CAPITOL HILL INTEREST LIES IN COMMITTEE

With Senate in Recess, Little Accomplished Today

NEUTRALITY BILL READY FOR F.D.R.

Harlan County Sheriff Takes Stand In Civil Liberties Committee Hearing

Washington, April 30. (AP)—Theodore Middleton, two listed Kentucky mountaineer and high sheriff of Harlan county said at a Senate inquiry today he did not "as a rule" discharge his deputies who commit violent crimes until they are convicted.

The chief law enforcement officer of the Kentucky coal county, long the scene of bloody labor battles, told the Civil Liberties Committee two deputies whom he named as Wally Irvin and Frank White "gave me the guns" with which they shot Hugh Taylor, another deputy the night of February 28.

Taylor had told the committee previously he was shot five times and left in a ditch for dead because he would not "shoot-up" the home of a union organizer.

With the permanent neutrality bill ready for President Roosevelt's signature and the Senate in recess today, committee hearings formed the main activity on Capitol Hill.

Secretary Hull told the House Agriculture committee he opposed reduction in the Cuban sugar quota, which under one proposal suggested to replace the Jones-Costigan bill would be set by 100,000 tons.

Such a reduction, he declared, would be a blow to the sugar industry in Cuba.

The secretary told a Senate subcommittee he was against putting Communist, Mexican and Latin American immigration to the United States on a quota basis.

Local experts awaiting department reports due tomorrow on local savings that can be made in 1937.

Administration leaders asked an early vote of the Senate Judiciary Committee on the President's court proposal despite the expectation of an unfavorable report.

Famous Scientist Speaks At College

Dr. Honor Webb, noted scientist who will speak tonight at the College in the Austin auditorium at eight o'clock arrived last night and is the guest of Mr. and Mrs. J. B. Cummings.

The public is invited to hear Dr. Honor Webb speak on the subject "Enriching the teaching of Science in the High Schools."

The Science Club of the College, of which Miss Loraine Hunter is faculty adviser and Durward Stowe is president, selected Dr. Webb as the speaker and leader of their annual "Science Club Day," not only because he is a great leader in the teaching of science, but because he popularizes the subject and makes it extremely interesting to the general public.

The meeting in the Science Building tomorrow morning will be at nine o'clock. Dr. Webb will conduct an Open Forum when teachers and student teachers of science can present problems and he will help solve them. Primrose Carpenter will give a review of the activities of the year.

Dr. Webb, president and Mrs. Meadows, the special guests who come from a distance, the teachers in the Science Department, officers of the Science Club and Mr. Cummings' brother-in-law Dr. Webb and Mrs. Cummings, will be entertained at a dinner party at the College at an informal reception to which these and the other members of the faculty are invited will be held in the newly-furnished lobby of the new dining-room.

Governor Announces New Staff Members

Raleigh, April 30.—(AP)—Governor Hoy announced appointments of his personal staff today.

The Governor pointed out under state laws all staff members must be national guard officers.

The staff members include: Col. Hodge A. Newell, of Henderson, Capt. Henry B. Culbreth of Wilson.

Three Killed In Train Wreck Caused By Flood

The engineer, fireman and a transient were killed when a Canadian National Railroad passenger train plunged from tracks undermined by flood water near Ingersoll, Ontario. The derailed cars are shown with the current swirling around them.

LABOR SKY OF BRIGHTER HUE

Six Months' Siege Of Strikes Ended With Hopes Brightened

Chicago, April 30.—(AP)—A six months' period of unprecedented labor turmoil in the United States ended today with its wave of strikes on the ebb.

Current walkouts, a survey showed, were comparatively few and scattered compared to the hundreds which flared only a few weeks ago.

Exactly a half year ago today Pacific Coast Maritime workers began a walkout, the first major manifestation of labor unrest that was destined to course the continent.

Statisticians calculated the cost of industrial conflict in millions. The United States Department of Labor counted 1,264 strikes, involving 613,056 employees, during a five-months period ending March 31. It put the loss in man days of work at 11,485,156.

The West Coast Maritime strike lasted 98 days, threw nearly 40,000 out of work paralyzed shipping from San Diego to Seattle and cost an estimated \$687,000,000.

Workers in wide variety of industries grasped the strike weapon, modernized by the sit-down technique.

Dwight Beard On Texas Death Row

Huntsville, Tex., April 30.—(AP)—Dwight Beard, 27-year-old convict murderer from Valdesse, N. C., returned to his cell in Huntsville prison today to await death in the electric chair June 4 for the slaying of John Roberts, 60, a retired policeman.

The Court of Criminal Appeals denied Beard's motion for a rehearing last week and Judge Grover Adams set the execution date in Dallas yesterday.

Beard, a college trained man who escaped from a North Carolina prison while serving a life term for murder, was convicted of slaying Roberts during a Dallas holdup December 23, 1935.

Physicians To Attend Annual State Meeting

A number of physicians of Greenville and elsewhere in Pitt county are planning to attend the annual State Medical Society convention to be held in Winston-Salem next week. The sessions will begin Monday and continue through Wednesday.

The State Health Officers' Association also will hold its annual convention in that city at the same time and Dr. N. Thomas Ennett, Pitt health officer, said he planned to attend. Dr. Ennett is scheduled to lead a discussion on the subject "Health Work in the Schools."

Judge J. P. Frizzelle Speaks Here Sunday

Judge J. Paul Frizzelle of Snow Hill will address the Barack class of Jarvis Memorial Methodist church at the regular assembly hour Sunday morning.

All members of the class are urged to attend and visitors will be welcomed.

Religious Fasters Sips Little Wine

Chattanooga, Tenn., April 30.—(AP)—A special dispatch to the Chattanooga News today from Stopping Oak said "The Lord spoke to Jackson Whitlow this morning, saying 'take a little wine for your stomach's sake.'"

"He preferred elderberry," the dispatch added.

The brief report did not say whether the 45-year-old mountaineer had taken food. He began the religious fast 52 days ago after "a call from the Lord."

GAIN SHOWN IN STATE INCOME

Raleigh, April 30.—(AP)—Skyrocketing revenue receipts during the 10 months ending today gave the state \$59,617,248.30, income. Revenue Commissioner A. J. Maxwell announced, which represents an increase of 23.45, or \$11,323,853.05, over the similar period a year ago.

Only two tax classifications, privileges and miscellaneous groups, failed to show an increase during the last 10 months over the similar months in 1936-37.

Income taxes to date total \$10,401,514.11 and inheritance taxes \$3,872,215.39. In the highway fund gasoline taxes showed a gain of \$2,273,011.90, with a total of \$18,074,994.47.

The sales tax in 10 months returned \$9,383,670.17, a gain of \$908,153 over last year.

Secretary Of State Discloses Changes

Raleigh, April 30.—(AP)—Thad Bire, Secretary of State, announced today the duties of administration of the capital issues laws, being transferred from the Utilities Commission to his office tomorrow.

He said Max Abernethy would be retained as Deputy Secretary of State and Miss Marjorie Smith of Robersonville would join the staff tomorrow as an experienced stenographer.

Douglas MacArthur Married In New York

New York, April 30.—(AP)—General Douglas MacArthur, military advisor to the Philippine government, and Miss Jean Faircloth of Murfreesboro, Tenn., were married today in the chapel of the municipal building.

For while no announcement has been made as yet either by Governor Hoy or by Wayne, the conviction is growing that Wayne will accept the new position which it is known Governor Hoy is urging him to take as head of the division which annually buys more than \$50,000,000 worth of supplies each year for the state government, including the highway department.

It was definitely learned here today that when Wayne went to confer with Governor Hoy Wednesday afternoon he had definitely

DEATH CLAIMS AGED CITIZEN

John Congleton, 82, Dies at Home of Son In Kinston

John Stanley Congleton, 82, retired Greenville business man, died at the home of his son, J. W. Congleton, in Kinston, at noon today. He had been visiting his son for the past month.

Mr. Congleton retired from active business two years ago on account of declining health and since that time he had continued to grow more feeble.

Having been born and reared in Greenville, Mr. Congleton was connected with the mercantile business here for more than 60 years. He also was the oldest living member of Jarvis Memorial Methodist church, having joined when he was a young man.

Funeral arrangements have not been completed, but tentative plans call for the services at the home, on Fourth street Sunday afternoon at 3 o'clock. The body was returned here this afternoon.

Mr. Congleton is survived by three sons, J. W. Congleton of Kinston, J. B. Congleton of Greenville and L. G. Congleton of Liberty; three daughters, Miss Addie Congleton of Greenville, Miss Jennie Congleton of Meridian, Miss, and Mrs. J. P. Steed of Warsaw. Seven grandchildren also survive.

Local Legionnaires To Attend Meeting

Several members of the Pitt County Post 39 of the American Legion are planning to attend a district meeting to be held in Rocky Mount tonight.

Former National Commander Henry L. Stevens of Warsaw is on the program, as is Arthur Corey, prominent local legionnaire who is a candidate for state commander.

Among those from here planning to attend are: Mr. Corey, Post Commander S. M. Woodfolk, W. J. Bundy, J. Hicks Corey, J. H. Rose, P. M. Stokes, P. A. Scott, L. W. Cherry, S. A. Whitehurst, Jack Edwards, Dr. Ajax Viola and C. W. Williams.

Says Wayne To Accept Job Offered By Governor

Reflector Bureau, Raleigh, April 30.—Capus M. Wayne, who retires tomorrow as chairman of the State Highway and Public Works Commission, will accept the appointment tendered him as Director of the Division of Purchase and Contract, despite the fact that he twice declined the appointment, also declined three other appointments tendered him, according to the belief in official circles here today.

