DECLARES RFC WILL RESUME MAKING LOANS

Says Money Available For "Deserving Borrowers"

CHAIRMAN JONES SETS FORTH AIM

Roosevelt Declares Moderate Rise In General Price Levels Is Desirable

Washington, Feb. 18.—(AP)—Jesse Jones, chairman of the Reconstruction Finance Corporation, announced today the RFC would resume immediately the making of loans to "all deserving borrowers" whom the agency is authorized to aid.

President Roosevelt said, meantime, "a moderate rise in the general price level is desirable," but he made it clear he does not believe all prices should go up.

Answering a multitude of questions aroused by his recent assertion that prices were too low, Mr. Roosevelt read to his press conference a statement of administration policy as set out by the Secretaries of Agriculture, Labor and the Treasury and by the Federal Reserve chairman.

Subsequently he brought out that the maintenance of easy credit conditions was a part of the general program and that the Treasury and Federal Reserve Board would cooperate to that end.

"Our program," his statement said, "seeks a balanced system of prices such as will promote a balanced expansion in production. Our goal is a constantly increasing national income through increasing production and employment. This is the way to increase the real income of the consumers."

Meantime the Senate Appropriations Committee reported favorably the \$250,000,000 emergency relief appropriations bill, stripped of the "alien" provision voted by the House.

Senator Adams (D-Colo.) said the amendment would have permitted aliens to share in relief if they had declared their intention to become citizens or had "lived honorably" in the United States 10 years.

Other developments: The Rural Electrification Administration announced allotments, including Pitt and Greene Electric Membership Corporation, Farmville, N. C., \$25,000 for 25 miles of line to serve 127 customers in Pitt and Greene counties.

WEIGHT MAY BE GIVEN FREEDOM

Paul Wright wore a broad smile the first time in months after a Los Angeles jury which had previously convicted him of manslaughter for the killing of his wife and John B. Himmel, returned a second verdict that he was insane at the time of the slaying.

Five Thousand Farmers Attend Raleigh Meeting

BUSINESS MEN HOST AT MEET

Eastern Carolina Furniture Dealers Meet In City

A group of enthusiastic furniture dealers from all parts of Eastern North Carolina met at the Woman's club last night, discussed their common problems and decided to gather again in June at Ahoskie.

Expect To Revive Latest Movement For Local C. of C.

Although some may have formed the impression that the most recent movement for the establishment of an active Chamber of Commerce or some other form of sponsoring organization for Greenville has died down, such is not the case.

Indications are that meeting will be called shortly of the business and professional men in the city, at which time an organization will be perfected.

Defeat Recession With Advertising

By ROGER W. BABSON
Babson Park, Fla.—Feb. 18—Business sentiment is about as bad as I ever remember. I think it is even sadder than in the 1932-33 period. Yet, strange as it may seem this is a good sign. America has pulled herself out of former tall-spins. The turn has always come quietly and unobserved while pessimism and uncertainty were at their peak.

WAYNE COUNTY NEGRO-SLAYER GOES TO DEATH

First White Man Executed for Murder of Negro

EDGAR L. SMOAK ALSO EXECUTED

New Hanover Man Asphyxiated at State Prison For Poisoning Daughter

Raleigh, Feb. 18.—(AP)—Milford Exum, 39, of Wayne county, the first white man executed at State's prison for the murder of a Negro, and Edgar LeRoy Smoak, 40, convicted in New Hanover of poisoning his daughter, died by gas today.

It took administration of gas for 16 minutes, 20 seconds, before Exum was pronounced dead, and prison officials said that set a record. H. H. Honeycutt, former warden and now penal division disciplinarian, said the previous longest asphyxiation was about 15 minutes, 30 seconds.

Smoak was given gas only 13 minutes, 33 seconds.

Exum entered the deathchamber shortly after 10:30. He smiled and waved to witnesses watching through heavy glass walls.

"Good-bye, gentlemen," he said. He then shook hands with each person inside the gas chamber, including a minister, his executioner, guards and Warden H. H. Wilson.

After he had been strapped into the chair, the Wayne county man again had each man inside the death chamber shake his hand as it was held tight against the chair arm.

"I'll see you in heaven if you live right," Exum had counseled a few minutes earlier, as he gave out a 24-line poem he had written.

Gas was turned on at 10:38 and in 40 seconds Exum's head rolled back against his chair. Two minutes later his head fell forward, but it was clearly 14 more minutes before the doctor pronounced him dead.

There were no Wayne county witnesses.

Exum and Earl Sasser were convicted of the robbery-murder of Jim Williams. Sasser's conviction was set aside and he was allowed to enter a plea of being an accessory and he is serving a term of life imprisonment.

BUGHOUSE LAB GROWS INTO BIG-TIME MUSEUM

Washington, N. C. (AP)—The most interesting place in this town is the "Bughouse Lab," a monument to the scientific curiosity and genius of the younger generation.

It is a two-story museum with highly specialized departments—the outgrowth of a tow-sack tent a few boys with hobbies used to house their butterfly and snake specimens in 1923.

It has added the dignified line "Washington Field Museum" to its title and has a full-time director, but it is still run by the youngsters.

WEDNESDAYS AND SATURDAYS
Between 3 and 6 p. m.

BEAL SURRENDERS IN NORTH CAROLINA

Fred Erwin Beal (center), former communist labor organizer, is shown just as he left the Supreme court building in Raleigh after surrendering to Attorney General A. F. Seawell (right). Beal fled to Russia nine years ago while under a 17 to 20 year sentence in North Carolina for conspiracy to murder Police Chief O. F. Aderholdt of Gastonia. A month ago he was arrested in Lawrence, Mass., as a fugitive, and recently gave himself up in Raleigh. Shown at left is J. S. Braswell, prison fugitive officer.

Seven Of Eight Men Saved From Death In Coal Mine

TORNADO TOLL LISTED AT 21

Louisiana Boom Town Visited By Death and Destruction

Rodessa, La., Feb. 18.—(AP)—A crackling, roaring tornado that dipped into the industrial section of this North Louisiana oil boom town last night brought death to at least 21 persons, injured three score and caused damage variously estimated between \$250,000 and \$400,000.

An accurate check of the dead and injured had to await the restoration of order here and reports from Shreveport, Vivian, La., and Atlanta, Texas, where many of the victims were taken.

Ten bodies were counted in the morgues at Atlanta. Six others lay in Shreveport and at least two were in an improvised grocery store morgue here.

Doctors George Morrison and Charles Holt, who directed treatment of the injured here, agreed the death list might run between 20 and 25 and the injured about 60. Together they treated more than a score in their offices, eight of whom died.

The deity Brahma is represented in Hindu art as four-headed and four-armed, and riding a swan or goose.

Found in Rock Hole of Flooded Hazleton, Pa., Mine

Hazleton, Pa., Feb. 18.—(AP)—Seven of eight men trapped by a rush of water in an anthracite mine at nearby Jeannette, were found today uninjured. The eighth was dead.

Officials of the Lehigh Valley Company said the dead man was Paul Kuritz, 41, of Hazleton.

Rescuers pushing through tons of debris during the night found his body buried in mud piled up by the water that rushed into the mine yesterday from a pool left as the result of surface mining.

The others were safe in a "rock hole" high above the reach of the water.

All said they were uninjured and "felt fine."

The rescued walked out amid the cheers and shouted greetings of wives, children and others who spent an anxious night about the mine's mouth. But there was silence when the body of Kuritz was carried out.

Two men rode to safety yesterday on the face of the wall of water which deluged the mine.

One of them, Bernard McAlarney, said, "I had just fired off two sticks of dynamite to make a hitch in the bottom rock for a set of timber."

