

GIRLS TO PLAY ALL-STAR FIVE

Novel Basketball Tilt Scheduled Here for Next Thursday

Next Thursday night, December 10th, Greenville basketball fans will be treated to the best, at least, the most novel basketball game ever played in this section of the country. That is the night when Olson's All-American Redheads, the greatest girl basketball team in the world will take on Greenville All-Stars in a fast and furious contest at E. C. T. C. gymnasium.

The All-Stars is a boy's team made up of former college stars from the various colleges in North Carolina and Virginia. Never before has there been a game in Eastern North Carolina where boys played girls and played by boys' rules.

Olson's Redheads are considered the greatest girl's team in the nation. The players average 5 feet, 9 inches in height with three players over six feet tall. They also average 150 pounds in weight. To give some idea of how good they are a look at their record shows over a span of a year and a half they have met and defeated nearly all of the ranking basketball teams in the United States, Mexico and Canada. No girl's team has ever defeated them and few men's teams can boast of that honor either. Last year while making a tour of the midwest they played five college varsity teams—boys, not girls. Only the University of Indiana was able to emerge victorious.

The Redheads feature in their lineup Ruth Osburn, world's Olympic star and holder of five National records. Miss Osburn jumps center, and has average 14 points a game. She is considered by many as the greatest girl athlete in America. In addition there is Jo and Gene Longerman, known thru out the midwest as The Famous Longerman Twins. Fans in Iowa and in Nebraska think these two girls are tops. The other four players—Hazel Vickers, Peggy Lawson, Lena Dunford, and Elvira Loderen, all made the national A. A. U. All-American.

Their ability and great record alone should be enough to convince people why they are the nation's number one "Pack House" attraction. But there is another reason also: and that is their colorful appearance. Each player is red-headed, beauty personified, dressed in colors to match their red hair. They display especially designed uniforms, warm up jackets, and hose in brilliant colors of Red, Silver and Black.

SPORT SLANTS

In addition to coming to the scene of the annual service classic with a formidable football team, Navy did not overlook a single opportunity to woo Lady Luck. The midshipmen did not fail to observe every possible ritual that might insure them a victory over their traditional foe, from West Point.

The midshipmen's regiment made sure that their luck would be good by tossing pennies at the bronze bust of Tecumseh, good luck figure at the naval academy, before starting their trek to Philadelphia, site of the annual battle. Tecumseh is known as the "God of 2.5," passing mark for midshipmen, and credited with mystic powers of bringing good luck to the future admirals.

As the 2,200 midshipmen sped through Baltimore in their special trains, every shade was drawn. It's a time-honored custom with the Jads from the naval academy to lower the shades when passing through a city where their team has met defeat at the hands of the cadets. Baltimore is considered a "jinx city" inasmuch as a dozen years ago Navy was defeated there when Cadet Ed Garbusch, Army's all-American center, kicked four field goals in one game.

Don't think for a moment that it was only the midshipmen who did everything in their power to bring good fortune to their team. No, indeed. There were plenty of high ranking naval officers who sat with their fingers crossed when the cadets threatened to score. Rear Admiral Emory S. Land did even more. He wore a special token of good luck in the form of a blue-and-gold tie which he received from Charles Francis Adams, former secretary of the navy. It seems that Mr. Adams had worn the same tie on the afternoon when Navy triumphed over Harvard at Cambridge, and felt that by doing so he helped the middies to triumph. He was confident that the tie was a good luck charm and felt that if Rear Admiral Land would wear the tie it most likely would aid the Navy team.

To wear this tie the officer had to don civilian clothes, for a tie of such hue was not regulation. The change from uniform to civilian wear was a minor effort compared to the great possibilities offered by the token as a harbinger of good luck. It was little enough to do for the team.

Rear Admiral Land, the navy department's chief of construction and repair, intends to see that the tie is worn at all Navy football games next season, either by himself or by some other officer.

tion of the crowd of 102,000 persons until the Navy goat made his theatrical entrance. A huge limousine, escorted by police and safety cars, sped around the track inside the stadium. As it passed the corps of cadets it was roundly booted. But the Army boos were drowned out by the cheers of the midshipmen when the cars came to a halt in front of the Navy stands and out stepped His Excellency, the Navy goat, while uniformed midshipmen stood at attention.

The mule and the goat shared honors until the opening whistle, even having their pictures taken together. Then they retired to the sidelines.

The stadium took on the appearance of a zoo when, later in the game, the immense crowd took its eyes off the gridiron battle long enough to watch a rabbit scamper around the gridiron. They cheered lustily as the cottontail raced the length of the field to an imaginary touchdown. Poor bunny, who was attracted to the gridiron by the bright green hue which the grass had been tinted for the occasion, found all avenues of escape closed and raced around the field vainly seeking an exit until he was so weary that he was captured by one of the hundred-odd spectators and attendants who joined the chase.

Cabrito, or baby goat, is a table delicacy in northern Mexico.

The highest part in harmonized music is the treble.

COMMISSIONERS SALE

State of North Carolina and County of Pitt

In The Superior Court Before The Clerk

In Re: Jane House Phillips, Shade Phillips, Mary Hudson, Dotsie Bell House, Cary Lee House and James F. House, Ex. Parte.

By virtue of authority vested in the undersigned, as commissioner, in that certain order made in the special Proceedings entitled as above in the Superior Court of Pitt County, I will offer for sale on Monday, January 5th, 1937 that certain parcel or lot of land located on the West side of Clark St. in the town of Greenville, N. C., being about 80 ft. on said Clark

St. and 181 1-2 ft. adjoining the lands or lot building of Lizzie Kearney and running thence 80 ft. N. along Clark St. toward the intersection of said street with Bonner lane to a stake, thence Westwardly at right angles to Clark St. and parallel with Bonner's Lane 181 1-2 ft., thence in a Southerly direction and parallel with Clark St., about 80 ft. to a stake, thence Eastwardly 181 feet along the line of Lizzie Kearney to a stake on Clark St., the begin-

ning, being the lot or parcel of land deeded to Luke House, by John Daniel & wife, and being one-third of the lot described in their deed record in Book P-3, page 428, 429, Pitt County Registry, being the lot deeded to Amos Williams, John Daniels and Jack Williams by Mrs. A. M. Clark on October 22nd, 1880; the sale will be made subject to the confirmation of the Court, the highest bidder being required to make a deposit of 10 per cent. on the sale price, the terms of

which sale will be cash. This December 1st, 1936. S. J. EVERETT, Commissioner.

