## JAPANESE TAKE OVER TIENTSIN

### Fear Increase In Oriental Tobacco

#### Seen as Threat to American Export of Flue-Cured

Washington, July 17.—(AP)—The agriculture department said a sharp increase in the acreage of flue-cured tobacco in the Orient, may reduce imports of American tobacco during the marketing season that begins in October.

The Shanghai office of the Bureau of Agricultural Economics estimated the 1937 tobacco acreage in China, Manchuria and Japan at 245,000 acres, compared with 211,000 harvested last season and the 1931-1935 average of 144,000 acres.

With average yields, the bureau said, the acreage this year could produce about 300,000,000 pounds of tobacco, compared with 243,000,000 pounds last season and the average of 180,000,000 pounds.

The increase was attributed to high prices for the 1936 crop in the Orient, better returns per acre than other crops and assistance from governmental and private agencies for tobacco producers.

The department said American exports of flue cured tobacco for the 1936-1937 season would amount to about 65,000,000 pounds.

### MANY DEATHS IN RAIL WRECK

#### Death Toll Increases In Disastrous India Accident

Patna, Indian, July 17.—(AP)—The death toll in India's most disastrous railway wreck grew today as rescuers pulled scores of bodies from tangled debris of the Junjap-Calcutta express.

The official government railway estimate was 90 dead and 65 hurt, while an unofficial estimate was about 300 dead and 250 injured.

The Exchange Telegraph (British news agency) gave the unofficial estimate. It previously had fixed the death toll at 281.

Bodies could still be seen in coaches.

The express was en route to Calcutta from Delhi when the engine derailed and toppled over an embankment, dragging with it seven of the nine coaches.

Natives were packed in the first seven coaches, 100 each in some of the coaches, dozing after a night's journey. Scores were killed instantly others were mangled or burned by resulting fire.

European passengers in the last two coaches were not hurt.

Railway officials suspected the train was wrecked deliberately but also worked on the theory a recent monsoon had weakened the road bed.

In Belfast, Kenelm Lee Guinness, onetime racing driver and inventor, in his will left \$500,000 to a wife who divorced him in 1936.

### SPANISH ARMY NEARS MADRID

#### Government Troops Knife Insurgent's Rear Guard

Madrid, July 17.—(AP)—The Spanish government's army, grown to full stature in 365 days of civil warfare, knifed fiercely today at the rear guard of Madrid's insurgent besiegers.

Determined to smash the far-flung positions which General Franco's legions have held during most of the war, General Jose Miaja threw his men forward in the Brunete and Ciempozuelos sectors.

Government sources said an insurgent radio station broadcast that from 15,000 to 25,000 Italian volunteers serving with Franco's troops were 100 miles northwest of Madrid ready to proceed to the central front.

It was believed the Italians eventually would see service near Madrid.

Dispatches from Santander, government-held city on the northern coast, reported increased government air activity. Two insurgent pursuit planes were shot down there yesterday in an air raid. (Continued on page seven)

### NAVY VESSELS TO END SEARCH

#### First Two Already Withdrawn From Hunt for Fliers

Honolulu, July 17.—(AP)—Tapering off the seemingly hopeless South Seas hunt for Amelia Earhart, the first two vessels in the search started homeward today. The aircraft carrier Lexington and three destroyers remained to comb the torrid areas where the aviatrix and her navigator vanished two weeks ago.

The coast guard cutter Itasca and the minesweeper Swan were ordered to return here from equatorial waters after completing a vain search of the Gilbert Islands, 600 miles west of Howland Island.

On July 2 Miss Earhart and Frederick Noonan disappeared on a 2,570 mile flight from Lea, New Guinea to Howland Island, the most precarious hop on a world girdling journey which Miss Earhart said was "just for fun."

There was no announcement here about how long the Lexington, with (Continued on page two)

### SHERIFF ASKS FOR OFFICERS

#### Wants Patrolmen On Scene When Negro Goes On Trial

Pittsboro, N. C., July 17.—(AP)—Sheriff George Andrews said he had requested the presence of "about half a dozen state highway patrolmen" here Monday when he will ask a Chatham county grand jury to indict William Perry, 18-year-old Negro for the murder of Mrs. W. T. Hamlett.

However, the sheriff said he was looking for no violence, "there is some feeling, but it is not at the point we expect any trouble."

Mrs. Hamlett died in a Durham hospital June 17 of pistol bullet wounds suffered the day before.

Perry, who was an employee at the Hamlett farm near here, was captured near Milton, Va., June 17. He has been held at Central Prison in Raleigh since then.

After the arrest the sheriff quoted Perry as having said "she hollered and I shot her (Mrs. Hamlett) but I wouldn't have done it if I hadn't been drunk."

### Local Natl. Guard To Leave Sunday

When the Battery A, 113th Field Artillery, local unit of the National Guard leaves for a two weeks' summer encampment at Fort Bragg tomorrow morning it will be in fine shape, officers said today.

The unit, composed of 64 men and four officers, will be commanded by First Lieut. Leon Brock, Captain J. H. Waldrop being unable to go this summer.

The unit will travel by motor, trucks mounted on pneumatic tires having been secured last year to move the heavy guns.

### SEES END FOR TRUCK STRIKE

#### Union Leaders And Operators Agree to Conference

Muskegon, Mich., July 17.—(AP)—Governor Frank Murphy, predicting a "speedy settlement," and negotiations for both sides sought an end to the statewide truck strike today amid conflicting reports of a truce already in effect.

Both union leaders and operators agreed to send representatives to a noon conference here, called by Governor Murphy, while a company spokesman disputed a union announcement of a 30-day truce.

The truce announcement was branded by J. L. Heath, chairman of the employees' negotiating committee at Lansing as "must be a face-saving gesture on the part of union organizers."

"The strike," he said, "is ended—broken through the demand of our employees to return to their jobs. If the union wants to take up the matter of negotiations again it will have to start all over."

Earlier R. J. Bennett, spokesman for the International Brotherhood of Teamsters, Chauffeurs, Stable Men and Helpers, which called an intra-state truck strike at midnight Wednesday, said operators had agreed to a truce.

