

FRENCH PLANE IS SHOT DOWN BY INSURGENTS

Pilot and One Passenger of Transport Ship Wounded

REBELS NEARING CITY OF BILBAO

General Mola's Front Line Troops Reported Within 8 Miles of Basque Capital

Bilbao, Spain, May 26.—(AP)—Machine gun bullets from an insurgent fleet of war planes downed a French "Air Pyrenees" transport plane near this besieged Basque capital today and wounded the French pilot and a Spanish passenger.

The plane was damaged badly both by the bullets and the force of a "pancake" landing on sandy soil 13 miles north of here behind Basque government war lines.

The wounded pilot and the Spanish passenger, one of four, were brought by car to Bilbao and placed in a hospital. Both are expected to recover. All the passengers were Spaniards.

The plane was approaching the mouth of the Nervion river, toward the coast from Bilbao, when seven insurgent planes, described by Basques as a German-built fleet, were reported to have raked it with machine gun fire.

Elsewhere at Hendaye, Franco-Spanish frontier, a new insurgent advance was reported to have shoved General Mola's front line within eight miles of Bilbao.

The advance, an insurgent communiqué from the Salamanca headquarters reported, carried the northern insurgent offensive to within eight miles southeast of the besieged capital and half way to the next objective.

Meanwhile at Bilbao a foreign consul, it was learned, had been shot as an insurgent spy by the Basque government.

Neither the consul nor his country was identified, but it was learned he was caught carrying military maps out of Bilbao.

Basque secret police, who had trailed the man for weeks, arrested him as he was about to board a British destroyer en route for France.

Board Determined To Insure Public Of Pure Whiskey

To Guard Against Tampering With Bottles, For Which Complaints Already Received

Reflector Bureau. Raleigh, May 26.—The state liquor control board is going to guard against any tampering with bottled liquor in the various county liquor stores and will immediately investigate any complaints. Chairman, Cutler Moore said today.

The board has already received several complaints and has made some investigations already. Any person who at any time has reason to believe that any bottles of liquor he has purchased from a county liquor store has been tampered with or diluted, is urged to save the bottles and contents, send them to the state control board together with affidavits, so that full and complete investigation can be made, Moore said.

"We do not believe there has been much tampering with bottled liquor in county liquor stores and we are going to try to see that there will not be any at all in the future, but if there is any we want to know about it," Moore said. "For we want the public to feel sure they will get exactly what they ask for and what they pay for in every county liquor store in the state."

The board is now making an investigation of a case in which a customer purchased two pints of whiskey in a county liquor store usually sold in tamper-proof cartons, but which were not in these cartons at the time they were purchased, and which were found to be watered when opened. One of the pints was analyzed, showed only 60 proof instead of the 90 proof it was supposed to have been.

"We ordered our chief inspector to visit the store from which it was purchased and he found 17 pints of the same brand which had been removed from the protective cartons," Moore said. "Some of these appeared to have been tampered with. He ordered all of these 17 pints removed from the shelves so that none would be sold and sent some in here for analysis. We will know in a day or so if they had been tampered with. It looks bad for one or both of the clerks in this store."

The commonest method of tampering with bottled whiskey is to steam the revenue stamps off, pour out some of the liquor, fill it up with water and replace the stamps.

For Security

On this same day he celebrated his 67th birthday anniversary. Associate Justice Benjamin Cardozo delivered the momentous opinion through which the Supreme Court upheld the unemployment insurance provisions of the Social Security Act.

GUESTS NAMED FOR MARRIAGE

Several High British Officials to See Duke and Wally Wed

Monts. France, May 26.—(AP)—Sixteen wedding guests, several of them holding British official positions, were announced today for the June 3 marriage of the Duke of Windsor and Wallis Warfield.

The guests include Hugh Lloyd Thomas, first secretary to the British embassy in Paris; Sir Walter Monckton, attorney general of the Duchy of Cornwall; and Lady Walford Selby, wife of the British minister at Vienna.

Major E. B. Metcalfe, who will attend with Lady Metcalfe, will be the Duke of Windsor's best man. The major is the Duke's equerry.

Rogers would not comment on the fact that 30 invitations sent out, only 16 acceptances were received. Some persons close to the Chateau de Candé, where the wedding will take place, also attached significance to the fact that Lady Selby will attend without her husband, the minister to Austria.

There have been reports the British government held out to the last against the attendance of Sir Walford Selby despite the Duke of Windsor's pleadings. Sir Walford was one of Edward's confidants during his self exile last winter in Austria.

Mrs. J. W. Wilson Claimed by Death

Mrs. J. W. Wilson, 71, died yesterday afternoon at 4:30 o'clock at her home near Winterville after several years of declining health.

Funeral services were conducted at 3 o'clock this afternoon at the family cemetery on Mrs. Lizzie Willoughby's farm. Rev. M. A. Woodward, Free Will Baptist minister of Winterville, had charge.

Mrs. Wilson is survived by her husband.

The average housewife walks about five miles daily performing her household duties.

New Highway Commission Sets Dates For Meetings

Raleigh, May 26.—(AP)—The ten new highway commissioners notified boards of county commissioners in the 100 counties today they would be available on stated days to discuss highway matters in the divisions under the new set-up.

Each commissioner set monthly meetings to suit his own convenience, though announcement of plans for the sixth district was withheld temporarily.

The ten divisions engineers named yesterday discussed highway matters with the commissioners.

Chairman Frank Dunlap said the commission was discussing general matters concerning roads and the divisions would be arranged from time to time.

WOULD SET UP BOARD TO FIX WORKING LAWS

Secretary Perkins Favors Method Over Congress Rule

SENATE RECEIVES PEACE TREATIES

House Session Devoted to Memorial Exercises for Solons Who Died Past Year

Washington, May 26.—(AP)—Secretary Perkins said today an Administrative board, rather than Congress should fix the specific labor standards foreseen for industry under the administration's proposed wage and hour control law.

Testifying before a House Labor Sub-Committee on a bill to regulate the textile industry's labor standards, the secretary said: "If the way had not been so recently opened to a more general approach, I should have said regulation by industry was the best approach to the problem."

The textile bill would apply only to that industry. Administration leaders had indicated it would be shelved in the interest of the general wage and hour law, which would include textiles, as well as all other inter-state industries.

A board would be created to administer the law, and the secretary indicated she believed fixing of minimum wage and maximum hour provisions should be left to this board.

Meanwhile the Senate received eight international agreements designed to maintain peace in the Americas. They were sent up with a request from President Roosevelt they be ratified as soon as possible as a proof "of the sincerity of the good neighbor policy."

In committee room hearings on railway financing and proposed relaxation of helium exports were in progress.

Before the Senate Military Committee, Germany's master of airships, Dr. Hugo Eckener, said dirigible operations must give up hydrogen gas for non-inflammable helium. That must be done, he said, regardless of the cause of the Hindenburg's explosion. The Hindenburg used hydrogen.

The United States has a virtual monopoly on helium.

The House devoted its session to memorial exercises for six Senators and 15 Representatives who died during the past year.

Many observers continued to watch for evidences of behind the scenes developments in the court reorganization controversy.

WARREN HOLDS RULE IN HOUSE

Tar Heel Democrat Wields Gavel in Absence of Bankhead

Washington, May 26.—(AP)—A 47-year-old North Carolina Democrat who still wears the same kind of pompadour he displayed as a boy, is holding the gavel over House debate this week.

He is Rep. Lindsay Warren, elected speaker pro-tem while Speaker Bankhead is at his Alabama home. During his seven consecutive terms in Congress Warren has won for himself a reputation as a stern and able parliamentarian and for Southern barbecue a reputation as one of the best dishes served in the House restaurant.

As chairman of the House Accounts Committee, he has put the restaurant on a basis where it just about makes expenses.

Warren says his only diversion is fishing, preferably deep sea-fishing. When Congress is not meeting he frequently persuades his colleagues to try their luck in North Carolina waters.

James Taft and James Whitfield, two Negro youths, were convicted of engaging in riotous and disorderly conduct and each was fined \$5 and taxed with the costs.

Percy Forbes was bound over to County court under bond on a charge of driving while drunk.

delegations will appear instead of coming to Raleigh to present matters to the whole commission will include:

First: Winton on the second Monday of each month.

Second: Kinston on the Saturday after the first Monday of each month.

Third: Burgaw on the second Saturday of the month.

'CRIME TOURISTS' DENIED WEDDING

Lester Brockelhurst, 23-year-old "crime tourist," and his girl companion, Bernice Felton, discussed the possibility of a jail wedding while they awaited arraignment on murder charges at Lonoke, Ark. But Sheriff Troy Carroll said emphatically there would be no wedding pending their trial. They are shown together in jail.

RENEW DEBATE OVER OLD NRA

Drive For Control Of Hours and Wages Fans Embers

New York, May 26.—(AP)—The administration drive in Congress for federal control of maximum hours and minimum wages in industry has fanned anew embers of the old debate over NRA codes.

A survey disclosed today a fairly wide diversion of opinion among economists, labor leaders, business men and industrialists as to what the proposals actually would mean for the sprawling American industrial machine.

Some pronounced the program an improvement over NRA because more elasticity would be provided.

Labor leaders united in hailing it as an important step in stabilizing employment and promoting better working conditions.

Some business men, although professing agreement with certain phases, were critical of others and thought the drive might seriously retard recovery at a strategic point on the uphill climb from depression.

Others stressed the 40-hour week, most frequently mentioned as practical already was observed in the great manufacturing industries which would be chiefly affected by federal legislation. The 40-cent-hourly wage standard also was held to be so widely in effect that most industries would find little difficulty making adjustment to it.

The National Industrial Conference Board found the average work week in March was 41.7 hours, compared with 48.3 in 1929.

Six Defendants In City Police Court

Five Negroes and one white man faced Mayor M. K. Blount in City court this morning. Three of the Negroes were charged with assault, two with engaging in riotous and disorderly conduct and the white man with operating an automobile while under the influence of whiskey.

Wilbur Dixon, Negro, was sentenced to the roads for 30 days upon conviction of assault. Henry Bonner, Negro, was fined \$10 and costs on a similar charge, and George Braxton was fined \$5 and costs on a like count.

James Taft and James Whitfield, two Negro youths, were convicted of engaging in riotous and disorderly conduct and each was fined \$5 and taxed with the costs.

Percy Forbes was bound over to County court under bond on a charge of driving while drunk.

Cochrane Given Even Chance of Recovering

New York, May 26.—(AP)—His skull fractured in three places, one of them dangerously near one of the sinuses, Micky Cochrane, star catcher and manager of the Detroit Tigers, fought for his life today with chances of victory reported as even.