Social and Personal

Mrs. F. W. Heslep is visiting relatives in Swansboro.

Mr. and Mrs. Carl L. Whitehurst of Raleigh, N. J., are visiting his mother, Mrs. W. F. Gardner.

John Hodges left today for Ripley, Ohio, to be on the tobacco market.

Misses Betsy Hobgood and Lucy Nobles are spending the week end in Kinston.

James Worsley, Jr., III, Friends of Master James Worsley, Jr., will be glad to learn that he is getting along nicely following an operation which he underwent Tuesday in Pitt General hospital.

Gold Fish See our display of Goldfish and aquariums. Complete with colored rocks and seaweed. Baker & Davis Hdwe. Co.—(Adv't).

Senior Class Play "Smilin' Through" the play which the senior class of the College will present December 11, is the fantastic comedy by Allan Langdon Martin, which brought fame to Jane Cowl as an actress and which was a sensation in Europe and in America.

The play was made into a motion picture which starred Norma Shearer, Fredric March and Leslie Howard.

The present production is under the direction of Clifton Britton, who has had wide experience in dramatic work and has previously supervised the production of "Smilin' Through."

Plants Brighten up your home these cool days with a colorful potted plant. See our flower display. Baker & Davis Hdwe. Co.—(Adv't).

Local Kiwanians Join With Wilson In Joint Meeting

Number of Local Club Members Make Brief Talks at Dinner Session Held in Wilson Last Night

Greenville Kiwanians joined with Wilson club last night in an inter-city meeting held in that city. Fourteen members of the local club were present for the session, which took the place of the regular meeting scheduled for tonight.

Threatening weather and other things kept the attendance down. Those present here included J. F. Arthur, Berry Bostic, J. Hicks Corey, J. F. Carr, R. C. Deal, J. Nat Harrison, Dink James, Dave Moore, B. W. Moseley, Guy V. Smith, B. B. Sugg, Frederick M. Stokes, George J. Woodward and S. A. Whitehurst.

Dr. Dewey Bosteman, president of the Wilson club, presided and the host club presented the musical phase of the program, which was in charge of Kiwanian Arthur Ruffin of that club.

Dave Moore, secretary of the Greenville club, had charge of the local club's part of the program. Secretary Moore first introduced Kiwanians Deal, Sugg, James, Whitehurst, and Bostic, each of whom made a brief talk.

J. D. Gold, publisher of the Wilson Times, was among the Wilson Kiwanians who spoke.

Scout Executive Promoted To Post With Commission

E. Skinner, Former Master of Troop 30, Accepts Position of Deputy to Commissioner Beland

District Commissioner J. B. Beland of the Greenville District, East Carolina Council, Boy Scouts, announced this morning that J. E. Skinner, former Scoutmaster of Troop 30, has resigned from that position to accept a place on his Commissioners' Staff.

Mr. Skinner will be recognized as main duty will be to visit troops in Greenville. Mr. Beland is appointing other deputies for other parts of the county, but declared he feels particularly fortunate Mr. Skinner has accepted the position of Deputy on his staff for Greenville.

Both professional leaders, John J. Sigwald, Scout Executive, and Ralph H. Mose, Assistant Scout Executive, along with Dr. E. L. Henderson, Chairman of the Greenville District, declare real progress has been made toward forwarding the Scouting program in this district.

Through regular visitations, Mr. Skinner will be able to help the numerous local troops in developing a program for their weekly meetings. Mr. Skinner, at present, is serving, also, as the Sagamore for the Pow Wow Circle, which will resume its regular monthly meetings.

The new Deputy has had wide experience in Scouting, having served successfully for a number of years as Scoutmaster of Troop 30.

Tom Wilson has accepted the Scoutmastership of Troop 30, succeeding Mr. Skinner, and is meeting with his boys regularly each week.

Junior Choir to Meet The Junior choir of the Presbyterian church will meet for practice tomorrow morning at nine o'clock.

Cards of Thanks We wish to thank everyone for the kindness and sympathy shown us during the illness and death of our husband and father.

Mrs. W. A. Sermons & Family.

Gifts Visit our gift department before you purchase your Christmas gifts. We are sure we can please you.

Baker & Davis Hdwe. Co.—(Adv't).

High School Dance The Junior class of the high school will give a dance in the school gymnasium this evening from nine to twelve. Music will be furnished by the Hub City Serenaders.

How's Your Health?

Edited for the New York Academy of Medicine

By Dr. Iago Goldston

Brain Size and Brain Performance The impression has long been widespread that the intellectual man has of necessity a large head, and by implication—that a large head contains a large brain.

The association of a large head with a large brain and with exceptional intellectual abilities is not warranted. Some of the world's most illustrious men were found to have had brains that weighed less than average. Conversely, it is also true that certain of the world's leading intellects were resident in brains of extraordinary size.

It is not therefore possible to judge intellectual competence by head size. A small-bodied individual may have a small but entirely adequate brain. A large individual will have a larger brain, but not necessarily a better brain than the smaller person.

Furthermore, we judge intellect by performance, and a well-organized, well-trained brain usually can achieve more than one neither well-organized nor well-trained.

This consideration holds valid only for normal individuals. When we contrast the brains of normal individuals with those of mental defectives and of idiots, we find that there is a definite size difference. The brains of mental defectives and idiots are appreciably smaller than those of normal individuals.

The normal human brain appears to attain its adult dimensions between the eighth and eleventh years of life. The bony portion of the head, however, continues to grow.

In a study of a number of brains derived from defective individuals, it was found that they were about 25 per cent smaller than those of normal individuals. The mental defective over 10 years of age ranks, in brain size, at the level of an 18-month-old normal infant.

On the basis of this finding, mental defective of 24-month normal infant. On the basis of this finding, mental defective of 24-month normal infant.

In a microscopic and structural study of the formation of the brains of idiots, it has been found that in most instances the defect was germinal and not due to some birth or after-birth injury.

