ITALIANS SIDE WITH FRENCH AGAINST U. S.

Delegates to Naval Conference Attack American Policy

FRENCH DEMAND SMALLER SHIPS

Demand of Delegation Presents New Crisis in Naval Conference in London

London, Feb. 7.—(AP)—The Italian delegation to the international naval conference backed up the French today in an attack on the United States policy of maintaining large battleships.

Any Surplus Fund Highway Money To Maintain Roads

Legislature Made It Possible for Governor to Increase Appropriations for Upkeep of Roads

Raleigh, Feb. 7.—Those who are working lest the highway fund is going to have another big surplus in it again at the end of this and next year, while the highway department is not going to have enough funds to repair and maintain the roads from the present appropriation, are unduly aroused, it is being pointed out by officials of the State Highway and Public Works Commission.

All Schools Closed Throughout County

Not a school was in operation in Pitt county today, both the city and county systems having been closed due to the rough weather.

Fire Loss For January Is Estimated at \$105

Fire loss in the city for the month of January totaled \$105, nine fires having been reported during the period, George Gardner, chief of the fire department, announced today.

Project Widening Avenue Given Definite Approval

Dickinson Avenue to Be Widened with Federal Funds and Underpass to Be Erected at Norfolk Southern Railroad Tracks

Mayor M. K. Blount was definitely advised this morning that Dickinson Avenue would be widened and an underpass erected at the Norfolk-Southern railroad pass at Cotton Mill, the money to be provided from Federal funds.

City Budget Collections About Total Expenditures

RETAIL TRADE SHOWING GAIN

Buying of Winter Merchandise Hits High Level

New York, Feb. 7.—(AP)—Heavy buying of winter merchandise held retail trade at a high level last week. Dunn and Bradstreet reported today in their weekly summary of trade conditions.

Lighting System Governing Traffic Be Installed Soon

Equipment is Expected to Arrive Any Time; Poles Already Being Prepared For New Plan

Delayed in installation of traffic lights in the city because the equipment has not yet arrived, City officials said today they were expecting the signals any time now and they would be installed as soon as they arrived, weather permitting.

Dr. Rosenau Stresses Need for Prevention

Chapel Hill, N. C., Feb. 7.—Terminating an epidemiologist's lecture in the medical field, Dr. Milton J. Rosenau, head of the newly organized Division of Public Health at the University of North Carolina, addressed a large number of leading health authorities and physicians of the state in Hill Music Hall at the University here last night.

FIFTEEN-OUNCE BABY LIVES

Although she weighed less than a loaf of bread, Baby Nancy Anne Vogt, born at Oakland, Calif., was found to be normal and was given an excellent chance to live.

PREDICT MOVE ANOTHER SNOW TOWARD PEACE IN CAROLINAS

Italian Press Renews Discussions of Peace Proposal

(By Associated Press) A faint possibility of a new peace move was seen today in a renewal of discussions in the Italian press of the Franco-British plan for the settlement of the Italo-Ethiopian dispute.

Will Enforce Law Providing Sewers In All Dwellings

City Sanitary Inspector Instructed by Board of Aldermen to Proceed With City Ordinance

THE NATIONAL WHIRLIGIG

By RAY TUCKER CLEAR: House bosses have passed out orders to key men to step lively. Their inside-pocket plans call for closing the legislative books some time in April, although not even the topkicks will bet on that.

Hutson To Attend Rally Of Farmers Here Monday

Tobacco Expert Advises Sponsors He Will Be Here for Address of Edward A. O'Neal of American Farm Bureau Federation

Interest in the farmers rally to be held here next Monday at which time Edward A. O'Neal, president of the American Farm Bureau, will deliver the feature address, was increased today with the announcement that J. B. Hutson, head of the tobacco section of the old agricultural adjustment administration, would be here.

Roughest Winter Blast Strikes City During Night

Snow, Sleet and Rain Descend on Community

The roughest weather of a winter already considered by far the worst in many years, descended on Greenville last night and this morning.

