AMERICA AND JAPAN EXCHANGE PEACE PLEDGES

Goodwill Notes Between Powers Are Made Public

JAPAN SAYS SHE WILL NOT MAKE TROUBLE

Secretary Hull Replies to Nippon Government Note Declaring U. S. Has no Intention of Creating Strife With Any Other Country; Exchange is the First During Roosevelt Administration

Washington, March 21.—(AP)—The United States and Japan "shook hands" across the Pacific today in a significant exchange of notes mutually pledging peace. Kyojo Hirota, foreign minister of Japan, in a formal note to the Roosevelt administration diplomatic corps here, asserted the Nippon government has no intention to provoke and make trouble with any other power. Secretary Hull, scanning reported war clouds in the Far East, based on strained relations between Japan and Soviet Russia, replied: "I received this statement with special gratification. I am glad to take this opportunity to state categorically that the United States on its part has no desire to create any issues and no intention to initiate any conflict in its relations with other countries. The Hirota-Hull exchange was the first since passage of good will notes since President Roosevelt took office more than a year ago. The notes were revealed simultaneously to the press at the State Department here and in Tokyo.

PREPARE FOR SUMMER TERM

College Here Announces Same Plan Will be Followed as Previous Year

The summer school of East Carolina Teachers College will be conducted this year according to the plan followed last summer and previous summers. There will be two terms of six weeks each, the first term beginning on June 12, and the second on July 18. It will again be under the able directorship of Dr. L. R. Meadows, who has been director for the past twelve years. Students may register for either term or both, getting full credit for the time. Most of the courses will be organized so that each unit of work will be completed in one term. In each course the classes will meet daily instead of three times a week, as in the usual term. This plan is far more convenient for the summer, especially for teachers and students, who do not wish to spend their entire summer in college and yet feel they cannot afford the long vacation. It also gives the administration more margin for adjustment of courses and the teaching staff. Athletics and summer sports will be an attractive feature for the students this summer. The tennis courts will be sufficient to give all the students a chance to play. Plans are being made for summer baseball, as the indications are now that there will be a larger number of boys than usual. Everything new points to a much larger summer school than for several years.

Court action in San Mateo, Cal., revealed the Buri Buri rancho, which included the entire San Francisco peninsula in Spanish California days, had dwindled to a single acre.

NAME TRADE COUNCIL HERE

Retail Business Involved in Appointment by National Retail Trade Body

By authority of Article X, Section 2 (e) of the Code of Fair Competition for the Retail Trade, as approved on October 21, 1933, by Franklin D. Roosevelt, President of the United States, and under regulations approved by Hugh S. Johnson, Administrator for Industrial Recovery, on December 9, 1933, a Retail Trade Council for Greenville has been appointed by the National Retail Trade Council. The local Retail Trade Council shall, however, receive requests for exceptions from retailers and forward such requests, with recommendations, to the Administrator. The Administrator, after consultation with the National Retail Trade Council, will grant or deny such requests. The local Retail Trade Council does not have the power to grant exceptions but may arrange for conferences to be held where matters of complaints may be filed and scheduled for consideration. The following men have been appointed to serve for one year, or until their successor has been duly appointed, and will represent their respective trades at the council meetings: L. A. Stroud, (chairman) retail furniture division; S. T. White, limited price variety stores division; E. T. Meeks, hardware and paint division; B. S. Warren, retail drug division; Ed Batchelor, retail clothing division; B. D. Johnson, retail shoe division, and O. P. Matthews, retail dry goods division. In the near future the N. R. A. will issue exclusively to retailers who have paid their assessments the special "Retail Governmental Insignium" that is to replace the present "Blue Eagle." This will be issued by the National Retail Council authority through R. L. Powell, local secretary of the Greenville Retail Council.

COMPLETE FIRST BOAT BUILT IN ELIZABETH CITY

Columbia, March 21.—A. H. DeMary and his son just have completed the first boat to be constructed here; the building of it began in 1933 and it was finished a few weeks ago.

The boat which is named the "Ethel DeMary of Columbia" has a 75 h. p. steam engine and a speed of nine to ten miles per hour. It will carry a load of 100 tons and is 64 feet, eight inches long. A freight line is planned by Mr. DeMary to run from Plymouth each week and in the summer to run once a month to Baltimore.

EGYPT SCANS HORIZON FOR SAM INSULL

Port Said Virtually Abandons Hope of Visit From U. S. Utilities Czar.