Danger of infection of the sinuses had caused added concern as doctor and surgeons tried to save Micky's life. He had been struck in the right temple by a ball thrown by Irving Hadley of the New York Yankees in a game yesterday.

ASKS CITIZENS WEAR POPPIES

Saturday Officially Proclaimed Poppy Day by Mayor

Saturday, May 29th, was designated as Poppy Day in Greenville by a proclamation issued today by Mayor M. K. Blount. In the proclamation, Mayor Blount called upon all citizens to observe the day by wearing memorial poppies in honor of the World War dead. The proclamation stated:

"The city of Greenville responded with highest patriotism to our nation's call for defenders in 1917 and 1918, sending many of its young men into the fighting forces. Of these men many sacrificed their lives in the nation's service, dying with more than 100,000 other Americans to bring victorious peace."

"It is fitting that the service and sacrifice of these gallant young men should be commemorated annually by appropriate public observance. As the poppy, which grew on the battlefields where so many of them fell, has become their memorial flower, there could be no more appropriate observance than a general wearing of the poppy in their honor."

"Therefore, I do hereby proclaim Saturday, May 29th, as Poppy Day in the City of Greenville, and urge all citizens to show remembrance of the honor for the men of the city and of the nation who gave their lives in World War service by wearing poppies on that day."

Volunteer workers from the American Legion Auxiliary will distribute poppies throughout the city Saturday and receive contributions for the welfare of the living veterans of the war, the disabled veterans, the widows and fatherless children.

Durham Man Tried for Slaying Mate on Christmas Eve

Durham, May 26.—(AP)—Superior Court Judge Hunt Parker told a Durham jury today it could render one of four verdicts in the case of Charlie Brown, Durham barber, charged with killing his wife.

The jurist said Brown could be found guilty of first or second degree murder, manslaughter or could be found not guilty.

Solicitor Leo Carr, concluding arguments in the case last night, told the jurors to put aside their sympathy and asked them for a verdict of first degree murder.

The defense had contended Brown was a home-loving man and never harmed his wife.

The state charged Brown knocked down his wife, Lona Fish Brown, in a fight on Christmas Eve, a week before her body was found in a creek near here.

Butter prices during the summer months are expected to average the highest for the season in the past 6 years with the possible exception of 1936.

Allegany Votes Ban on Legal ABC Stores

Sparta, May 26.—(AP)—A proposal to establish liquor stores in Allegany county met defeat yesterday when opponents mustered 1,225 votes and proponents 1,050.

The returns were unofficial.

HOW TO KEEP DOGS OUT OF SHRUBS

Stillwater, Okla. (AP)—Franklin J. Ruedel, Oklahoma A. and M. floriculturist, suggests this method of keeping dogs out of shrubbery: "Spray the lower branches with a dilute nicotine sulphate (black leaf 40), repeating after each rain. It is repellent to dogs, but will not harm the plants, says Ruedel.

FORD WORKERS IN CALIFORNIA OUT ON STRIKE

Charge Discrimination Against Members of U.A.W.A.

REPUBLIC STEEL NEAR SHUTDOWN

Strike Call Follows Refusal of Officials To Sign Contracts With C. I. O.

Richmond, Calif. May 26.—(AP)—A strike was called at the Ford Assembly plant here today and pickets were placed around the buildings by the U. A. W. A.

Frank Slaby, president of the East Bay U. A. W. A., affiliated with the C. I. O., announced only two votes were cast against the walkout.

He said the day crew voted 628 for the strike and the night shift 263 for quitting work.

"The Ford company discriminated against our members for union activity and attempted to form a company union," Slaby said.

(By Associated Press) The Republic Steel Corporations faced complete shut down today of its half a hundred plants in the nation, while workers in factories of two other major independent producers awaited the official call to strike.

With seven of eight Republic units at Canton and Massillon, Ohio, already closed, Homer Downer, president of the All-Nations lodge of the Steel Workers Organizing Committee, said all Republic plants extending from Alabama to Minnesota "will be down today."

Ten thousand workers were affected by the Republic plant closings in Ohio last night and 45,000 others would become idle if all plants closed.

The strike call followed the Republic's refusal to sign contracts with John Lewis' C. I. O. to bargain for its members.

Similar refusal came from officials of the Youngstown Sheet and Tube Company, fourth largest independent.

Meanwhile Philip Murray called his C. I. O. councilors to Youngstown today to map the organization's war against the united stand of both concerns.

MURDER TRIAL IS COMPLETED

Durham Man Tried for Slaying Mate on Christmas Eve

Durham, May 26.—(AP)—Superior Court Judge Hunt Parker told a Durham jury today it could render one of four verdicts in the case of Charlie Brown, Durham barber, charged with killing his wife.

The jurist said Brown could be found guilty of first or second degree murder, manslaughter or could be found not guilty.

Solicitor Leo Carr, concluding arguments in the case last night, told the jurors to put aside their sympathy and asked them for a verdict of first degree murder.

The defense had contended Brown was a home-loving man and never harmed his wife.

The state charged Brown knocked down his wife, Lona Fish Brown, in a fight on Christmas Eve, a week before her body was found in a creek near here.

Butter prices during the summer months are expected to average the highest for the season in the past 6 years with the possible exception of 1936.

Defense Rests In Trial Of Ex-Lovers For Murder

Jersey City, May 26.—(AP)—The defense rested today in the murder trial of Gladys MacKnight, and Donald Wightman, with each of them accusing the other of striking the hatchet blows that killed the 17-year-old girl's mother.

The action came after long and sharp cross examination of 18-year-old Wightman had ended without shaking materially his story that Gladys killed Mrs. Helen MacKnight while he held the woman's arms.

Gladys similarly had accused Donald of the actual slaying which she asserted occurred as she struggled with her mother for possession of a kitchen knife after Mrs. MacKnight had surprised the young couple in a love making scene in the kitchen.

Festival Sponsors

Charlotte Barton Head (top) of Tuscaloosa, Ala., and Bessie McDougall Mitchell (bottom) of Knoxville, Tenn., will go to Asheville, N. C. to represent their states as sponsors at that city's annual Rhododendron Festival June 14-19.

CIVIL SESSION IS ADJOURNED

Next Court Be Held Here Last 2 Weeks of August

1937 Superior court was adjourned here today, completing the spring term, after a jury had rendered a verdict in favor of the defendant in the case brought against Dr. B. G. Willis, surgeon at Park View Hospital, Rocky Mount, by Mrs. Pearl Hunter of this city, for \$10,000.

Judge E. H. Cramer, presiding, ordered a non-suit as to the hospitalized Mrs. Hunter contended a spinal. Mrs. Hunter contended a spinal. Mrs. Hunter contended a spinal.

sponge was not removed following an operation, causing her much suffering and impairing her health.

The case Mrs. C. W. Shuff is bringing against the city for \$15,000 for injuries she alleges she suffered when she fell in a hole in front of the library, was not tried at this term.

Lena Esson Barefoot was granted a divorce from David T. Barefoot and Daisy Holmes Smith was divorced from W. G. Smith before the court adjourned.

The next term of court will be held here in August when a week of civil and a week of criminal are scheduled for the last two weeks of the month with Judge W. C. Harris of Raleigh, presiding.

Judge Cramer adjourned court here today because of his physical condition, but he was not considered seriously ill.

French Aviators Hurt When Forced to Land

Tokyo, May 26.—(AP)—The Japanese doeml news agency reported today the French aviators, Marcel Doret and Francois Micheletti, made a forced landing along the Tobora coast and in Kochi prefecture at 7:30 p. m. tonight (6:30 a. m. est.)

Both were slightly hurt and taken to a hospital at Kochi Shikoku, Ireland seaport. They were trying a Paris to Tokyo flight.

A straight, well-strung fence and a trim, well-fed steer should be as much a source of artistic pride as a flower garden or photograph, says one farm expert.

Convict Man Aided In Illegal Operation

Wilson, May 26.—(AP)—A Nash county superior court jury today convicted Melton Baker of complicity in the death of a Nash county woman who died. The state charged, as the result of an illegal operation.

Baker was alleged to have procured the operation.

Judge Paul Primm sentenced him from three to five years in the state penitentiary.

FARM PICTURE PAINTED WITH BRIGHTER HUE

Survey Warrants Expectations for Good 1937 Harvest

LITTLE FEAR FOR DROUGHT IS FELT

Timely and Abundant Rains Within Next Few Weeks Necessary in Few Sections

Chicago, May 26.—(AP)—The American farm crop picture, tragically darkened in 1936 by the great drought, carried brighter and more optimistic tints today.

Although farm experts said the long summer ahead may alter the current outlook, a survey of the broad mid-continental agriculture belt showed most regions this year had experienced weather conditions warranting an expectation of a good harvest.

Only in a few important producing areas in the west were timely and abundant rains within the next few crucial weeks considered necessary to erase farmers' fears of a third serious drought in four years.

Many farm lands where vegetation withered in 1934 and again in 1936 have had heavy rains this spring and crop conditions in these localities were reported the best in years. Ironically, moisture has been so plentiful in some sections in the Great Lakes and Ohio and Mississippi valley regions that field work and the crop start have been seriously delayed.

Elsewhere soil lacks the fortification of sub-surface moisture reserve to tide vegetation through the hot, dry-summer days, the survey showed. Observers fear the possibility of serious losses in these regions unless nearly ideal weather prevailed.

State To Provide Better Lights For Interior of Capitol

Inside of Century-Old State House to Be "All Lit Up," But Not Like The British Fleet.

Reflector Bureau. Raleigh, May 26.—The interior of the century-old state capitol is going to be "all lit up" soon—but not like the British fleet—just as its exterior is "all lit up" with flood lights every night, since the state has found it could again afford to pay for the electricity needed.

Workers in the offices in the capitol have for years been suffering from eye strain as a result of the ancient and entirely inadequate lighting fixtures and facilities and state officials whose offices are in the capitol have long complained of the inadequate illumination. For no matter how brightly the sun may be shining outside, the halls, corridors and offices in the capitol are always dark, shadowy, even tomb-like.

But all of this is to be changed and modern illumination is to be installed throughout the capitol and its offices, as a result of action taken by Governor Clyde R. Hoey and the council of state Tuesday, which authorized the board of public buildings and grounds to proceed at once with the installation of present and adequate lighting equipment.

Since it will be necessary to tear through the solid granite ceiling of the first floor offices, from the floors of the senate and house chambers above, making it necessary to take up the carpets in those chambers, the board was also authorized to purchase new carpeting for the two legislative chambers, if it deemed such action advisable.