American Legion Postpones Circus Until February 17

Bad Weather Cans Local Post of American Legion to Put Off Event For One Week

The American Legion-sponsored indoor circus, scheduled to be held in Gorman's warehouse here during next week, has been postponed until the week beginning February 17.

President Appears Confident Plans Will Be Made Law

Re-raises That Money Will Have To Be Made Available to Finance Farm Program One Year

Washington, Feb. 7.—(AP)—Seemingly confident his new farm program will survive any debate raging in Congress, President Roosevelt reiterated today that \$500,000,000 will have to be raised to finance it one year.

TWO METHODS ARE EMPLOYED IN EXECUTIONS

Electricity and Gas Both Used Same Day at Prison

IS FIRST TIME BOTH WAYS USED

Alamance Negro Is Electrocuted, Followed by Asphyxiation of Durham Men

Raleigh, Feb. 7.—(AP)—Two men were asphyxiated and one electrocuted today at state's prison here for murder in the first such legal triple execution performed east of the Mississippi river.

PRESENTS BILL CONTROL LEAF

House Gets Measure Calling For Compact

Washington, Feb. 7.—(AP)—Representative Virgil Chapman (D-Kan.) moved today to bring about burley tobacco acreage control through a compact between the producing states in event the new administration's soil conservation measure pending as a substitute to the AAA should fail of enactment or be held unconstitutional.

New Cutting Cold Rages Down Slope Rocky Mountains

Canada Gain Swings Open Flood Canada Again Swings Open Flood Bringing New Records

Drivers of Buses Are Paid Tribute By Motor Comp'y

Raleigh, Feb. 7.—The 4,000 school bus drivers in North Carolina, who transport 275,000 school children to and from school each day and who for the past year and a half have established a record of transporting 550,000 children a day without a fatal accident, are the "unsung heroes" of the state's great system of education, according to the foreword contained in the booklet "We Drivers" being distributed by the General Motors Corporation through North Carolina as a part of its safe driving campaign.

Officials Too Good For Salesman

Chicago, Feb. 7.—(AP)—A new current of cutting cold raged down both slopes of the Rocky Mountains today as Canada swung open the flood gates of the Arctic again.

Poland Guards Teachers' Health

Postpone Services of Prominent Merchant

Raleigh, Feb. 7.—(AP)—Funeral services for R. E. Quinn, prominent furniture man, which was scheduled to be held in Wilson this morning followed by interment in Elm City this afternoon, have been postponed until tomorrow due to the heavy snow.

Fire Loss For January Is Estimated at \$105

Will Enforce Law Providing Sewers In All Dwellings

Lighting System Governing Traffic Be Installed Soon

Dr. Rosenau Stresses Need for Prevention

Officials Too Good For Salesman

A salesman's fine manners and slick tongue might fool many a person but when one tries to city-slick Greenville officials he will have to get up early and stay up late.

THE NATIONAL WHIRLIGIG

(Continued from Page One)
dustrial safeguards if they are struck down, as some high-up legalists predict. The vote-making value of Supreme Court knockouts is perfectly clear.

JUICY: The politicians are losing their fright of the Townsend plan as a trouble-maker. Hardly a day passes that some member of the House does not deliver a healthy sweat against both the idea and its backers.

The new attack revolves around the charge that the California doctor and his second-in-command—E. E. Clements—are profiting financially from the movement. In a Congressional Record insert which attracted scant attention Rep.

Blanton of Texas asserted that Mr. Clements was moved by an "acquisitive instinct." The Texan quoted a former "disciple" as saying: "A year ago he (Mr. Clements) was broke. He and Dr. Townsend got down on their hands and knees in the first Townsend headquarters and painted the floor, so poor were they. Today Mr. Clements possesses a beautiful car, his clothes are of the finest weave, he lives at the finest hotels and uses airplanes almost exclusively for travel purposes."