Skull or head size bears a relationship to the brain size. This relationship can be expressed as 35-48. This formula allows for a rough estimation of brain growth by means of head measurements from birth to the age of 8 to 11, when, as was noted above, brain growth practically ceases.

Favors State Law Requiring Drivers Report Accidents

Director Arthur Falk of Safety Division Indicates That He Will Work For Such a Statute

Reflector Bureau, Sir Walter Hotel.

Raleigh, Dec. 4.—The reporting of all automobile accidents in the state should be compulsory and the present highway safety laws should be amended by the forthcoming general assembly so as to require the reporting of accidents to both the highway safety division and local police departments within 24 hours of their occurrence, Director Arthur Falk of the highway safety division of the Department of Revenue, said today.

Director Falk indicated that he would seek the enactment of such an amendment or of a supplementary law when the general assembly convenes.

Woman Makes Career Out Of Dressing Dolls

Kansas City, Mo.—(AP)—Mrs. Nelly Upp designed her first doll clothes when she was less than three years old. Now a mother with two grown sons, she has founded a profitable business—and career—in doll dressing.

Five years ago Mrs. Upp accompanied a neighbor who tried in vain to purchase a dress for her daughter's doll. She returned with a dress that had none in stock. Returning home, Mrs. Upp fashioned several doll dresses of standard size and took them to the head of a department store. He bought them all and gave her an order for more. Since then she has had more business than she can handle.

Last year, with the approach of Christmas, she hired five women to assist her and in the space of three months made and sold more than \$1,500 worth of dresses. Now she is designing a factory and plans to begin manufacturing on a national scale next spring.

Mrs. Upp, who is holding a quintuplet doll in the picture above, expects clothes for such dolls will take first rank this year, although the greatest demand in the past has been for Shirley Temple outfits.

ed, if the accident happens in a rural section. This enables both the state and the local governments to keep an accurate check on accidents.

The value of compulsory reporting of accidents is that it gives an accurate check both on the number of accidents and their causes, shows whether the drivers or road conditions are to blame, gives accurate data on the location of accidents and the frequency of accidents—all of which is essential to a study of accidents causes and means of preventing them.

The present law here in North Carolina requires all law officers to make reports of accidents, and to file detailed reports of such accidents. The trouble with this law, however, is that there are thousands of accidents which are never investigated by officers, due to the fact that those involved get together and reach a settlement before officers have a chance to make an investigation, Falk said. A law such as Falk proposes would require all drivers to report accidents in which they are involved.

Man About Manhattan

By George Tucker New York.—The most spectacular surgical operations performed in New York hospitals in recent years have been the severance of the Godina Siamese Twins, the upside-down stomach case, the complete removal of a lung, and the removal of frontal lobes from a man's brain in order to ascertain the intellectual and emotional effects, if any, on the patient.

All of these operations were successful, especially the upside-down stomach case (diaphragmatic hernia), which was performed on a child just seven days old.

With their usual reticence, doctors have declined to identify the patient whose frontal lobes were removed, but they speak freely on the findings of the case. The case history reveals that the patient's intelligence, thus far, has remained unimpaired. However, his emotions seem less easy to control.

The Siamese twin case, while spectacular in the extreme, was not considered a major operation.

Sad Saga Here is the sad story of Irving Zussman, a purveyor of unscrupulous ballyhoo, who broke a five-year cinema fast by dropping into a moving picture theatre the other day.

He chose a seat pretty far in the back and was just settling down to some exciting adventure when a young woman, losing her balance, tumbled from the balcony into his lap.

What makes the story so sad—sad for Zussman—is that the girl, who fell 12 feet, came out of it without a scratch, whereas Zussman, who did no falling at all, had

One of Eastern Carolina's Outstanding Farmers and Merchants Recommends Ruma-Ban for Rheumatism! Ruma-Ban Laboratories, Greenville, N. C. Gentlemen:—I take pleasure in saying your Ruma-Ban helped me very much and I gladly recommend it to any one suffering from Rheumatism. Yours very truly, CLARENCE L. HARDY, Maury, N. C. Ruma Ban may be found at all Drug Stores in Eastern North Carolina. Price \$1.00.

PROPOSED ACT GETS HAW-HAW

Little Likelihood Putting Council On Highway Body

Reflector Bureau, Sir Walter Hotel.

Raleigh, Dec. 4.—The announcement by State Senator J. C. Pittman of Sanford, Lee county, that he would introduce a bill to make the members of the Council of State ex-officio members of the State Highway and Public Works Commission, and thus put it in closer touch with the people, is causing broad smiles in most circles here and actual guffaws in others.

It is agreed, of course, that Senator Pittman's idea is that the commission, if composed of members elected by the people, would be less subject to political pressure than an appointive commission. But experienced political observers here doubt very much if that would be the case.

The first objection to this sort of a set-up for highway commission, with most of state's elective officers as ex-officio members, is that it would immediately throw the highway department into prolixity up to its ears and that instead of being a road building body, it would become an organization to be used by all the elective state officials to help re-elect them in the next election, most observers here agree.

If the Governor, State Treasurer, State Auditor, Secretary of State, Attorney General and State Superintendent of Public Instruction should be made members of the highway commission and thus hold the balance of power in deciding when and where roads should be built, they could perpetuate themselves in power almost indefinitely, many observers agree.

This plan would also result in the building little else than "political roads," many believe, and might

lead to the exchange of miles of roads for thousands of votes, thus making of the highway commission nothing but a political machine. Critics of the present set-up maintain the highway department is controlled by the Governor and is a one-man political machine. But most observers maintain that even if this is true, it is less dangerous than if it were the political machine of six elective state officials.

The prevailing belief here is that when Sen. Pittman introduces his bill, it will never get farther than the roads committee in the senate.

Number Graduates Of U. N. C. Invited To Attend Dinner

Invitations have been received by a number of University of North Carolina alumni in Pitt County to attend the annual dinner in Chapel Hill December 9.

The occasion is the annual business meeting of the University's General Alumni Association, and representatives of the Pitt County alumni are expected to attend along with representatives of other local groups and alumni class officers.

In addition to the usual items of business the program will include a discussion, led by President Frank P. Graham, of the University's 1937-38 appropriation request, soon to be presented to the legislature.

