

BOND ELECTION TO BE CALLED FOR PROJECTS

Voters To Decide On Power Plant Improvements

BOND COUNSEL ADVISE ACTION

Board of Aldermen Also Expected To Call Election on Municipal Buildings

Upon recommendation of the bond attorneys, the Water and Light Commission will put the question of calling an election on the issuance of \$200,024 up to the Board of Aldermen at a special called meeting Monday night.

It originally was planned to issue the revenue bonds without an election, but Martin Swartz, superintendent of the Utility plant, today said the commission preferred that the question be placed in the hands of the people.

The primary purpose of an election, Mr. Swartz declared, was to secure a lower interest rate. Had the bonds been sold without election the securities would have been guaranteed only by the additional revenue realized through the improvements and replacements. Under such circumstances, it was pointed out, purchasers would not be willing to make as low bids as if the bonds were sanctioned at an election and the entire revenue of the utilities pledged.

Announcement was made in Washington yesterday that the PWA had approved the project and allocated a grant of \$168,545, representing 45 per cent of the total cost.

"We are putting the question of whether the people of Greenville want to take advantage of these funds by supplying the remaining 55 per cent for needed improvements which will have to come sooner or later," declared Mr. Swartz.

The project calls for a grant of \$363,680, but the actual grant made of \$168,545 takes care of interest.

The Board of Aldermen also will consider the calling of an election in the issuance of \$137,225 in bonds to carry out a municipal improvement program. The PWA already has authorized a grant of \$112,275 for the city program which includes a new city hall, a central fire department station and a street department yard.

It is believed the elections will be held jointly but it was pointed out that the utility bonds would be retired from revenues of the plant and not from taxes. Should the aldermen authorize the elections, a period of 35 days would elapse before the election is held.

Memorial Baptist Will Hear Visitor

Dr. T. Baron Gibson of Valdosta, Ga., will deliver the message at both the morning and evening services at Memorial Baptist church tomorrow.

Members of the church are especially invited to attend the services and hear Dr. Gibson, and visitors also will be welcomed at both services.

PRIVATE SNEEZED: COMPANY LOST BANNER

Milwaukee, Wis. (AP)—A sneeze cost Company "E" of the Citizens' Military Training Camp at Fort Sheridan the inspection victory banner.

It seems that Company "G" won the coveted banner because a company "F" private sneezed at the wrong time. Company "G" rated 442.1 points and Company "F" got 441.5.

Weather For The Week

South Atlantic states—Scattered thundershowers first half and possible in south section latter part of week; temperatures near normal.

HAS HER OWN LICENSE

Wausau, Wis. (AP)—Mrs. Archie Towle, wife of the local airport manager and mother of four children, is one of the few Wisconsin women holding a private flying license.

Chinese War

Shanghai, Aug. 20.—(AP)—Chinese declared today their forces had check-mated the Japanese on all fronts.

The Japanese said a new large-scale drive against Chinese guerrillas in Shantung province already had gotten 10,000 irregulars near Tsinan, Shantung's provisional capital.

D. A.'s 'Dictator?'

A witness testified in the Jas. J. Hines conspiracy trial at New York that Sol Gold (shown above), assistant to Prosecutor Dewey, dictated a statement the witness made to a grand jury. He refuted testimony that Hines, Tammany leader, sent him to Harlem racket headquarters to get a job.

DIXIE'S DOORS ALREADY OPEN

Cannon And Moore Ready For Opening of Tobacco Sales

Doors of the Dixie Warehouse already have been opened to the tobacco-selling public of Eastern North Carolina, a preliminary to the opening of the 1938 marketing season.

As in past seasons, W. P. Moore and Biggs T. Cannon will be the proprietors and sales managers. Mr. Cannon will do the auctioneering and Mr. Moore will supervise the tobacco sales in the warehouse.

Jimmie Wooten is bookkeeper for the firm, and Barrie Ross, assistant bookkeeper. Seth Hooker will serve as clip man, and L. A. McLawhorn, floor manager. All are well known on the Greenville tobacco market. Each was employed by the Dixie warehouse last season.

Messrs Moore and Cannon have been warehouse associates for the past several years and operate a warehouse which contains approximately 75,000 square feet of floor space. More than 500,000 pounds of tobacco were sold on the floors of the Dixie warehouse in a single day last season.

Since the warehouse is practically a new building, no improvement program was executed in preparation for the coming season. However, arrangements are being made for the opening.

Lighting facilities of the warehouse are among the best in Eastern North Carolina. A courteous force is on hand at all times to assure the farmer of satisfaction.

Complete Survey Of Tobacco Firms

J. T. Welch, city sanitary inspector, working in cooperation with J. T. Bulla of the State Labor department, have been visiting Greenville tobacco factories and warehouses in the past few days.

The purpose of the visits has been to assist managers of these organizations in the matter of meeting public health regulations relative to public health facilities.

The Greenville tobacco marketing season begins next Thursday, August 25, and an effort is being made to have health facilities in a sanitary manner.

WHAT IT MEANS: The St. Lawrence Waterway

By MORGAN M. BEATTY AP Feature Service Writer

Washington—President Roosevelt's excursion to the new Thousand Islands bridge between Canada and the United States boosts onto the front page an international issue that has boiled back and forth across the St. Lawrence river for nearly a century and a half.

