Bodies Of Two Missing Girls Found By Posses In Virginia

THREE BLACKS ARRESTED FOR THEIR DEATHS

Alice Hill, 13, and Aileen Hill, 9, slain by Negroes after one is criminally attacked; one Negro confesses and attempts to implicate another

Clifton Forge, Va., Nov. 19.—(AP)—The bodies of two young girls, their skulls crushed by heavy blows, were found in the woods near here early this morning by a searching party and shortly afterward authorities arrested three Negroes and then rushed them to Roanoke for safe-keeping.

The Negroes arrested were Phillip Jones, 25; Chester Smith, Jr., about 23, and Jones' wife. Commonwealth Attorney M. J. Pittman stated he had a confession from Jones that he killed the children and that in the alleged confession he sought to implicate Smith. Smith, however, denied any part in the crime.

Coroner Louis A. Houff said the girls, children of Mr. and Mrs. E. R. Hill, of Clifton Forge, died of fractured skulls. He said the older girl had been criminally attacked.

The coroner said a shotgun and bloodstains were found in the Jones home. He said the younger child had been evidently killed first, and that she had been dead twelve hours.

FEW ARRESTS ON WEEK-END

Four Drunks Arrested in Greenville; Few Arrests in Other Parts of County

Arrests were at minimum over Pitt County during the past week-end and officers were reported to have had the quietest time in several weeks.

In Greenville only four drunks were taken into custody and they were given preliminary hearing in police court this morning.

The Highway Patrol reported a few wrecks, but all were of a minor nature and occupants of the various cars involved escaped with only slight injuries.

Police courts in other towns of the county were also said to have had little or nothing to do as result of the law-violating element taking Saturday and Sunday off for a "breathing spell."

The sheriff's office which week before last had its hands full with criminal court in addition to other duties, reported the criminal element very quiet, and nothing of any importance occurred to mar the week-end.

It was decidedly quiet in Greenville proper all last week, and mayor's court handled less cases probably than any other week in months.

ROVER'S HAIR MAKES 'DOGGY' TWEED SUIT

London.—(AP)—Fashion note: Wire-haired for terrier, airedale and pomeranian tweeds are finding favor with London's smart set this season.

A dog lover, who is also a weaver, discovered hat dog-hair tweed, made from the combings of his pet, is both serviceable and stylish.

The chief drawback to the plan, obviously, is that it takes several years to collect enough of Rover's hair to make a suit.

Violent Death Takes 15 Lives In Carolina

(By The Associated Press) Fifteen persons were killed by violence in the two Carolinas during the week-end, a survey by The Associated Press showed today.

SALES PASS FIFTY MILLION

Total Amount of Money Paid Out on Local Leaf Market Nears \$16,000,000

Sales passed the fifty million mark on the Greenville tobacco market today with the total amount of money paid out to growers during the season drawing near the sixteen million dollar mark.

Total sales at the end of the past week stood at 49,950,380 and went well beyond fifty million pound today in spite of the fact that sales continued light.

Sales for Friday were reported as 187,742 by K. W. Cobb, supervisor of sales, and the total amount of money paid out during the day was \$187,742. The average was \$27.59 per hundred.

With warm weather conditions prevailing in this part of the country sales were expected to pick up slightly here this week over the past week. Farmers were unable to prepare their tobacco for marketing during the cold weather but with moderation of temperatures prevailing at this time it was expected sales would be some heavier this week, although the bulk of the crop has already been sold.

HIT-RUN DRIVER KILLS VANCEBORO YOUNG MAN

Washington, N. C., Nov. 19.—Stanley Buck, aged 18, of Vanceboro, was knocked down by a hit-and-run driver Saturday night and died at 3 a. m. today at the Tayloe Hospital, where he was brought soon after the accident.

Buck is said to have been walking along the Washington-Vanceboro highway when a truck driven by a negro passed and knocked him down. The truck is said to have been carrying lumber and a piece of it struck Buck in the stomach.

He walked a quarter of a mile before getting help, and told the story before lapsing into unconsciousness.

An emergency operation was performed Saturday night, when it was revealed he had ruptured intestines and liver and other lacerations.

His father is G. W. Buck, of Vanceboro.

The remains were taken to Vanceboro for interment, which will be held some time today. The Highway Patrol is investigating the case.

THE NATIONAL WHIRLIGIG News Behind The News.

Washington By GEORGE DURNO

Right: Since the Republican rout of November 6 Roosevelt New Dealers by tacit agreement have come to look upon the American Liberty League as their most immediate and most dangerous enemies.

Loyal Democrats have made trojan efforts in a number of adroit ways to smoke the Liberty Leaguers out into a black-and-white statement of position on all major political issues. This for the obvious purpose of launching a counter-attack.

But the Jouett, Shouse-Al Smith, John W. Davis-John J. Raskob-James W. Wadsworth-Ireneau DuPont organization of potential Conservative dissenters refuses to be "smoked". Enjoying the enviable position of a good poker player who knows his opponent must first tip

Late News Flashes

Rejects Naval Treaty.

London, Nov. 19.—(AP)—Ambassador Tsuneo Matsudaira of Japan today on behalf of his nation, rejected the British suggestion for a compromise in the proposed naval treaty.

The ambassador told Sir John Simon, the British foreign secretary that Japan could not accept the British offer of a treaty which would recognize only equality on principle for Japan. Japan wants the right to equality in actual tonnage.

