STRIKES GAIN Footholds IN WIDE SECTION

Goodyear Tire And Rubber Employes Quit Posts

LINERS TIED UP IN COAST STRIKE

J. I. Case Company Rejects Proposal for Truce and Hints of Leaving Wisconsin

(By Associated Press) Strikes in industries supplying units for automobile production extended today to the Goodyear Tire and Rubber Company, at Akron, where a plant employing 6,000 workers was closed.

Some 400 of the workers started a sit down strike last night, one of a series of more than 20 this year, and turned back employes on midnight shifts at the gates.

Company officials said they were informed the strikes were in progress against a new head room wage rate and a rotation work system in the truck tire department.

Approximately 7,300 workers engaged in plate glass production in Pennsylvania, West Virginia, Ohio, Oklahoma and Illinois and 19,000 employed in the Midland Steel Products company at Detroit, makers of automobile frames remained idle.

Federal and state conciliators resumed efforts to settle the strike of 6,000 employes at the Pittsburgh plate glass company.

At Duluth, Minn., night shifts employes of the Coolerator corporation, refrigerator manufacturers left their jobs after a strike called by the amalgamated association of iron, steel and tin workers.

Two trans-Atlantic liners were affected by the maritime strike which continued on the Pacific, Atlantic and Gulf coasts.

At San Francisco striking maritime workers laid plans for a huge parade Saturday in which they said 25,000 persons would participate and called a public mass meeting and parade here next Tuesday.

The J. I. Case company, manufacturers of farm implements at Racine, Wis., rejected a union proposal for a truce and issued a statement declaring "it is evident the company is not wanted here and is about to be forced from the county and the state."

Duke's Graduates Living In County To Attend Dinner

Professor J. M. Ormond, Noted Author and Educator at University, to Deliver Principal Address

The Duke University alumni and alumnae of Pitt county will hold their annual University Day Dinner in Greenville on December 15th.

The University Day Dinner here is one of many to be held in North Carolina and other states in commemoration of the twelfth anniversary of the creation of the Duke Endowment on December 11th, 1924, making possible Duke University.

The feature of this occasion in Greenville will be an address by Professor J. M. Ormond, noted author and educator, of Duke University. He will bring a message regarding the aims and purposes of the institution and various phases of its growth and development at this important period of its history.

In addition to the address of the evening there will be a number of other interesting features, including brief remarks by several guests, an appropriate musical program and the election of officers for the ensuing year.

Western Nations Open Hearings On Peace Conference

Representatives From 21 American Countries Begin Actual Work of Perpetuating Peace

Buenos Aires, Dec. 3.—(AP)—Twenty-one nations of the western hemisphere reported their actual work of perpetuation of American peace today.

The delegations of the 21 states forming the steering committee of the inter-American conference met under the chairmanship of the Carlos Lamas Argentine foreign minister.

From the conference deliberations, which the committee guide, are expected to come inter-American pact to keep the peace and line the states up against outside aggression.

WAR AT MADRID DRIVES CITIZENS TO SUBWAYS

Terrified by the increasing rain of artillery shells and airplane bombs, citizens of Madrid are shown packed into subways in quest of refuge. Fascist aviators attacked the city with renewed fury with the lifting of rainy, foggy weather. This picture was sent to the United States by radio. (Associated Press Photo)

NEGRO WOMAN IS SENTENCED

Dora Green Gets 7 to 9 Years for Assaulting Witness

Dora Green, negro woman who yesterday assaulted Arthur Tyson, negro, who testified against her husband, Herbert Green, charged assault with a deadly weapon, was sentenced to from seven to nine years following her trial today on a charge of assault with a deadly weapon with intent to kill.

The negro woman, given a bad reputation by local peace officers, cut Tyson with a knife as he started to leave the court house after having testified for the state against Herbert Green. Emma Green, daughter of Dora, was given a 30-day jail sentence for engaging in the disturbance.

Jesse Grimes, negro, was convicted of manslaughter, but judgment was not passed immediately. W. J. Bundy, defense attorney, asked that the verdict be set aside, but the plea was denied by Judge J. Paul Frazier, presiding jurist. Grimes was convicted of killing James Short, another negro, in Bethel, on June 19.

Charlie Ross and John Ross, white men, were given terms of three to four years upon conviction of larceny of tobacco. Jesse Lee Ange, also indicted with the two, turned state's witness and was given an 18-month term.

Rain Again Halts Annual Red Cross Drive For Funds

Bad Weather Keeps Workers, Most of Whom Are Women, From Pushing Membership Campaign

Steady rains today again held up the work of Red Cross Roll Call canvassers and further delayed the completion of the work, which it had been planned to finish on Tuesday. Since most of the work of canvassing is being done by women the bad weather of the past few days has proved a serious handicap.

The response to the canvass so far has been most gratifying, officials said. "A particularly fine response has come from the business houses in the downtown district. Up to noon today only one store in the downtown district has declined to contribute. Several had taken membership 100 per cent, among them, Blount-Harvey, Elird's Department Store, the Charles Store and the Guaranty Bank and Trust Co. Others who have always been 100 per cent members in the past will doubtless do the same this year when the canvassers can get to them.

The East Carolina Teachers College, where the Roll Call is looked after each year by Miss Agnes Waddington, has always enrolled 100 per cent and will do the same this year. Each of the City schools is being canvassed through the principals and when reports are all in will make substantial increases in the memberships already reported.

A species of Texas Bergia found near Stillwater, Okla., may be new to Oklahoma, botany experts say.

Insurance Firms Distribute Cash

New York, Dec. 3.—(AP)—Disbursements and credits to policy holders by life insurance companies in the United States will total approximately \$2,400,000,000 in 1936, William H. Kingsley, president of the Penn Mutual Life Insurance company, reported today at the opening session of the annual convention of the association of life insurance presidents.

FDR HALTS ON JOURNEY HOME

Given Great Welcome in Tiny Republic of Montevideo

Montevideo, Dec. 3.—(AP)—President Franklin D. Roosevelt, returning from his Latin-American voyage of peace, stopped here on his return to the United States today to the cheers of this tiny republic and in the outstretched arms of President Gabriel Terra.

President Roosevelt declared a "new era of friendship and confidence among the Americas" was born at the Pan-American conference here three years ago.

Addressing a luncheon given for him by President Terra after an enthusiastic reception by Montevideo's population and officials, the United States executive declared:

"I believe that when it comes to the origin of the new American era, will be placed here in the memorable year of 1933.

"Truly it is an inspiration for the average citizen of all our republics that that confidence is giving back its fruits in terms of achievements for the people of the world."

"During the past week," Mr. Roosevelt said, "I have become certain of this because I have seen in the faces of the men, women and children in Rio de Janeiro, Buenos Aires and today in Montevideo, a joyful expression of hope and faith which can and will inspire us, their chosen representatives, to even greater activity in the common cause."

Wife-Slayer To Die In Chair January 21

Gastonia, Dec. 3.—(AP)—Raymond Edwards stood with calm today as Judge E. B. Finley sentenced him to die by gas Thursday, January 21, for the axe murder of his young wife.

Ernest Warren, attorney for the textile worker, gave formal notice of appeal.

