

PREPARE CODE FOR BITUMINOUS COAL INDUSTRY

Government Plans Great Canvass Of Stores Next Week

EVERY PHASE OF BUSINESS TO BE VISITED

Hugh Johnson Will Seek to Place NRA Emblem in Every House and Store in the Country; Administration Leader Plans to Retire Later Part of Year to Rejoin Bernard Baruch

Washington, Aug. 21—(AP)—The recovery administration is jubilant over its success with steel and oil and today modeled a code of fair competition to bring the great bituminous industry quickly in the NRA widening circles.

At the same time Hugh S. Johnson, NRA chief, prepared his side for the big drive. The house to house, store to store canvass that starts next week with the objective of placing the Blue Eagle in every window and insuring victory for President Roosevelt's re-employment campaign.

Johnson, it is learned authoritatively has tentatively fixed mid-November or the end of the year at the latest to retire from the post he holds. By then he expects his emergency work to be a success. He plans to return to private industrial life as associate of Bernard Baruch with whom he has worked since World War days.

A permanent administrator will carry on in his place. As soon as President Roosevelt had approved a code for steel and oil late Saturday, Johnson and his aids turned immediately to the coal, a stumbling block for weeks. When a committee of 15 coal operators were unable to agree again yesterday, Johnson started writing his own code to be presented to them today. The coal men will be able to suggest and maintain his charter but they will not be permitted to renew their wrangling.

TWO INJURED IN AUTO WRECK

Cliff Worthington and Son Painfully Hurt in Collision Saturday Night

Cliff Worthington was painfully injured and his 8-year-old son suffered severely from shock and bruises when their automobile and another machine driven by Arthur Smith collided at the corner of Ninth and Reade streets Saturday night.

Worthington received a two-inch cut on the head but his son escaped with a few bruises and shock. Smith was not injured.

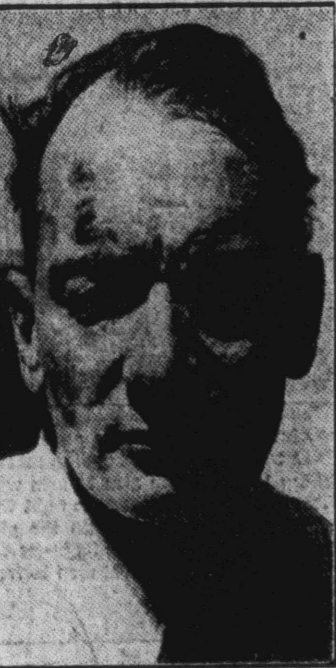

Worthington was going down Reade street toward the heart of the city and Smith was riding east on Ninth street when the collision occurred.

Worthington and his son were rushed to the hospital where they received medical attention. While their injuries were painful, they were not considered serious. Worthington's automobile was badly wrecked but Smith's was damaged only slightly.

ARTILLERY UNIT PRAISED

Greenville National Guardsmen Win Recognition at Annual Encampment

The local unit of 113th Field Artillery, North Carolina National Guard, who have won considerable recognition in annual encampment the last several years, are attracting attention at camp again this year.

This information was revealed yesterday by Commander Herbert Waldrop, who with several other members of the company spent the week-end here with relatives.

Commander Waldrop said the artillerymen were congratulated upon their fine showing by the colonel in command last week. In addition, the unit was accorded the honor of having the finest kitchen in camp, obtaining the highest rating of between 95 and 100 per cent from daily inspections. The reason for this distinction is because the boys, who appreciate sanitation and speed in the kitchen, carried with them two civilian cooks whose duty it is to prepare meals and keep the kitchen as spick and span as possible.

A part of last week was spent on the firing range. Commander Waldrop said, and his men made an excellent showing. This week will be confined to field work and athletic events with more honors expected to come to the Greenville unit.

In addition to this, the commander said, all members of the unit were in fine physical condition and looking forward with interest to the concluding features of the week. He stated they were all well and in the best of spirits in spite of the grueling tests they are put through each day.