"Forty And Eight" 'Wrecking' Tonight

The "Forty and Eight" degree team of Wilson will be in Greenville tonight to "wreck" a number of Greenville legionnaires who have recently made application for membership in the order.

Tonight's initiations will bring the total number of members in Pitt county up to the 15 minimum requirement for the establishment of a vantage here.

The "Forty and Eight" is the high degree of the American Legion and is composed of legionnaires who have rendered outstanding service in the Legion.

CALL MEET OF WET COUNTIES

To Determine Wishes of Counties Having Legal Liquor

Wilson, Feb. 18.—T. H. Woodard of Wilson, chairman of the Advisory committee of the Eastern Carolina Association of County Commissioners, said the committee voted unanimously here today to call a meeting of commissioners of 27 counties operating ABC stores.

The meeting would be held here March 4.

Woodard said it was the opinion of those present today that such a meeting should be held to determine as nearly as possible the wishes of counties with reference to the legal sale of alcoholic beverages.

Schedule Inquest Into Wreck Death For Next Friday

Inquest into the death of Joseph Edgar Gaylor, who was killed Wednesday afternoon in a collision of two automobiles, will be held Friday afternoon of next week at 2 o'clock.

Meantime John H. McElroy, driver of the automobile which was in collision with the one driven by Gaylor, is being held under bond of \$1,000, which was posted immediately after the fatal accident.

Funeral services for Mr. Gaylor were conducted at the home on Broad street this morning, followed by burial in Greenwood cemetery.

Mr. Gaylor is survived by his wife one small daughter, his mother and six brothers.

DATE CHANGED FOR ELECTION ON TWO ISSUES

Athletic Field and Recorder's Court Vote March 28

ORDER SPECIAL REGISTRATION

Majority of Qualified Voters Necessary To Carry Athletic Field Bond Election

The date for deciding two major Greenville issues—the development of an athletic field and the establishment of a municipal recorder's court—has been postponed from March 7 to March 28.

Faced with legal technicalities which prevented the holding of the election the first Monday in March, the Greenville Board of Aldermen, in a called meeting last night, set the vote three weeks later than the original date.

Citizens will vote on the question of authorizing the Board of Aldermen to sell up to \$35,000 worth of bonds for the development of an athletic field.

The athletic field is not regarded as a "necessary expense" and a special registration was held to be necessary. Persons voting on the municipal recorder's court proposal also will have to register.

Any person registering and failing to vote on the bond question will automatically be recorded as voting against the proposal.

This situation is not the case, however, in regard to the court. A person who registers must cast a ballot on this proposal if he wishes to be recorded either for or against establishment of the court.

A majority of the qualified voters (those properly registered) is necessary for the passage of the bond election, while a majority of the voted cast is necessary for a favorable decision on the court proposal.

A special registration has been ordered for both, however, and anyone wishing to vote must re-register between February 26 and March 26.

Mrs. J. C. Tyson is registrar for precinct one, persons living in wards one, two and three, and who vote at the court house. Mrs. W. W. Phelps is registrar of precinct two, including wards four and five, with the voting place at the city hall.

The law prescribes that the registrars be at the respective voting places on Saturdays, but the books will be open during the entire month and a person can register at any time.

(Continued on Page Six)

Smoak Asks To Be Buried By Side Of Daughter He Slew

Will of Wilmington Man Executed At State's Prison Left in Hands of Newspapermen

Raleigh, Feb. 18.—Edgar Leroy Smoak, stoical railroad carpenter whose life was snuffed out in the gas chamber this morning, will in death lie side by side with the daughter for whose cold-blooded poisoning he was executed; if his brother carries out a last wish, expressed in Smoak's will, made on "Death Row" and turned over to your correspondent to be probated in New Hanover County.

The Smoak will recites a realization "that in all probability I shall be executed by the State of North Carolina on the 18th day of February, 1938" and in one of its sections says:

"I hereby instruct my brother, S. O. Smoak (who was named executor) to give my body a Christian burial, same to be buried in Edisto Church cemetery, near Orangeburg S. C., as near my daughter, Annie Tibbels, as possible."

Nor did Smoak overlook the two New Hanover county lawyers who fought so doggedly, though vainly, to save him from his fate. The very

What's the world coming to? Scientists can not tell you whether you will be living 25 years from now, but they can and do tell you how you will live, if you live at all.

Social and Personal

Mr. and Mrs. N. O. VanNortwick and Miss Katherine VanNortwick have gone to Florida.

Mr. and Mrs. R. C. Stokes, Jr. have returned from Florida.

Miss Margaret Harris left today for Charlotte where she will undergo an operation in Charlotte Sanatorium. Miss Harris was accompanied by her mother, Mrs. R. E. Harris, and her sister, Miss Estelle Harris.

Mrs. Charles W. Priddy of Norfolk, is visiting in the home of Mrs. W. E. Young on East Fifth street.

Mr. and Mrs. H. C. Sugg and Miss Marjorie and Elizabeth Sugg spent yesterday in Goldsboro and Raleigh.

Mr. and Mrs. Marvin Sugg and small daughter "Suggie" are spending a few days in Charlotte.

E. T. Evans of Rocky Mount, was in town today.

Miss Mary Rivers may arrive this afternoon to spend the weekend with her mother.

To Give Masquerade Dance. The German Club will give a masquerade dance at the Country Club on Monday night, February 28th. Dues are now payable to Mrs. Durwood Tucker.

Speaks at Snow Hill. Dr. Helen Spangler of the college reviewed for the Colonial Dames of Snow Hill this afternoon the book "New Frontiers of the Mind," by Dr. J. B. Rhine of Duke.

Miss Spangler did her advanced study in science at Duke, and has been interested in the experiments in extra-sensory perception carried on there by Dr. Rhine, a study summarized in his book.

Mrs. Roy Barrett accompanied Miss Spangler to Snow Hill.

West Greenville F. T. A. The Parent-Teacher Association of West Greenville met on Wednesday afternoon in the school auditorium with a very good attendance.

Reports from different committees were submitted and Mrs. Carl Abee stated that lunch had been provided for children who needed it, and that the welfare committee would see that this service would continue as long as it was necessary.

As the most recent project of the school is the establishment of a reading room, we were delighted to welcome Miss Naomi Newell of the college, who gave us a very interesting and complete account of the Book Fair which she recently attended in New York City. She also told us many interesting things about books, using several books of her own collection as illustrations, and devoted much time in reviewing children's books.

We were glad to welcome a number of friends including Miss Lucile Charlton of the college as guests for the afternoon.

Miss Agnes Pulllove's grade won the prize for having the most mothers present.—Reported.

Please Audience. "The Queen's Husband," Robert Sherwood's satire comedy on theories of government, given at the college last night by the American Repertory Theatre, kept a large audience highly entertained from the first curtain to the last.

The entire company, all of whom are experienced in the theatre, offered good support to the central figure, the little king, admirably played by Gregory Dean, actor-manager, who has an enviable record in both capacities.

Deane managed to win the sympathy of the audience near the beginning and carried them along with him so well that they were delighted to see the proverbial turning of the worm, when the king, without entirely losing his meek air and his ophiogetic smile, finally managed to out the military dictator, put a more liberal group in power, and save his daughter from marriage to a man she hated.

He was well supported by the domineering queen, Barbara Benedict, who has appeared in productions of many groups, including the Theatre Guild, and has played in support of well known stars; and the militaristic general, played by George Spaulding, long known in both England and the United States as actor and producer.

The attractive and rebellious princess and her lover, played by Deborah Wood and Millard Dowling, furnished the love story.

Phipps the part of the butler, taken by Robert Oberreich, production manager and actor of experience, furnished a considerable amusement by his smug snobbishness.

