## PROTEST MADE OF ATTACK BY JAP SOLDIERS

### Two British Officers in Shanghai Allegedly Assaulted

### ACCUSE JAPS OF INVADING RIGHTS

### Censors Begin Supervision of Dispatches Sent Out From International Settlement

Shanghai, Jan. 7.—(AP)—Major General A. P. D. Telfer-Smollett, commanding British troops at Shanghai, protested today against an attack by Japanese soldiers on two British officers of the Shanghai municipal police.

The general accused Japanese armed forces of invading the British defense zone in the International Settlement and was reported to have warned the Japanese military that repetition might result in the gravest consequences.

A Japanese Embassy spokesman, questioned about the attack, said "we have no information."

Inspector F. C. West, one of the officers, said he and Sergeant A. R. Turner were watching Japanese soldiers search Chinese peddlers near the line between the British defense zone and the Japanese occupied area and remarked that the peddlers were receiving unnecessarily rough treatment.

Twenty Japanese censors and communications officials who established themselves yesterday in the offices of three foreign cable companies in Shanghai's International Settlement began supervision of dispatches.

Twenty-four Japanese planes raided the Chinese airport at Nanking, capital of Kiang province, a naval spokesman reported. He said Chinese fliers tried another air attack on a Japanese airdrome at Wuhu, but were unsuccessful when Japanese took the air and forced the Chinese to dump their bombs in the Yangtze and sea.

## Annual Report Of Local Fire Chief Shows 65 Blazes

### Loss of \$18,817.65 Recorded For Past Year Compares With Damage of \$34,657.74 Previous Year

The annual report of George G. Gardner, Chief of the Greenville Fire Department, issued today, showed that the city had a less during the 12 months of \$18,817.65.

Sixty-five fires were reported in the 12 months, 35 of which caused damage in excess of five dollars. The largest single loss during 1937 was \$3,000 caused by the fire at the J. E. Winslow commissary.

The 1937 report compares favorably with that of the previous year. In 1936 the city suffered loss estimated at \$34,657.74. Of the total loss in 1935, however, \$31,000 was caused by the Blount Fertilizer plant fire.

Chief Gardner took occasion to warn citizens to do everything in their power to keep fires at a minimum, pointing out that the insurance rate is based on the loss.

The report for the month of December showed that the city had five fires during the period with a loss of \$2,009.27. The heaviest loss of the month was to a house occupied by LeRoy Ange, estimated at \$1,192.77.

The annual report stated that all equipment had been checked and found to be in good condition. The department has 4,000 feet of fire hose.

## Sanitary Inspector For City Employed

J. T. Welch, who at the present is engaged in health work in the district composed of Dare, Hyde, Tyrrell and Washington counties, has been employed as city sanitary inspector for Greenville and will assume his new duties on or before January 15.

Mr. Welch, whose home is in Warrenton, was employed following a conference between Dr. N. Thomas Ennett, Pitt health officer, and Mayor M. K. Blount yesterday afternoon.

He has been working under Dr. S. V. Lewis, health officer for the district, and comes to Greenville highly recommended.

Greenville has been without a city sanitary inspector for several months, but provisions for one were made when the present budget was drawn up.

Mr. Welch met his future employers at the regular meeting of the Board of Aldermen last night. He will work under the direct supervision, however, of the health officer.

## Recommends Expenditures Of Nearly \$2,500,000 On River And Harbor Projects

### Mother Hears Of Missing Daughter

News that her missing daughter, Mrs. Adolph Arnold Rubens, has been identified as Mrs. D. L. Robinson, now believed to be in jail in Moscow, brought tears of gladness to the eyes of Mrs. Frederick Boerger of Miami, Fla. Her granddaughter, Ruth, (left) daughter of the missing woman, and Mr. Boerger also share in the good news.

## Embassy Intervenes In Missing American Case

### TAX RECEIPTS GOOD FOR CITY

### Sixty Percent of Levy Collected in First Six Months

During the first half of the 1937 fiscal year approximately 60 per cent of the original levy for city taxes was collected, City Clerk J. O. Duval reported today.

Mr. Duval declared receipts for the first six months were far above the average, adding that usually not more than 50 per cent of the original levy is collected by the end of the calendar year.

Of the original levy of \$93,077.85 for 1937, \$55,452.28 have been collected, leaving \$37,625.57 still on the books.

The financial statement also showed that back tax collections have been unusually good for the past six months. Of the total levy for all years from 1927, amounting to \$1,071,566.57, only \$35,337.59 remains on the books, \$1,036,228.88 having been collected.

Of the original levy of \$76,973.52 levied in 1936 \$68,894.42 have been collected, leaving only \$7,079.10 on the books.

The 1937 levy is the greatest since 1932, when it was \$94,868.78. A review of the books, however, shows that in 1927 the original was \$144,433.52. The lowest original levy since 1927 was in 1934 when it was \$65,968.87.

Garden Club For Men. Santa Maria, Calif.—(AP)—Women have been in charge of this garden club business long enough, in the opinion of some 20 Santa Maria men, who have formed their own organization to take over dahlias, gladioluses and other flowers.

The Kew Gardens, 10 miles from London, cover 288 acres and are the chief botanical gardens in England.

Surviving children are: Mrs. Claude B. Harris and Mrs. Roy Jordan of Henderson; Mrs. F. A. Jordan, of Greenville; Mrs. H. G. Moye of Farmville; Mrs. H. G. Davis and Miss Edna Williams. (Continued on page 6)

One Man Arrested As Still Cut Down. Special ABC officers of Pitt and Beaufort county yesterday captured one man and retained him still after having several hours. The officers went to the still, located about a half mile from the Beaufort side of the county line, yesterday morning, but found no one there. Believing that it would be operated later in the day, the agents concealed themselves about the plant and at 5 o'clock in the afternoon two men went to the still and started to make a run. The officers flushed the pair, but they jumped into a nearby stream. As the run, and one made good his escape. One, however, Carl Willard 21 was captured.

The still, a steam plant with a capacity of 200 gallons, was completely destroyed. The big boiler was filled with holes and two pumps, shovels, 1,500 pounds of coke and other materials were taken to Weldon.

Officers taking part in the raid were J. M. Ward and J. L. Taylor, of Paul county, and Ben Willis, Lu-Pud county, and Ben Willis, Lu-Pud county, and Ben Willis, Lu-Pud county.

Funeral Services For H. B. Williams Widely Attended. Last Rites For Resident of Pitt County for 25 Years Conducted At Home of Daughter.

Funeral services for Hosen B. Williams, Sr., who died Tuesday, were conducted Wednesday afternoon at the home of his daughter, Mrs. Howard Moye of near Farmville. Burial was in Hollywood cemetery at Farmville.

The services were conducted by Rev. J. B. Clark, pastor of the Farmville Methodist church, assisted by Rev. C. B. Marshburn, pastor of Farmville Christian church; Rev. T. M. Grant, pastor of Jarvis Memorial Methodist church, Greenville; and Rev. B. E. Slaughter of Elizabeth City.

Mr. Williams was born June 15, 1868, the son of the late Jacob A. Williams and Mary Casey Williams. He was born and reared in Wayne county, but moved to Pitt 25 years ago. He was married to Miss Hattie Mae Lewis, daughter of the late Urbah Lewis and Laura Sasser Lewis, on December 31, 1890. His wife died on October 18, 1935.

