LOCAL OPTION WHISKEY BILL AGREED UPON

Act Will Become Law Upon Formal Ratification

SENATE DEMANDS ARE WITHDRAWN

Little Progress Made On \$75,000,000 Biennial General Fund Revenue Bill

Raleigh, Feb. 19.—(AP)—Senators and representatives agreed today on a final draft of the county option liquor store bill and it will become law after the formality of ratification.

The measure may be ready tomorrow or Monday for the routine of being signed into law by the presiding officers of the legislature.

Local elections on the liquor store question may be held April 6 if the act is ratified tomorrow and April 13 if it is ratified next week.

Senators receded from their demand county law enforcement boards make monthly reports on liquor control and the house agreed to an amendment to make it unlawful to become intoxicated or make a public show of liquor at any athletic contests or any other public place in the state.

The senate made little progress on the \$75,000,000 biennial general fund revenue bill. An amendment to change the graduated tax on merchandise vending machines from 50 minimum to \$10 with a \$50 maximum instead of a \$15 maximum was adopted. Debate continued this afternoon.

By a 94 to 9 vote the house sent to the senate the measure to provide free school textbooks for elementary school pupils and continue rental texts for high school pupils, and continued rental texts for high school pupils.

The house passed three measures already approved by the senate which would change laws on county court pleadings and jurisdiction and approved on second reading one to regulate sale of second hand cars in the state by non residents of North Carolina.

Representatives introduced 50 new bills.

Representative Bryant of Durham sent in measures to enable any city in the state to set up a housing authority to accept PWA funds and carry out slum clearance projects.

House Votes Hold Day's Session In Historic Edenton

Members of Lower Branch Decide to Meet in One of State's First Capitals on February 27

Reflector Bureau, Raleigh, Feb. 19.—Members of the House are looking forward with more than ordinary interest to the session of Saturday, February 27, because it will be held in historic Edenton, "one of the first capitals of North Carolina."

Decision to hold such a session was made Thursday on resolution of Representative John White, of Chowan, who urged that the legislature take advantage of an opportunity to advertise many of the advantages and traditions of the state.

He cited the fact that the Virginia legislature from time to time adjourns its sessions to the historic town of Williamsburg, first capital of the Old Dominion, and points out that this always receives considerable publicity which rebounds to the advantage of Virginia.

Only dissenting note in the debate came from Craven's Libby Ward and the Chairman of the House Appropriations committee was not putting his foot down because of economy motives.

The New Bern man simply objected to phraseology of the resolution which called Edenton "the first capital of North Carolina." He pointed to the fact that historians have never been able to agree upon location of the very first capital. He cited a recent opinion that the first legislature of North Carolina met "somewhere in Pasquotank county," and succeeded in having an amendment adopted whereby Edenton was classed as "one of the first capitals."

There was one pertinent question which went unanswered. It was propounded by Pasquotank's Webb Williams who queried "Do you think a quorum will be present?"

Sorghum smut causes an estimated damage of two million dollars every year to Kansas farm crops alone.

EIGHT ESCAPE INJURY IN EAL PLANE CRASH

Five passengers and the crew of three escaped injury when an Eastern Air Lines transport plane crashed into an embankment in landing at Atlanta, Ga. The ship is shown piled up against the bank. It was en route from Chicago to Miami and was piloted by Capt. E. E. Ballough, of Jacksonville, Fla. (Associated Press Photo)

SEVEN DIE IN SHIP TRAGEDY

Gun Explodes Aboard Demilitarized U. S. S. Wyoming

San Pedro, Calif., Feb. 19.—(AP)—The death toll of a gun explosion aboard the old U. S. S. Wyoming was raised to seven today when Sydney Emsley, marine private, died from his injuries on the naval hospital ship, Relief.

Emsley, whose home was in Atlantic City, N. J., was among the 11 injured rushed here for medical attention by the training vessel late yesterday. His death came even while a naval board was being formed to investigate the naval tragedy.

The tragedy came as a 30-pound powder charge of a five-inch shell went off yesterday in the breach of a star board gun on the demilitarized Wyoming during maneuvers.

President May Be Forced Intervene In Steel Industry

Firms Refusing to Bid on Many Orders For Steel to Be Used in Naval Construction

Washington, Feb. 19.—(AP)—Taking up naval matters at his press conference, the President said he would be forced to act soon to obtain steel needed for construction of naval vessels. The steel industry has failed to bid on many naval orders, naval officers blaming this on the wage and hour requirements of the Walsh-Healy act imposed on holders of big government contracts.

The visits of congressmen to the White House to discuss reorganization of the federal judiciary continued today.

The President, who talked with three Democratic senators yesterday, called in Senator Thomas (D-Ola.) and Murray (D-Mont.) today. At his press conference he indicated he would see more legislation over the week end.

An administration resolution to extend the reciprocal trade act for three years was reported out to the senate by its finance group.

Senate Civil Liberties investigators heard testimony strikers in one General Motors plant—a Chevrolet factory at Flint, Mich.—were "given a good beating" by foremen and non-strikers when sit-down strikers closed the plant several weeks ago.

Senate Wrangle Expected Over Levy On Contractors

Raleigh, Feb. 19.—The Senate is going to wrangle long and loud over the proposal included in the Revenue bill levying a tax on all material purchased by building, plumbing and electrical contractors in North Carolina.

This much has become clear as the upper body, as committee of the whole, proceeds with consideration of the money raising bill as sent over from the House.

The Senators took little time in knocking out amendments aimed at the sales tax in general—these amendments fired in by Senators Ewing and Kelly—but there's going to be more than a bit of pyrotechnics before the plan to tax contractors is enacted into law, if indeed it is ever enacted.

That proponents of the tax, which was inserted at the last session in committee at the instigation of Commissioner of Revenue A. J. Maxwell, are beginning to

Pair Questioned In Richmond, Va. May Be Escapees

Richmond, Va., Feb. 19.—(AP)—Two men were being held here today while James Braithwaite, deputy U. S. Marshall said their fingerprints and photographs were being compared with seven convicts who escaped from the Caldonia, N. C. prison last Monday. Police said the men, who identified themselves as William Foster, 35, of Denton, Md., and Leonard Hodges of Martinsville, Va., were charged with being suspicious characters.

SOLONS PROBE HALIFAX FARM

Convict Says Easy to Smuggle Weapons Inside Camp

Raleigh, Feb. 19.—(AP)—Ten members of the legislative committee on penal institutions came back from Caldonia prison farm today with words of a convict ringing in their ears, "hell, smuggling a little thing like a pistol, or even three or four of them, into this prison ain't much of a job."

Representative Norwood of Stanley and his fellow legislators made the biennial legislative inspection yesterday, but they also asked questions about the escape Monday of seven desperate prisoners who are still free.

"If I was on the outside I could get a machine gun in here, 'one prisoner said. 'I can't afford to talk too much because I've only got a short time to serve, but I've got sense enough to know that you can't hire brains for \$40 a month."

"I ain't saying that any or all of the guards is crooked but a \$10 or \$20 bill shoved in the face of the average man who gets such a little salary is a mighty big temptation."

Watchdog Philadelphia (AP)—Paul belongs to Dr. George C. Kleffer, who took him from a dog pound. Dr. Kleffer made a wooden log for Paul to replace one cut off by a street car. Burglars took jewelry Dr. Kleffer valued at \$1,450. Paul slept through the robbery.

The wolf-eel, a Southern California fish, has teeth resembling those of a large dog.

SEVENTY HELD IN MODEL CITY

Chinese Government Extends Narcotic Drive

Shanghai, Feb. 19.—(AP)—Seventy residents of the so-called "model city" of Nantung, 75 miles northwest of Shanghai, were convicted today of habitual use of narcotics and sentenced to die in the government's "be cured or die" campaign.

Extending the anti-narcotic drive to Nantung after first executions of dealers at Peiping several weeks ago, Chinese police arrested 2,000 others suspected of selling or using habit forming narcotics.