All of the wiring in the lower part of the capitol will have to be replaced and new wiring put in order to carry the heavier load that will be required for the new lighting equipment. Terry pointed out in order to prevent the danger of fire from overloaded wiring.

Wilson, May 26.—(AP)—A Nash county superior court jury today convicted Melton Baker of complicity in the death of a Nash county woman who died. The state charged, as the result of an illegal operation.

Baker was alleged to have procured the operation.

Judge Paul Primm sentenced him from three to five years in the state penitentiary.

Utopia, Kas. according to 1910 last census, has six inhabitants.

Social and Personal

Mr. and Mrs. Carl Reid have moved from Evans street to East Fourth street.

Mrs. A. V. Moore and Mrs. W. G. Leggett of Winterville, spent today in Greenville.

Mrs. H. K. Austin left today for Currituck to spend a week with her daughter, Mrs. L. B. West.

Mrs. W. S. Brown and Miss Jean Brown have returned from Mount Sterling, Kentucky.

Mrs. James Britt of Tarboro, spent today with her parents, Mr. and Mrs. N. H. Whitehurst.

H. H. Stark of Wilson, is visiting his son and daughter-in-law, Mr. and Mrs. R. W. Stark.

Mr. and Mrs. J. L. Hillard have moved from 1302 Myrtle avenue to 1112 Reid street.

Social Calendar

WEDNESDAY
7:30 P. M.—Mrs. L. B. Tucker will present her piano pupils in a recital in Third Street School.

7:30 P. M.—The choir of Jarvis Memorial Methodist church will meet.

7:30 P. M.—The choir of the Christian church will meet.

8:15 P. M.—The choir of the Presbyterian church will meet.

8:30 P. M.—The choir of Memorial Baptist church will meet.

8:45 P. M.—The choir of Emmanuel Baptist church will meet.

THURSDAY
3:30 P. M.—Greenville Classroom Teachers Association will meet in the high school.

8:00 P. M.—Mrs. E. W. Griffin will entertain at bridge honoring Mrs. Tyrus Wagner, a recent bride.

FRIDAY
8:00 P. M.—Mrs. Charles A. White will present her high school piano pupils in a recital in Third Street School.

The Chatham Club.
The Chatham Book Club held its regular meeting Tuesday afternoon at the home of Mrs. David Robinson, with Mrs. Darward Tucker, Mrs. Bill Tyson, Mrs. Bitts Ruffin, and Mrs. Rufus Stark assistant hostesses.

After a short business meeting, Miss Davis of the college faculty, gave a most interesting talk on the early settlers of North Carolina.

The club had as its guest Mrs. King of Birmingham, Ala. and Mrs. J. B. Kittrell.

At the conclusion of the program the hostesses served a delicious salad course.—Reported.

English Club Gives Gypsy Party.
The coronation note was in the gypsy party given by the English Club of East Carolina Teachers College last night in honor of the 25 new members.

A gypsy king and queen reigned at the court. Dressed in picturesque gypsy costumes, the old members required the new members to prove their mettle by performing before the king and queen of the gipsies.

The king, John son White, and the queen, Miss Mildred Edwards, sat on twin thrones before which the new members bowed, made obeisance and did their stunts.

After this both the new members and the old members enjoyed dancing, singing, and ice cream and cake furnished by the English club.

Miss Fannie Brewer, the new president, presided for the first time. The chairman of the initiated party was Miss Frances Curran and those who served with her were Misses Fannie Brewer, Georgia Sugg, Mildred Edwards and April Joyce Harrell.

WARMER SEABOARD SEEN IF CANAL GOES THROUGH
Newburgh, N. Y.—(AP)—Wesley Wait, Newburgh dentist, whose hobby is science, predicts the proposed sea level ship canal in Florida would change the course of the Gulf stream.

It would be diverted across Florida in proportion to the canal's volume, he thinks, and there's a good chance it would make all the Gulf states warmer, give Florida Cuba's climate, and displace the Arctic shore current all the way up to Maine.

He foresees the Southern United States raising coffee and tropical crops, and the eastern seaboard made "20 to 30 degrees warmer." He has sent his comments to President Roosevelt.

Strong Staff Chosen Duke Summer School
Durham, May 26.—Augmented by visiting teachers from universities and colleges in many sections of the country, the Duke university summer faculty will be one of the strongest in its history, according to Dr. Holland Holton.

Included among the visiting teachers will be a number of well known English scholars: Dr. Albert C. Baugh, University of Pennsylvania; Dr. Edward S. Bradley, University of Pennsylvania; Dr. Reginald H. Griffith, University of Texas; Dr. Earl L. Oring, University of Michigan; Dr. Merritt Y. Hughes, University of Wisconsin; Dr. Hazelton Spencer, the Johns Hopkins university; and Dr. Gay W. Allen, Bowling Green state university.

The three terms of the Duke school will begin June 9, July 1, and July 21. At Lake Junaluska the affiliated school will begin July 9.

There were more than 3,000 registrations at Duke last summer, and registrations to date exceed last year's. Students came from 44 states and 11 foreign countries to study at Duke in the summer of 1936.

TROUT IN ICE CAKES GIVE ANGLERS A TIP
Fort Collins, Colo. (AP)—The state game and fish department believes in advertising.

M. J. Benello, in charge of a state fish hatchery, took four 16-inch rainbow trout, froze them in cakes of ice and placed them in the front window of a newspaper office.

"We placed 2,000 like them in the Cache La Poudre river and 200 loads of them in the Big Thompson river," he announced. "Remember, the opening of the trout season is but a few weeks ahead."

BUTCHERS HEAR THEY'RE 'LADIES' MEN
Stillwater, Okla. (AP)—The butcher is the "coolest friend of young brides and women customers," Mrs. Sam McBirney told meat retailers at a short course on the Oklahoma A. and M. campus.

Mrs. McBirney, a home demonstrator, advised retailers to advertise "the ways to prepare your meats as well as your wares."

The Show Is On: BUT THE CHORINES BACK STAGE JUST SIT AND DRESS AND TALK AND EAT!

THE STAR... Just Waits

THE CHORUS... Is Always Hungry

NEW YORK (AP)—What do they do, those glamorous musical comedy stars and sprightly chorines when they're not out on the stage wowing the customers? Well, here's what a Bea Lillie (left) and her supporting femmes do in "The Show Is On." They occupy themselves with such prosaic pastimes as sitting back and twiddling their thumbs — that is, when they're not eating or dressing or waiting for a cue to go on. Exciting business, being a show girl!

Hollywood Sights And Sounds

By Robb Coom

Chocolates — "From now on she's going to be funny," somebody wrote that line about me and if I ever catch him I'm going to break his neck. The inspiration came to him just after I'd finished "My Man Godfrey" in which I was very hoydenish.

Actually, something did happen during the making of that picture. I found that I was able to break away from Lombard and be the person I was supposed to be on the screen. I dropped the last vestige of my self-consciousness.

But I did not plan just to be funny from that time on. I think I showed that pretty clearly when I stepped into "Swing High, Swing Low." I was a comic character in that one. But more than that, I hope. There was considerable footage of tragic stuff. After all, you can't be very funny when you're playing a girl in love with someone, and that someone's a bum, and walking out of your life on top of that.

My new picture is "True Confession." It'll have humor and plenty of it. But I'm certainly not going to run riot on one single shade of emotion when there are so many more in the book. I'm going to sample quite a few of them. The script isn't being written "to make the lines sound as if Lombard would say them." It's being written for a character I'm going to play.

Why? Because I'm not going to type myself. Typing means standing still. The public says, "There's no use seeing her again. I've seen her last three pictures and they're all alike." And when you're standing still you're going backward, because Hollywood is fast and people are going to the right and left of you passing you and getting ahead.

The idea, in Hollywood, is always to be new and slightly different. I'll be all right as long as the public says, "She's full of surprises." When I don't surprise them, you can count me out. That's why I got stony when somebody says, "From now on she's going to be funny." She's going to be the same forever. That is practically libel, in this business.

Understand, I know my limitations. I don't care for "prestige" pictures. I don't want to do a film which is supposed to be epic, colossal, or terrific. I can't imagine myself a Duse or a Bernhardt. I'll leave that to the other little girls. But you can depend on this: as long as there's breath in the body, I'll try to make people say: "Have you seen the latest edition of Lombard?"

Talks To Parents

Living For Today

By BROOKE PETERS CHURCH
The greatest gift parents can give their children is the ability to live in and enjoy the present moment. For many people, all of life comes to be a preparation for something else, until at last death comes with life still un-lived.

The baby longs to be a big boy, the boy can hardly wait to be a man, the young man is straining every nerve to reach the top in business, and having reached it, to have a fortune for his family. All to what end? At what time has he really lived and enjoyed the present moment?

Babyhood, childhood, youth, maturity, old age, are not like classes in school, each one merely a preparation for the one to come. True, the future depends upon the past, but only in so far as one has lived

growing children. It may include graham crackers and milk, fruit, simple cookies and fruit juices. In summer, fresh fruits or egg and milk drinks are suitable.

Individual pastry cases should be re-heated before they are served. After they have been stored a day or so they are likely to absorb a little moisture which tends to make them tough. Heating remedies the toughness.

things to come, children are discontented, over-sophisticated, snatching from the grabbag of tomorrow behaviors and experiences they aren't prepared for.

which must be tasted to the full at the time. There is no more reason for rushing these early years than for the old man to hustle into his coffin.

Life is unreasonable and unsatisfactory unless it is taken as it comes, accepted and lived now.

William Faulkner, Mississippi novelist, used to paint houses to eke out his income as a writer.

GWYNN SLATED FOR JUDGESHIP

Present Solicitor Expected to Be Named To Bench

Reflector Bureau.

Raleigh, May 25.—A thorough Governor C. C. R. Hoey is not expected to announce the appointment of the new judge and solicitor for the new Twenty-first judicial district until the middle of June or even later, the belief is growing in informed circles here that Allen H. Gwynn, at present the solicitor in the Eleventh judicial district, is the inside track for the appointment of Judge of the new district, also that State Senator S. Gilmer Sparger of Danbury, Stokes county, is in line for the appointment as solicitor in the new district.

If Gwynn is appointed judge in the new Twenty-first district created by the 1937 general assembly, the Governor will also have to appoint a new solicitor in the Eleventh district, it is pointed out. Accordingly there is already considerable speculation as to whom the Governor will appoint as solicitor in the Eleventh district, where Judge J. H. Clement is the resident judge.