Surviving children are: Mrs. Claude B. Harris and Mrs. Roy Jordan of Henderson; Mrs. F. A. Jordan, of Greenville; Mrs. H. G. Moye of Farmville; Mrs. H. G. Davis and Miss Edna Williams. (Continued on page 6)

## Sum Asked for Maintenance, New Work in This State

### LOCAL PROPOSAL IS NOT INCLUDED

### List Includes \$28,000 for Maintenance and \$80,000 for Dredging at Morehead

Washington, Jan. 7.—(AP)—The chief of the army engineers recommended to Congress today expenditures of nearly \$2,500,000 on river and harbor projects in North Carolina for maintenance and new work during the 1939 fiscal year.

Largest single undertaking recommended was use of an unexpended balance of \$436,000 and an additional appropriation of \$221,000 for maintenance and new work on the inland waterway from Norfolk, Va., to Beaufort Inlet, N. C.

Other expenditures recommended included: Cashie river, \$7,500 for maintenance and dredging and \$27,000 for a turning basin in Windsor and three cut-off channels below Windsor.

Roanoke River, \$7,500 for maintenance and dredging, and \$15,000 for new work on the river between its mouth and Palmyra.

Waterway connecting Swan Quarter bay with Deep river, \$3,000 for maintenance.

Belhaven harbor, \$15,000 for maintenance.

Pamlico and Tar river \$17,000 for maintenance and operation of government derrick boat Contentnea.

Silver lake harbor, \$2,000 for dredging.

Contentnea Creek, \$1,000 for maintenance and \$1,000 for new work between its mouth and Snow Hill.

Tar river flood control, recommended allotment of \$99,000 made in August, 1937, be applied to completion of project calling for clearing the natural channel between Tarboro and Rocky Mount of obstructions to reduce flood heights.

Neuse river, \$15,000 for maintenance and \$12,000 for maintaining channel at and below New Bern.

Beaufort harbor, \$20,000 for maintenance and \$17,000 for new waterway connecting Pamlico sound and Beaufort harbor, \$11,500 for maintenance and \$11,000 for new work.

Morehead City harbor \$28,900 for maintenance and \$80,000 for new dredging.

Funeral Saturday For Jimmie Spain. Jimmie L. Spain, 70, died this morning at 8:50 o'clock at his home in Belvoir township. Mr. Spain was born and reared in Pitt county and had been engaged in farming practically all of his life. About two years ago he suffered a stroke and had been in invalid since that time.

Funeral services will be conducted Saturday afternoon at 2:30 o'clock at the home by Rev. M. A. Woodward. Burial will be in the Spain family cemetery near the home.

Surviving are his wife, Mrs. Sarah Spain, and six children, Dolphus, Roosevelt, Jimmie, Jr., and Sarah Elizabeth, of the home place; Mrs. Roland May, Galloway's Cross Roads, and Mrs. Percola Elks of Black Jack. Also one brother, Joe Spain of Tarboro.

The Port of New York is controlled by a commission representing two states, New York and New Jersey.

Carolina policeman, obtained between \$12,000 and \$14,000 between February 15, when they escaped from the Caledonia prison farm at Halifax, N. C., and January 3 when they were captured at Sanford.

At the time of their capture, however, Payne had only \$40 and Turner \$53.

Payne confessed to participating in robbing the following banks: Bank of Montgomery, Troy, N. C., March 10, \$3,383; Commercial State Bank, Laurel Hill, N. C., May 7, \$2,640; Bank of Candor, Candor, N. C., Sept. 28, \$2,930.

Turner told agents he participated in the Troy and Candor bank robberies and in the \$1,851 robbery of the Waccamaw Bank & Trust company's Clarkton branch at Clarkton, N. C., May 21.

Italy Begins Navy Program On Big Scale. (By Associated Press) Italy today announced enlargement of her ambitious naval rearmament program to a world plagued by warfare on two continents and arming for possibly more to come.

In the announcement Italy disclosed a determination to have Continental Europe's top notch fleet.

This construction program, to be started immediately was announced in Rome.

Two 35,000 ton battleships to be named Rome and Impero, giving Premier Mussolini four first class fighting vessels of the same tonnage.

## ITALY BEGINS NAVY PROGRAM ON BIG SCALE

### Discloses Determination to Have One of Best Fleets

### ECONOMIC PEACE TALK IS HEARD

### Former Belgian Premier Consulting with Premier Chamberlain on World Trade

## Kennedy Chosen As Ambassador To Great Britain

### Other Diplomatic Changes Announced By Chief Executive Transfer Joseph Davies From Moscow To Envoy to Belgium

### WASHINGTON, Jan. 7.—(AP)—President Roosevelt acted today to switch one of his closest economic advisors, Joseph Kennedy, from the domestic to the international field. He nominated Kennedy to be Ambassador to Great Britain. Kennedy is chairman of the Maritime Commission.

### Other diplomatic moves he announced today included the transfer of Joseph Davies from Moscow to be Ambassador to Belgium. He sent to the Senate the nomination of Hugh Wilson, Assistant Secretary of State to be Ambassador to Germany, replacing William Dodd, resigned.

### The former Ambassador to Germany, on his way home, last night bitterly denounced Adolf Hitler's regime for its religious persecutions and race hatreds.

### He also declared that another great war threatens because of the frenzied armaments race. He added that the present-day world learned nothing from the World War.

### "The great business and industrial groups failed to recognize the necessity of international cooperation after 1920. Some of their chiefs defeated world peace efforts at Geneva because they thought the sale of arms and war materials more important than world peace."

### Twelve destroyers, making a destroyer fleet of 56 in all.

### An "important" number of submarines, the specific number undisclosed.

### But a plan for economic peace was calling for Europe's attention.

### Paul Van Zeeland, former Belgian Premier, was in London consulting Prime Minister Chamberlain on a scheme to stimulate world trade.

### Some sources said the Belgium economist had proposed a pact to bring the United States, Britain, Germany, France and Italy into political and economic harmony.

### Van Zeeland's findings probably will be disclosed next week.

### Airplane Lands In Treacherous Area

### Newark, N. J., Jan. 7.—(AP)—A transport airliner carrying five men passengers and a crew of three squashed down in the mud and water of a treacherous swamp today when its pilot under shot Newark airport during the storm-swept early morning hours.

### The plane came down shortly after 3 a. m. EST. Until dawn the passengers stayed inside the protecting cabin, waiting for help.

### Pilot Usher Rousch, of Chicago, plunged through the marsh to the airport three miles away, led a rescue party back to return the passengers to safety.

### Rousch suffered a cut over one eye in the bumpy landing, but none of the others, the airline said, was hurt.

### FROGS JOIN THE NAVY FOR TRIP TO GUAM

### San Francisco.—(AP)—At least part of the mysterious naval maneuvers in the Pacific has been explained.

### It was revealed that a dozen pairs of Louisiana jumbo frogs had been consigned to the navy here, and would go to the island of Guam along with Commander J. T. Alexander, the new governor.

### It's part of the government's program of experimental agriculture and animal husbandry for the island, he explained.

### Books published in England may be protected in this country for four months after registration if registered at the Library of Congress within 60 days after publication.