Jails were crowded to capacity as the prisoners were dragged from narcotic dens. When the jail population exhausted the available cells, authorities ordered the city's temples turned over for temporary detention centers.

Pitt County FCX Meeting Set For City February 23

To Be Held in Court House at 2 P. M. Similar Session Scheduled For Ayden at 10 A. M.

Pitt County patrons of the Farmers Cooperative Exchange will assemble in the Greenville Court House here Tuesday afternoon, February 23rd at 2:00 P. M. for their annual meeting, at which time they will hear a report on the past year's activities by M. G. Mann, of Raleigh, General Manager of the State-wide Farmers Co-operative Exchange.

Held jointly with this meeting will be the annual meeting of Pitt County members of the Cotton Association for the purpose of electing delegates to the district convention. For the convenience of FCX patrons in the Ayden section a similar meeting of the FCX will be held in the Ayden Community Building in the morning of the same day, at 10:30 A. M.

These meetings are open to all farmers, farm women and farm boys and girls. Mr. Mann said, adding that he hoped that each man would bring his wife along with him. "True co-operation begins in the home, with all members of the family working together toward a common goal," Mr. Mann said.

The FCX was organized two and one-half years ago through the cooperation of N. C. State College, the State Extension Service, the Department of Vocational Education, the State Department of Agriculture, the State Grange and the North Carolina Cotton Growers Co-operative Association, and other agricultural agencies. Its purpose is to make available to farmers quality farm supplies.

"It is neither the desire nor the intent of the FCX to put anyone out of business," Mr. Mann declared. "We are interested only in seeing to it that quality farm supplies are available to farmers on the basis of a reasonable margin of profit. With us, quality always comes first, service second and price last."

PIGS IS PIGS—AND MAYBE BIG PROFIT

Potter, Neb. (AP)—Pigs really mean something to Fred Reets, who points to his pyramiding of profits from no \$36 hog.

A year ago Reets bought a hog for \$36 and recently sold it for \$56.10. While he owned the hog, it raised 11 pigs which sold for \$352.

Texas and Louisiana produced more than 95 per cent of the 2,000,000 tons of sulphur mined in the United States in 1936.

Strikes Occur On New Labor Fronts

Violence Flares At Illinois Metallurgical Corporation

Waukegan, Ill., Feb. 19.—(AP)—Strikers hurled pulleys and bottles of acid out of the windows of two plants of a metallurgical corporation today in retaliation for attempts made by uniformed officers to evict them.

The violence flared after the officers battered doors of one of the plants in an unsuccessful effort to gain entrance.

Someone within the plant threw a bottle containing acid at the door. The officers hastily abandoned their course of attack as the fumes spread.

Sit-downers in the second plant, 60 feet away, cheered their colleagues as they broke windows and threw pulleys and water down upon the besiegers.

General Motors Workers Walk Out Of Canadian Plant

Detroit, Feb. 19.—(AP)—A strike in one of the General Motors two Canadian plants placed a new problem before the corporation's labor executives today only a few hours after another one had been settled at St. Louis.

The new strike was called in the plant at Oshawa, Ont., as negotiators for the corporation and the U. A. W. A. turned to the consideration of a basis for establishing seniority rights for workers in their American factories.

Employees in the plant, about 30 miles from Toronto, struck yesterday and said they would remain out until wage demands were met. They asserted when they were given a wage increase of about seven cents an hour recently the number of jobs they were required to complete daily was raised from 27 to 32.

Mother of 23 Faces Murder Plot Trial

Minnie Hines, 49, who says she is the mother of 23 children, went on trial at Elkader, Ia., charged with participation in a plot against the life of Dan Shine who was slain five days after his marriage to Pearl Hines, Minnie's niece. Four others have been convicted on murder plot charges in connection with the case. (Associated Press Photo)

SLAYER SENTENCED TO DIE IN CHAIR

Major Green to Die at Sing Sing Week Of April 4

New York, Feb. 19.—(AP)—Major Green, 33-year-old negro who bungled to death Mrs. Mary Robinson Case, bride of a year, January 11 was sentenced today to die in the electric chair at Sing Sing prison during the week of April 4.

Green stood before Judge Charles Golden, flanked by court officers and attorneys, as sentence was pronounced.

Occasionally blinking as Judge Golden reviewed the crime of which he was convicted five weeks after Mrs. Case's battered body was found in her apartment bath tub, Green mumbled answer to questions from the bench.

His trip to the Sing Sing death house was set for this afternoon.

Winant Resigns Chairmanship Of Security Board

Washington, Feb. 19.—(AP)—John Winant, chairman and republican member of the Social Security Board, resigned from the board today for the second time.

He left it the first time last summer to answer republican critics of the democratic social security plan.

Accepting the resignation, President Roosevelt expressed the hope Winant, former governor of New Hampshire, soon would return to government service.

The President named A. J. Altmeyer, a board member and former assistant secretary of labor, to succeed Winant as chairman.

Murray Latimer of New York, who has been serving as chairman of the railway retirement board, was appointed to fill the vacancy Winant's resignation created.

Trio Successful In Making Five Records

Three Greenville youths have just returned from Charlotte where they made five records for the R. C. A. Victor Recording company. The trio is known as the Rambling Ramblers.

Two of the numbers, all vocal trios with guitar, were composed by the trio, Norwood and Edward Conway and Curtis Streets. While in Charlotte they signed a contract with the recording company.

V. H. Sills who granted the local youths the audition, was said to have been favorably impressed with the trio.

"Mountain Man" in Oils

Denver, Feb. 19.—(AP)—Teh ruddy face of Jim Bridger, one of the most famous of the fur period mountain men in Wyoming, has been done in oil for the Colorado State museum. It was painted by Walter Low, Denver artist, from what he said was the only authentic picture of Bridger known to exist.

In the only other case tried this term, Newsome Worsley was declared incompetent to handle his business affairs and a guardian ordered named to take charge of his affairs.

A two weeks term of Superior court for trying criminal cases will get underway March 15. It was incorrectly stated earlier this week that the term would begin next Monday, but the term is not scheduled to start before Monday, March 15.

The trial of Bernice Aspinwall and Bernard Moore, two young white men charged with brutally attacking O. Lem Pleasant is expected to come up for trial at the March term of criminal court, but the calendar has not been prepared and it was not known what day it would come up.

Firemen Solve Problem

Eric, Pa. (AP)—Smoke billowed from a mailbox but firemen hesitated to quench the fire. Someone pointed out the possibility of federal prosecution if they opened the box. The firemen solved the legal quirk by inserting the nozzle of a hose in the letter slot. They said a lit cigarette had been thrown into the box.

UNITED FRONT IN NEUTRALITY

Portugal Declared Ready Join Other European Nations

(By Associated Press)

Portugal today was declared ready to join Europe's neutrality bloc, completing the list of 27 nations trying to stifle the conflict through non-intervention.

The general neutrality scheme, including a ban on foreign volunteers, and a patrol system to guard against arms movements in the war zone, is scheduled to become effective tomorrow at midnight.

Madrid's defenders, meanwhile, claimed a measure of success in their bitter stand at the gates of the capital. Reports said the government troops had plunged into insurgent lines in a desperate attempt to silence artillery which had swept the all-important highway to Valencia. The road still was under government control, but was swept by insurgent forces.

While London awaited final instructions from Lisbon on a compromise solution for Portugal in the neutrality agreement, France launched an investigation of reports insurgent artillery had been trained on her Pyrenees border.

Cottonseed Disease Explained to Farmers

Approximately 30 Pitt county farmers attended a demonstration on treating cottonseed, held at the State theater yesterday by Dr. Luther Shaw of N. C. State college.

Treatment for a disease known as "dampingoff" was explained by Dr. Shaw, who also showed lantern slides on methods and value of treatment.