In fact, every part made its contribution to the total effect of satirical humor.

The play itself managed to get in a good many blows against common misconceptions and prejudices—one notably against the idea that permanent peace may be attained by force, when the king says—"But we can't have permanent peace until those fellows down there stop shooting each other."

The American Repertory Theatre, organized to bring good plays to theatre-loving audiences outside the theatrical centers without sacrificing quality in acting or staging, is on its first southern tour.

The use on the stage here of the set carried for "The Queen's Husband" showed the adaptability of the group, a quality on which they pride themselves.

They carry with them three complete sets from which they can build up a number of backgrounds for the plays of their repertory.

The company came from Salisbury to East Carolina Teachers College, and goes from here to Atlanta. Later it will play at Chapel Hill.

In 1928 it was estimated that one immigrant entered the country every 15 minutes, and one emigrant left every 14 1/2 minutes.

Returns From Hospital. Mrs. Bill Minshew who has been quite ill in Duke Hospital, Durham, has returned home.

On Honor Roll. Information has come from Coyne Electrical School, Chicago, Illinois, that Arthur Turner, son of Mrs. W. H. Turner, Greenville, who has been attending school there, was one of the honor students and deserves to be commended upon his high average, especially due to the fact that he worked at one of the theatres during extra time.

Smith-Forbes. Mr. and Mrs. W. S. Forbes announce the marriage of their daughter Helen Louise to Mr. William Kinsey Smith on Wednesday, February ninth, nineteen hundred and thirty-eight, Greenville, North Carolina.

At Home. Greenville, N. C.

Pactolus School Honor Roll. Thurman Dail, Charles Hill, Winnie Forlines, Everdene Johnston, Frances Williams, Jean Forbes, M. D. Baker, Vergil Carson, Jasper Harper, Lloyd Johnston, Dennis Sutton, Beulah Tye, Rachel Alcox, Elizabeth Rogers, Virginia Ross, Lillian Weatherington, Margaret Willis, Ellen Meeks, Dorothy Vincent, Eldred Pridden, J. W. Lee, Robert Carraway, Samuel Manning, Hilda Johnston, Katherine Briley, Polly Barrington, Steve Johnston, Grace Ward, Mary E. Beacham, Lillie Mae Briley, Mildred Harper, Ruth Buck, Joe Briley, Doris Carson, Billy Wagoner, Juanita Mizzelle, Elizabeth Campbell, Thelma Cherry, Elsie Barnhill, Aileen Johnston, Elsie Cherry.

Honor Recent Bride. Bethel, Feb. 18.—Mrs. D. W. Alexander and Mrs. W. S. Brown entertained Thursday night, February 10, from 8 to 11 o'clock, in the home of Mrs. Alexander in honor of Mrs. Donnie Hardison of Williamston, a recent bride. This entertainment proved to be a shower.

The home was thrown en suite and beautifully decorated with various flowers.

As the guests arrived they were requested to leave their gifts in the big boxes placed on the porch for that purpose, and the packages were later presented as parcel post packages to the bride.

After various games were enjoyed and refreshments served, the bride with the groom were presented the packages. The bride, assisted by the groom, had the pleasure of opening each package and thanking the guests present for the same.

Mrs. Hardison before her marriage on January 29, was Miss Mildred Langley, daughter of the late Moses Langley and Mrs. Dave Wilson.

Mr. and Mrs. Hardison are making their home in Williamston, where Mr. Hardison is with the Courtney Furniture Co.

Bethel Round Table Club Meets. Bethel, Feb. 18.—On Tuesday afternoon, Feb. 15th, the Round Table met with Mrs. F. L. Andrews, Jr. at her home on James street.

Mrs. A. M. McWhorter, president, presided over the meeting. The regular business was transacted.

The meeting was then turned over to Mrs. T. R. Andrews. She read a most interesting paper on "First President's Wife, and Present President's Wife." Mrs. Andrews very vividly portrayed the character of these two most interesting women, Mrs. George Washington and Mrs. Eleanor Roosevelt.

Current topics were discussed and then the hostess served a delicious salad course. The plates were decorated with a small cherry trees and a hatchet-shaped sandwich suggestive of George Washington's birthday.

Most of the members and the following guests were present: Mrs. R. L. Barnhill, Mrs. Alton Carson, Mrs. Wadie Ward, Mrs. J. W. Rook, Mrs. X. E. Manning, Mrs. I. Combs, Mrs. E. L. Mayo, Jr., Mrs. Elizabeth Benton, Mrs. P. S. Pollard, Mrs. J. P. Harris, Mrs. J. P. Hooker, Mrs. W. C. Whitehurst.—Reported.

Sans Souci Club. On Tuesday afternoon at her home on West Fifth street, Mrs. B. B. Sugg was a most gracious hostess to the members of the Sans Souci Club. The home was lovely throughout with beautiful spring flowers.

In the absence of the president, Mrs. W. E. Hooker, a brief business meeting was conducted by Mrs. W. L. Hall. This was followed by an interesting discussion of different club books read by the members.

After the new books were passed, Mrs. Sugg introduced the guest speaker, Rev. W. A. Ryan, Mr. Ryan discussed the war situation along broad lines and pointed out the state of affairs which America faces today both in Asia and Europe.

Japan's needs and ambitions, and her possible success in China were shown to be of potential danger to America's ideals. The danger to South America as developed by Germany and Italy was pointed out. Against these possibilities was weighed the solemn fact of war, the sacrifice of America's youth, and the passing of democracy. In the light of these facts, a discussion of the naval expansion bill was entered into by the members.

At the close of the meeting the hostess, assisted by Mrs. Judson Blount and Mrs. L. W. Gaylord, served delightful refreshments.—Reported.

Nick Basheer, who formerly operated the Frozen Delight at the corner of Fourth and Evans streets, declared today he had no interest in the New Frozen Delight, which was opened at 309 Dickinson avenue this morning, but was devoting his entire interest to the Carolina Grill.

Forty Years Ago Today

THE DAILY REFLECTOR Friday, February 18, 1898

Personal M. F. Turnage is quite sick.

Notices Lent begins next Wednesday. Knights of Pythias meet tonight. Daughters of Rebekah meet tonight.

The Goldsboro tobacco market has closed for the season.

Manager W. S. Atkins returned today from Snow Hill where he has been putting in a telephone connection with Greenville.

The public school for the colored race will open the first of March. The passenger train gets worse. It was an hour and a half late last night.

Mapping The Town. An agent of the Sanborn Map Company is here taking drawings for a new insurance map of the town. To get the distances and location of buildings he often has to go into yards. We mention this so that if any of our people see a stranger viewing the premises closely in the next few days they may know what he is doing without having to consume his time in making explanations.

Library News The Governor General's wife, speaking before the Women's Association of the United Church of Canada, said that in reading aloud, more than in any other way, parents and children are drawn closely together. Classics should be woven into the memories of children so they will learn the value of books. "Nothing takes the place of books," she said. "Radios and films are enjoyable and educational, but in a book you have to make a mental effort to cooperate with the author. It will be a dreadful world when we do everything mechanical—we shall not be half the people we are now."—Christian Science Monitor.

Neglect Libraries. "The people of North Carolina have persistently and shamefully overlooked the finest agency for a happy, intelligent, and cultivated citizenship, to-wit: the public library."

"Everyday civilization is dying and being born again in the lives of individuals," writes Mr. Polk in "Books and the Minds of Men"; "No one is born civilized. It is something he acquires or does not. The state, the county, the city which fails to give him the means of acquiring it is falling in its primary duty."—From the Writings of William Polk.

Home Libraries For Better Reading.