For while no announcement has been made as yet either by Governor Hoy or by Wayne, the conviction is growing that Wayne will accept the new position which it is known Governor Hoy is urging him to take as head of the division which annually buys more than \$50,000,000 worth of supplies each year for the state government, including the highway department.

It was definitely learned here today that when Wayne went to confer with Governor Hoy Wednesday afternoon he had definitely

Rebel Ship Sunk; Evacuate Bilbao

Government Planes Send Insurgent Vessel Down in Sea

Bilbao, Spain, April 30.—(AP)—The Spanish Insurgent battleship Ispania was sunk today in 32 and one-half fathoms of Biscayan sea by a fleet of government bombing planes, possibly with hundreds of casualties. She was the first war vessel of any size to be sunk by an airplane in all naval history.

One hundred and ten members of the crew of the ship were known to have been saved by the Insurgent destroyer Velasco, by government fishing boats and by armed government trawlers from Santander.

Hence, if the Ispania carried her full complement of 854 officers and men, that would leave 744 unaccounted for. It was possible, however, many of the rescued were not immediately reported.

The government planes sent to the aid of the beleaguered Basques by the main Valencia government struck by sea while Insurgent armies roiled toward Bilbao's "magnet line" of trenches from the Southeast and East and while Insurgent planes blasted ferociously at Bilbao's last lines of defense.

France To Remove Civilians From Harassed Bilbao

Paris, April 30.—(AP)—France possibly in collaboration with Great Britain will help evacuate the harassed civilian population of Bilbao, high government officials indicated today.

"You can rest assured all necessary measures to proceed with the evacuation are being taken, the members of the Senate Foreign Affairs Commission were told by Yvon Delbos, foreign minister.

"Civilians should no longer be subjected to the threat of bombardment or capture by Mola's forces (the Insurgent Northern army under General Emilio Mola) which it is feared may happen soon," Delbos added.

Great Britain and France also have decided to conduct an investigation into the devastating bombing and machine-gunning of Guernica, sacred city of the Basques, Delbos told the commission.

Under the French evacuation plan, it was said, non-combatant refugees from the Spanish strife would be repatriated as soon as normal conditions are restored in Spain.

Would Insure Lunch For All Children In School

UNIONS WAR AT PARKER DAM

Parker Dam, Calif., April 30.—(AP)—Police, mobilized at Parker Dam early today curbed possible violence when unionists of the American Federation of Labor passed through C. I. O. picket lines.

With 1,000 men on picket duty, C. J. Powers, International representative of the C. I. O.'s mine, mill and smelter workers union, warned:

"If anybody tries to go back to work we will treat him like any other scab. The American Federation of Labor's International union of operating engineers yesterday signed a closed shop agreement with the J. P. Stone Construction company, major contractor on the Colorado river dam, by which 534 employees were to report for duty today.

A. H. Peterson, American Federation of Labor representative, asserted less than 100 strikers belonged to the C. I. O.

Program to be Undertaken in County as Health Problem

Dr. N. Thomas Ennett, Pitt county health officer, today revealed that the health department, in cooperation with the county school superintendent, the principals and teachers, had undertaken a plan whereby it will determine to see that every school child is provided with lunch.

Dr. Ennett declared the problem was closely connected with the health department as lack of proper nourishment greatly impaired the health of growing children.

While little can be done this year as schools are closing until next fall, Dr. Ennett said his department intended to continue at work so when school work is resumed he will be ready to proceed at once with the program.

Under the plans, as revealed by Dr. Ennett, each principal will be sent mimeographed statements to be filled out by the principal in cases where the children are not carrying lunch to school. The statements will be sent to the parents, who will be asked to state the reasons why their children are not provided with a mid-day lunch.

Declaring that the plan was put into effect in a few schools during the closing months, Dr. Ennett said that in his opinion great benefits could be reaped if the schools in which the system was tried could be considered a fair example. He said that in one school where the questionnaires were sent out a check-up showed that it resulted in 45 children who had not been bringing lunch to being doing so.

Many of the parents answer the question of why their children are not taking lunch by declaring they are not financially able. This problem will be met, Dr. Ennett declared, by seeking some method whereby these children can be furnished with hot noon-day lunches.

He cited several schools where PWA funds had been secured for this purpose and said such a project possibly could be started in this county. He also said some cases might be worthy of turning over to the county welfare office.

It is understood that Pitt is the first county in the state to undertake a program to see that every school child is provided with a lunch.

Dr. Ennett declared emphatically that it was not his intention to check up on how many children were going without lunch and drop the matter there. "We intend to follow it on through and find a way to insure a noonday lunch for every student," he added.

J.W. Rook Re-Elected As Mayor Of Bethel

J. W. Rook was re-elected mayor of Bethel at the city election there this week at which time five aldermen were chosen from a field of seven. Mayor Rook was without opposition for the city's highest office.

Aldermen were named as follows: S. C. Ives, L. N. James, J. Q. Smith, W. C. Whitehurst and J. Royal Carson. The unsuccessful candidates for the Board of Aldermen were R. L. Whitley and P. L. Blount.

'Balance Wheel' Bucks Court Plan

Foes of President Roosevelt's court plan claimed a clear majority in the senate judiciary committee when Senator Pat McCarran, Democrat of Nevada, the committee's "balance wheel" member, disclosed he would oppose the proposal. He is shown revealing his views.

Dr. N. Thomas Ennett, Pitt county health officer, today revealed that the health department, in cooperation with the county school superintendent, the principals and teachers, had undertaken a plan whereby it will determine to see that every school child is provided with lunch.

DEATH PROBED BY OFFICIALS

Fayetteville, April 30.—(AP)—Coroner W. C. Davis began an investigation today of the death of Ernest Adderton, 19, roofer of Durham, whose body was found in his room in a lodging house here last night.

Davis said the cause of Adderton's death was not apparent. When the body was found, he said, the head was partly under a bureau and the room was in disorder. Furniture was scattered about and a stove was broken, he said, but no other occupants of the house heard any disturbance.

Two men listed by Davis as Ora Gos and Wallace Fowler, both of Durham, roomers in the house, were questioned.

Durham Man Found Dead in Fayetteville Rooming House

Fayetteville, April 30.—(AP)—Ernest Adderton, 19, roofer of Durham, whose body was found in his room in a lodging house here last night.

Davis said the cause of Adderton's death was not apparent. When the body was found, he said, the head was partly under a bureau and the room was in disorder. Furniture was scattered about and a stove was broken, he said, but no other occupants of the house heard any disturbance.

Two men listed by Davis as Ora Gos and Wallace Fowler, both of Durham, roomers in the house, were questioned.

Many Buy License Only When Forced

W. L. Patrick, assistant city tax collector who has charge of the automobile license tag sale, said today a large number of local automobile owners purchased their tags after it became known that warrants were being sworn out for delinquents.

The first warrant was sworn out April 10, up to which time 1,368 licenses had been sold. Through yesterday 1,457 tags had been sold. The number sold so far this year is greater than the total sold during the past year, 1,442.

Mr. Patrick said he was making a check to see if there are not other automobile owners in the city who have not purchased their city tags and added if any are found, warrants will be sworn out.

Mother City Teacher Is Claimed By Death

Mrs. H. P. Keeter, former resident of Greenville and mother of Miss Eva Keeter, principal of Third Street school, died at her home in Marion yesterday following a critical illness of several days. Miss Keeter had been with her mother during her most serious sickness and was with her at the time of her death.

Funeral services were conducted this afternoon at the Marion Presbyterian church. A large floral collection was sent from friends in this city. Miss Christine Johnston, close friend of Miss Keeter, attended the funeral.

Mrs. Keeter lived in Greenville during the World War, at which time her son-in-law, Rev. W. H. Moore was pastor of Memorial Baptist church.

Blood sucking midges can be controlled by pouring oil over stagnant pools.

FIVE RACES IN CITY ELECTION TO BE DECIDED

Greenville to Name Mayor and Four Aldermen Monday

ADDED INTEREST IS BEING SHOWN

Registration To Close Tomorrow; Polls to Be Open Monday From 7 A.M. - 7 P.M.

Registration books for the city primary-election Monday will be closed tomorrow and the various candidates were busy today rounding up prospective voters.

Although little interest was shown in the several races at the start of the campaign, candidates got down to work and for the last few days political activities have been much more in evidence.

The polls will be open Monday from 7 a. m. until 7 p. m., the 1937 General Assembly have adopted these hours over the old custom of sunrise to sunset.

Voters living in Ward One, Two and Three will vote at the court house, while those residing in Wards Four and Five will cast their ballots at the city hall.

Only one office holder whose term expires this year is without opposition in the city election. A. C. Tadlock, alderman from the Fourth Ward is up for re-election, but no one is opposing him.

M. K. Blount and H. H. Duncan are engaged in a two-way race for the office of mayor, now held by Mr. Blount under appointment to serve the unexpired term of the late R. C. Flanagan. Mr. Duncan is present a member of the Board of Aldermen and also mayor pro-tem.

L. B. Fleming, incumbent, is being opposed for the aldermanic post from the First Ward by C. A. Muswhite. In the Second Ward J. Hicks Corey and Jack Spain are contesting for the seat to be made vacant by the resignation of Vernon Parris, who has announced he was retiring from politics.

R. E. Sellers and J. D. Simpson are fighting it out for the post from the Third Ward, to be vacated by Mr. Duncan. A. E. Hogwood, incumbent, is being opposed by R. Troy Burnette for the aldermanic seat from the Fifth Ward.

Aldermen on the board whose terms do not expire this year are J. A. Watson of the Second Ward, J. M. Taft, of the Third, and Dr. M. B. Missey of the Fourth. Neither of three had opposition at last summer's election.