### 'Logical' Successor?

Former Governor J. M. Futtrell of Arkansas has advanced Mrs. Joseph T. Robinson (above) as the "logical" successor to her husband, the veteran senator from that state, who was found dead in bed of heart trouble at his home in Washington. In some political circles, Gov. Carl E. Bailey also was mentioned to serve Robinson's unexpired term.

### RAIL CENTERS ARE CAPTURED

#### Crisis in North China May Lead to Formal War

Tientsin, China, July 17.—(AP)—The Japanese military command took over the last of Tientsin's three railway stations today, staked out two airports and began installation of an army communications system.

Barbed wire barricades were erected around Japanese mills and warehouses, designated for military stores and for troop occupation.

(By the Associated Press) The crisis in North China drew today toward the climax that may determine whether there will be formally declared war between Japan and China.

Troops of China's national government at Nanking, crack divisions of the fighting machine built by Premier-Generalissimo Chiang Kai-Shek, were reported reliably to have reached Hopeh province in North China.

Japanese troops from Manchoukuo and those regularly garrisoned in North China already were in the field. Others were en route from the Japanese mainland.

A meeting of the two armies, foreign observers believed might create a situation so disastrous that war would result.

### PITT RESIDENT KILLS HIMSELF

#### M. T. Speir of Winterville Shoots Self With Pistol

Montgomery Theodore Speir, 32, postmaster at Winterville from 1928 until three months ago, when he resigned, and since railway mail clerk, died at 6 o'clock last night from a self-inflicted bullet wound in the head.

Mr. Speir had just returned to his home in Winterville after completing his daily work on the mail train. He went directly to his home and to his room where he shot himself. He was alone in the house at the time, but his seven-year-old son, M. T. Speir, Jr., returned shortly afterwards and found his father dead.

Neither members of the family or friends were able to ascribe a cause for the act.

Mr. Speir was a member of the Winterville Baptist church. He was a deacon and also was superintendent of the Sunday School for several years. He was secretary of the Winterville School Board.

### PROBE MURDER OF PHYSICIAN

#### Two Comely Women Are Questioned By Police

Providence, R. I., July 17.—(AP)—Two comely women were the object of interest today in the mysterious death of Dr. George Webster, fashionable physician.

The physician was shot fatally in the doorway of his home early yesterday.

Questioned by police yesterday and released to appear when wanted, pretty Dorothea Gilligan, secretary for eight years of the slain 39-year-old homeopathic obstetrician, in an interview today said the killing was "horrible."

She refused to discuss the case further, saying police warned her not to.

Elizabeth Prince, 25, roommate of Miss Gilligan, also was questioned.

Neither woman has been charged with any crime and Deputy Superintendent James Cusick of the detective division would not indicate definitely the exact course of the investigation.

Miss Prince was questioned yesterday by police who kept her identity secret. Released, she was taken into custody again last night and held in the lockup. Cusick revealed her identity today.

### Mercury Again At 100 Degrees Here

Greenville resident sweltered under 100 degree temperature again today, but the record high of 103 set yesterday afternoon was not reached today.

The 103 degree, officially recorded yesterday by B. T. Clark, in charge of the local weather bureau, was the highest here for several years. In fact, only once since Mr. Clark has been keeping records was the figure reached. Greenville has experienced 100-degree temperatures for the past week.

# NEW BOOKLETS PRAISE STATE

Photographs of Ideal  
Vacation Scenes  
Also Contained

Reflector Bureau

Raleigh, July 17.—A new booklet profusely illustrated with as fine an assortment of photographs of North Carolina scenes as has ever been put together, entitled "North Carolina—Variety Vacationland" is just off the presses and being distributed by the Department of Conservation and Development.

The photographs were selected and the layout and text prepared by Assistant Director Paul Kelly and Cecil Bell, of the publicity division, and the booklet as a whole maintains the very high standards which the department has consistently maintained for years under the guidance of Publicityman Kelly and his staff.

The booklet was authorized by former Governor J. C. B. Ehringhaus months ago and should have been ready many weeks before this. It was delayed by the printing company which had the contract. The printing job, however, is very good. But it is agreed that the booklet should have come out many weeks ago in order to have been sent out in advance of the vacation season.

Beginning with some very fine photographs of the Carolina coast country, many of them by Bayard Wootten, North Carolina's best known photographer, who incidentally is a woman, the booklet shows a series of pictures taken along the banks showing scenes on Roanoke Island, Hatteras, Ocracoke Island, Kitty Hawk, Edenton, the Dismal Swamp, the beaches and other places of interest in the vicinity of Wilmington, Old Fort Macon, across the sound from Morehead City, with just enough photographs of beautiful and shapely girls in bathing suits to add allurements.

Then come the pictures of the upper coastal plain and Piedmont sections of the state, showing fox chases, steeple chases in the Sandhills, golfing scenes and field trials, with an intersprinkling of pictures of places of historical interest, including the state capitol illuminated at night. In the middle of the booklet is a seven color map of the state which at the same time is an outdoor tourist's guide to the state. The latter part of the booklet is devoted to western North Carolina, the mountains and trout fishing scenes that are very fine.

## Numerous Firemen Burned In Blasts

Atlantic City, N. J., July 17. — (AP)—Half a dozen rusty, steel tanks, warped and split asunder by a series of explosions yesterday at the Pure Oil company's storage plant, yawned on Virginia avenue today as 30 scorched and bruised firemen lay bandaged in hospital beds.

Seven policemen and an untold number of spectators wore bandages. Miss Nellie McGurran, head of the City Hospital, calculated more than 170 persons were treated for injuries. Fire Chief Joseph Leeds estimated the property damage at \$80,000 to \$100,000.

## Local Girl Named To Church Office

Miss Mary Council Horne, daughter of Mr. and Mrs. C. O'H. Horne of Greenville, was elected secretary of the Young People of the Alberman Presbyterian at the closing session yesterday of a five-day conference at Peace Junior college in Raleigh yesterday.

Miss Horne succeeds Miss Lewellyn Thornton of Greenville, who resigned to accept a place on the council of the Young People's League of the Synod of North Carolina.

A feature of the conference was the daily assemblage of delegates from 14 to 24 years of age to hear reports of committees and make general plans for the Presbytery organization.

## Local Youths Get Permits To Work

K. T. Putrell, Pitt county welfare officer, declared today that more than 100 certificates had been granted at his offices within the past two weeks to boys and girls under 18 years of age to work.