While a goodly number of lawyers in the Eleventh district are understood to be in a receptive attitude for the appointment as solicitor, the field has already narrowed down to two, according to most observers here. These are J. Earle McMichael and Forest G. Miles, both of Winston-Salem. But of these two, McMichael is regarded as having much the better chances due to the fact that he has been acting as assistant solicitor in the district for several years and is regarded as one of the most vigorous and business-like prosecutors anywhere in the state. Some observers frankly regard him as a better prosecutor than Gwynn, the present solicitor.

It is further being pointed out by those who know McMichael that he was a vigorous busy supporter in both primaries, despite the fact that his father, C. O. McMichael, also an attorney, was an enthusiastic supporter of Dr. R. I. W. McDonald. At any rate, the betting odds here are that McMichael will be named to succeed Gwynn as solicitor in the Eleventh district.

Shoes Go Gay

New York (AP)—Race track fashions indicate great interest in shoes of bright colored leather. Copper and rust shades are particular favorites and bright red and wine are popular. All four provide gay accents for beige costumes.

For Collegians

New York (AP)—College girls have adopted bodily a type of box jacket popular on men's campuses. They have retained even the left-hand buttoning. The jacket material is heavy white cotton. Large patch pockets are handy for students.

Talks To Parents

By Brooks Peters Church

Necessary Risks

Everyone must face a certain amount of danger, take a certain number of risks, if he is to lead a full and active life. To cross a street is dangerous in this day of speeding motors.

But the average mother does not worry when her small boy starts out to school. She has ceased to disturb herself over the danger he runs. She is exercised rather over his coasting — "So many children break their necks" — and over his skating — "Suppose the ice is too thin and he falls through and is drowned?" She never gets used to these dangers and nags the child and wears herself out in a vain attempt to fend off a necessary part of the child's training.

There is a right and a wrong way to do everything, even coasting, and children can be taught this when they are tiny. If parents would go coasting with the youngsters the first few times, it would be good for both parents and children. Coasting is fun and the best kind of exercise. But public highways, or roads which run into busy thoroughfares are not the places to choose for the sport.

It is the parents' business to teach such common sense rules. If there are no hills safe for coasters, then sleds should be forbidden, and, if necessary, confiscated. Only by personal experience can parents learn conditions and know what rules they must make.

The same is true of skating. A few simple common sense rules should be made and insisted on, and the children should be convinced of their reasonableness. Thawing weather is no time for skating. "Spring holes" should be so carefully marked

ed that no one can make a mistake about them. Every pond should be thoroughly tested every skating period by someone qualified to say whether the ice is safe.

Other members present include A. H. Graham, Hillsboro attorney; John C. Whitaker, Winston-Salem tobacco manufacturer; Claude E. Teague, assistant comptroller of Woman's College, Greensboro; and John C. Lackhart, superintendent of Wake county schools.

The high spots of the program arranged for the reunion includes a class banquet here June 7, followed by an alumni dance rally and parade to the alumni luncheon on June 8.

Eighty-four were graduated with the class in 1912, while 146 non-graduates also are identified with the class. Responses already received from members of the class indicate a large attendance.

WE TELL YOU THE FACTS ABOUT REFRIGERATION!

Here They Are

FACT 1
The new 1937 Kelvinator is Plus-Powered. It has as much as **double** the cooling capacity of many other well-known refrigerators of equal size.

FACT 2
The new Kelvinator runs only **half** as many minutes per day — during the rest of the time it maintains low temperatures using **no current at all!**

ONLY 90¢ A WEEK WILL BUY YOU A KELVINATOR

YOU first want to know the facts shown above—because they are the most important things about any refrigerator.

They mean money saved for you. They mean long years of trouble-free service.

They mean that no matter how hot the day or overheated the kitchen, Kelvinator keeps foods always SAFE.

Thousands who have owned electrical refrigerators for years are now replacing with the new Kelvinator—and find they are money ahead!

You'll be as proud to show your new Plus-Powered Kelvinator to your friends as we are to show it to you. Let us do that today! Learn about the new plan by which you can buy a Kelvinator for as little as 90¢ a week! Come in!

Only Kelvinator gives you all these advantages!

- BUILT-IN THERMOMETER...** Kelvinator's Plus Power assures safe refrigeration temperature—always... The built-in thermometer proves this.
- RUBBER GRIDS IN ALL ICE TRAYS...** Kelvinator's Plus Power gives you an abundance of ice cubes, and rubber grids make them easy to remove.
- CERTIFICATE OF LOW OPERATING COST...** Kelvinator's Plus Power assures less running time each day... only Kelvinator gives you a Certificate of Low Cost of Operation.
- 5-YEAR PROTECTION PLAN...** Kelvinator's Plus Power unit runs less time at slower speed—years of dependable service—certified with a 5-Year Protection Plan.

PARKING NUISANCE CONTINUES

Yesterday one truck spent about an hour and a half at one stretch on the "No Parking" side of Evans street supposedly making deliveries. This truck made stops for long periods at each end of one block right at the street intersection, making it practically impossible for one car coming around a corner at the intersection for the traffic lights to give the "Go" signal. Time and time again we have called attention to this nuisance of trucks being permitted to block traffic on our main business thoroughfare at will. The city administration has made an exception to the "No Parking" rule to permit trucks to make deliveries on the business houses, but we believe if the authorities will make investigation they will find that many of the truck drivers are abusing the privilege by visiting the drug stores, barber shops or other places while their trucks stand parked unmolested in places that seriously interfere with traffic. Why can't our authorities do something to get rid of this nuisance in our business section?

Washington Daybook

By Preston Grover
 Washington, May 26.—Secretary Hull, who likes best to negotiate the peace of the world on a high idealistic plane, has been compelled by a crowd of midwestern farmers to talk treaty on a cow-cornal level.
 Hull went to Buenos Aires last winter to treat in his best Father rancisco manner for an extension of reciprocity among the American republics.
 Ultimately the treating got down to a give and take basis, with the American delegation trying to bring about a sort of Pan-American peace hegemony even in the face of the several republics definitely committed to cooperation with European nations in the league.
 Most committed in that direction is Argentina, by far the most active commercially of any Latin American nation. Before negotiations had gone far, Argentine delegates suggested they would be glad indeed to cooperate if the United States would drop the embargo against Argentine beef.
 Beef has been a touchy subject with Argentina for many years. American cattle growers insist that the presence of hoof and mouth disease in spots of Argentina make it highly dangerous to import beef here. But some concede frankly that is a smokescreen. The real reason, they say, is that the United States has enough beef in its own yards without permitting Argentina to cut in on the market.
 When the formal conference actually opened, President Roosevelt was able to express the hope that the United States would shake off its fear of hoof and mouth infection and allow importation of Argentine beef from those sections of that country which were free of the disease.
 But the Argentine sanitary treaty, under which such importations would be allowed, has dangled on the senate calendar for weeks.
 The President said recently he was prepared to submit to the senate the various peace machinery treaties negotiated at Buenos Aires but every senator knows they won't be worth a hoot unless Argentina gets her beef quota.

Desperately Hull and his hands have argued with the western senators, urging them to let up on the beef business. But they never have been wholly sold on this reciprocity business.

WEIGHED IN THE BALANCE

Governor Lays Down Law To Highway Commission

Reflector Bureau.
 Raleigh, May 26.—Governor Clyde R. Hoey threw a flock of brick bats into the plans of some of the members of the new State Highway and Public Works Commission and some of their political friends when he told the commission quite bluntly in its meeting here Tuesday that he expected it to continue to be a state highway commission, and had no intention of permitting it to delegate its powers to the ten individual commissioners, so that each commissioner would become the virtual highway and public works dictator in his own division, with full authority to hire and fire both highway and prison personnel in his division.

For until the meeting here Tuesday, there had been a well defined movement under way in some quarters to try to get the commission to delegate the authority formerly held by the chairman and the entire commission to the ten division commissioners.
 But Governor Hoey evidently got wind of what was going on behind the scenes and decided that the time to call a halt was right now before the scheme got any farther. Reports were already going the rounds that certain politicians or potential candidates for certain offices in the future were hoping the commission would decide to delegate its powers and authority to the division commissioners, which in turn would have enabled each commissioner to build up a beautiful political organization. Each of these division organizations could then have been used either to help the division commissioner or any of his friends, it was pointed out.

Governor Hoey pointed out, however, that he favored the return to the district system only to bring the commission closer to the people in the hearing of requests for new roads and in studying the needs of the various sections of the state, and not to break down the centralized plan of administering the highway system. He was emphatic in saying that he did not want the impression to get out among the people that the administration of the state highway system is a sectional or local function or that the centralized administration of the highway department was going to be broken up among ten districts.
 "Our road system is a state system and should be so regarded," Governor Hoey said, "but it must be administered with a fair and just regard for local needs. It is my thought that by dividing the state into ten administrative districts you can have a most effective utilization of all the local forces and factors essential to the most complete development of a well-knit state system of public highways. So while each commissioner is selected from a district, he is a commissioner for the state and it is not the purpose to set up ten autonomous districts, but rather one autonomy combining the ten districts and representing the whole state.

"The establishment of districts did not mean and should not be interpreted as doing away with central control, because I think it is essential to have a real head of the highway commission. The central

activities should be so directed that a harmonious program will obtain throughout the state.

"I think the chairman should be vested with large powers with reference to the central office and agencies, because there are problems arising constantly which require authoritative action so that it is necessary to have a real directing head."

With regard to making any changes in personnel, the Governor advised the commission to proceed cautiously, to make a thorough and careful study of the entire program and personnel first and then to make changes only when such changes will increase efficiency. He also advised that any changes in the personnel of the central office of the commission here be left largely to the judgment and discretion of the chairman. He urged the members of the commission to keep uppermost in their minds that their main job was to improve all the highways in the state, with special emphasis on the secondary roads.

Governor Hoey also urged the commission to make a special study of the prison problem, recommended the appointment of a special commission to do this and that steps be taken immediately for the construction of an adequate prison plant for the women prisoners.

Man About Manhattan
 By George Tucker

New York — "A forest of white carpet!"
 That's how somebody has described Fanchon's bedroom — she of the theatrical firm, Fanchon and Marco. (They're sister and brother, you know.) And while Fanchon is of the business world and is one of the few women producers in motion pictures, she is rather proud of that salute to her femininity.

Almost everybody knows about her professional success, but few have any inkling of her private life and of the off-the-record things she thinks and does.

