FDR TO REVEAL EXTRA SESSION AIMS TONIGHT

Will State Intentions During Fireside Chat at 9:30

PWA MEANWHILE SPEEDING WORK

Total of 1,432 Projects Estimated Cost \$352,188,120 Approved This Week

Washington, June 24. (AP)—President Roosevelt's "fireside chat" tonight will give the country a report on whether a special session of Congress is likely.

The President, asked at his press conference whether a special session was probable, told reporters they would get the answer from his address to the nation this evening.

He had already arranged a busy day of conferences with administration officials and also was expected to devote a considerable part of the day to completing his radio address, to be broadcast at 9:30 p. m., EST.

Meanwhile, the PWA, rushing to round out 1,750 non-federal allotments by nightfall, allotted \$36,038,287 of loans and grants for 286 projects.

This brought the total since Wednesday to 1,432 projects, having a total estimated construction cost of \$352,188,120. Allotments to date include \$17,862,500 in loans and \$157,332,741 in grants. Applicants will provide the additional money to round out the construction total.

The allotments included grants unless otherwise specified. Durham, N. C., waterworks, \$85,500; Greensboro, N. C., sewage, \$168,147; Pinehurst, N. C., nurses' home, \$29,250; Tarboro, N. C., court house additions, \$9,000; Winterville, N. C., waterworks, \$27,818.

Also, Chairman Sheppard (D-Tex.), said the Senate Congressional Expenditures Committee would investigate the circumstances surrounding any public statement by government officials endorsing any candidate for the U. S. Senate.

Exactly Nothing Spent On Models For Advertising

Governor Clyde R. Hoey Expresses Person Appreciation to Young People Who Posed

Reflector Bureau Raleigh, June 24.—Bill Sharpe, director of the News Office of the State Advertising Division, has taken photographs literally from Currituck to Cherokee, at a total expenditure for models of exactly nothing—gross, tare and net.

Today Governor Clyde R. Hoey expressed his appreciation for the assistance which hundreds of young men and women have given the advertising campaign and who have made this fine record possible.

The Governor pointed out that these young people have helped the news office to get out thousands of pictures for use in news stories and in advertising the state.

"I want the young men and women of North Carolina who have assisted the news office of the advertising division in obtaining pictures in every section of the state, to know that I personally appreciate the manner in which they have given of their time and talents in the making of these pictures and that the state of North Carolina also appreciates what they have done, Governor Hoey said.

"I know that a good many young ladies and young men have given from one to three days of their time in assisting the advertising division to get the type of pictures needed for use in newspapers, magazines, booklets and our advertisements. They done this without remuneration and without expecting any."

"This co-operation they have given has been very helpful to the news office and has saved the state many hundreds of dollars and I want personally to thank them and to express my appreciation of the assistance they have given in making the state advertising program a success."

Those familiar with advertising campaigns similar to the state's say that ordinarily thousands of dollars must be expended on models alone—Models which the State of North Carolina has secured as volunteers and for nothing.

Cotton Blossom

Ivey Smith, well-known Pitt county farmer of the Bell Arthur community, found a cotton blossom this morning, the first to be reported this season.

Court-Room Killer

Arthur Emil Hansen, 38, is pictured just after he was taken into police custody following the slaying of two attorneys in a superior courtroom of the Los Angeles, Calif., Hall of Records. According to police, Hansen admitted the shooting.

SCION MISSING IN NEW MEXICO

Son of Late U. S. Senator Left Home on Morning of 22nd

Albuquerque, N. M., June 24.—(AP)—Medill McCormick, 21-year-old scion of families famous in American publishing and statesmanship, was missing today, feared lost in the rugged Sandia mountains, 10 miles of Albuquerque.

The son of Mrs. Ruth Hanna McCormick Simms and the late U. S. Senator Medill McCormick of Chicago, left home Wednesday morning with a companion on a hiking trip and has not returned, his mother said early today.

Poses of CCC enrollees, headed by police and sheriff's deputies, spread into the mountains in the search for young McCormick and his friend Richard Whitmer, son of the late T. E. Whitmer, Albuquerque lumberman.

"Naturally, we are getting a little restless," said Mrs. Simms, keeping vigil late in the night at her country estate.

Mrs. Simms and her husband, Albert Simms, Albuquerque attorney, expressed the belief the youth might have been caught in heavy rains which swept the mountains late Wednesday, and made camp in a sheltered canyon.

They were at a loss, however, to explain why they did not return when the storm cleared yesterday.

ORDERS CIRCUS QUIT SCRANTON

Ringling Bros. - Barnum & Bailey Tied Up By Strike

Scranton, Pa., June 24.—(AP)—The mayor ordered out of town today the Ringling Brothers, Barnum and Bailey circus which has been stalled here two days because of a strike.

Circus executives arranged to discuss the ultimatum with city officials later.

Threatening to attach the property of the big show, Mayor Fred Huester declared conditions on the grounds had become unsanitary since circus workers quit Tuesday night.

Performers have agreed to a 25 per cent wage cut. "Roustabouts," canvas men and other employees refuse. John R. North, head of the circus, insists the wage reduction is necessary for the show to continue.

Meanwhile a newspaper photographer was killed and another hurt today in an airplane crash on the grounds where the Ringling Brothers, Barnum and Bailey circus is tied up by the strike.

Bob Raine, 25, of the Scranton Tribune staff, lost his life, and Arthur Young, 30, pilot and cameraman for the same paper, was hurt seriously.

President Favors Funds To be Used In Hunting Spies

Says Army and Navy Should be Allowed More Money for Purpose; Executive Also Hints Wagner to Remain in Senate

Washington, June 24.—(AP)—President Roosevelt said today he thought the army and navy should have more funds for running down spies in this country.

The President's comment, made in response to press conference questions, came after he had said that the question of publishing a series of newspaper articles on New York spy investigations involved both patriotism and ethics.

The articles, prepared by Leon Torrou, a former Justice Department agent, have not been published pending the outcome of a suit brought by the government to prevent their publication.

A press conference statement of the President also gave a broad hint that Senator Wagner (D-N. Y.), would seek to retain his Senate seat this fall rather than run for the New York Governorship.

A reporter told Mr. Roosevelt he had been writing consistently Wagner would remain in the Senate, while some others had been writing exactly the opposite.

Mr. Roosevelt told his questioner to keep right on the way he was going.

To further questions about Wagner, the President would only say that he had already given a pretty good lead.

Other developments: Several Senators, discussing "politics in relief," were surprised to discover that the Senate, in approving the \$3,750,000,000 pump priming bill, had surrendered its power to confirm or reject state WPA administrators.

On the other hand, Senator Hatch (D-N. M.), who led an unsuccessful fight to ban by law the use of relief funds for political purposes, said he knew about the deletion.

The federal employment service found jobs for 238,854 workers in May, but its file of job seekers reached the highest point in the last year—7,520,459.

Total placements by states listed for May, included North Carolina, 7,192.

Government will more than double its loans in the 1939 fiscal year to reduce farm tenancy.

Congress appropriated \$25,000,000 for this purpose for the year ending June 30, 1939.

The allotments include North Carolina, \$1,318,965.

J. Knott Proctor Named As Democratic Nominee

Replaces S. A. Whitehurst On Ticket For Sheriff

J. Knott Proctor of Greenville today was named Democratic nominee for the office of Sheriff for the two year term beginning in December, a place vacated by S. A. Whitehurst under terms of a consent judgment which concluded the long ouster trial brought against the officer by members of the Board of County Commissioners.

Mr. Proctor is serving out the present unexpired term of Mr. Whitehurst, having been appointed by the county commissioners, following the ouster of the sheriff.