Officers of the Pitt County alumni who have been invited to Chapel Hill are Judge Dink James, President; Jack Spain, Vice-President; and D. C. Moore, Jr., Secretary. J. S. Ficklen, former President of the Pitt County Alumni club of the University, also has been invited.

The young of loggerhead turtles, even when hatched out of sight of the ocean, instinctively make for it as soon as they have left their shells.

Divorces Stallings

Mrs. Helen Potest Stallings, daughter of Dr. William Louis Potest, president emeritus of Wake Forest college in North Carolina, is shown at Reno, Nev., just after she obtained her divorce from Laurence Stallings, the playwright who wrote "What Price Glory," "The Big Parade" and other World War dramas. RUPTURE

SHIELD EXPERT HERE
E. J. MEINHARDT, WELL-KNOWN EXPERT OF CHICAGO, IS COMING HERE AGAIN.
He will personally be in Goldsboro, N. C., at the Goldsboro Hotel, on Tuesday only, December 8th, from 1:00 P. M. to 5:00 P. M. and 7:00 P. M. to 9:00 P. M.
Mr. Meinhardt says: "I have had twenty years' experience with thousands of Ruptured Men and I will give you valuable information without charge. Positively no surgery, medical treatments or injections used. (Only men are invited). This visit is for white people only."
"My shield produces immediate results on the average, regardless of the size or location of your rupture—no matter how much you exercise or strain." (No leg straps and no cumbersome arrangements).
"My shield is waterproof and may be worn while bathing. It may be removed at night or worn continuously until no longer desired."
Caution: I have no representatives. Everyone must see me personally. I have been coming here for fifteen years. There is no charge for demonstration. Remember the name MEINHARDT. Beware of imitators who copy this notice.

"There Is No Doubt That From January 1st On You Will Be Paying At Least 25% More For Anything In Textiles"

(Actual Statement from a Letter in our files from a prominent Commission House)

For instance you paid 23c a yard for ABC and Punjab Prints this fall. Next spring you will pay 29c a yard for the same material. This is only an example of the price advances you may expect in all types of goods and clothing for the next season.

Wages have been increased in manufacturing centers. Dividends are being declared in most corporations. But Eastern Carolina, particularly Pitt County does not depend on these for income. Pitt County depends on its farm crops, largely tobacco, and farm crops, particularly tobacco, have not shown an advance equivalent to the prices being quoted on today's manufactured goods. So in consequence a Pitt County Dollar next year is not going to buy the same amount a Pitt County Dollar will now—and so we urge you to buy at today's prices.

In Our Opinion Prices Are Now at The Lowest Level They Will Be at Any Time Within The Next Three Years!

MAKE IT A REAL HOLIDAY

This year Christmas Day comes on Friday and we believe our business houses could make the season a real worthwhile holiday for their employees if arrangements could be made to let the business houses remain closed throughout the Christmas week-end.

Saturday, the day after Christmas, will certainly be a dead day so far as business is concerned anyway, and we do not believe that remaining closed on that day will work any inconvenience to the buying public if they know in advance that when the stores close on Christmas Eve night they will not reopen until the following Monday morning.

After the store clerks, as well as all those connected with the businesses in any way, have gone through a busy Christmas week, it seems to us that this extra holiday would give them a chance to get some needed rest and recreation before going back to their duties.

We understand that the city of Wilmington has already announced that its business houses will not be open the Saturday after Christmas and that other cities are considering similar plans.

Heretofore when Christmas has fallen on Friday the local banks have observed Saturday as a holiday also, and an announcement was made today that the custom would be followed this year.

Already the local city and county boards have announced a holiday for county and city offices for Saturday after Christmas and some of the local merchants have expressed a desire for the holiday, too, if other businesses will co-operate.

Washington Daybook

Washington—After a month's tour, Senator Thomas of Oklahoma decided that Alaska is a good Pacific defense, useful as a safe-haven for seals, rich in salmon and large scale mining, but no place for

Wings For Sally

SYNOPSIS: Dark, handsome Philip Page, returning to his boyhood home, buys the Warrenton Courier and backs the workmen of the Morris mill in their fight for better using conditions. Sally Warren, attractive, thoughtful society editor, loves Terry Maynard, boyish blond aviator, but permits their engagement to break when she learns that Terry and her wilful younger sister, Tip, are in love. A quick wedding is in prospect, as Terry must leave for South America. Sally, feeling sorry for herself, is comforted by Philip who has long admired her.

Chapter 23 Wedding Plans

WHEN they had finished and Philip had lighted his pipe he looked at Sally mockingly. "Your heart's not broken," he reproached. "You were too hungry."

Sally sank deeper into the wicker chair, glad that the dusk made it impossible for him to see her. How long would it be, she wondered, before she could make jokes about her trouble? "I'm sorry," Philip drew at his pipe for a moment and then continued, "You were fairly content and I've brought the whole thing back to you, haven't I?"

"It was never really gone," said Sally. "Just—hiding." "I suppose it's because I don't really believe in heartbreak," said Philip. "I've seen so much suffering, and I've seen the human spirit undergo such agony, without breaking, that I can't believe it doesn't recover pretty quickly from such a simple malady as unrequited love."

"You've never been in love?" "A good many times," said Philip coolly. "I suppose you'll say it wasn't real because I got over it."

"No-o-o," Philip said. "But perhaps you've never felt a love as great as you are capable of feeling." "Hopefully romantic Sally?" Philip laughed. "You may be right, but I think you're wrong. What you call love can't play such an important part in my life because I'm too busy with—making a living and doing my bit to reform the system we live under."

"I don't waste any time feeling sorry for yourself, Sally. Get interested in things that concern so many people that you can lose yourself."

"You think I'm selfish." "Not exactly. You're like most women—caught in a squirrel cage of trivial things that drive you round and round. Love is a sort of escape to you."

"Thank you very much for the advice," said Sally coldly. "I must go now. I've stayed too long already."

"I had thought Sally would be the first to leave us," he went on. "I had even imagined it was Sally that young Maynard was interested in."

"We can't order those things," sighed Mr. Warren. "There's more to this Maynard boy. He's making his own way, without money or family to help him."

"I must call on his people right away," said Mrs. Warren. "I never said eyes on them. It's scandalous to have your daughter marrying into a family you've never seen."

"There's something else, too, to be thought of," said Mrs. Warren. "Tip's clothes. We must do something for the child, Sally."