For instance her clothes are usually restrained, but she does like colored automobiles and once she owned a lavender roadster.
 Occasionally — just occasionally — she enjoys chewing gum. Expensive jewelry leaves her cold, but she does have a weakness for heavy costume jewelry.
 This tall, slim woman with jet black hair and eyes is married to the proprietor of a chain of restaurants in Los Angeles. So appropriately, she has just been notified that a famous sandwich place in New York has named a new sandwich for her. It is a distinction to have a delicacy at this place named for you. Most of the real stars of the theatrical world have been hon-

GROUP FACING NO SMALL JOB

New Commission Is Named To Study Negro Education

Reflector Bureau.
 Raleigh, May 26.—The new commission just named by Governor Clyde R. Hoey—a commission whose authorization by the 1937 general assembly had been almost forgotten—to study the state's educational program and facilities for colored people in the state, has been handed a big assignment, in the opinion of most observers here.

The commission is composed of State Senator J. W. Noell, Roxboro newspaper man and chairman of the senate education committee in the 1937 senate; Senator J. H. McDaniel, Mt. Pleasant insurance man in Cabarrus county and former school man and Representatives Hugh G. Horton, Williamston; F. H. Brooks, Smithfield and George Usell, Salisbury. Rep. Horton was chairman of the house education committee in the 1937 session of the general assembly.

One of the biggest tasks before this commission, it is agreed, is the survey it must make of the facilities offered for the higher education of negroes in the state. For while North Carolina is regarded as having excellent elementary and high schools for negroes, much better than are found in most of the other southern states, it does not have any facilities for the teaching of law, medicine or pharmacy to negroes in the state. It does have a college of engineering and agriculture for negroes and for other college work, however. There has been an increasing demand, mostly from outside the state and chiefly from the Association for the Advancement of Colored People in New York, that the state either provide a medical, law and pharmaceutical school for negroes or either admit negroes to its present schools in these subjects in the University of North Carolina in Chapel Hill.

It will be up to this new commission to make recommendations to the next general assembly as to whether the state shall or shall not attempt to provide more facilities for the higher education of negroes than it now provides, also to make any suggestions for any changes in the present system of elementary schools for negroes.

Prof. R. C. Buley of Indiana University's history department each spring gives a 5-cent reward to the student who sees the first rosin.

under the Fanchon insignia meant the intricate "epics" which demand all the combined forces of 14 governments and Hollywood to produce. They're honest, believable love stories with just the right emphasis on romance.

Plan Speed In Handling Social Security Claims

Raleigh, May 26.—One claim approved every eight minutes of the working day—this is the rate at which the Social Security Board's Claims Service will be equipped to handle claims for Federal old-age benefits, Stacey W. Wade, Field Representative in charge of the Board's office at Raleigh, was advised today by LeRoy Hodges, Director of the Bureau of Federal Old-Age Benefits.

It is estimated that 320,000 persons or their estates will be eligible for payments in 1937, Mr. Wade pointed out. Of the prospective claimants, about 126,000 will involve lump-sum payments to workers 65 years old, and 195,000 will be death payments to estates of workers who die before reaching this age or who reach age 65 before qualifying for annuity payments.

The Bureau's claims experience to date reveals that approximately 70 per cent of wage earners who die leave a widow or widower, and in 50 per cent of the cases wherein an application for death payments has been filed, no other assets have

been reported aside from the amount to be certified for payment by the Federal Government.
 "As payment of Federal old-age benefits claims spreads, possession of a social security account number by every eligible worker becomes more important," Mr. Hodges said. "Since the payments are made on the basis of wages received by the worker and recorded by the Board in his social security account, these wage reports will be made on information returns submitted by the employer and will include the worker's account number."
 "The worker who has a social security account number will therefore insure the proper recording of all eligible wages for the payment of his old-age benefits."

All eligible workers who have not yet done so should apply for an account number immediately, Mr. Wade urged, pointing out that account numbers will be assigned from any of the post offices in our State which are cooperating with the Board until June 30.

American-made equipment is to be installed in the first modern garage to be operated in Greece.

May Term, 1937, the undersigned will offer for sale public auction before the Court House door in the Town of Greenville, for cash, at 12:00 o'clock, Noon, on

Monday, June 14, 1937 the following described real estate located in Beaver Dam Township, Pitt County, North Carolina, more definitely described as follows:

ORDINANCE AUTHORIZING REFUNDING BONDS

Be it ordained by the Board of Aldermen of the Town of Greenville: Section 1. That the Town of Greenville issue its bonds pursuant to the Municipal Finance Act, as amended, in an amount not exceeding \$55,000 for the purpose of refunding a like amount of the principal of valid substituted bonded indebtedness of the Town of Greenville, which indebtedness was authorized by a vote of a majority of the qualified voters of said Town and is evidenced by 5% Improvement Bonds, dated July 1, 1907 and maturing July 1, 1937.
 Section 2. That a tax sufficient to pay the principal and interest of said refunding bonds shall be annually levied and collected.
 Section 3. That a statement of the debt of the Town has been filed with the Clerk and is open to public inspection.
 Section 4. That the holders of said refunding bonds shall be subrogated to all the rights and powers of the holders of the indebtedness refunded thereby.
 Section 5. That this ordinance shall take effect upon its passage and shall not be submitted to the voters.
 Approved: M. K. BLOUNT, Mayor.

The foregoing ordinance was passed on the 12th day of May, 1937, and was first published on the 23th day of May, 1937.
 Any action or proceeding questioning the validity of said ordinance must be commenced within thirty days after its first publication.
 J. O. DUVAL, Town Clerk.

Kinston	5	2.727

Greenville took its fourth consecutive victory at the expense of the Goldsboro Gold Bugs at the Third Street stadium here Tuesday afternoon by a 7-4 score.

The visitors scored their first tally in the third stanza when Coombs singled to right scoring Powell who had singled earlier in the inning.

Greenville came back in the 4th frame for three tallies when Durwood Stowe was given a free pass and Latham hit for the circuit over left field fence; also when Andy Johnson tallied on a hit to left field by Muto.

In the fifth Goldsboro created a 3-3 deadlock when Coombs tripled and scored Brennan who had been hit by the pitcher and Pitzer who had previously singled to left field.

The locals broke this deadlock in the sixth, however, when Farley hit a round-tripper to right to score Muto and Williams who had singled.

Final run for visitors came about in the last frame when Powell singled to left and was killed when Coombs came to the rescue to bring him home for another score.

Greenville did their final scoring in the seventh when Wilson singled to left and scored Johnson who had also singled.

Hopkins, southpaw and newcomer, was started on the mound for the locals yesterday, but was sent to the showers in the fifth with one man away. Karl Williams relieved Hopkins, pitching the rest of the route and allowing no-hits until the ninth.

Whiteclark made his debut for Goldsboro yesterday and was reached for a total of four runs.

Latham with a round-tripper and single and Farley with a homer, and Johnson with three singles were big factors in Greenville's victory.

Coombs with a triple and two singles led for the visitors. All of the tallies scored by the visitors were batted in by Coombs.

The box score:

Ab.	R.	H.	O.	A.	E.
Goldsboro	5	2	2	0	0
Powell, 2b	1	0	0	0	0
Brennan, 1b	1	0	0	0	0
Pitzer, cf	1	0	0	0	0
Coombs, rf	5	0	3	2	0
Jarvis, 3b	0	0	1	3	0
Hill, lf	4	0	1	2	1
Balla, ss	4	0	0	3	2
Overton, c	4	0	0	4	1
Whiteclark, p	3	0	0	0	1
Zellott	1	0	0	0	0
Totals	38	4	9	24	8

Batted for Whiteclark in ninth:
 Greenville: Ab. R. H. O. A. E.
 Farley, 3b 5 0 1 1 1 1
 Thole, ss 5 0 0 2 2 3
 Stowe, cf 3 1 1 4 0 1

Snow Hill Defeated By Ayden Aces, 5-3

Snow Hill—Ayden's Aces handed Snow Hill a 5-3 defeat Tuesday and dropped the Billies into seventh place in Coastal Plain standings.

Gurth pitched the route for the Aces and held the locals to one run—a homer by Joe Bistrot in the fourth—until a ninth inning rally threatened the Ayden advantage gained by scoring in a trio of innings.

With the Aces ahead by 4-1 when the ninth rolled around, the margin was boosted a run when Girard Corrado homered with two away in the Ayden half of the final inning. With one out in the home half, Culler singled, Longest walked and Mewborn doubled for one run. Longest counted on Alexander's infield out, and Wall fled out to end the verse.

Offers Broadcast of Braddock Fight

Pitt. Mich., May 26.—The outstanding prize ring event of the year, it was disclosed here today by Thos. H. Corpe, director of advertising, who said that contracts have been signed for the broadcast of the Louis-Braddock fight in Chicago, June 22.

A total of 125 stations will carry the complete account of the battle, described at the riverside by two expert announcers, with radio time reserved for full coverage of the fight for one or fifteen rounds.

According to plans now under consideration, the Foster Buick Co. Inc. and the Smith Electric Company, both of Greenville, will install loudspeakers and have open house to the public at their respective places of business on the night of the fight. This will enable several hundred people to hear the fight.

"No one could otherwise miss this great battle."

This is the third major fight broadcast sponsored by Buick, this manufacturer having broadcast the Ben-Johns and the Spangolone-Louis fights in 1935 and 1936 respectively.

New Bern Victorious Over League Leaders

New Bern—Williamston's Martins, stop the Coastal Plain standings since start of league play, today find themselves in a virtual tie with New Bern's Bears as a result of the locals' 3-2 win over the leaders here Tuesday.

The day's verdict put the clubs even on a "games" basis but Williamston clung to first place in percentages—667 to New Bern 547.

The Bears have two more starts showing in the records than do the Martins, and in those two starts the Bears fared only at a 500 clip.

Bull Hammons pitched for Doc Smith's Bruins. He gained the verdict over Jefferson in a duel in which both hurlers were stingy with safeties. The Mart's lead in hits, five to four, but New Bern's collection included a two-run homer by Ed Black.

Tarboro Starts Week With a 4 to 3 Victory

Tarboro—Berrard Mooney chalked up another victory for the Tarboro Serpents Tuesday by keeping Kinston's safeties scattered as his mates edged a 4-3 victory.

The locals collected a dozen hits off Coman's pitching.

Roye started things by hitting a homer over a cent-field sign 350 feet from the plate. Mooney's and savage slugger; and Myers sacrificed. Rin-ner then singled to drive in two runs and make the score 4 to 2.

The Eagles rallied in the ninth, but the threat was halted at one run. Scott's single and Coman's triple produced that tally, and Coman was left stranded when Schultz fled out to end the game.