During the past fall the American Booksellers Association held in New York what they termed a "Book Fair." This was held from November 5-21. Through the cooperative efforts of these book publishers a list of 500 books which would make an ideal home library. This list might also be a check on one's own reading background.

Biographies included in the list were: Education of Henry Adams; Twenty Years at Hull House; The Conqueror; Richelleu; Life of Samuel Johnson; Jefferson in Power; Confederate Portraits; Union Portraits; Testament of Youth; Life of Emerson; Fighting Angel; Autobiography of Andrew Carnegie; Cellini's Autobiography; Abraham Lincoln by Charnwood; Autobiography of Gilbert K. Chesterton; Present Indicative; Story of My Life by Clarence Darrow; Microbe Hunters; John Hay; Gerald; a Portrait; Franklin's Autobiography; Son of the Middle Border; Private Papers of Henry Rycroft; Father and Son; Forty Years for Labrador; Henry the Eighth; American Doctor's Odyssey; Forty-two Years in the White House; Andrew Jackson; the Border Captain; The Raven; Along This Way; Story of My Life; Something of Myself.

Upstream; Jane Addams; Napoleon by Ludwig; Country Kitchen; The Woodrow Wilson; President Masaryk Tells His Story; Disraeli; Henry Clay; Story of San Michele; Grover Cleveland; Nijinsky; Mark Twain by Payne; Green Laurels; Everybody's Peppy; And Gladly Teach; Immigrant to Inventor; Autobiography; Audubon; Abraham Lincoln by Sandberg; Story of a Pioneer; Personal History; Pedlar's Progress; Autobiography of Lincoln Steffens; Queen Victoria; Stonewall Jackson; Life of Pasteur; Kit Carson; House of Exile; Up From Slavery; P. T. Barnum; George Washington; Frank Lloyd Wright's Autobiography.

A list of the fiction included: "JYD" —(Stanley News and Press.)

staying with Mrs. Walter Langley, returned to her home in Greenville Sunday.

Sick List. Miss Koma Lee Owens has been very ill, but is much better and expects to return to her duties soon.

Mrs. J. R. Davenport is greatly improved after a three weeks' illness.

EXPLAINS DETAILS OF FARM PROGRAM (Continued from page 1) Acreage and commodity allotments will be made for each of the five crops. If a crop is so large that it approaches high levels, the Act provides that a marketing quota will be effective if two-thirds of the farmers voting in a referendum of producers of the commodity approve the quota.

Effect on consumers:—AAA officials believe that consumers will be amply protected by the reserve provisions of the new Act. The wheat, supplies provided for are intended to assure plenty of wheat at all times for the nation's bread supply and for export and reserves. The corn supplies are expected to have a stabilizing influence upon the supplies of wheat.

Crop insurance—The new Act also provides for crop insurance for wheat, this to begin on the 1939 crop.

Other programs—In addition to the general program made possible by the Act, the other parts of the national farm program will be continued under existing legislation. The marketing agreements among fruit and vegetable and dairy producers will continue.

The purchase of surpluses by the Federal Surplus Commodity Corporation for relief distribution and for the purpose of relieving temporary surpluses of perishable crops.

BUSINESS MEN HOST AT MEETING (Continued from page one) were hosts for the meeting. The first such gathering was held in Rocky Mount late in 1937, but indications are the meetings will be held regularly from now on.

Sixty-five dealers attended last night's session, a substantial increase over the 47 who attended the Rocky Mount meeting.

An entertaining program, presented under the direction of Mrs. Ray Tyson, was enthusiastically received by the furniture men.

L. A. Stroud, of Quinn, Miller & Co., acted as toastmaster over the

meeting, which was entirely informal.

No feature addresses were scheduled, but the meeting was conducted as a round-table discussion with several persons making talks on common problems confronting furniture dealers.

J. R. Gilmore, official of the Southern Retail Furniture Association, was one of those addressing the group.

Armand Loriaux, a Belgian, perfected the uniform tone accord, which permitted the same tone to be played on "out and in" bellows, in 1892.

EMPIRE FOR A LADY

BY ALAN LEMAY

SYNOPSIS: While revolting Dyak tribes besiege Rajah Mantusen and the Malays, James Clyde, trader and gun-runner, faces the greatest decision of his life. A young English girl, Christine Forrester, is behind the war, completing a plan of her dead father for Dyak freedom. With Christine's support Clyde can become rajah of Balingong. But Clyde is in love with Christine, and I (Paul Thorne) am, too. Christine is everything a white man says goodbye to when the tropics swallow him up.

Chapter 28
'Balingong Needs Clyde'
 SO I WENT to the Avon. It was I instead of Clyde who sat beside Christine on the Avon's after-deck while the low moon of Sumanlang laid bars of silver across us, and the whole world seemed to swim every time she looked me in the eye.
 First, of course, I explained that Clyde was too sick to come, and that I had persuaded him to go to sleep by promising that I would come and talk to her instead. I exaggerated, as much as I dared, how bad off he was—almost literally unable to keep his feet. She accepted that. After all, neither Captain Stocker nor her brother was very often standing up.
 And now I explained to her as well as I could why Clyde would not take the rajahship of Balingong, even if he could get it away

It was signed by Mantusen and pledged upon the Koran in the name of Allah.

from Mantusen. I took a lot of time to it, but most of my remarks might just as well have been left unsaid. I could make her see his reasons, but I could not make her feel them. That his refusal was definite and final was all that really mattered to her.
 I had expected her to protest when I finished my story, and try to reason with me, but she did not. Perhaps because it was I who was here, and not James Clyde, there was no argument, no weaving of dreams; only a long blackly empty silence, after I could find no more to say.
 She said at last, "I believe—he really means it."
 "I can tell you," I said, "that I know he does."
 I had never seen her eyes go lifeless before. She turned her face to the water and this time the moonlight made her profile look very tired, and very pale. She did not speak for a long time.
 When she did speak her voice was so sad, so unhappy that I was hurt by every word. It was as if she were looking down a long future that no longer held any shadow of hope.
 "If ever in the world a time or place needed a man, Balingong needs Clyde."
 If Clyde had been there then, I know that he must have broken. Or at least, she could have made him break. Suppose she had changed her words a little so that she said, "If ever in the world a woman needed a man, I need you now." She could have had my life in a second; and Clyde's too, I think.
Hooked!
CHRISTINE said, "There's only one thing left to do." Her words were so low that they were almost inaudible. "I will have to make my brother rajah of Balingong."
 It hit me with a force that was awful. So this was why the British were the best empire builders on earth! No desertion, no lack of resources, seemed able to make this girl turn.
 "He can't do it," I said savagely. "It's in him to do it!"
 How far will Clyde and Paul go for Christine? Continued tomorrow.

LET'S TALK FACTS AND FIGURES!