The new sheriff has named R. W. King as one of his deputies, but deferred appointment of the other member of his force.

Dr. Paul E. Jones, chairman of the Democratic Executive committee, declared the group considered the possibility of calling a primary for the selection of a nominee, but added it was not believed the party as a whole desired such action.

He also stated that no law providing the committee with authority to call such a primary had been found.

He also revealed that the committee read and considered a number of written applications for the appointment, but decided on Mr. Proctor.

The selection was made after formal action was taken on the resignation of Mr. Whitehurst.

Paris, June 24.—(AP)—Franklyn Hutton said today he would make another effort this afternoon to smooth difficulties between his daughter, Barbara, and her husband, Count Haugwitz-Reventlow.

Hutton announced he had arranged a new conference with the Count, who after a short absence from his hotel, returned alone and went directly to his room without making a statement.

Hutton again denied reports that friction was serious over conflicting wishes of the Count and Countess about their son's education.

Five Cases Heard In Friday's Court

Six defendants were tried at the regular Friday morning session of city Recorder's court.

Robert Jones, Negro, was convicted of illegal possession of whiskey and given a four months sentence, suspended upon payment of \$25 and court costs and good behavior. The defendant appealed and bond was set at \$200.

Mark Hardee paid the costs upon conviction of drunkenness.

Billie Keel and Earl Stancill were given 30-day sentences each on charges of disorderly conduct. The sentences were suspended upon payment of costs.

Johnnie Moore was convicted of drunkenness and ordered to pay the costs of court and leave the city immediately.

Amos Moore, Negro, was given a 30-day sentence upon conviction of vagrancy, the sentence suspended upon payment of costs.

HELD IN \$25,000 BAIL IN SPY PROBE

Handcuffed together, three spy suspects here are shown on their way to the federal district court in New York, where they were ordered held in bail of \$25,000 each pending trial August 1. Each entered a plea of innocence. Left to right: Guenther Gustave Rumrich, former sergeant in the United States army; Otto H. Voss, airplane mechanic, and Erich Glaser, private in the army. They are among 18 persons indicted as members of an alleged spy ring, each accused of active peace-time espionage.

GROCCER FOUND BY BOY SCOUTS

Fayetteville Man Said To Have Suffered Memory Lapse

Fayetteville, June 24.—(AP)—C. B. Tillinghast, prominent Fayetteville grocer and Boy Scout pioneer, who disappeared mysteriously Tuesday morning while en route to work, was found alive this morning by searching squads of police officers, CCC men and Boy Scouts. He was lying in the woods about half a mile west of the city limits—near where he was reported last seen Tuesday morning. Doctors said he had suffered a lapse of memory.

M. Johnston, 15, and J. Cameron, 14, Boy Scouts, found Tillinghast asleep in the woods, off the Fayetteville-Raeford highway.

The boys notified John Edge, a river pilot, who headed a group searching in that area.

Edge said he aroused Tillinghast who immediately expressed concern for his spectacles which were found nearby.

Tillinghast was taken to a hospital where he was given food. Dr. J. P. Highsmith, Sr., said the patient was suffering a lapse of memory, but that his physical condition was good.

15-Year-Old Girl Declared Suicide

High Point, June 24.—(AP)—Mary Elizabeth Nelson, 15-year-old daughter of Mrs. A. B. Nelson, was found shot to death today at the home of her mother, seven miles southeast of here, on highway 61.

Coroner J. M. Simpson said the girl used a shotgun to end her life. He said no inquest would be held.

The coroner said a note addressed to her sister was left by the girl, in which she had expressed disappointment that her mother had failed to purchase her a pair of shoes. She particularly wanted the shoes Thursday, the coroner said, the note set forth, and her mother postponed buying them until Saturday.

Increase Of \$1,500,000 Noted In State Revenue

Reflector Bureau Raleigh, June 24.—North Carolina's revenue for the current fiscal year will be at least \$1,500,000 greater than last, and may for the first time in history approach a grand total of \$70,000,000, Governor Clyde R. Hoey said today while expressing satisfaction with the financial condition of the state.

"But if you boys can find any \$15,000,000 surplus, you can have half of it," he laughingly told newspaper men who asked him about a resolution of the North Carolina Merchants Association which recited that there is a "surplus of more than that amount."

Through the first twenty days of June, the Governor pointed out, Revenue division collections had reached a total of \$37,055,919.06 as against \$36,619,953.22 for the fiscal year which ended June 30, 1937—an increase of \$436,865.86 with ten days' receipts still to come.

On the highway side of the picture collections through June 20 tallied \$30,408,909.00 against \$29,603,973.08 for the fiscal year 1936-37—an increase of \$804,935.08.

Which gives a total increase, through June 20, of \$1,241,801.78 with ten days yet to be added. Total revenue collections so far this year have tallied \$67,464,828.08. With the close of the year so close at hand, it seems impossible that revenues will go to \$70,000,000 but they certainly will get within reaching distance.

The Governor pointed out that the general fund surplus as of July 1 will probably not be quite as large as a year ago, despite the increased collections, because appropriations and resultant expenditures were much larger. At a rough guess, he said, there will likely be a four and a half million general fund surplus on July 1, as against slightly more than five million a year ago.

This estimate by the Governor corresponds almost exactly with a somewhat casual estimate made by this correspondent after rough calculations made on a basis of information given at the State Treasurer's office.

WATER WORKS FUND GRANTED

PWA Grant Of \$27,818 Approved For Winterville

A PWA grant of \$27,818 to Winterville for a water and sewer project was announced in Washington today.

The governing board of the city already has called for an election to be held in the near future for naming the sponsor's share of the expense of the project.

The grant of \$27,818 represented 45 per cent of the cost of the proposed water and sewer system, the remaining to be provided by the city if the election carries. If the election fails, however, the allocation by the PWA will be withdrawn.

State and County health departments have endorsed the project and declare it is needed from a sanitary standpoint.

Winterville is one of the oldest incorporated towns in Pitt county, having been granted a charter nearly 70 years ago.

BEGIN WORK ON STADIUM HERE

Fifty-Three Men Busy Breaking Ground For Structure

Actual work has begun on Greenville's new stadium, with the contractor calling for completion in August.

Fifty-three men are breaking the ground at the site on the old fair ground property and sponsors declared they hoped to have 70 men at work in a few days in an effort to rush the preliminary work.

The contractor will start pouring cement as soon as the steel for the structure arrives, expected shortly.

When completed the stadium will be one of the most modern in Eastern Carolina. It will be of steel and concrete with a seating capacity of 1,520.

Much Federal financial aid was secured for the project. The city's portion is being provided by bonds authorized at an election. It is estimated that the government is providing \$36,000 of the cost, with the city spending a total of \$18,000. Of the city's total amount, \$12,000 is to be spent for the stadium and the remainder on other work.

Building Permits On Boom In City

Building permits in Greenville this month probably will set an all-time high for costs, numerous large projects having been started since June 1.

Another permit for a large project was let today, this being for a new tobacco warehouse to replace the one destroyed by fire some time ago.

The permit was secured by L. B. Garris, J. H. M. K., and J. F. Blount, and calls for expenditure of approximately \$65,000.

Traffic Light At Evans And Tenth

A new traffic light is being erected at the intersection of Evans and Tenth, which has come to be regarded as Greenville's most dangerous.

Several serious accidents have occurred on the corner, at least one fatal. The Board of Aldermen several months ago decided to place a stop light at the intersection, and at the same time considered placing blinkers or stop lights at other dangerous places in the city.

PAID FOR PRAYING

Town, Wales.—Pennies for saying prayers in church have been given to local children for the 125th year. The money comes from a legacy by a ~~Thomas~~ ~~Wales~~. Two pennies is paid for reciting the Lord's Prayer; Commandments 6 pence.