"We'll take a little out of Ray's college fund," promised Sally. "I'll have time to put it back before Ray needs it."

Sally had dreaded the week that must pass before Tip was married, but the time sped by so rapidly that she had almost no time to think of herself. Her job must be done, and along with it there were the thousand and one things to be seen to in order to get Tip ready for the wedding.

Philip Proves Thoughtful IT was decided to have the wedding in the Warrens' garden, a simple wedding it was to be, with only a few friends of the two families present. But preceding the wedding there was a round of entertainment that exhausted everyone but Tip and Terry, who seemed never to tire of excitement.

Warren had made a hero of Terry Maynard, and his marriage to Tip promised to put a climax to a romantic career. The little town could not forego such an excuse for feversh entertaining. The two big events of the week, besides the wedding, were the big dance at the Morris home, the night before the ceremony, and the wedding luncheon which Philip Page was giving.

"This luncheon will be my housewarming," said Philip Page, calling at the Warrens. "I was just waiting for an occasion important enough to christen my house."

good to eat, but already the cattle-growing states are enacting laws to prevent it competing with beef. So as an industry he lists that, too, as limited.

INVESTMENT BANK LEADERS

Orrin C. Wood (left) of Boston, president of the Investment Bankers Association of America and Edward B. Hall (right) of Chicago, slated for election as Wood's successor, will play prominent parts in the association's convention at Augusta, Ga., December 2-6.

DARK HORSE WINS AT AUGUSTA

Ralph Guldahl (right), the dark horse, who came down from St. Louis and trotted away with first prize in the \$5,000 Augusta Open Golf tournament, is shown getting his reward—a \$1,000 check—from Mayor R. E. Allen, Jr., of Augusta.

Spaniards Give Blood For Soldiers At Front

By GEORGE C. JORDAN BARCELONA, Spain (AP)—Hundreds of persons here are giving their blood for the men and boys on the Aragon front. The transfusions actually are made in the trenches.

A modest newspaper announcement that comrades in the rear-guard could share their blood with the wounded soldiers drew my attention to the story. I went to the hospital named, and from the director, Dr. Federico Duran Jorda, got the details of his work.

Volunteers came to the hospital every night at 7 o'clock. By a test each is classified as belonging to four blood groups.

Next, the patient's arm is punctured at the inside of the elbow and a small test tube of his blood is drawn out. This is labelled and his name and address taken.

This blood is tested for venereal disease. If it proves free from that, he is notified, returns and gives a tubeful of blood for the cause. The average amount—extracted from each person, Dr. Duran said, is 350 cubic centimeters—less than a pint.

The extracted blood is kept at the hospital in bottles on refrigeration. Sodium citrate is added to prevent coagulation. When a sufficient supply has been collected it is placed under twice atmospheric pressure in special tubes and transported to the front in a truck equipped with electrically refrigerated tanks.

At the front the tube, about 18 inches long and 2 1/2 inches in diameter, is hung on the lapel of the operating doctor. The blood, heated to 104.1-4 degrees Fahrenheit, is released through a rubber tube and ejected by the pressure through a glass needle inserted into the veins of the wounded man.

Doctors Work in Trenches. "The field hospitals are usually some 15 kilometers behind the lines," Dr. Duran explained. "Not infrequently a man dies before he can be carried that distance. With these tubes, we pump new blood into him right in the very trench where he fell, then carry him to the rear."

Dr. Duran told me this was the first time this method of blood transfusion had been used in war. He said he believed his hospital, which I visited, was the only one practicing it in Spain.

At the time I visited the hospital, 325 persons had given blood in this manner. The night I went, there must have been a dozen persons attended in the 40 minutes I spent on the scene. The doctor said 20 was an average number for an evening.

I went to the hospital suddenly and unannounced. I am sure what I saw was genuine. Among the 12 or 14 persons I saw were men, women and youths of various ages. One donor was a mother who said she had a son "somewhere at the front." Two girls I picked as sweethearts, maybe sisters.

Others believe he has no intention whatever of being a candidate again, and will be forced by the pressure of circumstances to say so definitely before his second administration is far advanced.

Still others are of the opinion that, not intending to run in 1940, he nevertheless will refrain from making any statement, thus using his silence as a lever to maintain his party control during the next four years.

Of course none can possibly know the answer except the President himself. It is not the sort of thing he would discuss at this stage with his friends. If he made any decision now it would be because of the public situation, and in that case his statement would be addressed to the public.

So again he has the politicians guessing. No one loves such an advantage better than he, and the logic of the case argues that he will keep things as they are for a long time to come.

It cannot be supposed, however, that all of the fun of this situation will be on the side of the President, and all of the embarrassment on the side of those who are trying to read his mind.

Whatever he does—whichever of the three courses he adopts—Mr. Roosevelt is certain to encounter some complications. They may be more than offset by the extraordi-

Spaniards Give Blood For Soldiers At Front

tages as well as advantages. Chief among the embarrassing factors would be the resentment of men in his own party who want to run in 1940 themselves.

Something like that developed in 1928. Mr. Coolidge refused to go beyond his statement that he did not "choose" to run; and many believed he wanted the nomination. Yet Mr. Hoover was a member of the Coolidge cabinet. Many who knew both men believe that after those tense pre-convention weeks things never were the same between them.

In Mr. Roosevelt's cabinet are at least two or three who doubtless would like to succeed him. Among Democratic senators and governors are many others. Can a non-committal Presidential attitude be maintained without serious intra-party disturbance?

It is, altogether, a most intriguing situation, crammed with possibilities, capable of producing enough fun and enough grief to satisfy everybody. Who will profit even guessed.

CITY BOARD OF ALDERMEN SANCTION SUNDAY MOVIES

(Continued from page one) Alderman Parrish made a motion allowing shows to operate and the proposal was seconded by A. C. Ladlow.

Dr. M. B. Massey stated he would vote against the measure, declaring that when he was in need of medical advice he went to a physician, when he was in need of legal advice he went to a lawyer, etc., and therefore he had consulted his and other ministers on this subject. He insisted he might be wrong, however, and said he was perfectly willing to abide by the majority. In this respect he said that he would vote for a referendum on the subject. He also said that his idea of the proper way to spend the Sabbath might be wrong, and that if it is he is perfectly willing to change.