Port Said, Egypt, March 21.—(AP)—Long range telescopes were trained patiently on the horizon today and radio messages were sent out intermittently in Port Said's second afternoon vigil for the appearance of Samuel Insull. A glass capable of spotting his ancient little craft of the seas, on Malotis, two and a half hours out, was mounted on a roof. This, however, like other angles of the search proved fruitless. Meanwhile, numerous individual concerns continued incessantly their efforts to get in touch with the former American utilities operator by wireless. All messages flashed from here went unanswered. So far as Port Said is concerned the operator on the Malotis was silent. Late today, it was the consensus that the Malotis need be expected no longer at Port Said if this vessel in which Insull is seeking a new haven from extradition to the United States failed to put in here tonight.

LAND SUIT IN HANDS OF JURY

Decision in Simmons vs. Williams Case Expected During Late Afternoon

The land controversy between A. J. Simmons of Bethel, and J. L. Williams of Greenville, was still being weighed by a civil court jury here today. The case was begun when court opened Monday morning, and was received by the jury yesterday afternoon about 5 o'clock. The suit centers about a piece of land in the Bethel territory which Simmons turned over to Williams as security for a loan of \$500 in 1932. Simmons, who had a life estate in the property, promised to pay Williams January 1, 1933, and agreed if he did not pay by that time, Williams should use the farm for two years. Simmons failed to pay and last year Williams farmed on the property. He was planning to use the land again this year but was halted by the filing of a suit by Simmons, who claimed Williams made enough on the property last year to pay the indebtedness. Williams claimed there were so many debts to be settled on the property that he was unable to make as much as Simmons claimed. In the agreement Simmons was said to have turned over to Williams the deed for the property. Whether the deed may be considered a mortgage is one of the issues the jury has to settle.

TWO INDICTED FOR AUTOMOBILE DEATHS

Asheville, March 21.—(AP)—The Buncombe county grand jury today returned true bills of indictment against John Dryman and B. R. Adams, charging Dryman with murder in connection with the death of Ralph Robinson in an automobile accident and Adams with manslaughter in connection with the death of Louis M. Bourne, prominent Asheville attorney.

Seven Perish In Tenement Fire in N. Y.

New York, March 21.—(AP)—Seven persons perished today in tenement house fire on the Upper East Side bringing to 25 the number of deaths from similar fires in the last six weeks. The fire swept through the upper floors of an old law tenement at 1909 Second Avenue and trapped a mother and her daughter, a father and his son and three others in the building. A great loss of life was prevented by the presence of a balcony fire escape leading to adjoining tenement. Sixteen families lived in the building.

Late News Flashes From Over World

Roosevelt Confers With Auto Men Washington, March 21.—(AP)—President Roosevelt conferred this afternoon with representatives of automobile manufacturers in an attempt to adjust the labor disputes in this industry which threatened a strike. Earlier representatives of railway labor had agreed to the appointment of Joseph Eastman, federal rail coordinator to arbitrate the wage controversy. They refused a proposal by President Roosevelt that the present wage scale be continued for another six months. Railway managers had agreed to this. Eight spokesmen of the automobile manufacturers who have been firmly resisting unionization of their plants by the American Federation of Labor, went into the White House conference room. Mr. Roosevelt who was reported to have a proposal in mind for settlement announced at the meeting began what he wanted to hear all that was to be said. (Continued on page six)

PUSH WORK ON BIG POOL HERE

Pouring of Concrete Commenced on Municipal Recreation Center

The pouring of concrete on Greenville's municipal swimming pool was under way today with indications that the pool will be ready for business by May 1. The driving of piles for the foundation of the new \$29,000 project, including a culvert for drainage of the area, was completed the first of the week and it was hoped to have everything in ship-shape by the date set for its completion. The pool is being built through funds provided by the Civil Works Administration and the city and when completed will be one of the finest projects of the kind to be found in this part of the state. It will be completely equipped with bath houses and lockers and other features that go into the making of an up-to-date recreation center of the type. The pool will be sufficiently large to take care of the demands of the city for years to come, it was said by members of the committee in charge of building, and lovers of this kind of port may rest assured of having plenty of room for performing their aquatic stunts. Mayor R. C. Flanagan announced several days ago that sufficient had been obtained from the college to provide a park adjoining the swimming pool site. He said that both the park and pool would be ready for operation by May 1. The park will be located on a hillside overlooking the pool. It will be electrically lighted so that people may frequent it at night. Ample seating accommodations will also be provided to take care of the hundreds of people expected to visit the place from day to day.