TICK: Henry Reznick did a good turn for Comrade Norman Thomas when the GOP chairman demanded that the broadcasting companies show one generosity to anti-administration speakers. While the Socialists' quadrennial

presidential candidate was dining in a Washington club, he was approached by a representative of one of the two major chains. The radio arranger explained that he had not received any request for time from Mr. Thomas for the pre-convention period when it will be given without charge. Somewhat differently, the broadcaster said he understood that the Socialists were not oversupplied with funds.

SHIFT: An amusing strategy rebooked J. Bruce Kremer of the presidential spotlight at the Jackson Day dinner. The handsome Montana man, who quit as national committeeman to establish a lucrative law office at Washington, made the "still" pictures but not the news reel.

The sidetracking of the dinner chairman was not accidental. Some of FDR's closest friends didn't think it advisable for Mr. Kremer to enjoy so much free advertising. So it was arranged for Gus Gennerich, the President's bodyguard, to stand alongside his chief while the battery of "movie" cameras ground out their film. Ordinarily the Secret Service man steps back as soon as the President reaches his place.

OUT: There are several unknown reasons for the White House order barring photographers from shooting from the hip when they take pictures of President Roosevelt. The camera men naturally scheme to get distinctive "shots" of the nation's Chief Magistrate, and they succeeded at their group snapping of him on his birthday. During what he thought was a pause, Mr. Roosevelt removed his glasses, and the boys caught him with head bent and face hidden behind his hand. It was hardly a seemly or favorable glimpse.

But what nettled the Secretariat was the caption which one news service wrote under the picture. It said: "President Roosevelt worries over agricultural problems." Then a Washington newspaper used this photo alongside those of Candidates Knox, Borah and Landon and All Smith. The lineup showed FDR at a disadvantage. Hereafter the enterprising photographers must park their "candid" cameras on the White House doorstep.

By JAMES McMULLIN
PIECEMEAL: It's an open secret in New York legal circles that administration lawyers have no great relish for the task of defending the constitutionality of Title I of the utility act (the part that deals with holding companies).

strategy will be to try to save as they can by focussing on the more defensible parts of the law instead of handling the whole of Title I as a sink-or-swim proposition. They realize that this will weaken their presentation—but they feel they have no choice. The Supreme Court wasn't at all hospitable—in the AAA case—to the theory that a laws constitutionality can be decided piecemeal.

OVERSIGHT: One of the main reasons the administration is out on a legal limb—as insiders tell it—is because the "braintrusters who drafted Title I were so sharp they cut themselves." Said braintrustees included Felix Frankfurter of the Harvard Law School and his disciples Ben Cohen, Tom Corcoran, Jim Landis and M. W. Splawn. Their guiding philosophy was to make little ones out of big ones.

Power leaders themselves concede that it might have worked out that way if the Securities Exchange Commission had had the patience to go through an indefinite period of tactical persuasion. But its overconfidence that the utilities would knuckle under in a pinch led to a second mistake—the setting of December 1 as a registration deadline. That forced a showdown too soon and most of the big holding companies balked. The important point is that the act's authors—expecting no contest on the law as a whole—inserted provisions they themselves rated of doubtful constitutionality. They thought some of these might be challenged successfully in the courts—but they never dreamed of a mass attack on their entire handiwork. That oversight is costing Robert Jackson—who is running the SEC sit against Electric Bond and Share—and the Department of Justice plenty of headaches.

PROGRESS: The grief involved in the test of Title I of the utility act is in striking contrast to the complacency of the Federal Power Commission about the legal status of Title II. This section—tacked onto the act almost as an afterthought—greatly extends the Power Commission's jurisdiction over operating companies. Yet despite its alarming implications from the viewpoint of those who fear federal incursions on private enterprise, nobody is challenging Title II in court.