At the same time Matsudaira urged that the British consider new ways of reaching a compromise which would recognize Japan's equality.

Set Date For Gold Hearing. Washington, Nov. 19.—(AP)—To hasten a final decision on legislation estimated to affect as much as \$100,000,000, the Supreme Court today consolidated four cases challenging the abrogation of gold clauses in contracts and set them for hearing on January 8.

The action was taken at the request of J. Crawford Biggs, United States Solicitor General.

So important does the government consider the litigation that Attorney General Cummings personally will argue the case before the court. The legislation was passed June 5, 1933 and provided that payments be

HITCH HIKER HELD IN DEATH

John Jordan Arrested at Kanapolis For Slaying Wealthy Farmer in Penn.

Concord, N. C., Nov. 19.—(AP)—John Jordan, 33-year-old hitch-hiker, who was picked up at Kanapolis last week, today faced a warrant to stand trial for the slaying of Harry Emery, 53, a wealthy farmer of near Phoenixville, Pa., October 21.

Chief of Police L. T. Chapman, Kanapolis, who arrested Jordan after two hours scanning a police circular picturing the prisoner in the Pennsylvania killing, said Jordan had confessed and he did not expect him to fight extradition.

The prisoner is being held in the county jail here. Officials were advised by Pennsylvania officers that they would arrive here late today to return the prisoner.

MASONS PLAN THANKSGIVING SERVICE HERE

Interesting Program To be Offered at Jarvis Memorial Methodist Church

Masons of Greenville and Pitt County will hold a service of Thanksgiving at Jarvis Memorial Methodist Church next Sunday afternoon at 3 o'clock and everybody appreciating the many blessings enjoyed by the community the past year have been extended a cordial invitation to attend.

The service was announced several weeks ago, but definite plans were not worked out until last week when members of the organization outlined what they considered a program that would be of interest to everybody.

One of the principal speakers of the occasion will be Rev. Perry Case, Christian minister of Grifton, and also principal of the Grifton public school system, although several others high in the life of Masonry will be on the program for brief talks.

The Order of the Eastern Star will also assist the masons in carrying out the program, the first of its kind ever conducted here, and every effort is being made to make the event truly expressive of the community.

Leaders of the organization said this season had been one of the best in years and declared the community should express its appreciation through a service of this kind. In other words, they said they believed the entire community should make a public expression of its gratitude and thought this would be the best way.

The service will precede the annual Thanksgiving Day service sponsored by the various churches of the city, when the masons believe that the people have reason to lift their voices in praise and Thanksgiving in a great service apart from the event planned on the day set aside for that purpose.

Former Senator Broussard Dies In Louisiana

New Iberia, Nov. 19.—(AP)—Former United States Senator Edwin D. Broussard, of Louisiana, died today at his residence here. He was defeated for re-election in the last senatorial election by Senator John N. Overton, of Alexandria, who was supported by the political organization of Huey Long.

DISCOVER SKELETONS IN EXCAVATION WORK

Asheville, Nov. 19.—Several skeletons of persons who died many years ago have been dug up by city laborers at Church and Astor streets, in the semi-business district of Asheville.

A bank as the corner was being graded preparatory to eliminating a traffic hazard when the bones were unearthed.

Coffins in which the dead had been buried had rotted away. A few coffin tacks and hinges remained. There was no way of determining whose graves were found but it was determined that the area had been a burial ground in the very early days of Asheville when the city was just a small mountain town—probably during the early part of the last century. The skeletons found were turned over to the coroner for reinterment in a local cemetery.

NEW STYLES TO ALLOW EASY DRESS ALTERING

Urbana, Ill.—(AP)—Miss Edna Gray, of the University of Illinois College of Agriculture, says styles of the coming year for midday will make it easy for her to get a new dress from last year's discarded frock.

All that will be necessary to make 1934 look like 1935 will be to remove a little fluff, substitute a new collar or add a harmonizing jacket, she says.

A gasket type coupling has been invented for joining pipes without threading, grooving or beveling.

In 'Little Cabinet'

Miss Josephine A. Roche, operator of Colorado coal mines, has been appointed an assistant secretary of the treasury by President Roosevelt. She will have charge of public health matters, and will be the first woman member of the "little cabinet."

HIT AND RUN DRIVER HELD

Police Arrest John Diggins After Wreck On West Fifth Street Here Sunday

John Diggins, colored, of the Falkland community, was arrested by police today on a charge of hit-and-run driving growing out of an automobile accident Sunday on West Fifth Street in which a white child was injured.

Suffering from cuts and bruises, the child of John Mazingo was rushed to the local hospital for medical aid, but her condition was not described as serious.

Said to have been driving in the middle of the street, Diggins forced Mazingo off the pavement and then crashed into him in spite of the former's effort to get out of the way. When the cars crashed, Diggins and three or four other negro occupants of the dilapidated machine they occupied, jumped out and fled.

Police immediately started an investigation, and this morning Diggins was taken into custody and held for preliminary hearing probably the first of the week.

Several cases of hit-and-run have been reported in the community the last several weeks, and in the majority of cases they were people occupying old cars with bad brakes or driven by persons almost too drunk to know what they were doing.

Police and other law-enforcement agents are making an effort to check this form of violation, and defendants when convicted are given the full penalty of the law.

BUSINESS SHOWS UPWARD STRIDES

New York, Nov. 18.—(AP)—Business enters the final six weeks of the year well above 1933.

