

CITY STADIUM IS CONSIDERED IN GREENVILLE

Project Supported Group of Prominent Citizens

ALDERMEN ALSO SHOW INTEREST

Project Would Have to be Financed Partly by Donations from Residents of City

The possibility of developing a spacious modern municipal stadium was brought to the fore last night when a committee representing a group of public-spirited citizens appeared before the Board of Aldermen and outlined the plan.

R. C. Deal acted as spokesman for the committee, other members of which are H. H. Duncan, J. Hicks Corey and Guy V. Smith. The Board of Aldermen also has a committee to work on the project and the two groups will get together in efforts to further the proposal.

Mr. Deal stressed the fact that the idea was not solely to provide a good baseball park, saying this was only one of the many objectives. He said that tennis courts would be provided, a cinder track laid out, football field assured and other sports and forms of recreation be taken in consideration.

"We are not thinking in terms of a baseball park, but in terms of a physical education project," Mr. Deal told the aldermen and interested citizens who had gathered to hear the proposal discussed.

Attention was called to the fact that Greenville is growing rapidly and it would not be long before the proposed stadium would have to be put an even greater distance from the heart of the city. This, it was stated, could be remedied by the project, can be purchased much cheaper now than at a later date.

Tentative plans call for a good part of the cost to be raised by donations by persons interested in the project. The city would set aside a sum for the stadium and a WPA grant would be sought.

The necessity of starting the project at once was pointed out because of the fact that the fiscal year ends shortly and funds from the WPA might not be available thereafter. The committee plan to get to work at once on the plan.

It was the general opinion that if such a project is undertaken it would be wise to proceed, not only at once, but with the idea of developing a real municipal stadium. No figure was mentioned as to the entire cost of the project, but it was estimated that at least \$10,000 could be raised in donations without any trouble.

Two available plots were mentioned as suitable for the proposed stadium. Mr. Deal said his committee would not want to recommend either, but leave this question with the city officials. The two were a plot on Fifth street, or Washington highway, practically in front of the city park which is being developed. The other was inside the old fair grounds.

After the proposal was explained by Mr. Deal, Mr. Smith and J. H. Ross spoke in favor of the project. The latter favored the plan as a method by which the children of the city could utilize their spare time. He said he believed it would be a great aid in keeping young boys out of trouble.

Tabernacle Burns In \$600,000 Blaze

Zion, Ill., April 2.—(AP)—Fire destroyed the Shiloh tabernacle and radio station WCBD today and Wilbur Voliva, overseer of the Christian Apostolic church said "I haven't any doubt it was intentionally started." He estimated the loss at between \$600,000 and \$700,000. He said the tabernacle, built in 1902, was valued at between \$500,000 and \$600,000 and the radio station at \$100,000.

Voliva said he and an attendant discovered the fire and sounded the alarm.

"I saw smoke coming from many different places in the large building," he said. "I went in and discovered flames in rooms as far as 200 feet.

Philadelphia Editor Dies After Operation

Pinehurst, April 2.—(AP)—Fred Fuller Shedd, 66, editor-in-chief of the Philadelphia Evening Bulletin since 1921, died early today at the Moore County Hospital here after an operation Tuesday.

Shedd entered the hospital March 28. His wife and son, Dr. William Shedd of Staunton, Va. were at his bedside.

PUBLICIST FEARS COURT 'SWITCH'

"If any president wanted to establish a dictatorship and do so with all the appearance of legality, this is the way he would take—he would keep the supreme court, but switch it into line." So quoth Dorothy Thompson, publicist and wife of Author Sinclair Lewis, in criticizing President Roosevelt's supreme court plan before the senate judiciary committee.

TERMS EXPIRING FOR FIVE CITY ALDERMEN

Rivers, Harbors Bill Is Scheduled For This Term

The offices of Congressman Lindsay Warren advised today it seems probable that a rivers and harbors bill will be passed by Congress at this session, in which case the Greenville waterway project will be practically assured.

ARKANSAS MAN HANGED IN MO.

Executed for Slaying of Officer Three Years Ago

Kennett, Mo., April 2.—(AP)—Fred Adams, 21, of Rector, Ark. was hanged here today for the slaying three years ago of Clarence Green, night marshal at Champ-bell, Mo., during robbery of a filling station. The trap was sprung at 8:05 a. m. (C. S. T.) and Adams was pronounced dead 13 minutes later.

Reiterating his claim of innocence, Adams went to his death with a smile.

He walked unaided from the jail door up the steps to the scaffold, shook hands with Sheriff Dewey Miles and three deputies and told them good-by.

With feverish haste the sheriff and deputies strapped the condemned man's legs together and tied his arms behind him. A deputy placed the black, home-made hood over Adams' head and motioned to Sheriff Miles, who sprang the trap.

Only Race in Prospect So Far is Two-Way Mayor's Contest

Of the five present members of the Board of Aldermen whose terms expire this year, two have stated definitely they will seek the office for another two years, one said he expected to run, another declared that he was out of politics for good and the fifth is seeking the office of mayor, thereby leaving his post vacant.

The election will be held Monday, May 3. A. C. Tadlock of the Fourth Ward and A. E. Hobgood of the Fifth Ward are the two who stated they would seek re-election. L. B. Fleming of the First Ward declared that he had not fully made up his mind, but said he probably would run again. Vernon Parrish of the Second Ward stated definitely he was out of politics and would not seek re-election, and H. H. Duncan of the Third Ward is seeking the office of Mayor. The present Mayor, M. K. Blount, also has announced his candidacy for the post.

J. Hicks Corey has filed notice of his candidacy with the clerk of court for the position held by Mr. Parrish. Aldermen M. B. Massey of the Fourth Ward, J. M. Tart of the Third Ward and J. A. Watson of the Second Ward do not come up for re-election this term.

Candidates for aldermen must file at least five days before the election and those for Mayor 10 days prior to the voting day. Candidates for the former position pay a filing fee of \$1 and for the latter \$10. The Mayor's salary is \$1,800 a year and that of the aldermen \$70.

Through a legislative act the city has been divided into two voting precincts. Wards one, two and three will vote at the court house hereafter and Wards four and five at the City Hall.

No new registration will be required, however, all citizens already duly registered at present being eligible to participate in the election.

A second registrar was selected last night, it having developed that it would be necessary to have two. Mrs. Sallie Jackson Evans was awarded the position and assigned to the Fourth and Fifth wards. Mrs. Lorraine Tyson was selected at the previous meeting as a registrar and will have the First, Second and Third wards.