How come? Because Chairman Frank McHugh and his associates are using their new powers with the utmost discretion. About all they have done so far is to send out a couple of questionnaires. Suspicious utilities immediately consulted their lawyers as to whether they hadn't better refuse to reply. In each case the lawyers advised compliance on the basis that the Commission probably already had authority to ask such questions under the Federal Waterpower Act. Nor will there be any battle soon about directors of more than one operating company who have declined to apply for permission to continue their multiple directorships and are supposed to resign from all but one by February 25. The Power Commission will simply extend the date and thus postpone

Travis Trails 'Em

Snow-covered Georgia hills. A trusty gun, a pack of hounds—and Cecil Travis, shortstop for the Washington Senators, is off on Br'er Rabbit's trail at his home near Fayetteville, Ga., where he spends the winter. (Associated Press Photo)

hostilities until it feels it is on a secure legal footing.

An informed New Yorker remarks that the Power Commission is "just McNinch-ing along." But it is making progress in establishing jurisdiction—which is more than the Securities Exchange Commission can say about its share of the law. Interested observers call this situation a New Deal version of the hare and the tortoise.

BACKGROUND: Financial insiders privately concede that it isn't Mr. Roosevelt's fault if none of the members of the new Federal Reserve Board are men of outstanding reputation as bankers.

Several leading commercial bankers were asked to serve—and declined with thanks. In part their refusals were due to unwillingness to be associated with the New Deal. But in part also they trace to the failure of Congress to provide pensions for Board members. A job on the "Supreme Court of Finance" doesn't look so attractive to bankers of established ability. The remuneration is comparatively small and at the end you are simply dumped out on your own with no recompense for faithful public service.

None of the new Board members has any intimate knowledge of Federal Reserve traditions and practices. But E. A. Goldenweiser—director of the research and statistics division—can be called upon to supply any background that may be needed.

All Boy Scouts Notice.
Troop 30 Boy Scouts invite all Boy Scouts of Greenville to be their guests Saturday, February 8th, at six o'clock in the Rotary Club, to listen to the radio broadcast of President Roosevelt. Walter W. Head, president of Boy Scouts, and James E. West, chief scout executive, at 6:35.

Siberian Singers At College.
The Siberian Singers, a native Russian male chorus, will give a concert at the college two weeks from tonight, Feb. 21. This is one of the most noted of all the male choruses and has an international reputation. The other great Russian choruses, the Don Cossacks, appeared here several years ago, and made such an impression that people still place it among the greatest attractions ever brought to the college.

The Russians will wear the costumes of old Russia and will present a program of Russian music. The songs of Russia have become familiar to the American public and stir one to the depths, but they must be sung by Russians themselves, and by those who were a part of the old Russia.

President Price Tells Stockholders Story of Excellent Progress

Greensboro, N. C., Feb. 7.—"New insurance sold in 1935," Julian Price, President of Jefferson Standard Life Insurance Co. reported to stockholders "amounted to \$49,524,700, an increase of 6 per cent over 1934, while the increase for all United States companies was only 1 per cent. Our insurance in force increased by over \$15,000,000. We now have in force \$329,837,614. The persistency rate was much better."

Big Increase in Assets.
The Company's assets increased by \$4,317,937 during the past year the assets now totaling \$62,206,099, the highest in the history of the Jefferson Standard. Mr. Price showed the mortality rate has continued to improve. Gross income income increased \$1,149,724 over 1934, while the disbursements were less by \$327,391. The company paid in dividends to policyholders \$547,097, yet increased its unassigned surplus \$175,000. "Our contingency reserve for real estate depreciation and fluctuation in value of assets," said President Price, "has been increased by \$325,000, now standing at \$1,325,000. Adding this to our capital and surplus of \$3,000,000 gives us \$4,325,000 in capital, surplus and contingency reserves over liabilities. This puts us in the strongest financial position in our history."

Stockholders, quite largely represented at the meeting, declared themselves much pleased with the excellent showing made by the company during the past year, and there were a number of similar expressions at the directors' meeting, attended by every member of the board of directors.

Attention was called to the fact that the Jefferson Standard has 1,000 agents and is operating in 24 states, also the District of Columbia and Puerto Rico.