### M. O. Minges requested the city (Continued on Page Six)

### Affairs Of Municipalities Affected By Legislation

### Raleigh, Jan. 7.—The course of municipal affairs in North Carolina during 1937 was greatly affected by legislation passed by the 1937 General Assembly, Patrick Healey, Jr., executive secretary of the North Carolina League of Municipalities, points out in a summary of the year.

### In the field of municipal revenue chief acts affecting municipalities were those appropriating \$500,000 annually from state highway funds for maintenance of city streets and that segregating revenues from taxes on intangibles to the state, with a proviso that half the revenue collected shall be turned to the counties and to the municipalities on a population basis.

### The highway fund appropriation was made at the instance of the

### Muni league; while the organization was active in securing for cities and town a part of the intangible tax revenue, Mr. Healey said.

### Some local units stand to lose, others (again) by the change in method of taxing intangibles, Mr. Healey estimates. Only a few of the larger cities were actually making a genuine effort to collect all possible revenue from this source prior to the 1937 change, he pointed out. These cities will probably lose some revenue, but it is estimated that the lower rate on intangibles will result in putting on the books large sums previously left off.

### During the year eight cities voted school supplements, two adopted civil service, and all jointly set up a Public Utilities service through the League, Mr. Healey reported.

## FDR PROPOSES PARLEYS WITH BUSINESS MEN

### Would Seek Means to Eliminate Over-Production

### TRY ELIMINATE EVIL PRACTICES

### Green Finds Economic Situation Gloomy; Sears-Roebuck Head Finds Optimism

Washington, Jan. 7.—President Roosevelt disclosed today, while a congressional committee wrestled with causes and cures of the present slump, that he proposed a series of conferences with business leaders on how to eliminate over-production and glutted markets.

The main point of discussion in the talks, the President revealed at his press conference, will be attacking the market over-production problem through ridding business of what administration spokesmen call "evil" practices such as high-pressure salesmanship.

Mr. Roosevelt talked with William Knudsen, president of General Motors, yesterday, after Knudsen had told the Senate Unemployment Committee a sudden drop in sales in November and December had caused his company to lay off 30,000 men January 1.

The Unemployment Committee received from William Green, president of the American Federation of Labor, suggestion for seven moves to end the depression.

Green found the economic situation "gloomy," but Robert Wood, president of Sears, Roebuck and Company, saw cause for optimism in declining inventories.

The WPA came forward with its long-awaited ruling that persons receiving unemployment compensation can not also get federal relief. It was estimated this would affect 25,000 to 30,000 workers in 32 states.

### Funeral Services For H. B. Williams Widely Attended

### Last Rites For Resident of Pitt County for 25 Years Conducted At Home of Daughter

Funeral services for Hosen B. Williams, Sr., who died Tuesday, were conducted Wednesday afternoon at the home of his daughter, Mrs. Howard Moye of near Farmville. Burial was in Hollywood cemetery at Farmville.

The services were conducted by Rev. J. B. Clark, pastor of the Farmville Methodist church, assisted by Rev. C. B. Marshburn, pastor of Farmville Christian church; Rev. T. M. Grant, pastor of Jarvis Memorial Methodist church, Greenville; and Rev. B. E. Slaughter of Elizabeth City.

Mr. Williams was born June 15, 1868, the son of the late Jacob A. Williams and Mary Casey Williams. He was born and reared in Wayne county, but moved to Pitt 25 years ago. He was married to Miss Hattie Mae Lewis, daughter of the late Urbah Lewis and Laura Sasser Lewis, on December 31, 1890. His wife died on October 18, 1935.

Surviving children are: Mrs. Claude B. Harris and Mrs. Roy Jordan of Henderson; Mrs. F. A. Jordan, of Greenville; Mrs. H. G. Moye of Farmville; Mrs. H. G. Davis and Miss Edna Williams. (Continued on page 6)

### One Man Arrested As Still Cut Down

Special ABC officers of Pitt and Beaufort county yesterday captured one man and retained him still after having several hours. The officers went to the still, located about a half mile from the Beaufort side of the county line, yesterday morning, but found no one there. Believing that it would be operated later in the day, the agents concealed themselves about the plant and at 5 o'clock in the afternoon two men went to the still and started to make a run. The officers flushed the pair, but they jumped into a nearby stream. As the run, and one made good his escape. One, however, Carl Willard 21 was captured.

The still, a steam plant with a capacity of 200 gallons, was completely destroyed. The big boiler was filled with holes and two pumps, shovels, 1,500 pounds of coke and other materials were taken to Weldon.

Officers taking part in the raid were J. M. Ward and J. L. Taylor, of Paul county, and Ben Willis, Lu-Pud county, and Ben Willis, Lu-Pud county.

## Social Calendar

FRIDAY

7:30 p. m.—Circle No. 1 of the Methodist Missionary Society will meet with Miss Ada James.

**Returns From Duke Hospital.** Mrs. L. G. Cooper has returned from Duke Hospital, Durham, where she has been undergoing a series of treatments.

### YOUTH PROBLEMS DISCUSSED BY SUPERINTENDENT ROSE

Yesterday at the regular meeting of the Woman's Club, Supt. of City Schools J. H. Rose, discussed some problems of youth in Greenville, especially as related to young girls.

After briefly citing several incidents to show the needs of the girls, Mr. Rose recommended three things that he felt would help the situation greatly.

First, the addition to the city school faculty of a Dean of Girls; second, an instrumental music course free to all desiring to take it; and third, an organization of Girl Scouts with a group of fine, dependable young women as leaders.

Mr. Rose stated that he felt that within a few years it would be possible to make provisions for his first two recommendations and that his third recommendation could be put into effect immediately if the leaders could be found.

He stated that Mrs. Chase at the college would give free a course in Scout leadership and would assist the leaders in any way possible. With such help available now was an ideal time to start a Girl Scout organization.

Members of the Woman's Club with their guests, members of the Junior Woman's Club and the A. A. U. W. pledged their support to Mr. Rose in trying to get the required number of leaders.

The program was in charge of the Education Department, and Mrs. E. W. Harvey, chairman, introduced Mr. Rose.

Prior to the program, a short business session was held with the President, Mrs. J. H. B. Moore, presiding. Mrs. Hortense Moyer, chairman of Public Welfare, reported on the December activities of her department and especially the Planagan Memorial Christmas Tree.

She reported that 240 white children were given gifts and fruits at the tree and 170 colored children were given bags of fruits, candies, etc. In addition, 30 colored children at the WPA Center were given gifts and four families were provided provisions and other necessities during the holiday season.

Three state correctional institutions had been remembered with magazine subscriptions. Four subscriptions were sent to Stonewall Jackson Training School, four to Samaritan Hospital, and five to the Farm Colony for Women.

Letters from the superintendents showed a keen appreciation for the type of magazines sent. On Christmas Eve all papers delivered in the city had a Tuberculosis Christmas Seal stuck on the front page.

The Welfare Department paid for these seals, hoping to do two fine things, namely, fight tuberculosis, and wish all readers a Happy Holiday season.

Mrs. Moore expressed the appreciation of the entire club to Mrs. Moyer and her committee, Mesdames E. W. Harvey, R. C. Deal, P. G. Dennis and Richard Williams for their excellent work.

