment with which they were familiar either as operators or patrons were being carried away to warehouses.

The raids were made methodically on dozens of the estimated 75 big saloons which federal agents (Continued on Page Six)

YEGGS FOILED AT FARMVILLE

Robbers Enter Bank But Leave Without Attempting to Enter Burglar-Proof Vault

Yeggs men who entered the Bank of Farmville last night with the intention of walking away with a big haul of cash were so impressed with the invulnerability of the burglar-proof safe that they abandoned the project and left with only a bank pistol in their possession, according to information furnished today by Cashier D. E. Oglesby.

The attempted robbery was discovered this morning and created quite a flurry in the business district which subsided when it was learned the vault had not been entered.

Cutting a panel of heavy plate glass from the front door, and carefully concealing it behind the large columns at the entrance, the men entered the bank, looked over the burglar-proof safe, found it too (Continued on Page Five)

MILLS WINS DAMAGE SUIT

Black Jack Man Is Awarded \$1,125 In Action Against Coca Cola Company

A jury in the civil term of Superior Court today awarded Bossie Mills damage for \$1,125 in his suit against the Coca-Cola Bottling Works of Greenville. Mills was suing for \$5,000 as result of injuries which he sustained when he swallowed the part of a hair-pin clasp while drinking a bottle of coca-cola. The decision was returned shortly before the noon hour.

The \$5,000 damage suit of Bossie Mills against the Coca-Cola Bottling Works of this city was in the hands of the jury today with a decision being expected at any time.

The case, involving suit over a piece of hair-pin clasp which Mills claimed to have swallowed while drinking a bottle of Coca-Cola, was received by the jury yesterday afternoon. The jurors were permitted to return home last night and again resumed deliberations this morning.

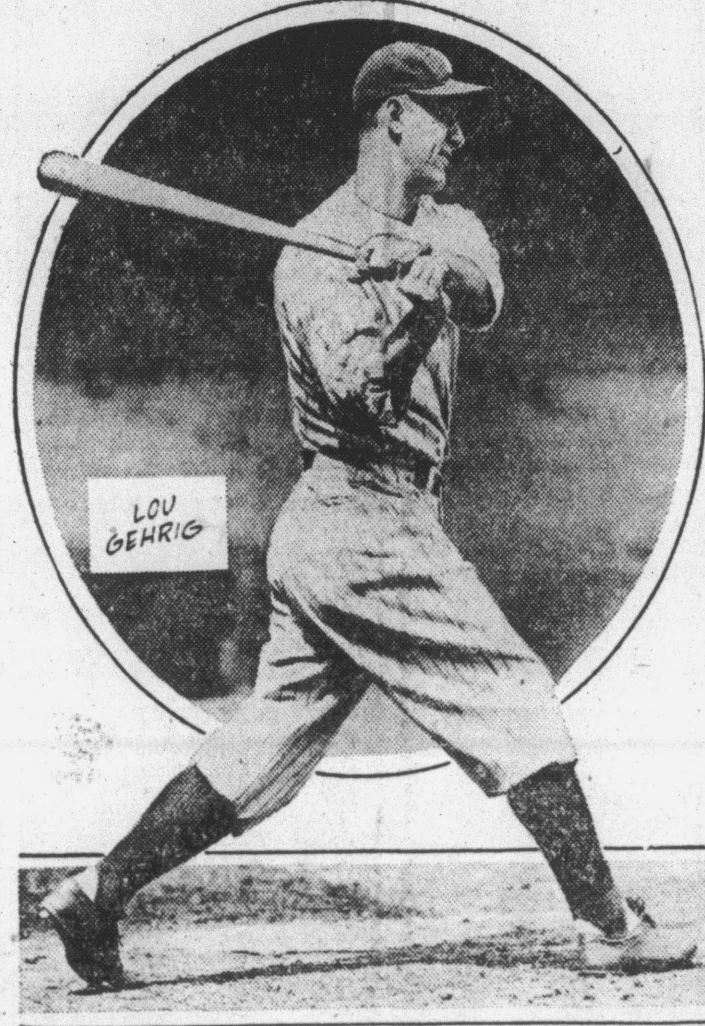

Mills claimed to have suffered great physical pain from effects of having the foreign matter lodged in his intestines and produced an X-ray picture taken by a doctor at New Bern showing there was some foreign substance in evidence.