Democratic Party Given Huge Sums By Weed Heiress

Washington, Dec. 3.—(AP)—Senate investigators reported today that John D. Rockefeller, Jr., gave \$76,020 to Republican campaign funds, while 19 state Democratic organizations received \$50,000 from Mrs. James R. H. Cromwell, formerly Doris Duke, the tobacco heiress, Tennessee, South Carolina and Virginia were included in Democratic state groups Mrs. Cromwell aided.

STORE ROBBED IN FARMVILLE

Turnage Company, Inc., Entered And Some \$400 Stolen

Farmville, Dec. 3.—Turnage Company, Inc., general merchandise store here, was broken into and robbed early this morning of a sum estimated at more than \$400.

Store officials said that the robbery evidently occurred between 2 and 4 o'clock this morning. Police officials declared that the night patrolman chased a car thought to have been occupied by the robber or robbers from the city, but was unable to get close enough to read the license plates or get a good description of the automobile.

Bowen Dorsey of the Greenville police department, came here this morning to attempt to find finger prints, but met with little success. He said the robber or robbers evidently wore gloves to prevent authorities from checking up through this manner.

About \$400 or \$500 was left in the safe, leading officials to believe the robbers were frightened away before they completed their looting. This sum was in the same safe which was robbed, but in a different compartment.

A grocery store was robbed here the night before Thanksgiving, but the one last night was not thought to have been committed by the same persons. However, officers were investigating this possibility. Greenville has reported several drug store robberies recently and officers were considering the possibility the same persons are operating in both places.

Pension Advocate Along With Aides Under Indictment

Dr. Francis E. Townsend Held in Contempt of Court Charges Growing Out of Investigation

Washington, Dec. 3.—Dr. Francis E. Townsend, co-founder of the Townsend Old-Age Pension movement, and two affiliates, were indicted by a federal grand jury today on contempt charges growing out of their defiance of the Congressional investigating committee.

The Rev. Clinton Wunder, of New York, and John B. Kiefer, of Chicago, both of whom were original directors of the Townsend organization, were named along with the elderly California physician.

Harry L. Underwood, a District United States attorney, told newspaper no bench warrant would be issued for either Townsend or his aides, but that an attempt would be made to force Senator Thomas W. Harwick, of Georgia, Townsend's attorney, to have the pension advocate surrender.

FOUR YEARS OF BRIDGE END IN NEAR TIE

Ottawa, Kas. (AP)—Bridge games played over a four-year period proved the truth of the law of averages to two couples here, Mr. and Mrs. A. L. Cook and Mr. and Mrs. W. W. Broyhill.

In that time Cook and Mrs. Broyhill won 552 games with 855,565 points, while Mrs. Cook and Broyhill took 548 games with 855,526.

REBEL BOMBS BURST AGAIN IN AIR RAIDS

War Spreads to Many Fronts Near Capital City

LOYALISTS HAVE ONE COMMAND

General Miaja Assumed Virtual Dictatorship as Result of Possible Shakeup

Madrid, Dec. 3.—(AP)—Fascists bombs burst again in Madrid in two air raids today.

While artillery and machine gun fire and the dull boom of hand grenades sounded incessantly in the University City and model prison fronts in northwestern Madrid, planes dropped a score of bombs in the Rosales section. Several others fell in Retiro park near government batteries.

Damage was comparatively slight. The war spread on many fronts from the Guadarrama mountains, north of Madrid to the Cordova sector of the south. Dispatches from Motero said government dynamiters had blown up the railroad between Cordova and Vilaharda after a battle.

Continued fighting also was reported in Asturias to the north.

General Jose Miaja, became the virtual director of Madrid's defense.

Creation of a single command for whole Madrid area was believed probable as a result of a shake-up of the junta yesterday just before three disastrous raids by insurgent bombers.

For the first time in many weeks the Guadarrama mountain sector to the north was a center of fighting and observers said the conflict appeared to be the opening of a general battle for possession of Pozuzo and Aravaca, Madrid suburbs.

Mrs. Moore Calls Workers To Meet Discuss Seal Sale

Territory to Be Assigned to Canvassers at Session at Health Department Offices on Monday

Mrs. J. H. B. Moore, chairman of the Christmas Seal Sale for Greenville, has called a meeting of the Seal Sale workers for Monday morning at 11 o'clock in the offices of the Pitt County Health Department, 215 W. Third street.

At this time, each worker will be assigned a limited territory, seals will be given out and the workers given final instructions.

Mrs. Moore stated that for fear that some person may be overlooked who would like very much to assist in this important welfare work, she hoped any such person will feel at liberty to volunteer his or her services and attend the meeting of the workers on Monday.

Mrs. Moore further stated that she expects to have such a large group of workers that each worker will be assigned only a small territory and the campaign pushed to completion without delay.

18 DAYS TO SHOP

Behind the CHRISTMAS SEAL 1882 KOCH discovers the tubercle bacillus

To Robert Koch, a country doctor in Germany, belongs the credit for finding the germ that causes tuberculosis. In his tiny laboratory he had been working for years on methods of growing the germ and his brilliant discovery is one of the greatest scientific advances of all time. The results of his efforts have saved thousands of lives and opened up new vistas in research work for those eager to control tuberculosis.

Rev. Thos. Grant Assumes Duty As Methodist Pastor

Rev. Thomas M. C. Grant arrived in the city today to assume his duties as pastor of Jarvis Memorial Methodist church, succeeding Dr. G. R. Combs, who was transferred to Hendersonville, in the western district. The new pastor had been serving as presiding elder.

Rev. Mr. Grant was accompanied by his wife, daughter, Miss Ruby Grant, and his father, Reuben Grant. They are residing in the parsonage at 403 East Eighth street.

King Edward Declares Aim To Retain Both Throne And Friendship Of Mrs. Simpson

WILL CONTINUE FRIENDSHIP

FINISH FIGHT IS PREDICTED

Prime Minister Baldwin Takes 600 Members of House of Commons by Surprise in Declaring He Has Nothing To Say Following Conference with King

London, Dec. 3.—(AP)—King Edward VIII, of England, won his first show of strength today in his all-critical fight with the British government to keep his throne and his American friend, Mrs. Wallis Warfield Simpson.

Defiant, yet his empire's fate close at heart, the sovereign insisted stubbornly on his right to a private life.

Gray and shaking, Stanley Baldwin, his first minister, stood before the House of Commons in emotional anti-climax to insist he had nothing to say to the British people.

Then dramatically, the labor leader, Right Honorable Col. Joseph Clement-Wood, told the British press association an apparent confirmation of the authoritative impression that the king was winning at least the first phase of his empire-stunning battle.

"The King is beloved. The thing we have got to do more than anything else is abdication. Any change will tear this country in two. If a general election comes, the outcome will be on the side of the King."

His words echoed those of the Liberal Afternoon Star, which said: "Why should he (the King) be denied the common happiness of mankind?"

London, Dec. 3.—(AP)—King Edward has made up his mind to keep both his throne and his friendship for Mrs. Wallis Simpson, one of the highest sources in the kingdom told the Associated Press today.