The books will remain open only 10 days in the future. Hereafter they have been kept open 20 days prior to the election. The registrars will be paid a salary of \$30 for the 10 days' work. In the past \$50 was the salary paid for the 20 days' work.

Soft Coal Miners To Resume Work

One Day Strike of 400,000 Workers Settled by Agreement Between Operators and United Mine Workers Union

New York, April 2.—(AP)—The one day soft coal strike was settled this afternoon by an agreement between the United Mine Workers and the operators. About 400,000 miners will return to work Monday morning. Tomorrow is a mine holiday. Terms of the final agreement for a new wage and hour contract were not made public immediately.

(By Associated Press) The ever-widening strike front occupied a huge new sector today as 400,000 soft coal miners deserted the pits.

Long considered a possibility, the strike of the United Mine Workers of America became an actuality when a day of grace in negotiations for a new contract passed without ending in an agreement. Expiration of the old contract between the U. M. W. and operators at the midnight March 31 marked the technical start of the strike, but yesterday's mine holiday postponed formal cessation of work.

A demand for time and half for overtime was the main obstacle. Hope for settlement this week-end was not abandoned, however. Presidential intervention was considered possible in the event an accord is not reached within a few days. The automotive industry, focal

TANKER SINKS IN EXPLOSION SUSPECT HELD IN \$10000 BAIL

Master of Gulf Company Vessel Dies in Blast at Norfolk

Norfolk, Va., April 2.—(AP)—An explosion wrecked and sank the Gulf oil company's 33-ton fueling tanker Gulf Lass at the dock here today, killing its master and burning another seaman.

Thomas Russell, 51, of Berkley, master of the 57-foot boat, was killed as the blast shot part of the deck house upwards and enveloped the tanker in flames at 7:30 a. m. Thrown overboard, with Russell was Oideon Sawyer, his face badly burned.

An employee at the Gulf Oil company plant, L. F. Hanbury, rescued Sawyer, who was thrashing in the water, dazed and blinded. Russell's body floated on the water nearby.

State Employees Receive Back Pay Withheld In 1933

At Least Half of Workers in Various State Departments Already Have Received Checks

Raleigh, April 2.—At least half of the employees of the various state departments here have already received their checks for the back pay awarded them by the 1937 general assembly, amounting to 25 per cent of their salaries for the months of April, May and June in 1933. It was learned today from the office of the State Auditor George Ross Pou.

When all of the various state employees have been paid the amount withheld from their salaries for those months, the total will amount to approximately \$120,000. The 1933 general assembly held that this was nothing more than a cut in salaries made necessary by the depression of the state's revenue in 1933, and refused to regard it as a debt by the state to its employees.

But the 1937 assembly took the view that the state had only "borrowed" this amount from its employees and that it was the duty of the state to pay it back now that times were better.

The refunds now being made to state employees on the state's payroll during April, May and June of 1933 amount to 25 per cent of their salaries they were then receiving and will be paid whether these are (Continued on page three)

EIGHT PERSONS DIE IN LONDON TRAIN CRASH

Worst Similar Accident in London Area in Recent Years

London, April 2.—(AP)—Eight persons were killed today and more than 40 hurt when two suburban trains crowded with city-bound workers during London's morning "rush hour" crashed on a 60-foot high viaduct.

One coach was badly telescoped across a live rail and burst into flames. The blaze was quickly extinguished by hurriedly summoned firemen.

Scores of passengers narrowly escaped death in the smash, which was one of the worst train accidents in the London area in recent years. Some of the dazed occupants of the car swayed precariously on the viaduct crawled from the crumpled coach and across the narrow foot-board to safety.

"They looked like swaying tight-rope walkers," a rescue worker said. Others refused to leave the car until ladders were run up to the bridge from the main line below and rescuers rushed up to lower them to safety.

Federal Savings Building & Loan Granted Charter

New Association Ready to Begin Operations Here at Office Located at 326 Evans Street

The First Federal Savings and Loan Association, recently chartered by the Federal Government to operate in Greenville, has been organized and granted permission to begin business.

The Federal Government auditor was in Greenville yesterday for final check of the new Association's affairs. He stated that he was highly pleased with the organization and the interest shown by local citizens.

Officers of the new Association are Judge Dink James, President; G. V. Smith, Vice President; A. C. Tadlock, Secretary. The Board of Directors is composed of Dr. S. M. Crisp, J. A. Collins, M. O. Minges, F. M. Stokes, A. R. Barrett, Dink James, Dr. A. M. Schultz, A. C. Tadlock and G. V. Smith.

The new Association is designed to provide safe investment and the most modern and convenient plan of home financing loans. New features of the Association include insurance of savings accounts up to five thousand dollars by the Federal Savings and Loan Insurance Corporation, an instrumentality of the United States Government, and the direct reduction plan of repaying loans.

The new firm will be located at 326 Evans street. A group of the city's most prominent business citizens is sponsoring the association and are original subscribers.

Georgia Power Firm Fights TVA Plans

Washington, April 2.—(AP)—The Georgia Power company asked the Supreme court today for partial suspension of a Fifth Circuit court of appeals judgment which permitted the TVA to build new power lines and sell electricity in Georgia.

FDR DECLARES STEEL, COPPER MUCH TOO HIGH

Would Abandon All Works Projects Using Such Materials

FAVORS USE OF CONSUMER LINES

Chief Executive Declines to Enter Into Discussion on Sit-Down Strikes

Washington, April 2.—(AP)—The Rules Committee voted today for a House investigation of sit-down strikes.

The action came after Chairman O'Connor (D. N. Y.) had conferred with President Roosevelt. O'Connor said while he had mentioned the proposed inquiry, he did not go to the White House primarily to do so. The House may have a chance to vote on the resolution next week.

Washington, April 2.—(AP)—President Roosevelt revealed today a new official attitude toward government works projects, involving different types of structures from those heretofore built.

He said at his press conference prices of durable goods, such as steel and copper, were far too high and it was time for the government to discourage expenditures for them and encourage expenditures for consumer goods.

He told a group of House Democrats yesterday, he said, future public works expenditures should go for channel dredging, earthen dams and similar projects, rather than such permanent structures as steel bridges. This change, he said, would create a larger purchasing power for consumer goods.

The President declined to enter into discussion with reports on the subject of sit-down strikes.

Senator Robinson, of Arkansas, the majority leader, asked the Senate to sidestep an immediate vote on the issue by sending it to committee.