Change In Venue Sought By Defense

New Castle, Ky., April 30.—(AP)—Commonwealth Attorney H. B. Kinsolving, Jr., and Defense Attorney John Marshall Berry said today one of the jurors in the Denhardt murder trial had signed an affidavit stating Brigadier General Henry Denhardt could not get a fair trial in Henry county.

The defense, in its efforts to force a change of venue, had gathered a number of affidavits and Berry said he had an affidavit to this effect from Joe Henderson, later chosen on the jury after Circuit Judge Charles Marshall had gone out with the trial here.

Kinsolving's statement was made during the luncheon recess after the defense had launched its scientific testimony designed to offset the Commonwealth's evidence. The defense produced a witness who declared experiments indicated Denhardt's fiancée, Mrs. Verma Taylor, committed suicide and another who testified paraffin tests did not always prove effective.

SCIENCE STILL SEEKS CAUSE OF 'BRAIN FOG'

Ames, Ia. (AP)—Have you ever felt "tired and dopey" after eating a heavy dinner?

The reason, says Earl C. McCracken, Iowa State college biologist, isn't because your blood rushes to your stomach after you've eaten.

"As a matter of fact," he explained, "the brain gets more blood than it ordinarily does, for circulation is speeded up greatly following a meal."

He said scientists don't know just what causes the "brain fog" in spite of the fact physiologists for many years maintained it was caused by blood rushing to the stomach.

McCracken added that tests he conducted recently upon dogs showed conclusively "circulation is slowed every part of the body is speeded up greatly during digestion."

Social and Personal

Mrs. W. R. Willis of Farmville was here yesterday.

Mrs. W. J. Bundy and Mrs. J. W. Kirkpatrick spent today in Raleigh.

Mrs. J. A. Turnage of Farmville was a Greenville shopper here yesterday.

Mrs. S. T. White, Mrs. Ruth Blount, Misses Hennie and Anna Long and Lance Underhill spent today in Morehead City, and Atlantic Beach.

Mrs. W. H. Armstead of Norfolk, Va., is the guest of Mrs. B. E. Jones on Fourth street.

Mrs. J. O. Pollard of Farmville was here yesterday.

Mrs. D. R. Morgan of Farmville and Mrs. L. W. Lancaster, of Raleigh, spent yesterday here.

Mr. and Mrs. W. M. Carter, of Ayden, were here Friday.

Social Calendar

SATURDAY
10:30 A. M.—Mrs. S. M. Crisp and Mrs. R. S. Neal will entertain at a May morning breakfast for Mrs. Joseph S. Moye.

1:00 P. M.—Miss Mary Shaw Roberson and Miss Marjorie Savage will entertain at luncheon at the home of Mrs. E. B. Ferguson, complimenting Miss Maria Garrett, bride-elect.

Luncheon For Mrs. Moye
Mrs. Worth Wicker was a charming hostess when she entertained at a bridge luncheon yesterday honoring Mrs. Joseph S. Moye, a recent bride.

Sweet peas, roses and iris in variegated colors made a very effective background for the four tables of bridge.

Concluding the game, cards were removed and the hostess, assisted by Mrs. D. E. Jones and Mrs. W. L. Whigham served a delectable two-course luncheon.

Mrs. Wicker's gift to Mrs. Moye was a Scottie dog door stop. Miss Maria Garrett, bride-elect, was remembered with sport handkerchiefs, and Mrs. Ruth Blount of Schenectady, New York, with a handkerchief.

Miss Hennie Long, winner of high score prize, was awarded a pair of crystal bowls.

Progressive Party
This evening the young people of the various churches will have a Progressive Party beginning at the Episcopal church at 7 o'clock. From there they will go to the Memorial Baptist church, then to the Presbyterian, and next to the Methodist church. The party ends at the Christian church, where the young folks from that church and the Immanuel Baptist are combining for the dessert course and the final social hour.

The following chairmen were appointed for the various churches: Charles Wooten, Immanuel Baptist; Phoebe Nesbit, Presbyterian; Helen Sawyer, Methodist; Charles Horne, Episcopal; Charles Bailey, Christian; Lillie Graves, Memorial Baptist.

These young folks have formed the local chapter of the United Youth Movement. This year, they have assisted the Greenville Council for Peace Action in giving a Peace Pageant, have sponsored the Easter Sunrise Service, and have held several union Sunday meetings. This Sunday night there will be the last of the joint services to be held in the Methodist church at 7 o'clock, when Mr. Nakamura, from the Duke School of Religion, will speak.

For high score Mrs. M. F. Yates was given a box of lovely cut flowers.

As reminders of this delightful affair, Miss Garrett was presented a carving set in her selected silver pattern; Mrs. Bynum and Mrs. Moye, silver bacon platters; Mrs. Charles Morris Haves of Huntington, West Virginia; Mrs. W. D. Hillary and Mrs. Frank Kohler, of Philadelphia, and Mrs. Ruth Blount of Schenectady, N. Y., silk nose.

Mr. Reid in Hospital
Dan Reid of Greensboro is in Pitt General hospital for treatment. Mr. Reid is a brother of Carl Reid, of this city.

Attends House Party at Meredith
Miss Ernestine Hobgood left this afternoon for Raleigh to attend a week end house party at Meredith College.

Here With Sister
Mrs. David Coffield, of Atlanta, Ga., and Mrs. Ralph Blair, of Miami, Fla., have arrived here at the bedside of their sister, Mrs. Joe Fortmah, who is quite ill at Pitt General hospital.

Birth Announcement
Mr. and Mrs. R. Bruce Bilbro announce the birth of a daughter, Carolyn Elizabeth, on Friday, April 30, 1937, Pitt General hospital.

Scout Troop No. 36
Regular Scout meeting of Troop No. 36 will be held at Third Street school at 7 o'clock.

Kenneth Henderson has been asked to give instruction on judging.

Memorial Baptist Circles
The circles of the Woman's Missionary Society of Memorial Baptist church will meet Monday as follows: Monday 3:30 P. M.—No. 1, Mrs. H. R. Goodall, chairman, with Mrs. B. McK. Johnson; No. 2, Mrs. E. E. Rawl, chairman, with Mrs. R. J. Cobb, 5th street; No. 3, Mrs. W. L. Hall, chairman, with Mrs. W. Z. Morion, 5th street; No. 4, Mrs. Martha Phelps, chairman, with Mrs. J. P. Fleming, Summit street; Mrs. J. P. Komp, assisting hostess; No. 5, Mrs. J. H. Andrews, chairman, with Mrs. B. F. Bullard, Chairman Circle.

Monday evening at 8 o'clock—Business Women's Circle, Mrs. E. S. Hamric, chairman, with Miss Annie L. Moore, Westbrook Apartments.

To Speak to Sunday School Class
Mr. Junichi Nakamura, formerly of Hiroshima, Japan, now a graduate student at Duke University, will speak to the college class at Jarvis Memorial church Sunday morning May 2nd, 10:15.

Mr. Nakamura will also speak at the Union Service at 8:00 P. M. His topic will be: "What the missionary has done for Japan."

All of the young peoples' groups are cordially invited to attend the joint meeting at 7:00 P. M. at Methodist church, at which time Mr. Nakamura, will speak to the young people.

Miss Lillian Purvis' grade won prize for having most mothers present.

PEERESSES: PICK 'EM BY THE CORONET

A Duchess at King George's coronation will wear a coronet with eight gold strawberry leaves encircling the head.

A marchioness: four gold strawberry leaves and four silver balls.

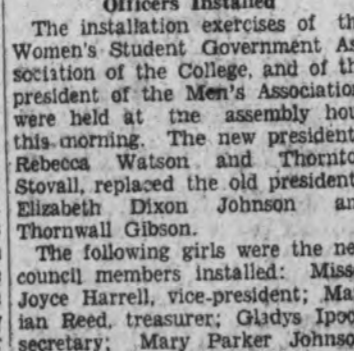

A countess: eight gold strawberry leaves and eight silver balls on points.

A viscountess: 16 silver bells.

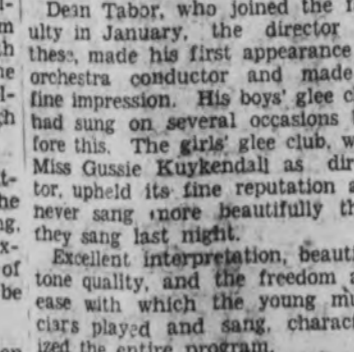

A baroness: six silver balls.

A baroness: six silver balls.

A baroness: six silver balls.

A baroness: six silver balls.

WE GUARANTEE WATCH REPAIRING—JEWELRY REPAIRING—Engraving—Reasonable Price LAUTARES

orchestra numbers, "Moment Musical" by Schubert, and an overture from "The Bohemian Girl" by Balfe.

Three numbers by the girls' glee club, with Miss Mary Evelyn Thompson at the piano, followed. These were: "Calm Be Thy Sleep," "The Green Cathedral" and "Mistress Marguerita." The mixed chorus sang "Mountains" and "Dear Land of Home." The boys' glee club sang three selections, "Mosquitoes," "Dedication" and "Death Rides High."

The orchestra closed the program by playing Tchaikowski's "Andante Cantabile," Tibbich's "Poem," and Brahms' "Hungarian Dance."

Miss Nola Walters was the accompanist for both the orchestra and the boys' glee club.

BULLDOG GUARDING CAR IS STOLEN HIMSELF

Lincoln, Neb. (AP)—Charles Johnson left his bulldog "Mickey" to watch his parked car in the business district here.

Johnson told police the idea worked fine until some bright fellow ignored the car and stole Mickey.

Arthur Smith With Local Pontiac Firm

Arthur Smith, formerly with the White Chevrolet sales agency here, now is connected with the Brown-Wood Pontiac agency here.

Mr. Smith knows a large number of residents in and around Greenville and asked that they call on him when he can be of service to them.