NO OTHER CAR IN THE WORLD HAS ALL THESE FEATURES

- ★ NEW DYNAFLASH VALVE-IN-HEAD STRAIGHT-EIGHT ENGINE
- ★ NEW TORQUE-FREE SPRINGING
- ★ TORQUE-TUBE DRIVE IN SEALED CHASSIS
- ★ NEW QUIET ZONE BODY MOUNTING
- ★ ANOLITE PISTONS
- ★ AIRBOAT CARBURETOR
- ★ NEW BULL'S-EYE STEERING
- ★ TIPTOE HYDRAULIC BRAKES
- ★ KNEE-ACTION FRONT SPRINGING
- ★ UNSTEEL BODY BY FISHER
- ★ BUILT-IN DEFROSTER CONNECTIONS
- ★ AUTOMATIC TRANSMISSION OPTIONAL ON SERIES 40

WEIGH the new cars dispassionately in the light of what they offer and the facts stand boldly forth as these:
 Buick is the ONLY car on the market today offering the efficiency of valve-in-head straight-eight design—modernized with the phenomenally efficient new DYNAFLASH principle of combustion.
 Buick is the only car your money can buy with the marvel-ride of TORQUE-FREE SPRINGING — springs of stout, shock-smothering coiled steel that lessen shock-risks, lengthen tire life, actually make the whole car more directable.
 Buick is the only car with the safety-security of Unisteel Body by Fisher — plus the blessed quiet and peace of Silent Zone Body Mounting.
 Buick is admittedly the best looking car on the market—chosen as such by popular vote with a greater margin over its nearest competitor than any other car enjoys!
 Buick's performance is easily the most outstanding on the road — for soaring, thrilling lift and power it doffs its hat to no other car even approaching it in size and comfort.
 Such are the facts, and on them you can well decide, "Better buy Buick!"
 But they do not end the tale. There are two points dealing with figures still needed to complete the full picture of Buick value:
 — Buick is not only the lowest-priced straight-eight of its size on the market — But Buick actually lists at lower figures than do some sixes!
 Check the facts, check the figures. We know where you'll find yourself in the end.
 In a Buick dealer's showroom getting the dope on his easy terms!

"Better buy Buick!"

You'll Run Your Own Plane In '63 —Or A 140-Mile -An-Hour Auto

While we marvel at the strides of science and industry in the last quarter century, researchers are charting advances equally remarkable for the next 25 years. This is the first of five articles in which Alexander R. George, after talking with the planners, pictures life in 1963 as it shapes up in the laboratories and on the drafting boards of 1938.

By ALEXANDER R. GEORGE
 (AP Feature Service Writer)

ONLY 35 years have passed since President "Teddy" Roosevelt was praised by the newspapers for his "characteristic courage" in riding an automobile.

Today more people in the United States ride automobiles than use toothbrushes. Teddy's grandchildren can cross the Pacific in a passenger plane, and transport pushes on toward undreamed speed and comfort.

Stratosphere Travel

From scientists and technicians who toil on devices to cater to a populace which travels more than any other in world history, comes this preview of transportation in 1963.

1. AIR TRAVEL DE LUXE. The China-bound North Orient Express slips through the placid stratosphere in the air-conditioned dining-dancing salon. New York Importer Jack McGee tops off luncheon with strawberries and cream some 25,000 feet above the frozen tundras of the Arctic.

He and his 200 fellow passengers are on a two-and-a-half-day flight from New York to Peking. In deep cushioned chairs they enjoy a television presentation of the football game between McGee's own Fighting Irish and the Golden Gophers of Minnesota.

After dinner and dancing to melodies from San Francisco, McGee chats by radio telephone with his wife in their Long Island home.

Pipe dream? Not if you take the word of conservative aviators. Technicians now are working on super-charged engines and cabins for high altitude atmosphere, and these serious talk that coast-to-coast stratosphere trips will be offered to traveler in two or three years.

The Family Plane

2. MIDDLE-CLASS FAMILY FLYING.—On a sizzling Sunday morning in July, Groceryman Joe Schultz of Topeka, Kas., drives his auto plane from the home garage down to Topeka's Field for private flyers. Mrs. Schultz, the two children and an automatic ice cream freezer are with Joe as he takes off in his low-priced, "fool-proof" plane for a Sunday outing in the Colorado mountain country.

Flight of fancy? Aeronautical folks are confident all this will come true within 25 years. Roadable aircraft already are here. The steady improvement in small planes, plus American marketing talent, a generation growing up determined to fly and the vast air "roominess" of the United States, presages flying by a sizeable percentage of the population. Experts say volume demand will bring mass production and low-priced aircraft.

3. MOTORING IN 1963 — Vermonter Aaron Snowbound and family leave home in a blue-gray dolphin of the highways for an autumnal week-end at the national capital.

Their 1963 car is a bit bulbous-nosed, boasts "dining car window visibility," super-safety glass all around and perfect air conditioning. The feather-weight metal auto, streamlined like a fish, has a thick outer layer of rubber to reduce collision hazards.

Chemically-treated fuels help make the compact power plant almost 100 per cent efficient. The Snowbounds have put a half-pint of essence of heliotrope in the fuel tank to make the exhaust fumes pleasant for other drivers on the road.

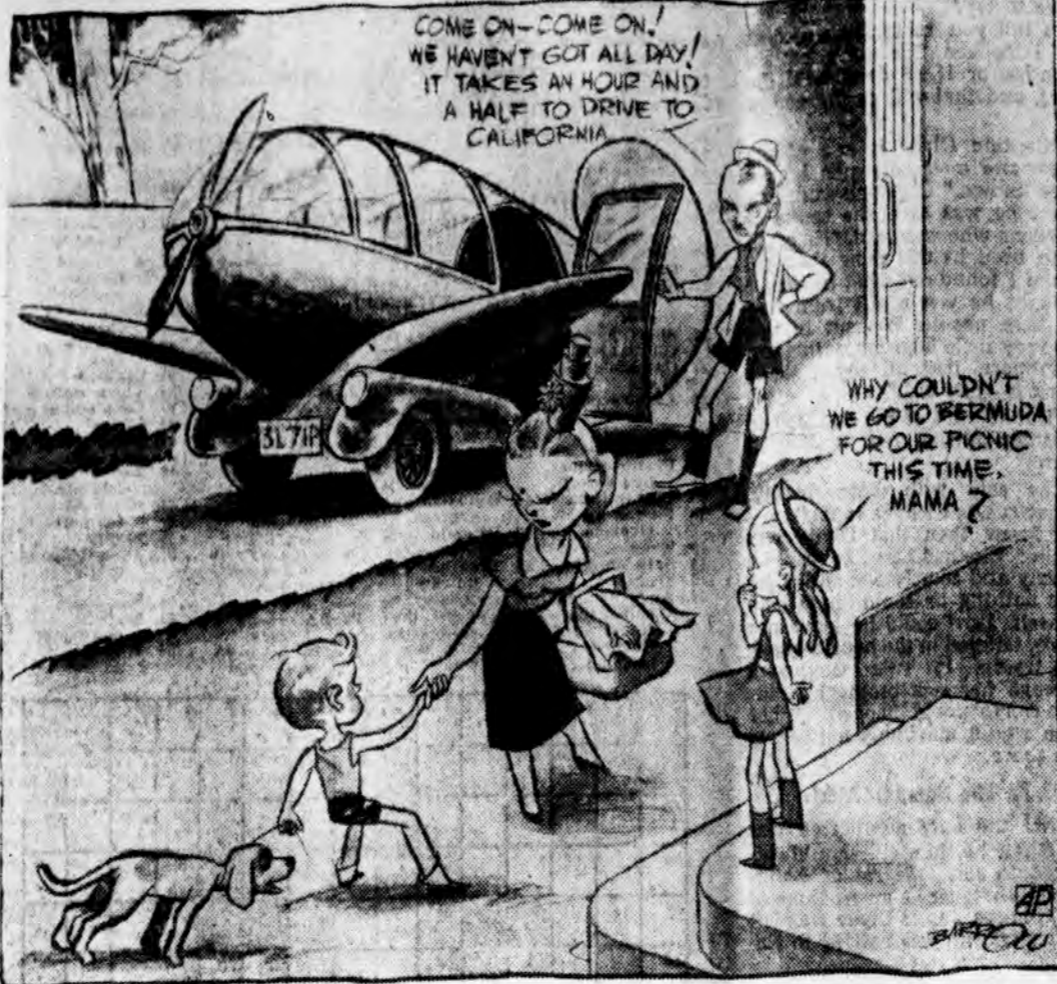

4. THE TRAIN IN 1963 — The Cornbelt Comet glides out of Chicago, its horn trumpeting a melody of air revolt to suburbanites. Picking up speed, the metallic rabbit of the rails soon is a maize-striped streak of corn-flower blue in the prairie dusk.