The question was brought to a head yesterday when Senator Byrnes (D-S.C.) proposed to amend the Guffey-Vinson coal bill with a declaration of policy against occupation of coal producers' property by miners who for one reason or another have stopped work.

During the press conference, at which he outlined the new works building policy, the President said he intended to send to Congress about April 14 a request for a work relief appropriation for the fiscal year starting July 1.

The amount he will ask for relief was not disclosed.

Before the Senate Judiciary committee the court reorganization dispute took a turn toward discussion of constitutional amendments when Walter Dodd, Chicago constitutional lawyer, appeared to testify.

Dodd said Congress should call state conventions to act on constitutional amendments.

An investigation of charges that Nazi agents are enrolling Americans under the swastika was recommended by a House committee.

Commercial Teachers Meet This Afternoon

The commercial teachers of the Northeast District will hold a meeting at the College this afternoon from 4:00 to 5:30 o'clock.

E. R. Browning of the College faculty, and L. M. Cannon, of Elizabeth City, will lead a discussion in problems of typing and bookkeeping.

Miss Ruby Blackburn, of the Greenville High school is bringing her shorthand class over for a demonstration lesson in the Functional Method of teaching shorthand.

Miss Maude Adams, of the College faculty, is chairman of the committee of teachers of commerce for this district.

High School Debates Will Be Held Monday

The triangular debates scheduled for today between Greenville, Roanoke Rapids and Tarboro High schools have been postponed until Monday morning at 10 o'clock on account of sickness of several of the debaters.

Greenville teams will go to Roanoke Rapids and Tarboro, while representatives from each of those towns will debate at the High school auditorium here. The public is invited to attend.

More than 120,000 square miles of territory can be seen from the summit of Mount Diablo, Calif.

Local Measures Affecting City To Go Into Effect

Several measures adopted by the recent legislature affecting the city of Greenville will be put into effect within the next few weeks.

One of these provided for the division of the voting precinct in city elections. Hereafter residents living in Wards One, Two and Three will vote at the Court House, while those residing in Wards Four and Five will cast their ballot at the City Hall. Two registrars will be employed, but they will keep the books open for only 10 days prior to the election. Hereafter they have been open 20 days.

The Board of Aldermen will meet before the next regular session to name three members on the Civil Service Board to be established here. The chiefs of the fire and police departments will name one member each.

Members of the Board of Trustees of the "Little Social Security" for city firemen and policemen will be selected at the regular May meeting.

The only other material change made in the city set-up by the legislature was the extension of the limits. Property located in the area taken in will appear on the tax books beginning with the next fiscal year.

WAR RAGES BY LAND AND AIR

Government Troops Bomb Chief Supply Base of Enemy

(By Associated Press) Spanish government troops launched land and air attacks at insurgent supply bases today. The insurgents advanced on the Basque capital, Bilbao in Northern Spain.

Government planes bombed Cordoba, chief supply base of General Francisco Franco's Southern army, leaving many dead and wounded. A team 16 miles South of Cordoba was expected momentarily to fall into hands of government militiamen seeking to cut the main highway running Northwest from Cordoba and isolate that provincial capital and valuable supplies from forces commanded by General Queipo de Llano.

Government militiamen also pressed into the heart of a rich mining section now held by insurgents.

The Northern insurgent army speared deeper into the walls of mountains protecting Bilbao and seized four lofty vantage points.

SPORTS

Ninety Big Sixers Get In

Lawrence, Kas. (AP) - Ninety players had at least some part in the Big Six basketball season.

Participation ranged from the scoring of Groves of Kansas State, who set a new record of 154 points in 10 conference games.

American agricultural exports declined 5 per cent in value and 10 per cent in quantity in 1936 compared to 1935.

SPORT SLANTS

Glenn Cunningham, holder of the world record for the mile, looks like a promising thoroughbred as he warms up for a race.

Pitcher Freddie Fitzsimmons of the Giants adds a funny little twist to his windup. He turns around, completely hides the ball from the batter, and then seems to shoot it out from nowhere.

Leo Diegel assumes a spread-eagle stance on the putting green - a stance that would break the average golfer's back. It is his natural putting style - the one that gets the best results for him.

Most athletes have some odd mannerism either in warming up or in action. Perhaps it might be called "style."

Watch Mel Ott at the plate. Note how he cocks his right leg just as he is about to take his cut. It gives him leverage, and helps pull those long drives into the right field.

MORE FARMERS TELL HOW THEY STOP RUST and START PROFITS

In Georgia they say: "NV POTASH PAYS!"

C. O. BRICE, Barwick, Ga., says: "150 pounds of NV KAINIT per acre gave me a gain of 153 pounds of seed cotton per acre despite the worst drought I have seen in 40 years. I used 4-8-6 at planting but where no extra NV KAINIT was used a third of the crop was dead from Rust when picking began. The pickers would hunt for kainit cotton because it was so much easier to pick. The bolls were larger, better matured and wide open. The staple was better and the seed better matured."

M. H. EVANS, Ty Ty, Ga., says: "I had about decided three years ago that I couldn't make cotton because of Rust. Leaves would fall off before fruit reached maturity, bolls were knobby and the staple was poor grade. I decided I'd try NV KAINIT. I used 100 pounds of NV KAINIT with 200 pounds of 4-8-4 fertilizer per acre. My yield increased more than 50 per cent and I had no Rust at all. Before I started using NV KAINIT, my yield never went over a half bale per acre. Now I average more than three-quarters of a bale per acre and get a much better grade of staple. I'd hate to plant cotton without extra potash. It is the best crop insurance I can get, and the cheapest fertilizer I can buy."

W. R. ANDREWS, Cuthbert, Ga., says: "My 1936 cotton yield was 137 bales on 148 acres. For the last few years my crops have been equally as good. I use 400 pounds of 3-9-5 fertilizer at planting and top-dress with 200 pounds of 17-12. This gives me better maturity, cotton that is free from Rust, better lint and gin turn-out and a crop that is easy to pick. Where there is any indication of Rust, I apply extra kainit or muriate in addition to my regular fertilizer and top-dresser."

"This year I expect to top-dress with 200 pounds per acre of a mixture consisting of 140 pounds of nitrate of soda and 60 pounds of muriate of potash. Any top-dresser with some form of potash does not give cotton a fair chance. Potash is too cheap to let the lack of it cut my crop and lower my profits. High-potash fertilizers are fine for corn, potatoes, small grains and other crops. The money that I spend for potash gives me the best returns."