Even the movement of freight which had been trailing well under last year ever since early July, has now crossed the 1933 trend line to reach the best level for early November since 1931.

Manufacturing activity remains slow or hesitant in many important areas but continues to gain. Steel production for the past week was estimated by the Iron and Steel Institute at 27.3 per cent of capacity, up 1.0 from a week earlier, and slightly above the level of a year ago.

Automobile output has come close to a standstill, but assemblies of two of the lower priced 1935 models are expected to start within a few days, and the trend should soon be upward again, providing stimulus to steel and other industries supplying the motor makers. General Motors Corporation's announcement that it would stagger introduction of new models to stabilize employment is not expected seriously to retard seriously to retard resumption of activity in this industry.

Nearly 180,000 subsidized houses have been built in Scotland since the World War.

KIDNAPED BOY RETURNED TO PARENTS IN KY

Jackie Gibbons Given Joyous Welcome at Lexington After Four Days' Absence

Lexington, Nov. 19.—(AP)—Kidnaped four-year-old Jackie Gibbons was restored to his parents here today by Detective Sergeant Claude Embry who brought him from Chattanooga, Tenn. where he had been taken by Bernice Lou Givens, 20-year-old hitchhiker.

The girl is held in Chattanooga for Kentucky authorities.

"Hello, Jackie," Gibbons replied. "I came in on that big train," Jackie shouted happily.

"My boy, my boy," his mother almost sobbed, as she came up. Mrs. Gibbons held her son tight in her arms. He had been missing since last Thursday. He was found yesterday. The Givens girl admitted he accompanied her from Lexington to Tennessee. She claimed she intended to take him back home after a while.

Sergeant Embry said the boy had a berth from Chattanooga. Embry said Jackie was unwilling to go to bed last night. He wanted to sit up and look out of the window. When he did go to sleep it wasn't for long. Before dawn he was up asking questions.

"How long will it be before we get to Lexington?" he asked again and again. "I want to see mother and daddy."

All during the hot drive home Jackie chatted about his experiences. Back in his sitting room he was eager to continue.

Embry said the Givens girl would be brought back to Lexington immediately, probably today. The Gibbons family, the father said, it is bitter and will be inclined to favor leniency for the girl. Yesterday Gibbons said he was reluctant to prosecute, but would do so if officials asked him to. The state kidnapping law under which the girl is accused imposes one to three years in prison.

A one-week term of Pitt County Superior Court for the trial of civil cases convened in Greenville this morning with Judge G. V. Cowper, of Kinston, presiding.

Baptist Church To Be Dedicated At Bethel Sunday

On Sunday morning, November 25, at 11 o'clock, the Bethel Baptist Church, Bethel, N. C., will have its dedication service. All former pastors, former members and friends of the church, are cordially invited to be present.

The dedicatory sermon will be preached by Rev. J. P. Harris, of Maconville. Barbecue dinner will be served on the grounds.

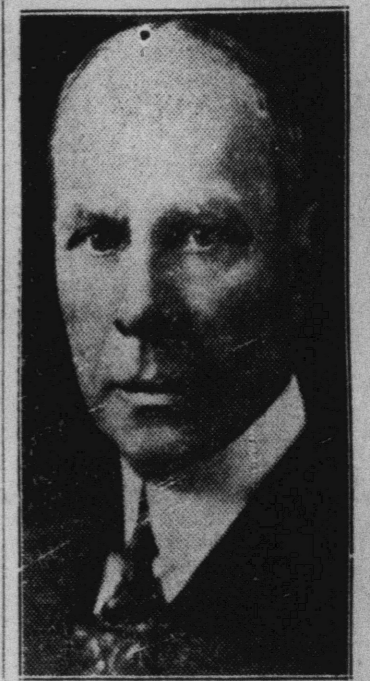

ESCAPE SERIOUS INJURY WHEN AIRPLANE CRASHES

Whiteville, N. C., Nov. 19.—An airplane belonging to J. B. Bruton, of Lumberton, crashed here today, but quick action on the part of the pilot prevented serious injury to the passengers.

The plane was taking passengers up for joy rides when the motor failed. Gliding down to the ground the plane crashed through a wire fence and into a ditch.

President Says "All Is Well" In New Deal Effort

Called To Aid Banks

SETTLES DOWN FOR VISIT AT WARM SPRINGS

At Tupelo, Mississippi President Declares Program For Cheaper Power to be Felt in All States; Rehabilitation Plan Is Also Receiving Co-operation by The Public

Warm Springs, Ga., Nov. 19.—(AP)—President Roosevelt with the announcement that "all is well," and that the New Deal "is progressing in its present program, particularly for cheaper power," settled down at his other home today for a Thanksgiving visit.

Traveling across the Southland after an inspection of the Tennessee Valley power and land utilization program, Mr. Roosevelt said yesterday in two significant talks that the New Deal is permanent and called for co-operation from the "obstructionists, few in number." He expressed confidence "we are coming back."

The experiment for cheaper power and human rehabilitation in the Tennessee Valley, he said, "is going to be copied in every State of the Union before we get through."

This was interpreted to mean that Mr. Roosevelt in his talk at Tupelo, Mississippi, endorsed municipal power plants such as exists here and gave an ultimatum to private companies to co-operate for cheaper rates.

The President asserted a deep-seated belief that the people of this nation understand what "we are trying to do and are co-operating with what we are trying to do and have made up their minds that we are going to do it."