She also expressed appreciation to the Water and Light Commission for lighting the tree and the following whose contributions made the Community Tree program possible: Mr. E. G. Planagan, Mrs. H. S. Ragsdale, Mrs. Walter Harrington, Mr. J. H. Rose, Rev. W. A. Ryan, the Thrift Shop, the Salvation Army, the High School Band, and the official Santa Claus of the Merchants Association.

A member of the Garden Club called attention to the colored boys selling dogwoods and holly on the streets. She stated that these boys had no orders for the trees, that the trees were not taken up with sufficient care to insure their living and often the boys throw away more than three-fourths of those dug. That such a practice was a menace and threatened the destruction of these two beautiful trees and urged the women to refuse to buy such trees and report the boys to the police department in an effort to prevent such destruction.

Mrs. C. S. Lamb, chairman of the Motion Picture Committee, who gives weekly estimates of the pictures shown at local theatres, asked the women to use these estimates as a guide to the pictures members of their families attended.

Mrs. Moore stated that collections from the Seal Sale had not been completed but that enough returns had come in to insure the biggest sale ever. That for the town of Greenville alone the sale would amount to about \$900. She thanked those present who had assisted in making the sale such a success.

Announcement was made that the Festival Symphonic Chorus composed of 100 voices from Goldsboro, Ayden, Farmville, and Snow Hill will present "The Messiah" in the Campus building at the college on Sunday, the 16th.

Following the program a tea was enjoyed by all present. The tea table was beautifully appointed. Seated at either end Mrs. W. A. Ryan and Mrs. N. O. VanNortwick poured tea. They were assisted in serving by other members of the hostess committee, Mrs. N. T. Ennett, chairman, Mrs. John Clark and Mrs. E. C. Holler.

—Reported.

## Forty Years Ago Today

Friday, January 7, 1898

### Just A Few

J. P. King returned Thursday night from a trip to Norfolk.

Mrs. E. H. Taft and child returned Thursday night from Rocky Mount.

Mrs. Charlie Skinner left this morning to visit relatives in Bertie county.

### Notices

Tobacco sales have been light so far since the market opened.

Knights of Pythias meet tonight. In addition to regular business there will be installation of officers.

The weather is getting in shape for court week. There is seldom a January court unattended by bad weather.

### Engine House

The old fire engine house that stood on market square has been moved to a lot belonging to Elliott Bros. on 4th street, which these gentlemen have kindly turned over to Hope Fire Company. The company will proceed in the near future, to building a new engine house with the funds recently contributed for that purpose.

### Against Dancing

At a conference meeting of the Memorial Baptist Church held Thursday night, resolution was adopted that hereafter any member of the church who shall be guilty of dancing either at a private house or a public place shall be excluded from membership.

### Peace Action

#### A Correction

Under the answer to the concluding question in reference to the War Referendum, as carried in this column in last night's issue, the word "defeat" was inadvertently written for "debate" and "January 18" for "January 16".

The answer to the question—What can I do to help pass the war referendum?—should therefore read, as corrected, as follows: Write or wire your Congressman Lindsay C. Warren, House Office Building, Washington, D. C. NOW that YOU want him to cast his influence and vote for DEBATE of the Ludlow War Referendum bill in the House. (NOTE: It is all the more important that you so inform Mr. C. Warren, for his name was not included among the 218 names of the Discharge Petition which released this measure from the Judiciary Committee.) Remember: this coming Monday, January 10 this measure comes up before the House with the question, first of all as to whether or not it shall be debated, Peace Action feels that arguments pro and con can be fairly and best put before the American people. Only through thorough discussion and debate in the House, Peace action urges you, therefore, to get in touch with Congressman Warren before Monday. (Greenville Council for Peace Action-Publicity Committee.) It is well to report at this point

#### Washington Daybook

—By Preston Grover—

Washington—Like millions of others, we have seen both the Panay films; and in spite of the perturbation of the state department as to the effect they might have on the mass-American mind, we were not moved to run home and throw out our two Japanese prints. It is well to report at this point

#### Unstrained Silence

The ship was there. In one film a plane dived into view. Machine guns blazed away. Water, boiled where bombs plunged into the yellow Yangtze near the ship. Air geysered from the belly of the sink-

#### Reasons Against A Ban

There are three factors tending to allay the disturbing effect; the films might have and these obviously played a part in the state department's decision to let them be

#### Reactions Against A Ban

There are three factors tending to allay the disturbing effect; the films might have and these obviously played a part in the state department's decision to let them be

## EX-WIFE DISPUTES MOVIE COMEDIAN'S MARRIAGE

Mrs. Virginia Ruth Laurel, second wife of Stan Laurel, is shown at right in the act of saying "no" to the movie comedian's latest marriage to Vera Ivanova Shuyelova, Russian dancer. But the film comic and his new wife, shown in Hollywood shortly after their Yuma elopement, seem to be getting a big laugh out of something, and are apparently undisturbed by what the future may bring. The fact that she and Laurel had lived together since their interlocutory divorce will be used as grounds to invalidate the marriage, announced the second Mrs. Laurel.

## 'CAVE FAMILY' FOUND IN RUGGED CANYON

Mark Silverman, 38, accused of making other members of his family live like animals in a cave in San Gabriel canyon near Los Angeles, is shown with his brother, Joseph, 23, and the latter's wife, Becky, 19, when they were found in the canyon by officers hunting Mark on an insanity warrant.

## Sidewalk Notice!

At the regular meeting of the Board of Aldermen held on January 6th, 1938, the Board decided to proceed with the laying of sidewalks through the assistance of the Works Progress Administration. It was first thought that the cost of laying these sidewalks would be about \$1.00 per square yard, but after learning that the Town would have to employ some additional skilled labor for the finishing of these sidewalks it was determined that the cost for a complete job, including engineering and grading, would be \$1.15 per square yard to the Town and the property owners who desire to have their sidewalks constructed under this contract and pay cash upon completion of the work. It was further brought out in the meeting that under the present contract price if these sidewalks were constructed on a regular contract price and charged as regular paving assessments that the cost per square yard would average from \$1.50 to \$1.60.

Contracts have been prepared and are now in the Clerk's Office and all persons who have been served with notices and wish to avail themselves of the opportunity of having their sidewalks laid at \$1.15 per square yard and are willing and in position to pay cash for same, will please call at the City Clerk's Office and sign the contract.

BY ORDER OF THE BOARD.

## Hollywood Sights And Sounds

By Robbin Coon

Hollywood—Colleen Moore is the new queen of the screen. Tom Mix is king. Their royal retinue is composed of Fred Thompson, Harold Lloyd, Hoot Gibson, Norma Talmadge, Mary Pickford, Douglas Fairbanks, Thomas Meighan and Reginald Denny.

For these stars, you'll stand in line at theatres, and dig deep in your pockets for change, to laugh and weep at their performances. They're the box-office champions of—wait a minute!—1938.

Eleven years ago... Shirley Temple, the movie queen of 1937—by the Motion Picture Herald's exhibitor poll—was an unknown, even to her parents... Clark Gable was a minor name on theatre programs—sometimes... Robert Taylor and Bing Crosby were schoolish... William Powell was a slimy heavy in the silent... Jane Withers wasn't yet en route to her Atlanta home... Fred Astaire had never heard of Ginger Rogers, and vice versa... Sonja Henie was a typographical error.