After a brief round-table discussion of the matter, the vote was called and the proposal adopted. No outside opposition was offered.

Mr. Walker thanked the board and declared that he would offer only high type shows on Sunday. The shows were opened here Sunday before last, but were closed down upon order of the police department, acting under the city's blue laws. Mr. Walker explained at the time it was his belief and that of others he had conferred with that there was no statute prohibiting Sunday shows.

Mr. Walker announced that shows would be opened here Sunday with two shows in the afternoon and one at night. The afternoon program will start at 2 o'clock and the night performance will open at 9:30 o'clock.

The Aldermen transacted little other business last night, with the exception of routine matters. The traffic situation at the Atlantic Coast Line crossing on Dickinson avenue was discussed at length, with a proposal being offered to put up a traffic light, but no definite action was taken.

George B. Scott Company was awarded the contract for the semi-annual audit of the city's books. The Carolina Telephone and Telegraph company applied for a 30-year franchise and a committee was named to investigate. The company proposes to lay some underground cables in the near future and officials said the firm wished to have its franchise, which elapsed three years ago, renewed before undertaking this program estimated to cost from \$20,000 to \$25,000.

The board instructed the street committee to proceed with extending the culvert which ends at Third street some 40 feet in the direction of Second street. It was made clear, however, that the city was unable at present to extend the culvert all the way.

Texas Ships Insects TO AUSTRALIA

Vvalde, Texas (AP)—Insects are among the commodities Texas exports to Australia.

The insect is the Baris, a tiny black beetle, which Australian officials are using to rid the country of the cocklebur. The beetles attack the roots of the cocklebur plants but do not bother other vegetation.

A shipment of 10,000 beetles was sent recently to Canberra, N. S. W., headquarters for burr control work in Australia.

Salesmen To School

Pittsburgh, Pa. (AP)—Note-books have replaced salesbooks for employees of Pittsburgh's downtown department stores who are enrolled in the Retail Institute, a series of evening classes sponsored by the Research Bureau For Retail Training of the University of Pittsburgh.

666 COLDS and FEVER first day. Headache, 30 Minute Liquid—Tablets—Salve—Nose Drops. Try "Rub-My-Ting"—World's Best Liniment.

Fruit-Nuts—Fruit-Nuts. All kinds of Fruits and Nuts and as Fresh and Nice as You Ever Saw! Apples, Oranges, Tangerines, Grapes, Grapefruit, etc., and a Complete Assortment of Nuts. Our Prices are Just Right! Askew Fruit Store. Dickinson Ave., Next to Carolina Grill.

PROPERTY TAX SEEMS LIKELY

Consider Levy to Bolster Social Security Fund

By J. C. BASKERVILLE
 Raleigh, Dec. 4.—Because of the need for additional revenue, especially with which to match Federal funds for old age pensions and other social security measures, it is already regarded as certain that the forthcoming general assembly will consider the imposing of a property tax on intangible personal property, if not actually enact such a tax.

Some even believe it may have to exact a small state-wide tax on real property, such as was in effect from 1929 to 1931 for the partial support of the public schools, although most observers regard the enactment of a real property tax as improbable.

It is definitely known here that the Advisory Budget Commission, which has been working for several weeks now on its tentative Revenue Bill, which the law requires it to submit to each new general assembly, has devoted considerable time to a discussion of a state tax on intangible personal property. Some observers here think the Advisory Commission may recommend such a tax and include it in its new Revenue Bill.

But whether the budget commission recommends such a tax or not, it is generally agreed that since the new constitutional amendment was adopted permitting the general assembly to classify property, the forthcoming general assembly will undoubtedly consider such a plan. For as a result of the enactment of this amendment, the general assembly now has authority to enact legislation classifying all types of property and at different rates. Until this amendment was enacted, the constitution required that all intangible property, if listed, be taxed at the same rates as real property. The result of this was that very little intangible property ever got onto the tax books, so that the counties, cities and towns got virtually no revenue from the tax on intangible personal property.

It is agreed in most circles, however, that since the legislature can now tax intangible property at a different rate from tangible and real property, that it could levy a tax of one-half of one per cent or even one-fourth of one per cent on bank deposits, savings accounts, stocks, bonds, notes, mortgages and so forth, and get a large amount of revenue from such a tax.

For while the law requiring the listing of intangible property has been more or less ignored and not enforced for years because the tax rate on this type of property was regarded as confiscatory, the belief is that most of this property would come out of hiding if a reasonable tax should be imposed. It is also maintained that the state could collect a tax of this sort much easier than could the counties, cities and towns.

For instance, it is being pointed out that the general assembly could pass a law making it compulsory for all banks to furnish the state department of Revenue with a list of depositors and the amount to their credit on any specified date and also require the banks to do and pay it over to the Department of Revenue. Thus the state could be sure of getting this tax regardless of whether the owners of this money listed it or not.

It could also require all insurance companies to report the cash value of all policies held within the state and to deduct the amount of the tax each year. It could require all corporations to report the amount in stocks and bonds held in the state each year and to deduct the tax. The legislature could also enact legislation compelling the filing of notes and mortgages and thus get the tax from 4.5 per cent. All together, it is estimated that the state could collect several million dollars a year from a small tax on intangibles, probably enough to raise the new revenue needed to put the social security program in effect.

That there will be opposition to such a law, whether recommended by the Advisory Budget Commission or not, is generally agreed, however. The counties are expected to oppose it on the grounds that the state would be invading their prerogative to impose a tax on property, even though it be intangible. The holders of large blocs of stocks and bonds, mortgages or notes are also expected to oppose such a law, while large bank depositors are also expected to oppose it. But the difficulty which local governments would have in collecting a tax on intangibles, compared with the ease with which the state could collect it, is regarded as giving a big advantage to the state.

Double Funeral Set For Colored Women

A double funeral will be held at 1:30 o'clock Sunday afternoon at the Synanon Hill Baptist church for two aged, respected colored women united by the marriage of the daughter of one to the son of the other.

The two women, Martha L. Langley and Nellie Thompson Barnhill, died yesterday within a few hours of each other.

Both had worked in this city for many years, having been employed in various homes. Each was 80 years old.