That issue is the proposed St. Lawrence deep waterway connecting the continent's Great Lakes ports with the Atlantic ocean, thus making ocean ports of such inland cities as Duluth, Chicago, Detroit, Port William, Ont., Toledo, Cleveland and Buffalo.

The deep waterway has been officially defined as a waterway with a channel at least 27 feet deep to accommodate 90 per cent of the vessels sailing the seven seas. Anything shallower than 27 feet would choke out much ocean freight tonnage.

There are two natural barriers for most ocean tonnage between the Great Lakes and the Atlantic ocean.

OFFICER TOLD HE MUST QUIT GERMAN SOIL

Charge British Official With Recent Espionage

CAPT. KENDRICK TO LEAVE VIENNA

Secret Police Claim They Have Proof of Activities of Man They Say is Spy

London, Aug. 20.—(AP)—Captain Thomas Kendrick, veteran British passport officer, mysteriously seized four days ago by German secret police, was ordered out of Germany today because of an official German statement called "proof" of his conducting espionage.

The Berlin announcement stating the British Ambassador, Sir Neville Henderson, has been requested to see that Captain Kendrick leaves Vienna at the earliest possible moment, coincided with a terse British official announcement that he had been released from custody.

He had been held at a hotel in Vienna. German Secretary Public headquarters, where the former Austrian chancellor, Schuschnigg, also was believed held.

Although British spokesmen said they understood Captain Kendrick would leave Vienna for England tomorrow or Monday, they declared the nature of the accusation against him had not been communicated to the British government.

Kendrick was passport officer in Vienna 13 years and had been called upon to grant hundreds of British visas for Jewish refugees since the annexation of Austria by Germany.

WEED ARRIVING IN GREENVILLE

Placed on Floors of Warehouses Here For Opening

Tobacco, Pitt county's chief money crop, started coming into the city today by the loads in preparation for the opening of the market next Thursday morning.

Twelve warehouses will be in operation this year and five sets of oyers will be on the floors every day. All of the houses have been made ready in anticipation of one of the greatest seasons in the history of the market.

No one would hazard a guess as to opened day prices, but averages paid on the Georgia, Florida and Border belt markets indicate producers will receive satisfactory prices, since the opening day prices on each of the belts were above those for the first sales day in 1937.

A few scattering loads came in several days ago, but today it was clearly indicated in "Tobacco Town" that the opening of the market is only a few days off.

An air of optimism prevailed throughout the section, farmers were looking forward once again to hearing the chant of the auctioneer which informs them how much they will realize for their year's labors.

DEMONSTRATES 'RED' SALUTE

Abraham Sobel, of Boston, who saw service in the Spanish civil war, demonstrated for the House committee studying un-Americanism activities, in Washington, the salute he said is given the Communist flag in war-torn Spain.

FDR, Green Talk Changes In Board

Hyde Park, N. Y., Aug. 20.—(AP)—President William Green of the American Federation of Labor, said today that he and President Roosevelt are "in accord on the necessity of making some changes" in the National Labor Relations law.

The labor official conferred with Mr. Roosevelt at the latter's home here today.

Green said he had called attention to "present complaints against administration of the labor law" by the Labor Relations Board.

"We went over certain specific cases of administration," Green told reporters after his conference. He added in some instances the board had departed "from the spirit of the law" in reaching decisions.

Green did not detail what changes in the law might be effected but said that in broad outline they either might curtail the board's present powers or clarify its duties.

Washington reports meantime, said the Social Security Board fixed August 29 as the date for a hearing to determine if the state of Ohio is to be cut off from federal funds for old age assistance.

"In a letter Henry Berroddin, chief of the division of aid for the aged of the Ohio Department of Public Welfare, the board said its investigations indicate that in the administration of the Ohio plan for old age assistance there is substantial failure to comply with the provisions of title one of the Social Security act."

Other capital developments: Frank Verdi, playwright and actor, charged before a House committee that non-professional actors and actresses favored by the Workers Alliance had displaced professionals fired without cause from the Federal theatre projects.

ACCORD HALTS QUALITY WEED CHURCH CRISIS

Rome, Aug. 20.—(AP)—The Fascist party today announced an agreement ending the recently growing friction between Fascism and Catholic Action, lay organization of the Catholic church.

The Fascist party bulletin said that at a conference between A. Starace, Fascist party secretary, and Marquess L. Vignoli, president of the Italian Catholic Action central office, an agreement had been reached "to conform to the accords reached in 1931."

The 1931 accord ended an earlier (Continued on page six)

Revision Of License Law May Trail Road Accident

Reflector Bureau Raleigh, Aug. 20.—Revision of the state's uniform driver's license act of 1935 is one of the most likely results of the holocaust on the Raleigh-Durham road in which Eugene M. Evans, driving a drunken stupor, killed three persons and injured three others.

Evans, of course, will be held to answer charges in the courts for the triple tragedy, but regardless of the result of his trial there must be an answer to the question why a man like him, who had only recently been committed to Dix Hill as an habitual alcoholic, was in possession of a driver's license and why he was permitted to operate a motor vehicle.