Though blind, the Chinese dolphin is able to catch and devour fish that have normal sight.

Real Estate Men Trying Sell Plot For New Building

Raleigh Realtors Trying to Persuade Commission to Purchase Land to Erect Office Structure

Raleigh, April 30.—Local real estate men here are trying desperately to persuade the building commission in charge of the erection of a new state office building and the expenditure of some \$650,000 of state money, to spend part of this for a building site near the capitol square and are doing everything possible to get the commission interested in some other location for the building than the state-owned land in Caswell square, where the Board of Health building is now located.

Members of the commission have intimated that they might consider a site closer to capitol square and the other state office buildings, provided they can purchase such a site at a "reasonable price," several members of the commission intimated today.

Two sites, one on a corner across from capitol square, and another only one lot removed from such a corner, have been offered to the commission by local real estate men, who frankly hate to see the state spend \$650,000 for a new building without getting at least a small slice of it. One of these lots, across from the First Baptist church and the old State Department Building, housing the Utilities commission and Department of Public Instruction and opposite the northwest corner of the capitol square, can be had for \$87,000, it is understood.

A second site, opposite the Rev-

nue Building and the Raleigh Fire Department on Salisbury street, and next to the First Presbyterian Church, the site of the old junior high school and which belongs to the Raleigh school board, is being advocated by some, at a cost of \$40,000. There are indications that the building commission could buy the First Presbyterian church site on the corner, if it was willing to pay enough.

Most observers here still believe, however, that the building will be built on state-owned Caswell square, both because all the money available is needed for the building and because it will be out of the congested district around capitol square where parking facilities are already scarce as men's teeth.

MURDER ON THE BLUFF

SYNOPSIS: It's a wild, stormy night at Farrington Bluff, home of Michael's aunt, when attractive Jude Blunshop is shot to death on the bluff. Mike dislocates a shoulder hunting for the missing Skipper. He and a sneaky younger aunt, who turns up with an alibi, Gay Palmer, Mike's red-headed stepheart, worries about him. Next day stout and prudish Aunt Marika proposes that I lead our group investigation of the murder, for we are marooned on this small island. A scream draws us to the kitchen where Cook lies on the floor, a gash on her head.

Chapter 13
Bound And Gagged
"WATER," I ordered. "Cold — with ice if there is any. Quick!"
It was Higgins who moved to obey me. William stood there staring down at her. Over and over beneath his breath he was muttering, "My Gawd! My Gawd!" The monotony of it wasn't particularly helpful. I told him to get bandages.
"Bandages?" he repeated blankly and numbered toward the stairs. I was glad to be rid of him.
Cook was bleeding profusely — too profusely to make my handkerchief very effective as a bandage. By the time Higgins popped a basin of water at my elbow, the handkerchief was saturated. Between us, Higgins and I staunch the wound and bound it up with the bandages silently offered by the still dazed William. Michael and Gay had joined the party long before I rose from my knees.

Cook stirred at last. Her lips moved.

None of them had anything to say. I saw the pictures their imaginations had been able to conjure up in their room made the actual sight negative. Here at least there was no question about the weapon of attack. All over the floor and even on the table were scattered broken bits of a flower pot. Cook, stirred at last, her lips moved and her eyes fairly flew open.
"The eyes!" she cried wildly. "The eyes! Get them, I'm telling you! Get them before they get you!"
Higgins tried to calm her. "Be quiet a little. Be quiet rather ineffectually. Michael finally asked 'what happened. That provoked the explosion. "Happened? Mother of God! I should have known better than to stay in this God-forsaken place! I sent that good-for-nothing Annie out here for my glasses, and when she didn't come back, think I'll just teach that young fool a lesson. I had a good notion she'd sneaked off upstairs. So I got into my kitchen, hearing to get the glasses myself, and accuse her of swiping 'em. And I'd no sooner got to the drawer they was in — here Cook's lips began to tremble — than I could feel the eyes burn into my back!"
Michael sniffs impatiently.
Cook glared at him. "Rot, is it you think? And I suppose it's rot I've got on my head?" "Strangely enough, no one laughed. Cook was gathering momentum. "I felt them, I'm telling you. Caid, they was. I turned quick to scare them off at — there — they was! Her freaked hand was pointing to the outer door. "Like pieces of the. Before I'd had time to so much as give a decent yell, they stabbed me! Her voice rose higher and higher and ended in a blood-curdling whoop.
"Where is Annie?"
I SEIZED a ragged bit of pottery from the table. "Cook," I said sternly, "be quiet! Someone came in that door. You saw the reflection of the light in his eyes. You weren't stabbed by anything. You were hit with a flower pot. Look here."
But Cook was too far gone for flower pots. "It's the devil, I'm telling you!" she shrieked. "And that Annie!"
"Great Scott!" cried Michael. "Where is Annie? She couldn't help this!"

William's face was white. "She ain't upstairs, sir. I just went in her room after the bandages."
"Perhaps," Gay was talking to convince herself, "perhaps she's cleaning or something upstairs."
Higgins frowned. "I doubt it, Miss. When Mr. James told me, I left explicit orders that they wasn't to go no place outside the quarters. Annie's a good girl. She does as she's told."
"That was too much for Cook. She struggled to her feet."
"Good!" she shrieked. "Good? Why, that litty litty!"
"That will do, Cook." The Skipper stood grim and determined behind us. "We've had enough of this nonsense. Michael, go stay with your aunt. Don't stand there gaping."
Michael went the Skipper shutting the door deliberately on his back.
"Jim, that girl is in this house — be quiet. Cook — and we're going to find her, if we have to tear the rotten place apart! Is that door locked?"
She referred to the back door. I stepped to it eagerly, but it was locked and the key was on the inside.
"Higgins and I will take the lower floor. You and William take the upper one. Hurray!"
There was a bread-knife in the midst of the mess on the table. I picked it up and started for the stairs with William a my heels. But we didn't get very far. For distinctly through the silence came a sound — a vague, spuffling noise, indescribable and rather horrible.

Screams And Hysteria
FOR a split second we stood listening, spellbound. Then the Skipper moved. She sprang to the back door, turned the key, and threw the door open. On the floor at her feet lay Annie, bound hand and foot with a

piece of clothing and gagged with a white handkerchief.
A harsh, inarticulate roar boiled from William's lips. Roughly he brushed past the Skipper and knelt beside the girl. His large, capable fingers had the handkerchief off in a moment and were at the knots in the rope. Before Annie's preliminary screams split the silence and stirred us to life.
The girl was hysterical and in no half-hearted fashion. There was no piecing together her jerky words. Remooved to the left in the dining room and treated with cold water, smelling salts and aromatics, she continued to send scream after scream echoing through the house. The Skipper shook and even slapped her. Cook, a terrifying spectacle of her bandages added to the general uproar by favoring us with a vigorous description of her feelings toward Annie.
"Beg pardon, sir," said William in my ear. "I think if you was all to leave her to me for a minute, I could quiet her."
We filed into the kitchen tranquilly. In the same room with the girl the racket was unthinkable, but from behind closed doors it was still bad.
"Your party, Jim," said the Skipper. "I said, 'Thanks' bitterly. They were all looking at me — waiting. I glared desperately back, and my eye fell first of all on Cook."
"Did you hear anything at all in here after Annie left you?" I demanded.
"I did not!" her retort was spirited. "You won't be hearing the Old Nick, He's —"
"Just answer my questions, please. How long had Annie been gone before you went after her?"
"How would I know? I didn't time her. A couple of minutes, maybe. She's that lazy; I never thought —"
"What did you do while you waited for her?"
Cook looked uneasy. "Well, now, I was lyin' there on the sofa and I maybe took a couple of winks. I wouldn't know for sure."
And that was that. For all the value of her evidence she might, just as well have been at the South Pole.
(Copyright, 1937, Harker Tyler)

I find a disturbing clue to Annie's assailant, tomorrow.

WOMEN In The News

ESSAYIST
For winning an essay contest, Mrs. Mary Flanagan, West Virginia farm wife, received a trip to New York. The city's "passel o' cars" and night clubs impressed her.

D.A.R. LEADER
For the second year Mrs. William Becker of Summit, N. J., presided at the annual congress in Washington of the Daughters of the American Revolution.

PUBLISHER
Although Mrs. Bertha Kolk has published a daily newspaper in Burlington, Vt., for 11 years, she still insists that woman's place is in the home.

MERMAID
Virginia Hopkins, 15, Miami Beach entrant, swam to a spectacular victory in the 220-yard free style race in the women's A.A.U. meet at Chicago.

was spent on patients from this state.
Patients from Pitt county were given 3,249 days of care, of which \$8,293.61 was paid by patients themselves, \$331.07 by the county or city, \$353.00 by others, and \$5,930.31 by Duke hospital.

FRONTIER HALIFAX MAN CELEBRATES 70th BIRTHDAY

Scotland Neck, April 29. — The 70th birthday of R. J. Madry, prominent Halifax county business man and planter, and the 42nd wedding anniversary of Mr. and Mrs. Madry was celebrated this week with a large family gathering at their plantation here.
They received many congratulatory messages from friends here and in other towns.
Members of the immediate family present included their five sons and one daughter, who represented all three units of the consolidated University of North Carolina; R. W. Madry, of Chapel Hill; W. D. Madry, of Burlington; and J. T. and C. J. Madry, of Scotland Neck, were graduated from the University at Chapel Hill. H. R. Madry was graduated from State College, and Miss Lena Bernice Madry was graduated from the Woman's College.