SUNDAY BAND CONCERT IS SET FOR 5:30 P. M.

The Greenville Freeman's band will give a public concert at 5:30 o'clock Sunday afternoon. The concert will be given on the lawn of the court house unless it rains, in which case it will be presented in the armory.

The hour was changed from 4 to 5:30 o'clock so persons may attend both the concert and the baseball game.

HOLIDAY

The board of directors of the Greenville Merchants Association decided this afternoon to observe a holiday Monday, July 4th.

A general holiday is expected to be observed throughout the city and county Monday, which, with Sunday, will provide a two-day respite from work.

Captain Arrives To Take Up Duty

Welcome services will be held at the Salvation Army church Sunday evening at 7:30 o'clock for Captain Sadye E. Brewer and Lieut. Doris Searcy, who have arrived in the city to take charge of the Army's work here.

Captain Bates has been transferred to Gaffney, S. C., from which place the new officers came.

Captain Brewer, who will have charge of the Greenville branch, was declared in Gaffney to have been the most popular officer ever stationed there.

Lieut. Searcy has been in the Salvation Army for the past nine years.

Upon arrival here, Captain Brewer declared "we have come to Greenville to serve the public in any way that we can. We will try to co-operate at all times."

The public is invited to attend the welcome services Sunday evening.

Greenville Aldermen to Hold Meet Tonight

The Greenville Board of Aldermen will hold a special called meeting tonight for the purpose of discussing the proposed street improvement program.

Announcement of allocation of a Federal loan and grant was made yesterday and the program is expected to get started in the near future.

The first Protestant missionary to China was Robert Morrison, sent by the London Missionary Society to Canton in 1807.

CHINESE HOLD JAP SOLDIERS IN NEW AREAS

Invading Nipponese Landed on China's Mainland

UNABLE TO GAIN ON NEW GROUND

Jap Embassy Spokesman Says Probe Failed Show American Slapped

Hongkong, June 24.—(AP)—Japanese troops landed on the South China mainland today under a heavy protective barrage while Japanese planes extensively bombed Swatow, South China treaty port.

The landing was made from Namoa Island, 20 miles east of Swatow. Chinese after retreating inland counter-attacked and held their ground against the Japanese near Chihlin.

Shanghai, June 24.—(AP)—A Japanese embassy spokesman declared today a Japanese military investigation at Nanking had found no proof that a Japanese sentry slapped Dr. J. C. Thompson of New Brunswick, N. J.

The Doctor's complaint, he was struck by a sentry caused U. S. Consul John Allison to protest Wednesday to Japanese authorities.

The Japanese embassy official said no Chinese passer-by saw the slapping.

Under questioning he was unable to advance any reason why Dr. Thompson said he was slapped if he was not, and promised to produce more detailed information to the Japanese version of the incident.

Later the spokesman said an investigation showed the sentry only searched Thompson in a quiet, routine manner.

Meanwhile, the Japanese advance up the Yangtze river toward Hankow slowed to a snail pace as a result of severe fighting an overflowing river.

Forces on the north bank of the Yangtze, fighting to attack obstructive booms, across the river at two points, reached a place in Anhwei province.

The overflow of the Yangtze at several points between Anking and Wuhu in the battle area was said by Chinese to be interfering with Japanese advances, but had not yet reached serious proportions.

TWO-YEAR-OLD BOY IS FOUND

Missing Since Yesterday, Found Asleep By Side Dog

Rocky Mount, June 24.—(AP)—After an all-night search in which Nash county and township officers, Boy Scouts and neighbors combed the countryside, a Negro farmer found two-year-old Jimmie Dozier this morning asleep in an old abandoned house, his head pillowed on a small nondescript dog from his father's farm.

Little Jimmie's father, James Dozier, said the child had disappeared from their farm home late yesterday. In the search that was begun as many as 150 persons scoured the woods all night long and at dawn were expressing mounting fear the child had been kidnapped.

An electrical storm early last night slowed down the search only temporarily. Nash County Sheriff J. R. Tanner indicated officers believed the boy had wandered away from home and during the storm had gone into the building for shelter. He said as far as the officers were concerned, the case was ended with the finding of the boy.

Peering into the old house shortly after 5 o'clock this morning, as nearly 100 men were still searching through the surrounding woods, the Negro said the dog growled and he saw the child. He held the other searchers, who came up at his shout that the dog would not permit him to get the child.

Sunday Band Concert Is Set For 5:30 P. M.

The Greenville Freeman's band will give a public concert at 5:30 o'clock Sunday afternoon. The concert will be given on the lawn of the court house unless it rains, in which case it will be presented in the armory.

The hour was changed from 4 to 5:30 o'clock so persons may attend both the concert and the baseball game.

HOLIDAY

The board of directors of the Greenville Merchants Association decided this afternoon to observe a holiday Monday, July 4th.

A general holiday is expected to be observed throughout the city and county Monday, which, with Sunday, will provide a two-day respite from work.

Social and Personal

Mrs. P. A. Tyson of Wilson, and Mrs. Hammer Winstead of Rocky Mount, spent today in town.

Mrs. Annie Pittman left yesterday to visit her daughter, Mrs. R. D. Foot, in Memphis, Tenn.

Mrs. Eva Shackelford of Fayetteville, was in town today.

Mrs. D. E. Oglesby, Mrs. D. R. Morgan and Mrs. L. W. Lancaster of Farmville, spent yesterday in Greenville.

L. A. Stroud spent yesterday at Atlantic Beach. Returning home, he brought with him Mrs. L. A. Stroud and Miss Margaret Stroud who have been spending several days at the beach as guests of Mrs. W. Z. Morton.

Miss Nancy Lee Summerell of Raleigh, is spending several days with her grandmother, Mrs. W. B. Brown.

A. E. Hobgood has returned after having spent several days at Morehead City.

Mrs. Nana Brown of Statesville, is the guest of her sister, Mrs. J. B. White.

Mrs. J. D. Rabb and small son, Dudley, of Lenoir, are visiting Mrs. E. H. Menefee.

Mrs. Frederick P. Brooks and children are spending the week in Kinston with relatives.

Mrs. Marvin Blount and small daughter, Florence Nelson, have returned from Virginia Beach, Va.

Mrs. Foster Young entertained the members of her bridge club at Atlantic Beach today.

In Local Hospital. Mrs. Joseph Tripp is a patient in Pitt General Hospital, where she recently underwent a minor operation.

Injures Foot. W. Z. Morton, Jr., is suffering a deep gash in his foot sustained yesterday at Atlantic Beach, when he stepped on a broken bottle. Fourteen stitches were said to have been necessary to sew up the wound.

Card of Thanks. I wish to thank all of my many friends for their expressions of kindness and sympathy shown me during my recent bereavement.

Special Programs At Beach. Atlantic Beach, June 24.—Special programs for every night next week have been announced for the beach casino. Music will be furnished every night by the famed New York orchestras of Frank La Marr.

Sunday, 4 to 5 p. m., free concert by La Marr band; Monday, Amateur night; Tuesday, girl break dance; Wednesday, Mid-week dance; Thursday night, Professor Quis, with the Beautifol Junior Chamber of Commerce competing against the Morehead City Junior Chamber of Commerce, and Contract and Duplicate bridge games; Friday, cabaret, with floor show; and Saturday night, big dance featuring dance team.

Community Sing At College. Superintendent J. H. Rose led a community sing last night at the college that seemed to be thoroughly enjoyed by both those who participated and those who listened from the windows of buildings nearby.

The singing began at 8:30 and gradually drew to the Wright building enough singers to fill comfortably the broad open steps leading up to the entrance of the building.