Gary Cooper was a lanky movie newcomer... Myrna Loy was an "oriental" dancer... Complete Turnover

None of the first ten of 1926 is anywhere near the charmed circle today. Colleen Moore has a doll house. Tom Mix a circus. Fred Thompson and Thomas Meighan are dead. Harold Lloyd (who's making a picture now) has appeared too infrequently to register heavily. Hoot Gibson ranks 16th among western stars. Norma Talmadge is Mrs. George Jessel, retired from the screen. Mary and Doug are inactive. Reginald Denny is a featured player, unmentioned in the poll results but very active in his model airplane business.

The turnover is the "15 honor stars" group has been almost complete. Wallace Beery, 17th ranking draw in 1926, is the 15th now—after a period among the first 10. Milton Sills, Lon Chaney and the dog star Rin-Tin-Tin of the 1926 group are dead. Richard Dix, still star-billed, is below the first 60 in 1937. Buck Jones is third among the cowboy stars. Norma Shearer—whose only release last year was "Romeo and Juliet"—dropped to the division below her 1926 rating, after several years among the first 10.

Jackie Coogan Grew Up

Constance Talmadge has retired. Jack Holt is below the first 60—in such good company as Greta Garbo, Eddie Cantor, Grace Moore—and Marion Davies, rumored retiring, is in the next division. Jackie Coogan—well, he's grown now.

Of 1926's 60 top players, only three are included in this year's top 60—Norma Shearer, Wallace Beery, Ronald Colman. Eleven others are dead, 41 more still starred or featured prominently—but nevertheless are fallen below their former ratings.

And 11 years from now—?

PEASANT HOOD—Peasants inspired it, young America wears it—this gay kerchief hood tied under the chin. It comes in bright colors and many different fabrics, goes cruising, boating, motoring, skiing and even dancing. This crepe one is patterned with peasant girls.

SHORT SHOTS

By HENRY AVERILL

Raleigh, Jan. 7.—North Carolina isn't the only Carolina with a favorite son to boost for the United States Supreme court vacancy made by Justice Sutherland's announced retirement.

To the south of Tar Heels, the South Carolina bar has called a meeting to endorse and boost Federal Judge J. Lyles Glenn for the post.

Many believe that North Carolina has two chances at the place, in Chief Justice W. P. Stacy of the State Supreme Court, and Judge Justin M. Lier, of the Federal Circuit court of appeals for the District of Columbia.

Reliable sources reported that Justice Stacy was one of the last to be eliminated from the list of eligibles for the vacancy which the Schaefer Hugo Baker later filled. These same sources said, however, that the Alabama was even on the list and still was selected.

Walking through a corridor of the Capitol recently, your correspondent spied State Treasurer Charlie Johnson, State Auditor George Ross Pou and State Insurance Commissioner Dan Boney in close communion.

"Ah-ha" thought the correspondent, "Great political plans are being made, perhaps the fate of the state hinges on what's going on here."

He approached the group stealthily, hopeful he might overhear some choice tidbit of political wisdom.

The trio was discussing possibilities of taking a trip to Florida. It appeared all of them were willing to go, if some way could be devised whereby it would cost none of them anything.

Here are a few odds and ends of information about North Carolina given out by the State Department of Conservation and Development's advertising division.

Carl Standing Deer, most famous of North Carolina Cherokee archers, has been ruled out of competition by the tribe Champion for a generation, his easy walkway discouraged youngsters from entering the annual tournaments.

Because of a constant breeze up the face of the month, snow falls upward at Blowing Rock.

Last year, Mrs. Ella Butler, of Winston-Salem, moulded 10,000 bread wax candles for the annual Christmas joy feasts held in Methodist churches throughout the South. She started work in October. Descendants of Tar Heels who tapped their foreheads significantly when the Wright brothers first appeared at Kitty Hawk are now trying to get the government to place the original Wright plane back on Kill Devil Hill.

At "woods parties" in Nash-county, the bar is built high in a tree. Only those sober enough to climb to their drinks are entitled to have them.

What will the petroleum products publicists think of next. First they told about Christmas fruit "ripened" by pete by-products; then it was ice cubes for highballs made by use of the same; and now they come through with a yarn to the effect that the cosmetics with which my lady makes herself beautiful are mostly made from a petroleum base.

Employees of the Motor Vehicle Division are just about back to normal, now that the mad rush for 1938 licenses tags a rush which always marks the last few days of the year, is over.

Reports from all parts of the state indicate that there have been fewer arrests than usual for failure to obtain the 1938 tags on time.

C. C. N. Y. Midgets . . . . . New York (AP)—Although it is the biggest team that Nat Holman has coached in years the average height of the varsity basketball players at City College this year is only 5 feet 8 inches and the average weight is 165 pounds.

New Army On Wheels And Wings Form's U. S. Second Defense Line

(Estimates on manpower and planes from Washington sources) This is the second of three articles analyzing America's defenses.

By ALEXANDER R. GEORGE (AP Feature Service Writer)

WASHINGTON — Back of Uncle Sam's battle fleets is the nation's highly mobile army and an increasingly potent air force.

Isolated from potential enemy countries in Europe and Asia and on very friendly terms with neighboring Canada and Mexico, the United States has not felt that it needed a huge peacetime conscript army such as places a tremendous financial burden on nearly every other major country.

Since this peace-minded nation has depended primarily on a stalwart navy to hold off an aggressor, the secondary defense has been a comparatively weak link in the line of resistance to possible enemy attack.

However, there has been a steady strengthening of the army since the waning of international disarmament hopes about five years ago. Still small in numbers, it is rated by the army high command as more efficient today than at any other period in its peace-time history.

New Planes Built There has been tremendous progress in professional skill, mobility, modernization of weapons and equipment. Seacoast defenses are being modernized, tanks and motorized artillery are high speed, infantry with semi-automatic shoulder rifles are being reorganized in new, streamlined battalions.

Most striking advances have been in aircraft. The army now has 1,000 new planes, and another 1,000 under order. The 1,000 new planes are rated on a par in efficiency with those of any power and the new "fifty fighters" are said to be the most formidable bombers in the world. The air defense goal is 2,340 modern planes, to be attained by June, 1940.

Present strength of the regular army is some 12,000 officers and 158,000 enlisted men. The army's idea of an "irreducible minimum" defense is 14,600 officers and 165,000 men. National guard troops number 192,000, the defense objective being 210,000.

Congress has been appropriating nearly a half billion dollars yearly to strengthen the army. Military expenditure of about \$150,000,000 on materials is needed now to bring army defense up to "comfortable security" stage.