SET DATES FOR PTA CONGRESS

State Association To Meet Jointly With National Body

The eighteenth annual convention of the North Carolina Congress of Parents and Teachers to be held in Richmond, May 3-7, with North Carolina headquarters at the Jefferson Hotel, will open May 3rd at 10 o'clock. At the same time the forty-first annual convention of the National Congress of Parents and Teachers will be held.
Out of the North Carolina membership for 1936-1937 of 59,373, many delegates and visitors are expected to attend the rich convention program on the theme "The Place of the Home in the Community." On Monday afternoon, 2:00-4:00, the North Carolina State Board of Parents and Teachers will assist Mrs. C. E. Roe, National Field Secretary, in the conference on "Opportunities and Responsibilities of the State Board. On Monday evening when Dr. Forrest E. Long of New York University will deliver the address of the evening, the famous Hampton Singers will be heard.
The annual banquet, always a brilliant feature of every National Convention is to be held in the

Richmond Mosque, Tuesday evening. All those desiring to attend must make reservations by noon Monday, May 3. Notify Miss Ellen Smith, 4050 Forest Hill Road, Richmond.
Miss Ruth De Young, woman's editor of the Chicago Tribune, will deliver the main address Wednesday evening on the subject "Pioneering in a Community."
Thursday evening, May 6 is "Family Play" night. Edward C. Lindeman, Director of Recreation Projects of the W. P. A. of Washington, D. C. will speak on "Modern Trends and Developments in Community Recreation."
Friday, May 7, an historical pilgrimage will be made to Jamestown, representing the days of exploration and conquest; to Williamsburg the reincarnation of the golden age of colonial life; to

Yorktown, reminiscent of revolutionary history. At 10:00 a.m. on Sunday, May 9, the day will be spent in the city of the future.
NAVY BOATS CHART PANAMA CANAL AREA
Washington (AP) — The navy is charting no less than 100 miles of water around the Panama Canal. The survey covers the entire area from the Gulf of Panama to the Gulf of Mexico, and the Caribbean Sea.
The survey is being conducted by the Hydrographic Office, and the charts will be ready for use in a few weeks.

TOMORROW THE LAST DAY

Tomorrow is your last opportunity to register to vote in the city election Monday. It is the duty of every citizen and every citizen should want to have a part in the naming of the city officers but it is necessary that you be properly registered if you expect to vote.

If you are among those who have become 21 years of age since the last city election, it is necessary that you register now. If you have moved from one ward to another since the last election and have been living in your present ward for as long as 60 days, it is necessary that you register in that ward. If for any reason you have never before voted in a Greenville city election it is necessary that you register.

There appears to be many persons who did their first voting in the county primaries last summer and the general election last fall, who are of the opinion that this entitles them to vote in the city election. The city election is an entirely different matter and registration for the primaries or the general election does not entitle you to vote in the city election unless you are properly registered on the city books.

Tomorrow is the last day to register. Make sure that you are properly registered and then on Monday go to the polls and vote your own choice for the men who are to have charge of our city affairs for the next two years.

THE STAY-AT-HOME!

as soon as present disputes end. In the center of the floor is a disc of white marble over which the bodies of all Presidents lie in state if they die in office. Similar honors are accorded national heroes, such as Admiral Dewey, and the guide thought General Pershing and perhaps Lingbergh would spend some time there.

The big chamber under the dome and the hallways leading to house and senate wings are studded with statues selected by the states but their guesses as to lasting national prominence seem not so good since most are forgotten already.

At one point tourists are brought to an abrupt halt with an announcement that: "Up these stairs came the British."

Near the spot where once rested the crypt of Martha Washington is a huge square block of white marble out of which emerge the heads of three historic women, somewhat as if they were taking a mud-bath.

We once stepped from an elevator in time to hear a guide say: "These arches were designed by Archimedes," which seems to be stretching things a bit as this noted geometrician was killed by Roman soldiers some few years before the capitol was built.

Talks To Parents

Kitchen As Playroom
 By BROOKE PETERS CHURCH
 A busy kitchen is not a fit playroom for toddlers. When cooking or preserving is going on, little children should not be in the kitchen unless they are safely fastened in high chairs where they cannot be tripped over, and from which they cannot reach stoves or dangerous implements.

Even unlighted stoves are a menace when youngsters are about, for gas-cocks and electric switches are easily turned by little fingers which reach and handle everything in sight. Stoves which are in use are an even greater hazard. If the child's head does not reach to the level of the stove top he cannot know whether the stove is lighted and may easily reach up to take hold of it, and be burned.

Handles of pots and pans are also a constant temptation to children who are too inexperienced to know that they are not fixtures. Time after time, children try to pull

themselves up by pot handles, only to tip the boiling grease or water over on themselves. Usually the accident, though painful, is not fatal. But the results may be scars which disfigure for life.

Knives and even forks may prove dangerous implements — and kitchen cabinets abound in these. No busy cook can keep track of all her tools and an active child at one and the same time. While her back is turned for a moment, and she is absorbed in saving a burning cake, or making a sauce, the child is as likely as not to snatch some forbidden weapon and in the panic of doing what he knows is wrong, may hurt himself badly.

No matter how small the space in which one lives, and no matter how central the kitchen, this room is no more suitable for a playroom than a factory — less so, in fact, since it has few safety devices.

COMMISSIONER'S RE-SALE

North Carolina, Pitt County.
 By virtue vested in the undersigned by an order entered in that Special Proceedings pending in the Superior Court of Pitt County entitled Ella Barnhill, et als. vs. Mattie Bullock Willis, J. B. Buring, et als, we will sell to the highest bidder for cash at the Courthouse door at 12:00 Noon on Monday, May 17th, that parcel or lot of land located in the town of Bethel on the South side of Main Street and West side of Main Street, fully described in that deed of record in Book L 13, Page 211, being the old Charlie Bullock home place known as Carson home place and containing by estimation three-fourths of an acre, being resident property on the Southwest corner of the said streets.

The terms of the sale are cash and the purchaser will be required to make a deposit of ten percent (10%) cash upon the conclusion of the sale, subject to the orders of the Court confirming same. This April 16th, 1937.
 M. K. BLOUNT,
 S. J. EVERETT,
 Commissioners.

NOTICE OF ADVERTISEMENT OF SALE OF LAND FOR NON-PAYMENT OF TAXES.

North Carolina, Pitt County.
 Superior Court.
 Pitt County
 vs.
 L. C. Arthur & C. T. Mumford, et al.
 By virtue and in pursuance of a decree of the Superior Court made in the above-entitled cause of Nov. 17, 1930, the undersigned, a commissioner appointed for the purposes therein named (it being a suit to foreclose the lien on the hereinafter described land held by the county for the non-payment of taxes) will expose for sale to the highest bidder, at public auction for cash, on Monday, the 24th day of May, 1937, at the courthouse door in the City of Greenville, North Carolina, at 12 o'clock, M., the following lots of land situated in the County of Pitt, State of North Carolina, described as follows:
 All those certain tracts, lots or parcels of land lying and being situated in and near the Town of Arthur, Pitt County, N. C., and known

as the Ben Cobb land and the Norman Heirs' land as shown by map of said property recorded in Map Book No. 2 at page 21 and Map Book No. 1 at page 68 in the office of the Register of Deeds of Pitt County, together with any other portion of the Ben Cobblands and the Norman Heirs' land which was conveyed to said L. C. Arthur and C. T. Mumford, excepting therefrom such lots or parcels thereof as were prior to March 5, 1932, sold and conveyed off by the said Arthur and Mumford as shown by conveyance of record in the Public Registry of Pitt County.
 This 23rd day of April, 1937.
 F. C. HARDING, Commissioner.

POLITICAL CARDS

ANNOUNCEMENT!
 I hereby announce myself a candidate for Mayor of the City of Greenville, subject to the primary election to be held May 3rd. Your vote and your support will be more than appreciated.
 HERMAN H. DUNCAN.

ANNOUNCEMENT!

I hereby announce my candidacy for the office of Mayor in the coming election to be held on May 3. It will be recalled that I have only served about one year and four months, after being appointed to fill the unexpired term of the late R. C. Flanagan. With the cooperation of the Board of Aldermen, I have endeavored to practice business economy in local government and secure for Greenville projects involving large expenditure of funds without cost to the taxpayers. A number of these projects are about to be completed and others will soon begin. I therefore ask your vote, support and confidence on my past record of achievement.
 M. K. BLOUNT.
 Ap. 24. eod.

Influenza Prevention

By DR. IAGO GALDSTON
 Few diseases witnessed in epidemic form spread more widely or more quickly than influenza. One can see why the ancients held it in deep awe and fear. The very name influenza bears witness to this, for it implies that the disease is caused by certain mysterious astral or earthly influences.

Those who saw and felt the ravages of the 1918-19 influenza-pneumonia epidemic will recall the state of panic induced by this disease.

Today we know definitely that influenza is due to a filterable virus, a living agent too small to be seen even under the most powerful microscopes. While this solution of the mystery of the cause of influenza is a great medical triumph, the ultimate objective is the control or prevention of the disease. To this many research workers have devoted their energies. The reports from their laboratories are very encouraging.

The attack made upon this problem has been along the lines of vaccination. Experiments have shown that susceptible animals deliberately exposed to contact with limited quantities of influenza virus, can develop a resistance to the disease sufficient to protect them against large doses of the infective virus.

However, the vaccines so used contained living virus, and this creates the danger of the incidental production of an epidemic. For the living vaccine virus may get "out of control." Dead virus used in vaccines has not yielded good results when used on man.

Recently two American scientists have cultivated influenza virus in chick embryos, and this creates the danger of the incidental production of an epidemic. For the living vaccine virus may get "out of control." Dead virus used in vaccines has not yielded good results when used on man.

Recently two American scientists have cultivated influenza virus in chick embryos, and this creates the danger of the incidental production of an epidemic. For the living vaccine virus may get "out of control." Dead virus used in vaccines has not yielded good results when used on man.