WEDNESDAY IS BOOSTER DAY FOR THIS CITY

Last Day of Half Holidays to See Final Scheduled League Game Here

With the Wednesday half holidays coming to a close this week, the day has been set aside as "Booster Day" for Greenville with an effort being made to get the largest attendance of the season to Third street school grounds to see the local club tackle Kinston in the last game to be played on the home grounds this season.

Members of the ball club, supported by other organizations of the community, were pushing plans forward rapidly this morning in the hope of making "Booster Day" one of the greatest of its kind in the history of the ball club. This can be done, they said, if everybody enjoying a half holiday Wednesday will attend the game and help boost the local club to victory.

Greenville today had a two game lead for the circuit flag and with the league coming to a close August 28, every effort will be put forth. (Continued on Page Two)

COREY WAS NOT FOR SALES TAX

R. L. Powell Gives Attitude of Pitt Senator On N. C. Three Per Cent Tax

A. B. Corey, state senator from Pitt county during the last legislature, opposed the three per cent sales tax now operative in North Carolina. R. L. Powell, secretary of the Chamber of Commerce of this city, said today in a statement seeking to set merchants straight on the matter.

The statement came following impression developing among some business men that Senator Corey favored the tax and actually voted for it.

"We are glad to say," said Powell's statement, "that Senator Corey was among those opposing the bill on all three readings."

The statement in its entirety follows: "Some of the merchants and business house in Pitt county are under the impression that Senator A. B. Corey voted for the sales tax in the last legislature. We are glad to state that Senator Corey opposed the sales tax on all three readings. On May 9th, the first day the conference report was submitted we find Senator Corey voting No for the report which contained 3 per cent general sales tax. On May 10 the second reading Revenue Bill passed in the Senate but Senator Corey's name was among those opposing the bill. The third and final (Continued on Page Two)

Late News Flashes From Over World

Communists After NRA Head

Washington, Aug. 21—(AP)—A special guard was placed on duty at the Commerce Department today after officers said they had received reports that a group of communists were on their way from Baltimore to call on Hugh S. Johnson.

Department of Justice Agents first took up the information that the group was coming from Baltimore wharves and was composed largely of longshoremen and other workers. The guard was requested with intent of preventing entrance of the party into the Commerce Department until it was determined whether or any untoward demonstration was planned.

Four-Point Program For Cotton

Washington, Aug. 21—(AP)—A four-point program to aid cotton prices to farmers was laid before Secretary Wallace today by a delegation of members of Congress from southern states headed by Senators George and Russell of Georgia.

Members of the delegation asked that the Department of Agriculture speed up announcement of an acre-

ment until it was determined whether or any untoward demonstration was planned.

Twenty-Two States Have Voted in Favor of Eliminating 18th Amendment

Washington, Aug. 21—(AP)—Prohibition could be voted out of the constitutions by November 8.

Twenty-two states including Missouri in Saturday's election, already have given ballot approval to the 21st constitution amendment which repeals the 18th. None has voted the other way.

Texas will decide Saturday whether it should join the unbroken line of states voting for repeal or head a revolt in the other direction.

SIX DROWNED AT SEASHORE

Northeaster Turns Atlantic City Seaside Into Veritable Death Trap

Atlantic City, Aug. 21—(AP)—Six persons were known to have been drowned during a terrific northeaster that lashed the Jersey coast yesterday suddenly tossing a comparatively calm sea into a fury, catching scores of fishing crafts off guard.

Coastguards men wrote further rescue history against great odds but feared another half dozen crafts including the Gertrude may have perished.

The boat was the only one unreported this morning of all those known to have been at sea when the storm broke.

REPEAL LINE IS UNBROKEN

Washington, Aug. 21—(AP)—Prohibition could be voted out of the constitutions by November 8.

Twenty-two states including Missouri in Saturday's election, already have given ballot approval to the 21st constitution amendment which repeals the 18th. None has voted the other way.