Says Iowa Farmer Hoffman to his hired men as they watch the streamer whiz toward Des Moines: "Looks like she's hitting 130 to-night Hank."

In the softly-illuminated, vibrationless dining car of the Comet, white-haired Henry A. Wallace, former secretary of agriculture, dines on corn-fed chicken and quick-frozen golden bantam corn. Behind the diner is the music-movie television salon, air-conditioned, noise-muffled, free of dirt and bacteria.

Prime in the transportation graveyard also is that venerable carrier of freight, the wooden box-car. The "side-door pullman," which endeared itself to the wanderers of the open road, is rapidly being displaced by an all-purpose, light-weight metal car to carry everything from mushrooms to machinery.

These cars, which can be loaded or unloaded from six sides, have the fleet, joltless qualities embodied in the passenger trains that have replaced old "Number 6."

SHORT SHOTS

By HENRY AVERILL

Reflector Bureau. Raleigh, Feb. 18.—Decision of Governor Clyde R. Hoey not to interfere with the execution of Milford Exum, Wayne county man put to death this morning for murder of a Negro, has been received with widespread favorable comment.

The Governor's decision was not only right in the particular case but was of real service to the South in that it proves that there is only one kind of law in North Carolina, at least, and not one kind for the white people and another for the Negro. It is a prominent attorney, speaking "off the record" and not for quotation by name.

State Senator J. H. McDaniels of Concord, was in Raleigh Wednesday and Thursday. He said he still hasn't definitely made up his mind whether or not he will run for reelection; but on the theory that every incumbent is presumed to want to come back it's fairly safe to list him as a candidate for Cabarrus.

Incidentally, the Senator was here for a meeting of the legislative commission appointed by Governor Hoey to make a study of the state's facilities and program for Negro education. A report will be made to the next General Assembly.

Other legislators here for the meeting were Representatives F. H. Brooks of Smithfield, and George Uzell, Salisbury. Senator J. W. Noel and Representative Hugh Horton are the other members.

The lawmakers chose Dr. N. C. Newbold, of the Department of Public Instruction, as executive secretary of the commission.

It was the group's first session, Senator McDaniels said, and little was done except to form an organization.

Members of the "Committee for the Defense of Fred E. Beal," are said to be disappointed with the matter-of-fact way in which North Carolina officials took the surrender of their client and "martyr."

Speaking of Beal, there's no denying that he has a splendid chance to put Governor Hoey in rather a hot spot about a year from now. If Beal behaves himself and makes a model prisoner for about twelve months, then appeals to His Excellency on a straight out-and-out plea for "mercy" rather than for "vindication," the Governor is going to have to do a lot of thinking.

Those who know Clyde Roark Hoey best say the fact that he was a member of counsel prosecuting Beal would make it even harder for him to refuse an appeal for clemency uncomplicated by propaganda efforts of wild eyed radicals and cheap publicity seekers.

It may be a bit late to comment on it, but even then it hasn't taken this correspondent as long to applaud Judge Meekins' decision that slot machines are illegal as it took that eminent jurist to reach the conclusion everybody else held from the beginning.

Another judge will tackle another "racket" next week when a hearing is held in Salisbury on Judge Wilson Warwick's temporary order restoring operation of Turfland, a bookmaking joint, in Salisbury.

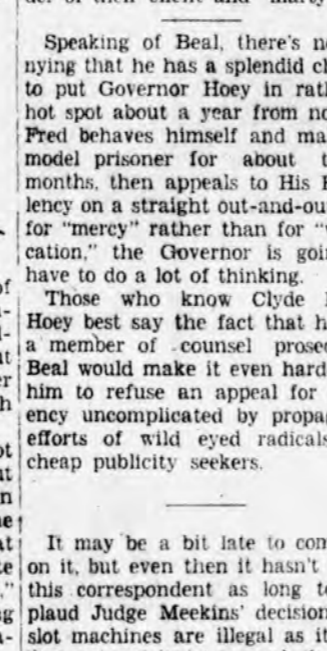

That Edgar Leroy Smoak, executed this morning for poisoning his daughter, was as cool a customer as ever came down the pike. On Thursday when the Governor flatly turned down his last plea for delay, William L. Farmer, counsel for the condemned man, went to the prison to tell Smoak of the result. Your correspondent went along.

Told that he was doomed beyond any possible human hope, Smoak was as unconcerned as if he had just been told it was a nice day. He commented with a genuine smile, "That's all right with me—I'm plumb right with that old man up above." He discussed disposition of a brown suit (it's as good as new, he said) after his death just as if he had been asking Mr. Farmer to take it to the cleaners.

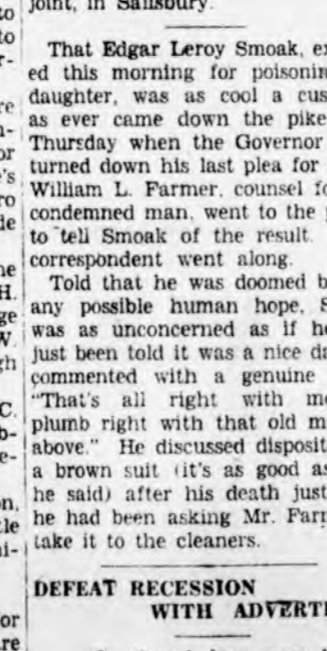

DEFEAT RECESSION WITH ADVERTISING

(Continued from page 1) doing themselves a good turn. More important, they are doing a service for their communities and the

BLONDIE

THIMBLE THEATRE (Starring Popeye)

Big Selling Test To End Saturday

Campaign workers are realizing more and more each day that the winning votes in this campaign are still in the wide territory and the winning of the big awards will be done by the workers who utilize each moment possible in this territory securing new and renewal subscriptions. There is no worker in the list who will be expecting a large prize unless they have obtained a reasonable amount of business each week as the campaign goes on, and the wise member is out on the go.

It is in order to come in for the extra \$25.00 prize realizing that the winner of this extra prize is usually the winner of one of the main awards at the close of the campaign.

All business turned in this week for subscriptions will apply on the double vote and the \$25.00 extra prize which is offered for the most new subscriptions. Surely you realize you should win this extra cash prize in order to get your votes that much

closer to the big main awards to be handed out at the end of the campaign.

Many Saturday Promises

Many good people in this territory have promised their favorite candidate their subscription by Saturday. We urge all prospective subscribers to make these promises good, as there is absolutely nothing better to be offered in this campaign and you can do the candidates most good by subscribing now as your subscription this week counts on double votes and extra cash. If you wish to subscribe when it counts most, do so this week.

Second Payments

"Second payments" that is a further payment by someone who has already subscribed for a definite length of time during the campaign will carry extra votes. These second payments mean thousands of votes and a big advantage is gained by getting as many of them as possible.

volume of retail trade.

"Sales" cannot move goods unless customers know about them. I think that merchants and manufacturers now realize this more than they did in 1929. Not only should purchasing power be inflated, but the will to buy should be encouraged. Advertising is the last item to cut in your sales budget unless you want to close up shop.

Cutting prices is just as essential as maintaining or stepping up your advertising quotas. Despite its early 1938 slump in the face, purchasing power is still satisfactory although I expect that the year 1938 will average under 1937. Farm income may be down, factory payrolls may be lower, and there may be a sharp break in dividend payments. However, the drop in income on the average need not mean substantially less goods for everyone this year, why? Because merchandise "sales" and cheaper food bills can go a long way toward offsetting the drop in the average family's income. If you give careful attention to your personal and household buying this year, I think you will come very close to matching your 1937 living standard.