His speech at Tupelo before a crowd of eager folks assembled on the hillside was extemporaneous. By chance his words were taken down by a stenographer and Mr. Roosevelt authorized publication of his report without change.

COTTON PLAN TO BE TALKED

Open Meeting for Discussion of Adjustment Program to be Held November 26

An open meeting for a discussion of cotton adjustment program and an explanation of the plans for 1935, will be held in the Pitt County courthouse Monday, November 26, at 2 p. m.

The discussion will follow an address by J. F. Criswell, of State College, on the cotton situation in the South and what will be the probable result of the Bankhead Act is continued, if it is discarded.

The coming referendum on the Bankhead Act will be explained so the growers will know exactly what they are voting for when they cast their ballots.

Dean I. O. Schaub, of State College, has said:

"I am hoping that all cotton growers will attend these meetings, which are to be held in each cotton county of the State and take part in the discussions. We would like to know their viewpoints, and we will send them to the cotton section of the Agricultural Adjustment Administration.

"Helpful suggestions made at these meetings will be considered in the adjustment program in 1935, for we want to make the program as beneficial as possible to the cotton growers."

DRIVE CAREFULLY TODAY

GUARD AGAINST GLARE

Dirty windshields are not only a hazard in themselves, because they decrease visibility, but they also greatly increase the glare from headlights from approaching cars. The windshield wiper is one of the most important safety devices on your car. Keep it in good condition. To reduce the annoyance of glaring headlights, make it a habit to clean the windshield each evening.

### the WORLD of STAMPS

By QUINTON JAMES

In keeping with an apparent policy of issuing stamps for its colonies which give a pictorial indication of the scenery, etc. therein. Great Britain has just printed a new set for Grenada.

Grenada, discovered in 1498 by Columbus, is the southernmost island of the Windward group in the West Indies. For that reason seven of the ten values have a drawing of one of the explorer's ships. Also of these stamps, in addition to the ship, bear the head of King George in relief. Guyatt's one Groat 2 1/2 on red and red.

This type includes the 1-penny brown and black, 2-penny vermilion and black, 2 1/2-penny blue and black, 3-penny green and black, 6-penny claret and black, 1-shilling brown and black, and 5-shilling violet and black.

The other denominations, 1-2-penny green, 1 1/2-penny carmine and black and 2 1/2-penny blue have various scenes of the island as the principal design. In the upper right hand corner is a small panel with the photograph of the King.

In keeping with the workmanship on other recent issues for the British colonies, the set makes an impressive appearance. Likewise it follows the plan in which a drawing of the reigning ruler is made a principal part of the design.

While the dominions of the British empire also use the king's head to a large extent not all of them adhere to that policy for every issue. Stamp issuing of the dominions is under their direct control, but that for the colonies is in charge of the British government.

#### Dollfus Memorial

Austria's mourning stamp paying tribute to the memory of its slain chancellor, Engelbert Dollfuss, has put in its appearance. It is grayish black.

The general design is similar to the poets' issue of 1931, with a reproduction of a late photograph of Dollfuss in the upper center, the symbol of the Dollfuss political organization.

The total number of the stamps printed is 3,000,000, the face value being 24 groschen.

#### Canadian Rarities

Probably the rarest stamps in the Canadian list are two that are not whole stamps—just one-third and two-thirds of a stamp. They were created in 1899 by the use of the surcharge.

The 3-cent carmine Queen Victoria design of the previous year was used, two-thirds of this stamp with a "2" overprinted comprising the 2-center and one-third with a "1" the 1-center. Their use wasn't very extensive.

The fact that they are difficult to find makes their value today quite high, \$750 for the 1-cent unused and \$350 for the 2-cent unused. In a used condition they are listed at \$350 and \$150, respectively.

## Get Rid of Malaria!

### Banish Chills and Fever!

To conquer Malaria, you must do two things. (1) Destroy the infection in the blood. (2) Build up the blood to overcome the effects and to fortify against further attack. There is one medicine that does these two things and that is Grove's Tasteless Chill Tonic! The tasteless quinine in Grove's Tasteless Chill Tonic destroys the malarial infection in the blood while the iron builds up the blood. Thousands of people have conquered Malaria with the aid of Grove's Tasteless Chill Tonic. In addition to being a noted remedy for Malaria, it is also an excellent tonic of general use. Grove's Tasteless Chill Tonic is pleasant to take and contains nothing harmful. Even children like it and they can take it safely. For sale by all drug stores. Now two sizes—50c and \$1. The \$1 size contains 2 1/2 times as much as the 50c size and gives you 25 per cent more for your money.

### Visit Schools in County.

Dr. Florence Stratmeyer and a group of students from Teachers College, Columbia University, are spending today observing in the Training school. They are making a tour of inspection of schools in different sections of the county and this college is the first one in the South to be visited.

Dr. Stratmeyer who is a member of the faculty of Teachers College, has a national reputation in the field of research work in education. She is well known to many in the college faculty, several of whom have been in her classes, and others knew her in student days.

Two young men and two young women, students in the new college and who do much of their studying from first-hand study and experience, are collecting data from their observations today. They are Misses Janet Brinkerhoff and Evelyn Haxe, and Paul Williams and George O'Brien. Miss Mary Devers of the State Department of Education, is here with them.

Miss Stratmeyer appeared several times Friday and Saturday of last week on the program of the Northeastern District of the N. C. E. A., which met in Elizabeth City. The visitors went from there to see Duke University and the University of North Carolina, arriving here last night.