The Attorney General's office is momentarily expecting an official request—probably from Commissioner of Revenue A. J. Maxwell—for opposition of the law on the subject. The Commissioner is going toward to know if there is now any provision of law under which such persons as Evans may be deprived of driver's licenses.

SMUGGLE JEWS FROM AUSTRIA TO FLEE NAZIS

Northern Cantons are Mobilized To Aid Border Guard

ESTIMATED 1,000 FLEE COUNTRY

Modern Versions Of 'Scarlet Pimpernel' Enacted Aid Persecuted People

Berlin, Aug. 20.—(AP)—More than 1,000 Austrian Jews, it was estimated today, have been smuggled into Switzerland the past month by the modern versions of the Scarlet Pimpernel and the underground railway.

Three hundred Swiss frontier guards are trying to cope with the problem and all available police in the northern Swiss Cantons have been mobilized to help. France reinforced her guards at border points. Germans, too, promised increased vigilance.

The migration has been helped by a secret organization of Germans and Austrians, who, with earlier fugitives, supplied money and shelter for fugitives on the way to the borders, much as Negro slaves were aided secretly to reach the Canadian frontier by the underground railway in American Civil war days and Frenchmen escaped during the French revolution.

Jews, fearing for their future under the Nazi regime, frequently are willing to take desperate chances to get away. Emigration from Germany has become increasingly difficult as a result of international border regulations and German and foreign laws, despite the expressed Nazi determination that they must go.

The "underground" border traffic is particularly acute near the Swiss town of Diepoldsau, whose limits extend five miles along the former Austrian border.

FRANCO OPENS BIG CAMPAIGN

Claims Capture Of Five Thousand and 'Thousands' Slain

Hendaye, France, Aug. 20.—(AP)—Spanish insurgent dispatches said today that 5,000 Government militiamen were captured and additional thousands killed as General Franco opened what apparently was a carefully planned general offensive.

The insurgents attacked in force on the Ebro river front, where they reported the first line of Government trenches in the Pandos mountains had been occupied and the second line was being attacked today.

Bulletins from Barcelona said, however, the Government lines had held against the assault and had not lost an inch.

Observers believed Franco had given orders to his field commanders to wipe up the government's Ebro salient this week-end, so a combined campaign against Barcelona and Valencia could start from consolidated positions.

First indications that a major offensive was near came yesterday when insurgent authorities cancelled passes for exit to France as they had done frequently in the past before big drives.

'Let's Have It Out!'

Rep. John J. O'Connor (D-NY) placed on the administration's purge list by President Roosevelt, is pictured as he broadcast an appeal to the nation from New York to back him in his fight against the administration. "Let's have it out," he said. "If the people want a dictatorship, we should know about it as speedily as possible."

PRIMARY CASE NEARING JURY

Johnston Men Accused Taking Law Into Own Hands

Smithfield, Aug. 20.—(AP)—Four men charged with election law violation were accused in Johnston Superior court today of "unjustifiably taking the law into their own hands."

W. A. Lyon, private prosecutor, made the accusation in his argument to the jury and added that the defendants "ought to be convicted regardless of their prominence as citizens."

L. Wallace, defense attorney, asserted that the four were within their legal rights in making sure that "ballot boxes did not remain in a position to be tampered with." Acquittal, he said, "will be a verdict for honest elections."

The defendants are E. J. Wellons, Democratic nominee for the State Senate; his law partner, J. R. Poole; J. R. Lynch, Wilders township constable; and Chester Barnes. They are charged with illegally removing ballot boxes used in the June 4 primary from the home of Henry J. Wilders, township poll holder.

Attorneys began their argument this morning and indications were the case would go to the jury late today.

Shortly after court convened the defense moved that the case be dismissed on the grounds that the state had failed to offer sufficient evidence. The motion was declined by Judge Clawson Williams. The judge also overruled a defense demurrer which alleged that the indictment was faulty.

New Headquarters For City Boosters

The Greenville Chamber of Commerce has moved into its new headquarters at 310-B Evans street, and is ready to increase its efforts to boost Greenville and serve the general public.

"Although we have not obtained all of our office equipment and other essentials," declared Willard T. Kyzar, secretary, "we will do our best with present facilities."

Miss Edla Taylor, daughter of Mr. and Mrs. R. R. Taylor of Greenville, has been employed as stenographer for the Chamber of Commerce.

Ups And Downs In Business

Babson Says Current Recovery Sharp and Healthy

"The hot-dog man was hard of hearing, so he had no radio. He had trouble with his eyes, so he read no newspapers. But he sold GOOD hot-dogs. He put up advertising signs. He stood by the side of the road and cried, 'Buy a hot-dog mister? And people bought. He had to increase his meat and bun order. He had to buy a bigger stove to take care of his trade. He finally got his son home from college to help him."

"But then something happened. His son said, 'Father, haven't you been listening to the radio? Haven't you been reading the newspapers? There's a big depression on. The European situation is terrible. The domestic situation is worse. Every-

HUGHES SPANS CONTINENT FOR FLIGHT RECORD

Bests Previous Transport Time by Thirty Minutes

SUCCESSFUL TEST OF OXYGEN MASK

Round-World Flier Races from Los Angeles to New York in 10 Hours, 34 Mins.

