

Seeds of Change Education Resources

The following materials were created for the full-day workshop "Teaching With Digitized Primary Sources" held on November 4, 2009 at East Carolina University. The workshop was attended by 25 North Carolina K-12 educators. The materials below cover the use of this particular site in the classroom and developing hands-on activities, lesson plans, and National History Day projects.

Best Practices for the Classroom

Creating a Hands-On Activity

Using the process suggested by the NHD organization, produce topics for NHD projects that incorporate primary source images from the Daily Reflector Image Collection. Work individually to produce two narrowed topics.

Theme: 2010 Innovation in History: Impact and Change

Lesson Activity Template

You will create and develop a problem based activity that you would use in your classroom or as part of the creation of a National History Day project. For either one, you must incorporate the Daily Reflector Image Collection (Seeds of Change). You are to complete this individually.

Determine your presentation category and list the resources you will need to produce your project.

Category:

Resources Needed:

Explain how your project relates to the theme:

Provide your alignment to the NCSCOS:

- Subject
- Grade
- Competency Goal #
- Relevant objectives

If you have time, construct a rubric for evaluating your students work.

Please feel free to add any additional information that you feel is needed for your students.

National History Day Projects

[National History Day Projects from Gretchen Gueguen](#)

This project was partially supported with federal LSTA funds made possible through a grant from the Institute of Museum and Library Services, administered by the State Library of North Carolina, a division of the Department of Cultural Resources.