Several other doctors testified, however, that later X-ray pictures failed to show any signs of the part of the pin and did not think Mills had suffered any direct injury.

After the case had gone to the jury, court began hearing of the ejection proceedings of R. D. Buck against Heber Hardee, tenant of one of Buck's houses and filling station. Hardee was ordered to vacate the buildings in view of the plaintiff's contention that the occu-

PRICES FIRM ON LEAF MART

About Half Million Pounds of Leaf On Floors of the Warehouses Today.

Prices continued firm on the Greenville tobacco market yesterday when \$33,158 pounds of bright leaf sold for a total of \$33,921.61, according to the official report of sales made public today by K. W. Cobb, supervisor of sales. The general price average was \$10 per hundred pounds.

There was about a half million pounds of leaf on the floors of the various warehouses today with indication that sales would be completed shortly after the noon hour.

In the face of continued offerings of inferior grades the price situation took an upward trend here the last two days, and this condition was expected to continue with increased offerings of the better grades (Continued on page three)

Lou Gehrig's Drive For Circuit Aids Yankees In Capturing 12-6 Victory

Government Not to Press Collection of Farm Loans

Washington, Sept. 28.—(AP)—It was announced at the White House today that farmers owing crop production loans to the government would be asked to pay only 25 per cent of the amount due, with an agreement to secure the remaining 75 per cent on whatever terms Congress may authorize.

CUBS DRAW FIRST BLOOD

Yankee Stadium, New York, Sept. 28.—(AP)—The Yankees' belting power, headed by Lou Gehrig's home run and aided by Guy Bush's wildness in a five run sixth inning assault, smothered the Cubs, 12 to 6 today in the opening game of the world series.

Gehrig's home run, a majestic belt into the right field bleachers, scored Babe Ruth ahead of him in the third, completed a three run rally that brought the Yankees into a 3-2 lead after Charley Ruffins' faltering start, and touched off the fireworks that blazed all around three Cub pitchers the rest of the first inning.

Cubs—The rival managers had an extended conference with the umpires at the plate. Herman ut. Man ager Grimm and Coach Art Fletcher of the Yankees came out for another confab with the chief umpire. Ball one, inside. Poul, strike one, down third base line. Ball two outside. Herman singled over second base. English up. Ball one, high and inside. Ball two, low and outside. Strike one, called. Poul, strike two, into the screen behind the plate. Ball three, high. Poul, into stands. Poul, into lower stands. English hit to right and Herman scored when the ball escaped Ruth and rolled to the fence. English reached third on the Babe's error. It was a single for the batter. Cuyler up. Ball one, inside. Strike one, called. Poul, strike two, onto the boxes. Ball two, high inside. Cuyler fanned swinging at a fast ball. Stephenson up. Poul, strike one, Strike two, called. Ball one, outside. Poul into the dirt. English scored on Stephenson's single over Ruffins' head. Moore up. Ball one, inside. Strike one, swung. Strike two swinging. Moore struck out, swinging at a fast one on the outside. Grimm up. Strike one, swinging. Strike two, swinging again. Poul, into the screen. Poul in the same spot. Ruffing was bearing down. Ball one, outside. Grimm struck out, swinging at a fast one.

HUNT SLAYER IN BUNCOMBE

All Peace Officers Of County Hounding Man Who Shot Gas Dealer to Death.

Asheville, N. C., Sept. 28.—(AP)—All peace officers in Buncombe County were running down clues today as a hunt spread over Western North Carolina and Eastern Tennessee for bandits who shot a filling station operator to death last night in a robbery here.

Telephone calls from various sections were being checked while police weighed clues that might lead to apprehension of the man or men who shot the operator, Lonnie G. Russell, 34, and fled with between \$300 and \$450 he had in his wallet.