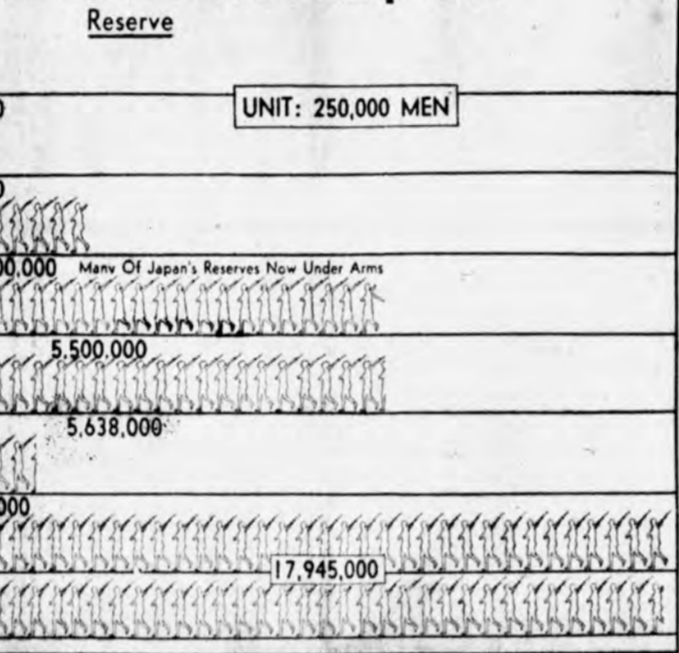

Probably the most important development in the secondary defense since the World war has been the building up of an Officers' Reserve corps, now 96,500 strong. Carefully worked out defense plans call for a speedy, wartime expansion of the army with these reserve officers providing a valuable training nucleus.

Comparative Airplane Strength

Comprehensive defense plans provide also for quick mobilization of forces to protect munition factories, vital transportation arteries and water supply systems, as well as to evacuate civilian populations from combat zones. Tomorrow: National Resources

Comparative Land-Force Manpower

Coast Teams Battle For 2nd Place

By SAM JACKSON (AP Feature Service Writer)

SAN FRANCISCO — The Pacific coast is the only basketball circuit wherein the announce the winner in advance and play out the schedule merely to decide second place.

The championship is unanimously conceded to Stanford—or more precisely to Angelo Henry Luisetti and whatever four basketball players happen to be playing with him, greatest player of all time, Luisetti now holds the 3-year scoring record, and is out for the 4-year.

If he shoots 401 points this season, he will surpass the 4-year record of 1,531 held by Glen Roberts of Emory and Henry college. In 1937, Luisetti scored 410 and, the year before, 416. In one 1938 game he got 50 points.

Stanford's first job is to clean up on the southern division of the coast conference, which includes California, Southern California and U. C. L. A., the traditional doormat.

Washington At Top The winner then plays the northern division champion for the coast title. Washington has long been dominant in the north but last year was beaten by Washington State.

The coast's southern loop was five years ahead of the national rules committee in abolishing the center tip-off, and this section of the U. S. is sold on the new game.

"There's no question—it's done a lot for the spectators," says Don Liebendorfer of the Stanford athletic department. "We figure the ball's in play seven or eight minutes longer."

"They say in the east that it tires the boys out. If so, nobody here has noticed it. And we believe it results in fewer injuries, because some of the most serious hurts have resulted in players rushing in after the tip-off."

Bunn Backs It Possibly the strongest campaigner for eliminating the jump has been John W. Bunn, now in his 8th year as Stanford coach. With his third straight championship in prospect, unorthodox Coach Bunn is seeing his theories work out well.

Next September, Bunn will become dean of men at Stanford. Captain Luisetti will graduate, and the coast conference again will be wide open.

It is whispered about the campus that Luisetti can have the Stanford coaching job if he wants it.

"PUT UP GOOD FIGHT BUT FWUZ ROBBED," SAYS DEVIL

Trinidad, Ala. (AP)—Prof. Buba Johnson of the University of Alabama English department can see the coach of 1938 entering into his literature interpretation. He read to his class from Milton's "Paradise Lost" how Satan reclined on a bed of molten sulphur, tried to explain to Beelzebub how they lost their battle with

# E. C. T. C. Pirates To Meet Louisburg Cagers Tonight

## GAME TO START AT 8:15 HERE

### Opening College Contest of Season For EC Teachers

Coach Joe Alexander opens his college basketball schedule tonight in the E. C. T. C. gymnasium when the Pirates tackle Louisburg College in the opening college fray of the season.

Several changes will mark the Pirate line-up and Coach Alexander will probably use every man on the squad in an effort to stop the Bulldog attack.

The probable starters for the game tonight will be Smith and Shelton, forwards; Martin, center; Johnson and Cecot or L. Ridenhour, guards.

Due to the earliness of the season there will be much substitution and the following will see much service: Clayton Guthrie and Jew Ayres, forwards; Bert Lytle, center; Evert Perkins, Robert Burton and Bill Dudash, guards.

The reserve team plays Chicod High School in the opener. Starting for the reserves will be Scarborough and Hinson, forwards; Hodges, center; Roper and Noe, guards. The preliminary game will be called at seven o'clock with the main game coming at eight-fifteen.

## A Proposal: Signal For Mitt Officials

(By The AP Feature Service) Hartford, Conn. — Boxing, suggests Referee Billy Taylor, should have signals so spectators can be quickly informed of fouls. It Taylor's idea gains favor the boxing referees' gestures indicating unfair tactics may become as familiar to fans as the signals of baseball umpires and football officials. He says few spectators know when a fighter had fouled, and that referees sometimes overlook rule infractions because few fans see them and to belt action would only cause confusion. He believes those away from the ringside seldom know when a fighter loses a round by fouling and says the loudest sawdust on decisions come from those too far away to see clearly. Taylor demonstrates his proposed signals, pointing to offenders:

BUTTING Hand To Brow

LOW PUNCH Moving Arms Down

ELBOWING Elbow Lifted

RABBIT PUNCH Hand Behind Neck

HOLDING Arms Forward, Fists Clenched

HEELING Palm Upraised

### SUGGESTS HOSPITAL HOMES TO TAKE CARE OF INSANE

(Continued From Page One) mended, not dangerous patients from the present hospitals for the insane, thereby making room in them for the insane who now crowd county homes and county jails. Mrs. Bost said. The district institutions would have sufficient capacity to care for the physically and mentally disabled, she believes. The district institutions would have sufficient capacity to care for the physically and mentally disabled, she believes.

## WFC AND DUKE CLASH TONIGHT

### Blue Devils and Deacons to Turn on Heat This Evening

Durham, Jan. 7.—The heat will be turned on in North Carolina's Big Five Basketball race tonight when the Blue Devils of Duke and Wake Forest's Demon Deacons clash in Duke gymnasium here.

The varsity game will start at 8:30 o'clock, following a freshman preliminary between teams of the two institutions which gets underway at 7:15.

The Deacons, featuring one of the finest players in the history of this section's basketball in southpaw Jim Waller, are primed to turn in their second victory over the Blue Devils in 11 years.

For 10 years starting with the 1928 season and continuing until the final game of last year's campaign, the Deacons failed to win a basketball game from Duke and they were played at the tune of two each year.

But last year, with the brilliant Waller leading the way, the Deacs took the game at Wake Forest by a count of 34-30. Waller later was one of the outstanding stars of the Southern conference tournament and was named an All-Southern conference forward.

Tonight's clash looms as the best early game of the season and may be one of the closest played in the Big Five this season. It will go a long way toward determining just which team has the best chance of being able to stop the march of North Carolina's White Phantoms to their second straight state championship. It will also count in pre-tournament Southern Conference rankings.