Slides also were shown on more common diseases of tobacco. R. R. Bennett, county farm agent, described the discussions as "very beneficial" to the farmers who attended.

Frank Phillips, Bartlesville, Okla., president of the Phillips Petroleum company, says indications point to the best year for the oil industry in 1937 "since the depression."

Maximum Hour Work Bill Shaping Up For Passage

Raleigh, Feb. 19.—Stripped of some of its "side gesture" provisions the Maximum Hour bill, which has been in Representative George Uzell's Manufacture and Labor committee for some time, is about ready to come on the House floor.

Way has been cleared for the measure by unfavorable reports on bill's providing for shorter hours in South Carolina and Georgia cooperative and for limitation upon the number of hours drivers of motor vehicles may work.

Both these measures received minority reports, however, and were Thursday placed upon the House calendar for action on the reports. It is confidently expected that both minority reports will be rejected.

The earliest Maximum Hour bill introduced at this session — which provided a maximum of 40 hours per week in the textile and tobacco industries and 48 hours per

week in others — is still being held in committee. The 55-hour week bill will be reported as a substitute for the early bill, observers agree.

There was opposition even to the 55-hour week measure, with its 48 and eight hour limitations upon the labor of women, but this opposition did not come from the big industrial concerns. It was drawn largely from the hotels and restaurants, which now work their waitresses and other female employees seven days a week and often for many more than 8 hours in one day.

The provision that a 40 hour week might be made operative should ten of sixteen named states adopt such regulations, has been stricken out, both because it probably would never come to pass, and also because it was possible that ten Northern states with which North Carolina has no real competition might adopt such legislation while neighboring states did not.

AGREEMENT ON OLD WAR DEBT IS PREDICTED

Robinson Sees Strong Likelihood of Settlement

PUBLIC OPINION SAID BE FACTOR

Counting Interest and Premiums Figure Estimated at \$25,000,000

Washington, Feb. 19.—(AP) Senator Robinson of Arkansas, Democratic leader, told the senate today "there is a strong likelihood that in the next year something substantial may be accomplished looking toward a final settlement of the war debt."

Robinson spoke after Senator Lewis (D. Ill.) proposed in a resolution that no reciprocal trade treaty be made with any nation which repudiates or "refuses to pay" or adjust its debt to the United States.

He said undischarged and undischarged debts exceeded \$12,000,000,000, and "with interest and premiums, approached \$25,000,000,000."

Interrupting Lewis, Robinson said the forecast was based on turn in sentiment about the foreign debt issue in debtor countries.

"There is a growing public opinion in some of the better countries," he said, "which recognizes the unavoidable and absolute necessity for declining to permit themselves to be permanently committed to a policy of repudiation."

Old Rural Church In Greene County Burned To Ground

Latest Toll in Assessment of Unusual Losses From Forest Fires in North Carolina

Reflector Bureau, Raleigh, Feb. 19.—A rural church in Greene County, said to be approximately a century and a half in age, is the latest toll among an assortment of unusual losses from forest fires in North Carolina, W. C. McCormick, assistant State Forester in charge of fire prevention, said today.

In the past, according to Mr. McCormick, forest fires in the State have resulted directly or indirectly in the loss of human life, the destruction of buildings, and have even caused the destruction of a concrete bridge and have burned a paved road in two.

According to Mr. McCormick, the destruction of the church, located on the Snow Hill-Kinston highway, resulted from a fire set in the vicinity of the building with insufficient precautions for its protection.

The county warden reported to the assistant State forester, the responsible party, who had approached the warden in advance, had warned not to start the fire without notifying adjoining property owners and that he should have sufficient help to control the flames. He was further advised to set the fire if the wind was blowing from the west.

Ignoring the citation of the report from the warden as to the brush burner set the fire during a high wind and without notifying adjoining property owners and without taking legally required precautions. As a result, the flames spread beyond control and the century-old church, including the loss of approximately \$3,000 was destroyed.

Mr. McCormick said the person responsible for the setting of the fire was prosecuted by the forest warden, and was fined \$50 and costs after pleading guilty to the charge of "intentionally setting fire to grass and other brush lands and woodlands and failing to extinguish it." The maximum penalty, he pointed out, might have been a fine of \$500 or imprisonment of four months.

GEOLOGICAL FIND MAY EXPLAIN GAS DEPOSIT

Hornell, N. Y. (AP)—A geological discovery which may explain the deep deposits of natural gas in this section, is revealed by Walter Redmond, former principal of the Greenwood high school, who says a prehistoric earthquake split the earth on a line between what are now the communities of Hornell, Canisteo, and Greenwood.

The earthquake which caused the fracture would leave the region in ruins if it occurred in modern times, Redmond says.

Trapping is a big business as well as a sport in Texas. All sections of the state have fur-bearing animals of commercial value.

Social and Personal

Hubert Joyner, J. P. Carr, J. E. Parkerson and M. A. Brinkley went to Richmond today to attend a meeting of Metropolitan Life Insurance agents.

R. L. Bumber, Sr., and R. L. Bumber, Jr., agent yesterday in Raleigh and Wake Forest.

Moved
Mr. and Mrs. H. L. Carr have moved from Dickinson avenue to 48 West Fifth street.

Makes High Honor
Chas. Shuff, of this city, senior at Duke University, received the honor of being placed on the Dean's list for the past semester. Making the Dean's list is considered one of the highest scholastic honors.

Bethlehem Commandery
There will be a regular meeting of Bethlehem Commandery No. 29, tonight at 7:30 o'clock. All members are urged to be present.

J. VANCE PERKINS, Recorder.

To Preach Here Sunday
Nathan C. Brooks, Jr., of Baptist Training Union Department of the North Carolina Baptist Convention, will preach at Memorial Baptist church here Sunday morning. The public is cordially invited to hear him.

Back From Hospital
Taylor Carr has returned home from Johnston-Willis hospital in Richmond, Va., where he underwent an appendix operation several weeks ago.

Legion Auxiliary to Meet
The Women's Auxiliary of Pitt County Post of the American Legion will meet Monday afternoon at 3:30 with Mrs. John Horne, at her home on the corner of Ninth and Charles streets. Assisting hostsesses will be Mrs. Alex Viola, Mrs. D. M. Clark and Mrs. J. H. Rose.

Surprise Birthday Dinner
Stokes, N. C., Feb. 19.—Miss Isabelle Barnhill was made very happy last Sunday when she returned from Sunday School and found a nice dinner on the dining room table which was centered with a pretty cake, decorated with red hearts and bearing twelve red candles. This was a real surprise to her as it had been arranged for her to spend the weekend with a relative. Ice cream in white and red hearts was served with the cake.

After dinner was over the twelve children present played both out and indoor games, after which Isabelle opened her presents, which were very pretty.

She is the daughter of Mr. and Mrs. J. Leon Barnhill, of near Stokes.

The following children enjoyed the day with Miss Barnhill: Charles E. Worthington, Virgil Barnhill, Eric Whitehead, Dupree Barnhill, Billy Harrison, Phillip Harrison, Pauline Worthington, Helen Joyce Stokes, Sarah Ann Moss, Gail Barnhill and Janel Whitehurst.

A. A. U. W. Study Group
Hitler's danger to the world was discussed in the final meeting, yesterday, of the A. A. U. W. Study Group on communism and fascism. His threat was pointed out in his determination to regain colonies in Africa, lost in the World War, and to unite in a greater nation all the German peoples around the borders of the present German state.

This is the last of a series of six meetings devoted to finding out something of the meaning of the ideas of government now dominating Russia, Italy and Germany—how they are working out, and the dangers at which they are most likely to affect the rest of the world.

Miss Laura Rose, A. A. U. W. International Relations chairman for the state, who has conducted similar study groups for the past two years, has led this group also.