In North Carolina they say: "NV POTASH PAYS!"

L. O. MOSELY, Kinston, N. C., says: "A six-acre field had been abandoned because of Rust. Three years ago I planted it to cotton. The first year I gave each acre 100 pounds of top-dresser made with soda and kainit in equal parts. I made 9 bales on the six acres, but some of the top bolls were rusty and the leaves looked rusty. The second year I changed my top-dresser to equal parts of nitrate of soda and muriate of potash to get more potash. All the bolls opened wide and turned out a fluffy, white lint that brought a premium of \$7.50 per bale. My return per acre was 976 pounds of lint, which brought \$146.40 and 49 bushels of planting seed which sold for \$73.50. Think of growing fancy planting seed on old rusty abandoned cotton land."

In South Carolina they say: "NV POTASH PAYS!"

M. E. SHULER, Holly Hill, S. C., says: "For years I used 3-8-3 and nitrogen top-dressing for cotton. But now I have changed to 3-8-8 under my cotton and use potash in my top-dresser. One field which showed decided Rust for 15 years is now free of Rust and making as good cotton as any on the place."

"I have found that peas following oats, fertilized with soda and kainit in equal parts, make more peas and hay. There was a big difference in the grain from the use of potash. I used to allow 18 bundles of oats to the hundred pounds, but it takes only 14 bundles now."

C. C. WALLACE, R. F. D. No. 3, Newberry, S. C., says: "I used fertilizer containing 10% potash and top-dressed rusty spots at first chopping with 100 pounds of NV MURIATE OF POTASH per acre. On 32 acres, having an average base production of 90 pounds of lint per acre, I produced an average of 300 pounds of lint per acre. Some of the best land ran as high as 500 pounds. The lint was uniform, with large, wide-open bolls, making picking easy. I had no Rust and shedding was materially reduced."

H. P. MILAM, Sandy Springs, S. C., says: "I fertilized 125 acres of cotton with 600 pounds of 6-8-6 per acre. Six acres were top-dressed with 50 pounds of NV MURIATE and 75 pounds of soda. We had no rain from May 10 until August 15 except a few small showers. During this drought the potash top-dressed cotton kept growing, retained its color and held its fruit. It made more than a bale per acre and no sign of Rust or Wilt could be found."

M. W. JACKSON, Wagoner, S. C., says: "For eight years I have been using 8 to 10% potash in my cotton fertilizers. People told me it would burn up my crop, but it never has. It makes my cotton fruit better, boll right up

control Wilt and produces strong vigorous plants with less shedding, larger bolls that are easier to pick and better yields of uniform, high-quality lint.

The time to top-dress with NV POTASH is when you chop out. Use 200 pounds of NV KAINIT per acre, or 100 pounds of NV MURIATE, or a nitrogen-potash, mixed-goods top-dresser containing plenty of genuine NV POTASH. Remember, NV POTASH STOPS RUST and STARTS PROFITS.

N. V. POTASH EXPORT MY., Inc., Hurt Bldg., ATLANTA • Royster Bldg., NORFOLK

boy didn't make a mistake. We expect to cure some more rusty land in 1937 and show Mr. Rust where to get off."

R. L. HERRING, Central Warehouse, Kinston, N. C., says: "My cotton showed Rust for several years and in 1936 I used 4-8-10 fertilizer plus an application of 200 pounds of NV KAINIT per acre. The crop showed much improvement and very little Rust. I also believe in high-potash applications for tobacco, corn and beans."

GEO. A. COPELAND, Clinton, S. C., says: "For the last few years I have used a potash top-dresser 14-0-10 on my grain and have been well pleased with the results obtained. Also, I have increased the amount of potash used under cotton to double what I was using a few years ago and find that it pays well—especially on sandy land."

WILLIAM A. SPADLEY, Timmonsville, S. C., says: "In 1935, our vocational teacher examined my cotton and found that it was damaged by Rust. The leaves shed off the plants before the cotton was matured. The bolls were small and the cotton hard to pick. The lint was short. In 1936 I used 100 pounds of NV MURIATE OF POTASH per acre, in addition to my regular fertilizer. As my cotton began to mature the leaves did not shed off. The bolls were large and properly filled out. The lint was long and strong, and the yield was far better than it was last year. My net gain, after paying all expenses, was \$12.42 an acre more than the year before. I am learning how to grow cotton."

In Alabama they say: "NV POTASH PAYS!"

J. W. WILLIAMS, Goshon, Ala., says: "NV POTASH paid me well in 1936. Figuring conservatively, with seed cotton at four cents a pound, I made a profit of \$13.60 per acre, after allowing for the cost of an extra 100 pounds of NV MURIATE OF POTASH per acre, in addition to my regular fertilizer. The NV MURIATE was used as a top-dresser."

C. M. GAMMAGE, R. F. D. No. 5, Eufaula, Ala., says: "One acre fertilized with 200 pounds of 6-8-4 mixed goods produced 800 pounds of seed cotton. One acre with the above and 100 pounds of nitrate of soda produced 1,047 pounds of seed cotton. One acre with the above amounts of mixed goods and soda, which was top-dressed with 100 pounds of NV MURIATE OF POTASH, produced 1,299 pounds of seed cotton. Where the extra potash was applied there was no Rust whatever."

W. P. BOYETT, R. F. D. No. 9, Enterprise, Ala., says: "Where I top-dressed with NV POTASH I made 933 pounds of seed cotton per acre against 746 pounds where I didn't use it. The NV POTASH made enough extra cotton to pay for all the fertilizer, soda and potash and still return a profit of \$3.10 per acre. My cotton was badly damaged by two storms. In a normal year I believe NV POTASH would pay a still greater profit. It produces larger bolls that are better matured and easier to pick."

TOP-DRESS with NV POTASH

Use 200 pounds of NV KAINIT per acre, or 100 pounds of NV MURIATE, or a nitrogen-potash top-dresser, made with genuine NV POTASH.

Social and Personal

Dr. W. P. Shambert, of Washington, D. C., is the guest of his daughter, Mrs. Elmo Savage. He has been spending the past few months in California and Washington.

Mrs. V. A. Ward, of Robersonville was here yesterday.

Mr. and Mrs. W. L. Best spent today in Merced City, California and Earl Shuff, Charles Cobb, Benald and Jim Slay and Ben Herring are at home from University for the week end.