Sopranos, altos, tenors and basses joined in all the old favorites under the leadership of Supt. Rose, and at the end of the informal program he was given a vote of thanks and asked to return for another such sing one night next week.

Copy of 'America' Found in Library. Waco, Texas.—(AP)—Spring cleaning at Baylor University's library brought to light an original copy of the anthem "America," which was once "valued at not less than \$10,000."

Dr. W. S. Hoole, librarian, said there were six original copies of the anthem. The one found here belonged to Dr. A. F. Beddoe of Dallas, who affirmed before a notary public that the copy was not a facsimile and that it was worth at least \$10,000.

Western Atmosphere. Helena, Mont.—(AP)—Helena, the capital of Montana, outgrew cowboy attire so long ago the Chamber of Commerce believes its residents may have forgotten how to wear ten gallon hats. So two weeks before the convention of the Montana Stockgrowers convention the citizens will don boots and sombreros and wear them daily until the meeting "just to create a free and easy western atmosphere" in which the cowmen will feel at home.

MODES of the MOMENT

by Adelaide Kerr

FROM THE ELEGANT EIGHTIES—From the foamy frocks of the elegant eighties Paris takes inspiration for a garden party dress of white organdy trimmed with a red organdy girles. Its demure tucked bodice and frothy hem ruffle combine to make a distinctive frock which is also smart for summer dinner parties or house weddings.

HINTS TO HOUSEWIVES

the refrigerator during the summer to freshen summer clothes when you press them.

Spinach is a valuable vegetable, but it does need some additional flavor to make it appeal to all the family. You can make it more palatable by adding a cheese cream sauce or minced onions and green peppers, or still again by mixing in a bit of catsup or chili sauce.

For a different appetizer or salad try an alligator pear-tomato combination. Cut both into thin slices, marinate in French dressing and chill for an hour. Sprinkle with lemon juice and serve on salad greens.

That vital culinary instrument, the can opener, should have a special hook to hang on. It's used so often that you will save time by not dumping it in the drawer with all your other kitchen gadgets.

Add six whole cloves, one teaspoon of cinnamon and a tablespoon of lemon juice to two cups of diced pineapple. Chill for several hours, then remove the cloves at serving time.

For a quick meal fill biscuit cases or hollowed toasted bread cubes with creamed tuna, salmon or chicken. Or you can serve the cream mixture on waffles.

The name vaudeville is derived from Vau de Vire, a French town where humorous songs were written in the 15th century.

Hollywood

Sights And Sounds

By Robbie Coons

Hollywood—About the most delectable morsel of actress to expose herself to a Hollywood camera in many a month is Mlle. Danielle Darrieux, heretofore famed for her delicate dramatic performance in the French film "Mayerling" and for her shapey figure as glorified by Hollywood still cameras.

She makes an impressive American debut in "The Rage of Paris," a silky light comedy directed with a "touch" by Henry Koster and enacted with enthusiasm by the star, Douglas Fairbanks, Jr., Misha Auer, Louis Hayward and Helen Broderick. Miss Darrieux portrays a French girl stranded in New York out to get herself a rich husband on the advice of Miss Broderick after efforts to land a job have failed. Auer as a head-waiter is prime investor in the scheme. Hayward the intended victim, young Fairbanks the friend, who tried to save Hayward, with consequences for himself no less delightful in their screen narration for their inevitability.

The new star—for she is that—exhibits gamish charm, seductive innocence, and spicy temper in this comedy assignment along with fresh and youthful beauty.

Fairbanks Again "Having Wonderful Time" is a comedy about a Bronx girl who finds romance at Kamp Kare-Free with the same young Fairbanks who serves Miss Darrieux romantically in "The Rage of Paris." He plays a waiter at the bolterous vacation resort where hundreds of job-sick youngsters, including Ginger Rogers, go for two frenzied weeks of "rest." Somewhere in the cinema shuffle part of Playwright Arthur Koop's richly humorous pathos seems to have been lost, but the picture retains many high spots of comedy and is generally enjoyable. Alfred Santell is credited with direction, but re-takes by George Stevens provide the funniest sequence—the backstage game by Ginger and Lee Bowman, Kamp Kare-Free's Lothario, Lucille Ball, Bowman, Eve Arden, Donald Meek, Grady Sutton and Richard Skelton (he's the "social director" who thinks he's

she finds her idolized movie director uncle (Henry Wilcoxon) caught by the downbeat of fame. The way she goes about reviving his career, cementing his romance with pretty Gloria Stuart, and incidentally making a career of her own, makes for a pretty entertaining hour.

"Speed to Burn" marks former movie newsmen Jerry Hoffman's bow as a producer. First in a series of "sports adventures" it deals with horse-racing. Essentially familiar ingredients are brightened with novel twists and a worthy cast does well under Otto Brower's direction. Henry Armetta and Inez Palange as a comedy team almost steal the show, but Marvin Stephens, former newsboy, is convincingly sincere and Michael Whalen and Lynn Bari (who looks amazingly like Colbert) are excellent. The whole is more than acceptable.

FORCEPS ON OUTSIDE were used to remove 7-inch forceps left inside Mrs. Esther Cornett of Kansas City.

amount of anticipated revenue. Chairman Libby Ward called in Director Bagley and calmly announced: "Mr. Bagley, we are giving you an appropriation of more than you have asked for."

The Craven legislator explained that this could safely be done in the case of the REA because if the increase was not actually needed it wouldn't be spent on for frivolous purposes just to use it up.

While your correspondent was kidding Mr. Bagley and declaring "there must be something wrong with an agency which doesn't spend all its money," Clarence Stone, Rockingham county Representative happened to drop into the office.

"That's because there are no drones here," he said. "This is one of the few commissions I have helped create in this state which is really functioning and doing a good job, while at the same time it looks out for the taxpayer's money."

**Man About
 Manhattan**

By George Tucher
 New York—Your pampered rumbunctious has had a very gratifying

day, and if a record of his activities were chronologically set down they would appear something like this:

A—Gossiped two hours with Milton and Esther Caniff, who drove out from New City to bring me a bushel basket of fruit—six pineapples from Cuba, bananas from the West Indies, peaches from Georgia, lemons from Louisiana, Florida oranges, Texas pears, and apples.

B—Made a careful check of all my fishing tackle, as I plan to quit this bed of pain in the next 100 days and hie up to Mel Graff's place, way up beyond Amsterdam, in a wild wooded sector on a big watershed. We'll fish and rest for two days. He writes: "The muskies are running and yesterday a big 23-pounder was taken in the yonder cove." Ah'm com-ing.... Ah'm com-ing, even if mah head.... Ah'm.... bending.... low.

C—Combed all the loose fur out of Cynthia's coat. And who is Cynthia anyway? She's crazy about me. She's my Persian cat, and she's 11 years old.... Had her ever since she could say meow. She's a great girl, although the bluejays are making it tough for her. They scare the dickens out of her every time she goes out into the yard.... They must think she's after the baby bluejays.... Well, Cynthia

isn't thinking about bluejay meat. She likes kidney and fish.... I suppose she'd look sort of funny to you if you ever saw her.... She used to have a tail long as a setter's.... But not long ago the wind blew the door shut on it.... And pinched it off.... It's hanging on my tie rack now, dangling with my neckties.

D—Finished reading "The Yearling" and then took my medicine. Look it like a little man, too. If you want a book that is so "readable" it hurts. I offer you "The Yearling." You can smell the spring rains washing things clean.

E—Ran off some motion pictures of a hunting trip we went on last fall. First time I'd seen them. They were in color and very good, although what impressed were the red hunting shirts, there being little game. It seemed strange seeing one's self kicking through snow with the temperature hovering around 86 outside.