Mr. Putrell explained that certificates were required of all boys and girls under age to work in any public place. He said that boys and girls between the ages of 18 and 16 years are not allowed to work more than 48 hours a week and that boys between 14 and 16 years were confined to 40 hours a week, while no girl under 16 years of age was allowed to work in any public place.

## Negro Accused Of Slaying Own Son

Sheriff S. A. Whitehurst revealed today Will "Short" Joyner, Negro, was being held without bond on a charge of killing his son, James H.

Joyner, Thursday night. The boy was about 18 years old.

The sheriff said the two were drinking and added he believed this was chiefly responsible for the murder. Joyner and his son, who lived in Chocod township, went to the elder Joyner's wife's home. Joyner, senior, went in to see his wife and when he came out father and son began arguing about the automobile and the father shot his son, killing him almost instantly.

Joyner was arrested yesterday and is being held without bond.

## Washington Daybook

By Preston Grover

Washington.—Enough of the pow-  
er-grasping phraseology has been  
knocked out of the wage-hour bill  
to permit congress to accept it with-  
out feeling it had sold both labor  
and industry down the river.

The old bill was a stem-winder.  
It missed hardly any element of in-  
dustry or labor. The President in  
his message urging wage-hour leg-  
islation said he wanted to give a  
break to the lower one-third of the  
population. The labor standards  
board provided by the bill had pow-  
er under the old measure not only  
to help out the lower one-third, but  
to step into the affairs of some of  
the upper crust of labor, those get-  
ting up to 80 cents an hour.

But even more sweeping was the  
power the board could have exer-  
cised over industry. By its author-  
ity to fix a different wage level in  
one part of the country from that  
in another, it could have choked  
off enterprises it felt for one reason  
or another were "uneconomic" or  
unsuitable to some "national plan-  
ning" scheme. Those were the pos-  
sibilities of dictatorial skulduggery  
in the old bill.

Not only did industry kick, but  
the leaders of labor saw their own  
fields invaded, saw the danger of  
a federal board taking over the  
business of negotiating wage and  
hour terms virtually independent of  
labor organizations.

### Compromise

So much disturbance developed  
over the bill that the senate labor  
committee recognized that if any-  
thing were to be undertaken this  
year, modifications were necessary.  
Senator Thomas of Utah was cred-  
ited with suggesting the tone of the  
compromise that found its way into  
the new bill.

He pointed out that distrust of  
the legislation was based on the  
sweeping scope of its jurisdiction.  
This solution, then, was to reduce  
the jurisdiction. The new bill does  
that, and by that step mitigates, al-  
though without removing some of  
the abhorrent features of the old  
bill.

The in the first place the Presi-  
dent's suggestion for benefiting the  
lower one-third was heeded. Instead  
of reaching into the 80-cent brack-  
ets, the labor standards board now  
has jurisdiction only among groups  
earning less than 40 cents an hour  
and working more than 40 hours a  
week. Before, only executives, pro-  
fessionals and agricultural workers  
were exempt. The new measure  
exempts those and also seamen,  
fish-handlers, railroad employes  
subject to rail wage-hour legislation  
and employes in local retail enter-  
prises.

### Safeguard

The board still has power to make  
different wage levels in various  
parts of the country. But since it  
is limited to the domain below 40  
cents an hour it can't touch much

of anything in the way of big in-  
dustry except cotton textiles.

Moreover, previously it could es-  
tablish wage-hour levels which did  
not "unreasonably" curtail oppor-  
tunities for employment. Many a  
struggling plant could be closed  
down within the scope of "unrea-  
sonably." The new bill simply pro-  
vides that wage and hour levels  
may be pushed as nearly as econo-  
mically feasible to the 40 cent-40 hour  
bracket provided the action will  
not curtail opportunities for em-  
ployment.

## Man About Manhattan

By George Tucker

New York.—Billy the Oyster Man  
suggests that you quietly spurn soap  
if you wish to avoid "fishy" hands  
after preparing, say, a nice catch of  
trout for dinner. Billy the Oyster  
Man is, in a way a symbol that  
bridges the old rooco New York  
of another day and the hurly-burly  
of 1937.

In catering to celebrities of de-  
cades he has prepared pompono  
for Caruso, sturgeon for Lily Lang-  
try, mountain trout for John Barry-  
more, yellow perch for Miriam Hop-  
kins, sea-bass for Maurice Chevalier  
frog legs for Claudette Colbert,  
land-locked salmon for President  
Roosevelt, swordfish steaks for Wal-  
lace Beery, shark's fin soup for  
Cole Porter, lobster for General  
Pershing, fried catfish for Irvin S  
Cobb . . . the list stretches from  
here to there.

And what he says about safe-  
guarding the hands is this: Thor-  
oughly chill the hands in cold water  
before touching the raw fish. Later,  
cleanse in hot water and salt. This  
leaves them odorless and sweet, a  
measure of satisfaction that soap  
somehow fails to achieve.

Then there is this note, a nature  
item which ornithologists will ap-  
preciate . . . It isn't true that

swans, ducks and the larger species  
of wild fowl fly high in summer to  
avoid extreme heat. . . . Being prac-  
tical minded, they seek the upper  
altitudes in search of a tail wind  
to help them get home in a hurry.  
Croil Hunter, an executives of the  
North West airlines, reports seeing  
a brace of snow geese at 10,000 feet  
hugging his tail on the run in from  
Seattle. "You go faster with a tail  
wind," he explains "and those gan-  
ders were in a hurry. They prob-  
ably didn't want to have to explain  
to mama where they had been.  
They got so close the pilot had to  
step up his speed. I really believe  
they would have hopped on the tail  
for a ride if they had caught up  
with us."

The "wry" cocktail has made its  
appearance in New York bars and  
it gives you just that sort of grim-  
ace . . . Adele Astaire is planning  
a vacation from her Lismore cas-  
tle, among the yew trees, in Ireland  
. . . She wants to make another  
excursion into the theater.  
On warm days Lee Shubert, the  
producer, moves his office to the  
roof of the theater . . . Adolphe

Luque famous curve-ball pitcher  
who is now a coach with the Giants,  
wears brass buttons on his under-  
wear . . . honest . . . The absence  
of panhandlers in Manhattan is ex-  
plained . . . They've all moved out  
to Coney Island, where the sands  
are cooler than the park benches.  
A telegraph operator in this of-  
fice spends all his spare time read-  
ing obituaries . . . "They fascinate  
me," he explains.