### Carolina Playmakers Tonight.

The Carolina Playmakers, when they appear on the stage of the Campus building of East Carolina Teachers College tonight, with their bill of three one-act plays, "Fixin's", "Quare Medicine," and "The Loyal Venture," will face an audience made up of two elements, tried and true old friends and a new group of college girls and boys and newcomers to the community.

Some members of the faculty and citizens of Greenville have seen the Playmakers in all their past performances here and have followed with pride their successful career throughout the sixteen years. Many of the students have seen them in their own towns. It will be largely a North Carolina audience who will be able to appreciate especially the Carolina folk plays they will present.

This is near enough the coast and the scene of Blackbeard's headquarters for the new pirate play to be received with special interest. "The Loyal Venture," a swashbuckling romance of pirate days on the Carolina coast, with its colorful atmosphere, is one of the most popular plays written by the Playmakers in the past few years. This has not been seen here.

Greenville audiences know well Paul Green and are justly proud of his success. When "Fixin's" was first seen here it was thought of merely as a play written by one of Dr. Koch's Playmaker class who knew the tenant farmer, and now it will be seen with the glamor of a first play by a Broadway and Hollywood successful playwright. "Quare Medicine" was presented later, after Paul Green was considered a promising writer, but before his great successes.

Dr. Koch will make a brief talk during the intermission tonight. He and his work are too well known here to need an introduction. His very name always give a feeling of permanence and stability to the Playmakers, no matter how the personnel of the cast may change. This afternoon Dr. Koch talked to the drama class of Miss Mary Dirmberger, director of community drama and teacher of the drama course in East Carolina Teachers College. She is a worthy product of the work done by the Playmakers in the classroom, in the workshop, and on the stage.

home of his brother, J. L. Leonard Brown, in Concord, tomorrow at two o'clock. Burial will follow in the family plot at Oakwood Cemetery.

Captain Brown, son of the late Mr. and Mrs. Rufus Brown, was born in Concord January 29, 1897, and served with the National Guard for a number of years before doing active service in the World War. He was commissioned captain in the guard in 1908, served with the local company on the Mexican border and was shown into Federal service in 1907. After a brief service with the 30th Division at Camp Sevier he was transferred to Camp Wadsworth, where he served as captain of Company N, Third Pioneer Infantry. He was sent to France with his command in 1918 and remained with the Army of Occupation in Germany for eight months.

### GERMAN WORKING GIRLS GET OFFICIAL PROTECTION

Berlin.—(AP)—Nazi officialdom is protecting the working girl by a series of decrees providing for almost everything including entertainment.

The household servant must have a clean and "hygienic" room that can be locked. She must have her own place for washing and clothes, must be allowed eight hours of sleep nightly, and have a chance to rest at noon.

Her employer also must take care of her sickness insurance. The girls have been accustomed to working long hours for from \$12 to \$20 monthly.

### FOUR MILE CHASE ENDS IN WRECK AND JAIL

Sanford, Nov. 19.—After a chase by highway patrolman, Roy Fisher of four miles on Highway No. 1 and through the streets of Sanford

C. J. Kelly and Bill Capps, of Sanford, were arrested Saturday on a liquor charge, when their car struck the curbing and was wrecked.

Both escaped injuries but were committed to jail in default of \$1,000 bond for a hearing in Recorder's Court Tuesday.

Six cases of whiskey were found in the wrecked car.

Kelly is now under a bond for \$1,000 pending an appeal to the Supreme Court, following his recent conviction in Lee County Superior Court on a charge of violating the prohibition laws. A sentence of 12 months on the roads was given Kelly at the time.

### WOMAN MAYOR CLOSES MENAGERIE ON SUNDAYS

Oxford, England.—(AP)—The first woman mayor of this university city, Alderman Lily Tawney, who refused to open a local theater showing the Mae West "I'm No Angel," has now banned the opening of menagerie here on Sundays.

When a representative of the menagerie told her that no objection had been taken to Sunday opening in other English cities, the mayor replied: "Oxford has a dignity of its own which I intend to maintain."

No other places of amusement are open in Oxford on Sundays.

The United States supplies Italy with most of the patent leather it imports.

a notebook in which she listed the names of her friends. After each name she listed the special soups, meats, desserts and other dishes she knew they especially like. Along some of the names she even had dishes that were disliked.

To complete the book, she kept records of menus so that when she asked the same persons to dinner she did not duplicate previous repasts.

**I did not kill Osborne**  
By VICTOR BRIDGES

Just has been acquitted of the murder of Osborne. His solicitor has given Trench a letter from his cousin, Sir Seymour, asking him to call at once, and the reader has let him out of the prison by a back way so that he cannot be seen. Nicholas has only one pleasant memory of the trial—the face of a girl who attended every session.

Chapter Three  
TEA SHOP

A MELLOW September sun shone down into the street, lighting up the windows of the opposite warehouses. From somewhere close by came the rumble of buses and the insistent hooting of car horns. Two or three pigeons were strutting about in the roadway, while a desultory stream of clerks, porters and office boys hurried or sauntered by their respective errands.

None of them paid the smallest attention to me, and rousing myself from the kind of semi-trance in which I had fallen, I started along the pavement. Where I was going I hadn't the faintest idea; all I wanted was to find some quiet place where I could sit down, and where no newspaper reporter was likely to discover me.