F—Which reminds me my own temperature is at normal. My appetite is subnormal. But do not let this condition alarm you, for subnormal with me means that I am merely ravenous.

G—Well, the honeymoon is almost over.... Only a couple more days, the doctor says.... That

means back to Siberia, back to the salt mines.... But it's been fun.... Boy, this thing is certainly a racket. Wonder why I never thought of it before. (Miss Jones, remind me to try this again some time.) People being good to you.... People fussing over you.... Fixing your fried chicken.... And

wearing you out with "Can't I get some of this for you?" "Or wouldn't you like to have some of that?" Sugar, I don't want to seem unappreciative, but I can't stand much more of this.... They're just naturally killing me with kindness.

**State REA Agency Again
 Fails Use All Of Funds**

Reflector Bureau Raleigh, June 24—For the third consecutive year the North Carolina Rural Electrification Authority will not expend the full amount appropriated for its operation. Dudley Bagley, REA Director, said today.

Which is to say that the agency has a perfect mark in this respect as it has been functioning for three years only.

This year's appropriation was \$10,000. Mr. Bagley expects to show expenditures totalling only slightly more than \$8,000.

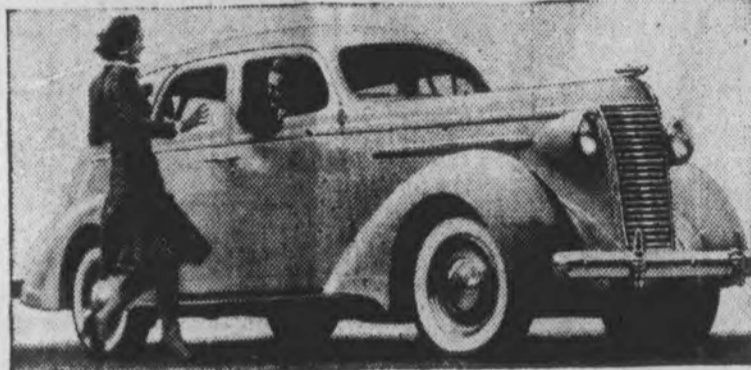

The REA will likely be the only state agency to show such a record.

almost certainly it is the only one which has never in its existence spent all its allotted money.

The REA likewise enjoys another distinction—Mr. Bagley was too modest to tell about this, but this correspondent's recollection of the 1937 General Assembly confirms it—it is probably the only state agency which was given a larger appropriation for the current biennium than it requested.

When the Appropriations committee was struggling with all its might and main to trim request from this, that and the other agency in order that the total to be spent might be somewhere near the

NATIONAL ADVERTISING REPRESENTATIVES

Thomas F. Clark Co., Inc., New York, Chicago, Indianapolis, Philadelphia, Kansas City, Richmond

Washington Daybook

By Preston Grover

Washington—This past Congress may go into history for the things it might have done and didn't do.

At practically any time of the day or night Senator Ashurst can say something apropos of almost anything.

When we approached him with a suggestion that he outline some of the major things the Congress left undone he grinned wisely and said:

"The country is always grateful for the legislation Congress does not enact."

Inch Still 8-8ths

Well, the country, on that basis, has much about which to be grateful. It did not pass a law to shorten the inch, although certain learned persons urged Congress to cut it down by about one ten-thousandth of the width of a pin.

Anti-lynching legislation went by the boards and so did the proposal to build a ship-canal across the Florida peninsula and to harness the Passamaquoddy tides.

They only sleepeth, and will rise again, come next Congress.

Not passed was a bill proposing to take up to 95 per cent of the profits of war and another to conscript capital and industry in the same hour the government sends its men into the battlefield.

If all the bridge bills which did not pass were laid end to end it would keep capitol janitors busy for weeks.

Too Bad, Oklahoma

Oklahoma, for a time at least, must do without the \$125,000,000 its officials asked the treasury to turn over to it as a result of inability to tax Indian lands.

At this point it is only fair to explain on behalf of Senator Ashurst that he is not against all these things. It is just his belief that the country would rather dodge most legislation even though any individual citizen, when confronted with a particular piece, as likely as not would vote for it in the belief it was for the public weal.

We have not added up the amount of money the country will not have to raise as a result of the legislation which did not pass. But the amount of change the country will have to raise as a result of legislation the 75th Congress did pass is upwards of \$20,000,000,000.

FRENCH CHILDREN INVITE ENGLISH PRINCESSES TO VISIT

Paris (AP)—The children of France have invited young Princesses Elizabeth and Margaret Rose of England to come with their parents, King George and Queen Elizabeth on their state visit due 28 to Paris.

It started when Richard Valabregue, 13, and his sister Anne 10 wrote a letter to the editor of "Paris Soit" saying:

"We would like to see the two little English princesses. Since their papa and mama, the king and queen of England, are coming to see us in France, why couldn't they bring them?"

SHORT SHOTS

By HENRY AVERILL

Raleigh, June 24.—Before his recent elevation to the state's Supreme Court, Justice Anthony Ashley Flowers Seawell was the state's Attorney General and as such it was his duty to argue for the prosecution in every criminal case which came up on appeal.

Therefore, the fact that his very first decision of a criminal matter was one granting a new trial to a Negro convicted of first degree murder may be a bit surprising to those who picture all former prosecutors as so thoroughly imbued with the state's side that they cannot rid themselves of the "prosecution" complex.

But to those who know kindly Justice Seawell, the decision was exactly what could be expected. Even when he was North Carolina's advocate he was never the blustering, bullying type so often found among solicitors.

Alas, alas and lackaday! On and after July 1 the "four bit pint" will be a thing of the past at ABC stores in the state's 27 wet counties. The new liquor price list shows that a raw grade of corn will sell for 55 cents, cheapest of them all.

Elsewhere along the line every sort of liquor had advanced about 5 cents on the pint and 10 on the quart.

Unfortunately the bootleggers probably won't go along with the legitimates and there is likely to be more of the "hip" stuff purveyed than has been going on of late.

It's really too early for such predictions, perhaps, but here's a tip this correspondent would like you to clip, stick in your husband and look at about a year and a half from now.

Rockingham's Clarence Stone will run for Congress in 1940.

If you think the most privileged character in Raleigh is the Governor, or some other high ranking political big wig, you're all wet—this honor goes to a big brownish black (or maybe it's blackish brown), dog of more than uncertain ancestry.

Almost every day about noon, just when the sun is hottest and the crowd is thickest on Fayetteville street, the town's main drag, this nonchalant pooch stretches himself out on the pavement squarely in front of the city's biggest, best-patronized drug store and proceeds to go peacefully and soundly to sleep.

Day after day this happens, but apparently no one ever molests him, everyone stepping very carefully around him so as not to disturb his slumbers deep.

D. B. Peering, Dare's State Senator nominate and moving spirit of the Roanoke Island celebration, was in town Thursday and was as voluble as ever about the big Manteo spectacle.

He gave your correspondent a five page typewritten synopsis of what's going to happen down there this summer, but the whole affair is well-summarized by the sub-heading:

"The 351st Anniversary of the Birth of English Civilization in America... To Be Celebrated at the Nation's Birthplace... Nation's Foremost Attraction..."

The Commission to study the set-up of a State Department of Justice got an able, hard-working member when Governor Clyde R. Hoey named Wilmington's City Attorney William B. Campbell to succeed L. Clayton Grant, noted lawyer from the same city, who died recently.

Colored News

CHINA USING PROPAGANDA FILMS TO UNITE PEOPLE

Shanghai (AP)—War films are now an important part of the propaganda campaign of the Chinese government to unify the country in the fighting with Japan.