New York, Aug. 20.—(AP)—Howard Hughes, round-the-world and transcontinental record holder, hung up another record today, but it was only incidental to a research flight.

Going non-stop from Los Angeles to New York to test a new type of oxygen mask for high altitude flights Hughes in his round-the-world transport type plane crossed the continent in 19 hours, 34 minutes, beating the best previous transport record by almost 30 minutes. He flew at an average altitude of 20,000 feet.

In January, 1937, however, he crossed the continent in seven hours and 28 minutes and 25 seconds in a special racing plane.

D. W. Tomlinson, another research flier, held the previous transcontinental record for transport planes.

Landing at Floyd Bennett airport at 7:55 a. m., Hughes and three companions said the new type oxygen mask held great possibilities for future flights at extremely high altitudes.

"Ultimately," Hughes said, "transport operations will be conducted at altitudes of around 30,000 feet. Our present equipment and engines will not permit regular flights at their height. The point I want to make is this, that as an airplane leaves sea level the man at the controls becomes less efficient."

"A good oxygen mask, permitting the pilot of the transport to breathe oxygen air of the same density as that at sea level is going to do much toward making high altitude flying easy and efficient."

Janitors Meeting Here On Saturday

Supt. D. H. Conley has called a meeting for all janitors of the county school system to be held at the Pitt county court house next Saturday afternoon, August 27, at two o'clock.

He has invited Dr. N. Thomas Ennett, county health officer, and J. H. Moore, Pitt sanitary inspector, to discuss the janitor's part in providing a healthier environment for the teachers and children.

Special emphasis is being placed on the matter of drinking water and good sanitation. There is a close cooperation between the school superintendent and the health officer in an effort to protect the health of school children.

Charges Are Brought After Minor Mishap

Charges were brought against two drivers as an outgrowth of a collision of two motor trucks on the Tenth street extension this morning.

George W. Respass, driving an N. B. and C. Motor Lines truck operating out of Washington, N. C., collided with a Greenville truck operated by Cecil R. Jones of this city.

Jones, who sprained and bruised his left leg in the accident, was charged with operating a motor vehicle without a rear-view mirror. Respass is charged with passing another motor vehicle on an intersection. Corporal L. L. Jackson of the State Highway Patrol, investigated.

New York Swells Go Cockney Dancing The 'Lambeth Walk'

(By The AP Feature Service) The Coster salute. New York—The Lambeth Walk, new London dance sensation, is becoming the rage of New York ballrooms. Prince Serge Obolensky recently brought it from London, where its popularity even the Duke and Duchess of Kent doing its cockney strut.

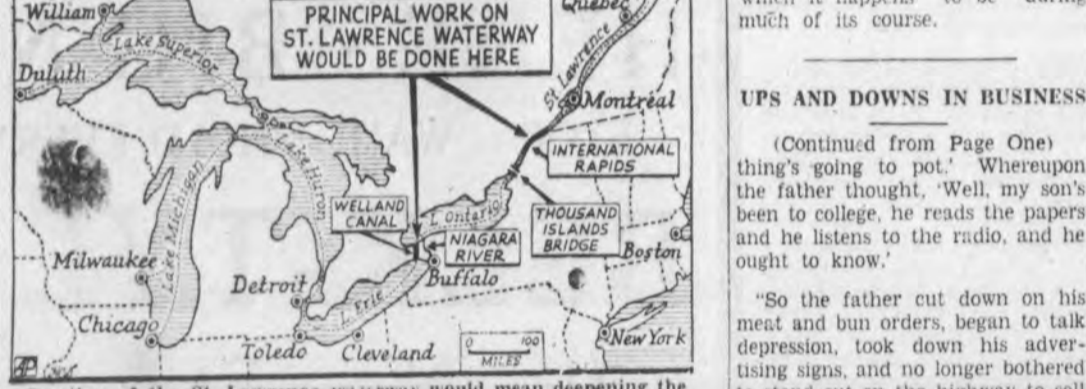

1. Arm in arm, strut eight steps around the floor. 2. Swing your partner (four steps). Then reverse.

3. Repeat No. 1, leave your partner, turn (four steps), slap your legs. 4. Together again, thumbs up, shout "Oi" (that's

What It Means:

Creation of the St. Lawrence waterway would mean deepening the Welland canal and building dams and locks in the International Rapids.

(Continued from page one) of their life-blood—freight—on both sides of the border, and go bankrupt. The United States would be spending money on a river that flows into the sea in Canadian territory. From the Canadian point of view, there's something strange about the United States being so willing to pay the cost of developing the St. Lawrence rapids. Instead, it is proposed that all-American or all-Canadian canals should be built along different routes.

Where It Stands The present state of affairs: President Roosevelt has just proposed to Canada a new treaty to permit the United States to go ahead with a power dam and the deep waterway along the St. Lawrence, allowing Canada until 1949 to complete her part of the system. This assumes Canada is not ready to spend the money, but would approve the scheme now, so the United States could go ahead.