Ted Austin, a telegraph messenger boy, said he saw five men in an automobile last night and that it bore the same license taken by witnesses at the time of the robbery.

He told police the car was parked and that one of the men asked him if he "had heard about a man getting shot in the holdup." Austin said the men were dividing money.

Russel was shot in the back and died shortly after he was taken to a hospital. Officials of the company he worked for said they believed the bandits took the money that was missing from his pocket-book.

Concord, N. C.—(AP)—Lewis Misenheimer, of Mount Holly, was absolved of responsibility at an inquest here in the death of J. C. B. Carter, 75, who died soon after Misenheimer's auto struck him.

Tom Mooney and Warren K. Billings are serving life sentences in California prisons for the bombing. Although detectives said they were not inclined to give full credence to Callicotte's statement, they booked him as a fugitive from San Francisco (Continued on Page Three)

COLLEGE HERE STARTS WORK

Orientation of 350 Freshmen Completed at the Noon Hour Here Today.

Freshmen orientation at East Carolina Teachers College was completed today at noon with the registration of all new students. Approximately 350 freshmen were enrolled, a number of whom are young men. Long lines of students filed through the administration and campus buildings attending to routine work and registration into selected courses. This is the climax of freshman initiation into the College.

On Monday, officers of student organizations and upper classmen arrived to welcome the freshmen to Greenville and assist them in becoming acclimated to the city.

MISS DEAL HOSTESS FOR MISS MCGINNIS

Miss Elizabeth Deal entertained at a delightful bridge party on Tuesday afternoon in honor of Miss Alma McGinnis, who is to be married on October 4 to James M. Johnston. The house was artistically decorated with fall flowers.

Bridge was played at three tables and following several progressions, high score prize, a box of note paper, was given to Miss Doris Hardee. The honoree was given a lovely green novelty handkerchief.

The hostess, assisted by her mother and sister, Miss Mary Agnes Deal, and Mrs. H. J. McGinnis, served a delicious salad course.

Among the guests for the afternoon was Mrs. W. W. Morgan who has recently moved to Greenville.

Negro Causes Excitement On Ayden Streets

Ayden, Sept. 28.—A bit of excitement was created in Ayden about 3:30 yesterday afternoon when Tom Phillips, a negro ex-convict, broke away from police court and had to be chased through the streets of the city and shot in the arm before being subdued.

The prisoner about 11 months ago was sentenced to the chain gang for shooting Nathan Gardner, colored. After being out two weeks he returned to the city yesterday and attacked Gardner with brick-bats whereupon a warrant was issued. The negro was being tried in the magistrate's court with A. W. Sawyer, town officer, and B. S. Sumrell, township constable, who had made the arrest present. Mr. Sawyer's attention being called elsewhere for a few minutes the negro jumped on Mr. Sumrell and tried to get his gun. Mr. Sawyer quickly came to the rescue but the prisoner got away and bolted down Main street. The officers gave chase and finally captured him on a side street after shooting him in the arm. The wound is not serious and the offender was taken to the Greenville jail to await trial in Superior court to which he had been bound over by Magistrate J. F. Barwick.

SANS SOUCI CLUB HOLDS MEETING

The Sans Souci Club held the first meeting of the club year on Tuesday afternoon, Sept. 27, with Mrs. Bruce Sugg. The first paper on the program, which was to have been given by Mrs. Key Brown, was postponed until the next meeting, giving time for the various items of business attendant always upon the first meeting of the year. These were duly disposed of, and the new books were then distributed by the librarian. The club then thoroughly enjoyed a discussion by Mrs. Carey Warren of an outstanding magazine article of the month. Mrs. Warren chose an article in Harper's, entitled "Our Whispering Campaign." As its title would indicate, it has to do with the whispering—generally malicious—which seems to accompany every presidential campaign, and to which—so says the author—a candidate for high office in no other country of the world is subjected. Apropos of the coming election, it was particularly timely and elicited much comment that was an interesting feature of the meeting. The discussion of a leading magazine article at each meeting as a part of the program is a new feature for this year, and if we may judge by the one given by Mrs. Warren on Tuesday, is going to add immensely to the enjoyment of our program.