I was nearly at the end of the street when a decorative sign, just hung out from one of the doorways attracted my attention. On it, in

**STRICTER ENFORCEMENT NEEDED**

The report from Raleigh that one automobile driver there has had his license revoked at least four times but has never ceased to drive except during the time when he was confined to jail, is evidence that what we need is rigid enforcement of the traffic laws and the court orders with regard to same. When a judge revokes a driver's license it is to protect the general public by keeping these reckless and drunken drivers off the highways and then when no further attention is being paid the drivers by the officers, and the order of the court not to drive is absolutely disregarded, nothing has been gained and the courts become a mockery.

We have always been for a stricter driver's license system together with revocation of licenses in case of repeated or serious violations of the traffic laws and when a judge deprives a driver of his privilege of operating a car for a specified length of time certainly the officers should follow up this order to see to it that the order is carried out.

The only way to make our highways safe is to rid them of the reckless and drunken drivers and certainly this is not possible, unless we have a large enough force of officers who will see to it that the laws and court orders are enforced.

I hesitated a moment, then went in.

amiable of moods I anathematized them silently for disturbing my peace.

CHAIRS creaked, followed by a rather common female giggle. "I don't know how you can stand it, Perce. It would give me the creeps."

There was the scrape of a match. "Well, people are different of course. It's always been a sorter hobby o' mine goin' to murder trials. I wouldn't have missed this one, not for a fiver."

My hand, which was conveying the bit of toast to my mouth, stopped short in mid-air.

"What was it all about?" inquired the girl's voice. "I did see something in the Sunday paper, but I couldn't be bothered to read it. 'The Holland Park Mystery'—wasn't that what they called it?"

"That's right. Case of a chap being found lying in his study with his head bashed in. They arrested this bloke Trench some time ago, but the trial only came on last Monday. I been there every day—it missed a blooming word of it."

"Was it exciting?"

"Not half. You ought to have come along with me. Better than the pictures and nothing to pay into the bargain."

I replaced my toast on the plate, and taking out my handkerchief wiped my fingers. This dialogue seemed to require my full attention.

"What was the trouble?" demanded the girl. "Anything to do with a young lady?"

"Nothing of that sort. Question o' money according to the prosecution, but I shouldn't be surprised myself if there was a bit more behind it."

"How do you mean?"

"Well, Osborne, the chap who was done in, was an old schoolfellow of this chap Trench. Been in America for some years and come over here for a visit. Odd sort of a cove—least that's how it struck me. Instead of staying at a hotel, like you'd expect, goes and takes a furnished house—one of those quiet little places with a garden up behind Ladbroke Square."

Nicholas does an injudicious thing, Monday.

fruit in 1940.

Winner: Reports persist that President Roosevelt is going to shatter precedent and reappoint General Douglas MacArthur as chief of staff of the Army.

On the other hand those who oppose the doughty General, who drove the 1932 Bonus Army out of Washington for Herbert Hoover, insist he is going to be replaced. They base their belief—or hope—on the fact FDR did not announce the appointment before going south to Warm Springs.

There is a strong lobby working both for and against MacArthur. Those close to the White House think his friends will win out.

Gesture: American Legion politicians are speculating among themselves on the possibility that Frank Belgrano, Jr., new National Commander will appoint Louis A. Johnson, of West Virginia, as Chairman of the National Legislative Committee—which will direct whatever fight the Legion makes before Congress for an immediate cash bonus.

Johnson, a former National Commander was a candidate for the Democratic senatorial nomination in West Virginia this year. Jim Farley prevailed on him to withdraw from the primaries in favor of Clem Shaver, who in turn got locked by Russ Holt, the new 29-year-old Senator.

Appointment of Johnson as Legislative Chairman would be a good-will gesture from Belgrano, by indication a Republican to the New Deal.

Actual Congressional wire-pulling as usual will be left in the hands of Permanent Vice Chairman John Thomas Taylor and Permanent Executive Secretary Edward McE. Lewis. The handsome Taylor has been butterbolting, cajoling and threatening Congressmen for years while the outis Lewis figures out shrewd methods of attack.

Senior: When Senator Harry Flood Byrd, of Virginia, announced he'd even so over on the Republican side rather than sit behind Kinkefish Huey Lone another session he overlooked a little matter of seniority—which rules the Senate.

Huey ranks 32nd in service; Harry 36th. Byrd will have to do the moving.

Notes: Immense power projects are foreshadowed as relief and social reform measures. Removal of restrictions on foreign exchange is intended to help tariff bargaining and may lead to further foreign loans. Foes of NRA are concentrating on anti-trust and anti-unionism agitation. AAA chiefs admit defeat in attempt to regulate milk. More munitions disclosures are coming.

the Liberty League's executive committee: "I hope the American Liberty League will be able to offer substantial aid to the President in his efforts to carry out the pledges made in the Democratic platform in 1932 and in his campaign speeches of that year."

What she didn't say but meant to imply was that the New Deal should get around to balancing the budget—which naturally would require drastic curtailment of the current and impending spending programs and say nothing of treating any further inflation most delicately.

Terminals: Heavy thinkers of the Liberty League keep one thought always in mind. By next June 16 about three-quarters of the Roosevelt emergency legislation expires. The White House must present a definite program for the future in January. The League is waiting to see the whites of the President's eyes before it starts firing.

Herewith are the progressive dates of death of the New Deal's first phase:

February 1—The Reconstruction Finance Corporation's lending authority.