Science Club Meets
The story of the Silicon family was made extremely interesting by members of the Science club of the College at their February meeting held this week. After the Silicon family was introduced by Ray Pruett, Miss Margaret Davis told of the numerous uses of Silicon, some of the more important being: the making of glass, jewelry, pearls, paints and cleaning fluids. Then the magic of the Silicon family was shown by Joe Hatem in the making of a Silicon garden, by the use of salts of different metals.

Plans were made to stage a carnival on April 9, in the Robert H. Wright building and a committee to work with these was appointed, composed of: Roy Barrow, Joe Hatem, Ray Pruett and Misses Margaret Davis and Cathryn Albritton. In addition to these plans, others were made with regard to the annual club trip which will take the piece of the open house day, held for the past two years. The committee to work on further plans for Science Club Day is composed of Misses Fannie Brewer, Elizabeth D. Johnson, Stedie Williamson, Callie Charlton and Primrose Carpenter, while the club trip committee is composed of Wesley Bankston, Misses Hattie Holland and Onie Cochran.

Bells On Her Toes
Paris (AP)—Missy shall have bells wherever she goes. Paris shoe shops are now showing gold cat collar bells sewed to strips of black velvet and fastened to the toes of good kid mules.

The End of the Century Club

The End of the Century club held its first meeting of the month with Mrs. Charles White. The meeting was called to order by the President, Mrs. A. D. Frank. The minutes were read and approved. After a short but very satisfactory business session the meeting was turned over to Mrs. J. L. Little, chairman of the program committee, who presented Mrs. Ficklen Arthur, who was to give the program on "The Condition of the European Countries Today."

Mrs. Arthur in turn presented Dr. Frank, who gave us a very short but most instructive talk on what he considered the most serious condition that had ever existed among the European powers, in all history.

The first and most vital fact—that it was not one country fighting against another, but each country with its entire population contending for their individual ideals; then by dividing the countries against themselves; thus threatening an internal as well as external war which may involve all the European world.

At the conclusion of Dr. Frank's talk, Mrs. White, assisted by Mrs. David Whitehead, Jr. and Mrs. J. L. Winstead, served a delicious salad course.—Reported.

Speaks to Student

Dr. Howard Y. Williams, leader of the Public Forum last night, spoke to the College students this morning on "The Major Problem Facing This Generation of Young People" and that is, distribution.

He quoted statistics from a survey showing that even in 1929 there should have been no real over-production.

He painted a picture of the black future confronting this generation, showing the problem of distribution remaining unsolved. His diction was that as a result a deeper depression than the last would follow, and that an ensuing war would practically annihilate civilization.

He painted the present situation, with its millions of unemployed adults, its young people with no future, and its boys and girls unable to succeed in school for lack of proper living conditions, and, this situation, he believes, constitutes a direct menace to any career this generation may enter.

Throughout his talk he emphasized the fact that the masses must organize on an economic and political plane to prevent the inequalities between production and distribution.

Men must learn how to handle machinery, he said, so it will increase production with a subsequent demand for more laborers to absorb those that machinery has displaced.

The Senior-Normal and the Senior sections of the history classes, taught by Miss Sally Joyner Davis, attended the Forum at the high school library last night.

Before closing Dr. Williams pictured the brighter picture that will follow if this generation solves intelligently the problems he stated, and he expressed his belief that the young people will think through and conquer. The result will be a state of society in which all men will have a chance to secure at least the minimum standards of living.

Piano Recital

An audience of music lovers enjoyed the winter term recital given by the piano students of the College last night in the Robert H. Wright auditorium.

The program, which was made more interesting to the listeners by brief explanations by Miss Mead, in which she told something of the characteristics of the compositions and composers, opened with a Bach Invention, followed by a Gigue by Martini and Allegro by Bach, all of which were written in true classical form, and effectively played by Misses Jean Corey, Melba Phillips and Pauline Nelson.

Pierre's March of the Little Lead Soldiers, rendered by Miss Annie Laurie Hodgese, was particularly interesting because it made the audience feel that little lead soldiers had actually come to life, marching in the distance, coming closer, and then the last thing heard was the beating of the drums as they marched away.

In contrast were two descriptive numbers, A Spinning Wheel, by Godard, and Rustle of Spring, by Sinding, effectively played by Misses Grace Freeman and Edith Dixon.

Another type of music, by Chopin, who is perhaps the most pianistic of the composers, was presented by Misses Mary Evelyn Thompson and Elizabeth Tolson, when they played Waltz in C Sharp Minor and Waltz in D Flat.

The two numbers, Lento, by Scott and The Mother of the Cradle by Jonon, played by Misses Christine Ailford and Zylida Cooper, lent contrast to the program because of their modernistic harmonies.

The program ended with Debussy's Arabesque, No. 2, played by Miss Nola Walters, which made a fitting ending of a lovely program.

This is the first time that the new concert grand piano has been used for a recital and both musicians and audience enjoyed its beautiful tone.

Schoolgirl Tams

Paris (AP)—Schoolgirl "tams" are among the new berets shown by Paris hat designers. A bright green grosgrain silk beret has a black quill thrust through it at the side. A black straw beret has a black felt top with a coronet embroidered in gold on the straw.

HAIRDRESSERS TAKE A CUE FROM PARISAN ART SHOW

DERIVED FROM DIRECTOIRE DAYS

Hair waved in a crest on top of the head and drawn high to balance the massed treatment of curls at the neck, characterizes this coiffure derived from the Directoire period and created by Emilie. His diamond clef ornament implies concert or opera as the evening's objective.

Wedding Breakfast

Goldsboro, Feb. 19.—Mr. and Mrs. Harvey Tripp and Mr. and Mrs. H. B. Ragsdale of Greenville entertained at a wedding breakfast at the Hotel Goldsboro Tuesday morning honoring their nephew, Mr. David H. Bland, Jr., and his bride. The breakfast took place in the private dining room of the hotel immediately following the wedding ceremony, which had been solemnized at the First Baptist church.

The hosts and hostesses and the bride and groom received the guests at the door. As they entered the room Mrs. J. C. Pate at the piano played Mendelssohn's "Wedding March."

Breakfast was served buffet style from a long table which was arranged with a miniature bride and groom, smilax and white candles in silver holders.

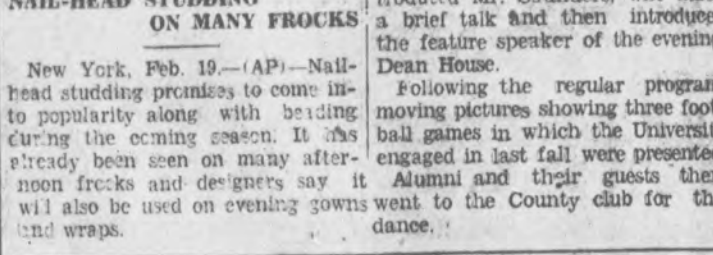

The fifty guests included the wedding party, out-of-town guests, and friends of the bride and groom who have entertained in their honor.

Those from other towns who attended the wedding and the breakfast included the hosts and the hostesses and, in addition, from Greenville, Mr. W. M. Moore, Mrs. W. L. Whedbee, Mrs. John Adams, Jr., and Mrs. David J. Whitehead, Jr.; Mr. and Mrs. O. M. Brendle and daughter, Miss Helen of Alta Vista, Va.; Mrs. Fletcher Herring, Mrs. S. O. Perkins, and Mrs. C. E. McCullen, all of Burgaw; Mr. William Harrison, Enfield; Mrs. J. L. Gholson and Mrs. Drew Wood, Warrington; and Mrs. Martha Nolte, Philadelphia.

NAIL-HEAD STUDDING ON MANY FROCKS

New York, Feb. 19.—(AP)—Nail-head studding promises to come into popularity along with beading during the coming season. It has already been seen on many afternoon frocks and designers say it will also be used on evening gowns and wraps.

Using RUBINOFF FOR HEART BALM

Pretty Peggy Garcia, former night club hat check girl who is suing Dave Rubinoff, the radio violinist, for \$500,000 in a breach of promise action, is shown testifying in court at New York that he asked her the direct question: "Would you marry me?" (Associated Press Photo)

Food Poisoning

"Something I ate disagreed with me."