In his guarded Fort Belvedere retreat with both Mrs. Simpson and his brother, the heir presumptive Duke of York, the bachelor head of the House of Windsor let it be known he will never surrender to Prime Minister Stanley Baldwin.

He will fight to the finish on the constitutional issue which has been raised against him by his minister's insistence that he renounce his twice divorced American friend.

If he loses it might even mean abdication—but those who know the king's will said this afternoon that even that extreme would not break up his friendship for the woman whose name has become anathema to the British government and the church of England.

That was the dramatic position of the British crown at 2:30 p. m. as Baldwin arrived at the House of Commons after a long conference in Downing street with Sir John Simon, home secretary and the empire's greatest legal expert.

Six hundred members of parliament, tense in expectancy, waited for promised words from the premier on the constitutional question. Baldwin surprised the expectant members when he arose to say: "I have no statement to make today."

The routine for the breath-taking common procedure had been outlined this: Clement R. Attlee, leader of his majesty's opposition had decided to rise from his seat just opposite the premier and ask him simply: "Has the prime minister a statement to make?"

Then was to have come Baldwin's reply fully and frankly. Whatever the answer, it was learned on excellent authority Mrs. Simpson probably will leave England soon and seek seclusion either on the continent, or an ocean voyage.

She will remain away for several months, but does not intend to go to America. She will stay by the king's side until he himself sanctions her departure.

MYSTERIOUS DISEASE KILLS SCOTTISH HORSES

Edinburgh, Scotland (AP)—Scottish farmers are suffering serious losses from a mysterious disease known as "grass sickness."

Attacking only horses it proves fatal in 90 per cent of cases. It appears to be a nervous disorder and causes the animals to go into a comatose condition.

Tobacco Market To Close Season On December 11th

Successful Year to Close Brought to Close Next Week

The Greenville tobacco market will close its 1936 season on Friday, December 11, after having enjoyed one of the most successful seasons in several years.

Through sales yesterday, 46,350,000 pounds of the golden weed had been sold of the local market, bringing a total of \$11,083,152.34 for an official average of \$23.72, thought to be the highest in the belt.

During the season, which is drawing to a close farmers from all over Eastern North Carolina and even from South Carolina and Virginia, brought tobacco here to be sold and returned, apparently satisfied. Farmers from more than 45 counties in the three states brought their product here during the height of the season.

The last government report showed that the Greenville market had paid the highest price paid by any in the belt.

The crop this year was lighter than in 1935, but this had been expected. The higher average struck on the market, however, resulted in farmers getting almost as much for their short crop as they received for the bumper 1935 crop.

All grades of tobacco have sold good on the local market this year, and the higher average was struck despite the fact that tobacco of the poorest quality was offered, while last year the farmers could get as much as five cents a pound for sorry grades from the government and withheld such weed from the warehouse floors.

Automobile Firms Charged Violating Commission Rules

Eight Companies Are Declared to Be Violating Unfair Competition Section of Trade Act

Washington, Dec. 3.—(AP)—The federal trade commission charged 21 automobile manufacturers and finance companies today with obtaining a higher rate of interest on deferred payments than they have advertised they charged.

The commission issued eight complaints charging violation of the unfair competition section of the trade commission act. It said the complaints alleged the companies advertised they sold cars on an annual six per cent interest plan. Actually, the commission charged, the companies' interest payments are about 12 per cent.

30,000 CHECKS SENT MONTHLY

Vouchers Written To Pay Teachers, Other School Bills

Reflector Bureau, Sir Walter Hotel.

Raleigh, Dec. 2.—More than 30,000 checks or vouchers are written each month in order to pay the school teachers, bus drivers, mechanics, janitors and to pay for school supplies, Lloyd Griffin, executive secretary of the State School Commission, pointed out today.

Not a single one of these vouchers is written by the School Commission, however, since neither Secretary Griffin nor any one connected with the commission has authority to issue a voucher or spend a penny of the school fund. All of these vouchers are written by the various city and county superintendents, or by the State Superintendent of Public Instruction.

The School Commission, however, certifies and releases the allotments for all of the county and city districts each month, so that no super-

intendent may write any vouchers until his allotment has been certified and released. The commission is now in process of releasing allotments for December, which will amount to approximately \$2,500,000, Griffin said.

All of these allotments are usually released during the first five days of each month. Before they are released, each superintendent must submit a budget of his prospective needs for the month. These budgets are then checked item by item in the auditing division of the School Commission and if found to be correct, an amount equal to the sum called for in each budget is certified to the State Treasurer for release.

The various superintendents may then draw their vouchers for the amounts shown, but not for any more than the amount certified and released within any one month. The 30,000 or more vouchers a month issued by superintendents go through the Treasurer's office for payment and are then sent to the office of the School Commission to be checked with the duplicates and to be audited.

This system gives a positive check on school expenditures and makes it impossible for superintendents to expend any school money except for the objects shown in their budgeted requests submitted each month, Griffin pointed out. Thus the School Commission exercises the same check on school expenditures that the Budget Bureau does on other state expenditures.

Favors Adopting Practical Topics For High Schools

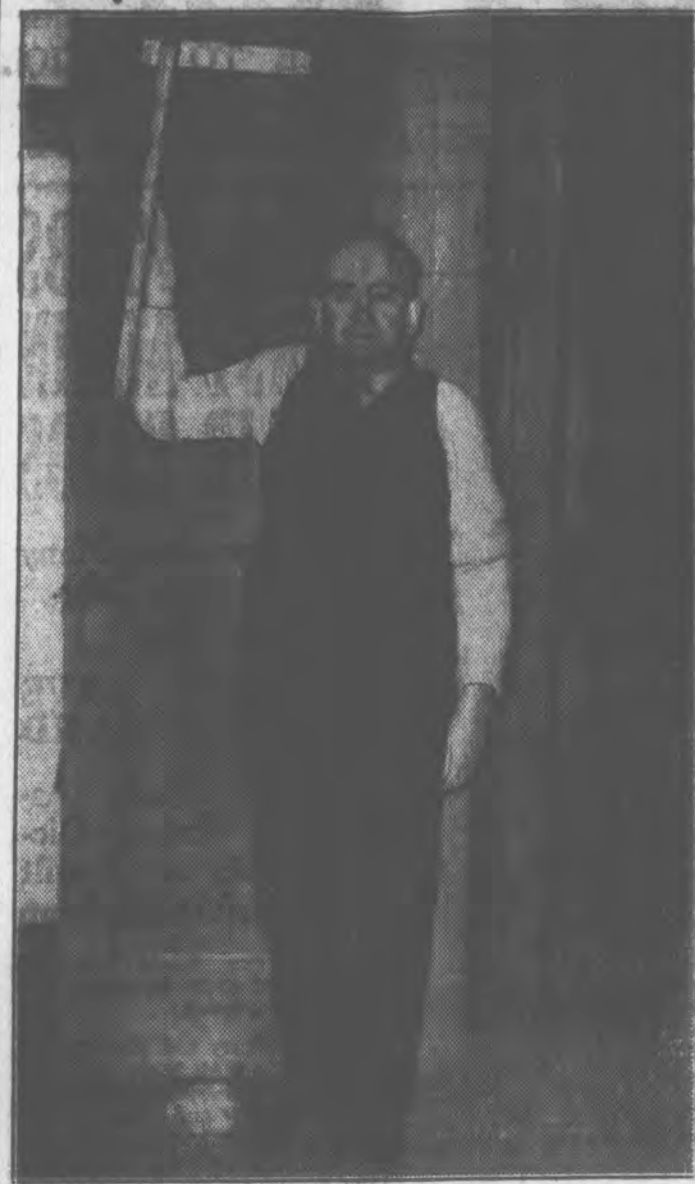

State Superintendent Erwin and Textbook Committee Would Like See Vocational Training

Reflector Bureau, Sir Walter Hotel.