GREENSBORO TO HAVE NEW OVERALL PLANT

Greensboro, March 21.—(AP)—A new overall factory for Greensboro, employing approximately 300 workers, was in prospect for Greensboro today. M. H. Zauber, who recently resigned as general superintendent of the Blue Bell Overall Company here, and a group of associates have purchased a location and laid plans for the new enterprise. They expect to have the plant in operation by May 1 and said it would represent an investment of \$100,000.

Roosevelt To Confer On Car Strike Today

Washington, March 21.—(AP)—President Roosevelt will confer late today with representatives of automobile manufacturers in a move to end the labor dispute which threatens strike action.

LEGION POST CELEBRATES ITS BIRTHDAY

Endorse Efforts of Congressmen to Get Cash Payment of Compensation

Members of the Pitt County Post of the American Legion last night celebrated the fifteenth anniversary of the Legion and heard talks dealing with the early history of the national organization. They also listened to other talks regarding the educational situation in the state and nation and the Legion's plans and efforts to aid education. Reports from various committees were adopted and a resolution was approved endorsing action of North Carolina congressmen who voted in favor of immediate cash payment of ex-soldiers' adjusted compensation certificates and urging continued effort to see that the legislation is carried to successful completion. The meeting was attended by more than sixty members of the post and J. H. Rose, commander, presided. Dr. A. M. Schultz told of the early history of the Legion. He dealt with the original caucus in Paris, the following one at St. Louis and finally the Minneapolis convention in 1919 when the permanent organization was perfected. D. C. Moore, Jr., gave a brief history of the Pitt County Post from its organization in 1919 until the present time. A. D. Frank, of the college, talked on the educational situation in the state and nation, urging the Legionnaires to get behind the educational program in the state, help place North Carolina on par with other states and enable the children to receive the proper training to fit them to compete with children of other states. Commander Rose called attention to the appearance here April 2 of Dean Frank Miller, of Duke University, who will speak both afternoon and night. A report from the recently appointed committee to look into the tubercular situation disclosed that the citizens' committee is already at work in an effort to provide a sanatorium for the county and that progress has already been made. The committee is working in conjunction with the citizens' committee so there will be no overlapping of effort. F. A. Bendall, of the memorial building committee, stated that an available site for an American Legion home could be secured and that if funds could be obtained through the new Public Works program the Legion home would be built. Post members of Carolina township through M. H. Whitchard of Stokes, extended an invitation for the Legion to be guests of the members of the Stokes community at the next regular meeting. Announcement is to be made later. On motion of A. B. Corey, the post endorsed the action of North Carolina congressmen in voting favorably for immediate cash payment of soldiers' adjustment compensation certificates, and urged that efforts be continued until this legislation is carried to a successful conclusion. A committee was named to draw up a suitable resolution on this motion and forward same to every member of the North Carolina delegation in Congress.

ATTEMPT LIFE OF PRUSSIAN

Premier Goering Believed Object of Grenade Which Explodes in Berlin

Berlin, March 21.—(AP)—An attempt to assassinate Premier Hermann Wilhelm Goering of Prussia was rumored today when a hand grenade exploded in the fashionable boulevard Unter Den Linden shortly after Goering's automobile was said to have passed. A taxi driver was injured in the explosion. The grenade shook windows all over the district. It was tossed near the corner of Unter Den Linden and Heneue Wilhelmstrasse hitting the passing taxi. With Goering in the car was said to have been Karl Ernst, Nazi group leader.

NEW TRAILS FOLLOWED IN BIG SPY RING

French Police Report That New Arrests Are Expected Any Time Now

Paris, March 21.—(AP)—French secret police were hounding new trails today in their broadening investigation of what authorities called the greatest spy ring in history—a ring they say ferreted out naval and military secrets of the United States, England and France. Fresh angles were uncovered in the first examination of documents seized yesterday when six persons were arrested as result of what authorities said revelations drawn from two American prisoners, Robert Switz and his wife Marjorie. Judge Andre Benon, the investigating magistrate, made a further scrutiny of the confiscation today. Additional disclosures were expected. Police said more arrests are in prospect. Perhaps as many as 25. However, they maintained the utmost secrecy regarding those under suspicion.

POSTMASTER APPOINTMENT HERE DELAYED

Washington, D. C., March 21.—Although the term of the postmaster at Greenville expires on March 22nd, Representative Lindsay Warren has been informed by the Civil Service Commission that it will require many weeks before the eligible list is established. The Commission is now holding several thousand examinations through out the country and it takes a long time to grade the applicants. Eleven candidates filed application for the Greenville position. The Postmaster General will certify to Mr. Warren the first three high on the list, and from these three the appointment must be made.