Three Buying Rules

I have three specific suggestions along this line for the months ahead. First, shop carefully for your food. Always stock up on "sale" days on your staples. Watch the clothing, shoe, and other merchandise sales, although look carefully before you leap. Second, pay cash for your goods. Conservatively, installment buying costs you 10 to 35 per cent more than cash. Third, make a simple budget and stick to it. Remember, "A dollar saved is a dollar earned."

There is no easier way to increase your income 10 per cent than by carefully buying all goods from tomato soup to oriental rugs; follow these purchasing rules and 1938 will be not too bad a year.

and Lincoln admirers will see his White House papers.

The famous collection of state papers will not be unsealed until July, 2047.

The late Robert T. Lincoln, the great President's son, deeded the papers in 1922 to the Library of Congress as their custodian for the American people with the stipulation that they not be made available to investigators for 25 years.

Daniel Defoe is sometimes referred to as the first journalist.

RESOLUTION

Notice of Public Hearing

Whereas under the provisions of Chapter 559 of the Public-Local Laws of 1935 and as amended in Chapter 388 of the Public-Local Laws of 1937 to include Pitt County, a petition has been filed with the County Board of Education, signed by not less than ten per cent (10) of the qualified voters of the territory described in said petition, praying that such territory be created into a school district and that bonds be issued not exceeding \$35,000.00 under the provisions of said Act and that a sufficient tax be levied to pay said bonds and the interest thereon.

THEREFORE BE IT RESOLVED, that in accordance with the provision of Chapter 559, Public-Local Laws of 1935 and as amended in Chapter 388 of the Public-Local Laws of 1937 to include Pitt County, the Pitt County Board of Education shall cause notice to be given that a public hearing will be held on March 3 at 10:00 A. M., in the office of the said Board upon the question of creating a school district in the territory described in said petition, it being more specifically described as the territory now embraced in what is now known as the Farmville Special School District and that any tax payer or other interested person may appear and be heard; and that such notice be posted at the Court House door, and at three Public places in such territory and published in three weekly publica-

PUBLIC FORUM

DISCUSSING PROBLEMS OF INTEREST TO THIS COMMUNITY. IN ALL CASES NAMES MUST ACCOMPANY ANY COMMUNICATION.

Please Make Your Discussion As Short As Possible.

Homestead Tax Exemption

The last legislature refused to grant home-owners a \$300 tax exemption even after the amendment permitting exemption up to \$1,000 had been approved by the voters with the greatest majority ever given an amendment to the constitution in the history of the state, but did grant three new \$300 exemptions never approved by the people as follows: \$300 on money on hand, \$300 on notes and mortgages, and \$300 on accounts-receivable. We therefore appeal to the voters to elect senators and representatives who will give the small home-owner the relief to which they are justly entitled and which the voters of the state have confidently expected.

Establishment of 12th Grade in Public School System

Adding the 12th grade to our state public school system will better prepare those for life who cannot attend college. Those who do go to college will be better prepared for college work.

Modern life demands well trained individuals and we believe that the extra assistance should be provided for our boys and girls.

Funds for Agricultural Research

North Carolina ranks near the top as an agricultural state and near the bottom in sums appropriated for research.

Research is the key that will unlock the door to new markets and new sources of wealth for our people. Sufficient sums should be appropriated out of the general fund of the state to match federal money now available for this work.

Improvement Of Secondary Roads And School Bus Routes

A large percent of rural people live on dirt roads. Our centralized school program with the school bus is dependent upon good roads. Large sums must be set aside for the improvement of our secondary roads and first consideration should be given to school bus routes. All highway funds should be used for the maintenance and improvement of our roads. None should be diverted to other uses.

Rural Telephone Survey

Provisions should be made for a rural telephone survey. We need an adequate rural telephone system in the state.

MARK H. SMITH.

Chevrolet Leads In North Carolina Sales

J. J. White, president of the White Chevrolet Company, Inc., has just received figures showing that Chevrolet led all other cars and trucks in sales in North Carolina during 1937.

The figures were based on reports by R. L. Polk made from final registrations in the state.

During the year, the report shows, 17,064 Chevrolet passenger cars were sold, compared with 14,211 deliveries for the second ranking automobile in sales. A total of 5,232 Chevrolet trucks were sold compared with 5,205 of the number two ranking truck during the year. Combined passenger car and truck sales for the period shows 22,296 Chevrolets and 19,416 of the second ranking make. Chevrolet passenger cars led by 2,853 sales, while Chevrolet trucks led by 27 units.

Mr. White declared "these figures should be of interest to all Chevrolet owners and to all persons still undecided as to which car is the leader in our state."

Colored News

The Missionary ladies of the A. M. E. Z. Church met at the home of Mrs. Lula Coston Thursday evening, February 17th. Mrs. Frances Tatum, the president, made a fine report from the mass meeting which was held in Hookerton. Mrs. Dupree gave a synopsis of the program to be held in the near future. Mrs. Zelma Clark, the secretary, made a report on the work done the last quarter. Mrs. Hassa Ellison reported the sick. It was asked that the cottage prayer meetings be continued in the sick homes. After the business meeting refreshments were served.

Group P.-T. A. Meetings Group meetings were held in four group centers in Pitt county last week. Three of the groups had parents present. It being Negro History Week the programs presented had some contributions on the accomplishments of Negroes in some field.

Monday Cherry Lane group P.-T. A. met at Post Oak school. The committee presented a program from Post Oak school. Selections from Paul Lawrence Dunbar by Miss Marion McClinton, Negro spirituals by the school choral club and a short address on Negro History by the chairman, Herbert Skinner, was followed by the Supervisor, who emphasized the importance of attending the clinics. After plans were made for next meeting the group was served a delicious repast by the Post Oak P.-T. A. A large number of parents expressed a desire to make each meeting a P.-T. A. meeting. Jones school will entertain the group next month.

Tuesday the Greenville group met at the Fleming street school. Dr. E. C. Hollar of E. C. T. C. faculty addressed the parents and teachers. "Keep Plodding" was the subject he used in showing his audience the way to make life a success, to make children useful men and women, the home a happy place in which to live. Music was furnished by the Sally Branch school and showed wonderful ability to sing even though the pupils were all in the elementary field. The solo parts were handled so efficiently by several until it was hard to find the best if one tried to judge.

Miss Crockett from the health department then spoke to the group. Taking each clinic separately she explained the importance of attending and answered any questions at the close. After more music from Sally Branch school the Supervisor outlined plans for group contests next month. The group was then ushered into the home economics department and served by the group parents and teachers.

Wednesday the Farmville group met at the Farmville high school with the parents from each school present. Dennis Dupree, farm demonstration agent, spoke on "A Garden the Year Around." Miss Ruby E. Crews, home economics instructor,

spoke on "Mal-Nourished Children and School Lunches." Miss Crockett from the health department, spoke on the value of clinics.

Prof. H. B. Suggs made some remarks and complimented the large number of parents attending these meetings and the efforts of the Supervisor and teachers to make these meetings successful. After the Supervisor, Miss I. M. Donnell outlined plans for group contests next month, the group was served by the teachers and contributed by the parents.

Thursday the Winterville group met and after a short business session the program committee presented a Negro History Week program consisting of selections from Dunbar, and Negro spirituals. Plans were made for group contest next month.

U. Of Kansas—At Boulder Boulder, Colo. (AP)—Four of the top players in the Colorado basketball team's starting lineup are Kansans. Jim Schwartz is from Salina, Jack Harvey from Frankfort, Jim Wilcox from Coffeyville and Don Sidwell from Winfield.