SHEPPARD RALLIES TEXANS IN DRIVE TO BEAT REPEAL AS AUGUST 26 TEST NEARS

Texarkana, Tex., Aug. 21—(AP)—Declaring his confidence that Texas will block repeal, Senator Morris Sheppard, co-author of the Eighteenth Amendment and "little Napoleon" of the dry forces, has launched a whirlwind campaign to keep his state from joining the anti-prohibition parade.

"If Texas will vote dry, other states will follow," Sheppard said, addressing an open-air gathering. "We need only 13 states to keep America from undoing the work we did back in 1919."

Traveling in his own sound truck the little gray-haired Texan opened his fight against repeal at Hughes Springs, a village in the piney hills of East Texas.

All through the August heat the senator has been speaking two or three times daily, following a schedule calling for speeches in each of the state's congressional districts before the election August 26.

Tossing aside his coat and mopping his perspiring brow, Sheppard displays the determination of a crusader against the foe he believed he had conquered 14 years ago.

Misses Eloise and Maria Garrett Hurt Near Conway; Negro Driver Killed

CODE FOR LEAF HOUSES FIXED

Government Expected to Approve Warehouse Agreement Sometime Today

The committee from the Eastern Carolina Warehouse Association which conferred with representatives of the National Recovery Administration at Washington the latter part of last week regarding a code for the industry has returned.

A code regulating the rate of pay per hour and number of hours to the week along with an agreement on fair competition was arranged and was expected to receive the approval of the administration sometime today.

The code will become effective tomorrow, according to the agreement at the Washington meeting.

The committee was composed of the most prominent members of the warehouse industry in this great bright leaf district, and its members today expressed themselves as highly pleased with the rapid manner they were able to complete the work.

All warehouses of the bright leaf belt will be governed by the provisions of the code which is in keeping with efforts of the federal government to increase pay and employees and shorten working hours as well as improving the spirit of competition.

Brown Calls Meeting To Talk Tennis

The meeting called for last Thursday to discuss the proposed tennis courts, located back of the football field on the Third street school property, was a big flop. These courts are under construction and the purpose of the meeting was to determine the number of tennis lovers in Greenville, their interest in having some court built, and what aid they could lend. The fact that the meeting fell flat and did not prove that there is no tennis enthusiasm in Greenville, for maybe the fact that the meeting was not advertised kept many who would have liked to come, away.

Bill Brown calls another meeting upstairs at the Sheppard Memorial Library Tuesday night. All the boys and girls and young men and women of Greenville are invited to come at 8 o'clock promptly. Come on, let's put this thing over.

RESIDENTS CLOSE HOMES AGAINST WIND

Business is Resumed Today in Spite of Wind Reaching Velocity of 60 Miles an Hour; Weather Department Issues Storm Warning From Boston to Cape Hatteras

Hamilton, Bermuda, Aug. 21—(AP)—Bermuda waited apprehensively today to see what course would be taken by a tropical hurricane last reported at 4 a. m., 100 miles southwest of the island and moving northwest.

All day yesterday residents of the island stayed in their homes the windows of which were locked and barred. Today, however, business was carried on as usual. The wind reached a velocity of 60 miles and hour last night and did not abate when dawn came.

Washington, Aug. 21—(AP)—The weather bureau this morning issued the following storm warning:

"Advisory 10 a. m., storm warning ordered from Boston to Cape Hatteras. Tropical disturbance of great intensity 160 miles west of Bermuda moving north westward with high pressure areas in New England and the lakes region, while strong north east winds probably reaching gale force in the late night or Tuesday forenoon Delaware breakwater both to Boston and strong northeast winds shifting to the north late tonight or Tuesday forenoon south of Delaware to Cape Hatteras.

"Caution advised vessels off the coast.

"Another tropical disturbance probably of light intensity possibly attended by strong winds in general portions about 250 miles southwest of Jamaica apparently moving west."