## N. C. OPERATES OPEN PROGRAM LARGE SYSTEM FIRST OF WEEK

### State Maintains More Prison Education Movement to Begin On Monday

Reflector Bureau  
By J. C. BASKERVILL

Raleigh, July 17.—(AP)—North Carolina is doing the biggest highway maintenance job in the entire United States, since it has more miles of highway under state maintenance than any other state, not even excluding the state of Texas, the largest of all states, Highway Commissioner T. Boddie Ward of the Fourth Division, who lives in Wilson, pointed out while here conferring with Chairman Frank L. Dunslop of the State Highway and Public Works Commission.

He also pointed out that North Carolina is maintaining some 58,000 miles of state and county highways without the imposition of single penny of property taxes for road purposes. Yet in spite of these facts, the people of the state are asking and a most demanding more and more miles of paved highways and better and better roads, Ward said.

"One of the principal reasons why the people want more and more paved roads is that we already have such good roads and so many more miles of good roads than most other states, that our people have become spoiled and think that every highway should be surfaced," Commissioner Ward said. "They spend so much of their time riding or driving on surfaced highways that the contrast is very decided when they have to turn off on a road that is not surfaced, whereupon they reach the conclusion that all these other roads should be hard-surfaced, regardless of the traffic over them."

"A good many of them also have visited other states where many of the country roads are paved, as in North Carolina, Pennsylvania and a few of the other wealthy eastern states, but fail to realize that most of those highways were built from the proceeds of local road taxes on property, something we do not have here. If each county would levy a property tax for roads, as most other states do, and we could add the proceeds from these local property taxes to the revenue from the gasoline tax, we could build more paved roads too. But we can't do it on our present revenue."

The trouble with so many people who want additional roads built and paved, is that they have very little conception of the size of the state's road building and maintenance problem or the cost of roads when compared with the amount available for road purposes, ward said.

"In my division, for instance, composed only of seven counties—Wayne, Wilson, Johnston, Wake, Nash, Franklin and Vance—I have heard delegation after delegation asking for new roads or for the surfacing of present roads and almost every delegation has told me that there is more traffic over the particular road it is interested in than any other road in the county of us," Ward said. "Yet in this district alone the highway department is maintaining more miles of highways than are maintained by the entire state of South Carolina. For the South Carolina highway commission maintains the state roads only, leaving the counties to maintain the county roads, at county expense."

In spite of the big job which the North Carolina highway commission has on its hands of maintaining both the state and county highways on a limited amount of money, these roads for the most part are being maintained better than in most other states, Ward said. This means that the gasoline tax payers in North Carolina are getting more road work per dollar of taxes paid than in any other state. Ward also believes that the new highway set-up with the state divided into ten divisions with a division engineer and an assistant engineer in charge of operations, is going to mean still more efficient road maintenance in every section of the state.

### Prison Education Movement to Begin On Monday

Reflector Bureau  
By J. C. BASKERVILL

Raleigh, July 17.—The new educational program for prisoners in state prison division will be actively launched Monday and Tuesday, it was announced here today by Educational Director J. A. Capps, formerly county superintendent of schools in Catawba county, who took over his new duties July 1. For the past two weeks Mr. Capps has been visiting the various prison units and prison camps, talking with the camp superintendents, the wardens and the prisoners and conferring with other agencies which are going to assist him, such as the educational division of the WPA and the N. Y. A. State College officials and others.

The first active work to be done under the new program will be confined for the time being to only two prison units, the women's prison unit where the women convicted of felonies are kept, and the Camp Polk prison farm near Cary, both here in Wake county, Mr. Capps said. The teachers for both projects will be supplied by the educational division of the WPA, and by the National Youth Administration.

The new program for the women's prison will begin Monday and will be more of a recreational nature during the summer months than educational, since it has been decided to postpone most of the purely educational phases of the program until fall, Mr. Capps said. Various recreational and handicraft groups will be organized among the women prisoners and instruction will be given in organized recreation of various sorts after working hours. Classes will also be organized in handicrafts, such as sewing, knitting, crocheting, basket weaving, clay modeling and so forth.

"After conferring with the prison officials and camp superintendents, it was decided to limit the program for the rest of the summer months to activities that will be more or less recreational in nature, since the prisoners, men as well as women, are pretty well tired out when they have finished their required work

these days," Mr. Capps said. "This was the reason we decided not to undertake any educational work at all in the various road camps over the state until fall, since it was agreed that the men would be too tired to get any benefit from classes if they should be held during the hot summer months."

This fall classes will be formed for the women prisoners in reading, writing, arithmetic, also in other subjects, while plans are being developed for vocational work in sewing, cooking, and possibly in beauty culture. Both Mr. Capps and Prison Director Oscar Pitts feel that it will be decidedly beneficial to teach the women prisoners how to improve their looks and their general appearance and that it will enable some of them to make a living when they are released from prison.

Tuesday night a general conference meeting will be held at the Camp Polk prison farm with the 250 or more youthful white prisoners there ranging from 16 to 22 years of age, at which time the program will be explained to the prisoners, Mr. Capps said. The various teachers will also be there and the prisoners will be given an opportunity to enroll in the classes they are most interested in. Three classes in elementary subjects, one in reading one in writing and one in arithmetic, will be organized for prisoners who have not yet completed the fourth grade, Mr. Capps said, while additional classes for prisoners who are more advanced, will also be organized. These classes will meet only two or three times a week during the summer months, will probably meet four or five times a week this fall when cooler weather comes and when the prisoners will have longer evenings and more leisure.

"When the enlarged educational program gets under way this fall, we plan to organize classes in dairying, horticulture, agriculture and other subjects related to agriculture, which will be taught either by State College professors or by advanced students from State College," Mr. Capps said. "We also plan other vocational courses that will help prisoners earn a living when they get out of prison."

### FOOTBALLERS FORM ANTI-AIRCRAFT SQUAD

London (AP)—Latest move in the scheme to popularize war preparedness in London is contributed by the Fulham football club. The club is forming an anti-aircraft squad. Both players and supporters will take part, using the club rooms as headquarters and the playing field as a drill ground.