Number of Vacancies To Be Filled In Army

Raleigh, April 29.—According to Sergeant Joe Foster in-charge of the United States Army Recruiting Station here, there are a number of existing vacancies for service in Infantry, Field Artillery, and Coast Artillery in the Panama Canal Department.

Infantry, Field Artillery, and Coast Artillery in the First Corps Area (The First Corps Area includes the States of Maine, Vermont, New Hampshire, Connecticut Rhode Island and Massachusetts).

Infantry and Field Artillery in the Second Corps Area (The Second Corps Area includes the States of New York, New Jersey and Delaware).

In addition to the above general assignments now open, there are a number of vacancies in organizations in the Panama Canal Department for men qualified in the following types of work, and are especially competent therat: Airplane Mechanics, Radio Operators, Storekeepers, Clerks, Electricians, Diesel Engine Mechanics, Painters, Carpenters and Bandsman.

Young (White Men) who are able-bodied, unmarried, and can pass the necessary examinations are offered the opportunity of travel, education, and a career with the Regular Army of the United States.

The United States Army Recruiting Office is located at Room 209, Commercial Bank building, Raleigh.

Future Store Managers Taught At Northwestern

SALES GIRL

Mary Neff is selling handkerchiefs for her master's degree. She's one of 21 bright pupils in the store executive class who is a Northwestern professor put to work in a big Chicago department store.

OPEN CAMP AT MT. MITCHELL

Occupation By C.C.C. Boys Scheduled for About May 1

Reflector Bureau, Raleigh, April 30.—Occupation of the campsite on Mount Mitchell, loftiest peak east of the Mississippi River, is scheduled by a Civilian Conservation Corps camp shortly after May 1, according to an announcement of Thomas W. Morse, superintendent of state parks for the Department of Conservation and Development. An advance detail is expected to reach the site on May 4 and the full camp is scheduled for occupancy within the week following.

The camp, Mr. Morse said, would continue the development of the state park, which includes and surrounds the majestic peak and which was started last year by a previous unit.

One of the first features of the improvement work is the planting of some 20,000 balsam and spruce seedlings grown in a nursery near the mountain top, if the season is not too far advanced.

The planting is part of a program initiated for the purpose of covering a fire scar left on the mountain side a number of years ago. Each year, the hoary old mountain has received a partial new spring outfit of forest seedlings indigenous to the elevation.

Last summer and fall a concrete reservoir, believed to be highest of its kind in Eastern America, was built near the top of the mountain to supply water for the park. A pump house and pump were built to lift the water to the required level, and considerable work was done to reduce fire hazards.

The work program for the current summer and fall, according to Mr. Morse, includes the construction of a sanitary sewer system, the erection of a concession stand, the construction of tables and benches for picnickers around the caretaker's house, and trail improvement. It is further proposed to begin the erection of a building to house groups of Boy and Girl Scouts and other organizations desiring to visit the mountain top.

DOOMED MAN REGAINS HEALTH IN 'CANINOBLE'

Abuquerque, N. M. (AP)—Earl Lindauer saved his life with his "caninoble," a dog-drawn home on wheels.

When physicians in Asheville, N. C. in 1931 gave him only a year to live, Lindauer decided to seek "health" on the highways of the southwest.

He set out in a coaster-type wagon pulled by two dogs. Now he has a four-wheeled, rubber-tired vehicle with 20 dogs. Six of them draw the "caninoble" while the others ride behind, awaiting their turn to be hitched.

For the last five years Lindauer has traveled in the national forests of Arizona and New Mexico. Today, at 45, he is tanned and robust. He wouldn't trade his quaint vehicle for the most luxurious automobile trailer.

"We travel as much as 18 miles a day," he says. "It isn't as fast as other people go, but maybe I'll live longer than a lot of them."

NOTICE OF SALE OF REAL ESTATE UNDER MORTGAGE
Under and by virtue of power of sale contained in that certain mortgage executed by Kathleen Murphy to Bertha King on the 11th

day of Feb., 1932, appearing of record in book F-16, page 398, default having been made in the payment of the indebtedness secured, the undersigned will offer for sale for cash at public auction before the Courthouse door in Greenville, on Tuesday the

25th day of May, 1937, at 12 O'Clock Noon,

the following lands to-wit:
A one-half undivided interest in that lot situate in the town of Greenville, on Fifth street, and in West Greenville and being a part of the property known as the R. A. Tyson property, and particularly described as follows: Being Lot No. 2 in Block "F" as shown in the map of the sub-division known as Riverdale, said map made by David C. James, C. E., on April 20th, 1914, and recorded in map book 2 at page 36 in the Registers office of Pitt County, to which reference is hereby made, the same being deeded by R. C. Flanagan and wife to West Murphy by deed recorded in book S-12 page 609.

This the 23rd day of April, 1937.
BERTHA KING, Mortgagee.

Announcement!

TO THE VOTERS OF SECOND WARD OF GREENVILLE:

I hereby announce myself as a candidate for Alderman from Second Ward, subject to city election on May 3rd, 1937.

Your vote and support will be highly appreciated.

J. Hicks Corey

Chicago, (AP)—Both store managers and students are praising Northwestern university's experiment with an actual experience course for students desiring to become store executives.

The experiment is proving so successful, says Prof. D. J. Duncan, who devised it, that it will be expanded in the next school term to include chain groceries, drug stores and advertising agencies.

"This type of internship," says Duncan, "is giving students an opportunity to check changing business methods with textbooks. It affords them a chance to show if they are of executive calibre. And when they are ready to write their theses they will have a much better foundation for their convictions than students who learned it all from books."

WESTERN STATES GIRL TO FIGHT CRICKETS

Salt Lake City, (AP)—Western states would like to see an invasion of sea gulls this summer, but since they can't depend on it they'll accept help from the WPA in fighting the perennial scourge of Mormon crickets.

Each year these pests cause heavy crop losses, mostly in Montana, Idaho, Utah, Colorado and Nevada.

Last season Nevada made an organized attack on the pests with poison, traps and solid metal fences and kept losses light. This year other states, with WPA help, will follow her example.

Bridge Has Pawnshop

San Francisco (AP)—The giant San Francisco-Oakland bay bridge finds itself involuntarily in the pawnshop business. Forgetful motorists who drive up to the toll gates without money have deposited a wide assortment of watches, tiepins, spotlights and spare tires. Each one receives a receipt which serves as a pawn ticket. Most of the pledges are redeemed.

They're Swing Types! Or-gandy and Braid Trim and a Wonderful Assortment of Newest Styles!

CHILDRENS SILK DRESSES
Chic Spring styles in white and pastel shades, with puff sleeves and ruffle skirts in sizes 14 to 16.

WAKE & DUKE TO END SERIES

State's Leading Nines To Clash in Durham Tomorrow P.M.

Durham, April 30.—The baseball teams of Duke and Wake Forest will end their annual four-game series by meeting in Duke park tomorrow afternoon at 3:00 o'clock. Starting time of the game was moved up to avoid conflict with other events on the campus.

Duke's ace hurler, George Barley, is expected to go against the Deacons in the attempt to ring up his 19th win in college and his first over a Wake Forest team.

Barley has faced the Deacons four times. In 1935 he went against them twice as a relief pitcher. In the first contest which was the second game of his college career, he relieved in the third inning and let the Deacons down without a hit or run the remainder of the way. The second time he faced them that season was also as a relief man and again he let them down without a hit or a run.

Tomorrow's clash should be one of the best of the series. Either Skinny Byrd or Lefty Cole will be on the mound for the Deacons; Byrd found the Duke hurling ball to his liking in the first game between the two teams this season and pitched the Deacons to a 5-2 victory. In the next game, however, Duke got to the curve-baller for 11 hits and a 6-3 win while Ed Watson was holding the Deacons rather well in check.

Jenkins Sees Auto Speed Of 500 Miles Per Hour

Salt Lake City (AP)—Thrills have no place in the life of the world's No. 1 motor car endurance driver—browned Ab Jenkins.

The Utah racer, who last summer set new world records for 24 and 48 hour endurance tests, now has visions of sending a radically different speedster hurtling over the packed Bonneville salt flats 130 miles west of here next summer at speeds up to 400 miles an hour.

If he does he will be aiming at Sir Malcolm Campbell's mark of 301.129 m.p.h. established on the same salt flats in 1935.

But Jenkins won't be doing it for the thrill. It's business with him. "There isn't any thrill in it," Jenkins says. "Even though I lost the wheels there wouldn't be any thrill. It's all in the day's work."

Jenkins plans to try early in the summer for a new 24-hour world record. For that attempt to break his own mark of 153.76 miles per hour, he will use a specially built car with a racing (Dusenber) chassis and an airplane (Curtis Wright) motor.

It is toward the world record for a measured mile that Jenkins is

pointing chiefly. He's developing a racing car to be powered by two motors—one mounted in front, the other in the rear. Plans have not been drawn.

"Campbell set the present record with a 2,200-horsepower car," Jenkins explains. "Mine will have 3,600-horsepower. I don't see how I can fail."

Jenkins hopes to break Campbell's record decisively; he hopes to reach 350 to 400 miles per hour. He doesn't regard that as the top in automobile speed.

"What is the top?" he was asked. "Probably up to 500 miles an hour," he replied.

Moscow (AP)—The Bolsheviks' Bolsheviki Financing Motherhood 000,000 by 1930 have appropriated the equivalent of \$600,000,000 to protect motherhood and infancy in 1937.

Nearly \$100,000,000 will go as bounties to mothers having five or more children, inasmuch as the big family is the new vogue.

The total appropriation for mother and infant care is 3,173,000,000

rubles, which is increased by another 1,108,000,000 through social insurance and allowance to pregnant and confined women.