This is a very common diagnosis offered by the sufferer to explain his sudden illness. Quite frequently it is correct, for food poisoning is a common occurrence. Many a mild indisposition can be accounted for by food spoilage or by the contamination of food by bacteria and their products.

Food poisoning may be divided into three classes.

In the first, the food may serve as a carrier of disease germs. For example, milk may contain the germs of tuberculosis, septiceptic throat, or typhoid. For this reason, milk is pasteurized practically throughout the United States and recently the Certified Milk Producers' association has gone on record as favoring the pasteurization of even certified milk. The latter is a milk produced under very strict supervised sanitary conditions and is derived from tested and certified cows. The danger of contracting typhoid from contaminated sea foods, notably oysters and clams, is well known.

A second type of food poisoning results from the contamination of foods and bacteria producing a specific poison. In this class botulism is the most important instance. The botulism germ is widely distributed in the soil and grows readily in a variety of foodstuffs. Quite a number of botulism poisonings result from improperly home canned or home preserved foods. The warning has been issued that all vegetables or other non-acid foods home canned by the boiling water or oven process must be thoroughly boiled before they are served to destroy the botulism poisoning.

A third type of food poisoning results from the production of a toxic substance by bacteria of the staphylococci (common pus-producing) variety. This type occurs most commonly during hot weather, but may be experienced in any season. The foods involved have principally been of the cream-filled pastry type such as cream pies and chocolate eclairs.

Many of the substances that serve as food for man are also first class culture media for bacteria. Food should be handled with scrupulous cleanliness. It should be refrigerated whenever possible, and should be sterilized by heating whenever feasible, and especially when it is non-acid and has been home canned or home preserved.

New Evening Fabrics

New York, (AP)—Pastel chiffons, novelty nets and metallic taffetas are all appearing in new evening gowns. Up-to-the minute trimmings include fringe, generously used, and simulated gems.

Man About Manhattan

By George Tucker

New York — Here are a few do's and don'ts in case you plan to visit New York in the near future. (Note: This is really supposed to be a letter to a pilgrim in Montana, who has requested this information, but I am sure he is willing to share it with you.)

If you have any particular shows in mind, wire for reservations now. Some of them are selling seats three months in advance. The expensive night clubs are not all these with "minimum" tariffs that present you with some startling sums. Too, most night club waitresses are careless with their attention, and so you are advised to consult the menus carefully before you order, and to check your bill just as carefully afterward.

Those who enjoy seeing celebrities in their native haunts might take a chance on dropping into the lobby of the Warwick. Dean Cornwell is doing the new murals there and you never can tell when he will show in.

Don't accept a taxi driver's advice on which club to visit. The manager of your hotel can supply you with the best advice on such matters.

Rockefeller Center is a startling sight to include on your tour. But, be careful how you cross the street at that particular corner. With the "L" pillars there and the tremendous attraction—the sector carries, it has become one of the worst traffic problems in the city.

Dining in famous restaurants or hanging around stage doors is the best way to encounter celebrities. They usually leave the theater half an hour after the curtain goes down.

Harlem no longer carries much appeal—indeed, most of its lights have departed for Broadway. If you must go, however, observe extreme care. Patronize no club or restaurant which isn't advertised in the newspapers.

CHANGES MADE HIGHWAY BILL

Reorganization Measure to Be Offered Next Week

Reflector Bureau.
 Raleigh, Feb. 19.—The Administration's reorganization bill will come on the floor of the House next week with none of its essential provisions changed, but with the composition of six of its districts so different from the original bill as to be scarcely recognizable.

As has been anticipated, there has been hardly a word of opposition to the principle of reorganization on a basis which will make the board closer to the people, but counties — particularly eastern counties — were so dissatisfied with the groupings in the original bill that Chairman Con. C. Johnston's Road committee has had its hands full taking care of the matter.

That is what has held up the measure, and Mr. Johnston said Thursday that he could not then give even a tentative list of the new groupings.

"Districts One to Six of the original bill won't look the same when we make our report," he said. "In the west it was different, although every county objected to being put in a district with buncombe. They were afraid that the county with Asheville in it would be able to get all the gravy."

Reorganization of the commission so that it will be composed of ten members from different geographic divisions is expected by its sponsors to go far toward stilling widespread discontent and complaint about the present setup. People are tired of coming to Raleigh every time they want a road hearing and then getting about five minutes in which to present their appeals. Under the new plan each section will have its representative who can be appealed to without all the fuss and bother of traveling hundreds of miles to the capital.

A \$300,000 building, said to be the first university building erected exclusively for education in social work has been completed on the campus of Washington University in St. Louis.

Kansas ranchers lost 50,000 cattle in the famous New Year's day blizzard of 1886. Dead cattle were piled so thick along the railroad tracks they had to be cleared off before trains could go through.

LEWIS VOICES MINERS' DEMANDS

Tuesday: Winterville group teachers met with parents as visitors and had as speaker for the occasion Dr. Hollar, instructor in History at E. C. T. C., who spoke on "Having an Aim and Working to Accomplish It." After remarks by the supervisor, parents and visitors were served by the teachers.

Wednesday: Falkland group teachers met and discussed "How to Teach Reading in the Elementary Grades." Plans were made for group P. T. A. March 3rd and group contests March 17th.

Thursday: Ayden group teachers met and had as visitors the parents. Miss Doa Coats of E. C. T. C. faculty spoke on "Health, Habits and How to Establish Them" and Miss Mack of the Science Dept. of E. C. T. C. spoke on "Answering Questions of Children on Health Habits." Both addresses were full of helpful information for parents and teachers. The Supervisor, Miss I. M. Donnell, then outlined future plans to parents and teachers.

The Ayden school choral club sang several selections of Folk songs. Plans for group contest were discussed after which the parents and visitors were served by the teachers.

A large number of parents were present and expressed their appreciation for the helpful addresses given by the members of the E. C. T. C.

Contract negotiations to avert possibilities of a strike affecting the nation's bituminous coal miners have begun at New York. Here John L. Lewis (right), head of the United Mine Workers, tells Charles O'Neil, representing the bituminous operators, the demands made by the 400,000 miners for a 30-hour week and wage boosts. The operators want a 40-hour week and no pay raise. (Associated Press Photo)

NITROGEN PHOSPHORIC ACID POTASH

the better-balanced fertilizer for BRIGHT TOBACCO?

Some farmers never know what a fine crop of bright tobacco their land will produce because they never try using enough NV POTASH. Tobacco removes from the soil more potash than both nitrogen and phosphoric acid combined. Yet it very often receives the same low-potash fertilizer year after year. When yields and quality suffer, many things are blamed, when this is often simply due to potash starvation.

Are you sure your bright tobacco gets enough NV POTASH? Many farmers have been content with low-potash fertilizers until they tried using 3-8-8 MADE WITH NV POTASH. They found that the small extra cost of the extra potash in 3-8-8 was their best-paying fertilizer investment, returning greatly increased yields of better quality tobacco.

Full-grained, high-quality tobacco gives more pounds than thin, tissue-paper leaf or light trashy leaf. When you produce 1,000 pounds of tobacco per acre, an extra cent per pound due to extra quality will pay the extra cost of 3-8-8 many times over.

It costs little to try 3-8-8 TOBACCO FERTILIZER. Usually only about six pounds of average tobacco per acre will pay the difference between 1,000 pounds of 3-8-8 and 1,000 pounds of 3-8-5. Farmers who try 3-8-8 keep on using it because it costs little and pays big!

Your fertilizer man knows the importance of plenty of potash in tobacco fertilizer. That's why he has 3-8-8 on sale. Tell him you want to try using more NV POTASH this year. Tell him you want 3-8-8 TOBACCO FERTILIZER MADE WITH NV POTASH—the mixture that contains so much extra-profit-producing plantfood at such low extra cost. Your tobacco will thank you with YIELDS+QUALITY.