CIVIL COURT BEGINS HERE

Two Week Term of Superior Court to Consider Civil and Criminal Cases

With Judge J. Paul Frizelle of new Hill, presiding, a two-week term of superior court convened in this city this morning at 10 o'clock. The term is for the hearing of both civil and criminal cases, the first week being confined to civil actions and the second to criminal.

The calendar for the civil term contains forty or more cases and every effort will be put forward to clean the slate by the end of the week.

The civil docket, always congested, will have plenty of work but the majority of actions are of a minor nature and are expected to consume only slight time in disposition. The highway robbery charge against four men alleged to have shot Raymond Collins in a holdup of his filling station at Hanshan's Cross roads several weeks ago is by far the most important case of the second week, although one or two murder charges involving colored people were to be given consideration.

This is the first term of superior court for Greenville since May and while large crowds were expected each day, the largest of all will come next week when court begins airing some of the prominent criminal cases.

Underweight Children Need More Iron in Their Blood!

Children who are thin and pale and who lack appetite are usually suffering from a deficiency of iron. When the blood lacks iron it becomes thin and poor and fails to nourish. Then a child loses appetite and becomes still thinner and weaker—and easy prey to disease!

To build up your child, give him Grove's Tasteless Chill Tonic. It contains iron which makes for rich, red blood. It also contains tasteless quinine which tends to purify the blood. These two effects make it an exceptional medicine for young and old. A few days on Grove's Tasteless Chill Tonic will work wonders in your child. It will sharpen his appetite, improve his color and build up his pep and energy and increase his resistance to disease. Grove's Tasteless Chill Tonic is pleasant to take. Children like it and it's absolutely safe for them. Contains nothing harmful. All stores sell Grove's Tasteless Chill Tonic. Get a bottle today and see how your child will benefit from it.

AYDEN WINS 11 TO 6 GAME FROM LEADERS

The Ayden-Greenville game last Saturday is a sad, sad story but has to be told.

With the Greenville club leading the league by three games, the second place Ayden outfit staged a jamboree here and when the score-keeper had finally obtained the aid of an adding machine the totals stood Ayden 11, Greenville 6.

That boy Stankus with the funny sound name was the cause of the league leaders meeting their Waterloo. He pitched a brand of ball that would have won in all games with the kind of batting his teammates backed him up with. It was truly an Ayden day and gave Ayden folks the long desired chance of testing their vocal chords. And did they test them?

Anderson started on the firing line for Greenville and yielded up eleven hits in the six innings he was doing the flinging. Bob Forbes was sent to his relief and with four more hits Ayden was able to add two additional runs to their score.

Ayden scored three runs in the first frame, one in the fifth and put the game on an iceberg in the sixth with five tallies.

Greenville scored one in the sixth, one in the seventh, four in the eighth, and might have done something else in the ninth but the last inning rally that resulted in winning five games in a row during the middle of the season failed to materialize. In fact, Lady Luck, the most fickle of her sex, hid her face completely during the afternoon and failed to smile upon the efforts of the leaders.

Bettie, Smith and Rogers did the heavy hitting for Greenville, each accounting for two safeties. Lambeth led the Ayden club with a total of three hits, one going for two bases. One of Rogers' drives went for three bases.

Ayden players accounting for two each were Wall, Bradley Autry and Brogden.

The box score:

Why—

You're always saying Chesterfields taste better

— I wish you'd tell me why

Well, I've worked in tobacco; I've manufactured cigarettes... and I'll tell you why Chesterfields taste better.

For a cigarette to have a good taste, it must have first the right kind of Domestic tobacco. This means ripe, mellow, sweet tobacco, filled with Southern sunshine. Then, blended and cross-blended with this tobacco there must be the right quantity of the right kinds of aromatic Turkish tobacco... tobacco that has a pleasing flavor and aroma.

Aroma, as you know, adds to the taste. It's just like the pleasing aroma from certain foods. It makes the food taste better. It makes the cigarette taste better.

Then again, for a cigarette to have good taste, it must be made right. The size, the cigarette paper, everything about it must be right.

Just try Chesterfields.