Whizzer White, an all-conference guard last season, is the only native Coloradan on the first string.

HIGHS TO MEET RALEIGH TEAM

Green Phantoms To Engage Capital Five Tonight

By BAXTER CLARK
The second place Phantoms of Greenville high school will engage the Raleigh high school team tonight in the school gym, at 7:30. It will be the second contest between the two schools.

In the previous game played in Raleigh the Phantoms came from behind in the last half to defeat the Raleigh boys by a close score of 27-23. It was a very thrilling game and tonight's encounter is expected to be equally as good as the other contest between the two schools.

The game is the last conference tilt to be played in Greenville this year and many are expected to be on hand to watch Greenville high school crack team perform tonight. The Phantoms will attempt to hold their second place position in conference standings. To do this they must win the remainder of their games, one with Raleigh and one with Fayetteville. The team will engage its traditional rival, Washington on the local court next Tuesday night. Plans are being made for a game next Wednesday night between the Phantom quint and ex-basketball stars who have been graduated from Greenville high school.

Coach Durward Snow will start his regular five tonight which consists of Sakas, Lautares, Simpson, Parrish and Hodges. Richard Gaylord will also see much action as he has the entire year.

Coach Brandon of Raleigh brings a crack five consisting of Alford, Hordecal, Pittman, Pearce and Weeks. Both teams are in fine shape and will be fighting until the last whistle tonight.

Richmond Livestock

(Courtesy J. N. & J. L. Williams) Richmond Livestock Market:
Hogs—Receipts light; market steady; higher top at \$9 paid for good and choice 180-220 lb. run of good fed hard finished trucked in gilts and barrows; 140-160 pounds at \$8.50 top and 160 to 140 lbs. at \$8 to \$8.25; 220 lbs. to 250 lbs., \$8.40 top; sows \$6.50 and down as to quality; soft and oily hogs subject to discount. Cars by rail quotable 25 cents over comparable trucked ins.

N. Y. Stock Market

New York, Feb. 18.—(AP)—With "inflation" hopes chilled by the President's remarks at his press conference today, stock market leaders fell back briskly after an upturn at the opening.
During Roosevelt's talk to the correspondents, the list virtually stood still. First-glance interpretations of the comments resulted in quick selling of steels, coppers, rubbers and other recent leaders. Initial advances running to a point or more were converted into losses of as much as 100 points.
Secondary gains at one time, beat a nasty retreat with stocks, although the downturn here was subsequently halted.

No Golf For Gehrig
New York, (AP)—Lou Gehrig might have been a good golfer if he hadn't decided the golf swing hurt his baseball wallop. Gehrig shot 116 his first game and three months later carried a 79. That is really knocking off strokes.

SPORTS EVENTS SET FOR ETC

Girls' Basketball Tonight; More Boxing Monday Night

The E. C. T. C. boxers will engage the Louisburg College leathery slingers next Monday night at the campus building in what promises to be a thriller. It will be the last match for Coach Jim Johnson's boys, and he promises that his boys will put up a real scrap, and says that he will be able to match Joe Williams and Carl Langley, both are Greenville boys, who were unable to fight last Wednesday night because no opponent was available.

The Pirate basketball team is working out daily for their game with Campbell College next Tuesday night.

Coach Alexander says that his boys will be in top shape and that he can assure the fans of a good ball game, with plenty of action from start to finish.

The girls team of E. C. T. C. will engage the strong Appalachian sextet tonight in a game that will be marked by hard play throughout as each team will be out for revenge.

The teams played to a draw last season at B. Cone, and girls from Appalachian haven't been defeated in three years. So the spectators can be assured of a spirited battle.

IT HAPPENED on the DIAMOND

CARL HUBBELL'S streak of eight straight wins was the longest run of consecutive triumphs any National league hurler could string together in 1937. The longest losing streak, also eight straight, belonged to Al Hollingsworth, Cincinnati.

N. C. PULPWOOD IS PLentiful

State Has Supply Sufficient to Provide South

Raleigh, Feb. 18.—(AP)—Properly managed, North Carolina's forests will provide annually at least twice the present consumption of the pulp industry in the entire South. It is pointed out in an article by John C. Baskerville, of the Department of Conservation and Development in the February issue of the Manufacturers Record.

Mr. Baskerville cites the fact that the state has at least 14,000,000 acres of pines available to furnish pulp wood. It is conservatively estimated that each acre will produce almost a cord of pulp wood a year continuously, if cut properly; but if it is estimated that each acre produces only half a cord per year, North Carolina is still capable of producing 7,000,000 cords annually, or more than twice the present consumption by the industry in the South of something in excess of 3,000,000 cords per year.

The Forestry Division of the Department of Conservation and Development through the forest management bureau is trying to get farmers and land-owners to think of their timber and pulp wood as they would any other crop and to harvest it from year to year just as they do their other crops, says Mr. Baskerville.

The pulp companies operating in the state are giving whole-hearted co-operation to this effort since they are as vitally interested in assuring a future supply of pulp wood as is the Department.

Evidence that the better forest management campaign is already getting results is attested by the fact that the Forestry Division is going to more than double the output of its nursery this spring to meet the demand for seedlings. Between 2,500,000 and 3,000,000 seedlings were grown in the nursery last year. Orders have already been received for more than the number of seedlings grown and approximately 1,500,000 of these have already been dug and shipped. The nursery capacity will be increased to 6,000,000 seedlings this year.

cost would be borne by the WPA as a project of this type requires much unskilled labor and this can be provided by the federal agency.

CALL MEET OF WET COUNTIES

"We think that boards of commissioners are in the best position to determine the wishes of their people," he said.

OBJECTIONS TO PROPOSED TAX

Levy on Fuel Oil Disturbs Oil-Power Firms

Reflector Bureau.
Raleigh, Feb. 18.—The oil industry of North Carolina is getting more than a little excited over the Boland bill, now pending in Congress, which proposed a levy of one cent per gallon on all fuel oil used for heating or power production.

State Senator S. Glimmer Sparger, secretary of the North Carolina Petroleum Industries Committee, has taken time out from his campaign against diversion of highway funds to cast a few vigorous verbal bricks at the proposed tax, which he

contends is being urged solely for the benefit and aggrandizement of the coal industry.

"The proposal of Representative Boland of Pennsylvania, to impose a one cent per gallon tax on fuel oil used for heating and power production is not only a big step backward, but it is an imposition on the intelligence of the American people," said Senator Sparger.

He contended vigorously that tens of thousands of families living in apartment houses would have to pay higher rents to meet the increased cost of heating if the Boland proposal should become law.

He included office building owners (and consequently tenants), hotel operators (and as a result hotel guests) would suffer. The tax would add as much as one-third to the fuel costs of hotels with oil burning equipment, he said.

"But the burden of the tax would fall especially heavy upon the home owners of the country, of which more than 10 per cent have installed oil burners to obtain the comfort and economy of oil heat. A substantial part of these home owners are

struggling to keep up payments on the mortgage of the Home Owners Loan Corporation or to private institutions. A tax on fuel oil would amount to about \$21 annually per family," he said.

He pointed out that in North Carolina the average price of fuel oil is about 8 cents per gallon, while the result that one-cent tax would approximate a sales tax levy of 12 1/2-2 per cent, four times the state sales tax.

Skate Market Good
New York. —(AP)—The sale of ice-skating equipment now is 10 times what it was in 1935.

The average height of English boys of 13 has increased one inch of girls one and an eighth inches.

Average production of 340,990 oil wells in the United States is 8 1/2 barrels a day, the American Petroleum Institute reports.