NATIONAL ADVERTISING REPRESENTATIVES: The F. Clark Co., Inc., New York, Chicago, Indianapolis, Philadelphia, Kansas City.

The move now before the legislature to divorce the State Highway Patrol from the Revenue Department and set it up under a Department of Highway Safety is a good one. The duties of a highway patrol should be to patrol the highways in an effort to safeguard the life and property of those who travel the highways.

Now that the county option plan of liquor control in this state is practically assured, it is to be hoped that the various county boards as well as the state board, will stick to their job of liquor control, taking no part in state politics and permitting no politics in the liquor control plan.

Washington Daybook

WASHINGTON — Credit Secretary Morgenthau with throwing a spotlight, although for just a moment, on one of the underlying big problems incident to operation of the social security act.

What if there came along a first time war, or a number one national emergency, or a lot of peaky little emergencies? How well would the government withstand the temptation to dip into the pot, take

ESCAPE IF YOU CAN

SYNOPSIS: A pistol cracks in Anne Phelps' studio, killing Count Anton Vronski, who had been blackmailing her with love letters. Anne, Clarke Bigelow and Karsanokoff, the exotic dancer, are nearby. With the help of Dr. Austrelitz, the psychologist, Anne and Bigelow eliminate all possible suspects — including themselves — except Karsanokoff.

Chapter 40 And The Letters? KARSANOKOFF relaxed among her cushions, looking from Bigelow to Austrelitz and back. The doctor nodded mechanically. He was lost in thought. Bigelow leaned forward to ask hesitatingly: "You examined the papers that you took from his apartment, of course?"

"I decided to hold the letters as a guarantee of my own safety," said Karsanokoff

purposes of blackmail. There were also photographs of checks. "Did you destroy those?" asked Bigelow anxiously. Austrelitz glanced up, his attention finally caught by their conversation. "No," said Karsanokoff. "I have them in a safe place. My first thought was to destroy them certainly. Then I thought the rightful owners might prefer to have them back intact—to feel assured that they could no longer be a weapon in anyone's hands. And there?"

ANNE had arranged for seven o'clock dinner so that they would be able to arrive at the theater in good time; but Bigelow turned up at six-thirty in order to have a few words with Anne before Austrelitz and Mrs. Phelps appeared and Anne had evidently had the same thought for she was already dressed and waiting in the drawing room.

It all in the name of national emergency or pinch it off in bits in the name of national exigency? Suppose a depression came along and the middle-aged and near-pension-aged folk decided they needed the money right away instead of waiting? And the inflationists insisted that the pension savings under social security ought to be pumped into business to perk up business? And columns of elderly and near elderly marched on Washington demanding prepayment of "the old age bonus"?

Legislative Chaff and Chatter

Raleigh, Feb. 19.—As was expected in most quarters, the bill giving persons injured in motor accidents a lien on the vehicle of the driver at fault was killed in committee. This measure aroused sharp protests from automobile dealers and finance corporations, as the lien provided by it would have been superior even to that for unpaid balance of the purchase price.

There will probably be an investigation of the state REA, but it's dollars to doughnuts the preamble of Senator Abernethy's bill is so changed as to delete its highly critical phrases.

HURLER NURSES BROKEN NOSE

Lynwood "Schoolboy" Rowe, ace hurler of the Detroit Tigers, is shown in bed at Hot Springs, Ark., where he was nursing a broken nose and other minor injuries received in an auto accident.

North Carolina's big quarter million dollar advertising project has started in the legislature. A bill providing that sum to be expended in magazines and periodicals and in other ways has been offered in the Senate, with Senator Lee L. Gravelly, Rocky Mount, listed as its sponsor. The Senator, chairman of the committee on Conservation and Development, is now ill at his home.

These who go to Wrightsville Beach this summer, taking motor boats with them, had better enquire about regulations regarding their operation in Banks channel. A bill to give the board of admiralty of the island resort power to make such rules has been passed by the House and will no doubt gain Senate approval.

North Carolina's statewide Victory Dinner will be held in Raleigh, with R. L. McMillan in charge, according to announcement by Lon Folger, Democratic National committeeman. The date has not been definitely decided. Mr. Folger is in close contact with Senator Josiah Bailey and expects to obtain a speaker of national prominence for the big event.

Many House members say they were won over to the proposed Saturday session in Edenton by Chodura.

House pages are very fond of Gaston's Representative Dave DeJinger. And no wonder. He took them all to the movies Thursday afternoon.

Senator John Sprunt Hill, presiding in committee of the whole, addressed Senator Rodman as "the Senator from Washington," then stammered a bit and corrected "I mean the Senator from Beaufort."

Senator Tom Gold, of Guilford, thinks that the mania for speed which has obsessed the legislature may not be such a fine thing after all. He had no hesitancy in saying so Thursday during a discussion of the Revenue bill in the Senate.

Thursday's House session was preceded by a brief musical interlude of singing and instrumental numbers by children from the Caswell Training School, a state institution for the mentally afflicted. The youngsters were loudly praised for their ability.

which has obsessed the legislature may not be such a fine thing after all. He had no hesitancy in saying so Thursday during a discussion of the Revenue bill in the Senate.

TWO CONTESTS HERE TONIGHT

Greenville and Ayden To Engage in Double-Header

The Greenville High School basketball club, will meet the Ayden High School club in a double-header tonight at 7:30 in the high school auditorium. The boys' game will be played by the B Class Varsity men, because the first five cagers are traveling with their coach, Reynolds May, to Winston-Salem, to scout the High Point quint, which they will probably oppose at Chapel Hill in the state championship game. The boys did have a game slated with Raleigh tonight at the Capital City, but it was cancelled so the team could watch the High Point team in a contest.

The Eastern champs of North Carolina will play a return game with the George Washington High School of Danville, Va., one of the best teams in Virginia, here Monday night at 7:30. The Greensies journeyed up to Danville not long ago and defeated the Virginians by the close margin of 30-27.

This game will probably be one of the last games played by the champs on their home court this year, which has been a most successful season and has brought honors to Greenville never before obtained. The Danville quint is seeking revenge on the locals and intend to put everything they've got into this contest.

Tuesday night the Greenville girls will meet their old and dogged rivals, Washington. The game will be played in the local gym at seven-thirty.

The local sextet met the Pamlico lassies not long ago and defeated them.

PIRATES PLAY HERE TONIGHT

To Meet Naval Apprentice School Five Of Newport News

The Naval Apprentice School basketball team of Newport News, Virginia, will play Coach Boley Parley's East Carolina Teachers Pirates here tonight at 8 o'clock in the Campus Building.

Tonight's game, which is next-to-the-last home test of the season for the Teachers, will mark the first meeting between these two teams. Reports on the seamen indicate that they have a very strong quint this season and that a close game is in sight for Coach Boley Parley's Pirates. The first home game for the Teachers with the Norfolk Division of William and Mary College and will be played here March 1.

SOX FOR SOCKS THE CALIFORNIA PLAN

Berkeley, Calif. (AP)—Last season of the University of California baseball team changed from its conventional blue and gold socks to blue and gray. For the first time in four seasons it failed to win the conference title. This season the boys will bat 'em out again in blue and gold.

SUGAR IN SUGAR BOWL

New Orleans (AP)—The Sugar Bowl sports carnival here was a financial success. The track meet drew 4,000 fans. Intercity boxing matches between St. Louis and New Orleans drew 3,000. The basketball game between Arkansas and Tennessee drew 2,500, and the Santa Clara-L. S. U. grid game drew 42,000, giving each eleven \$40,000.

They Hunt The Gold Diggers!

3 Smart Girls BINNIE BARNES

STARS OF TWO GENERATIONS Annette Kellerman and Mary Hoeger, 12-year-old former national diving champion, talk and swim in Florida.