Raleigh, Dec. 2.—More practical subjects need to be taught in the high schools in North Carolina, State Superintendent of Public Instruction Clyde A. Erwin said today. For more than a year attention has been given to the revision of the high school curricula both by Mr. Erwin and the High School Textbook Committee, but a great deal of work still needs to be done along these lines, while means must be found of obtaining the additional money required to put into effect more vocational subjects and training, Erwin pointed out.

"There is no doubt that the high schools are not providing the type of education and training they should provide for a majority of those who attend them and graduate from them," Erwin said. "Instead of trying to fit so many for college entrance or for 'white-collar' jobs we need to have more courses in practical subjects, such as brick masonry, carpentry, automobile mechanics and other sub-

'SHRINKING MAN' GAINS WEIGHT

Hans Nelson, the "shrinking man" of Minneapolis, is proud of the fact he has gained 15 pounds since doctors checked the mysterious malady that caused his stature to shrink from five feet and 10 inches to just five feet, and his weight to come down from 190 pounds to 140. He is pointing to his height before the disease, known as Ostitiamaia, attacked him. (Associated Press Photo)

jects that will help thousands of boys to get jobs and earn a living.

At the present time, it is almost impossible to find enough brick and stone masons, carpenters and trained mechanics to fill the jobs that are available, yet there are thousands of boys and men who have been through high school who cannot find jobs. This means that there is something radically wrong with our high schools, or at least something wrong with what they are teaching.

North Carolina will have a chance to secure much more Federal Aid for vocational education during the next two years if the 1937 general assembly will only appropriate enough funds to match Federal funds already available, Supt. Erwin said. He is hoping the legislature will see the importance of more and better vocational education in the state to get approximately \$750,000 more in Federal funds for his purpose. Most of the rural schools now have good courses in vocational agriculture and domestic science, but the city and town high schools need courses in mechanical arts, such as masonry, woodworking, carpentry and automobile mechanics, Erwin believes.

free textbooks, grade by grade, and we are now in process of preparing these estimates," Supt. Erwin said. "Until all of these figures have been prepared, I do not want to make an approximate estimate of the most of the free textbooks program. These estimates should be completed in the near future, however, and I shall be glad to make them public then."

Supt. Erwin pointed out that the state had already purchased approximately \$1,000,000 worth of textbooks for the state-wide rental system, and that these books would of course be taken over as a part of the free textbook system. But he was not able to say how many more books would have to be bought to add to this number, although he felt sure the number would be considerable.

"I feel that it would be unwise to try to extend any free textbook system to the high schools at this time, due to the fact that the high school curriculum is now being revised and needs still further revision in the next few years, with the result that books that might be purchased this year would not be needed two or three years hence," Supt. Erwin said.

Would Distribute Books Sparingly In Tryout Period

Superintendent Erwin in Favor of Introducing Free Textbook System Gradually in State

Reflector Bureau, Sir Walter Hotel.

Raleigh, Dec. 1.—If the forthcoming general assembly decides to establish a free textbook system for the public schools, as Governor-elect Clyde R. Hoey has already proposed, indications are that the free textbooks will either be introduced gradually, a few grades at a time, or that they will be made available only in elementary grades at first.

State Superintendent of Public Instruction Clyde A. Erwin said today that he would recommend that for the time being, the free textbook program be confined only to the elementary schools. He also said that at the present time he could not make any estimate as to how much the free textbook plan would cost if limited only to the elementary grades, but that he was compiling data on the cost now at the request of Mr. Hoey and would have these figures soon.

"Several weeks ago Governor-elect Hoey asked us to prepare estimates for him on the cost of

gourds to dishes

Bluefield, W. Va.—(AP)—J. D. Deaton has a new set of dishes—all made from gourds grown in his backyard.

"They are unusual," said Deaton, "but not quite as satisfactory as the clay kind."

He carved the gourds, then baked them.

Montana Holds School In Trailer

Libby, Mont. (AP)—A "trailer school" instead of a lamb follows little Mary in rural Montana.

Lincoln county school trustees built a schoolhouse on wheels and set it up for five pupils on a ranch 50 miles from Libby.

If it's successful, other "trailer schools" will be built, the trustees said, and hauled to districts so isolated in sub-zero winter months it is impossible to take children in buses over deep snow-drifted roads to established rural schools.

Tree-frog is more closely related in structure to toads than to frogs proper.

Man About Manhattan

By George Tucker

New York — An early morning telephone call from Evelyn Thaw just as she gets into Pennsylvania station:

"What about that candy, Mister?"

Evelyn is a little girl who has become the premiere danseuse of 'The Show Is On,' a new Beatrice Lillie-Bert Lahr revue. Last summer, on a hotel roof, she predicted that the winter of 1936 would be the turning point in her career.

"I'm going to get somewhere this time—before Christmas," she told me seriously. When I agreed that I thought she would she shook her head. "No," she said, "you're just saying that—you don't believe one word of it."

"All right then, you're going to starve!"

"Now we're getting somewhere," she cried. "Let's bet on it."

"A box of candy against a bright new scarf? I like those new ones with plaids."

Evelyn wagged a finger under my rather long nose. "It's a bet you're going to lose," she warned.

There was a gal who knew her onions.

A couple of ham actors were discussing the absence of a former musical comedy star. "Haven't you heard?" inquired Ham No. 1. "She's singing torch songs in a Brooklyn canteen."

"Ah," murmured Ham No. 2. "Prelude to Exile!"

Then there was that temperamental actress who refused to rehearse with the rest of the cast.

"I'll have to work this out by myself," she insisted. "The presence of others gets on my nerves."

"What you mean," snapped the director, "is that you're adjusting yourself to the solitude of the Second Night."

In third avenue there exists a colony of Irish-born patriots. The talk in that neighborhood rings with such names as Cork, Kilkenny and Tipperary, and from every pocket bulges a wad of DuSain newspapers. Their most enthusiastic subject of conversation is politics—Irish politics. They frequently come to blows over their differences of Irish political opinion, but never over politics in New York. Here they unanimously vote the same ticket.

The metamorphosis of Paul Whiteman grows more evident with each new season. The former King of Jazz is gradually withdrawing from the field of popular music and devoting himself to symphonic movements and recitals in upper bracket circles. His most recent New York appearance in a classical role was as conductor of the Philadelphia Symphony orchestra at the Hippodrome.