PROPOSITION TO BE GIVEN TO DISPUTANTS

White House Silent on Plans For Negotiations on the Threatened Motor Strike; Couzens Declines to Discuss President's Plan or Venture Opinion About Dispute

Washington, March 21.—(AP)—President Roosevelt today discussed the automobile strike situation with Senator Couzens of Michigan who said later that the chief executive had a proposition to submit to the disputing employers and employees. Meanwhile word was awaited from railway leaders, as to whether they would join the railroad managers in agreeing to continue for six months the present wage scale. The White House was silent on plans for negotiations on the threatened motor strike. Whether the automobile manufacturers would be called in today or invited to join tomorrow's conference with labor representatives was not made public. Senator Couzens, himself a former automobile executive, declined to discuss the President's plan or to venture an opinion about the dispute.

STREET WORK TO BEGIN SOON

Mayor Notified Resurfacing of Dickinson Avenue To Start In Near Future

Mayor R. C. Flanagan today received a letter from the North Carolina Highway and Public Works commission stating the contract for improving Dickinson avenue had been let and that construction work would probably begin in a short time. The letter also conveyed the information that the contract had been awarded to Brown Paving Company which at the present time is building the Falkland road. The contract calls for the rebuilding of weak places on Dickinson avenue from the A. C. L. depot to Five Points and the resurfacing of the street. A survey of the project was completed several months ago. The letter also informed the mayor that recommendations for the widening of Fifth street from Library street to the city limits had been sent to the Federal Bureau of Public Roads and that a reply was expected soon. It was stated there were bright prospects for early approval of the project. This project calls for the widening of the highway to conform with pavement west of Library street. The mayor was greatly heartened by the correspondence in view of the extensive negotiations that have taken place to put the two projects through.

WORTH PROCTOR GETS ANOTHER EIGHT YEARS

Williamston, March 21.—(AP)—Worth ("Tick") Proctor, described as the leader of widespread criminal activities in Eastern North Carolina, was sentenced to the roads for from eight to ten years here yesterday after he pleaded guilty to a charge of robbing the Harrison wholesale house of \$1,300 worth of cigarettes in 1933. Judge Walter L. Small ordered the sentence to begin after Proctor completes an eight-year sentence imposed in Wake Superior Court a few days.

## FIGURES IN AUTO STRIKE THREAT To Try Out With Reds

Shown above are the leaders on each side of the automobile industry controversy on the outcome of which hinges a possible general strike. The American Federation of Labor, headed by William Green (right), demands recognition of its unions for collective bargaining and denounces company unions. It also asks a wage increase. Alfred Sloan, Jr. (upper left), chief of General Motors, and Walter Chrysler (lower left), head of the company which bears his name, are members of the NRA code executive committee which met in New York in an effort to settle the dispute. Motor companies have said they do not intend to recognize the A. F. of L. as such. (Associated Press Photo)

### FIRST CHURCH OF CHRIST, SCIENTIST

"Substance" was the subject of the lesson-sermon in all churches and societies of Christ, Scientist, on Sunday, March 18.

The golden text was from Isaiah 12:2: "Behold, God is my salvation; I will trust, and not be afraid; for the Lord Jehovah is my strength and my song; he also is become my salvation."

Among the citations which comprised the lesson-sermon was the following from the Bible: "Great is the Lord, and greatly to be praised; and his greatness is unsearchable. All thy works shall praise thee, O Lord; and thy saints shall bless thee. They shall speak of the glory of thy kingdom, and talk of thy power; To make known to the sons of men his mighty acts, and the glorious majesty of his kingdom. Thy kingdom is an everlasting kingdom, and thy dominion endureth throughout all generations." (Ps. 145: 3, 10-13).

The lesson-sermon also included the following passage from the Christian Science textbook: "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Substance is that which is eternal and incapable of discord and decay. Truth, Life and Love are substance, as the Scriptures use this word in Hebrews: 'The substance of things hoped for, the evidence of things not seen.' Spirit, the synonym of Mind, Soul, or God, is the only real substance. The spiritual universe, including individual man, is a composite idea, reflecting the divine substance of Spirit."

**Birth Announcement.**

The board will hear any complaints that the former strikers or mill officials wish to present.

# BEAVER DAM NEW RECORD ON HOME LOANS

## GRANGE MEETS Business and Literary Program Features Gathering First Part of Week

The Beaver Dam Subordinate Grange held its regular meeting in the Arthur school building on Monday evening, March 19. The meeting was opened in due form in the fourth degree with a majority of the officers present. The minutes of the last meeting were read and approved after which the regular session was held, the most important of which probably was decision to order a complete set of regalia and supplies needed in the ritualistic work of the order, and the action of the ruling of the Executive Committee of the State Grange allowing the admission of the entire membership of a local subordinate as a unit into the Pomona or County Grange.