Assisted by Mrs. W. E. Hooker, the hostess served a delicious salad course while the members enjoyed their reunion after the separation of the summer.

The club will meet next on October 11th with Mrs. Frank Wilson. —Reported.

Local Horses to Be on Display at Big Horse Show

J. Milton "Chick" Johnson, one of the leading equestrians of this part of the State, stated today he would place three local horses on exhibition at the Horse Show in Raleigh tomorrow night. The horses are among the finest saddle animals of the city, and Johnson expects they will come in for a good bit of attention.

Johnson has given a good bit of time to the training of horses and dogs in recent years, and has received considerable recognition. Trick dogs are his speciality and he has trained some so completely in recent years that they would make some human beings ashamed of themselves.

Rainy Weather Cuts Offerings on Leaf Marts

Henderson, N. C., Sept. 28.—(AP)—Rainy weather cut down offerings and poorer grades cut down the comparatively high bids of yesterday's opening break on markets in the old bright leaf tobacco belt in North Carolina today.

Henderson, where an average of \$13.06 was reported yesterday, today sold 15,124 pounds at an average of \$11.13. The offerings were very light there and the sales were completed and officially tabulated in the forenoon.

The price average also fell off in Durham, where farmers were barely satisfied with the \$10.50 average that prevailed for 150,000 pounds sold. Sales there are expected to remain light the remainder of the week.

Sanford's average of 13.05 for yesterday was about the same today, warehousemen estimated, but were light and low grades predominated. Aberdeen reported approximately 25,000 pounds sold at an average between 11 and 12, about on a level with opening day bid. Rains virtually eliminated sales at Louisville, but the small amount sold brought better prices than yesterday.

High Point, N. C.—(AP)—M. J. Wrenn, High Point capitalist and an owner of the High Point Furniture Company, believed there is a definite trend toward better business.

Greensboro, N. C.—(AP)—Funeral services will be held today for S. B. Laird, 83, former head of the psychology department of Michigan State Normal College, who died here yesterday after several months' illness.

PRICES FIRM ON LEAF MART

(Continued from Page One)

Farmers from remote parts of the belt continue to augment the crowds of growers offering their product for sale here each day, and this has done much toward swelling daily sales.

With several million pound days recorded recently, the market has again forged into the lead of all other markets of the belt, and this was expected to continue the remainder of the season in spite of the 50 per cent crop reduction reported from virtually all parts of the belt.

Calicotte was quoted by police as saying he took the suitcase from a man in front of the Industrial Workers of the World hall in Oakland, carried it across San Francisco bay, delivered it to a man in San Francisco, and at the latter's request placed it on the curb at the corner of Stewart and Market Streets. It was at this point the suitcase-bomb exploded. Calicotte said he was paid \$5 and did not know what the suitcase contained.

Because his parents were devout Seventh Day Adventists and would be hurt if they learned he worked on the Adventists' Sabbath, he said he did not reveal his story until last night.

Calicotte said he told the story now because his parents were no longer alive and he wanted to clear his conscience.

coming adjusted to their new environment.

The first feature of the program was the assembling of the new students in the auditorium of the Campus building on Tuesday afternoon. This was also the first formal meeting of the scholastic year.

Dr. Leon R. Meadows, director of instruction in the English department and chairman of the Freshman Program, opened the meeting with a talk to the Purpose of Freshman Week.

President Wright gave an inspiring talk of welcome and advice. He emphasized the high standards of the College and the manner in which the new students could preserve and raise them.

This address was followed by instructive talks from other college officials that will make the machinery of the college run smoothly. Mrs. Spillman and Mr. McGinnis spoke respectively on the student's relation to the Treasurer and to the Registrar.

A barbecue supper on back campus at 5:30 Tuesday served to faculty members and students was the

social feature of the day. In the evening at 7 o'clock the Freshmen were introduced to student and dormitory officers. Miss Morton, Dean of Women, pointed out the importance of being courteous, prompt, and dependable at all times. Misses Mildred Dixon and Myrtle Gray Hodges, cheer leaders, led the college songs and yells.