The Characters

Hugo Stern, handsome author, living on the French Riviera. Archie Lumsden, myself, Hugo's friend. René Geiss, a singularly unpleasant cartoonist.

Yesterday: We trail Geiss to a bathing place where we see an American heiress, Otilie Wills, who looks just like Eve Monet.

Chapter 12

THE girl stood in the doorway, looking down the room. She had stripped off her bathing-cap, losing a mass of curling hair as tawny as a ripe chestnut and seen thus the likeness to the dead Eve had lessened considerably.

"Very please, Miss Wills," Charles agreed affably, and as he set the bottles on the counter before her she rolled up her sleeves in a workmanlike manner. She was so near that the soft, creamy stuff brushed by arm, and stepped back a pace to make room for her.

He gave an angry grunt and whipped out his handkerchief and in doing so he flicked from his pocket something which fell with a tinkle on the floor and rolled straight to the feet of the girl.

She had watched the accident with an amused, impersonal little smile, but as she sighted the small brown object the smile faded, giving way to a look of sheer amazement. She stooped, quick as a flash, and snatched it up.

"A Matter of Life and Death" SHE snatched up her big beach bag, rummaged in its interior, and drew out smaller, one of white kid. She felt in this and drew out, with a look of surprise that was almost comical, what might have been the very twin of the coin that lay on the counter.

She looked up at Hugo with a shamefaced smile. "I'm terribly sorry! But you see—there was some excuse. You'd never know it, but that mine is a little bit superior. You see, it has my name engraved on it—one letter on each of the Redskin's feathers, but they're so small you want a microscope to see."

"Otilie Wills," he read out slowly, and then, half to himself: "Yes, you picked up the wrong coin. They're so alike you didn't know your own." He straightened up and deliberately gave her back the coin he held, taking the other and thrusting it into his own pocket.

lay off workers. Gloomy news fills the headlines and the air-waves. From good times, the country is plunged into recession almost overnight.

they can ruin business. Periods of adjustment are necessary to keep business alive. Just as there would be no human race if we did not get indignation when we eat too much, so our present business system would have died long ago if we did not have periods of reaction.

But now the 1937-38 reaction is fast passing. The Babsonchart is only 19 per cent below normal today compared with 28 per cent under normal eight weeks ago. The pain is gone. It is time to stop moaning about it. Start doing business now. Do not delay until conditions are booming, prices sky-high and another reaction just around the corner. Remember, those who wait to get the proof seldom get the profit!

SHORT SHOTS

Raleigh, Aug. 20—Inclusion of North Carolina in the Eastern section rather than the southern, for purposes of locating one of the Department of Agriculture's regional laboratories, will weaken this state's chances of getting the lab chiefly because of the backward state of the dairy industry in Tar Heel. North Carolina likewise is far from strong in the other products on which the program in the eastern section will be concentrated—with one outstanding exception to tobacco.

Thad Eure says the Democratic campaign this fall will open with a rally in Cherokee county. What will you bet on the proposition—will or will not some speaker pull the "Murphy to Manteo" the "Cherokee to Currituck" gag?

A tall glass, a scoop of ice cream, fill up by pouring 7-Up from the bottle on the ice cream. Eat or drink part of it, then use the balance of the bottle. This makes a food and drink "Fresh Up" that simply delights everybody. After drinking this, many people have been loud in their praise of the unusual taste sensation produced by 7-Up on the cream. It seems to make keener your taste, to make the cream taste better and to bring out the dainty flavors of 7-Up. Just try a "7-Up Float." For party refreshments the 7-Up Float delights everybody. It likes everyone and everyone likes a 7-Up Float. Taylor Beverage Company TARBORO, N. C. PHONE 140

Greenies Again Suffer Setback As Billies Win, 6 to 5

LOCALS' RALLY CHASES ZSCHAU

But Gettel Came To Rescue; Doubles By Joyner And Rabb Score Winning Run In Tenth

Greenville will play the Ayden Aces there Monday afternoon to make up for a previously rained out game.

Snow Hill, Aug. 20.—Two former Greenies broke up the ball game in Snow Hill yesterday afternoon. Monk Joyner, ex-manager of the Greenville nine, and Walter Rabb who held down the shortstop post for the Greenies back in semi-pro days, each lashed out doubles in the 10th inning to give the Billies a 6-5 verdict.

The victory gave Snow Hill a sweep of the two-game series and boosted their fourth-place margin over the Greenies to five games.

The Greenies had been crowding Peahead's boys in the battle for the No. 4 spot in the four-club post-season eliminations.

The Billies counted four runs in the second and a singleton in the third, and apparently had the ball game on ice. However, Raymond (Lefty) Zschau, who hurled three-hit ball until the eighth, weakened and was driven to the showers by the Greenies.

Christopher opened Greenville's eighth with a single, and came in on Allen's homer over the left-field fence. Smith singled, and Al Gettel relieved Zschau. King sacrificed, and Douglass walked. Heavenner then came through with a pinch single, but Maisano pegged out Smith. Gettel hit two batters, forcing in another run. Wilson walked and the tying run was forced across. Al then settled down to fan Christopher to end the Greenies' rally.