After the business session a short literary program was presented as follows:

Roll call, responded to with an Irish joke. Current events, by Mark H. Smith. Reading history of St. Patrick, by Mrs. O. M. McLawhorn. Irish contest.

The meeting was closed in due form in the fourth degree, after which the refreshment committee served a delightful candy course.

This is one of six hundred such meetings that are held every week-night throughout the thirty three states in which National Grange is organized.

In these meetings the farmer and his family from fourteen up come together to discuss their problems and exchange ideas, as well as enjoy the fellowship and wholesome recreation twice each month. Then there is always the Lecture hour which is the "school out of school" in which the members learn to study the issues of the day and keep posted on these things which are or should be of interest to them. Here is also a wonderful opportunity for experience in public speaking and dramatics.

The Grange is America's oldest farm organization and the only rural fraternity in the world. It is an organization of farmers, by farmers and for farmers. For more than sixty-five years its constructive program for the advancement of agriculture and the betterment of rural life has won hearty approval from the leaders in every avenue of national affairs. President Franklin D. Roosevelt has for a number of years been a member of the Grange and expresses his views in a message written for and read in state in which he said: "The Grange stands as a pioneer in farm organization. It is justly proud of its long and effective leadership in advancing not only the economic but also the educational and spiritual welfare of the farm and the farm home. Your sympathetic interest in the present efforts to restore to agriculture its fair share of the national income, as part of the broad program of reconstruction has been of great help."

If you are not eligible to attend one of these meetings you are urged to inform yourself and make application at once. See some of the members at Bellarthur, Stokes, or Pines, Grange literature can be obtained from Mr. E. S. Vanatta, University of N. C., or from O. M. McLawhorn Pitt County Grange Deputy.

Bicycle riding has become such a fad with winter tourists in Miami, Fla., that local dealers can't keep enough cycles on hand to supply the demand.

## New High Mark Made By Home Owners Bank in This State In Matter of Loans

Salisbury, March 21.—Establishing for the second week a new high record in the number of loans closed and cash and bonds paid out to take up mortgages, the Home Owners' Loan Corporation during the week which ended March 16 closed and made disbursements to take up 170 mortgages on homes, the amount involved being \$384,066.19 as was reported today by Alan S. O'Neal State manager, with headquarters here. Disbursements for the week reported upon carried the total thus far paid out to \$1,175,000.67 and the number of mortgages which have been taken care of by the corporation to 1619.

In his weekly report Mr. O'Neal stated that 113 loans for \$228,583.00 were approved and sent to the legal department for final examination of title. These commitments brought the total number of loans approved and sent to the legal department for final action to 3723 involving a total of \$8,310,549.55. With the exception of the loans already closed and paid out, Mr. O'Neal said, only commitments are now in the hands of the legal department and are being processed throughout the state as quickly as the titles are examined they will be closed and the mortgage taken over.

Summarizing the work of the corporation in North Carolina since it was organized last summer, O'Neal made the following statement:

"We have received 11,707 applications. Of these 658 or approximately 5 per cent are held in the office because they were not completed properly by the applicants and these applications have been written for the information which is required by the government before any work is started. Approximately 1200 applications or 10 per cent are being held while negotiations are conducted with mortgagees with the end to getting them to exchange their liens for bonds. A total of 842 applications or 7 per cent of the number received are now ready for the preliminary appraisals to be made.

"Preliminary appraisal work has been ordered on 8212 applications which is 70 per cent of the total received. Preliminary appraisals have been completed on 7294 applications which is 61 per cent of the total number of applications received. Of the applications on which the preliminary appraisal has been completed 1267 or approximately 11 per cent are now in the process of adjustment, meaning that the appraisal revealed insufficient value to make the loan required and the corporation is now seeking compromises from the mortgagees on these in an effort to serve the home owners.

"The second appraisal required by law has been ordered for 5503 applications or 47 per cent of the grand total. The second appraisal has been completed in 5115 cases which is 43 per cent of the total applications received. Of the applications on which both appraisals have been completed 1499 or 12 per cent are now held in the office for adjustment with mortgagees in the interest of the home owners because the second appraisal revealed insufficient value to warrant loans. It has been found necessary to reject 2230 applications for loans, 19 per cent of the total received, because they were not within the law, insufficient value was revealed or other reasons."

### FINED FOR VIOLATING STATE LABOR LAW

Winston-Salem, March 21.—(AP)—J. A. Kester, manager of the Carolina Fabrics Company here, yesterday submitted to a municipal court charge of violating the state labor laws and was fined \$10 and costs.