2 Reasons Why Club Should Win

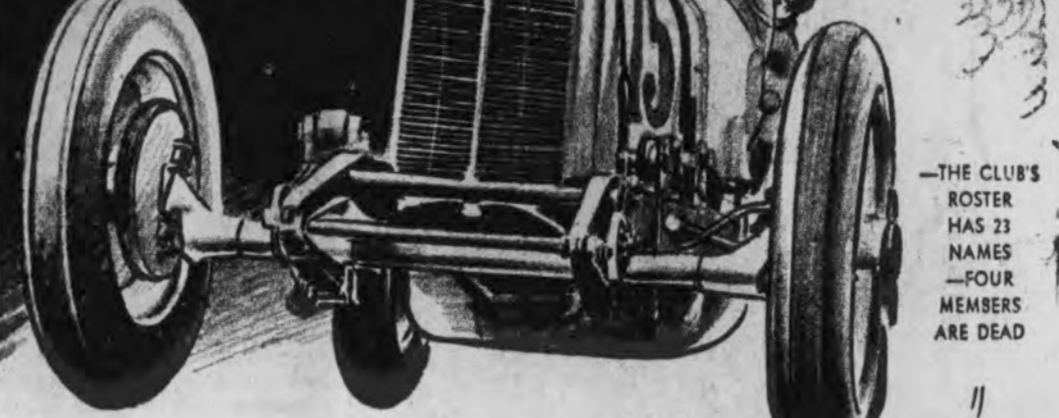

When the Greenies return here to meet Kinston tomorrow afternoon they will have two reasons for trying to add another victory.

An unusually large number of women are expected to be cheering the players on to victory as the day has been set aside as "Ladies' Day" and members of the fairer sex will be admitted to the game free.

R. E. Corbett, Jr. manager of the State Theatre, announced today the members of the team would be guests at his show on Thursday night.

Spot & Slants

The most exclusive club in the world! It's the 100-mile-an-hour club.

Ancestry, wealth, position mean nothing. The only requirement for membership is to have driven the full 500 miles of an Indianapolis speedway race at 100 miles an hour.

"Tough? Figure it out for yourself. They've been holding 500-mile races at Indianapolis for 25 years. With the four new members who qualified in the '33 race, there are 20 in the club."

The club was organized two years ago, but everyone who had fulfilled the requirement up to that time was eligible. Although the first 500-mile race was run at Indianapolis in 1911 it was not until 1925 that an man ever drove the race at 100 miles an hour. Peter De Paolo was the first.

Billy Arnold—in 1939—was second. In 1931 the speed again dropped below the 100 mark. Since then, however, there have been at least two new members each year.

One of the membership awards this year was posthumous. Roy P. Kelly of Fullerton, Calif., finished sixth in 1936 at 101.233 m. p. h.—his first appearance on the Indianapolis track. A few weeks later Pivley rode to his death at Roby, Ind.

The other three new members are Ted Horn of Los Angeles, second place last year; George Barringer of Wichita Falls, Tex., eighth; and Zeke Meyers of Germantown, Pa., oldest of present day drivers, ninth.

Three members beside Pivley died on the roaring road. They were Bob Carey, H. W. (Stubby) Stubblefield, and Doc MacKenzie.

Members in good standing are Kelly Pettito, Bill Cummings, Mauri Rose, Lou Meyer, Fred Frame, Howdy Wilcox, Floyd Roberts, Cliff Berger, Wilbur Shaw, Lou Moore, Cret Gardner, Russell Snowberger, Chief Miller, Dave Evans, De Paolo and Arnold.

Duke Man Joins Party to Explore Greenland

Durham, May 26.—One of eight scientists in the Louise A. Boyd expedition under the auspices of the American Geographical Society, Dr. H. J. Oosting, Duke University biologist, is to spend two months of this summer on the mid-eastern shore of Greenland.

The expedition plans to make a detailed study of the glacial-marine features of the Greenland coast. Dr. Oosting will be the expedition ecologist, and among the other experts will be two geologists, a topographer and a hydrographer.

Before crossing turbulent Arctic seas and ice packs to reach their destination in Greenland, members of the party will visit many of the important Scandinavian universities to study data on the Arctic region.

Miss Boyd, leader and financier of the expedition, is one of the world's most famous women explorers and photographers. One of her four previous expeditions was interrupted by a hurried search for the disappeared explorer Amundson.

Once established in Greenland the party will work at the bases of advancing and receding glaciers, studying various aspects of the effect the huge mountains of ice have on the earth and life about them.

50-Year Graduates to Be Initiated Into Club

Chapel Hill, May 26.—Golden anniversary certificates will be presented to University of North Carolina alumni returning for their 50th year commencement, according to plans announced today by George Stephens, president of the University Alumni Association.

Invitations have been extended to 182 alumni who attended the University in classes 50 years or more ago to return at the approaching commencement to receive the special awards. Only those attending the commencement will be given the special certificate awards, which are to be presented at the annual commencement on June 8. The awards will be made this year to the alumni of all classes out more than 50 years.

The O. S. Students' Club organized last June, will initiate members of the 50-year class of 1887 into its membership at a banquet Monday evening June 7. The O. S. Students' Club is composed of graduates and former students who have passed their 50th year commencement.

Judge Francis D. Winston of Winston, is president of the club; Dr. S. D. Turrentine of Greensboro is vice-president; and Dr. N. H. D. Wilson of Chapel Hill, is secretary.

The oldest graduate of the University is John Duncan of Columbus, Texas, a member of the class of 1859.

Constitution In 150th Year Looks Good For 500 More To The Experts

By ALEXANDER GEORGE
(AP Feature Service Writer)

Washington — Whatever the outcome of congressional and court wrangling over the constitution, the document itself—now in its 150th year—is expected to last for at least 500 more years.

The writing has faded some but still is legible and the original four pieces of parchment—28 3/4 by 22 1/2 inches each—are in excellent preservation, according to manuscript experts at the Library of Congress.

The fading was arrested in 1921 when the document was transferred from the state department to a marble shrine in the library, which feeds the actinic rays of the sun by an amber screen between plates of glass.

It was May 25, 150 years ago, when the "founding fathers"—most of them mere youngsters—got down to the difficult business of framing the constitution.

Delegates in their 30s outnumbered any other age group at the historic convention in Philadelphia and the average about was about 42, as compared with the 57 average of the United States Senate today.

Nearly Wrecked In July
Founding Father James Madison was 36 and his Virginia colleague, Governor Edmund Randolph, 33. Pennsylvania's one-legged, brilliant Gouverneur Morris was 35, Massachusetts' able Rufus King, 32, South Carolina's Charles Pinckney, 29, and New York's great Alexander Hamilton only 30.

George Washington, convention president, was 55, while oldest of the 55 "clear-headed, firm-purposed but willing to compromise delegates" was the 81-year-old master conciliator, Dr. Benjamin Franklin.

Battles between the large and small states, combined with wilying heat and the onslaught of lively stable flies threatened to wreck the convention in July.

Compromise On Congress
The major conflict was over proportional representation in the national legislature.

The large states' plan, originally offered by the Virginia delegation, called for representation in both

150 YEARS AGO IN PHILADELPHIA . . .

Hard at work on composition of the constitution are (l. to r.) James Wilson of Pennsylvania, Alexander Hamilton of New York, (bending

over desk), James Madison of Virginia, George Washington of Virginia, and Robert Morris of Pennsylvania. Benjamin Franklin, of Pennsylvania, is seated at right and Daniel Carroll of Maryland, is at lower center.

houses on a population basis.

The small states' plan, presented by New Jersey, was to continue the confederation idea of a single house and an equal vote.

The Connecticut compromise finally adopted provided for lower house representation of the states on a population basis and an upper house elected by an equal vote.

Many proposals of the delegates would seem almost fantastic to modern politicians. Randolph, who introduced the Virginia plan, wanted an executive authority composed of three men because he feared a single executive would make the government too much like a monarchy.

Hamilton, advocate of a strong central government, suggested the President be given an absolute veto on acts of Congress.

Some wanted the President to be elected by Congress and Gouverneur Morris urged that he serve for life. He also proposed life terms for senators, to be appointed by the President, and objected to distribution of representatives on a population basis only.

"Not liberty," said Morris, "but property is the main object of society."

Franklin Champions Poor
Charles Pinckney, another "prop-

erty man," would have required a property qualification of \$100,000 for the Presidency, \$50,000 for a judgeship, and like proportions for Congressmen.

Replied Dr. Franklin: "I dislike everything which tends to debase the spirit of the common people. If this constitution should betray a great partiality to the rich it will not only hurt us in the esteem of the most liberal and enlightened men in Europe, but will discourage the common people from removing to this country."

He urged that the President serve without salary with only his necessary expenses paid.

PREPARE OPEN CAMP SHORTLY

Arrangements Being Completed for Summer C. M. T. C.

Fort Bragg, May 26.—All arrangements are being completed for the C. M. T. Camp to be held at Fort Bragg, August 3rd to September 1, 1937. The tent frames and buildings have been repaired and painted; and the grounds improved; and roads are now being hard-surfaced through the camp area; and the bathing pool completely overhauled.

Ninety Reserve Officers from the 4th Corps Area are to be ordered for duty at Fort Bragg to assist with the training of the C. M. T. C. boys; and they themselves to receive training under the Regular Army Personnel, who are now being picked from the Post Officers for this most important duty.

The Camp of 755 trainees will be organized into a regiment of light Field Artillery, consisting of two battalions of three batteries each; thus giving the boys a chance to act as drivers and cannoners on the famous French 75 mile meter gun, made famous during the World War.

Upon arrival at camp the boys will be physically examined, clothed, and assigned to batteries, and within the batteries, issued their cots and bedding, and assigned to tents, and placed in squads. Boys who have been to camp before will be made non-commissioned officers and Junior officers in a grade depending upon their service at prior camps. A full quota of competent cooks and mess Sergeants will be on hand to prepare wholesome and palatable food, the quantity of which will be more than the average boy can eat.

The Medical officer will be on hand to take care of any ills that might show up, and a Chaplain and Hostess will be there to take care of all spiritual affairs or "Homesick" ailments.

The camp quota is being met steadily, and the Procurement Officer advises that there is still some room for boys who are late in applying for enrollment and will be glad to answer any questions addressed to him at Fort Bragg for an application, or any information that you may desire.

Institute Speaker

Wilfrid L. Husband, noted traveler, lecturer, and color photographer, just returned from a three months' stay in Sweden and Denmark, will be one of the principal lecturers in the fifth session of the Duke University Institute of International Relations, June 14-25. His lectures and pictures will interpret the social and economic aspects of the Scandinavian countries.