Seamen And Shippers Fight Over 'Hiring Hall'

By SAM JACKSON

San Francisco, Calif.—(AP)—Looming larger and larger in the present maritime strike is a comparatively new issue—the hiring hall.

Although it would be loosely defined as a maritime employment office, the hiring hall has special characteristics which make it a focal point of trouble. It is there that the make-up of ship's crews and longshore gangs is determined, and neither employers nor hands are disposed to yield a jot of what they regard as their rights.

In San Francisco, where the strike started October 30, the hiring hall dates back about twenty years. Then it was initiated by ship owners as merely a convenient set-up for engaging crews.

Unions Gain Voice
 Unions won a hand in its management after the bitter general strike of 1934, and the Waterfront Employers' association charges that by a system of maneuvering and intimidation the unions have usurped complete control. The 1934 arbitration award provided that—in the case of the longshoremen—the union should name the "dispatcher" or chief executive, but that he should be subject to the labor relations committee, a group consisting of three longshoremen, three employers and one impartial arbitrator.

Typical of hiring halls is the most controversial of them all, the longshoremen's hall in San Francisco. A long, bare ground floor space near the waterfront, it accommodates about 400 men. At 6:30 each morning it opens, and a dispatcher, two assistant dispatchers and five clerks take their places. The latter represents the labor relations committee and check up on hours worked and wages paid.

"We do not seek to abolish hiring halls," says Thomas G. Plant, employers' representative in strike negotiations. "The major issue is selection of men—that is, who shall have the right to say to whom American ship operators must employ their ships. Employers believe the owners should have this right."

CALL BOARD
 A dispatcher in the San Francisco hiring hall chalks up the names of longshoremen who have drawn assignments.

Hollywood Sights And Sounds

By Robbin Coons

Hollywood—Judy's fitted with bullet-proof vest, last will and testament made, and a "Te Salutamus" on his lips, your reporter timidly invaded the big white house that is the lair of that beautiful and haughty ogress of Hollywood legend; Miss Constance Bennett.

The Marquise de la Falaise de la Coudraye's relations with "the press" in the past have been notably lacking in cordiality. So it was that the sign guarding the front door, arched "Trade Entrance" around the driveway, seemed rather pointed. But we who are about to die (this was my muttering) must die nobly. Front or nothing.

It's a nice lair. You get an impression of formal parlor things and luxuriously thick beige rugs as the maid escorts you to the more practical, darkish and red-leatherish playroom. And presently... La Marquise!

But what's this? Today, at least, La Marquise is just Connie Bennett. She is in white tennis shorts and sweater, and the looks rather like a golden lollipop, thin figure topped by shining golden mane. Sweet as candy, too—but not fulsomely sweet.

It seems Connie is having a little private tennis tournament today. Just Gerry and Sandra Cooper, Fuke Warwick, a few others. Connie thinks all the tennis she's playing is making her look as if she were gaining weight, even if she isn't.

"I seat enough for seven men," she says, "and I never gain an ounce. My legs will always be like sticks."

This is rank delamination, but let it pass. Connie is talking about "Gene With the Wind" now, in superlative. She did a broadcast of a scene from it. She got quite a few letters about it, but intimates she does not consider herself seriously in the running for the role of Scarlet in the film, although she is testing. She isn't sure she could be quite the type. Her hair, for one thing.

And now, down to business: Once upon a time Connie Bennett said she would retire "in five years." Didn't she? Well, it isn't so. Woman's prerogative, and besides—there's always business.

High taxes eat into earnings, and apart from that Constance Bennett has to do things. She tried idleness for five years. When she was first married—the first time—and she had enough of it.

Even now she is forming her own production company. She will appear in her pictures "as long as the public will stand it" and then she will work at producing with other stars.

Talks To Parents

By Brooke Peters Church

Only Growing Pains
 Night after night, Susie woke up crying with a pain in her leg. Her mother wrapped the leg in a wool blanket which she kept for the purpose, and presently Susie would fall asleep again, apparently feeling all right.

"Only growing pains, dear," the mother would say. "You must be putting on inches. Wait and see how big you'll be."

But Susie did not fulfill her mother's prediction. She stayed a small girl and grew up a small woman, in spite of the intensity of her growing pains. At 16 she developed St. Vitus' dance and a heart murmur. Both cleared up in time, but rheumatism and a weakened physique were Susie's lifetime handicaps.

Growing pains are not a harmless part of childhood. They are often rheumatism and may be the forerunners of serious trouble. Many of the weak hearts of maturity are the outgrowth of the growing pains pook-pooled in childhood.

For temporary relief, wool wrapped about the aching leg is very efficacious. At least the child will sleep that night, and his mother, too. But as soon as possible, the next day if it can be managed, the child should be taken to a phys-

Cactus Makes Money On California Farms

San Jose, Calif.—(AP)—The scourge of the desert has become a pay crop. In isolated little pieces of farm land extending from here back into the San Joaquin valley, farmers are growing cactus and making money at it.

The product is prickly pears. Each row of cactus reaching across his 30-acre field pays one farmer, for example, from \$250 to \$300 annually.

At Los Banos, Sam Pesco and his sons, Lucian and Robert just completed their shipping season. One of the Pescos is shown wearing a heavy canvas oil-dipped jacket and leather gloves as he harvests the prickly pears, for, true to their name, they are covered with minute but piercing spines.

The pears grow at the end of the big, heavy cactus leaves and a part of the latter is cut off when harvesting. This practice, it has been found, keeps the pear in good condition for a month or two. The fruit is eaten sliced, with sugar and cream.

The pears grow at the end of the big, heavy cactus leaves and a part of the latter is cut off when harvesting. This practice, it has been found, keeps the pear in good condition for a month or two. The fruit is eaten sliced, with sugar and cream.

AWAITING WORK
 To the hiring hall, center of the maritime dispute, the workers come early to watch the board for a job.

NOTICE
 North Carolina, Pitt County, In the Superior Court, Heber Strickland

vs. Sam Strickland, Alice Strickland, Ben Strickland and Elbert Strickland, et al.