A new film entitled "Love Thy Country" is being released by the movie studio of the political training department of the national military council.

It is announced as a "glorification of China's Holy War of resistance against Japanese invasion and savagery" with an authentic background of fighting in Central China.

INDIANS WANT A TRIBESMAN CARVED INTO MT. RUSHMORE

Gettysburg, S. D. (AP)—Two clubs of the Iroquois federation, the Wam Bi To and the Wapa Waste, have suggested that the figures of Washington, Jefferson,

OCTAGON HOUSE

BY PHEBE ATWOOD TAYLOR

The Story So Far: Asey Mayo, Cape Cod detective, is investigating the murder of Marina Lorne, whose husband's post office mural has enraged Quannomet. She was killed by a left handed blow from the knife of her sister Pam Frye. Interested parties are: Tim Carr, once married to Marina; Roddy Strutt, whose alibiing plane crash was deliberate; Peggy Boone, an artist; Jennings, an irate plumber; and persons unknown who burned down the Frye's barn, bifed Asey, Tim, and Pam's father, destroyed Jack Lorne's mural sketches and defaced the mural itself. Missing is a \$50,000 lump of ambergris belonging to Pam. Then Roddy disappears, and the bigger turns out to be Jennings, who says he is very sorry.

Chapter 43

Asey Is Wrong

"BUT the barn burning, Jennings!" said Tim. "And the contents of the barn. You'll have quite a time before the Fryes forgive you that—"

"How'd you know about the contents of the barn?" Asey asked sharply.

"Pam told me. She—"

"She did?" Asey sighed. "Has she told everyone? An' I give her credit for so much sense!"

"I think she was sensible," Tim said. "And anyway, the stuff's gone. But it'll take more than pipes

him, you believe every word he says! You don't seem to think it matters, what he did to me, and my drawings, and all you're in league with him—"

"Would you," Asey asked with a purr in his voice, "like another spankin'? Would you?"

"Well," Lorne said, "well, why do you uphold him?"

"I don't! I'd figured what part the biffer played, an' I was right. I worried for fear he might really be after Roddy, but he's proved that's all Roddy an' Carveth, puttin' on an act. Now, Lorne, take the advice of the old Philistine, an' pipe down. Tim, what become of the trooper you brought over?"

"He's outside. I didn't know until he popped in. I Timothy said, "That Jennings was here. I told the trooper to go outside and keep watch. He's there now, I suppose."

"Who is he?"

"No one I ever saw before." "That's a relief," Asey said. "If he's Shorty or O'Malley, Jennings might have his hands full. Coming over to see Pam an' Aaron?"

Jennings squared his shoulders. "Uh-huh."

"Hurry!"

OVER at Octagon House, Pam greeted them wearily.

"Don't speak above a whisper," she said. "We just got Aaron asleep—I don't know if Cummings gave

"Pam, I did it. I'm aweful sorry."

and a tiled bath to make Aaron and Pam forget. Why did you burn the barn, Jennings? Why didn't you burn two other barns?"

"But I didn't burn any!" Jennings said.

Tim looked at Asey. "Jennings hit you," Asey said, "an' then started for Lorne's. The way he laid out the troopers—what'd you use, your bare fist?"

"I did on you. I used my billy on the others. My old M.P. billy." "I see. Well, after the troopers, he came here an' smacked Aaron. Think it was Jack. N'en he beat it. He wasn't around while the barn burned, though he may have been while the fire was bein' set, earlier."

Tim raised his eyebrows.

"Then he came back again," Asey said, "and O'Malley and Shorty chased him, an' some time durin' the interval, him an' me had our set-to. If you really want to go into it, we can take a pad an' time it out. But that's the way it all happened, an' it all fits."

"I must have been out a long time," Tim said.

"Nope, when you consider what you got hit with, an' the stump you landed on. You got to remember you was copin' with the pride of Comp'ny B."

"I see," Tim sounded dubious. "But are you quite sure, Jennings, that you didn't burn the barn?"

'Pattin' On An Act'

"HONEST, I didn't. I smelled smoke later, but I thought it come from town. They'd been starting fires there. Asey, you believe me, don't you?"

"I'm inclined to," Asey said, "but I honestly don't know why. Just your winnin' personality, I guess. Now, I got to get along. I'll see Pam before I—"

"What about me?" Lorne asked. "Me, and my drawings, and my—my sufferings? And—"

"Just you consider them," Asey said, "the sufferin' of a true artist, an' thank God Jennings didn't do more than spank you."

"You defend the man!"

"I don't, but I know the part he played in this—"

"You defend him, you excuse

him too many pills, or not enough, but he's been fretful and nervous—he's even been fussing about the clocks. I've called Dr. Cummings and told him to drop over before he finishes for the night. I'm worried."

"Pam," Jennings said, "I did it."

"What?"

"I nit him, but I didn't mean to. I thought it was Lorne. I didn't throw him down the stairs, he fell. And I'm awful sorry—can I fix you up with water and a bathroom, free—and the doctor's bills, and honest, I'm awful sorry," Jennings paused for breath. "Honest, I am."

Asey didn't know whether Pam was going to laugh or cry or just whack Jennings in the nose.

"Did you burn the barn?" she said at last.

"No, I didn't."

"Well—oh, damn, there's that phone, and it'll wake Father—damn you, stop ringing!"

"Think she's mad?" Jennings whispered as Pam raced off to the phone.

"I think you're lucky," Asey said. "I havin' a reasonable woman to deal with—"

"It was for you, Asey," Pam said, coming back. "It was Elliott, and he wants you over at Roddy's. He didn't say what he wanted you for, but he said to hurry, and I said you would."

"Okay," Asey said. "You an' Jennings solve your problems. I'll be back here for the night—oh, have someone get me some clean clothes from home, will you? Phone Jennie or Syl."

Elliott was waiting for him at the driveway to the Strutt estate. "They weren't lying," he said. "They weren't putting on an act, Asey."

"You mean, Roddy has disappeared?" Asey said. "Well, maybe. But I've solved Jennings, and I know no menacer got hold of Roddy. He may have gone elsewhere, but he went of his own accord. You don't really think that Roddy is seriously missin', do you?"

"Well," Elliott said briefly, "he's dead, anyway."

(Copyright, 1938, Phoebe Atwood Taylor)

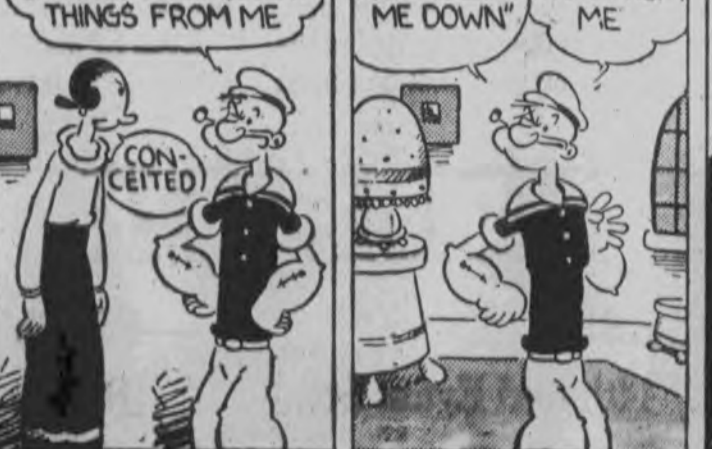

Tomorrow: An argument ensues.

Lincoln and Theodore Roosevelt now being carved in massive size on Mount Rushmore, in the Black Hills there be added a fifth, that of an Indian. Advanced as possibilities were Sitting Bull, noted in the days of General Custer; Pontiac, Ottawa chief; Tecumseh, a Shawnee chief;

Hiawatha, and Sacajawea, Shoshone squaw, who guided the Lewis and Clark expedition.