Rabb, with a double and two singles in five tries, led the locals attack. None of the losers collected more than one hit.

Bill Herring Racks Up Seventeenth Win

Ayden, Aug. 20.—Bill Herring pitched seven-hit ball as Ayden turned back Goldsboro, 4-2, here yesterday. It was Bill's 17th victory against nine losses this season.

Earl Hahn homered in the fourth inning for the Bugs.

Goldsboro tied the score at 2-2 in the sixth, when Mullinax walked and came home on Doigt Morris' triple. The Aces forged ahead in the home half. Gasaway was issued safe on a bunt. Rehkamp's throw to first was wild allowing both runners to move up. Riley's infield out scored Gasaway, and Rodger's tallied on Biershenk's single.

Chances Are Lightning Won't Get You But Don't Go Around Taking Chances

By ALEXANDER R. GEORGE (AP Feature Service Writer)
Washington—It's a 300,000-to-1 shot that you won't be killed by lightning but don't count on these long odds to protect you under all circumstances.

In fact, the electric scythes have been cutting such a spectacular swath of death and injury on bathing beaches and golf courses this summer, the experts on lightning hazards fear the American public is increasingly taking unnecessary chances.

Engineers at the National Bureau of Standards, who make a special study against lightning, say that many people apparently overestimate the margin of safety because of previous immunity in many storms and a realization that the death toll is relatively small.

Reports to the census bureau indicate that from 400 to 500 people are killed every year by lightning. Figuring the ratio of injuries to deaths in regions where the latter is known, the number of persons injured annually is estimated to be about 1,300.

Best Rule: Be Sensible
It isn't necessary to dive under a bed or scramble for a closet during a thunderstorm but it's a good idea to use sensible precautions, say the engineers. Here are some safety tips from the lightning experts:

1. Do not go out-of-doors, or remain out, during a thunderstorm unless it is necessary. This is particularly advisable in rural sections where a person in the open spaces presents a "ground connection" for lightning.
2. If staying out-of-doors is unavoidable, keep away from small sheds and shelters in exposed locations; isolated trees, wire fences, hilltops and open spaces. Seek a cave, a depression in the ground, a ravine or dense wood.

3. If you are on a golf course and see thunderheads approaching, get under cover. If you can't make the clubhouse before the storm hits, lie flat in a low place or take shelter in a grove of trees. Don't stand under an isolated tree or hold a steel club in your hand.

4. Don't stay on a bathing beach or in the water if there is threat of a thunderstorm—a wet body is likely to be a lightning "magnet." If a bathroom shelter is not available, lie flat in a depression in the ground some distance from the water.

5. If inside a building, stay where it is dry, preferably away from fireplaces, stoves or other metallic objects. Don't get too close to a window screen.
6. If there is a choice of shelter, choose in the following order: Large metal or metal frame buildings; buildings which are protected against lightning; large unprotected buildings; small unprotected buildings.

Cases of injury from lightning are rare in large buildings and in dwelling houses of modern construction. They are more frequent in small unprotected buildings of the older type. Isolated school

Resuscitation Work After a Bolt Struck

Bears Devour Serps With 3rd Inning Grab

New Bern, Aug. 20.—A six-run third inning helped New Bern to defeat Tarboro's Serpents here yesterday. The final score was 7-4.

The big inning was at the expense of Pitcher Cassell. Walter Sieminski took over the Tarboro pitching job in the fourth, and hurled one-run ball the rest of the route.

With one out in the Bears' third, Norwood was safe at first on an error. A single by Roth and a walk to Burge loaded the bases. Red Harper cleared them with a long double to left. Burgess then hit a homer over the right-field fence. Mack singled, moved up on an error, and tallied on Anderson's single. Bullpen Berry hurled the route for the Bears.

Score by innings: R H E
Tarboro 010 002 001-4 11 2
New Bern 006 010 00x-7 12 1
Cassell, Sieminski, and Dick, Edington; Berry and Beaman.

TWO CONTESTS CREATE ACTION

Motormen Blank Milk Men; Water & Lite Wins 15-3

Water & Light overpowered the Blount-Harvey softball aggregation yesterday afternoon to the tune of 15-3 in twilight semi-finals play, and Transportation-Nehi blanked Carolina Dairy-Post Office in another contest in the Softball loop.

Present complications show that Water & Light is credited with two wins in pre-final doings and Blount-Harvey has one win. The Transportation-Nehi and Carolina Dairy-Post Office have two wins and as many losses apiece.

If Water & Light takes Monday afternoon's contest they will get in the finals. If they lose this game, another semi-final encounter will have to be played. The winner of Monday's Transportation-Nehi and Carolina Dairy-Post Office game will be in the finals.

Jim Speigler did the hurling for the Water & Light boys yesterday and Barnhill did the catching. Epeigler, along with fine support, turned in a fine hurling performance. Blount-Harvey's Stancill allowed 16 hits in four innings and was replaced by their Barnhill who went the rest of the route. Water & Light men collected 21 safeties as compared with five by Blount-Harvey.

Performing on the mound for the Transportation-Nehi entry was Jackson. His effective pitching enabled his opponents to chalk up only a trio of safeties. Staunton Harvey hurling for the losers, was reached for nine hits.