He was charged specifically with working women employees longer than the maximum hours permitted under the law. He claimed the condition had resulted from oversight rather than from deliberate policy, and the minimum penalty was imposed on condition the abuses be corrected.

### TELEGRAPHER 47 YEARS NEVER MISSED A DAY

Kansas City.—(AP)—After 47 years in telegraph service without once being out of work or absent because of illness, Edward M. Edwards, 63, has been retired on a pension.

He began his service with a commercial company when all messages were copied with pen and ink.

MACHINES EVENTUALLY GET IT ALL

Martin county, according to the Williamston Enterprise, has few if any slot machines which causes us to remark that Martin is most fortunate and to wish that we could make a similar statement as regards our own county.

We agree heartily with the Williamston paper that the machine "is built for only one purpose, to beat the other fellow."

Here's what the Enterprise has to say on the subject: The slot machines seem to be get-

POLITICS at random

Washington (AP)—Less will be heard from the administration left-wingers during the next few weeks. Word is going around quietly that public utterances provocative of controversy in Congress are not in order now.

It appears the professional "ideamen" in the Roosevelt camp have now obtained about all the legislation they will get this session.

The stock exchange bill is being rewritten, the Tugwell pure food and drugs bill has been recast and then sidetracked, and many collateral proposals of the brain-trust are quite dead.

JUDITH LANE by JEANNE BOWMAN

SYNOPSIS: Big Tom Bevins, Judith Dale's old employer, has died and left her his fortune to complete for him a dam and reclamation project on the Rio Diablo, in West Texas.

Chapter 15 THE WILL JUDITH Dale dried her eyes on a whisp of a handkerchief after reading the first lines written here by her former friend and employer, and then she looked about the room.

It was a queer drama, this in which she was playing an unwilling leading role. Mrs. Bevins and Mathie, in heavy mourning, sat on one side and close beside them was Norman Dale, her husband, representing his friends' interests against those of his wife.

Judge Morgan, to whom Big Tom had turned when he found Morton Lamper not trustworthy, motioned Judith to continue reading, and she bent her head again, above the letter.

Your reading this note, said the ink scrawled letter, will mean that I have passed on. I have reason to believe they will rush the tempo to gain control of the money I have left to you.

JUDITH'S voice was clear as she spoke and her eyes rested on her husband, rather than the man she was addressing, as though she hoped he would understand.

"I'm afraid we've pressed you a little too early," Lamper countered suddenly. "You go home, take time to get over this . . . or grief at your former employer's death and I am sure that such a competent little business woman you've always proven to be, you'll find something different to tell us."

JUDITH'S voice was clear as she spoke and her eyes rested on her husband, rather than the man she was addressing, as though she hoped he would understand.

"I'm afraid we've pressed you a little too early," Lamper countered suddenly. "You go home, take time to get over this . . . or grief at your former employer's death and I am sure that such a competent little business woman you've always proven to be, you'll find something different to tell us."

"My decision is final." "Oh come now," he spoke to her as though she were a child to be cajoled. "You're just overwrought. You know that the Big Tom was ill or he would never have gone outside his own office to have the will drawn up. Mrs. Dale you know very well that Big Tom never had a better friend than I—"

"Mr. Lamper," Judith's grey eyes were blue-black with anger, "before you commit yourself further I'd like to let you know that the reason Mr. Bevins went to Judge Morgan instead of to you was because he found he couldn't trust you; he found that while representing him you tried to use your political power to coerce a superior court judge into using his judicial influence to obtain an injunction against Big Tom's purchase of dam—"

"Judith!" Norman Dale was on his feet and across the room facing his wife—"Judith, apologize to Lamper for that insult—"

"It is an insult, isn't it Norman," she conceded sadly. She felt that in some way she was not rising to the courage demanded of the moment. She wanted to press her face into his coat lapel and cry like a child.

"Then apologize." Judith Dale stood facing her husband, realizing, that when she had told Morton Lamper what she knew about him, Norman hadn't stopped to consider the possibility that she told the truth, but had condemned her words as a lie and demanded she apologize.

"I can't apologize, Norman, because it is true." "You can't prove it," said Lamper suddenly.

"I can if it's necessary," countered Judy, "the date was August 22, the place the file room of the county court house, the man—"

"Just a minute, Mrs. Dale," Lamper spoke hurriedly, "remember this. Whatever action you take because of your mistaken version of what took place at the time and place mentioned would be an attack against your husband's firm."