The Blue Devils have performed well—better than expected—in their early games and may come through the campaign with better results than at first anticipated. The re-joining of the team of Russ Sparky Bergman, flashy forward of last season, will undoubtedly help. Bergman will make his home debut in tonight's game.

Coach Eddie Cameron will probably start: Ed Swindell and either Bergman or Fred Edwards, forwards; Bob O'Mare, center; Thomas and John Hoffman, guards.

## AP Editors Name Years Top Stories and Photos

LABOR DRAMA at its peak was caught by Carl Linde, Chicago AP staff photographer, in this close-up of the battle in which two persons were killed and many injured when police clashed with steel strike demonstrators in South Chicago on Memorial day. The picture symbolizes a violent labor year in which workers fought both against their bosses and among themselves.

## Stanley Selects Five Pictures Highlighting Violence In 1937 Of Mankind, Nature—and Fate

(By the AP Feature Service) THERE NEVER WAS a news picture year like 1937. Even picture editors, who are likely to get pretty blasé about news pictures will tell you that.

- The reasons:
1. Picture-reporting is still a young branch of journalism; its editors, photographers and technicians still are learning new tricks which enable them each year to surpass previous achievements.
  2. The year produced a bumper crop of the kind of big news stories—wars, disasters and the like—which make great news pictures.
  3. Pure luck—the kind of luck that put photographers on the scene, with cameras loaded and ready to shoot, when the Hindenburg exploded in their faces.

Edward Stanley From hundreds of photographs which cross his desk daily, Edward Stanley, in charge of the Associated Press News Photo Service, has picked the five on this page as outstanding news pictures in picture-reporting's greatest year. Four describe, better than words tense moments in four of the year's top news stories. The fifth is a dramatic sports picture from a year filled with drama in sport. Here they are:

## DAVIDSON FOE FOR CAROLINA

### "Wildcats" Already Have Victory Over Duke Quintet

Chapel Hill, Jan. 7.—North Carolina's varsity basketball team, minus the services of Forward Andy Bershak and Bill McCachren, completed preparations today for one of its stiffest assignments this season—Davidson—to be played Saturday night in Charlotte's Central High School Gymnasium.

The Wildcats sounded a warning Wednesday night that the Big Five crown worn by the Tar Heels for the last four years will be very much at stake, for they routed Duke's capable Blue Devils 40 to 22 at Winston-Salem. Duke's defeat was one of the worst suffered by the Durham institution in 10 years.

Led by sharp-shooters Ned Iversen, forward, and Jim Cowank center, the Cats ran off to a 20 to 12 lead at the half and continued to add to their margin after intermission. Iversen was top scorer with 13 tallies, followed by Cowank's even dozen markers. The Presbyterians passed brilliantly and guarded superbly throughout the game. Ed Swindell, high scoring Duke forward, was limited to only five points. John Hicks and Bill Kiesewetter, Davidson guards, also turned in bang-up performances.

With Bershak and McCachren out of the game, Tar Heel supporters will pin their victory hopes on the shoulders of three lettermen and two sophomores. The lettermen are Captain Earl Ruth, All-Southern and Foy Grubb, guards and Pete Mullis.

Carolina and Davidson broke even in two games last season. When the Tar Heels journeyed to the green City a year ago they were noosed out by an inspired Davidson club 35 to 33. Carolina ruled heavy favorite to win but the Cats showed marked superiority in snatching the scraps at opportune moments. In a return meeting at Chapel Hill the White Phantoms took the measure of the Presbyterians 34 to 20.

With McCachren and Bershak unable to play the Wildcats are conceded the edge.

## College Prepares For Boxing Bouts

Joe Alexander, Athletic Director of East Carolina Teachers College, announced that the boxing schedule is beginning to take shape and several meets are being scheduled.

The boxers are working out daily under the tutorage of Coach Alexander and James H. Johnson, well-known amateur boxer and E. C. T. C. student.

Outstanding prospects are Joe Williams, Greenville; Billy Daniels, Wilmington; Kenneth Kurnel, Massena, N. Y. The opener will be with the Winston-Salem Y. M. C. A. early in February.

## THANKS

Greenville high school, its students, the basketball team and the faculty, today wish to thank all the firms in Greenville who contributed money to buy new warm up suits for the boys' basketball team.

The suits have arrived and have been used in one game, last Wednesday night. They will also be used tonight in the game at Goldsboro.

The firms who contributed are H. L. Hodges and Co., Garris-Evans Lumber Co., Blount-Harvey, Respass Barbecue, Home Furniture Co., Lautares Jewelry, Orange Crush Bottling Co., McCormick Music Store, Star Cafe, and White Chevrolet Co.

## How's Your Health?

Edited for the New York Academy of Medicine

By Iago Goldston, M.D.

### SINUSITIS IN CHILDREN

Chronic disease of the head sinuses is a fairly common condition among children. Infection of the head sinuses is frequently associated with chronic nasal catarrh, with enlarged and diseased tonsils and adenoids, with disease of the middle ear and with a variety of constitutional disorders.

One authority on ear disease reported that in 100 cases of middle ear involvement in children, 86 had co-existing infection of the head sinuses. Another specialist observed a group of 150 cases of acute middle ear infection in children and found the associated sinusitis in every case.

Dr. Herman B. Marks of the Tuft College medical school, describes the hypothetical patient with chronic sinusitis as a child with a capricious appetite, whose weight has remained stationary, or has shown a downward trend. He is a restless sleeper and has frequent nightmares. During the winter he has frequent colds and with the advent of spring continues to catch cold after cold without any sign of abatement.

A British authority divides the young chronic sinusitis sufferers into four groups:

(1) The nasal type. Suffer from constant nasal catarrh but otherwise are usually in good health.

(2) The general type. Complain of headaches and from time to time run high temperatures ranging from 100 to 105 F. Between attacks they are dull with pasty and muddy complexions. They lack energy and are sometimes backward in school.

(3) The pulmonary type. Prone to suffer from recurrent bronchitis. Sometimes they are suspected of suffering from tuberculosis of the lungs. The most persistent symptoms are an intractable cough and lowering of general health.