It isn't generally remembered

that obscure beginnings have sent many orchestral big shots on their way. But Vincent Lopez is willing to remind you: He began his career as a pianist in a Sheepshead Bay eatery, right next to Coney Island. And Irving Berlin was a piano-banger in a Chinatown honky-tonk.

However, poverty in early youth isn't essential to success. Albert Spalding was a 100 per cent silver spoon baby. Independently wealthy, music in his hobby as well as his career.

Although seldom used, hitching posts and water troughs may be seen in many parts of the south today.

7th day of December, 1936 at 12 o'clock noon.

That piece of land known as lot No. 6 in the division of the Mizelle farm, beginning at the south east corner of lot No. 5 and runs N. 4-45 E. 2117 feet to Moye's run, thence down said run to the corner of lot No. 7, thence S. 4-45 W. 863 feet to a stake, then S. 71-15 W. 1183 feet to the beginning, containing 34-7-10 acres, to this is to be added the share of woodland which is hereafter to be surveyed by J. B. Harding, Surveyor, and the same land conveyed to Baker Best by Moses Daniel, This the 6th day of November, 1936.

Libby, Mont. (AP)—A "trailer school" instead of a lamb follows little Mary in rural Montana.

Lincoln county school trustees built a schoolhouse on wheels and set it up for five pupils on a ranch 50 miles from Libby.

If it's successful, other "trailer schools" will be built, the trustees said, and hauled to districts so isolated in sub-zero winter months it is impossible to take children in buses over deep snow-drifted roads to established rural schools.

Tree-frog is more closely related in structure to toads than to frogs proper.

Social and Personal

Mr. and Mrs. L. R. Ausbon have returned from a visit in Raleigh. Cliff Rhodus and L. D. Moore will leave tonight for Charlotte, where Mr. Rhodus will attend a mechanics school.

T. S. Tyson, of Norfolk, Va., is spending several days here. Mrs. Hugh Holt, of Warrenton, is the guest of her parents, Mr. and Mrs. W. Z. Morton.

Mrs. B. O. Turnage of Farmville was here today. Mr. and Mrs. Charlie H. Mills of Greenville Route 3 left Wednesday to spend the winter in Miami, St. Petersburg and other points in Florida.

Mr. Ferguson injured Friends of Mrs. F. Ferguson will regret to learn that she is suffering from a broken ankle, received several days ago in a fall.

Mrs. Nobles Improving Friends of Mrs. W. L. Nobles, who has been quite ill in Pitt General hospital, will be glad to learn that she is improving.

Men and Women—Special Our artisans' policy, especially written for anyone covered by compensation: Pays any sickness or accident not covered by compensation. This plan costs you about half the regular price. No prohibited occupational risks. Delays are dangerous. Phone 150 or 280. Claude Tunstall. (Adv't.)

Master J. D. McLawhorn, Jr. Friends of Master J. D. McLawhorn, Jr. of Winterville, will regret to learn that he is ill in Pitt General hospital.

U. D. C. to Meet The George B. Singletary chapter United Daughters of the Confederacy will meet on Friday afternoon at 3:30 with Mrs. F. C. Harding.

Mr. Windham Ill Friends of A. F. Windham will be sorry to learn that he is ill at his home with an infected hand.

Mrs. Clapp Ill Friends of Mrs. G. A. Clapp will regret to learn that she is ill at her home on Evans street.

Gold Fish See our display of Goldfish and aquariums. Complete with colored rocks and seaweed. Baker & Davis Hdw. Co. (Adv't.)

Mrs. Tingle Honored Last evening at her home on Lawrence street, Miss Ruth Willard delightfully entertained at bridge honoring her sister, Mrs. J. R. Tingle of Washington, D. C., who was recently married.

Autumn flowers and potted plants were artistically used in decorating the home.

During the game the hostess assisted by her mother, Mrs. E. L. Willard served Christmas candies and Coca Cola and at the conclusion of the game served a tempting salad course.

Miss Opal Harris was awarded a potted plant for high score and Miss Julia Foley a bon bon dish for low score. A pleasant surprise for Mrs. Tingle was when Miss Ella Smith gave a toast and presented her with a shower of miscellaneous gifts from the guests.

Gifts Visit our gift department before you purchase your Christmas gifts. We are sure we can please you. Baker & Davis Hdw. Co. (Adv't.)

Miss Barnes Entertains Miss Frances Barnes, president of the College English club, entertained the students and faculty members at a tea Wednesday afternoon from 4:30 to 5:30.

Mrs. Victor Blakeslee (Irina Skariatina) was the guest of honor. Miss Marian Wood, chairman of the social committee received the guests at the door. The hostess introduced them to the receiving line, which included Mrs. Blakeslee, Misses Holclaw, Turner and Jenkins, and Dr. and Mrs. Baughan.

Faculty members helping to receive were: Misses Greene, Hooper, Grigsby and Morton.

Those students serving and assisting in receiving were: Misses Susan Rose, Helen McGinnis, Louise Taylor, Ruth Wood, Alice Hicks Smith, Evangeline Barfield, Geneva Brown, Mildred Edwards, Verdesa Dillay, Onie Cochran, Margaret Whitehead, Naomi Newell, Frances Currin, Martha Scoville and Helen Taylor, and Messrs. Tom Dennis, Judson White and Vernon Ward.

Winterville News Mrs. Willie Beddard was a Greenville visitor Friday afternoon.

Mr. and Mrs. Bill Gerrard and small daughter, of Washington, N. C. spent Sunday with Mr. and Mrs. J. O. Edwards.

J. R. Cox of Cape Hatteras was home for Thanksgiving holidays.

Mr. and Mrs. Bernice Hobgood of Youngsville were here Friday to attend the funeral of Mr. Hobgood's father, J. L. Hobgood.

Mr. and Mrs. Ben Williams and daughter, Marie, of Kinston, spent Sunday afternoon with Mr. and Mrs. L. A. Manning.

Mrs. Hubert Kittrell was in Greenville Friday afternoon.

Miss Louise Kittrell of Fountain spent the holidays with her parents, Mr. and Mrs. G. A. Kittrell.

Misses Bullock of Rocky Mount spent a few days here last week.

Social Calendar

THURSDAY
7:30 P. M.—The choir of Memorial Baptist church, will meet for practice.

FRIDAY
3:30 P. M.—Program for Foreign Missions, Memorial Baptist church. Leader, Mrs. W. L. Hall.

3:30 P. M.—The George B. Singletary chapter, United Daughters of the Confederacy will meet with Mrs. F. C. Harding.

3:30 P. M.—The West Greenville Parent-Teachers Association, will meet in the school.

Plants
Brighten up your home these cool days with a colorful potted plant. See our flower display. Baker & Davis Hdw. Co.—(Adv't.)

Skariatina Speaks at College
Describing herself as a good-will ambassador from the land of her birth to the land of her adoption, Irina Skariatina, noted Russian author, addressed an audience of 800 in the Robert H. Wright auditorium at the College last night.

Smiling graciously at her audience, Miss Skariatina opened her lecture by expressing her pleasure at being in Greenville and by making a remark on the beauty of the marshes, who wore purple and gold ribbons.