Mrs. John R. Carroll of Winterville spent today with her sister, Mrs. A. E. Holgood.

Mrs. and Mrs. E. A. Griffin of Goldsboro were here today.

Senior Class Play.

The Senior Class of Winterville High school will present the play, "Behind the News", a comedy in three acts, Friday evening, April 2nd, 8 o'clock in the school auditorium. Admission 15c and 25c. (Adv.) 31, 1 & 2

Red Oak Merry Makers

The Red Oak Merry-Makers will present "A Mock Radio Program" at Chocod High School Tuesday night, April 6th, at 8 o'clock. They will also be at Arthur April 8th. Benefit Red Oak church.—Adv. 1 21s

To Preach in Ayden

Rev. E. G. Willis of Nashville, N. C., formerly pastor of Momery Baptist church, will preach in the Ayden Baptist church next Sunday morning at 11 o'clock. The public is cordially invited to hear him.

Mrs. Hannah and Daughter Better Mrs. Lee Hannah and little daughter, Nancy Hannah, who have been ill for several weeks, are improving.

Roy Harris Entertains

Roy Harris, director of the Eastern division of the Davidson Chemical corporation of Norfolk, Va., entertained a number of friends and business associates at the Proctor hotel dining room last night. The dining room was decorated with flowers and ferns.

Brief talks were made by Dr. A. D. Kincaid, sales manager of the Eastern division, and by Mr. Sanschell of Baltimore, Md.

Boy Scout Board of Review

The Board of Review will meet Monday night, April 5th, in the Christian church. Scouts who wish class second and first class tests and merit badges, are requested to be present.

Illustrated Lecture

Mrs. Bayard Wootton of Chapel Hill will give an illustrated lecture this evening at 7:30 in the Third Street School auditorium, for the benefit of the school.

There are over one hundred and sixty slides which will be shown on the screen. The pictures are of the beautiful gardens of North and South Carolina. They were photographed in natural colors, and are a treat to those who see them.

Mrs. Wootton explains them in a very interesting manner as they are shown.

They include the Wormsley gardens, near Savannah; Magnolia, Middleton and Cypress gardens, near Charleston; the gardens near Georgetown, and the gardens near Wilmington.

The Clio Club

The Clio club was graciously entertained at the home of Mrs. Dink James Tuesday afternoon, March 30th. Mrs. Needham Ward and Miss Agnes Fullilove were welcomed as new members into the club.

The club readily accepted an invitation from the A. A. U. W. to hear Miss Harriet Elliott, Dean of Women of the Woman's College of the University of North Carolina.

Continuing the series of studies that are being made on "American Authors," Mrs. Shackell gave a most interesting paper on Van Wych Brook, a respected American critic. Next on the program, Mrs. Jesse Moya, Jr. gave an excellent review of the life of Douglas S. Freeman, whose "Biography of Lee" is an outstanding work of the South.

Following an interesting current event discussion, Mrs. James, assisted by her sister, Miss Fullilove, served a delightful salad course.—Reported.

Do Men Know Food?

Tallahassee, Fla. (AP)—Dr. M. R. Hinson of Florida State College for Women advocates a home economics course for men because "most men don't know a well-balanced meal when they see one."

FRIDAY

10 P. M. to 2 A. M.—The German club will give a dance at the Country club.

SATURDAY

1:00 P. M.—Mrs. J. Knott Proctor and Mrs. J. J. White will entertain at the Country Club, honoring Miss Maria Garrett and Miss Helen White, brides-elect.

Honor Miss White

Miss Helen White, popular bride-elect of the month, was honored guest yesterday afternoon when Mrs. B. S. Warren and Mrs. John Mitchell were charming hostesses at bridge at the home of Mrs. Warren.

In an artistic setting of jonquils a number of bridge games were played. At the conclusion of the game Mrs. Marvin Sugg was given a cake for high score. Miss White was remembered with a Belcanet set, and Miss Maria Garrett, bride-elect of May, was presented a lovely evening handkerchief.

A delectable salad course was served.

Mr. Lanier at Home

J. C. Lanier has returned from Washington, D. C., where he has been in Walter Reid hospital. He will leave tomorrow for Hot Springs, Ark., where he will enter the Army and Navy hospital.

Miscue May Prove Boost To Measure On Gas Inspection

Misplaced Amendments to Inspection Bill Declared to Make Law Even Stronger

Reflector Bureau.

Raleigh, April 2.—The "misplaced" amendments to the gasoline inspection law, added in the senate during the closing days of the 1937 session and which were intended to amend sections other than those which they now amend, do not injure the law in the least, but really make it stronger than it would have been if the amendments had been made to the proper sections, according to those who have been studying the law as finally enacted.

The amendments were intended to apply to Sections 24 and 25 and to exempt franchise carriers—that is, passenger buses and motor freight trucks—with regard to obtaining liquid motor fuel carriers' permits from the Commissioner of Revenue if they carried more than 100 gallons of gas in their tanks, and to mark these tanks with the word "Gasoline" in letters at least six inches high, and to exempt them from having to obtain a bill of sale and invoice if they carried more than 100 gallons of fuel.

But in making the amendments, whoever sent them up marked them in accordance with the section numbers in the printed bill instead of the typewritten bill. So when the amendments were sent up they were marked for Sections 25 and 26 instead of for Sections 24 and 25. As a result, the franchise haulers are not exempted from Section 24, with the result that they will have to obtain a motor fuel carrier's permit and mark their gasoline tanks in large letters if they carry more than 100 gallons. The amendment to Section 25, however, will exempt the franchise carriers from having to obtain bills of sale and invoices on gasoline purchased in excess of 100 gallons. The law permits trucks and buses of any and all kinds to carry up to 100 gallons of gasoline in their fuel tanks.

Approximately 132 steam and electric locomotives are manufactured in the United States each year.

TO GIVE CONCERT TONIGHT

Jerold Frederic, the noted young pianist, will give a concert in the Robert H. Wright Auditorium of East Carolina Teachers College tonight at 8:30 o'clock.

MULL NOT OUT FOR ANY POST

Not Believed He Would Accept Position If Offered One

Reflector Bureau.

Raleigh, April 2.—Odus M. Mull, Shelby lawyer and industrialist, is not expected to be offered any important appointment by Governor Clyde R. Hoey, or if offered a post, to accept it, according to a number of observers here known to be very close to Governor Hoey.