Payments to policyholders and beneficiaries in 1935 aggregated \$5,981,892. President Price's report showed the assets of \$62,206,099 were shown to be "approximately double the amount owned 10 years ago." The company is continuing to make satisfactory investments, having invested more than \$6,800,000 in high class city and residential property during the year. Bonds bought in the last two or three years, are yielding a good in-

terest rate and at the same time have steadily increased in market value. * * * With more than \$1,250,000 cash in banks, and more than \$1,200,000 in quickly marketable United States government bonds, we have ample liquid resources. * * * We continue our payment of 5 per cent interest on funds held in trust for policyholders and beneficiaries, interest yielding we believe we are justified in paying this rate of interest. The Jefferson Standard has paid 5 per cent interest on funds held in trust since organization in 1907."

Payments made to policyholders and beneficiaries since organization of the company were shown to total \$87,350,850. Capital, surplus and contingency fund aggregated \$1,950,000 in 1935—10 years ago—by comparison with \$4325,000 as of December 31, 1935 it was reported. During the same period assets increased from \$31,239,269 to \$62,206,099, and insurance in force increased from \$265,816,777 to \$329,837,624.

"This annual report is presented with the feeling that you will be highly pleased with the record of accomplishments," said President Price, who alluded to "all indications" as presaging "another year of successful accomplishments in 1936."

SCOUTS AID IN SAVING MONEY

To Help City Reduce Breakage of Street Lights

K. T. Futrell, civic service chairman of the Boy Scouts, announced today that the civic "Good Turn" for the Greenville Scouts for February would be to work in cooperation with the city officials in an educational program to reduce the amount of electric light breakage in the street lights.

During the month of January the total bill for light bulb replacement was \$220.28. No doubt, a good bit of this was due to bad weather and strong winds, but there were 45 bulbs that were deliberately broken and the bill to replace this needless destruction amounted to \$68.50. There is an accurate check kept of where each light is broken and its location.

Last year this problem was presented to the Scouts and Scout of-

Cardui
HELPED THREE TIMES
At three different times, Cardui has helped Mrs. Ike Wright of Sealy, Texas. "I used Cardui when a girl, for cramps, and it helped then," she writes. Next, after marriage, she reports having taken Cardui when she felt weak, nervous and restless before her children were born.

And during middle life, it helped her again. "I was miserable," she explains. "I did not have an appetite. I was very blue and upset. I remembered Cardui had helped me, so I took it again and soon began to pick up. I ate and had more strength. I kept up the Cardui and did not have any more trouble. Is it any wonder that I recommend Cardui to all my friends?"

Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician.

and through an educational campaign the breakage was reduced from over \$60 to no breakage in about four months.

In many instances, it is believed, street lights offer an irresistible target for those new Christmas air rifles and sling-shots. In many cases a few minutes of instruction as to the use of these toys may prove to be worth many times the value of the toy, not only to the parents but to the public that often pays for the targets.

Below is the location of each broken light:

Huge New Hospital At Swedish Capital Costs Ten Millions

Stockholm, Feb. 5.—(AP)—A complete "medical city," which, it is claimed, will be among the most modern of its kind in the world, is being constructed near here by the Swedish government.

It will cost \$10,000,000, and will include the latest hospital equipment as developed in all parts of the world.

The main building will be H-shaped, with a roof for sun-bathing, and will be seven stories high. It will contain operating

theatres, lecture halls, wards and laboratories.

In addition there will be a children's hospital, a building for psychiatric diseases, a rheumatism

clinic, swimming pool, football grounds, tennis courts, church and concert halls and homes for staff doctors, students and nurses.

Plans for the project were originated in 1931 and work on roads and excavations started in 1932. The foundation stone for a special clinic on cancer has been laid by King Gustav.

theatres, lecture halls, wards and laboratories.

In addition there will be a children's hospital, a building for psychiatric diseases, a rheumatism

clinic, swimming pool, football grounds, tennis courts, church and concert halls and homes for staff doctors, students and nurses.