She then described some of the better books on Russia, including those by the Grand Duchess Marie and by Walter Duranty, which she praised. She criticized some authors who visit her country for a month and, upon their return to America, write a Russian "encyclopedia" which pretends to be the "last word" on a country which covers a fourth of the land surface of the world and contains 170,000,000 people.

"The Russian Revolution began, not in 1917, but four hundred years ago," she said. After tracing numerous uprisings and revolts that occurred when the peasants were feudal slaves, she told of the Imperial revolution which took place under the rule of Peter the great.

Her address was rich in personal references. She said that she has been frequently accused of being a communist because of her belief in the modern Soviet government. But in America, she said, she is a Democrat.

She explained that her liberal political attitude is due to the influence of the professor who taught her, the doctor who treated her family, and the political salon which her mother conducted in St. Petersburg. Though her professor was in strong disagreement with her father politically, he was a friend of the family. He did not hesitate to instruct Irina as to the condition of poverty, ignorance, filth and disease existing among the common people. The doctor actually drove her about the country on his buggy and showed her the suffering endured by people living hoveled together in mud houses.

And some of the visitors at her mother's salon, even though all were of royal or noble blood, had views which definitely leaned toward radicalism.

She told of her experiences in prison, when once she was on the verge of facing the firing squad; and at the case of pneumonia, contracted in prison, which resulted in her contact with doctors at an American hospital, a contact which made it possible for her to secure a passport and legally to visit America.

Her speech was shot through with witticisms which completely won the audience.

On her visit to Russia in 1934, she hesitated before entering a subway escalator. A young communist worker, noting her hesitancy, said, "I will show you how to use the escalator. Maybe you will have escalators in America some day!"

Graphic pictures of such figures as Rasputin and Korinsky added interest to her talk.

Miss Lois Grigsby introduced the speaker.

In answering the question, "Is Russia definitely better off since the Revolution than before?" she said, "Emphatically yes."

She stated that the church was overthrown in Russia, not because of the people's hatred of religion, but because of their hatred of the Czar who was the head of the church. Religious freedom is now permitted so long as the church does not go into politics.

She said that the Russian people as grossly misunderstand America as America do Russia. She had a hard time explaining to a group of Russians that American negroes are not all in chains. They had gotten the idea that they were from seeing a chain gang picture.

Members of Troop "A" of the North Carolina Highway patrol will meet here next Wednesday afternoon at 1 o'clock, at which time several discussions will be held on various matters pertaining to the force.

Greenville is headquarters for the division and Lieut. Lester Jones is head of the troop.

Patrol Meeting Set For Here Next Week

Stokes Scouts Honor Mothers With Dinner

The Boy Scouts of Troop 48, Stokes, were host to their mothers, the Girl Scout troop of Stokes, the newly-organized Boy Scouts of Pactivol, both troop committees, Scoutmasters and a few special guests and speakers at a chicken dinner at the Stokes' Boy Scouts' cabin, at Sheppard's Mill Pond, on Wednesday evening.

A welcome was extended by Assistant Scoutmaster Jack Clark to nearly eighty persons who were in attendance in spite of the inclement weather, to enjoy a real country chicken feast.

While the last few legs and necks were on the stove, the Scouts kept busy with ropes and tricks.

The program was presided over by Scoutmaster W. R. Harrison, of Stokes. The first part was the presentation of a charter to Troop 78 of Pactivol, which is sponsored by the Pactivol P. T. A. This is the first troop in Pitt county to be organized by another Scout troop for the Walter W. Head president's award. This makes Troop 48 of Stokes the first to receive this award. The charter was presented to Scoutmaster Taylor, principal of the Pactivol high school, by Ralph H. Mooz, Assistant Scout Executive of the East Carolina Council.

Dr. E. L. Henderson, chairman of the Greenville District, outlined the plan of the district committee to try to increase the number of boys getting Scouting during 1937. He said there was a splendid organization of men, and troops available for more boys than are now in the program.

Scout Executive John J. Sigwald gave the principal talk of the evening, outlining the Scouting program in all its phases from cubbing to sea scouting, or adult leadership.

This meeting was a tribute to the mothers of the Stokes community, who were the honor guests, for their unselfish and cooperative spirit with the youth programs of that community.

A tremendous loss of time from work by employees due to industrial accidents is shown in the seven years covered by the report, Chairman Dorsett pointed out, the records showing that in this period more than 200,000 accidents caused employed workers to lose 1,946,409 days from work. This is equivalent to 278,637 weeks of lost time or 5,561 years of 50 work weeks each. This is equal to three workers being totally disabled continuously since the birth of Christ.

In spite of apparently large number of industrial accidents and injuries shown in the report of the Industrial Commission, this number is by no means as large as before the Workmen's Compensation Law was enacted, and there has been a growing interest in accident prevention and in industrial safety throughout this entire period, Dorsett said. The result is that at the

present time both employers and employees are more interested in safety and accident prevention than ever before in the history of the state. Dorsett and the other members of the commission are convinced. The increase in accidents this past year is attributed very largely to the heavy increase in employer and greater activity in almost all industries in the state.

In addition to carrying out its duties in the administration of the state compensation laws, the Industrial Commission has sponsored and stressed safety education throughout the state and has held an annual safety conference each year in which every angle of industrial safety has been presented and discussed, it was pointed out by Commissioner T. A. Wilson, in charge of safety work. These conferences have helped greatly to make both employers and employees more safety conscious and have greatly reduced the number of industrial accidents. They have also brought about the voluntary introduction of more safety devices by employers.

A total of 200,534 claims have been filed with the Industrial Commission during the seven years it has been operating, classified as follows: death or permanent disability, 613; permanent partial disability, 4,880; temporary total disability, 49,248; claims for disability of less than seven days, in which only the medical costs were paid, 145,677.

This past fiscal year, which ended July 1, 1936, the last year included in the report, the commission had next to the largest number of claims filed since the first year the workmen's compensation law went into effect in 1929, the report shows, with a total of 32,568 claims filed and \$1,356,962 paid out for compensation and medical care.

In addition to the claims filed this past year for accidental injuries, 216 claims were filed under the occupational diseases amendment adopted by the 1935 general assembly. The cost of these claims amounted to \$6,138 while a loss of 2,418 days from work was shown in these claims.

Workers Given Big Sum By Industrial Commission

Reflector Bureau, Sir Walter Hotel, Raleigh, Dec. 3.—Workers injured in line of duty and their dependents have been awarded a total of \$9,747,775 by the North Carolina Industrial Commission as benefits under the Workmen's Compensation Act, during the seven years the law has been in effect, figures contained in the fourth biennial report of the commission, made public today by Chairman Dewey Dorsett, show. Of this total of \$9,747,775 which has been paid out as benefits to workers, \$6,500,000 has been paid out in compensation benefits while \$3,233,000 has been paid out for medical, hospital and nursing care, the report shows.

A total of 200,534 claims have been filed with the Industrial Commission during the seven years it has been operating, classified as follows: death or permanent disability, 613; permanent partial disability, 4,880; temporary total disability, 49,248; claims for disability of less than seven days, in which only the medical costs were paid, 145,677.

This past fiscal year, which ended July 1, 1936, the last year included in the report, the commission had next to the largest number of claims filed since the first year the workmen's compensation law went into effect in 1929, the report shows, with a total of 32,568 claims filed and \$1,356,962 paid out for compensation and medical care.