They are convinced that the speculation which has been going on for several weeks with regard to the possible appointment of Mull to various posts is without any actual foundation and that when all of Governor Hoey's appointees have been announced, Mr. Mull will not be among them.

For some weeks now the name of Mr. Mull has been mentioned by the political prognosticators here and the possible choice of Governor Hoey either for chairman of the reorganized State Highway and Public Works Commission or for Assistant Director of the Budget. But those in a position to have accurate information maintain that Mr. Mull is not among those being considered for chairman of the highway commission and were surprised to know that he had been mentioned in connection with the budget bureau post now held by Frank L. Dunlap.

One of the reasons for the belief that Mull will not become one of Governor Hoey's principal appointees is regarded as being the fact that neither Governor Hoey nor Mr. Mull has yet forgotten the hue and cry raised during the primary campaigns last summer about the "Shelby dynasty" and the "crown prince" and Brother-in-law O. Max Gardner. For while there is no doubt about Mull's ability to hold any office Governor Hoey might offer him, a good many observers doubt if either Hoey or Mull would care to brave the criticism sure to result should Mull be appointed to some important post.

REA OFFICIALS FORGET SPATS

State Group Getting Fine Cooperation for Federal Body

Reflector Bureau.
Raleigh, April 2.—The North Carolina Rural Electrification Authority is now on the best of terms with the Federal Rural Electrification Administration in Washington and is getting fine cooperation from Administrator John M. Carmody, who recently succeeded Morris L. Cooke, as administrator. It was revealed here today by Chairman Dudley Bagley of the NCREA.

This is virtually the first time since the North Carolina Rural Electrification Authority was established that the REA in Washington has even admitted its existence, or at least that it had any authority, since when Cooke was administrator, he advised the various cooperatives to deal direct with him in Washington and to ignore the North Carolina law and the NCREA.

Now, however, the REA in Washington is advising all prospective cooperatives to take up all preliminary details with the NCREA and to route all applications for loans for the building of rural electric lines through the state authority and get its approval before sending the applications to Washington. This is in accordance with the North Carolina law, which requires any local cooperative electric membership corporation to secure the approval of the state authority before forwarding its loan application to Washington. Because the state REA is much more familiar with conditions in the various counties than the Federal REA and because it is in a better position to make a more careful check, this provision gives the Federal REA a double check on all projects and insures them of being worth while and its represented. For the NCREA will

Special Prices
—on—
WEDDING ANNOUNCEMENTS INVITATIONS CALLING CARDS BEST JEWELRY COMPANY

not approve any project not regarded as feasible. If the Federal REA had followed this procedure all along, it would never have gotten into the mix-up it got into in Johnston county and in other counties, it is maintained. But the Federal REA insisted on going ahead with its projects without any regard for state laws and regulations, and got into hot water as a result. It now seems, however, that Administrator Carmody has decided upon a different policy and that the relations between the NCREA and the Federal REA are going to be most harmonious.

STATE EMPLOYEES RECEIVE BACK PAY WITHHELD IN 1933

(Continued from page one)
still on the state's payroll or not. As a result, several hundred persons no longer working for the state will get these refund checks. During the general assembly several of these former employes spent a good deal of time here lobbying for the passage of the bill repaying these salary deductions. The first checks issued by the

ANNOUNCEMENT

The First Federal Savings and Loan Association of Greenville

has been approved by the Federal Government and will open for business at number 326 Evans Street on Monday, April 5, 1937.

What Is a Federal Savings and Loan Association?

1. A mutual, local thrift institution based on sound, time-tested financial principles.
2. Savings share accounts and share certificates insured up to five thousand dollars by the Federal Savings & Loan Insurance Corporation, an instrumentality of the United States Government.
3. Operated under Federal Charter and strict Federal supervision.
4. Offers a safe investment for funds with a reasonable rate of return.
5. Its funds are loaned to home owners secured by sound first mortgages.
6. Loans are made on direct reduction plan, interest charged only on unpaid balance and loans can be prepaid at option of borrower.
7. All share accounts are non-assessable and no repurchase or withdrawal fees, fines or penalties may be charged.
8. Adequate transfers must be made to reserve accounts at the close of each semi-annual accounting period.
9. All employes bonded by surety company acceptable to Federal authorities.

NATIONAL ADVERTISING REPRESENTATIVES:

Thos. F. Clark Co., Inc., New York, Chicago, Indianapolis, Philadelphia, Kansas City.

The change in the charter of Greenville enacted by the recent session of the legislature provided for two voting places in city elections instead of the one heretofore used. Under the new plan voters in city wards one, two and three will vote at the courthouse while those in wards four and five will vote at the city hall. This change is going to prove a great inconvenience by avoiding congestion at the polls. The more convenient it is to vote on election day the more people will exercise their privilege of voting and the more representative our city government will be.

The proposed waterway for Greenville successfully cleared another hurdle yesterday when the Rivers and Harbors committee unanimously voted to include the project in the first rivers and harbors bill to be presented to Congress. According to information from the office of Congressman Lindsay C. Warren, there is possibility that such a bill may come before Congress this year and this section is most fortunate in the favorable action taken by the committee yesterday. When the proposed waterway to this city becomes a reality it is going to mean much to Greenville and the surrounding territory in a business way as a result of lower freight rates that come with water transportation facilities.

A movement is getting under way here to provide a community recreational center that will include a stadium for athletic contests, tennis courts and other features. With college and high school sports becoming more active here and with organized baseball, there is great need for a stadium. The lack of public tennis courts is also greatly felt here for there is no place that those who enjoy the sport can play unless they have a private court. To get such a recreational center here it would be necessary for local citizens to give financial aid to be added to government funds for this purpose, but we believe that the realization of need for these facilities here is sufficient to cause the local citizens to be willing to do their part in putting the project over.

Traileries Kill Time
arasota, Fla. (AP) — Pine needle basket weaving is one of the favorite pastimes of automobile trailer housewives here. Many make the baskets for souvenirs to send home to their friends.

TEAM WORK!

Man About Manhattan

By George Tucker

New York — Personal notes off a New Yorker's cuff:
Fred Allen, the comic, wears a 10-gallon hat while lounging around home, the gift of the Governor of Texas. He is a member of the Texas Rangers but avers he has nothing but his apartment in which to range, so he has to wear the hat there.