The Cabinet of the Y. W. C. A. is entertaining all new students in the Y. Hunt. Those whose names began with A-M met last night and the remaining will enjoy the social hour tonight.

The number of young men enrolled has increased to such an extent that their former browsing room was considered too small, therefore rooms have been given them in the old infirmary on west campus. Although there is no dormitory for boys this year, the number is constantly increasing. Young men from a distance are rooming in many of the homes in Greenville.

Upper classmen who did not assist with freshmen orientation will arrive in Greenville by Thursday morning when they will register preparatory to beginning classes on Friday.

shall have sufficient assurance of support and authority from both Liberia and the League to make it worth while sending them."

The government's position was set forth by the Secretary of State in a telegram last night to Walter White, Secretary of the National Association for the Advancement of Colored People, and W. E. B. DuBois, editor of "The Crisis," both of New York City.

Whit and DuBois contended in a telegram to Stimson yesterday that the State Department attitude "amounts to a veto" of the League plan for nine foreign officials and a League advisor to supervise Liberia. This plan was suggested after an international commission reported conditions of slavery and forced labor existed there.

"The remedy suggested by the League," Stimson replied, "has been supervision of Liberian administration by non-partisan officials representing the enlightened nations of the world. We have urged only that these officials be promised in advance sufficient authority to make them useful."

State Improves Quality Cotton

Raleigh, Sept. 28.—Approximately 40,000 of the 68,000 bales of cotton ginned in North Carolina prior to September 17 were better than middling 7-8 and if closed and sold on a basis of grade and staple would command an average premium of more than \$3.50 per bale.

U. Benton Bialock, general manager of the North Carolina Cotton Growers Cooperative Association, said today after calculations based on the preliminary government report and the cooperative's differential schedule.

On this basis the grade and staple premiums on the estimated State crop of around half a million bales this year would amount to more than a million dollars, he added.

The preliminary government report on ginnings prior to September 17 showed that 59.5 per cent of the State crop stapled 15-16 or better and 59.6 per cent graded strict middling, percentages considerably higher than the average for American crop.

Premiums the cooperative is paying on better grades and staples range from \$1.25 to as much as \$9.75 per bale this season, Mr. Bialock said.

Calling attention to the fact that North Carolina mills use twice as much better-than-middling 7-8 cotton as is produced in the State, the cooperative leader urged growers to select their seed carefully now for next season so that the State may continue the forward strides it has made in the past five years in grade and staple improvement.

Five years ago only about 15 to 20 per cent of the state crop stapled 15-16 or better as compared with around 60 per cent now.

Discuss Power Rates, Raleigh

Raleigh, N. C., Sept. 28.—(AP)—Three officials of the Tidewater Power Company of Wilmington were here this afternoon to confer with the State Corporation Commission in regard to proposed lower electrical rates.

W. A. Matthews, president; L. J. Poisson, attorney; and Frank Lawrence, consulting engineer, were to discuss the rate situation this afternoon.

The conference is the third of a series of private sessions following open meetings a month ago at which representatives of the Tidewater, Durham Public Utilities Company, and the Carolina Power and Light Company appeared.

The Commission had announced it hoped to have lowered rate suggestions ready for at least one company by October 1, but this appeared doubtful today.

Discover Vikings Frozen in Ground

Copenhagen, Denmark, Sept. 28.—(AP)—Aage Roussel, back from a scientific expedition to Greenland, told today of the discovery of a little group of Vikings frozen in the Greenland soil and perfectly preserved after more than 500 years.

The discovery was made during excavations at Ujarasuit, on the north-west bank of Godthaab's Fjord. The bodies were those of typical Nordics with long, fair hair. They were dressed in tight breeches and double-breasted coats of heavy homespun. There were no coffins.

Dr. Roussel associated the findings with a Viking settlement of eight dwellings which apparently was destroyed by Eskimos who killed all the survivors about the year 1370. The bodies discovered on this expedition, he said, apparently had been buried in a church-yard before that last Eskimo raid.