March 3—Authority of the Federal Reserve banks to accept government bonds as security for the issuance of paper money (this may be extended another two years if the President declares by executive order an emergency still exists).

March 3—The President's authority to reorganize the various government departments, subject only to a 60-day veto power retained by

By HUBERT PLUMMER

Washington, D. C.—If the few remaining Republicans in the Senate could eavesdrop on the schemes being hatched around democratic headquarters here looking to their political destruction either in '36 or '38 their peace of mind might be disturbed badly.

"Big Jim" Farley, Emil Hurja, his right arm, and others not content with the sweeping gains of November 6, already are studying strategy for increasing the almost 3 to 1 advantage the Democrats now enjoy in the Senate.

The Democratic high command is pointing for two years hence when the nineteen seats now held by Democrats and thirteen by Republicans are to be contested.

Twelve of the nineteen Democratic seats are from the Southern or border States where there is considered little, if any, chance of the Republicans picking up strength.

### More Inroads Expected

On the other hand the Democrats, flushed by their recent sweep, are confident of making deep inroads on the thirteen Republican who come up for re-election in 1936.

As a matter of fact only the seat held by Norris of Nebraska and possibly that by Couzens of Michigan may escape a determined contest.

Senator Borah, of Idaho, already is a marked man. His outspoken criticism of the "new deal"—especially his bombardment of NRA and AAA—have caused him to be set down at the heat of Farley's list for political slaughter. With Senator Reed, of Pennsylvania, relegated to a political back seat, the unhorsing of Borah would afford the Democratic leaders intense satisfaction.

Next to Borah those singled out as special objects of the Democratic attack are Dickinson, of Iowa; Hastings, of Delaware; McNary, of Oregon, and Schall, of Minnesota.

### 'Decade' of Senate Control

Dickinson has been marked for "retirement" because of his persistent attack on administration policies, especially the vast program of government spending under the "new

deal." Hastings as chairman of the Republican senatorial campaign committee and McNary as G. O. P. floor leader are natural targets for Democratic guns. And Schall's barrage of anti-administration statements which have been let loose regularly for months have marked him particularly.

Democratic statisticians have it figured out that no matter what happens in '36 to the Presidency or the House, Republicans can't possibly regain control of the Senate then.

They also say that barring anything short of a miracle Republicans have no chance of regaining control before 1941. Some believe the year should be advanced to 1943.

That would mean Senate Democratic control for almost a decade to come even if the Presidency and the House pass out of their possession in the elections two years hence. Democrats would be assured of at least a veto power over all legislation as well as the final say on all nominations and the ratification of treaties.

### GUNS AND CARS CRIPPLE FIVE MEN IN ROBESON

Lumberton, N. C., Nov. 19.—Three people were in Lumberton hospitals today from week-end motor vehicle accidents, and two from gunshot wounds, one of which was accidentally inflicted.

Paul McNeil, prominent Buick farmer, is in Thompson Memorial Hospital with a punctured lung, bruised kidney and two broken ribs; and David Oxendine, of Buie, with a fractured spinal cord, received when McNeil lost control of his pick-up type truck five miles out on Red Springs road, the machine turning over and striking a tree. The accident occurred when McNeil looked back at a man who threw up his hands as they were driving by. McNeil's son, Billie, escaped without injury.

Braxton Hunt, Lake View, S. C. Indian, is in Baker Sanatorium with a broken thigh, sustained today when the auto in which he was riding, driven by Clarence Locklear Pembroke Indian, turned over on a curve near Lake View.

William Smith is in Baker's with a bad pistol found in his right leg, sustained last night when shot by Sylvester Thomas here. Thomas is in jail. Both are Lumberton negroes.

Carl Lowry, Maxton Indian, was brought to Baker's last night with serious wounds in both arms, inflicted yesterday when his shotgun

accidentally dropped on a hearth, both barrels discharging.

### GETS \$5,003 VERDICT FOR INJURIES IN WRECK

Kinston, N. C., Nov. 19.—Mrs. Jean P. Booth, wife of the principal of Granger High School here, today had won a verdict for \$5,000 in a suit against Miss Ruby Bruton, principal of a primary school, in Superior Court here. The suit grew out of an automobile accident near Bristol, Va., some months ago. A car driven by Miss Bruton overturned and Miss Booth, her companion on a trip, was severely injured. The action was tried twice. Mrs. Booth was awarded \$2,500 the first time, but the judge set aside the verdict.

### Hitler Urges Labor Camps For Nazi Youth

By A. D. STEFFERUD

Berlin.—(AP)—Nazidom is forcing thousands of young men and women from their jobs and initial careers into the "voluntary" labor corps where Hitlerite idealism and manual work replace pay.

For the government this means reducing unemployment lists and the dole, building up another group of adherents and getting much expensive work done at law cost.

For the youths, aged 19 to 25, it means abandoning ambitions for the fulfillment of which they had prepared themselves; going to farms and kitchens—if they are girls—and to road gangs and general labor camps if they are boys.

### Hitler Exalts Hand Labor

"The time will come," says Adolf Hitler, "when no German can become a voting citizen unless he first has done his time in a labor camp."

"We are socialists in deed, and not only in name and theory. Our labor camps breathe the spirit of community. Manual labor is as highly regarded as any form of work."

"National Socialism is not a question of acquisition of welding power, but education and discipline."

"We shall succeed in realizing our ideal, because there is an unflinching will behind it."