The life of the average popular song is only a few months, but Johnny Green, the composer, has been receiving royalties on "Body and Soul" for eight years. Frank Black's apartment is littered with caricatures of himself. For all his enthusiasm for radio foolery, Ed Wynn's secret yen is to write a gossip column. He frequently starts his friends by sending them mimeographed copies of savory items which he has written. There are left-handed baseball players and artists in abundance, but have you ever heard of a south-paw orchestra leader? The only one I ever heard of is Gordon Jenkins, a lad in his 20's, who directs the orchestra for "The Show Is On."

Hal Block is one of the youngest rag-men on Broadway. He writes most of Phil Baker's nonsense. A rarity in this town of odd accomplishments is Dr. Hirsch Margules, who is a "Sunday" painter. Only on the Sabbath does he go in for portraits and landscapes. The other six days of the week find him covering the courts in his role of police reporter. Incidentally, he has a gallery in the Village known as just "Another Place." Which reminds me of that photographer in Portland, Ore. whose name is Another Smith.

Success note: Phil Baker was the first vaudeville headliner in history to earn \$5,000 a week.
I hate to tell this, but in case you're wondering how Milton Berle gets that way—look up his first name. It means "spleen."
Astrologists now offer this explanation for Gypsy Rose Lee: "She was born under the 2nd degree of Sagittarius," which denotes strong passions, strong will, aggressiveness. She has, they say, a land complex. She wants to amass a vast amount of property.
The other day an author was called to the telephone and the night clerk at his hotel informed him that a two-star telegram had just come in.

NO SUNDAY HEADACHES SPOIL OUR DAY SINCE ALKA-SELTZER CAME OUR WAY

Don't let HEADACHE, Acid Indigestion, Neuralgia, Muscular, Rheumatic, Sciatic Pains, rob you of healthful recreation. Take Alka-Seltzer. Find out for yourself how quickly it will relieve your every-day ailments.

Alka-Seltzer relieves pain because it contains an analgesic, sodium acetyl-salicylate. Alka-Seltzer's vegetable and mineral alkalis neutralize hyperacidity of the stomach.

"What does a two-star message mean?"
"It's a death message," the clerk declared.
"Don't read it to me now," he said. "I'm working on an important article. If the news is really bad, it might upset me."
Completing his article, the writer looked up the various designations on telegrams. To his relief, he learned that a wire carrying two stars meant "rush." But it has nothing to do with death.
The clerk at that hotel ought to familiarize himself with those things. Such mistakes can cause heart failure.

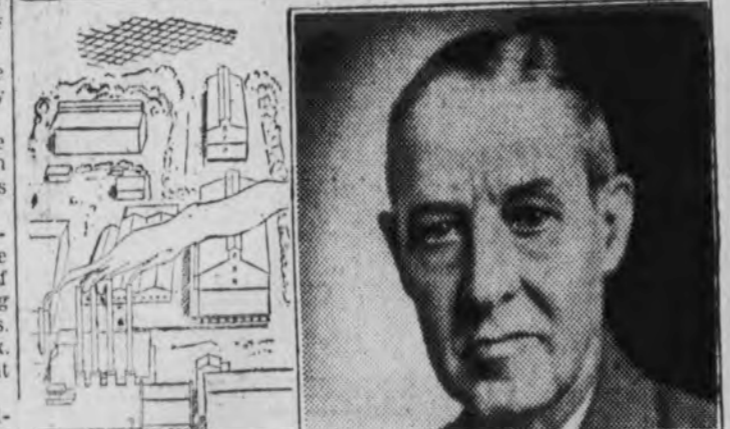

TRUSTEE'S SALE OF REAL ESTATE

Pursuant to the power and authority contained in a certain deed of trust dated the 23rd day of January, 1935, executed by W. L. Smith and wife, Jennie Smith to T. C. Abernethy, Trustee, which deed of trust is duly registered in the office of the Register of Deeds of Pitt County, North Carolina, in Book Q 20, page 211, securing a certain note payable to HOME OWNERS' LOAN CORPORATION, default having been made for a period of more than ninety (90) days in the payment of said note as provided therein and in the performance of certain covenants set out in said deed of trust, and demand by the holder of said indebtedness, the undersigned Trustee will offer for sale at public auction to the highest bidder for cash at the Court House door in Pitt County, Greenville, North Carolina at 12 o'clock noon on the 26th day of April, 1937, the following described real estate, to-wit: All that certain lot, tract

or parcel of land situate, lying and being in the Town of Farmville, Farmville Township, County of Pitt, State of North Carolina, and more particularly described and defined as follows:

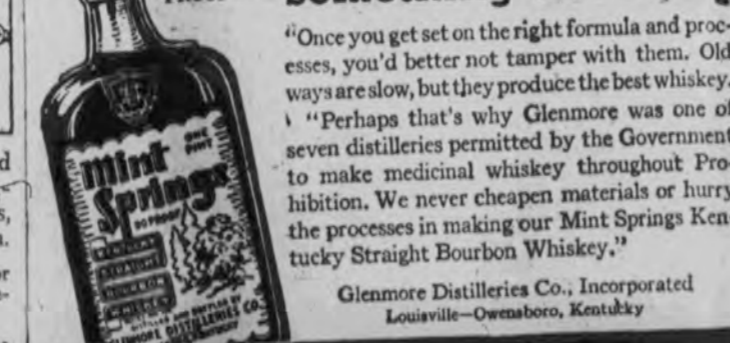

Lying and being in Farmville Township, Pitt County, State of North Carolina and more particularly bounded and described as follows: Situate on the northeast corner of Belcher and Barrett Streets in Farmville, Farmville Township, Pitt County, North Carolina, bounded on the north by lands of A. C. Monk, on the east by lands of J. T. Bynum, on the south by Belcher Street, and on the West by Barrett Street; BEGINNING at J. T. Bynum's southwest corner on Belcher Street, a concrete post; thence with Belcher Street N. 45 deg. W. 60 ft. to the curb line of Barrett Street; thence with Barrett St. N. 45 deg. E. 195 ft. to a corner, A. C. Monk's; thence with the line of A. C. Monk S. 45 deg. E. 60 ft. to a corner, line J. T. Bynum S. 45 deg. W. 195 ft. to Belcher Street, the BEGINNING, containing 11,700 square feet. Being the identical tract of land conveyed to W. L. Smith by W. D. Dildy by deed recorded August 20, 1920 in Book S-13, Page 174, Pitt County Public Registry and being the identical tract of land surveyed and mapped on June 9, 1934, by W. C. Dresbach, Surveyor, a map of which is on file in the office of Home Owners' Loan Corporation.