YOU are the fashion dictator when it comes to choosing a SUIT

Not so long ago, all suits followed one fashion. If that fashion didn't happen to be becoming, there was nothing much you could do—and many women were led to believe that they weren't the 'suit type'. Now it's a different story. This season you yourself dictate the fashion you will wear. You may choose from round or square corner jackets; short, fingertip, 3-4 or 7-8 length; flat or long haired furs—dozens of becoming and individual models.

Vocational Program For Stokes Section This Year

The agricultural phase of the vocational week:

1. Adults and boys in the junior and senior grades of high school will be given instruction on farm organization. Under present economic conditions, reorganization of the farm for a better balance of crops and livestock is very important. Instruction on methods of (1) increasing the labor income; (2) better distribution of labor; (3) lowering cost of production and (4) the readjustment of cash crop acreage to more acreage of live-at-home products will be emphasized. The aim is to give the student a knowledge of the farm business as a whole in order to develop managerial ability for successfully operating a farm as a unit.
2. Production practices will be emphasized. Instruction will be given on methods of (1) producing crops and livestock more economically; (2) increasing yields per acre and per animal of standard varieties and breeds; (3) producing higher quality products for local and general markets; (4) crop rotation and other soil improvement practices and (5) preserving forest, game and other natural resources on the farm. The "3 to 1" corn contest, the cotton standardization program, the use of more certified seeds for planting projects and forest thinning projects will be included in the program for the year.
3. Emphasis will be given to cooperative marketing in order to develop the ability of the student to appreciate the advantages of cooperative marketing and develop leadership to manage same.
4. Continued emphasis will be given to developing the ability of the student to utilize the economic returns of the farm to the end of high standards of living. Special emphasis will be given towards developing the ability of the student to (1) select, purchase and construct useful home conveniences; (2) beautifying the farmstead and (3) using leisure time more profitably.

To help accomplish the job of emphasizing the four phases of the work just outlined, the local program follows:

1. Instruction on outlook information on:
 - (A) Crops: Cotton, tobacco, corn, potatoes (Irish and sweet), peanuts, soy beans.
 - (B) Livestock: Hogs and poultry: probable market conditions; relation between supply and price; business conditions; competition with other regions.
2. Instruction on the selection of the follows:
 - (A) Equipment: Riding cultivators self feeds (poultry and hogs), brooder houses and brooders, laying houses, hog houses and spraying equipment.
 - (B) Value of cropping systems: Rotate feed crops, money crops and soil improvement crops so as to bring the best results to the farmers; enlarge fields where possible; encourage turning under legume crops.
 - (C) Livestock—Breeds: (1) Hogs: Duroc Jerseys, Poland China, Hamp shire; (2) Dairy cattle: Jersey and Guernsey; (3) Beef cattle: Aberdeen Angus and Hereford; (4) Sheep: Hampshire and Shropshire (emphasis on pure bred sires); (D) Poultry: S. C. Rhode Island Reds, Barred Plymouth Rocks and S. C. White Leghorns.
3. A live-at-home program for the students home farm. (a) Food and feed crops to be added or improved such as: increase and improve orchards, and year round gardens; increase small grain production; produce sufficient food and feed crops to take care of farm needs; increase use of certified seed grown in N. C.; establish and improve pastures. (b) Livestock to be added or improved such as: one cow per farm family, hogs and poultry for home use and a surplus for market; sheep on some farms, and beef cattle where profitable.
4. Latest improved production practices to be taught on the following crops: Cotton, tobacco, corn potatoes (Irish and sweet), peanuts and soybeans. (a) List of special practices to be emphasized: use of N. C. certified seed, ridge method of cultivation of tobacco, sweet

potato curing and storage, better cultural methods for important crops, insect and disease control, and the use of experiment station recommendations.