**MRS. WALLACE.** Buxom Mae West of the films admitted in court, after several public denials, that back in 1911 she married Frank Wallace, vaudeville actor, at Milwaukee.

**MAE'S MAN.** This is Frank Wallace who went to court and proved that in 1911 he became the groom of Mae West, film siren. Wallace has sued for a judgment affirming his status as her husband.

**THE COMEBACK.** German dirigible builders were undaunted by the fate of the Hindenburg which exploded at Lakehurst, N. J. Construction work proceeded on the new sky boat, the LZ130, at Friedrichshafen. Here is the nearly covered skeleton in the hangar.

**LITTLE MILLIONAIRE.** In their first picture since the child was a tiny baby, Mrs. John Jacob Astor III and her son, William, are shown strolling on a beach near Newport, R. I. He is heir to a large fortune. His mother is the former Ellen French.

**TO NAME SENATOR.** Gov. Carl E. Bailey of Arkansas will name the successor to the late Sen. Joseph T. Robinson to serve until a special election. The party may ask Bailey to run.

**GOODBYE FOLKS.** Here goes Marlene Dietrich and her husband, Rudolf Sieber, to Europe. They are shown on the Normandie at the start of a three-month vacation. Marlene wore a gray tailored suit and a sage green chiffon scarf, matched by a felt hat.

**SUMMER COACHING.** One of the things Elmer Layden, Notre Dame coach, does in the summertime at South Bend, Ind., is his son, Michael.

**WAR ON WATERFRONT.** It was a pooh-pooh from Joseph P. Ryan, longshoremen's union president, that greeted the ultimatum that he bring the group into the C.I.O. At New York, Ryan said he would oppose C.I.O. unions on both coasts.

# FLAME TRAIL

BY MARIE DE NERVAUD

**SYNOPSIS:** When Kay Cranston of the Lazy Nine loses her ranch house and barn in a fire, Josh Hastings, owner of the Flying Six, tries to buy her ranch and court Kay. She distrusts him and is determined to keep her ranch and rebuild. Ted Gaynor, a puncher she impulsively hired, fights Scrap Johnson, a cowhand who molested Kay. They shoot it out, wounding each other. Hastings finds them and murders Scrap, using Ted's gun. Ted crawls to an unknown shack where a girl named Marion nurses him through a week of delirious fever. The gun is found and Sheriff Farley trails Ted to the shack, but passes it by.

Chapter 23

## Best To Stay Hidden

IT WAS late afternoon before Ted came out of the heavy sleep into which he had slipped after his lapse into unconsciousness.

In the long day that had passed, Marion had had plenty of time to think over the surprising events of the morning.

It was clear that, if Scrap Johnson had been murdered, Ted would be the one to whom suspicion would inevitably point. There were two possibilities—either Ted's shot had not gone wild, as he had supposed, or someone else

had come along and murdered the man, framing Ted as the killer.

In any case, the longer Ted could stay hidden away, until he regained strength to fight for himself, the better. No matter how much his mother and sister and the mysterious "Kay" might need him, everyone was better off for the moment if he stayed right where he was.

As for herself, she couldn't leave her hiding place for another 10 days anyway, and she would infinitely rather put in the time nursing Ted back to health and strength, than to be alone with her anxious thoughts of her father.

Resolving to make the position clear to Ted as soon as she could, Marion came and sat beside him, as he roused himself.

Outlining to him his side of the situation, as she saw it, Marion went on to tell him of her own predicament.

"My father is in desperate straits of some sort," she ended, "and under the circumstances I have no choice but to let him work things out in his own way. The one thing I must do, is to wait here for the full time he set. Then, if he hasn't come, I must go back to find him."

"How about the man you're engaged to?" Ted asked.

"He is off on a prospecting trip," Marion answered, "and he won't be back for another month. I hope to Heaven's sake, that my father and I will be safely back in Missoula before that time."

### Someone Outside?

TED slowly pondered this information. "What you say about me is true all right," he answered at last, "I wouldn't be any good to anybody right now, I reckon. I can squash this murder talk easy enough as soon as I'm strong enough to go back and tell them where they get off. With me missing, some of the neighbors will give my mother and sister a helping hand for a while, anyway. And Kay—" He paused, and a slow color crept into his face.

"Who is Kay?" Marion asked gently. "Are you engaged to her?"

"I wish to God I were," Ted burst out. "But there's no chance of that! All I ask is to be near her and help her rebuild her ranch house, and . . . look here, I want to tell you about her!" He eagerly ascribed Kay, and the problem she was up against. "I don't know

what she'll be thinking about my not turning up. I wonder if she's heard this murder talk?"

"She won't believe it any more than I do," Marion snorted. She felt his forehead and added with decision, "You've talked enough, now. Lie back and rest while I get your supper. If you want to get back to her as soon as possible, you must do just as I tell you!"

"Gosh, I hope you two will meet some time," Ted murmured, as he gratefully obeyed. "You sure would take to each other!"

"I hope we will meet," Marion turned away, then stopped suddenly, listening. "What's that?"

"What?" Ted asked sleepily. "I didn't hear anything."

"I thought I heard someone moving outside," Marion crossed to the window and tried to see out the narrow crack between the boards, but only the empty clearing with the late afternoon sunlight, shining on the top branches of the pines was in sight.

She went to the door and cautiously opened it, stepping out a minute on the steps. Then, as she still saw no signs of life, she came in again, pulling the door shut.

"It must have been some animal prowling about," she observed.

There was no answer from Ted, and she smiled as she looked over at him, deeply sunk again into health-giving sleep. Stepping over beside him, she lightly put her

hand on his forehead and, still smiling, gazed down at him a moment. Then, she quietly went about getting supper ready for him, when he should wake.

### Passionate Outburst

AS KAY stood at the door of the mess shack and watched the sheriff ride away with his posse, she felt stunned with the sick reaction to the news she had just heard.

One possible solution after another flashed through her mind, only to be discarded. It was all a terrifying mystery, and her thoughts kept coming back to the dread certainty that Ted was dead or desperately wounded somewhere.

Dozens of questions that she had asked the sheriff came to her. Why hadn't she found out whether Scrap Johnson's gun had been discharged? Why—a long shuddering breath escaped her—

"There now, honey, don't you take it so hard!" Seth came up behind her, and put a comforting hand on her shoulder. "Looks kind of black for this Gaynor fellow, but after all, he's nothing to us. We can go along on our own, rebuilding, just as well as though he was here."