Greenies Lose To New Bern's Bears By Score Of 5-4

BAD LUCK STILL 'DOGS' LOCALS

Superior Hitting Fails To Turn Trick As Look Will Show

Greenville lost another ball game in the ninth inning yesterday, this time at the hands of New Bern in the Bears' park.

Wilson held New Bern scoreless for seven innings, but the Bears got busy in the eighth and scored four runs to take a 4-3 lead. The Greenies made one in the ninth to knot the count, but a ninth-inning run gave New Bern the victory, 5-4.

Greenville made one in the 4th as a result of hits by Morris, Korba and Miller. The second tally came in the next frame as a direct

Friday—New Bern at Greenville.
Saturday—Greenville at Williamston.
Sunday—Williamston at Greenville.
Tuesday—Tarboro at Greenville.

result of New Bern errors. Third run for the locals, in the sixth, was accomplished by a single and three walks.

With Greenville leading three to nothing, neither team was able to score in the 7th, but in the 8th the Bruins made four. Burge homered following Mack's infield hit to account for two. Two Greenville errors let in the tying run and then Black's bunt scored another to put New Bern in the lead.

Greenville came back in the 9th to tie the count. Chick Miller hit a single following a walk and a sacrifice, but the one run was not enough, as New Bern made one in its half of the ninth to score the victory margin.

The winners made only five hits, while Greenville was getting nine. Each team made two errors.

Real Dough!

New York, June 24.—Joe Louis' earnings as a professional fighter jumped well above the million-dollar mark with addition of his 40 per cent cut of net receipts from Wednesday night's title bout.

The Louis share amounted to \$321,245.20. In less than five years the former Alabama cotton-picker has earned more than \$1,250,000 with his fists.

Gross receipts for the Wednesday night bout, including \$75,000 from the radio and motion picture rights, totaled \$1,015,096.17. This figure was a shade over the gross for the Baer-Louis bout in 1935 and a new "top" for promoter Mike Jacobs. The net receipts, after deduction of federal and state taxes, were \$803,113 from the ticket sale. The paid attendance, considerably below ringside guesses, was 66,327.

Schmeling's 20 per cent share amounted to \$160,623.60.

The Department of Agriculture states that 16,818,000 bales of last year's record cotton crop of almost 19,000,000 bales had been sold by farmers for \$734,194,000.

After an epidemic of typhoid in Croydon, England, 100 damage suits have been filed against the municipality for loss of relatives and business.

CAMERA RECORDS SMASHING DEFEAT OF THE BLACK UHLAN

These six pictures record the smashing defeat of Max Schmeling, Germany's "Black Uhlman," at the hands of Joe Louis, America's "Brown Bomber," at Yankee Stadium in New York. (1) Louis, the heavy weight boxing champion, cocks the winning punch; (2) it lands; (3) the champion follows through; (4) the German buckles and (5) falls as (6) the towel is tossed in to the ring. Schmeling is at Poly clinic hospital in New York for an examination.

Eagles On Top Again As Billies Beat Serps

Ayden, June 24.—Kinston staged a three-run rally in the ninth today to defeat Ayden 4-2 and take over the top of the Coastal Plain League as Tarboro lost to Snow Hill.

Ed Hurley and Bill Herring hooked up in a pitchers' argument. Until the ninth, each had given up three hits. The Eagles jumped on Herring in the ninth for 3 hits, a walk, a fielder's choice, and an error.

Manager Tommy West walked to start the Kinston rally. Stringfellow got on when Carnahan errored. Southworth's single scored West after which Patton singled to score Stringfellow. Southworth was tagged at home on Schuerholz's neat toss of Gilson's grounder. Wright beat out an infield hit to score Patton.

Ayden scored in the first on a hit batsman, a walk and two errors. Jiggs Gassaway homered over the left field fence in the fifth. The Eagles scored in the fifth as a result of Patton's infield hit, a walk, a passed ball, and Wright's single.

Speaking Of Homers, They're Handy Here

Snow Hill, June 24.—Snow Hill defeated Tarboro, 3-1, yesterday and dropped the Serpents into second place in the Coastal Plain League standings. Home runs accounted for all scores.

The Billies won the game in the sixth. Horse Mewborn walked and came home on Walter Rab's homer over the left field wall. Harry Soufas thrown out at first, and Tony Malsano hit a homer over the left field wall.

Clarence Campbell hit a homer over the right-field fence in Tarboro's first inning. Cecil Longest then pitched hitless ball until the sixth, when he gave up two hits. Lefty Zschau gave up five hits and struck out nine. Walter Robb was the only Billie to get to Zschau for more than one hit—he hit a single in addition to his homer.

Fielding features were turned in by Tarboro's Izman and Snow Hill's Malsano.

Tarboro..... 100 000 000—1 5 0
 Snow Hill..... 000 003 00x—3 5 1

Zschau and Lisie; Longest and Bisthoff.

Balsam of Peru, an important pharmaceutical product, is obtained from a tree that grows only in the Republica of El Salvador.

Electric feeding machines are used in Alsace to make goose fatter and produce more "pate de foie gras" Alsatian liver paste delicacy.

How's Your Health?

How's your health? The food you eat serves a variety of ends. It is the source of energy for your internal and external activities. It is the source of raw material for growth and replacement.

Season, climate, and your age and occupation affect the amounts of food you need, and the uses to which your body puts it.

The young child needs relatively large amounts of food for "growth." The man doing exacting physical labor needs a diet of high caloric value. The sedentary worker and old persons do best on a sparse diet.

Heat is a by-product of all work. In the human body heat is a by-product of metabolism. The normal human mechanism maintains its temperature constantly at 98.4 degrees regardless of the atmosphere's temperature.

In cold weather the body must be "heated" by additional internal combustion. To maintain body weight and temperature, the winter diet must provide extra fuel.

In summertime, however, the temperature of the atmosphere is frequently higher than the body's. Then the body has to shed a great deal of heat. It does this by perspiring and in other ways.

Your summer diet should contain fewer calories and a minimum of those foods which whip up metabolism.

The meats and animal proteins stand out among such foods. Meat, fish, eggs and cheese should not be dropped from the diet, but should be used sparingly, except for children who do have a growth need for protein foods.

The digestive processes seem to be upset more readily during warm weather. Meals should not be too large in bulk and should be free of fat, greasy and fried foods which are hard to digest.

Summer heat favors the spoiling of food, so it should be handled with special care and cleanliness. If you are suspicious of any food article, it is better economy to discard it than to take a chance.

Milk foods, fruits and vegetables should figure prominently in the summer diet. Be sure to wash all fruits and vegetables well.

Water is an important element in the summer diet. Avoid drinking water that's too cold. When perspiring much after exposure to great heat, add salt to your drinking water—about one level teaspoonful to each quart.

Transportation-Nehei softball team took the league lead yesterday afternoon by defeating Blount-Harvey 11-3. Before yesterday's contest the two teams were tied, each having won nine and lost two.

Ability of the Transportation-Nehei team to hit the ball at opportune moments provided the margin of victory. Both teams played fairly good ball afield.

The Water & Light team, which has been winning all games recently, added another yesterday afternoon, trouncing the Furniture men 15-4. The Water & Light boys are entrenched in third place, with 9

Washington—Hydrogen may explain most of the heat and brightness of the sun and stars. The role of hydrogen, lightest weight of all the chemical elements, is calculated in the Physical Review by G. Gamow of George Washington University.