Duke Students Rated High in Med Exams

Durham, May 26.—Two Duke university students, Harry L. Dein, of Atlantic City, N. J., and Charles P. Stevick, of Southern Pines, are reported by the national board of medical examiners as having attained highest grades in surgery and pediatrics among 131 candidates taking the board examination in February.

Dr. Dein, now a Duke interne, had a grade of 98 per cent in surgery; and Dr. Stevick's grade in pediatrics was 95 per cent, tying with three others. One of these tying with Dr. Stevick is Dr. Nancy B. Wise, of Yale university, who spent her junior quarter at Duke as a transfer student and who will return here in July as an interne. Dr. Stevick is an interne at Duke.

Results of the national examination are reported in the May issue of The Diplomat, a journal of the national board of medical examiners.

White For Evening

Paris (AP)—Lady Mond has ordered several evening dresses from Lelong, all in white. One model is of white and silver brocade with a full skirt. Saw-tooth edging borders the décolleté and small peplum. A white crepe dress and jacket ensemble is embroidered in mother-of-pearl. God and jewel-colored accents high-light the third gown, also in crepe. The latter has a tail-jacket studded with jewels and embroidered in gold.

Alaska's economic contribution to the United States has been \$2,500,000 a year in furs, minerals and fish since this country bought the territory for \$7,200,000.

A federal fish hatchery covering 108 acres will be built at Uva de, Tex. Vice - President Garner's home town. The hatchery will cost about \$100,000.

NOTICE TO CREDITORS

The undersigned having this day qualified as administratrix of the estate of W. H. Arnold, late of Pitt

County, this is to notify all persons holding claims against said estate to file same with Mrs. Bura L. Arnold, Route No. 3, Greenville, N. C., within twelve months from date hereof, or this notice will be pleaded in bar of any recovery thereon.

All persons indebted to said estate will please make immediate payment to said administratrix. This the 14th day of May, 1937. MRS. BURNA L. ARNOLD, Admrx. of Estate of W. H. Arnold. 5 14 11aw 6wks.

NOTICE OF FORECLOSURE SALE

Pursuant to the terms and conditions of that certain deed of trust executed September 18, 1924, by J. R. Williamson to the undersigned Trustee, and registered in the Pitt County Registry in Book E-15, Page 601, the undersigned will, at 12 o'clock noon, on

Tuesday, June 1, 1937 at the Courthouse door in Greenville, N. C., offer for sale at public auction, to the highest bidder for cash, the following described real estate in Pitt County, North Carolina, to-wit:

Lying and being between the Penny Hill and Tarboro-Greenville road, and adjoining the lands of Green Ferrell on the South and West, the lands of F. A. Balance on the North, and the lands of Lewis Peyton on the East, containing 16 3/4 acres, more or less, and being all of the said lands conveyed in deed from J. R. Barnes and wife to I. L. Williamson and wife, as recorded in Book U-12, Page 171, except that land and property as decreed by I. L. Williamson and wife, to Green Ferrell, as appear in Book U-12, Page 300, of the Pitt County Registry.

Being the identical tract of land conveyed to said I. L. Williamson and wife, Addie Williamson, by C. L. Parker and wife, Bertha Parker, by deed recorded in Book Q-114, Page 285, of the Pitt County Registry, and this day conveyed to the said J. R. Williamson by I. L. Williamson and wife, Addie Williamson.

This the 27th day of April, 1937. NAN G. CLARK, Trustee. 5 4 1aw 4wks

N. C. INDUSTRY MAKING GAINS

Big Increase in Value of Furniture Made in This State

Raleigh, May 26.—An increase of over \$8,000,000 was made by the North Carolina Furniture Industry in 1935, over the year 1933, according to U. S. Bureau of the Census figures. Released by the N. C. Department of Conservation and Development, the Census of Manufactures report shows that in 1933, the value of furniture, store, and office equipment made in this state amounted to \$26,925,000, while the 1935 production was \$21,738,931.

North Carolina was one of the pioneer states in the South in the manufacture of furniture. Today, production in this state nearly doubles that of any other Southern state, and ranks fourth in total production in the nation.

The first machine made furniture in North Carolina was produced between 1850 and 1870. Previous to this time, there were several small plants located in all sections of the state, turning out hand-made chairs, tables, etc. One of the most famous of these early establishments was the Murry-Town Chair Makers in the vicinity of Zebulon. Hand-fashioned splint-bottom chair making began in this section about the year 1750.

With enormous wood resources close at hand, the development of machine-made furniture was especially rapid in North Carolina. From 1914 to 1919, the furniture industry experienced its most rapid development, increasing its output from slightly over nine million to more than twenty-nine million dollars. In recent years, this state has led in the production of wooden bedroom and dining room furniture.

Until early in 1923, North Carolina-made furniture was sold principally on markets in New York, Chicago, and Grand Rapids, Michigan. However, in 1920, manufacturers in the city of High Point took the lead and established a market for furniture there. In a ten-story structure, built at a cost of over a million dollars, semi-annual furniture shows are held in January and July. These shows are attended by retailers from all over the country.

Jail Term Made Easy

Evansville, Ind. (AP)—Whenever James H. Yangley, 42, has time on his hands, he can drop around to the jail for a day or two. In city court he was convicted of drunk-driving and given a 30-day jail term—to be served in his "spare time."

Foreign Affairs For Little Girls

(By The Associated Press Feature Service)
Four little girls, aged 4 to 6½ years, gather at the back fence for their daily gossip fest, wearing dresses influenced by four foreign countries. The young lady with braids looks very Dutch in her Delft blue frock trimmed with white plating. It has pink, blue and yellow tulips embroidered on the front. Next is a Mexican señorita whose beige dress is trimmed with Aztec blue. Then a Persian miss in beige, decorated with a conventional flower design. And the fourth little gossip is odded up in Czechoslovakian style—white dress with red rick-rack braid.

How's Your Health?

Music In Medicine
The virtues of music as a therapeutic agent are rediscovered from time to time. This happens despite the fact that the most ancient physicians knew them well, and that in Greece music was regularly employed in the treatment of certain psychic disturbances.

ports were taken under the care of the priesthood. The treatment prescribed for them was based on the principle of "like cures like." Movement was applied to cure movement, and wild, restless music to soothe the internal troubles of the mind.

This form of treatment was given the name of katharsis. The type of music employed was termed a "mimesis," and was expressly distinguished by Aristotle from the music whose ends are moral, educational, relaxing or hedonistic.

Shakespeare, keen psychologist, wrote in "Two Gentlemen of Verona":
"Or Orpheus' lute was strung with poet's sinews,
Whose golden touch could often steel and stones;
Make tigers tame, and huge ivy-thans
Forsook unsounded deeps to dance on sands."

This Shakespeare voiced in this passage and in numerous others his appreciation of the power of music to affect the human frame, physically and emotionally.

But this knowledge of the therapeutic powers of music is not all with the ancients. In one modern institution it is a prominent feature—place—sanatorium. There, notably in the European spas, the orchestral concert ranks in importance with the waters proper, with massage, exercises and other therapeutic procedures.

There are few thoroughly controlled experiments that prove just to what degree music is good medicine. But then, perhaps this agent is as immeasurable, though as important and potent, as is the personality of the attending physician and nurse.

'Horrid Word' At Home
Philadelphia (AP)—H. W. Cebra of India has taken residence at the Philadelphia zoo. The "H. W." attendant explains, is for "Horrid Word," or the nickname given the pitting cobra. To protect visitors from the venom which the snake can eject in 15-foot streams, a heavy glass had been placed around the pit.

FORD V-8 POWER will do the job at lower costs than ever!

NO OTHER TRUCK IN AMERICA GIVES YOU ALL OF THESE MONEY-SAVING FEATURES

- TWO V-8 ENGINES — 85 H. P.** for heavy duty and high speed work; 60 H. P. for light duty and house to house deliveries.
- ENGINE AND PARTS EXCHANGE PLAN**—factory reconditioning of the cylinder assembly and many other parts cuts Ford maintenance to the bone.
- CENTRI-FORCE CLUTCH**—plate pressure increases with engine speed.
- FULL TORQUE-TUBE DRIVE**—Driving and braking forces transmitted by the torque-tube and radius rods. Springs are free shackled for load carrying only.
- RADIUS RODS**—hold axles in perfect alignment, permitting the use of dependable direct action steel brake rods.
- FULL-FLOATING REAR AXLE**—All weight is carried by the axle housing. Straddle mounted pinion gear.
- QUICK-ACTION SAFETY BRAKES**—Brake drums of cast alloy iron are practically score proof. Lining area 350 sq. in., plus 120.75 sq. in. for hand brake.

Weather clear; temp. 70.

New York Cotton

New York, May 26.—(AP)—Cotton futures opened steady, one to four points advance on trade and foreign buying with offers light. October advanced from 12.58 to 12.65 and shortly after the first half hour prices were at the best at net gains of four to seven points. October was 12.55 at midday when prices were one to three net lower. Futures closed steady, from two higher to two lower. Spot steady, middling 13.16.

N. Y. Stock Market

New York, May 26.—(AP)—Stock traders tread a cautious path today. Activity to early afternoon was so thin analysts were reluctant to interpret the fractional declines which predominated. While Wall Street kept a close eye on strike news, particularly in the steel industry, it apparently offered little in the way of cues on rare trends.

MURDER ON THE BLUFF

SYNOPSIS: Our wild, stormy weeks end at Farrington Bluff, home of Michael's aunt, opens with the mysterious shooting to death of attractive Judge Blinshop. A series of strange attacks is apparently explained when we find the body of Michael's mad father below the bluff. Then Aunt Martha is shot in the shoulder by an unseen hand, and the Skipper, Mike's tall, towed aunt, disappears. Sleeping powders nearly killed Aunt Martha. William, the chauffeur, Mike and I leave Gay Palmer, Mike's fiancée, with Aunt Martha while we hunt futilely for the Skipper.