The defendants, Sam Strickland, Alice Strickland, Ben Strickland and Elbert Strickland, will take notice that an action entitled as above has been commenced in the Superior Court of Pitt County for the purpose of correcting a mutual mistake made in the sale of and execution of the deed for property in which the defendants claim an interest; and the defendants will further take notice that they are required to appear in the office of the Clerk of the Superior Court of Pitt County, in the Court House, in Greenville, North Carolina, on the 20th day of December, 1936, and answer or demur to the complaint filed in said action, or the plaintiff will apply to the court for the relief demanded in said complaint.

This the 20th day of November, 1936.

J. F. HARRINGTON,
 the Clerk of the Superior Court of 11 27 17w 4wks.

mortgage executed by E. F. Davis on the 5th day of December, 1929, to R. A. Fountain and Son and J. L. Peele, Trustee, mortgages, and recorded in the office of the Register of Deeds for Pitt County in Book E-18 at page 1, default having been made in the payment of the said mortgage, the undersigned will, on

Tuesday, December 8, 1936 at 12 o'clock noon at the Courthouse door in Greenville, North Carolina, offer for public sale to the highest bidder for cash, the following described real estate:

A certain piece or tract of land lying and being in Pitt County, State of North Carolina, in Falkland township, and described as follows, to-wit: One certain piece or tract of land adjoining the lands of the late J. L. Fountain heirs, F. G. Dupree, Emmitt Peaden, Jim Peaden, Richard Peaden, heirs and others. It being the identical piece of land that E. F. Davis inherited from his mother, Emily Peaden Davis.

This sale is made subject to deed of trust E. F. Davis to Raleigh Bank, Inc. & Trust Company recorded in Book K-15 at page 488 and also subject to taxes.

This the 6th day of November, 1936.

MEET TO HEAR JOHNSON TALK

Gerald Johnson Chief Speaker at Historical Meeting

Raleigh, Dec. 4.—The concluding meeting of the State Literary and Historical Association will be held at 8:30 o'clock tonight in the High Morson, High School Auditorium, in Raleigh. The award of the Mayflower Society Cup will be announced by Dr. Albert Ray Newcome, head of the Department of History at the University of North Carolina at Chapel Hill and Gerald W. Johnson one of the editors of the Sun of Baltimore, will deliver an address, "Proposals for a history of the Future."

Dr. Johnson is widely known as an original thinker and the speaker, and is expected to make a notable address. The public is invited to all the sessions.

Thomas Wolfe, North Carolina novelist who was to have made the principal address before the historical association, was not able to be present, he wired from New York. His place was taken by Dr. Alex M. Arnold of the Woman's College of the University of North Carolina, who delivered an interesting address on "Claude Lorraine and the Wilson War Policies."

According to Dr. Arnold, President Wilson would have planned the United States into the World War in 1916 if it had not been for Congressman Kitchin and the group of Congressmen of which he was regarded the leader, William T. Polk, president of the historical association, delivered an address on "North Carolina Prophets and the Twentieth Century."

This morning at 10:30 o'clock at the Woman's Club, Dan Loy of Raleigh and Dr. Ruth Keating of Durham read papers, and Dr. Archibald Henderson spoke on "North Carolina Books and Authors of the Year." The North Carolina Folk-Lore Society held its annual meeting at the Woman's Club this afternoon at three o'clock.

Officers of the Literary and Historical Association are: President, William T. Polk, Warrenton; first vice president, Frazier Hood, Davidson; second vice president, Mrs. Julia Cherry Sprull, Chapel Hill; third vice president, Paul Ayres Rockwell, Asheville; secretary, Charles Christopher Crittendon, Raleigh.

Junichi Nakamura Speaks Sunday at Christian Church

Japanese Christian Taking Graduate Work at Duke University to Be Guest Speaker Here

Junichi Nakamura, who is taking work in the Graduate School of Duke University, Department of English, will be the speaker at the Eighth Street Christian church Sunday morning at the eleven o'clock service.

The Woman's Council of the Christian church is observing Woman's Day, one of its annual biennial anniversary, on that day. Through the presence and message of Mr. Nakamura, the council is emphasizing an international and inter-racial message of brotherhood. Mr. Nakamura is described as a Japanese youth in whose life and work is reflected the joy he has found in the religion of Jesus Christ. His parents belong to the cultured and intellectual class of Japan and he is the first of his family to become a Christian. He comes to Greenville with the highest recommendations of Mr. and Mrs. Hillman, who have come to know and appreciate him through their association with the student body of Duke University.

KING RUSHES MRS. SIMPSON FROM ENGLAND IN EFFORTS TO EASE TENSE SITUATION

(Continued from page one) would make her queen unless there was certain legislation which the government refused to enact.

This constitutional charge, he added, also would require the assent of all the dominions and "I am satisfied from inquiry I have made that this assent would not be forthcoming."

Revealing conversations with Edwards and the monarch's wish for compromise legislation permits him to marry Mrs. Simpson without interfering with the right of accession by the Duke of York and his children, Baldwin declared no such compromise was possible.

If Edwards refuses to yield to Baldwin, the next step would be resignation of the government with the king faced with the problem of getting a new ministry willing to fight a constitutional battle on his behalf over the American divorce.

Held For Stomping Girl, 14, To Death

This 51-year-old itinerant repairman who gave his name as L. R. Ward was arrested near Jessup, Ga., and hurried away to a secret jail while authorities investigated charges that he stomped to death his 14-year-old step-daughter, Maude Salter, while her mother, bound in chains, looked on helplessly. The mother said Ward accused her and the girl of misconduct. (Associated Press Photo)

Richmond Live Stock

(Courtesy J. N. and J. L. Williams) Livestock market receipts moderate. Early bids steady at \$10 with commission firms asking 25 cents higher or \$10.25 top for choice 120-250 pounds corn fed butcher stock. Weather cloudy, temperature 49.

N. Y. Stock Market

New York, Dec. 4.—Further recovery symptoms were exhibited in today's stock market as encouraging business news, and provided a tonic for a wide assortment of specialties.

While the activity was not pronounced during the greater part of the session, gains of one to six points on seven points in a few instances were held near the end of the fourth hour.

Bonds pointed moderately higher as did commodities.

New York Cotton

New York, Dec. 4.—(AP)—Cotton futures opened steady three lower to two higher with liquidation and better selling, absorbed by trade and commission house buying.

By midday, March was selling at 12.02 and prices generally were four points higher to two net lower.

March, at the end of the first hour, was quoted at 12.06.