2. Instruction to all students in the corn and cotton communities on the methods of production in the "3 to 1" corn contest and the "bale per acre" cotton contest.
3. All students to receive instruction on the practices of livestock and poultry.
4. Instruction on the value of certified seed and community standardization of varieties.
5. Crop rotation for the community.
6. Special emphasis on the preservation of forest, game and fish.
7. Instruction and application to local mutual exchange or other community cooperative.
8. Study of home conveniences used in the community. Basis for selection of lighting systems, water systems, sewage systems, refrigeration and furniture and house furnishings.
9. Study of best arranged local farmsteads.
10. Instruction of all students in the following activities: Young Tar Heel farmer organization, educational tours, athletics, socials, father and son banquet, etc.

ROOSEVELT TO MEET NORRIS

dressed the crowd.

Roosevelt repeated a declaration has made several times during the campaign that he was not "directing the fight against the rank and file of the Republican party, but against the leadership."

"There has been more clean, solid American thinking during this campaign than ever before," he concluded, "whichever way the election goes on November 8 I am sure it will be an intelligent election."

Moving East from Denver, the Roosevelt special will stop at Brush, Akron, and Wray, Colo., before

reaching McCook, in southwestern Nebraska. After his speech at McCook, about 5 p. m., the nominee's special will go on to Omaha, via Hastings and Lincoln.

Omaha will be reached Thursday morning for a stop of more than two hours.

From Omaha the nominee will go up the Missouri River to Sioux City, where the fourth of his major speeches on this trip will be delivered. The others were at Topeka, Salt Lake City, and Portland.

The Iowa city, which is just across the Missouri River from South Dakota, will be reached Thursday evening. The time of the speech is about 8 p. m. After it is finished, Roosevelt will entrain for Milwaukee and the weekend at Chicago.

In the car they found six rifles, four pistols, a revolver and a quantity of ammunition.

Representative Miguel Angel Aguilar, who participated in the unsuccessful revolt against the Machado government in August last year, was wounded four times in a third shooting. Although in serious condition, he is expected to live.

Police closed all roads leading out of Havana in the hope of capturing the slayers. Airplanes began a patrol of the coast looking for small boats in which they might try to escape.

Cashier Oglesby expressed opinion the job was done by professional safe-crackers, but that the modern vault, containing burglar-proof features, presented such a problem that the yeggs decided not to attempt to enter it.

A complete check-up of the bank was made this morning but the only thing missing was the pistol which is kept by bank employees as a protective feature.

It was impossible to say what time the attempted robbery occurred but it was believed to have been

during the early morning hours when the citizenship was sound asleep.

"I Had To Take Some Kind of a Laxative Every Day," He Says

"Sargon Soft Mass Pills Regulated My Bowels Perfectly."

"I suffered with chronic constipation for twenty years. I finally reached the point where I had to take some kind of a laxative every day, but all they did was to purge my bowels and help me for the time being. Sargon Pills brought me my first and only lasting relief. They regulated my bowels perfectly. I don't believe there is another laxative like them in the world."—M. F. Harwood, 79 Lenox St., Rochester, N. Y.

"I No Longer Have To Dose Myself With Harsh Purgatives"

Will Always Bless the Day She Started Sargon Soft Mass Pills.

"For the first time in six years I don't have to dose myself with harsh purgatives. All my troubles with constipation and biliousness were ended by Sargon Pills. My skin has changed to a clear, healthy color. These pills are different from any other laxative I have ever used. I'll always bless the day I took a friend's advice and started taking them."—Mrs. A. S. Thomas, 331 Lime Ave., Long Beach, Calif.

He Never Has To Take Laxatives Of Any Description

Used Cathartics Almost Daily Before He Took Sargon Pills.

"For more than ten years I suffered from constipation and an inactive, torpid liver. I had to take some sort of laxative or cathartic almost every day. It has now been thirty days since I took Sargon Soft Mass Pills, and I no longer find it necessary to take pills or laxatives of any kind, for I am perfectly regulated."—Thomas C. Matthews, 1441 Waco Street, Denver, Colo.

Is Now Perfectly Regulated First Time in 15 Years

Was Continually Taking Medicines Without Lasting Benefits.