"I don't believe all of this is necessary," interrupted Judge Morgan, "Mrs. Dale, you look worn out with this trial, let us take up other things at other times."

"Thank you," Judith turned towards the corridor door, wondering if Norman would follow, but just before it closed behind her she heard Mathie say—"Don't be a fool, that's what she wants."

# SPORT SLANTS

By ALAN GOULD

Tommy Loughran picked up more popularity on the strength of losing a 15 round decision to ponderous Primo Carnera in the late lamented Battle of Miami than he has collected for any one of his notable triumphs over a stretch of 15 years.

Strangely enough, it has done more to bolster the Loughran confidence, too, than anything else in a long while. Tommy himself was supremely confident the night he stepped into the ring but so many friends had warned him to be prepared for the worst that he must have harbored some hidden doubts as to his ability to withstand the tremendous weight and power of his giant opponent.

When he found himself not only erect but still winning the wildest cheers of the scattered crowd through the last few rounds, it must have been heartening to the former light heavyweight King. The ovation he received on leaving the ring and every subsequent public appearance in the south has convinced Loughran he can do something further to justify this public support.

"I'm far from through," said Tommy. "It may sound true, but I think I have just to begin to know how to fight and handle these big fellows. I'm sure I could whip Carnera in another bout and who else is there for me to fear? I have already whipped Bear, Sharkey and most of the others who have any claim to ranking among the heavyweights."

## FREED AFTER NIGHT IN JAIL

Disorderly conduct charges, brought against William Gibbs McAdoo, Jr., son of the California senator, and his companion, Sarah Lummers, were dropped in magistrate's court after the pair spent the night in a New York jail. The proprietress of a restaurant, on whose complaint the two were locked up, refused to press the charges. She testified, however, that McAdoo refused to pay a \$6.50 check after he and Miss Lummers had dined. Miss Lummers and McAdoo (right) are pictured in court. (Associated Press Photo)

**Found Writing Time**  
This incident serves once more to illustrate the tremendous capacity for work and sustained effort of the present occupant of the White House. It never fails to amaze those with whom he comes in contact.

Mr. Roosevelt's first year in the presidency was an ordeal such as few men are called upon to undergo. Yet he has found time during one

of the most crucial and exacting years ever experienced by a President to write a book.

It is true, of course, as he says that the book is composed principally of compilations, presumably of his public addresses and of data affirming his statements. The fact remains, however, that he found the time to compile.

**Other Presidents Waited**  
Usually, Presidents wait until they leave the White House to attempt things like book-writing. Mr. Coolidge did.

Those who ought to know say that Mr. Roosevelt's book will be more than a compilation. Much new material, describing more in detail his basic ideas of a "new deal," is expected to be included.

Where he finds time for the energy and the will for his extraordinary endeavors is a mystery necessary to everyone but F.D.R.

E. Hooker's line; thence South with his line 39-25 W. 587 ft. to an iron stake; thence S. 34 W. 1230 ft. to 2 post stakes, the beginning, containing 6.19 acres, and being part of the land described in deed from James L. Evans, Commissioner, to J. N. Gorman et al, and same conveyed to the Greenville Country Club by J. N. Gorman et al.

**SECOND:** Beginning at an iron stake on line between the Country Club property and the R. D. Harrington property, said line running N. 13° 15' E. and said beginning point being in the public road leading from the Greenville-Ayden hard surface road to the Forbes Mill house; thence S. 73° 15' E. 595 ft. to a stake on said road; thence S. 42° 15' W. 382 ft. to a stake; thence S. 27° 30' E. 289 ft. to a stake in a ditch; thence along said ditch N. 68° 30' W. 331 ft. to a stake; thence N. 13° 15' E. 597 ft. to the beginning, containing 6.2 acres, and being a part of the property which was conveyed to R. D. Harrington by P. L. Clodfelter and wife by deed duly recorded in the office of the Register of Deeds of Pitt County.

**THIRD:** Situate and being in Greenville Township, about 3 miles from the Town of Greenville, and known as Forbes Mill Pond property, also as the Amuzu Park property, which was formerly owned by Grace Clark, A. T. Tripp, C. D. Theobald, and operated as an amusement park, and which descended at the death of Grace Clark to her son, J. H. White, said tract of land containing 24.44 acres, more or less.

The following three tracts or parcels of land being the identical land set out and described in the deed of trust above referred to.

### TURKEY TIGHTENS GRASP AS THRACE STIRS UNEASILY

Istanbul (AP)—The Turkish government has decided to appoint a general inspector for Thrace, empowered to control the entire region. A similar inspector was appointed for the eastern provinces following the Kurdish insurrections.