The purchaser at this sale will be required to make a cash deposit of 5 per cent of the purchase price to show good faith.
This, the 22 day of March, 1937.
T. C. ABERNETHY, Trustee.
JULIUS BROWN, Attorney.

N. Y. Stock Market

New York, April 2.—(AP)—Stock market leaders tumbled one to five or more points today following President Roosevelt's warning signal on the excessive production of durable goods and rising prices which he indicated were unjustified.

The selling wave which swept over the list put the ticker tape four minutes behind for a while. The pace slowed later and near the fourth hour extreme losses had been shaded in many instances. Speculative buying was restrained and U. S. government securities showed another decline.

Colored News

Colored Scouts
The following Colored Scouts passed the first-class examination Wednesday night, March 31st, before the Board of Review: Melvin Williams, Robert Teel, Willie Teel, Robert Shaver, Charles Eaton.

Under the direct supervision of Dr. J. A. Battle they gave a very impressive explanation relative to second-class review of first aid, cooking, and camping in general. Prof. C. G. Mabry held the examination relative to woodwork, map studies, swimming and messages. J. B. Taft had charge of the other examinations.

THIMBLE THEATRE (Starring Popeye) By E. C. SEGAR

Bagley to Confer On Wayne Electric Lines

Raleigh, April 2.—(AP)—Dudley Bagley, director of Rural Electrification, said today he would meet at Goldsboro tomorrow afternoon with F. S. Teague, a former State Senator, and other Wayne county citizens interested in rural electrification to discuss proposed lines in the area.

New York Cotton

New York, April 2.—(AP)—Cotton futures opened barely steady, down 14 to 19 points, influenced by announcement of extension of loan sales through April and lower Liverpool cables.

Richmond Livestock

(Courtesy J. N. and J. L. Williams)
Livestock market hogs receipt light, market steady, top \$10 paid for trucked in hard finished corn fed 180 to 250 pounds good and choice gilts and barrows 140 to 175 pounds 25 to 50 cents below top, 255 to 325 lbs. 25 to 75 cents below top. Pigs under 135 pounds \$1 to \$1.50, below top. Sows \$1 to \$1.50 below top, soft and oily hogs sold subject to discount after killing soft usually ranges 75 cents below and oily \$1.50 below hard finished straight carlots as a rule 25 cents about trucked in hogs where carlots are weighed off the cars. Cattle receipts very light. Vealers fully steady at \$10 top for choice, sold at yards and on Cary street. Cows steady \$3 to \$5.75, bulls \$4 to \$6.25. Heifers \$4.50 to \$8.50, common and medium steers \$3.50 to \$3.50. Good heavy steers as to condition \$9 to \$10. Sheep receipts very light. Spring lambs quotable \$12 to \$14. Wooled old crop \$9 to \$11. Clipped none offered, ewes \$3.50 to \$6. as to quality.

Weather clear, temperature 60.

Approximately 15,000 homicides are committed in the United States each year.

PREPARES FOR SCOUT AFFAIR

Rocky Mount To Be Host to Boy Scouts and Leaders

Rocky Mount, April 1.—(Special)—All local civic organizations, together with Rocky Mount's 300 Scouts and Scouters, and all city officials are planning to extend a cordial welcome to more than 600 Boy Scouts from every section of Eastern Carolina when they gather here in historic Battle Park on April 30-May 1 for the Second Annual Patrol Camporee of the East Carolina Council, Boy Scouts of America.

The Kiwanians, Rotarians, Civilians and the Junior and Senior Chambers of Commerce all have adopted objectives appropriate to the Camporee and have pledged their support to the project.

Willing to show their cooperation, the Scoutmasters of the ten local troops have announced that no picked patrols will be entered in the contests and the best campsites in Battle Park will be reserved for the visiting patrols.

A special water line is being diverted into the park to furnish an adequate supply of water, while plans are being made for a commissary, and the State Highway Department has been asked to clear off Panther Island, the campsite located in Tar River, so that the Scouts will not be troubled with underbrush and tetter's poison ivy.

Proceeds of the Scouts to Battle Park will be 350 U. S. Army flyers from Langley Field who will camp there from April 12 to April 27.

In addition to Panther Island, another Isle, Treasure Island, also located in Tar River below the spectacular falls, has been chosen as the scene for the huge campfire on the night of April 30. Plenty of stunts and other activities have been promised for this occasion by Scout Executive John J. Sigwald.

Events which will be featured during the two-day encampment will include the following: Compass drills, nature study, cooking, fire-building, judging map making, knot tying, whittling, signalling, tracking, pioneering, cliff rescues and other events which will be run off after the manner of a three-ring circus.

The program schedule calls for registration, pitching camp and first medical inspection at 3 o'clock, April 30. At 5 o'clock the patrol units will cook supper and participate in the retreat ceremony. The mass campfire will take place at 8 o'clock. On Saturday, May 1, the

program will begin with breakfast at 7 o'clock, after which the tents, grounds, and projects will be prepared for inspection. At 9 o'clock the patrol projects will be viewed by experts, while campcraft demonstrations will be held at 10 o'clock. Mass games will take place at 11 o'clock and the patrols will prepare for their next meal at 12 o'clock. A parade through Rocky Mount will be held at 2 p. m. and the camp will break up at 4 p. m. May 1.

HEADACHE

Due to Constipation
Relieve the cause of the trouble! Take purely vegetable Black-Draught. That's the sensible way to treat any of the disagreeable effects of constipation. The relief men and women get from taking Black-Draught is truly refreshing. Try it! No mineral drugs, no synthetic chemicals—just purely vegetable leaves and roots, finely ground.

Fire Chief George Gardner submitted his report to the Greenville Board of Aldermen last night, showing that four fires occurred in the city during March, with a total estimated loss of \$832.

SOFT COAL MINERS TO RESUME WORK

(Continued from page one)
The United Mine Workers, numbering 462,000 stayed away from the pit while negotiators representing workers and owners still sought to agree on a contract replacing the one which expired midnight March 31.

To restore peace in strike-torn Michigan car plants, executives of General Motors and the United Automobile workers met to seek some end to the trouble. Similarly Walter Chrysler heading the company bearing his name, and John Lewis, big C. I. O. boss will meet tomorrow.

TAR HEEL TENNIS TEAM OFF TO FAST START AGAIN

Chapel Hill, April 1.—The University of North Carolina tennis team is off to another good start. The Tar Heels, generally regarded as having the best claim to the mythical national championship four times in the past six years.