Plans for the project were originated in 1931 and work on roads and excavations started in 1932. The foundation stone for a special clinic on cancer has been laid by King Gustav.

MAYOR ISSUES PROCLAMATION

Boy Scouts of City Observe Anniversary Week

In observance of the 26th anniversary of the organization of the Boy Scouts of America, Mayor I. K. Blount today issued the following proclamation:

The Boy Scouts of America, incorporated February 8, 1910, and chartered by Congress June 15, 1916 have during the past twenty-six years rendered notable service to the Nation. They have done effective work in this community and throughout the country. During the War their efforts on behalf of Liberty Loan and War Savings campaigns, and other measures were outstanding. In time of distress from flood, hurricane, tornado and other disasters they have demonstrated the effectiveness of organized boy service. During the period of economic stress through which the country has just passed, they contributed in many ways to the relief of suffering.

The Boy Scouts have not only demonstrated their worth to the Nation, but have also contributed to a deeper appreciation by the American people of the higher conception of good citizenship.

The objectives of the present Ten Year Program of the Boy Scouts

of America is to provide for the nation a citizenry in which one of every four of the new male citizens each year will have had at least four years of Scout training.

During the past twenty-six years 6,530,330 persons through the various branches of Scouting have enjoyed adventure, hiking, camping, swimming, woodcraft, handicraft, fellowship, health and safety, and have learned how to be helpful to others and have been trained to be participating citizens.

During the week from February 7th to 13th the Boy Scouts of America will celebrate their Twenty-Sixth Anniversary continuing with a year of special activities.

Therefore, I, M. K. Blount, Mayor of the city of Greenville do hereby recommend that the citizens of this city observe this Boy Scout Week and Anniversary Year for the purpose of strengthening the work of the Boy Scouts of America.

I earnestly recommend that our civic organizations, our churches, and our schools cooperate in carrying out a program for a definite recognition of the effective service rendered by the Boy Scouts of America, in order that the work of the Boy Scout Program may be extended to a larger proportion of the boyhood of this city.

The Boy Scout Movement offers unusual opportunity for volunteer service. It needs men to serve in various capacities as leaders of boys. I hope that all who can will, through the organizations with which they are connected, enlist for such personal service. Anything that is done to increase the effectiveness of the Boy Scouts of America will be a genuine contribution to the welfare of this city, the

Games Are Postponed Account Of Weather

The boys and girls basketball teams will not play the game scheduled with the boys quint and the girls sextet of the Williamston high tonight, Reynolds May, local high school coach announced today.

Due to the physical element of bad weather, the high school said it would be next to impossible to attempt the trip to Williamston tonight, and in a telephone conversation with the coach of the Williamston high today, he cancelled the

same until a later date.

This is the third game the boys quint of the local high has had to cancel this season due to inclement weather, but it has been announced that each cancelled game will be played.

Each member of the boys quint were going through their regular routine practice this afternoon, to assure themselves of victory when they do play.

It could not be learned as to whether the sextet of the Greenville high would play their game scheduled with the Williamston girls at a later date or not.

New York Cotton

New York, Feb. 7.—(AP)—Cotton futures opened barely steady, one point advance to four points decline with higher Liverpool cables offset by foreign buying.

At the end of the first hour the market was holding within a point either way of yesterday's close. May selling at 10.78.

The market at midday ruled about one to four points net higher, with March at 11.12 and October at 10.28.

N. Y. Stock Market

New York, Feb. 7.—(AP)—The stock market was filled with good intentions today but the urge to take profits raised a barrier to progress in various sections of the list.

Many of the leaders led by Chrysler jumped to new tops for several years during the first hour. Gains of fractions to two points or more predominated in that period. In the subsequent backing up movement extreme advances were handled or cancelled and scattered declines up to a joint or so made their appearance.

The late stock tone was mixed. Transfers approximated 2,700,000 shares.