Dudley with two for three and Wesley Harvey with one for three accounted for the losers' hits. Hales was the only member of the winners to collect more than one safety.

LOCAL AQUATIC ENTRY IN LOSS

Greenville Swimmers Trail Tarboro 108-85 Last Night

Greenville's aquatic hopefuls, underdogs in a competitive swimming meet at the municipal pool last night, trailed the Tarboro record-making tank team 108-85.

In view of the fact that the Tarborians are rated fourth best in the South, falling only 23 points behind, is adjudged to be a fair showing for the local swimmers, who realized their first loss in four starts for the season.

Matching her skill against three boys, Caroline Ferritt, National A. U. champion of Tarboro, was second. The event was a 50-yard back stroke. Fish Ferritt also gained laurels in the men's 200-yard water dash. Her enviable skill clinched honors in the 200-yard free style.

Coach Judson White said today that he was proud of the fine showing displayed by his proteges, and expressed the opinion that they would continue to improve, since the Greenville swimming entries are practically new in tank competition.

A meet is being planned for September 3, in which fifteen participating teams from neighboring towns will stage an exhibition in swimming topnotchery.

It's A Big Family.

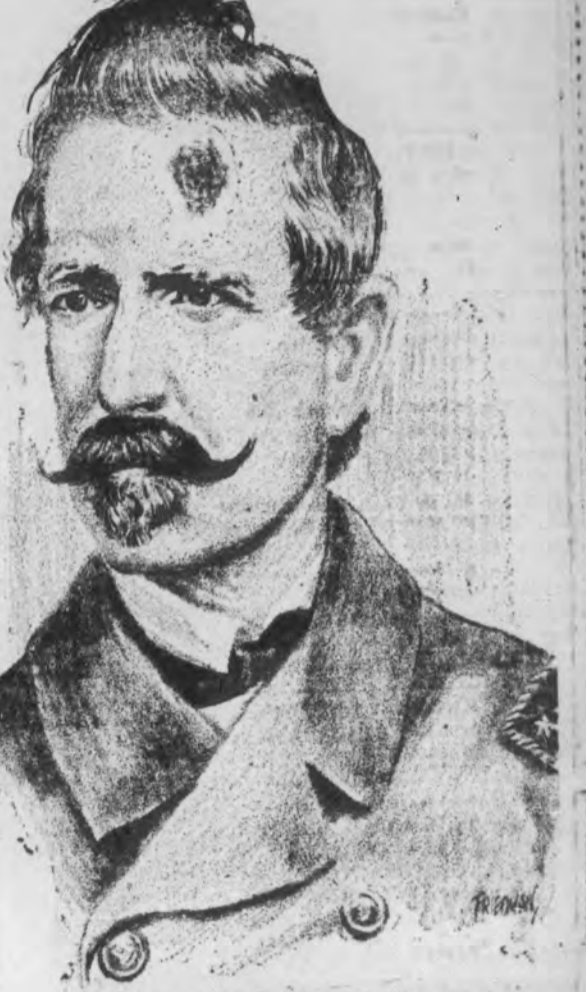

Milwaukee—(AP)—The Verette family of Milwaukee has numbers and weight. All the nine children of the late Mr. and Mrs. John Verette are living, and the lightest, Mrs. Bessie Ward, weighs 185 pounds. Lyle, the lightest man, weighs 201. Martin weighs 245, Cliff 268, Earl 263, Mrs. Edith Helwig 202, Frank 207, Ralph 202, and Floyd 302.

DIXIE HIGHLIGHTS

SWEET COMMERCE FROM OCEAN,

ALMOST SINGLEHANDED RAPHAEL SEMMES, INTREPID SOUTHERNER, SWEPT THE U.S. MERCHANT FLAG FROM THE SEAS!

Yes, the female of the species is more deadly than the male! Here's a specific case. After mating, the female MANTIS, which is quite common in the South, usually grasps Mr. Mantis in those terrible hooks and satisfies her hunger on his body! She doesn't always do this, however. Being feminine, her mind is subject to change without notice and, if fancy strikes, she sometimes lets her husband go only partially devoured! What a wife!

The mighty exploits of ADMIRAL RAPHAEL SEMMES of the Confederacy are written large in the history of naval warfare. Foremost among the few daring southern men who challenged the power of the Federal fleet, Semmes was preeminent

in proving that havoc could be wrought among ships through the aid of steam! In command of the celebrated Sumpter, Semmes eluded pursuit and quickly captured 18 prizes, seven of which were burned. Next, he was placed in command of the Alabama, built in England, and started on one of the most devastating expeditions in the history of war! For 20 months the intrepid Semmes preyed on Federal commerce, making 68 captures, amounting to over 6 1/2 million dollars. On June 19, 1864, he engaged the U. S. Warship Kearsarge off the coast of France, and in the subsequent combat, the famous Alabama was destroyed. Semmes escaped capture and returned to the defense of the South.

ACCORD HALTS CHURCH CRISIS

(Continued from page one)

dispute between Fascism and Catholic Action. The settlement that year permitted Catholic Action to function in Italy, but limited its scope to purely religious and spiritual matters.