MIAMI, Fla.—(AP)—Annette Kellerman, whose one-piece bathing suit shocked your old man 20 years ago, thinks "the real abbreviated suits of today" won't last long.

"More feminine and softer costume lines are replacing the abbreviated, skin-tight suits of last season," she says.

"The extremely brief, unadorned swimming costume is becoming only to those streamlined girls who comprise a small part of beach groups.

World Growing Soberer "Women between 30 and 45 are becoming more modest in the United States as the days following the World war reach a more sober stage, and these stouthead women certainly are not going to parade in literally skin-tight swim suits.

"For the collegiate girl and youngsters, as long as we live anyway, there will be the one-piece, though."

Here for a vacation and to stage a swimming and diving exhibition.

Officials Preparing For Annual Cage Tournament

Raleigh, Feb. 19.—The guess of one is as good as that of another as to which team in the Southern Conference will win the conference basketball tournament to be held here March 4, 5 and 6.

The 1937 basketball season has been one of the most hectic the conference has known. First one team and then another has skyrocketed to the top to look like a champion; only to be knocked off when least expected.

At this stage, when it should be easy, it would be difficult to name the eight teams that will finally wind up in the tournament. A month ago Duke's Blue Devils looked like the pick of the crop. Lately they have been beaten by N. C. State, North Carolina, Wake Forest, Washington and Lee, and V. M. I.

It was thought that Washington and Lee would be much stronger this winter. The Generals are, but other teams have also improved with the result that the Generals over State appear strange who have found competition keen all fact that last week State defeated along the way. Two weeks ago they Davidson College, 51-34, and the

NATL. BISCUIT GETS VICTORY

Bowling Team Defeats Carolina Sales By Score 1998-1859

The National Biscuit bowlers had little difficulty in defeating the Carolina Sales team at the Automatic alleys last night, rolling up a score of 1998 to 1859.

An unusual fact about the score was that a member of the losing team had the highest mark. Campbell led in scoring with 438, but was closely paced by Waldrop of National Biscuit, who scored 436.

The score card follows:

National Biscuit Co.	
Hardee	129-145-144-418
Waldrop	164-156-116-436
J. Warren	135-121-123-378
J. Gaston	123-120-136-379
Bilbro	137-114-136-387
Total	1998

Carolina Sales	
Cox	136-100-128-364
Campbell	164-156-116-438
Whitescarver	98-127-113-338
Burnett	124-119-152-396
Darden	107-97-119-323
Total	1859

very next night Davidson went to Wake Forest and had little trouble knocking the props out from under the Dragons, 43-31.

Wake Forest has a dangerous team as does Davidson—both new teams in the conference—and will have to be watched.

South Carolina is making things hum down in the Palmetto State and by tournament time the Gamecocks, if they keep improving, will be one of the strongest contenders for the tourney title.

The Spiders of Richmond University are knocking at the tournament door and all fans are hopeful that Maryland's colorful but luckless Old Liners will be among the eight contestants seteled on February 27.

There are a number of games yet to be played and their outcome may change the color of things time and time again, but there is one thing certain—tournament fans can sit back and wait until tournament time with the assurance that the 1937 tourney will produce some of the greatest basketball this section of the South has ever seen.

Varied Interests Necessary.

"Also, each year since I started swimming, I have demanded of myself a versatile development. The public likes you as a champion in one event, but they soon forget you if you do not continue to develop and possibly achieve championships in various events or different sports. This program finds me healthy and prosperous and still doing my turns."

The aquatic veteran was hailed into court when she first appeared for a 13-mile swim in a one-piece suit—an old-fashioned one from which the bloomers, skirt and other frills had been removed—but a broad-minded judge agreed with her views on the subject.

TOURNAMENT OFFICIALS

The task of arranging and conducting the Sixteenth Annual Southern Conference basketball tournament is the job of the three men pictured above. They are Dr. R. R. Sermon, basketball coach at N. C. State, chairman of the local arrangements; Eddie Cameron, basketball coach at Duke, chairman of the conference basketball committee, and Larry Bagwell, chairman of the sports committee of the Raleigh Chamber of Commerce, sponsor of the tournament. The tourney will be held in Raleigh, March 4, 5 and 6.

SPORT SLANTS

You expect any youngster bearing the name of Walthour to be a fine bike rider. In the case of Jimmy Walthour you are 100 per cent right. Jimmy is one of the most promising young American riders. Last fall, teamed with Al Crossley, he won the 6-day race in Madison Square Garden.

Walthour and Crossley formed the first American team to win in the famous sports arena since 1927. Jimmy is a cousin of Bobby Walthour, 6-day star half a dozen years back, and the nephew of Bobby's father, known as the "Dixie Flier," one of the greats of 6-day riding a generation ago.

The senior Jimmy Walthour and Mrs. Walthour had an act that went over big. Dad Walthour would ride a bike on a home-trainer and Jimmy's mother would ride a white horse on tread-mill, and they raced each other. Later on, Bobby, sr., and his wife took over the act.

Father Trains Him. Jimmy's father has been his trainer ever since the youngster took up bike racing as an amateur a dozen years ago. Jimmy, sr., is the boy's companion at indoor contests.

After Jimmy won the amateur cycling championship of America in 1927 his father decided he was ready to pedal with the pros. In 1928 he joined the mercenaries. He won his first 6-day race the same year—something no other rider has been able to do. Jimmy has ridden on nine winning teams. Several successes have been with Crossley. The pair won 6-day races in Los Angeles, Pittsburgh and Toronto before taking first in New York.

Jimmy is just coming into his prime. He is 26 years old, weighs 150 pounds, stands 5 feet 6 1/2 inches. He was born at Eighth avenue and 47th street in New York city, a stone's throw from Madison Square Garden.

Some of you old-timers recall the famous song line of a generation ago—"On A Bicycle Built for Two." Well, that piece was written when Bobby Walthour, sr., at the peak of his popularity, eloped.

Years later, when his son was winning races just like his famous daddy did, a sprint that showed

Pleasant Memories of Olden Times Schlitz In "Steinies"

Schlitz poured from modern "Steinie" Brown Bottles brings glorious memories of olden days... of brown-raftered inns... and the finest old-day beers in old stone steins. Old-day brewmasters labored hard and long to catch the delicious, old-time flavor that Schlitz brews so uniformly, winter and summer, into every drop... under Precise Enzyme Control.

The uniform goodness of Schlitz is the direct result of years of research and the investment of countless dollars in scientific development of the brewing art. You taste immediately the delicious difference between Schlitz and other beers.

Enjoy it today, in modern "Steinie" Brown Bottles... with the added health benefits of Sunshine Vitamin D... the finest beer men and science can brew.

Schlitz "Steinie" Brown Bottles are compact—light in weight—easy to carry—take less space in your refrigerator. Contents same as regular bottle. Also available in the familiar Tall Brown Bottle and Cap-Sealed Can.

[You don't have to cultivate a taste for Schlitz... you will like it on first acquaintance... and ever after.]

The Beer That Made Milwaukee Famous

Bobby Walthour out in front was the signal for the band to strike up the number that recalled his father's elopement. The piece still is played whenever bike riders go whirling about in a wooden saucer.

EXPECT GROUP IRON OUT BILL

Liquor Conferees Probably Have Little Difficulty

Reflector Bureau.
Raleigh, Feb. 19.—House and Senate conferees on the county option liquor bill will have little difficulty in getting together, all signs here indicate.

At meetings sandwiched between Senate committee-of-the-whole sessions considering the Revenue bill, Senators Ballentine and Rodman, Representatives Bryant, Cooper of New Hanover and Blount will take up the ten amendments added to the bill as it passed the House and accept or reject them.

Four of the six amendments were intended to correct obvious errors or omissions in the original bill. These, of course, will be accepted by the House conferees without more than casual consideration.