"I was continually taking physics and laxatives but could find nothing to ease my dreadful constipation. Thanks to Sargon Soft Mass Pills I now, for the first time in fifteen years, have regular and thorough bowel eliminations. This is the only laxative I ever used that works naturally and easily without the least griping or upsetting effects."—Mrs. Ella Warner, 841 E. 32nd St., Portland, Oregon.

MARKET REPORT

Sell Your Tobacco in Greenville FOR MORE MONEY

It is very important that you keep your tobacco dry during this soft weather. Many farmers are tying their tips without grading. Let us urge that you separate your green, black and reddish-brown leaves from your bright tobacco, and market it in the best possible condition.

Greenville is unquestionably the highest market in Eastern Carolina and the buying competition is keener in Greenville than on any other market. We know of a farmer who split his grades last Friday selling part in Greenville and part on another market. The better grades sold for 20c per pound more in Greenville and all the other grades brought more money here. It is mighty easy for you to lose from \$50 to \$100 in one load of tobacco at present prices, if you fail to take advantage of the best market in Eastern Carolina.

Sales Friday were the highest of the season, although the market was again flooded with common black and green tips. A few of the better grades showed up and the readily brought from 55c to 65c per pound.

Now that most of the cotton is picked, attention will be turned marketing the tobacco. A great deal of tobacco reaches the market after sale time. Let us suggest that you bring it in earlier in order to avoid any rush.

Market Report Cotton--Stocks--Grain

New York Cotton

New York, Sept. 23.—(AP)—Cotton futures opened steady, 3 to 6 points higher in response to higher Liverpool cables and continued rains in the South.

Early demands were not particularly active, but December sold up to 7.50 during the first few minutes, making net advance of about 6 to 7 points. This met some Southern selling and offerings increased slightly on a less unfavorable weekly weather report than anticipated combined with expectations of increased hedging toward the end of the week. Prices eased a few points from the best, but the market was fairly steady at net gains of 2 or 3 points at the end of the first half hour. Liverpool cables reported local and foreign buying on the Southern rain news and said the demand for cotton cloth was broadening.

POLICE RAID MANY BARS IN KANSAS CITY TODAY

(Continued from Page One)

W. L. Vandeventer, U. S. district attorney for western Missouri, disclosed that the preparations for the raids had been two months in the making and that the blow against prohibition law violators had been struck as a climax of carefully laid plans approved by Attorney General William D. Mitchell.

Vandeventer separated from the others the names of approximately 84 of those held and said they were operators and employes of the saloons against whom charges would likely be filed. The patrons, he said probably would be used as witnesses.

Most of the frequenters of the places who were caught by the 100 raiding agents, all but a few of whom were brought in from outside Kansas City, were released after being detained a few hours in the saloons and night clubs.

The district attorney said he had planned the raids after a conference with Attorney General Mitchell in Washington several weeks ago.

manager of the Fajardo Sugar Company, who arrived here late last night after spending eight hours traveling thidly miles, said all the towns between Fajardo and Carolina, half-way to the capital, were destroyed and half the plantation houses blown down.

The death list at Fajardo was 39 when he left there, he said, and he saw about 100 bodies along the route from Fajardo to Carolina. He said he could imagine thousands killed in the districts through which he passed.

All government offices were instructed by the governor to open for business as usual today. "We must have everybody go to work," he said, "as though nothing had happened—only more so."

Communications were so crippled that complete information on what parts of the island were hit by the storm was still lacking today.

GOVERNMENT NOT TO PRESS COLLECTION OF FARM LOANS

production loans without incurring grave risk of need during the winter."

On September 14, Secretary Hyde said he had been authorized by the president to say the agriculture department would not press for collection of its feed and seed loans until Congress had an opportunity to act.

The White House statement today said this order had not solved the difficulties in all localities, since it had been construed as meaning that a claim remained upon the crop, preventing the marketing of any part of it.

After further consultation with the president, the statement added, Secretary Hyde has issued a new order to accept from farmers 25 per cent of the amount due, and upon receiving such payments, to