"I think you are all perfectly heartless!" Kay blazed, whirling about and facing Seth with flashing eyes. "All you think about is how it is going to affect us! You're ready to use his brains and his plan, and then just let him die like a dog somewhere!"

"Why, Kay!" Seth regarded her with open-mouthed amazement. "What's got into you? The sheriff is off this minute searching for him, and—"

"Yes—so that he can accuse him of murder!" Kay broke in passionately. "You're all waiting like a pack of blood hounds to tear him to pieces on no evidence at all! He's not a murderer, I tell you! If he killed Scrap Johnson it was a fair fight, or more likely, with the odds against Ted. He's not a murderer!"

Kay ran down the steps and over to her cabin. Seth let out a long low whistle as he watched her flying figure. Then he slowly shook his head and made his way over to the bunk house.

## Gov. Hoey Returns To Mountains For Rest From Duties

### Chief Executive Goes to Blowing Rock for Few More Days of Rest and Speechmaking

Reflector Bureau Raleigh, July 16.—Governor Clyde R. Hoey is back in the mountains again for a few more days of rest and speechmaking—for Governor Hoey's idea of a perfect vacation is to sprinkle a few speeches along through it, at the rate of at least one speech every other day. He left here late yesterday afternoon for Blowing Rock, where he will spend today and tonight, without making any speech.

Saturday Governor Hoey will go over to Roaring Gap, in Alleghany county, to make a speech before the annual convention of the Southern Traffic conference, at which most of the southern states will be represented, and at which

traffic problems, also freight rates and allied subjects, will be discussed. Governor Hoey will return to Blowing Rock over Sunday and Monday will go to Boone, where he will make an address before the summer school students at Appalachian Teachers College there, of which Dr. B. B. Daugherty is president. He will return to Raleigh Monday night.

Before leaving here late yesterday afternoon, Governor Hoey was still wearing his long-tailed coat, likewise a vest and apparently was cooler than any one in Raleigh, in spite of the high temperatures that have been prevailing here all this week. But he admitted he would be glad to get back up into the mountains again for a few days.

Governor Hoey was enthusiastic over his trip last week into the Great Smoky Mountains National Park and expressed the conviction that this new national park would be the means of attracting hundreds of thousands, if not millions of new people into North Carolina within the next year or so.

"I had the pleasure of going over every part of the park, even over

many of the fire trails and forest service roads, and it is undoubtedly one of the finest parks of its kind in the world," Governor Hoey said yesterday afternoon before leaving for the mountains again. "I am hoping that Tennessee will acquire the additional 27,000 acres needed so the park can be opened as soon as possible."

### SPANISH ARMY NEARS MADRID

(Continued from page one) report said.

The Insurgent warship Almirante Cervera was reported cruising outside Santander harbor, seeking to prevent the entry of British and French ships.

On the Madrid front both government and Insurgent commands brought their heavy artillery into use on a scale hitherto unseen in the civil war.

Reports said the price of one car of Spain's civil war was 1,000,000 men, women and children.

Lefty Flora had one of his good days and pitched the Goldsboro Gold Bugs to a 6-3 win over the locals here yesterday afternoon.

Freddie Caliguiri, given a starting assignment for a change, started off in great style. He pitched no-hit ball for five innings and at that stage was sporting a 1-0 lead. In the sixth and seventh, however, the Bugs mixed a quartet of hits with gifts to get five tallies. They added one in the ninth against Rudisill, Caliguiri's successor. Caliguiri was pulled for a pinch-hitter in the home half of the seventh.

Flora—who is good when he's good and terrible when he's not right—proved to be in good form. The Greenies, however, managed to collect a total of five hits in their two scoring innings, but the rest of the way the former New Bern south paw hurled three-hit ball.

Manager Bo Farley as injured in the third inning—the first scoring verse of the day. Kenosh singled, and was forced out by Caliguiri. Rudisill's double and a walk to Farley filled the bases. Caliguiri scored on Stowe's bouncer, which was played to second to force Farley. The Greenville manager sprained a wrist as he slid into second.

Greenville did not score again until the Bugs had built up a 5-2 lead. In the seventh the locals got two runs. Pignataro singled, and scored on Kenosh's double. Stowe's single tallied Kenosh.

The Kinston Eagles will play the Greenies here Monday afternoon at 4 o'clock. The game was rained out in the last series. The local club will go to Kinston Tuesday for the first of a two-game series and return here on Wednesday.

Hits by Maisano and Vick were infield outs and an error by Norwood to produce two Bug runs in the seventh. Maisano's triple and Kenosh's wild throw to third brought another in the ninth.

### Tarboro Takes No. 5, Kinston Victims, 9-6

Kinston—Fred (Snake) Henry, Tarboro manager whose aging legs barely carry him to first base on a double, led the Serpents to a 9-8 victory over the Kinston Eagles here yesterday afternoon.

With the score tied, Henry came to bat in the seventh and worked a walk. He stole second, and went on to score on a squeeze play. Then Snake crawled home with the winning tally on a squeeze play with Savage executing the bunt.

Yesterday's victory was the fifth in a row for Henry's boys and enabled them to retain their percentage lead over Goldsboro in the battle for third place. The sweep of the series with Kinston also enabled Tarboro to pull within three games of the second-place Williamston Martins, who lost yesterday and the day before to New Bern.

Kinston took the offensive in the first frame, scoring two runs when Stringfellow was hit by a pitched ball. Schultz singled, Gillenwater walked, and Patton doubled.

Tarboro jumped to the front in the second with three runs on a

# Alexander Named Coach At ECTC

## WILL CONDUCT ALL ATHLETICS

### Succeeds Bo Farley, Who Resigned At End of Season

East Carolina Teachers College has secured the services of J. D. Alexander as Coach and Head of the Department of Physical Education. Mr. Alexander will direct the entire program of physical education and athletics. For the past seven years he has been coach and head of the department of physical education at Lincoln Memorial University. He has his M. A. degree in physical education from the University of Iowa, and is completing work for the Ph.D. degree in physical education at Peabody College this summer.

He will succeed Bo Farley, who has been head coach at the college for several years. Farley resigned at the close of the last season.