Of the other six, four sponsored by Senator Ballentine, one by Senator Rodman and one by Senator Halstead, there will be more controversy, and only one is likely to be accepted by the House in exactly the form it passed the Senate.

In order the amendments, and what is likely to be done with them follows:

1. Amendment of Senator Ballentine providing that the state control board shall have power to make prices uniform throughout the state.

This amendment will be accepted with the insertion of a provision that the state board shall make the prices "substantially" uniform. In order, House members say, of this amendment is to give the state board authority to allow for a differential between county prices to take into consideration variations in transportation charges to the different counties.

2. Amendment by Senator Ballentine making it duty of state control board to supervise purchases at all times instead of as provided in original bill—that is, whenever the state board shall have reason to believe a county board intends to violate or has violated the law.

House conferees will oppose this amendment on the grounds that it puts too much power in the control state board. County controllers feel they surrendered enough of their position in other directions.

3. Amendment by Senator Ballentine prohibiting liquor stores in townships which shall vote dry in county elections and making provision for calling elections after three years in these townships.

House conferees will seek to amend this amendment so that it will be the duty of county boards to take into consideration the fact that a township voted dry when it becomes a question of locating liquor stores; but would not make prohibition of stores mandatory in any township.

4. Amendment of Senator Ballentine making drinking at football games, and other public gatherings unlawful.

House conferees will probably seek to kill this amendment, which they regard as too much after the pattern of the prohibition law the control bill is designed to repudiate.

5. Amendment by Senator Halstead requiring sheriff and magistrates of each county to make report at every term of court.

House conferees are adamant against this amendment and will seek its elimination.

6. Amendment by Senator Rodman providing that 30 days notice of county election must be given and making provision that no special registration shall be necessary.

House conferees will accept this amendment which makes definite the intent of the original bill.

SENATE WRANGLE EXPECTED OVER LEVY ON CONTRACTORS

(Continued from page one)
story, observers believe. In the amendment "all building material" is subject to tax. This, some contend, would put the matter on a different basis.

But it still doesn't cure any part of the objections to the tax. It would accomplish by indirection that which the constitution would not permit by direction, opponents declare. The building contractors would still have to pay and the sales tax would still be extended into a new field of activity—wholesale transactions for production purposes.

There does not appear to be any real argument on this point, proponents of the tax contenting themselves with the assertion that it is needed to raise revenue and to prevent discrimination against the man who builds his own home in favor of contractors.

Thursday there were indications that the opposition will be able to muster strength enough to make final enactment of the tax highly problematical, but it would be a daring prophet who would go on record as predicting defeat of any revenue provision having endorsement of the committee. This legislature—both House and State—has been entirely too strongly behind its Revenue committees to take any such long shot in the way of prognosis.

Children near Belton, Tex., killed 80,000 rats in less than two months in a county-wide extermination contest. W. J. Williams led the boys with 7,792 rats killed with a .22 rifle. Helen Craft killed 1,683 to win the girls' grand prize.

'PROFESSOR' DEAN LECTURES ON BASEBALL

Jauntily wearing a cap and gown of the academic sort, "Professor" Dizzy Dean, a faculty member of the Ray Doan baseball school at Hot Springs, Ark., gives a lecture to students who hope to be graduated into big league ranks. Standing at the left of "Professor" Dean is Lon Arnske and at the right is Rogers Hornsby. They, too, are teaching in the school. (Associated Press Photo)

APPLICATIONS SWAMP OFFICE

Unemployment Commission So Far Has Received 1,502

Raleigh, Feb. 19.—At least ten people have applied for every job that will be open this year with the North Carolina Unemployment Commission, the number of applicants having reached 1502 yesterday and is still growing. Charles G. Powell, chairman of the commission, announced today.

Wake county tops the list with 443 applicants, or about three for every one of the approximately 150 jobs to be filled this year. Six counties have no applicants. Camden, Clay, Graham, Madison, Tyrrell and Yadkin, while seven others, Ashe, Avery, Currituck, Dare, Jackson, Polk and Wilkes, have only one each; five have two each, Alleghany, Caldwell, Hoke, Lincoln and Yancey; seven have three each, Cherokee, Davie, Henderson, McDowell, Pender, Stokes and Transylvania, while eight counties have four applicants. Alexander, Burke, Caswell, Greene, Macon, Stanly, Vance and Watauga.

Chairman Powell announces that the 41 members of the force now are largely temporary and some of them may be dropped, although most will probably be kept. At present, 11 are listed from Wake county, due to several causes, including special types of work, former residents of other counties, now living in Wake, and types of work for which people outside of Wake are not available. Guilford county has four on the employed list, Pitt and Johnston three each, Durham and Cleveland two each and one each from Richmond, Jackson, Forsyth, Cumberland, Robeson, Haywood, Halifax, Randolph, Lenoir, Wilson, Davidson, Alleghany, Warren, Greenville, Mecklenburg and Wayne.

Efforts are being made, Chairman Powell said, to give work to one from each county, or two from each county, with probably slightly larger numbers from larger counties, as far as possible and considering availability for the classes of work.

Next to Wake comes Guilford with 46 applicants. Others follow: Pitt, 43; Durham, 39; Granville, 37; Johnston, 33; Franklin, 32; Wayne, 30; Richmond, 29; New Hanover, 28; Cumberland, 26; Edgecombe, 25; Craven and Iredell, 24 each; Buncombe 23; Robeson, 22; Lenoir, Mecklenburg and Wilson, 21 each; Alamance 19; Beaufort and Martin 18 each; Duplin, Forsyth, Halifax, Harnett, Lee and Northampton, 16 each; Sampson, 14; Jones and Pasquotank 13 each; Chatham and Pamlico, nine each; Cabarrus, Cleveland, 12 each; Bertie, Columbus, Rutherford, Surry and Union, eight each; Davidson, Orange, Randolph, each; Chowan, Haywood, Onslow, 31 each; Catawba, Moore and Perquimans, 20 each; Rockingham, Scotland and Swain, 19 each; Anson, Gaston, Nash seven each.

TOBACCO GROWERS, TRUCK GARDENERS!

We introduce the Greatest Planter of all time
MASTERS' NEW IMPROVED 1937 PLANT SETTER

Plants, Covers and Waters With One Operation

Masters built the first practical automatic plant setter over forty years ago. Since then it has been continually improved. Our new 1937 model is the last word—it has no competition. Others may imitate but never equal Masters' efficiency and durability. Tobacco buyers say they can tell when a crop has been Masters' planted by its uniform high quality. They gladly pay highest prices for this finer yield. Masters' Improved Plant Setter is guaranteed to give perfect satisfaction in planting.

Tobacco, Tomatoes, Cabbage, Sweet Potatoes and other plants

Nearly all first-class hardware and implement dealers handle, recommend and sell Masters' Improved Plant Setters. Ask your local merchant to show you this newest and best device of its kind. If your dealer doesn't have it in stock, write for full information direct. Don't wait until planting time. ACT NOW.

N. Y. Stock Market

New York, Feb. 19. — (AP)—Breaking through 110 to a new recovery top U. S. Steels led a selected forward punch in today's stock market that put forward issues up one to three points.

Coppers, rubbers, rails and specialties were in the forefront of the buying move, based partially on analysts' thought, on the world armament race.

Best prices were established in the first hour. Profit selling out down gains in many instances and there was an assortment of losers in evidence near the fourth hour. Volume dwindled after a fast first period.

Bonds improved but grains and cotton were uneven.

Another Question About CARDUI

Mothers Recommend It
"Why do so many MOTHERS recommend Cardui to their daughters?" Isn't it but natural that any good mother should tell her daughters about Cardui if the mother herself felt that she had been benefited by this medicine?
It is impressive that so many women report having taken Cardui on the advice of their mothers.
Cardui has been found to benefit women when weakened by malnutrition (poor nourishment); and it helps to relieve much discomfort at monthly periods.
Thousands of women testify Cardui helped them. Of course, if it does not help you, consult a physician.