The source of the sun's heat has long been a mystery. Until a few years ago it was thought that the sun and all stars must be burning up. Radiating their mass into space was the scientific description. But it was found that on this theory sun and stars apparently would have been "dead" eons ago.

Dr. Gamow calculates what can happen in the central part of a star, where the temperature runs to millions of degrees.

At the temperatures assigned to the interiors of stars he says hydrogen will be converted into heavier chemical elements. This, furthermore, is the only change of the sort that can take place. The other chemical elements will not be changed.

Conversion of hydrogen into heavier elements will liberate vast quantities of heat and light. So Dr. Gamow figures this conversion of hydrogen answers the old mystery.

Tests in Tokyo show that an average of 24 tons of dust falls per square mile every month.

It's Odd But It's Science

Washington—Hydrogen may explain most of the heat and brightness of the sun and stars. The role of hydrogen, lightest weight of all the chemical elements, is calculated in the Physical Review by G. Gamow of George Washington University.

The source of the sun's heat has long been a mystery. Until a few years ago it was thought that the sun and all stars must be burning up. Radiating their mass into space was the scientific description. But it was found that on this theory sun and stars apparently would have been "dead" eons ago.

N. Y. Stock Market

New York, June 24.—(AP)—Stocks leaped upwards one to more than four points today in the fifth consecutive rallying day, but profit selling became more insistent and cut down top markets in many cases at the close.

Buying orders from all parts of the country flooded the board rooms at the start and the ticker tape during almost the entire first hour was behind as much as four minutes.

Volume dwindled as offerings ap-peared at reduced quotations. At that, transfers approximated 1,300,000 shares, the best, with the excep-tion of yesterday, since last Decem-ber.

FINDS GHANDI A SINCERE MAN

Young Student in Raleigh Tells of Visit to India Leader

By WM. E. RICHARDSON

Raleigh, June 24.—There is in Raleigh a young student who has met India's "little old man," whose name is known around the world, and whose father, a missionary in India, as well as acquainted with Mahatma Ghandi; who works in sympathetic cooperation with all who are trying to bring about better conditions among the squirming masses of that hot, steaming much-divided land.

L. A. Alley, student at the Uni-versity of Virginia, who was born in Maryland and whose father, the Rev. H. L. Alley is a Virginian, held a conference with Dr. Carl V. Reynolds and others at the State Board of Health. He is studying sanitary engineering and hopes to be able to return to India and give the under-privileged rural people there the

benefit of knowledge he is gaining here in America.

"I don't recall the highest tempera-ture I have experienced in India," he said, "but I do recall that during one 24-hour period the minimum was 102, and this occurred about 5 o'clock in the morning. However, it does turn a little cooler during the rainy season," he continued, "and at the place where I attended school, in the mountain region, it is impos-sible to hold sessions in winter, due to the extreme cold weather, so school goes on during the summer, instead. The place is a summer re-sort.

Well-to-do citizens of India are able to leave the hot low country and go to such places as this," he said, "but they are comparatively few."

Mr. Alley is very much interested in public health, he told Dr. Reynolds and others with whom he con-ferred. "I have seen men and wom-en with leprosy, that dreadful dis-ease, which takes so many forms, but leprosy is now curable. In some cases, their fingers drop off, while in other cases the skin turns white and thickens. One form of leprosy makes the skin turn brown and shrivel up."

"What are your impressions of Mahatma Ghandi?" he was asked.

"He is a good, sincere man," was the reply. "While he does not be-lieve in Christ the way Christians accept Him, yet he thinks that Jesus was one of the greatest moral teach-ers who ever lived, and he lives by the Sermon on the Mount, which he says is the finest code of living ever given into the hands of human be-ings.

Ghandi is sympathetic with the work of Christian missionaries, be-cause of the fact that they are en-gaged in trying to help the people of India, especially the lower class-

es. Ghandi and my dad are great friends, and dad consults him often about his work, always receiving a sympathetic hearing. This little old man of India sees and talks freely with all who seek his advice, except on his days of silence. Then, he sees no one and carries on no conversa-tions whatever."

Mr. Alley may spend the summer in North Carolina. During his spare time at the University of Virginia, where he is working his way through school, he coaches students who get behind in math and other subjects.

There are many divisions among the people of India, he said, especial-ly in matters of religion. The Hindu faith, he added, is the prevailing faith. Adherents to this believe that men and women return and live in other bodies—in animals, if they are bad, in higher forms of human existence, if they are good.

"Britain makes it a practice not to interfere with the customs of people she rules, if these are not notoriously injurious," he said, "but when such practices are victims, they are banned, as, for example, the former custom of wives to throw themselves on their husbands' burning funeral pyres."

Change Suggested In Hog Marketing By Co-Operatives

Specialist Says Farmers Must Offer Constant Supply or Packers Will Turn Elsewhere

Reflector Bureau

Raleigh, June 24.—Employment of a selling agent to handle the sale of hogs for all co-operative mark-eting agencies and eradication of the "soft and oily racket" are para-mount problems facing North Caro-lina swine producers, Paul L. Fletcher, livestock marketing specialist of the State Department of Agricul-ture, announced today.

Basing his information on a 12 months study of Tar Heel swine markets and with four years prac-tical experience of livestock on ter-minal markets, Fletcher said he was "convinced that to meet the requirements of the packers, farm-ers must offer a fairly constant sup-ply of hogs or else the packers will undoubtedly turn to other markets where constant supplies of swine are available."

Fletcher explained that the "soft and oily" system of buying permits the buyer to retain from \$1.50 to \$2 of the farmer's money until af-ter the hogs are slaughtered and car-casses graded for firmness, which is a "price setting factor." He added that "this system is unfair since the grading of hogs is done by em-ployees of the buyer, giving them price fixing authorities, and of the \$1.50 of \$2 retained the farmer gets whatever portion the buyers' grad-ers decide to give him."

Citing the need for only one sell-ing agent for state markets, Fletcher said that buyers that bid on co-operative markets usually get all or none of the day's hog of-ferings in the state, whereas an agent would give the growers the advantages of several marketing sources and at the same time al-low individual packers to buy his needs." He added that an agent would have the latest price infor-mation, would be familiar with the packers' needs and be in a better position to bargain for the reason that he would have a larger num-ber of animals to offer the trade.

Boars were common in England until the time of Henry II.

HEALTH BLDG. NOW ASSURED

PWA Grant Made for Construction of Laboratory

Raleigh, June 24.—The way was opened for immediate construction of the State Board of Health's new Laboratory of Hygiene in Raleigh to be erected on the corner of one an' McDowell Streets, with the an-nouncement received from Washing-ington by Dr. Carl V. Reynolds, State Health Officer, that a PWA grant for \$130,909 had been ap-proved. Added to this is \$160,000 realized from a bond issue author-ized by the 1937 General Assem-bly, making the total amount for this new building and equipment of the farm, located west of the City of Raleigh, 290,909.

The new building, which will occupy space on Caswell Square, ad-jacent to the quarters now occu-pied by the State Board of Health will cost approximately \$190,000, in-cluding equipment, while the total outlay for the farm and the equip-ment there will represent about \$100,000.

"The laboratory will be three stories high, with a basement, and will be of brick construction. North Carolina materials will be used through-out wherever possible. Dr. Reynolds said, emphasizing the fact that the services performed by the laboratory saves the taxpayers of the state ap-proximately \$2,500,000 a year, at a cost of around \$125,000.

Plans for the laboratory, which will be slightly altered on account of the increased amount available, include laboratory space that will enable still greater services to the people, an auditorium on the ground floor that will seat in ex-cess of 200 and other equipment giving the entire plant all modern facilities.

Animals used in experiments will all be raised and cared for on the farm, which will contain modern buildings throughout.