Mr. Alexander was an outstanding athlete in both high school and college. In high school at Greenville, Texas, where he was coached by Clyde Littlefield, now director of athletics at the University of Texas, he was regarded as one of the best all-round athletes in the state, winning letters in four sports.

At the University of Iowa he was regarded as one of the stars of the Big Ten. He was outstanding in football and basketball; he was an all-around star in track, winning the national championship. He won his college letter in baseball, and played semiprofessional baseball in Texas. He was coached by Howard Jones and Bert Swenson, two of America's finest coaches. He has also attended coaching schools at Southern Methodist University and Northwestern University.

For the past seven years Mr. Alexander's teams have made excellent records in the Smoky Mountain conference. Although his college was one of the smallest in enrollment in the conference none of his teams ever finished in the lower half of the standings.

He has served on the Research Committee of the American Physical Education Association; was for three years president of the East Tennessee Physical Education Association, and is the author of several articles on coaching, training and conditioning athletes. He is a member of Pi Epsilon Kappa, an honorary athletic fraternity and Pi Kappa Delta.

Neither of the starting hurlers—New Bern's Bill Hamons and Wilkeson's Ray Shrank—finished. Shrank retired during a three-run inning in the eighth and Hamons allowed him in the Martin's half of the same frame.

The clubs were deadlocked at all when the eighth inning rolled around. Burch Douglass rapped a single to start New Bern's half, advanced on Flythe's sacrifice and an error, and scored on Thornton's hit. Hamons' second hit of the day, a double, tallied Thornton. Walks to Miller and Theole filled the bases and ended Shrank's work for the day. Mullinax's grounder permitted Hamons to score.

In the home half, Howard Earp and Ace Villepique hit singles. A walk to Stevens filled the bases. Al Averette relieved Hamons. McWay's fly scored Earp, and Deim rounded to Douglass to end the inning.

Shrank started strong and pitched hitless ball until the sixth. In that verse, Flythe's double and Hamons' single scored a run. Wilkeson had tallied in the fourth by sandwiching singles by Stanley and Deim around a sacrifice by Stevens.

Earp, Villepique, and Stanley made two hits apiece to lead the Martins' eight-hit attack. Hamons' sacrifice hit attack. Hamons' sacrifice hit was the only Bear to connect more than once.

On the strength of the great showing he made at Wimbledon, England, Don Budge has boosted America's Davis cup hopes sky high. The California redhead walked off the famous British courts with more than a lion's share of of the glory. He won the singles championship, the men's doubles (with Gene Mako) and the mixed doubles (with Alice Marble).

There should be little doubt concerning Budge's ability to carry the major burden in the Davis cup matches. He has stamina. In the Wimbledon meet he played singles and doubles practically every day, gaining momentum until he hit his peak in the finals.

Of course, the Davis cup matches are the big test and that is what Budge has been pointing for. He has not been over-tennised. He wisely abstained from too much early competition, staying out so much that the tennis fathers were fearful he was not ready when he was called on to face the Australians in interzone matches. Budge dismissed their fears with a sparkling exhibition, proving he was able to bear down when something was at stake.

By his victory in the Wimbledon singles, Budge fairly well established himself as the world's No. 1 amateur tennis player. What claims Baron Gottfried Von Cramm may have had disappeared when Budge trounced him in straight sets in the all-England final.

Heinrich Henkel, Germany's No. 2 player, cannot hope to match strokes with Budge. The doubles, which so often decide Davis cup battles, seem to be dominated by Donald, With Mako at his side, Budge downed the German cup team in the semi-final round at Wimbledon before beating the English cup pair, George Hughes and Raymond Tuckey, for the championship.

### Ayden Aces Whip Billies By 5-2 Count

Snow Hill.—Snow Hill's Billies had little trouble winning Thursday against the pitching of Ayden's Earl Webb. But it was a different story yesterday—Manager Monk Joyner of the Aces sent Woodrow Webb against the Billies, and Woodrow's six-hit pitching brought a dividend in the form of a 5-2 triumph.

The Aces broke a 2-all tie by tallying a singleton in the eighth on Webb's single, a wild pitch by Cecil Longest, and Jirak's single. They sewed up the decision with a pair of scores in the ninth—on singles by Fary and Joyner and a double by Faust Johnson.

Longest, seeking his 11th victory of the season, matched Webb until the eighth inning. The only Ayden tallying prior to the eighth came in the fourth—Fary hit a triple after an error and a walk had put Schuerholz and Jirak on the sacks. Snow Hill made one in the third by combining an error, a walk and Robinson's single, and gained its other run in the sixth, Hyder walked to start the sixth, stole second and scored on a single by Soufas.

### Wins Over Person-Garrett; Blount-Harvey Victorious

Tadlock Mutual Insurance agency's softball team defeated Person-Garrett yesterday to win the undisputed lead in second half play. Neither team had lost a game before the insurance men scored their 6-4 victory over the tobaccoists yesterday afternoon.

The insurance men defeated Carolina Thursday afternoon.

Yesterday's contest was featured by home runs by Hodges and Mills for Person-Garrett and Barrett for the insurance team. Doug West starred at short field for the winners.

Blount-Harvey pulled a softball game out of the fire yesterday when they overhauled a 3 run lead in the last inning to defeat the Lawyers 12-11. The department store men came to bat just as darkness was gathering on the field with a score of 11-8 against them. Lautares led off with a single and scored on Matthew's triple. Vincent, next up, poled a home run to tie the score 11-all. James connected for two

bases and scored on Barnhill's double to right field.

The Lawyers got off to an early lead scoring three runs in the first frame, three in the second and two in the third, while Blount-Harvey had collected only one in the second and two in the third. Blount-Harvey in the fourth opened a rally. Proctor singled, James homered, Tripp hit for three bases, Nisbet singled and Stancill homered to score four runs which fell one short of tying the Lawyers five run lead.

The Lawyers scored three in the sixth on Johnson's single, Carroll's homer and Robert's homer while the Lawyers led the entire route, they were unable to stave off the last inning rally which defeated them.

The Lawyers collected thirteen earned hits, 3 of which were homers by Worthington, Roberts and Charlie Carroll, Jr., the department store men collected fifteen hits, two of which were home runs.