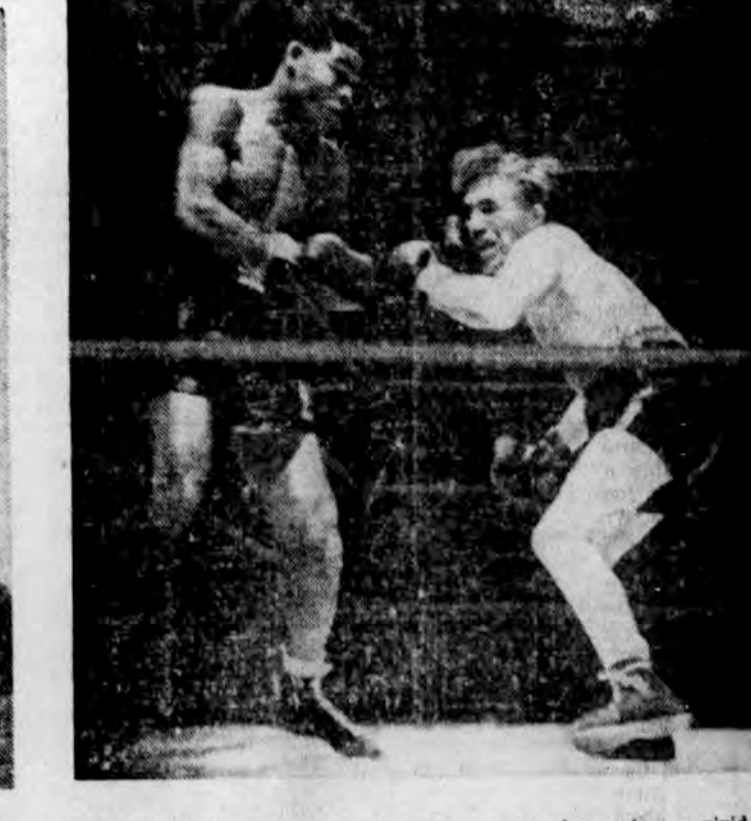

DISASTER never demanded greater courage from a photographer than at the moment shown here. Murray Becker of the AP New York staff was poised when the Hindenburg caught fire. This is one of a series of his pictures, just before the sky giant crumpled.

THE HORROR OF WAR when modern weapons strike is reflected in this picture from Shanghai. A Chinese air bomb, intended for a Japanese gunboat in the Whangpo river, is caught just at the moment it exploded on a British wharf. Perhaps no more dramatic than some later pictures from the war this was one of the very first to show America the ferocity turned loose in the Far East.

WORKING ON THE LEVEE at South Memphis to hold back the rising crest of the Mississippi river flood, these negro convicts were put into a dynamic composition which proves the photographer, John Lindsay of the AP New York staff, an artist as well as a news cameraman. Here you have the two elements which make a great news picture: a great picture of a great story.

HUMAN FURY unleashed before the camera also makes a vivid picture. No words could describe so accurately the power of Joe Louis' left as it connected with Tommy Farr's jaw last August. More proof that John Lindsay can click his shutter at right second.

# Movie of The Month: "Hurricane" Tops List, Says Coons

**By ROBBIN COONS**  
(AP Feature Service Writer)  
**HOLLYWOOD** — Twenty minutes of sound and fury entitled "The Hurricane" to a place among the important movies of film history and make it an obvious choice for this month's No. 1 production from **WALSH**.

Until the fictional storm of Novelist Nordhoff and Hall is realized on the screen, "The Hurricane" is a laudatory routine treatment of reliable cinema stuff that can be catalogued in the Island Idyll bracket. It is done with photographic beauty, generally good acting, and all the customary trappings of this type of film. Innocent, happy, carefree natives cavort in sarongs and leis, eat mammoth banquets from nature's abundant hands, and swim and run and dance as a colorful background for the story of the native youth Terangi and the bride Marama.

The tale of Terangi who loved freedom enough to accumulate a total of 16 years' jail sentence thru repeated attempts to escape, has its quota of excitement, especially in the escape sequences. But the real money's worth in the picture is that 20 minutes of wind, rain, and tumultuous water which constitutes the screen's most realistic and terrifying depiction of the elements to date.

Wonder At Survivors  
Unless too ecstatic reports on this

**Hurricane's Hurricane**  
Made With Wind Machines, Wave Coolers, Water Chutes

technical achievement lead you to expect too much, you'll find the Godwyn version of a hurricane a thrilling and devastating experience which may leave you limp in your seat. It makes the very praiseworthy typhoon of "Ebb Tide," another current film storm, seem like a good stiff breeze.

Aided by the furious moaning whine of the sound track, by the wild tempestuous music, and by a little imagination, you can share in the terror of the human beings who are washed and blown away with their pitiful houses by the wind that "overturns the world," and then you can marvel that there are survivors—Terangi and Marama among them.

**Hall Shows Promise**

The hurricane itself, engineered by James Basevi, the technical genius who did the earthquake sequence of "San Francisco" is so overwhelming that individual performances, even those of Raymond Massey as the duty-obsessed governor and Thomas Mitchell as convivial Dr. Kersaint, do not stand out as they might in a less realistic film.

Jon Hall as Terangi exhibits promise, a handsome physique, and grows as a swimmer and diver. His effectiveness in the prison sequence indicates a possible future as actor as well as athlete. Dorothy Lamour makes a beautiful heroine, and C. Aubrey Smith brings ruggedness to the priest's role. Mary Astor is sympathetic as the governor's wife, a role not overtaking her talents.

John Ford directed with his customary vigor, although his hand is not so apparent as in most of the films. That he brought 'em back alive—his actors and all who were subjected to Basevi's artificial storm—is not the least of his achievements here.

Also recommended: "Nothing Sacred," "True Confession," "Navy Blue and Gold," "A Damsel in Distress," "Second Honeymoon."

## Star Of The Month

**Beware Coughs** from common colds **That Hang On**

No matter how many medicines you have tried for your cough, chest cold, or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with any remedy less potent than Creomulsion, which goes right to the seat of the trouble and aids nature to soothe and heal the inflamed mucous membranes and to loosen and expel the germ-laden phlegm. Even if other remedies have failed, don't be discouraged, try Creomulsion. Your druggist is authorized to refund your money if you are not thoroughly satisfied with the benefits obtained from the very first bottle. Creomulsion is one word—not two, and it has no hyphen in it. Ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief you want. (Adv.)

## N. Y. Stock Market

Ne York, Jan. 7.—(AP)—Stocks found a little more rallying stimulus in today's market, but profit selling after Thursday's sharp turn kept many leaders within narrow bounds.

The list suffered a slight relapse at the opening. Support soon appeared and early declines of fractions to a point or so were reduced or transformed into advances of as much.

Bonds were uneven.

## State Exposition Manager Believes In Starting Early

Raleigh, Jan. 7.—State Fair Manager J. S. Dorton evidently believes in getting an early start. It's a long time until October but plans for the 1938 State Fair begin today when members of the Board of Agriculture's fair committee and Mr. Dorton inspect the exposition grounds near Raleigh in preparation of a report on "needs and policies for the fair this year."

Operated successfully by the state for the first time, Mr. Dorton reported that a profit of \$15,548.43, including \$7,500 in permanent improvements, was returned to the taxpayers by the 1937 exposition.

"Operation of the fair by the Department of Agriculture was begun March 4, 1937 with \$11,639.82," Dorton said. "Adding the \$8,048.43 net profit the state will have \$19,688.25 with which to operate the 1938 exposition."

"The fact that the number of exhibitors was nearly doubled during the 1937 fair is of primary significance and emphasizes the fact that the people of North Carolina approve the state operation of their exposition. A total of 790 exhibitors of livestock, 4-H Club, home agent, educational art, field crop, household, flower vegetable and culinary exhibits were entered last year, or an increase of 333 exhibitors over the previous fair."

"We are equally proud of the fact that \$12,664.92 in premiums were paid to North Carolinians, fair premiums being limited to state exhibitors."

## Plans for 1938 Fair Discussed at Meeting Today of Board of Agriculture Fair Committee

Fair Manager Dorton said that permanent improvements placed at the fair grounds in '37 included the reconstruction of an industrial building, rewiring of the electrical distribution system and the construction of a new walk way leading to the grandstand.