PHONEY GAS MASKS SOLD TO CHINESE

Shanghai, China, (AP)—The boom in the gas mask business in Shanghai is bringing headaches to the Air Defense association. The association has discovered that

many fake masks are on sale and has asked the help of the city government in banning the manufacture of all useless anti-gas materials.

To check the exodus of agricultural workers to cities in Argentina, the ministry of agriculture plans to promote widespread use of radio receiving sets on farms and ranches there.

SAYS WAYNICK TO ACCEPT JOB OFFERED BY GOVERNOR

(Continued from page one) manship with good grace and without any trace of pique or peeve towards the Governor or the party, there are indications that he felt he would be in the same category with the typical political office seeker who if he can't get one job is always willing to take another, if he accepted this other appointment, many of his friends maintain. For Waynick is noted for his intellectual independence—a hangover from his many years as a newspaper editor—and for the satisfaction he is known to take in the fact that he has never sought political office, that he has been more or less "drafted" into every public office he has held. It is also known that the one thing which stuck in his craw more than anything else,

in connection with his failure to be renamed chairman of the highway commission, were the boastings of certain individuals, some of them highway contractors, that they were going to "get" Waynick out as chairman, one way or another and their subsequent, "I told you so," when he was not reappointed. Those close to Waynick maintain that he felt it was an embarrassment and liability to the Governor, the party and the state as highway chairman, he would continue to be the same in any other post and that the only thing for him to do was to retire from the state's service completely.

Today, however, there are indications that following the extended conference with Governor Hoy and many other conferences with the friends of both, Waynick has just about reconsidered his earlier decision and has become convinced that it was policy and policy only that caused the Governor to make a complete change in the highway commission. It is also apparent that Waynick does not want to be considered lacking in sportsmanship or as being peevish and petulant over not being re-named head of the highway department. And since Governor Hoy has been making it increasingly clear that he wants Waynick to stay in his administration and has the highest regard for his ability and integrity, the belief is growing that Waynick is already weakening and will eventually accept the new appointment.

The job of spending \$50,000,000 a year of state money for supplies needed by the state and its institutions is just as big as spending \$30,000,000 a year on the state's highways, it is maintained, and requires just as keen business judgment and executive ability as any job in the state. So the acceptance of this job by Waynick would in no sense mean that he was taking a less important job, his friends maintain.

JOAN'S 'PERFECT MARRIAGE' FLOPS

Another of Hollywood's much publicized "perfect marriages" was sighted on the rocks with Joan Bennett's disclosure that she will file suit for divorce from Gene Markey on grounds of incompatibility. They are shown before there was any intimation that all was not bliss.

Sport Slants

Play people in the sport whirl, or out of it, can match Jack Doyle at spinning yarns. The veteran Broadway betting commissioner has been close to sports for a long time and boasts a fund of facts and figures that few old-timers in the sports-writing game can equal.

It has been vital to his success as a betting commissioner that Doyle keep in contact with sports. But that has not been his only reason. He loves excitement. He is a keen analyst. He has known them all—the great and the small. Baseball is his first love. And John McGraw his friend and hero. Doyle can tell you more about McGraw than anyone else can.

Next to baseball, golf holds an important place in his heart. Doyle shoots a good game, or at least he did until his physician ordered him to quit.

"Figuring odds on a big golf tournament is just as tough as trying to figure the game itself," Doyle remarks. "I've had more headaches trying to figure important golf matches than from any other sport."

"And do you know who was responsible for one of the worst beatings I ever took on a golf tournament?" he asks. "Well, it was Gene Sarazen. Ever since that day at Fresh Meadow in 1932 when he came from nowhere with a record-breaking final round in the title, I've been afraid of him. He is the smartest of the pack. When I want real dope on the contestants in an important tournament, I go to Gene. He's generally right."

It's hard to keep track of these golfers. They pop up from the darkest places. Plenty of em I've never heard of—let alone seen 'em play.

Prospective Brides Get Special Training

Tokyo, April 29.—(AP)—If a girl in Japan wants to marry a policeman, a doctor, an office-worker, or even a soldier, there are specialty schools now in Tokyo where she can go and prepare herself for that eventuality.

Winborne Hopeful Cutting Rates On Freight Shipment

Utilities Commissioner Disappointed, However, as Result of Washington Meet This Week

Reflector Bureau. Raleigh, April 28. — With the southeastern states having the best opportunity they have ever had to remove the freight rate discriminations existing between the north-eastern and southeastern states, Chairman Stanley Winborne of the State Utilities Commission, is somewhat disappointed at the outcome of the conference in Washington this week at which the southeastern states were to map a course of action and employ counsel to present their cause, he said today.

But he believes that the outlook is still more hopeful than it has ever been and that there is a better spirit of cooperation between all the southeastern states involved than ever before. He hopes that what few differences exist will be amicably settled in the meeting to be held in Atlanta May 10 and that the southern states will not lose any more time in presenting their cause before the Interstate Commerce Commission.

"For years North Carolina has been fighting almost single handed to break up the discrimination in freight rates between the north-eastern and southeastern states and to get the rates all on the same basis," Winborne said. "Recently the Interstate Commerce Commission, of its own accord, invited the southeastern states to present their contentions with regard to alleged discriminations in class rates and inter-territorial rates, offering the best chance the southern states have ever had to give the real facts and get the prevailing discriminations removed. The conference in Washington this week was called by Governor Rivers of Georgia, to which he invited all the Governors of the southern states involved, to map a course of united action and to select an attorney to handle the case for these states."

"Most of those present there urged the employment of Wilbur LaRoe, well known rate attorney who has ably handled North Carolina's cases in the past. There was some objection voiced to Mr. LaRoe, however, by the representatives of the Georgia Freight Bureau, of Atlanta, and by Governor Bibb Graves of Alabama, although the shippers from Alabama favored employing Mr. LaRoe. I had hoped that this decision could be made at this meeting, in order to avoid any further delay and am very hopeful that it can be settled at the May 10 meeting in Atlanta, as we have no time to lose."

NO 'OFFICIAL BAN' ON CCC READING MATTER

Washington, (AP)—There is no "official ban" on what CCC boys may read.

Reassurance of this came from Robert Pechner, CCC director, after the Anti-Fascism league had complained in a letter to President Roosevelt that "The Champion of Youth"—a magazine published in New York—had been suppressed by Major General Bowley, commander of the third corps area.

Pechner's view is that the war department is responsible for operation of individual CCC camps and officers in charge may keep from enrollees literature they consider subversive.

OLD MEN THRIVE AT COOPERATIVE CAMP

Aberdeen, Wash. (AP)—Living on pension of a little over \$20 a month each, 27 elderly men have found haven at Camp Tulips, on the seashore near here.

The camp is operated by the Washington state welfare department but is self-supporting. Each man there is at least 65 years old.

To establish it, the welfare department took over abandoned quarters of a federal transient camp. The men live in two bunk-houses, raise many of their own garden products and pay less than \$15 a month each for expenses. All work is done on a voluntary basis and the men have few rules to govern them.

Beef Cattle Making Money For Producers

Raleigh, April 28. — Beef cattle producers in the coastal plain area of this State can make more money by fattening their yearling steers than they can by waiting to fatten the animals as two-year-olds said Prof. Earl H. Hostetter, of the agricultural experiment station at State College.

Two-year-olds sell for only a little more than yearlings, and this small amount does not justify farmers in keeping the calves over for an extra year, he pointed out.

At the Blackland branch experiment station at Wenona it was found that yearlings produced by breeding purebred Hereford bulls to native cows can be brought up to about 1,000 pounds of weight at the end of a 150-day fattening period in the feed lot, and they produce beef rated at good to choice.

The two-year-olds, when fattened, average only 100 pounds or so more than the yearlings, Professor Hostetter added.

Moreover, he stated, steers being kept as two-year-olds will eat as much feed as a cow and her young calf. The two-year-olds will not be producing any more beef to speak of, but the cow will be producing another calf.

Thus in the long run, the professor pointed out, a farmer will make more by producing as many him before he could pry it loose.

Beach Beauties Try for an Olive Tan

It Goes Better With Evening Clothes

By VIRGINIA CHUMLEY

Miami Beach, Fla. (AP)—With summer coming, the burning question is: "How does one get a good tan, and how deep a tan will be fashionable this year."

A light olive color is the most popular shade here.

A few seasons ago everybody tried to brown as deeply as possible. Then smart women awoke to the fact that too much tan was bad for the skin.

They also discovered that the dark gal, no matter how beautiful she may be on the beach, is inclined to look dull and uninteresting in evening clothes.

On the other hand a gold or light tan will not fade into the background by night, but will enhance a colorful evening frock.

With color playing such a great part in new fashions, the shade of the skin is more important than usual. A light olive complexion will blend well with almost any color or costume.

Another point in favor of the medium tan is that it will not harm the skin. Those midnight browns almost invariably coarsen the skin. And for the new winter clothes at the end of summer olive beauties bleach out nicely while ultra dark damsels are inclined to come out yellowish.

Acquire Tan Gradually

How to get sunkist instead of black or broiled? First, remember that the best tans are acquired gradually. Second, remember that salt water drying on the body will give a darker tan.

All manner of lotions and creams are offered by the cosmetic companies for a pretty—and painless—tanning. Lots of women, however, still prefer old favorites.

One school uses vinegar and olive oil. About fifty life guards and swimming instructors consulted on the matter are agin vinegar. It is

SUNKIST BEAUTY

Tempering her tanning with discretion, Nancy Sprow of Sandusky, Ohio, guards against unbecoming sunburn.

inclined to give a dull tan—and so will anything else that is acid, because it browns too quickly.

Olive oil used alone is considered must better. Oil puts a smooth film over the skin and results in a smooth, bright color.

For those who do their sun-slouching on the sand, however, olive oil is too greasy. Cocoa butter is more satisfactory, because the oil in it seems to disappear even though it continues with its good work.