Vincent with two doubles and a homer paced the field for batting honors closely followed by James with a double and a homer and Matthews with a triple and a single.

Carroll topped the losers with a home run and a single.

### New York Cotton

New York, July 17.—(AP)—Cotton futures opened steady, unchanged to two lower. Influence of higher cables was offset by renewed liquidation, continued favorable weather and unsettled foreign political situation.

December recovered from 11.94 to 12.00 and shortly after the first half hour was selling at 11.98 with prices one to four points net higher.

Futures closed steady, unchanged to two lower. Spot steady, middling 12.52.

### N. Y. Stock Market

New York, July 17.—(AP) Feeble rallies in some of the steel, rails motors, coppers and specialties punctuated today's drab stock market session.

Mild profit selling at the opening put prices down fractions to a point or more, but offerings were so light bids were later hoisted in numerous instances.

It was one of the slowest days of the year, transfers running to around 250,000 shares for the two hours.

Prices were well jumbled at the close.

Bonds developed no definite trend.

## Hollywood Sights And Sounds

By Robbin Coons

Hollywood—If the history of Hollywood can be told in its restaurants Eddie Brandstatter can be the historian.

Eddie's a filmland figure, the intimate of stars and a fellow with cause to know what a star's friendship means. Many stars have cause to be grateful to Eddie, too. He fed their handsome faces in places where they could be seen, and when they couldn't pay he put it on the bill.

With David Covey he is reopening the burned-out Sardi's soon. It's to be one of those ultra spots even more ultra than before the fire. Eddie glows with anticipation, just as he glowed long years ago over his Sunset Inn. Sardi's is his third venture in "dramatizing" food for the benefit of movie stars and tourists.

Eddie's Sunset Inn lives in local legend as A Place. It was out in Santa Monica, and it was the scene of Parties. In Hollywood's happier-go-lucky youth—days when big money and lots of free time had the boys and girls giddy—the Sunset Inn flourished. Abe Lyman got his start as an orchestra leader there.

### Every Wednesday

"Not wild days," Eddie'll correct you. "Just fun. Sunset Inn was the play place. That time Bebe Daniels got a jail sentence for speeding in Santa Ana, for instance. All Hollywood went with me to serve her a special dinner—with photographers, of course in her cell. And we rigged up a cell at the inn for her release, and had a grand party in celebration."

But Sunset Inn belonged to a less inhibited, more child-like and naive era of film life. Pictures grew bigger and bigger, and Eddie turned

to Hollywood proper. He built his Moulinartre.

They still reminisce, in cafe-going circles, about those "Wednesday evenings" at the Mo'mart. Special section roped off for stars, who came dressed to kill and fill the eyes of the tourists who could occupy the unhallowed but wellfed unreserved sections. Eddie, discreet host, could watch the budding blooming and fading of myriad movie romances.

### He Carried 'Em

But in its days of glory Eddie had built the groundwork for his current venture. Everybody who was anybody had to be seen there. If they couldn't afford the tariff, Eddie urged them to come anyway. "You've got to be seen," he'd say. "Never mind the checks. I'll carry you."

He carried thousands of dollars in this fashion. Some of it was paid in cash eventually, much he never received not directly. But he figures he was the winner. When he started out again, in the darkest days of the depression, he found out where he stood.

"It was something the way they rallied round," he says. "When I let it be known I was making a fresh start, they came to me with checks—not for hundreds but for thousands of dollars."

### Would Examine Referees

Hull, England, July 17.—(AP)—The football referees' association at its annual meeting passed a resolution expressing the opinion that establishment of a national examining board for referees is desirable.

## Prospects Bright Getting Hospital

Washington, July 17. — (AP) — Rep. Graham Barden, New Bern, N. C., said today he was greatly encouraged over the prospects for the establishment of a veteran's hospital in Eastern North Carolina.

Barden, Admiral P. S. Rossiter, chairman of a sub-committee named to study the need for a hospital had submitted the group's report to General Frank Hines of the veteran's administration.

Barden said Admiral P. S. Rossiter general of the navy, informed him while no information would be given on the report, a North Carolina representative would probably be pleased with it.

If tomatoes are only half ripe, the ripe part may be used for salads, while the greener portions may be broiled or fried.

## Girl Given Pin For Commendable Work

Miss Helen Gaskins, daughter of Mr. and Mrs. J. C. Gaskins of this city, has been at her present employment less than a year, but has established quite a record during that time.

Employed at the local Buick agency, her work was considered so good that she was awarded a gold pin which usually goes to employees who have been working at least a year or longer. The financial records which she keeps for the firm were declared to have been perfect since she took over the duties.

# Camera Coverage Of The World

**M A R Y .**  
Among recently returned voyagers to Europe was Mary Rogers, daughter of the late Will Rogers, shown at New York.

**CHORUS ON ICE.** Little old London was getting ready for a new spectacle in the way of entertainment. An ice skating rink was laid on the big stage of the Coliseum for a pretentious show, "St. Moritz." Here are some of the shapely ladies of the company getting ready for rehearsal.

**S E A D O G .**  
This British sailor was participating in an anti-gas drill conducted aboard His Majesty's Ship "Courageous."

**TALKS PEACE.**  
Japanese Ambassador Hiroshi Saito (above) visited with Secretary of State Cordell Hull to talk of settlement of the Sino-Japanese crisis.

**CLIMATE CONTROL.** It wasn't a Saturday night; it was just a warm Wednesday in Buffalo, N. Y. Miss Sandra Lynn rigged up her own air-cooling gadgets. It was hot work rounding up the ice cream, fan and chunk of ice, but after Sandra got set in the home-made resort she smiled—didn't she?

**LADY AT BAR.**  
Miss Elizabeth Ohl, admitted to district court in Chicago, claims to be the only Japanese woman lawyer in U. S.

**IT'S A BIRD.**  
Long-tailed birds are coming on fall hats. This one, perched on a toque of magenta velvet, is red, green and black.

**WHAT THE SEA SAW.** This isn't a photographer's nightmare. The young ladies are really good looking and not at all big-headed. They found these masks and staged a parade near the surf in preparation for the annual Venice, Calif. Mardi Gras. Gorgeously grotesque, eh what?

**SUGIYAMA.**  
Gen. Gen Sugiyama, Japanese minister of war, acted in the North China crisis while diplomats sought a peaceful climax.