Chapter 35 Doped To The Gills

THE Skipper had run from Jude's room straight to the exact spot of her brother's fall, just as if she had known what she was looking for and where to find it. She had particularly requested that her doubtful story about the old man not be repeated to Higgins who could in any way substantiate or refute it. Her alibi with respect to the shooting of M. Farrington rested exclusively on Higgins, who would have died for her with pleasure Higgins had been in a bad state of nerves since our arrival. I could not forget that he, intentionally or otherwise, had almost succeeded in causing my fingerprints to be planted on a weapon that he certainly believed to be the only one used on M. Farrington. It all boiled down to the fact that the Skipper was the center of the horror that engulfed us. She could use a gun quickly and well—we had seen her do so in the case of the cat. Her story could be substantiated only by Martha Farrington, and Martha Farrington's life had twice been threatened since we had heard it. The Skipper had been left alone with her sister, who, but for our chance arrival, would be dead. And the Skipper was missing. My mind began to consider the unsuspecting rescue party that would probably put in an appearance by morning. I wondered what they would say—what we should say to them. I speculated upon who would be in that boat. I pictured to myself old Andie Darrel, with salt water running down his wrinkled face and his enormous mouth gaping at us. Andie would be in that boat. And after Andie—I could not seem to decide on anyone else. Well, we should say that two people had been killed, a third both wounded and poisoned, and a fourth disappeared. Andie would gape at us, and then—blankness. I went over the same ground a dozen times before William came in. "Mr. Michael says to come down to dinner, sir. I'm to stay with Miss Farrington." William was to stay—Well, suppose he had looked that cellar door? He had saved the old lady's life first, and he would hardly have gone through all that if he were planning another attempt. After all, it was Michael's aunt and Michael's decision. I went down to dinner.

An Appalling Meal

I HAVE eaten some bad meals in my life, but I have never been confronted by anything equal to that one. Hash-browned potatoes, cold and reeking of grease, underdone pork chops, limp and slimy burnt peas fresh from a tin can. Mike threw down his fork in disgust. "Higgins," he exploded, "what the devil is the meaning of this?" Higgins had been quite well aware of what he was giving us. He had served the appalling meal as quietly and carefully as he might have served a banquet for the Duke of York, and yet I had the impression that he had been enjoying an excellent joke. His face never moved a muscle. "The meaning of what, sir?" "Michael nearly strangled. 'Don't mimic me! What do you mean by serving this disgusting mess? Has Cook lost her mind?'" "No, sir. Cook is a bit upset, sir. I'm very sorry." "Sorry?" Michael's face turned purple. "Do you mean to—?" "But Gay interposed quickly. "Shut up, Mike. Is there anything in the ice box, Higgins?" "There might be, miss. I will look." Gay pushed back her chair. "Never mind," she said. "We'll look ourselves." Unexpectedly Higgins planted his back against the door. His help was expressionless, but it stopped all three of us. "If you'll excuse me, miss, I would advise your going into the

TRYING TO FIND THE DINING CAR? FOLLOW THE DOG

Hutchinson, Kas. (AP)—Queen, a sleek collie, keeps that well-fed look by meeting trains—those with dining cars. Whenever a dining car stops here and steward peeps out he is certain to see the dog, tail wagging, just outside. The reason: stewards feed the dog scraps from the table. Oklahoma A. and M. College has started experiments with 45 new strains of soybeans in an effort to use a substitute for cottonseed oil manufacture in Oklahoma. Baby chicks hatched before June will have plenty of time to become producers and catch the good egg market between October and February.

State Director Explains Social Security Program

Raleigh, May 26.—Realizing that the job he has undertaken as Director of the Division of Public Assistance of the North Carolina Board of Charities and Public Welfare is no sinecure, and that his task may be somewhat difficult, Nathan H. Yelton has issued a statement in which he attempts to give the people of North Carolina a resume of what he considers the duties and prerogatives of those selected to administer the provisions of the states new Social Security program.

Second Century Statue Dug Up In Alexandria

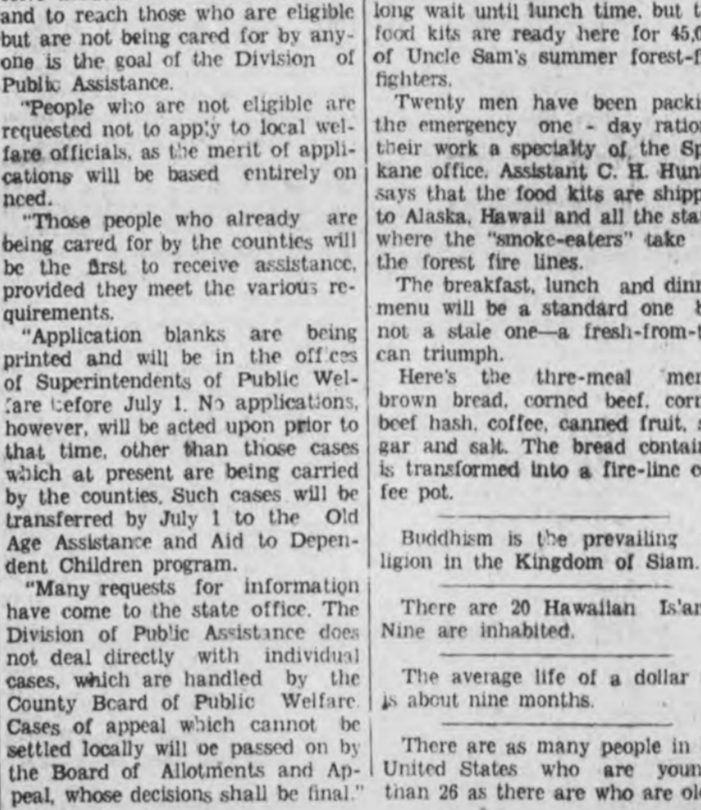

Alexandria, Egypt (AP)—A perfectly preserved white marble statue of the Goddess Isis, believed to extend back to Emperor Hadrian's reign during the second century of the Christian era, was unearthed here recently by the Graeco-Roman museum. Isis was found with three other statues in a monument that had been buried in sand pits. Excavations were started after the accidental discovery of a marble column. The enclosure formed by the limestone walls of the monument was paved in mosaic and three marble columns still standing appeared to have decorated the entrance to what presumably was the cellar of a sanctuary. "Children who are being cared for in comfortable homes with some relative who has sufficient income do not become obligations of the state, county and federal governments, but will continue to be cared for by the relative. The aim of the entire program is based on need. By need, we mean those who are not being cared for by anyone and who are without subsistence. The program is not intended as a place to unload the responsibility of sons and daughters who are caring already for their parents in a very comfortable manner, or children who also are receiving the advantages of a good home. The responsibility of the state, local and federal governments is to see that those who are eligible receive assistance. Funds are limited, and to reach those who are eligible but are not being cared for by anyone is the goal of the Division of Public Assistance. "People who are not eligible are requested not to apply to local welfare officials, as the merit of applications will be based entirely on need. "Those people who already are being cared for by the counties will be the first to receive assistance, provided they meet the various requirements. Application blanks are being printed and will be in the offices of Superintendents of Public Welfare before July 1. No applications, however, will be acted upon prior to that time, other than those cases which at present are being carried by the counties. Such cases will be transferred by July 1 to the Old Age Assistance and Aid to Dependent Children program. "Many requests for information have come to the state office. The Division of Public Assistance does not deal directly with individual cases, which are handled by the County Board of Public Welfare. Cases of appeal which cannot be settled locally will be passed on to the Board of Allotments and Appeal, whose decisions shall be final."

Goddess Isis comes out of the sand

Alexandria, Egypt (AP)—A perfectly preserved white marble statue of the Goddess Isis, believed to extend back to Emperor Hadrian's reign during the second century of the Christian era, was unearthed here recently by the Graeco-Roman museum. Isis was found with three other statues in a monument that had been buried in sand pits. Excavations were started after the accidental discovery of a marble column. The enclosure formed by the limestone walls of the monument was paved in mosaic and three marble columns still standing appeared to have decorated the entrance to what presumably was the cellar of a sanctuary. Such cases will be transferred by July 1 to the Old Age Assistance and Aid to Dependent Children program. "Many requests for information have come to the state office. The Division of Public Assistance does not deal directly with individual cases, which are handled by the County Board of Public Welfare. Cases of appeal which cannot be settled locally will be passed on to the Board of Allotments and Appeal, whose decisions shall be final."

... so after I RELAX I stick to pleasingly MILD whisky

Sure it's tough running a linotype machine... there are no soft spots nowadays. That's why it's wise to heed this good advice: "when day is over... RELAX" Maybe during your leisure hours you'd enjoy a drink. Play smart again, pick MILD whisky—Cobbs Creek. It's all smoothness. No rough edges. Mildness in Cobbs Creek, as in your cigarette, lets the taste come through. Continental Distilling Corp., Phila., Pa.

Cobbs Creek 90 Proof BLENDED WHISKY. LIKE YOUR CIGARETTE... it's Mild. YOU WILL SURE BE SURPRISED! Watch Thursday's Paper. CHARLES STORES CO. Distilled grain neutral spirits 75%.

NATIONS READY TO TURN FLAGUE AGAINST LOCUSTS

Bombay, India (AP)—Within ten years, it is prophesied here, the locust, said to be the oldest enemy of mankind in the insect world, will be subdued. Several countries in Europe, Asia and Africa are preparing a joint campaign to exterminate the insect. An Indian government survey shows that the permanent breeding grounds of the locusts extends far over the sandy soil along the Arabian Sea, the interior of Makran, and the Great Indian desert, although the locust population at any particular place is subject to great fluctuation. A system of marking locusts and then liberating them has been tried to determine their movements. Extensive research also has been conducted into breeding and habits of the locusts. Effects of weather and food on breeding have been charted, and it will be possible soon, it is believed, to warn provinces or countries beforehand as to when a locust invasion is likely. It is almost impossible to sell an automobile painted green in India because green is regarded there as an unlucky color.

THINK BEFORE YOU DRINK. Seagram's 5 Crown A Milder Whiskey. BLENDED FOR FINER TASTE. SEAGRAM'S FIVE CROWN BLENDED WHISKY. FIRE OVER ENGLAND. FIRE FIGHTERS' FOOD READY IN CANS. Spokane, Wash. (AP)—It's a long wait until lunch time, but the food kits are ready here for 45,000 of Uncle Sam's summer forest-fire fighters. Twenty men have been packing the emergency one-day rations, their work a specialty of the Spokane office. Assistant C. H. Hunter says that the food kits are shipped to Alaska, Hawaii and all the states where the "smoke-eaters" take to the forest fire lines. The breakfast, lunch and dinner menu will be a standard one but not a state one—a fresh-from-the-can triumph. Here's the three-meal menu: brown bread, corned beef, corned beef hash, coffee, canned fruit, sugar and salt. The bread container is transformed into a fire-line coffee pot. Buddhism is the prevailing religion in the Kingdom of Siam. There are 20 Hawaiian Islands. Nine are inhabited. The average life of a dollar bill is about nine months. There are as many people in the United States who are younger than 26 as there are who are older.