The speed with which you tan should vary according to the sensitivity of your skin. Ten minutes is often long enough to stay out the

first day. Twenty minutes is right for the second day. Then, if there is no redness that night, a half hour is not too long for the third day. If still no redness appears the fourth day may be stretched to 45 minutes, the fifth day to one hour.

One hour is as long as you should ever stay under the sun until you have a tan sufficient to keep you from burning.

Skip A Day

If, at any time around the second, third or fourth day, you become burned, skip a day. This will give your skin a chance to color beneficially as well as becomingly.

Those first few days are the most important.

You should use oil, or some good lotion, until the tan is acquired completely. Even then it is wise to continue using oil at regular intervals so that your skin won't get too dry.

As for how much of yourself to tan—let your most décolleté evening dress decide that. You don't want any white areas peeping out by night to embarrass you. Slip down the straps of your bathing suit occasionally. Roll yourself over with the regularity of barbecued meat and you'll be as brown on the fore side as aft.

Wally To Marry Coronation Day?

A Coronation Day wedding is being considered by the Duke of Windsor and Wallis Warfield Simpson, shown above in a previously unpublished picture, says a Southampton newspaper. But former King Edward's friends denied the wedding would take place on a date conflicting with the coronation of his brother, King George VI.

MERCIFUL DOCTOR DIES IN FLOOD

Hurrying over dangerous roads to give medical aid to survivors of a train wreck on the Canadian National railroad near Ingersoll, Ontario, Dr. J. H. McDonald was drowned when flood water swept his automobile from the highway. Boatmen are shown trying to remove his body from the submerged car.

calves as he can to fatten for sale at yearlings.

He also said that calves sired by purebred bulls are worth \$10 a head more than those sired by native bulls. In a 30-cow herd producing 30 calves annually, the purebred bull is worth \$300 a year more than a native bull.

Sanitation Factor In Controlling Mosaic

Raleigh, Apr. 27.—Sanitation is a big factor in controlling tobacco mosaic, said Dr. Luther Shaw, extension plant pathologist at State College.

A large per cent of tobacco prepared for consumption carries the agent that causes mosaic, he added, and the agent can easily be transferred from these tobaccos to the growing plants.

For this reason, he urges farmers not to carry smoking or chewing tobacco with them when they are working with the young plants. He also suggested that they should brush out their pockets thoroughly and wash their hands with soap and water before going into the seed bed or the tobacco field.

Do not transplant any plants that show symptoms of mosaic, Dr. Shaw added. Go over the field before each cultivation during the first four to six weeks after transplanting and remove and destroy all diseased plants.

Cultivators harness, and other tools appear to spread mosaic down the row. Consequently, clean fields or clean parts of a diseased field should be cultivated first and the mosaic areas last.

Dr. Shaw also said healthy plants should be topped before the plants that show symptoms of mosaic.

Ship Travels Seas, But Never Goes Home

London, April 29.—(AP)—A Hungarian ship never has been to its home port and never can go. It is the cargo steamer Csikos — too big to get into its own harbor.

Captain Teleki, of Budapest, the master, explained the situation on a voyage here.

"The Csikos, 7,600 tons, was built in 1913 in Sunderland by a British firm. She was registered in Budapest, but can certainly never go there since she draws 23 feet of water and there is only six feet in the Danube at Budapest."

"We have an arrangement with Italy to use Fiume as a home port, but this is of little use, on account of difficulties in crossing Yugoslav territory."

"So we tour the world, visiting North and South America, and all parts of Europe, transporting coal and grain."

CAT GETS REVENGE ON GROCER

Sedan, Kas. (AP)—Grocer Ira Jones ran into a cat that lacked a sense of humor.

Jones found the animal prowling around in his storeroom so he unceremoniously tossed it out the back door. Then he forgot the incident.

Later, he opened the door to pick up a board. The cat, crouched by the doorway, pounced on his hand and severely bit and scratched him before he could pry it loose.

Girl, 14, Accused Of Killing Youth

Fourteen-year-old Stella Stevens (above) was jailed at Grayson, Ky., on a charge of killing Jimmy Scott, 16. The youth was shot while playing "postoffice" in Stella's home.

BARRYMORE IN TRIPLE FESTIVAL

Three anniversaries—his 59th birthday, his 54th year as an actor, and his 27th year in the movies—were celebrated by Lionel Barrymore at his home in Hollywood. He is shown happily cutting the birthday cake with the help of Jean Harlow.

Britain's Royal Family In New Portrait

Here is a new and previously unpublished portrait of King George VI and Queen Elizabeth of England, and their two daughters. Left to right: The king, Princess Elizabeth, Queen Elizabeth and Princess Margaret Rose. In London the king and queen are preparing for their coronation next month.

"I wish we could buy ice cream like this!"

That's what many an out-of-town visitor says, the first time he or she tastes Southern Dairies. No wonder. The most fastidious housewife couldn't use finer ingredients. Our ice cream makers are second to none in America. The result... that delicious flavor and delicate texture for which Southern Dairies is noted. P. S.—Have you tasted Buttered Pecan Ice Cream? It's the Sealtest "Flavor of the Month."

Southern Dairies Ice Cream

2 1/2 YEARS' AGING ADDS SMOOTHNESS TO ITS NATURAL GOODNESS

Rewco is noted for the fine flavor and rich color which have won it many friends since it was first made more than 30 years ago. And extra aging makes it extra smooth. Every golden drop of Rewco is aged 2 1/2 years in wood—and it's all full 93 proof.

POULTRY MEET SET MAY 21ST

Conference of Hatcherymen Called By Department

Reflector Bureau, Raleigh, April 30.—Hatcherymen of North Carolina will discuss the ailments of the poultry industry in the state and the Department of Agriculture experts will outline its program to combat poultry diseases at a meeting in the State Agricultural building May 21, Commissioner of Agriculture W. Kerr Scott announced today.

The meeting will be one of a series sponsored by the Department of Agriculture to determine the agricultural needs of the state in order that the department may plan its program for the greatest good to the greatest number, Commissioner Scott said. Veterinarians and fertilizer manufacturers have already met with the department specialists and other meetings will be scheduled for the future. Dr. William Moore, head of the veterinary division and Commissioner Scott will be among the speakers on the program. Pullorum disease of poultry and insular work will be featured in the discussions and an open forum on poultry problems in general will be conducted.

Dr. Moore pointed out that "Pullorum disease is the most serious and costly problem facing the poultrymen today and it will be the purpose of this meeting to determine how the Department's veterinary division may give better inspection and greater service toward the eradication of the disease."

Incidentally, the veterinary division recently tested more than 200,000 chickens for Pullorum disease and department specialists said that the program was of material benefit to the poultry raisers in raising the standards of their flocks, cutting chick mortality and increasing the value of their products. All hatcherymen in the state will be issued an invitation to attend the meeting.

In the 75 years from 1859 to 1934, Colorado produced coal worth \$785,000,000. This was \$40,000,000 more than the value of gold produced in the state during the same period.

Some Japanese teas are dyed to improve their color.

Weather fair, temperature 61.

N. Y. Stock Market

New York, April 30.—(AP)—Rally abetted by steels and other leading industrials put rallying power behind today's stock market. Gains of fractions to six or more points appeared at the opening in fast dealings. Volume however, contracted later and extreme advances were clipped off moderately in many instances near the fourth hour.

U. S. government bonds were higher and commodities were mixed. Transfers approximately 400,000 shares.

The first wire fencing for farms in the United States was sold in 1874. Steel statisticians say so.

The Holy Land is going modern. With the influx of immigrants into Palestine during recent years, the demand for shaving creams and tooth pastes has increased substantially.

New York Cotton

New York, April 30.—(AP)—Cotton futures opened very steady, 18 to 21 higher on firmer Liverpool cables and more reassuring reports on foreign financial conditions. After the first half hour July quotations two to nine points net higher.

The market was about steady at midday at net advances of nine to 11 points. July recovered from 12.81 to 12.86.

Future closed steady 22 to 25 higher; spot steady, middling 13.51.

BRITAIN'S ROYAL FAMILY TO GET NEW PLANE

London (AP)—A new plane with accommodations for six has been ordered for the royal family. It will have two engines developing a maximum speed of 180 miles per hour and will replace the monoplane used by Edward as prince and king.

Members of the British royal family have used airplanes increasingly, but the king and queen have not been up since their accession to the throne.

Vote For MARVIN K. BLOUNT for Mayor of GREENVILLE

His Record of Public Service Merits Your Support and Vote

M. K. BLOUNT

Since Mr. Blount has been in Office, it has been his one policy to do everything that would advance our community. His efforts along this line have resulted in procuring Federal allotments for the construction of an Armory, an underpass on the much-traveled highway adjoining the cotton mill, moving of A. C. L. Station, widening of Dickinson Avenue, extension of Tenth Street, and the proposed Green Spring Park. His policy of expansion and growth is further shown by the extension of our City limits.

He was appointed to fill the unexpired term of the late R. C. Flanagan and although having served only one year and four months, the City of Greenville, under his leadership, has made much progress. It is his intent and purpose, if elected in the coming Election, to continue his efforts for a Bigger and Better Greenville. If you are a citizen of Greenville it is your duty to cast your ballot for Progress and Economy in City Government. Vote for M. K. Blount.

A Vote for Blount Is a Vote for Progress

While Mr. Blount has followed a program of progress, he has been very careful in handling the tax payers' money. During his administration the city tax rate has not been increased. He has practiced strict business economy in handling the city's affairs.

Let us give him our support and confidence in the coming Election. The short time in which he has served has only made it possible for him to become familiar with the affairs of the City and now he is better prepared to carry on his program and complete measures that will mean much for the future of Greenville.

Capable — Honest — Courteous — Progressive