Catholic Action has been under attack recently by part of the Fascist press.

Offer Travel Help For County Clinics

Mrs. C. C. Wilkerson, Mrs. Burke Stancill, Mrs. E. L. Henderson and Mrs. J. Key Brown will furnish transportation to certain patients Monday and Tuesday of the ensuing week for the maternal and infant welfare clinics to be held at Pitt General Hospital.

Dr. N. Thomas Ennett, county health officer, said that health departments have expanded their clinic service to poor people to the extent that the departments are becoming to rely more and more upon voluntary service.

It was explained that nurses visit these expectant mothers, and when the patients have no other means of getting to the clinics, the health department, through volunteers, furnishes transportation.

The health officer said he knew no more important work than the service offered by the motor corps. In addition to the transportation volunteers there are other ladies who assist as clerks in the clinics.

IN HOLLYWOOD'S NEW SURPRISE FILM TREAT

Edgar Berger, Andrea Leeds and Adolphe Menjou are co-starred in "Letter of Introduction," opening at the Pitt tomorrow.

QUALITY WEED SEEN FOR BELT

(Continued from page one)

the border belt which opened August 4. No official average of border belt prices have been compiled, but reports from markets indicate growers are receiving about 25 cents a pound.

Floyd said the new crop control program was functioning excellently in North Carolina.

Four State Parks Expected To Open By Summer Of '39

Raleigh, Aug. 20—At least four new State Parks are expected to be opened by the Department of Conservation and Development not later than next summer; while several others are planned for the later future.

When completed the parks will give the state a chain reaching all the way from the top of Mount Mitchell eastward to Cape Hatteras and so situated that no section will be very far distant from a state park.

The four now being rapidly developed and which will probably be completed by next summer are Cape Hatteras, Morrow Mountain, Hanging Rock and Mount Mitchell.

In the Lake Phelps area of Tyrrell and Washington work is going forward on Pettigrew state park which will probably be ready for opening by 1940.

Fort Macon state park has been open to the public for years. It is located across the sound from Morehead City and Beaufort.

The Department believes that when these parks are completed they will be equipped to satisfy almost every recreational desire of either North Carolinians or visitors from other states. Their facilities are designed to augment and supplement those already available in the Great Smoky Mountains National Park and the various national forests along the Blue Ridge Parkway.

Besides the parks named, two more large recreational areas now in process of development by the Farm Security Administration are expected to be turned over to the Department eventually for maintenance and administration. These are the Jones, Salters and Singletary Lake recreational development in Bladen county and the Indian Camp area in the Sandhills near Hoffman in Richmond and Scotland counties. The Crabtree Creek recreational development in Wake is also expected to become a part of the state park system.

SOUTH AFRICA TO SEND RUGBY DIAMONDS TO FAIR

Kimberley, Cap Province—(AP)—This diamond producing region is preparing to dazzle the world with an exhibit at the New York World's Fair next year.

One feature will be a chromium globe on which the continents will be outlined with diamonds.

Visitors to the Yellowstone Park have ridden 85,248 miles on horseback during the 1938 season.

NOTICE OF ADMINISTRATION

The undersigned having duly qualified as administrator C. T. A. of the estate of Ella M. Skinner, deceased, late of Pitt County, North Carolina, this is hereby published to serve notice to creditors of this estate to present their claims to the undersigned on or before December 6, 1938, or this publication will be pleaded in bar of the recovery of such claims.

All persons indebted to this estate are requested to make immediate settlements with the undersigned. This July 26, 1938.

Guaranty Bank & Trust Company, Substituted Administrator C. T. A. of the Estate of Ella M. Skinner, deceased. Substituted for Branch Banking & Trust Company. July 26-1tw-4wk.

REVISION OF LICENSE LAW MAY TRAIL ROAD ACCIDENT

(Continued From Page One)

er's license, consequently no blame can be laid to the Department therefor.

As competent lawyers see it, the only possible section under which the Evans license could have been suspended prior to the tragedy is to be found in Section II of the 1935 act, which provides:

"(a) The Department shall have authority to suspend the license of any operator or chauffeur without preliminary hearing upon a showing by its records or other satisfactory evidence that the licensee: . . . there follows eight sections of which only one could by any possible stretch have been applicable to the Evans license. That is the one numbered 4 reading: "Is incompetent to drive a motor vehicle."

To begin with the section is regarded as the ragged edge of unconstitutionality as vesting judicial powers in an administrative department. Then too, in the instant case there has been no hint that the Department was in possession of "records" or even of "other satisfactory evidence" that Evans was "incompetent to drive a motor vehicle."

It has been suggested that repetition of this case could be prevented by an amendment which would provide for automatic suspension of the driver's license of any person judicially determined to be an habitual drunkard, as Evans had been.

At all events the 1939 legislation will likely be called on to review and perhaps revise the Uniform Driver's License Act.

OLDSTERS TAKE OVER

Chesler, O. (AP)—Chester's new playground for children is doing double duty this summer. When the children's curfew sounds at 9 p. m. each evening, it is the signal for many adults to take over the swings, slides and trapeze equipment in the park.