The theory and practice of feeding pigs and patriotic idealism are neatly mixed for thousands of German girls in the "voluntary" labor corps.

They learn something about household arts, work in fields and forests,

and take care of children and cattle, and find, in so doing, health and the satisfaction of helping the fatherland.

### Make Jobs For Elders

They often are told by Nazi leaders that their buccolic efforts will help them in choosing a life vocation, that their elder countrymen need the jobs they otherwise would fill, and that they thus have a part in building a new and better society.

The girls mostly are recent school graduates. Many of them are from the larger cities. Their year on a farm or in a labor camp is in accordance with a nazi anti-unemployment scheme for thus removing 600,000 young women from the labor market.

The Grand Central subway station in New York City was the second busiest rapid transit point during the fiscal year ending June 30. The first was the Times Square Station.

The Squeak
By MARY GRAHAM BONNER
Back in Puddle Muddle the little man Willy Nilly was following the directions the old gipsy woman had given him in order to keep his ears

from sticking out and to help make them less pointed. As yet he had not noticed the slightest difference in his appearance, but he was hoping that the wonderful change would come all at once.

"I can understand," he told himself, "about keeping on with this cure for a week, but it sounds a little crazy, now that I think of it, about the extra three and three-quarter days and 17 minutes and two additional seconds. Maybe there isn't any sense to what she told me any more than there was any real truth in her fortune telling."

But still he kept on doing all the odd things she had told him to do. He was so eager to have nice ears. Little did he realize that, in the meantime, poor Top Notch, the rooster, was down on the floor of an automobile with a closed rumble seat keeping him a prisoner.

Top Notch had gone after a bag of grain he had seen on the seat while the back of the car had been open. Then the grain had fallen to the floor and Top Notch had jumped down for a meal. And the farmer had come along and shut the rumble, in case of rain, not noticing that Top Notch was inside.

Top Notch had cried for help. But no one had heard him until now someone had started the car and was going for a drive with Top Notch crowing lustily to be let out. Suddenly the car stopped and the farmer said: "I wonder what is the meaning of the squeak in this car."

Paris, Nov. 19.—(AP)—The declaration that Germany could put an army of 5,500,000 men in the field of 1935 was made today by Leon Archibault, reporter of the budget, in a report on the French war debt, asking credit of 698,000,000 francs or \$375,200,000 next year.

"In a few months," said the reporter, "Germany will be stronger than in 1914. We are far from the Vireaty of Versailles. Despite the treaty, the League of Nations and the disarmament conference, the enemies of France are preparing for war as though it were to be in the near future. It is by manipulating a strong and well-equipped army that we can hope for peace."

Rendezvous Of Noblemen To Go Modern

Vienna.—(AP)—Ghosts of old Vienna, of gay archdukes and plotting noblemen, are raised by an announcement that the famous Hotel Sacher is to be modernized.

Since the death four years ago of its white-haired, cigar-smoking owner, Frau Anna Sacher, the hotelier has had repeated dealings with bankruptcy courts.

After the war impoverished the greater part of her clients, the Hungarian and Polish nobility, Frau Sacher attracted wealthy tourists, among them many Americans, despite her refusal to cater to modern ideas of comfort.

In the old days wine flowed like water in the Sacher, with its private dining rooms, the first in Vienna, but running water was as unknown in its bedrooms as in those of Emperor Franz-Joseph's palaces.

Many aristocrats remained true to the hotel as long as Frau Sacher lived, but left it after her death. Competition for the dwindling tourists' patronage grew keener, and forced the place to conform to demands of the times.

BUSINESS UPTURN SEEN FOR AMERICA IN 1935

New York.—(AP)—An upturn in the nation's business in 1935 was predicted in a recent statement by Standard Statistics Company of New York.

Noting a "slight upturn in the October industrial production," the statement said, "the basis apparently is being prepared for a later upturn, probably during the early months of 1935, in which most industries will participate."

The company said there was increased activity in consumer lines that employment was greater and that wage rates were higher.

N. Y. Stock Market

New York, Nov. 19.—(AP)—Industrial stocks showed further tendencies to break away from the depressed utilities market and as the selective demand gave away the list showed a moderately firm appearance.

After a brisk first hour trading activity dwindled and scattered profit taking was in evidence. Sentiment seemed to be quite optimistic. Commodities were without any particular trend.

Rye got a up a cent a bushel at Chicago but the cereals were only slightly improved. Cotton was firmer. Bonds were quiet and steady with U. S. government securities still moving upward.

Sterling was off a cent in terms of the dollar.

Utilities displayed further weakness today in the face of rallying tendencies in other parts of the stock list. Public Service of New Jersey lost two while Consolidated Gas and United Gas movements were off nearly a point each. Transfers were 950,000 shares.

Danes Net Begemmed Stone
Copenhagen.—(AP)—Two Danish fishermen found in their net a granite stone that sparkled with dabs of brilliant red. Experts pronounced the spots valuable garnets and said the freakish find dates back to the glacial period.

Scientists at the University of California are seeking a serum to fight the virus disease which has killed 6,000 horses and mules in California in two years.

Tobacco.. there are just as many kinds as there are kinds of folks
long · short · thick
heavy · dark · light
all kinds and styles
... but it takes mild ripe tobacco — Turkish and home-grown — to make a milder better-tasting cigarette.
... and that's the kind you get in every Chesterfield package.
Down South in the tobacco country, where they grow and know tobacco—in most places Chesterfield is the largest-selling cigarette.