They have also brought about the voluntary introduction of more safety devices by employers.

A total of 200,534 claims have been filed with the Industrial Commission during the seven years it has been operating, classified as follows: death or permanent disability, 613; permanent partial disability, 4,880; temporary total disability, 49,248; claims for disability of less than seven days, in which only the medical costs were paid, 145,677.

This past fiscal year, which ended July 1, 1936, the last year included in the report, the commission had next to the largest number of claims filed since the first year the workmen's compensation law went into effect in 1929, the report shows, with a total of 32,568 claims filed and \$1,356,962 paid out for compensation and medical care.

In addition to the claims filed this past year for accidental injuries, 216 claims were filed under the occupational diseases amendment adopted by the 1935 general assembly. The cost of these claims amounted to \$6,138 while a loss of 2,418 days from work was shown in these claims.

A tremendous loss of time from work by employees due to industrial accidents is shown in the seven years covered by the report, Chairman Dorsett pointed out, the records showing that in this period more than 200,000 accidents caused employed workers to lose 1,946,409 days from work. This is equivalent to 278,637 weeks of lost time or 5,561 years of 50 work weeks each. This is equal to three workers being totally disabled continuously since the birth of Christ.

In spite of apparently large number of industrial accidents and injuries shown in the report of the Industrial Commission, this number is by no means as large as before the Workmen's Compensation Law was enacted, and there has been a growing interest in accident prevention and in industrial safety throughout this entire period, Dorsett said. The result is that at the

present time both employers and employees are more interested in safety and accident prevention than ever before in the history of the state. Dorsett and the other members of the commission are convinced. The increase in accidents this past year is attributed very largely to the heavy increase in employer and greater activity in almost all industries in the state.

In addition to carrying out its duties in the administration of the state compensation laws, the Industrial Commission has sponsored and stressed safety education throughout the state and has held an annual safety conference each year in which every angle of industrial safety has been presented and discussed, it was pointed out by Commissioner T. A. Wilson, in charge of safety work. These conferences have helped greatly to make both employers and employees more safety conscious and have greatly reduced the number of industrial accidents. They have also brought about the voluntary introduction of more safety devices by employers.

A total of 200,534 claims have been filed with the Industrial Commission during the seven years it has been operating, classified as follows: death or permanent disability, 613; permanent partial disability, 4,880; temporary total disability, 49,2

COLLEGE DRIVE SHOULD BE PAVED

The rainy weather has again put the semi-circular drive in front of the training school of the college in a fine mess, and is causing parents to do a lot of grumbling. There are several hundred children who attend the training school and during bad weather it is necessary for parents to take them to and from school. With the drive more than ankle deep in mud it is necessary for each car to pull up close to the curb at the building entrance to let the children get out, and while the car is doing this number of others wait in line in the mud for their turn at the curb. The same condition exists at the lunch hour when parents return for the children, and the greater the congestion the madder the parents get.

Washington Daybook

Washington, — Rex Tugwell stepped from resettlement into molasses but it still left Secretary Wallace holding the sweetest job in the world—allocating sugar quotas among domestic and island producers. Legally, Congress has the big voice in this, but when a technical job arises of calculating whether Hawaii, Cuba or Florida will get an increased share of the market, the task falls usually on the administrative end. In case of sugar, that is Secretary Wallace. He inaugurated the quota system in the first place as part of AAA. It is one part of the New Deal surviving almost intact. America eats 6,500,000 tons, mostly a half billion dollars worth of sugar annually. That is about a 100-pound bag apiece for the population, and since babies get less, adults take more. On present quotas, Cuba has the

Wings For Sally by BAILEY WOLF

SYNOPSIS: Derk, handsome Philip Page, returning to his boyhood home, buys the Warren-Courier and backs the workmen of the Morris mill in their fight for better living conditions. Sally, a very attractive, thoughtful society editor, loves Terry Maynard, boyish, blond artist, but permits their engagement to break when she learns that Terry and her willful younger sister, Tip, are in love. Terry is to leave in a week for South America, taking Tip, instead of Sally. Sally throws herself into her work at the Courier, trying to forget.

Chapter 22 Supper In The Garden

It was mid-afternoon before Sally found time to rest a moment. She remembered that she had eaten no lunch and that she had had only coffee for breakfast. Although she wanted no food, she felt weak and shaky. She had decided to go out for a sandwich when Philip rang the bell from his office. Sally got her pencil and knocked at his door. "Can you take some letters?" he inquired, without looking at her. Sally seated herself beside him and began to take a letter. Philip spoke rapidly but seldom asked to have anything changed. When he was through and Sally had risen to go, he called her back.

"Wait just a minute, Miss Warren," Sally stayed obediently. She was wondering how much longer she could stand up, without something to hold her. Her knees felt weak and there was a light that seemed to dance before her eyes. "Do you mind telling me just why you took Mary Morris to the McDonalds' house?" Philip was saying. "Why, no, I don't mind telling you. Was he angry with her about that? Then he was unreasonable. I wanted to give Mrs. McDonald some more work and, more than that, I wanted Mary to see some of the terrible houses her father owns. I wanted her to see why it is you're so interested in—fighting her father." "You think that will help us?" demanded Philip. "Do you think Mary Morris will be willing to fight for decent houses for her father's tenants?" "I don't know," Sally's voice sounded to her as if it belonged to someone else. She made a stumbling effort to reach her chair. Philip got up and steadied her, put her into the chair, and left hastily. She closed her eyes wearily. When she opened them again he was back with a glass of water. "What's the matter, Sally?" "Nothing. I'll be all right in a minute. Sorry to make so much trouble." "No trouble at all. You're looking very pale. As soon as you feel up to the trip downstairs, I'll take you home." Sally did not want to go home, but she let Philip take her down the stairs and put her into the car. She could walk, but she was none too steady on her feet. She leaned close to the open window of the car and let the breeze blow on her face. Suddenly she knew that she could not go home just now and face her family. "Please don't take me home," she said. "I can't think of any place to go, but I can't go home." "All right," said Philip. "Suppose we drive for a little while?"

Confession To Philip

SALLY decided, afterwards, that nothing of all that exciting day was so remarkable as Philip Page's silence as she drove her far into the country so that she could recover from the faint she had so nearly had in his office. He kept his eyes on the road ahead of them as Sally lay back against the cushion of the car and rested. It was Sally who broke the silence, at last. "I'm all right now. I've taken up enough of your time for one day." "Feel better?" "Much better." However, she still felt weak from lack of food. Feverish entertainments lead up to Tip's wedding tomorrow.

CAROLINA MEN GIVEN LETTERS

Thirty-Two Varsity Men Receive Sports Awards

Chapel Hill, N. C., Dec. 3.—Thirty-two monograms have been awarded University of North Carolina athletes for participation in fall sports. The awards were voted by the University Athletic Council and were made at the annual fall banquet of the Carolina Monogram club.

Twenty-two members of the Tar Heel football squad were presented monograms, as were 10 representatives of Carolina's Southern Conference cross country champions. Letters were also given to Co-Managers "Peck" Hart, Jr., and Paul Lindley, of football, and Head Cheerleader Hoge Wick.