The decision is held to indicate the extent to which Thrace has become the sensitive spot of Turkey following recent manifestations by the Bulgarian "comitadjis" or Macedonian revolutionaries.

### A Washington Daybook

By HERBERT FLUMMER  
Washington—A few days ago President Roosevelt received the Washington newspaper correspondents in what is believed to be the shortest press conference since he established these now famous bi-weekly even at the White House.

The conference lasted about five minutes. Usually these occasions are considerably longer—at times 20 minutes or more.

Although there was a dearth of news of national importance developed at this particular conference, one very interesting and revealing tidbit on Mr. Roosevelt, himself crept up.

It was contained in his more or less casual statement that he had completed a book on his program which will be published soon.

As an afterthought the President added that he had stayed up until

"THE PYROIL PROCESS OF PROTECTION"

The basic element of PYROIL is liquified graphite and when added in small quantity to oil and gas, creates a film of protection which no degree of motor heat, gas dilution can effect. Keeps metal from metal, seals, rings, frees valves and reduces friction from 30 to 50 per cent, thus increasing power and speed on less fuel. 2 to 8 more miles on a gallon of gas, 2,000 miles before changing oil, with better lubrication than your motor ever had at less cost per mile.

Reverse Decision in Reynolds Case. Raleigh, March 21.—(AP)—The State Supreme Court today reversed the judgment of Judge Wilson Warlick of Superior Court under which some \$15,000,000 of the estate of the late Zachary Smith Reynolds of Winston-Salem would have been used to establish a charitable foundation.

The matter reached the upper court after a fight over the rights of Anne Cannon Reynolds, daughter of Smith Reynolds by his first wife.

Under the decision of Judge Warlick the infant child would have received \$1,500,000 from the Smith Reynolds estate in addition to \$500,000 received as trust fund when her father and mother were divorced.

Zachary Smith Reynolds, Jr. son of Libby Holman Reynolds, would also have received \$2,000,000.

Anne Cannon Reynolds, first wife of Smith Reynolds, received a settlement of \$500,000 when she and Reynolds parted and Libby Holman would have received an unannounced amount of the proposed settlement of the estate.

Approves Capital Stock. Washington, March 21.—(AP)—The Senate finance committee today approved a capital stock tax of one tenth of one per cent to take

effect July 1, 1935 and estimated it would bring in \$95,000,000 in revenue. The committee also approved a five per cent penalty tax on corporations if earnings exceed 12-1-2 per cent as a guard against under valuation in determining their own capital stock.

Both propositions were advanced by Chairman Harrison of Mississippi. Bar Politics. Washington, March 21.—(AP)—President Roosevelt today served notice on congress that he favored the Norris amendment to bar politics from the appointments to the Home Owners Loan Corporation.

ACCIDENTAL WOUND IS FATAL TO YOUTH

Washington, N. C., March 21.—Wilbur R. Heynen, 20, son of Mr. and Mrs. R. C. Heynen, who was accidentally shot on March 12th when a 22 rifle discharged and the bullet entered his abdomen, died today at 2 o'clock at the Fowl Memorial Hospital.

CONFESSES TO GUILT OF MURDER CHARGE

Fayetteville, March 21.—Jesse Hymans, 25-year-old negro, a former CCC worker, pleaded guilty to murder in the second degree when he was arranged before Judge Isaac M. Meekins in United States district court this morning for the murder of Warren E. Gilbert, an enlisted man in the air corps of the United States Army. Hymans had pleaded not guilty at the preliminary hearing.

lided near the home of N. F. Paul at Pungo. Brinson Carter was the more severely injured sustaining a face avulsion and an internal chest injury. He was brought here to the Tayloe hospital and is said to be improving. The other car occupants were a slightly injured, sustaining cuts and bruises.

PUBLIC DANCE HALLS BANNED IN BURLINGTON

Burlington, March 21.—Public dance halls in the city of Burlington will be no more, unless Mayor Earl B. Horner should vacate an order issued Saturday night when he directed a hall on Front Street to be closed.

Officials of Company A 120th Infantry local national guard unit, had indicated before the executive order, it was said, that the public type of dance would be discontinued at the armory on North Main street.

The official viewpoint is that such affairs cannot be properly regulated and are not conducive to the moral upbuilding of the community.

Beauty Hints

By FAY BAINTER (Stage Actress) Probably the most delicate point of your beauty is your lips, and therefore most sensitive to changes in the weather.

Keep them soft and uniform in appearance is to give them a thorough coating of camphor ice, then wipe it off before applying your lipstick.