The football awards, presented by Coach Ray Wolf, went to Captain Dick Buck, Andy Benishak and Buck Mc... ends; John Trimpey, Henry... and Jeff Dermid, tackles; Steve Maronic, Bruce Smith, Van Webb, Ed Palmer and Charlie McIver, guards; Pete Avery and Bob Adams, centers; Crowell Little and Dick Dashiell, quarterbacks; Tom Burnette, George Watson, Randy Cooner, Wallie Dunhan, and Bob Stewart, halfbacks; and Jim Hutchins and Art Ditt, fullbacks.

Marvin Allen of Wilmington, president of the Carolina Monogram Club, was toastmaster. President Graham, members of the Athletic Council and several University officials were guests.

Short talks were made by Dr. Foy Roberson, of Durham, advisory physician to the team and head of the Athletic Council's football committee; R. A. Fetzer, director of athletics; Harry Montgomery, co-captain of last year's team, now of the V. M. I. coaching staff; Lath Morris, of Farmville, Carolina's cheerleader-at-large; Coach Ray Wolf and Coach Dale Hanson, Jake Wade sports editor of the Charlotte Observer, also scheduled for an address, was feet-bound in Charlotte.

DUKE ZOOLOGIST MAKES STUDY OF SNAKE EGGS

Durham, Dec. 3.—Extensive researches into the absorption of water by reptile eggs during incubation, carried out in Duke university zoological laboratories, have resulted in a paper on the subject in the December number of the American Naturalist, written by Prof. Bert Cunningham and Arnold P. Hurwitz.

CHAMPIONSHIP GIRLS' TEAM TO PLAY BOYS HERE

Greenville basketball fans are in for a double treat one week from tonight when Olson's All-American Red Heads, World's championship girls team, will engage an all-star team at the college gymnasium at 8 o'clock. In addition to seeing what is scheduled to be a fast and thrilling contest, fans will see the comely girls vying with the boys for goals, Ace Parker, Duke football hero rated All-American by practically all experts, is expected to be a member of the All-star team.

STATE HAS 23 CAGE BATTLES

Games to Be Played Within Southern Conference

Raleigh, Dec. 3.—Twenty-three games are listed on the 1936-37 North Carolina State varsity basketball schedule announced yesterday.

The schedule is composed entirely of Southern Conference teams with the exception of Duquesne University, The Pittsburgh team, one of the Nation's outstanding quints, is a new comer on State's schedule. The Nightriders will be met in State's Frank Thompson Gymnasium on January 14.

William and Mary, University of Richmond, and Maryland are teams appearing on this winter's schedule that State did not face last season.

Eleven of the 23 games will be played here.

The schedule is: December 1, William and Mary, here. January 8, South Carolina, here; 11, Clemson, here; 12, Wake Forest, here; 14, Duquesne, here; 16, Davidson, here; 18, Carolina, here; 23, Duke, here; 27, Virginia, here; 28, Maryland, here.

February 1, Carolina, there; 4, V. P. I., there; 5, Washington and Lee, there; 5, V. P. I., there; 8, South Carolina, there; 9, Clemson, there; 12, Davidson, here; 15, V. P. I., here; 17, Wake Forest, here; 20, Duke, there; 23, William and Mary, there; 24, Maryland, there; 25, Richmond University, there.

NINETEENTH PASTOR'S SCHOOL BE HELD DURING JUNE 14-25

Durham, Dec. 3.—Meeting at Duke university today, the board of managers of the North Carolina pastors' school of the M. E. Church, South, set June 14-25 as dates for the nineteenth session.

Close of last season tossed him for a loss. Right in the midst of his preparations for the Stanford game in New York, the coach was forced to take to his bed for a week.

All season he tutored his squad diligently. Few knew that he was able to do so only after he had dulled the pain with a handful of aspirin tablets. Some days he took as many as 100 grains to make the pain bearable.

Yet, with all the intense pain Lou must have suffered, he never lost his good humor. He was never too busy to take time out to give a sports writer a few moments. He is as game as they come—and a great coach.

Athletic Conference Set For Greensboro

Greensboro, Dec. 3.—(AP)—An athletic association conference for high school girls will be held at the Woman's College of the University of North Carolina Saturday, December 5, under the auspices of the college athletic association. Miss Mary Channing Coleman is head of the department of physical education at the college, and Miss Josephine Lucas, of Greensboro, who is a senior at the college, is president of the athletic association.

The conference will get under way at 9:15 Saturday morning after a brief period of registration and will continue until 5:30 when all delegates will be the guests of the Woman's college athletic association at an informal buffet supper. The Gastonia high school group will provide a Russian dance for entertainment.

Durham, Dec. 3.—Phyllis Bentley, English author, lectured at the Woman's college of Duke university last night, speaking on what the average reader expects of a novelist.

NOTICE OF LOT SALE

SPORT SLANTS

For a dozen years the name of Furey has been identified with Columbia football. First came Ralph, then Edmund and now the last of the three brothers—George. When George packs away his uniform this fall he will be writing "finis" to the active playing careers of the Fureys.

But the name isn't likely to pass out of the Columbia gridiron picture, for Ralph is freshman coach at his alma mater.

Ralph, first of the brothers to wear the light blue, was varsity end three years, beginning in 1925. In his senior year he captained the eleven. He was a great end—one of the best in Columbia's history. Ralph left quit a mark for Edmund to shoot at when the latter reported to Coach Lou Little for varsity practice in the fall of 1933. Like Ralph, Edmund was an end, but both were built along solid, chunky lines rather than the rangy type one generally pictures at ends.

Edmund was quite a wingman in his own right. His brother's career served as an inspiration. His one ambition was to leave college with the reputation of having been a better end than Brother Ralph.

For two seasons, 1934 and 1935, Edmund had his younger brother, George, playing with him on the Columbia eleven. George was a quarterback, and a mighty good one. He did not command the attention his more spectacular brothers did, but he was, none-the-less, a real football player. Light, he never scaled more than 170 pounds at any time during his career. He was as rugged as they come. His unselfish blocking was overlooked by the headline writers, perhaps, but not by the lads who toiled beside him. He was elected and served as co-captain of the 1936 team along with Joe Coviello, guard.

George stood out on defense. His crushing tackles interrupted the march of many an ambitious ball-

carrier who found a hole in the line. His tackling was always clean and crisp, the variety that brings joy to the heart of a coach. George may not be ranked with quarterbacks of the past who have directed Columbia elevens, for the Lion has boasted some really great field generals, but he will long be remembered as a gallant and unselfish leader—a team player if ever one trod the gridiron.

Oddly enough, Ralph seldom had the opportunity to watch his "kid" brothers in a real contest. His duties as a scout carried him all over the country. He was too busy gathering information on future opponents to see Columbia play. About the only game he saw each season was the final contest.

It would be difficult to single out any one of the three brothers as the greatest. Each had his own qualities to recommend him. Each contributed his share to Columbia football.

Coach Lou Little of Columbia carried on his work this fall under a great physical handicap. The hip ailment which put him in the hospital for an operation after the
